Make it Visible!

Use slideshows, posters, social media posts + more to share your action + inspire others!

Start with a small step, and celebrate your victories.

It can feel overwhelming and unachievable to tackle this global problem. Look at what tangible impacts you can make at a local level, and appreciate the power of those small steps- they add up!

Take care of YOURSELF along with the planet.

Take breaks, find support, do what makes you happy to keep your climate work truly sustainable.
