Within a reasonable time after receipt of such application, the department shall notify such city or town of its approval or rejection thereof, and, in the event of its rejection, of the reasons therefor. If the department rejects such application, the city or town may elect to proceed with such project without the benefit of said urban renewal assistance grant. Notice of approval hereunder shall be accompanied by a statement of the estimated approved cost as determined by the department and an estimate of the amount of urban renewal assistance grant to which such city or town may be entitled under the provisions of section fifty-five.

The final approved cost shall be determined by the department

within a reasonable time after the completion of the urban renewal project by the urban renewal agency.

If the determination of the final approved cost is delayed because the project is not completed, the payments preceding determination of the final approved cost may be based upon the estimated approved cost, and adjustments shall be made in the payment or payments which are made subsequent to the determination of the final approved cost.

Section 55. From time to time, the department shall certify to the comptroller, and the state treasurer shall, within thirty days after each such certification, pay to the several cities and towns, from any amounts appropriated therefor, the amounts due them in accordance with the following clauses:—

(*a*) Certification may be made only of projects with respect to which contracts for federal capital grants under Title I of the Federal Housing Act of 1949, as amended, have been signed.

(*b*) The total urban renewal assistance grant for any approved federally-aided project as defined in clause (*a*) shall not exceed one half of the local share of the contribution required from the municipality under the federal capital grant contract or more than one sixth of the net project cost when the municipality pays for administrative planning and legal expenses as a part of the gross project cost.

(*c*) The total urban renewal assistance grant to be paid under the provisions of this section shall be payable in twenty equal annual installments, except that the department may adjust the annual payment upon final determination of the net cost of each approved project.

(*d*) The total amount of urban renewal assistance grants to be paid under the provisions of this section shall not exceed two million dollars in any one fiscal year or a total of forty million dollars in the aggregate.

Section 56. The commonwealth, acting by and through the department, may contract with the cities and towns of the commonwealth, acting by and through urban renewal agencies to provide financial assistance for residential, commercial or industrial urban renewal projects as authorized by the provisions of this chapter. Such state financial assistance may be provided only for projects which are to be redeveloped for residential, commercial or industrial reuse, and which projects are ineligible for federal capital grants under federal legislation or for which a grant application has been denied. In determining whether a project is rendered ineligible for federal capital-grant assistance, the provisions of federal legislation permitting a limited amount of redevelopment for nonresidential uses need not be considered unless federal funds have been made available under such provisions.

Section 57. The department may make advances of funds to local urban renewal agencies for up to seventy-five per cent of the estimated cost of surveys and plans and administrative expenses in preparation of projects which may be assisted under this section, and contracts for such advances of funds shall be made upon the condition that such advances of funds shall be repaid out of any moneys which

become available to such agency for the undertaking of the project or projects under this section and section fifty-six.

The contracts referred to in section fifty-six shall provide for a state grant-in-aid equal to one half of the net cost of each project as determined by the department. Any such contract shall provide that no state grant-in-aid shall be made until the city or town shall have appropriated the funds required for the entire project cost.

From time to time the department shall certify to the state comptroller, and the state treasurer shall, within thirty days after such certification, pay to the several cities and towns, from any amounts appropriated therefor, the amounts due them in accordance with the provisions of section fifty-six and of the following clauses:—

(*a*) The total state grant-in-aid for any approved project shall not exceed one half of the net cost of project, including advances for surveys, planning and administrative expenses, with respect to which a contract under the provisions of section fifty-six and this section has been signed.

(*b*) The total amount of urban renewal assistance grants to be paid under the provisions of this section shall be payable in twenty equal annual installments, except that the department may adjust the annual payment upon final determination of the net cost of each approved project.

(*c*) The total amount of urban renewal assistance grants to be paid under the provisions of this section shall not exceed one million dollars in any one fiscal year or a total of twenty million dollars in the aggregate, and, within the limits of the maximums herein established, an amount not exceeding two hundred thousand dollars in any one fiscal year may be authorized by the department to be advanced for the estimated cost of surveys, plans and administrative expenses as provided in the first paragraph.

OTHER PROGRAMS.

Section 58. It is hereby declared (*a*) that there exist in certain cities and towns in the commonwealth substandard dwelling houses in urban renewal project areas which constitute a serious and growing menace and create a housing shortage, injurious to the public health, safety, morals and welfare of the residents of the commonwealth, and the declarations heretofore made in this chapter with respect to such areas are hereby reaffirmed; (*b*) that while many of such dwelling houses may require acquisition and clearance as provided in this chapter because their state of deterioration may make impracticable their reclamation by conservation or rehabilitation, others in such areas are in such condition that they may, through the means provided in section fifty-nine, be conserved or rehabilitated in such a manner that the conditions and evils hereinbefore enumerated may be alleviated or eliminated so that such dwelling houses may be returned to or remain in private ownership and be available as decent, safe and sanitary housing; and (*c*) that all powers conferred by said section fifty-nine are for public uses and purposes for which public money may be expended.

Section 59. The commonwealth, acting by and through the department, may enter into a contract or contracts with an operating agency having powers under this section for state financial assistance in the form of a guarantee by the commonwealth of notes and bonds of such agency issued to finance the acquisition and rehabilitation of dwellings within the limits of an urban renewal project area. The guarantee of the commonwealth of such notes and bonds of such agency shall be executed on each note and bond by the commissioner. The amount of notes and bonds guaranteed by the commonwealth under this section shall not exceed twenty million dollars.

In addition to its other powers, an operating agency may plan and undertake the rehabilitation of dwellings within the limits of an urban renewal project area, and may acquire by purchase, deed or grant or take by eminent domain, hold, improve, rent, lease for a period not in excess of five years, with options to lessees or tenants to purchase during such five-year period, grant, sell, convey, as condominiums or otherwise, or deliver possession, of such property in accordance with such terms and conditions as it may determine, and shall have the power to make mortgage loans for the purpose of financing the rehabilitation of dwellings within an urban renewal project area, subject to such regulations as the department may make as to interest rates, maturity dates and other terms and conditions.

A rehabilitation project shall be any work or undertaking involving the rehabilitation of a dwelling or dwellings in an urban renewal project area so as to provide decent, safe and sanitary housing; such work or undertaking may include buildings, land, equipment, facilities and other real or personal property for necessary, convenient or desirable appurtenances, site preparation or improvement.

Whenever the department determines a public emergency or distress no longer exists in a particular city or town, a rehabilitation project, or a part of any such project with the land appurtenant thereto, rehabilitated or reconstructed under this section may, at the direction of the department, be sold for the fair market value thereof, as determined by the department, but not for less than the total of the outstanding obligations of the applicable operating agency with respect to such project if the whole is sold, or not for less than that percentage of the total cost which the cost of the part sold bears to the total cost of the entire project if a part is sold. So long as any notes and bonds issued by the operating agency to finance the cost of such project and guaranteed by the commonwealth are outstanding, the proceeds of any sale of such project shall be paid by the operating agency into the Housing Authority Bonds Sinking Fund and shall be expended from time to time by the state treasurer to pay interest and principal of any notes and bonds issued by such operating agency to finance such project.

Owners of dwellings rehabilitated under this section shall, during the period of five years following the completion of such rehabilitation and in any event during the period any mortgage loan made under this section to finance such rehabilitation is outstanding, and subject to such regulations as the department may establish, give preference in the selection of tenants for such dwellings, first to the individuals

or families in occupancy thereof last prior to such rehabilitation and second to other residents of the city or town in which such dwellings are located; and who are able to pay rents charged other individuals or families for similar or comparable dwellings in the urban renewal project area.

Chap. 774. AN ACT PROVIDING FOR THE CONSTRUCTION OF LOW OR MODERATE INCOME HOUSING IN CITIES AND TOWNS IN WHICH LOCAL RESTRICTIONS HAMPER SUCH CONSTRUCTION.

Be it enacted, etc., as follows:

SECTION 1. Chapter 40B of the General Laws is hereby amended by adding the following four sections under the following caption: — LOW AND MODERATE INCOME HOUSING.

Section 20. The following words, wherever used in this section and in sections twenty-one to twenty-three, inclusive, shall, unless a different meaning clearly appears from the context, have the following meanings:—

"Low or moderate income housing", any housing subsidized by the federal or state government under any program to assist the construction of low or moderate income housing as defined in the applicable federal or state statute, whether built or operated by any public agency or any nonprofit or limited dividend organization.

"Uneconomic", any condition brought about by any single factor or combination of factors to the extent that it makes it impossible for a public agency or nonprofit organization to proceed in building or operating low or moderate income housing without financial loss, or for a limited dividend organization to proceed and still realize a reasonable return in building or operating such housing within the limitations set by the subsidizing agency of government on the size or character of the development or on the amount or nature of the subsidy or on the tenants, rentals and income permissible, and without substantially changing the rent levels and units sizes proposed by the public, nonprofit or limited dividend organizations.

"Consistent with local needs", requirements and regulations shall be considered consistent with local needs if they are reasonable in view of the regional need for low and moderate income housing considered with the number of low income persons in the city or town affected and the need to protect the health or safety of the occupants of the proposed housing or of the residents of the city or town, to promote better site and building design in relation to the surroundings, or to preserve open spaces, and if such requirements and regulations are applied as equally as possible to both subsidized and unsubsidized housing. Requirements or regulations shall be consistent with local needs when imposed by a board of zoning appeals after comprehensive hearing in a city or town where (1) low or moderate income housing exists which is in excess of ten per cent of the housing units reported in the latest decennial census of the city or town or on sites comprising one and one half per cent or more of the total land area zoned for residential, commercial or industrial use or (2) the application before the board would result in the commencement of construction of such housing on sites comprising more than three tenths of one per cent of such land area or ten acres, whichever is larger, in any one calendar year; provided, however, that land area owned by the United States, the commonwealth or any political subdivision thereof, the metropolitan district commission or any public authority shall be excluded from the total land area referred to above when making such determination of consistency with local needs.

"Local Board", any town or city board of survey, board of health, board of subdivision control appeals, planning board, building inspector or the officer or board having supervision of the construction of buildings or the power of enforcing municipal building laws, or city council or board of selectmen.

Section 21. Any public agency or limited dividend or nonprofit organization proposing to build low or moderate income housing may submit to the board of appeals, established under section fourteen of chapter forty A, a single application to build such housing in lieu of separate applications to the applicable local boards. The board of appeals shall forthwith notify each such local board, as applicable, of the filing of

such application by sending a copy thereof to such local boards for their recommendations and shall, within thirty days of the receipt of such application, hold a public hearing on the same. The board of appeals shall request the appearance at said hearing of such representatives of said local boards as are deemed necessary or helpful in making its decision upon such application and shall have the same power to issue permits or approvals as any local board or official who would otherwise act with respect to such application, including but not limited to the power to attach to said permit or approval conditions and requirements with respect to height, site plan, size or shape, or building materials as are consistent with the terms of this section. The board of appeals, in making its decision on said application, shall take into consideration the recommendations of the local boards and shall have the authority to use the testimony of consultants. The provisions of section seventeen of chapter forty A shall apply to all such hearings. The board of appeals shall render a decision, based upon a majority vote of said board, within forty days after the termination of the public hearing and, if favorable to the applicant, shall forthwith issue a comprehensive permit or approval. If said hearing is not convened or a decision is not rendered within the time allowed, unless the time has been extended by mutual agreement between the board and the applicant, the application shall be deemed to have been allowed and the comprehensive permit or approval shall forthwith issue. Any person aggrieved by the issuance of a comprehensive permit or approval may appeal to the court as provided in section twenty-one of chapter forty A.

Section 22. Whenever an application filed under the provisions of section twenty-one is denied, or is granted with such conditions and requirements as to make the building or operation of such housing uneconomic, the applicant shall have the right to appeal to the housing appeals committee in the department of community affairs for a review of the same. Such appeal shall be taken within twenty days after the date of the notice of the decision by the board of appeals by filing with said committee a statement of the prior proceedings and the reasons upon which the appeal is based. The committee shall forthwith notify the board of appeals of the filing of such petition for review and the latter shall, within ten days of the receipt of such notice, transmit a copy of its decision and the reasons therefor to the committee. Such appeal shall be heard by the committee within twenty days after receipt of the applicant's statement. A stenographic record of the proceedings shall be kept and the committee shall render a written decision, based upon a majority vote, stating its findings of fact, its conclusions and the reasons therefor within thirty days after the termination of the hearing, unless such time shall have been extended by mutual agreement between the committee and the applicant. Such decision may be reviewed in the superior court in accordance with the provisions of chapter thirty A.

Section 23. The hearing by the housing appeals committee in the department of community affairs shall be limited to the issue of whether, in the case of the denial of an application, the decision of the board of appeals was reasonable and consistent with local needs and, in the case of an approval of an application with conditions and requirements imposed, whether such conditions and requirements make the construction or operation of such housing uneconomic and whether they are consistent with local needs. If the committee finds, in the case of a

denial, that the decision of the board of appeals was unreasonable and not consistent with local needs, it shall vacate such decision and shall direct the board to issue a comprehensive permit or approval to the applicant. If the committee finds, in the case of an approval with conditions and requirements imposed, that the decision of the board makes the building or operation of such housing uneconomic and is not consistent with local needs, it shall order such board to modify or remove any such condition or requirement so as to make the proposal no longer uneconomic and to issue any necessary permit or approval; provided, however, that the committee shall not issue any order that would permit the building or operation of such housing in accordance with standards less safe than the applicable building and site plan requirements of the federal Housing Administration or the Massachusetts Housing Finance Agency, whichever agency is financially assisting such housing. Decisions or conditions and requirements imposed by a board of appeals that are consistent with local needs shall not be vacated, modified or removed by the committee notwithstanding that such decisions or conditions and requirements have the effect of making the applicant's proposal uneconomic.

The housing appeals committee or the petitioner shall have the power to enforce the orders of the committee at law or in equity in the superior court. The board of appeals shall carry out the order of the hearing appeals committee within thirty days of its entry and, upon failure to do so, the order of said committee shall, for all purposes, be deemed to be the action of said board, unless the petitioner consents to a different decision or order by such board.

SECTION 2. Chapter 23B of the General Laws is hereby amended by inserting after section 5 the following section: —

Section 5A. There shall be within the department a housing appeals committee, consisting of three members to be appointed by the commissioner, of whom one shall be an officer or employee of the department, and two members to be appointed by the governor for terms of one year each, of whom one shall be a member of a board of selectmen and one a member of a city council or similar governing body of a city. The members shall serve for terms of one year each, and the commissioner shall designate the chairman. A member of the committee shall receive no compensation for his services, but shall be reimbursed by the commonwealth for all reasonable expenses actually and necessarily incurred in the performance of his official duties. Said committee shall hear all petitions for review filed under section twenty-two of chapter forty B, and shall conduct said hearings in accordance with rules and regulations established by the commissioner.

The department shall provide such space and clerical and other assistance as the committee may require.

SECTION 3. The provisions of this act are severable and, if any provision shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions. *Approved August 23, 1969.*

The licensing authority may revoke or suspend a license to sell ammunition for violation of any provision of this chapter.

The commissioner of public safety may establish such rules and regulations as he may deem necessary to carry out the provisions of this section.

Any person refused a license under this section or once issued a license under this section has had said license suspended or revoked may obtain a judicial review of such refusal, suspension or revocation by filing within thirty days of such refusal, suspension or revocation a petition for review thereof in the district court having jurisdiction in the city or town in which the applicant filed for such license, and a justice of said court, after a hearing, may direct that a license be issued the applicant if satisfied there was no reasonable ground for refusing such license and that the applicant was not prohibited by law from holding the same.

The licensing authority may not prescribe any other condition for the issuance of a card and it shall within thirty days from the date of application either approve the application and issue the card or deny the application and notify the applicant of the reason for such denial in writing. Pending issuance of the card, a receipt for the fee paid shall, after five days from issuance, serve as a valid substitute, unless the applicant is disqualified. Written notice of denial of the application shall void the receipt and require its immediate surrender. A card may be revoked by the licensing authority or his delegate or suspended for such period as he may set, only upon the occurrence of any event which would have disqualified the holder from being issued the card. Any suspension or revocation of a card shall be in writing and shall state the reason therefor. Upon revocation or suspension, the licensing authority shall take possession of said card and receipt for fee paid for such card.

Any applicant or holder aggrieved by a denial, revocation or suspension of a card may within ninety days after receipt of notice appeal to the district court for a review of such action.

Said card shall be in a form prescribed by the commissioner and shall contain an identification number, the name and address of the holder, his place and date of birth, his height, weight, and hair and eye color, and his signature and shall be captioned "Firearm Identification Card". The application for a card shall be made in multiple on a form prescribed by the commissioner which shall require the applicant affirmatively to state that he is not disqualified for any of the foregoing reasons from possession of a card.

Said card shall be valid for five years; provided, that the licensing authority may renew such card on the anniversary of the applicant's date of birth occurring not less than four years but not more than five years from the date of original issue, and shall be subject to automatic renewal upon application and affirmative statement, without investigation, unless the licensing authority has reason to believe that the status of the applicant has changed since the previous application. The fee for an application and card, or for renewal of a card, shall be two dollars, which shall be payable to the licensing authority and shall not be prorated or refunded in case of revocation or denial.

Upon receipt of an application for a card, the licensing authority shall forward a copy of such application to the commissioner of public safety, who shall within twenty-one days advise in writing of any disqualifying criminal record, if any, of the applicant and whether there is reason to believe that the applicant is disqualified for any of the foregoing reasons from possessing a card. The licensing authority may make inquiries concerning the applicant to the department of mental health for the purpose of determining eligibility for the firearm identification card and shall receive prompt and full cooperation from such department for that purpose in any investigation of an applicant.

shotgun under the provisions of this section; provisions providing for the possession or usage of such are set forth in sections twelve A and twelve B of chapter two hundred and sixty-nine.

Nothing in this section shall permit the sale of rifles or shotguns or ammunition therefor to a minor under the age of eighteen in violation of section one hundred and thirty nor may any firearm be sold to a minor nor to any person who is not licensed to carry firearms under section one hundred and thirty-one unless he presents a valid firearm identification card and a permit to purchase issued under section one hundred and thirty-one A, or presents such permit to purchase and is a properly documented exempt person as hereinbefore described.

Neither the provisions of section one hundred and twenty-nine C nor the possession of a firearm identification card issued under section one hundred and twenty-nine B shall entitle any person to carry a firearm in violation of section ten of chapter two hundred and sixty-nine.

Any person who, while not being within the limits of his own property or residence, or such person whose property or residence is under lawful search, and who is not exempt under this section, shall on demand of a police officer or other law enforcement officer exhibit his license to carry firearms, or his firearm identification card or receipt for fee paid for such card, or, after January first, nineteen hundred and seventy, exhibit a valid hunting license issued to him which shall bear the number officially inscribed of such license to carry or card if any. Upon failure to do so such person may be required to surrender to such officer said firearm, rifle or shotgun which shall be taken into custody as under the provisions of section one hundred and twenty-nine D, except that such firearm, rifle or shotgun shall be returned forthwith upon presentation within thirty days of said license to carry firearms, firearm identification card or receipt for fee paid for such card or hunting license as hereinbefore described. Any person subject to the conditions of this paragraph may, even though no firearm, rifle or shotgun was surrendered, be required to produce within thirty days said license to carry firearms, firearm identification card or receipt for fee paid for such card, or said hunting license, failing which the conditions of section one hundred and twenty-nine D will apply. Nothing in this section shall prevent any person from being prosecuted for any violation of this chapter.

SECTION 9. Said chapter 140 is hereby further amended by striking out section 129D, as so inserted, and inserting in place thereof the following section:—

Section 129D. Upon revocation, suspension or denial of an application for a firearm identification card pursuant to the conditions of section one hundred and twenty-nine B, or of any firearms license if said firearms identification card is not then in force, the person whose application was so revoked, suspended or denied shall without delay deliver or surrender, to the licensing authority where he resides, all firearms, rifles and shotguns which he then possesses unless an appeal is pending. Such person, or his legal representative, shall have the right, at any time up to one year after said delivery or surrender, to transfer such firearms, rifles and shotguns to any licensed dealer or

any other person legally permitted to purchase or take possession of such firearms, rifles and shotguns and upon notification in writing by the purchaser or transferee and the former owner, the licensing authority shall within ten days deliver such firearms, rifles and shotguns to the transferee or purchaser and due care shall be observed by the licensing authority in the receipt and holding of any such firearm, rifle or shotgun.

