THE COMMONWEALTH OF MASSACHUSETTS
EXECUTIVE DEPARTMENT, STATE HOUSE
BOSTON, July 17, 1972

The Honorable JOHN F. X. DAVOREN, *Secretary of the Commonwealth, State House, Boston, Massachusetts.*

DEAR MR. SECRETARY: — I, Francis W. Sargent, pursuant to the provisions of Article XLVIII of the Amendments to the Constitution, the Referendum II, Emergency Measures, hereby declare in my opinion the immediate preservation of the public convenience requires that the law being Chapter 765 of the Acts of 1972, entitled "AN ACT RELATIVE TO THE ACCELERATED HIGHWAY PROGRAM." and the enactment of which received my approval on July 17, 1972, should take effect forthwith.

I further declare that in my opinion said law is an emergency law and the facts constituting the emergency are as follows:

In order that the bond authorization permitted by this act may be immediately implemented.

Sincerely,
FRANCIS W. SARGENT,
Governor of the Commonwealth.

OFFICE OF THE SECRETARY, BOSTON, July 18, 1972.

I, John F. X. Davoren, Secretary of the Commonwealth, hereby certify that the accompanying statement was filed in this office by His Excellency the Governor of the Commonwealth of Massachusetts at three o'clock, P.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter seven hundred and sixty-five of the acts of nineteen hundred and seventy-two.

JOHN F. X. DAVOREN,
Secretary of the Commonwealth.

Chap. 766. AN ACT FURTHER REGULATING PROGRAMS FOR CHILDREN REQUIRING SPECIAL EDUCATION AND PROVIDING REIMBURSEMENT THEREFOR.

Be it enacted, etc., as follows:

SECTION 1. The General Court finds that past development of special education programs has resulted in a great variation of services to children with special needs with some children having a greater educational opportunity than others in less favored categories or environments. The General Court further finds that past methods of labeling and defining the needs of children have had a stigmatizing effect and have caused special education programs to be overly narrow and rigid, both in their content and their inclusion and exclusion policies.

In the light of the policy of the commonwealth to provide an adequate, publicly supported education to every child resident therein, it is the purpose of this act to provide for a flexible and uniform system of special education program opportunities for all children requiring special education; to provide a flexible and non-discriminatory system for identifying and evaluating the individual needs of children requiring special education; requiring evaluation of the needs of the child and adequacy of the special education program before placement and periodic evaluation of the benefit of the program to the child and the nature of the child's needs thereafter; and to prevent denials of equal educational opportunity on the basis of national origin, sex, economic status, race, religion, and physical or mental handicap in the provision of differential education services.

This act is designed to remedy past inadequacies and inequities by defining the needs of children requiring special education in a broad and flexible manner, leaving it to state agencies to provide more detailed definitions which recognize that such children have a variety of characteristics and needs, all of which must be considered if the educational potential of each child is to be realized; by providing the opportunity for a full range of special education programs for children requiring special education; by requiring that a program which holds out the promise of being special actually benefits children assigned thereto; and by replacing the present inadequate and anti-equalizing formula for distribution of state aid for special education programs with an equalizing one which encourages cities, towns and regional school districts to develop adequate special education programs within a reasonable period of time.

Recognizing that professional services and resources must be made available to cities, towns and regional school districts on a regional basis if this act is to be implemented successfully, and within a reasonable period of time, this act strengthens and regionalizes the division of special education in the department of education and provides for and urges meaningful cooperation among agencies concerned with children with special needs.

Recognizing, finally, that present inadequacies and inequities in the provision of special education services to children with special needs have resulted largely from a lack of significant parent and lay involvement in overseeing, evaluating and operating special education programs, this act is designed to build such involvement through the creation of regional and state advisory committees with significant powers and by specifying an accountable procedure for evaluating each child's special

needs thoroughly before placement in a program and periodically thereafter.

SECTION 2. Chapter 15 of the General Laws is hereby amended by adding after section 1L the following five sections: —

Section 1M. The powers and duties of the division of special education, established by section one F, shall include the following: (1) to regulate, consult with and assist school committees in the identification, classification, referral and placement of children requiring special education; (2) to regulate all aspects of, and assist with, the development of all special education programs supported in whole or in part by the commonwealth; (3) to coordinate the expertise of professionals from appropriate disciplines, both within and outside of the department and to be the coordinating agency for all state agencies providing educational assessment services and educational services to children requiring special education; (4) to compile data on, and to require all public schools and agencies and any private schools or agencies receiving any funds from the commonwealth to provide information relating to, all children requiring special education who reside in the commonwealth and on all available special education programs supported in whole or in part by the commonwealth; (5) to periodically review and analyze said data in order to evaluate said programs and to disseminate statistical data to any citizen or agency within the commonwealth upon request; provided, however, that records pertaining to individuals shall be kept confidential; (6) to develop public information programs regarding the nature and extent of special educational needs of children residing in the commonwealth and the availability of special education programs to meet those needs; (7) to develop and recommend to the board of education certification standards for educational personnel employed in special education programs and regulations to encourage greater use of ancillary personnel; (8) to cooperate with and assist public and private colleges and universities within the commonwealth in developing courses and programs best designed to prepare graduates to serve the educational requirements of children requiring special education; (9) to receive and investigate complaints and to conduct public and executive hearings with power of subpoena on behalf of an individual child or group of children receiving or requiring special education regarding any aspect of any special educational programs and to initiate its own investigation without a complaint; (10) to receive and allocate federal and state funds for programs for children requiring special education, subject to the priorities established by this section and chapter seventy-one B and such other additional priorities as may be established pursuant to section one P by the board of education; (11) to recommend to the board of education such rules, regulations and guidelines and to issue such directives as are necessary to carry out the purposes of sections one N to one Q, inclusive, and to execute other provisions of law relative to the administration of educational programs for children requiring or receiving special education; (12) to provide for the maximum practicable involvement of parents of children in special education programs in the planning, development, and evaluation of special education programs in the districts serving their children; (13) to approve the purchase, lease and maintenance of all special equipment for the instruction outside of the classroom of handicapped children for whom attendance in public school is not feasible and to regulate the conditions under which

such a child may be considered so handicapped; (14) to investigate into and hold hearings upon prima facie denials of equal educational opportunities by reason of national origin, sex, economic status, race, religion, or physical or mental handicap of school aged children requiring special education as defined in section one of said chapter seventy-one B and thereafter issue such declaratory and injunctive orders as may be necessary to cure any actual denials of equal educational opportunities by reason of national origin, sex, economic status, race, religion, and physical or mental handicap of school aged children requiring special education; (15) to require public or private schools and educational agencies receiving any funds from the commonwealth to establish cost accounting and reporting procedures, forms, schedules, rates and audits in conformity with department standards; and to make reports to the department at such times, in such fashion and on such forms as the department may require; (16) to conduct or contract with any federal, state or private agency for the conduct of research and development projects designed to improve the quality of special education programs or increase the efficiency of such programs; (17) in the event of funding shortages, to allocate resources proportionately; (18) to provide for placement of children requiring special education into public schools or agency programs near their place of residence and to allow other placements in the event that suitable public programs or services can not be provided; (19) to take all steps, including but not limited to public hearings and investigations necessary to insure that state and local expenditures for special education provide the maximum feasible benefit to every child receiving or requiring special education; (20) to develop and recommend any appropriate parent or guardian counseling or educational programs which are deemed necessary for the educational development of a child with special needs; (21) to recommend to the board that it withhold funds for special education programs from cities, towns or school districts, private schools or agencies which do not comply with regulations or statutes related to special education programs or do not carry out plans for such compliance within a reasonable period of time provided; however, that nothing contained in this clause shall be construed to prevent the board from withholding state and federal funds to the extent it deems necessary as provided in section one G.

Section 1N. There shall be in the division of special education a sufficient number of bureaus to enable it to carry out its powers and duties under section one M, and the board of education, upon the recommendation of the commissioner of education and the associate commissioner for special education, shall appoint a director with experience in the education of children with special needs for each bureau. One bureau shall be responsible for holding hearings and conducting investigations pursuant to clauses (8), (13) and (18) of section one M, section one P and section three of chapter seventy-one B.

Section 1O. There shall be established in each of the department of education regional offices a regional branch of the division of special education. Each regional branch shall be headed by a director with experience in the education of children with special needs and who shall be appointed by the board of education upon the recommendations of the commissioner of education and the associate commissioner for special education. Said regional branch shall have the following functions: (1) to consult with and assist school committees in imple-

Section 1P. There shall be established in each region a special education advisory council, hereinafter called the advisory council, consisting of at least sixteen members, appointed by the department in consultation with the director of said regional branch. At least eight of the members of an advisory council shall be parents who reside in the region, and whose children are enrolled in a special education program; provided, however, that no more than two parents on each such advisory council shall be parents of children who are not in public school day programs.

Each member shall be appointed for a term of three years. No member may be appointed for more than two consecutive terms. Each advisory council shall advise the regional branch regarding all aspects of special education programs within the region and shall submit a written report annually on the quality and adequacy of such programs to the state advisory commission established under section one Q. The department shall implement the recommendations of the commission or shall state in a written reply to said commission the reasons why such recommendations can not or should not be implemented. In such circumstances, the bureau responsible for hearing complaints and conducting investigations in the division of special education pursuant to section one N shall attempt to resolve the disagreement informally; provided, however, if a settlement cannot be reached the state board of education shall conduct public hearings to investigate the bases for the disagreement and resolve any dispute between the department and the commission.

CHAPTER 71B

CHILDREN WITH SPECIAL NEEDS

Section 1. The following words as used in this chapter shall, unless the context requires otherwise, have the following meanings: "Department", the department of education; "School age child", any person of ages three through twenty-one who has not attained a high school diploma or its equivalent; "School age child with special needs", a school age child who, because of temporary or more permanent adjustment difficulties or attributes arising from intellectual, sensory, emotional, or physical factors, cerebral dysfunctions, perceptual factors, or other specific learning disabilities or any combination thereof, is unable to progress effectively in a regular school program and requires special classes, instruction periods, or other special education services in order to successfully develop his individual educational potential; "Regular education", the school program and pupil assignment which normally leads to college preparatory or technical education or to a career; "Special education", educational programs and assignments, namely special classes, programs or services designed to develop the educational potential of children with special needs including but not limited to educational placements of children by school committees, the departments of public health, mental health, and youth services and the division of family and children's services in accordance with the regulations of the department of education; "School age child requiring special education", any child with special needs who requires special education as determined in accordance with the regulations set forth by the department.

Section 2. The department shall promulgate, in cooperation with the departments of mental health, public health and welfare, regulations regarding programs for children with special needs including but not limited to a definition of special needs; provided, however, that such definition shall emphasize a thorough narrative description of each child's developmental potential so as to minimize the possibility of stigmatization and to assure the maximum possible development of a child with special needs, and, provided further, that such definition shall be sufficiently flexible to include children with multiple special needs. Children receiving or requiring special education shall be entitled to participate in any of the following programs: (1) additional direct or indirect instruction consultation service, materials, equipment or aid provided children or their regular classroom teachers which directly benefits children requiring special education; (2) supplementary individual or small group instruction or treatment in conjunction with a regular classroom program; (3) integrated programs in which children are assigned to special resource classrooms but attend regular classes to the extent that they are able to function therein; (4) full-time special class teaching or treatment in a public school building; (5) teaching or treatment at home; (6) full-time teaching or treatment in a special day school or

other day facility; (7) teaching or treatment at a hospital; (8) teaching or treatment at a short or long term residential school; (9) occupational and pre-occupational training in conjunction with the regular occupational training program in a public school; (10) occupational and pre-occupational training in conjunction with full-time special class teaching in a public school building, at home, special day school or other day facility, hospital, or short or long-term residential school; (11) any combination or modification of programs (1) through (10) or other programs, services, treatments or experimental provisions which obtain the prior approval of the department.

Admission to such programs on the pre-school level at an earlier age than at which schooling is ordinarily provided shall be regulated by the department in conjunction with the departments of public health and mental health and shall be restricted to children with substantial disabilities who are judged by said departments to require such programming.

No child shall be assigned to a special education class unless it is first determined by an evaluation of the child's needs and the particular special education program that the child is likely to benefit from such program; periodically thereafter, and in no event less often than annually the child and his program shall be reevaluated to determine whether said child is benefiting from such program in accordance with the procedures set forth in section three. In the event that said program is not benefiting the child and that another program may benefit the child more, or said program has benefited the child sufficiently to permit reassignment, the child shall be reassigned, and in the event of consistent failure of a program to benefit children there assigned, the program shall be abolished or altered.

Section 3. In accordance with the regulations, guidelines and directives of the department issued jointly with the departments of mental health and public health and with assistance of the department, the school committee of every city, town or school district shall identify the school age children residing therein who have special needs, diagnose and evaluate the needs of such children, propose a special education program to meet those needs, provide or arrange for the provision of such special education program, maintain a record of such identification, diagnosis, proposal and program actually provided and make such reports as the department may require. Until proven otherwise every child shall be presumed to be appropriately assigned to a regular education program and presumed not to be a school age child with special needs or a school age child requiring special education.

No school committee shall refuse a school age child with special needs admission to or continued attendance in public school without the prior written approval of the department. No child who is so refused shall be denied an alternative form of education approved by the department, as provided for in section ten, through a tutoring program at home, through enrollment in an institution operated by a state agency or through any other program which is approved for the child by the department.

No child shall be placed in a special education program without prior consultation, evaluation, reevaluation, and consent as set forth and implemented by regulations promulgated by the department.

Within five days after the referral of a child enrolled in a regular education program by a school official, parent or guardian, judicial officer, social worker, family physician, or person having custody of the child for purposes of determining whether such child requires special education, the school committee shall notify the parents or guardians of such child in writing in the primary language of the home of such referral, the evaluation procedure to be followed, and the child's right to an independent evaluation at clinics or facilities approved by the department under regulations adopted jointly by the department and the departments of mental health and public health and the right to appeal from any evaluation, first to the department, and then to the courts.

Within thirty days after said notification the school committee shall provide an evaluation as hereinafter defined. Said evaluation shall include an assessment of the child's current educational status by a representative of the local school department, an assessment by a classroom teacher who has dealt with the child in the classroom, a complete medical assessment by a physician, an assessment by a psychologist, an assessment by a nurse, social worker, or a guidance or adjustment counselor of the general home situation and pertinent family history factors; and assessments by such specialists as may be required in accordance with the diagnosis including when necessary, but not limited to an assessment by a neurologist, an audiologist, an ophthalmologist, a specialist competent in speech, language and perceptual factors and a psychiatrist.

The department jointly with the departments of mental health and public health shall issue regulations to specify qualifications for persons assessing said child.

These departments through their joint regulations may define circumstances under which the requirement of any or all of these assessments may be waived so long as an evaluation appropriate to the needs of the child is provided.

Those persons assessing said child shall maintain a complete and specific record of diagnostic procedures attempted and their results, the conclusions reached, the suggested courses of special education and medical treatment best suited to the child's needs, and the specific benefits expected from such action. A suggested special education program may include family guidance or counseling services. When the suggested course of study is other than regular education those persons assessing said child shall present a method of monitoring the benefits of such special education and conditions that would indicate that the child should return to regular classes, and a comparison of expected outcomes in regular class placement.

If a child with special needs requires of a medical or psychological treatment as part of a special education program provided pursuant to this section, or if his parent or guardian requires social services related to the child's special needs, such treatment or services, or both, shall be made available, in accordance with regulations promulgated jointly by the departments of education, mental health, public health and public welfare in connection with the child's special education program. Reimbursement of the costs of such treatment or services or both shall be made according to the provisions of section thirteen.

Upon completion of said evaluation the child may obtain an independent evaluation from child evaluation clinics or facilities approved

by the department jointly with the departments of mental health and public health or, at private expense, from any specialists.

The written record and clinical history from both the evaluation provided by the school committee and any independent evaluation, shall be made available to the parents, guardians, or persons with custody of the child. Separate instructions, limited to the information required for adequate care of the child, shall be distributed only to those persons directly concerned with the care of the child. Otherwise said records shall be confidential.

The department may hold hearings regarding said evaluation, said hearings to be held in accordance with the provisions of chapter thirty A. The parents, guardians, or persons with custody may refuse the education program suggested by the initial evaluation and request said hearing by the department into the evaluation of the child and the appropriate education program. At the conclusion of said hearing, with the advice and consultation of appropriate advisory councils established under section one P of chapter fifteen, the department may recommend alternative educational placements to the parents, guardians or persons with custody, and said parents, guardians and persons with custody may either consent to or reject such proposals. If rejected, and the program desired by the parents, guardian or person with custody is a regular education program, the department and the local school committee shall provide the child with the educational program chosen by the parent, guardian or persons with custody except where such placement would seriously endanger the health or safety of the child or substantially disrupt the program for other students. In such circumstances the local school committee may proceed to the superior court with jurisdiction over the residence of the child to make such showing. Said court upon such showing shall be authorized to place the child in an appropriate education program.

If the parents, guardians or persons with custody reject the educational placements recommended by the department and desire a program other than a regular education program, the matter shall be referred to the state advisory commission on special education to be heard at its next meeting. The commission shall make a determination within thirty days of said meeting regarding the placement of the child. If the parents, guardians or person with custody reject this determination, they may proceed to the superior court with jurisdiction over the residence of the child and said court shall be authorized to order the placement of the child in an appropriate education program.

During the course of the evaluations, assessments, or hearings provided for above, a child shall be placed in a regular education program unless such placement endangers the health or safety of the child or substantially disrupts such education program for other children.

No parent or guardian of any child placed in a special education program shall be required to perform duties not required of a parent or guardian of a child in a regular school program.

Within ten months after placement of any child in a special education program, and at least annually thereafter the child's educational progress shall be evaluated as set forth above. If such evaluation suggests that the initial evaluation was in error or that a different program or medical treatment would now benefit the child more, appropriate reassignment or alteration in treatment shall be recommended to the

parents, guardians or persons having custody of the child. If the evaluation of the special education program shows that said program does not benefit the child to the maximum extent feasible, then such child shall be reassigned.

Evaluations and assessments of children and special education programs shall remain confidential and be used solely for the administration of special education in the commonwealth, including, but not limited to, inspection by the department and regional and state advisory councils to insure that every special education program does benefit the children there assigned.

