not more than eighteen candidates for city councillor, the candidates whose names are so posted shall be deemed to have been nominated for said office, and the preliminary election for the purposes of nominating candidates therefor shall be dispensed with; if there are so posted in respect of any one zone the names of not more than two candidates for school committeeman from that zone, the candidates whose names are so posted shall be deemed to have been nominated for said office, and the preliminary election in such district for the purpose of nominating candidates for said office shall be dispensed with; and if there are so posted in respect of any one zone the names of not more than four candidates for school congressman from that zone, the candidates whose names are so posted shall be deemed to have been nominated for said office, and the preliminary election in such district for the purpose of nominating candidates for said office shall be dispensed with.

SECTION 27. Said chapter 452 is hereby further amended by striking out section 59, as so appearing, and inserting in place thereof the following section: —

On the ballots and voting machine ballot labels for use at each of said elections there shall, as a direction to the voter, be printed in capital letters, near the title of each office to be voted for, the words "Vote for (*here insert in words the number of candidates specified in this section with respect to such office*)". The election commission, when drawing under section fifty-eight the position on the ballot of the candidates for nomination at every preliminary election, shall draw the positions of all candidates for mayor, if any are to be drawn, before drawing the position of any candidate for city councillor or school committeeman, and shall draw the positions of all candidates for city councillor, if any are to be drawn, before drawing the position of any candidate for school committeeman, and shall draw the positions for all candidates for school committeeman, if any are to be drawn, before drawing the position of any candidate for school congressman. The election commission shall number consecutively, regardless of office, all candidates drawn, the candidate first drawn being assigned the number one and the candidate last drawn being assigned the last number assigned. No position shall be drawn for, nor shall any number be assigned to, any candidate deemed under section fifty-seven C to have been nominated; nor shall any number be assigned to any blank space provided under section sixty-four or to any sticker candidate, so called; and no vote by sticker, which term shall not be construed to include the slip provided for by section fifty-seven B, shall be counted if any candidate number appears thereon. The

On the ballots and voting machine ballot labels for use at every preliminary election there shall, as an aid to the voter, be printed in numerals, before the name of each candidate and with type the same size as the name, the number assigned to the candidate by the election commission under this paragraph.

SECTION 28. Said chapter 452 is hereby further amended by striking out section 61, as so appearing, and inserting in place thereof the following section: —

If a preliminary election results in a tie vote among candidates for nomination receiving the lowest number of votes which, but for said tie, would entitle a person receiving the same to be deemed to have been nominated, all persons participating in said tie vote shall be deemed to have been nominated, although in consequence there be printed on the official ballot to be used at the regular election names to a number exceeding twice the number to be elected.

SECTION 29. Notwithstanding the provisions of any general or special law, no school committee shall be elected at the regular municipal election to be held in the city of Boston in the year nineteen hundred and seventy-five. SECTION 30. The school department of the city of Boston shall be under the charge of a superintendent who shall be appointed by the mayor for a term expiring on the first day of July following the next biennial municipal election at which a mayor is elected, subject, however, to the approval of the city-wide advisory committee created by section forty-three of this act. The mayor shall consult with said advisory committee in the formulation of job criteria and in the search and screening process. Said advisory committee may recommend to the mayor one or more candidates for appointment to the office of superintendent. If said advisory committee shall

decline to approve a candidate nominated by the mayor for appointment to the office of superintendent, the mayor may re-nominate such candidate one time but, if said advisory committee shall again decline to approve such candidate, he may not renominate such candidate thereafter. The mayor may nominate an incumbent superintendent for an additional term, but the nomination and appointment of an incumbent shall be subject to the approval of said advisory committee, in every respect, as aforesaid. The mayor, with the approval of said advisory committee, may remove the superintendent, but if in any case said advisory committee shall decline to approve removal of the then superintendent, it shall state, publicly and in writing, its reasons therefore. Said advisory committee may at any time request the mayor to remove the superintendent, and upon receipt of such request the mayor shall within thirty days either remove the superintendent or state, publicly and in writing, his reasons for not doing so. The salary of the superintendent shall be established from time to time by the mayor with the approval of the city council.

SECTION 31. The superintendent, with the approval of the city-wide advisory committee, may create such central management positions as are necessary or convenient to carry out the duties and responsibilities of his office, and likewise with the approval of said advisory committee, may fix the salaries to be paid the persons holding such positions. Persons holding such positions shall be appointed by the superintendent coterminous with the superintendent to serve at his pleasure, subject, in the case of all positions not covered by collective bargaining agreements, to the approval of said advisory committee.

SECTION 32. The superintendent shall divide the city of Boston into school areas each consisting of one or more intermediate school districts. Each area shall be under the charge of an area superintendent who shall be appointed by the superintendent for a term expiring on the first day of July following the next biennial municipal election at which a mayor is elected, subject, however, to the approval of the appropriate area advisory committee created by section thirty-seven of this act. In addition, all the high schools of the city shall be deemed, under the terms of this act, to constitute an area and shall be under the charge of an area superintendent for high schools. Such area superintendent for high schools shall be appointed by the superintendent in the same manner as other area superintendents, except that the appointment of the area superintendent for high schools shall be subject to the approval of the city high school advisory committee created by section forty-two of this act. The superintendent shall consult with the appropriate area advisory committee, or in the case of the area superintendent for high schools, with the city high school advisory committee, in the formation of job criteria and in the search and screening process. SECTION 38. As used in this section, the term "city-wide per pupil formula" shall mean a formula computed by the superintendent with the approval of the city-wide advisory committee for the purpose of allocating the personnel and resources of the school department among the several schools, school districts, and school areas of the city. In the case of any allocation a city-wide per pupil formula shall provide for allocation to each particular school, school district or school area, of a fraction of the total to be allocated which fraction is equal to the ratio between the number of pupils in the school, school district or school area, as the case may be, and the total number of pupils in all similarly situated schools, school districts, or school areas, in the city; provided, however, that the superintendent with the approval of the city-wide advisory committee may make provisions in any city-wide per pupil formula for differential allocations in accordance with the special educational needs of particular schools, school districts, or school areas, as the case may be.

The superintendent shall assign to each school in the city a fixed number of teacher positions according to a city-wide per pupil formula, to be filled under the direction of the principal of each such school. The superintendent shall assign to each of the neighborhood school councils created by section of this act a fixed number of positions in special education and special programs according to a city-wide per pupil formula. The words "operating expenses, maintenance and repairs" shall be deemed to include maintenance and repairs, but not alterations, of school buildings, to include curriculum development and curricular materials other than textbooks and supplies, and to exclude wages and salaries to be paid under the terms of collective bargaining agreements.

(iii) to each area advisory committee to the city high school advisory committee and to the city-wide advisory committee, an amount of money sufficient to provide for the costs of conducting meetings, office expenses, and informing the people of the area of its work;

This innovation fund shall be exclusively expended in support of innovative programs in the several school districts and across district lines. The superintendent and the city-wide advisory committee shall publish priorities and guidelines for the submission of proposals for the use of monies from the innovation fund on the part of neighborhood school councils and high school councils. Grants shall be made from the innovation fund to neighborhood school councils and high school councils to carry out such proposals as have been selected by a board of independent evaluators annually appointed for the purpose by the superintendent with the approval of the city-wide advisory committee.

SECTION 39. There shall be in each intermediate school district of the city of Boston a neighborhood school council consisting of parents, teachers and residents.

Each neighborhood school council shall be comprised of one parent from each elementary and intermediate school in the district, who shall each be elected by the parents of children in such

school, at an election to be conducted in the month of December in every odd-numbered year by the board of election commissioners of the city, using for the purpose a list of parents of enrolled children certified by the superintendent of schools as of the first day in October of such year, and employing ballots mailed to each such parent and returnable to the board of election commissioners by mail. Any parent eligible to vote in such election may be a candidate, and there shall be no requirement for nomination by signatures or otherwise, but the board of election commissioners may fix a date by which any parent wishing to be a candidate shall be required to signify his intention in a manner to be prescribed by said board of election commissioners. In voting for parents, each parent shall have one vote.

Each neighborhood school council shall also be comprised of one teacher from each elementary and intermediate school in the area, who shall each be elected by all the teachers in such school, at an election to be conducted under the supervision of the faculty senate, or other like body, of such school, on a convenient date in the month of December in every odd-numbered year. For the purposes of this section, the term "teacher" shall mean every person holding a professional position within a school, including teacher aides, but excluding principals, assistant principals, headmasters, assistant headmasters, and persons acting in the position of principal, assistant principal, headmaster, or assistant headmaster. Teachers regularly assigned to more than one school may vote in any one school to which they are regularly assigned, but not in more than one such school. In voting for teachers, each teacher shall have one vote.

Each neighborhood school council shall also be comprised of five residents of the school district, who shall be elected at large by the residents of the school district at an election to be conducted by the board of election commissioners of the city on the first Tuesday in December of each odd-numbered year. Any person eighteen years of age and over who was on the first day of October of such year a resident of the school district shall be eligible to vote in such election. The board of election commissioners may require reasonable proof of residence as a condition of voting. Any person eligible to vote in such election may be a candidate; provided, however, that no person shall be a candidate for election at large to a neighborhood school council as a resident if he is also a candidate for election to the same neighborhood school council as a parent or a teacher. Any person desiring to be a candidate for election at large to a neighborhood school council as a resident shall file a nominating petition with the board of election commissioners at least forty-five days prior to the date fixed for the election at large of residents. The nominating petition of any candidate seeking to be elected at large as a resident shall be subscribed by the signatures of at least fifty residents of the school district. The provisions of law relative to the signing of nomination papers of candidates for elective office and to the identification and certification of names thereon and

filing objections thereto shall apply, so far as apt, to nominating petitions filed under this section. In voting for residents to be elected at large, each resident shall have five votes.

Each member of a neighborhood school council shall serve for a term of two years expiring on the first Monday in January of every even-numbered year. Any vacancy in the office of a parent or teacher shall be filled for the unexpired term by a special election among parents or teachers as aforesaid. Any vacancy in the office of an at large elected resident shall be filled for the unexpired term by a special election among parents or teachers as aforesaid. Any vacancy in the office of an at large elected resident shall be filled for the unexpired term by the person who, at the election next preceding, received the highest number of votes of any person not elected to membership, who is eligible and willing to serve, or, if there is no such person eligible and willing to serve, then by a resident of the district eligible to vote for the office of at large elected resident member of the neighborhood school council elected by the remaining members who shall have been elected at large. No person elected as a parent or teacher shall cease to be eligible to hold office on account of termination of his status as a parent or teacher; but any person elected at large as a resident shall cease to be eligible to hold office if he shall cease to be a resident of the school district. In the year nineteen hundred and seventy-nine, and in any subsequent year, if the total number of parents, teachers, residents, or students, as the case may be, casting ballots for any election of parent members, teacher members, at large elected members, or, in the case of the high school councils created by section forty-four, student members, shall be less than ten per cent of the total number of those eligible to vote in each such category, then the city-wide advisory council shall set aside and declare void the election of such parent members, teacher members, at large elected members, or student members, as the case may be, and shall elect such number of parents, teachers, residents, or students, as the case may be, who are eligible to be elected and are willing to serve, as shall be necessary to fill the positions so becoming vacant. Members of neighborhood school councils shall serve without compensation.

Each neighborhood school council shall organize, as soon as possible after the first Monday in January of every year, by the election of a chairman, a secretary and such other officers as may be convenient. A neighborhood school council shall meet only after notice seasonably given by the chairman, and a majority of all the members shall be necessary to constitute a quorum for the transaction of business.

Each neighborhood school council shall determine the school attendance zones within the district. Upon the occurrence of a vacancy in the office of principal or assistant principal in any of the schools of the district, the neighborhood school council shall recommend to the area superintendent not less than three candidates, unless the neighborhood school council and the area super-

Each neighborhood school council shall annually provide to the area superintendent a written evaluation of the performance of all principals and assistant principals in the schools of the district. If the neighborhood school council recommends removal of any principal or assistant principal, the area superintendent, upon receipt of such request, shall, within thirty days either remove the principal or assistant principal or state, publicly and in writing, his reasons for not doing so.

Each neighborhood school council shall determine the allocation among the several schools in the district of money allocated to it by the superintendent and the purposes for which the same shall be expended. All money to be expended pursuant to allocation by a neighborhood school council shall be expended in accordance with provisions of law relating to expenditure of public funds. Each neighborhood school council shall annually in March publish a plan for allocation of funds as aforesaid in the forthcoming fiscal year.

All recommendations submitted by a principal for the granting of tenure, or the termination of employment, of any teacher shall be submitted to the appropriate neighborhood school council for review and comment prior to being submitted to the area superintendent. If the neighborhood school council shall disagree with the school principal making such recommendation, the area superintendent shall personally inquire into the matter before making a final decision.

Each neighborhood school council shall select one resident or parent and one teacher to serve on the area advisory committee for the area within which the district lies.