Firearms, rifles or shotguns not disposed of after delivery or surrendered according to the provisions of this section shall be sold at public auction by the commissioner to the highest bidding person legally permitted to purchase and possess said firearms, rifles or shotguns and the proceeds shall be remitted to the state treasurer.

The commissioner may make and promulgate such rules and regulations as are necessary to carry out the provisions of this section.

SECTION 10. Said chapter 140 is hereby further amended by striking out section 130, as most recently amended by section 8 of said chapter 737, and inserting in place thereof the following section:—

Whoever sells or furnishes a firearm or machine gun or ammunition therefor to any alien or to a minor or whoever sells or furnishes a rifle or shotgun or ammunition therefor to an alien who does not hold a permit card issued to him under section one hundred and thirty-one H, or to a minor eighteen years of age or older, except to such minor who being eighteen years of age or older displays either a license to carry firearms or a firearms identification card, and a sporting or hunting license issued to him in the case of ammunition, or displays such license to carry, or firearm identification card together with said sporting or hunting license, and the written consent of his parent or guardian that a rifle or shotgun be sold to him or furnished to him in the case of a rifle or shotgun, or to a minor under eighteen years of age, shall be punished by a fine of not less than one hundred or more than five hundred dollars. Nothing in this section or section one hundred and thirty-one E shall be construed to prohibit a parent or guardian from allowing his child or ward, who has not attained age fifteen, the supervised use of a rifle or shotgun or ammunition therefor, according to the provisions of section one hundred and twenty-nine C nor from furnishing his child or ward, who has attained age fifteen, with a rifle or shotgun or ammunition therefor, provided said child or ward, being fifteen years of age or older, has a valid firearm identification card, issued to him, nor shall it be construed as prohibiting an instructor from furnishing rifles or shotguns or ammunition therefor to pupils, provided said instructor has the consent of the parent or guardian of the minor.

residing or having a place of business within their respective jurisdiction, except an alien, a person who has been convicted of a felony or of the unlawful use, possession or sale of narcotic or harmful drugs or a minor under the age of eighteen, issue a license to such applicant to carry firearms in the commonwealth or to possess and carry therein a machine gun, if it appears that he is a suitable person to be so licensed, and that he has good reason to fear injury to his person or property, or for any other proper purpose, including the carrying of firearms for use in target practice only; provided, however, that no minor shall be issued a license to possess and carry a machine gun.

SECTION 12. Section 131E of said chapter 140, as amended by section 9 of chapter 737 of the acts of 1968, is hereby further amended by striking out the first two sentences and inserting in place thereof the following two sentences:—Any resident of the commonwealth except a minor may purchase firearms, rifles and shotguns from any dealer licensed under section one hundred and twenty-two, or from such person as shall be qualified under section one hundred and twenty-eight A, or ammunition therefor from a licensee under section one hundred and twenty-two B, upon presentation of a valid license to carry firearms issued to him under the provisions of section one hundred and thirty-one, or a permit to purchase issued to him under section one hundred and thirty-one A together with a firearm identification card issued to him under the provisions of section one hundred and twenty-nine B, or said permit to purchase together with proof of exempt status under the provisions of section one hundred and twenty-nine C, in the case of a firearm, or in the case of a rifle or shotgun, said license to carry or said firearm identification card or said proof of exempt status, except that no rifle, shotgun or ammunition therefor shall be sold to any minor under eighteen years of age nor to any minor eighteen years of age or older unless such minor displays a license to carry firearms or a firearm identification card issued to him, a hunting or sporting license issued to him, and the written consent of his parent or guardian to purchase a particular rifle or shotgun, except, however, that said written consent shall not be required for purchase of ammunition only. Any person who uses said license to carry firearms or firearm identification card for the purpose of purchasing a firearm, rifle or shotgun for the unlawful use of another, or for resale to or giving to an unlicensed person, shall be punished by a fine of not less than fifty nor more than five hundred dollars, or by imprisonment for not less than six months nor more than two years in a jail or house of correction, or by both such fine and imprisonment.

SECTION 12A. Section 131F of said chapter 140 is hereby amended by adding the following paragraph:—

A license, otherwise in accordance with provisions of this section, may be issued to a nonresident employee, whose application is endorsed by his employer, of a federally licensed Massachusetts manufacturer of machine guns to possess within the commonwealth a machine gun for the purpose of transporting or testing relative to the manufacture of machine guns, and the license shall be marked "temporary license to possess a machine gun" and may be issued for any term not to exceed two years and shall expire in accordance with the provisions of section one hundred and thirty-one.

The commissioner of public safety may, after an investigation, issue a permit to an alien to own or have in his possession or under his control a rifle or shotgun; subject to such terms and conditions as said commissioner may deem proper. The fee for such permit shall be two dollars and twenty-five cents. Upon issuing such permit said commissioner shall so notify, in writing, the chief of police or the board or officer having control of the police in the city or town in which such alien resides. Each such permit card shall expire at twelve midnight on December thirty-first next succeeding the effective date of said permit, and shall be revocable for cause by said commissioner. No licensed dealer shall order for delivery, cause to be delivered, offer for sale or sell within the commonwealth any newly manufactured firearm, rifle or shotgun received directly from a manufacturer, wholesaler or distributor not so inscribed with a serial number nor shall any licensed manufacturer or distributor of firearms, rifles or shotguns deliver or cause to be delivered within the commonwealth any firearm, rifle or shotgun not complying with this section.

Chap. 800. AN ACT TO ESTABLISH A PROGRAM OF MEDICAL CARE AND ASSISTANCE FOR CERTAIN RESIDENTS OF THE COMMONWEALTH.

Be it enacted, etc., as follows:

SECTION 1. The General Laws are hereby amended by inserting after chapter 118D the following new chapter: –

CHAPTER 118E.

MEDICAL CARE AND ASSISTANCE.

Section 1. There is hereby established, pursuant to and in conformity with the provisions of Title XIX of the Social Security Act (P.L. 89–97), a program of medical care and assistance for certain residents of the commonwealth.

The benefits of the program shall be available to all persons eligible for financial assistance under the provisions of chapters one hundred and eighteen, one hundred and eighteen A and one hundred and eighteen D; to all others who would be eligible for financial assistance under the same chapters, provided they meet the requirements of financial eligibility under the program hereinafter set forth, to all persons under twenty-one years of age whose income and resources are insufficient to meet the costs of their medical care as determined by the financial eligibility requirements of said program, and to the spouse of a recipient of assistance under chapter one hundred and eighteen A or one hundred and eighteen D who is living with and essential to the well-being of said

recipient and whose needs are taken into account in determining the amount of assistance provided said recipients; provided, however, that said benefits shall also be available to the blind and shall continue to be administered by the commission on the blind in accordance with the provisions of section one hundred and twenty-nine of chapter six.

Confinement of a person in any nursing home, hospital, or other medical institution in the commonwealth shall not, in and of itself, be sufficient evidence to qualify such person as a resident under this chapter.

(*d*) "Institution", any licensed hospital, any licensed nursing home, or any public medical institution which meets the requirements of the Secretary.

(*e*) "Public medical institution", any medical institution supported in whole or in part by public funds, either federal, state or municipal staffed by professional, medical and nursing personnel and providing medical care, in accordance with standards established through licensing or approval by the department of public health.

The state treasurer shall be the custodian of such funds allocated to the commonwealth.

Section 4. In administering the program the department shall formulate such methods, policies, procedures, standards and criteria, except medical standards and criteria, as may be necessary for the proper and efficient operation of the plan in a manner consistent with simplicity of administration and the best interests of the recipients.

The department may take such further action, consistent with law and within the limits of available funds appropriated for the purposes of this chapter, as may be necessary for carrying out the purposes of this program in conformity with all requirements governing the allowance

of federal grants-in-aid to the commonwealth under said Title XIX, including said provisions relative to notice and reimbursement, a uniform system of records and accounts to be kept by the welfare service offices and the manner and form of making reports to the department.

The department may adopt, promulgate, amend and rescind rules and regulations suitable or necessary to carry out the provisions of this chapter and said Title XIX and any amendments thereto, and as interpreted from time to time by the Secretary.

The department shall make such reports as may be required by the Secretary.

Section 5. The department shall furnish medical assistance to each eligible person residing in the commonwealth whose income and resources are insufficient to meet the costs of necessary medical services. Payment shall be made to the person or institution supplying medical services. Upon receipt of any application for medical assistance related to chapter one hundred and eighteen D, each medical report form and social history shall be reviewed by the department's medical review team which shall be responsible for the department's decision that the applicant does or does not meet the department's definition of permanent and total disability.

Section 6. The department shall provide financial assistance for the following care and services: —

(1) inpatient hospital services, other than services in an institution for tuberculosis or mental diseases;

(2) outpatient hospital services;

(3) other laboratory and x-ray services;

(4) skilled nursing home services for individuals twenty-one years of age or over, other than services in an institution for tuberculosis or mental diseases; and periodic screening and diagnosis of individuals who are eligible under the plan and are under the age of twenty-one to ascertain their physical or mental defects, and such health care, treatment and other measures to correct or ameliorate defects and chronic conditions discovered thereby, as may be provided in regulations of the Department of Health, Education and Welfare;

(7) home health care services;

(8) private duty nursing services;

(9) clinical services;

(10) dental services;

(11) physical therapy and related services;

(12) prescribed drugs, dentures and prosthetic devices, and eyeglasses prescribed by a physician skilled in the diseases of the eye or by an optometrist, whichever the individual may select;

(13) other diagnostic, screening, preventive and rehabilitative services;

(15) any other care recognized under the laws of the commonwealth, including ambulance services, oxygen, podiatry, and whole blood;

(16) transportation to obtain medical care.

The amount, duration and scope of the aforesaid care and services shall be determined by the rules and regulations of the department, provided said rules and regulations are consistent with the provisions of this chapter and with said Title XIX, and any regulations adopted thereunder by the secretary.

Section 7. The department shall establish methods of approving services to be performed as a prerequisite to extending medical assistance. Said methods of prior approval shall include, but need not be limited to: (1) in the case of restorative dentistry, or dentures, examination of proposed recipients or of diagnostic information regarding proposed recipients by dental consultants of the department; (2) in the case of orthodontic services, procedures which assure that medical assistance will be provided only for severe, handicapping malocclusions; (3) in the case of transportation to obtain medical care, a statement from the attending physician certifying that such transportation is necessary due to a physical disability; and (4) procedures for any services for which prior approval was required under the regulations of the department as of July first, nineteen hundred and sixty-nine.

The department shall establish methods of random posttreatment examination of recipients of medical care or services under this chapter in order to assure that the care or services for which the department is billed were actually performed as described.

Section 8. An application or reapplication by an individual for medical assistance shall be made to the department on forms prepared by the department. Such forms shall include but not be limited to the following: — the name, address and social security number of the applicant and the name, address and social security number of any member of the family sixteen years of age and older, the total income from wages, salaries, pensions, fees, tips, bonuses and all other sources of income of all such persons, the ownership and description of any motor vehicle or boat, or trailer, or similar assets readily convertible into cash owned by any member of the family. Such form shall require that the applicant provide information to determine his eligibility for medical assistance under penalty of perjury.

An institution furnishing medical assistance under this chapter shall have the right to make such application on behalf of an individual, or to intervene if such application is made, and in either event shall be entitled to notice, hearing and appeal in the same manner as an applicant. Nothing herein contained, however, shall be construed to grant to such institution any rights which supersede the rights of an applicant.

Section 9. Upon receipt of such application the department shall make full inquiry concerning the eligibility of the applicant, his need for medical assistance and his resources and income, if any, and, promptly and within thirty days after receipt of such application, shall make its decision, which shall be entered into its records. At the time of such initial decision and in the event of any subsequent decision, the applicant or recipient shall be notified in writing of such decision and shall be informed of the reason therefor and of his right to appeal and of the method by which he may appeal under this chapter.

Section 10. The following income and resources shall be exempt and shall neither be taken into consideration nor required to be applied

toward the payment or part payment of the cost of medical assistance available under this chapter: —

(1) monthly income in an amount of one hundred and eighty dollars for an individual applicant or recipient, plus an additional monthly income of fifty-six dollars for each additional family member in the home of the applicant or recipient, except that in no event shall such income exemption exceed that required or permitted under said Title XIX;

(2) ownership of one's residence, including furniture, which is essential and appropriate to the needs of the household;

(3) personal property up to a sum of two thousand dollars for one person, three thousand dollars for two persons and one hundred dollars for each additional dependent member of the family. For the purposes of this chapter, personal property is defined as cash on hand, bank deposits, securities, cash surrender value of insurance policies, automobiles, boats or other similar assets readily convertible into cash;

(4) health insurance premiums;

(5) taxes, social security payments or, in the absence thereof, mandatory payments to a retirement system, union dues, and other reasonable and usual costs of earning wages as approved by the department; provided, however, that the latter shall be no greater than two dollars and fifty cents per week or eleven dollars per month;

(6) payments made pursuant to a court order for support of dependents.

Notwithstanding a wage earner's failure to claim all allowable dependents for withholding tax purposes the department shall compute his net income for the purposes of determining eligibility, by determining the amount that actually would have been withheld if said wage earner had claimed all such allowable dependents.

Voluntary deductions shall be included in determining net income.

In any case where the monthly income of a recipient or beneficiary is in excess of the exemptions allowed, the recipient or beneficiary shall be liable to pay to the provider of medical care or service an amount which shall be equal to the excess income for a period of six consecutive months, which includes the period when such service was provided.

In determining responsibility of any individual for any applicant or recipient of assistance under this chapter, such responsibility shall be limited to husband for wife and parents for children under the age of twenty-one.

Section 11. The department shall issue a numbered identification card to persons receiving benefits under this chapter. Such card shall bear the date of issue and shall be presented to providers as verification of eligibility for services. The department shall establish by rules and regulations such procedures as may be necessary for the purpose of recalling identification on termination of eligibility.

Section 12. If an individual has become eligible under this chapter, eligibility shall be reconsidered or redetermined: —

(*a*) When required on the basis of information the department has obtained previously about anticipated changes in the individual's situation.

(*b*) Promptly within thirty days, after a report is obtained from any source which indicates that changes in the individual's circumstances

may affect the amount of assistance to which he is entitled or may make him ineligible.

(*c*) Periodically, but at least once in every six months.

(*d*) If any recipient shall by gift, inheritance or other manner acquire additional assets during any twelve month interval following determination of his eligibility, he shall immediately report such acquisition to the department which shall immediately make a reevaluation of such recipient's eligibility.

Section 13. Medical assistance shall not be granted to an applicant who, at any time within one year, immediately prior to the filing of an application for medical assistance, has made an assignment or transfer of personal property for the purpose of rendering himself eligible for such assistance.

Section 14. When an application is approved such medical assistance shall be furnished or paid for from the date of the application or, subject to the rules and regulations of the department, for a ninety day period prior to the date of such application. In no event, however, shall such payment be made with respect to any period, prior to the date of application which would be disallowed by rules or regulations of the Secretary. To the extent allowed by such rules or regulations of the Secretary, payment for such medical assistance rendered shall be made, to the extent otherwise permitted, where an applicant dies before approval of his application.

Section 15. In the cases of those children for whom the department has responsibility under and in accordance with chapter one hundred and nineteen and who are otherwise eligible therefor as determined by the department, medical assistance under this program shall be provided and paid for by the department.

Section 16. There shall be no adjustment or recovery of medical assistance correctly paid, except from the estate of an individual who was sixty-five years of age or older when he received such assistance, and then only after the death of his surviving spouse, if any, and only at a time when he has no surviving child who is under age twenty-one or is blind or permanently and totally disabled.

In no event shall any action to recover be brought except with the written approval of the department. Proceeds realized through any such action shall be apportioned between the federal government and the commonwealth in proportion to the amount of their respective contributions thereto, but in no case for more than the amount contributed, without interest.

Section 17. No lien or encumbrance of any kind except as may be permitted by the Secretary, shall be required from or imposed against the property of any individual prior to his death because of medical assistance paid or to be paid on his behalf except pursuant to the judgment of a court on account of benefits incorrectly paid on behalf of a recipient.

If medical care and services are provided under this chapter and arises out of injury, disease or disability for which a third party may be liable, the department shall require the person receiving such medical care and services to provide for the assignment to the commonwealth of the amounts so expended from the proceeds of any such claim against the third party.

Section 18. Participation in the program shall be limited to providers of services who:

(1) indicate their intention to the department to so participate;

(2) present evidence, satisfactory to the department, of their qualifications to provide such services;

(3) agree to accept, as payment in full, the amounts paid in accordance with the fee schedules provided for under this chapter; and

(4) agree to comply with all laws, rules and regulations governing the operation of the program.

Section 19. The department shall distribute to all providers a copy of the rules, regulations, standards and laws governing the medical assistance program established by this chapter and shall establish administrative sanctions against providers, including suspension from the program for a period not exceeding three years, for any violations of said rules, regulations, standards or laws. Section 4. Whenever the attorney general has reason to believe that any person is using or is about to use any method, act or practice declared by section two to be unlawful, and that proceedings would be in the public interest, he may, upon notice given in accordance with this section, bring an action in the name of the commonwealth against such person to restrain by temporary or permanent injunction the use of such method, act or practice. The action may be brought in the superior court of the county in which such person resides or has his principal place of business, or the action may be brought in the superior court of Suffolk county with the consent of the parties or if the person has no place of business within the commonwealth. Said court may issue temporary or permanent injunctions and make such other orders or judgments as may be necessary to restore to any person who has suffered any ascertainable loss by reason of the use or employment of such unlawful method, act or practice any moneys or property, real or personal, which may have been acquired by means of such method, act or practice; provided, however, that no such temporary or permanent injunction or other order shall issue except upon notice and an opportunity to be heard.

At least ten days prior to the commencement of any action brought under this section, the attorney general shall notify the person of his intended action, and give the person an opportunity to confer with the attorney general in person or by counsel or other representative as to the proposed action. Such notice shall be given the person by mail, postage prepaid, to his usual place of business, or, if he has no usual place of business, to his last known address.

Section 5. In any case where the attorney general has authority to institute an action or proceeding under section four, in lieu thereof he may accept an assurance of discontinuance of any method, act or practice in violation of this chapter from any person alleged to be engaged or to have been engaged in such method, act or practice. Such assurance may, among other terms, include a stipulation for the voluntary payment by such person of the costs of investigation, or of an amount to be held in escrow pending the outcome of an action or as restitution to aggrieved buyers, or both. Any such assurance of discontinuance shall be in writing and be filed with the superior court of Suffolk county. Matters thus closed may at any time be reopened by the attorney general for further proceedings in the public interest. Evidence of a violation of such assurance shall be prima facie evidence of a violation of section two in any subsequent proceeding brought by the attorney general.

Section 6. (1) The attorney general, whenever he believes a person has engaged in or is engaging in any method, act or practice declared to be unlawful by this chapter, may conduct an investigation to ascertain whether in fact such person has engaged in or is engaging in such method, act or practice. Such testimony and examination shall take place in the county where such person resides or has a place of business or, if the parties consent or such person is a nonresident or has no place of business within the commonwealth, in Suffolk county.

(2) Notice of the time, place and cause of such taking of testimony, examination or attendance shall be given by the attorney general at least ten days prior to the date of such taking of testimony or examination.

(3) Service of any such notice may be made by (*a*) delivering a duly executed copy thereof to the person to be served or to a partner or to any officer or agent authorized by appointment or by law to receive service of process on behalf of such person; (*b*) delivering a duly executed copy thereof to the principal place of business in the commonwealth of the person to be served; or (*c*) mailing by registered or certified mail a duly executed copy thereof addressed to the person to be served at the principal place of business in the commonwealth or, if said person has no place of business in the commonwealth, to his principal office or place of business.