Section 4. The school committee of any city, town or school district may, to meet its obligations under section three, with the approval of the department enter into an agreement with any other school committee to jointly provide special education or, subject to the consent of the parent or guardian affected thereby and subject to constitutional limitations, may enter into an agreement with any public or private school, agency, or institution to provide the necessary special education within the city, town or school district.

In the case of an agreement between school committees to jointly provide special education, said agreement shall designate one city, town or school district as the operating agent. Funds received by such operating agent from other cities, towns or school districts or appropriated by such operating agent for the purposes of such agreement, in addition to gifts and grants shall be deposited with and held as a separate account by its treasurer. The school committee may apply said funds to the costs of programs operated pursuant to the agreement without further appropriation.

Section 5. Any school committee which provides or arranges for the provision of special education pursuant to the provisions of section three shall pay for such special education personnel, materials and equipment, tuition, room and board, transportation, rent and consultant services as are necessary for the provision of such special education.

A school committee which incurs costs or obligations as a result of section five of chapter one hundred and seventy-one B of the General Laws, inserted by section eleven of this act, shall include within its budget for its fiscal year which includes September first, nineteen hundred and seventy-three, and annually thereafter, an amount of money to comply with the provisions of said chapter. Said amount shall be added to the annual budget appropriation for school purposes in each city or town and shall be a portion of the amount necessary in such city or town for the support of public schools for the purposes of, and enforceable pursuant to, section thirty-four of chapter seventy-one, notwithstanding any general or special laws or charter provisions which limit the amount of money that may be appropriated in any city or town for school purposes.

Section 6. School committees shall annually report to the department, pursuant to regulations promulgated by the department, the assignment by sex, national origin, economic status, race and religion, of children by age level to special education classes and the distribution of children residing in the district by sex, national origin, economic status, race and religion of children by age level. Within any school district if in any special education program there is a pattern of assignment throughout the district on the basis of sex, national origin, economic status, race or

religion of the students which is substantially disproportionate from the distribution, the department shall notify such school district of its prima facie denial of equal educational opportunities. The department shall hold public hearings to investigate into such prima facie denial, at which hearings the local school district must show that such disproportion is necessary to promote a compelling education interest of the children affected and of the commonwealth. If the local school district fails to make such showing, a denial of equal educational opportunities shall be declared by the department and it shall order said district to submit a plan to eliminate such denial to be effective for the school year immediately following such declaration and order. If in the view of the department the plan submitted is inadequate, or if implementation of said plan proves inadequate, the department may request the attorney general to proceed to the superior court for all necessary injunctive and other relief. If such prima facie denial has continued without elimination for a period of two consecutive years in any school district, any person residing in such school district may bring suit in the superior court of his residence to determine whether there is such adequate justification for the prima facie denial, and in the event there is not, to obtain the necessary and appropriate injunctive or other relief.

Section 7. No results of standardized or local tests of ability, aptitude, attitude, affect, achievement, or aspiration may be used exclusively in the selection of children for referral, diagnosis, or evaluation. Such tests must be approved by the department in accordance with regulations issued by the board to insure that they are as free as possible from cultural and linguistic bias or, wherever necessary, separately evaluated with reference to the linguistic and cultural groups to which the child belongs.

Section 8. If a school age child with special needs attends a school approved by the department within or without the city or town of residence of the parent or guardian, the school committee of the town where the child resides may be required by the department to provide transportation once each day including weekends where applicable to and from such school while the child is in attendance. The city or town providing transportation under this section shall be reimbursed according to the provisions of section thirteen.

Section 9. The department, after consultation with the departments of mental health and public health, shall define the circumstances in which school committees may be required to provide special classes, instruction periods or other special education programs for school age children with special needs and shall provide standards for class size, curriculum, personnel and other aspects of special education for such children.

Section 10. The department may, on an annual renewal basis, upon the request of the parents or guardians and the recommendations of a local school committee and a regional branch of the division of special education, and with the approval of the secretary of educational affairs refer children requiring special education to any institution within or without the commonwealth which offers curriculum, instruction and facilities which are appropriate to the child's needs and which are approved by the department under regulations prescribed by the departments of education, mental health and public health. The curriculum at such an institution must for approval be equivalent, insofar as the

department deems feasible, to the curriculum for children of comparable age and ability in the public schools of the commonwealth.

Before acting on said request the department shall determine the nature and extent of a child's special needs, shall require the local school committee and regional advisory council to prepare and submit plans detailing the time needed to establish facilities adequate for children with special needs in the city, town or school district where the child resides, and shall ascertain whether adequate facilities and instruction programs are available or when adequate facilities can be made available in the city, town or school district where the child with special needs resides. Until adequate facilities can be made available, such child shall be placed in the most adequate program available as determined by the department. The department shall further define by regulation the circumstances in which it shall be directly responsible for the placement of children in such special education programs, and by standards available to the public determine the methods and order of such placements; provided, however, that no child shall be denied access to any program operated by the department of mental health, public health or public welfare to which in the judgment of the operating department the child should be admitted.

The expenses of the instruction and support actually rendered or furnished to such children with special needs, including their necessary travelling expenses, whether daily or otherwise, but not exceeding ordinary and reasonable compensation therefor, may be paid by the commonwealth; but the department shall issue regulations jointly with the departments of mental health, public health, youth services and public welfare defining the circumstances in which the commonwealth shall bear all or part of such cost, the circumstances in which school committees shall be required to bear part or all of such cost, and the circumstances in which a parent or guardian may be required to reimburse the commonwealth for part or all of such cost; provided, however, that in no event shall the cost to the school committee for placement under this section be less than the average per pupil cost for pupils of comparable age within the city, town or school district; and, provided further, that in determining the cost to the parent or guardian, if any, no charge shall be made for any educational cost but only for support and care. In determining the cost to the parent or guardian the department shall apply criteria which take into account relative ability to pay.

The department shall direct and supervise the education of all such children, and the commissioner of education shall state in his annual report their number, the cost of their instruction and support, the manner in which the money appropriated therefor has been expended, to what extent reimbursed and such other information as he deems important.

Nothing contained herein shall affect the continued authority of the departments of mental health and public health over all non-educational programs and all treatment for residents or patients in institutions under their control.

Section 11. The department is hereby authorized to cooperate with cities and towns which establish recreation programs for school age children with special needs.

Such programs shall be under the direction and approval of the division of special education, and the department shall reimburse said cities

and towns for one half of the cost thereof, including transportation of said children to and from the site of such program on each day said program is held. The department shall also fully reimburse a city or town in which said children are residents for the cost of transportation to and from recreation programs at any state facility whose recreation programs are approved by the department for the purposes of this section.

Section 12. The department shall establish and maintain a school department for school-age children in each institution under the control of the departments of mental health, public health and youth services which provides support and care for resident children with special needs, acting jointly with the department which has control over the particular institution; provided, however, that appropriations for the administration of said school departments shall be administered by the department of education.

Each such school department shall be administered by a director, appointed jointly by the commissioner of education and the superintendent of said institution.

Each such school department shall have such staff as the department and the department which administers the institution involved deem appropriate.

Such school departments shall operate pursuant to regulations established jointly by the department and the department which administers said institution. Nothing contained herein shall affect the continued authority of departments operating such institutions over all non-educational programs and all treatment for residents or patients in institutions under their control.

The director and staff of such school departments shall be employees of the department of education, which shall assume the costs of all aspects of the educational programs in such departments. Said school departments may operate twelve months of the year. The salaries of school department personnel shall be paid at a rate at least equivalent to that of the average statewide public school salaries for comparable personnel employed in the public schools, as adjusted to account for the longer school year in the school departments. The total employee benefits accruing to such personnel in vacation, sick leave, tenure, and retirement benefits shall be similarly comparable to those of public school personnel, as adjusted to account for the longer school year in the school departments. Nothing contained herein shall operate to remove from employment any educational personnel already employed by any institution now under the administration of the department of mental health, public health or youth services, or to reduce their salaries or other employee benefits.

The per capita expenditure on education programs in such school departments shall be equivalent to or higher than the average expenditure for special education programs in the public schools of the commonwealth less the average transportation costs. Said average expenditure shall be computed annually by the department of education.

The city, town or regional school district in which each school-age child in any institution described hereinabove would normally be eligible to attend school shall pay to the commonwealth the costs of the education of said child in the school department of said institution in an amount determined according to the regulations issued under section

ten; provided, however, that said payment for each such child shall not be less than its average per pupil cost for pupils of comparable age within the said city, town or school district. The amount due the commonwealth each year shall be deducted from the annual distribution to said city, town or school district pursuant to section eighteen A of chapter fifty-eight.

Section 13. The cost of instruction, training and support, including the cost of special education personnel, materials and equipment, tuition, transportation, rent and consultant services, of the children in special classes, instruction periods or other programs provided under section three shall, for the amount by which such costs exceed the average per pupil expenditure of the city, town or school district for the education of children of comparable age, be reimbursed by the commonwealth to the city, town or school district as provided in section eighteen A of chapter fifty-eight; provided however, that the amount of such reimbursement for each special education pupil in the city, town or school district shall not exceed one hundred and ten per cent of the applicable state average expenditure for each special education pupil minus the state average expenditure per public school pupil. In determining the applicable state average expenditure for each special education pupil for the purposes of this section the department shall differentiate between types of programs on the basis of the amount of time a child requires special programs outside of the regular classroom to meet his particular needs and the ratio of personnel to pupils required for such programs. Such reimbursement shall be made only after approval and certification by the department that such expenditures are reasonable and that funds for such special education personnel, materials and equipment, tuition, transportation, rent and consultant services were actually expended and that such special education classes, instruction periods and other programs have met the standards and requirements prescribed by the department. The costs for each special education pupil shall be "reimbursable expenditures" within the meaning of chapter seventy, in an amount not to exceed the average per pupil expenditure for said city, town, or school district, and shall be reimbursed under said chapter.

The department shall reimburse a city or town in which a child resides who attends a clinical nursery school established under section twenty-seven of chapter nineteen or a child, who, because of insufficient classroom space in a clinical nursery school, attends a clinical nursery school, day care center or other institution for the care, education or treatment of retarded children conducted by an accredited school or college within the commonwealth, as provided in said section twenty-seven, or a retarded person who attends an educational, habilitational or day care program or facility of the department of mental health, as provided under section twenty-eight of said chapter nineteen, by paying one half of the cost of the transportation of each such child and the full cost of each such adult to and from such educational, habilitational or day care program or facility, as the case may be, one each day said school is in session.

Any reimbursements made to cities and towns under this section shall be made to the school committees of such cities and towns and shall be applied to the costs of programs provided for under this chapter without further appropriation.

Section 14. The state treasurer shall annually, on or before November twentieth, pay, under paragraph (3) of subsection (b) of section eighteen A of chapter fifty-eight, to any city or town or regional school district such sums as may be certified by the commissioner of education on account of special equipment purchased, leased and maintained or of classes or special instruction periods conducted as provided in section two.

SECTION 12. The first sentence of section 1 of chapter 76 of the General Laws, as amended by chapter 400 of the acts of 1950, is hereby further amended by inserting in line 22 after the word, "impracticable," the words, "subject to the provisions of section three of chapter seventy-one B".

SECTION 13. Said chapter 76 is hereby amended by striking out section 11 and inserting in place thereof the following section: —

Section 11. Any city or town which provides instruction to any child who is a resident of an institution and who was not theretofore a resident of such city or town may recover from the commonwealth the school expense incurred by reason of the school attendance of such child to be determined jointly by the school committee of such city or town and the department of education or, in case of their disagreement, by the probate court. The amount recoverable by a city or town under this section shall be limited to the annual per pupil cost of education as determined under section seven and no costs shall be reimbursed under this section which are reimbursable under section thirteen of chapter seventy-one B.

SECTION 14. The definition of "approved school projects" in section 5 of chapter 645 of the acts of 1948 is hereby amended by inserting after the second sentence the following sentence: — No school construction project shall be an approved school project unless and until the school building assistance bureau and the division of special education in the department of education are satisfied that adequate provisions have been made for children with special needs as defined in section one of chapter seventy-one B of the General Laws.

SECTION 15. The secretaries of the executive offices of human services and education shall jointly submit an annual report to the governor and the general court evaluating the success with which the departments under their administration have cooperated in the implementation of this act together with any recommendations for improving the ability of the commonwealth to meet the needs of children with special needs.

SECTION 16. A child who is in a special education program as of the effective date of this act shall be presumed to be appropriately assigned to said program until an evaluation pursuant to the provisions of section three of chapter seventy-one B of the General Laws, inserted by section eleven of this act, indicates that another program would benefit said child more.

SECTION 17. No child with special needs in a special education program on the effective date of this act shall be removed from said program he is in without the written consent of the parents, guardians, or persons with custody of said child.

SECTION 18. A school committee shall not be responsible for more than the average per pupil cost for pupils of comparable age within the respective city, town or school district as its share of the cost of con-

tinuing placement for those children with special needs enrolled in an institution with his tuition paid by the commonwealth as of the effective date of this act.

SECTION 19. Departments issuing regulations pursuant to chapter seventy-one B of the General Laws, inserted by section eleven of this act, shall make such regulations available at least six months prior to the effective date of the act for review by a committee appointed by the board of education for such purpose. Said committee shall be representative of the several types of institutions now serving children with special needs, both public and private, and shall include members experienced in providing educational services to the several existing categories of special needs. Said committee shall further include members who are parents of children with special needs, both in public programs and private programs, members who are regular classroom teachers, members who are teachers primarily of children with special needs and members representing any other groups directly affected by this act or having expertise in the implementation of programs for children with special needs. Said committee shall include for each statutory category of children with special needs on the effective date of this act at least one member knowledgeable and experienced in working with such category of children.

SECTION 20. The members of a regional special education advisory council, established by section two of this act, first created shall consist of five members appointed for a one year term, five members appointed for a two year term, and six members appointed for a three year term.

SECTION 21. The amount reimbursed to a city, town or school district under section thirteen of chapter seventy-one B of the General Laws, inserted by section eleven of this act, combined with reimbursements for special education programs under chapter seventy of the General Laws shall not be less than reimbursements for special education programs received for the fiscal year nineteen hundred and seventy-four, until and unless said city, town or school districts qualifies for a lesser amount after September first, nineteen hundred and seventy-nine.

SECTION 22. The provisions of this act are severable and if any provision shall be held unconstitutional by any court of competent jurisdiction, the decisions of such court shall not affect or impair any of the remaining provisions.

SECTION 23. This act shall take effect on September first, nineteen hundred and seventy-four. *Approved July 17, 1972.*

Chap. 772. AN ACT PROVIDING FOR THE REGULATION OF DEALERS' AGREEMENTS FOR THE SALE OF GASOLINE.

Be it enacted, etc., as follows:

The General Laws are hereby amended by inserting after chapter 93D the following chapter: —

CHAPTER 93E.

REGULATION OF DEALERS' AGREEMENTS FOR THE SALE OF GASOLINE.

Section 1. For the purpose of this chapter, the following words shall, unless the context otherwise requires, have the following meanings: —

"Supplier", any person engaged in the sale, consignment or distribution of petroleum products to retail outlets.

"Dealer", any person who is not a petroleum supplier, engaged in the retail sale of gasoline to the motoring public in the commonwealth under written agreements entered into with a petroleum supplier.

"Agreement", means written agreements between a petroleum supplier and a gasoline dealer under which the gasoline dealer is granted the right to use a trademark, trade name, service mark or other identifying symbol or name owned by the petroleum supplier.

Section 2. This chapter shall apply to agreements pertaining to the sale of gasoline and related products when (*a*) more than twenty percent of the dealer's gross sales are covered by such agreement and (*b*) such gross sales covered by such agreement are more than twenty-five thousand dollars yearly.

Section 3. A supplier shall disclose in writing to any prospective dealer the following information, before any agreement is concluded: —

(*a*) The gallonage volume history, if any, of the location under negotiation for and during the three year period immediately past or for the entire period which the location has been supplied by the supplier, whichever is shorter.

(*b*) The name and last known address of the previous dealer or dealers for the last three years, or for and during the entire period which the location has been supplied by the petroleum supplier, whichever is shorter, and the reason or reasons for the termination of each dealer agreement.

(*c*) Any legally binding commitments for the sale, demolition or other disposition of the location.

(*d*) The training programs, if any, and the specific goods and services the supplier will provide for and to the gasoline dealer.

(*e*) Full disclosure of any and all obligations which will be required of the dealer, including but not limited to, any obligation to exclusively deal in any of the products of the supplier, its subsidiaries or any other company or any advertising and promotional items that the dealer must accept.

(*f*) Full disclosure of all restrictions on the sale, transfer, renewal and termination of the agreement.

Section 4. In the event of any termination, cancellation or failure to renew, whether by mutual agreement or otherwise, a supplier shall make or cause to be made an offer in good faith to repurchase from the dealer at then current wholesale prices any and all merchantable prod-

ucts purchased by said dealer from the petroleum supplier, provided however, that in such event the petroleum supplier shall have the right to apply the proceeds against any existing indebtedness owed to him by the dealer and further provided that such repurchased obligation is conditioned upon there being no other claims or liens against such products by or on behalf of other creditors of the dealer.

Section 5. It shall be unlawful for a supplier to: —

(*a*) Cancel or terminate an ageement prior to its expiration date unless the dealer has defaulted under any term, condition or obligation set forth in his agreement,

(*b*) Fail to renew an agreement without giving the dealer written notice of the election not to renew at least sixty days prior to the expiration of the agreement. Such failure to renew shall be for cause, and shall include, but not be limited to, grounds for cancellation or termination under subsection (*a*).

Section 6. No supplier shall hinder, coerce or threaten any dealer for the purpose of preventing him from joining any trade association made up of dealers.

Section 7. A dealer may bring an action for damages sustained as a result of (1) failure to make such disclosures as are required in section three; or (2) failure to make an offer in good faith to repurchase as required in section four; or (3) wrongful termination of or failure to renew his agreement as set forth in section five; or (4) any violation of section six. This remedy is in addition to all other remedies available under contract or provided by law. If the court finds that the violation of this chapter has been willful the court may allow reasonable attorney fees.

Chap. 774. AN ACT EXPEDITING PAYMENTS TO GENERAL CONTRACTORS AND TO SUBCONTRACTORS AND IMPROVING THE FLOW OF FUNDS IN THE CONSTRUCTION INDUSTRY.

