The votes upon said question shall be received, sorted, counted, declared and transmitted to the secretary of the commonwealth, laid

before the governor and council, and by them opened and examined, in accordance with the laws relating to votes for state officers so far as they are applicable. The governor shall, by public proclamation, on or before the first Wednesday in January in the year following said state election make known the result by declaring the number of votes in the affirmative and the number in the negative; and if it shall appear that a majority of said votes is in the affirmative, it shall be deemed and taken to be the will of the people that such a convention be called and held to revise, alter or amend the constitution on such subjects and on no others, and in his proclamation the governor shall call upon the general court and the people to choose and elect delegates to the convention in the manner prescribed by this act.

SECTION 2. The number of delegates to be chosen and elected to the convention shall be one hundred and fifty, of whom ten shall be chosen by ballot of the house of representatives on or before the last Tuesday in February in the year nineteen hundred and seventy-one and shall be, at the time chosen, members of the house of representatives but no more than six of the same political party; ten shall be chosen by ballot of the senate on or before the said day and shall be, at the time chosen, members of the senate but no more than six of the same political party; ten shall be elected at large in the manner prescribed by this act; and one hundred and twenty be elected by the forty senatorial districts of the commonwealth existing on the effective date of this act, to wit, three by each district, in the manner prescribed by this act.

The number of delegates of each class for which the voter has the right to vote shall appear on the official ballot. The names of candidates for the office of delegate in each class shall be printed upon the official ballot in the order in which they may be drawn by the secretary of the commonwealth, whose duty it shall be to make such drawing before each election and to give each candidate an opportunity to be present at such drawing personally or by one representative. No party or political designation shall appear on said ballot.

SECTION 6. The persons chosen and elected delegates shall meet in convention in the State House in Boston, or at such other location within the commonwealth as the governor shall direct by special proclamation, on the second Monday in July in the year nineteen hundred and seventy-one. They shall be the judges of the returns and election of their own members and may adjourn from time to time and hold sessions in other places within the commonwealth. If at any time a vacancy occurs in the convention for any cause in the office of delegate chosen by ballot of the representatives or of the senators, the president of the convention shall forthwith notify the speaker of the house, if the vacancy is in the office of delegate chosen by ballot of the representatives, or the president of the senate, if the vacancy is in the office of delegate chosen by ballot of the senators, and the vacancy shall be filled by appointment of a member of the house or of the senate, according to the nature of the vacancy, by the speaker of the house or the president of the senate so notified. Seventy-six of the persons chosen and elected shall constitute a quorum for the transaction of business. The delegates shall be called to order by the governor, and shall proceed to organize themselves in convention by choosing a president and such other officers and such committees as they may deem expedient and by establishing rules of procedure; and when organized they may take into consideration the propriety and expediency of revising, altering or amending the

present constitution of the commonwealth in accordance with the provisions of Section one. And provided further, that the convention shall conclude its business no later than one hundred and twenty calendar days from its first session, Saturdays, Sundays, and holidays included. Any such revisions, alterations, and amendments made and adopted by the said convention shall be submitted to the people at the state election in the year nineteen hundred and seventy-two for their ratification and adoption in such manner as the convention shall direct and if so ratified and adopted by a majority of the people voting on such revision, alteration and amendment, the constitution shall be deemed and taken to be revised, altered and amended accordingly; and if not so ratified and adopted the present constitution shall be and remain in such respect the constitution of the commonwealth.

SECTION 7. The convention shall be provided, at the expense of the commonwealth, with suitable quarters and facilities for exercising its functions. It shall establish the compensation of its officers and members, which shall not exceed one thousand dollars for each member of the convention. It shall, subject to the approval of the governor, provide for such other expenses of its officers and members and for its session as it shall deem expedient, and shall cause to be prepared and issued a statement briefly setting forth such arguments as the convention may see fit relative to any revision, alteration or amendment of the constitution adopted by it.

If the Massachusetts Bar Association or the Boston Bar Association shall fail to furnish a list for the selection of such person or persons, the governor shall appoint in lieu of such person or persons a member or members of the Massachusetts bar. No more than three of the members of said commission shall be members of the same political party. The governor shall designate one of the members to act as chairman. If any vacancy shall occur in the membership of said commission the governor shall forthwith appoint any citizen of the commonwealth as a successor. The commission shall compile and render accessible, in convenient form and arrangement, such information, data and material as may aid the convention in the discharge of its duties. Each member of the commission shall receive as compensation the sum of ten thousand dollars. In the discharge of its duties, the commission may incur such expenses for research, legal, clerical, printing, travel and other purposes as the governor may approve, not to exceed in all the sum of two hundred thousand dollars. The provisions

of the law relating to civil service shall not apply to persons employed by said commission. The commission shall be provided with suitable accommodations in the state house or in other premises owned or leased by the commonwealth and shall have the same right of access to the state library as the members of the general court.

SECTION 10. The secretary of the commonwealth is hereby directed to transmit forthwith printed copies of this act to the selectmen of each town and the mayor of each city within the commonwealth; and whenever the governor shall issue his proclamation, calling upon the people to elect delegates, the secretary shall also, immediately thereafter, transmit printed copies of said proclamation, attested by him, to the selectmen and mayors.

THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, STATE HOUSE,
BOSTON, February 6, 1969.

The Honorable JOHN F. X DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 2 of the Acts of 1969, entitled "AN ACT PROVIDING THAT PUBLIC EMPLOYEES WHO ARE MEMBERS OF THE ARMED FORCES OF THE COMMONWEALTH OR OF RESERVE COMPONENTS OF THE ARMED

FORCES OF THE UNITED STATES BE RELEASED FROM WORK FOR CERTAIN DRILLS." and the enactment of which received my approval on February 5, 1969, should take effect forthwith.

I further declare that in my opinion said law is an emergency law and the facts constituting the emergency are as follows:

It would enable a number of persons getting out of the service, who are potential police or firefighters, to take a "make up" exam within the next three months rather than postponing the same if they thought their reserve meetings would hinder their initial service.

Sincerely,

FRANCIS W. SARGENT,
Acting Governor of the Commonwealth.

I, John F. X. Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Acting Governor of the Commonwealth of Massachusetts at four o'clock, P M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter two of the acts of nineteen hundred and sixty-nine

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 37 of the Acts of 1969, entitled "AN ACT PLACING THE SUPERVISION OF MINK RANCHES UNDER THE DEPARTMENT OF AGRICULTURE" and the enactment of which received my approval on February 28, 1969, should take effect forthwith.

The Honorable JOHN F. X. DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts.*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 117 of the Acts of 1969, entitled "An Act REPEALING THE PROVISIONS OF LAW PROHIBITING APPLICANTS WHO FAIL TO PASS A CIVIL SERVICE EXAMINATION FROM TAKING THE SAME EXAMINATION WITHIN SIX MONTHS." and the enactment of which received my approval on April 1, 1969, should take effect forthwith

I further declare that in my opinion said law is an emergency law and the facts constituting the emergency are as follows:

Due to the extreme shortage of applicants in certain instances, the provision stating applicants who fail to receive a passing score in an examination may not compete again in the written portion of the same examination within six months following the original date of taking the examination has been found to be unnecessarily restrictive.

Sincerely,

FRANCIS W. SARGENT,
Acting Governor of the Commonwealth.

OFFICE OF THE SECRETARY, BOSTON, April 2, 1969.

I, John F. X. Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Acting Governor of the Commonwealth of Massachusetts at nine o'clock and forty-four minutes, A.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter one hundred and seventeen of the acts of nineteen hundred and sixty-nine.

THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, STATE HOUSE,
BOSTON, April 1, 1969.

The Honorable JOHN F X. DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts.*

DEAR MR. SECRETARY. — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 118 of the Acts of 1969, entitled "An Act EXTENDING THE TIME WITHIN WHICH CERTAIN VIETNAM VETERANS MAY BE ELIGIBLE TO TAKE CIVIL SERVICE EXAMINATIONS." and the enactment of which received my approval on April 1, 1969, should take effect forthwith.

Under the present law, Vietnam veterans may take an examination which they missed while in the military service if a request is made within 90 days of discharge.

It has been brought to my attention that 90 days is not sufficient time and this Act would allow 120 days in which time Vietnam veterans could request a make-up examination. Further, it would make the Massachusetts law consistent with the Federal law.

Sincerely,

FRANCIS W. SARGENT,
Acting Governor of the Commonwealth.

OFFICE OF THE SECRETARY, BOSTON, April 2, 1969.

I, John F. X. Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Acting Governor of the Commonwealth of Massachusetts at nine o'clock and forty-five minutes, A.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter one hundred and eighteen of the acts of nineteen hundred and sixty-nine.

THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, STATE HOUSE,
BOSTON, May 28, 1969.

The Honorable JOHN F. X. DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts.*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 193 of the Acts of 1969, entitled "AN ACT ESTABLISHING ELIGIBILITY FOR CERTAIN MEMBERS OF THE UNIFORMED BRANCH OF THE DIVISION OF STATE POLICE IN THE DEPARTMENT OF PUBLIC SAFETY TO TAKE PROMOTIONAL EXAMINATIONS." and the enactment of which received my approval on April 17, 1969, should take effect forthwith.

I further declare that in my opinion said law is an emergency law and the facts constituting the emergency are as follows:

Competitive promotional examinations will be coming up very shortly and postponement of the operation of this act would unfairly

penalize candidates who would be eligible for the next scheduled examination.

Sincerely,

FRANCIS W. SARGENT,

THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, STATE HOUSE,
BOSTON, May 6, 1969.

The Honorable JOHN F. X. DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts.*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 258 of the Acts of 1969, entitled "AN ACT PROVIDING THAT A CITY OR TOWN CLERK SHALL CERTIFY THE DOMICILE OF A VETERAN FOR PURPOSES OF THE VIETNAM BONUS ACT." and the enactment of which received my approval on May 6, 1969, should take effect forthwith.

I further declare that in my opinion said law is an emergency law and the facts constituting the emergency are as follows: —

The original act for the Vietnam bonus gave the duty for certifying the domicile of a veteran to an assessor. This act would give this duty to the clerk of a municipality since he has the appropriate records indicating the domicile of a person or veteran.

Postponement of the operation of this act would defeat its purpose which is to expedite the awarding of claims under the Vietnam Bonus Act.

Sincerely,

FRANCIS W. SARGENT,
Acting Governor of the Commonwealth.

OFFICE OF THE SECRETARY, BOSTON, May 6, 1969.

I, John F. X. Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Acting Governor of the Commonwealth of Massachusetts at two o'clock and five minutes, P.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter two hundred and fifty-eight of the acts of nineteen hundred and sixty-nine.

JOHN F. X. DAVOREN,
Secretary of the Commonwealth.

BOSTON, May 14, 1969.

The Honorable JOHN F. X. DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts.*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 284 of the Acts of 1969, entitled "AN ACT AUTHORIZING THE WILKINSONVILLE WATER DISTRICT TO ACQUIRE CERTAIN PROPERTY RIGHTS, EASEMENTS AND FRANCHISES OF THE SUTTON WATER COMPANY." and the enactment of which received my approval on May 9, 1969, should take effect forthwith.

THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, STATE HOUSE,
BOSTON, May 20, 1969.

The Honorable JOHN F. X. DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts.*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 320 of the Acts of 1969, entitled "AN ACT AUTHORIZING CERTAIN EDUCATIONAL INSTITUTIONS TO APPOINT PARKING CONTROL OFFICERS." and the enactment of which received my approval on May 20, 1969, should take effect forthwith.

I further declare that in my opinion said law is an emergency law and the facts constituting the emergency are as follows:

This bill empowers college or university police to ticket cars and issue parking violations. This authority has been restricted to the local police. Illegal parking around college and university campuses is so severe that to have the police at these campuses the ones who do the ticketing, would not only tend to lessen the situation but would also take some of the load from the local police.

Sincerely,

FRANCIS W. SARGENT,
Acting Governor of the Commonwealth.

OFFICE OF THE SECRETARY, BOSTON, May 21, 1969.

I, John F. X. Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Acting Governor of the Commonwealth of Massachusetts at nine o'clock and thirty minutes, A.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter three hundred and twenty of the acts of nineteen hundred and sixty-nine.

JOHN F. X. DAVOREN,
Secretary of the Commonwealth.

Approved May 30, 1969.

Chap. 361. AN ACT INCREASING THE EXCISE UPON CIGARETTES FOR THE PURPOSE OF MEETING THE DEBT SERVICE OBLIGATIONS OF THE COMMONWEALTH.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to provide funds immediately through an increase in the excise upon cigarettes, in order to meet the debt service obligations of the commonwealth, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. Section 6 of chapter 64C of the General Laws is hereby further amended by striking out the second and fourth sentences, as appearing in section 22 of chapter 14 of the acts of 1966, and inserting in place thereof, respectively, the following two sentences: — Such licensee shall, at the time of filing such return, pay to the commissioner an excise equal to six mills for each cigarette so sold during the calendar month covered by the return; provided, that cigarettes with respect to which the excise under this chapter has once been imposed and has not been refunded, if paid, shall not be subject upon a subsequent sale to the excise imposed by this chapter. Each unclassified acquirer shall, upon importation or acquisition of cigarettes into or within the commonwealth, file with the commissioner a return under penalties of perjury, on a form to be furnished by the commissioner, stating the number of cigarettes imported or acquired and such other information as the commissioner shall require, and shall, at the time of filing such return, pay to the commissioner an excise equal to six mills for each cigarette so imported or acquired and held for sale or consumption, and cigarettes, with respect to which such excise has been imposed and has not been refunded if paid, shall not be subject, when subsequently sold, to any further excise under this chapter.

SECTION 2. Every manufacturer, wholesaler, vending machine operator, unclassified acquirer or retailer, as defined in section one of chap-

ter sixty-four C of the General Laws, who, at the commencement of business on the day next following the effective date of this act, has on hand any cigarettes for sale or any unused adhesive or meter stamps, shall make and file with the commissioner of corporations and taxation within twenty days thereafter a return, subscribed under the penalties of perjury, showing a complete inventory of such cigarettes and stamps, and shall, at the time he is required to file such return, pay an additional excise at the rate of one mill per cigarette on all cigarettes and all unused adhesive and meter stamps upon which an excise of only five mills has previously been paid. All provisions of said chapter sixty-four C, relative to the assessment, collection, payment, abatement, verification and administration of taxes, including penalties, shall, so far as pertinent, be applicable to the excise imposed by this section. All sums received under this section, including penalties, forfeitures, interest, costs of suits and fines, shall be credited to the General Fund and shall be used solely toward meeting the debt service obligation of the General Fund.

SECTION 3. Section 30 of said chapter 64C, as appearing in section 5 of chapter 435 of the acts of 1966, is hereby amended by striking out the third paragraph and inserting in place thereof the following paragraph: —

Every such stamper who has complied with the provisions of this chapter and the pertinent rules and regulations made thereunder may withhold and retain from each payment to be made by him for such stamps, as compensation for service rendered in compliance with this chapter, one dollar and sixty cents for each six hundred cigarette excise adhesive or meter stamps purchased, and a proportionate amount for any fraction thereof.

THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, STATE HOUSE,
BOSTON, June 5, 1969.

The Honorable JOHN F. X. DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts.*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion

the immediate preservation of the public convenience requires that the law being Chapter 390 of the Acts of 1969, entitled "AN ACT INCREASING THE AMOUNT OF MONEY WHICH THE COUNTY COMMISSIONERS OF MIDDLESEX COUNTY MAY BORROW FOR THE CONSTRUCTING AND EQUIPPING OF A COURTHOUSE FOR THE FIRST DISTRICT COURT OF NORTHERN MIDDLESEX." and the enactment of which received my approval on June 5, 1969, should take effect forthwith.

I further declare that in my opinion said law is an emergency law and the facts constituting the emergency are as follows:

This project is now ready to proceed and to unnecessarily delay the operation of this act for 90 days would defeat its purpose which is to allow for the construction and equipping of this much needed facility.

Sincerely,

FRANCIS W. SARGENT,
Acting Governor of the Commonwealth.

I, John F. X. Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Acting Governor of the Commonwealth of Massachusetts at nine o'clock and forty-six minutes, A.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter three hundred and ninety of the acts of nineteen hundred and sixty-nine.

Approved June 24, 1969.

THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, STATE HOUSE,
BOSTON, June 24, 1969.

The Honorable JOHN F. X. DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts.*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 447 of the Acts of 1969, entitled "AN ACT AUTHORIZING ASSESSORS TO APPOINT ASSISTANT ASSESSORS WHO ARE NON-RESIDENTS OF THE CITY OR TOWN IN WHICH THEY ARE TO SERVE." and the enactment of which received my approval on June 24, 1969, should take effect forthwith.

I further declare that in my opinion said law is an emergency law and the facts constituting the emergency are as follows:

Because of the intensive revaluation of real estate that is going on in many cities and towns in the Commonwealth, these cities and towns have a great need for competent assessors. In many cases these communities cannot find qualified assessors within their own community. Delay in the availability of non-residents to serve as assessors would result in many communities losing the benefit of qualified assistance.

Sincerely,

FRANCIS W. SARGENT,
Acting Governor of the Commonwealth.

OFFICE OF THE SECRETARY, BOSTON, June 25, 1969.

I, John F. X. Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Acting Governor of the Commonwealth of Massachusetts at eleven o'clock and fifty-five minutes, A.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter four hundred and forty-seven of the acts of nineteen hundred and sixty-nine.

JOHN F. X. DAVOREN,
Secretary of the Commonwealth.

Chap. 469. AN ACT TEMPORARILY SUSPENDING CERTAIN PROVISIONS OF LAW RELATIVE TO DISCLOSURE IN CONSUMER CREDIT TRANSACTIONS.

Whereas, Federal legislation and accompanying regulations covering disclosure in consumer credit transactions, known as the truth-in-lending law, became effective on July one in the current year; and

Whereas, State laws cover the same field; and

Whereas, Until state laws are brought into conformity with the federal law and regulations, or until the state laws are repealed, the burden of compliance with both federal and state laws on the same subject will result in great confusion and uncertainty; and

Whereas, Action on pending legislation on the subject was not completed by the general court prior to said July one; and

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to suspend forthwith the penalty provisions of the state laws for failure to comply with the disclosure provisions relative to "truth-in-lending" until the general court repeals said laws or until the state laws are in substantial conformity with the federal law and regulation; therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

Compliance with Regulation Z issued pursuant to the federal Consumer Credit Protection Act (Public Law 90-321) shall be deemed compliance with the disclosure requirements of chapters one hundred and forty A, two hundred and fifty-five B, two hundred and fifty-five C and two hundred and fifty-five D of the General Laws until July fifteen, nineteen hundred and sixty-nine or until such time as the laws of the commonwealth are substantially similar to said Regulation Z, whichever is earlier.

SECTION 1. THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, STATE HOUSE,
BOSTON, July 28, 1969.

The Honorable JOHN F. X. DAVOREN, *Secretary of the Commonwealth, State House Boston, Massachusetts.*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 471 of the Acts of 1969, entitled "AN ACT AUTHORIZING THE DISPOSITION OF CERTAIN PROPERTY IN THE TOWN OF DEDHAM WHICH WAS GIVEN TO THE COMMONWEALTH FOR USE AS A GOVERNOR'S MANSION AND ABOLISHING THE GOVERNOR'S MANSION COMMISSION." and the enactment of which received my approval on July 1, 1969, should take effect forthwith.

I further declare that in my opinion said law is an emergency law and the facts constituting the emergency are as follows:

This act authorizes the Commissioner of Administration to convey the Endicott estate in the town of Dedham to the town, or, if the town should decline to accept the estate, to certain other persons. The estate was given to the Commonwealth in 1967 for the establishment of a Governor's Mansion, but its use by the Commonwealth for this or any other purpose has proved impractical. The sooner it can be reconveyed the sooner the Commonwealth can be relieved of the financial burden of maintaining and guarding it.

An immediate conveyance of the estate, moreover, will permit the question of its acceptance by the town of Dedham to be voted upon at a special town meeting scheduled for September 8th of this year. Postponement of the operation of this act for 90 days would delay such acceptance until a much later date.

Sincerely,

FRANCIS W. SARGENT,
Acting Governor of the Commonwealth.

OFFICE OF THE SECRETARY, BOSTON, July 28, 1969.

I, John F. X. Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Acting Governor of the Commonwealth of Massachusetts at three o'clock and fifty-five minutes, P.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter four hundred and seventy-one of the acts of nineteen hundred and sixty-nine.

JOHN F. X. DAVOREN,
Secretary of the Commonwealth.

THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, STATE HOUSE,
BOSTON, July 15, 1969.

The Honorable JOHN F. X. DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts.*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 504 of the Acts of 1969, entitled "AN ACT FURTHER REGULATING THE BASIS OF ASSESSMENT ON THE TOWNS WITHIN THE CAPE COD MOSQUITO CONTROL PROJECT." and the enactment of which received my approval on July 11, 1969, should take effect forthwith.

I further declare that in my opinion this law is an emergency law and the facts constituting the emergency are as follows:

This law provides for a new formula in assessments to the towns within the Cape Cod Mosquito Control Project and is based upon the equalized valuation of cities and towns. Postponement of the operation of this law for 90 days would defeat its intended purpose which is to allow the towns to participate in this project by taking advantage of the summer months now upon us.

Sincerely,

FRANCIS W. SARGENT,
Acting Governor of the Commonwealth.

OFFICE OF THE SECRETARY, BOSTON, July 15, 1969.

I, John F. X. Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Acting Governor of the Commonwealth of Massachusetts at nine o'clock and thirty minutes, A.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter five hundred and four of the acts of nineteen hundred and sixty-nine.

JOHN F. X. DAVOREN,
Secretary of the Commonwealth.

For any borrowings herein authorized, the treasurer of said district may from time to time issue notes of said district, which need not bear the district seal, but shall be authorized, signed and countersigned, and bear interest as is herein provided for in the case of bonds, or may be sold at a discount fixed in the same manner that interest on bonds may be fixed hereunder, and such discount shall be treated as interest paid in advance. All indebtedness incurred in carrying out the provisions of this act shall be subject to such of the applicable provisions of chapter forty-four of the General Laws as relate to loans made by districts.

(*bb*) A transaction shall be considered consummated at the time a contractual relationship is created between a creditor and a customer irrespective of the time of performance of either party.

Section 2. This chapter shall not apply to the following:—

(*a*) Extensions of credit to organizations, including governments, or for business or commercial purposes, other than agricultural purposes.

(*b*) Transactions in securities or commodities accounts with a broker-dealer registered with the Securities and Exchange Commission.

(*c*) Credit transactions other than real property transactions, in which the amount financed exceeds twenty-five thousand dollars, or in which the transaction is pursuant to an express written commitment by the creditor to extend credit in excess of twenty-five thousand dollars. For this purpose, the amount financed is the amount which is required to be disclosed under paragraph (7) of subsection (*c*) or clause 1 of subsection (*d*), as applicable, of section seven, or would be so required if the transaction were subject to this chapter.

(*d*) Transactions under public utility tariffs involving services provided through pipe, wire or other connected facilities, if the charges for such public utility services, the charges for delayed payment and any discount allowed for early payment are filed with, reviewed by, or regulated by an agency of the federal government, the commonwealth or a political subdivision of either.

Section 3. (*a*) Except as otherwise provided in this section, the amount of the finance charge in connection with any transaction shall be determined as the sum of all charges, payable directly or indirectly by the customer, and imposed directly or indirectly by the creditor as an incident to or as a condition of the extension of credit, whether paid or payable by the customer, the seller or any other person on behalf of the customer to the creditor or to a third party, including any of the following types of charges:

(1) Interest, time price differential, and any amount payable under a discount or other system of additional charges.

(2) Service, transaction, activity, or carrying charge, including any charges imposed by the creditor in connection with a checking account to the extent that such charges exceed any charges the customer is required to pay in connection with such an account when it is not being used to extend credit.

(3) Loan fee, points, finder's fee, or similar charge.

(4) Fee for an appraisal, investigation, or credit report.

(5) Charges or premiums for credit life, accident, health, or loss of income insurance, written in connection with any credit transaction unless (*i*) the insurance coverage is not required by the creditor and this fact is clearly and conspicuously disclosed in writing to the customer; and (*ii*) any customer desiring such insurance coverage gives specific dated and separately signed affirmative written indication of such desire after receiving written disclosure to him of the cost of such insurance.

(6) Charges or premiums for insurance, written in connection with any credit transaction, against loss of or damage to property or against liability arising out of the ownership or use of property, unless a clear, conspicuous and specific statement in writing is furnished by the creditor to the customer setting forth the cost of the insurance if obtained from or through the creditor and stating that the customer may choose the person through which the insurance is to be obtained.

(7) Premium or other charge for any other guarantee or insurance protecting the creditor against the customer's default or other credit loss.

(8) Any charge imposed by a creditor upon another creditor for purchasing or accepting an obligation of a customer if the customer is required to pay any part of that charge in cash, as an addition to the obligation, or as a deduction from the proceeds of the obligation.

(*b*) If itemized and disclosed to the customer, any charges of the following types need not be included in the finance charge:

(1) Fees and charges prescribed by law which actually are or will be paid to public officials for determining the existence of or for perfecting or releasing or satisfying any security related to the credit transaction.

(2) The premium payable for any insurance in lieu of perfecting any security interest otherwise required by the creditor in connection with the transaction, if the premium does not exceed the fees and charges described in clause (1) of this subsection which would otherwise be payable.

(3) Taxes not included in the cash price.

(4) License, certificate of title and registration fees imposed by law.

(*c*) A late payment, delinquency, default, reinstatement or other such charge is not a finance charge if imposed for actual unanticipated late payment, delinquency, default or other such occurrence.

(*d*) A charge imposed by a bank for paying checks which overdraw or increase an overdraft in a checking account is not a finance charge unless the payment of such checks and the imposition of such finance charge were previously agreed upon in writing.

(*e*) The following charges in connection with any real property transaction, provided they are bona fide, reasonable in amount and not for the purpose of circumvention or evasion of this chapter, shall not be included in the finance charge with respect to that transaction:

(1) Fees or premiums for title examination, abstract of title, title insurance, or similar purposes and for required related property surveys.

(2) Fees for preparation of deeds, settlements statements, or other documents.

(3) Amounts required to be placed or paid into an escrow or trustee account for future payments of taxes, insurance, and water, sewer, and land rents.

(5) Appraisal fees.

(6) Credit reports.

(*f*) Interest, dividends, or other income received or to be received by the customer on deposits or on investments in real or personal property in which a creditor holds a security interest shall not be deducted from the amount of the finance charge or taken into consideration in computing the annual percentage rate.

(*g*) Obligations other than those debited to an open end credit account which are payable on demand shall be considered to have a maturity of one half year for the purpose of computing the amount of the finance charge and the annual percentage rate, except that where such an obligation is alternatively payable upon a stated maturity, the stated maturity shall be used for the purpose of such computations.

(*h*) If any insurance premium is required to be included as a part of the finance charge, the amount to be included shall be the premium for coverage extending over the period of time the creditor will require the customer to maintain such insurance. For this purpose, rates and classifications applicable at the time the credit is extended shall be applied over the full time during which coverage is required, unless the creditor knows or has reason to know that other rates or classifications will be applicable, in which case such other rates or classifications shall be used to the extent appropriate.

Section 4. (*a*) The annual percentage rates for open end credit accounts shall be computed so as to permit disclosure with an accuracy at least to the nearest quarter of one per cent. Such rate or rates shall be determined in accordance with clause (4) of subsection (*a*) of section six for purposes of disclosure before opening an account, clause (4) of subsection (*c*) of section nine for purposes of advertising, and in the following manner for purposes of disclosures on periodic statements:

(1) Where the finance charge is exclusively the product of the application of one or more periodic rates (*i*) by multiplying each

periodic rate by the number of periods in a year; or (*ii*) at the creditor's option, if the finance charge is the result of the application of two or more periodic rates, by dividing the total finance charge for the billing cycle by the sum of the balances to which the periodic rates were applied and multiplying the quotient (expressed as a percentage) by the number of billing cycles in a year.

(2) Where the creditor imposes all periodic finance charges in amounts based on specified ranges or brackets of balances, the periodic rate shall be determined by dividing the amount of the finance charge for the period by the amount of the median balance within the range or bracket of balances to which it is applicable, and the annual percentage rate shall be determined by multiplying that periodic rate (expressed as a percentage) by the number of periods in a year. Such ranges or brackets of balances shall be subject to the limitations prescribed in clause (*iv*) of paragraph (2) of subsection (*c*) of this section.

(3) Where the finance charge is or includes a minimum, fixed or other charge not due to the application of a periodic rate, and (*i*) exceeds fifty cents for a monthly or longer billing cycle, or the pro rata part of fifty cents for a billing cycle shorter than monthly, by dividing the total finance charge for the billing cycle by the amount of the balance to which applicable and multiplying the quotient (expressed as a percentage) by the number of billing cycles in a year; or (*ii*) does not exceed fifty cents for a monthly or longer billing cycle, or the pro rata part of fifty cents for a billing cycle shorter than monthly, by multiplying each applicable periodic rate by the number of periods in a year, irrespective of the imposition of such minimum, fixed or other charge.

(*b*) Except as otherwise provided in this section, the annual percentage rate applicable to any extension of credit, other than open end credit, shall be that nominal annual percentage rate determined as follows:

(1) In accordance with the actuarial method of computation so that it may be disclosed with an accuracy at least to the nearest quarter of one per cent. The mathematical equation and technical instructions for determining the annual percentage rate in accordance with the requirements of this subsection shall be those prepared by the board pursuant to the Federal Consumer Credit Protection Act and those promulgated by the commissioner under this chapter.

(2) At the option of the creditor, by application of the United States Rule so that it may be disclosed with an accuracy at least to the nearest quarter of one per cent. Under this rule, the finance charge is computed on the unpaid balance for the actual time the balance remains unpaid and if the amount of a payment is insufficient to pay the accumulated finance charge, the unpaid accumulated finance charge continues to accumulate to be paid from the proceeds of subsequent payments and is not added to the amount financed.

(*c*) (1) The annual percentage rate tables produced by the board pursuant to the Federal Consumer Credit Protection Act may be used to determine the annual percentage rate, and any such rate determined from these tables in accordance with instructions contained therein will comply with the requirements of this section.

