Administrative Bulletin 20-59

101 CMR 349.00: Rates for Early Intervention Program Services

Effective June 16, 2020

Additional Rate Provision Applicable to Early Intervention Program Services Purchased by the Department of Public Health to Compensate for Costs Associated with Coronavirus Disease 2019 (COVID-19)

Purpose and Effective Period

The Executive Office of Health and Human Services (EOHHS) is issuing this administrative bulletin pursuant to the authority of COVID-19 Order No. 20: *Order Authorizing the Executive Office of Health and Human Services to Adjust Essential Provider Rates During the COVID-19 Public Health Emergency* and Executive Order 591: *Declaration of State of Emergency to Respond to COVID-19*. In light of the state of emergency declared in the Commonwealth due to COVID-19, EOHHS is establishing increased rates for the purchase of early intervention services as social service programs purchased by the Department of Public Health (DPH) to address costs associated with COVID-19, and as further described in this administrative bulletin. If a rate is not being updated pursuant to this administrative bulletin, the rate remains at the rate established in the rate regulation at 101 CMR 349.00 or in relevant administrative bulletins.

This administrative bulletin is effective as of June 16, 2020, and contains rates of payment for certain DPH-covered early intervention services effective for dates of service from June 1, 2020, through June 30, 2020.

This administrative bulletin will remain effective for the duration of COVID-19 Order No. 20: *Order Authorizing the Executive Office of Health and Human Services to Adjust Essential Provider Rates During the COVID-19 Public Health Emergency*.

Disclaimer: This administrative bulletin is not authorization for a provider's use of the COVID-19 rates. Governmental units that purchase services with rates established in the regulations listed below are responsible for authorizing and determining the use of these rates.

Background

Providers of social service programs, as defined in M.G.L. Chapter 118E, Section 8A, may be experiencing increased staffing and equipment costs as a result of the COVID-19 public health emergency. EOHHS seeks to promote continued delivery of critical services to its clients through providing financial relief to providers for these additional costs. Accordingly, EOHHS is establishing these rates for services provided under 101

CMR 349.00 to address the increased costs related to COVID-19. Governmental units purchasing services pursuant to rates established in 101 CMR 349.00: Rates for Early Intervention Program Services may utilize the COVID-19 rates to compensate providers that have incurred increased costs associated with COVID-19.

Rates to Address Costs Associated with COVID-19

To support early intervention providers during the COVID-19 emergency, effective for dates of service from June 1, 2020, through June 30, 2020, EOHHS establishes the following rates for certain DPH-covered early intervention services.