Be it enacted, etc., as follows:

SECTION 1. Section 20A of chapter 29 of the General Laws is hereby amended by striking out the last paragraph, inserted by chapter 868 of the acts of 1969.

SECTION 2. Chapter 30 of the General Laws is hereby amended by striking out section 39F and inserting in place thereof the following section: —

Section 39F. (1) Every contract awarded pursuant to sections forty-four A to L, inclusive, of chapter one hundred and forty-nine shall contain the following subparagraphs (a) through (i) and every contract awarded pursuant to section thirty-nine M of chapter thirty shall contain the following subparagraphs (a) through (h) and in each case those

subparagraphs shall be binding between the general contractor and each subcontractor.

(a) Forthwith after the general contractor receives payment on account of a periodic estimate, the general contractor shall pay to each subcontractor the amount paid for the labor performed and the materials furnished by that subcontractor, less any amount specified in any court proceedings barring such payment and also less any amount claimed due from the subcontractor by the general contractor.

(b) Not later than the sixty-fifth day after each subcontractor substantially completes his work in accordance with the plans and specifications, the entire balance due under the subcontract less amounts retained by the awarding authority as the estimated cost of completing the incomplete and unsatisfactory items of work, shall be due the subcontractor; and the awarding authority shall pay that amount to the general contractor. The general contractor shall forthwith pay to the subcontractor the full amount received from the awarding authority less any amount specified in any court proceedings barring such payment and also less any amount claimed due from the subcontractor by the general contractor.

(c) Each payment made by the awarding authority to the general contractor pursuant to subparagraphs (a) and (b) of this paragraph for the labor performed and the materials furnished by a subcontractor shall be made to the general contractor for the account of that subcontractor; and the awarding authority shall take reasonable steps to compel the general contractor to make each such payment to each such subcontractor. If the awarding authority has received a demand for direct payment from a subcontractor for any amount which has already been included in a payment to the general contractor or which is to be included in a payment to the general contractor for payment to the subcontractor as provided in subparagraphs (a) and (b), the awarding authority shall act upon the demand as provided in this section.

(d) If, within seventy days after the subcontractor has substantially completed the subcontract work, the subcontractor has not received from the general contractor the balance due under the subcontract including any amount due for extra labor and materials furnished to the general contractor, less any amount retained by the awarding authority as the estimated cost of completing the incomplete and unsatisfactory items of work, the subcontractor may demand direct payment of that balance from the awarding authority. The demand shall be by a sworn statement delivered to or sent by certified mail to the awarding authority, and a copy shall be delivered to or sent by certified mail to the general contractor at the same time. The demand shall contain a detailed breakdown of the balance due under the subcontract and also a statement of the status of completion of the subcontract work. Any demand made after substantial completion of the subcontract work shall be valid even if delivered or mailed prior to the seventieth day after the subcontractor has substantially completed the subcontract work. Within ten days after the subcontractor has delivered or so mailed the demand to the awarding authority and delivered or so mailed a copy to the general contractor, the general contractor may reply to the demand. The reply shall be by a sworn statement delivered to or sent by certified mail to the awarding authority and a copy shall be delivered to or sent by certified mail to the subcontractor at the same time. The

reply shall contain a detailed breakdown of the balance due under the subcontract including any amount due for extra labor and materials furnished to the general contractor and of the amount due for each claim made by the general contractor against the subcontractor.

(e) Within fifteen days after receipt of the demand by the awarding authority, but in no event prior to the seventieth day after substantial completion of the subcontract work, the awarding authority shall make direct payment to the subcontractor of the balance due under the subcontract including any amount due for extra labor and materials furnished to the general contractor, less any amount (i) retained by the awarding authority as the estimated cost of completing the incomplete or unsatisfactory items of work, (ii) specified in any court proceedings barring such payment, or (iii) disputed by the general contractor in the sworn reply; provided, that the awarding authority shall not deduct from a direct payment any amount as provided in part (iii) if the reply is not sworn to, or for which the sworn reply does not contain the detailed breakdown required by subparagraph (d). The awarding authority shall make further direct payments to the subcontractor forthwith after the removal of the basis for deductions from direct payments made as provided in parts (i) and (ii) of this subparagraph.

(f) The awarding authority shall forthwith deposit the amount deducted from a direct payment as provided in part (iii) of subparagraph (e) in an interest-bearing joint account in the names of the general contractor and the subcontractor in a bank in Massachusetts selected by the awarding authority or agreed upon by the general contractor and the subcontractor and shall notify the general contractor and the subcontractor of the date of the deposit and the bank receiving the deposit. The bank shall pay the amount in the account, including accrued interest, as provided in an agreement between the general contractor and the subcontractor or as determined by decree of a court of competent jurisdiction.

(g) All direct payments and all deductions from demands for direct payments deposited in an interest-bearing account or accounts in a bank pursuant to subparagraph (f) shall be made out of amounts payable to the general contractor at the time of receipt of a demand for direct payment from a subcontractor and out of amounts which later become payable to the general contractor and in the order of receipt of such demands from subcontractors. All direct payments shall discharge the obligation of the awarding authority to the general contractor to the extent of the such payment.

(h) The awarding authority shall deduct from payments to a general contractor amounts which, together with the deposits in interest-bearing accounts pursuant to subparagraph (f), are sufficient to satisfy all unpaid balances of demands for direct payment received from subcontractors. All such amounts shall be earmarked for such direct payments, and the subcontractors shall have a right in such deductions prior to any claims against such amounts by creditors of the general contractor.

(i) If the subcontractor does not receive payment as provided in subparagraph (a) or if the general contractor does not submit a periodic estimate for the value of the labor or materials performed or furnished by the subcontractor and the subcontractor does not receive payment for same when due less the deductions provided for in subparagraph (a), the

subcontractor may demand direct payment by following the procedure in subparagraph (d) and the general contractor may file a sworn reply as provided in that same subparagraph. A demand made after the first day of the month following that for which the subcontractor performed or furnished the labor and materials for which the subcontractor seeks payment shall be valid even if delivered or mailed prior to the time payment was due on a periodic estimate from the general contractor. Thereafter the awarding authority shall proceed as provided in subparagraph (e), (f), (g) and (h).

(2) Any assignment by a subcontractor of the rights under this section to a surety company furnishing a bond under the provisions of section twenty-nine of chapter one hundred forty-nine shall be invalid. The assignment and subrogation rights of the surety to amounts included in a demand for direct payment which are in the possession of the awarding authority or which are on deposit pursuant to subparagraph (f) of paragraph (1) shall be subordinate to the rights of all subcontractors who are entitled to be paid under this section and who have not been paid in full.

(3) "Subcontractor" as used in this section (i) for contracts awarded as provided in sections forty-four A to forty-four L, inclusive, of chapter one hundred forty-nine shall mean a person who files a sub-bid and receives a subcontract as a result of that filed sub-bid or who is approved by the awarding authority in writing as a person performing labor or both performing labor and furnishing materials pursuant to a contract with the general contractor, (ii) for contracts awarded as provided in paragraph (a) of section thirty-nine M of chapter thirty shall mean a person approved by the awarding authority in writing as a person performing labor or both performing labor and furnishing materials pursuant to a contract with the general contractor, and (iii) for contracts with the commonwealth not awarded as provided in sections forty-four A to forty-four L, inclusive, of chapter one hundred forty-nine shall also mean a person contracting with the general contractor to supply materials used or employed in a public works project for a price in excess of five thousand dollars.

(4) A general contractor or a subcontractor shall enforce a claim to any portion of the amount of a demand for direct payment deposited as provided in subparagraph (f) of paragraph 1 by a petition in equity in the superior court against the other and the bank shall not be a necessary party. A subcontractor shall enforce a claim for direct payment or a right to require a deposit as provided in subparagraph (f) of paragraph 1 by a petition in equity in the superior court against the awarding authority and the general contractor shall not be a necessary party. Upon motion of any party the court shall advance for speedy trial any petition filed as provided in this paragraph. Sections fifty-nine and fifty-nine B of chapter two hundred thirty-one shall apply to such petitions. The court shall enter an interlocutory decree upon which execution shall issue for any part of a claim found due pursuant to sections fifty-nine and fifty-nine B and, upon motion of any party, shall advance for speedy trial the petition to collect the remainder of the claim. Any party aggrieved by such interlocutory decree shall have the right to appeal therefrom as from a final decree. The court shall not consolidate for trial the petition of any subcontractor with the petition of one or more subcontractors or the same general contract unless the court finds that a

substantial portion of the evidence of the same events during the course of construction (other than the fact that the claims sought to be consolidated arise under the same general contract) is applicable to the petitions sought to be consolidated and that such consolidation will prevent unnecessary duplication of evidence. A decree in any such proceeding shall not include interest on the disputed amount deposited in excess of the interest earned for the period of any such deposit. No person except a subcontractor filing a demand for direct payment for which no funds due the general contractor are available for direct payment shall have a right to file a petition in court of equity against the awarding authority claiming a demand for direct payment is premature and such subcontractor must file the petition before the awarding authority has made a direct payment to the subcontractor and has made a deposit of the disputed portion as provided in part (iii) of subparagraph (e) and in subparagraph (f) of paragraph (1).

(5) In any petition to collect any claim for which a subcontractor has filed a demand for direct payment the court shall, upon motion of the general contractor, reduce by the amount of any deposit of a disputed amount by the awarding authority as provided in part (iii) of subparagraph (e) and in subparagraph (f) of paragraph (1) any amount held under a trustee writ or pursuant to a restraining order or injunction.

SECTION 3. The first paragraph of section 39G of chapter 30 of the General Laws, as most recently amended by section 1 of chapter 461 of the acts of 1972, is hereby further amended by striking out the last sentence and by inserting in place thereof the following sentence: — The contracting authority shall deduct and retain from payment of said final estimate a sum sufficient to satisfy all demands for direct payment filed by subcontractors under the provisions of section thirty-nine F of this chapter but no contract subject to the provisions of section thirty-nine F shall contain any other provision authorizing the awarding authority to deduct or retain any sums by virtue of claims asserted against the contractor by subcontractors, material suppliers or others.

SECTION 4. Said chapter 30 is hereby amended by adding after section 39M the following section: —

Section 39N. Every contract subject to section forty-four A of chapter one hundred and forty-nine or subject to section thirty-nine M of chapter thirty shall contain the following paragraph in its entirety and an awarding authority may adopt reasonable rules or regulations in conformity with that paragraph concerning the filing, investigation and settlement of such claims:

If, during the progress of the work, the contractor or the awarding authority discovers that the actual subsurface or latent physical conditions encountered at the site differ substantially or materially from those shown on the plans or indicated in the contract documents either the contractor or the contracting authority may request an equitable adjustment in the contract price of the contract applying to work affected by the differing site conditions. A request for such an adjustment shall be in writing and shall be delivered by the party making such claim to the other party as soon as possible after such conditions are discovered. Upon receipt of such a claim from a contractor, or upon its own initiative, the contracting authority shall make an investigation of such physical conditions, and, if they differ substantially or materially from those shown on the plans or indicated in the contract documents

or from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the plans and contract documents and are of such a nature as to cause an increase or decrease in the cost of performance of the work or a change in the construction methods required for the performance of the work which results in an increase or decrease in the cost of the work, the contracting authority shall make an equitable adjustment in the contract price and the contract shall be modified in writing accordingly.

SECTION 5. Section 29 of chapter 149 of the General Laws is hereby amended by striking out the second, third and fourth paragraphs and inserting in place thereof the following five paragraphs: —

In order to obtain the benefit of such bond for any amount claimed due and unpaid at any time, any claimant having a contractual relationship with the contractor principal furnishing the bond, who has not been paid in full for any amount claimed due for the labor, materials, equipment, appliances or transportation included in the paragraph (1) coverage within sixty-five days after the due date for same, shall have the right to enforce any such claim (a) by filing a petition in equity within one year after the day on which such claimant last performed the labor or furnished the labor, materials, equipment, appliances or transportation included in the claim and (b) by prosecuting the claim thereafter by trial in the superior court to final adjudication and execution for the sums justly due the claimant as provided in this section.

Any claimant having a contractual relationship with a subcontractor performing labor or both performing labor and furnishing materials pursuant to a contract with the general contractor but no contractual relationship with the contractor principal furnishing the bond shall have the right to enforce any such claim as provided in subparagraphs (a) and (b) of paragraph (2) only if such claimant gives written notice to the contractor principal within sixty-five days after the day on which the claimant last performed the labor or furnished the labor, materials, equipment, appliances or transportation included in the paragraphs (1) coverage, stating with substantial accuracy the amount claimed, the name of the party for whom such labor was performed or such labor, materials, equipment, appliances or transportation were furnished; provided, that any such claimant shall have the right to enforce any part of a claim covering specially fabricated material included in the paragraph (1) coverage only if such claimant has given the contractor principal written notice of the placement of the order and the amount thereof not later than twenty days after receiving the final approval in writing for the use of the material. The notices provided for in this paragraph (3) shall be served by mailing the same by registered or certified mail postage prepaid in an envelope addressed to the contractor principal at any place at which the contractor principal maintains an office or conducts his business, or at the contractor principal's residence, or in any manner in which civil process may be served.

Upon motion of any party, the court shall advance for speedy trial a petition to enforce a claim pursuant to this section. Sections fifty-nine and fifty-nine B of chapter two hundred thirty-one shall apply to petitions to enforce claims pursuant to this section. The court shall enter an interlocutory decree upon which execution shall issue for any part of a claim found due pursuant to said sections fifty-nine or fifty-nine B and shall, upon motion of any party, advance for speedy trial the

petition to enforce the remainder of the claim. Any party aggrieved by such interlocutory decree shall have the right to appeal therefrom as from a final decree. The court shall not consolidate for trial the petition of any claimant under this section with the petition of one or more other claimants on the same bond, unless the court finds that a substantial portion of the evidence of the same events during the course of construction (other than the fact that the claims sought to be consolidated arise under the same general contract) is applicable to the petitions sought to be consolidated, and that such consolidation will prevent unnecessary duplication of evidence.

The court shall not dismiss any petition on the ground that it was filed before the sixty-fifth day after the day the claimant last performed the labor or furnished the labor, materials, equipment, appliances or transportation included in the claim, nor shall the court dismiss any petition on the ground that a claim involves more than one contract with the same party and that the one year period has elapsed as to any one contract; provided, that the court shall not enter a decree upon any claim or part thereof prior to the seventieth day after the day the claimant last performed the labor or furnished the labor, materials, equipment, appliances or transportation included in the claim.

A decree in favor of any claimant under this section shall include reasonable legal fees based upon the time spent and the results accomplished as approved by the court and such legal fees shall not in any event be less than published rate of any recommended fee schedule of a state-wide bar association or of a bar association in which the office of counsel for claimant is located, whichever is higher.

SECTION 6. Section 2 of chapter 254 of the General Laws, as appearing in the Tercentenary Edition, is hereby amended by striking out, in line 8, the word "thereafter", — and by inserting after the word "furnish", in line 3 of the notice, as appearing in the Tercentenary Edition, the words: — or has furnished.

SECTION 7. Said chapter 254 is hereby further amended by striking out section 3 and inserting in place thereof the following section 3: —

(*a*) A municipality acting by and through an authority may finance pollution control facilities in the same manner provided by this chapter for industrial development facilities, in which event all provisions of this chapter which are applicable to industrial development facilities and to projects and industrial occupants shall apply to the pollution control facilities and the lessees thereof insofar as such provisions are apt, except as otherwise hereinafter provided.

(*b*) The requirements of clauses (e), (g), (i), and (k) of subsection (2) of section twelve shall not apply to projects for pollution control. It shall be necessary, however, that the state industrial finance board find that such a project will alleviate unemployment or the threat thereof in the municipality or provide security against future unemployment and lack of business opportunity in the municipality; that a substantial public benefit will result from the project and, in the case of pollution control facilities for water, the division of water pollution control in the department of natural resources, or, in the case of pollution control facilities for air, the commissioner of public health, has found that the project as designed is in furtherance of the purpose of abating or controlling water pollution or air pollution, as the case may be.

SECTION 3. Said chapter 40D is hereby further amended by adding after section 22 the following section: —

Section 23. A municipality acting by and through an authority in connection with a project for pollution control facilities financed or to be financed under this chapter may apply for and accept and use any grant, loan, or grant and loan of federal or state funds for such pollution control facilities. *Approved July 17, 1972.*

Chap. 776. AN ACT ESTABLISHING PROCEDURES FOR THE DETERMINATION BY THE DEPARTMENT OF PUBLIC HEALTH OF THE NEED TO EXPAND CERTAIN HEALTH CARE FACILITIES.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is, in part, to provide forthwith for the appropriate allocation of certain resources for the provision of health care services in the commonwealth, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public health, safety and convenience.

Be it enacted, etc., as follows:

SECTION 1. Chapter 6 of the General Laws is hereby amended by inserting after section 165 the following section: —

Section 166. There shall be within the executive office of human services a health facilities appeals board, hereinafter called the board, which shall make determinations on appeals filed pursuant to section twenty-five E of chapter one hundred and eleven. The board shall consist of five persons to be appointed for terms of three years by the governor, at least three of whom shall be consumers of health care services who are not officers or employees of, and do not bear any fiduciary relationship to a person or institution providing health care services. One such consumer member shall be a member of the bar of

the commonwealth and shall be designated by the governor to serve as chairman of the board. Persons appointed to the board shall be knowledgeable in matters pertaining to the delivery of health care services; and the governor, in making said appointments, shall consider any persons recommended to him for such purpose by the comprehensive health planning agencies established pursuant to sections three hundred and fourteen (a) and three hundred and fourteen (b) of the Federal Public Health Service Act.

Each member of the board shall be paid fifty dollars for each day spent in the performance of his duty, not to exceed six thousand dollars in any fiscal year, and shall be reimbursed for expenses actually and necessarily incurred in the discharge of his duties.

The board, subject to appropriation, may employ such persons, none of whom shall be subject to the provisions of chapter thirty-one or section nine A of chapter thirty, as may be required to discharge its responsibilities. Such persons may include, without limitation, hearing officers and persons experienced in serving as masters and auditors in the supreme judicial and superior courts.

SECTION 2. Section 16 of chapter 6A of the General Laws, inserted by section 3 of chapter 704 of the acts of 1969, is hereby amended by inserting after the words "health and welfare commission;", in lines 21 and 22, the words: — health facilities appeals board;.