(4) Each such notice shall (*a*) state the time and place for the taking of testimony or the examination and the name and address of each person to be examined, if known, and, if the name is not known, a general description sufficient to identify him or the particular class or group to which he belongs; (*b*) state the statute and section thereof, the alleged violation of which is under investigation and the general subject matter of the investigation; (*c*) describe the class or classes of documentary

material to be produced thereunder with reasonable specificity, so as fairly to indicate the material demanded; (*d*) prescribe a return date within which the documentary material is to be produced; and (*e*) identify the members of the attorney general's staff to whom such documentary material is to be made available for inspection and copying.

(5) No such notice shall contain any requirement which would be unreasonable or improper if contained in a subpoena duces tecum issued by a court of the commonwealth; or require the disclosure of any documentary material which would be privileged, or which contains trade secret information, or which for any other reason would not be required by a subpoena duces tecum issued by a court of the commonwealth.

(6) Any documentary material or other information produced by any person pursuant to this section shall not, unless otherwise ordered by a court of the commonwealth for good cause shown, be disclosed to any person other than the authorized agent or representative of the attorney general, unless with the consent of the person producing the same.

(7) At any time prior to the date specified in the notice, or within twenty-one days after the notice has been served, whichever period is shorter, the court may, upon motion for good cause shown, extend such reporting date or modify or set aside such demand. The motion may be filed in the superior court of the county in which the person served resides or has his usual place of business, or in Suffolk county. This section shall not be applicable to any criminal proceeding nor shall information obtained under the authority of this section be admissible in evidence in any criminal prosecution for substantially identical transactions.

Section 7. A person upon whom a notice is served pursuant to the provisions of section six shall comply with the terms thereof unless otherwise provided by the order of a court of the commonwealth. Any person who fails to appear, or with intent to avoid, evade, or prevent compliance, in whole or in part, with any civil investigation under this chapter, removes from any place, conceals, withholds, or destroys, mutilates, alters, or by any other means falsifies any documentary material in the possession, custody or control of any person subject to any such notice, or knowingly conceals any relevant information, shall be assessed a civil penalty of not more than five thousand dollars.

The attorney general may file in the superior court of the county in which such person resides or has his principal place of business, or of Suffolk county if such person is a nonresident or has no principal place of business in the commonwealth, and serve upon such person, in the same manner as provided in section six, a petition for an order of such court for the enforcement of this section and section six. There shall be an annual reimbursement in lieu of taxes upon the value of any land held by the department for use as a solid waste disposal facility under this chapter to the city or town in which such land is located. The amount of said reimbursement shall be determined in accordance with sections thirteen through seventeen B of chapter fifty-eight.

The department of youth services shall make inspection at least annually of police stations or town lockups wherein children are detained. If no such approved detention facilities exist in any city or town, such city or town may contract with an adjacent city or town for the use of approved detention facilities in order to prevent children who are detained from coming in contact with adult prisoners. Nothing in this section shall permit a child between fourteen and seventeen years of age being detained in a jail or house of correction. SECTION 18. Said chapter 119 is hereby further amended by striking out section 68, as most recently amended by chapter 269 of the acts of 1956, and inserting in place thereof the following section: —

be made by adjudication or otherwise, unless, in the opinion of the court, and subject to the provisions of this section, the interest of the child and the public otherwise require. If the opinion of the court is that the case should be further continued and the child committed to the department of youth services pending such further continuance, then the commitment pending such further continuance may in no event be ordered for a period which, when added to all prior commitments of the child under this section for the preceding six months, shall exceed thirty days, and the final disposition shall take place at the expiration of such continuance as herein provided, except in those cases where a child or youth is held in detention on default of bail on appeal to the superior court or in those cases where the court, in whose jurisdiction the case originates, makes a written finding of fact that such continuance is in the best interest of the child and the public.

The provisions of section twenty-four of chapter two hundred and twelve, relative to the precedence of cases of persons actually confined in prison and awaiting trial, shall apply to children held in detention facilities of the department of youth services under this section to prosecute appeals to the superior court, or held for indictment and trial under the provisions of sections seventy-three to eighty-three, inclusive.

Said probation officer shall have the same authority, rights and powers in relation to a child committed to his care under this section, and in relation to a child released to him as provided in section sixty-seven, as he would have if he were surety on the recognizance of such child.

SECTION 19. Said chapter 119 is hereby further amended by striking out section 68A, inserted by section 3 of chapter 609 of the acts of 1955, and inserting in place thereof the following section: —

Section 68A. A child between seven and seventeen years of age, held by the court for further examination, trial or continuance, or for indictment and trial under the provisions of sections seventy-three to eighty-three, inclusive, or to prosecute an appeal to the superior court, may at the discretion of the court be referred to the department of youth services, any court clinic, or the department of mental health, with its consent, and with the consent of the parents or guardian, for diagnostic study on an inpatient or outpatient basis; and, upon completion of such study, the department of youth services, court clinic or department of mental health, as the case may be, shall forward a report and recommendations to the court. In default of bail, any such child may be committed by the court to the department of youth services for a period not to exceed thirty days while undergoing diagnostic study. At the expiration of such period, such child shall be returned to the court, together with the report and recommendations of the department of youth services.

SECTION 20. Said chapter 119 is hereby further amended by striking out section 68B, as so inserted, and inserting in place thereof the following section: —

The commissioner of youth services may at his discretion

transfer any child thus committed from any foster home or detention home to another such foster home or detention home.

SECTION 21. SECTION 66. Said chapter 58 is hereby further amended by striking out section 25A, as most recently amended by section 8 of chapter 546 of the acts of 1969, and inserting in place thereof the following section:—

Section 25A. Annually on or before February fifteenth, the commission shall ascertain and determine the amount due each city and town under section eighteen A and the commonwealth's share of local reimbursement and assistance programs as authorized by law and the amount appropriated by the general court, including, but not limited to, school building construction, school transportation, school lunches, educational programs, teachers' retirement pensions, veteran's benefits, public health and housing and urban renewal subsidies and shall notify the assessors of each city and town thereof. Annually on or before February first each department, commission, board or other agency of the commonwealth administering any local reimbursement or assistance program included under this section for which the commission is required to estimate the amount to be received by each city or town shall, upon the basis of information then available to it, estimate and certify to the state tax commission the amount each city and town is to receive from the commonwealth under such program during the next fiscal year. Said assessors, in determining the rate of taxation to be levied upon taxable property for the year, shall include in the estimated receipt lawfully applicable to the payment of expenditures the aforesaid amount.

SECTION 67. Section 23 of chapter 59 of the General Laws is hereby amended by striking out the first two paragraphs and inserting in place thereof the following paragraphs:—

The assessors shall annually assess taxes to an amount not less than the aggregate of all amounts appropriated, granted or lawfully expended by their respective towns since the last preceding annual assessment and not provided for therein, of all amounts required by law to be raised by taxation by said towns during said year, of all debt and interest charges matured and maturing during the next fiscal year and not otherwise provided for, of all amounts necessary to satisfy final judgments against said towns, and of all abatements granted on account of the tax assessment of any year in excess of the overlay of that year and not otherwise provided for; but such assessments shall not include liabilities for the payment of which towns have lawfully voted to contract debts. The assessors shall deduct from the amount required to be assessed (*a*) the amount of all estimated receipts of their respective towns lawfully applicable to the payment of the expenditures of the next fiscal year, excluding sums to be received from the commonwealth or county for highway purposes and excluding estimated receipts from loans and taxes, but including estimated receipts from the excise levied under chapter sixty A and receipts estimated by the commission under section twenty-five A of chapter fifty-eight, (*b*) the amount of all appropriations voted from available funds for the purpose of deduction, and (*c*) the amount of all other appropriations voted from available funds. Deductions made by the assessors under any provision of this section shall not be subject to the approval of the commission or commissioner, as the case may be; provided, however, that deductions made under clause (*a*) on account

of estimated receipts, other than those estimated by the commission, shall not exceed twice the aggregate amount of actual receipts received during the first six months of the current fiscal year from the same sources, except with the written approval of the commission; and provided, further, that deductions made under clauses (*b*) and (*c*) shall not exceed the sums certified to the assessors and the commissioner by the director of accounts after such examination of the accounts of the town as he may deem proper, as the amounts of available funds on hand on the preceding July first not otherwise appropriated. Said director shall promulgate and from time to time revise rules and regulations for determining the available funds of a town in accordance with established accounting practices of said bureau of accounts. This section shall not be construed to require any approval for the use, application, transfer, appropriation or expenditure of any funds or accounts provision for which use, application, transfer, appropriation, or expenditure is made under any other general or special law, beyond such approval or approvals as are required by such other general or special law.

In cities in determining the amount of available funds which the assessors may be required to deduct under the provisions of clauses (*b*) and (*c*) of this section such funds shall constitute the amounts certified by the director of accounts as available on July first of the then current fiscal year not otherwise appropriated, in accordance with the provisions of this section, together with the total of the proceeds from the sale of tax title possessions and the receipts from tax title redemptions, in addition to the real and personal taxes of prior years collected or received between said January first and the last day of the month preceding the month in which the tax rate is determined, but in no event later than March thirty-first of the said current year.

Section 57 of said chapter 59 is hereby amended by striking out the second sentence, as amended by section 1 of chapter 290 of the acts of 1968, and inserting in place thereof the following two sentences:—If any betterment assessment (or apportionment thereof), water rate or annual sewer use charge added to such tax, or more than one half of the balance of any such tax as reduced by any abatement remains unpaid after November first of the year in which it is payable, interest at the rate of eight per cent per annum, computed from October first of such year, shall be paid on so much of the unpaid amount as is in excess of said one half of such balance; and if the whole or any part of any such tax remains unpaid after May first of the next succeeding year, in lieu of interest, as aforesaid, interest at such rate shall be paid thereon, computed from said October first on any betterment assessment (or apportionment thereof), water rate or annual sewer use charge added thereto and not paid by said November first and also on so much of the balance of such tax not so paid as exceeds one half of such tax as reduced by any abatement, and computed from April first of such next succeeding year on the balance of such tax outstanding from time to time. Bills for real estate and personal property taxes remaining unpaid by said November first shall be sent out not later than January fourteenth of each year, and shall be due and payable on February first of each year in every city, town and district in which they are assessed.

SECTION 69. Said section 57 of said chapter 59 is hereby further amended by striking out the fourth and fifth sentences, as appearing in section 1 of chapter 99 of the acts of 1947, and inserting in place thereof the following sentences:—Taxes assessed under section seventy-five or section seventy-six on or before September first shall be due and payable on October first; and taxes so assessed shall bear interest as hereinbefore provided in this section with respect to real estate and personal property taxes generally. Taxes assessed under section seventy-five or seventy-six after September first shall be due and payable on December thirty-first; and if more than one half of any such tax remains unpaid after January thirty-first of the succeeding year, interest at the aforesaid rate, computed from said December thirty-first, shall be paid on so much of such unpaid tax as is in excess of one half of such tax as reduced by any abatement; and if the whole or any part of any such tax remains unpaid after May first of said succeeding year, in lieu of interest, as aforesaid, interest at such rate shall be paid thereon, computed from said December thirty-first on so much of such tax not paid by said January thirty-first as exceeds one half of such tax as reduced by any abatement, and computed from April first of said succeeding year on the balance of such tax outstanding from time to time.

SECTION 70. Section 78 of said chapter 59, as amended by section 5 of chapter 258 of the acts of 1941, is hereby further amended by striking out the last sentence and inserting in place thereof the following sentence:—Taxes so reassessed shall bear interest as provided in section fifty-seven with respect to real estate and personal property taxes generally.

SECTION 2. Sums appropriated in section one are based upon detailed schedules approved by the joint committee on counties, copies of which are deposited with the director of accounts.

Said director shall file with the county commissioners and the county treasurer of Middlesex county a certification of the amounts above appropriated as set forth in the approved schedules. Except as provided by this act or except as otherwise provided by law, no liability may be incurred and no expenditure shall be made in excess of the amount available in an existing appropriation for a function, a main group, a class or a subclass.

Transfers within an appropriation from a main group to another main group may be made upon written request of the authorized official of the organization unit with the written approval of the county commissioners, and copies of said request and approval shall be filed with the county treasurer; provided, however, that no transfer shall be made from the main groups "personal services", "equipment", "structures

and improvement" or "improvements to land" to another main group nor shall any transfer be made from any other main group into any of the aforementioned main groups.

Transfers within an appropriation between classes and between subclasses within a main group may be made by the authorized official of the organization unit whenever in his opinion public necessity and convenience so requires; provided, however, that no transfer shall be made within the classes of the main groups "personal services" or "equipment".

Amounts included for permanent positions in sums appropriated in section one for personal services are based upon schedules of permanent positions and salary rates as approved by the joint committee on counties, and, except as otherwise shown by the files of said committee, a copy of which shall be deposited with the county personnel board, no part of sums so appropriated in section one shall be available for payment of salaries of any additional permanent positions, or for payments on account of reallocations of permanent positions, or for payments on account of any change of salary range or compensation of any permanent positions, notwithstanding any special or general law to the contrary.

Moneys appropriated under this act for the purchase of equipment shall be expended for the purposes specified in the schedules as approved by the joint committee on counties and for no other purpose.

SECTION 3. No expense incurred for mid-day meals by county officers and employees, other than those who receive as part of their compensation a noncash allowance in the form of full or complete boarding and housing, and those county officers and employees who are stationed beyond commuting distance from their homes for a period of more than twenty-four hours, shall be allowed; provided that officers or employees who have charge of juries or who have the care and custody of prisoners, insane persons or other persons placed in their charge by a court or under legal proceedings for transfer to or from court to an institution or from institution to institution and persons certified by a district attorney as engaged in investigation shall be reimbursed for the expenses of mid-day meals when necessarily engaged on such duty; and provided, further, that county officers and employees in attendance at meetings and conferences called by or for any group or class on a statewide basis shall be so reimbursed.

Notwithstanding the provisions of the preceding paragraph, not more than two employees of a county may be reimbursed for meals and other expenses incurred in attendance at a meeting or conference called by or for any group or class on a statewide basis.

No moneys appropriated under this act shall be expended by county officers or employees for monthly telephone service furnished to such officers or employees at places other than regular offices.

No moneys appropriated under this act shall be approved by the county commissioners and expended by the county treasurer for any unpaid bills of previous years which were incurred prior to January first of nineteen hundred and sixty-eight.

SECTION 4. The allowance to county officers and employees for expenses incurred by them in the operation of motor vehicles owned by them or by any member of their immediate families and used in the

performance of their official duties shall not exceed eight cents a mile, except in cases where a higher allowance is specifically provided by statute; provided that in the case of commitments of the insane the justice of the court ordering the commitment may order a higher rate, but not to exceed forty cents a mile one way. Chap. 857. AN ACT AUTHORIZING THE CITY OF TAUNTON TO BORROW MONEY FOR A NEW ELECTRIC GENERATING UNIT AND TO MAKE LONG-TERM CONTRACTS FOR THE SALE OF ELECTRICITY.

Be it enacted, etc., as follows:

SECTION 1. For the purpose of constructing and equipping a new electric generating unit, including transmission and other facilities appurtenant thereto, the city of Taunton may borrow from time to time such sums as may be necessary, not exceeding nineteen million dollars, and may issue bonds or notes of the city therefor which shall bear on their face the words, Taunton Electric Loan, Act of 1969. Each authorized issue shall constitute a separate loan and shall mature serially beginning not later than one year, and ending not later than thirty years, after the date of issue or the date of commencing regular operation of the unit as determined or estimated by the manager of the city's electric department, whichever date is later. The maturities of each issue shall be arranged so that the amounts payable in the several years for principal and interest combined shall be as nearly equal as it is practicable to make them in the opinion of the officers authorized to issue the bonds or notes, or in the alternative in accordance with a schedule providing a more rapid amortization of principal.

SECTION 2. If the city votes to issue bonds or notes hereunder, the officers authorized to issue the same may, in the name of the city, make

temporary loans in anticipation of the money to be derived from the sale of such bonds or notes, and may issue temporary notes therefor. Each such loan shall be payable within one year from its date or from the date of commencing regular operation of the unit as determined or estimated by the manager of the city's electric department, whichever date is later; provided that the time within which the serial bonds or notes shall mature shall not be extended by reason of the making of such temporary loans beyond the time fixed herein or in the vote authorizing the issue of the serial bonds or notes. Temporary notes issued under this section for a shorter period than permitted herein may be refunded by the issue of other temporary notes maturing within the required period; provided that the period from the date of issue of the original loan to the maturity of the refunding loan shall be not more than the period permitted herein.

SECTION 3. Indebtedness incurred under this act shall be in excess of the statutory limits prescribed by clause eight of section eight and by section ten of chapter forty-four of the General Laws, but shall, except as provided herein, be subject to the applicable provision of said chapter forty-four, exclusive of the limitations contained in the first paragraph of section seven thereof. The incurring of indebtedness hereunder shall not be subject to the limitation contained in section fifty-seven of chapter one hundred and sixty-four of the General Laws.

SECTION 4. In addition to other lawful items, the project costs to be financed by the issue of bonds or notes hereunder may include interest up to the date of commencing regular operation of the unit as determined or estimated by the manager of the city's electric department and may also include the cost of training the initial staff and of operations prior to regular operation of the unit, and the cost of an original inventory of fuel, spare parts and spare equipment for the unit.

SECTION 5. In addition to any other power conferred by law, the city of Taunton, acting by vote of its municipal light commission, may contract from time to time for the sale of electricity in bulk to any electric company, railroad, street railway, electric railroad or Massachusetts municipality primarily for consumption, or resale and consumption, within the commonwealth or any designated area thereof, and any such other party may contract from time to time for the purchase of such electricity from the city of Taunton. Any such contract may be for a period extending no later than thirty-one years after the date of the contract or the date of commencing regular operation of the unit financed under this act as determined or estimated by the manager of the city's electric department, whichever is later. Each such contract shall be subject to the approval of the department of public utilities and may contain such provisions as may be agreed upon relating to the disposition of the electricity so purchased, interconnections with other parties, inflows and outflows incidental to the operations of the parties or to pooling arrangements in which they participate, and the facilities to be provided for connecting the parties, and such provisions relating to cooperation between the parties as may be deemed necessary to carry out the purposes of the contract.

SECTION 6. This act shall take effect upon its passage.

Approved August 29, 1969.

Section 9. Additional Revenue Bonds. In addition to the bonds issued under the provisions of section eight, the Authority is authorized and empowered, subject to such conditions, limitations and restrictions as may be set forth in the trust agreement, to provide by resolution for the issuance at one time or from time to time of revenue bonds of the Authority or the borrowing of money in anticipation of the issuance of such revenue bonds for the purpose of providing funds for paying the cost of acquiring or constructing any additional revenue producing facility, the acquisition or construction and the financing of which by the Authority under the provisions of this act may hereafter be authorized by the general court (any such facility being herein called "additional facility"), or of acquiring or constructing any extensions, enlargements or improvements of any project then under the control of the Authority or, in the case of revenue bonds, of paying and discharging notes theretofore issued in anticipation of the issuance of such bonds, or any combination of the foregoing; provided, however, that no such additional facility, extension or enlargement shall be constructed which will impair the revenues to be derived from facilities constructed pursuant to chapter three hundred and fifty-four of the acts of nineteen hundred and fifty-two, as from time to time amended.

SECTION 2. Section 10 of said chapter 465 is hereby amended by striking out the fifth sentence and inserting in place thereof the following sentence:—Notwithstanding any other provision of this act or any recitals in any bonds issued under the provisions of this act, all such bonds shall be deemed to be negotiable instruments under the laws of the commonwealth, subject only to any provisions for registration contained in any such bond.