(2) Any chart or table other than the *board's annual percentage rate tables* may be utilized for the purpose of determining the annual percentage rate provided (i) it is prepared in accordance with the provisions of clause (1) or clause (2) of subsection (*b*) of this section; (ii) it bears the name and address of the person responsible for its production, an identification number assigned to it by that person which shall be the same for each chart or table so produced with like numerical content and configuration and, if prepared for use in connection with irregular transactions, an identification of the method of computation ("Actuarial" or "U. S. Rule"): (iii) except as provided in subclause (iv), it permits determination of the annual percentage rate to the nearest one quarter of one per cent for the range of rates covered by the chart or table; and (iv) if applicable to ranges or brackets of balances, it discloses the amount of the finance charge and the annual percentage rate on the median balance within each range or bracket of balances where a creditor imposes the same finance charge for all balances within a specified range or bracket of balances, and provided further that if the annual percentage rate determined on the median balance understates the annual percentage rate determined on the lowest balance in that range or bracket by more than eight per cent of the rate on the lowest balance, then the annual percentage rate for that range or bracket shall be computed upon any balance lower than the median balance within that range so that any understatement will not exceed eight per cent of the rate on the lowest balance within that range or bracket of balances.

(3) If an error in disclosure of the amount of a finance charge or an annual percentage rate occurs because of a corresponding error in a chart or table acquired or produced in good faith by the creditor, that error in disclosure shall not, in itself, be considered a violation of this chapter provided that upon discovery of the error that creditor makes no further disclosure based on that chart or table, promptly notifies the commissioner in writing of such error and identifies the inaccurate chart or table by giving the name and address of the person responsible for its production and its identification number.

(*d*) In determining the annual percentage rate a creditor may, at his option, consider the payment irregularities set forth in this subsection as if they were regular in amount or time, as applicable, provided that the transaction to which they relate is otherwise payable in equal instalments scheduled at equal intervals.

(1) If the period from the date on which the finance charge begins to accrue and the date the final payment is due is not less than three months in the case of weekly payments, six months in the case of biweekly or semimonthly payments, or one year in the case of monthly payments, either or both of the following:

(*i*) The amount of one payment other than any down payment is not more than fifty per cent greater nor fifty per cent less than the amount of a regular payment; or

(*ii*) The interval between the date on which the finance charge begins to accrue and the date the first payment is due is not less than five days for an obligation otherwise payable in weekly instalments, not less than ten days for an obligation otherwise payable in biweekly or semimonthly instalments, or not less than twenty days for an obligation otherwise payable in monthly instalments.

(2) If the period from the date on which the finance charge begins to accrue and the date the final payment is due is less than three months in the case of weekly payments, six months in the case of biweekly or semimonthly payments, or one year in the case of monthly payments, either or both of the following:

(*i*) The amount of one payment other than any down payment is not more than twenty-five per cent greater nor twenty-five per cent less than the amount of a regular payment; or

(*ii*) The interval between the date on which the finance charge begins to accrue and the date the first payment is due is not less than six days for an obligation otherwise payable in weekly instalments, not less than twelve days for an obligation otherwise payable in biweekly or semimonthly instalments, or not less than twenty-five days for an obligation otherwise payable in monthly instalments.

(*e*) In an exceptional instance when circumstances may leave a creditor with no alternative but to determine an annual percentage rate applicable to an extension of credit other than open end credit by a method other than those prescribed in subsections (*b*) or (*c*), the creditor may utilize the constant ratio method of computation provided such use is limited to the exceptional instance and is not for the purpose of circumvention or evasion of the requirements of this chapter.

However, a creditor, for the purposes of this chapter, may utilize, generally and regularly, the constant ratio method of computation in the case of a finance charge which

(*i*) does not exceed five dollars and is applicable to an amount financed not exceeding seventy-five dollars, or

(*ii*) does not exceed seven dollars and fifty cents and is applicable to an amount financed exceeding seventy-five dollars.

Section 5. (*a*) The disclosures required to be given by this chapter shall be made clearly, conspicuously, in meaningful sequence, in accordance with the further requirements of this section, and at the time and in the terminology prescribed in applicable sections. Where the terms "finance charge" and "annual percentage rate" are required to be used, they shall be printed more conspicuously than other terminology required by this chapter. Except with respect to the requirements of section nine, all numerical amounts and percentages shall be stated in figures and shall be printed in not less than the equivalent of 10 point type, seventy-five one thousandths inch computer type, or elite size typewritten numerals, or shall be legibly handwritten.

(*b*) At the creditor's option, additional information or explanations may be supplied with any disclosure required by this chapter, but none shall be stated, utilized or placed so as to mislead or confuse the customer or contradict, obscure or detract attention from the information required by this chapter to be disclosed.

(*c*) If there is more than one creditor in a transaction, each creditor shall be clearly identified and shall be responsible for making only those disclosures required by this chapter which are within his knowledge and the purview of his relationship with the customer. If two or more creditors make a joint disclosure, each creditor shall be clearly identified. The disclosure required under subsections (*b*) and (*c*) of section seven shall be made by the seller if he extends or

arranges for the extension of credit. Otherwise, disclosure shall be made as required under subsections (*b*) and (*d*) of said section seven.

(*d*) In any transaction other than a transaction which may be rescinded under the provisions of section eight, if there is more than one customer, the creditor need furnish a statement of disclosure required by this chapter to only one of them other than an endorser, comaker, guarantor, or a similar party.

(*e*) If at the time disclosures must be made, an amount or other item of information required to be disclosed, or needed to determine a required disclosure, is unknown or not available to the creditor, and the creditor has made a reasonable effort to ascertain it, the creditor may use an estimated amount or an approximation of the information, provided the estimate or approximation is clearly identified as such, is reasonable, is based on the best information available to the creditor and is not used for the purpose of circumventing or evading the disclosure requirements of this chapter. Accurate information previously estimated shall be given to the customer as soon as practicable after it is available, and if finance charge or annual percentage rate has been estimated, the customer shall be obligated for the lesser of the estimated or accurate amounts.

However, on or before the due date of the first instalment all such information must be furnished to the customer in writing.

(*f*) If information disclosed in accordance with this chapter is subsequently rendered inaccurate as the result of any act, occurrence or agreement subsequent to the delivery of the required disclosures, the inaccuracy resulting therefrom shall not constitute a violation of this chapter.

(*g*) The disclosure of the amount of the finance charge or a percentage which is greater than the amount of the finance charge or percentage required to be disclosed under this chapter does not in itself constitute a violation of this chapter, provided that the overstatement is not for the purpose of circumvention or evasion of disclosure requirements.

(*h*) In other than open end credit, evidence of compliance with the requirements imposed under this chapter, other than advertising requirements under section nine, shall be preserved by the creditor for a period of not less than two years after the date of the final entry with respect to the credit transaction. In open end credit, evidence of compliance with the requirements imposed under this chapter, other than advertising requirements under section nine, shall be preserved by the creditor for a period of not less than two years after the date each disclosure is required to be made. Each creditor shall, when directed by the commissioner, permit the commissioner or his duly authorized representative to inspect its relevant records and evidence of compliance with this chapter.

Section 6. (*a*) Before the first transaction is made on any open end credit account, the creditor shall disclose to the customer in a single written statement, which the customer may retain, in terminology consistent with the requirements of subsection (*b*), each of the following items, to the extent applicable: (1) the conditions under which a finance charge may be imposed, including an explanation of the time period, if any, within which any credit extended may be paid

without incurring a finance charge; (2) the method of determining the balance upon which a finance charge may be imposed; (3) the method of determining the amount of the finance charge, including the method of determining any minimum, fixed, check service, transaction, activity, or similar charge, which may be imposed as a finance charge; (4) where one or more periodic rates may be used to compute the finance charge, each such rate, the range of balances to which it is applicable, and the corresponding annual percentage rate determined by multiplying the periodic rate by the number of periods in a year; (5) the conditions under which any other charges may be imposed and the method by which they will be determined; (6) the conditions under which the creditor may retain or acquire any security interest in any property to secure the payment of any credit extended on the account, and a description or identification of the type of the interest or interests which may be so retained or acquired; and (7) the minimum periodic payment required.

(*b*) Except in the case of an account which the creditor deems to be uncollectible or with respect to which delinquency collection procedures have been instituted, the creditor of any open end credit account shall mail or deliver to the customer, for each billing cycle at the end of which there is an outstanding debit balance in excess of one dollar in that account or with respect to which a finance charge is imposed, a statement or statements which the customer may retain, setting forth, in accordance with subsection (*c*), each of the following items to the extent applicable:

(1) The outstanding balance in the account at the beginning of the billing cycle, using the term "previous balance";

(2) The amount and date of each extension of credit or the date such extension of credit is debited to the account during the billing cycle and, unless previously furnished, a brief identification of any goods or services purchased or other extension of credit;

(3) The amounts credited to the account during the billing cycle for payments, using the term "payments", and for other credits including returns, rebates of finance charges, and adjustments, using the term "credits", and unless previously furnished a brief identification of each of the items included in such other credits;

(4) The amount of any finance charge, using the term "finance charge", debited to the account during the billing cycle, itemized and identified to show the amounts, if any, due to the application of periodic rates and the amount of any other charge included in the finance charge, such as a minimum, fixed, check service, transaction, activity, or similar charge, including any charges imposed by the creditor for the issuance, payment, or handling of checks, for account maintenance or otherwise, to the extent that such charges exceed any similar charges the customer is required to pay when an account is not being used to extend credit, using appropriate terminology to identify such charges;

(5) Each periodic rate, using the term "periodic rate", that may be used to compute the finance charge (whether or not applied during the billing cycle), and the range of balances to which it is applicable;

(6) The annual percentage rate or rates determined under subsection (*a*) of section four, using the term "annual percentage rate", and, where there is more than one rate, the amount of the balance to which

each rate is applicable. Where the creditor of the open end credit account imposes finance charges with respect to specific transactions during the billing cycle, such charges shall be combined with all other finance charges imposed during the billing cycle, and the annual percentage rate to be disclosed shall be determined by (*i*) dividing the sum of all of the finance charges imposed during the billing cycle by the sum of the balances to which the periodic rates apply (or by the average of daily balances if a daily periodic rate is used), plus the sum of the amounts financed to which the specific transaction charges apply, and (*ii*) multiplying the quotient (expressed as a percentage) by the number of billing cycles in a year;

(7) The balance on which the finance charge was computed, and a statement of how that balance was determined. If the balance is determined without first deducting all credits during the billing cycle, that fact and the amount of such credits shall also be disclosed;

(8) The closing date of the billing cycle and the outstanding balance in the account on that date, using the term "new balance", accompanied by the statement of the date by which, or the period, if any, within which, payment must be made to avoid additional finance charges.

(*c*) The disclosures required by subsection (*b*) shall be made on the face of the periodic statement, on its reverse side, or on the periodic statement supplemented by separate statement forms provided they are enclosed together and delivered to the customer at the same time, and provided further that

(1) The disclosure required by item (1) of subsection (*b*), the amounts or respective totals of the amounts required to be disclosed under items (2), (3) and (4) of subsection (*b*), and the disclosure required under items (6) and (8) of said subsection (*b*) appear on the face of the periodic statement. If the amounts and dates of the charges and credits required to be disclosed under said items (2) and (3) are not itemized on the face or reverse side of the periodic statement, they shall be disclosed on a separate statement or separate slips which shall accompany the periodic statement and identify each charge and credit and show the date and amount thereof. If the disclosures required under item (4) of said subsection (*b*) are not itemized on the face or reverse side of the periodic statement, they shall be disclosed on a separate supplemental statement which shall accompany the periodic statement;

(2) The disclosures required by items (5) and (6) of subsection (*b*) and a reference to the amounts required to be disclosed under items (4) and (7) of said subsection (*b*), if not disclosed together on the face or the reverse side of the periodic statement, appear together on the face of a single supplemental statement which shall accompany the periodic statement;

(3) The face of the periodic statement contains one of the following notices, as applicable: "NOTICE: See reverse side for important information" or "NOTICE: See accompanying statement(s) for important information" or "NOTICE: See reverse side and accompanying statement(s) for important information"; and

(4) The disclosures are not separated so as to confuse or mislead the customer or obscure or detract attention from the information required to be disclosed.

(*d*) Any creditor, other than the creditor of the open end credit account, who imposes a finance charge at the time of honoring a customer's credit card, any other device, or form of identification for a purchase of property or services or for a cash advance to be debited to the customer's open end credit account shall make the disclosures required under item (2) of subsection (*b*) and under subsection (*d*), both of section seven, at the time of that transaction, and the annual percentage rate to be disclosed shall be determined by dividing the amount of the finance charge by the amount financed and multiplying the quotient (expressed as a percentage) by twelve. If disclosure is made under this subsection, the creditor of the open end credit account need make no further disclosures with respect to the finance charge on that transaction.

(*e*) If any change is to be made in terms of an open end credit account plan previously disclosed to the customer, the creditor shall mail or deliver to the customer written disclosure of such proposed change not less than thirty days prior to the effective date of such change or thirty days prior to the beginning of the billing cycle within which such change will become effective, whichever is the earlier date.

(*f*) In the case of any open end credit account in existence and in which a balance remains unpaid on July one, nineteen hundred and sixty-nine, and which balance is deemed to be collectible and not subject to delinquency collection procedures, the items described in subsection (*a*), to the extent applicable, shall be disclosed in a notice mailed or delivered to the customer not later than July thirty-one, nineteen hundred and sixty-nine. If a customer subsequently utilizes such an account in existence on July one, nineteen hundred and sixty-nine, in which no balance remained unpaid on that date, and a notice required by subsection (*a*) has not previously been furnished that customer, then such notice shall be mailed or delivered to that customer before or with the next billing on that account.

Section 7. (*a*) Any creditor when extending credit other than open end credit shall, in accordance with section five and to the extent applicable, make the disclosures required by this section with respect to any transaction consummated on or after July one, nineteen hundred and sixty-nine. Except as provided in subsections (*g*) and (*h*), such disclosures shall be made before the transaction is consummated. At the time disclosures are made, the creditor shall furnish the customer with a duplicate of the instrument or a statement by which the required disclosures are made and on which the creditor is identified. All disclosures shall be made together on either (1) the note or other instrument evidencing the obligation on the same side of the page and above or adjacent to the place for the customer's signature; or (2) except as otherwise provided in chapters two hundred and fifty-five B, two hundred and fifty-five C and two hundred and fifty-five D, one side of a separate statement which identifies the transaction.

(*b*) In any transaction subject to this section, the following items, as applicable, shall be disclosed:

(1) The date on which the finance charge begins to accrue if different from the date of the transaction;

(2) The finance charge expressed as an annual percentage rate, using the term "annual percentage rate";

(3) The number, amount and due dates or periods of payments scheduled to repay the indebtedness and, except in the case of a loan secured by a first lien or equivalent security interest on a dwelling made to finance the purchase of that dwelling and except in the case of a sale of a dwelling, the sum of such payments using the term, "total of payments". If any payment is more than twice the amount of an otherwise regularly scheduled equal payment, the creditor shall identify the amount of such payment by the term "balloon payment" and shall state the conditions, if any, under which that payment may be refinanced if not paid when due;

(4) The amount, or method of computing the amount, of any default, delinquency or similar charges payable in the event of late payments;

(5) A description or identification of the type of any security interest held or to be retained or acquired by the creditor in connection with the extension of credit, and a clear identification of the property to which the security interest relates or, if such property is not identifiable, an explanation of the manner in which the creditor retains or may acquire a security interest in such property which the creditor is unable to identify. In any such case where a clear identification of such property cannot properly be made on the disclosure statement due to the length of such identification, the note, other instrument evidencing the obligation or separate disclosure statement shall contain reference to a separate pledge agreement, or a financing statement, mortgage, deed of trust, or similar document evidencing the security interest, a copy of which shall be furnished to the customer by the creditor as promptly as practicable. If after-acquired property will be subject to the security interest, or if other or future indebtedness is or may be secured by any such property, this fact shall be clearly set forth in conjunction with the description or identification of the type of security interest held, retained or acquired;

(6) A description of any penalty charge that may be imposed by the creditor or his assignee for prepayment of the principal of the obligation (such as a real estate mortgage) with an explanation of the method of computation of such penalty and the conditions under which it may be imposed; and

(7) Identification of the method of computing any unearned portion of the finance charge in the event of prepayment of the obligation and a statement of the amount or method of computation of any charge that may be deducted from the amount of any rebate of such unearned finance charge that will be credited to the obligation or refunded to the customer.

(*c*) In the case of a credit sale, in addition to the items required to be disclosed under subsection (*b*), the following items, as applicable, shall be disclosed:

(1) The cash price of the property or service purchased, using the term "cash price".

(2) The amount of the downpayment itemized, as applicable, as downpayment in money, using the term "cash downpayment", down-

payment in property, using the term "trade-in" and the sum, using the term "total downpayment".

(3) The difference between the amounts described in items (1) and (2), using the term "unpaid balance of cash price".

(4) All other charges, individually itemized, which are included in the amount financed but which are not part of the finance charge.

(5) The sum of the amounts determined under items (3) and (4), using the term "unpaid balance".

(6) Any amounts required to be deducted under subsection (*e*) using, as applicable, the terms "prepaid finance charge" and "required deposit balance", and, if both are applicable, the total of such items using the term "total prepaid finance charge and required deposit balance".

(7) The difference between the amounts determined under items (5) and (6), using the term "amount financed".

(8) Except in the case of a sale of a dwelling (*i*) the total amount of the finance charge, with description of each amount included, using the term "finance charge", and (*ii*) the sum of the amounts determined under items (1) and (4), and under clause (*i*) of item (8), using the term "deferred payment price".

(*d*) In the case of a loan or extension of credit which is not a credit sale, in addition to the items required to be disclosed under subsection (*b*), the following items, as applicable, shall be disclosed:

(1) The amount of credit, excluding items set forth in subsection (*e*), which will be paid to the customer or for his account or to another person on his behalf, including all charges, individually itemized, which are included in the amount of credit extended but which are not part of the finance charge, using the term "amount financed".

(2) Any amount referred to in subsection (*e*) required to be excluded from the amount in item (1), using, as applicable, the terms "prepaid finance charge" and "required deposit balance", and, if both are applicable, the total of such items using the term, "total prepaid finance charge and required deposit balance".

(3) Except in the case of a loan secured by a first lien or equivalent security interest on a dwelling and made to finance the purchase of that dwelling, the total amount of the finance charge, with description of each amount included, using the term "finance charge".

(*e*) The following amounts shall be disclosed and deducted in a credit sale in accordance with item (6) of subsection (*c*), and in other extensions of credit shall be excluded from the amount disclosed under item (1) of subsection (*d*), and shall be disclosed in accordance with item (2) of subsection (*d*):

(1) Any finance charge paid separately, in cash or otherwise, directly or indirectly, to the creditor or with the creditor's knowledge to another person, or withheld by the creditor from the proceeds of the credit extended, which shall nevertheless be included in determining the finance charge under section three.

(2) Any deposit balance or any investment which the creditor requires the customer to make, maintain or increase in a specified amount or proportion as a condition to the extension of credit except (*i*) an escrow account under clause (3) of subsection (*e*) of section three, (*ii*) a deposit balance which will be wholly applied toward

satisfaction of the customer's obligation in the transaction, (*iii*) a deposit balance or investment which was in existence prior to the extension of credit and which is offered by the customer as security for that extension of credit, (*iv*) a deposit balance or investment which was acquired or established from the proceeds of an extension of credit made for that purpose upon written request of the customer.

(*f*) In any case where a first lien or equivalent security interest in real property is retained or acquired by a creditor in connection with the financing of the initial construction of a dwelling, or in connection with a loan to satisfy that construction loan and provide permanent financing of that dwelling, whether or not the customer previously owned the land on which that dwelling is to be constructed, such security interest shall be considered a first lien against that dwelling to finance the purchase of that dwelling.

(*g*) If a creditor receives a purchase order or a request for an extension of credit by mail, telephone or written communication without personal solicitation, the disclosures required under this section may be made any time not later than the date the first payment is due, provided that (1) in the case of credit sales, the cash price, the downpayment, the finance charge, the deferred payment price, the annual percentage rate and the number, frequency and amount of payments are set forth in or are determinable from the creditor's catalog or other printed material distributed to the public; or (2) in the case of loans or other extensions of credit, the amount of the loan, the finance charge, the total scheduled payments, the number, frequency, and amount of payments, and the annual percentage rate for representative amounts or ranges of credit are set forth in or are determinable from the creditor's printed material distributed to the public, in the contract of loan, or in other printed material delivered or made available to the customer.

(*h*) If a credit sale is one of a series of transactions made pursuant to an agreement providing for the addition of the amount financed plus the finance charge for the current sale to an existing outstanding balance, then the disclosures required under this section for the current sale may be made at any time not later than the date the first payment for that sale is due, provided that (1) the customer has approved in writing both the annual precentage rate or rates and the method of treating any unearned finance charge on an existing outstanding balance in computing the finance charge or charges; and (2) the creditor retains no security interest in any property as to which he has received payments aggregating the amount of the sale price including any finance charges attributable thereto. For the purposes of this clause, in the case of items purchased on different dates, the first purchased shall be deemed first paid for, and in the case of items purchased on the same date, the lowest priced shall be deemed first paid for.

(*i*) If a loan is one of a series of advances made pursuant to a written agreement under which a creditor is or may be committed to extend credit to a customer up to a specified amount, and the customer has approved in writing the annual percentage rate or rates, the method of computing the finance charge or charges, and any other terms, the agreement shall be considered a single transaction, and the

disclosures required under this section at the creditor's option need be made only at the time the agreement is executed.

(*j*) If any existing extension of credit is refinanced, or two or more existing extensions of credit are consolidated, or an existing obligation is increased, such transaction shall be considered a new transaction subject to the disclosure requirements of this chapter. For the purpose of such disclosure, any unearned portion of the finance charge which is not credited to the existing obligation shall be added to the new finance charge and shall not be included in the new amount financed. Any increase in an existing obligation to reimburse the creditor for undertaking the customer's obligation in perfecting, protecting or preserving the security shall not be considered a new transaction subject to this chapter. Any advance for agricultural purposes made under an open end real estate mortgage or similar lien shall not be considered a new transaction subject to the disclosure requirements of this section, provided that (1) the maturity of the advance does not exceed two years; (2) no increase is made in the annual percentage rate previously disclosed; and (3) all disclosures required by this chapter were made at the time the security interest was acquired by the creditor or at any time prior to the first advance made on or following the effective date of this chapter.

(*k*) Any creditor who accepts a subsequent customer as an obligor under an existing obligation shall make the disclosures required by this chapter to that customer before he becomes so obligated. If the obligation so assumed is secured by a first lien or equivalent security interest on a dwelling, and the assumption is made for the subsequent customer to acquire that dwelling, that obligation shall be considered a loan made to finance the purchase of that dwelling.

(*l*) In the case of an obligation other than an obligation upon which the amount of the finance charge is determined by the application of a percentage rate to the unpaid balance, if the creditor imposes a charge or fee for deferral or extension, the creditor shall disclose to the customer (1) the amount deferred or extended, (2) the date to which, or the time period for which payment is deferred or extended, (3) the amount of the charge or fee for the deferral or extension, and (4) other charges arising by reason of such deferral or extension which are not part of the deferral charge, including the amount of any additional premium for insurance, and if new or additional insurance coverage is required by the creditor as a condition of such deferral or extension, a description of such new or additional insurance coverage.

(*m*) Any extension of credit involving a series of single payment obligations shall be considered a single transaction subject to the disclosure requirements of this chapter.

(*n*) If a creditor transmits a periodic billing statement other than a delinquency notice, payment coupon book, or payment passbook, or a statement, billing, or advice relating exclusively to amounts to be paid by the customer as escrows for payment of taxes, insurance, and water, sewer, and land rents, it shall be in a form which the customer may retain, and it shall set forth (1) the annual percentage rate or rates; and (2) the date by which, or the period, if any, within which payment must be made in order to avoid late payment or delinquency charges.

(*o*) Except as provided under subsection (*c*) of section two, the amount of any discount allowed for payment of a single payment obligation on or before a specified date, or charge for delaying payment after a specified date, shall be disclosed on the billing statement as a finance charge imposed on the least amount payable in satisfaction of the obligation (amount financed) for the period of time between the specified date and the due date of the obligation, or in the absence of a designated due date, the date the billing cycle ends. Except as provided in item (2) of subsection (*b*) of this section, each such billing statement shall, in addition to stating the amount of that "finance charge", using that term, state the "annual percentage rate", using that term, computed so that it may be disclosed with an accuracy to the nearest quarter of one per cent and determined by (1) dividing the amount of the finance charge by the amount financed; (2) dividing the quotient so obtained by the number of days between the specified date and the due date of the obligation, or, in the absence of a designated due date, the date the billing cycle ends; and (3) multiplying the quotient so obtained (expressed as a percentage) by three hundred and sixty-five.

Section 8. (*a*) Except as otherwise provided in this section, in any credit transaction in which a security interest is or will be retained or acquired in any real property which is used or is expected to be used as the principal residence of the customer, the customer shall have the right to rescind that transaction until midnight of the third business day following the date of consummation of that transaction or the date of delivery of the disclosures required under this section and all other material disclosures required under this chapter, whichever is later, by notifying the creditor by mail, telegram or other writing of his intention to do so. Notification by mail shall be considered given at the time of the mailing; notification by telegram shall be considered given at the time of the filing for transmission; and notification by other writing shall be considered given at the time of the delivery to the creditor's designated place of business. Business day is any calendar day except Sunday, the following federal business holidays: New Year's Day, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Veterans' Day, Thanksgiving and Christmas, and any legal holiday under the laws of the commonwealth.

(*b*) Whenever a customer has the right to rescind a transaction under subsection (*a*), the creditor shall notify him of that fact by furnishing him with two copies of the notice set out below, one of which may be used by the customer to cancel the transaction. Such notice shall be printed in capital and lower case letters of not less than twelve point bold-faced type on one side of a separate statement which identifies the transaction to which it relates. Such statement shall also set forth under the heading "Effect of Rescission" a copy of subsection (*d*). If such copy of subsection (*d*) appears on the reverse side of the statement, the face of the statement shall state: "See reverse side for important information about your right of rescission". Before furnishing the copies of the notice to the customer, the creditor shall complete both copies with the name of the creditor, the address of the creditor's place of business, the date of consummation of the transaction and the date, not earlier than the third business

day following the date of the transaction, by which the customer may give notice of cancellation.

NOTICE TO CUSTOMER REQUIRED BY LAW:

You have entered into a transaction on (Date) which may result in a lien, mortgage or other security interest on your home. You have a legal right under law to cancel this transaction, if you desire to do so, without any penalty or obligation within three business days from the above date or any later date on which all material disclosures required under the truth-in-lending act have been given to you. If you so cancel the transaction, any lien, mortgage or other security interest on your home arising from this transaction is automatically void. You are also entitled to receive a refund of any downpayment or other consideration if you cancel. If you decide to cancel this transaction, you may do so by notifying:

(Name of Creditor)

at (Address of Creditor's Place of Business)

by mail or telegram sent not later than midnight of (Date) . You may also use any other form of written notice identifying the transaction if it is delivered to the above address not later than that time. This notice may be used for that purpose by dating and signing below.

I hereby cancel this transaction.

(Date) (Customer's signature)

(*c*) Except as provided in subsection (*e*), the creditor in any transaction subject to this section shall not perform, or cause or permit the performance of, any of the following actions until after the rescission period has expired and he has reasonably satisfied himself that the customer has not exercised his right of rescission: (1) disburse any money other than in escrow, (2) make any physical changes in the property of the customer, (3) perform any work or service for the customer, or (4) make any deliveries to the residence of the customer if the creditor has retained or will acquire a security interest other than one arising by operation of law.

(*d*) If a customer exercises his right to rescind under subsection (*a*), he shall not be liable for any finance or other charge, and any security interest shall become void upon such rescission. Within ten days after receipt of a notice of rescission, the creditor shall return to the customer any money or property given as earnest money, downpayment, or otherwise, and shall take any action necessary or appropriate to reflect the termination of any security interest created under the transaction. If the creditor has delivered any property to the customer, the customer may retain possession of it. Upon the performance of the creditor's obligations under this section, the customer shall tender

the property to the creditor, except that if return of the property in kind would be impracticable or inequitable, the customer shall tender its reasonable value. Tender shall be made at the location of the property or at the residence of the customer, at the option of the customer. If the creditor shall not take possession of the property within ten days after tender by the customer, ownership of the property shall vest in the customer without obligation on his part to pay for it.

(*e*) A customer may modify or waive his right to rescind a transaction subject to the provisions of this section provided:

(1) The extension of credit is needed in order to meet a bona fide immediate personal financial emergency of the customer;

(2) The customer has determined that a delay of three business days in performance of the creditor's obligation under the transaction will jeopardize the welfare, health or safety of natural persons or endanger property which the customer owns or for which he is responsible; and

(3) The customer furnishes the creditor with a separate dated and signed personal statement describing the situation requiring immediate remedy and modifying or waiving his right of rescission. The use of printed forms for this purpose is prohibited.

(*f*) For the purpose of this section, "customer" shall include two or more customers if joint ownership is involved, and the right of rescission of the transaction may be exercised by any one of them, in which case the effect of rescission in accordance with subsection (*d*) shall apply to all of them; and any waiver of the right of rescission provided in subsection (*e*) shall be invalid unless signed by all of them.

(*g*) This section shall not apply to:

(1) The creation, retention or assumption of a first lien or equivalent security interest to finance the acquisition of a dwelling in which the customer resides or expects to reside.

(2) A security interest which is a first lien retained or acquired by a creditor in connection with the financing of the initial construction of the residence of the customer, or in connection with a loan committed prior to completion of the construction of that residence to satisfy that construction loan and provide permanent financing of that residence, whether or not the customer previously owned the land on which that residence is to be constructed.

(3) Any lien by reason of its subordination at any time subsequent to its creation, if such lien was exempt from the provisions of this section when it was originally created.

(4) Any advance for agricultural purposes made pursuant to subsection (*j*) of section seven under an open end real estate mortgage or similar lien, provided the disclosure required under subsection (*b*) of this section, was made at the time the security interest was acquired by the creditor or at any time prior to the first advance made on or following the effective date of this chapter.

(*h*) Notwithstanding any rule of evidence, written acknowledgment of receipt of any disclosures required under this chapter by a person to whom a statement is required to be given pursuant to this section does no more than create a rebuttable presumption of delivery thereof.