SECTION 2A. Section 3 of chapter 17 of the General Laws, as most recently amended by section 38 of chapter 801 of the acts of 1963, is hereby further amended by striking out the first sentence and inserting in place thereof the following four sentences: — The public health council shall consist of the commissioner of public health as chairman and eight members appointed by the governor. Three of the appointed members shall be providers of health services, of whom two shall be physicians. Five of the appointed members shall be non-providers. For the purposes of this section "nonprovider" shall mean a person whose background and experience indicate that he is qualified to act in the board public interest, who, and whose spouse, parents, siblings or children, has no financial interest in a health care facility, who, and whose spouse, has no employment relationship to a health care facility, to a nonprofit service corporation established in accordance with chapters one hundred and seventy-six A to one hundred and seventy-six E, inclusive, nor to a corporation authorized to insure the health of individuals, and who, and whose spouse, is not licensed to practice medicine.

SECTION 3. Chapter 111 of the General Laws is hereby amended by inserting after section 25A the following six sections: —

Section 25B. In this section and sections twenty-five C to twenty-five G, inclusive, the following words shall have the following meanings: —

"Appropriate regional comprehensive health planning agency," the regional agency designated pursuant to the provisions of section three hundred and fourteen (b) the Federal Public Health Service Act, which has geographical jurisdiction of the area served by a health care facility.

"Construction", construction of a new health care facility; the alteration of, expansion of, making of major repairs to, remodeling of, renovation of or replacement of an existing health care facility; the initial, additional or replacement equipping of any such facility; the acquisition of consulting, architectural, and engineering services, and of site, when such acquisition is directed toward an undertaking sufficiently specific

to constitute part the subject matter of an application for determination of need under section twenty-five C.

"Department", the department of public health; provided, however, that no member of the public health council who is an owner, in whole or in part, an officer or an employee of a health care facility, or who bears any other fiduciary relationship to such a facility, shall participate in any decision which would substantially affect the facility to which he is related.

"Health care facility", a hospital, institution for the care of unwed mothers or clinic, as defined in section fifty-two; a long-term care facility, which is an infirmary maintained in a town, a convalescent or nursing home, a rest home or a charitable home for the aged, as defined in section seventy-one; a public medical institution, which is any medical institution, and, after December first, nineteen hundred and seventy-two, any institution for the mentally ill or retarded, supported in whole or in part by public funds, staffed by professional, medical and nursing personnel and providing medical care, in accordance with standards established through licensing, approval or certification for participation in the programs administered under Titles 18 and 19 of the Federal Social Security Act, by the department; and any part of such facilities; provided, however, that "health care facility" shall not include a facility operated by a religious group relying solely on spiritual means through prayer and healing and in which health care by or under the supervision of doctors of medicine, osteopathy, or dentistry is not provided.

"State comprehensive health planning agency", the agency designated pursuant to the provisions of section three hundred fourteen (a) of the Federal Public Health Service Act.

"Substantial capital expenditure", the expenditure of a sum of money, including an expenditure for the lease of capital equipment at the purchase value of such equipment, for construction of a health care facility which exceeds, or may reasonably be regarded as leading to an expenditure for construction in excess of, one hundred thousand dollars for an undertaking sufficiently specific to constitute the subject matter of an application for determination of need under section twenty-five C.

"Substantial change in services", a change in kind, rather than degree, of service as further defined by the department; provided, however, that any increase in bed capacity of more than four beds shall be a substantial change in service; and, provided further, that any decrease in the level of service offered by a nursing, convalescent or rest home, and any change in service provided by a hospital to persons who are not admitted as inpatients, which does not involve a substantial capital expenditure shall not be subject to the provisions of sections twenty-five C to twenty-five G, inclusive.

Section 25C. Notwithstanding any contrary provision of law, no person or agency of the commonwealth or any political subdivision thereof shall make substantial capital expenditures for construction of a health care facility or substantially change the services of such a facility unless there is a determination by the department that there is need therefor.

The department, in making any such determination, shall encourage appropriate allocation of private and public health care resources and the development of alternative or substitute methods of delivering

health care services so that adequate health care services will be made reasonably available to every person within the commonwealth at the lowest reasonable aggregate cost.

Applications for such determination shall be filed with the department, together with such other forms and information as shall be prescribed by, or acceptable to, the department. A duplicate copy of such application, together with supporting documentation therefor, shall be a public record and kept on file in the department. The department may require a public hearing on any such application. A reasonable fee, established by the department, shall be paid upon the filing of such application; provided, that in no event shall such fee exceed one tenth of one per cent of the capital expenditures, if any, proposed by the applicant.

Except in the case of an emergency situation determined by the department as requiring immediate action to prevent further damage to the public health or to a health care facility, the department shall not act upon an application for such determination unless (*a*) the application has been on file with the department for at least thirty days, (*b*) the state and appropriate regional comprehensive health planning agencies have been provided copies of such application and supporting documents and given reasonable opportunity to comment thereon, and (*c*) a public hearing has been held thereon when requested by the applicant, the state or appropriate regional comprehensive health planning agency, or any ten taxpayers of the commonwealth. The department may establish filing periods for such applications; and in such event shall not act only upon an individual application filed during such a period when such action would implicitly decide any other application filed during such period.

The department shall approve or disapprove, in whole or in part, or otherwise act upon every such application in a timely manner, but in any event within one hundred and twenty days after filing. Such determinations of need shall be made in writing, setting forth the reasons therefor, and, when any such determination is inconsistent with specific recommendations filed in a timely manner with the department by any person or group empowered to request a public hearing by clause (*c*) of the preceding paragraph, shall specifically discuss such inconsistent reasons. Every determination of need and the reasons therefor shall constitute a public record and be filed in the department.

The department shall stipulate the period during which a determination of need shall remain in effect, which in no event shall originally be longer than three years but which may be extended by the department for cause shown. Any such determination shall continue to be effective only upon the applicant (*a*) making reasonable progress toward completing the construction or substantial change in services for which need was determined to exist, (*b*) complying with all other provisions of law relating to the construction, licensure, and operation of health care facilities, and (*c*) complying with such further terms and conditions as the department reasonably shall require.

Section 25D. Every person, at least thirty days prior to making a public solicitation of funds or otherwise securing financing for construction of a health care facility or a substantial change in the services of a facility, shall file written notice of his intent to do so with the department. In the case of a solicitation of funds from the general public, the

department may require such person to file an application for a determination of need for such construction or substantial change in services and to postpone any such public solicitation of funds until such application has been acted upon by the department and such need has been found to exist; provided, however, that failure of the department to comment upon a notice of intent shall not be construed to constitute a determination that such need exists. Nothing in this section shall be construed to prohibit any person or agency subject to sections twenty-five C to twenty-five G, inclusive, from accepting gifts, and the provisions of this section shall not apply to any such solicitation or securing of financing where the undertaking to be funded is not sufficiently specific to constitute the subject matter of an application for determination of need under section twenty-five C.

Each agency of the commonwealth and its political subdivisions desiring to make substantial capital expenditure for construction of a health care facility or to substantially change the services of such a facility shall make application for determination of need therefor pursuant to section twenty-five C, and the department shall transmit a report of its determination thereon to the agencies empowered to recommend and to make appropriations of money for the applicant agency.

Section 25E. Any person or agency filing an application for determination of need or empowered to request a public hearing under the provisions of section twenty-five C, and aggrieved by the determination thereof may, within fourteen days after such determination, file an appeal to the health facilities appeals board established by section one hundred and sixty-six of chapter six. The appellant shall include with any such appeal a certificate stating that said appeal is not knowingly interposed for delay.

The board in considering any such appeal shall restrict itself to a review of materials on file with the department and to consideration of whether the determination appealed from was an abuse of discretion, without observance of procedure required by law or in violation of applicable provisions of law. In the event the board determines that the materials available to it are inadequate to allow the required consideration, it may order a hearing on the appeal. Such appeal shall be heard by the board or its designated hearing officer within thirty days after its filing. If the matter is heard by a hearing officer, such officer, within thirty days after hearing, shall submit a recommended decision, reasons therefor and a determination of each issue of fact or law incident to said recommended decision to the board. The board shall, within sixty days after filing of the appeal, issue a final decision, either denying the appeal, in which case said decision shall be subject to judicial review under the provisions of section fourteen of chapter thirty A to the extent they are not inconsistent with the provisions of this section, or order the matter remanded to the department for action consistent with the opinion of the board. All proceedings of the board shall be subject to the provisions of chapter thirty A to the extent they are not inconsistent with the provisions of this section.

Section 25F. The department and the health facilities appeals board are hereby authorized and directed to promulgate rules and regulations necessary for the implementation of sections twenty-five C to twenty-five G, inclusive.

Section 25G. The superior and supreme judicial courts shall have jurisdiction, upon request of the department, the appropriate regional comprehensive health planning agency, or of any ten taxpayers in the commonwealth to enforce the provisions of sections twenty-five C to twenty-five G, inclusive. Any violation of such provisions also shall constitute grounds for refusing to grant or renew, modifying or revoking the license of a health care facility or of any part thereof.

SECTION 4. All proceedings related to applications for determinations of need filed pursuant to chapter one thousand and eighty of the acts of nineteen hundred and seventy-one and pending before the department of public health immediately prior to the expiration date of said chapter shall, on the effective date of this act, continue unabated and be deemed to be commenced under and pending before said department under the provisions of sections twenty-five B to twenty-five G, inclusive, of chapter one hundred eleven of the General Laws, inserted by section three of this act; provided, however, that any such proceeding which relates to a transfer of ownership and does not involve a substantial capital expenditure or a substantial change in services as defined in said section twenty-five B, shall terminate on the expiration date of said chapter one thousand and eighty. All determinations of need granted and actions taken by said department under the provisions of said chapter one thousand and eighty shall remain in full force and effect and be deemed to be granted or taken under the provisions of said sections twenty-five B to twenty-five G, inclusive. Health care facility construction which was not subject to said chapter one thousand and eighty and was commenced prior to the effective date of this act may be completed without any determination of need therefor; provided, however, that any substantial capital expenditure for construction beyond the scope of the construction so commenced and any substantial change in services beyond the scope of those services, provision for which was made in said construction, shall be subject to the provisions of said sections twenty-five B to twenty-five G, inclusive, as so inserted. For the purposes of this section, substantial capital expenditure and substantial change in services shall be defined as in said section twenty-five B, as so inserted. Notwithstanding any other provision of this act, all such determinations and actions taken by said department under an instruction issued to said department by the governor on June seventh, nineteen hundred and seventy-two, to continue to accept and process applications for such determinations as if said chapter one thousand eighty had continued in effect beyond that date on which it had ceased to be effective, are hereby ratified and confirmed and shall remain in full force and effect.

SECTION 5. The first two members of the board established by section one hundred sixty-six of chapter six of the General Laws, inserted by section one of this act, shall be appointed for a term of one year, the third and fourth members for a term of two years, and the fifth member for a term of three years.

SECTION 5A. All members of the public health council, established by section three of chapter seventeen of the General Laws, as amended by section two A of this act, immediately prior to the effective date of this act shall continue in office for the remainder of their respective terms. The public health council, as redefined by said section two A, shall be deemed a continuation of said council as it existed immediately

prior to the effective date of this act. Of the two members added to the public health council by said section two A, one shall be appointed for a term of three years and one shall be appointed for a term of six years.

SECTION 6. This act shall take effect as of June first, nineteen hundred and seventy-two. *Approved July 18, 1972.*

Section 9. The commissioner shall establish a training academy in cooperation with the municipal police training council and using their facilities and programs where appropriate and such other courses or places of training as he deems necessary for the training of correction officers, other employees of the department, persons appointed as correction officer trainees in accordance with this section and, by agreement, officers of county correctional facilities. The commissioner may appoint as a correction officer trainee, for a period of full-time training including on-the-job training, any citizen of the commonwealth who meets the qualifications required of applicants for appointment to the position of correction officer. Appointment to the position of correction officer trainee shall not be subject to section nine A and nine B of chapter thirty, or chapter thirty-one, nor shall a correction officer trainee be entitled to any benefits of such laws or civil service rules. Such ap-

pointment may be terminated in accordance with such conditions as the commissioner may prescribe. A correction officer trainee shall receive such compensation and such leave with pay as the commissioner shall determine and shall be considered an employee of the commonwealth for the purposes of workman's compensation. Upon successful completion of training, a correction officer trainee shall be appointed, if a vacancy exists, to the position of provisional correction officer, provided there is no suitable civil service eligible list for correction officer.

A correction officer trainee shall not be subject to or entitled to the benefits of any retirement or pension law nor shall any deduction be made from his compensation for the purpose thereof; but a correction officer trainee who during the period of his training or provisional appointment status passes a competitive civil service examination for appointment to the department of correction and is appointed a permanent full-time correction officer shall have his trainee service considered as "creditable service" for purposes of retirement, provided he pays into the annuity savings fund of the retirement system such amount as the retirement board determines equal to that which he would have paid had he been a member of said retirement system during the period of his training.

In accordance with civil service laws and rules the division of civil service shall certify the names of applicants from an established list for correction officers to the commissioner who shall appoint said applicants as correction officers. Newly appointed correction officers who have not successfully completed training as correction officer trainees shall be assigned to a period of training as the commissioner shall prescribe. Notwithstanding any civil service law or rules, a correction officer must serve a probationary period of nine months before becoming a full-time permanent employee of the department. Time spent in training shall be considered a part of the probationary period.

Notwithstanding any provision of law to the contrary, but subject, however, to the provisions of section sixty of chapter one hundred and nineteen, no person who has been convicted of a felony, or who has been confined in any jail or house of correction, shall be appointed to any position in the department of correction unless the commissioner certifies that such appointment will contribute substantially to the work of the department, except that in no case shall such a person be appointed to the position of correction officer, superintendent, deputy superintendent, assistant superintendent, or any other position involving the regulation of state or county correctional facilities.

The commissioner may expend such sums as may be appropriated or otherwise received to maintain and operate the training academy and other training centers and programs and maintain trainees and employees during any period of training.

SECTION 10. The first paragraph of section 16 of said chapter 125, as amended by section 18 of chapter 868 of the acts of 1970, is hereby further amended by striking out the first sentence and inserting in place thereof the following sentence: — All females convicted of crimes in the courts of the commonwealth and sentenced to imprisonment or otherwise committed to the custody of the department shall be committed to the Massachusetts Correctional Institution, Framingham, or to such other correctional facility or facilities as the commissioner may from time to time designate as appropriate for the purpose.

SECTION 11. Chapter 127 of the General Laws is hereby amended by adding after section 1 the following two sections: —

Section 1A. In accordance with paragraphs (*d*) and (*q*) of section one of chapter one hundred and twenty-four the commissioner shall establish, and shall from time to time revise, minimum standards for the care and custody of all persons committed to county correctional facilities. Prior to establishing or revising such minimum standards the commissioner shall visit, consult with and receive the recommendations of the sheriffs of the several counties and the penal institutions commissioner of the city of Boston. The commissioner shall require from the sheriffs of the several counties and the penal institutions commissioner of the city of Boston periodic reports on the population, operation and conditions of all county correctional facilities.

The commissioner may provide consultation services for the design and construction of facilities, studies and surveys of programs and administration and any other technical assistance he deems proper and necessary. In cooperation with the county commissioners and administrators of each county, the commissioner may develop and administer programs of grants-in-aid or subsidies for any county correctional facility.

Section 1B. At least once each six months the commissioner or his delegate shall inspect each county correctional facility to determine compliance with minimum standards. The results of such inspections shall be summarized in the annual report of the commissioner to the general court. Personnel of the department shall be admitted to all county correctional facilities as required for the purposes of this section.

If, in the opinion of the commissioner, any county correctional facility does not comply with the standards established by him for county correctional facilities, the commissioner shall give notice of the alleged violation to the sheriff and the county commissioners of the county in which such facility is located except that in the case of Suffolk County House of Correction such notice shall be given to the penal institutions commissioner of the city of Boston. Said notice shall specify the particular standards that in the commissioner's opinion have not been met by such facility. The officials so notified shall have the right to be heard by the commissioner with regard to the alleged violation and shall have a reasonable period of time to remedy any such violation. If, in the opinion of the commissioner, the facility has not been brought into compliance with the aforesaid standards within a reasonable time from the date when notice of their violation is given, the commissioner may petition the Superior Court in equity in the county in which such facility is located for an order to close the facility or for other appropriate relief. The Superior Court shall have jurisdiction to enter such an order.

SECTION 12. Said chapter 127 is hereby further amended by striking out section 48, as amended by section 32 of chapter 770 of the acts of 1955, and the caption preceding it and inserting in place thereof the following caption and section: —

EDUCATION, TRAINING AND EMPLOYMENT PROGRAMS

Section 48. The commissioner shall establish and maintain education, training and employment programs for persons committed to the custody

of the department. The administrators of county correctional facilities shall establish and maintain such programs for persons committed to such facilities. Such programs shall include opportunities for academic education, vocational education, vocational training, other related pre-vocational programs and employment, and may be made available within correctional facilities or, subject to the restrictions set forth in sections forty-nine and eighty-six F, at other places approved by the commissioner or administrator. In determining which employment programs to establish and maintain under the authority of this section, the commissioner or administrator shall take into account, first, the training value of the program, second, the job market and employment conditions in the community and third, in the case of programs to be carried out within a correctional facility, the types of goods and services required by the commonwealth and its subdivisions.

The commissioner shall make and promulgate rules and regulations governing programs established under this section which shall include provisions for hours, conditions of employment, wage rates for employment program participants, incentive payments for education and training program participants, and deductions from said wages pursuant to the provisions of section eighty-six F.

SECTION 13. Said chapter 127 is hereby further amended by striking out section 49, as most recently amended by section 34 of chapter 770 of the acts of 1955, and inserting in place thereof the following two sections: —

Section 49. The commissioner of correction, subject to rules and regulations established in accordance with the provisions of this section, may permit an inmate who has served such a portion of his sentence or sentences that he would be eligible for parole within eighteen months to participate in education, training, or employment programs established under section forty-eight outside a correctional facility; provided that no committed offender who is serving a life sentence or a sentence in a state correctional facility for violation of section thirteen, thirteen B, fourteen, fifteen, fifteen A, fifteen B, sixteen, seventeen, eighteen, eighteen A, nineteen, twenty, twenty-one, twenty-two, twenty-two A, twenty-three, twenty-four, twenty-four B, twenty-five, or twenty-six of chapter two hundred and sixty-five, or section seventeen, thirty-four, thirty-five, or thirty-five A, of chapter two hundred and seventy-two, or for an attempt to commit any crime referred to in said sections shall be eligible to participate in education, training or employment programs outside a correctional facility, as established under section forty-eight, except on the recommendation of the superintendent on behalf of a particular committed offender and upon the approval of the commissioner.