Each neighborhood school council shall, upon receipt of written complaint, initiate an investigation by the area superintendent of allegations of improper, illegal or unprofessional conduct or incompetent performance on the part of any employee of the school department within the district. Each neighborhood school council may initiate requests for federal, state or private grants of money or other assistance for school programs within the district, and the superintendent shall do all things, if any, necessary to conform such requests to the requirements of the granting agency. Each neighborhood school council shall approve the expenditure of all such funds within the district, anything to the contrary in section fifty-three A of chapter forty-four of the General Laws notwithstanding, but in the event that refusal to approve expenditure of such funds on the part of any neighborhood school council precludes receipt or expenditure of similar funds by any other neighborhood school council, then the city-wide advisory council may authorize the expenditure of such funds notwithstanding the disapproval of the neighborhood school council.

Each neighborhood school council shall maintain lists of all persons previously found by the superintendent to be eligible for employment who are candidates for appointment to professional positions in the service of the school department within the dis-

trict. Such lists shall set forth in the case of each category of professional employment the names of all candidates in order of preference according to a method of evaluation determined by the neighborhood school council. Any vacancy in a professional position in the school district, other than a vacancy in the position of principal or assistant principal, shall be filled by the area superintendent by appointment of the person ranking highest on the appropriate list, who is willing to accept the appointment.

SECTION 40. Such assistance shall be granted to persons who, on account of age or disability, qualify for supplemental security income granted pursuant to title XVI and may, based on need, be granted to individuals who would, but for their income, be eligible for such supplemental security income.

The department shall establish, subject to the approval of the secretary of the executive office of human services, standard levels for state supplementary payments for the aged and disabled. Such payments may vary by category, by marital status, and by living arrangements to the extent allowed by title XVI and the regulations promulgated thereunder.

Section 2. Effective July first of every year, the level of any state supplementary payment authorized by section one plus the level of federal supplemental security income in effect at such time shall be increased by a percentage amount equal to the percentage

Section 3. The commissioner of public welfare, in this chapter called the commissioner, shall enter into an agreement with the Secretary of the United States Department of Health, Education and Welfare, under which said Secretary shall, on behalf of the commonwealth, administer the program of state supplementary payments authorized by section one. For the purposes of this paragraph a year of previous service as a special justice shall be computed by dividing the number of days of actual sittings in such capacity by two hundred and sixty, whether or not such sittings occurred in one calendar or fiscal year. A chief justice, justice, associate justice, judge or associate judge or any such court or courts shall be deemed to have served continuously, although a period not in excess of thirty days shall have intervened between the holding of one judicial office and the holding of another judicial office.

A justice of a district court who is retired under Article LVIII of the Amendments to the Constitution or who resigns in accordance with the provisions of this section, and who has served continuously for ten years prior to such retirement or resignation in the appellate division of a district court or in the superior court under the provisions of sections fourteen B to fourteen E of chapter two hundred and twelve, or corresponding provisions of earlier laws, or as a member of the administrative committee of the district courts, shall, in addition to all other amounts received under the provisions of this section, be entitled to receive a pension for life equal to three fourths of the average annual compensation paid him for such service during the ten years next preceding such retirement or resignation.

equal to three fourths of his average yearly earnings as a special justice for any three years of service in said office, whether consecutive or not, for which such earnings were the highest.

A special judge of probate and insolvency who shall be retired under Article LVIII of the Amendments to the Constitution or a special judge of probate who is sixty-five years of age or over and shall resign his office after having served as a special judge of probate for at least ten years shall be entitled to receive a pension or retirement allowance for life at an annual rate equal to three fourths of his average yearly earnings as special judge of probate during the period of ten years next preceding such retirement or resignation or at an annual rate equal to three fourths of his average yearly earnings as such special judge of probate during the entire period of his service in said office, whichever is the higher rate, but not exceeding in any event an annual rate equal to three fourths of the annual rate of salary of the judge of probate for the county in which he was appointed.

A special justice of a district court, including the municipal court of the city of Boston, and a special justice of a juvenile court or a special judge of probate and insolvency who has served three years or more but who has not served ten years upon his retirement under Article XCVIII of the Amendments to the Constitution at age seventy shall thereupon be entitled to receive a pension or retirement allowance for life at an annual rate equal to ten per cent of three fourths of his average yearly earnings as a special justice for any three years of service in said office, whether consecutive or not, for which such earnings were the highest multiplied by the number of years and fractions thereof consisting of a month or more which he has served in such office or offices.

Said special justices appointed on or after January second, nineteen hundred and seventy-five shall be subject to the requirements of paragraphs (a) and (b) of section sixty-five D provided that any such special justice who, upon resignation or retirement, does not meet retirement requirements set forth in this section shall have returned to him all funds previously withheld and deducted under the provisions of paragraph (b) of said section sixty-five D plus interest, within thirty days of such retirement or resignation.

Pensions under this section shall be paid from the same source and in the same manner as the salaries of the justices of the court from which the special justice was retired or resigned, provided that in the case of special justices subject to the requirements of paragraphs (a) and (b) of section sixty-five D the payment of retirement allowances, annuities, pensions and refunds shall be made pursuant to the provisions of paragraph (h) of said section sixty-five D.

Section 65C. A chief justice, justice, associate justice, judge, associate judge, or special justice, hereinafter in this section called judge, who is retired or who resigns and who is entitled to a pension or retirement allowance for life under provisions of section sixty-five A, sixty-five B, or sixty-five D may elect to receive, in lieu

thereof, a pension or retirement allowance for life at a lesser annual rate with provision that upon his death, leaving as a survivor a surviving spouse who was his spouse at the time of his retirement or resignation, two thirds of such pension or retirement allowance for life at a lesser annual rate shall be paid to such surviving spouse. Such lesser annual rate shall be determined so that the value, on the date of such retirement or resignation, of the prospective payments to such judge and to such surviving spouse shall be the actuarial equivalent of the value of the pension or retirement allowance for life to which such judge is entitled under the provisions of section sixty-five A, sixty-five B or sixty-five D, as the case may be. Such election shall be in writing on a prescribed form and filed with the appropriate retiring authority at the time of retirement or resignation or within thirty days thereafter. The computation of said actuarial equivalent shall be subject to supervision and verification in accordance with the provisions of section twenty-one by the actuary appointed by the commissioner of insurance.

If a judge, who would be entitled, upon resigning, to a pension or retirement allowance for life under sections sixty-five A, sixty-five B or sixty-five D, dies before resigning, the judge's surviving spouse shall receive a pension or retirement allowance for life of two thirds of such pension or retirement allowance for life at a lesser annual rate to which such judge would have been entitled had he, as of the date of death, resigned and had such pension or retirement allowance for life at a lesser annual rate been computed under the first paragraph.

If a judge forty-five years of age or over but under age seventy who would be entitled, upon resigning, to a pension or retirement allowance for life under sections sixty-five A or sixty-five D, except for not having attained age seventy, or if a judge forty-five years of age or over but under age sixty-five, who would be entitled upon resigning to a pension or retirement allowance under said section sixty-five A or sixty-five D, except for not having attained age sixty-five, or if a judge fifty-five years of age or over but under age sixty-five, would be entitled upon resigning to a pension or retirement allowance for life under section sixty-five B, except for not having attained age sixty-five dies before resigning, the judge's surviving spouse shall receive a pension or retirement allowance for life computed as provided in the second paragraph except that, in making such computation the proportion of the annual rate of salary payable to a judge under section sixty-five A or sixty-five D, or the proportion of the average yearly earning for the required years of service payable to a judge under section sixty-five B shall be reduced by one per cent for each year or part thereof by which the date of death precedes the attainment of the age at which the judge would have received, upon resigning, his pension or retirement allowance for life under section sixty-five A, sixty-five B or sixty-five D respectively.

Pensions under this section payable to surviving spouses shall

be paid from the same source and in the same manner as the salaries of like judicial officers of the court from which the judge was retired or resigned or of which he was a judge at the time of his death are paid. Retirement allowances under this section payable to surviving spouses of judges subject to the requirements of paragraphs (a) and (b) of section sixty-five D shall be paid pursuant to the provisions of paragraph (h) of section sixty-five D.

The provisions of the second and third paragraph shall not apply unless such surviving spouse and such deceased judge were living together at the time of such judge's death or, if living apart, they were living apart, in the opinion of the appropriate retiring authority, for justifiable cause other than desertion or moral turpitude on the part of such surviving spouse. Payments under said second and third paragraph shall terminate upon the remarriage of such surviving spouse.

In determining whether a judge who was appointed prior to January second, nineteen hundred and seventy-five, has served in any office or offices at least ten years continuously and would be for the purposes of the second or third paragraphs of this section, entitled to a pension for life under section sixty-five A or sixty-five B the period, not exceeding one year, of his wartime service as defined in section twenty-one of chapter thirty-one, whether before or after his appointment as a judge, shall be added to and deemed continuous with the period of his service in any such office or offices.

In determining whether a judge who was appointed prior to January second, nineteen hundred and seventy-five, has served in any such office or offices at least ten years continuously and would be, for the purposes of the second or third paragraph of this section, entitled to a pension for life under section sixty-five A or sixty-five B, each three years spent by him in the service of the commonwealth or of any county, city or town thereof shall count as one year or creditable service and each such year so credited, but in no event to exceed more than four years of such creditable service, shall be added to and deemed continuous with the period of his service in any such office or offices.

If a judge subject to the provisions of paragraphs (a) and (b) of section sixty-five D dies before resigning or before retiring and if the surviving spouse is not entitled to a pension or retirement allowance under the provisions of this section, or if a judge subject to the provisions of paragraphs (a) and (b) of said section sixty-five D dies before resigning or before retiring and if there is no surviving spouse who is eligible to receive a pension or retirement allowance under the provisions of this section, all funds previously withheld and deducted under the provisions of paragraph (b) of said section sixty-five D plus interest shall be returned to the estate of the deceased.

Section 65D. A chief justice or any associate justice of the supreme judicial court, the appeals court, the superior court, or the municipal court of the city of Boston, any judge of a housing court, other than the housing court of the city of Boston, any judge

or associate judge of the land court, any judge of probate and insolvency, a justice of any district court other than the municipal court of the city of Boston, or a justice of a juvenile court, hereinafter referred to as judges, appointed on or after January second, nineteen hundred and seventy-five, and who is not included under sections sixty-five A or sixty-five B by way of previous appointment to judicial office, shall be subject to the following retirement provisions. No other retirement provisions shall be applicable to judges first appointed on or after January second, nineteen hundred and seventy-five.

(a) Any such judge appointed on or after January second, nineteen hundred and seventy-five shall be subject to this section within ninety days of his appointment.

(b) There shall be deducted and withheld from the salary of each judge appointed on or after January second, nineteen hundred and seventy-five, a sum equal to seven per cent of the salary of such judge. The amounts so deducted and withheld from the salary of each such judge shall, in accordance with such procedures as may be prescribed by the retirement board of the retirement system established for the particular governmental unit from which such judge receives his regular compensation, be deposited to the credit of a fund to be known as the "judges retirement fund". The amounts so deducted shall be credited to the individual accounts of the respective members for whom such deductions have been made in such manner as may be prescribed by the retirement board.

(c) Each such judge first appointed to judicial office on or after January second, nineteen hundred and seventy-five and who (1) shall be retired under Article LVIII of the Amendments to the Constitution, or (2) shall have served in such office or offices for at least fifteen years continuously and has attained the age of sixty-five years but not having attained the age of seventy, and shall resign his office, shall thereupon be entitled to receive a retirement allowance for life at an annual rate equal to three fourths of the annual rate of salary payable to him at the time of such retirement or resignation. For the purpose of clause (2), a year of service as a special justice shall be computed by dividing the number of days of actual sittings in such capacity by two hundred and sixty, whether or not such sittings occurred in one calendar or fiscal year, provided that such judge deposits into the judges' retirement fund an amount equal to seven per cent of the compensation received by him during such period of service as a special justice plus regular interest to the date of such deposit. A judge shall be deemed to have served continuously, although a period not in excess of thirty days shall have intervened between the holding of one judicial office and the holding of another judicial office.

(d) Any such judge who does not qualify for a retirement allowance under the provisions of paragraph (c) upon his retirement under Article XCVIII of the Amendments to the Constitution at age seventy shall thereupon be entitled to receive a retirement

allowance for life at an annual rate equal to ten per cent of three fourths of the salary of the office from which he retired at the time of such retirement multiplied by the number of years not exceeding ten, and fractions thereof consisting of a month or more which he has served in such office or offices. For the purpose of this paragraph, a year of service as a special justice shall be computed by dividing the number of days of actual sittings in such capacity by two hundred and sixty, whether or not such sittings occurred in one calendar or fiscal year, provided that such judge deposits into the judges' retirement fund an amount equal to seven per cent of the compensation received by him during such period of service as a special justice plus regular interest to the date of such deposit. A judge shall be deemed to have served continuously, although a period not in excess of thirty days shall have intervened between the holding of one judicial office and the holding of another judicial office.