SECTION 3. Said chapter 465 is hereby further amended by striking out section 10A, inserted by section 5 of chapter 449 of the acts of 1968, and inserting in place thereof the following section:—

Section 10A. Provisions Applicable to Money Borrowed. Money borrowed by the Authority in anticipation of the issuance or revenue bonds shall be evidenced by notes or other obligations of the Authority. The aggregate principal amount so borrowed by the Authority and evidenced by such notes or other obligations (but excluding the aggregate principal amount borrowed which is contemporaneously to be repaid from the proceeds of notes then to be issued) shall not exceed ten per centum of the aggregate principal amount of revenue bonds of the Authority outstanding at the time such borrowing is made. The principal and interest of all notes or other obligations of the Authority so issued under the provisions of this act shall be payable no later than the fourth anniversary of the date of issue thereof, shall in no event, except as herein specifically provided, be payable from revenues of the Authority but shall be payable solely (i) from the proceeds of revenue bonds subsequently issued, or (ii) from the proceeds of subsequent borrowings which comply with the provisions hereof, or (iii), if the notes or other obligations evidencing such borrowings so provide, from moneys held for the credit of the maintenance reserve fund or the improvement and extension fund established by the trust agreement dated as of July first, nineteen hundred and sixty-four relating to revenue bonds of the Authority or any similar fund or funds established in any subsequent trust agreement, if such moneys, to the extent permitted thereby, are pledged by the Authority to the payment of the principal of and interest on such notes or other obligations and if such notes or other obligations were issued by the Authority for any purpose for which the moneys held for the credit of such fund or funds may be disbursed, or (iv) from revenues but only to the extent of the claim or charge provided in the following sentence. If and to the extent then permitted by any trust agreement relating to revenue bonds of the Authority and to the extent set forth in such notes or other obligations or the resolutions of the Authority authorizing the same, such notes may be secured by a claim or charge upon the revenues of the Authority which may be equal and proportionate with, but not superior to, that securing all bonds then outstanding or subsequently issued under said trust agreement. Notwithstanding any other provisions of this act or any recitals in any notes issued under the provisions of this act, all such notes shall be deemed to be negotiable instruments under the laws of the commonwealth, subject only to any provisions for registration contained in any such notes. Such notes or other obligations or any issue thereof shall be in such form and contain such other provisions as the Authority may determine and such notes or other obligations or any issue thereof and any resolution or resolutions authorizing such notes or other obligations or any issue thereof may contain, in addition to any provisions, conditions, covenants or limitations authorized by this act, any provisions, conditions, covenants or limitations which the Authority is authorized to include in any resolution or resolutions authorizing revenue bonds of the Authority, in such bonds or in the trust agreement relating thereto. The Authority may issue such notes or other obligations in such manner either publicly or privately and on such terms as it may determine to be in the best interests of the Authority. Such notes or other obligations may be issued by the Authority under the provisions

of this act without obtaining the consent of any department, division, commission, board, bureau or agency of the commonwealth or the city and without any other proceedings or the happening of any other conditions or things than those proceedings, conditions or things which are specifically required by this act.

SECTION 4. Section 14 of said chapter 465 is hereby amended by adding the following paragraph:

Chap. 873. AN ACT RELATIVE TO THE CLASSIFICATION OF FOREST LANDS.

Be it enacted, etc., as follows:

SECTION 1. Chapter 61 of the General Laws is hereby amended by striking out sections 1 and 2 and inserting in place thereof the following two sections:—

Section 1. Except as otherwise hereinafter provided, all forest land, having a value not in excess of four hundred dollars per acre for land and growth thereon and existing in parcels of not less than ten contiguous acres in area, not used for purposes incompatible with forest

production shall be listed by the assessors as classified forest land upon written application of the owner which shall include a description of the area to be classified sufficient for identification and a certification by the state forester that such land is being managed under a planned program to improve the quantity and quality of a continuous forest crop. Once such land has been so classified, it shall remain listed as classified forest land, regardless of change in ownership, until December thirty-first of the year in which the owner requests in writing that the assessors remove it from such listing or in which it is removed from classification in accordance with other provisions of this chapter. Land shall be removed from classification unless, at least every five years, the owner files with the assessors a certification by the state forester that said land is continuing to be so managed, provided that the assessors or the state forester shall have notified the owner of his failure to file and the owner shall not have submitted such certification within sixty days thereafter. The state forester or his designee shall have the authority to enter on private lands for the purpose of making investigations to assure compliance with this chapter. Classified forest land shall be exempt from taxation under chapter fifty-nine but shall be subject to the taxes provided in section two of this chapter. Buildings and other structures, and the land on which they are erected and which is necessary for their use, shall not be entitled to be classified.

If a single parcel or tract of land consists in part of forest land and in part of other land, the portion consisting of forest land, if said portion comprises at least ten contiguous acres in area and otherwise conforms to the requirements of this section, shall be listed as classified forest land upon application as hereinbefore provided.

An application to have forest land listed as classified forest land may be submitted to the assessors at any time prior to September first in any year; however, such listing shall take effect on January first of the year following application or following the final determination of any appeal therefrom.

When in the judgment of the assessors land, which is classified or which is the subject of an application, is not being managed under such a program or is being used for purposes incompatible with forest product production or does not otherwise qualify under this chapter, the assessors may on or before October first in any year appeal to the state forester to deny the owner's application or, in the case of land already classified, to remove the land from classification, stating their reasons and at the same time sending a copy of the appeal to the owner of such land. The state forester may on his own motion initiate on or before October first in any year a proceeding to remove land from classification, sending notice of his action to the assessors and the owner. The state forester shall investigate the matter and hold a hearing thereon, if requested by the assessors or the owner within two weeks after receiving notice of the proceeding. The state forester may deny the owner's application, may withdraw all or part of the land from classification, or may grant the application, imposing such terms and conditions as he deems reasonable to carry out the purposes of this chapter, and shall notify the assessors and the owner of his decision no later than December first. If the owner or the assessors are aggrieved by the decision, they may prior to December fifteenth petition the superior court in the county in which the land is located for a review under the provisions of chapter

thirty A of the General Laws, and said land shall not be classified or withdrawn from classification until the final determination of any such petition. The state forester may, with the approval of the commissioner of natural resources, adopt such regulations as may be necessary to carry out his responsibilities under this chapter.

Section 2. The following terms shall have the following meanings when used in this chapter: "forest products" — wood, timber, Christmas trees, and all other tree or forest growth; "stumpage value" — fair market value immediately prior to severance; "cut" — severed or taken from the soil.

The owner of classified forest land shall pay a products tax equal to eight per cent of the stumpage value of all forest products cut therefrom; provided, that the owner may annually cut, free of the products tax, forest products from such land for his own use or for the use of a tenant of said land, not exceeding one hundred dollars in stumpage value.

The owner shall annually before May first make a return, in such form as shall be approved by the state forester, setting forth the amount of forest products cut from classified forest land during the preceding calendar year and such other information as may be required for assessment of the products tax. The assessors shall annually on or before April first give written notice to each owner of record of classified forest land that he is required to make such return. On the basis of such return or any other available information the assessors shall assess such products tax.

The owner shall also pay annually a land tax on the bare land, based upon a valuation of not more than ten dollars per acre, at the rate determined for the taxation of property under chapter fifty-nine, said land tax to be assessed annually by the assessors.

Both the products tax and the land tax shall be committed to the collector for collection in the same manner as taxes assessed under chapter fifty-nine. The collector shall notify the person assessed of the amount of the tax in the manner provided in section three of chapter sixty for notification of local taxes, and in the collection of taxes under this chapter the collector shall have all the remedies provided by chapter sixty for the collection of taxes upon real estate. Taxes so assessed shall be due and payable October first of the year in which the return is required to be made, and if not paid on or before November first of the year of assessment shall bear interest at the rate of six per cent per annum from the due date to the date of payment. Any person aggrieved by the assessment of a tax under this section may within sixty days of the date of notice of the tax apply in writing to the assessors, upon a form approved by the commissioner of corporations and taxation, for abatement thereof, and if the assessors, after hearing, find the tax is excessive, they shall abate it in whole or in part accordingly. If the tax has been paid, the town treasurer shall repay to the person assessed the amount of such abatement, with interest thereon at the rate of six per cent per annum, from the time when it was paid. Any person aggrieved by the refusal of the assessors to abate a tax in whole or in part under this section or by their failure to act upon such an application may appeal to the appellate tax board within thirty days after the date of notice of their decision or within three months of the date of the application for abatement, whichever date is later. Any overpayment on tax determined

by decision of said appellate tax board shall be reimbursed by the town treasurer with interest at the rate of six per cent per annum from time of payment.

SECTION 2. Said chapter 61 is hereby further amended by striking out section 4 and inserting in place thereof the following section: —

Section 4. Classified forest land shall not be included in the town valuation in apportioning the state and county taxes. Classified forest land shall be subject to special assessments and betterment assessments; provided, however, that such assessments, if for purposes other than the installation of water pipes, shall become due and payable at the time when said land is removed from classification.

SECTION 3. Section 5 of said chapter 61, as appearing in section 1 of chapter 652 of the acts of 1941, is hereby amended by striking out, in line 2, the word "one" and inserting in place thereof the word: — two.

SECTION 4. Said chapter 61 is hereby further amended by striking out section 6 and inserting in place thereof the following section: —

Section 6. When the owner of classified forest land voluntarily withdraws such land from classification or upon a final determination that said land should be withdrawn from classification, the owner shall pay to the city or town in which the land is located an amount determined by the assessors to equal the difference between the amount of taxes which would have been paid under chapter fifty-nine and the taxes actually paid under this chapter from the date of classification to the date of withdrawal plus interest thereon at the rate of eight per cent per annum or two hundred dollars per acre, whichever is smaller. The withdrawal tax imposed by this section shall be committed to the tax collector of the city or town for collection in the same manner as taxes assessed under chapter fifty-nine.

SECTION 5. Any land listed by the assessors prior to the effective date of this act as classified forest land shall continue to be so listed, subject to the provisions of chapter sixty-one of the General Laws, as amended by this act. The owner of such land shall, no later than September first, nineteen hundred and seventy, file with the assessors the description and certification by the state forester required under section one of said chapter sixty-one and thereafter shall file said certification of the state forester every five years as required under said section one. The provisions of section two of said chapter sixty-one in effect immediately prior to the effective date of this act shall remain in effect only as to such previously listed classified forest lands until December thirty-first, nineteen hundred and seventy. The provisions of section two of said chapter sixty-one, as amended by section one of this act, shall become effective against such lands on January first, nineteen hundred and seventy-one. *Approved August 29, 1969.*

Chap. 874. AN ACT FURTHER REGULATING NONPROFIT HOSPITAL SERVICE CORPORATIONS AND RATES OF PAYMENT TO PROVIDERS OF HEALTH SERVICES.

Be it enacted, etc., as follows:

SECTION 1. Section 5 of chapter 176A of the General Laws is hereby amended by striking out all after the third paragraph and inserting in place thereof the following twelve paragraphs: —

In providing reimbursement for health services other than hospital services, any hospital service corporation may enter into contracts for the furnishing of such health services with providers thereof. All rates of payment to providers of other health services made by such corporation, under such contracts, shall be approved in advance by the rate setting commission established under section thirty L of chapter seven, in this section called the commission. Any such approval may be withdrawn by the commission at any time as hereinafter provided. No rates of payment under any such contract with a provider of other health services shall be approved nor their continuance be permitted by the commission, unless such rates are not excessive, not inadequate and not unfairly discriminatory in relation to other such providers who have entered into such contracts with such corporation.

Every contract made by such corporation with a participating hospital or provider of other health services shall contain a provision whereby such hospital or provider of other health services guarantees to subscribers or their dependents or employees, or dependents of employees of employers who contribute the subscription fees in whole or in part the benefits of the subscriber's certificate in effect at the time such services are provided notwithstanding the ability of such corporation to pay therefor. Officers of the commonwealth and of counties, cities and towns within the commonwealth are authorized to execute contracts containing such provision.

All rates of payment to hospitals made by such corporation, under such contracts, shall be approved in advance by the rate setting commission established under section thirty L of chapter seven. Any such approval may be withdrawn by the commission at any time as hereinafter provided. No rates of payment shall be approved, nor their continuance be permitted by the commission, unless such rates reflect reasonable costs or are based on charges made to the general public, whichever is lower. The commission in determining reasonable cost shall give consideration to services provided by the hospital and the costs of comparable hospitals, and may give consideration to depreciation, amortization, interest, occupancy, individual services which are rendered for partial or no payment and principles of reimbursement for provider costs in effect from time to time under Titles XVIII and XIX of the Social Security Act.

Other requirements of this section notwithstanding, the commission may approve any rate of payment to any provider or class of providers if such rate, in the opinion of the commission, contains an incentive to achieve greater efficiency and economy in the manner of providing health care services without adversely affecting the quality of such services.

A hospital, provider of other health services or nonprofit hospital service corporation shall file with the commission in accordance with regulations adopted after public hearing such data, statistics, schedules or other information as the commission may reasonably require to enable it to approve or disapprove contracts with or rates of payments to hospitals and providers of other health services. For the purpose of approving, disapproving, or permitting the continuance of all rates or payment under such contracts, the commission may require an examination of the books of account and statistical records of each hospital,

provider of other health services and nonprofit hospital service corporation, and such examination shall be made under the direction and supervision of the commission. The commission may enter into an annual agreement with a nonprofit hospital service corporation for the services of such auditors or accountants as may be required in any such examination; provided, that the entire costs of such salaries of auditors or accountants and necessary expenses connected therewith, including related expenses of the commission, shall be borne by such corporation. The commission may also enter into an annual agreement with a nonprofit hospital service corporation for such health care specialists, statisticians and other personnel as may be required by the commission in performing its duties under this chapter. Expenses incurred in connection with any agreement authorized under this paragraph shall be treated as part of the cost of benefits furnished by said corporation.

Within thirty days of the filing of any proposed contract or rate of payment between a nonprofit hospital service corporation and a hospital or provider of other health services, the commission shall either (1) approve the contract or rate of payment without holding a public hearing; or (2) disapprove the contract or rate of payment without holding a public hearing, filing in its office a statement setting forth its reasons for its disapproval; or (3) hold a public hearing on all or such portion of said proposed contract or rate of payment as it shall designate in the notice of hearing which it shall file in its office.

If the commission disapproves a proposed contract or rate of payment, it shall promptly notify, in writing, such corporation and each interested hospital or provider of other health services of its disapproval. The disapproval shall be final unless, within ten days of the filing of its statement of disapproval, such corporation or any interested hospital or provider of other health services shall file with the commission a written request for a public hearing on the disapproval. The public hearing, at which such corporation and each interested hospital and provider of other health services shall be entitled to appear, shall be held within fourteen days of the filing of the request for such hearing with the commission, and the decision thereon shall be made within twenty-eight days of the date of the filing of such request, unless the corporation, each interested hospital and provider of other health services involved agree, in writing, to an extension of either date.

If the commission decides to hold a public hearing without prior acting on the proposed contract or rate of payment, it shall promptly notify, in writing, such corporation, each interested hospital and provider of its decision. The public hearing, at which such corporation, each interested hospital and provider of other health services shall be entitled to appear, shall be held within twenty-one days of filing of the notice thereof in its office. The decision thereon shall be made within twenty-one days of the commencement of the hearing, unless such corporation, each interested hospital and provider of other health services involved agree, in writing, on an extension of the date.

If the commission disapproves of a previously approved contract or rate of payment, it shall file in its office a statement setting forth its reasons for its disapproval, and it shall promptly notify, in writing, such corporation and each interested hospital or provider of other health services of such disapproval. Such notice of disapproval shall

state the effective date of the disapproval which shall not be sooner than sixty days from the date of the filing of such disapproval in its office. The disapproval shall be final on the date indicated in said notice unless, within ten days of the filing of its statement of disapproval, such corporation, any interested hospital or provider of other health services shall file with the commission a written request for a public hearing on the disapproval. The public hearing, at which such corporation, each interested hospital and provider of other health services shall be entitled to appear, shall be held within fourteen days of the filing of the request for a hearing with the commission, and the decision thereon shall be made within twenty-eight days of the date of the filing of such request, unless the corporation, each hospital and provider of other health services involved agree, in writing, on an extension of either date.

Any nonprofit hospital service corporation, hospital or provider of other health services aggrieved by any order, finding, decision or other action made or taken under this section by the commission may, within twenty days of the filing thereof by the commission in its office as a public record, file a petition in the supreme judicial court for the county of Suffolk for a review of such order, finding, decision or other action. In the event that there is an appeal from an order of the commission disapproving a rate of payment between a nonprofit hospital service corporation and a hospital or provider of other health services, any level of payment which the commission did approve shall be used pending the determination of the appeal and any difference in the rate established as a result of the appeal and the interim rate shall be adjusted, as the court may determine.

Upon the filing of a petition for review under this section, an order of notice returnable not later than twenty days from the filing of such petition shall forthwith issue and be served upon the commission. Within ten days after service of a copy of the petition for review upon the commission or within such further time as the court may allow, the commission shall file in the court the original or a certified copy of the records of the proceeding under review. The review shall be governed by paragraphs (2), (3), (4) with the exception of the first sentence thereof, (5), (6), (7) and (8) of section fourteen of chapter thirty A, and review by the supreme judicial court shall be governed by section fifteen of said chapter thirty A.

The commissioner of insurance shall on December thirty-first, nineteen hundred and seventy and annually thereafter require a statement from any nonprofit hospital service corporation relative to the number and type of contracts written hereunder, utilization of extended care facilities and other health services, and such other information, and in the form, as he may require.

SECTION 2. The first paragraph of section 8 of chapter 176A of the General Laws is hereby further amended by inserting before the first sentence the following sentence: —

No contract between the subscriber and the corporation shall be issued or delivered in the commonwealth which provides full room and board benefits in an extended care facility for other than the period of hospitalization coverage provided, or which provides benefits for any service which is not medically necessary. *Approved August 29, 1969.*

Each said board shall appoint two members of the commission within three months of the adoption of the regional police district law, for terms of such length and so arranged that the term of one appointee will expire each year, and their successors shall be appointed in a like manner for terms of two years. Vacancies shall be filled in a like manner for the unexpired term. All members shall serve without compensation but may be reimbursed for expenses actually incurred in the transaction of the business of the commission. The commission shall choose annually a chairman and a vice chairman by ballot from its membership. The vice chairman shall, in the absence of the chairman, exercise the powers and perform the duties of said chairman. It shall appoint a secretary and a treasurer who may be the same person, but who need not be members of said commission. The treasurer shall receive and take charge of all money belonging to the district, and shall pay any bill of the district which shall have been approved by the commission. Section 99G. The regional police district commission shall annually determine the amounts necessary to be raised to maintain and operate the district police during the ensuing calendar year, and the amounts required for payment of debt and interest incurred by the district which will be due in said year, and shall apportion the amount so determined among the member towns in accordance with the provisions of section ninety-nine I. The amounts so apportioned for each town shall, prior to December thirty-first in each year, be certified by the regional police district treasurer to the treasurers of the member

towns. Each town shall, at the next annual town meeting, appropriate the amounts so certified and the town treasurer shall pay the amount so appropriated to said district forthwith.

The treasurer of any member town of a regional police district with the approval of the board of selectmen may, during the interval between January first and the date when such town makes the annual appropriation of the amount apportioned to it as provided in the first paragraph, make payments to the regional police district from the treasury of such town from any funds available therein. Such payments shall not exceed in the aggregate one third of the amount so apportioned and shall be charged against such appropriation.

For the purpose of organizing a department as provided in section ninety-nine J, the treasurer of any member town of a regional police district with the approval of the board of selectmen may, during the interval between the establishment of the commission as provided in section ninety-nine F and the following December thirty-first, make payments to the regional police district from the treasury of such town from any funds available therein. Such payments shall not exceed three thousand dollars per member town and shall be charged against the first annual appropriation.

Section 99H. The director of accounts in the department of corporations and taxation shall annually cause an audit to be made of the accounts of the regional police district commission, and for this purpose he, and his duly accredited agents, shall have access to all necessary papers, books and records. Upon the completion of each audit, a report thereon shall be made to the chairman of the selectmen of each town which is a member of the district. The director shall apportion the cost among the member towns on the basis provided by section ninety-nine I, and submit the amounts of each apportionment to the state treasurer who shall issue his warrant requiring the assessors of the towns which are members of the district to assess a tax to the amount of the expense, and such amounts shall be collected and paid to the state treasurer as provided by section twenty of chapter fifty-nine.