In the case of a committed offender who participates in any program outside a correctional facility established under section forty-eight, the time spent in such participation shall be credited toward the serving of his sentence in the same manner as though he had served such time within the facility. A committed offender enrolled in any such program shall remain subject to the rules and regulations of the correctional facility and shall be under the direction, control and supervision of the officers thereof during the period of his participation in the program. The commissioner shall make and promulgate rules and regulations

regarding programs established under section forty-eight outside correctional facilities. Such rules and regulations shall include provisions for reasonable periods of confinement to particular correctional facilities before a committed offender may be permitted to participate in such programs and provisions for feeding, housing and supervising participants in such programs in such manner as will be calculated to maintain morale and prevent the introduction of contraband to the facility.

If any inmate who participates in any program outside a correctional facility established under the provisions of section forty-eight leaves his place of employment, or having been ordered by the commissioner to return to the correctional facility, neglects or refuses to do so, said inmate shall be held to have escaped from said prison or institution and shall, upon conviction of such escape, be sentenced to a state correctional facility for a term of not less than three years and not more than five years, and all deductions from the sentence or sentences he was serving at the time of such escape, authorized by section one hundred and twenty-nine, shall be forfeited, but said inmate shall be entitled to a deduction of sentence on any sentence imposed for said escape.

Committed offenders who are gainfully employed outside a correctional facility may be so employed by an agency of the commonwealth other than the department of correction or by public or private employers. The rates of pay and other conditions of employment for a committed offender so employed shall be the same as those paid or required in the locality in which the work is performed provided that no committed offender employed by an agency of the commonwealth shall be subject to sections nine A or nine B of chapter thirty, or chapter thirty-one, and in no case shall such rates of pay be less than those paid by his employer to other employees doing similar work. No committed offender shall be so employed at a place where there exists any strike or work stoppage arising from a labor dispute of any kind.

Section 49A. Before any inmate may be considered for participation in education, training, or employment programs established under section forty-eight outside a correctional facility, or in any other program outside a correctional facility exclusive of parole, he shall first demonstrate that he is responsible and deserving of these opportunities.

The commissioner shall establish, in each state correctional facility, one or more committees made up of representatives from all segments of department of corrections staff, especially correction officers. Said committees shall take the form of teams of five correctional staff members, appointed by the superintendent of the correctional facility, at least two of whom shall be correction officers.

Said committees shall evaluate the behavior and conduct of inmates within the prison. In evaluating an inmate's behavior and conduct within the prison, said committee shall interview the inmate, and shall have access to disciplinary reports and other appropriate records. After evaluating the inmate's behavior and conduct within the prison, said committee shall make a recommendation to the superintendent of the correctional facility as to whether or not the inmate shall be permitted to participate in any program outside a correctional facility, exclusive of parole. Said recommendation shall be made in writing, and shall include the vote of said committee in making said recommendation.

SECTION 14. Section sixty-seven A of said chapter one hundred and twenty-seven is hereby repealed.

SECTION 15. Section 68 of said chapter 127, as most recently amended by section 42 of chapter 770 of the acts of 1955, is hereby further amended by striking out, in lines 6 and 7, the words "sections sixty-seven and sixty-seven A, goods manufactured therein" and inserting in place thereof the words: — section sixty-seven, goods and services produced therein.

SECTION 16. Said chapter 127 is hereby further amended by striking out section 71, as most recently amended by chapter 180 of the acts of 1964, and inserting in place thereof the following section: —

Section 71. At least once each month all money received from the sale of products, by-products, or services of committed offenders shall be credited on the books of the commonwealth to a fund to be known as the Correctional Employment Fund. Subject to appropriation the commissioner may employ such fund to defray operating expenses of employment programs, including cost of materials, supplies, and equipment, maintenance of industrial facilities and compensation to committed offenders gainfully employed.

At the end of each fiscal year the unexpended balance remaining in the correctional employment fund of the state correctional facilities shall be transferred to the General Fund. At least once in each month the receipts from the labor of committed offenders in county correctional facilities and from charges for services rendered by a sheriff, master or deputy master of a county correctional facility to persons visiting such a facility shall be paid to the county. So much thereof as is necessary to pay the expenses of maintaining the industries in said county correctional facilities shall be expended from the county treasury for that purpose, but not until schedules of such expenses have been sworn to be the administrator and approved by the commissioner. Whenever, in the opinion of the administrator of a county correctional facility and the county commissioners and county treasurer, the accumulated funds in the county treasury from the receipts from the labor of committed offenders in county correctional facilities exceed the sums necessary to pay the expenses of maintaining the industries by which they were produced, the administrator of a county correctional facility and the county commissioners and the county treasurer shall direct that the surplus shall be transferred into the general revenue of the county. The administrator of a county correctional facility shall, as often as he has in his possession money to the amount of five thousand dollars received from the labor of committed offenders in such county correctional facility, pay it into the county treasury.

SECTION 17. Sections eighty-five, eighty-six, eighty-six D and eighty-six E of said chapter one hundred and twenty-seven are hereby repealed.

SECTION 18. Said chapter 127 is hereby further amended by striking out section 90A, as most recently amended by chapter 460 of the acts of 1970, and inserting in place thereof the following section: —

Section 90A. The commissioner may extend the limits of the place of confinement of a committed offender at any state correctional facility by authorizing such committed offender under prescribed conditions to be away from such correctional facility but within the commonwealth for a specified period of time, not to exceed fourteen days during any

twelve month period nor more than seven days at any one time; provided that no committed offender who is serving a life sentence or a sentence in a state correctional facility for violation of section 13, 13B, 14, 15, 15A, 15B, 16, 17, 18, 18A, 19, 20, 21, 22, 22A, 23, 24, 24B, 25, or 26 of chapter 265, or section 17, 34, 35, or 35A, of Chapter 272, or for an attempt to commit any crime referred to in said sections shall be eligible for temporary release under the provisions of this section except on the recommendation of the superintendent on behalf of a particular committed offender and upon the approval of the commissioner. The administrator of a county correctional facility may grant like authorization to a committed offender in such facility. Such authorization may be granted for any of the following purposes: (*a*) to attend the funeral of a relative; (*b*) to visit a critically ill relative; (*c*) to obtain medical, psychiatric, psychological or other social services when adequate services are not available at the facility and cannot be obtained by temporary placement in a hospital under sections one hundred and seventeen, one hundred and seventeen A, and one hundred and eighteen; (*d*) to contact prospective employers; (*e*) to secure a suitable residence for use upon release on parole or discharge; (*f*) for any other reason consistent with the reintegration of a committed offender into the community. For the purposes of this section the word "relative" shall mean the committed offender's father, mother, child, brother, sister, husband or wife and, if his grandparent, uncle, aunt or foster parent acted as his parent in rearing such committed offender, it shall also mean such grandparent, uncle, aunt or foster parent.

A person away from a correctional facility pursuant to this section may be accompanied by an employee of the department, in the discretion of the commissioner, or an officer of a county correctional facility, in the discretion of the administrator.

Any expenses incurred under the provisions of this section may be paid by the correctional facility in which the committed offender is committed. A committed offender shall, during his absence from a correctional facility under this section, be considered as in the custody of the correctional facility and the time of such absence shall be considered as part of the term of sentence. *Approved July 18, 1972.*

SECTION 1. Notwithstanding the provisions of section fifteen of chapter thirty-one of the General Laws, an appointment to a position subject to said chapter may be made to a position in the lowest job group or grade within each class of positions as determined by the director of civil service, provided the appointee has successfully completed a work-training program for disadvantaged persons. The secretary of the executive office of manpower affairs shall certify which work-training programs meet the qualifications and work specifications of the positions under civil service and the bureau of personnel, and which adequately prepare the trainee to perform the duties of said positions and shall

furnish a list of the positions to the director of civil service; provided that such training programs shall have been advertised to the public and such training programs made available to permanent employees of the commonwealth and its political subdivisions who meet the criteria for disadvantaged persons as hereinafter stated, and such training programs shall have been registered or listed with the division of employment security and shall have been sponsored or conducted by or in cooperation with the commonwealth, a political subdivision thereof or the federal government. Prior to appointment under this act, persons so trained shall have passed an examination for the position administered by the director of civil service.

If more than one person eligible for an appointment under this act shall satisfactorily pass the examination, the names of such disadvantaged persons shall be placed in the order of their passing grade subject to section twenty-three of chapter thirty-one of the General Laws upon an eligible list hereafter called a special eligible list.

When an eligible list already exists for the position for which such exam has been given, the director shall certify names alternately from such eligible list and the special eligible list until the required number of eligibles is certified, provided that persons on such list shall be grouped according to the provisions of chapter thirty-one of the General Laws, and that nothing in this act shall change the provisions of section fifteen of said chapter thirty-one as they apply to promotional exams. Names from a departmental promotional list shall be certified before names from such special list referred to herein.

For the purpose of this act, a disadvantaged person shall be a person whose annual net income, in relation to family size and location, does not exceed low-income guidelines established by the federal government or who does not have suitable employment, and is a person who does not have a high school education or its equivalent, a member of a minority group, a person under twenty-one years of age or forty-five years of age or older, or a handicapped person; provided that a state or municipal employee who does not have a high school education or its equivalent, a member of a minority group, a person under twenty-one years of age or forty-five years of age or older, or a handicapped person shall not be barred from consideration as a disadvantaged person by reason of his receiving a salary from the commonwealth.

The provisions of this act shall not apply to police services positions or fire fighters.

The bureau of personnel shall be available for assistance in designing a training program to meet state specifications of the positions for which persons referred to in this act are trained.

Chap. 781. AN ACT ESTABLISHING A DIVISION OF ENVIRONMENTAL PROTECTION WITHIN THE DEPARTMENT OF THE ATTORNEY GENERAL, AND DIRECTING THE PREPARATION OF ENVIRONMENTAL IMPACT REPORTS.

Be it enacted, etc., as follows:

SECTION 1. Chapter 12 of the General Laws is hereby amended by inserting after section 11C the following section: —

Section 11D. There shall be in the department of the attorney general a division of environmental protection. The attorney general shall designate an assistant attorney general as director of said division. Said director may appoint and remove, subject to the approval of the attorney general, such expert, clerical or other assistants as the work of the division may require.

The attorney general shall have the authority to prevent or remedy damage to the environment caused by any person, body corporate or politic or any agency, department, board, commission, division or authority of the commonwealth or any political subdivision thereof at the request of an appropriate agency or on his own initiative, by commencing or intervening in a proceeding before an appropriate agency, department, board, commission, division or authority, whether state or federal, and before any political subdivision of the commonwealth, or by commencing or intervening in any suit or action, civil or criminal, to enforce any statute, ordinance, by-law or regulation or to secure any common law right or remedy including, but not limited to, the abatement of public nuisances, provided, however, it shall be a defense to any action taken pursuant to this section that any such person is subject to, and in compliance in good faith with, a judicially enforceable administrative pollution abatement schedule or implementation plan the purpose of which is alleviation of damage to the environment.

Each agency, board, commission, division and authority of the com-

monwealth shall give written notice to the attorney general of all adjudicatory proceedings or public hearings in which damage to the environment is or may be at issue.

As used in this section, "damage to the environment" shall mean any destruction, damage or impairment, actual or probable, to any of the natural resources in the commonwealth and shall include, but shall not be limited to, air pollution, water pollution, improper sewage disposal, pesticide pollution, excessive noise, improper operation of dumping grounds, or the impairment or eutrophication of rivers, streams, flood plains, lakes, ponds or other surface or subsurface water resources, destruction of seashores, dunes, marine resources, wetlands, open spaces, natural areas, parks or historic districts or sites. Damage to the environment shall not include any insignificant destruction, damage or impairment to such natural resources.

The attorney general shall receive and maintain appropriate records of complaints from interested persons relating to damage to the environment, and upon the receipt thereof shall refer the same to an appropriate agency or subdivision of the commonwealth for such further corrective action as may be necessary to prevent or remedy damage to the environment.

The attorney general may investigate the administration of environmental statutes, ordinances or regulations by an agency, department, board, commission, division or authority of the commonwealth or of any political subdivision thereof and may make such recommendations as are appropriate to the governor and to the general court.

Nothing in this section shall be interpreted to derogate from any existing common law or statutory right or remedy against damage to the environment.

SECTION 2. Chapter 30 of the General Laws is hereby amended by inserting after section 60, the following two sections: —

Section 61. All agencies, departments, boards, commissions and authorities of the commonwealth shall review, evaluate, and determine the impact on the natural environment of all works, projects or activities conducted by them and shall use all practicable means and measures to minimize damage to the environment. Unless a clear contrary intent is manifested, all statutes shall be interpreted and administered so as to minimize and prevent damage to the environment. Any determination made by an agency of the commonwealth shall include a finding describing the environmental impact, if any, of the project and a finding that all feasible measures have been taken to avoid or minimize said impact.

As used in this section and section sixty-two, "damage to the environment" shall mean any destruction, damage or impairment, actual or probable, to any of the natural resources of the commonwealth and shall include but not be limited to air pollution, water pollution, improper sewage disposal, pesticide pollution, excessive noise, improper operation of dumping grounds, impairment and eutrophication of rivers, streams, flood plains, lakes, ponds, or other surface or subsurface water resources; destruction of seashores, dunes, marine resources, wetlands, open spaces, natural areas, parks, or historic districts or sites. Damage to the environment shall not be construed to include any insignificant damage to or impairment of such resources.

Section 62. No agency, department, board, commission, or authority of the commonwealth or any authority of any political subdivision thereof shall commence any work, project, or activity which may cause damage to the environment until sixty days after it has published a final environmental impact report in accordance with the provision of this section or until sixty days after a public hearing on said report, provided that research, planning, design and other preliminary work necessary to describe and evaluate such project for the purposes of this section may be undertaken.

An environmental impact report shall contain detailed statements describing the nature and extent of the proposed work and its environmental impact; all measures being utilized to minimize environmental damage, any adverse short-term and long-term environmental consequences which cannot be avoided should the work be performed; and alternatives to the proposed action and their environmental consequences. The preparation of said report shall be commenced during the initial planning and design phase of any work, project, or activity subject to this section and the report shall be so prepared and disseminated as to inform the originating agency, reviewing agencies, the appropriate regional planning commission, the attorney general and the public of the environmental consequences of state actions and the alternatives thereto prior to any commitment of state funds and prior to the commencement of the work, project, or activity. All reviewing agencies, and any state agency, department, board, commission, division or authority which has jurisdiction by law or special expertise with respect to any environmental impact involved shall affix their written comments to the final impact report. In order to insure an interdisciplinary review, the secretary of environmental affairs shall in conjunction with any agency involved jointly approve the selection of any consultant engaged to prepare the draft or final impact report.

The secretaries of the executive offices shall each promulgate rules and regulations approved by the secretary of environmental affairs to carry out the purposes of this section which shall be applicable to all agencies, departments, boards, commissions, authorities or instrumentalities within each of such executive offices and which shall conform with the requirements of the National Environmental Policy Act Pub. Law 91–190, and amendments thereto. Any draft report, final report, and all written comments required by said regulations shall be public documents. Said reports shall be submitted to the secretary of environmental affairs who shall issue a written statement indicating whether or not in his judgment said reports adequately and properly comply with the provisions of this section.

For the purposes of carrying out the provisions of this section, funds made available for the purpose of design of or planning or performing said work, project, or activity shall be available and may be expended for the research, preparation, and publication of the reports required by this section and expenses incidental thereto, and said funds may be transferred or otherwise may be made available to other state departments and resource agencies designated by the secretary of environmental affairs for the purpose of meeting the expenses incurred in evaluating the draft or final impact report.

SECTION 3. Section sixty-one of chapter thirty of the General Laws, inserted by section two of this act, shall take effect on December thirty-

first, nineteen hundred and seventy-two, and section sixty-two of said chapter thirty, inserted by said section two, shall take effect on July first, nineteen hundred and seventy-three. *Approved July 18, 1972.*

Chap. 782. AN ACT FURTHER PROTECTING THE INLAND WETLANDS AND FLOOD PLAINS OF THE COMMONWEALTH.

Be it enacted, etc., as follows:

Chapter 131 of the General Laws is hereby amended by striking out section 40A, inserted by section 1 of chapter 444 of the acts of 1968, and inserting in place thereof the following section:—

Section 40A. The commissioner of natural resources, with the approval of the board of natural resources shall from time to time, for the purposes of preserving and promoting the public safety, private property, wildlife, fisheries, water resources, flood plain areas and agriculture, adopt, amend or repeal orders regulating, restricting or prohibiting dredging, filling, removing or otherwise altering or polluting inland wetlands. In this section the term "inland wetlands" shall mean any marsh, meadow or swamp bordering on inland waters or that portion of any bank which touches any inland waters, or any marsh, meadow or swamp subject to flooding by fresh water.

The commissioner shall protect flood plain areas by establishing by order that, along any waterway or flood-prone area lines beyond which in the direction of the waterway or flood-prone area, no obstruction or encroachment shall be placed by any person, firm or corporation, public or private, unless authorized by the commissioner. The commissioner, in establishing such encroachment lines shall base their location on the boundaries of the area which have been mapped, designated and recorded as inland wetlands in accordance with the provisions of this section.

The commissioner shall, before adopting any such order under the preceding paragraphs, hold a public hearing thereon in the city or town or watershed region in which the inland wetlands or flood plains to be affected are located, giving notice thereof to the state reclamation board, the department of public works, the department of public health, the metropolitan district commission, the selectmen, conservation commissioners and assessors of each such city or town, and each assessed owner of such wetland or flood plains by certified mail at least twenty-one days prior thereto. For the purposes of this section the person to whom the land was assessed in the last preceding annual tax levy shall be deemed to be the assessed owner thereof, and the notice shall be addressed in the same manner as the notice of such tax levy, unless a different owner or a different address is known by the commissioner to be the correct one in which case the notice shall be so addressed. No order shall be adopted until it is approved by the selectmen or city council of the town or city in which said wetlands or flood plains are located; provided, that if the selectmen or the city council fail to approve or disapprove in writing, stating reasons for such disapproval, such proposed order within thirty days after receipt of a written request from the commissioner such order shall be deemed to have been approved, and provided, further, if such order is so disapproved the commissioner may, after expiration of six months from the date of such disapproval

and after due consideration of the reasons for such disapproval, adopt such order or amended order.

