Year	# of crashes
2022	456
2023	555
2024**	420

**Projected

Abington Police Department Mobile Computing Solutions

How are we (Abington Police Department) Better?

Increase availability of technological tools to officer's on the Abington Streets in their efforts to enforce traffic laws and collect data while keeping themselves and roadways safe.

Improve Officer Safety	Streamline data collection	Improve data quality	Improve timeliness of reports	More accessible data
------------------------	----------------------------	----------------------	-------------------------------	----------------------

AGF Overview	
2	Equip all Abington Police Cruisers utilized in traffic enforcement with Mobile Data Terminals (MDT's). No more handwritten citations.
4	Real time and more accurate submission of citations and crash reports.
5	Liaison with RMV to ensure we are properly trained and goals are aligned
8	Better track data related to impaired driving

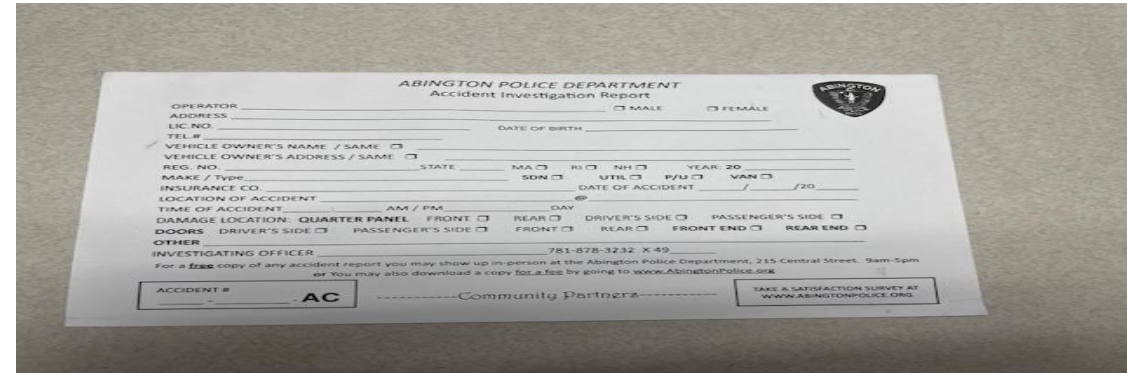

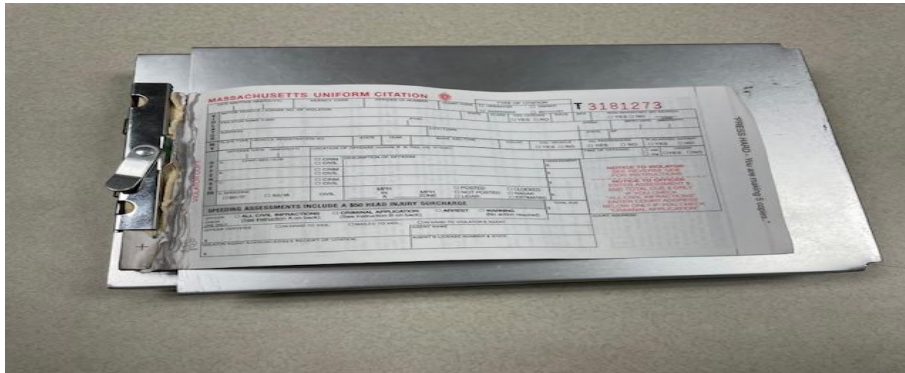

Abington Police Department Mobile Computing Solutions

How are our stakeholders better?

All traffic data is collected and disseminated quicker, more accurately, and uniformly.

Data repositories – RMV, MRB, and Federal Partners

Minimize human error

Quicker access to citizens to pay citation via massrmv.com

Improve data tracking related to impaired driving

Abington Police Department Mobile Computing Solutions

To carry out this project we are looking to purchase 6 mobile data terminals, printers, and installation equipment.