Section 99I. Said commission shall, annually not later than December first, estimate the amount of money required to pay the costs and expenses of the district for the following year and shall fix and determine the proportion of such costs and expenses to be paid by the member towns using the following formula:

Fifty per cent thereof shall be assessed upon all towns in the district in the proportion which the total equalized valuation in each said town bears to the total equalized valuation in the district. When used in this section "equalized valuation" shall mean the equalized valuation of the aggregate property in a town subject to local taxation, as most recently reported by the state tax commission to the general court under the provisions of section ten C of chapter fifty-eight.

Twenty-five per cent thereof shall be assessed upon all towns in the district in the proportion which the number of inhabitants in each said town bears to the total number of inhabitants in the district. The number of inhabitants shall be determined in accordance with the last preceding federal census.

Twenty-five per cent thereof shall be assessed upon all towns in the district in the proportion which the total mileage of state highways

and town ways in each said town, as most recently determined by the state department of public works, bears to the total mileage of state highways and town ways in the district.

Section 99J. Each regional police district commission shall organize a regional district police department, and such department shall begin operations and otherwise take effect on January first following acceptance of the provisions of the regional police district law. Each regional district police department so established shall succeed any existing town police departments, whether fully organized or not, within its district, and each such town police department shall cease to exist on December thirty-first following the acceptance of the provisions of the regional police district law. Any pending criminal prosecutions of the police of the member towns shall be assumed by the regional district police department, and all town police employees who immediately prior to the effective date of the district held positions classified under chapter thirty-one or had tenure in their positions by special act shall be transferred to the service of the district police department upon the establishment of said department; every such transfer to be without impairment of civil service status, seniority, retirement and other rights of the employee, without interruption of his service within the meaning of said chapter thirty-one or special act, and without reduction in his compensation and salary grade, notwithstanding any change in his title or duties made as a result of such transfer. Said district police department shall be considered a single town police department as that phrase is used or implied in the general laws, and all general laws applicable to town police departments shall apply to such district police departments. If a majority of towns in said district shall vote to accept the provisions of section forty-eight of chapter thirty-one, at annual elections held therein, by the method provided in said section, the provisions of said chapter thirty-one shall apply to said district. Any such district department shall be under the supervision of an officer known as the chief of police.

The chief and other police officers of all regional police districts shall have, throughout their respective districts, unless a different meaning is clearly apparent from the language or context, all the powers, duties, immunities and privileges conferred by the General Laws on chiefs and police officers of the towns.

Section 99K. In towns using official ballots at town elections, revocation of the provisions of the regional police district law shall be by vote in answer to a question placed on the official ballot at an annual town election as hereinafter provided, and in towns not using official ballots at town elections such revocation shall be by vote at an annual town meeting. Upon the filing, with the clerk of any town using official ballots at town elections, of a petition signed either by the board of selectmen or by not less than five per cent of the total number of registered voters thereof, requesting that the question of revoking acceptance of the provisions of this law be placed upon the official ballot, the clerk shall place such question on the official ballot for the next town election occurring more than thirty days after the filing of such petition. The question to be voted on shall be:—"Shall the acceptance by the town of the provisions of sections ninety-nine B to ninety-nine K, inclusive, of chapter forty-one of the General Laws

which provided for the establishment of a regional police district, together with the town (towns) of , be revoked?"

If such revocation is favored by a majority of the voters voting thereon, the acceptance of this law by such town shall be revoked and this law shall become null and void in said town beginning one year after such vote; provided, however, if any such town while a member of the district voted to accept the provisions of section forty-eight of chapter thirty-one, the provisions of said section forty-eight shall remain in effect in said town and any person transferred to said town from the district as a result of such revocation shall be transferred without impairment of civil service status, seniority, retirement and other rights, without interruption of his service within the meaning of said chapter thirty-one and without reduction in his compensation and salary grade, notwithstanding any change in his title or duties made as a result of such transfer.

Whenever a town revokes acceptance of this law and withdraws from a regional police district said town shall remain liable for its share of any obligation of the district incurred while said town was a member of said district.

Whenever a town revokes acceptance of this law and withdraws from a regional police district and thereby breaks the contiguity required by section ninety-nine C, the remaining towns shall continue to form a district notwithstanding the absence of contiguity.

Approved August 29, 1969.

No person shall require or permit any employee to operate a crane, power shovel or other such types of construction equipment in close proximity to overhead high voltage lines; nor to enter upon any land, building or other premises to engage in construction work, including excavation, demolition, repair or other such work or to erect, install, operate or store in or upon such premises any machinery or construction equipment, including well drilling, pile driving or hoisting equipment, where it is intended to perform such work or operate such equipment in close proximity to overhead high voltage lines unless and until contact with said high voltage lines has been effectively guarded against in the manner hereinafter prescribed. For the purposes of this section and sections twenty-one B to twenty-one G the words "in close proximity to overhead high voltage lines" shall mean within six feet of such lines.

Section 21B. The operation or erection of any tools, machinery or equipment, or any part thereof capable of vertical, lateral, or swinging motion; the handling or storage of any supplies, materials or apparatus or the moving of any house or other building, or any part thereof, under, over, by or near overhead high voltage lines, shall be

Section 21C. The owner, agent or employer responsible for the operation of equipment shall post and maintain in plain view of the operator on each crane, derrick, power shovel, drilling rig, hay loader, hay stacker, pile driver, or similar apparatus, any part of which is capable of vertical, lateral or swinging motion, an approved weather-resistant warning sign legible at twelve feet reading "WARNING—Unlawful to operate this equipment within SIX FEET of high voltage lines."

Section 21D. Warning signs shall be placed: (1) Within the equipment readily visible to operator of cranes and other equipment when at the controls of such equipment;

Section 21E. Before any operations are to be performed within six feet of any overhead high voltage lines, the person or persons responsible for the work to be done shall promptly notify the utility or other company owning or operating the overhead high voltage lines.

The work shall be performed only after satisfactory arrangements have been negotiated between the owner or operator of the lines and the contractor.

Section 21F. The provisions of sections twenty-one A to twenty-one E, inclusive, shall not apply to the construction, reconstruction, operation and maintenance of overhead electrical conductors and their supporting structures and associated equipment by authorized electrical workers; nor to any authorized person engaged in the construction, reconstruction, operation and maintenance of overhead electrical or communications circuits or conductors and their supporting structures and associated equipment of rail transportation systems, electrical generating, transmission or distribution systems, or communications systems.

After such hearing the planning board, board of selectmen, city council or

committee, as the case may be, shall make a report of its findings, conclusions, and recommendations which shall be filed with the records of the city council or the town meeting of the municipality.

Section 22C. Such ordinance or by-law may specify in whole or in part the sequence which any utility shall follow in removing its poles and overhead wires and associated overhead structures by specifying the part or parts of the municipality in which removal shall first be effected, then the part or parts in which removal shall next be effected.

Any utility which fails to remove any poles and overhead wires and associated overhead structures as required by such ordinance or by-law shall be punished by a fine of not less than one thousand dollars and not more than five thousand dollars for each consecutive fifteen day period during which such failure continues; provided, however, that no utility shall be deemed to have violated any such ordinance or by-law, provided that (a) if replacement facilities for poles and overhead wires and associated overhead structures required to be removed will be needed in order for it to continue its service, it shall within sixty days after the effective date of such ordinance or by-law

petition pursuant to section twenty-two for permission to erect or construct under the public ways of said municipality replacement facilities for said poles and overhead wires and associated overhead structures, and (b) it shall prepare and file with the board of selectmen or city council of the municipality a plan (which shall be consistent with any removal sequence specified in such ordinance or by-law) for the removal of such poles and overhead wires and associated overhead structures and, if needed for the continuation of its service, for their replacement with underground facilities, and (c) in each calendar year beginning with the calendar year next following the effective date of such ordinance or by-law and until all such overhead wires and associated overhead structures shall have been removed, it shall, in carrying out such plan, allocate and expend for the direct cost of demolition and construction (over and above the reasonable value of any salvage) an amount which shall be not less than two per cent of its gross revenue derived during the next preceding calendar year from its customers in said municipality; provided, however, it may carry over as a credit allocable to any one or more of the next nine subsequent years any amount expended in any year exceeding said two per cent of its gross revenue; and (d) it shall, on or before the last day of March in each year, file with the board of selectmen or city council of such municipality a statement signed, under the penalties of perjury, by its treasurer setting forth in detail: the amounts spent by it during the immediately preceding calendar year in carrying out said plan, the purposes for which such expenditures were made; and the gross revenue derived from its customers in said municipality during the immediately preceding calendar year; and provided, however, that no utility which enters into a cooperation agreement under section twenty-two E shall be deemed to have violated said ordinance or by-law during the term such payments are to be made, so long as said utility shall not be in default of said cooperation agreement.

If any such ordinance or by-law so provides, any utility in providing replacement facilities for any poles and overhead wires and associated overhead structures required to be removed shall install customer's service facilities. Any sums expended by any utility in installing such customer's service facilities in compliance with such ordinance or by-law shall be deemed to have been expended in carrying out the plan of such utility, referred to in this section, for the removal of such poles and overhead wires and associated overhead structures, and for their replacement by underground facilities.

Section 22E. Any utility organized and existing under the laws of or doing business in this commonwealth and any municipality may enter into, and from time to time amend, and perform a cooperation agreement pursuant to which (*a*) the utility shall pay to the municipality in each calendar year for a period of years specified in such agreement an amount which shall be not less than two per cent of such utility's gross revenue derived during the next preceding calendar year from its customers in said municipality and (*b*) the municipality shall expend during such term as such agreement may specify an amount not exceeding the sums paid to it by the utility pursuant to such agreement to remove (or cause to be removed) any poles and overhead wires and associated overhead structures of such

utility and, if needed for the continuation of such utility's service, to replace the same (or cause them to be replaced) with underground facilities. In carrying out its obligations under any such cooperation agreement, a municipality may exercise all of its powers appurtenant to the performance of any public work and may award contracts in the same manner and subject to the same limitations and restrictions as would apply to like contracts in reference to the planning or performance of any public work. Such cooperation agreement may contain any and all such provisions as shall be consistent with the purposes of this section, including a provision that the municipality shall expend a portion of the sums paid to it by the utility for the provision of customer's service facilities.

Section 22F. The municipality shall comply with the following provisions with reference to notice:

(*a*) When the planning board, board of selectmen, city council or committee of any municipality calls a public hearing pursuant to section twenty-two B, the clerk of the municipality shall publish a copy of said resolution in a newspaper of general circulation in the municipality at least once not more than fifteen nor less than five days prior to said hearing.

(*b*) When a municipality adopts an ordinance or by-law pursuant to section twenty-two C or section twenty-two D the clerk of the municipality shall, in addition to any other notice required by law, notify all utilities known to have poles and overhead wires and associated overhead structures affected by said ordinance or by-law and all persons known to own real property served by said poles and overhead wires and associated overhead structures, by mailing a copy thereof to said persons and utilities within thirty days after the date it was adopted.

Section 22G. The board of selectmen or city council of any municipality may grant special permission, for such period and on such terms as it may deem appropriate, in cases of emergency or unusual circumstances, without discrimination as to any person or utility, to erect, construct, install, maintain, use or operate, poles and overhead wires and associated overhead structures, notwithstanding the provisions of any ordinance or by-law adopted pursuant to section twenty-two C or twenty-two D. No person shall be deemed to have violated any ordinance or by-law adopted pursuant to section twenty-two C or section twenty-two D for doing any act authorized by any such special permission.

Section 22H. If underground construction is necessary to provide replacement facilities for any poles and overhead wires and associated overhead structures removed pursuant to any ordinance or by-law enacted pursuant to section twenty-two D the utility shall be responsible to furnish in connection with such replacement facilities only that portion of the conduits, conductors and associated equipment required to be furnished by it under its applicable rules, regulations and tariffs on file with the department (hereinafter called the "utility's service facilities"); provided, however, that the utility shall by its tariff offer to carry its lines up to any structure which is to receive service or a distance of fifty feet from the street, whichever is the lesser; and provided, further, that if any ordinance or by-law adopted pursuant to section twenty-two D so provides, any utility in

providing underground replacement facilities for any poles and overhead wires and associated overhead structures shall install customer's service facilities. Underground construction by the utility, or by or on behalf of any municipality, pursuant to any cooperation agreement entered into pursuant to section twenty-two E shall be accomplished in accordance with the rules and regulations authorized by the department, and shall be scheduled so as to be completed at or prior to removal of such poles and overhead wires and associated overhead structures as are being removed.

Section 22I. All underground construction and conduits, conductors and associated equipment necessary to receive utility service between the utility's service facilities referred to in section twenty-two H and the service facilities in the building or structure being served shall be deemed "customer's service facilities".

To the extent required by any ordinance or by-law adopted pursuant to section twenty-two D may provide, any utility in providing underground replacement facilities for any poles and overhead wires and associated overhead structures shall install customer's service facilities. In all other respects the provision of customer's service facilities shall be the responsibility of the person owning, operating, leasing or renting said property, subject to applicable rules, regulations and tariffs of the utility on file with the department and to the requirements of applicable laws, ordinances and by-laws. If the person owning, operating, leasing or renting said property fails to provide such customer's service facilities which are his responsibility prior to the time for removal of the poles and overhead wires and associated overhead structures of the utility, the engineer of the municipality shall have the authority to order the disconnection and removal of any and all overhead service wires and associated facilities supplying utility service to said property at the expense of the person owning, operating, leasing or renting said property, and the municipality shall have a claim against said person for the cost thereof and a lien against said property to secure said claim. No utility shall be in violation of any such ordinance or by-law in continuing to maintain overhead facilities necessary to serve such person during the period of such person's failure to provide customer's service facilities for which he is responsible and such reasonable time thereafter as may be necessary to remove such overhead facilities. No utility shall be deemed to be in violation of any law, by-law or ordinance or any obligation to the public or to any person by reason of such utility's discontinuing service to any property in the event of failure of the person owning, operating, leasing or renting said property to provide customer's service facilities for which he is responsible prior to the removal by any utility of its poles and overhead wires and associated overhead structures as required by any ordinance or by-law adopted pursuant to section twenty-two D of this chapter.

Section 22J. When a municipality adopts an ordinance or by-law pursuant to section twenty-two D, it shall remove its police and fire alarm circuits or any similar municipal equipment at its own expense from all poles required to be removed, and the removal of such circuits shall be completed in such manner and in such time as not to hinder or interfere with action taken by the utility to comply with said ordinance or by-law.

Section 22K. If any act required by an ordinance or by-law adopted pursuant to section twenty-two D cannot be performed within the time provided on account of shortage of materials, war, restraint by public authorities, strikes, labor disturbances, or any other circumstances beyond the control of the person obligated to perform such act, then the time within which such act will be accomplished shall be extended for a period equivalent to the time of such limitations.

Section 22L. If at any time one or more but less than all of the municipalities in which the customers of any one utility are located adopt an ordinance or by-law forbidding new installation of overhead facilities under section twenty-two C, the department of public utilities shall, in accordance with the provisions of section fourteen of chapter one hundred and fifty-nine and section ninety-four of chapter one hundred and sixty-four, after notice to all the municipalities in which such customers are located, and a hearing, establish a differential between the rates charged customers located in municipalities which have adopted such ordinance and those located in municipalities which have not adopted such ordinance, provided that no such differential, however introduced or effected, shall at any time result in revenues materially exceeding any increased cost of providing service caused solely by adoption of such ordinance by such municipality. The foregoing procedure for establishing such differential shall be exclusive.

Section 22M. In addition to all other rates, charges and fees it may otherwise be authorized to impose and collect any utility shall impose and collect as a capital contribution towards the cost of construction a surcharge of two per cent on its total billing to each customer located in a city or town which has in force and effect an ordinance or by-law adopted in accordance with the provisions of section twenty-two D, provided said utility is not in violation of the provisions of said ordinance or by-law and provided further said ordinance or by-law has been in effect for a period of at least one year.

Section 22N. Any ordinance or by-law adopted under the provisions of section twenty-two C or section twenty-two D shall become effective on the first day of January next following a date nine months subsequent to the date of its enactment.

SECTION 2. Section 81M of chapter 41 of the General Laws is hereby amended by striking out the second sentence, as appearing in section 7 of chapter 674 of the acts of 1953, and inserting in place thereof the following sentence:—The powers of a planning board and of a board of appeal under the subdivision control law shall be exercised with due regard for the provision of adequate access to all of the lots in a subdivision by ways that will be safe and convenient for travel; for lessening congestion in such ways and in the adjacent public ways; for reducing danger to life and limb in the operation of motor vehicles; for securing safety in the case of fire, flood, panic and other emergencies; for insuring compliance with the applicable zoning ordinances or by-laws; for securing adequate provision for water, sewerage, drainage, underground utility services, fire, police, and other similar municipal equipment, and street lighting and other requirements where necessary in a subdivision; and for coordinating the ways in a subdivision with each other and with the public ways in the city

or town in which it is located and with the ways in neighboring subdivisions.

SECTION 3. Section 81Q of said chapter 41 is hereby amended by inserting after the sixth sentence the following sentence:—Such rules and regulations may set forth a requirement that underground distribution systems be provided for any and all utility services, including electrical and telephone services, as may be specified in such rules and regulations, and may set forth a requirement that poles and any associated overhead structures, of a design approved by the planning board, be provided for use for police and fire alarm boxes and any similar municipal equipment and for use for street lighting.

SECTION 4. Clause Sixteenth of section 5 of chapter 59 of the General Laws, as most recently amended by chapter 541 of the acts of 1947, is hereby amended by inserting after paragraph 1 the following paragraph:—

(1A). Underground wires, conduits and appurtenant equipment installed in accordance with the provisions of an ordinance or by-law adopted pursuant to the provisions of section twenty-two C or section twenty-two D of chapter one hundred and sixty-six to the extent of seventy-five per cent of the value thereof.

SECTION 5. No provision of this act shall be deemed to restrict or limit the power of any city or town to regulate or prohibit the construction, installation, maintenance or use of poles and overhead wires and associated overhead structures pursuant to or under the authority granted by any other provision of law.

Approved August 29, 1969.

Such list shall contain the names of at least twice as many recipients for each categorical assistance program as those required to be appointed. Any vacancy shall be filled for the remainder of the unexpired term. No member shall serve more than two consecutive three year terms.

SECTION 9. Section 10 of said chapter 18, as so appearing, is hereby amended by inserting after the second sentence the following two sentences: — Such rules and regulations shall be submitted to the commissioner of administration and finance for review prior to publication. The extent of such review shall be no greater than that allowed by the federal Social Security Act.

SECTION 10. Section 12 of said chapter 18, as so appearing, is hereby amended by adding the following sentence: — All such funds received by the commissioner under this section shall be deposited in interest bearing accounts.

SECTION 11. Said chapter 18 is hereby further amended by striking out section 16, as so appearing, and inserting in place thereof the following section: —

Section 16. Any person aggrieved by the failure of the department to render adequate aid or assistance under any program of aid or assistance administered by the department, or to approve or reject an application for aid or assistance thereunder within thirty days after receiving such application, or aggrieved by the withdrawal of such aid or assistance, or by coercive or otherwise improper conduct on the

part of his social worker, shall have a right to a hearing, after due notice, upon appeal to the commissioner of public welfare. Such hearing shall be conducted by a referee designated by the commissioner at a location convenient to the person appealing and shall be conducted as an adjudicatory proceeding under chapter thirty A. Any referee so designated is hereby empowered to subpoena witnesses, administer oaths, take testimony and secure the production of such books, papers, records and documents as may be relevant to such hearing. The decision of the referee, when approved by the commissioner, shall be the decision of the department and shall be subject to review in accordance with the provisions of said chapter thirty A.

When a hearing is requested because of termination or reduction of assistance, involving an issue of fact, or of judgement relating to the individual case, between the agency and the appellant, assistance will be continued during the period of the appeal and through the end of the month in which the final decision on the hearing is reached. If assistance has been terminated prior to timely request for fair hearing, assistance will be reinstated.

SECTION 12. Said chapter 18 is hereby further amended by inserting after section 17 the following sections: —

Section 18. In any case where the department is obligated to pay any sums in excess of the approved budget because of an arrearage incurred by the recipient, under any of the programs administered by the department, the department shall be reimbursed in a manner not inconsistent with the federal social security act by deducting the amount of said arrearage from future budget payments to the recipient over a predetermined period of time. Such deduction shall not exceed five per cent of the recipient's total budget allowance.