Upon the adoption of any such order or any order amending or repealing the same, the commissioner shall cause a copy thereof, together with a plan of the lands affected and a list of the assessed owners of such lands, to be recorded in the registry of deeds or the office of the assistant recorder for the district wherein the land lies, and shall send by certified mail a copy of such order and plan to each assessed owner of land affected and to the clerk and board of assessors of each city or town in which the land is located. Such order shall not be subject to the provisions of chapter one hundred and eighty-four. The superior court shall have jurisdiction in equity to enforce, and remedy violations of such orders.

Any person having an interest in land affected by any such order, may within ninety days after receiving notice thereof, petition the superior court in equity to determine whether such order so restricts the use of his property as to deprive him of the practical uses thereof and is therefore an unreasonable exercise of the police power because the order constitutes the equivalent of a taking without compensation. If the court finds the order to be an unreasonable exercise of the police power, as aforesaid, the court shall enter a finding that such order shall not apply to the land of the petitioner; provided, however that such finding shall not affect any other land than that of the petitioner. The commissioner shall cause a copy of such finding to be recorded forthwith in the proper registry of deeds or, if the land is registered, in the registry district of the land court. The method provided in this paragraph for the determination of the issue of whether any such order constitutes a taking without compensation shall be exclusive, and such issue shall not be determined in any other proceeding, nor shall any person have a right to petition for the assessment of damages under chapter seventy-nine by reason of the adoption of any such order.

The department may, after a finding has been entered that such order shall not apply to certain land as provided in the preceding paragraph, take the fee or any lesser interest in such land in the name of the commonwealth by eminent domain under the provisions of chapter seventy-nine and hold the same for the purposes set forth in this section. No such order shall prohibit, restrict or regulate the use or improvement of land or water for agricultural purposes without the written consent of the owner, provided, however, that any subsequent nonagricultural use of land which was filled or drained for agricultural purposes at a time when said land was subject to an order under this section may be regulated, restricted or prohibited by such order. No such order shall prohibit, restrict or regulate the exercise or performance of the powers and duties conferred or imposed by law upon the department of public health, the department of public works, the metropolitan district commission, the division of fisheries and game, the Massachusetts aeronautics commission, or the state reclamation board, or any mosquito control or other project operating under or authorized by chapter two hundred and fifty-two. If after following the procedures hereinbefore set forth, no such order has become effective as to any particular land or interest therein, the department may, subject to a specific appropriation for the purpose, take such land or interest therein by eminent

domain, or may acquire the same by purchase, gift or otherwise. Awards of damages, expenses of acquisition of land and water, and expenses incidental thereto and to the preparation of maps and plans of the lands to be affected, to the holding of hearings, and to the adoption and recording of orders, as provided in this section, may be paid out of funds made available for the purpose of section three of chapter one hundred and thirty-two A.

The exercise of the power of eminent domain under the provisions of this section shall be subject to the approval of the board of natural resources, the governor and the executive council.

Approved July 18, 1972.

Notwithstanding the provisions of sections one hundred and one hundred and fourteen A, a finance charge assessed with respect to transactions pursuant to an open end credit plan, as defined by subsection (*r*) of section one of chapter one hundred and forty C, shall not exceed the following rates computed upon the outstanding balance thereunder, from month to month, which need not be a calendar month, or other regular period: — (*a*) On so much of the outstanding unpaid balance as does not exceed five hundred dollars, one and one-half per cent per month; (*b*) On the excess over five hundred dollars, one per cent per month; (*c*) If the total amount of any finance charges for any twelve-month period is less than six dollars, no more than six dollars may be so assessed during that period.

The outstanding unpaid balance shall be determined in compliance with the provisions of section six B of said chapter one hundred and forty C.

SECTION 2. Chapter 140C of the General Laws is hereby amended by inserting after section 6A the following section: —

Section 6B. In the event that a finance charge is imposed with respect to transactions involving the sale of retail goods or services pursuant to an open end credit plan, it shall be computed on (*i*) the previous balance after all payments on accounts, returns or other credits made or given during the billing cycle shall have been first deducted; provided, however, that returns and other credits may be deducted only to the extent that the purchase to which the credit or return relates has been reflected in the previous balance; or (*ii*) the average daily balance determined by adding the daily balances on the account for each day in the billing cycle, excluding new transactions, and dividing the total by the number of days in the billing cycle.

Payments received from an obligor under an open end credit plan by the creditor shall be credited promptly to the obligor's account but in any event no more than two days after receipt thereof. A finance charge shall not be imposed on any obligor if said creditor has received the obligor's payment prior to the time indicated by said creditor

by which such payment must be received to avoid the imposition of said finance charge.

SECTION 3. Subsection C of section 27 of chapter 255D of the General Laws is hereby amended by striking out paragraph (3), as amended by section 3 of chapter 822 of the acts of 1970, and inserting in place thereof the following paragraph: —

(3) In the event that a finance charge is imposed, it shall be computed upon (*i*) the previous balance after all payments on account, returns and other credits made or given during the billing cycle shall have been first deducted; provided, however, that returns and other credits may be deducted only to the extent that the purchase to which the credit or return relates has been reflected in the previous balance; or (*ii*) the average daily balance determined by adding the daily balances on the account for each day in the billing cycle, excluding purchases, and dividing this total by the number of days in the billing cycle.

Payments received from an obligor under an open end credit plan by the creditor shall be credited promptly to the obligor's account but in any event no more than two days after receipt thereof. A finance charge shall not be imposed on any obligor if said creditor has received the obligor's payment prior to the time indicated by said creditor by which time such payment is required to be received to avoid the imposition of said finance charge.

SECTION 4. The provisions of section one hundred and fourteen B of chapter one hundred and forty of the General Laws, inserted by section one of this act, shall take effect on July first nineteen hundred and seventy-three. *Approved July 18, 1972.*

Chap. 784. AN ACT RELATIVE TO THE PROTECTION OF WETLANDS.

Be it enacted, etc., as follows:

SECTION 1. Chapter 131 of the General Laws is hereby amended by striking out section 40, as most recently amended by chapter 1020 of the acts of 1971, and inserting in place thereof the following section: —

Section 40. No person shall remove, fill, dredge or alter any bank, beach, dune, flat, marsh, meadow or swamp bordering on the ocean or on any estuary, creek, river, stream, pond or lake, or any land under said waters or any land subject to tidal action, coastal storm flowage, or flooding without filing written notice of his intention to so remove, fill, dredge or alter, including such plans as may be necessary to describe such proposed activity and its effect on the environment, at least sixty days prior to any such removing, filling, dredging or altering. Said notice shall be sent by certified mail to the conservation commission or, if none to the board of selectmen in a town or the mayor of a city in which the land upon which such activity is proposed is located. Each such notice shall be accompanied by a filing fee of twenty-five dollars payable to the city or town. Copies of such notice shall be sent at the same time by certified mail to the state departments of natural resources and public works. No such notice shall be sent before all permits, variances and approvals required by local by-law with respect to the proposed activity have been obtained. Upon receipt of

any notice hereunder the department of natural resources shall designate a file number for such notice and shall send a notification of such number to the person giving notice, to the conservation commission, selectmen or mayor to whom the notice was given, and to the department of public works. Said notification shall state the name of the owner of the land upon which the proposed work is to be done and the location of said land.

The term "person" as used in this section shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the commonwealth or political subdivision thereof, administrative agency, public or quasi-public corporation or body, or any other legal entity or its legal representative, agents or assigns.

The term "applicant" as used in this section shall mean the person giving notice of intention to remove, fill, dredge or alter.

The conservation commission, selectmen or mayor receiving notice under this section shall hold a public hearing on the proposed activity within twenty-one days of the receipt of said notice. Notice of the time and place of said hearing shall be given by the hearing authority at the expense of the applicant, not less than five days prior to such hearing, by publication in a newspaper of general circulation in the city or town where the activity is proposed and by mailing a notice to the applicant and to the board of health and the planning board of said city or town and to the state departments of natural resources and public works.

If after said hearing the conservation commission, selectmen or mayor, as the case may be, determine that the area on which the proposed work is to be done is significant to public or private water supply, to the ground water supply, to flood control, to storm damage prevention, to prevention of pollution, to protection of land containing shellfish, or to the protection of fisheries, such conservation commission, board of selectmen or mayor shall by written order within twenty-one days of such hearing impose such conditions as will contribute to the protection of the interests described herein, and all work shall be done in accordance therewith. The commissioner of natural resources also may request such a determination within said twenty-eight days. A copy of such order shall be sent to the applicant, to the conservation commission, board of selectmen or mayor which conducted the hearing hereunder, and to the department of public works.

Any person aggrieved by an order of the department of natural resources issued under the provisions of this section may appeal under the provisions of chapter thirty A. Such right of appeal shall be exclusive.

Any court having equity jurisdiction may restrain a violation of this section and enter such orders as it deems necessary to remedy such violation, upon the petition of the attorney general, the commissioner of natural resources, a city or town, an owner or occupant of property which may be affected by said removal, filling, dredging or altering, or ten residents of the commonwealth under the provisions of section ten A of chapter two hundred and fourteen.

Whoever violates any provision of this section shall be punished by a fine of not more than one hundred dollars or by imprisonment for not more than six months or both. This section may be enforced by natural resource officers.

Chap. 785. AN ACT ESTABLISHING AN OFFICE FOR CHILDREN AND CENTRALIZING THE LICENSING, REGULATION, PLACEMENT AND MONITORING OF DAY CARE, FOSTER CARE AND GROUP CARE SERVICES, CENTERS AND FACILITIES.

Whereas, the deferred operation of this act would tend to defeat its purpose, which is, in part, to remove unnecessary legal barriers to the development of services to children, to improve the quality of services to children and to establish an administrative framework to enable the commonwealth to make maximum use of those federal funds which are now and which may shortly become available for such services, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. The General Laws are hereby amended by inserting after chapter 28 the following chapter: —

Every child shall be entitled to the full protection of the commonwealth. In the absence or inability of parents to provide care and protection for their children, it shall be the responsibility of the commonwealth to assure substitute residential care and protection for every child. If such member dies before attaining age fifty-five and before being retired, such nominated eligible beneficiary shall receive two-thirds of the option (c) allowance to which such member would have been entitled had he attained age fifty-five at the time of his death and had his retirement taken place on the date of his death.

A member may at any time cancel the appointment of a beneficiary nominated under this option by a written notice filed with the board prior to his death.

If a member dies before being retired without an eligible beneficiary other than the spouse of such member nominated under this option, or, notwithstanding the provisions of paragraph (a) of subdivision (2) of section thirteen, if a member in service as described in subparagraph (i) of paragraph (a) of subdivision (1) of section three who has not less than two years of creditable service dies and leaves a spouse to whom such member had been married for not less than one year, or if a mem-

Debt which has been authorized by the district but not incurred prior to the effective date of this act may be incurred as town debt by the town treasurer with the approval of the selectmen. Debt which the district shall have been empowered by special law to incur but which the district shall not have authorized may be authorized and incurred as town debt by the town. Debt assumed by the town by virtue of this act or authorized or incurred pursuant to this section shall not be subject to the limitation contained in the first paragraph of section seven of chapter forty-four of the General Laws and shall be in excess of the limitation contained in section ten of said chapter forty-four, but any such debt which is for water purposes shall be subject to the limitation contained in the last paragraph of section eight of said chapter forty-four.

SECTION 8. Moneys received by the town from the district and moneys received by the town on account of its water or sewer system from any installation, connection, service or use charges, special assess-

ments, or water rates, or from taxes levied by the district shall be placed in a separate account or accounts and shall be used only for water or sewer expenditures, subject to such additional limitations as may be imposed by law. *Approved July 19, 1972.*

Chap. 796. AN ACT RELATIVE TO CHARGING EMPLOYERS' ACCOUNTS WITH BENEFITS PAID DURING THE PENDENCY OF THEIR APPEALS UNDER THE EMPLOYMENT SECURITY LAW.

Be it enacted, etc., as follows:

Section 14 of chapter 151A of the General Laws is hereby amended by striking out subsections (*k*) and (*l*), as appearing in chapter 397 of the acts of 1953, and inserting in place thereof the following two subsections: —

(*k*) Except as otherwise provided in this subsection, whenever an individual is paid benefits for the first compensable week of unemployment with respect to his base period wages with any employer and because of such payment the account of such base period employer has been charged, as provided in paragraph (3) of subsection (*d*) of this section, the director shall, following the close of the month in which such payment was made, promptly notify the employer whose account is charged by mailing him a form of notice identifying the employer, the payee, the first and subsequent weeks compensated during such month, the amounts paid and the total potential charge. If such employer has reason to believe that no charges with respect to such base period wages should be made to his account, he may return the said notice to the director with the reasons stated thereon within thirty days after the mailing of said notice in accordance with the procedure prescribed by the director. Failure to return said notice and reasons within the time provided in this section, or failure in accordance with the provisions of section thirty-eight to return the notice of claim filed which was given to him by the director or his authorized representative with respect to a claim filed by said worker in the base period or filed previously in the current benefit year, shall bar the employer from being a party to further proceedings relating to such charge. The director or his authorized representative shall promptly determine, in accordance with the procedure established by the director, and after making such inquiries and investigations as he deems necessary, whether or not such benefits should have been charged and shall promptly give notice of such determination, together with the reason therefor, to the employer. Such employer may, within twenty days after the date of mailing of notice of such determination, request that the director grant a hearing for the purpose of reconsidering the facts submitted and to consider any additional information. The director or his authorized representative shall conduct such hearing in accordance with the procedure prescribed by the director and shall affirm, modify or revoke the determination. Notice of his finding shall be mailed to the employer and this decision shall be final.

Such monthly notification of benefit charges to the account of a base period employer, as provided by this subsection and subsection (*l*) of

this section, shall not include any benefits paid during the pendency o a final decision of such payments as provided in section forty-two B.

(*l*) The director shall, promptly after the close of each month, mail to each employer a statement showing the charges to the employer's account during such month. Any such employer may apply for a review of said charges provided that such application is filed within thirty days after the date of the mailing of the statement. Unless an employer properly files for such a review the charges as made will become final.

Chap. 798. AN ACT RELATIVE TO LICENSES FOR CERTAIN INTERSTATE CARRIERS OF PROPERTY.

Be it enacted, etc., as follows:

Chapter 159B of the General Laws is hereby amended by striking out section 10, as most recently amended by section 1 of chapter 289 of the acts of 1968, and inserting in place thereof the following section: —

Section 10. Each interstate carrier by motor vehicle transporting over the ways within the commonwealth for compensation shall apply to the department for an interstate license or registration as defined in section two. Each application for an interstate license or registration shall be made in the same manner as provided in paragraph (*a*) of section three for applications for certificates and shall be accompanied by a fee of ten dollars and a designation showing the name and address of a local agent for the service of process within the commonwealth. Such license or registration shall be issued in the name of the applicant and remain in effect until cancelled or revoked.

One interstate distinguishing plate or vehicle-identification device shall be issued by the department annually to each such licensee for each vehicle of said licensee operating over such ways upon application to the department and payment of a fee of five dollars per plate or device, which plate or device shall bear an identifying number and shall be carried or displayed in the following manner: The interstate distinguishing plate shall be prominently displayed on the front of the vehicle whenever operated or the interstate vehicle-identification device if issued instead shall be attached to a cab card by the interstate

licensee and carried in the cab of the vehicle, and accessible to the driver at all times while operating within the Commonwealth.

Each such plate shall be accompanied by a certificate issued by the department, which shall be in the possession of the driver at all times while operating within the commonwealth and shall set forth the make, manufacturer's serial number, if any, and motor number, if any, of the vehicle with respect to which said plate shall be used. Each such vehicle-identification device when used shall be accompanied by and attached to an authentic cab card, eleven inches in height and eight and one half inches in width. The interstate licensee shall be responsible for the foregoing and in addition shall on or before the fifteenth day of January of each calendar year, but not earlier than the preceding first day of November, such motor carrier shall apply to the National Association of Regulatory Utility Commissioners, or to the commission of any state in which it is permitted to operate pursuant to authority issued by the Interstate Commerce Commission, for the issuance of a sufficient supply of uniform identification cab cards for use in connection with the registration and identification of the vehicle or vehicles which it intends to operate, or driveaway operations which it intends to conduct, within the borders of such state during the ensuing year.

The National Association of Regulatory Utility Commissioners or the state commission, as the case may be, shall issue to the motor carrier the number of cab cards requested. Requests for cab cards submitted to this department shall be accompanied by a fee of thirty cents each.