(e) A justice of a district court who is retired under Article LVIII of the Amendments to the Constitution or who resigns in accordance with the provisions of this section, and who has served continuously for ten years prior to such retirement or resignation in the appellate division of a district court or in the superior court under the provisions of sections fourteen B to fourteen E of chapter two hundred and twelve, or corresponding provisions of earlier laws, or as a member of the administrative committee of the district courts, shall, in addition to all other amounts received under the provisions of this section, be entitled to receive a retirement allowance for life equal to three fourths of the average annual compensation paid him for such services during the ten years next preceding such retirement or resignation, provided that such justice deposits into the judges' retirement fund an amount equal to seven per cent of the compensation received by him during such period of service plus regular interest to the date of such deposit.

(f) If any such judge resigns from office and does not meet the requirements for retirement or resignation set forth in paragraph (c) or (d) of this section the amount credited to his individual account plus interest shall be returned to him within thirty days of such resignation.

(g) The provisions of section sixty-five C, shall apply to those judges first appointed on or after January second, nineteen hundred and seventy-five.

(h) The payment of pensions, annuities, retirement allowance and refunds to the various judges who are retired or who resign under the provisions of this section, to the various judges subject to the provisions of the fourth paragraph of section sixty-five B, and to the surviving spouses of such judges under the provisions of section sixty-five C shall be made from the judges' retirement fund, provided that any amount needed for the payment of such pensions, annuities, retirement allowances or refunds in excess of the amount on deposit in the judges' retirement fund shall be paid from the same source from which the salaries of like judicial officers of the

courts of such various judges are paid.

SECTION 4. Paragraph (a) of section 102 of said chapter 32, as appearing in section 7 of chapter 793 of the acts of 1972, is hereby amended by inserting after the word "county", in line 12, the words: — , including members of the judiciary first appointed on or after January second, nineteen hundred and seventy-five.

SECTION 5. Notwithstanding the provisions of section sixty-five A of chapter thirty-two of the General Laws, amended by section three of this act, a chief justice or any associate justice of the supreme judicial court, the appeals court, the superior court or the municipal court of the city of Boston, any judge of a housing court, other than the housing court of the city of Boston, any judge or associate judge of the land court, any judge of probate and insolvency, a justice of any district court other than the municipal court of the city of Boston, or a justice of a juvenile court who was an incumbent of such office on January fourth, nineteen hundred and seventy-three and who is or has been retired under the provisions of Article XCVIII of the Amendments to the Constitution upon attaining the age of seventy shall thereupon be entitled to receive a pension for life at an annual rate equal to three-fourths of the annual rate of salary payable to him at the time of such retirement, to be paid from the same source and in the same manner as the salaries of like judicial officers of his court are paid.

Any such judge who is retired and who is entitled to a pension for life under the foregoing provision may elect to receive, in lieu thereof, a pension for life at a lesser annual rate with the provision that upon his death, leaving as a survivor a surviving spouse who was his spouse at the time of his retirement, two-thirds of such pension for life at a lesser annual rate shall be paid to such surviving spouse. Such lesser annual rate shall be determined so that the value, on the date of such retirement, of the prospective payments to such judge and to such surviving spouse shall be the actuarial equivalent of the value of the pension for life to which such judge is entitled under the provisions of the first paragraph. Such election shall be in writing on a prescribed form and filed with the appropriate retiring authority at the time of retirement or within thirty days after becoming eligible for such pension or within thirty days after passage of this act whichever comes later. The computation of said actuarial equivalent shall be subject to supervision and verification in accordance with the provisions of section twenty-one of chapter thirty-two of the General Laws by the actuary appointed by the commissioner of insurance.

If any such judge forty-five years of age or over but under age seventy dies while in office as a justice or judge of any such court leaving as a survivor a surviving spouse who was his spouse at the time of death, the judge's surviving spouse shall receive a pension for life computed as provided in the second paragraph except that in making such computation the proportion of the annual rate of salary payable to such judge under the first paragraph shall be reduced by one per cent for each year or part thereof by which the

date of death precedes the attainment of age seventy.

SECTION 6. Any justice or judge who has resigned his position to become chief justice or an associate justice of the appeals court prior to the effective date of section three of this act shall be deemed to have served continuously for the purposes of said section.

SECTION 7. Notwithstanding any provisions of section three of this act to the contrary, the provisions of sections sixty-five A, sixty-five B, and sixty-five C of chapter thirty-two of the General Laws in effect immediately prior to the effective date of said section three shall remain in effect and apply to appointments to the offices referred to therein which are made on or after said effective date and prior to January second, nineteen hundred and seventy-five.

SECTION 8. Notwithstanding any provisions of section sixty-five C of chapter thirty-two of the General Laws; amended by section three of this act to the contrary, those special justices of the district courts who were retired on January fourth, nineteen hundred and seventy-three under Article XCVIII of the Amendments to the Constitution shall have thirty days after the passage of this act to make the election provided for in said section sixty-five C.

SECTION 9. This act shall take effect upon its passage, except as to those special justices of the district courts who were retired under Article XCVIII of the Amendments to the Constitution on January fourth, nineteen hundred and seventy-three, and as to them, this act shall take effect as of January fourth, nineteen hundred and seventy-three, and section five of this act shall also take effect as of said January fourth, nineteen hundred and seventy-three.

Chap. 1214. AN ACT FURTHER REGULATING THE LICENSING OF PROFESSIONAL BOXERS.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to grant to the state boxing commission discretion immediately to permit an amateur boxer under the age of eighteen but over the age of sixteen to box in the commonwealth as a professional boxer, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 2. Chapter 23B of the General Laws is hereby amended by inserting after section 10 the following section: —

Section 10A. The department may enter into a contract with a local housing authority for the purpose of assisting housing development by expending such monies as may be appropriated for the purpose of making non-interest bearing advances to housing authorities organized under the provisions of chapter one hundred and twenty-one B to enable them to construct low rent housing projects, as defined in said chapter one hundred and twenty-one B, provided the department shall, pursuant to regulations made by it, make the following findings: (1) there is a reasonable anticipation that financing arrangements satisfying the requirements of chapter one hundred and twenty-one B will be obtained for said project, and, (2) the project site is suitable, the need for housing of the type proposed in the area to be served is demonstrated, and the likelihood that the project will provide low-income housing is great. The proceeds of such advances may be used only to defray the development costs of such project incurred prior to initial advance funds in accordance with the provisions of said chapter one hundred

and twenty-one B. Such costs may include, but shall not be limited to (a) payments for options to purchase properties on the proposed housing project site, deposits on contracts of purchase, or with prior approval, payment for the purchase of such properties; (b) legal and organizational expenses including payment of attorney's fees, project manager and clerical staff salaries, office rent and other incidental studies; advances for planning, engineering and architectural work; and, (c) such other expenses incurred by the authority as the department may deem appropriate to effectuate the purposes of this section. The housing authority shall reimburse the commonwealth for all monies advanced under this section from the proceeds of any bonds or notes issued under sections thirty-four or forty-one of said chapter one hundred and twenty-one B of the General Laws.

Any monies so reimbursed shall be credited to the General Fund.

SECTION 3. Section 1 of chapter 60 of the General Laws, as most recently amended by chapter 37 of the acts of 1943, is hereby amended by inserting after the introductory paragraph the following: —

"Abandoned Property", property that is unused, unoccupied, and in such a deteriorated condition as to be uninhabitable or a danger to life or limb. As used in the above sentence unoccupied shall mean without lawful occupants.

SECTION 4. Section 45 of said chapter 60, as most recently amended by section 2 of chapter 716 of the acts of 1971, is hereby amended by striking out the last sentence and inserting in place thereof the following sentence: — No sale hereafter made shall give to the purchaser any right to possession of the land until the right of redemption is foreclosed, as hereinafter provided.

SECTION 5. Section 65 of said chapter 60, is hereby amended by striking out the first sentence, as inserted by section 1 of chapter 716 of the acts of 1971, and inserting in place thereof the following sentence: — Except as provided in section sixty-two, whoever then holds the title to land acquired by a sale or taking for taxes may bring a petition in the land court for the foreclosure of all rights of redemption of said land either after six months from the sale or taking, or in case of a city or town, at any time following the sale or taking if the buildings thereon have been found to be abandoned property pursuant to section eighty-one A; provided, however, a petition for the foreclosure of all rights of redemption may be filed at any time following the consent in writing of the record owner.

SECTION 6. Section 79 of said chapter 60, as most recently amended by chapter 353 of the acts of 1968, is hereby amended by striking out the first sentence and inserting in place thereof the following sentence: — After ninety days from the taking or purchase by a town of any parcels of land for non-payment of taxes, the commissioner may, and on written application of the town treasurer shall, inquire into the value of such parcels and the validity of tax titles held thereon.

SECTION 7. Said chapter 60 is hereby further amended by inserting, after section 81, the following section: —

Section 81A. Whenever a city or town shall have purchased or taken land for non-payment of taxes under section forty-three or fifty-three, respectively, and the treasurer of said city or town has reason to believe that the buildings located thereon are unoccupied, he shall forthwith request the inspector of buildings, or such other person designated by the mayor or board of selectmen to perform the duties of the inspector of buildings as defined in section six of chapter one hundred and forty-three, to inspect the buildings. Said inspection may be in addition to and need not be in conjunction with the inspection as performed by the inspector of buildings pursuant to said section six, and shall not preclude a city or town from taking any action prescribed in said chapter one hundred and forty-three, relative to said land.

If the inspector of buildings determines that said buildings are abandoned property he shall notify the record owner, and, if appropriate, the mortgagee in possession or lessee, of his finding. Such notice shall include a statement that the inspection was conducted at the request of the local treasurer and that the failure of the record owner, or other interested party, to correct the conditions described in the notice within thirty days of receipt or publication of the notice will result in proceedings to foreclose the record owner's right of redemption. Such notice may be served in the manner required by law for the service of subpoenas on witnesses in civil cases or may be published. The inspector of buildings shall also, at the time of service or publication, post a copy of the notice in two or more convenient public places.

If at the expiration of the thirty-day period, the inspector of buildings is of the opinion that action has not been initiated to correct the conditions described in the notice, he shall forthwith notify the local treasurer in writing, under penalties of perjury, that the buildings on the land have been found to be abandoned property. Such written notice shall include therein the facts and circumstances which formed the basis of his findings, and a copy of the notice served on the record owner, or if service was by publication, an account of the steps taken to locate the record owner and a copy of the published notice.

Upon receipt of such written notice the treasurer shall immediately notify the commissioner in writing, under the penalties of perjury, of such finding. Said notice to the commissioner shall include a copy of the notice filed by the inspector of buildings, such information appearing in the records of the assessors and of the collector and tending to establish the validity of the tax title on such land, and any further information that the commissioner may deem appropriate.

If the commissioner is of the opinion that the facts and circumstances as found by the inspector of buildings are sufficient to establish that the buildings on the land so taken or purchased are abandoned property and that the facts essential to the validity of the tax title on such land have been adequately established, he shall make an affidavit of such finding which shall be recorded in the

registry of deeds for the district wherein the land lies.

The commissioner shall incorporate in his affidavit the statements of the inspector of buildings and the treasurer, or such portions thereof as the commissioner finds pertinent, and when recorded, shall be prima facie evidence of such facts.

Upon the recording of the affidavit the treasurer shall bring a petition in the land court pursuant to section sixty-five for the foreclosure of all rights of redemptions of said land.

SECTION 8. Chapter 121B of the General Laws is hereby amended by inserting after section 26 the following section: —

Section 26A. The department shall have all the powers of a housing authority under this chapter and be subject to all the limitations on such powers, provided for in this chapter, in order to provide housing for the elderly and for families of low income in any city or town where no housing authority has been organized.

Upon the organization of a local housing authority in such city or town, or of a regional housing authority under section three A, which includes such city or town, all the rights, required or exercised by the department or exercised by the department with respect to such housing shall immediately vest in such local or regional housing authority and the department shall enter into a contract for financial assistance with such local or regional housing authority provided for in this chapter.

The state treasurer may borrow from time to time on the credit of the commonwealth such sums of money as may be necessary for the purpose of meeting payments as authorized by this section, and may issue and renew from time to time notes and bonds of the commonwealth therefor, bearing interest payable at such times and at such rates as shall be fixed by the state treasurer, provided that the annual payment for any one project shall not exceed eight per cent of the project cost, as determined by the department.

To finance the costs of any projects undertaken under section twenty-six, and annual contributions by the commonwealth, as provided for under this chapter, the state treasurer shall, upon request of the governor, issue and sell at public or private sale, notes or bonds of the commonwealth, in an amount to be specified by the governor from time to time, but not exceeding in the aggregate the difference between the amounts authorized, in section forty-one with respect to elderly persons of low-income and in section thirty-four with respect to families of low-income, and the amount of notes or bonds of a housing authority guaranteed by the commonwealth issued to finance the cost of project. The provisions and limitations relating to such notes and bonds, as provided for under this chapter shall apply to such notes and bonds in the same manner and to the same extent as if such notes or bonds had been issued by a local housing authority.