In any case in which aid is provided for the purpose of purchasing furniture under chapter one hundred and seventeen or one hundred and eighteen to a family with an unemployed father or a father whose whereabouts is unknown, said father shall be liable for reimbursement to the department for the amount of such payment if he is subsequently found to be gainfully employed.

Section 19. In the case of an emergency or where a recipient is evicted from a furnished or partially furnished apartment and does not have sufficient basic furniture to set up housekeeping such furniture may be authorized by the department after investigation by the social worker and determination by the district supervisor that a need exists. The department shall make every effort to relocate the recipient in housing similar to that from which the recipient was removed. Where economically desirable, the department may enter into contract for the quantity purchase of such furniture.

Section 20. The department may, after approval by the commissioner, authorize the purchase of a home by a recipient where suitable public or private rental accommodations cannot be found.

The department shall have a lien on the property so purchased to the extent of assistance granted toward the purchase of such home. In no event shall such authorization be given for the purchase of income producing property.

Section 21. The department shall be subrogated to the rights to support and maintenance of any welfare recipient to the extent of any payments made by the department to such recipient. If no probate

court order is outstanding, the department may, in its own name, initiate nonsupport proceedings in the appropriate probate court. The department shall institute contempt proceedings under the provisions of section thirty-four A of chapter two hundred and fifteen in the name of the recipient in the event that any order of support made by the probate court concerning any recipient under a petition for separate support or a libel for divorce has not been complied with. If no probate court order is outstanding, the department shall in its own name apply for a complaint and initiate nonsupport proceedings in the appropriate district court under section one of chapter two hundred and seventy-three.

Section 22. For the purpose of considering the recipient's need for services, as described in section two, each social worker shall make periodic visits to each recipient assigned to such work at the following intervals:

(*a*) In the case of a recipient of assistance under chapter one hundred and eighteen A, such visits shall be made at least once within a twelve month period.

(*b*) In the case of a recipient of assistance under chapter one hundred and eighteen D, such visits shall be made at least once in every six month period.

(*c*) In the case of a recipient of assistance under chapter one hundred and eighteen, such visits shall be made at least once in every three month period.

During such periodic visits the social worker shall, in addition to reevaluating the recipient's eligibility, inspect the housing as to suitability for habitation and make inquiry to determine whether the rent or utility payments are in arrears.

A suitable form provided by the department, indicating the date, time and place of such visit and certifying that the recipient is aware of his responsibility to report immediately to the community service center or branch office serving his area any changes in his circumstances which may affect his eligibility, shall be signed by the recipient and retained by the social worker.

Failure on the part of any social worker to make such visits as provided herein may be the basis for an appeal by the recipient as set forth in section sixteen. Such failure shall also be grounds for disciplinary action against the social worker in accordance with provisions set forth in chapter thirty-one.

Section 23. The duties of the social worker shall include but not be limited to the following:

1. Investigating the eligibility and extent of the applicant's need and developing a plan of social assistance in accordance with section two.

2. Where necessary, obtaining documentary evidence pertaining to eligibility and resources of applicant, such as records of birth, marriage, property and monetary resources.

3. Assisting applicants and recipients in utilizing financial, health and social service resources and in realizing potentialities for rehabilitation within the family.

4. Visiting foster homes to interview both the foster parents and the foster children to determine the development and adjustment of the foster children. Periodic visits shall also be made to the schools that the foster children may be attending.

Section 24. In determining the caseload of each social worker the department shall endeavor to maintain an average of one hundred and eighty work units for each social worker. For this purpose, each service case shall be valued at three units and each nonservice case shall be valued at one unit.

For the purposes of this section, a nonservice case shall be defined as one in which assistance is limited solely to financial aid. All other cases shall be considered service cases.

Section 25. The department shall provide case aides whose employment shall not be subject to chapter thirty-one, but whose salaries shall not exceed those of persons employed in similar status under said chapter. Such case aides shall be trained to assist the social worker in the performance of his duties. Particular emphasis in recruiting such case aides shall be focused on the full time or part time employment of recipients and other persons of low income; provided, however, that wherever, as a condition of receiving federal grants for programs and activities to which the federal standards for a merit system of personnel administration relate, federal requirements make necessary the application of the civil service law and rules to any such position, said position shall be subject to chapter thirty-one.

Section 26. The department may, upon the written request of any person, trust, corporation, or housing authority, that operates or manages any federal, state or municipally subsidized housing or housing project, pay directly to said manager or operator the rent of recipients of public assistance by deducting an amount equal to the rent from the amount otherwise payable to said recipients; provided, however, that the department receives written notification from the code enforcement agency of the city or town that the housing conforms to the minimum requirements established by said agency. The recipient shall have a right of appeal, as provided in section sixteen, to any decision made by the department regarding direct rent payment under this section.

Section 27. The department may, upon the written request of the landlord in the case of a recipient who is in arrears in his rent payment for two consecutive months, pay directly to said landlord, after inspection by the department and written notification by the code enforcement agency of the city or town that the housing conforms to the minimum requirements established by said agency. An amount equal to the rent shall be deducted from the amount otherwise payable to said recipient.

The department may, upon the written request of any recipient, pay directly to any landlord the rent of recipients of public assistance by deducting the amount of the rent from the amount otherwise payable to the recipient provided, however, that the department receives written notification from the code enforcement agency of the city or town that the housing conforms to the minimum requirements established by said agency. The recipient shall have a right of appeal, as provided in section sixteen, to any decision made by the department regarding direct rent payment under this section. In any event, the department shall cause a complaint to be filed in accordance with the provisions of section one hundred and twenty-seven C of chapter one hundred and eleven, in cases where a recipient's housing accommodations are unsafe, unsanitary or not in conformity with local housing codes.

SECTION 13. Section seventeen of said chapter eighteen, inserted by chapter five hundred and forty-one of the acts of nineteen hundred and sixty-eight, is hereby repealed.

SECTION 14. Chapter 117 of the General Laws is hereby amended by inserting after section 1A the following section: —

Section 1B. If the applicant is a male between the ages of eighteen and sixty-two years, the department shall require that said applicant submit, with his application for aid or assistance, evidence from the division of employment security that said applicant has registered for work at a local employment office of the division.

No person shall be eligible for aid or assistance under this chapter who willfully fails without good cause, as determined by the department, to maintain his registration for work as provided in the first paragraph of this section or to accept a referral to or offer of suitable employment. He shall be required to report to the department information with respect to any job to which he has been referred. The department shall, not less frequently than once every three months, request verification from the division of employment security of an applicant's record with that agency.

This section shall not prevent the department, in its discretion, from giving prompt and suitable temporary aid pending compliance with the requirements of this section. No individual shall be considered ineligible for aid or assistance because of failure to comply with the provisions of this section, if such failure is due to illness or disability. In no event shall such failure affect the eligibility of minor children for assistance under this chapter.

No recipient of assistance under chapter one hundred and eighteen A or one hundred and eighteen D, or female recipients of assistance with dependent children under high school age, shall be subject to the provisions of this section.

SECTION 15. Said chapter 117 is hereby amended by striking out section 5, as most recently amended by section 11 of chapter 658 of the acts of 1967, and inserting in place thereof the following section: —

Section 5. A person shall be liable in contract to the commonwealth for expenses incurred by it under this chapter for his support, to which he was not entitled; provided action is commenced against such person within six years next after the date when said person last received support or assistance under this chapter or chapter one hundred and eighteen A. The executor or administrator of such person shall likewise be liable for such expenses, but in any action therefor the defense of the statute of limitations shall not be available to the executor or administrator except as provided in chapter one hundred and ninety-seven.

If relief or support under this chapter is necessary as a result of an accident, injury or illness for which moneys are expected to be provided by accident or health insurance, workmen's compensation, or otherwise, the department shall require the person in need of such relief or support to provide for the reimbursement of the commonwealth for each day of such relief or support by assigning to the commonwealth an equivalent amount of the moneys to be so realized for such day; but such assignment shall not operate as a lien on moneys to be so realized for any day for which relief or support is not provided. Such assignment may be enforced by petition to the district court within the jurisdiction of which the person resides.

SECTION 16. Said chapter 117 is hereby further amended by striking out section 24A, as most recently amended by section 22 of said chapter 658, and inserting in place thereof the following section: —

Section 24A. If hospital care is furnished to a person in need of public assistance by any person not liable by law for his support, the commonwealth shall be liable for the expense of such care necessarily incurred under this chapter after notice and request made in writing and signed by such person to the commissioner of public welfare, and until provision is made by the department; but the commonwealth shall not be liable in a sum exceeding the maximum amount set by the rate setting commission in accordance with section thirty L of chapter seven for like hospital care. The commonwealth shall be liable under this section for hospital care furnished to such a person during a period not exceeding thirty days prior to such request.

SECTION 17. Sections twenty-nine and thirty-one of said chapter one hundred and seventeen are hereby repealed.

SECTION 18. Chapter 118 of the General Laws is hereby amended by striking out section 2, as most recently amended by section 28 of chapter 658 of the acts of 1967, and inserting in place thereof the following section: —

Section 2. The department shall aid a parent in properly bringing up, in his or her own home, each dependent child but no aid shall be granted under this chapter for or on account of any child unless such child resides in the commonwealth. The aid furnished shall be sufficient to enable such parent to bring up such child or children properly in his or her own home, and shall be in an amount to be determined in accordance with budgetary standards of the department, and shall be granted from the date of application therefor. Such assistance shall be paid by cash or in check and shall be paid semimonthly in advance unless the applicant prefers less frequent payments. The amount of such assistance shall not be reduced by the amount of any payment for support due from an absent parent through a court order or otherwise, but said payment from the absent parent shall be made to the department in accordance with section twenty-seven of chapter thirty.

Payment for funeral expenses of any such parent or dependent child in his or her custody may be paid directly to the person furnishing such services. Payment for other services rendered to such parent or dependent child in his or her custody may be paid directly to the person furnishing such services only when such payment is effected to meet an expense which remained unpaid at the time of the death of the parent or his commitment to an institution as an insane person or in a case where such payment is necessary to discharge an obligation incurred by the department in securing such services for such parent or dependent child. Nothing in this chapter shall be construed as authorizing any public official, agent or representative, in carrying out any provision of this chapter, to take charge of any child over the objection of the father or the mother of such child, or of the person standing in loco parentis to such child, except pursuant to a proper court order.

The department may pay a sum, not exceeding three hundred dollars, for the burial of a recipient providing the cost of burial does not exceed five hundred dollars and there are insufficient resources to pay for the cost of such burial. Any resources of a recipient shall be deducted from the maximum cost of the burial allowable hereunder and the difference,

subject to the limitation set forth in this paragraph, shall be paid by the department.

SECTION 19. Said chapter 118 is hereby further amended by inserting after section 2A the following section: —

Section 2B. Every application for assistance made under this chapter shall be in writing on application forms prescribed by the commissioner and shall include but not be limited to the following: the name, age and residence of the applicant; the name, date and place of birth of each dependent; the social security number of the applicant, the spouse and all dependent children over sixteen years of age; a list of any motor vehicle or trailer owned by the applicant or dependent; wages, salaries, pensions, fees, tips, bonuses and all other sources of income of all such persons; said application form shall include a statement not inconsistent with federal regulations giving consent to the department to investigate all facts related to the applicant's eligibility for assistance.

The application form prescribed in paragraph one shall contain a statement that it is signed by the applicant under the penalties of perjury.

SECTION 20. Said chapter 118 is hereby further amended by striking out section 3, as most recently amended by section 30 of chapter 658 of the acts of 1967, and inserting in place thereof the following section: —

Section 3. Except as hereinafter provided, the department shall determine what aid is necessary to enable such parent to bring up such child or children. For this purpose, the department shall make an immediate and careful inquiry, including the resources of the family and ability of its other members, if any, to work or otherwise contribute to its support, the existence of relatives able to assist the family and societies or agencies who may be interested therein; shall, in any case involving a missing parent who is a father, require the applicant or recipient to furnish in writing under the penalties of perjury, complete information within the knowledge of such applicant or recipient pertinent to the location of said missing father; shall take all lawful means to locate said missing father; shall take all lawful means which shall include, in appropriate cases, the institution of criminal proceedings, to compel all persons bound to support such parents and such child or children to support them, and to enforce any other legal rights for their benefit; shall encourage all members of the family who are able to work, to secure work; shall help them to find work; and shall secure all necessary aid for such parent and such child or children which can be secured from relatives or organizations; provided, however, that any exemption now or hereinafter permissible under the federal Social Security Act relative to earned income may be allowed.

If the applicant is an unemployed father or a dependent male sixteen years of age or over who is not in school, nor gainfully employed, nor in training, the department shall require that the applicant shall meet the provisions of section one B of chapter one hundred and seventeen. An individual who is attending an industrial retraining course or other vocational training course, provided by the department of education or the commonwealth or political subdivision thereof or such other industrial or vocational training course which in the opinion of the department will serve as a means of realizing employment, shall be deemed to be

available for work for purposes of establishing and maintaining eligibility for assistance.

A female recipient whose youngest dependent is attending high school or is of high school age shall be referred to the division of employment security as provided in paragraph two of this section or shall be enrolled in any vocational training program as provided in paragraph two of this section; provided, however, that a recipient shall not be compelled by the department to be trained or to be employed in domestic service, nor required to accept such employment if such employment would require her to work between the hours from six o'clock postmeridian of one day and six o'clock antemeridian of the following day. In no case shall a recipient, if a female, be required to seek or accept employment as a condition for eligibility when a mental or physical disability of a dependent child requires her presence at home.

No individual shall be considered ineligible for aid or assistance because of failure to comply with the provisions of this chapter if such failure is due to illness or disability. The preceding two paragraphs shall not apply to any recipients under chapter one hundred and eighteen A or one hundred and eighteen D nor to female recipients of assistance under this chapter with dependent children under high school age. In no event shall such failure to comply with the provisions of this section affect the eligibility of minor children for assistance under this chapter.

SECTION 21. Section 5 of said chapter 118, as most recently amended by section 33 of said chapter 658, is hereby further amended by striking out the first sentence.

SECTION 22. The third paragraph of section 11 of said chapter 118, as amended by section 36 of said chapter 658, is hereby further amended by striking out, in line 4, the word "may" and inserting in place thereof the word: — shall.

Section 5A. The ownership or possession by an applicant or recipient of assistance under this chapter of cash or securities or other personal property readily convertible into cash, or of a deposit in a savings bank or similar institution, not exceeding, in the aggregate, one thousand dollars, shall not prevent or otherwise affect the payment of assistance under this chapter to the applicant or recipient or create any obligation on the part of either the recipient or his estate to refund any part of the assistance rendered.

SECTION 25. Chapter 118D of the General Laws is hereby further amended by striking out section 7, as most recently amended by section 62 of said chapter 658, and inserting in place thereof the following section: —

Section 7. The ownership or possession by an applicant or recipient of assistance under this chapter of cash or securities or other personal property readily convertible into cash, or of a deposit in a savings bank or similar institution, or of cash surrender value of life insurance policies,

not exceeding, in the aggregate, one thousand dollars, shall not prevent or otherwise affect the payment of assistance under this chapter to the applicant or recipient or create any obligation on the part of either the recipient or his estate to refund any part of the assistance rendered. In the event of ownership of a policy or policies of life insurance, which policy or policies are assignable and on which the total cash surrender value exceeds one thousand dollars, such applicant or recipient shall not be disqualified if a proper assignment thereof is made to the commonwealth, if the department so requires, in the amount by which such total cash value exceeds one thousand dollars for repayment to it of the actual amount of assistance given under the provisions of this chapter, without interest; and further provided, that no such assignment shall be required in the case of any policy for which premium payments have been made by a person other than the applicant or recipient of assistance under this chapter for a period of five or more years prior to the date of application, unless the cash surrender value exceeds twelve hundred dollars. "Policy of insurance", as used in this section, shall include a benefit certificate having a cash surrender value if such certificate is assignable.

SECTION 26. Said chapter 118D is hereby further amended by striking out section 14, as most recently amended by section 65 of said chapter 658, and inserting in place thereof the following section: —

Section 14. Every person who has received assistance from a city or town or from the department under this chapter, to which he was not entitled, shall be liable in an action of contract to the commonwealth for the amount of such assistance received, and the estate of every person who dies, having received such assistance from a city or town or from the commonwealth within six years prior to his death, shall be liable to the commonwealth therefor and such liability shall be a debt of his estate and may be enforced in the same manner as other debts of deceased persons. The department shall determine whether any action should be brought under this section. The commonwealth shall succeed to and shall have all rights of enforcement of any cause of action which shall have accrued to any city or town for or on account of any payments made by a city or town under this chapter.

If relief or support under this chapter is necessary as a result of an accident, injury or illness for which moneys are expected to be provided by accident or health insurance, workmen's compensation, or otherwise, the department shall require the person in need of such relief or support to provide for the reimbursement of the commonwealth for each day of such relief or support by assigning to the commonwealth an equivalent amount of the moneys to be so realized for such day; but such assignment shall not operate as a lien on moneys to be so realized for any day for which relief or support is not provided. Such assignment may be enforced by petition to a district court within the jurisdiction of which the person resides. Proceeds realized through the enforcement of this section shall be apportioned between the federal government and the commonwealth in proportion to the amount of their respective contributions thereto, but in no case for more than the amount contributed, without interest.

SECTION 27. Chapter 66 of the General Laws is hereby amended by striking out section 17A, as most recently amended by section 4 of

chapter 535 of the acts of 1966, and inserting in place thereof the following section: —

(16) Approve and license public and private facilities in accordance with section one hundred and thirty-one; and

(17) Do all other acts and things necessary or convenient to carry out the powers expressly granted to it for the exercise of its powers and the performance of its duties.

Section 131. The division shall issue for a term of two years, and may renew for like terms, a license, subject to revocation by it for cause, to any person, partnership, corporation, society, association or other agency or entity of any kind, other than a licensed general hospital or a department, agency or institution of the federal government, the commonwealth or any political subdivision thereof, deemed by it to be responsible and suitable to establish and maintain a facility and to meet applicable licensure standards and requirements. In the case of a department, agency or institution of the commonwealth or any political subdivision thereof, the division shall grant approval to establish and maintain a facility for a term of two years, and may renew such approval for like terms, subject to revocation by it for cause. The commissioner shall promulgate rules and regulations establishing licensure and approval standards and requirements, but such standards and requirements shall concern only:

(1) the health standards to be met by a facility,

(2) misrepresentations as to the treatment to be afforded patients at a facility,

(3) licensing fees, and

(4) procedures for making and approving license applications.

Each facility shall file with the division from time to time, on request, such data, statistics, schedules or information as the division may reasonably require for the purposes of this section, and any licensee or other person operating a private facility who fails to furnish any such data, statistics, schedules or information as requested, or who files fraudulent returns thereof, shall be punished by a fine of not more than five hundred dollars.

The division, after holding a hearing in accordance with sections ten through thirteen, inclusive, of chapter thirty A, may refuse to grant, suspend, revoke, limit or restrict the applicability of or refuse to renew any license or approval for the following reasons only:

(1) for failure to meet the requirements of its rules and regulations concerning the health standards of such facilities or

(2) if there is a reasonable basis for the division to conclude that there is a discrepancy between representations by a facility as to the treatment services to be afforded patients and the treatment services actually rendered or to be rendered. The division may temporarily suspend a license or approval in an emergency without holding a prior hearing; provided, however, that upon request of an aggrieved party, a hearing in accordance with sections ten through thirteen, inclusive, of chapter thirty A shall be held as soon after the license or approval is suspended as possible. Any party aggrieved by a final decision rendered by the director or a hearings officer after a hearing of the division pursuant to this section may petition for judicial review thereof in accordance with the provisions of section fourteen of chapter thirty A.

No person, partnership, corporation, society, association, or other agency, or entity of any kind, other than a licensed general hospital, a department, agency or institution of the federal government, the commonwealth or any political subdivision thereof, shall operate a facility without a license and no department, agency or institution of the commonwealth or any political subdivision thereof shall operate a facility without approval from the division pursuant to this section. The superior court shall have jurisdiction in equity upon petition of the division to restrain any violation of the provisions of this section and to take such other action as equity and justice may require to enforce its provisions.