A motor carrier receiving a cab card under the provisions of this section shall not knowingly permit the use of same by any other person or organization. Prior to operating a vehicle, or conducting a driveaway operation, within the borders of such state during the ensuing year, the motor carrier shall place one of such identification stamps on the back of a cab card in the square bearing the name of such state in such manner that the same cannot be removed without defacing it. The motor carrier shall thereupon duly complete and execute the form of certificate printed on the front of the cab card so as to identify itself and such vehicle or driveaway operation, and shall enter the appropriate expiration date in the space provided below the certificate. Such expiration date shall be within a period of fifteen months from the date the cab card is executed and shall not be later in time than the expiration date of the vehicle-identification device which shall become void on February first in the succeeding calendar year, unless such registration is terminated prior thereto. Indelible ink or typewriter shall be used to execute cab card and any erasure, improper alteration or unauthorized use of a cab card shall render it void. Any person, while operating a commercial motor vehicle, when requested by an investigator or examiner of the commercial motor vehicle division or other officer authorized to make arrests shall permit such person to take the certificate or cab card in hand for the purpose of examination. Such cab card shall not be used for any vehicle except the vehicle for which it was originally prepared. On or before the fifteenth day of January of each calendar year, but not earlier than the preceding first day of November, such interstate licensee shall apply to the Department for the issuance of an interstate distinguishing plate or vehicle-identification device for the registration and identification of the vehicle or vehicles which it in-

tends to operate, or driveaway operations which it intends to conduct, within the Commonwealth during the ensuing year, commencing February first. The interstate licensee may thereafter file supplemental applications for additional plates or devices if the need arises. Each such plate or identification device shall be nontransferable, except as hereinafter provided. Each interstate licensee shall destroy a cab card immediately upon its expiration, except as otherwise provided below. An interstate licensee motor carrier permanently discontinuing the use of a vehicle, for which a cab card has been prepared, shall nullify the cab card at the time of such discontinuance; provided, however, that if such discontinuance results from destruction, loss or transfer of ownership of a vehicle owned by such carrier and such carrier provides a newly acquired vehicle in substitution therefor within thirty days of the date of such discontinuance, each identification stamp and number placed on the cab card prepared for such discontinued vehicle, if such card is still in the possession of the carrier, may be transferred to the substitute vehicle by compliance with the following procedure: Such motor carrier shall duly complete and execute the form of certificate printed on the front of a new cab card, so as to identify itself and the substitute vehicle, and shall enter the appropriate expiration date in the space provided below such certificate; Such motor carrier shall indicate the date it terminated use of the discontinued vehicle by entering same in the space provided for an early expiration date which appears below the certificate of the cab card prepared for such vehicle; and such motor carrier shall affix the cab card prepared for the substitute vehicle to the front of the cab card prepared for the discontinued vehicle, by permanently attaching the upper left-hand corners of both cards together in such a manner as to permit inspection of the contents of both cards and, thereupon, each identification stamp or number appearing on the back of the card prepared for the discontinued vehicle shall be deemed to apply to the operation of the substitute vehicle. If a cab card is lost, destroyed, mutilated, or becomes illegible, a new cab card may be prepared and new identification stamps or numbers may be issued therefor upon application by the motor carrier and upon payment of the same fee prescribed for the original issuance thereof, if any.

Whoever uses any such plate or identification device on any vehicle other than the one for which it is issued, and whoever knowingly permits such plate or device issued to him to be so used, shall be punished by a fine of one hundred dollars.

The fees provided by this section shall not be required of an interstate carrier whose principal place of business and the registration of whose vehicle or of any vehicle under lease or other arrangement is in another state or states in respect to the operation of motor vehicles in interstate commerce over ways within this commonwealth if such state or states, as finally determined by the department, do not require of an interstate carrier whose principal place of business and the registration of whose vehicle or of any vehicle under lease or other arrangement is within this commonwealth any similar fees or charges, however denominated or defined, for the privilege of operating vehicles in interstate commerce over the ways of such other state or states.

This section shall not apply to a motor carrier who or which is the holder of a certificate or permit issued under this chapter and whose operations as an interstate carrier within the commonwealth do not ex-

ceed the limitations of such certificate or permit either as to the territory served or the commodities transported, except that for a motor carrier using the same motor vehicles engaged in intrastate and interstate operations under authority issued by the department and the bureau of motor carriers, interstate commerce commission, the provisions of this section including the fees provided therein shall apply, any provision of law to the contrary notwithstanding. Motor carriers in compliance with the requirements of this section shall not be required to obtain distinguishing plates under the provisions of section nine.

Any interstate carrier by motor vehicle, to whom the department has issued an interstate license and who during any period of one year fails to operate over ways of the commonwealth, and during that period fails to obtain and display an interstate distinguishing plate or other identifying device required by the department as evidence of such operation, shall be deemed to have abandoned such service, and after a hearing the interstate license of such carrier shall be revoked.

Approved July 19, 1972.

Chap. 799. AN ACT REGULATING THE RIGHTS OF TENANTS TO BE REIMBURSED BY THEIR LANDLORDS FOR THE COST OF CERTAIN REPAIRS MADE TO CURE VIOLATIONS OF CERTAIN HEALTH AND SAFETY LAWS, RULES OR REGULATIONS.

Be it enacted, etc., as follows:

Chapter 111 is hereby amended by inserting after section 127K the following section: —

Section 127L. When violations of the standards of fitness for human habitation as established in the state sanitary code, or of other applicable ordinances, by-laws, rules or regulations, may endanger or materially impair the health, safety or well-being of a tenant or tenants of residential premises and are so certified by the board of health or local code enforcement agency or, in the city of Boston by the commissioner of housing inspection, or by a court of law, and if the owner or his agent has been given written notice of the existence of the violations by any of the preceding boards, agencies, municipal departments or courts and if the owner or his agent has failed to begin all necessary repairs or to contract in writing with a third party for such repairs within ten days after receipt of such written notice, and to substantially complete all necessary repairs within twenty-one days of the receipt of said notice, unless any of the preceding boards, agencies, municipal departments or courts have ordered that said violations be corrected within a shorter period, in which case said period shall govern, the tenant or tenants may repair or have repaired the defects or conditions constituting the violations. The tenant or tenants may subsequently deduct from any rent which may subsequently become due, subject to the provisions of the following paragraph, an amount necessary to pay for such repairs. The tenant or tenants may, alternatively in such cases, treat the lease or rental agreement as abrogated, pay only the fair value of their use and occupation and vacate the premises within a reasonable time.

A tenant may not deduct pursuant to this section an amount greater than two months' rent in any twelve-month period, or period of occu-

pancy, whichever is shorter, from rent due to the owner. Such amount shall be computed on the basis of the highest monthly rent during the tenant's occupancy or during the twelve-month period before the violation is repaired, whichever is shorter. Where the violation affects more than one unit of a multi-unit structure, or a portion of the structure reserved for the common use of tenants, the amount deducted for repairs for all affected tenants shall not exceed the total of two months' rent due to the owner from all affected tenants. Failure to exercise any rights under this section in any twelve-month period shall not increase a tenant's rights in any subsequent twelve-month period.

The owner may recover from the tenant any excessive amount deducted from the rent. The amount deducted shall be excessive to the extent that it exceeded two months' rent as calculated pursuant to the preceding paragraph, or if it was unreasonable under all the circumstances. The criteria for unreasonableness shall include, but are not limited to, the alternatives available to the tenant at the time the violations were first reported, the urgency of the need to repair, and the quality and cost of the work done. Any excess deducted may be recovered in an action in contract, but not in an action for possession of the rental premises. The terms of such recovery may include an increase in rent for such future periods as the court may order. No owner may increase rents because of repairs made pursuant to this section, except pursuant to such a court order, and the provisions of section eighteen of chapter one hundred eighty-six shall apply to any such increase in rent.

The rights afforded tenants under this section shall not extend to conditions or violations caused by a tenant or by a person in the family or household of a tenant or by a business invitee or guest of a tenant. A tenant may not invoke the protection of this section if he has unreasonably denied the owner access to the dwelling unit and thereby prevented the owner from making necessary repairs.

In no case may the rights afforded a tenant under this section be construed to limit any other remedies available to him by law, or to impose a duty on him to repair, or to create or imply an assumption of any risk by the tenant; nor shall they relieve a landlord of any existing duty or liability under the state sanitary code or other applicable statutes, rules, regulations, by-laws, or ordinances.

Any provision of a residential lease or rental agreement whereby a tenant, lessee, or occupant enters into a covenant, agreement or contract, the effect of which is to waive the benefits of any provision of this section, shall be against public policy and void; except that a covenant in any lease of two years' duration not counting any renewal periods, in which the tenant undertakes to make certain defined repairs or renovations in consideration for a substantially lower rent, shall not be against public policy nor void. *Approved July 19, 1972.*

Be it enacted, etc., as follows:

SECTION 1. Chapter 210 of the General Laws is hereby amended by striking out section 2, as most recently amended by chapter 216 of the acts of 1970, and inserting in place thereof the following section: —

Section 2. A person whose consent is hereby required shall not be prevented from being the adoptive parent.

Such written consent shall be executed no sooner than the fourth calendar day after the date of birth of the child to be adopted. It shall be attested and subscribed before a notary public in the presence of two competent witnesses, one of whom shall be selected by said person. The agency or person receiving custody shall act as guardian of the child until such time as a court of competent jurisdiction appoints a guardian or grants a petition for adoption. Execution of such consent shall be carried out in a manner which shall preserve privacy and confidentiality. A copy of said consent shall be filed with the department of public welfare. A consent executed in accordance with the provisions of this section shall be final and irrevocable from date of execution.

SECTION 2. Said chapter 210 is hereby further amended by striking out section 3, as most recently amended by section 1 of chapter 71 of the acts of 1963, and inserting in place thereof the following section: —

Section 3. (*a*) Whenever a petition for adoption is filed by a person having the care or custody of a child, the consent of the persons named in section two, other than that of the child, shall not be required if: —

(i) the person to be adopted is eighteen years of age or older, or if (ii) the court hearing the petition finds that the allowance of the petition is in the best interests of the child, as defined in paragraph (*c*).

(*b*) The department of public welfare or any licensed child care agency may commence a proceeding, independent of a petition for adoption, in the probate court of Suffolk county or any other county in which said department or agency maintains an office, to dispense with the need for consent of any person named in section two to the adoption of a child in the care or custody of said department or agency. Notice of such proceeding shall be given to such person in a manner prescribed by the court. The court shall issue a decree dispensing with the need for said consent or notice of any petition for adoption of such child subsequently sponsored by said department or agency if it finds that the best interests of the child as defined in paragraph (*c*) will be served by said decree. Pending a hearing on the merits of a petition filed under this paragraph, temporary custody may be awarded to the petitioner.

(*c*) In determining whether the best interests of the child will be served by granting a petition for adoption without requiring certain consent as permitted under paragraph (*a*), the court shall consider the ability, capacity, fitness and readiness of the child's parents or other person named in section two to assume parental responsibility and shall also consider the ability, capacity, fitness and readiness of the petitioners under paragraph (*a*) to assume such responsibilities.

In determining whether the best interests of the child will be served by issuing a decree dispensing with the need of consent as permitted under paragraph (*b*), the court shall consider the ability, capacity, fitness and readiness of the child's parents or other person named in section two of chapter two hundred ten to assume parental responsibility, and shall also consider the plan proposed by the department or other agency initiating the petition.

If said child has been in the care of the department or a licensed child care agency for more than one year, in each case irrespective of incidental communications or visits from his parents or other person named in section two, irrespective of a court decree awarding custody of said child to another and notwithstanding the absence of a court decree ordering said parents or other person to pay for the support of said child there shall be a presumption that the best interests of the child will be served by granting a petition for adoption as permitted under paragraph (*a*) or by issuing a decree dispensing with the need for consent as permitted under paragraph (*b*).

SECTION 3. Section three A of said chapter two hundred and ten is hereby repealed.

SECTION 4. Said chapter 210 is hereby further amended by striking out section 4, as amended by section 2 of chapter 593 of the acts of 1953, and inserting in place thereof the following section: —

Section 4. If the written consent required by section two is not submitted to the court with the petition, the court shall, except where the court under section three has determined that such consent and notice is not required, order notice by personal service upon the parties of an order of notice, in such form as shall be prescribed under section thirty of chapter two hundred and fifteen, or, if the parties are not found within this commonwealth, by publication of said order of notice once in each of three successive weeks in such newspaper as the court orders,

the last publication to be seven days at least before the time appointed for the hearing, and the court may require additional notice and consent. But if such child is of unknown parentage and is a foundling, publication as herein set forth shall not be required; but notice of the petition shall be given to the department of public welfare.

SECTION 5. The fifth sentence of the first paragraph of section 5A of said chapter 210, as appearing in section 2 of chapter 737 of the acts of 1950, is hereby amended by striking out, in line 3, the words "one year" and inserting in place thereof the words: — six months.

SECTION 5A. The sixth sentence of said first paragraph of said section 5A of said chapter 210, as so appearing, is hereby amended by striking out, in line 11, the words "one year" and inserting in place thereof the words: — six months.

SECTION 6. Section 5C of said chapter 210 is hereby amended by striking out the first sentence, as appearing in chapter 59 of the acts of 1958, and inserting in place thereof the following sentence: — All petitions for adoption, all reports submitted thereunder and all pleadings, papers or documents filed in connection therewith, docket entries in the permanent docket and record books shall not be available for inspection, unless a judge of probate of the county where such records are kept, for good cause shown, shall otherwise order.

SECTION 7. Said chapter 210 is hereby amended by striking out section 11, as appearing in the Tercentenary Edition, and inserting in place thereof the following section: —

Section 11. The supreme judicial court may allow a parent, who, upon a petition for adoption, had no personal notice of the proceedings before the decree and had neither waived notice in accordance with section two nor been the subject of a decree dispensing with need for notice in accordance with section three, to appeal therefrom within one year after actual notice thereof. *Approved July 19, 1972.*

Chap. 801. AN ACT EXEMPTING CERTAIN MONIES HELD BY A BANK OR SIMILAR INSTITUTION FROM TRUSTEE PROCESS.

Be it enacted, etc., as follows:

Chapter 246 of the General Laws is hereby amended by inserting after section 28 the following section: —

Section 28A. Five hundred dollars of any natural person in any account or accounts in a trust company, savings bank, cooperative bank, credit union, national banking association or any other banking institution doing business in the commonwealth shall be exempt from attachment by trustee process. A joint account shall be treated for the purposes of this section as if each depositor owned one half of the amount thereof. Every trustee writ served on such an institution shall describe such exemption with reference to this section. Upon service of such a writ the trustee shall answer as subject to attachment only so much money of the defendant as exceeds five hundred dollars.

No business, trust or organization shall be entitled to the exemption hereunder, and no natural person shall be entitled to more than a five hundred dollar exemption at any one time. In any action the plaintiff may apply to the court for further attachments upon proof by certified records of the trustee or trustees that the defendant has received an

exemption not authorized hereunder or that the five hundred dollar exemption of the defendant has been in whole or in part exhausted or exceeded. *Approved July 19, 1972.*

Chap. 802. AN ACT ESTABLISHING THE STATE BUILDING CODE COMMISSION FOR THE ADOPTION AND PROMULGATION OF A STATE BUILDING CODE.

Be it enacted, etc., as follows:

SECTION 1. Chapter 23B of the General Laws is hereby amended by adding after section 15 the following eight sections: —

Section 16. There shall be in the department a commission to be known as the state building code commission, in this section and in sections seventeen to twenty-three, inclusive, called the commission. The commission shall adopt and promulgate a state building code. The commission shall consist of eleven members, three of whom shall be the commissioner of community affairs or his designee, the state fire marshal or his designee and the chief of inspections of the department of public safety or his designee, all of whom shall be ex officio and voting members of the commission; and eight members to be appointed by the governor, one of whom shall be a registered architect, one of whom shall be a registered professional engineer who shall be a mechanical engineer, one of whom shall be a registered professional engineer who is a structural engineer, one of whom shall be a building owner, one of whom shall be a representative of the building trades, one of whom shall be a building contractor, and one of whom shall be an inspector of buildings in a town or a person in a town having similar duties, and one of whom shall be an inspector of buildings in a city or a person in a city having similar duties.

Upon the expiration of the term of an appointed member, his successor shall be appointed by the governor for a term of six years.

Any member of the commission may be removed by the governor for cause, after being given a written statement of the charges and an opportunity to be heard thereon. Vacancies shall be filled for an unexpired term in the same manner as original appointments.

No member shall act as a member of the commission or vote as such in connection with any matter as to which his private right, distinct from the public interest, is concerned.

A majority of the members of the commission shall constitute a quorum for the purpose of conducting business, but a lesser number may adjourn from time to time.

A chairman and a vice chairman shall be chosen by the members of the commission to serve in said capacities for not more than two consecutive years.

Each member of the commission who is not otherwise an employee of the commonwealth or a city or town shall receive from the commonwealth fifty dollars for each day or portion thereof spent in the performance of his official duties; provided that the total sum paid to any member in any fiscal year shall not exceed three thousand dollars. Each member shall be paid the necessary traveling and other expenses incurred by him in the performance of his duties.

Subject to the approval of the commissioner, the commission shall employ an executive secretary who shall not be subject to the provisions of chapter thirty-one. The department may employ such other personnel to assist the executive secretary as it shall deem necessary.

Section 17. The commission shall have the following powers and duties: —

(*a*) To formulate, propose, adopt and amend rules and regulations relating to (i) the construction, reconstruction, alteration, repair, demolition, removal, inspection, issuance and revocation of permits or licenses, installation of equipment, classification and definition of any building or structure and use or occupancy of all buildings and structures and parts thereof or classes of buildings and structures and parts thereof; (ii) the rehabilitation and maintenance of existing buildings; (iii) the standards or requirements for materials to be used in connection therewith, including but not limited to provisions for safety, ingress and egress, and sanitary conditions; (iv) the establishment of reasonable fees for the issuance of licenses and permits in connection therewith, which fees shall be collected and retained by the city or town issuing such permits or licenses. The commission shall examine the national model codes or any other codes used by cities or states for possible adoption of all or part of such codes as are most suited to the needs of the commonwealth.

Such rules and regulations, together with any penalties for the violation thereof as hereinafter provided, shall comprise and be collectively known as the state building code.

Whoever violates any provision of the state building code, except any specialized code, as described in section nineteen, which heretofore may have provided different penalties, shall be punished by a fine of not more than one thousand dollars or by imprisonment for not more than one year, or both, for each such violation. Each day during which any portion of a violation is permitted to exist shall constitute a separate offense.

(*b*) To subpoena witnesses, take testimony, compel production of books and records and to hold public hearings. The commission may designate one or more of its members to hold special public hearings and report on such hearings to the commission.

(*c*) To make a continuing study of the operation of the state building code, and other laws relating to the construction of buildings to ascertain their effect upon the cost of building construction and the effectiveness of their provisions for health, safety and security.

(*d*) To recommend or require tests and approvals and specify criteria and conditions, of materials, devices, and methods of construction, either upon the initiative of the commission or at the request of any interested person including but not limited to a manufacturer, builder, architect, engineer, inspector of buildings or building commissioner or local or state inspector, in order to ascertain the acceptability of said materials, devices and methods under the requirements of the state building code. The commission shall issue certification of such acceptability, which certification shall be binding on all cities and towns.

(*e*) To review, on its own initiative or on the applications of any inspector of buildings or building commissioner or of any local or state inspector, any interpretation under the state building code; and to

reverse, modify or annul, in whole or in part, such interpretations except with respect to the specialized codes as defined in section nineteen.

(*f*) To establish an advisory board to be known as the technical code council, to assist in and make recommendations relative to the formulation, promulgation and administration of the state building code. Said council shall be convened regularly by the executive secretary of the commission and shall establish its own rules for the conduct of its business. Said council shall include a representative from each state department, commission, agency, board, or division concerned with the state building code, including specialized codes referred to in section nineteen, and such other members as may be determined by the commission.