The department shall not exercise its powers herein granted without the approval of the city or town in which such a project is planned in the same manner as would be required if a local or regional housing authority were to exercise its authority.

SECTION 9. The second sentence of the first paragraph of section 29 of said chapter 121B, as amended by section 3 of chapter 851 of the acts of 1970, is hereby further amended by striking out, in line 2, the word "may" and inserting in place thereof the word: — shall.

SECTION 9A. The fourth sentence of said first paragraph of said section 29 of said chapter 121B, as appearing in chapter 751 of the acts of 1969, is hereby amended by striking out, in line 13, the word "may" and inserting in place thereof the word: — shall.

SECTION 10. The second sentence of subparagraph (b) of section 31 of said chapter 121B is hereby amended by striking out clause (ii), as amended by chapter 851 of the acts of 1973, and inserting in place thereof the following clause: —

(ii) the total combined number of units of the proposed project and any low rent housing project which is in existence or has been approved or is before the department for approval and is located adjacent to or within one-eighth of a mile of the site of the proposed project shall not exceed one hundred, other than those to be used specifically for elderly persons of low income. This provision shall not apply to sites for projects approved or being approved under the preceding paragraph (a);.

SECTION 11. Said chapter 121B is hereby further amended by striking out section 34 and inserting in place thereof the following section: —

Section 34. The commonwealth, acting by and through the department, may enter into a contract or contracts with a housing authority for state financial assistance in the form of a guarantee by the commonwealth of notes or bonds or both of the housing authority issued to finance the cost of a housing project or projects, and annual contributions by the commonwealth. The guarantee by the commonwealth of the notes and bonds of a housing authority shall be executed on each note and bond by the commissioner or by the deputy commissioner designated by the commissioner. It shall be sufficient if the signature of said commissioner or said deputy commissioner upon such instrument is an engraved, printed or stamped facsimile signature, provided that he has, by a writing bearing his written signature and filed in the office of the commissioner of community affairs, authorized his facsimile signature to be placed thereon. The facsimile signature of said commissioner or said deputy commissioner so engraved, printed or stamped thereon shall have the same validity and effect as his written signature. If any such commissioner or deputy commissioner shall cease to be such officer before the delivery of such instruments, such signature or facsimile shall nevertheless be valid and sufficient for all purposes as if he had remained in office until such delivery.

Each such contract shall contain such limitations as to the development cost of the project and administrative and maintenance costs, and such other provisions, as the department may require. Each project shall be based upon a separate application made to the department and shall be planned to conform, as nearly

as possible, to the existing published requirements of the federal government for low-rent or other housing projects, except such requirements as are based upon the cost limitations set forth in federal legislation. A project so planned shall be deemed to provide adequate performance as set forth in section three J of chapter one hundred and forty-three. A housing authority may, with the approval of the department, acquire under the provisions of clause (d) of section eleven for the purposes of a project under this section or section thirty-five any land acquired by a city or town under the provisions of chapter three hundred and seventy-two of the acts of nineteen hundred and forty-six, as amended; provided, that such city or town has not completed construction of a housing project on such land. Each project developed under this section and section thirty-five shall be administered for occupancy in accordance with section thirty-two, except clause (c), and except that for each completed project the authority shall create, beginning in the first year immediately succeeding its issuance of any bonds, a reserve for principal and interest equal to one twelfth of the largest principal and interest payments which will be due on such bonds in any one year thereafter and shall maintain such reserve and increase the same by a similar amount for each of the eleven succeeding years thereafter and maintain each such increase; provided, however, that whenever the amount of the reserve shall equal at least fifty per cent of the total amount so required to be provided, the department may authorize extension of the time for creating such reserve to a period of twenty-four years from the issuance of any bonds and any such reserve shall be maintained and thereafter increased by equal amounts annually during the remaining portion of the twenty-four years; provided, however, that in the event a project is refinanced, there shall be appropriate adjustments made in the reserves required by the foregoing provisions to reflect any change in amounts of principal and interest payable to the end that twelve years after the date of the issuance of the original bonds, or, as soon thereafter as may be practicable, there will have been created and thereafter maintained a reserve equal to the largest amount of principal and interest due in any subsequent year on account of the outstanding bonds issued to finance the project, and except that each such project shall be occupied, except as hereinafter provided by veterans and their families, and priority shall be given first to veterans of World War II of low income and to veterans of low income who have served in the active armed forces of the United States at any time between June the twenty-fifth, nineteen hundred and fifty and January the thirty-first, nineteen hundred and fifty-five, both dates inclusive; then to veterans of low income, such low income to be determined from time to time by the department; then to a person without regard to family status who is a veteran and who is fifty years of age or over; then to elderly persons qualifying for housing under the provisions of section forty; then, without regard to family status, to a person of low income who is permanently and totally disabled and

eligible for assistance under chapter one hundred and eighteen O, or blind, then to other persons of low income living in substandard housing, and a housing authority may remodel or reconstruct parts of projects erected under this section to make the same available for occupancy by elderly persons qualifying for housing under the provisions of section forty and such remodeled or reconstructed apartments shall be available for occupancy by eligible elderly persons of low income only to the extent that no eligible veterans apply for such units; provided, that if no eligible veterans or elderly persons of low income apply for such remodeled or reconstructed units, the units shall be made available to other persons of low income living in substandard housing. Notwithstanding the requirement that each project shall be based upon a separate application made to the department, the department may consolidate two or more projects of the same housing authority, for which projects applications have been seasonably made under this section and which projects shall have been approved by the department, into a single project, and may make on behalf of the commonwealth a contract with the housing authority for state financial assistance in respect of such consolidated project superseding any such contract made in respect of any of the constituent projects, and may determine the date of completion of the consolidated project superseding any such date determined in respect of any of the constituent projects and such consolidated project shall be constructed, financed and managed as a single project; provided, that nothing contained in this sentence shall affect the rights of the holders of any notes or bonds outstanding in respect of any of the constituent projects at the time of such consolidation.

If federal assistance for low-rent housing becomes available in any form not applicable to projects under this chapter, the department shall immediately report the circumstances to the general court together with such recommendations for legislation as may be necessary to enable such projects to qualify for such assistance. Upon the availability of federal financial assistance for low-rent housing projects under this section, each housing authority having a contract for state financial assistance shall, upon receipt or written notice from the department, immediately enter into negotiations with the federal government to arrange for federal assistance with respect to any project developed hereunder and for the termination, in whole or in part, of state financial assistance. For any such project the department may order any housing authority (1) to apply for federal financial assistance and (2) upon obtaining the approval of the federal government; to enter into a contract or contracts for federal assistance, and to make such arrangements as are possible to terminate, reduce or subordinate the obligation of the commonwealth to render financial assistance in such amount as is provided by federal assistance. No order of the department shall in any way affect any outstanding obligations of a housing authority or the rights of any holders of notes or bonds. The amount of federal payments shall be used to the fullest allowable extent to meet the

payment of principal and interest on all notes or bonds guaranteed by the commonwealth.

After March the thirty-first, nineteen hundred and fifty-three, or such later date as the department shall determine that an acute shortage of housing for veterans constituting a public exigency, emergency or distress no longer exists in a particular city or town, any project, or a part of any project with the land appurtenant thereto, constructed under this section may, with the approval of the department, be sold for the fair market value thereof as determined by the department, but not less than the total of the outstanding obligations of the housing authority with respect to such project if the whole is sold or not less than that percentage of the total outstanding obligations of the authority with respect to such project which the cost of the part sold bears to the total cost of the entire project if a part is sold. Upon the expiration of the period for which the commonwealth is obliged to furnish state financial assistance, and provided the federal government has not become obligated to furnish federal financial assistance, any such project shall be offered for sale and disposed of as soon as is consistent with sound business judgment; provided, that any such sale shall be approved by the department. The Housing Authority Bonds Sinking Fund is hereby established and the state treasurer is hereby designated custodian thereof and he shall administer such fund in accordance with the provisions of chapter twenty-nine. So long as any notes or bonds or both issued by a housing authority to finance the cost of a project under this section or section thirty-five and guaranteed by the commonwealth are outstanding, the proceeds of any sale of such project shall be paid by the housing authority into such fund and shall be expended from time to time by the state treasurer to pay interest and principal of any notes or bonds or both issued by such housing authority to finance such project.

The proceeds of any sale of such project in excess of the total of all obligations of the housing authority with respect to such project shall, after the payment of all notes or bonds or both issued by the housing authority to finance the cost of such project, be paid to the city or town in which such project is located and to the commonwealth. The respective payments to such city or town and the commonwealth shall be proportional to the contributions theretofore made by such city or town and the commonwealth toward the development and maintenance of such project, as determined by the department. In determining the contributions of a city or town, the department shall include the amounts which the city or town would have received if such project had not been exempt from taxes, betterments and special assessments, less any amounts paid by the housing authority to the city or town in lieu of such taxes, betterments and special assessments. Payments to the commonwealth hereunder shall be paid into the state treasury and shall be credited to the General Fund.

The provisions of sections one to forty-four, inclusive, except section thirty-three shall, as far as apt, be applicable to projects

developed under this section and under section thirty-five and to housing authorities while engaged in developing and administering such projects; provided, that whenever the phrases "federal government" or "federal legislation" are used in said sections one to forty-four, inclusive, they shall also mean the commonwealth or laws of the commonwealth, as the case may be; and that whenever the words "low-rent housing project" or "projects" are used in said sections they shall also mean a state-aided project under this section and section thirty-five.

The following provisions shall be applicable to each contract for state financial assistance under this section and section thirty-five:

(a) A housing authority may sell temporary notes or bonds or both to finance a project; provided, that the total amount outstanding at any one time, exclusive of any notes or bonds or both which may be issued for refunding purposes, shall not be in excess of the cost of the project as approved by the department. Any such notes or bonds, whether original or refunding, may at any time be refunded through the issue and sale of notes or bonds hereunder but in no event for a term more than forty years after completion of the project, as determined by the department.

Notwithstanding the provisions of section seventeen the payment of the principal of, and interest on, all such notes or bonds or both shall be guaranteed by the commonwealth, and the full faith and credit of the commonwealth is hereby pledged for any such guarantee; provided, that the total amount of notes or bonds or both so guaranteed shall not exceed two hundred and forty-five million dollars, in the aggregate, for all projects constructed under this section and section thirty-five, exclusive of any such notes or bonds or both which may be issued for refunding purposes.

No housing authority shall sell or offer for sale any such notes or bonds without receiving from the department approval of the amount, the term, the time of sale, the amortization schedule and other conditions of sale which the department may deem relevant in connection with the sale of such notes or bonds. Except as otherwise provided in this paragraph, the amortization schedule for any bonds issued hereunder shall provide for payment of principal and interest combined in substantially equal amounts during each year that any of said bonds remain outstanding. Bonds may be issued for a maximum period of forty years from the completion of the project as determined by the department or for any portion of such period as may remain at the time of issue of said bonds. Bonds may be issued for less than the maximum period permitted hereunder an amortization schedule which provides for the payment of a larger amount of principal and interest in the last year any such bonds remain outstanding than in the prior years, in which event the amortization schedule for such bonds shall provide (1) for payment of principal and interest combined during each year except the last in amounts which are not less than the amounts which would be required by an amortization schedule for bonds bearing the same rate of interest and issued for the maximum period

permitted; and (2) for the payment of the entire balance of such bonds in such last year. In the event bonds are issued for less than the maximum period permitted hereunder with a large amount of principal and interest payable in the last year as hereinbefore provided, the amount of principal and interest payable in said last year shall be disregarded in computing the requirements for the reserve under the first paragraph of this section. In the event notes are issued to finance or refinance a completed project, such notes shall be payable not later than twenty-four months after such issuance and (1) such notes shall be permanently retired at the maturity thereof in an amount at least equivalent to the amount of retirement of bonds which would have been required by an amortization schedule for bonds issued for the maximum period permitted hereunder and bearing interest at the rate of two and one half per cent per annum, adjusted to the nearest month where notes are issued for a period other than one year; and (2) a reserve for principal and interest shall be created and maintained beginning in the first year immediately succeeding the issuance of such notes, equal to one twelfth of the largest principal and interest payments which would become due in any one year thereafter, if such bonds had been issued, and such reserve shall be increased by a similar amount for each succeeding year; provided, however, that after June the fourteenth, nineteen hundred and sixty-three, all such reserves whether theretofore or thereafter created, and the maintenance and increase thereof, shall be governed in all respects solely by the provisions of the first paragraph of this section as if such bonds had been issued. Anything herein to the contrary notwithstanding, the failure of any amortization schedule of bonds or retirements of notes approved by the department to meet the foregoing requirements shall not affect the validity of bonds or notes issued hereunder.