Section 9. (*a*) No advertisement to aid, promote or assist directly or indirectly any extension of credit may state (1) that a specific

amount of credit or instalment amount can be arranged unless the creditor usually and customarily arranges or will arrange credit amounts or instalments for that period and in that amount; or (2) that no downpayment or that a specified downpayment will be accepted in connection with any extension of credit, unless the creditor usually and customarily accepts or will accept downpayments in that amount.

(*b*) If a catalog or other multiple-page advertisement sets forth or gives information in sufficient detail to permit determination of the disclosures required by this section in a table or schedule of credit terms, such catalog or multiple-page advertisement shall be considered a single advertisement provided:

(1) The table or schedule and the disclosures made therein are set forth clearly and conspicuously, and

(2) Any statement of credit terms appearing in any place other than in that table or schedule of credit terms clearly and conspicuously refers to the page or pages on which that table or schedule appears, unless that statement discloses all of the credit terms required to be stated under this section. For the purpose of this clause, cash price is not a credit term.

(*c*) No advertisement to aid, promote or assist directly or indirectly the extension of open end credit may set forth any of the terms described in subsection (*a*) of section six or that no downpayment, a specified downpayment, or a specified periodic payment is required on any of the following items unless it also clearly and conspicuously sets forth all the following items in terminology prescribed under subsection (*b*) of section six:

(1) An explanation of the time period, if any, within which any credit extended may be paid without incurring a finance charge.

(2) The method of determining the balance upon which a finance charge may be imposed.

(3) The method of determining the amount of the finance charge, including the determination of any minimum, fixed, check service, transaction, activity, or similar charge, which may be imposed as a finance charge.

(4) Where one or more periodic rates may be used to compute the finance charge, each such rate, the range of balances to which it is applicable, and the corresponding annual percentage rate determined by multiplying the periodic rate by the number of periods in a year.

(5) The conditions under which any other charges may be imposed, and the method by which they will be determined.

(6) The minimum periodic payment required.

(*d*) No advertisement to aid, promote or assist directly or indirectly any credit sale including the sale of residential real estate, loan, or other extension of credit, other than open end credit, subject to the provisions of this chapter, shall state (1) the rate of a finance charge unless it states the rate of that charge expressed as an "annual percentage rate", using that term; (2) the amount of the downpayment required or that no downpayment is required, the amount of any instalment payment, the dollar amount of any finance charge, the number of instalments or the period of repayment, or that there is no charge for credit, unless it states all the following items in terminology prescribed under section seven: (*i*) the cash price or the amount of the loan,

as applicable, (*ii*) the amount of the downpayment required or that no downpayment is required, as applicable, (*iii*) the number, amount and due dates or period of payments scheduled to repay the indebtedness if the credit is extended, (*iv*) the amount of the finance charge expressed as an annual percentage rate, and (*v*) except in the case of the sale of a dwelling or a loan secured by a first lien on a dwelling to purchase that dwelling, the deferred payment price or the sum of the payments, as applicable.

Section 10. (*a*) Whoever violates any provision of this chapter shall be punished by a fine of not more than five hundred dollars or by imprisonment for not more than six months, or both, and whoever violates any rule or regulation made hereunder by the commissioner shall be punished by a fine of not more than five hundred dollars.

Whoever willfully and knowingly (1) gives false or inaccurate information or fails to provide information which he is required to disclose under the provisions of this title or any regulation issued thereunder, (2) uses any chart or table authorized by this chapter in such a manner as to consistently understate the annual percentage rate determined under section four, or (3) otherwise fails to comply with any requirement imposed under this chapter, shall be punished by a fine of not more than five thousand dollars or by imprisonment for not more than one year, or both.

(*b*) Any creditor who fails in connection with any consumer credit transaction to disclose to any person any information required under this chapter or any rule or regulation made thereunder by the commissioner to be disclosed to that person shall be liable to that person in an amount equal twice the amount of the finance charge in connection with the transaction, except that the liability under this clause shall not be less than one hundred dollars nor more than one thousand dollars, and in the case of any successful action to enforce such liability, a reasonable attorney's fee as determined by the court, but a creditor may not be held liable in any action brought under this subsection, if he shows by a preponderance of evidence that such violation was not intentional and resulted from a bona fide error in a mathematical computation, or in the layout or format, size of type or order of clauses contained in such disclosure statement.

(*c*) Any action which may be brought under this section against the original creditor in any credit transaction involving a security interest in real property may be maintained against any subsequent assignee of the original creditor if the assignee, its subsidiaries or affiliates were in a continuing business relationship with the original creditor either at the time the credit was extended or at the time of the assignment, unless the assignment was involuntary, or unless the assignee shows by a preponderance of evidence that it did not have reasonable grounds to believe that the original creditor was engaged in a violation of this chapter, and that it maintained procedures reasonably adapted to apprise it of the existence of any such violation.

(*d*) Except as provided in subsection (*h*) of section eight and except in the case of actions brought under subsection (*c*) of this section, in any action or proceeding by or against any subsequent assignee of the original creditor without knowledge to the contrary by the assignee when he acquires the obligation, written acknowledgment of receipt by a person to whom a statement is required to be

given pursuant to this chapter shall be conclusive proof of the delivery thereof and, unless the violation is apparent on the face of the statement, of compliance with this chapter. This section does not affect the rights of the obligor in any action against the original creditor.

Section 11. The commissioner may prescribe from time to time such rules and regulations as may be necessary or proper in carrying out the provisions of this chapter. Such rules and regulations may contain such classifications, differentiations or other provisions, and may provide for such adjustments and exceptions for any class of transactions, as in the judgment of the commissioner are necessary or proper to carry out the purposes of this chapter, to prevent circumvention or evasion thereof, or to facilitate compliance therewith; provided, however, that no such rule or regulation shall contain any classification, differentiation or other provision with respect to, or provide for any adjustment or exception for, any class of transaction which would result in less stringent disclosure requirements than afforded that class of transaction under the Federal Consumer Credit Protection Act and Regulation Z issued by the board of governors of the federal reserve system pursuant thereto.

Section 12. A violation of this chapter shall constitute a violation of chapter ninety-three A.

Section 13. This chapter shall be known and may be cited as the Truth-in-Lending Act.

SECTION 2. Chapter one hundred and forty A of the General Laws is hereby repealed.

SECTION 8. Section 3 of said chapter 255B is hereby amended by striking out the first sentence, as so appearing, and inserting in place thereof the following two sentences:—The commissioner may prescribe from time to time such rules and regulations as may be necessary or proper in carrying out the provisions of this chapter, the granting of licenses and the renewal thereof and the fees to be charged therefor. Such rules and regulations may contain such classifications, differentiations or other provisions, and may provide for such adjustments and exceptions for any class of transactions, as in the judgment of the commissioner are necessary or proper to carry out the purposes of this chapter, to prevent circumvention or evasion thereof, or to facilitate compliance therewith; provided, however, that no such rule or regulation shall contain any classification, differentiation or other provision with respect to, or provide for any adjustment or exception for, any class of transaction which would result in less stringent disclosure requirements than afforded that class of transaction under the Federal Consumer Credit Protection Act and Regulation Z issued by the board of governors of the federal reserve system pursuant thereto.

(6) Identification of the method of computing any unearned portion of the finance charge in the event of prepayment of the obligation and a statement of the amount or method of computation of any charge that may be deducted from the amount of any rebate of such unearned finance charge that will be credited to the obligation or refunded to the buyer.

(7) A statement that in the case of repossession and sale of any collateral subject to a security interest for default all sums paid on account of such payments and any sum remaining from the proceeds of a sale of such repossessed motor vehicle after deducting the reasonable expenses of such repossession and sale as are allowed by

section twenty A of this chapter, shall be applied in reduction of such price, and that, if the net proceeds of such sale exceed the balance due on such payments, the sum remaining shall be paid to the buyer.

The disclosures required to be given shall be made clearly, conspicuously, and in meaningful sequence. Where the terms "finance charge" and "annual percentage rate" are required to be used, they shall be printed more conspicuously than other terminology required by this chapter. setting forth in accordance with subsection A of this section each of the following items to the extent applicable:

(1) The outstanding balance in the account at the beginning of the billing cycle, using the term "previous balance".

If the disclosures required under item (4) of subsection B are not itemized on the face or reverse side of the periodic statement, they shall be disclosed on a separate supplemental statement which shall accompany the periodic statement.

(2) The disclosures required by items (5) and (6) of subsection D and a reference to the amounts required to be disclosed under items (4) and (7) of said subsection D, if not disclosed together on the face or the reverse side of the periodic statement, shall appear together on the face of a single supplemental statement which shall accompany the periodic statement.

(3) The face of the periodic statement shall contain one of the following notices, as applicable: "NOTICE: See reverse side for important information" or "NOTICE: See accompanying statement(s) for important information" or "NOTICE: See reverse side and accompanying statement(s) for important information" and

Section 18A. The state treasurer, upon certification of the commission, shall annually distribute to the several cities, towns and regional school districts from the General Fund an amount determined under subsection (*a*).

(*a*) The total amount to be distributed under this section shall be two hundred and thirty-nine million, six hundred thousand dollars for calendar year nineteen hundred and sixty-nine. In calendar year nineteen hundred and seventy and thereafter, such amounts shall be increased by a percentage equal to the percentage, as determined by the commission, by which the net sums that would be received under chapters sixty-four H and sixty-four I for such calendar year if the rate of tax were three per cent exceed such net sums for calendar year nineteen hundred and sixty-nine if the rate of tax had been three per cent for the entire year. Such percentage shall be adjusted and corrected by the commission based upon the actual net sums collected for the year in question. "Net sums", as used in this subsection, shall mean the total sums received under or by reason of such chapters as excises, interest thereon, fees, penalties, forfeitures, costs of suits or fines, less all amounts refunded under such chapters or under section twenty-seven of this chapter, together with any interest or costs paid on account of such refunds.

(*b*) The amount determined under subsection (*a*) shall be distributed on the following basis and in the order named on or before the dates specified, to the extent that sufficient funds are available on such dates: —

(1) On or before March thirty-first, six million, three hundred and fifty-one thousand, four hundred and fifteen dollars and thirty-four cents in the proportion that the amount of taxes locally paid in each city or town in the year nineteen hundred and thirty-five by domestic manufacturing corporations, as defined in section thirty-eight C of chapter sixty-three, and by foreign manufacturing corporations, as defined in section forty-two B of said chapter sixty-three, upon machinery owned and used in the conduct of the business bears to the aggregate amount so paid by such corporations in all cities and towns of the commonwealth, as determined by the commission;

(2) On or before March thirty-first, two million, six hundred and fifty-four thousand, eight hundred and seventy-six dollars and fifty-four cents in the proportion that the value of machinery owned and used in the conduct of the business in the year nineteen hundred and thirty-five by such domestic manufacturing and foreign manufacturing corporations in each city or town bears to the aggregate value of such machinery in all cities and towns of the commonwealth, as determined by the commission;

(3) On or before November twentieth, the reimbursements for the special education programs required to be paid by the commonwealth under chapters sixty-nine and seventy-one;

(4) From time to time as determined by the commission, the school aid required to be distributed under chapter seventy upon certification of the comptroller and commission, but not less than approximately

twenty-five per cent thereof on or before the last day of each calendar quarter; and

(5) From time to time as determined by the commission, the balance, if any, after providing for the payments required by paragraphs (1), (2), (3) and (4) of this subsection, in the proportion to the valuations last established by the general court as a basis for the apportionment of state and county taxes; but not less than approximately ten per cent thereof on or before March thirty-first, fifty per cent thereof on or before June thirtieth, ten per cent thereof on or before September thirtieth and the balance of forty per cent thereof on or before December thirty-first.

If upon any date of distribution the amounts designated in this subsection are insufficient to make the full distributions required by any paragraph of this subsection, the distributions thereunder shall be the amount otherwise due to each city or town under said paragraph multiplied by a fraction, the numerator of which shall be the amount remaining of the revenues designated under this subsection and the denominator of which shall be the total amount otherwise due to the several cities and towns under said paragraph.

The amounts distributable or distributed to the cities and towns under this section shall be subject to verification, correction and adjustment by the commission in the event of any error or omission in their determination. Any adjustment which reduces or increases the amount to which a city or town is entitled shall be taken into account in the distribution to be paid to such city or town as soon as may be after the adjustment is made. No such adjustment shall be made after December first of the year succeeding the one to which it relates. Amounts distributed or charged on account of such adjustments in any succeeding calendar year shall have priority over all other amounts distributable in such year.

THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, STATE HOUSE,
BOSTON, July 24, 1969.

The Honorable JOHN F. X. DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts.*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 559 of the Acts of 1969, entitled "AN ACT PROVIDING FOR THE ESTABLISHMENT OF A LIEN ON UNPAID SALES AND USE TAXES." and the enactment of which received my approval on July 24, 1969, should take effect forthwith.

I further declare that in my opinion said law is an emergency law and the facts constituting the emergency are as follows:

Because the sales and use tax law was made permanent subsequent to the enactment of the lien statute, the latter does not apply to unpaid sales and use taxes. This proposal would extend the lien law so that it applies to all sales and use taxes assessed or deemed to be assessed on

and after its effective date. In order to assist the tax department in the prompt and complete collection of unpaid sales and use taxes, this act should take effect immediately.

Sincerely,

FRANCIS W. SARGENT,
Acting Governor of the Commonwealth.

OFFICE OF THE SECRETARY, BOSTON, July 25, 1969.

Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Acting Governor of the Commonwealth of Massachusetts at ten o'clock and forty-seven minutes, A.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter five hundred and fifty-nine of the acts of nineteen hundred and sixty-nine.

Such standard deduction shall represent a reasonable amount for debts, expenses and taxes for each bracket of gross taxable property or the gross value of the probate estate up to one hundred thousand dollars. If an executor, administrator, trustee or any person liable to taxation under this chapter does not elect in writing within two hundred and ten days of the filing of his bond to itemize deductions on account of debts or expenses of administration and federal estate taxes, the standard deduction under said table of deductions shall be used to compute and assess the tax due under this chapter.

Approved July 24, 1969.

of such death or of such accrual has been given to the commissioner within five years of the date of such death or accrual. If notice is not given within such time, the commissioner's right to assess and collect any tax due shall continue until five years after the giving of such notice. Any such temporary treasurer shall be sworn to and give bond for the faithful performance of his duties in accordance with the provisions of law applicable to the treasurer whose position he fills, and if he fails so to do within ten days after his appointment, the prudential committee, if any, otherwise the commissioners, shall rescind the appointment and appoint another.

Section 123A. In a district, the prudential committee, if any, otherwise the commissioners, may in writing appoint an assistant treasurer who may be an employee of the district, and an assistant clerk of the district. Such assistants shall be sworn to the faithful performance of their duties and a record shall be made of any such appointment and oath. They shall be citizens of the United States and residents of the commonwealth, and shall give bond annually for the faithful performance of their duties in a form approved, and in an amount determined by the commissioner of corporations and taxation. Unless a temporary treasurer or a temporary clerk has been appointed in accordance with law, the assistant treasurer or the assistant clerk, as the case may be, may, in the absence of the treasurer or clerk, as the case may be, perform the duties of such office and in the performance of such duties shall have the powers and be subject to the requirements and penalties applicable thereto.

DEAR MR. SECRETARY: — I, Francis W. DEAR MR. SECRETARY:—I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 577 of the Acts of 1969, entitled "AN ACT VALIDATING CERTAIN PROCEEDINGS OF THE TOWN OF WINCHESTER AND AUTHORIZING THE TOWN TO ACQUIRE LAND AND BUILDINGS OWNED BY MARYCLIFF ACADEMY, INC., TO REMODEL AND EQUIP SAID BUILDINGS AND TO BORROW MONEY FOR SAID PURPOSES, AND ALSO PROVIDING FOR STATE AID IN CONNECTION THEREWITH." and the enactment of which received my approval on July 30, 1969, should take effect forthwith.

Chap. 620. AN ACT PROVIDING ADDITIONAL REMEDIES FOR THE COLLECTION OF STATE TAXES.

Be it enacted, etc., as follows:

Chapter 58 of the General Laws is hereby amended by adding after section 35, added by chapter 530 of the acts of 1969, the following twelve sections:—

Section 36. (*a*) If any person liable to pay any tax neglects or refuses to pay the same within ten days after demand, it shall be lawful for the commissioner to collect such tax, and such further sum as shall be sufficient to cover the expenses of the levy, by levy upon all property and rights to property, except such property as is exempt under section twenty-four of chapter sixty, belonging to such person or on which there is a lien provided in this chapter for the payment of such tax. If the commissioner makes a finding that the collection of such tax is in jeopardy, notice and demand for immediate payment of such tax may be made by the commissioner and, upon failure or refusal to pay such tax, collection thereof by levy shall be lawful without regard to the ten-day period provided in this section.

(*b*) The term "levy" as used in this chapter includes the power of distraint and seizure by any means. A levy shall extend only to

property possessed and obligations existing at the time thereof. In any case in which the commissioner may levy upon property or rights to property, he may seize and sell such property or rights to property, whether real or personal, tangible or intangible.

(*c*) Whenever any property or right to property upon which levy has been made by virtue of subsection (*a*) is not sufficient to satisfy the claim of the commonwealth for which levy is made, the commissioner may, thereafter, and as often as may be necessary, proceed to levy in like manner upon any other property liable to levy of the person against whom such claim exists, until the amount due from him, together with all expenses, is fully paid.

Section 37. (*a*) Except as otherwise provided in subsection (*b*), any person in possession of, or obligated with respect to, property or rights to property subject to levy upon which a levy has been made shall, upon demand of the commissioner, surrender such property or rights, or discharge such obligation, to the commissioner, except such part of the property or rights as is, at the time of such demand, subject to an attachment or execution under any judicial process.

(*b*) (*1*) A levy on an organization with respect to life insurance or endowment contract issued by such organization shall, without necessity for the surrender of the contract document, constitute a demand by the commissioner for payment of the amount described in paragraph two and the exercise of the right of the person against whom the tax is assessed to the advance of such amount. Such organization shall pay over such amount ninety days after service of notice of levy. Such notice shall include a certification by the commissioner that a copy of such notice has been mailed to the person against whom the tax is assessed at his last known address.

(*2*) Such levy shall be deemed to be satisfied if such organization pays over to the commissioner the amount which the person against whom the tax is assessed could have had advanced to him by such organization on the date prescribed in paragraph one for the satisfaction of such levy, increased by the amount of any advance, including contractual interest thereon, made to such person on or after the date such organization had actual notice or knowledge of the existence of the lien with respect to which such levy is made, other than an advance, including contractual interest thereon, made automatically to maintain such contract in force under an agreement entered into before such organization had such notice or knowledge.

(*3*) The satisfaction of a levy under paragraph two shall be without prejudice to any civil action for the enforcement of any lien imposed by section thirty-three with respect to such contract.

(*c*) (*1*) Any person who fails or refuses to surrender any property or rights to property, subject to levy, upon demand by the commissioner, shall be liable in his own person and estate to the commonwealth in a sum equal to the value of the property or rights not so surrendered, but not exceeding the amount of taxes for the collection of which such levy has been made, together with costs and interest on such sum at the rate of six per cent per annum from the date of such levy. Any amount, other than costs, recovered under this paragraph shall be credited against the tax liability for the collection of which such levy was made.

(2) In addition to the personal liability imposed by paragraph (1), if any person required to surrender property or rights to property fails or refuses to surrender such property or rights to property without reasonable cause, such person shall be liable for a penalty equal to fifty per cent of the amount recoverable under paragraph (1). No part of such penalty shall be credited against the tax liability for the collection of which such levy was made.

(*d*) Any person in possession of, or obligated with respect to, property or rights to property subject to levy upon which a levy has been made, who, upon demand by the commissioner, surrenders such property or rights to property, or discharges such obligation, to the commissioner, or who pays a liability under paragraph (1) of subsection (*c*) shall be discharged from any obligation or liability to the delinquent taxpayer with respect to such property or rights to property arising from such surrender or payment. In the case of a levy which is satisfied pursuant to subsection (*b*), such organization shall also be discharged from any obligation or liability to any beneficiary arising from such surrender or payment.

Section 38. If a levy has been made or is about to be made on any property, or right to property, any person having custody or control of any books or records, containing evidence or statements relating to the property, or right to property subject to levy, shall, upon demand of the commissioner, exhibit such books or records to the commissioner.

Section 39. (*a*) As soon as practicable after seizure of property, notice in writing shall be given by the commissioner to the owner of the property, or, in the case of personal property, the possessor thereof, or shall be left at his usual place of abode or business, if he has such within the commonwealth. If the owner cannot be readily located, or has no dwelling or place of business within the commonwealth, the notice may be mailed to his last known address. Such notice shall specify the sum demanded and shall contain, in the case of personal property, an account of the property seized and, in the case of real property, a description with reasonable certainty of the property seized.

(*b*) The commissioner shall as soon as practicable after the seizure of the property give notice to the owner, in the manner prescribed in subsection (*a*), and shall cause a notification to be published in some newspaper published or generally circulated within the county wherein such seizure is made, or, if there be no newspaper published or generally circulated in such county, shall post such notice at the city or town hall nearest the place where the seizure is made, and in not less than two other public places. Such notice shall specify the property to be sold and the time, place, manner and conditions of the sale thereof. Whenever levy is made without regard to the ten-day period provided in section thirty-five, public notice of sale of the property seized shall not be made within such ten-day period unless section thirty-nine is applicable.

(*c*) If any property liable to levy is not divisible, so as to enable the commissioner by sale of a part thereof to raise the whole amount of the tax and expenses, the whole of such property shall be sold.

(*d*) The time of sale shall not be less than ten days nor more than forty days from the time of giving public notice under subsection

(*b*). The sale may be adjourned from time to time but such adjournments shall not be for a period to exceed in all one month.

(*c*) (*1*) Before the sale the commissioner shall determine a minimum price for which the property shall be sold, and if no person offers for such property at the sale the amount of the minimum price, the property shall be declared to be purchased at such price for the commonwealth; otherwise the property shall be declared to be sold to the highest bidder. In determining the minimum price, the commissioner shall take into account the expense of making the levy and sale.

(*2*) The commission may by regulations prescribe the manner and other conditions of the sale of property seized by levy.

(*3*) If payment in full is required at the time of acceptance of a bid and is not then and there paid, the commissioner shall forthwith proceed to again sell the property in the manner provided in this subsection. If the conditions of the sale permit part of the payment to be deferred, and if such part is not paid within the prescribed period, suit may be instituted against the purchaser for the purchase price or such part thereof as has not been paid, together with interest at the rate of six per cent per annum from the date of the sale; or, in the discretion of the commissioner, the sale may be declared by the commissioner to be null and void for failure to make full payment of the purchase price and the property may again be advertised and sold as provided in subsections (*b*) and (*c*) and this subsection. In the event of such readvertisement and sale any new purchaser shall receive such property, or rights to property, free and clear of any claim or right to the former defaulting purchaser, of any nature whatsoever, and the amount paid upon the bid price by such defaulting purchaser shall be forfeited.

Section 40. If the commissioner determines that any property seized is liable to perish or become greatly reduced in price or value by keeping, or that such property cannot be kept without great expense, he shall appraise the value of such property and, if the owner of the property can be readily found, shall give him notice of such determination of the appraised value of the property. The property shall be returned to the owner if, within such time as may be specified in the notice, the owner either pays to the commissioner an amount equal to the appraised value, or gives bond in such form, with such sureties, and in such amount as the commissioner shall prescribe, to pay the appraised amount at such time as the commissioner determines to be appropriate in the circumstances.

If the owner does not pay such amount or furnish such bond in accordance with this section, the commissioner shall as soon as practicable make public sale of the property in accordance with such regulations as may be prescribed by the commission.

Section 41. (*a*) Any person whose property has been levied upon shall have the right to pay the amount due, together with the expenses of the proceeding, if any, to the commissioner at any time prior to the sale thereof, and upon such payment the commissioner shall restore such property to him, and all further proceedings in connection with the levy on such property shall cease from the time of such payment.

(*b*) (*1*) The owners of any real property sold as provided in section thirty-nine, their heirs, executors, or administrators, or any person having any interest therein, or a lien thereon, or any person in their behalf, shall be permitted to redeem the property sold, or any particular tract of such property, at any time within one hundred and twenty days after the sale thereof.

(*2*) Such property or tract of property shall be permitted to be redeemed upon payment to the purchaser, or in case he cannot be found in the country in which the property to be redeemed is situated, then to the commissioner for the use of the purchaser, his heirs, or assigns, the amount paid by such purchaser and interest thereon at the rate of twenty per cent per annum.

(*c*) When any lands sold are redeemed as provided in this section, the commissioner shall cause entry of the fact to be made upon the record mentioned in section forty-four and such entry shall be evidence of such redemption.

Section 42. (*a*) In the case of property sold as provided in section thirty-nine, the commissioner shall give the purchaser a certificate of sale upon payment in full of the purchase price. In the case of real property, such certificate shall set forth the real property purchased, for whose taxes the same was sold, the name of the purchaser and the price paid therefor.

(*b*) In the case of any real property sold as provided in section thirty-nine and not redeemed in the manner and within the time provided in section forty-one, the commissioner shall execute to the purchaser of such real property at such sale, upon his surrender of the certificate of sale, a deed of the real property so purchased by him, reciting the facts set forth in the certificate.

(*c*) If real property is declared purchased by the commonwealth at a sale pursuant to section thirty-nine, the commissioner shall at the proper time execute a deed therefor, and without delay cause such deed to be duly recorded in the proper registry of deeds.

Section 43. (*a*) In all cases of sale pursuant to section thirty-nine of property, other than real property, the certificate of such sale—

(*1*) Shall be prima facie evidence of the right of the commissioner to make such sale and conclusive evidence of the regularity of his proceedings in making the sale; and

(*2*) Shall transfer to the purchaser all right, title and interest of the party delinquent in and to the property sold; and

(*3*) If such property consists of stocks, shall be notice, when received, to any corporation, company or association of such transfer, and shall be authority to such corporation, company or association to record the transfer on its books and records, in the same manner as if the stocks were transferred or assigned by the party holding the same, in lieu of any original or prior certificate, which shall be void, whether canceled or not; and

(*4*) If the subject of sale is securities or other evidences of debt, shall be a good and valid receipt to the person holding the same, as against any person holding or claiming to hold possession of such securities or other evidences of debt; and

(*5*) If such property consists of a motor vehicle, shall be notice, when received, to the registrar of motor vehicles of the commonwealth,

or to any public official charged with the registration of title to motor vehicles in any other state, of such transfer and shall be authority to the registrar or to such official to record the transfer on his books and records in the same manner as if the certificate of title to such motor vehicle were transferred or assigned by the party holding the same, in lieu of any original or prior certificate, which shall be void, whether canceled or not.

(*b*) In the case of the sale of real property pursuant to section thirty-nine the deed of sale given pursuant to section forty-one shall be prima facie evidence of the facts therein stated; and if the proceedings of the commissioner as set forth have been substantially in accordance with the provisions of law, such deed shall be considered and operate as a conveyance of all the right, title and interest the party delinquent had in and to the real property thus sold at the time the lien of the commonwealth attached thereto.

(*c*) A certificate of sale of personal property given or a deed to real property executed pursuant to section forty-two shall discharge such property from all liens, encumbrances and titles over which the lien of the commonwealth with respect to which the levy was made had priority.

Section 44. The commissioner shall keep a record of all sales of real property under section thirty-nine and of all redemptions of such property. The record shall set forth the tax for which any such sale was made, the dates of seizure and sale, the name of the party assessed and all proceedings in making such sale, the amount of expenses, the names of the purchasers and the date of the deed. A copy of such record, or any part thereof, certified by the commissioner shall be the evidence in any court of the truth of the facts therein stated.

Section 45. The commissioner shall determine the expenses to be allowed in all cases of levy and sale.

Section 46. (*a*) Any money realized by proceedings under sections thirty-six through forty-seven, whether by seizure, by surrender under section thirty-seven, except pursuant to paragraph (2) of subsection (*c*) thereof, or by sale of seized property, or by sale of property redeemed by the commonwealth, if the interest of the commonwealth in such property was a lien arising under the provisions of this title, shall be applied as follows:—

First, against the expenses of the proceedings;

The amount, if any, remaining after payment of such expenses shall be applied against the liability in respect of which the levy was made or the sale was conducted.

Be it enacted, etc., as follows:

Chapter 90 of the General Laws is hereby amended by striking out section 22, as most recently amended by chapter 332 of the acts of 1968, and inserting in place thereof the following section: —

Section 22. (*a*) The registrar may suspend or revoke without a hearing any certificate of registration or any license issued under this chapter whenever the holder thereof has committed a violation of the motor vehicle laws of a nature which would give the registrar reason to believe that continuing operation by such holder is and will be so seriously improper as to constitute an immediate threat to the public safety. Upon such suspension or revocation, the registrar shall forthwith send written notice thereof to the licensee or registrant, as the case may be. Such notice shall specify the time and place of the violation. The registrar may order the license of such operator or the registration certificate and number plates to be delivered to him; and neither the certificate of registration nor the license shall be reissued unless, upon examination or investigation, or after a hearing, the registrar determines that the operator shall again be permitted to operate. Said operator shall be entitled to a hearing within thirty days of the suspension or revocation, and the registrar shall so advise him in his notice of suspension or revocation. The registrar, under the same conditions and for the same cause, may also suspend the right of any person to operate motor vehicles in the commonwealth under section ten until he shall have received a license from the registrar or until his right to operate has been restored by the registrar.

(*b*) The registrar may, after due hearing, suspend or revoke any certificate of registration or any license issued under this chapter, when he has reason to believe the holder thereof is an incompetent person to operate motor vehicles, or is operating a motor vehicle improperly. At least fourteen days prior to any such suspension or revocation, the registrar shall notify the operator in writing of his intention to suspend or revoke his license as of a specified date. Said notice shall specify the reasons for the intended suspension or revocation and shall inform the operator of his right to request in writing a hearing within seven days of his receipt of such notice on the question of whether there is just cause for such suspension or revocation. If he so requests, the registrar shall grant him a hearing, shall notify him of the date of such hearing and he shall not suspend or revoke the license or registration prior to the completion of the hearing. If, after such hearing, the registrar determines that there is just cause for suspension or revocation, he may suspend or revoke the license but, except as provided by law, or except when he finds that the operator is physically or mentally incapable of operating a motor vehicle, no suspension under this subsection shall be for a period in excess of thirty days. Failure on the part of the operator to request a hearing as aforesaid shall constitute a waiver of his right to a hearing and the registrar may thereafter suspend or revoke the license or certificate on the date originally specified.