Whoever knowingly establishes or maintains a private facility other than a licensed general hospital without a license granted pursuant to this section shall, for a first offense, be punished by a fine of not more than five hundred dollars and for each subsequent offense by a fine of not more than one thousand dollars or imprisonment for not more than two years, or both.

Each facility shall be subject to visitation and inspection by the division and the division shall inspect each facility prior to granting or renewing a license or approval. The division may examine the books and accounts of any facility if it deems such examination necessary for the purposes of this section.

The division is hereby authorized to make a complaint to a district court or to a justice of the superior court, who may thereupon issue a warrant to any officers or employees of the division authorizing them

to enter and inspect at reasonable times, and to examine the books and accounts of, any private facility refusing to consent to such inspection or examination by the division which the division has reason to believe is operating in violation of the provisions of sections one hundred and twenty-five to one hundred and forty-three, inclusive. Refusal by the operator or owner to allow such entry and inspection pursuant to such a warrant shall for a first offense be punished by a fine of not more than one hundred dollars and for each subsequent offense by a fine of not more than one thousand dollars or imprisonment for not more than two years, or both.

For the purposes of this section, the term facilities shall include penal facilities.

Section 132. Any person who believes that he is a drug dependent person may apply for admission to a facility. Such application may be directed either to the director or to the administrator of a public or private facility.

Upon receipt by the director of an application for admission, he shall designate a psychiatrist or, if, in the discretion of the director, it is impracticable to do so, a physician to make an examination of the person to determine whether or not he is a drug dependent person who is a drug addict who would benefit by treatment, or a drug dependent person who is not a drug addict but who would benefit by treatment. The psychiatrist or physician shall report his findings in writing to the director after the completion of the examination, stating the facts upon which the findings are based and the reasons therefor.

If the director finds that the person is a drug dependent person who is a drug addict who would benefit by treatment and that adequate treatment is available at an appropriate facility, he may cause him to be admitted to the facility as an inpatient; provided, however, that if adequate inpatient treatment is not available at an appropriate facility, the person may be admitted as an outpatient until such time as adequate and appropriate inpatient treatment is available.

If the director finds that the person is a drug dependent person who is not a drug addict but who would benefit by treatment and that adequate treatment is available at an appropriate facility, he may cause him to be admitted to the facility as an outpatient; provided, however, that the person may at his request be admitted as an inpatient if the director finds that he is a proper subject for an inpatient program.

In determining whether to admit to a facility a person who is reported to be a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment the director shall consider the past record of treatment, if any, afforded the person at a facility, and whether or not the person complied with the terms of any prior admission made pursuant to this section.

The administrator may transfer any inpatient to an outpatient program if he finds that the patient is a proper subject for an outpatient program; provided, however, that the administrator may return any such patient to an inpatient program if he deems it appropriate. A patient originally admitted to a facility as an outpatient under this section shall not be transferred to an inpatient program without his written consent.

Each patient admitted under this section shall be subject to the supervisory powers of the administrator exercised in accordance with rules and regulations promulgated by the division.

Before causing a person to be admitted to a facility, the director may make a recommendation to the person as to the period deemed necessary to accomplish adequate and appropriate treatment. In the case of a drug dependent person who is a drug addict, the period shall not exceed one year. In the case of a drug dependent person who is not a drug addict, the period shall not exceed six months. The director shall also notify the person of the nature of the treatment to be afforded and the facility to which he will be admitted. If the person consents in writing to the admission to the facility, the period deemed necessary to accomplish treatment and the nature of the treatment, he may be admitted to a facility.

If the director decides that the applicant is to be refused admission to a facility because he is not either a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment or because adequate treatment is not available at an appropriate facility, he shall make known in writing to the applicant the basis for his decision.

In the case of an application for admission made to the administrator of a public facility, or a private facility with which the division contracts on a fee-for-services basis pursuant to clause (4) of section one hundred and thirty, other than a halfway house, the administrator shall follow the same procedures regarding admission, transfer, and discharge as those prescribed in this section for the director. In the case of an application for admission made to the administrator of a private facility with which the division does not contract on a fee-for-services basis pursuant to clause (4) of section one hundred and thirty other than a halfway house, the administrator shall follow such procedures regarding admission, transfer, and discharge as are provided for by rules and regulations to be promulgated by the division; provided, however, that when an application is made to the administrator of any facility pursuant to this section, and the administrator determines that his facility is unable to furnish the applicant adequate and appropriate treatment, he may request the assistance of the director in placing the applicant in another facility at which adequate and appropriate treatment is available. If the director determines that the facility is unable to furnish adequate and appropriate treatment to said applicant, he shall provide the administrator with such assistance.

A patient admitted to a facility under this section may receive treatment at the facility so long as the administrator believes that it will continue to benefit him. Any patient may, at any time, notify the administrator in writing that he wishes to terminate treatment. Upon receipt of any such notification the administrator shall determine whether further treatment would benefit the patient, and shall inform the patient of his determination. If the administrator determines that he would not benefit by such further treatment, the patient shall be discharged from the facility. If the administrator determines he would so benefit, he shall so advise the patient. If the patient chooses to terminate treatment despite the determination by the administrator

that the patient would benefit by further treatment at the facility, the administrator shall notify the director that the patient has caused treatment to be terminated during the recommended period against the advice of the administrator. If the patient applies for readmission for treatment in any facility, the fact that treatment has been terminated during the recommended period against the advice of the administrator may be considered in determining whether or not to readmit him, and, in the event that the patient is readmitted, in determining to which facility he should be readmitted for treatment.

Section 133. Any facility may afford emergency treatment to a drug dependent person or a person in need of immediate assistance due to the use of a dependency related drug if the person requests such treatment. The term of emergency treatment shall not exceed forty-eight hours without compliance with the provisions of section one hundred and thirty-two relating to procedures for admission to a facility; provided, however, that if prior to the termination of the emergency treatment period the person applies for admission pursuant to section one hundred and thirty-two, he may, in the discretion of the administrator, continue to receive treatment at the facility while his application is under consideration.

Section 134. Any defendant who is charged with a drug offense shall, upon being brought before the court on such charge, be informed that he is entitled to request an examination to determine whether or not he is a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment, and that if he chooses to exercise such right he must do so in writing within five days of being so informed.

For the entire period during which the request is under consideration by the court, the criminal proceedings shall be stayed.

If the defendant requests an examination, the court shall appoint a psychiatrist, or if it is, in the discretion of the court, impracticable to do so a physician, to conduct the examination at an appropriate location designated by it. In no event shall the request for such examination, any statement made by the defendant during the course of the examination or any finding of the psychiatrist or physician be admissible against the defendant in any criminal proceedings.

The psychiatrist or physician shall report his findings in writing to the court within five days after the completion of the examination, stating the facts upon which the findings are based and the reasons therefor.

If the defendant is also charged with a violation of any law other than a drug offense, the stay of the criminal proceedings shall be vacated upon the report of the psychiatrist or physician, the report shall be considered upon disposition of the charge in accordance with sections one hundred and thirty-five and one hundred and thirty-six, and the remaining provisions of this section shall not apply.

If the defendant is not also charged with a violation of any law other than a drug offense, and if the psychiatrist or physician reports that the defendant is a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment, the court shall

inform the defendant that he may request commitment to the division, and advise him of the consequences of the commitment and that if he is so committed the criminal proceedings will be stayed for the term of such commitment.

If the defendant requests commitment and if the court determines that he is a drug dependent person who is a drug addict who would benefit by treatment, the court may stay the criminal proceeding and commit him to the division as an inpatient. An order committing a person who is determined to be a drug dependent person who is a drug addict under this section shall specify the period of commitment, which shall not exceed two years.

If the defendant requests commitment and if the court determines that he is a drug dependent person who is not a drug addict but who would benefit by treatment, the court may stay the criminal proceeding and commit him to the division as an outpatient; provided, however, that the commitment may be as an inpatient if the court determines that the defendant is a proper subject for an inpatient program. An order committing a person who is determined to be a drug dependent person who is not a drug addict under this section shall specify the period of commitment, which shall not exceed one year.

In determining whether or not to grant a request for commitment under this section, the court shall consider the report, the past criminal record of the defendant, the availability of adequate and appropriate treatment at a facility, the nature of the offense with which the defendant is charged including, but not limited to, whether the offense charged is that of a sale or sale to a minor, and any other relevant evidence.

In the event that the defendant requests commitment, and if the court determines that the defendant is a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment, and the defendant is charged with a first drug offense not involving the sale or manufacture of narcotic or harmful drugs, and there are no continuances outstanding with respect to the defendant pursuant to this section, the court shall order that the defendant be committed to the division without consideration of any other factors.

If the defendant requests commitment, and if the court determines that the defendant is a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment, and the defendant is charged with a first drug offense not involving the sale or manufacture of narcotic or harmful drugs, and there are no continuances outstanding with respect to the defendant pursuant to this section, and adequate and appropriate treatment at a facility is not available, the stay of criminal proceedings shall remain in effect until such time as adequate and appropriate treatment at a facility is available.

In all other cases, a commitment order shall not be made unless adequate and appropriate treatment is available at a facility; provided, however, that the court may in its discretion order that the stay of criminal proceedings remain outstanding until such time as adequate and appropriate treatment is available.

In the event that the stay of the criminal proceedings remains in effect for the reason that adequate and appropriate treatment at a facility is not available, the issue of the availability of adequate and appropriate treatment at a facility may be reopened at any time by way of motion by the court, the prosecutor, or the attorney for the defendant.

In no event shall any defendant be committed pursuant to this section unless the defendant consents in writing to the terms of the commitment order.

If the psychiatrist or physician reports that the defendant is not a drug dependent person who is a drug addict who would benefit by treatment or drug dependent person who is not a drug addict but who would benefit by treatment, the defendant shall be entitled to request a hearing to determine whether or not he is a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment. The court may of its own motion, or shall, upon request of the defendant or his counsel, appoint an independent psychiatrist, or if it is impracticable to do so, an independent physician, to examine the defendant and testify at the hearing. If the court determines that the defendant is a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment, the procedures and standards applicable to a defendant who is determined by the court, following the report of the first examining psychiatrist or physician to be a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment, shall apply to the defendant.

If the court does not commit the defendant to a facility, the stay of the criminal proceedings shall be vacated.

At any time during the term of commitment, the administrator may transfer any inpatient to an outpatient program if he finds that the patient is a proper subject for an outpatient program; provided, however, that the administrator may retransfer the patient to an inpatient program if he finds that the person is not suitable for outpatient treatment.

Any patient committed under this section may apply in writing to the director for discharge or transfer either from inpatient to outpatient treatment or from one facility to another; provided, however, that no more than one such application may be made in any three-month period. Upon receipt of an application for discharge or transfer, the director shall give written notice to the patient of his right to a hearing and to be represented by counsel at the hearing.

Within ten days of the receipt by the director of an application for discharge, the administrator and an independent psychiatrist, or, if none is available, an independent physician, designated by the director to make an examination of the patient shall report to the director as to whether or not the patient would benefit from further treatment at a facility. If the director determines that the patient would no longer so benefit, the patient's application for discharge shall be granted. If the director does not so determine said application shall be denied.

Within ten days of the receipt by the director of an application for transfer, the administrator shall report to the director as to whether the patient is a proper subject for the transfer for which he has made application. If the director determines that the patient is a proper subject for the transfer, the patient's application for transfer shall be granted. If the director does not so determine, said application shall be denied.

Determination by the director as to discharge and transfer pursuant to this section shall be made after holding a hearing in accordance with sections ten and eleven of chapter thirty A, unless the hearing is waived in writing. The determination of the director shall be subject to judicial review upon petition of any aggrieved patient pursuant to section fourteen of chapter thirty A; provided, however, that the director shall file the record of the proceeding within fourteen days of the service of the petition upon him.

At the end of the commitment period, when the patient is discharged, or when the patient terminates treatment at the facility, whichever first occurs, the director shall report to the court on whether or not the defendant successfully completed the treatment program, together with a statement of the reasons for his conclusion. In reaching his determination of whether or not the defendant successfully completed the treatment program, the director shall consider, but shall not be limited to, whether the defendant cooperated with the administrator and complied with the terms and conditions imposed on him during his commitment. If the report states that the defendant successfully completed the treatment program, or if the defendant completes the term of treatment ordered by the court, the court shall dismiss the charges pending against the defendant. If the report does not so state, or if the defendant does not complete the term of treatment ordered by the court, then, based on the report and any other relevant evidence, the court may take such action as it deems appropriate, including the dismissal of the charges or the revocation of the stay of the criminal proceedings.

As to any defendant determined by the court pursuant to this section to be a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict who would benefit by treatment, concerning whom the court does not order commitment in lieu of prosecution, the court may, in the event that such person is convicted of the criminal charges, order that he be afforded treatment pursuant either to section one hundred and thirty-five or section one hundred and thirty-six.

Section 135. Any person found guilty of a violation of any law other than a drug offense, who, prior to disposition of the charge, states that he is a drug dependent person and requests an examination, shall be examined by a psychiatrist or, if, in the discretion of the court, it is impracticable to do so, by a physician, to determine whether or not he is a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment.

If the defendant has previously been examined, pursuant to a request for an examination made in accordance with section one hundred and thirty-four, the report of the physician or psychiatrist

who conducted the examination shall serve as the examination provided for under this section.

The examination shall be conducted at any appropriate location upon appropriate order of the court. In no event shall the request for such examination or any statement made by the defendant during the course of the examination or any finding of the psychiatrist or physician be admissible against the defendant in any criminal proceeding. The psychiatrist or physician shall report in writing to the court within five days after the completion of the examination, stating the facts upon which the report is based and the reasons therefor.

If the report states that the defendant is a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment, and if the court orders that the defendant be confined to a jail, house of correction, prison, or other correctional institution, the court may further order that the defendant be afforded treatment at a penal facility for the whole or any part of the term of imprisonment; provided, however, that the court shall determine the term of treatment to be afforded with the advice of the administrator of the penal facility; and provided, further, that the court shall not order that the defendant be afforded treatment at a penal facility unless the defendant consents to the order in writing. The administrator may terminate treatment of the defendant at such time as he determines the defendant will no longer benefit by treatment.

If the report states that the defendant is not either a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment, the defendant shall be entitled to request a hearing on whether or not he is a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment. If the court determines that he is a drug dependent person who is a drug addict who would benefit by treatment, or that he is a drug dependent person who is not a drug addict but who would benefit by treatment, and if the court orders that the defendant be confined to a jail, house of correction, prison, or other correctional institution, the court may order that the defendant be afforded treatment at a penal facility in accordance with the standards and procedures set forth in this section.

If the court does not order that the defendant be confined to a jail, house of correction, prison, or other correctional institution, the court may order that the defendant be afforded treatment pursuant to section one hundred and thirty-six.

Section 136. Any court may, in placing on probation a defendant who is a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment, impose as a condition of probation that the defendant receive treatment in a facility as an inpatient or outpatient; provided, however, that the court shall not impose such a condition of probation unless, after consulting with the division, it determines that adequate treatment at an appropriate

facility is available. The defendant shall receive treatment at the facility for so long as the administrator of the facility deems that the defendant will benefit by treatment, but in no event shall he receive treatment at the facility for a period longer than the period of probation ordered by the court. If at any time during the period of treatment the defendant does not cooperate with the administrator or the probation officer, or does not conduct himself in accordance with the order or conditions of his probation, the administrator or the probation officer may make a report thereon to the court which placed him on probation, which may consider such conduct as a breach of probation.

Section 137. The division shall accept for treatment juveniles and youthful offenders referred to the division by the department of youth services. Application by the department of youth services for such referral shall be made to the director.

Upon receipt by the director of a request for referral from the youth service board, he shall designate a psychiatrist or, if in the discretion of the director it is impracticable to do so, a physician, to make an examination of the person to be referred to determine whether or not he is a drug dependent person who is a drug addict who would benefit by treatment, or a drug dependent person who is not a drug addict but who would benefit by treatment. The psychiatrist or physician shall report his findings in writing to the director after the completion of the examination, stating the facts upon which the findings are based and the reasons therefor.

If the director finds that the person is a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment and that adequate treatment is available at an appropriate facility, he may recommend to the department of youth services that the person be admitted to the facility as an inpatient or an outpatient.

In determining whether to admit to a facility a person who is reported to be a drug dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment, the director shall consider the past record of treatment, if any, afforded the person at a facility, and whether or not the person complied with the terms of any prior admission.

If the director decides to admit to a facility a juvenile or youthful offender pursuant to this section, he shall recommend to the department of youth services the period deemed necessary to accomplish adequate and appropriate treatment. In the case of a drug dependent person who is a drug addict, the period shall not exceed one year. In the case of a drug dependent person who is not a drug addict, the period shall not exceed six months. The director shall also notify the department of youth services of the nature of the treatment to be afforded and the facility to which the person will be admitted. If the department of youth services consents in writing to admission to the facility, to the nature of the treatment to be afforded, and to the period deemed necessary to accomplish treatment, the person shall be admitted to the facility.

If the director decides that the referral to the division is to be refused because the juvenile or youthful offender is not either a drug

dependent person who is a drug addict who would benefit by treatment or a drug dependent person who is not a drug addict but who would benefit by treatment or because adequate treatment is not available at an appropriate facility, he shall make known in writing to the department of youth services the basis for his decision.

The referral to the division shall terminate at the conclusion of the period of treatment to which the department of youth services consents, or upon a determination by the director that the juvenile or youthful offender will no longer benefit by treatment, whichever first occurs. If the director determines before the conclusion of the period of treatment to which the department of youth services consents that the juvenile or youthful offender will no longer benefit by treatment, he shall make known in writing to the department of youth services the basis for his decision.

Juveniles and youthful offenders referred to the division pursuant to this section shall remain subject to the jurisdiction and control of the department of youth services for all purposes, including, but not limited to, discharge and release; provided, however, that the treatment to be afforded the juvenile and youthful offenders referred to the division shall be within the jurisdiction and control of the division. In no event, however, shall a juvenile or youthful offender be referred for a period longer than the period during which he is subject to the jurisdiction and control of the department of youth services.

Section 138. Each finding, determination and order required to be made by any court pursuant to sections one hundred and twenty-five to one hundred and forty-three, inclusive, and the reasons therefor, shall be in writing and entered in the record of the proceeding.

Section 139. The director may require the administrator of a public facility or a private facility with which the division contracts on a fee-for-services basis pursuant to clause (4) of section one hundred and thirty, other than a halfway house, to admit as an inpatient or an outpatient any person for whom, in the determination of the director, adequate and appropriate treatment is available at the facility. The commissioner shall promulgate rules and regulations governing the extent to which the director may require the administrator of a private facility with which the division does not contract on a fee-for-services basis pursuant to clause (4) of section one hundred and thirty, other than a halfway house, to admit as an inpatient or outpatient any person for whom, in the determination of the director, adequate and appropriate treatment is available at the facility.

Section 140. Each person who receives treatment at a facility shall be subject to the supervisory powers of the administrator exercised in accordance with rules and regulations promulgated by the division.

Section 141. Any patient in a public facility, or the estate, spouse or adult child of such patient, or, if the patient is a minor, the parent of such patient if of sufficient financial ability, shall be liable to such facility for the cost of maintenance and treatment of the patient therein in accordance with rates established pursuant to sections thirty K to thirty P, inclusive, of chapter seven. If a person is a patient in a private facility pursuant to an agreement between the facility and the division, and neither the patient nor the estate, spouse or adult child of such patient, or, if the patient is a minor, the parent of such patient is of sufficient financial ability to pay the cost of

maintenance and treatment of the patient therein, and the patient is not entitled to the payment of such cost from any other source, the division shall pay the cost of such maintenance and treatment in accordance with rates established pursuant to sections thirty K to thirty P, inclusive, of chapter seven.

The division shall promulgate rules and regulations governing financial ability which shall take into consideration the income, savings and other personal and real property of the person required to pay, as well as any support actually being furnished by him to any person whom he may be required by law to support.