(b) Each contract for financial assistance or supplementary state financial assistance shall provide that the commonwealth will pay to the housing authority annual contributions; provided, however, that the total amount of annual contributions contracted for by the commonwealth for any one year shall not exceed nineteen million six hundred thousand dollars. Each such annual contribution by the commonwealth to the housing authorities shall be paid by the commonwealth upon approval and certification by the department to the state comptroller.

Each such contract shall contain a provision that the annual contributions shall be used for the payment of interest on, and principal of, notes or bonds or both of the housing authority. The annual contributions for any one project shall be payable in an amount not exceeding eight per cent of the cost of the project, as determined by the department, and for the fixed period during which the notes or bonds or both issued to finance the cost of the project or any refunding notes or bonds or both remain outstanding but in no event for more than forty years after the completion of the project, as determined by the department. Each such contract shall provide that whenever in any year the receipts of a housing

authority in connection with a project exceed its expenditures for that project, including debt service, payments in lieu of taxes, administration, establishment of reserves and other costs, as determined by the department, an amount equal to such excess, or, in the case of projects under section thirty-five, an amount equal to such portion of the excess as the department shall prescribe, shall be applied, or set aside for application, to purposes which shall effect a reduction in the amount of subsequent annual contributions. The full faith and credit of the commonwealth is hereby pledged to the payment of all annual contributions contracted for by the commonwealth.

In addition to the provisions set forth in the preceding two paragraphs which shall apply to projects completed on or before July the first, nineteen hundred and sixty-six, this paragraph and the following paragraph shall apply to those projects which are completed after that date. Each contract for state financial assistance or for supplementary state financial assistance shall provide that the commonwealth will pay to the housing authority annual contributions; provided, however, that the total amount of such additional contributions contracted for by the commonwealth for any one year shall not exceed four million six hundred thousand dollars.

Each such annual contribution by the commonwealth to the housing authorities shall be paid by the commonwealth upon approval and certification by the department to the state comptroller.

Each such contract shall contain a provision that the annual contributions shall be used for the payment of interest on, and principal of, notes or bonds or both, of the housing authority. The annual contributions for any one project shall be payable in an amount not exceeding eight per cent of the cost of the project, as determined by the department, and for the fixed period during which the notes or bonds or both issued to finance the cost of the project or any refunding notes or bonds or both remain outstanding, but in no event for more than forty years after the completion of the project, as determined by the department. Each such contract shall provide that whenever in any year the receipts of a housing authority in connection with a project exceed its expenditures for that project, including debt service, payments in lieu of taxes, administration, establishment of reserves and other costs, as determined by the department, an amount equal to such excess, or, in the case of projects under section thirty-five, an amount equal to such portion of the excess as the department shall prescribe, shall be applied, or set aside for application, to purposes which shall effect a reduction in the amount of subsequent annual contributions. The full faith and credit of the commonwealth is hereby pledged to the payment of all contributions contracted for by the commonwealth.

(c) The department may enforce any of its orders, rules or regulations or the provisions of any contract between the commonwealth and a housing authority by a bill in equity filed in the

superior court or by a petition for a writ of mandamus filed under the provisions of section five of chapter two hundred and forty-nine. In the event of a breach by a housing authority of any provisions of contract between it and the commonwealth relating to a project, the commonwealth, acting by the department, may take immediate possession of the project and retain possession and operate the project in the place and stead of the housing authority, with all the rights and powers of the housing authority, and subject to all of its obligations respecting the possession and operation of the project and the revenues therefrom, until such time as such breach shall have been corrected to the satisfaction of the department.

(d) A housing authority which sells bonds or notes to finance a project under authority of this section, or which has received funds from a city or town under authority of chapter three hundred and seventy-two of the acts of nineteen hundred and forty-six as amended, shall cause an audit to be made of its accounts annually at the close of a fiscal year by the department of the state auditor and a copy of the report of said audit shall be filed promptly with the department.

(e) Any type of housing including one, two and three family dwellings may be constructed under this section notwithstanding the provision that each project shall conform as nearly as possible to the existing published requirements of the federal government for low-rent or other housing projects. In offering for sale residences constructed under this section, preference to potential buyers shall be given whenever reasonably possible as follows: (1) veterans tenants of such residences; (2) all other World War II veterans, as defined in section seven of chapter four; (3) surviving widows and mothers of said veterans of World War II; (4) all other United States war veterans; (5) all other resident citizens of the city or town in which said residences are located; (6) all other citizens of the commonwealth; (7) an urban redevelopment corporation; and (8) all others. The provisions of this paragraph shall not apply to projects completed after July first, nineteen hundred and sixty-six.

(f) Whenever a housing authority shall determine that land acquired by it under clause (d) of section eleven for the purposes of this section is in excess of or no longer required for such purposes it may, upon approval by the department, sell or otherwise dispose of such land by deed or instrument approved as to form by the attorney general. Funds received from a sale of land as herein provided shall be paid into the Housing Authority Bonds Sinking Fund as provided in this section.

(g) Whenever a housing authority shall determine that any gas, electric or heating distribution system which has been built or acquired for the purposes of this section is no longer required for such purposes, it may, upon approval by the department, sell or otherwise dispose of such gas, electric or heating distribution system, or any part thereof, by deed or instrument approved as to form by the attorney general. Funds received from a sale of a gas, electric or heating distribution system or any part thereof, as here-

in provided, shall be paid into the Housing Authority Bonds Sinking Fund as provided in this section.

(h) The department shall promulgate rules and regulations relative to uniform standards for tenant selection which shall establish the order of priority governing the selection of tenants, and a housing authority thereafter shall be bound by such standards in its selection of tenants.

Notwithstanding any of the provisions of sections thirty-five to thirty-seven, inclusive, any housing authority having a contract for state financial assistance may, with respect to any project developed hereunder, and in accordance with the provisions of section fourteen and section thirty, contract with the federal government for financial assistance in accordance with the provisions of federal legislation.

SECTION 12. Section 40 of said chapter 121B is hereby amended by striking out subsection (e) and inserting in place thereof the following subsection: —

(e) Rents for dwelling units in projects or parts of projects constructed for elderly persons of low income shall be computed as provided in section thirty-two; provided that in the case of persons receiving old age assistance under chapter one hundred and eighteen A, directly or indirectly in whole or in part, from the commonwealth, dwelling units in projects or parts of projects constructed under section thirty-nine shall be deemed to be adequate housing for elderly persons and shall qualify for and rent at the maximum rental allowance under the old age assistance laws, regulations, and policies. Notwithstanding any provision of law to the contrary no elderly person of low income shall be required to pay more than twenty per cent of his or her income without utilities or twenty-five per cent with utilities for rent for dwellings units in projects or parts of projects constructed or leased or purchased under this chapter. Any deficiency in the budget of a housing authority caused by such reduced rental shall be reimbursed by the commonwealth and paid to the housing authority in an amount equal to the difference between the tenant's rent and prorated cost of operating that unit. The prorated cost of operations shall be computed by the department with provision for a full operating reserve.

SECTION 13. Section forty-one of chapter 121B of the General Laws as most recently amended by chapter 1114 of the acts of 1971 is hereby amended by striking said section forty-one and inserting in place thereof the following new section: —

Section 41. The commonwealth, acting by and through the department, may enter into a contract or contracts with a housing authority for state financial assistance in the form of a guarantee by the commonwealth of bonds and notes, or either bonds or notes, of the housing authority issued to finance the cost of a project or projects or a part or parts of a project or projects to provide housing for elderly persons of low income. The amount of bonds and notes, or bonds or notes, guaranteed by the commonwealth under this section shall not exceed five hundred and ten million dollars. Each

contract for state financial assistance shall provide that the commonwealth will pay to the housing authority annual contributions; provided, however, that the total amount of annual contributions contracted for by the commonwealth for any one year shall not exceed forty million eight hundred thousand dollars. Each such annual contribution by the commonwealth shall be paid by the commonwealth upon approval and certification by the department to the state comptroller. The provisions of sections thirty-four and thirty-five shall, so far as apt, be applicable to contracts for state financial assistance under this section.

SECTION 14. The second paragraph of section 43 of said chapter 121B is hereby amended by striking out the second sentence, added by section 7 of chapter 1114 of the acts of 1971, and inserting in place thereof the following sentence: — The department may enter directly into leases and exercise all other rights and duties of housing authorities under the rental assistance program in cities and towns where no local housing authority exists or where the department finds that the local housing authority has not carried out the provisions of the rental assistance program.

SECTION 15. Section 1 of chapter 708 of the acts of 1966 is hereby amended by striking out paragraph (d) and inserting in place thereof the following paragraph: —

(d) "Low income persons or families" shall mean those persons and families whose annual income is equal to or less than the maximum amount which would make them eligible for units owned or leased by the housing authority in the city or town in which the project is located or, in the event that there is no housing authority, that amount which is established as the maximum for eligibility for low-rent units by the department of community affairs.

SECTION 15A. Section 1 of chapter 121B as most recently amended by chapter 812 of the acts of 1970 is hereby further amended by striking the definition of "Elderly persons of low income" and inserting in place thereof the following definition:

"Elderly persons of low income," persons having reached the age of sixty-five or over whose annual net income is less than the amount necessary to enable them to maintain decent, safe and sanitary housing, except that where there exists a surplus of housing units the age requirement may be reduced by the housing authority to age sixty-two provided the oldest of the applicants between sixty-two and sixty-five is given preference on this new list.

SECTION 16. Paragraph (d) of section 5 of said chapter 708 is hereby amended by striking out the third sentence and inserting in place thereof the following sentence: —

"Total project cost" shall include construction costs including job overhead and a builder's and sponsor's profit and risk fee, architectural, engineering, legal and accounting costs, organizational expenses, operating reserves, replacement reserves, land value, interest and financing charges paid during construction, the cost of landscaping and offsite improvements, whether or not such costs have been paid in cash or in a form other than cash.

SECTION 17. Paragraph (b) of section 8 of said chapter 708 is hereby amended by inserting after the third sentence the following sentence: —

The principal of and interest on any bonds or notes issued by the MHFA may be secured by the full faith and credit of the MHFA, by a pledge of any revenues and receipts of the MHFA, by a mortgage or other instrument covering all or any part of any and all projects, including any additions, improvements, extensions to or enlargements of any projects thereafter made, or by any one or more of the foregoing, all as the MHFA may determine in the resolution authorizing the issue of such bonds or notes.

SECTION 18. Said paragraph (b) of said section 8 of said chapter 708 is hereby amended by striking out the last sentence, as most recently amended by chapter 971 of the acts of 1971, and inserting in place thereof the following sentence: —

The aggregate principal amount of notes and bonds of the MHFA outstanding at any one time shall not exceed the sum of one billion two hundred and fifty million dollars of which one hundred fifty million dollars shall be used only to make mortgage loans in cities or towns which have been found to have a rate of unemployment of at least six per centum in the issue of "Area Trends in Employment and Unemployment" published by the United States Department of Labor for the October preceding the making of any such loan.

SECTION 19. Of the increased amount of notes and bonds which the MHFA is authorized to issue under subsection (b) of section eight of chapter seven hundred and eight of the acts of nineteen hundred and sixty-six, as amended by section twenty-one of this act, two million dollars shall be expended within the city of Chelsea, and two hundred and fifty units of housing for the elderly, as provided for in section forty of chapter one hundred and twenty-one B of the General Laws, and one hundred units of low income housing, as provided for under section thirty-four of said chapter one hundred and twenty-one B, shall be constructed within said city.

SECTION 20. The provisions of this act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions.

Approved December 12, 1973.

Chap. 1217. AN ACT FURTHER REGULATING THE DISPOSAL OF SOLID WASTE.

Be it enacted, etc., as follows:

SECTION 1. Section 19 of chapter 16 of the General Laws, as appearing in section 1 of chapter 834 of the acts of 1969, is hereby amended by striking out the third sentence, — and by inserting after the fourth sentence the following three sentences: — The department may contract with users, public and private, including agencies of the commonwealth and its political subdivisions, to dispose of solid waste. The department may lease any land acquired under this section for solid waste disposal to any person, firm or corporation for the purpose of constructing, operating and maintaining a privately owned solid waste processing, disposal or related facility, including facilities related to the processing, marketing, or manufacture of materials recovered from solid waste. The department of public health, on a continuing basis, shall review and make recommendations to the department on the manner of operation and adequacy from a public health standpoint of any solid waste disposal facility planned, established or operated under the provisions of sections eighteen to twenty-four, inclusive, and the department shall implement such recommendations, subject to appropriations.