(*c*) If the registrar shall receive official notice that any resident has been convicted in another state or country of operating under the influence of narcotic drugs and has had his right to operate in such state or country suspended, the registrar shall forthwith suspend his license, if any, or his right to operate in this commonwealth, and any reinstatement or renewal of such license or reinstatement of such right to operate shall be subject to the provisions of section twenty-four as if the operator had been convicted of operating under the influence of narcotic drugs in this commonwealth.

(*d*) Notice to any person whose license or registration certificate or right to operate is suspended or revoked under this section or notice to any person of intention to revoke or suspend his license or registration certificate under this section shall be in writing, shall be mailed by the registrar or any person authorized by him to the last address as appearing on the registrar's records or to his last and usual place of abode and a certificate of the registrar that such notice has been mailed in accordance with this section shall be deemed prima facie evidence and shall be admissible in any court of the commonwealth as to the facts contained therein.

If during the period of any such suspension or revocation and prior to its termination by the registrar a new or duplicate learner's permit, license or certificate of registration, or any renewal thereof, is issued, such learner's permit, license or certificate of registration shall be void and of no effect. *Approved August 6, 1969.*

THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, STATE HOUSE,
BOSTON, August 12, 1969.

The Honorable JOHN F. X. DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts.*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 649 of the Acts of 1969, entitled "AN ACT AUTHORIZING THE COMMISSIONER OF MENTAL HEALTH TO SELL AND CONVEY CERTAIN LAND TO THE TOWN OF SHREWSBURY." and the enactment of which received my approval on August 7, 1969, should take effect forthwith.

I further declare that in my opinion said law is an emergency law and the facts constituting the emergency are as follows:

The town of Shrewsbury is planning to build a power plant on this piece of land and equipment has already been purchased for this project. Any unnecessary delay in the operation of this act would mean that the town would have to pay thousands of dollars for storage of this equipment. So that the town may take advantage of an early start in the building of this power plant, I declare the above facts constitute the emergency.

Sincerely,

FRANCIS W. SARGENT,
Acting Governor of the Commonwealth.

OFFICE OF THE SECRETARY, BOSTON, August 12, 1969.

I, John F. X. Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Acting Governor of the Commonwealth of Massachusetts at two o'clock and fifteen minutes, P.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter six hundred and forty-nine of the acts of nineteen hundred and sixty-nine.

JOHN F. X. DAVOREN,
Secretary of the Commonwealth.

The term "nonprofit school food service programs", as used in this section, shall mean the school's food services are administered, managed and operated solely by employees of the governing body of said school and all funds received in connection with such services shall be used solely for the operation and improvement of school food services for children.

Upon report to the commissioner of education on such blanks and in such form as he may prescribe, in accordance with the provisions of said National School Lunch Act and said Child Nutrition Act of 1966, of any expenditure hereunder, said commissioner shall, if he approves the same, certify to the comptroller such payments as are due and the state treasurer shall pay the same.

SECTION 2. Sums appropriated in section one are based upon detailed schedules approved by the joint committee on counties, copies of which are deposited with the director of accounts.

Said director shall file with the county commissioners and the county treasurer of Essex county a certification of the amounts above appropriated as set forth in the approved schedules. Except as provided by this act or except as otherwise provided by law, no liability may be incurred and no expenditure shall be made in excess of the amount available in an existing appropriation for a function, a main group, a class or a subclass.

Transfers within an appropriation from a main group to another main group may be made upon written request of the authorized official of

the organization unit with the written approval of the county commissioners, and copies of said request and approval shall be filed with the county treasurer; provided, however, that no transfer shall be made from the main groups "personal services", "equipment", "structures and improvements" or "improvements to land" to another main group nor shall any transfer be made from any other main group into any of the aforementioned main groups.

Transfers within an appropriation between classes and between subclasses within a main group may be made by the authorized official of the organization unit whenever in his opinion public necessity and convenience so requires; provided, however, that no transfer shall be made within the classes of the main groups "personal services" or "equipment".

Amounts included for permanent positions in sums appropriated in section one for personal services are based upon schedules of permanent positions and salary rates as approved by the joint committee on counties, and, except as otherwise shown by the files of said committee, a copy of which shall be deposited with the county personnel board, no part of sums so appropriated in section one shall be available for payment of salaries of any additional permanent positions, or for payments on account of reallocations of permanent positions, or for payments on account of any change of salary range or compensation of any permanent positions, notwithstanding any special or general law to the contrary.

Moneys appropriated under this act for the purchase of equipment shall be expended for the purposes specified in the schedules as approved by the joint committee on counties and for no other purpose.

SECTION 3. No expense incurred for mid-day meals by county officers and employees, other than those who receive as part of their compensation a noncash allowance in the form of full or complete boarding and housing, and those county officers and employees who are stationed beyond commuting distance from their homes for a period of more than twenty-four hours, shall be allowed; provided that officers or employees who have charge of juries or who have the care and custody of prisoners, insane persons or other persons placed in their charge by a court or under legal proceedings for transfer to or from court to an institution or from institution to institution and persons certified by a district attorney as engaged in investigation shall be reimbursed for the expense of mid-day meals when necessarily engaged on such duty; and provided, further, that county officers and employees in attendance at meetings and conferences called by or for any group or class on a statewide basis shall be so reimbursed.

Notwithstanding the provisions of the preceding paragraph, not more than two employees of a county may be reimbursed for meals and other expenses incurred in attendance at a meeting or conference called by or for any group or class on a statewide basis.

No moneys appropriated under this act shall be expended by county officers or employees for monthly telephone service furnished to such officers or employees at places other than regular offices.

No moneys appropriated under this act shall be approved by the county commissioners and expended by the county treasurer for any unpaid bills of previous years which were incurred prior to January first of nineteen hundred and sixty-eight.

SECTION 4. The allowance to county officers and employees for expenses incurred by them in the operation of motor vehicles owned by them or by any member of their immediate families and used in the performance of their official duties shall not exceed eight cents a mile, except in cases where a higher allowance is specifically provided by statute; provided that in the case of commitments of the insane the justice of the court ordering the commitment may order a higher rate, but not to exceed forty cents a mile one way. No expenditures shall be made for travel outside the commonwealth for attendance at conferences or conventions.

SECTION 5. This act shall take effect upon its passage.

Approved August 8, 1969.

Section 32. No conservation restriction, as defined in section thirty-one, held by any governmental body or by a charitable corporation or trust whose purposes include conservation of land or water areas or of a particular such area, and no preservation restriction, as defined in section thirty-one, held by any governmental body or by a charitable corporation or trust whose purposes include preservation of buildings or sites of historical significance or of a particular such building or site, shall be unenforceable on account of lack of privity of estate or contract or lack of benefit to particular land or on account of the benefit being assignable or being assigned to any other governmental body or to any charitable corporation or trust with like purposes, provided (a) in case of a restriction held by a city or town or a commission, authority, or other instrumentality thereof it is approved by the commissioner of natural resources if a conservation restriction or the Massachusetts historical commission if a preservation restriction, and (b) in case of a restriction held by a charitable corporation or trust it is approved by the mayor, or in cities having a city manager the city manager, and city

Such a restriction may be released, in whole or in part, by the holder for such consideration, if any, as the holder may determine, in the same manner as the holder may dispose of land or other interests in land, but only after a public hearing upon reasonable public notice, by the governmental body holding the restriction or if held by a charitable corporation or trust, by the mayor, or in cities having a city manager the city manager, and city council of the city or the selectmen of the town, whose approval shall be required, and in case of a restriction requiring approval by the commissioner of natural resources or the Massachusetts historical commission, only with like approval of the release.

Approvals of restrictions and releases shall be evidenced by certificates of the commissioner of natural resources or the chairman, clerk or secretary of the commission, city council, selectmen or town, duly recorded or registered.

In determining whether the restriction or its continuance is in the public interest, the governmental body acquiring, releasing or approving shall take into consideration the public interest in such conservation or preservation, and any national, state, regional and local program in furtherance thereof, and also any public, state, regional or local comprehensive land use or development plan affecting the land, and any known proposal by a governmental body for use of the land.

This section shall not be construed to imply that any restriction, easement, covenant or condition which does not have the benefit of this section shall, on account of any provision hereof, be unenforceable. Nothing in this section or sections thirty-one and thirty-three shall diminish the powers granted by any general or special law to acquire by purchase, gift, eminent domain or otherwise and to use land for public purposes.

Section 33. Any city or town may file with the register of deeds for the county or district in which it is situated a map or set of maps of the city or town, to be known as the public restriction tract index, on which may be indexed conservation and preservation restrictions and restrictions held by any governmental body. Such indexing shall indicate sufficiently for indentification (a) the land subject to the restriction, (b) the name of the holder of the restriction, and (c) the place of record in the public records of the instrument imposing the restriction. Maps used by assessors to identify parcels taxed, and approximate boundaries without distances, shall be sufficient, and, where maps by parcels are not available, addition to other maps of approximate boundaries of restricted land shall be sufficient. If the names of the holders and the instrument references cannot be conveniently shown directly on the maps, they may be indicated by appropriate reference to accompanying lists.

Such maps may also indicate similarly, so far as practicable, (a) any order or license issued by a governmental body entitled to be recorded or registered, (b) the approximate boundaries of any historic or architectural control district established under chapter forty C or any special act, ordinance or by-law where a certificate of appropriateness may be required for exterior changes, (c) any landmark certified by the Massachusetts historical commission pursuant to section twenty-seven of chapter nine, (d) any other land which any governmental body may own in fee, or in which it may hold any other interest, and (e) such additional data as the filing governmental body may deem appropriate.

Whenever any instrument of acquisition of a restriction or order or other appropriate evidence entitled to be indexed in a public restriction tract index is submitted for such indexing, the register shall make, or require the holder of the right to enforce the restriction or order or interest to make, appropriate additions to the tract index, and such addition shall, as to any restriction or order or other appropriate evidence previously recorded entitled to be indexed, be likewise made on request of the holder of the right to enforce it.

The maps shall be in such form that they can be readily added to, changed and reproduced, and shall be a public record, appropriately available for public inspection. If any governmental body, other than a city or town in which the land affected lies, holds a right to enforce a restriction or order or an interest entitled to be indexed in a public restriction tract index for any city or town which has not filed such an index, or if the commissioner of natural resources or the Massachusetts historical commission approves a conservation or preservation restriction held by a charitable corporation or trust so entitled, and the city or town does not within one year after written request to the mayor or selectmen file a sufficient map or set of maps for the purpose, the holding governmental body or approving commissioner or commission may do so.

The registers of deeds, or a majority of them, may, from time to time with the approval of the attorney general, make and amend rules and regulations for administration of public restriction tract indexes, and the provisions of section thirteen A of chapter thirty-six shall not apply thereto. New tract indexes may be filed, from time to time, upon compliance with such rules and regulations as may be necessary to assure against omission of prior additions and references still effective.

Except in the case of a restriction noted on the certificate of title of registered land subject thereto, no conservation or preservation restriction having the benefit of section thirty-two, and no other restriction held by any governmental body, which is not so indexed in the public restriction tract index shall be enforceable after thirty years from the recording of the instrument imposing it unless before the expiration of such thirty years there is similarly recorded a notice of restriction identifying the instrument and its place of record in the public records and naming one or more of the owners of record of each parcel of land to be affected by the notice, nor enforceable after twenty years from the recording of any such notice unless before the expiration of twenty years another such notice is so recorded, and in each case the notice is indexed in the grantor index under the owner or owners named. Such notices may be given by any official of a governmental body holding the restriction, by the commissioner of natural resources in case of a restriction approved

by him, by the chairman or acting chairman of the Massachusetts historical commission in case of a restriction approved by it, or by any official of any charitable corporation or trust holding the restriction or whose purposes include, in case of a conservation restriction, the conservation of land or water areas, or, in case of a preservation restriction, the preservation of buildings or sites of historical significance.

SECTION 6. Sections thirty-one, thirty-two and thirty-three of chapter one hundred and eighty-four of the General Laws, inserted by section five of this act, shall apply to conservation and preservation restrictions not otherwise unenforceable contained in instruments executed or probated before the effective date of this act, as well as to those contained in instruments executed or probated thereafter. The time for filing a notice of restriction with respect to any restriction existing on said effective date and not theretofore required to be filed shall not expire sooner than one year after said effective date.

Be it enacted, etc., as follows:

Chapter 93A of the General Laws is hereby amended by adding the following two sections: —

Section 9. (1) Any person who purchases or leases goods or services primarily for personal, family or household purposes and thereby suffers any loss of money or property, real or personal, as a result of the use or employment by another person of an unfair or deceptive act or practice declared unlawful by section two and by any rule or regulation issued under said section three C may, as hereinafter provided, bring an action in the superior court in equity for damages and such equitable relief, including an injunction, as the court deems to be necessary and proper.

(2) Any persons entitled to bring such action may, if the use or employment of the unfair or deceptive act or practice has caused similar injury to numerous other persons similarly situated and if the court finds in a preliminary hearing that he adequately and fairly represents such other persons, bring the action on behalf of himself and such other

similarly injured and situated persons; the court shall require that notice of such action be given to unnamed petitioners in the most effective practicable manner. Such action shall not be dismissed, settled or compromised without the approval of the court, and notice of any proposed dismissal, settlement or compromise shall be given to all members of the class of petitioners in such manner as the court directs.

(3) At least thirty days prior to the filing of any such action, a written demand for relief, identifying the claimant and reasonably describing the unfair or deceptive act or practice relied upon and the injury suffered, shall be mailed or delivered to any prospective respondent. Any person receiving such a demand for relief who, within thirty days of the mailing or delivery of the demand for relief, makes a written tender of settlement which is rejected by the claimant may, in any subsequent action, file the written tender and an affidavit concerning its rejection and thereby limit any recovery to the relief tendered if the court finds that the relief tendered was reasonable in relation to the injury actually suffered by the petitioner. In all other cases, if the court finds for the petitioner, recovery shall be in the amount of actual damages or twenty-five dollars, whichever is greater; or up to three but not less than two times such amount if the court finds that the use or employment of the act or practice was a willful or knowing violation of said section two or that the refusal to grant relief upon demand was made in bad faith with knowledge or reason to know that the act or practice complained of violated said section two. In addition, the court shall award such other equitable relief, including an injunction, as it deems to be necessary and proper. The demand requirements of this paragraph shall not apply if the prospective respondent does not maintain a place of business or does not keep assets within the commonwealth, but such respondent may otherwise employ the provisions of this section by making a written offer of relief and paying the rejected tender into court as soon as practicable after receiving notice of an action commenced under this section.

(4) If the court finds in any action commenced hereunder that there has been a violation of section two, the petitioner shall, in addition to other relief provided for by this section and irrespective of the amount in controversy, be awarded reasonable attorney's fees and costs incurred in connection with said action; provided, however, the court shall deny recovery of attorney's fees and costs which are incurred after the rejection of a reasonable written offer of settlement made within thirty days of the mailing or delivery of the written demand for relief required by this section.

Section 10. Upon commencement of any action brought under section nine, the clerk of the court shall mail a copy of the bill in equity to the attorney general and, upon entry of any judgment or decree in the action, the clerk of the court shall mail a copy of such judgment or decree to the attorney general.

Any permanent injunction or order of the court made under section four shall be prima facie evidence in an action brought under section nine that the respondent used or employed an unfair or deceptive act or practice declared unlawful by section two.

The secretary shall be responsible for the exercise of all powers and the performance of all duties assigned by law to said bureau, which shall be under his direction, control and supervision.

Section 21. The secretary, with the approval of the governor, shall appoint a director of building construction and may, with like approval, remove him for cause. Said director shall be a person of ability and experience and shall devote his entire time to the duties of his office. Said director shall be the chief engineer of the bureau of building construction. No person shall be appointed director or deputy director of said bureau unless at the time thereof he shall be registered by the commonwealth as an architect or professional engineer pursuant to the provisions of chapter one hundred and twelve and shall have proven ability and extended experience in the design and construction of buildings. The positions of director of building construction and deputy director of building construction shall be subject to the provisions of chapter thirty-one.

The secretary shall appoint all other officers and employees in said bureau, and all such appointments shall be made in accordance with chapter thirty-one.

Section 22. Except as otherwise provided in this section or by any appropriation act of the general court, the director of building construction shall, in the manner and to the extent provided by this chapter, have control and supervision of all building construction projects, as hereinafter defined, which may be undertaken by the commonwealth. Such projects shall embrace each project, (1) which shall be financed in whole or in part by appropriation, bond issue or federal funds; (2) the estimated cost of which shall exceed ten thousand dollars; and (3) which shall be so undertaken for construction of any building and appurtenant structures, facilities and utilities, including original equipment and furnishings thereof. Such projects shall also include any project the estimated cost of which shall exceed ten thousand dollars for the alteration, repair or addition to any existing building and appurtenant structure, facility and utility; provided such alteration, repair or addition requires alteration of the structural or mechanical design of the building, structure or utility; and provided, further, that original requests for such projects shall be made to the director. Such projects shall not include projects involving the ordinary repair or maintenance of such buildings, structures or utilities not requiring structural or mechanical alterations, and responsibility for such repair or maintenance projects shall rest with the operating agency unless otherwise specified by the act in which funds for the project are appropriated. Such projects shall not include any project undertaken by or on behalf of any city or town or other local authority, or appurtenant buildings or structures which are

required to be constructed as integral parts of the development or improvement of sewer, water and highway systems.

The secretary may after consultation with said director and the agency for which the project shall be undertaken, hereinafter in this chapter called the operating agency, direct that any such project shall be undertaken by the operating agency free from the control and supervision of said director, subject, however, to the following conditions: (1) that, so far as feasible, the standard contract documents and specifications referred to in section thirteen shall be used in connection with the project; (2) that no person shall be engaged as a designer on the project who shall not have the qualifications required by section thirty B of chapter seven; (3) that the operating agency shall file with said director certified copies of the working plans and specifications for the project and of all changes therein; (4) that the secretary may at any time or times add such other conditions to such exemption as in his opinion would benefit the commonwealth; and (5) that the secretary shall transfer from the bureau of building construction to the operating agency the funds available for the project.

For the purposes of sections thirty-one to thirty-eight, inclusive, the word "project" or "projects" shall mean any project which shall, in accordance with this section, be subject to the control and supervision of said director.

Section 23. The contract which the director of building construction shall make with the designer appointed under section thirty B of chapter seven shall provide, among other appropriate terms, that the designer: (1) shall, in consultation with the operating agency and subject to its initial approval, prepare plans and specifications for the project for submission to said director for the latter's approval; (2) shall, so far as feasible, use standard contract documents and specifications which said director shall have prepared and made available in the bureau of building construction; (3) shall be charged with general supervision of construction of the project; (4) shall appoint and employ a qualified clerk-of-the-works for the project who shall be approved by the director, shall devote full time to the work of the project, oversee continuously the detail of construction, keep informed at all times of the financial status of the project, and make such investigations for and reports and recommendations to the designer or the director as either may require; and (5) shall, subject to the approval of said director, be currently reimbursed for all expenses incurred in connection with the employment of such clerk-of-the-works.

No person shall be so appointed and employed as clerk-of-the-works unless at the time thereof: (1) he shall be registered by the commonwealth as an architect or professional engineer under the provisions of chapter one hundred and twelve, shall have had at least five years experience in the construction and supervision of construction of buildings for an architectural, engineering or construction firm or association, and shall have proven ability to estimate construction costs and to keep accurate records and accounts thereof; or (2) if not so registered, he shall have had at least ten years of such experience and shall have such proven ability to estimate construction costs and to keep records and accounts thereof.

If the designer shall not, within thirty days following final approval of the plans and specifications for the project, so appoint and employ such a clerk-of-the-works, the director shall, on behalf of the commonwealth, appoint and contract with a qualified clerk-of-the-works for the project; provided, however, that the director may exempt any project from the necessity of having a clerk-of-the-works or of having a clerk-of-the-works who shall have the qualifications required by this section, if in his opinion such exemption would benefit the commonwealth.

Section 24. No obligation shall be incurred or payment made for preparation of any plans or specifications for any project without the prior approval of the director of building construction; and no plans or specifications, other than preliminary plans or specifications, shall be prepared until a special appropriation by the general court shall have been made therefor or for the project or until federal funds or assistance shall have been made available therefor in accordance with this chapter. No other obligation shall be incurred or payment made in connection with any project until such obligation or payment shall have been approved in accordance with this chapter.

Working plans and specifications for each project shall, following initial approval thereof by the operating agency, be submitted by the designer to the director for his approval. In reviewing such plans and specifications, the duty of the director shall be to see that they are clear and complete and permit execution of the project with economy and efficiency.

Following final approval of such plans and specifications, the director shall advertise in a reasonable number of newspapers for proposals for performance of the work of the project; except that the secretary may direct that the purchase of any materials, original equipment or original furnishings for the project shall be made under the provisions of sections twenty-two to twenty-six, inclusive, of chapter seven. Subject to the prior approval of the secretary and to the applicable provisions of sections forty-four A to forty-four D, inclusive, of chapter one hundred and forty-nine, he shall award the contract or contracts for such work to the lowest responsible eligible bidder; but no such contract shall be awarded by him for a sum in excess of the amount which the comptroller shall certify to be available therefor. If the director shall knowingly award a contract in violation of any provision of this section, he may be removed from office by the governor.

Section 25. A request for any change in the plans, specifications or contracts for any project may be initiated by the operating agency, the designer, any contractor or subcontractor working on the project, or the director of building construction, and such request shall be submitted first to the clerk-of-the-works. He shall examine and forward the same, with his recommendations, to the designer and simultaneously furnish copies thereof to the director and the operating agency. The designer shall then examine and forward the same, with his recommendations, to the director and simultaneously furnish copies thereof to the operating agency. The director shall approve or disapprove the request; provided, however, that if the regulations of the secretary under this section shall so require, the approval granted

by the director shall not be effective without the approval also of the operating agency and the secretary. The secretary may make, alter, amend or repeal such rules and regulations as he may deem necessary for the purposes of this section.

If the request shall be approved, said director shall forthwith so notify the designer and operating agency in writing and shall instruct the designer to issue forthwith a formal change-order to the contractor and to send copies thereof to the comptroller, the operating agency and the director.

If the director disapproves the request, he shall forthwith so notify the designer and operating agency in writing and, if neither shall be the requesting party, the requesting party also; and in such event the requesting party or the operating agency, whether or not the latter shall have initiated the request, may, within three days following receipt of such notice, appeal such action to the secretary. Such appeal shall set forth in writing the reasons therefor and a copy thereof shall be furnished to the director at the time the appeal is filed with the secretary. The secretary shall, within seven days following receipt of such an appeal, render a written decision thereon, failing which the request shall be deemed to have been finally disapproved.

The provisions of section twenty A of chapter twenty-nine shall not apply to any change-order request submitted and acted on in accordance with this section.

Section 26. Whenever the director of building construction disapproves any plan, specification, contract, appointment of a clerk-of-the-works or payment for any project, he shall forthwith notify the designer and operating agency in writing of his reasons therefor. Within three days following receipt of such notice, the designer or operating agency may appeal such action to the secretary, in which event the secretary shall decide the matter.

Any such appeal shall set forth in writing the reasons therefor and a copy thereof shall be furnished to the director at the time the appeal is filed with the secretary.

The secretary may adopt and issue, and from time to time amend or repeal, regulations governing the hearing and deciding of appeals to it permitted under this and section fifteen from actions of said director and governing exercise of any other powers and duties given the secretary by sections twelve to twenty, inclusive. Such regulations shall become effective when they shall have been approved by the governor and a copy thereof shall have been filed with the state secretary. The secretary shall cause printed copies of such regulations to be made available to said director for general distribution.

As used in this section and section thirty-three, the word "days" shall not include Saturdays, Sundays or legal holidays.

Section 27. In addition to the powers and duties heretofore and hereafter given him, the director of building construction shall have the following powers and duties:

1. From time to time he shall cause each project to be inspected to determine the quality of construction thereof and to assure that the project and construction thereof shall comply with the plans, specifications and contracts therefor.

2. He shall be responsible for accepting or rejecting each project upon its completion and for directing final payment for work done

thereon; provided, however, that if upon inspection of any project for acceptance he shall find that the plans, specifications, contracts or change-orders for the project shall not have been fully complied with or that the operating agency shall for any reason object to his acceptance of the project, he shall, until such compliance has been effected, such objection has been removed or adjustment satisfactory to him have been made, refuse to accept the project and to direct such payment.

3. Upon acceptance of the project, he shall release the same to the operating agency.

4. From each agency of the commonwealth which has or shall have charge of any building owned by or maintained at the expense of the commonwealth, he shall request, and the agency shall promptly furnish, periodic maintenance reports in such form and containing such information as he shall from time to time determine.

Section 28. The secretary shall cause the director of building construction to examine all requests for projects made to the commissioner of administration, as provided in section seven of chapter twenty-nine. The director of building construction, with the approval of the secretary, may develop projects of his own whenever in his judgment the maintenance of state-owned property requires such improvements to prevent deterioration or costly future repairs. Said director shall cause to be made and filed with him preliminary plans and descriptive specifications sufficient for a careful estimate by a competent expert; and for such purpose such sums as may be appropriated or otherwise made available therefor may, with his approval, be expended and he may, with the approval of the secretary, employ temporarily such architects, engineers, contractors and consultants as may be necessary.

Annually, on or before a date set by the secretary, said director shall submit to the secretary a report containing a list of all projects so requested, and the secretary shall transmit such report to the commissioner of administration on or before a date set by said commissioner. Such report shall show the estimated cost of each such project.

Section 29. The director of building construction may adopt and issue, and from time to time amend or repeal, such regulations as he shall deem necessary or desirable to expedite the work of the bureau of building construction. Such regulations shall become effective when they shall have been approved by the secretary and a copy thereof shall have been filed with the state secretary. Printed copies of such regulations shall be available in said division for general distribution.

Section 30. The director of building construction may, with the approval of the secretary, the commissioner of administration and the governor, accept on behalf of the commonwealth any federal funds or assistance for financing the cost of plans and specifications for any project.

If such funds or assistance shall be appropriated for aiding construction of any project, the director may, with like approval, apply for the same and may, with the approval of the governor, accept the same on behalf of the commonwealth. Any project so aided shall be executed in all respects subject to applicable federal law and rules and regulations and also to the applicable provisions of this chapter not inconsistent therewith.

Chap. 709. AN ACT ESTABLISHING IN THE TOWN OF WALPOLE REPRESENTATIVE TOWN GOVERNMENT BY LIMITED TOWN MEETINGS.

Be it enacted, etc., as follows:

SECTION 1. There is hereby established in the town of Walpole the form of representative town government by limited town meetings.

SECTION 2. Upon the acceptance of this act by the town, the selectmen shall divide the town into not less than five nor more than nine voting precincts. Each precinct shall contain not less than eight hundred registered voters.

SECTION 3. The number of members of the representative town meeting elected in each precinct shall be approximately in the same ratio to the total number of members elected in the town as the number of registered voters in the precinct is to the number of registered voters in the town. The membership in each precinct shall consist of the largest number divisible by three which will result in a total elected membership in the town not exceeding one hundred and fifty. The number of elected town meeting members to which each precinct is entitled for the ensuing year shall be determined by the town clerk between October fifteenth and October twentieth of each year and shall be proportionate to the number of registered voters on October fifteenth of that year.

SECTION 4. The membership of the representative town meeting also shall include the following nonvoting members at large; the town clerk, the town counsel, the town administrator, any member of the General Court who is a registered voter of the town, and the chairmen of the following: selectmen, appropriation committee, personnel board and planning board.

SECTION 5. It shall be the duty of the selectman and the chairman of each board or committee of the town and the head of each town department to attend that part of every representative town meeting at which matters pertaining to their area, other than those to be acted upon or determined by ballot, are to be considered.

SECTION 6. The precincts shall be plainly designated and so established as to consist of, when possible, compact and contiguous territory, and shall be bounded so far as possible by the center line of highways or by other well-defined limits.

SECTION 7. The boundaries of the precincts shall be reviewed and may be wholly or partly revised by the selectmen in September of the year after the expiration of five years following their establishment, revision, or review in September of any other year when so directed by vote of a representative town meeting held not later than the twentieth day of August in such a year.

SECTION 8. The selectmen within ten days after the establishment or revision of precincts shall file a report of their action with the town clerk, the registrars of voters and the assessors, with a map or description of the precincts and the names and addresses of the registered voters in each. They also shall cause to be posted in the town hall a map or description and a list of the registered voters in the precinct as established or revised, and similar information for each precinct shall be posted in at least one public place in the precinct unless a description of precincts shall be published in a newspaper having a general circulation in the town. Written notice shall be mailed to each voter affected.

SECTION 9. The division of the town into precincts and any revision of precincts shall take effect upon the date of the filing of the report thereof with the town clerk. Whenever precincts are established or revised, the town clerk shall forthwith give written notice and description to the secretary of the commonwealth, stating the number and designation of the precincts.

SECTION 10. Meetings of the registered voters of the several precincts for elections and primaries or for voting upon a question to be submitted to all the voters of the town shall be held at the same time and at such place or places as the selectmen shall direct in the warrant for the meeting.

SECTION 11. The nomination of candidates for town meeting members shall be made by nomination papers which shall bear no political designation. Such papers shall be signed by not less than twenty-five registered voters of the precinct in which the candidate resides and shall be subject to section ten of chapter fifty-three of the General Laws. No nomination paper shall be received or be valid unless the written acceptance of the candidate thereby nominated shall be filed therewith.

SECTION 12. A town meeting member may become a candidate for reelection by giving written notice to the town clerk not later than fourteen days prior to the last day on which the nomination papers of candidates for other town offices must be filed. If a town meeting member is a candidate for reelection, there may be added to his name as it appears on the ballot for the election of town officers the words "candidate for reelection".

SECTION 13. The registered voters in each precinct, at the first annual town election held after the establishment of the precinct, and those in any precinct affected by a revision of precincts at the first annual town election following such revision, shall elect by ballot the number of registered voters in the precinct, determined as herein provided, to be town meeting members of the town.

SECTION 14. The first third to the nearest whole number of members elected in the order of votes received shall serve for three years, the second third to the nearest whole number for two years, and the remaining third to the nearest whole number for one year from the day of the annual town meeting. In case of an equal vote affecting the division into thirds, the remaining town meeting members from the precinct shall determine the same by ballot.