(*g*) To formulate the administrative procedures and promulgate rules and regulations necessary to administer and enforce the state building code.

(*h*) To revise and amend the state building code exclusive of the specialized codes referred to in section nineteen at least once every five years, and to send a copy of such revisions or amendments to each inspector of buildings or building commissioner and each local and state inspector and to the boards of selectmen of each town and to the mayors of each city.

Section 18. The powers and duties of the commission set forth in section seventeen shall be exercised to effect the following general objectives:

(*a*) Uniform standards and requirements for construction and construction materials, compatible with accepted standards of engineering and fire prevention practices and public safety.

In the formulation of such standards and requirements, performance for the use intended shall be the test of acceptability, in accordance with accredited testing standards.

(*b*) Adoption of modern technical methods, devices and improvements which may reduce the cost of construction without affecting the health, safety and security of the occupants or users of buildings.

(*c*) Elimination of restrictive, obsolete, conflicting and unnecessary building regulations and requirements which may increase the cost of construction or retard unnecessarily the use of new materials, or which may provide unwarranted preferential treatment of types of classes of materials, products or methods of construction without affecting the health, safety, and security of the occupants or users of buildings.

Section 19. The state building code shall incorporate any specialized construction codes, rules or regulations pertaining to building construction, reconstruction, alteration, repair or demolition promulgated by and under the authority of the various boards which have been authorized from time to time by the general court. The specialized codes referred to in this section shall include, but not be limited to, the state plumbing code, electrical code, fire safety code and elevator code.

Section 20. Except for the specialized codes, which shall be amended by the commission without further notice or hearing as such specialized codes are amended by their respective various boards, any person may propose amendments to the state building code. Public hearings shall be held in the city of Boston in May and October of each year, and at such other times and places as the commission may determine, to consider petitions for such amendments. The subject matter of the peti-

tions to be considered shall be indicated in all the required notices. Adoption of an amendment to the state building code shall occur upon an affirmative vote by a majority of the members of the commission at a regularly convened meeting within three months of the final public hearing on the given amendment. Upon publication by the state secretary subject to the provisions of section six of chapter thirty A, such an amendment shall be binding and have the full force and effect of law in all cities and towns unless the commission shall specify a different effective date. The commission shall send a copy of any amendments to each inspector of buildings or building commissioner and to the commissioner of public safety and of community affairs, as well as to the boards of selectmen in towns and to mayors in cities, within thirty days after their adoption.

Section 21. The board of selectmen in a town or the mayor in a city may recommend to the commission the adoption of rules and regulations imposing more restrictive standards than those established by the state building code for construction, alteration, repair, demolition, and removal in such a city or town.

If the commission finds that more restrictive standards are reasonably necessary because of special conditions prevailing within such city or town and that such standards conform with accepted national and local engineering and fire prevention practices, with public safety and with the general purposes of a statewide building code, the commission may, after notice to said board of selectmen of mayor, and after a public hearing, adopt rules and regulations, impose conditions in connection with the adoption thereof and terminate such rules and regulations at such time and in such manner as the commission may deem necessary, desirable or proper.

Section 22. The department shall prepare a course of instruction or shall approve a course of instruction offered by others for training persons intending to qualify or be certified as local inspectors to be given at such times and places as will insure its availability to such interested citizens of the commonwealth.

The department is authorized to issue a certificate classifying any person that satisfactorily completes such course of instruction as a registered professional building code official.

The department shall also prepare and administer a continuing educational program of instruction designed to assist all local and state inspectors of buildings in executing their responsibilities under this act. Regular attendance at these meetings shall be required of all state and local inspectors and such instruction shall be given at such times and places as will insure its availability to state and local inspectors. No state or local inspector who attends such course of instruction shall lose any rights relative to compensation or vacation time.

Section 23. There shall be in the department a state building code appeals board, hereinafter called the board, composed of the state building code commission established by section sixteen.

Whoever is aggrieved by an interpretation, order, requirement, direction or failure to act by any state or local agency or any person or state or local agency charged with the administration or enforcement of the state building code or any of its rules and regulations, excepting any specialized codes as described in section nineteen, which heretofore may

have established separate appeals procedures, may within forty-five days after the service of notice thereof appeal from such interpretation, order, requirement, direction, or failure to act to the board.

Appeals hereunder shall be on forms provided by the board and shall be accompanied by such fee as may be established by it.

The state, city or town officer in charge of the record and all other papers and documents relative to an appeal shall forthwith upon receipt of request of the board transmit the papers and documents constituting such record to the board.

An appeal shall stay all proceedings in furtherance of the action or failure to act appealed from unless the state or local agency or any person charged with the administration or enforcement of the state building code or any of its rules and regulations presents evidence that a stay would involve imminent peril to life or property.

The chairman of the board may designate any three members of the board to hold any public hearing under this section, and to hear testimony and take evidence.

The board in hearings conducted under this section, shall not be bound by strict rules of evidence prevailing in courts of law or equity.

Decisions on appeal shall be made by the three members of the board conducting the public hearing. Every decision shall require the concurrence of at least two of the three members holding the public hearing and shall state in writing its findings of fact, its conclusions, reasons for its decision and indicate the vote of each member upon the decision.

The chairman shall fix a convenient time and place for a public hearing before said three members. Such hearing shall be held not later than thirty days after the entry of such appeal unless such time is extended by agreement with the appellant. The chairman shall give notice of the time and place of said hearing to all interested parties at least ten days prior thereto. Any such party may appear in person or by agent or attorney at such hearing. The board shall within thirty days after such hearing, unless such time is extended by like agreement, issue a decision or order reversing, affirming or modifying in whole or in part such interpretation, order or requirement, or postponing the application thereof.

The board of appeal may vary the application of any provision of this code to any particular case when in its opinion the enforcement thereof would do manifest injustice, provided that the decision of the board shall not conflict with the general objectives set forth in section eighteen.

In exercising its powers under this section the board may impose limitations both as to time and use, and a continuation of any use permitted may be conditioned upon compliance with regulations made and amended from time to time thereafter. A copy of such order or decision of the board shall be sent forthwith by certified mail to all interested parties.

A record of all decisions on appeals of the board and of votes thereunder, properly indexed, shall be maintained in the office of the board and shall be open to public inspection at all times during business hour.

The board may establish a local board of appeal in any city or town or a regional board of appeal for more than two or more cities or towns consisting of not less than three members nor more than five members. The board may require as a condition precedent to appeal to the board that said appeal be first heard by such local or regional board of appeals.

Such local or regional board of appeals may establish rules for its own procedure and shall have the same powers and duties relative to appeals as the state building code appeals board. A copy of any decision by a local board of appeal shall be transmitted to the commission within ten days after the rendering such decision.

Each agency holding or receiving criminal offender record information shall maintain, for such period as is found by the board to be appropriate, a listing of the agencies of individuals to which it has released or communicated such information. Such listings, or reasonable samples thereof, may from time to time be reviewed by the board, advisory committee, or council to determine whether any statutory provisions or regulations have been violated.

Dissemination from any agency in this commonwealth of criminal offender record information shall, except for purposes of research programs approved under section one hundred and seventy-three, be permitted only if the inquiry is based upon name, fingerprints or other personal identifying characteristics. The board shall promulgate regulations to prevent dissemination of such information, except in the above situations, where inquiries are based upon categories of offense or data elements other than said characteristics.

Section 175. Each individual shall have the right to inspect, and if practicable, copy, criminal offender record information which refers to him. If an individual believes such information to be inaccurate or incomplete, he shall request the agency having custody or control of the records to purge, modify or supplement them. If the agency declines to so act, or if the individual believes the agency's decision to be otherwise unsatisfactory, the individual may in writing request review by the council. The council shall, in each case in which it finds prima facie basis for complaint, conduct a hearing at which the individual may appear with counsel, present evidence, and examine and cross-examine witnesses. Written findings shall be issued within sixty days of receipt by the council of the request for review. Failure to issue findings shall be deemed a decision of the council. If the record in question is found to be inaccurate, incomplete or misleading, the council shall recommend to the board that the record be appropriately purged, modified or supplemented by explanatory notation. Notification of the council's recommendation and subsequent orders by the board to delete, amend or supplement the records, shall be disseminated by the board to any individuals or agencies to which the records in question have been communicated, as well as to the individual whose records have been ordered so altered within ten days of receipt of the council's recommendation. Failure of the board to act shall be deemed a decision of the board.

Agencies at which criminal offender records are sought to be inspected shall prescribe reasonable hours and places of inspection, and shall im-

pose such additional restrictions as may be approved by the board, including fingerprinting, as are reasonably necessary both to assure the record's security and to verify the identities of those who seek to inspect them.

Section 176. Any individual or agency aggrieved by any order or decision of the board or adverse recommendation of the council or failure of the council to issue findings may appeal such order, recommendation or decision to the superior court in the county in which he is resident or in which the board issued the order or decision from which the individual or agency appeals. The court shall in each such case conduct a de novo hearing, and may order such relief as it finds to be required by equity.

Section 177. Any aggrieved person may institute a civil action in superior court for damages or to restrain any violation of sections one hundred and sixty-eight to one hundred and seventy-five, inclusive. If it is found in any such action that there has occurred a willful violation, the violator shall not be entitled to claim any privilege absolute or qualified, and he shall in addition to any liability for such actual damages as may be shown, be liable for exemplary damages of not less than one hundred and not more than one thousand dollars for each violation, together with costs and reasonable attorneys' fees and disbursements incurred by the person bringing the action.

The district may construct and maintain on the lands acquired and held under this act proper dams, wells, springs, reservoirs, standpipes, tanks, pumping plants, buildings, fixtures and other structures including also the establishment and maintenance of filter beds and purification works or systems, and may make excavations, procure and operate machinery and provide such other means and appliances, and do such other things as may be necessary for the establishment and maintenance of complete and effective water works; and for that purpose may construct pipe lines, wells and reservoirs and establish pumping works, and may construct, lay, acquire and maintain aqueducts, conduits, pipes and other works under or over any land, water courses, railroads, railways and public or other ways, and along such ways, in said town, in such manner as not unnecessarily to obstruct the same; and for the purposes of constructing, laying, maintaining, operating and repairing such aqueducts, conduits, pipes and other works, and for all proper purposes of this act, the district may dig up or raise and embank any such lands, highways or other ways in such manner as to cause the least hindrance to public travel on such ways; provided, that the manner in which all things are done upon any such way shall be subject to the direction of the selectmen of the town of Newbury. The district may enter upon any lands for the purpose of making surveys, test wells or pits and borings, and may take or otherwise acquire the right to occupy temporarily any lands necessary for the construction of any work or for any other purpose authorized by this act.

The district is empowered and authorized to sell and distribute water to any adjacent town, district or any part thereof on such terms and conditions and for such consideration as the commissioners may determine.

SECTION 3. Any person sustaining damages in his property by any taking under this act or any other thing done under authority thereof may recover such damages from the district under said chapter seventy-nine; but the right to damages for the taking of any water, water right or water source, or for any injury thereto, shall not vest until water is actually withdrawn or diverted under authority of this act.

SECTION 4. For the purpose of paying the necessary expenses and liabilities incurred under this act, other than expenses of maintenance and operation, the district may borrow from time to time such sums as may be necessary, not exceeding, in the aggregate, one million dollars, and may issue bonds or notes therefor, which shall bear on their face the words, Oldtown Water District Loan, Act of 1972. Each authorized issue shall constitute a separate loan, and such loans shall be payable in

not more than thirty years from their dates. Indebtedness incurred under this act shall be subject to the provisions of chapter forty-four of the General Laws pertaining to such districts.

SECTION 5. The district shall, at the time of authorizing said loan or loans, provide for the payment thereof in accordance with section four of this act; and, when a vote to that effect has been passed, a sum which, with the income derived from water rates, will be sufficient to pay the annual expense of operating its water works and the interest as it accrues on the bonds or notes issued as aforesaid by the district, and to make such payments on the principal as may be required under this act, shall without further vote be assessed upon the district by the assessors of said town of Newbury annually thereafter until the debt incurred by said loan or loans is extinguished.

SECTION 6. Any land taken or acquired under this act shall be managed, improved and controlled by the board of water commissioners hereinafter provided for, in such manner as they shall deem for the best interest of the district. All authority vested in said board by this section shall be subject to section nine.

SECTION 7. Whenever a tax is duly voted by the district for the purposes of this act, the clerk shall send a certified copy of the vote to the assessors of said town, who shall assess the same on property within the district in the same manner in all respects in which town taxes are required by law to be assessed; provided, that no estate shall be subject to any tax assessed on account of the system of water supply under this act if, in the judgment of the board of water commissioners hereinafter provided for, after a hearing, due notice whereof shall have been given, such estate is so situated that it can receive no aid in the extinguishment of fire from the said system of water supply, or if such estate is so situated that the buildings thereon, or the buildings that might be constructed thereon, could not be supplied with water from said system in any ordinary or reasonable manner; but all other estates in the district shall be deemed to be benefited and shall be subject to such tax. A certified list of the estates exempt from taxation under the provisions of this section shall annually be sent by said board of water commissioners to said assessors, at the same time at which the clerk shall send a certified copy of the vote as aforesaid. The assessment shall be committed to the town collector, who shall collect said tax in the manner provided by law for the collection of town taxes, and shall deposit the proceeds thereof with the district treasurer for the use and benefit of the district. The district may collect interest on overdue taxes in the manner in which interest is authorized to be collected on town taxes.

SECTION 8. Any meeting of the voters of the territory included within the boundaries set forth in section one to be held prior to the acceptance of this act, and any meeting of the voters of the district to be held prior to the qualification of a majority of the water commissioners, shall be called, on petition of ten or more legal voters therein, by a warrant from the selectmen of said town, or from a justice of the peace, directed to one of the petitioners, requiring him to give notice of the meeting by posting copies of the warrant in two or more public places in the district seven days at least before the time of the meeting. Such justice of the peace, or one of the selectmen, shall preside at such meeting until a clerk is chosen and sworn, and the clerk shall preside until a moderator is chosen. At any meeting held hereunder prior to the acceptance of

this act, after the choice of a moderator for the meeting the question of the acceptance of this act shall be submitted to the voters, and if it is accepted by a majority of the voters present and voting thereon it shall thereupon take effect, and the meeting may then proceed to act on the other articles in the warrant. After the qualification of a majority of the water commissioners, meetings of the district shall be called by warrant under their hands, unless some other method be provided by by-law or vote of the district.

SECTION 9. The district shall, after the acceptance of this act as aforesaid, elect by ballot, either at the same meeting at which this act shall have been accepted, or thereafter, at an annual meeting or at a special meeting called for the purpose, three persons, inhabitants of and voters in said district, to hold office, one until the expiration of three years, one until the expiration of two years, and one until the expiration of one year, from the day of the next succeeding annual district meeting, to constitute a board of water commissioners; and at every annual district meeting following such next succeeding annual district meeting one such commissioner shall be elected by ballot for the term of three years. The date of the next annual meeting shall be fixed by by-law or by vote of the board of water commissioners, but in no event shall it be later than fifteen months subsequent to the date on which the water commissioners were first elected. All the authority granted to said district by this act, except sections four and five, and not otherwise specifically provided for, shall be vested in said board of water commissioners, who shall be subject, however, to such instructions, rules and regulations as the district may by vote impose. At the meeting at which said water commissioners are first elected and at each annual district meeting held thereafter, the district shall elect by ballot, each for a term of one year, a clerk and a treasurer of the district. The treasurer shall not be a water commissioner, and shall give bond to the district in such an amount as may be approved by said water commissioners and with a surety company authorized to transact business in the commonwealth as surety. A majority of said water commissioners shall constitute a quorum for the transaction of business. Any vacancy occurring in said board from any cause may be filled for the remainder of the unexpired term by said district at any legal meeting called for the purpose. No money shall be drawn from the treasury of the district on account of its water works except upon a written order of said water commissioners or a majority of them.

SECTION 10. Said board of water commissioners shall fix just and equitable prices and rates for the use of water, and shall prescribe the time and manner of payment. The income of the water works shall be appropriated to defray all operating expenses, interest charges and payments on the principal as they shall accrue upon any bonds or notes issued under authority of this act. If there should be a net surplus remaining after providing for the aforesaid charges, it may be appropriated for such new construction as said water commissioners may recommend, and in case a surplus should remain after payment for such new construction the water rates shall be reduced proportionately. Said water commissioners shall annually, and as often as the district may require, render a report upon the condition of the works under their charge, and an account of their doings, including an account of receipts and expenditures.

SECTION 11. The district may adopt by-laws, prescribing by whom and how meetings of the district may be called, notified, and conducted; and, upon the application of ten or more legal voters in the district, meetings may also be called by warrant as provided in section eight. The district may also establish rules and regulations for the management of its water works, not inconsistent with this act or with any other provision of law, and may choose such other officers not provided for in this act as it may deem necessary or proper.

SECTION 12. Whoever wilfully or wantonly corrupts, pollutes or diverts any water obtained or supplied under this act, or wilfully or wantonly injures any reservoir, well, standpipe, aqueduct, pipe or other property owned or used by the district for any of the purposes of this act, shall forfeit and pay to the district three times the amount of damages assessed therefor, to be recovered in an action of tort, and upon conviction of any of the above wilful or wanton acts shall be punished by a fine of not more than one hundred dollars or by imprisonment for not more than six months.

SECTION 13. Upon a petition in writing addressed to said board of water commissioners requesting that certain real estate, accurately described therein, located in said town and abutting on said district and not otherwise served by a public water supply be included within the limits thereof, and signed by the owners of such real estate, or a major portion of such real estate, said water commissioners shall cause a duly warned meeting of the district to be called, at which meeting the voters may vote on the question of including said real estate within the district. If a majority of the voters present and voting thereon vote in the affirmative the district clerk shall within ten days file with the town clerk of said town and with the state secretary an attested copy of said petition and vote; and thereupon said real estate shall become and be part of the district and shall be holden under this act in the same manner and to the same extent as the real estate described in section one.

SECTION 14. This act shall take full effect upon its acceptance by a majority vote of the voters of the territory included within said district by section one of this act present and voting thereon, by the use of a check list, at a district meeting called, in accordance with section eight, within four years after its passage. *Approved July 19, 1972.*