SECTION 2. Section 20 of said chapter 16, as so appearing, is hereby amended by adding the following five sentences: —

Said bureau shall conduct research and demonstration projects and shall encourage improved methods of solid waste disposal including recycling. The administrative cost of operating said bureau shall be paid and the cost of such projects and grants shall be paid from the general fund. The department may hire such experts, engineers, and other personnel, from such funds as shall be appropriated, as it deems necessary for the operation of the bureau. The department may, subject to the provisions of chapter thirty A, promulgate rules and regulations relating to the storage, collection, transportation, transfer, and disposal of solid waste with respect to facilities established pursuant to sections eighteen to twenty-four, inclusive.

SECTION 3. Section 21 of said chapter 16, as so appearing, is hereby amended by adding the following five sentences: — The department shall, with the cooperation of the department of public health and the department of natural resources, develop and maintain a comprehensive statewide master plan for solid waste disposal subject to the approval of the governor, including any necessary provisions to meet eligibility requirements under any federal program for financial aid in solid waste disposal. A solid waste disposal district shall wherever practicable consist of a single town, or a part thereof, or two or more contiguous cities or towns, or cities and towns, or parts thereof, provided that no city or town, or part thereof, shall be included in more than one said district. Each district shall have an advisory committee comprised of one member from

each city or town in such district, who shall be appointed by the city manager in a city having a city manager, by the mayor in any other city, by the selectmen in a town having selectmen, and by the town council in any other town. The members of such committee may be elected officials of such cities or towns and shall serve at the pleasure of their appointing authority. Unless otherwise approved by the governor, unburned solid waste shall not be disposed of in a landfill established under the provisions of sections eighteen to twenty-four, inclusive, unless such unburned solid waste was generated within the district where such landfill is located, provided, however, that solid waste or by-products thereof, may be freely transported throughout the commonwealth for the purposes of recycling, reclamation and resource recovery.

SECTION 4. Said chapter 16 is hereby further amended by striking out sections 22 and 23, as so appearing, and inserting in place thereof the following two sections: —

Section 22. The department shall, after hearing, determine the amount which shall be assessed upon each city or town which is included in a district established under the provisions of section twenty-one to meet the costs, including capital costs, of operating such district. The amount so assessed shall be based upon the amount and category of solid waste originating within such city or town, or the part thereof included in such district, which is disposed of at a facility established under the provisions of this chapter in proportion to the total amount of solid waste originating within such district which is so disposed.

Cities or towns or parts thereof designated as new members of such a solid waste disposal district subsequent to the establishment of such a district will not be assessed costs under this section until such disposal service is actually rendered to that member. Assessments under this section will include a fair and equitable share of capital costs incurred by the district provided such costs can currently be allocated to such member under accepted cost accounting practices. The proportion in which each participating city and town shall annually pay money into the treasury of the commonwealth to meet expenses incurred under sections eighteen through twenty-four, inclusive, and any deficiency in the amounts previously paid in shall reflect appropriate adjustments which take into account fees paid by users other than cities and towns.

Section 23. Money received by the department relative to solid waste disposal, including but not limited to funds received from assessments in cities and towns as provided in sections twenty-two and twenty-four shall be credited on the books of the commonwealth to a fund to be known as the Solid Waste Disposal Fund which shall be expended, subject to appropriation and the laws relating to state finance, for the purposes of management, maintenance and operation of solid waste disposal facilities established under sections eighteen through twenty-four, and expenses incidental thereto, including without limitation expenses of contracts with an individual, a corporation, or public agency, including

agencies of the commonwealth and its political subdivisions, to dispose of solid wastes at said facilities, and for the debt and interest cost relating to any bonds issued to meet the expenditures necessary to carry out the provisions of sections eighteen through twenty-four, inclusive.

SECTION 5. Section 24 of said chapter 16, as so appearing, is hereby amended by striking out the first two sentences and inserting in place thereof the following two sentences: — The department shall maintain records of the cost of carrying out the provisions of sections eighteen to twenty-three, inclusive, and shall notify the state treasurer of the estimated amounts of money due the commonwealth from the various municipalities served, and such amounts shall be assessed by the state treasurer and included and made a part of the sum charged to such city or town and shall be paid by such city or town into the state treasury as provided by section twenty of chapter fifty-nine provided that any such city or town may in any year anticipate in whole or in part its assessment and appropriate, raise and deposit the amount thereof with the state treasurer, and any sum so deposited shall be credited against such assessment. Privately owned solid waste facilities located on land leased from the commonwealth under the authority of section nineteen shall be subject to taxation in the same manner as if such facilities were not located on land of the commonwealth.

SECTION 6. Section 150A of chapter 111 of the General Laws, as most recently amended by chapter 839 of the acts of 1970, is hereby further amended by inserting after the second paragraph the following paragraph: —

If such facility is a landfill owned or operated by any person other than a town or an agency of the commonwealth, such person shall pay to the town where the facility is located a fee of fifty cents for each ton of solid waste from outside such town which is disposed of in such landfill. On or before the twentieth day of each month every such person shall file a return subscribed under the penalties of perjury with the board of health of the town in which such facility is located, on such form as the commissioner of public health shall prescribe, giving such information as the commissioner shall require for the determination of the fee imposed by this paragraph. Said fee shall be due and payable on or before the due date of the return.

SECTION 7. So much of the provisions of section one hundred and fifty A of chapter one hundred and eleven of the General Laws, as are inserted by section six of this act, shall apply only to a facility at a location where there has been no facility assigned under the provisions of said section one hundred and fifty A at any time prior to the effective date of this act.

Approved December 12, 1973.

Be it enacted, etc., as follows:

Chapter 30 of the General Laws is hereby amended by striking out section 42, as most recently amended by section 1A of chapter 1050 of the acts of 1973, and inserting in place thereof the following section: —

Section 42. The state librarian, the attorney general, the state comptroller, the commissioner of administration, the supervisor of public records and the chief of the archives division in the department of the state secretary, hereinafter called the archivist, or persons designated by them, shall act as a board, to be known as the records conservation board, of which board the archivist shall be secretary.

The board, after consultation with the executive head of any agency, executive office, department, board, commission, bureau, division or authority of the commonwealth or of any authority established by the general court to serve a public purpose or a person designated by such executive head may, either by its own motion or on the request of said executive head, sell or destroy, from time to time, all records in accordance with disposal schedules which shall have been submitted to said board and either approved or modified by said board or the board may authorize such sale or destruction. Until such action shall have been taken, all such records shall remain the property, as the case may be, of the commonwealth or an authority including an authority established by the general court to serve a public purpose.

The board shall have power to require all departments of the commonwealth to report to it what series of records they hold, to set standards for the management and preservation of such records, and to establish schedules for the destruction, in whole, or in part, and transfer to the archives, in whole or in part, of records no longer needed for current business.

Nothing in this section shall affect judicial or legislative records, lessen the existing powers of the executive office for administration and finance, or compel any agency, executive office, department, board, commission, bureau, division or authority of the commonwealth or of any authority established by the general court to serve a public purpose to surrender records it deems of current use.

Records may be kept in the archives under reasonable restrictions as to access, for a reasonable length of time; provided, that such restrictions are in writing and accepted by the records conservation board at a meeting at which the attorney general, or his designee, is present. At least thirty days before selling or destroying any records so kept in the archives, the board may publish in a daily newspaper in Boston a notice of its intention to do so, containing a brief description of the articles to be sold or destroyed, and it shall give such other and further notice as it deems advisable to historical societies or persons interested in the matter.

The board may, before selling or destroying any particular records, books, vouchers or documents, give a public hearing to all

persons interested, and ten days' notice of such hearing shall be given in a daily newspaper published in Boston.

The proceeds, if any, of a sale by the board of any records shall be paid to the state treasurer or to the treasurer of an authority, including an authority established by the general court to serve a public purpose, whose records were the subject of the sale.

As used in this section, the words "records" shall mean all books, papers, maps, photographs, recorded tapes, financial statements, statistical tabulations, or other documentary materials or data, regardless of physical form or characteristics, made or received by any officer or employee of any agency, executive office, department, board, commission, bureau, division or authority of the commonwealth or of any authority established by the general court to serve a public purpose.

Any agency, executive office, department, board, commission, bureau, division or authority of the commonwealth or of any authority established by the general court to serve a public purpose in doubt as to whether certain materials are records shall make inquiry thereof in writing to the records conservation board which shall determine the question. *Approved December 12, 1973.*

Be it enacted, etc., as follows:

SECTION 1. Section 16 of chapter 6A of the General Laws, is hereby amended by inserting after the words "health facilities appeal board," inserted by section 2 of chapter 776 of the acts of 1972, the words "the rate setting commission established by section thirty-two".

SECTION 2. Said chapter 6A is hereby further amended by adding the following six sections:

"commission", the rate setting commission appointed under section thirty-two of chapter six A.

"general health supplies, care, social, rehabilitative or educational services and accommodations", all supplies, care and services of medical, optometric, dental, surgical, podiatric, psychiatric, therapeutic, diagnostic, rehabilitative, educational, supportive or geriatric nature, including inpatient and outpatient hospital care and services, and accommodations in hospitals, sanatoria, infirmaries, convalescent and nursing homes, rest homes, facilities established, licensed, or approved pursuant to the provisions of chapter one hundred and eleven B, and similar institutions including those providing treatment, training, instruction and care of children and adults.

"state institution", any hospital, sanatorium, infirmary, clinic and other such facility owned, operated or administered by the commonwealth or by any department, agency, board or commission of the Commonwealth, which furnishes general health supplies, care, social rehabilitative or educational services and accommodations.

Section 32. There shall be a rate setting commission, hereinafter called the commission, which shall have the sole responsibility for establishing fair, reasonable and adequate rates to be paid providers of health care services by governmental units, including the

division of industrial accidents in the department of labor and industries, and for establishing fair and adequate charges, to be used by state institutions for general health supplies, care, social, rehabilitative or educational services and accommodations, which charges shall be based on the actual costs of each state institution reasonably related, in the circumstances of each institution, to the efficient production of such services in said institution. The commission shall consist of three members appointed by the governor with the advice of the secretary of the executive office of human services. They shall be residents of the commonwealth at the time of their appointment and shall be appointed for a term of three years. Each member shall hold office until the appointment and qualification of his successor. The commission shall consist of a Chairman who shall have administrative experience and an advanced degree in the field of business administration, public administration or law, and two other members of whom one shall be a certified public accountant and one shall be a person experienced in the field of medical economics. No more than two of such members shall be members of the same political party. The governor may with the advice of the secretary of the executive office of human services remove any member for cause, and, with like advice, shall fill any vacancy for the unexpired term. Each of said members shall devote full time to the duties of his office and shall not participate on or with any board, commission, committee or otherwise that would conflict with the fair, impartial, prudent and efficient full-time conduct of his office. The commission shall make an annual report to the secretary of the executive office of human services and to the general court the first Wednesday in November specifying the management of its affairs, a detailed analysis of its reimbursement policy for each class of providers of services and for state institutions, the coordination of its rate making function with the rule making functions of the departments of the commonwealth regulating said providers and institutions, and its recommendations for legislation, if any.

Each member shall receive a salary of thirty thousand dollars and his necessary expenses incurred in the discharge of his official duties.

The commission: (1) shall determine, after public hearing, at least as often as annually, the rates to be paid by each governmental unit to providers of health care service; (2) shall determine, after public hearing, at least as often as annually, the rates to be charged by each state institution for general health supplies, care, social rehabilitative or educational services and accommodations; (3) shall certify to each affected governmental unit the rates so determined; (4) shall determine, after public hearing, at least as often as annually, and certify to the division of industrial accidents of the department of labor and industries rates of payment for general health supplies, care, social, rehabilitative or educational services and accommodations, which rates shall be paid for services under the workmen's compensation act; (5) shall upon request of the commissioner of insurance assist him in performance of his

duties as set forth in section four of chapter one hundred and seventy-six B; (6) may establish for rest homes, nursing homes and convalescent homes, fair and reasonable classifications upon which any rates may be based. Said rates for nursing homes and rest homes, as defined under section seventy-one of chapter one hundred and eleven, shall be established as of July first of each year to reflect costs of a nursing home or rest home for the most recently reported fiscal year adjusted for the twelve months succeeding said July first. Notwithstanding any other law or regulation to the contrary, each governmental unit shall pay to a provider of services and each state institution shall charge as a provider of health care services as the case may be, the rates for general health supplies, care, social, rehabilitative and educational services and accommodations determined and certified by the commission.

In determining rates to be paid by governmental units to providers of services, the commission shall include as an operating expense of a provider of services any contribution made in lieu of taxes by such provider of services to a city or town, and shall establish by regulation those expenses treated as business deductions under the Internal Revenue Code which shall be included as allowable operating expenses in determining rates of reimbursement.

The commission shall establish rates on a prospective basis, subject to rules and regulations promulgated by the commission whenever possible, provided however that, whenever the commission by regulation provides that a final rate for a reporting period shall be computed on the actual cost of a provider of services, or a state institution, for such period, it shall establish an interim rate for said provider or institution within twenty-one days of the beginning of said reporting period, from which interim rate said provider may appeal as provided under section thirty-six of this chapter.