SECTION 15. Thereafter as the term of the town meeting members expire except as otherwise provided herein, the registered voters of each precinct at each annual town election shall elect for the term of three years in like manner one third of the number to which the precinct is entitled, and also shall fill for the unexpired term any vacancy then existing in the number of elected town meeting members in the precinct.

SECTION 16. If two or more candidates for town meeting member receive an equal number of votes, other than for the division into thirds for deciding their term of office, the remaining members elected in such precinct at the same election shall determine by ballot which of the candidates shall serve as a town meeting member. The terms of office of the town meeting members from any precinct whose boundaries are revised shall cease upon the election of their successors. The town clerk, after every election of town meeting members, shall notify each member by mail of his election.

SECTION 17. If the boundaries of any precinct are revised or any new precinct established, there shall be a new election of town meeting members in each precinct whose territory is affected at the first annual town election following such a revision.

SECTION 18. The representative town meeting members shall be elected in conformity with chapters fifty-three and fifty-four of the General Laws relative to elections, and the provisions of law relating to precinct voting at elections shall apply to all elections and primaries in the town so far as such laws are not inconsistent herewith. The provisions of this act pertaining to the establishment of precincts shall

not authorize any action contrary to the provisions of any law relative to the use of precincts in the formation of representative districts.

SECTION 19. A town meeting member may resign by filing a written resignation with the town clerk, effective upon the date of filing. A member who removes from the town shall cease forthwith to be a member, and a member who removes from one precinct to another may serve only until the next annual town meeting.

SECTION 20. A vacancy in the number of town meeting members from any precinct arising from any cause may be filled until the next annual election by vote of the remaining town meeting members from the precinct. Upon petition signed by not less than ten or not less than one third, whichever is greater, of the town meeting members from the precinct, the town clerk shall call a meeting of the remaining members from the precinct for the purpose of filling the vacancy, notice of which shall be mailed to such members not less than seven days before the time of the meeting.

SECTION 21. A majority of the members from the precinct attending such meeting shall constitute a quorum and shall elect one of their number as chairman and one as clerk or they may designate the town clerk to act as clerk of the meeting. The vote shall be by ballot and a majority of votes cast shall be necessary for a choice. The chairman and clerk shall count the ballots, and the chairman shall make a certificate of the choice which shall be filed with the town clerk together with a written acceptance of the person so chosen, who thereupon shall be deemed to be chosen as a town meeting member.

SECTION 22. A moderator shall be elected by ballot at the annual town meeting when the term of office of a moderator expires, and he shall serve at all town meetings, except as otherwise provided by law, until a successor is elected and qualified. The nomination and election of a moderator shall be the same as for other elective town officers. If the moderator is absent, a moderator pro tempore may be elected by the town meeting members.

SECTION 23. The articles in the warrant for every town meeting which relate to the election of a moderator, town officers, and town meeting members and to referenda and all matters to be acted upon and determined by ballot, shall be acted upon and determined by the registered voters of the town. All other articles shall be acted upon and determined exclusively by the town meeting members at a meeting held at a time and place specified by the selectmen in the warrant for the meeting, subject to a referendum as herein provided.

SECTION 24. The town clerk shall notify the town meeting members of the time and place at which meetings are to be held, the notices to be sent by mail at least seven days before the meeting. Notice of the time and place of an adjourned town meeting shall be sent by mail forthwith following the adjournment of the meeting from which adjournment is taken.

SECTION 25. The members of the representative town meeting shall receive no compensation for serving as members of the representative town meeting. A majority of the members shall constitute a quorum for the transaction of business. A lesser number may organize temporarily and may adjourn from time to time, but a meeting shall not adjourn beyond the date of an election of town meeting members.

SECTION 26. The representative town meeting may make such rules consistent with law as it may consider necessary for conducting its meetings.

SECTION 27. A town meeting member shall be ineligible to vote on any matter in which he is deemed to be in conflict of interest.

SECTION 28. The representative town meeting may appoint such committees as it may consider necessary to investigate and report on any matters referred to them and to make a recommendation thereon, but no such committee shall have any executive or legislative powers and all matters shall be determined by vote of the town meeting members.

SECTION 29. All representative town meetings shall be open to the public. Any registered voter of the town who is not a town meeting member, subject to such conditions as the town meeting members may determine, may speak at least once upon any matter at such a meeting, but he shall have no vote.

SECTION 30. The following votes of a representative town meeting shall not be operative until the expiration of seven days, exclusive of Sundays and holidays, from the dissolution of the meeting: (a) authorizing the expenditure of twenty-five thousand dollars or more as a special appropriation; (b) establishing a new board or office; (c) abolishing an old board or office; (d) merging two or more boards or offices; (e) fixing the term of office of town officers where such term is optional; (f) increasing or reducing the number of members of a board; (g) adopting a new by-law; and (h) amending or repealing an existing by-law.

SECTION 31. If within such period of seven days a petition signed by not less than fifty registered voters from each precinct, the aggregate number so signing being not less than four per cent of the registered voters in the town, is filed with the selectmen asking that any question involved in such a vote be submitted to the voters of the town at large, then the selectmen within seven days thereafter shall call a special meeting to be held within fourteen days following such call for the sole purpose of presenting the question to the voters at large.

SECTION 32. Each question submitted shall be placed on the official ballot in the following form: — "Shall the town vote to approve the action of the representative town meeting whereby it was voted (insert brief description of the substance of the vote)?"

SECTION 33. The polls for voting upon such a question may be opened no later than at twelve o'clock noon and shall be closed not earlier than eight o'clock in the evening. The vote shall be taken by ballot and the check list used in the several precincts in the same manner as for the election of town officers. A question submitted shall be determined by a majority of the registered voters of the town voting thereon or by the same proportion of votes as would be required if the question were determined by a representative town meeting, but an action of the representative town meeting shall not be reversed unless at least twenty-five per cent of all the registered voters of the town shall so vote.

SECTION 34. If such a petition for a referendum is not filed within seven days the vote of the representative town meeting shall become operative and effective upon the expiration of that period.

SECTION 35. The town shall have the capacity to act through and to be bound by the action of its town meeting members, who when convened from time to time shall constitute a representative town meeting. The representative town meeting shall have and may exercise all powers

vested in the municipal corporation so far as it is consistent with the provisions of this act.

SECTION 36. Action by a representative town meeting in conformity with laws now or hereafter applicable to the transaction of town affairs in town meeting shall have the same force and effect as if taken in a town meeting open to all voters of the town, as organized and conducted before the establishment of representative town government.

SECTION 37. This act shall be submitted for acceptance by the voters of the town of Walpole at the annual town meeting in the year nineteen hundred and seventy in the form of the following question which shall be placed on the official ballot to be used for the election of town officers at said meeting: "Shall an act passed by the General Court in the year nineteen hundred and sixty-nine, entitled 'An Act establishing in the town of Walpole representative town government by limited town meetings.', be accepted by the town?" If a majority of the votes in answer to said question is in the affirmative, this act shall take effect immediately for the purposes of the regular annual town election in the year nineteen hundred and seventy-one. *Approved August 14, 1969.*

Chap. 710. AN ACT PROVIDING FOR MODIFICATIONS IN THE ELECTION OF TOWN MEETING MEMBERS IN THE TOWN OF BELMONT.

Be it enacted, etc., as follows:

SECTION 1. Section 1 of chapter 302 of the acts of 1926 is hereby amended by striking out the second and third paragraphs and inserting in place thereof the following two paragraphs: —

Precinct boundaries shall be reviewed and, if need be, wholly or partly revised by the selectmen in November, once in ten years, or in November of any year when so directed by a vote of a representative town meeting not later than October thirtieth of that year. In revising precincts, the selectmen shall be governed by the foregoing provisions for establishment of precincts, and shall use voter lists compiled for purposes of the last previous presidential election. If, however, the constitution or general laws so authorize them the selectmen may, and if the constitution or general laws so direct them the selectmen shall, revise precincts according to a unit of representation other than registered voters. Each precinct shall be approximately equal according to whatever unit of representation is adopted.

The selectmen shall, within twenty days after any establishment or revision of the precincts, but not later than December tenth of the same year, file a report of their doings with the town clerk, the registrars of voters and the assessors with a map or maps or description of the precincts and the names and residences of the registered voters therein. The selectmen shall also cause to be posted in the town hall a map or maps or description of the precincts as established or revised from time to time, with the names and residences of the registered voters therein. They shall also cause to be posted in at least one public place in each precinct a map or description of that precinct with the names and residences of the registered voters therein. The division of the town into voting precincts and any revision of such precincts shall take effect upon the date of the filing of the report thereof by the selectmen with the town clerk, except that revision of precincts shall not take

effect until the revised precincts can be effective for state as well as town elections. Whenever the precincts are established or revised, the town clerk shall forthwith give written notice thereof to the state secretary, stating the number and designation of the precincts. Meetings of the registered voters of the several precincts for election, for primaries, and for voting upon any question to be submitted to all the voters of the town, shall be held on the same day and at the same hour and at such place or places within the town as the selectmen shall in the warrant for such meeting direct. The provisions of the general laws, relating to precinct voting at elections, so far as the same are not inconsistent with this act, shall apply to all elections and primaries in the town.

SECTION 2. Said chapter 302 is hereby further amended by striking out section 2, as amended by section 2 of chapter 212 of the acts of 1947, and inserting in place thereof the following section: —

Section 2. (*a*) Prior to any December thirty-first next following (i) the effective date of this section, or (ii) an effective revision of precinct boundaries, or (iii) the holding of a presidential election, the town clerk shall, in accordance with paragraphs (*b*) and (*c*) of this section, determine the number of town meeting members to be elected from each precinct.

(*b*) The clerk shall initially compute for each precinct that number divisible by three which most nearly provides a representation for the precinct in the proportion which the number of registered voters in the precinct bears to the total number of registered voters in the town and which will cause the total town meeting membership elected from precincts to be as nearly two hundred and eighty-eight as may be. In making this computation the clerk shall use the voter lists compiled for purposes of the last previous presidential election. If, however, precinct boundaries then in effect have been revised according to a unit of representation other than registered voters, the clerk shall compute the proportion of each precinct to the town according to that unit of representation.

(*c*) The clerk shall make the final determination of members to be elected from precincts as follows:

If a precinct's boundaries have been established or revised in the twelve months preceding the clerk's initial computation, then the voters of that precinct shall at the next town election elect by ballot the number of town meeting members provided for in paragraph (*b*) of this section. The first third in order of votes received of members so elected shall serve three years, the second third shall serve two years, and the remaining third shall serve one year, from the day of the next annual town meeting; in case of a tie vote affecting the division into thirds, the members elected from the precinct shall by ballot determine the division.

If a precinct's boundaries have not been revised in the twelve months preceding the clerk's initial computation, and if the initial computation requires an increase in a precinct's representation, all additional members shall be elected at the next town election, one third for a three-year term, one third for a two-year term and one third for a one-year term. If the initial computation requires a decrease in a precinct's representation, all town meeting members in the precinct may serve the full term for which they were elected, and the decrease shall be

brought about over a period of three years through the election for a three-year term at each of the next three town elections of one third of the number of town meeting members to which the precinct is then entitled. During this interim period, vacancies created by retirement, death, removal or the like shall not be filled unless the remaining membership elected from the precinct for the same term would be below one third of the number to which the precinct is then entitled.

(*d*) Except as is otherwise specifically provided in this section, the registered voters of each precinct shall, at each annual town election, elect for a term of three years one third of the number of town meeting members to which the precinct is then entitled, and shall at such elections fill for the unexpired term any vacancy then existing in the precinct. The term of office for all town meeting members elected from precincts shall cease upon the election of their successors, including persons elected from newly revised precincts. The town clerk shall, after every election of town meeting members from precincts, forthwith notify each member by mail of his election.

SECTION 3. The second paragraph of section 3 of said chapter 302 is hereby amended by striking out the last sentence and inserting in place thereof the following sentence: — A town meeting member who removes from the town shall cease to be a town meeting member and an elected town meeting member who removes from one precinct to another or is elected from a precinct whose boundaries have been newly revised shall not retain membership after the next annual election.

SECTION 4. Section 4 of said chapter 302 is hereby amended by striking out the first sentence and inserting in place thereof the following sentence: — Nomination of candidates for town meeting members to be elected under this act shall be made by nomination papers signed by not less than twenty-five voters of the precinct in which the candidate resides, and filed with the town clerk in accordance with section ten of chapter fifty-three of the General Laws; provided, that any town meeting member, including any member whose term of office is about to cease because he is elected from a precinct whose boundaries have been newly revised, may become a candidate for reelection by giving written notice thereof to the town clerk in accordance with section ten of chapter fifty-three of the General Laws.

SECTION 5. Section 7 of said chapter 302 is hereby amended by striking out the first sentence and inserting in place thereof the following sentence: — Except as is provided otherwise by section two of this act, any vacancies in the full number of town meeting members from any precinct may be filled until the next annual election by the remaining town meeting members of the precinct from among the registered voters thereof. *Approved August 14, 1969.*

Chap. 714. AN ACT AUTHORIZING THE FORMATION OF A REGIONAL SCHOOL DISTRICT INCLUDING ALL THE GRADES FROM KINDERGARTEN THROUGH GRADE TWELVE BY THE CITY OF PITTSFIELD AND THE TOWN OF RICHMOND.

Be it enacted, etc., as follows:

SECTION 1. The city of Pittsfield, by vote of its city council, and the town of Richmond, by vote in a town meeting, may create a special

unpaid committee to be known as a regional school district planning committee, to consist of three members from each such municipality, one of whom shall be a member of the school committee, to be appointed by the mayor in the case of the city of Pittsfield and by the moderator in the case of the town of Richmond. Any vacancy in the membership of a planning committee may be filled by the mayor or moderator as the case may be. Each of said municipalities may appropriate at any time for the expenses of said committee such sum or sums not exceeding one tenth of one per cent of the assessed valuation of such municipality in the preceding year, as it may deem necessary. The regional school district planning committees from said city and town may join together to form a regional school district planning board. Such regional school district planning board shall organize forthwith upon its formation by the election of a chairman and a secretary-treasurer. Any proceedings taken by the city of Pittsfield and the town of Richmond, whereby said municipalities purported to create committees for the purpose of planning a regional school district, and the proceedings heretofore taken by such committees either separately or together as a regional school district planning board are ratified and confirmed in all respects, and, for all purposes of this act, said committees and said board shall be deemed to be the committees and the board whose creation and organization are authorized by this section.

SECTION 2. It shall be the duty of the regional school district planning board to study the advisability of establishing a regional school district, hereinafter called the regional school district or the district, for all the grades from kindergarten through grade twelve, and to submit a report of its findings and recommendations to the city council of the city of Pittsfield and, at the same time or at a later time, to the selectmen of the town of Richmond.

SECTION 3. Said regional school district planning board may recommend that there shall be established a regional school district comprising the city of Pittsfield and the town of Richmond for all the grades from kindergarten through grade twelve. If said regional school district planning board so recommends, it shall submit a proposed agreement setting forth the following:—

(a) The number, composition, method of selection and terms of office of the members of the regional district school committee.

(b) The method of apportioning the expenses of the regional school district, and the method of apportioning the costs of school construction, including any interest and retirement of principal of any bonds or other obligations issued by the district among the municipalities comprising the district, and the time and manner of payment of the shares of said municipalities of any such expense.

(c) The method by which school transportation shall be provided.

(d) The terms by which any municipality may be admitted to or separated from the regional school district.

(e) The method by which the agreement may be amended.

Said committee is authorized to establish and maintain state-aided vocational education in accordance with the provisions of chapter seventy-four of the General Laws and for this purpose the regional district school committee shall have all the powers and perform the duties conferred or imposed by law upon local trustees for vocational education, and may be known as a board of regional school district trustees for vocational education.

SECTION 4. The agreement made under section three, or any amendment to such an agreement, may contain provisions authorizing any member municipality to sell, lease or grant a license to use any school building and any land appurtenant thereto or used in connection therewith to the regional school district, and any such municipality may authorize such sale, lease or license accordingly, notwithstanding the provisions of section three of chapter forty of the General Laws or any other provisions of law to the contrary. In case of a sale, the price and time or times of payment and the method by which the municipalities other than the selling municipality shall be assessed for such payment shall be set forth in the agreement or amendment; but in no case shall payments be made which shall extend over a period in excess of twenty years. In the case of a lease or license to use, the rental or license fee, if any, and the terms of payment and assessment shall be set forth in the agreement or amendment. The lease or license to use may be for a term or period not in excess of twenty years, and may contain provisions for the extension of the lease or license to use for an additional term or period not in excess of twenty years, at the option of the regional district school committee.

SECTION 5. Upon receipt by the city council of the city of Pittsfield of a recommendation that a regional school district be established, and of a proposed agreement therefor submitted in accordance with the provisions of sections one to three, inclusive, of this act, said city council shall direct the city clerk to cause the question of accepting the provisions of this act to be placed on the ballot to be used at the next regular city election after such receipt or at the next state election after such receipt, whichever occurs first, in substantially the form hereinafter set forth, and not more than sixty days after receipt by the selectmen of the town of Richmond of a recommendation that a regional school district be established and of a proposed agreement therefor submitted in accordance with the provisions of said sections one to three, inclusive, said selectmen shall cause to be presented for determination by vote, with printed ballots at an annual town meeting or a special town meeting called for the purpose, the question of accepting the provisions of this act, which question shall be in substantially the following form:—

"Shall the city (town) accept the provisions of an act passed by the General Court in the year nineteen hundred and sixty-nine, providing for the establishment of a regional school district by the city of Pittsfield and the town of Richmond for all the grades from kindergarten through grade twelve in accordance with the provisions of a proposed agreement filed with the city council of said city and the selectmen of said town?" If a majority of the voters present and voting on said question in said city and a majority of the voters present and voting on said question in said town shall vote in the affirmative, this act shall become fully effective and the proposed regional school district shall be deemed to be established forthwith in accordance with the terms of the agreement so adopted, notwithstanding any defect or omission in the creation or organization of any regional school district planning committee or regional school district planning board.

SECTION 6. The regional school district established under the provisions of section five shall be a body politic and corporate with all the powers and duties conferred by law upon school committees and with the following additional powers and duties:—

(a) To adopt a name and a corporate seal, and the engraved or printed facsimile of such seal on a bond or note of the district shall have the same validity and effect as though such seal were impressed thereon.

(b) To sue and be sued, but only to the same extent and upon the same conditions that a city or town may sue or be sued.

(c) To acquire property within the municipalities comprising the district under the provisions of chapter seventy-nine and section fourteen of chapter forty of the General Laws, for the purposes of the district, and to construct, reconstruct, add to, remodel, make extraordinary repairs to, equip, organize and operate a school or schools for the benefit of the municipalities comprising the district, and to make any necessary contracts in relation thereto.

(d) To incur debt for the purpose of acquiring land and constructing, reconstructing, adding to and equipping a school building or buildings for a term not exceeding twenty years or for the purpose of remodeling and making extraordinary repairs to a school building or buildings and for the construction of sewerage systems and sewerage treatment and disposal facilities, or for the purchase or use of such systems with municipalities, for a term not exceeding ten years; provided, however, that any indebtedness so incurred shall not exceed an amount approved by the emergency finance board; and provided, further, that written notice of the amount of the debt and of the general purposes for which it was authorized shall be given to the city council of the city of Pittsfield and to the board of selectmen of the town of Richmond not later than seven days after the date on which said debt was authorized by the district committee; and no debt may be incurred until the expiration of thirty days from the date on which said debt was so authorized. If, prior to the expiration of said period, the city council of said city expresses disapproval of the amount authorized by the district committee, or the town of Richmond expresses such disapproval by vote of a majority of the voters present and voting on the matter at a town meeting called for the purpose of

expressing such disapproval, said debt shall not be incurred and the district school committee shall prepare another proposal which may be the same as any prior proposal and an authorization to incur debt therefor.

Chap. 722. AN ACT RELATIVE TO THE CONTROL OF AQUATIC NUISANCES IN WATERS OF THE COMMONWEALTH BY THE DEPARTMENT OF PUBLIC HEALTH AND AUTHORIZING THE WATER RESOURCES COMMISSION TO ESTABLISH PRIORITIES THEREFOR.

Be it enacted, etc., as follows:

SECTION 1. Clause (36B) of section 5 of chapter 40 of the General Laws is hereby amended by adding the following two paragraphs:—

A city or town may participate in the cost sharing program established by this section for the control of aquatic nuisances in those waters of the commonwealth selected for control by the department of public health under the provisions of section five F of chapter one hundred and eleven.

To participate in such program, a city or town may contribute up to one half of the total cost of the control program but not less than one quarter of the total cost as determined by said department. If a body of water is located in a state park or reservation, or if the body of water is a great pond which said department determines is more heavily used by inhabitants of cities or towns other than the one in which the pond is located, the entire cost of the control may be borne by the commonwealth; provided, however, that if a state agency operates a recreational facility on a body of water the department of public health may authorize the city or town to contribute less than one quarter of the total cost. The department in determining the amount of any such contribution shall consider the following: (1) the economic capabilities of the city or town as determined by the department of corporations and taxation, (2) the use of the waters by communities outside of the city or town in which the waters are located, and (3) the advantage to the commonwealth of the work. When the body of water is located in more than one city or town, the local contribution shall be apportioned in accordance with the amount of water area in acres lying in each municipality as determined by the department of public health. In instances where a city or town boundary is merely contiguous to the shoreline of the waters but does not encompass any water area, the apportionment of costs shall be made in accordance with the amount of shoreline in linear feet lying in each town as determined by the department of public health. All city and town funds to be used in the cost sharing program for the control of aquatic nuisances shall be paid to the state treasurer and may be expended by the department of public health for said purposes.

SECTION 2. Chapter 111 of the General Laws is hereby amended by striking out section 5F, inserted by section 1 of chapter 498 of the acts of 1961, and inserting in place thereof the following section:—

Section 5F. The department shall undertake the control of algae, weeds and other aquatic nuisances in waters within the commonwealth in accordance with priorities established under this section; provided, however, no funds of the commonwealth shall be expended for a control program in waters to which there is no public access. In undertaking such control work the department shall consider the public health implications as they relate to public and private water supply uses, bathing and industrial process uses.

The department shall receive requests from any person or agency of the commonwealth to consider waters for control and shall submit to the water resources commission all such requests which it approves. The water resources commission shall review such requests and establish priorities for control, considering public accessibility, recreational and agricultural uses, the general public advantage, the importance to commercial, agricultural or other interests, the local interest

therein as manifested by municipal or other contributions therefor, and other considerations affecting the feasibility, necessity or advantage of the proposed work. The water resources commission shall forward the results of its review to the department within a period of sixty days, and if such review is not completed within sixty days or within such further time as may be mutually agreed upon, the department shall establish priorities.

No work authorized under this section shall be begun until the department conducts bioengineering surveys to determine the types and extent of nuisance aquatic growth, evaluates water usages, establishes restrictions where necessary to protect the public health, safety and property, as well as fish and other animal life, and develops estimates of costs. Personnel of the department of public health in the performance of their duties under this section may enter upon, pass through or over private lands or property whether or not covered by water. *Approved August 18, 1969.*

CHAPTER 121B.

HOUSING AND URBAN RENEWAL.

Section 1. The following words, whenever used in this chapter shall, unless a different meaning clearly appears from the context, have the following meanings:—

"Acquisition cost", the amount prudently required to be expended by an operating agency in acquiring a housing or clearance project.

"Blighted open area", a predominantly open area which is detrimental to the safety, health, morals, welfare or sound growth of a community because it is unduly costly to develop it soundly through the ordinary operations of private enterprise by reason of the existence of ledge, rock, unsuitable soil, or other physical conditions, or by reason of the necessity for unduly expensive excavation, fill or grading, or by reason of the need for unduly expensive foundations, retaining walls or unduly expensive measures for waterproofing structures or for draining the area or for the prevention of the flooding thereof or for the protection of adjacent properties and the water table therein or for unduly expensive measures incident to building around or over rights-of-way through the area, or for otherwise making the area appropriate for sound development, or by reason of obsolete, inappropriate or otherwise faulty platting or subdivision, deterioration of site improvements or facilities, division of the area by rights-of-way, diversity of ownership of plots, or inadequacy of transportation facilities or other utilities, or by reason of tax and special assessment delinquencies, or because there has been a substantial change in business or economic conditions or practices, or an abandonment or

cessation of a previous use or of work on improvements begun but not feasible to complete without the aids provided by this chapter, or by reason of any combination of the foregoing or other condition; or a predominantly open area which by reason of any condition or combination of conditions which are not being remedied by the ordinary operations of private enterprise is of such a character that in essence it is detrimental to the safety, health, morals, welfare or sound growth of the community in which it is situated.

"Clearance project", the demolition and removal of buildings from any substandard, decadent or blighted open area by an operating agency in accordance with subsection (*d*) of section twenty-six.

"Commissioner", the commissioner of community affairs.

"Decadent area", an area which is detrimental to safety, health, morals, welfare or sound growth of a community because of the existence of buildings which are out of repair, physically deteriorated, unfit for human habitation, or obsolete, or in need of major maintenance or repair, or because much of the real estate in recent years has been sold or taken for nonpayment of taxes or upon foreclosure of mortgages, or because buildings have been torn down and not replaced and under existing conditions it is improbable that the buildings will be replaced, or because of a substantial change in business or economic conditions, or because of inadequate light, air, or open space, or because of excessive land coverage or because diversity of ownership, irregular lot sizes or obsolete street patterns make it improbable that the area will be redeveloped by the ordinary operations of private enterprise, or by reason of any combination of the foregoing conditions.

"Department", the department of community affairs.

Such a project may include the planning of the buildings and improvements, the acquisition of property, the demolition of existing structures, the construction, reconstruction, alteration and repair of the improvements and other work performed in connection therewith, but construction activity in connection with a project may be confined to the reconstruction, remodeling or repair of existing buildings.

is reasonably required to carry out an urban renewal plan or because of the acquisition of property by an operating agency.

Such relocation payments shall not include reimbursement or compensation for any expenses or losses for which reimbursement or compensation would be otherwise made, nor shall any person have any right of action for relocation payments, except as provided by federal legislation or chapter seventy-nine A.

"Relocation project", any work or undertaking for providing decent, safe and sanitary dwellings for persons or families displaced by any urban renewal project or other public improvement by the commonwealth or any city, town or other body politic and corporate of the commonwealth.

In any case where an educational institution or a hospital is located in or near an urban renewal project area, the urban renewal plan for such project, or a development plan prepared by the hospital or educational institution and approved by the urban renewal agency after due notice and public hearing, may include plans for the development of land, buildings and structures adjacent to or in the immediate vicinity of the project area acquired or to be acquired and redeveloped or rehabilitated by such educational institution for educational uses or by such hospital for hospital uses. Such plans may comply with all requirements of federal legislation as they may exist from time to time relating to noncash grant-in-aid credits for expenditures of such hospitals or educational institutions. After its approval by the urban renewal agency, as aforesaid, any development plan which is not part of an urban renewal plan shall be approved by the planning board, the municipal officers and the department in the same

manner as urban renewal plans, except that no further public hearing shall be required.

"Urban renewal project", a project to be undertaken in accordance with an urban renewal plan (1) for acquisition by an urban renewal agency of the land and all improvements thereon, if any, within a decadent, substandard or blighted open area covered by an urban renewal plan and for assembly or clearance by such agency of the land so acquired; or a project (2) for the elimination and for the prevention of the development or spread of a substandard, decadent or blighted open area covered by an urban renewal plan by means of rehabilitation or conservation work, which work may include the promulgation and enforcement of building and other codes within such area or the restoration and renewal of any such area or portion thereof, including the preservation, restoration or relocation of historical buildings, by carrying out plans for a program of voluntary repair and rehabilitation of buildings or other improvements or by the acquisition by gift, purchase or eminent domain of land and all improvements thereon, if any, and demolition, removal, or rehabilitation of any such improvements whenever necessary to eliminate unhealthful, unsanitary or unsafe conditions, lessen density, mitigate or eliminate traffic congestion, reduce traffic hazards, eliminate obsolete or other uses detrimental to the public welfare, provide land for needed public facilities or otherwise remove or prevent the spread of blight and deterioration; or a project (3) involving any combination of the foregoing types of project. "Urban renewal project" may also include the construction by a housing authority of any of the buildings, for residential use, contemplated by the urban renewal plan and the repair, removal or rehabilitation by an operating agency of any of the buildings, structures or other improvements located in the area covered by the urban renewal plan and which, under such plan, are to be repaired, moved or rehabilitated. "Urban renewal project" may also include acquisition by any means other than eminent domain and not involving public expenses of land outside of but adjacent to or in the immediate vicinity of an urban renewal project to be developed for hospital or educational uses under the urban renewal plan, whenever such acquisition is for the purpose of making such land subject to the urban renewal plan and the hospital or

Section 2. The provisions of this chapter are hereby declared to be severable and if any such provision or the application of such provision to any person or circumstances shall be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not be construed to affect the validity or constitutionality of any of the remaining provisions of said chapter or the application of such provision to persons or circumstances other than those as to which it is held invalid. It is hereby declared to be the legislative intent that said chapter would have been adopted had such invalid or unconstitutional provisions not been included therein.

OPERATING AGENCIES.

Section 3. There is hereby created, in each city and town in the commonwealth, a public body politic and corporate to be known as the "Housing authority" of such city or town; provided, that no such authority shall transact any business or exercise any powers until the need for a housing authority has been determined and until a certificate of organization has been issued to it by the state secretary, both as hereinafter provided.

Whenever the municipal officers of a city or an annual or special town meeting shall determine that a housing authority is needed therein for the purpose of the clearance of substandard, decadent or blighted open areas or the provision of housing for families or elderly persons of low income or engaging in a land assembly and redevelopment project, including the preservation, restoration or relocation of historical buildings, it may by vote provide for the organization of such an authority. In determining the need for a housing authority, the city council or the town shall take into consideration the need for relieving congestion of population, the existence of substandard, decadent or blighted open areas or unsanitary or unsafe inhabited dwellings, and the shortage of safe or sanitary dwellings available for families or elderly persons of low income at rentals which they can afford.