Section 142. (a) The administrator of each facility shall keep a record of the treatment afforded each patient, which shall be confidential and shall only be made available upon judicial order, whether in connection with pending judicial proceedings or otherwise.

(b) Any patient shall have the right to have a physician retained by him examine him, consult privately with his attorney, receive visitors, and send and receive communications by mail, telephone and telegraph. Such communications shall not be censored or read without the consent of such patient. The foregoing shall not limit the right of the administrator, subject to reasonable rules and regulations of the division, to prescribe reasonable rules governing visiting hours and the use of telephone and telegraph facilities.

(c) No patient may be detained at any facility, other than a penal facility, without his consent except in accordance with the provisions of section thirteen.

(d) Insofar as is practicable, a written, comprehensive, individualized treatment plan shall be kept by the administrator for each patient.

(e) Each patient shall be entitled to receive adequate and appropriate treatment.

Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 897 of the Acts of 1969, entitled "AN ACT FURTHER REGULATING THE ASSESSMENT TO THE CITY OF BOSTON OF THE COST OF CERTAIN SERVICE OF THE MASSACHUSETTS BAY TRANSPORTATION AUTHORITY." and the enactment of which received my approval on August 29, 1969, should take effect forthwith.

This law establishes a more equitable formula than the one presently in effect for apportioning the operating deficit of the Massachusetts Bay Transportation Authority among the communities served by the Authority. So that this more equitable formula may be realized without unnecessary delay, I declare this law is an emergency law and the above facts constitute the emergency.

Sincerely,

FRANCIS W. SARGENT,
Acting Governor of the Commonwealth.

OFFICE OF THE SECRETARY, BOSTON, September 2, 1969.

I, John F. X. Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Acting Governor of the Commonwealth of Massachusetts at eleven o'clock and eleven minutes, A.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter eight hundred and ninety-seven of the acts of nineteen hundred and sixty-nine.

JOHN F. X. DAVOREN,

The board shall pay to the city of Boston an amount equal to the appraised value of any land of said city acquired by the board pursuant to the provisions of this act. Such appraised value shall be determined by an independent appraisal made by one or more qualified, disinterested appraisers engaged by the board pursuant to section two. Such funds may be expended in addition to those made available by this act.

SECTION 7. The provisions of chapter four hundred and eighty-eight of the acts of nineteen hundred and twenty-four, as amended, and all other general and special laws or parts thereof, which prohibit, restrict, limit or regulate the height, bulk, location or use of buildings, and the provisions of the Boston Building Code and of ordinances of the city of Boston shall be inapplicable to any building, structure, tunnel or facility constructed under this act.

Before engaging such consultant services under said subsidiary title "03", as so coded, as "professional", the board or the director of building construction, as the case may be, shall certify to the budget director that funds are available for the purpose and shall then file a statement of intent with the budget director, the comptroller and the house and senate committees on ways and means. SECTION 10. The state treasurer may borrow from time to time on the credit of the commonwealth such sums of money as may be necessary for the purpose of meeting payments as authorized by section two, and may issue and renew from time to time notes of the commonwealth therefor, bearing interest payable at such times and at such rates as shall be fixed by the state treasurer. Such notes shall be issued and may be renewed one or more times for such terms, not exceeding one year, as the governor may recommend to the general court in accordance with Section 3 of Article LXII of the Amendments to the Constitution of the Commonwealth, but the final maturities of such notes, whether original or renewal, shall not be later than June thirtieth, nineteen hundred and seventy-four. Said bonds shall bear interest semiannually at such rate as the state treasurer, with the approval of the governor, shall fix. The initial maturities of such bonds shall be payable not later than one year from the date of issue thereof and the entire issue not later than June thirtieth, nineteen hundred and ninety-five. *Approved August 29, 1969.*

Chap. 899. AN ACT RELATIVE TO PLANS OF ACQUISITION IN RESPECT OF STOCK OF TRUST COMPANIES.

Be it enacted, etc., as follows:

Chapter 167A of the General Laws is hereby amended by inserting after section 4 the following section: —

Section 4A. 1. A company having capital stock divided into shares which desires to acquire all the capital stock of one or more corporations, organized under or subject to the provisions of chapter one hundred and seventy-two, shall, together with such corporation or corporations, submit in duplicate to the commissioner a written plan of acquisition of such stock. Such plan shall be in form satisfactory to the commissioner, shall specify each corporation the stock of which is to be ac-

quired by the company and shall prescribe the terms and conditions of the acquisition and the mode of carrying it into effect, including the manner of exchanging the shares of each of the corporations for shares or other securities of the company. Any such plan may provide for the payment of cash in lieu of the issuance of fractional shares of the company. At the time of submitting said written plan of acquisition of stock, an investigation fee of two hundred fifty dollars shall be paid to the commissioner by the company.

There shall also be submitted, in duplicate, with said plan of acquisition of stock, a certificate of the president or clerk or secretary of the company, certifying that such plan has been approved by the board of directors or other governing body of his company by a majority vote of all the members thereof, and a certificate of the president, secretary or treasurer of each corporation, the acquisition of all the capital stock of which is provided for, certifying that such plan has been approved by the board of directors of his corporation by a majority vote of all the members thereof, and that such plan was thereafter submitted to the stockholders of such corporation at a meeting thereof held upon notice of at least fifteen days, specifying the time, place and object of such meeting and addressed to each stockholder at the address appearing upon the books of the corporation and published at least once a week for two successive weeks in one newspaper in the county in which such corporation has its principal place of business and that such plan has been approved at such meeting by the vote of stockholders owning at least two thirds in amount of the stock of such corporation.

2. The commissioner shall examine the plan of acquisition of stock so submitted, and after making such investigation thereof as he deems appropriate he shall within sixty days after receipt thereof (*i*) either approve or disapprove such plan of acquisition in case such company is not, and would not upon the effectiveness of such plan become, a bank holding company, or (*ii*) submit such plan of acquisition, together with his recommendations in regard thereto, to the board of bank incorporation in case such company is, or would upon the effectiveness of such plan become, a bank holding company. In approving any such plan, the commissioner may attach such conditions thereto as he deems advisable.

3. At the time of submission to the commissioner of the written plan of acquisition of stock, the company shall, in case such plan requires the approval of the board of bank incorporation, file a petition with said board for approval of such plan, including the right to vote the stock of each corporation the acquisition of all the capital stock of which is provided for in such plan, and said board shall hold a public hearing thereon pursuant to the provisions of chapter thirty A. Such hearing shall be held within sixty days of the time of submission to said board of the commissioner's recommendations in respect to such plan. In determining whether or not to approve said petition the decision of the board shall be based on a finding whether or not competition among banking institutions will be unreasonably affected, and whether or not public convenience and advantage will be promoted. Such decision shall be rendered within sixty days of the conclusion of the public hearing and shall be subject to review in the manner provided for in chapter thirty A.

4. If the commissioner or the board of bank incorporation, as the case may be, shall approve such plan of acquisition, the commissioner or such board shall endorse his or its approval thereon and a copy of the plan bearing such endorsement shall be filed within thirty days thereafter in the office of the commissioner or such board, as the case may be. Upon such filing, the plan, and the acquisition or acquisitions provided for therein, shall become effective, unless a later date is specified in the plan, in which event the plan and such acquisition or acquisitions shall become effective upon such later date.

5. A stockholder of any such corporation which shall have approved such plan of acquisition, who objects to such action, in the manner provided in section eighty-six of chapter one hundred and fifty-six B, shall be entitled, if such plan shall have become effective, to demand payment for his stock from the company and an appraisal thereof in accordance with the provisions of sections eighty-six to ninety-eight, inclusive, of chapter one hundred and fifty-six B, which provisions, as modified for the purposes of this paragraph by the provisions hereof, are hereby made applicable in all such cases, and such stockholder and the company shall have the rights and duties and follow the procedure set forth in said sections. For the purposes of this paragraph, in applying the provisions of said sections eighty-six to ninety-eight, such corporation shall be deemed to have been merged into the company as a result of such plan and the company shall be deemed to be the resulting or surviving corporation.

6. Any corporation organized under or subject to the provisions of chapter one hundred and seventy-two shall have power to organize a company for the purposes contemplated by this section; and in connection with such organization and the development of a plan of acquisition any such corporation may incur organization and other expenses in such amounts, in the aggregate, not exceeding two per cent of its capital stock, surplus account and guaranty fund, as the commissioner may approve.

7. Any such company shall engage directly or indirectly only in such activities as are now or may hereafter be proper activities for bank holding companies registered under the Federal Bank Holding Company Act of 1956, including, without limiting the generality of the foregoing, the issuance and sale of commercial paper.

THE COMMONWEALTH OF MASSACHUSETTS

OFFICE OF THE SECRETARY

BOSTON, December 5, 1968.

I Hereby Certify that the foregoing is the Ninetieth Article of Amendment of the Constitution of this Commonwealth, as approved by the People at the State Election held on the fifth day of November in the year one thousand nine hundred and sixty-eight, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution.

JOHN F. X. DAVOREN,

AMENDMENT OF THE CONSTITUTION

1968

ARTICLE OF AMENDMENT OF THE CONSTITUTION

OF

MASSACHUSETTS

adopted by the Legislature of the political year one thousand nine hundred and sixty-six, and by the Legislature of the political year one thousand nine hundred and sixty-seven, agreeably to the provisions of the Constitution, and approved by the people on the fifth day of November in the year one thousand nine hundred and sixty-eight.

NINETY-FIRST ARTICLE OF AMENDMENT.

ARTICLE XCI. Whenever the governor transmits to the president of the senate and the speaker of the house his written declaration that he is unable to discharge the powers and duties of his office, the office of governor shall be deemed to be vacant within the meaning of this Constitution.

Whenever the chief justice and a majority of the associate justices of the supreme judicial court, or such other body as the general court may by law provide, transmit to the president of the senate and the speaker of the house their written declaration that the governor is unable to discharge the powers and duties of his office, the office of governor shall be deemed to be vacant within the meaning of this Constitution.

Thereafter, in either of the above cases, whenever the governor transmits to the president of the senate and the speaker of the house his written declaration that no inability exists such vacancy shall be deemed to have terminated four days thereafter and the governor shall resume the powers and duties of his office unless the chief justice and a majority of the associate justices of the supreme judicial court, or such other body as the general court may by law provide, transmit within said four days to the president of the senate and the speaker of the house their written declaration that the governor is unable to discharge the powers and duties of his office. Thereupon the general court shall decide the issue, assembling within forty-eight hours for that purpose if not in session. If the general court within twenty-one days after receipt of the latter written declaration, or, if the general court is not in session, within twenty-one days after the general court is required to assemble, determine by a vote, taken by yeas and nays, of two thirds of each house present and voting thereon, that the

governor is unable to discharge the powers and duties of his office, the office of governor shall continue to be deemed to be vacant; otherwise such vacancy shall be deemed to have terminated and the governor shall resume the powers and duties of his office.

The above provisions shall be applicable to the lieutenant governor when the lieutenant governor in case of a vacancy is performing all the duties incumbent upon the governor as provided in this Constitution.

If a vacancy in the office of governor, as described in this Article, continues for six months and if such six-month period expires more than five months prior to a biennial state election other than an election for governor, there shall be an election of governor at such biennial state election for the balance of the unexpired four-year term.

PROPOSAL FOR A LEGISLATIVE AMENDMENT TO THE CONSTITUTION PROVIDING FOR A CENSUS OF THE POPULATION IN THE YEAR NINETEEN HUNDRED AND SEVENTY-ONE AND THE APPORTIONMENT, ON THE BASIS OF SAID CENSUS, OF THE COMMONWEALTH INTO TWO HUNDRED AND FORTY EQUAL REPRESENTATIVE DISTRICTS AND FORTY EQUAL SENATORIAL DISTRICTS.

A majority of all the members elected to the Senate and House of Representatives, in joint session, hereby declares it to be expedient to alter the Constitution by the adoption of the following Article of Amendment, to the end that it may become a part of the Constitution [if similarly agreed to in a joint session of the next General Court and approved by the people at the state election next following]:

ARTICLE OF AMENDMENT.

ARTICLE . *Section 1.* In the year nineteen hundred and seventy-one and every tenth year thereafter a census of the inhabitants of each city and town shall be taken. Said census shall specify the number of inhabitants residing in each precinct of each town and in each precinct and ward of each city. Said census shall be the basis for determining the representative districts for the ten year period beginning with the first Wednesday in the fourth January following the taking of said census; provided that such districts as established in the year nineteen hundred and sixty-eight shall continue until the first Wednesday in January in the year nineteen hundred and seventy-five.

The house of representatives shall consist of two hundred and forty members. The general court shall, at its first regular session after the year in which said census was taken, divide the commonwealth into two hundred and forty representative districts of contiguous territory so that each representative will represent an equal number of inhabitants, as nearly as may be; and such districts shall be formed, as nearly as may be, without uniting two counties or parts of two or more counties, two towns or parts of two or more towns, two cities or parts of two or more cities, or a city and a town, or parts of cities and towns, into one district; provided, however, that the county of Dukes county and Nantucket county shall each be a representative district. Such districts shall also be so formed that no town containing less than six thousand inhabitants according to said census shall be divided. The general court may by law limit the time within which

judicial proceedings may be instituted calling in question any such division. Every representative, for one year at least immediately preceding his election, shall have been an inhabitant of the district for which he is chosen, and shall cease to represent such district when he shall cease to be an inhabitant of the commonwealth. The manner of calling and conducting the elections for the choice of representatives, and of ascertaining their election, shall be prescribed by law.

Section 2. Each census of inhabitants required in section one shall likewise be the basis for determining the senatorial districts and also the councillor districts for the ten year period beginning with the first Wednesday in the fourth January following the taking of such census; provided that such districts as established prior to the year nineteen hundred and seventy-one shall continue until the first Wednesday in January in the year nineteen hundred and seventy-five. The senate shall consist of forty members. The general court shall, at its first regular session after the year in which said census is taken, divide the commonwealth into forty districts of contiguous territory, each district to contain, as nearly as may be, an equal number of inhabitants according to said census; and such districts shall be formed, as nearly as may be, without uniting two counties, or parts of two or more counties, into one district. The general court may by law limit the time within which judicial proceedings may be instituted calling in question such division. Each district shall elect one senator, who shall have been an inhabitant of this commonwealth five years at least immediately preceding his election, and at the time of his election shall be an inhabitant of the district for which he is chosen; and he shall cease to represent such senatorial district when he shall cease to be an inhabitant of the commonwealth.

Section 3. Articles XXI and XXII of the Amendments to the Constitution, as appearing in Article LXXI of said Amendments, are hereby annulled.

RETURN OF VOTES ON QUESTION NO. 2, BEING A LEGISLATIVE AMENDMENT TO THE CONSTITUTION, SUBMITTED UNDER THE PROVISIONS OF ARTICLE XLVIII OF THE AMENDMENTS TO THE CONSTITUTION TO THE VOTERS OF THE COMMONWEALTH AT THE STATE ELECTION HELD NOVEMBER 5, 1968.

Votes on Question No. 2 (Proposed Amendment to the Constitution).

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in a joint session of the two branches held August 30, 1966, received 188 votes in the affirmative and 46 in the negative and in a joint session of the two branches held May 10, 1967, received 174 votes in the affirmative and 78 in the negative?

Summary.

The proposed amendment of the Constitution authorizes the Legislature to impose an income tax graduated according to total income, and authorizes the granting of reasonable exemptions, deductions and abatements, as an alternative to the exercise of the Legislature's existing power to tax income under Article 44 of the Amendments to the Constitution. Without limiting the foregoing authorization, the proposed amendment permits any such tax to be imposed at a uniform percentage of an individual's federal income tax liability or at graduated rates applied to his total income taxable federally, and it permits reasonable variations of any federal provision. It requires that the graduated rates, exemptions, and deductions be set without regard to the kind of income being taxed.

RETURN OF VOTES ON QUESTION NO. 3, BEING A LEGISLATIVE AMENDMENT TO THE CONSTITUTION, SUBMITTED UNDER THE PROVISIONS OF ARTICLE XLVIII OF THE AMENDMENTS TO THE CONSTITUTION TO THE VOTERS OF THE COMMONWEALTH AT THE STATE ELECTION HELD NOVEMBER 5, 1968.

Votes on Question No. 3 (Proposed Amendment to the Constitution).

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in a joint session of the two branches held July 20, 1966, received 225 votes in the affirmative and 1 in the negative, and in a joint session of the two branches held June 15, 1967, received 210 votes in the affirmative and 2 in the negative?

Summary.

The proposed amendment of the Constitution defines the circumstances in which a Governor's inability to perform his functions shall cause his office to become vacant, and it establishes a procedure for making the necessary determinations. The office will become vacant following a declaration of disability by the Governor himself or by the Chief Justice and a majority of the Associate Justices of the Supreme Judicial Court, or such other body as the Legislature may provide. The vacancy will terminate four days after the Governor declares that no disability exists, unless (1) within that period the Chief Justice and majority of the Associate Justices, or such other body provided by the Legislature, should make a contrary declaration and (2) within another stated period the Legislature, by two-thirds of each branch present and voting, then determines the issue contrary to the Governor's declaration.

The same procedure will also apply to a Lieutenant Governor who in the case of a vacancy is performing the Governor's duties.

The proposed amendment also requires the election of a Governor for the unexpired balance of the four-year term if a vacancy in the office of Governor as described in the proposed amendment continues for a six-month period expiring more than five months prior to a biennial state election other than an election for Governor.

RETURN OF VOTES ON QUESTION NO. 4, BEING A LEGISLATIVE AMENDMENT TO THE CONSTITUTION, SUBMITTED UNDER THE PROVISIONS OF ARTICLE XLVIII OF THE AMENDMENTS TO THE CONSTITUTION TO THE VOTERS OF THE COMMONWEALTH AT THE STATE ELECTION HELD NOVEMBER 5, 1968.

Votes on Question No. 4 (Law Proposed by Initiative Petition).

Do you approve of a law summarized below, upon which the House of Representatives did not vote and upon which the Senate did not vote?

Summary.

The proposed law provides that the official ballot in the biennial State election for the year 1970 shall contain a question asking the voters whether there shall be a convention in 1971 to (1) revise, alter or amend the Constitution of the Commonwealth on the following subjects, insofar as they relate to the structure of government, and no others: the Executive Branch; the General Court; the Executive Council; the government of cities, towns and counties and their relationship to each other and to the government of the Commonwealth; (2) simplify and rearrange the constitution, and (3) provide methods of amendment thereof. The question will state that the convention shall not consider or propose any measure which relates to the Massachusetts Declaration of Rights, the provisions of the Massachusetts constitution concerning the "Judiciary Power" (other than provisions respecting the Executive Council), or any of the excluded matters enumerated in Article XLVIII, II, Section 2 of the Massachusetts constitution. The question will fix the number of delegates to the convention at 150, of whom 20 members shall be members of the General Court; the remaining 130 members shall be elected by the voters in the manner summarized below. The question will also state that the convention shall conclude its business not later than 120 days from its first session.

The proposed law provides that if a majority of the votes on the foregoing question is in the affirmative, the convention shall be held in July, 1971 to revise, alter or amend the constitution on the matters enumerated above only. The House of Representatives and the Senate shall each elect as delegates 10 of its members, not more than 6 from each branch coming from the same political party. Of the remaining 130 delegates, 10 shall be elected at large and 120 shall be elected from the 40 senatorial districts, 3 from each. Provision is made for the manner of nominating and electing these 130 delegates, without party or political designation, for filling vacancies occurring in the position of any delegate, from whatever source chosen, and for the conduct of the convention's business.

Any revisions, alterations and amendments of the Massachusetts constitution adopted by the convention shall be submitted to the people at the State election in 1972 for their ratification and adoption in such manner as the convention may direct. If a majority of the people voting thereon ratify and adopt such revision, alteration or amendment, the constitution shall be deemed to be changed accordingly.

The proposed law also provides that if the vote on the question to be submitted at the biennial State election in 1970 is in the affirmative, the Governor shall appoint a preparatory commission of 5 members to compile data to aid the convention in the discharge of its duties. Each member of

the commission shall receive compensation of $10,000 and the commission may expend a sum not in excess of $200,000, as the Governor may approve, for its expenses.