The commission shall also adopt regulations to enable each provider or institution to secure adjustment in said interim rate from time to time to meet current reasonable costs. Said provider or institution shall have the right at any time to petition the commission for an increase in said interim rate. A petition for an adjustment in an interim rate shall include a certified statement that such a petition is not interposed for delay, a detailed explanation, under oath, of the basis upon which said increase is sought, together with a sworn statement of an independent licensed accountant or independent certified public accountant that he has examined the pertinent data relative to the accounts forming the basis of the petition and that in his opinion, said accounts are as represented by the petitioner. The petitioner shall provide such other information as the Commission shall require. The commission subject to such rules and regulations as it may establish may waive the required independent audit for non-institutional providers whenever the commission determines that such audit would create a financial hardship on such provider. The director of the appropriate bureau shall report in writing his recommendations to the commis-

sion and to the petitioner, giving his reasons therefore in detail, and the petitioner shall have ten days to file objections, arguments and comments to the commission. The commission shall thereupon make a rate determination which shall become effective when filed with the state secretary. No appeal under section thirty-six of this chapter shall be allowed from an interim rate determined under this paragraph.

Whenever a final rate for a filing period is to be determined after the end of said period, the commission shall calculate a preliminary final rate within sixty-days after receipt of a satisfactory financial and operating cost report from a provider of services or state institution for such filing period. If said reports provide all the information required by the commission and are attested to by an independent licensed accountant or an independent certified public accountant in such a manner and form as the commission may require the commission may, prior to a field audit establish said preliminary final rate on the basis of said information submitted. No appeal may be taken from said preliminary final rate. Ninety per cent of the difference between the interim rate and said preliminary final rate shall become payable by or to governmental units when certified to the state secretary. Said preliminary final rate may be promulgated as the final rate of a provider of services or state institution if the commission is satisfied with a provider's report. In the event that a final rate is determined without a field audit the commission shall institute such procedures, including random field audits, as are required to assure accurate reporting by providers of health care services and state institutions. If the commission is not satisfied with the provider's report, the commissions shall within six months and after a field audit promulgate a different rate of payment.

Except as otherwise provided in this section any person aggrieved by any rate determination made under this section shall have a right of appeal as provided under section thirty-six.

Each rate established by the commission shall be deemed a regulation and shall be reviewable as hereinafter provided. The commission shall promulgate rules and regulations for the administration of its duties and the determination of rates are herein required subject to the procedures prescribed by chapter thirty A. Every rate, classification and other regulation established by the commission shall be consistent where applicable with the principles of reimbursement for provider costs in effect from time to time under Titles XVIII and XIX of the Social Security Act governing reimbursements or grants available to the commonwealth, its departments, agencies, boards, commissions or political subdivisions for general health supplies, care, social, rehabilitative and educational services and accommodations. The commission shall, prior to the establishment of any rate, classification or other regulation herein referred to, file a copy of the same with the budget director and with house and senate committees on Ways and Means and the joint legislative committee on post audit and oversight.

In the performance of its duties, the commission may enter into such contracts or agreements with the federal government, a political subdivision of the commonwealth, or any public or private corporation or organization, as it deems necessary; provided, however, that the commission shall not enter into any contract or agreement with a private corporation or organization to furnish information and statistical data to be used by said commission as its sole basis for setting rates, if such private corporation or organization is to make or receive payments based upon the rates so set.

Section 33. The commission, subject to appropriation, shall establish such bureaus as may be necessary to carry out its duties as set forth in this chapter, including but not limited to a bureau of hospitals and clinics, a bureau of long-term care facilities, a bureau of community and home health agencies, a bureau of non-institutional medical providers and a bureau of educational and social services. Each of said bureaus shall be under the direction of a director, appointed by the commission, who shall be responsible for the operation of said bureau and shall report directly to the commission. Each director shall devote full time to the duties of his position and shall not participate in or with any board, commission, committee or otherwise which would conflict with the fair, impartial, prudent and efficient full-time conduct of his position. Said directors shall not be subject to the provisions of chapter thirty-one or section nine A of chapter thirty.

The commission shall appoint an executive secretary whose duties shall be specified by the commission and who shall not be subject to the provisions of chapter thirty-one or section nine A of chapter thirty, and may, subject to appropriation, appoint such other employees as may be necessary to efficiently administer its responsibilities. All employees so appointed, other than the directors of bureaus, the executive secretary, and attorneys appointed to serve as counsel to the commission, shall be subject to the provisions of chapter thirty-one and section nine A of chapter thirty. The commission may, subject to appropriation, use such resources, personnel and facilities as are available to it and as are necessary for the administration of its responsibilities.

Any person appointed under this section to a position which is not subject to the provisions of chapter thirty-one or section nine A of chapter thirty who, at the time of such appointment, was serving in a position which is classified under chapter thirty-one or in which he has tenure by reason of section nine A of chapter thirty, shall, upon termination of his service in said unclassified position, be restored to the position in which he was serving immediately prior to such appointment, if he so desires. Such restoration shall be made without impairment of civil service status or tenure under section nine A of chapter thirty and without loss of seniority, retirement or other rights to which said person would have been entitled had his service in the classified position been uninterrupted. Any such person so appointed shall during the term of his appointment, be eligible to take any competitive promotional examination to which

he would have been entitled while in the classified position. If, however, the service of a person so appointed to an unclassified position is terminated for cause, then the rights to restoration granted under this paragraph shall be determined by the civil service commission in accordance with the standards applied by said commission in administering chapter thirty-one.

From time to time upon request of the commission, each governmental unit shall advise the commission of the general health supplies, care, social, rehabilitative and educational services and accommodations which it must provide, procure or for which it must pay.

Each governmental unit shall cooperate with the commission at all times in the furtherance of the commission's purposes. Each state institution shall permit the commission or any designated representatives thereof, to examine its books and accounts and shall file with the commission from time to time or upon request such data, statistics, schedules or other information as the commission may reasonably require.

Section 34. There shall be an advisory council to the commission, consisting of the chairman of the commission, the commissioner of the department of public welfare, the commissioner of the department of public health, the commissioner of education, the secretary of the executive office of human services, the secretary of the executive office of elder affairs, the secretary of the executive office for administration and finance or their respective designees and sixteen members to be appointed by the commission for terms of three years. The commission shall fill any vacancy of members so appointed which may occur in the council for the remainder of the unexpired term. Of the appointed members, eight shall be providers, or representative of provider organizations, whose rates of reimbursement are determined by the commission and eight shall be non-providers who have demonstrated experience in the field of consumer advocacy and who have no financial interest in any provider of services whose rates of reimbursement are determined by the commission.

Said provider shall be appointed to reflect the interests and concerns of all providers rendering services for which rates of reimbursement are established by the commission. No one provider group, organization of providers, or class of provider shall have more than one representative on said council unless each provider group or class of provider is represented on the council. Two of the non-provider members shall be selected from recommendations by state-wide organizations representing the interests of the elderly and two non-provider members shall be selected from recommendations made by state-wide labor organizations; provided however, that one of the two non-provider members so selected from recommendations made by state-wide labor organizations shall be selected from recommendations made by the state labor council AFL-CIO. All appointed members shall be reimbursed for their necessary travel expenses incurred in the performance of their duties.

The council shall meet at least three times annually and upon call of the chairman or on written application to the chairman by any eight members. The council shall annually elect a chairman from among its non-provider members. The council shall appoint at least one subcommittee for each of the bureaus of the commission, provided that at all times there are at least four council members on each subcommittee, two of whom are providers and two of whom are non-providers and provided that at all times the total subcommittee membership consists of equal numbers of providers and non-providers. The council may form such other subcommittees from time to time as it deems desirable.

The subcommittees shall from time to time make recommendations to the commission on matters of policy and operation of the commission and its various bureaus.

The subcommittees shall advise and consult with the directors of bureaus on matters of policy and operation of the bureaus, shall consider agenda items recommended by the directors of bureaus and any other matters proposed by the chairman of the council or a majority of the council members. The director of a bureau shall consult with the subcommittee which advises said bureau, and shall meet from time to time with said subcommittee to explain, discuss or review any matter of policy or operation relating to said bureau.

The subcommittees shall report to the council following each subcommittee meeting on its deliberations, communications, and recommendations, if any. The council shall remand all matters coming before it which relate to a specific bureau of the commission to the subcommittee advising that bureau for its review, comment and recommendations, if any. The council shall take final action on all matters coming before it and on any requests or recommendations of a subcommittee.

The council shall advise on the overall operation and policy of the commission and its bureaus, shall consider any item recommended by the commission, the chairman of the council, a majority of the council members or by a subcommittee of the council and shall have the right to at least sixty days prior review and comment on any proposed rule or regulation of the commission or any of its bureaus, with the exception of regulations promulgated on an emergency basis. The council shall be notified at least ten days in advance of any public meeting or hearing scheduled by the commission or any of its bureaus.

Section 35. Any provider of health care services which receives reimbursement or payment from any governmental unit for general health supplies, care, social, rehabilitative and educational services and accommodations shall, as a condition of the receipt of such reimbursement or payment: (1) permit the commission, or any designated representative thereof, to examine such books and accounts as may reasonably be required for it to perform its duties; (2) file with the commission from time to time or on request, such data, statistics, schedules or other information as it may reasonably require; (3) accept reimbursement or payment at the rates estab-

lished by the commission, subject to a right of appeal under section thirty-six, as discharging in full any and all obligations of an eligible person and the governmental unit to pay, reimburse or compensate the provider of health care services in any way for general health supplies, care, social, rehabilitative and educational services or accommodations provided.

Any provider of health care services which knowingly fails to file with the commission data, statistics, schedules or other information required pursuant to this section or by any regulation promulgated by the commission or which knowingly falsifies the same shall be punished by a fine of not less than one hundred nor more than five hundred dollars.

If, upon application by the commission or its designated representative, the superior court upon summary hearing determines that a provider of health care services has without justifiable cause refused to permit any examination or to furnish information, as required in this section, it shall issue an order directing all governmental units to withhold making payment for general health supplies, care, social, rehabilitative and educational services and accommodations to such provider of services until further order of the court.

In addition, the appropriate licensing authority may suspend or revoke, after an adjudicatory proceeding in accordance with chapter thirty A, the license of any provider of services which knowingly fails to file with the commission data, statistics, schedules or other information required by this section or by any regulation of the commission or which knowingly falsifies the same.

Section 36. Any person, corporation or other party aggrieved by an interim rate or a final rate established by the commission, or by failure of the commission to set a rate or to take other action required by law and desiring a review thereof shall, within thirty days after said rate is filed with the state secretary or may, at any time, if there is a failure to determine a rate or take any action required by law, file an appeal with the division of hearings officers established by section four H of chapter seven. Any appeal filed under this section shall be accompanied by a certified statement that said appeal is not interposed for delay. On appeal, the rate determined for any provider of services shall be adequate, fair and reasonable for such provider, based, among other things, on the costs of such provider.

On an appeal from an interim rate or a final rate the division of hearings officers shall conduct an adjudicatory proceeding in accordance with chapter thirty A, and said division shall file with the commission and the state secretary within thirty days after the conclusion of the hearing its decision.

Said decision shall contain a statement of the reasons therefore, including a determination of each issue of fact or law on which the decision was based. If said decision results in a recommendation for a rate different from that certified, the commission shall based upon statement of reasons establish a new rate. If the commission

determines that the statement of reasons is inadequate to determine a fair, reasonable and adequate rate, it may remand the appeal to the hearing officer for further investigation. Any party aggrieved by a decision of the commission may, within thirty days of the receipt of such decision, file a petition for review in superior court for the county of Suffolk, which shall have exclusive jurisdiction thereof.

A provider may appeal as an aggrieved party in accordance with the provisions of the preceding sentence in the event that a remand by the Commission to a hearing officer does not result in a final decision by the Commission within twenty-one days of the date of remand.

The petition shall set forth the grounds upon which the decision of the division should be set aside. The aggrieved party shall within seven days after the petition for review is filed, notify the division and all the parties to the appeal before said division that a petition for review has been filed by sending each a copy thereof. Within forty days after the petition for review is filed, or within such further time as the court may allow, the division of hearings officers shall file in court the original or a certified copy of the record under review. The court may affirm, modify or set aside the decision of the division in whole or in part, remand the decision to the division for further proceedings, or enter such other order as justice may require. Nothing herein shall prevent the Commission from granting temporary relief if, in its discretion, the same is justified nor, from informally adjusting or settling controversies with the consent of the parties.

Judicial review by the court shall be governed by section fourteen of chapter thirty A to the extent not inconsistent with the provisions of this section.

SECTION 3. Chapter 7 of the General Laws is hereby amended by inserting after section 4G the following section: —

He shall hear, or assign for hearing, appeals filed pursuant to section thirty-six of chapter six A and such other appeals as may be filed with the division from time to time pursuant to other provisions of the General Laws.