Whenever a housing authority determines that there is no further need for its existence, that it has no property to administer, and that

all outstanding obligations of the authority have been satisfied, it may by a majority vote of the five members submit the question of its dissolution, in a town, to the voters at an annual town meeting or, in a city, to the municipal officers. If a city or town votes for such dissolution in accordance herewith and the department is satisfied of the existence of the facts required herein it shall so certify to the state secretary and said housing authority shall be dissolved forthwith subject to the applicable provisions of section fifty-one of chapter one hundred and fifty-five.

Section 4. There is hereby created, in each city and town in the commonwealth, a public body politic and corporate to be known as the "Redevelopment authority" of such city or town; provided, that no such authority shall transact any business or exercise any powers until the need for such an authority has been determined and a certificate of organization has been issued to it by the state secretary, both as hereinafter provided.

Whenever the municipal officers of a city, or the voters at an annual or special town meeting determine that there is a need for a redevelopment authority in such city or town for the purpose of engaging in urban renewal projects or other work under this chapter and that it is in the public interest that such an authority be organized in such city or town, a redevelopment authority shall be organized in such city or town.

Whenever a redevelopment authority determines that there is no further need for its existence, and that all outstanding obligations of the authority have been satisfied, it may by a majority vote of the five members submit the question of its dissolution, in a town, to the voters at an annual town meeting or, in a city, to the municipal officers. If a city or town votes for such dissolution in accordance herewith and the department is satisfied of the existence of the facts required herein, it shall so certify to the state secretary and said redevelopment authority shall be dissolved forthwith subject to the applicable provisions of section fifty-one of chapter one hundred and fifty-five.

Section 5. Every housing and redevelopment authority shall be managed, controlled and governed by five members, appointed or elected as provided in this section, of whom three shall constitute a quorum.

In a city, four members of a housing or redevelopment authority shall be appointed by the mayor subject to confirmation by the city council; provided, that, the members shall be appointed to serve for initial terms of one, two, four and five years, respectively.

In a town, four members shall be elected by the town; provided, that of the members originally elected at an annual town meeting, the one receiving the highest number of votes shall serve for five years, the one receiving the next highest number of votes, for four years, the one receiving the next highest number of votes, for two years, and the one receiving the next highest number of votes shall serve for one year; provided, that upon the initial organization of a housing or redevelopment authority, if a town so votes at an annual or special town meeting called for the purpose, four members of such an authority shall be appointed forthwith by the selectmen to serve only

until the qualification of their successors, who shall be elected at the next annual town meeting as provided above.

In a city or town, one member of a housing or redevelopment authority shall be appointed by the department for an initial term of three years.

Thereafter, as the term of a member of any housing or redevelopment authority expires, his successor shall be appointed or elected, in the same manner and by the same body, for a term of five years from such expiration. Membership in a housing or redevelopment authority shall be restricted to residents of the city or town.

In a city, one of the five members of a housing authority shall be a representative of organized labor. Vacancies, other than by reason of expiration of terms, shall be filled for the balance of the unexpired term, in the same manner and by the same body, except elected members in towns whose terms shall be filled in accordance with the provisions of section eleven of chapter forty-one. Every member, unless sooner removed, shall serve until the qualification of his successor.

As soon as possible after the qualification of the members of a housing or redevelopment authority the city or town clerk, as the case may be, shall file a certificate of such appointment, or of such appointment and election, as the case may be, with the department, and a duplicate thereof, in either case, in the office of the state secretary. If the state secretary finds that the housing or redevelopment authority has been organized and the members thereof elected or appointed according to law, he shall issue to it a certificate of organization and such certificate shall be conclusive evidence of the lawful organization of the authority and of the election or appointment of the members thereof.

Whenever the membership of an authority is changed by appointment, election, resignation or removal, a certificate and duplicate certificate to that effect shall be promptly so filed. A certificate so filed shall be conclusive evidence of the change in membership of the authority referred to therein.

Section 6. The mayor or city council or board of selectmen may make or receive written charges against, and the mayor with the approval of the city council, or the board of selectmen, as the case may be, may accept the resignation of, any member of a housing authority or redevelopment authority appointed or elected by such city or town or may, after hearing, remove any such member because of inefficiency, neglect of duty or misconduct in office provided that such member shall have been given, not less than fourteen days before the date set for such hearing, a copy in writing of the charges against him and written notice of the date and place of hearing to be held thereon, and at the hearing shall have been given the opportunity to be represented by counsel and to be heard in his defense. The mayor and city council or board of selectmen may also make or receive written charges against any member of a housing or redevelopment authority in such city or town appointed by the department and refer the same to the department which may proceed in the same manner as the mayor and city council or board of selectmen under the preceding sentence. Pending final action upon any such charges, the officer or

officers having the power to remove such member may temporarily suspend him, provided that they shall immediately reinstate him in office if they find such charges have not been substantiated, and may appoint a person to perform the duties of such suspended member until he is reinstated or until he is removed and his successor is qualified. In case of any such removal the removing authority shall forthwith deliver to the clerk of the city or town attested copies of such charges and of its findings thereon, and the clerk shall cause the same to be filed with the certificate and duplicate certificate required to be filed with the department and the state secretary under section five.

A member of a housing or redevelopment authority who ceases to be a resident of the city or town shall be removed upon the date of his change of residence by operation of law. A member of a housing authority who is a tenant in a housing project shall not participate in any decision relating to the project affecting his personal interest.

Section 7. A housing or redevelopment authority shall elect from among its members a chairman and a vice-chairman, and may employ counsel, an executive director who shall be ex officio secretary of the authority, a treasurer who may be a member of the authority and such other officers, agents and employees as it deems necessary or proper, and shall determine their qualifications, duties and compensation, and may delegate to one or more of its members, agents or employees such powers and duties as it deems necessary or proper for the carrying out of any action determined upon by it. So far as practicable, a housing or redevelopment authority shall make use of the services of the agencies, officers and employees of the city or town in which such authority is organized, and such city or town shall, if requested, make available such services, except, that in the city of Boston, the housing authority may contract with said city for the assignment of thirty-seven police officers of the police department of said city to police the buildings and grounds owned by said authority with the proviso that said authority shall reimburse said city for one third of the cost thereof.

A housing authority may compensate its members for each day spent in the performance of their duties and for such other services as they may render to the authority in connection with projects commenced prior to July first, nineteen hundred and sixty-five. Such compensation shall not exceed fifty dollars a day for the chairman and forty dollars a day for a member other than the chairman, provided that the total sum paid to all the members in any one month or year shall not exceed two per centum of the gross income of the housing authority during such month or year, respectively, nor shall the total sum paid in any year exceed twelve thousand five hundred dollars in the case of the chairman or ten thousand dollars in the case of a member other than the chairman. Such compensation shall be allocated by the housing authority among its various projects commenced prior to July first, nineteen hundred and sixty-five, in such manner and amounts as it deems proper. Members of a housing authority shall be allowed, or be reimbursed for, all expenses properly incurred by them within or without the city or town in the discharge of their duties. Such expenses shall be allocated by the housing

authority among its various projects in such manner and amounts as it deems proper.

For the purposes of chapter two hundred and sixty-eight A, each housing and redevelopment authority shall be considered a municipal agency and, without limiting the power of a city council or board of aldermen or board of selectmen to classify additional special municipal employees pursuant to said chapter, each member of such an authority, and any person who performs professional services for such an authority on a part-time, intermittent or consultant basis, such as those of architect, attorney, engineer, planner, or construction, financial, real estate or traffic expert, shall be considered a special municipal employee.

Except as herein otherwise provided, the provisions of chapters seventy-nine and eighty A relative to counties, cities, towns and districts, so far as pertinent, shall apply to operating agencies, and the members of a housing or redevelopment authority shall act on its behalf under those chapters.

Section 12. The department of labor and industries shall enforce this paragraph and shall also have power to petition the court for injunction or other appropriate relief against any operating agency which fails to comply herewith.

An operating agency shall enter into a compact or compacts with the Social Security Board or take such other action as it may deem appropriate to enable its employees to come within the provisions and obtain the benefits of the Social Security Act. Section 13. An operating agency shall be liable in contract or in tort in the same manner as a private corporation. The members, employees, officers and agents of an operating agency shall not be liable as such on its contracts or for torts not committed or directly authorized by them. The property or funds of an operating agency shall not be subject to attachment or to levy and sale on execution, but if such agency refuses to pay a judgment entered against it in any court of competent jurisdiction, the superior court, sitting within and for the county in which the agency is situated, may, by writ of mandamus, direct the treasurer of such agency to pay such judgment. The real estate of such an agency shall not be subject to liens under chapter two hundred and fifty-four, but the provisions of sections twenty-eight and twenty-nine of chapter one hundred and forty-nine shall be applicable to any construction work by such agencies.

An operating agency shall reimburse the Massachusetts Bay Transportation Authority and every railroad corporation for all reasonable costs and expenses incurred by said transportation authority or such railroad corporation to relocate such of their respective facilities as are required to be removed as part of a project being undertaken pursuant to this chapter by such operating agency and as are necessary for the continuance of the common carrier services performed by said transportation authority or such railroad corporation. "Facilities", as used in this paragraph, shall mean poles, tracks, switches, wires, conduits, cables, signals and structures and in addition thereto equipment appurtenant to any of the foregoing.

Section 14. An operating agency may obligate itself, in any contract with the federal government for a loan or the payment of annual

contributions authorized by section eleven, to convey to the federal government the project to which such contract relates, upon the occurrence of a substantial default with respect to the covenants, terms and conditions of such contract to which such agency is subject. Such contract may further provide that, in case of such conveyance, the federal government may complete, operate, manage, lease, convey or otherwise deal with the project in accordance with the terms of such contract; provided, that the contract shall require that, as soon as practicable, after the federal government is satisfied that all of the defaults on account of which it acquired the project have been remedied, and that the project will thereafter be operated in compliance with the terms of the contract, the federal government shall reconvey to such agency or its successor the project in the condition in which it then exists. The obligation of an operating agency under such contract shall be subject to specific enforcement by any court having jurisdiction, and, notwithstanding any other provision of the law, shall not be deemed to constitute a mortgage.

Section 15. The bonds, notes and certificates of indebtedness of an operating agency, in the absence of an express recital to the contrary on the face thereof, shall constitute negotiable instruments for all purposes. They may be payable from the income of the agency or constitute a general obligation thereof, may be sold at not less than par, at public or private sale, may mature at such time or times, may be secured in such manner, may provide for such rights and remedies upon their default, may contain such other covenants, terms and conditions not inconsistent with law, may be executed by such officers, and may be issued with or without the corporate seal, all as may be authorized either by vote of the agency or by the officer or officers to whom the power to determine any or all the matters set forth in this sentence may be expressly delegated by vote of such agency. The engraved or printed facsimile of the seal of an agency on its bonds, notes or certificates of indebtedness shall have the same validity and effect as if such seal were impressed thereon. Whenever a bond, note or certificate of indebtedness is required to bear the signatures of two or more officers, it shall be sufficient if the signature of any one of such officers upon such instrument is a written signature and the remaining signature or signatures are engraved, printed or stamped facsimile signatures; provided, that each officer whose facsimile signature appears on such instrument has, by a writing bearing his written signature and filed in the office of the secretary of the agency, authorized the officer whose written signature appears on such instrument to cause such facsimile to be placed thereon. The facsimile signature of any officer so engraved, printed or stamped thereon shall have the same validity and effect as his written signature.

The bonds, notes and certificates of indebtedness of an operating agency issued under this chapter and the interest thereon shall be exempt from taxation, with respect to principal and income. The bonds of such an agency issued under this chapter shall be legal investments for the deposits and the income derived therefrom of savings banks, for the trust funds of trust companies, for the capital and other funds of insurance companies, and for funds over which the commonwealth has exclusive control.

Section 16. The real estate and tangible personal property of an operating agency including houses constructed by a housing authority on private land in rural areas under the provisions of section twenty-seven shall be deemed to be public property used for essential public and governmental purposes and shall be exempt from taxation and from betterments and special assessments; provided, that in lieu of such taxes, betterments and special assessments, a city or town in which an operating agency holds real estate used or to be used in connection with such a project may determine a sum to be paid to the city or town annually in any year or period of years, such sum to be in any year not in excess of the amount that would be levied at the current tax rate upon the average of the assessed value of such real estate, including buildings and other structures, for the three years preceding the year of acquisition thereof, the valuation for each year being reduced by all abatements thereon.

Such a city or town may, however, agree with such an operating agency upon the payments to be made to the city or town as herein provided or such agency may make and such city or town may accept such payments, the amount of which shall not in either case be subject to the foregoing limitation. The last paragraph of section six and all of section seven of chapter fifty-nine shall, so far as apt, be applicable to payments under this section.

Nothing in this chapter shall be construed to prevent the taxation to the same extent and in the same manner as other real estate is taxed, of real estate acquired by an operating agency for an urban renewal project and sold by it, or of the leasehold interests and buildings and other structures belonging to private individuals or corporations on land acquired by it; provided, however, that real estate so acquired by an operating agency and sold or leased to an urban redevelopment corporation or other entity operating under chapter one hundred and twenty-one A, or to an insurance company or savings bank or group of savings banks operating under said chapter, shall be taxed as provided in said chapter and not otherwise.

MUNICIPAL POWERS AND LIABILITIES.

Section 17. No bond, note or other evidence of indebtedness executed or obligation or liability incurred by an operating agency shall be a debt or charge against the commonwealth or any political subdivision thereof other than such agency. Nothing in this chapter shall be construed to obligate the commonwealth, or any political subdivision thereof other than the applicable operating agency, or to pledge its credit, to any payment whatsoever to any operating agency or to any creditor or bondholder thereof, nor shall anything therein contained be construed as granting to any operating agency any exemption from taxation except as expressly provided therein or to render the commonwealth, or any political subdivision other than such agency liable for any indebtedness or liability incurred, acts done, or any omissions or failures to act, of any such agency.

Section 18. Whether or not an operating agency has been created therein any city or town may undertake, itself or by or through any department, board, agency, authority, or office of the city or town, or

by or through any operating agency, planning district, metropolitan district, or other public body any planning activities within such city or town for the preparation or completion of master or general plans, a workable program for development of the community, general neighborhood renewal plans, a community renewal project, any other planning study, project or program and a code enforcement project, including the voluntary or compulsory repair and rehabilitation of buildings and improvements, the enforcement of laws, codes and regulations relating to the use of land and the use and occupancy of buildings and improvements, and the provision and repair of streets, curbs, sidewalks, street lighting, tree planting and similar improvements in connection therewith and may authorize such department, board, agency, authority, office, operating agency, district or public body to act as the agent of such city or town in entering contracts for financial assistance for such purposes from the federal government or the commonwealth. Any such city or town may raise and appropriate or agree with such department, board, agency, authority, office, district, operating agency or public body or with the federal government or the commonwealth to raise and appropriate such sums as may be necessary for the purpose.

Section 19. Cities and towns may raise and appropriate money for the purpose of defraying the initial costs and annual administrative expenses of an operating agency authorized to be organized therein, including the expense of preparing any plans, studies, programs and surveys an operating agency is authorized to prepare and the expense of preparing plans in connection with one or more proposed projects.

Without limiting the generality of the foregoing, any city or town may from time to time appropriate or agree to appropriate money for the purpose of aiding in the preparation of plans and estimates needed to prepare applications for federal loans or grants and in the preparation of any other estimates, plans, orders of taking and contract documents in connection with any proposed or approved project. All moneys appropriated by a city or town under the preceding sentence shall be repaid by the operating agency to such city or town if said agency subsequently receives other moneys available for the purposes for which such moneys were appropriated, but otherwise such moneys need not be repaid.

All moneys appropriated under this section in aid of an operating agency or received by it from any source shall be paid to the treasurer of the agency or such other officer of the agency as may be authorized by it, and shall be disbursed by such treasurer or other officer, subject to accounting therefor as required by this chapter.

Section 20. A city or town in which an operating agency has been organized may raise and appropriate, or may borrow, or may agree with such agency or with the federal government or the commonwealth to raise and appropriate or to borrow, in aid of such agency, such sums as may be necessary for:—

(1) defraying all the development, acquisition and operating costs of a clearance, urban renewal, community renewal, relocation, rehabilitation or low-rent housing project within such city or town; or

(2) defraying such part of the development, acquisition and operating costs of any such project to which either the federal

government, pursuant to federal legislation, or any other source has rendered or has agreed to render financial assistance, as will not be met by loans other than temporary loans or by contributions or grants other than annual or other contributions and grants in the nature of reimbursement from the federal government or from any such other source; and for

(3) the making of relocation payments by such agency; and

(4) repaying any loss which the city or town has agreed to bear and which is incurred as a result of the early taking, acquisition or clearance of land not used for urban renewal purposes.

Section 21. Indebtedness authorized under section twenty shall be outside the limit of indebtedness prescribed in section ten of chapter forty-four, and shall be payable within twenty years and otherwise subject to sections sixteen to twenty-seven, inclusive, of said chapter forty-four, except that in the case of indebtedness authorized under clause (1) or clause (2) of section twenty, the first principal payment may be made within five years and the last within twenty-five years of the date of the bonds or notes issued for the Serial Loan. The total amount of indebtedness of any city or town outstanding at any one time under clause (3) of section twenty alone shall not exceed one half of one per cent, and under clauses (1), (2) and (4) combined of said section twenty shall not exceed five per cent, of its equalized valuation.

Section 22. So long as the emergency finance board, established under section one of chapter forty-nine of the acts of nineteen hundred and thirty-three, is in existence, no city or town shall, without the approval of said board, incur indebtedness for any of the purposes of this chapter which would cause the total amount of its indebtedness for such purposes then outstanding to exceed two and one half per cent of its equalized valuation. If said emergency finance board shall cease to exist, a commission consisting of the attorney general, the state treasurer and the director of the bureau of accounts in the department of corporations and taxation shall exercise the powers given to said emergency finance board by this section and section twenty-four. Said board or commission, as the case may be, shall hold a public hearing upon any matter submitted to it under this section if requested in writing to do so by twenty-five taxable inhabitants of such city or town within three days after the submission of such matter.

Section 23. For the purpose of complying with the conditions of federal legislation, or in lieu of a contribution, loan or grant in cash to an operating agency organized within its limits, or to aid and cooperate in the planning, construction or operation of any project of such an agency, a city or town, or the appropriate board or officer thereof on behalf of such city or town, may upon such terms, and with or without consideration, do or agree to do any or all of the following things, as such city, town, board or officer, as the case may be, may determine:—

(*a*) Sell, convey or lease any of its interests in any property, or grant easements, licenses or any other rights or privileges therein to such agency or to the federal government;

(*b*) Cause parks, playgrounds or schools, or water, sewer or drainage facilities, or any other public improvements which it is otherwise authorized to undertake, to be laid out, constructed or furnished adjacent to or in connection with a housing, clearance, relocation or urban renewal project;

(*c*) Lay out and construct, alter, relocate, change the grade of, make specific repairs upon or discontinue, public ways and construct sidewalks, adjacent to or through a housing, clearance, relocation or urban renewal project;

(*d*) Adopt ordinances or by-laws under section twenty-five to thirty A, inclusive, of chapter forty or repeal or modify such ordinances or by-laws; establish exceptions to existing ordinances and by-laws regulating the design, construction and use of buildings; annul or modify any action taken or map adopted under sections eighty-one A to eighty-one J, inclusive, of chapter forty-one;

(*e*) Cause public improvements to be made and services and facilities to be furnished to or for the benefit of an operating agency for which betterments or special assessments may be levied or charges made, and assume or agree to assume such betterments, assessments or charges;

(*f*) Purchase and hold any of the bonds or notes of an operating agency and exercise all of the rights of a holder of such bonds or notes;

(*g*) Make available to an operating agency the services of its agencies, officers and employees;

(*h*) Cause private ways, sidewalks, footpaths, ways for vehicular travel, playgrounds, or water, sewer or drainage facilities and similar improvements to be constructed or furnished within the site of a project for the particular use of the project or of those dwelling therein;

(*i*) Enter into agreements with an operating agency, the term of which agreements may extend over the period of a loan to the operating agency by the federal government, respecting action to be taken by such city or town pursuant to any of the powers granted by this chapter; and

(*j*) Do any and all other things necessary or convenient to aid and cooperate in the planning, construction or operation of a housing, clearance, relocation or urban renewal project within its limits.

The entering of a contract under this section between a city or town and the federal government or between a city or town and an operating agency shall not be subject to any provision of law relating to publication or to advertising for bids.

Section 24. A city or town, in which the operating agency, pursuant to section forty-seven, proposes to take, acquire or clear land constituting the whole or part or parts of an area which the agency has determined to be a substandard, decadent or blighted open area and for which such agency is preparing an urban renewal plan, may enter into an agreement with the operating agency to bear any loss that may arise as a result of such taking, acquisition or clearance in the event that such land is not used for urban renewal purposes; provided, however, that no city or town shall, without first obtaining a finding

of financial feasibility from the emergency finance board described in section twenty-two, or the commission authorized to succeed to the function of said board under said section, enter into any agreement under this paragraph which would cause the losses agreed to be borne by such city or town under all agreements under this paragraph in effect at any one time, according to the estimates of costs upon which such agreement or agreements are originally based, to exceed four per cent of its equalized valuation.

HOUSING PROGRAMS.

Section 25. It is hereby declared that substandard and decadent areas exist in certain portions of the commonwealth, and that there is not in the commonwealth, within a reasonable distance of the principal centers of employment, an adequate supply of low-rent housing for families of low income; that in certain portions of the commonwealth decent, safe and sanitary housing cannot be provided for families of low income in rural areas at a cost which would warrant private enterprise in the locality or in the same general area to provide an adequate supply thereof; that this situation tends to cause an increase and spread of disease and crime and constitutes a menace to the health, safety, morals, welfare and comfort of the inhabitants of the commonwealth and is detrimental to property values therein; that this situation cannot readily be remedied by the ordinary operations of private enterprise; that a public exigency exists which makes the clearance of substandard or decadent areas and the provision of housing for persons of low income a public necessity; that the clearance of substandard and decadent areas and the provision of housing for persons of low income, or either, constitute a public use for which private property may be acquired by eminent domain and public funds raised by taxation may be expended; and the enactment of sections one to forty-four of this chapter is declared to be a public necessity.

Section 26. A housing authority shall have the following powers in addition to those set forth in section eleven or elsewhere in this chapter:—

(*a*) To make studies of housing needs and markets, including data with respect to population and family groups and their distribution according to income groups, the amount and quality of available housing and its distribution according to rentals and sales prices, employment, wages and other factors affecting housing needs and markets, and surveys and plans for housing related to community development, including desirable patterns for land use and community growth, and to make such studies, surveys and plans available to the federal government, the department and other state agencies, other operating agencies, the public and the building, housing and supply industries;

(*b*) To conduct investigations and disseminate information relative to housing and living conditions and any other matter deemed by it to be material in connection with any of its powers and duties;

(*c*) To determine what areas within its jurisdiction constitute substandard, decadent or blighted open areas;

(*d*) To prepare plans for the clearance of such decadent, substandard or blighted areas and to clear open areas whenever necessary or desirable to provide for the equivalent elimination of substandard buildings in accordance with section thirty-three provided that no housing authority in any city or town in which a redevelopment authority has been organized shall initiate such a clearance project without the approval of such redevelopment authority and the approval of the municipal officers of the city or town;

(*e*) To provide housing projects for families of low income;

(*f*) To provide projects or parts thereof for elderly persons of low income;

(*g*) To provide housing for families of low income in rural areas in accordance with provisions set forth in section twenty-seven;

(*h*) To undertake and provide relocation projects in order to house for a limited period families who are displaced by an urban renewal project or other public improvement involving the elimination of dwelling units whenever such project or public improvement is determined upon and it or an urban renewal agency finds that there exists in the city or town an acute shortage of housing and that there are no adequate means available for immediate relocation of persons and families displaced from that project area; and

(*i*) To lease, operate and, subject to section thirty-two establish or revise schedules of rents for any project or part thereof undertaken by it.

Section 27. If a housing authority organized in a city or town in which rural areas are located shall undertake the provision of housing for families of low income in such rural areas, it shall comply with the following provisions and shall have the following powers, in addition to others specifically granted in this chapter:—(i) The same preference shall be given to families of veterans as is provided in clause (*f*) of section thirty-two. (ii) So far as practicable, such housing shall consist of separate single-family houses. (iii) A housing authority which has undertaken housing in rural areas shall have the power to lease or sell houses erected or acquired by it, and, in case of sale, to impose such covenants, which shall run with the land if the housing authority so stipulates, regarding the land and the buildings thereon as it deems necessary to carry out the purposes of this chapter. In case of lease, the lessee shall have the option to purchase such house at any time during his occupancy thereof at the price designated in his lease. When any such option is exercised, the purchaser shall be given credit for payments made by him which were applied toward amortizing the cost of the house, and in case the lease with option to purchase, has been assigned to him by a previous lessee, such credit shall include such payments made by previous lessees. (iv) Until a purchaser makes full payment for a house constructed by a housing authority under this subsection the title to such house shall remain in the housing authority regardless of ownership of the land. (v) Provision for farm housing for families of low income shall be subject to the following conditions:—(1) Before housing is constructed on a farm, the United States department of agriculture, or the United States department of the interior in the case of farms included in reclamation projects of that department through such representatives as it may

designate shall certify that the net annual income of the farm, together with the nonfarm income of those to be housed, is less than the amount necessary to enable them otherwise to obtain and maintain decent, safe and sanitary housing and that the construction of a suitable type house on the farm is consistent with the respective programs of the department involved; (2) Based upon the normal earning capacity of the farm, as certified by the United States department of agriculture or department of the interior, the housing authority shall determine that the farm owner can meet at least the minimum payments required of him; (3) In developing standards as to what constitutes decent, safe and sanitary dwellings, the housing authority shall take into consideration the needs of the family for which such housing is to be used; (4) With respect to houses on farms, there shall, so far as practicable, be a system of variable payments so that in any year when there is below normal production or prices there may be an appropriate decrease that year in payment below the minimum otherwise required, but only to the extent that credits have been established as defined by the annual contributions contract through previous payments by the farm owner in excess of the minimum required payments. (vi) Provisions of nonfarm housing for families of low income in rural areas, with sufficient land for home gardens, shall be subject to the condition that the housing authority shall first determine that such housing will be so located that sources of employment will be accessible to the occupants thereof.

The department, with the approval of the municipal officers shall have all the powers of a housing authority under this section in order to provide housing for families of low income in any city or town where no housing authority exists. Upon the organization of a housing authority in such a city or town, all the rights, titles, powers, duties and obligations of a housing authority acquired or exercised by the department with respect to such housing shall immediately vest in such housing authority.

Section 28. Except as provided in section thirty with respect to projects leased from the federal government, every housing project shall be subject to all laws and all ordinances, by-laws and regulations of the city or town in which it lies, relating to the construction and repair of buildings, town planning, zoning and the protection of the public health; provided, that with the approval of the department and the supervisor of plans of the department of public safety, any building in a housing project of not more than three stories in height which is divided into two or more sections by fire division separations in accordance with any special law relative thereto or with any ordinance, by-law or regulation of the city or town in which it lies, which contains an enclosed stairway in each section extending from the roof to the ground directly accessible to the occupants of each dwelling unit therein, which is built of fireproof or fire resistive construction as defined by any special law relative thereto or by any ordinance, by-law or regulation of the city or town in which it lies, and which, together with the other buildings on the same project, does not occupy more than thirty per centum of the area thereof, may be designed, erected and maintained with only one means of egress from a dwelling unit to a stairway or public corridor; provided, that when

any room in a dwelling unit is more than forty feet from such means of egress, there shall be two egresses from such dwelling unit located at points as widely separated from one another as may be reasonably feasible, with not more than four dwelling units above the second story in each section, with exterior egress doors not less than three feet in width, although such dwelling units contained in the aggregate more than eight rooms and the only means of egress is as above described; and provided, further, with the approval of the department, and the supervisor of plans of the department of public safety, any building in a housing project or any section of such a building which is set apart by a fire wall or fire walls of more than three stories in height, which is of fireproof or fire resistive construction in accordance with any special law relative thereto, or with any ordinance, by-law or regulation of the city or town in which it lies, and which is provided with two enclosed stairways isolated from each other by fire division separations in accordance with any special law relative thereto or with any ordinance, by-law or regulation of the city or town in which it lies, or as widely separated from each other as may be reasonably feasible, and which, if of more than six stories in height, is equipped with automatic sprinklers installed in cellars, basements, workrooms, shops, storerooms and kitchens, may be designed, erected and maintained with only one means of egress from each dwelling unit to a public corridor; provided, that when any room of a dwelling unit is more than forty feet from such means of egress, there shall be two egresses from such dwelling unit located at points as widely separated from one another as may be reasonably feasible; and provided, further, that in buildings three or more stories in height, stairs and landings, and doors connecting public corridors and stair enclosures, when serving not more than three hundred persons, shall be not less than three feet in width between walls or between wall and balustrades with stairs equipped with a handrail on one side, although the only means of egress and fire extinguishing apparatus are as above described.

Section 29. Each housing authority shall keep an accurate account of all its activities and all its receipts and expenditures and shall annually in the month of January make a report thereof to the department, to the state auditor and to the mayor of the city or to the selectmen of the town within which such authority is organized, such reports to be in a form prescribed by the department with the written approval of said auditor. The department or said auditor may investigate the affairs of housing authorities and their dealings, transactions and relationship. They shall severally have the power to examine into the properties and records of housing authorities and to prescribe methods of accounting and the rendering of periodical reports in relation to clearance and housing projects undertaken by such authorities. The department may from time to time make, amend and repeal rules and regulations prescribing standards and stating principles governing the planning, construction, maintenance and operation of clearance and housing projects by housing authorities.

In the development or administration of a project which is not federally aided, a housing authority shall furnish the commissioner of labor and industries, upon his request, with a list of the classifications

of work performed by all architects, technical engineers, draftsmen, technicians, laborers and mechanics employed therein, and shall notify him from time to time of any changes in said classifications. Said commissioner shall determine rates of wages and fees and payments to health and welfare plans for each such classification and shall furnish the housing authority with a schedule of such rates, fees and payments. The rates of wages and fees paid by each housing authority to such architects, technical engineers, draftsmen, technicians, laborers and mechanics shall not be less than those determined by said commissioner who shall set the rate at no less than eighty per cent of the prevailing wage in accordance with sections twenty-six and twenty-seven of chapter one hundred and forty-nine. In the event that any housing authority fails to furnish said commissioner with said list within two weeks after the date of his request, said commissioner shall determine said rates of wages and fees and payments to health and welfare plans.

A housing authority may bargain collectively with labor organizations representing its employees and may enter into agreements with such organizations.

Notwithstanding any provision of law to the contrary, the provisions of section five of chapter one hundred and fifty A, so far as apt, shall apply to said authorities and their employees.

No employee of any housing authority, except an employee occupying the position of executive director, who has held his office or position, including any promotion or reallocation therefrom within the authority for a total period of five years of uninterrupted service, shall be involuntarily separated therefrom except subject to and in accordance with the provisions of sections forty-three and forty-five of said chapter thirty-one to the same extent as if said office or position were classified under said chapter.

Except as otherwise stated therein, compliance with this chapter, the rules and regulations adopted by the department and the terms of any low-rent housing project or clearance project authorized by this chapter, may be enforced by a proceeding in equity.

Section 30. A housing authority, with the written approval of the department and of the mayor of the city or selectmen of the town in which the project is situated, may enter into a contract with the federal government for purchasing or leasing a clearance or housing project owned or controlled by the federal government. If such a project has been so leased by a housing authority and such authority has by vote declared that the buildings of the project have been constructed in a manner that will afford necessary safety, sanitation and protection in other respects to the public, no changes shall be required by any agent of the commonwealth or of the city or town in the manner of construction, or the buildings, the fixtures or appurtenances thereto or the use for which the project was designed.

Section 31. A housing authority shall not undertake a low-rent housing project until it has submitted to the department the plans and description of the project, the estimated cost thereof, the proposed method of financing it, and a detailed estimate of the expenses and revenues thereof and the department has found that the plans and

description conform to proper standards of health, sanitation and safety, that the financial plan is sound and that with the aid of any federal grant or other subsidy the revenue from the project will be sufficient to meet its annually recurring expenses, including, without limitation of the foregoing, payments in lieu of taxes, depreciation and service of its indebtedness, and that the probable costs are such that it will be practicable to rent the property in accordance with the limitations set forth in section thirty-two without incurring an annual deficit.

In addition, the provisions of subparagraphs (*a*) and (*b*) shall apply to all projects except those as to which a contract between the federal government and a housing authority was in effect on December seventh, nineteen hundred and sixty-six and those involving the reconstruction, remodeling or repair of existing buildings:—

(*a*) Projects involving the purchase or acquisition of the right to use completed dwelling units which have been recently constructed, reconstructed or remodeled, whether condominium units, individual buildings part of a larger development, or a portion of the units in a multi-family development, shall be approved by the department only after it makes the following determinations: (i) the number of units involved does not exceed the following limits: in a building or development containing one to twelve units, no limit; in a building or development containing thirteen to thirty units, twelve units; and in a building or development containing thirty-one or more units, forty per cent of the total units; and (ii) the housing authority has made adequate arrangements for the maintenance and operation of the units, either through use of its own personnel or by contract with the owner or manager of the other units in the development.

(*b*) Projects involving the construction of new buildings by a housing authority shall be approved by the department following due notice and a public hearing in the town or city involved held to consider testimony relating to the determinations required to be made. The department shall approve such a project only if it makes the following determinations: (i) the proposed project does not include in excess of one hundred dwelling units in any one site; (ii) no site for the proposed project is located adjacent to or within one eighth of a mile of any site for a low-rent housing project which is in existence or has been approved by the department or is before the department for approval, except sites for projects approved or being approved under the preceding subparagraph (*a*); (iii) the design and layout of the proposed project is appropriate to the neighborhood in which it is to be located; and (iv) an adequate supply of dwelling units for families of low income is not then available in the private market, and the housing authority, after reasonable effort, has been unable to obtain such units either through reconstruction, remodeling, or repair of existing buildings or by the purchase of completed dwelling units. The provisions of this clause shall not apply to any project which shall be certified by the commissioner to be a project designed specifically for elderly persons of low income. A project shall be deemed to be designed specifically for elderly persons of low income if a majority of the dwelling units in said project are designed

specifically for elderly persons of low income and if not more than one hundred dwelling units in said project are designed for families of low income.

The department shall give written notice to the authority of its decision with respect to any project within thirty days after submission of such project. The department shall hold a public hearing upon any project, if requested in writing so to do, within ten days after the submission of the project, by the housing authority, or by the mayor or city council of the city or the selectmen of the town in which the proposed project is located, or by twenty-five or more taxable inhabitants of such city or town. Such public hearing may be combined with that required under subparagraph (*b*) in the case of projects approved under that subparagraph. If the department shall disapprove any project, it shall state in writing in such notice its reason for disapproval.

A project which has not been approved by the department when submitted to it may be again submitted to it with such modifications as are necessary to meet its objections.

When a housing authority has determined the location of a proposed clearance or low-rent housing project, it may, without awaiting the approval of the department, proceed by option or otherwise, to obtain control of the real property to be acquired for the project; provided, however, that it shall not, without the approval of the department, unconditionally obligate itself to acquire such real estate. When a housing authority receives notice that such a project has been approved by the department, it may proceed to acquire real estate for the project, and may construct, or contract for the construction of, any buildings and facilities planned therefor.

Section 32. Upon the completion or acquisition of a housing project by a housing authority it shall be maintained and operated by such authority. It is hereby declared to be the policy of this commonwealth that each housing authority shall manage and operate its housing projects in an efficient manner so as to enable it to fix the rentals for dwelling accommodations at the lowest possible rates consistent with providing decent, safe and sanitary dwelling accommodations, and that no housing authority shall construct or operate any such project for profit, or as a source of revenue to the commonwealth or to the city or town in which it is located. To this end an authority shall fix the rentals for dwelling units in its projects at no higher rates than it shall find to be necessary in order to produce revenues which together with all other available moneys, revenues, income and receipts of the authority, from whatever sources derived, will be sufficient:—(*a*) to pay, as the same become due, the principal and interest on the bonds of the authority; (*b*) to meet the cost of insurance and the payments in lieu of taxes provided by section sixteen and to provide for maintaining, operating and using the projects and the administrative expenses of the authority; (*c*) to create, during not less than the twelve years immediately succeeding its issuance of any bonds, notes or other evidences of indebtedness, a reserve sufficient to meet the largest principal and interest payments which will be due on such bonds in any one year thereafter and to maintain such reserve; and (*d*) to provide, subject to the approval of the department, such

recreational and community facilities in or near a housing project or projects as the authority may deem necessary for the health and welfare of the residents in the projects under its control, and such supervision and maintenance as may be necessarily incidental thereto.

In the operation or management of state-aided low-rent housing projects an authority shall at all times observe the following requirements with respect to rentals and tenant selection:—(*a*) It shall rent or lease the dwelling accommodations therein only at rentals within the financial reach of persons and families of low income. (*b*) It shall rent or lease to a tenant dwelling accommodations consisting of the least number of rooms which it deems necessary to provide safe and sanitary accommodations to the proposed occupants thereof, without overcrowding. (*c*) It shall not accept as a tenant any person or persons whose net annual income at the time of admission, less an exemption of one hundred dollars for each minor member of the family other than the head of the family and his spouse, exceeds five times the annual rental, including the value or cost to them of water, electricity, gas, other heating and cooking fuels and other utilities, of the dwellings to be furnished such person or persons. For the sole purpose of determining eligibility for continued occupancy, it may allow, from the net income of any family, an exemption for each minor member of the family (other than the head of the family and his spouse) of either (1) one hundred dollars, or (2) all or any part of the annual income of such minor. For the purpose of this section, a minor shall mean a person less than twenty-one years of age. (*d*) It shall not accept as a tenant in any project any person who is not a citizen of the United States; provided, however, that aliens who have served honorably in the armed forces of the United States, and who have been honorably discharged therefrom, shall be admitted to occupancy if they have made application for such citizenship; and provided, further, that aliens who have reached the age of sixty-five and who are eligible to receive old age assistance under chapter one hundred and eighteen A shall be admitted to occupancy. (*e*) There shall be no discrimination or segregation; provided, that if the number of qualified applicants for dwelling accommodations exceed the dwelling units available, preference shall be given to inhabitants of the city or town in which the project is located, and to the families who occupied the dwellings eliminated by demolition, condemnation and effective closing as part of the project as far as is reasonably practicable without segregation or discrimination against persons living in other substandard areas within the same city or town. For all purposes of this chapter no person shall, because of race, color, creed or religion, be subjected to any discrimination or segregation. (*f*) As between applicants equally in need and eligible for occupancy of the dwelling and at the rent involved, preference shall be given in the selection of tenants in the following order:—(1) to families or eligible persons which are to be displaced by any low-rent housing project or by a public slum clearance or urban renewal project initiated after January first, nineteen hundred and forty-seven, or other public improvement, or which were so displaced within three years prior to making application to such housing authority for admission to any low-rent housing; and as among such families first preference shall be

given to families of disabled veterans whose disability has been determined by the veterans' administration to be service-connected, and second preference shall be given to families of deceased veterans whose death has been determined by the veterans' administration to be service-connected, and third preference shall be given to families of other veterans; and (2) to families of other veterans, and as among such families first preference shall be given to families of disabled veterans whose disability has been determined by the veterans' administration to be service-connected, and second preference shall be given to families of deceased veterans whose death has been determined by the veterans' administration to be service-connected; and (3) to persons and families displaced by other public action including, without limitation, enforcement of the minimum standards of fitness for human habitation established by the state sanitary code and other local ordinances, by-laws, rules or regulations. (*g*) It shall not establish any requirement that applicants who have been displaced by any such public action be residents of the city or town in which the project is located, but may establish a requirement that any such applicant be a resident of the commonwealth for a period of six months prior to becoming a tenant.

In computing the rental for the purpose of this section, there shall be included therein the average annual cost, as determined by the authority, to occupants of heat, water, electricity, gas, cooking range and other necessary services or facilities, whether or not the charge for such services and facilities is in fact included in the rental.

In determining net income for the purpose of tenant eligibility with respect to a low-rent housing project financed by the commonwealth or by any city, town or other political subdivision thereof or administered by a housing authority under the provisions of this chapter or as agent for any municipality, the housing authority is authorized, where it finds such action equitable and in the public interest, to exclude amounts or portions thereof paid by the United States government or the commonwealth or any of its political subdivisions to the tenant for disability occurring in connection with military service. In determining the net income for the purpose of computing the rent of a totally unemployable disabled veteran, a housing authority is authorized to exclude amounts of disability compensation paid by the United States government for disability occurring in connection with military service in excess of eighteen hundred dollars in any year, but such authorization shall apply only in state-aided projects and while such projects are receiving state financial assistance, as provided in sections thirty-five and thirty-six.

In determining the net income of the tenant family for the purpose of computing the rent and determining eligibility for admission and continued occupancy, proceeds paid to such tenant family from policies of insurance shall be excluded from income.

The tenancy of a tenant of a housing authority shall not be terminated without cause and without reasons therefor given to said tenant in writing. A tenant at his request shall, except in the case of nonpayment of rent, be granted a hearing by a housing authority at least fifteen days prior to any such termination. The housing au-

thority's determination of cause shall be reviewable in the district court whenever an action for summary process is brought for possession of the premises.

A housing authority or its designee shall meet at reasonable times with tenant organizations to confer about complaints and grievances; provided, that if there is more than one tenant organization in any housing project, said authority or its designee shall not be obliged to meet with more than the two organizations in each project which represent, as the housing authority may determine, the largest number of tenants in that project. The housing authority shall inform the tenant organizations of its decisions on any matters presented.

Section 33. No project for low-rent housing involving the construction of new dwellings shall be undertaken by a housing authority unless the city or town has entered into an agreement with the housing authority providing that, subsequent to the initiation of the project and within five years after the completion thereof, there has been or will be elimination by demolition, condemnation, effective closing or compulsory repair or improvement of unsafe or unsanitary dwelling units situated in the locality or metropolitan area substantially equal in number to the number of newly constructed dwelling units provided by such project; provided, that where more than one family is living in an unsafe or unsanitary dwelling unit, the elimination of such unit shall count as the elimination of units equal to the number of families accommodated therein; and provided, further, that such elimination may, in the discretion of the department be deferred in any locality or metropolitan area where there is an acute shortage of decent, safe or sanitary housing available to families of low income; and provided, further, that this requirement shall not apply in the case of any low-rent housing project located in a rural nonfarm area, or to any low-rent housing project undertaken under the provisions of section thirty-four.

VETERANS AND RELOCATION HOUSING.

Section 34. The commonwealth, acting by and through the department, may enter into a contract or contracts with a housing authority for state financial assistance in the form of a guarantee by the commonwealth of notes or bonds or both of the housing authority issued to finance the cost of a housing project or projects, and annual contributions by the commonwealth. The guarantee by the commonwealth of notes or bonds or both of a housing authority shall be executed on each note or bond or both by the commissioner. Each such contract shall contain such limitations as to the development cost of the project and administrative and maintenance costs, and such other provisions, as the department may require. Each project shall be based upon a separate application made to the department and shall be planned to conform, as nearly as possible, to the existing published requirements of the federal government for low-rent or other housing projects, except such requirements as are based upon the cost limitations set forth in federal legislation. A project so planned shall be deemed to provide adequate performance as set forth in section three

J of chapter one hundred and forty-three. A housing authority may, with the approval of the department, acquire under the provisions of clause (*d*) of section eleven for the purposes of a project under this section or section thirty-five any land acquired by a city or town under the provisions of chapter three hundred and seventy-two of the acts of nineteen hundred and forty-six, as amended; provided, that such city or town has not completed construction of a housing project on such land. Each project developed under this section and section thirty-five shall be administered for occupancy in accordance with section thirty-two, except clause (*c*), and except that for each completed project the authority shall create, beginning in the first year immediately succeeding its issuance of any bonds, a reserve for principal and interest equal to one twelfth of the largest principal and interest payments which will be due on such bonds in any one year thereafter and shall maintain such reserve and increase the same by a similar amount for each of the eleven succeeding years thereafter and maintain each such increase; provided, however, that whenever the amount of the reserve shall equal at least fifty per cent of the total amount so required to be provided, the department may authorize extension of the time for creating such reserve to a period of twenty-four years from the issuance of any bonds and any such reserve shall be maintained and thereafter increased by equal amounts annually during the remaining portion of the twenty-four years; provided, however, that in the event a project is refinanced, there shall be appropriate adjustments made in the reserves required by the foregoing provisions to reflect any change in amounts of principal and interest payable to the end that twelve years after the date of the issuance of the original bonds, or, as soon thereafter as may be practicable, there will have been created and thereafter maintained a reserve equal to the largest amount of principal and interest due in any subsequent year on account of the outstanding bonds issued to finance the project; and except that each such project shall be occupied, except as hereinafter provided by veterans and their families, and priority shall be given first to veterans of World War II of low income and to veterans of low income who have served in the active armed forces of the United States at any time between June twenty-fifth, nineteen hundred and fifty and January thirty-first, nineteen hundred and fifty-five, both dates inclusive; then to veterans of low income, such low income to be determined from time to time by the department; then to a person without regard to family status who is a veteran and who is fifty years of age or over; then to elderly persons qualifying for housing under the provisions of section forty; then, without regard to family status, to a person of low income who is permanently and totally disabled and eligible for assistance under chapter one hundred and eighteen D, or blind; then to other persons of low income living in substandard housing; and a housing authority may remodel or reconstruct parts of projects erected under this section to make the same available for occupancy by elderly persons qualifying for housing under the provisions of section forty and such remodeled or reconstructed apartments shall be available for occupancy by eligible elderly persons of low income only to the extent that no eligible veterans apply for such units; provided, that if no eligible

veterans or elderly persons of low income apply for such remodeled or reconstructed units, the units shall be made available to other persons of low income living in substandard housing. Notwithstanding the requirement that each project shall be based upon a separate application made to the department, the department may consolidate two or more projects of the same housing authority, for which projects applications have been seasonably made under this section and which projects shall have been approved by the department, into a single project, and may make on behalf of the commonwealth a contract with the housing authority for state financial assistance in respect of such consolidated project superseding any such contract made in respect of any of the constituent projects, and may determine the date of completion of the consolidated project superseding any such date determined in respect of any of the constituent projects and such consolidated project shall be constructed, financed and managed as a single project; provided, that nothing contained in this sentence shall affect the rights of the holders of any notes or bonds outstanding in respect of any of the constituent projects at the time of such consolidation.

If federal assistance for low-rent housing becomes available in any form not applicable to projects under this chapter, the department shall immediately report the circumstances to the general court together with such recommendations for legislation as may be necessary to enable such projects to qualify for such assistance. Upon the availability of federal financial assistance for low-rent housing projects under this section, each housing authority having a contract for state financial assistance shall, upon receipt of written notice from the department, immediately enter into negotiations with the federal government to arrange for federal assistance with respect to any project developed hereunder and for the termination, in whole or in part, of state financial assistance. For any such project the department may order any housing authority (1) to apply for federal financial assistance, and (2) upon obtaining the approval of the federal government, to enter into a contract or contracts for federal assistance, and to make such arrangements as are possible to terminate, reduce or subordinate the obligation of the commonwealth to render financial assistance in such amount as is provided by federal assistance. No order of the department shall in any way affect any outstanding obligations of a housing authority or the rights of any holders of notes or bonds. The amount of federal payments shall be used to the fullest allowable extent to meet the payment of principal and interest on all notes or bonds guaranteed by the commonwealth.

After March thirty-first, nineteen hundred and fifty-three, or such later date as the department shall determine that an acute shortage of housing for veterans constituting a public exigency, emergency or distress no longer exists in a particular city or town, any project, or a part of any project with the land appurtenant thereto, constructed under this section may, with the approval of the department, be sold for the fair market value thereof as determined by the department, but not less than the total of the outstanding obligations of the housing authority with respect to such project if the whole is sold or not less than that percentage of the total outstanding obligations of

the authority with respect to such project which the cost of the part sold bears to the total cost of the entire project if a part is sold. Upon the expiration of the period for which the commonwealth is obliged to furnish state financial assistance, and provided the federal government has not become obligated to furnish federal financial assistance, any such project shall be offered for sale and disposed of as soon as is consistent with sound business judgment; provided, that any such sale shall be approved by the department. The Housing Authority Bonds Sinking Fund is hereby established and the state treasurer is hereby designated custodian thereof and he shall administer such fund in accordance with the provisions of chapter twenty-nine. So long as any notes or bonds or both issued by a housing authority to finance the cost of a project under this section or section thirty-five and guaranteed by the commonwealth are outstanding, the proceeds of any sale of such project shall be paid by the housing authority into such fund and shall be expended from time to time by the state treasurer to pay interest and principal of any notes or bonds or both issued by such housing authority to finance such project.

The proceeds of any sale of such project in excess of the total of all obligations of the housing authority with respect to such project shall, after the payment of all notes or bonds or both issued by the housing authority to finance the cost of such project, be paid to the city or town in which such project is located and to the commonwealth. The respective payments to such city or town and the commonwealth shall be proportional to the contributions theretofore made by such city or town and the commonwealth toward the development and maintenance of such project, as determined by the department. In determining the contributions of a city or town, the department shall include the amounts which the city or town would have received if such project had not been exempt from taxes, betterments and special assessments, less any amounts paid by the housing authority to the city or town in lieu of such taxes, betterments and special assessments. Payments to the commonwealth hereunder shall be paid into the state treasury and shall be credited to the General Fund.

The provisions of sections one to forty-four, inclusive, except section thirty-three shall, as far as apt, be applicable to projects developed under this section and under section thirty-five and to housing authorities while engaged in developing and administering such projects; provided, that whenever the phrases "federal government" or "federal legislation" are used in said sections one to forty-four, inclusive, they shall also mean the commonwealth or laws of the commonwealth, as the case may be; and that whenever the words "low-rent housing project" or "projects" are used in said sections they shall also mean a state-aided project under this section and section thirty-five.

The following provisions shall be applicable to each contract for state financial assistance under this section and section thirty-five:—

(*a*) A housing authority may sell temporary notes or bonds or both to finance a project; provided, that the total amount outstanding at any one time, exclusive of any notes or bonds or both which may be issued for refunding purposes shall not be in excess of the cost of the

project as approved by the department. Any such notes or bonds, whether original or refunding, may at any time be refunded through the issue and sale of notes or bonds hereunder but in no event for a term more than forty years after completion of the project, as determined by the department.

Notwithstanding the provisions of section seventeen the payment of the principal of, and interest on, all such notes or bonds or both shall be guaranteed by the commonwealth, and the full faith and credit of the commonwealth is hereby pledged for any such guarantee; provided, that the total amount of notes or bonds or both so guaranteed shall not exceed two hundred and twenty-five million dollars, in the aggregate, for all projects constructed under this section and section thirty-five, exclusive of any such notes or bonds or both which may be issued for refunding purposes.

No housing authority shall sell or offer for sale any such notes or bonds without receiving from the department approval of the amount, the term, the time of sale, the amortization schedule and other conditions of sale which the department may deem relevant in connection with the sale of such notes or bonds. Except as otherwise provided in this paragraph, the amortization schedule for any bonds issued hereunder shall provide for payment of principal and interest combined in substantially equal amounts during each year that any of said bonds remain outstanding. Bonds may be issued for a maximum period of forty years from the completion of the project as determined by the department or for any portion of such period as may remain at the time of issue of said bonds. Bonds may be issued for less than the maximum period permitted hereunder under an amortization schedule which provides for the payment of a larger amount of principal and interest in the last year any such bonds remain outstanding than in the prior years, in which event the amortization schedule for such bonds shall provide (1) for payment of principal and interest combined during each year except the last in amounts which are not less than the amounts which would be required by an amortization schedule for bonds bearing the same rate of interest and issued for the maximum period permitted; and (2) for the payment of the entire balance of such bonds in such last year. In the event bonds are issued for less than the maximum period permitted hereunder with a large amount of principal and interest payable in the last year as hereinbefore provided, the amount of principal and interest payable in said last year shall be disregarded in computing the requirements for the reserve under the first paragraph of this section. In the event notes are issued to finance or refinance a completed project, such notes shall be payable not later than twenty-four months after such issuance, and (1) such notes shall be permanently retired at the maturity thereof in an amount at least equivalent to the amount of retirement of bonds which would have been required by an amortization schedule for bonds issued for the maximum period permitted hereunder and bearing interest at the rate of two and one half per cent per annum, adjusted to the nearest month where notes are issued for a period other than one year; and (2) a reserve for principal and interest shall be created and maintained beginning in the first year immediately

succeeding the issuance of such notes, equal to one twelfth of the largest principal and interest payments which would become due in any one year thereafter, if such bonds had been issued, and such reserve shall be increased by a similar amount for each succeeding year; provided, however, that after June fourteenth, nineteen hundred and sixty-three, all such reserves whether theretofore or thereafter created and the maintenance and increase thereof, shall be governed in all respects solely by the provisions of the first paragraph of this section as if such bonds had been issued. Anything herein to the contrary notwithstanding, the failure of any amortization schedule of bonds or retirements of notes approved by the department to meet the foregoing requirements shall not affect the validity of bonds or notes issued hereunder.

(*b*) Each contract for financial assistance or supplementary state financial assistance shall provide that the commonwealth will pay to the housing authority annual contributions; provided, however, that the total amount of annual contributions contracted for by the commonwealth for any one year shall not exceed five million six hundred and twenty-five thousand dollars. Each such annual contribution by the commonwealth to the housing authorities shall be paid by the commonwealth upon approval and certification by the department to the state comptroller.

Each such contract shall contain a provision that the annual contributions shall be used for the payment of interest on, and principal of, notes or bonds or both of the housing authority. The annual contributions for any one project shall be payable in an amount not exceeding two and one half per cent of the cost of the project, as determined by the department, and for the fixed period during which the notes or bonds or both issued to finance the cost of the project or any refunding notes or bonds or both remain outstanding but in no event for more than forty years after the completion of the project, as determined by the department. Each such contract shall provide that whenever in any year the receipts of a housing authority in connection with a project exceed its expenditures for that project, including debt service, payments in lieu of taxes, administration, establishment of reserves, and other costs, as determined by the department, an amount equal to such excess, or, in the case of projects under section thirty-five, an amount equal to such portion of the excess as the department shall prescribe, shall be applied, or set aside for application, to purposes which shall effect a reduction in the amount of subsequent annual contributions. The full faith and credit of the commonwealth is hereby pledged to the payment of all annual contributions contracted for by the commonwealth.

In addition to the provisions set forth in the preceding two paragraphs which shall apply to projects completed on or before July first, nineteen hundred and sixty-six, this paragraph and the following paragraph shall apply to those projects which are completed after that date. Each contract for state financial assistance or for supplementary state financial assistance shall provide that the commonwealth will pay to the housing authority annual contributions; provided, however, that the total amount of such additional contributions contracted for

by the commonwealth for any one year shall not exceed one million eight hundred and seventy-five thousand dollars. Each such annual contribution by the commonwealth to the housing authorities shall be paid by the commonwealth upon approval and certification by the department to the state comptroller.

Each such contract shall contain a provision that the annual contributions shall be used for the payment of interest on, and principal of, notes or bonds or both of the housing authority. The annual contributions for any one project shall be payable in an amount not exceeding five per cent of the cost of the project, as determined by the department, and for the fixed period during which the notes or bonds or both issued to finance the cost of the project or any refunding notes or bonds or both remain outstanding, but in no event for more than forty years after the completion of the project, as determined by the department. Each such contract shall provide that whenever in any year the receipts of a housing authority in connection with a project exceed its expenditures for that project, including debt service, payments in lieu of taxes, administration, establishment of reserves, and other costs, as determined by the department, an amount equal to such excess, or, in the case of projects under section thirty-five, an amount equal to such portion of the excess as the department shall prescribe, shall be applied, or set aside for application, to purposes which shall effect a reduction in the amount of subsequent annual contributions. The full faith and credit of the commonwealth is hereby pledged to the payment of all contributions contracted for by the commonwealth. The provisions of subdivision (*e*) of this section shall not apply to projects completed after July first, nineteen hundred and sixty-six.

In addition to said annual contribution the commonwealth shall, upon approval and certification by the department to the state comptroller, pay, during any fiscal year, an additional annual contribution not exceeding one and one half per cent of the completion cost of such projects or parts of projects which are under temporary financing; provided that said projects or parts of projects have been determined to be completed and eligible to receive such annual contribution by said department; and provided, further, that the combined revenue and subsidy of such projects is insufficient to meet the cost of operation and debt service. Such additional annual contribution shall be in addition to that permitted under the second paragraph of this subdivision. In the case of a consolidated project, such additional annual contribution shall be computed on the basis of the completion cost or costs of the constituent projects or parts of projects under temporary financing. The additional annual contributions authorized under this paragraph shall not in any year exceed one million eighty-eight thousand five hundred and twenty dollars over and above the five million six hundred and twenty-five thousand dollars already provided for under the first paragraph of this subdivision.

(*c*) The department may enforce any of its orders, rules or regulations or the provisions of any contract between the commonwealth and a housing authority by a bill in equity filed in the superior

court or by a petition for a writ of mandamus filed under the provisions of section five of chapter two hundred and forty-nine. In the event of a breach by a housing authority of any provisions of contract between it and the commonwealth relating to a project, the commonwealth, acting by the department, may take immediate possession of the project, and retain possession and operate the project in the place and stead of the housing authority, with all the rights and powers of the housing authority, and subject to all of its obligations respecting the possession and operation of the project and the revenues therefrom, until such time as such breach shall have been corrected to the satisfaction of the department.

(*d*) A housing authority which sells bonds or notes to finance a project under authority of this section, or which has received funds from a city or town under authority of chapter three hundred and seventy-two of the acts of nineteen hundred and forty-six as amended, shall cause an audit to be made of its accounts annually at the close of a fiscal year by the department of the state auditor and a copy of the report of said audit shall be filed promptly with the department.

(*e*) Any type of housing including one, two and three family dwellings may be constructed under this section notwithstanding the provision that each project shall conform as nearly as possible to the existing published requirements of the federal government for low-rent or other housing projects. In offering for sale residences constructed under this section, preference to potential buyers shall be given whenever reasonably possible as follows:—(1) veterans tenants of such residences; (2) all other World War II veterans, as defined in section seven of chapter four; (3) surviving widows and mothers of said veterans of World War II; (4) all other United States war veterans, (5) all other resident citizens of the city or town in which said residences are located; (6) all other citizens of the commonwealth; (7) an urban redevelopment corporation; and (8) all others.

(*f*) Whenever a housing authority shall determine that land acquired by it under clause (*d*) of section eleven for the purposes of this section is in excess of or no longer required for such purposes it may, upon approval by the department, sell or otherwise dispose of such land by deed or instrument approved as to form by the attorney general. Funds received from a sale of land as herein provided shall be paid into the Housing Authority Bonds Sinking Fund as provided in this section.

(*g*) Whenever a housing authority shall determine that any gas, electric or heating distribution system which has been built or acquired for the purposes of this section is no longer required for such purposes, it may, upon approval by the department, sell or otherwise dispose of such gas, electric or heating distribution system, or any part thereof, by deed or instrument approved as to form by the attorney general. Funds received from a sale of a gas, electric or heating distribution system or any part thereof, as herein provided, shall be paid into the Housing Authority Bonds Sinking Fund as provided in this section.

(*h*) The department shall promulgate rules and regulations relative to uniform standards for tenant selection which shall establish the

order of priority governing the selection of tenants, and a housing authority thereafter shall be bound by such standards in its selection of tenants.

Notwithstanding any of the provisions of sections thirty-five to thirty-seven, inclusive, any housing authority having a contract for state financial assistance may, with respect to any project developed hereunder, and in accordance with the provisions of section fourteen and section thirty, contract with the federal government for financial assistance in accordance with the provisions of federal legislation.

Section 35. The commonwealth, acting by and through the department, may enter into a contract or contracts with the housing authority for supplementary state financial assistance in the form of a guarantee by the commonwealth of any loan made by the housing authority to finance that portion of the cost of the housing project or projects not financed with federal assistance and annual contributions by the commonwealth on that portion of the cost of such project or projects for which no federal contributions are available.

Section 36. The commonwealth shall have power to receive loans and grants from the federal government or any agency or instrumentality thereof, or from any other source, public or private, and to use any such loan or grant or part thereof for any purpose of this chapter, or to act as agent of, or to cooperate in any way with, the federal government or any agency or instrumentality thereof on any project authorized by this chapter.

Section 37. For the purpose of avoiding, so far as practicable, during the period of public exigency, emergency and distress now existing on account of the acute shortage of housing in many cities and towns of the commonwealth, the making of persons or families homeless as the result of the demolition of dwelling units on land acquired or to be acquired for the purposes of an urban renewal project, or any other public improvement by the commonwealth, a city or town, or any other public body, the commonwealth acting by and through the department may enter into a contract or contracts with a housing authority, or, in the event an urban renewal agency exists within a city or town, with a housing authority upon request of the urban renewal agency, for state financial assistance in the form of a guarantee by the commonwealth of notes or bonds or both of the housing authority issued to finance the cost of a relocation project or projects. The guarantee by the commonwealth of the notes or bonds or both of a housing authority shall be executed on each note or bond or both by the commissioner; provided, however, that the total amount guaranteed shall not exceed twenty-five million dollars in the aggregate or the actual cost of the construction of two thousand units, whichever amount is the lesser. Each such contract shall contain such limitations as to the development cost of the project and administrative and maintenance costs, as the department may require. Each project shall be based upon a separate application made to the department, which shall include such evidence of need as the department may require including a statement that the local planning board has been informed as to the location and number of dwelling units of the proposed project. The department shall ascertain and certify the need for each project after determining that there exists in such city

or town and its vicinity a period of public exigency, emergency and distress occasioned by an acute shortage of housing; provided, that the department may not approve a project or projects in any city or town for a number of dwelling units in excess of fifty per cent of the number of families to be displaced by an urban renewal project or other public improvement.

A project constructed under this section shall be deemed to provide adequate performance as set forth in section three J of chapter one hundred and forty-three.

After such date as the department may determine that such acute shortage of housing for displaced persons constituting a public exigency, emergency or distress no longer exists, any relocation project acquired, constructed, moved or rehabilitated may, with the approval of the department, be offered for sale at its fair market value and disposed of as soon as is consistent with sound business judgment; provided, that no such sale shall be for less than the total of the outstanding obligations of the housing authority with respect to such project. If the proceeds of the sale of such a project are in excess of the total of all obligations for the housing authority with respect to such project, such excess shall after the payment of all notes, bonds and other outstanding obligations issued by the housing authority to finance the cost of such project be paid to the city or town in which such project is located.

Sections one to forty-four, inclusive, of this chapter, except sections thirty-two and thirty-three, shall, as far as apt, be applicable to projects developed under this section and to housing authorities while engaged in developing and administerng such projects; provided that no application for state financial assistance under this section shall be accepted by the department after January first, nineteen hundred and sixty-five.

An authority shall not acquire land for the site of a relocation project by eminent domain under chapter seventy-nine or chapter eighty A, or by purchase, gift or otherwise, unless such land is entirely or almost entirely unoccupied by inhabited dwellings; provided, however, that an authority may acquire a completed dwelling or a group of dwellings for a relocation project if acquisition of such does not involve their demolition. The total number of dwelling units to be created in any one city or town in connection with relocation projects, for which state assistance may be granted, shall not exceed two per cent of the total of dwelling units in such city or town as reported by the United States census of nineteen hundred and fifty.

The following provisions shall be applicable to each contract for state financial assistance under this section and section thirty-five:—

(*a*) A housing authority may sell temporary notes or bonds or both to finance a relocation project; provided, that the total amount outstanding at any one time, exclusive of any notes or bonds or both which may be issued for refunding purposes, shall not be in excess of the cost of the projects as approved by the department. Any such notes or bonds may be refunded through the sale of similar notes or bonds, but in no event for a term more than as determined by the department. Notwithstanding the provisions of section seventeen, the

payment of the principal of, and interest on, all such notes or bonds or both shall be guaranteed by the commonwealth and the faith and credit of the commonwealth is hereby pledged for any such guarantee; provided, that the total amount so guaranteed shall not exceed twenty-five million dollars in the aggregate. No housing authority shall sell or offer for sale any such notes or bonds without receiving from the department approval of the amount, the term and the time of sale. The net income of the project, after operating charges and expenses as approved by the department, shall be applied annually in reduction of the outstanding indebtedness of the housing authority in relation to the project. In case any funds become available for the payment of any bonds, notes or other obligations issued or incurred in connection with a relocation project before such obligations are due, and the holders of any such obligations are not willing to accept present payment thereof, such funds shall be held by the authority until such obligations are due and then applied to the payment thereof, and in the meantime shall be invested only in securities legal for the investment of funds of savings banks.

(*b*) Upon the completion or acquisition of a project by a housing authority, it shall be maintained and operated by such authority. In the operation or management of relocation projects, an authority shall at all times observe the following requirements with respect to rentals and tenant selection:—

(1) It shall rent to a tenant dwelling accommodations consisting of the least number of rooms which it deems necessary to provide safe and sanitary accommodations to the proposed occupants thereof without overcrowding, in accordance with a rent schedule approved by the department. Such rent schedule shall be arranged so as to be sufficient, in the opinion of the department, to pay all of the costs of maintaining and operating the project, including a reasonable allowance for depreciation, and may, in the discretion of the department, be sufficient so as also to include each year an allowance for the amortization of all or part of the cost of acquiring and constructing the project not otherwise provided for.

(2) A housing authority shall not admit a person or family for occupancy in a relocation project for a period longer than may be from time to time determined by the department. A housing authority shall accept as tenants persons or families who occupied dwellings eliminated by demolition, condemnation and effective closing as part of any public improvement made by the commonwealth, city or town or other body politic and corporate or of any urban renewal, code enforcement or chapter one hundred and twenty-one A project; provided, that to the extent that no displaced persons apply for tenancy in such relocation project the authority may admit as tenants veterans, elderly persons of low income, and families of low income; provided, that no vacancies exist for such elderly persons and families of low income in existing low-rent public housing projects. If a housing authority acquired a completed dwelling or group of dwellings for a relocation project, and the acquisition of such does not involve their demolition, the authority may permit any person or family otherwise eligible under this chapter to continue in occupancy for such period or

periods that such dwelling units are not needed for persons or families displaced by any public improvement or urban renewal, code enforcement or chapter one hundred and twenty-one A project.

(3) In any action to recover possession of premises occupied in a relocation project, the provisions of sections twelve and thirteen of chapter one hundred and eighty-six and section nine of chapter two hundred and thirty-nine shall not apply.

The provisions of this chapter or any other law to the contrary notwithstanding, a housing authority may acquire with the approval of the department for use as a relocation project any existing project owned by it or leased to it by the federal government, and may with the approval of the department operate and maintain such project as a relocation project.

HOUSING FOR THE ELDERLY.

Section 38. It is hereby declared that substandard and decadent areas exist in certain portions of the commonwealth and that there is not, in certain parts of the commonwealth, an adequate supply of decent, safe and sanitary housing for elderly persons of low income, available for rents which such persons can afford to pay, and the rents which such persons can afford to pay would not warrant private enterprise in providing housing for such persons; that this situation tends to cause an increase and spread of communicable and chronic diseases, that the lack of properly constructed dwelling units designed specifically to meet the needs of elderly persons aggravates those diseases peculiar to the elderly thereby crowding the hospitals in the commonwealth with elderly persons under conditions of idleness that inevitably invite further senility; that this situation constitutes a menace to the health, safety, welfare and comfort of the inhabitants of the commonwealth and is detrimental to property values in the localities in which it exists; that this situation cannot readily be remedied by private enterprise; and that a public exigency exists which makes the provision of housing for elderly persons of low income and the clearance of decadent or substandard areas a public necessity; that the provision of housing for elderly persons of low income for the purpose of reducing the cost to the commonwealth of their care by promoting their health and welfare, thereby prolonging their productivity in the interest of the state and nation, and the clearance of decadent or substandard areas, or either, constitutes and hereby is declared to be a public use for which private property may be taken by eminent domain and public funds raised by taxation may be expended.

Section 39. The housing authority of each city or town organized under section three shall have power to provide housing for elderly persons of low income either in separate projects or as a definite portion of any other projects undertaken under sections twenty-five to forty-four, inclusive, of this chapter, or in remodeled or reconstructed existing buildings, and the provisions of sections one to forty-four, inclusive, of this chapter shall, so far as apt, be applicable to projects and parts of projects undertaken under sections thirty-eight through forty-one except as otherwise provided in section forty or elsewhere in this chapter.

In any town in which a veterans' housing project or project for the housing of elderly persons has already been constructed or established, the local housing authority shall not be empowered to erect a new housing project for elderly persons nor shall a contract for financial assistance applicable to the construction of a new project for the housing of elderly persons be entered into pursuant to the provisions of section forty-one until there shall have been submitted to, and approved by vote of, an annual town meeting or a special town meeting called therefor, the question whether the local housing authority should be empowered to erect such new housing project, for one of the purposes authorized by law, as said authority should thereafter determine to be reasonably necessary and feasible.

Section 40. The following provisions shall be applicable to housing for elderly persons of low income:—

(*a*) There shall be no requirement that the occupants of such housing constitute families, and housing may be provided in separate dwelling units for elderly persons living alone or with such other persons who are either eligible under the provisions of sections thirty-eight to forty-one, inclusive, or necessary to the physical welfare of the elderly occupant; provided, that such other necessary person is eligible for low-rent housing.

(*b*) Projects for such housing may and shall, when practicable, be established near the neighborhoods where the elderly persons reside.

(*c*) Housing for elderly persons of low income shall conform to standards established by the department after consultation with the department of public health, the department of public welfare and the board of standards, and shall be designed so as to alleviate the infirmities characteristic of the elderly.

(*d*) Projects or parts of projects shall be constructed for elderly persons of low income and shall be available and assigned to such persons without regard to their status as veterans upon the application of such elderly persons and the establishment of their eligibility under the provisions of sections thirty-eight to forty-one, inclusive.

(*e*) Rents for dwelling units in projects or parts of projects constructed for elderly persons of low income shall be computed as provided in section thirty-two; provided, however, that the rent so computed shall not be increased as to any tenant unless his annual income has increased at least twelve hundred dollars above the annual income received by him at the time the rent was computed; and provided, further, that in the case of persons receiving old age assistance under chapter one hundred and eighteen A, directly or indirectly in whole or in part, from the commonwealth, dwelling units in projects or parts of projects constructed under section thirty-nine shall be deemed to be adequate housing for elderly persons and shall qualify for and rent at the maximum rental allowance under the old age assistance laws, regulations or policies.

(*f*) The department shall promulgate rules and regulations relative to uniform standards for tenant selection which shall establish the order of priority governing the selection of tenants, and a housing authority thereafter shall be bound by such standards in its selection of tenants.

STATE GUARANTEE OF BONDS AND NOTES.

Section 41. The commonwealth, acting by and through the department, may enter into a contract or contracts with a housing authority for state financial assistance in the form of a guarantee by the commonwealth of bonds and notes, or either bonds or notes, of the housing authority issued to finance the cost of a project or projects or a part or parts of a project or projects to provide housing for elderly persons of low income. The amount of bonds and notes, or bonds or notes, guaranteed by the commonwealth under this section shall not exceed two hundred and ten million dollars. Each contract for state financial assistance shall provide that the commonwealth will pay to the housing authority annual contributions; provided, however, that the total amount of annual contributions contracted for by the commonwealth for any one year shall not exceed five million two hundred and fifty thousand dollars. Each such annual contribution by the commonwealth shall be paid by the commonwealth upon approval and certification by the department to the state comptroller. The provisions of sections thirty-four and thirty-five shall, so far as apt, be applicable to contracts for state financial assistance under this section.

In addition to said annual contribution, the commonwealth shall upon approval and certification by the department to the state comptroller pay an additional annual contribution of one and one half per cent of the completion cost during any fiscal year over and above the annual contribution of two and one half per cent of the completion cost permitted under the first paragraph of this section and under sections thirty-four and thirty-five for any project or projects or a part or parts of a project or projects to provide housing for elderly persons of low income; provided, said project or projects have been determined to be complete and eligible to receive such annual contributions by the department; and provided, further, that the commissioner finds that the combined revenue and subsidy of such projects is insufficient to meet the cost of operation and debt service. The additional annual contributions authorized under this paragraph shall not in any one year exceed three million one hundred and fifty thousand dollars, over and above the five million two hundred and fifty thousand dollars as authorized under the first paragraph.

RENTAL ASSISTANCE PROGRAM.

Section 42. It is hereby declared (*a*) that there does not now exist within the commonwealth an adequate supply of decent, safe and sanitary dwelling units available at rents which families of low income can afford without depriving themselves of the other necessities of life, (*b*) that the elimination of decadent or substandard areas in the commonwealth and the rehousing of the families now in such areas, many of them of low income, in decent, safe and sanitary housing is a public necessity, (*c*) that experience has demonstrated that the construction of the new low-rent housing projects on the large scale required to provide the needed dwelling units would be unduly expensive and would generate undesirable social consequences, (*d*)

that there exists a supply of moderate rental dwelling units within the commonwealth presently under construction or vacant which could be used to house such families of low income as cannot presently afford decent, safe and sanitary housing, provided public funds are available to supplement the portion of their income which they can afford to spend on housing, and (*e*) a program of rental assistance operated through the housing authorities in the cities and towns would help end the undesirable concentration and segregation of families of low income in separate, concentrated areas of our cities and towns and help give every citizen an equal opportunity to enjoy decent, safe and sanitary housing in a neighborhood of his own choice.

Section 43. In addition to its other powers and for the purpose of implementing a program of rental assistance a housing authority may rent or lease dwelling units for periods of not less than one nor more than five years. Any such lease shall contain a provision conditioning the obligations of the housing authority thereunder upon the prior certification by the board of health of the city or town that such dwelling unit is in compliance with the provisions of the minimum standards of fitness for human habitation set forth in the state sanitary code. No housing authority shall enter into any such lease until (*a*) the housing authority has adopted a scale of maximum rents, including specified utility charges, payable by the authority for housing units of various types under such leases and the department has approved such scale as being consistent with the purposes of the rental assistance program, (*b*) the housing authority has determined that an adequate supply of the type of housing to be leased is not presently available in the low-rent housing projects located within the city or town, and (*c*) the housing authority has determined that the rent payable under the lease is not in excess of rents payable for similar types of housing units within the city or town. A housing authority shall, in order to encourage the construction and remodeling of dwelling units, endeavor to lease units recently constructed, reconstructed or remodeled but may enter into leases for other units. In no event shall the number of units leased by any housing authority in any one building or development exceed the following limits: In a building or development containing one to three units, no limit; in a building or development containing four to eight units, two units; in a building or development containing nine or more units, one fourth of the total units, rounded up to the highest whole number; in any one block bounded by public ways, twenty per cent of the total units therein contained.

Section 44. The requirements with respect to rentals and tenant selection for low-rent housing projects shall apply to units leased by a housing authority under the rental assistance program, except that (*a*) as between applicants, who need not be residents of the city or town, equally in need and eligible for occupancy, preference shall be given in the selection of tenants to the following types of applicants; first to families with four or more minor dependents, then to families displaced by public action, and then to elderly persons of low income; provided, however, that in the case of any project financially assisted by the federal government, preference shall be given in the selection of tenants in whatever manner is required by federal legislation, (*b*)

rentals payable by selected tenant families or persons shall be determined by a housing authority solely on the basis of the ability of such family or person to pay, and shall be adjusted whenever such ability changes; (*c*) a housing authority shall release and assign its rights under any lease to the tenant then occupying a dwelling unit under the rental assistance program provided the tenant so requests, and provided the tenant demonstrates financial ability to pay the full rent called for under the lease; and (*d*) payments to the owner of a dwelling unit leased under the rental assistance program shall be made in the manner determined by the housing authority and agreed to by said owner. Amounts paid on behalf of tenant families under the rental assistance program shall not be considered in determining the amount of welfare or other public assistance payments to which they may be entitled.

Funds appropriated for the rental assistance program established by sections forty-two to forty-four, inclusive, or which may become available therefor from the federal government or any other sources, shall be allocated within the following limits:—cities with over five hundred thousand population, not in excess of fifty per cent of such funds for any one such city; cities and towns with between one hundred thousand and five hundred thousand population, not in excess of twenty per cent of such funds for any one such city or town; and cities and towns under one hundred thousand population, not in excess of ten per cent of such funds for any one such city or town. The department shall allocate funds on the basis of applications therefor from the housing authorities.

URBAN RENEWAL PROGRAMS.

Section 45. It is hereby declared that substandard, decadent or blighted open areas exist in certain cities and towns in this commonwealth; that each constitutes a serious and growing menace, injurious and inimical to the safety, health, morals and welfare of the residents of the commonwealth; that each contributes substantially to the spread of disease and crime, necessitating excessive and disproportionate expenditure of public funds for the preservation of the public health and safety, for crime prevention, correction, prosecution and punishment and the treatment of juvenile delinquency and for the maintenance of adequate police, fire and accident protection and other public services and facilities; that each constitutes an economic and social liability, substantially impairs or arrests the sound growth of cities and towns, and retards the provision of housing accommodation; that each decreases the value of private investments and threatens the sources of public revenue and the financial stability of communities; that because of the economic and social interdependence of different communities and of different areas within single communities, the redevelopment of land in decadent, substandard and blighted open areas in accordance with a comprehensive plan to promote the sound growth of the community is necessary in order to achieve permanent and comprehensive elimination of existing slums and substandard conditions and to prevent the recurrence of such slums or conditions or their development in other parts of the community or in

other communities; that the redevelopment of blighted open areas promotes the clearance of decadent or substandard areas and prevents their creation and occurrence; that the menace of such decadent, substandard or blighted open areas is beyond remedy and control solely by regulatory process in the exercise of the police power and cannot be dealt with effectively by the ordinary operations of private enterprise without the aids herein provided; that the acquisition of property for the purpose of eliminating decadent, substandard or blighted open conditions thereon and preventing recurrence of such conditions in the area, the removal of structures and improvement of sites, the disposition of the property for redevelopment incidental to the foregoing, the exercise of powers by urban renewal agencies and any assistance which may be given by cities and towns or any other public bodies in connection therewith are public uses and purposes for which public money may be expended and the power of eminent domain exercised; and that the acquisition, planning, clearance, conservation, rehabilitation or rebuilding of such decadent, substandard and blighted open areas for residential, governmental, recreational, educational, hospital, business, commercial, industrial or other purposes, including the provision of streets, parks, recreational areas and other open spaces, are public uses and benefits for which private property may be acquired by eminent domain or regulated by wholesome and reasonable orders, laws and directions and for which public funds may be expended for the good and welfare of this commonwealth.

It is further declared that while certain of such decadent, substandard and blighted open areas, or portions thereof, may require acquisition and clearance because the state of deterioration may make impracticable the reclamation of such areas or portions by conservation and rehabilitation, other of such areas, or portions thereof, are in such condition that they may be conserved and rehabilitated in such a manner that the conditions and evils enumerated above may be alleviated or eliminated; and that all powers relating to conservation and rehabilitation conferred by this chapter are for public uses and purposes for which public money may be expended and said powers exercised.

The necessity in the public interest for the provisions of this chapter relating to urban renewal projects is hereby declared as a matter of legislative determination.

Section 46. An urban renewal agency shall have all the powers necessary or convenient to carry out and effectuate the purposes of relevant provisions of the General Laws, and shall have the following powers in addition to those specifically granted in section eleven or elsewhere in this chapter:—

(*a*) to determine what areas within its jurisdiction constitute decadent, substandard or blighted open areas;

(*b*) to prepare plans for the clearance, conservation and rehabilitation of decadent, substandard or blighted open areas, including plans for carrying out a program of voluntary repair and rehabilitation of buildings and improvements, plans for the enforcement of laws, codes and regulations relating to the use of land and the use or occupancy of buildings and improvements, plans for the compulsory repair and

rehabilitation of buildings and improvements, and plans for the demolition and removal of buildings and improvements;

(*c*) to prepare or cause to be prepared urban renewal plans, master or general plans, workable programs for development of the community, general neighborhood renewal plans, community renewal programs and any plans or studies required or assisted under federal law;

(*d*) to engage in urban renewal projects, and to enforce restrictions and controls contained in any approved urban renewal plan or any covenant or agreement contained in any contract, deed or lease by the urban renewal agency notwithstanding that said agency may no longer have any title to or interest in the property to which such restrictions and controls apply or to any neighboring property;

(*e*) to conduct investigations, make studies, surveys and plans and disseminate information relative to community development, including desirable patterns for land use and community growth, urban renewal, relocation, and any other matter deemed by it to be material in connection with any of its powers and duties, and to make such studies, plans and information available to the federal government, to agencies or subdivisions of the commonwealth and to interested persons;

(*f*) to develop, test and report methods and techniques and carry out demonstrations for the prevention and elimination of slums and urban blight; and

(*g*) to receive gifts, loans, grants, contributions or other financial assistance from the federal government, the commonwealth, the city or town in which it was organized or any other source.

Section 47. Notwithstanding any contrary provision of this chapter, an urban renewal agency may, with the consent of the department and municipal officers, and after a temporary loan contract for the purpose has been executed under the federal Housing Act of 1949, as amended, take by eminent domain, as provided in clause (*d*) of section eleven, or acquire by purchase, lease, gift, bequest or grant, and hold, clear, repair, operate and, after having taken or acquired the same, dispose of land constituting the whole or any part or parts of any area which, after a public hearing of which the land owners of record have been notified by registered mail and of which at least twenty days notice has been given by publication in a newspaper having a general circulation in the city or town in which the land lies, it has determined to be a decadent, substandard or blighted open area and for which it is preparing an urban renewal plan, and for such purposes may borrow money from the federal government or any other source or use any available funds or both; provided, however, that no such taking or acquisition shall be effected until the expiration of thirty days after the urban renewal agency has notified the land owner of record by registered mail and has caused a notice of such determination to be published, in a newspaper having general circulation in such city or town. Within thirty days after publication of the notice of such determination, any person aggrieved by such determination may file a petition in the supreme judicial or superior court sitting in Suffolk county for a writ of certiorari against the urban renewal agency to correct errors of law in such determination, which shall be

the exclusive remedy for such purpose; and the provisions of section one D of chapter two hundred and thirteen, and of section four of chapter two hundred and forty-nine, shall apply to said petition except as herein provided with respect to the time for the filing thereof.

Section 48. No urban renewal project shall be undertaken until (1) a public hearing relating to the urban renewal plan for such project has been held after due notice before the city council of a city or the municipal officers of a town and (2) the urban renewal plan therefor has been approved by the municipal officers and the department as provided in this section.

Whenever the urban renewal agency determines that an urban renewal project should be undertaken in the city or town in which it was organized, it shall apply to the municipal officers for approval of the urban renewal plan for such project. Such application shall be accompanied by an urban renewal plan for the project, a statement of the proposed method for financing the project and such other information as the urban renewal agency deems advisable.

Every urban renewal plan approved by the municipal officers shall be submitted to the department together with such other material as the department may require.

The department shall not approve any urban renewal plan unless the planning board established under the provisions of section seventy or eighty-one A of chapter forty-one for the city or town where the project is located has found and the department concurs in such finding or, if no planning board exists in such city or town, the department finds that the urban renewal plan is based upon a local survey and conforms to a comprehensive plan for the locality as a whole. The department shall likewise not approve any urban renewal plan unless it shall have found (*a*) the project area would not by private enterprise alone and without either government subsidy or the exercise of governmental powers be made available for urban renewal; (*b*) the proposed land uses and building requirements in the project area will afford maximum opportunity to privately financed urban renewal consistent with the sound needs of the locality as a whole; (*c*) the financial plan is sound; (*d*) the project area is a decadent, substandard or blighted open area; (*e*) that the urban renewal plan is sufficiently complete, as required by section one; and (*f*) the relocation plan has been approved under chapter seventy-nine A.

Within sixty days after submission of the urban renewal plan, the department shall give written notice to the urban renewal agency of its decision with respect to the plan. If the department shall disapprove any such plan, it shall state in writing in such notice its reasons for disapproval. A plan which has not been approved by the department when submitted may be again submitted to it with such modifications, supporting data or arguments as are necessary to meet its objections. The department may hold a public hearing upon any urban renewal plan submitted to it, and shall do so if requested in writing within ten days after submission of the plan by the urban renewal agency, the mayor or city council of the city or selectmen of the town in which the proposed project is located, or twenty-five or more taxable inhabitants of such city or town.

Any provision to the contrary notwithstanding, when the location of a proposed urban renewal project has been determined, the urban renewal agency may, without awaiting the approval of the department, proceed, by option or otherwise, to obtain control of such property within the urban renewal project area as is necessary to carry out the urban renewal plan; but it shall not, without the approval of the department, unconditionally obligate itself to purchase or otherwise acquire any such property except as provided in section forty-seven.

When the urban renewal plan or such a project has been approved by the department and notice of such approval has been given to the urban renewal agency, such agency may proceed at once to acquire real estate within the location of the project, either by eminent domain or by grant, purchase, lease, gift, exchange or otherwise.

Section 49. If an urban renewal agency shall sell or lease any property acquired by it for an urban renewal project, the terms of such sales or leases shall obligate the purchasers or lessees, (*a*) to devote the land to the use specified in the urban renewal plan for said land; (*b*) to begin the building of their improvements within a reasonable time; provided, however, that, with respect to any improvements of a type which any federal agency, as defined in subsection (*b*) of section 3 of the Federal Property and Administrative Services Act of 1949, as amended, is otherwise authorized to make, this clause shall apply to such federal agency only to the extent that it is authorized, and funds have been made available, to make the improvements involved; (*c*) to give preference in the selection of tenants for dwelling units built in the project area to families displaced therefrom because of clearance and renewal activity who desire to live in such dwelling units and who will be able to pay rents or prices equal to rents or prices charged other families for similar or comparable dwelling units built as a part of the same redevelopment; and (*d*) to comply with such other conditions as are deemed necessary to carry out the purposes of this chapter, or requirements of federal legislation or regulations under which loans, grants or contributions have been made or agreed to be made to meet a part of the cost of the project. Nothing in this chapter shall be construed as limiting the power of an urban renewal agency in the event of a default by a purchaser or lessee of land in an urban renewal project to retake title to and possession of the property sold or leased free from the obligations in the conveyance or lease thereof.

Section 50. An urban renewal agency is hereby authorized to delegate to a city or town or other public body or to any board or officer of a city, town or other public body any of the powers or functions of the agency with respect to the planning or undertaking of an urban renewal project in the area in which such city, town or other public body is authorized to act, and such city, town or other public body, or such board or officer thereof, is hereby authorized to carry out or perform such powers or functions for the agency. Any public body is hereby authorized to enter into agreements which may extend over the period of a loan to the urban renewal agency by the federal government, notwithstanding any provision of rule of law to the

contrary, with any other public body or bodies respecting action to be taken pursuant to any of the powers granted by this chapter, including the furnishing of funds or other assistance, in connection with an urban renewal plan or urban renewal project. An urban renewal agency, to the greatest extent it determines to be feasible in carrying out the provisions of this chapter, shall afford maximum opportunity consistent with the sound needs of the city or town as a whole for the rehabilitation or redevelopment of decadent, substandard or blighted open areas by private enterprise.

Section 51. A housing authority of a city or town which, prior to the organization of a redevelopment authority in such city or town, has initiated an urban renewal project may complete, operate and maintain such project notwithstanding such organization of a redevelopment authority; provided, however, that if the municipal officers of such city or town so order and with the consent in writing of the holders of any bonds, notes or certificates of indebtedness of the housing authority issued for such project and then outstanding, the redevelopment authority shall take over a planned or existing urban renewal project initiated by a housing authority. The initiating authority shall use its best efforts promptly to secure the consent of all such holders and, all necessary consents having been secured, shall promptly execute an agreement with the authority which is to take over such project. Thereupon such authority shall assume, exercise, continue, perform and carry out all undertakings, obligations, duties, rights, powers, plans and activities with respect to such project and the authority which initiated the project shall have no powers and duties with respect to such project.

Section 52. Each urban renewal agency shall keep an accurate account of all its activities, receipts and expenditures in connection with the planning and execution of urban renewal projects and shall annually in the month of January make a report of such activities, receipts and expenditures to the department, the state auditor and the mayor of the city or to the selectmen of the town within which such authority is organized, such reports to be in a form prescribed by the department and approved by the state auditor; provided, that such form shall not be inconsistent with any federal legislation and shall conform as closely as may be to such legislation. The department or state auditor shall have the power to examine into the properties and records of urban renewal agencies and to prescribe methods of accounting, not inconsistent with federal legislation, for such activities, receipts and expenditures.

A veteran, as defined in section twenty-one of chapter thirty-one, who holds an office or position in the service of a redevelopment authority not classified under said chapter thirty-one, and has held such office or position for not less than three years, shall not be involuntarily separated from such office or position except subject to and in accordance with the provisions of sections forty-three and forty-five of said chapter thirty-one to the same extent as if said office or position were classified under said chapter. If the separation in the case of such unclassified offices or positions results from lack of work or lack of money, such a veteran shall not be separated from his office

or position while similar offices or positions in the same group or grade, as defined in section forty-five of chapter thirty, exist unless all such offices or positions are held by such veterans, in which case such separation shall occur in the inverse order of their respective original appointments.

No person permanently employed by a redevelopment authority, who is not classified under chapter thirty-one, shall, after having actually performed the duties of his office or position for a period of six months, be discharged, removed, suspended, laid off, transferred from the latest office or employment held by him without his consent, lowered in rank or compensation, nor shall his office or position be abolished, except for just cause and in the manner provided by sections forty-three and forty-five of chapter thirty-one.

Any employee who has transferred from a housing authority to a redevelopment authority in the same city or town shall, for the purposes of this section, be credited for the period of time in which he was employed by a housing authority.

STATE AID FOR URBAN RENEWAL.

Section 53. Any city or town, acting by and through its urban renewal agency may apply to the department for an urban renewal assistance grant to meet in part the cost of an approved urban renewal project. Such application shall be in the form prescribed by the department, and shall be accompanied by such additional information, drawings, plans, reports, estimates and exhibits as the department may require. The department shall make such rules and regulations as are necessary to effectuate the purposes of this section and sections fifty-four to fifty-seven, inclusive.

Section 54. Upon receipt of an application under the provisions of section fifty-three the department shall examine such application and any facts, estimates or other information relative thereto, and shall determine whether the proposed project complies with the provisions of the general laws and with rules and regulations prescribed in accordance therewith governing the approval and administration of urban renewal assistance grants. Upon the determination of satisfactory compliance, the department shall determine the estimated approved cost of such project, and compute the amount of the urban renewal assistance grant to which the city or town would be entitled under section fifty-five.