It shall be the responsibility of said chief hearings officer to organize his division to provide speedy and fair disposition of all appeals and to establish policies that will encourage and aid parties in limiting and consolidating issues and pleadings to the superior court. Subject to appropriation he may employ such persons as may be required to discharge the responsibilities of the division including

hearings officers who shall be members of the bar of the Commonwealth and who shall have had trial experience.

No hearings officer, including the chief hearings officer, shall be subject to the provisions of chapter thirty-one or section nine A of chapter thirty.

The division may summon witnesses, administer oath and require the production of books, records and papers at any hearing before the division, upon any matter within its jurisdiction. Witnesses may be summoned by any party to the proceeding in the same manner, be paid the same fees and be subject to the same penalties as witnesses in civil cases before the courts of the commonwealth.

Any justice of the superior court may, upon application by the division or a party to an appeal proceeding before the division issue an order to compel the attendance of witnesses summoned as aforesaid and the giving of testimony under oath before the division in furtherance of any matter into which the division may inquire in the performance of its duties. Such rules and regulations shall be open to public inspection in the bureau of personnel, and copies thereof shall be made available to any person upon request. Such rules and regulations shall not be subject to the provisions of chapter thirty A. Such rules and regulations shall also include, but need not be limited to the following requirements none of which shall be waived: (1) a request therefor on a form prescribed by the commissioner of administration specifically setting forth the need for such services; (2) the period of time for which the services are to be engaged or the scope of work to be done and such other information as shall be required to establish the maximum limit of the commonwealth's obligation for the services; (3) a written contract specifically setting forth the duties and responsibilities of the parties; (4) a resume setting forth the qualifications of the proposed consultant as they relate to the terms of the aforementioned contract; (5) a disclosure statement setting forth any other income derived by the proposed consultant from the commonwealth or any of its political subdivisions; (6) a statement setting forth the names and addresses of all persons with any interest in the said contract. No department, office, agency, board, commission or institution within any of the executive offices established by chapters six A and seven shall contract for the provisions of any such services without the prior written approval of such contract by the secretary having charge of such executive office. No payment shall be made to any consultant for any services provided prior to the date upon which the form requesting said services as required by clause (1) has been approved by the secretary having charge of such executive office and a copy of the same has been filed with the comptroller. As used in this section the word "consultant" shall mean any person who, as a non-employee of the commonwealth, gives advice or service regarding matters in the field of his knowledge or training and whose compensation is payable from a subsidiary account coded under "03" in the expenditure code manual. No person employed by the commonwealth as a consultant so-called shall directly or indirectly supervise another temporary or permanent employee of the commonwealth. The commissioner of administration shall from time to time make a random examination of approvals granted and actions taken by such secretary or his designee under the provisions of the aforementioned sections, in order to determine the extent of compliance with the provisions of such sections and the rules or regulations established thereunder. Following any such examination, the commissioner of administration may, after consultation with the secretary, by order transfer from such officer to the commissioner of administration, for such period of time as said commissioner deems appropriate, the authority to give such approvals or to take such actions. Upon making such order, the commissioner of administration shall forthwith file a copy of said order with the budget director, the comptroller, the house and senate committees on ways and means, and the joint legislative committee on post audit and oversight of the general court, specifying the scope of the authority so transferred and the duration of said transfer.

SECTION 10. Section 7 of chapter 30 of the General Laws is hereby amended by striking out the last sentence, as appearing in chapter 376 of the acts of 1947, and inserting in place thereof the following sentence: — Such appointment shall be in accordance with the provisions of sections forty-five to fifty, inclusive, and shall be exempt from the provisions of sections nine A and nine B of chapter thirty and from the provisions of chapter thirty-one.

Said forms shall include the name of the employer or the source of compensation, the date and extent of services performed, and the signature of the person so employed. The commissioner of administration shall submit copies of said reports within thirty days after receipt to the house and senate committees on ways and means and the joint legislative committee on post audit and oversight of the general court.

Every such vehicle shall be plainly and conspicuously marked in such manner and place as shall be prescribed by such regulations. No such vehicle shall be used for providing transportation for state officers and employees between their domiciles and places of employment nor shall any expense be incurred for the garaging of such vehicles except with the prior written approval of the officer having charge of the agency operating such vehicle, and, in the case of a department, office, commission, or institution within any of the executive offices established by chapters six A and seven upon the prior written approval of the secretary having charge of such executive office, and in accordance with such regulations.

The commissioner of administration is authorized to transfer a motor vehicle from one agency or department to another and may transfer any such vehicles to the executive office of administration and finance to be maintained, serviced, repaired and garaged thereby and assigned to departments or agencies on such basis and for such duration as the commissioner may deem appropriate.

The registrar of motor vehicles shall furnish for each motor vehicle owned by the commonwealth a distinctive number plate bearing such arrangement of letters or number or both, as will distinguish the particular vehicle, and in the discretion of said registrar, as will distinguish the officer, department, board, commission or institution by which the vehicle is operated.

There is hereby established the Electric Power Facilities Siting Council which shall be responsible for implementing the energy policies contained in sections sixty-nine H to sixty-nine R, inclusive, to provide a necessary power supply for the commonwealth with a minimum impact on the environment at the lowest possible cost.

Said council shall be composed of the secretary of consumer affairs, the secretary of communities and development, the secretary of environmental affairs, and the secretary of human services, or their respective designees, and three persons to be appointed by the governor for terms of three years, one of whom shall be experienced in matters relating to the electric power industry, one of whom shall be experienced in the conservation and protection of the environment, and one of whom shall be a professional engineer registered under the provisions of chapter one hundred and twelve, provided that the council shall not include as a member any person who receives, or has during the previous two years received, a significant portion of his income directly or indirectly from a holder of, or an applicant for, a national pollutant discharge elimination system permit. If either the secretary of consumer affairs, the secretary of communities and development, the secretary of environmental affairs or the secretary of human services is thereby personally disqualified, he shall appoint a designee in his stead. Upon the resignation or termination of the term of any appointed member, his successor shall be appointed in a like manner for the unexpired portion of the term. No person shall be appointed to serve more than two consecutive terms. The governor shall appoint from time to time a chairman from among the members of the council. An appointed member of the council shall receive fifty dollars per diem for his services, and shall be reimbursed by the commonwealth for all reasonable expenses actually and necessarily incurred in the performance of his official duties.

The council shall meet at such time and place as the chairman may designate. Four members shall constitute a quorum.

In carrying out its functions, the council shall cooperate with, and may obtain information and recommendations from every agency of the state government and of local government which may be concerned with any matter under the purview of the council.

Each said state or local government agency is directed to provide such information and recommendations as may be requested. The council shall cooperate with other states and with the federal government or any agency thereof, as authorized under section sixty-nine Q and as otherwise authorized by law. The council may receive and expend such funds as are appropriated or as may be available to it from the funds of any other agency.

The council shall have powers and duties as follows:

(1) To appoint an executive secretary to serve at its pleasure; to prescribe the duties of such other persons as may be required to assist the council in performing its functions, including staff and consultants; and to engage or accept the loan of the services of such persons as may be provided for by appropriation or by authorization from the general court.

(2) To adopt and publish rules and regulations consistent with the purpose of sections sixty-nine H to section sixty-nine Q, and to amend the same from time to time. This includes the rules and regulations for the conduct of the council's public hearings under the provisions of sections sixty-nine J and sixty-nine M.

(3) To accept applications for certificates of environmental impact and public need on such forms as it may prescribe, consistent with the provisions of section sixty-nine L; to conduct preliminary investigations thereon and solicit information and recommendations relating thereto; to conduct public hearings in accordance with the provisions of sections sixty-nine M and sixty-nine N and to supervise the enforcement of the terms and conditions of certificates so issued; to issue or deny approvals of long-range plans under the provisions of sections sixty-nine I and sixty-nine J.

(4) To establish a schedule of filing fees as follows: (a) not to exceed twenty-five thousand dollars in any instance for applications for certificates of environmental impact and public need, as the council may determine; provided, however, that such filing fee for any municipal corporation empowered to operate a municipal lighting plant under the provisions of section thirty-five or thirty-six shall not exceed the sum of two thousand five hundred dollars; and (b) for long-range forecasts or supplements thereto a total maximum amount of four hundred thousand dollars annually with the fee for each applicant being determined by its proportion of the total kilowatt hour sales to ultimate customers in the commonwealth for the prior year.

(5) Where the applicant has petitioned the council with respect to a national pollutant discharge elimination system permit, the council shall be required to make a tentative determination as to the resolution of that application, which determination shall be included in the public notice as required by section sixty-nine M.

Section 69I. On or before December thirty-first, nineteen hundred and seventy-five, and every fifth year thereafter, every electric company shall, individually or jointly with others, file with the council a long-range forecast with respect to the electric power needs and requirements of its market area, taking into account wholesale bulk

power sales or purchases or other co-operative arrangements with other utilities, for the ensuing ten-year period. As regional plans covering longer time periods are developed, they shall be filed with the council.

Said ten-year forecast shall include, in such form and detail as the council shall prescribe, the following information:

(1) A description of all then existing agreements with other electric companies for joint planning or joint forecasting of electric power needs and the purchase or sale of electric power or reserve capacity.

(2) A forecast of the electric power needs for its market area, taking into account wholesale bulk power sales or purchases, or other co-operative arrangements with other utilities and electric energy policies as adopted by the commonwealth.

(3) A description of actions planned to be taken by the company which will affect its capacity to meet such needs, including, but not limited to: expansion, reduction, or removal of existing facilities; construction or acquisition of additional facilities; a description of alternatives to planned action such as other methods of generating, other site locations, other sources of electrical power, and no additional electric power; a description of the environmental impact of each proposed facility, provided, however, that the above provisions shall not apply to facilities which have been approved as part of a previous long-range forecast or supplement thereto. The council shall after public notice and a period for comment be empowered to issue and revise its own list of guidelines providing a minimum of data for initial review such as land use impact, water resources impact, air quality impact, solid waste impact, radiation impact and noise impact.

Every electric company, either individually or jointly with others, shall also file annually a supplement thereto revising and updating said long-range forecast for a minimum of one year.

Subsequent to the filing as provided for in this section by an electric company of its initial long-range forecast, and action thereon by the council as provided for in section sixty-nine J, such company shall not commence construction of a facility at a site unless the facility is consistent with the most recently approved long-range forecast or supplement thereto. In addition, no state agency shall issue a construction permit thereafter unless such site and facility conforms to the most recently approved long-range forecast or supplement thereto.

Section 69J. The council shall conduct a public hearing on every long-range forecast or supplement thereto within six months of the filing thereof. Such hearing shall be an adjudicatory proceeding under the provisions of chapter thirty A. In addition, a public hearing shall be held in each locality in which a generating plant site contained in the long-range forecast or supplement is located, except that a public hearing shall not be required in a locality containing a proposed site if such a hearing has already been held in regard to that particular site in conjunction with a previously

filed long-range forecast or supplement.

The council by a majority vote shall within twelve months from the date of filing approve a long-range forecast if it determines that it meets the following requirements: all information relating to current activities, facilities agreements and electric energy policies as adopted by the commonwealth is substantially accurate and complete; projections of demand for electric power and of the capacities for existing and proposed facilities are based on substantially accurate historical information and reasonable statistical projection methods; projections relating to service area, facility use and pooling arrangements are consistent with such forecasts of other companies subject to this chapter as may have already been approved and reasonable projections of activities of other companies in the New England area; and plans for expansion and construction of the applicant's new facilities are consistent with current health, environmental protection, and resource use and development policies as adopted by the commonwealth.

If the council determines the standards set forth above have not been met, it shall within twelve months of the date of filing reject in whole or in part the long-range forecast setting forth in writing its reasons for such rejections, or approve the long-range forecast subject to stated conditions. In the event of rejection or conditioned approval, the applicant or individual company may within six months submit an amended forecast. A public hearing on the amended forecast shall be held on the same terms and conditions applicable to the original forecast.

The authority of the council to conduct a public hearing under the provisions of section sixty-nine J may be delegated in whole or in part to the department and it shall report back to the council.

Section 69K. Any electric company which proposes to construct or operate facilities in the commonwealth may petition the council for a certificate of environmental impact and public need with respect to such facility. The council shall consider such petition providing: the electric company is prevented from building a facility because it cannot meet standards imposed by a state or local agency with commercially available equipment or because the processing or granting by a state or local agency of any approval, consent, permit or certificate has been unduly delayed; or the electric company believes there are inconsistencies among resource use permits issued by such state or local agencies; or the electric company believes that a nonregulatory issue or condition has been raised or imposed by such state or local agencies such as but not limited to aesthetics and recreation; or the facility cannot be constructed due to any disapprovals, conditions or denials by local governments, except with respect to any lands or interests therein, excluding public ways, owned or managed by any state agency or local government.

In addition to the foregoing determinations, the council shall, upon petition, consider an application for a certificate of environmental impact and public need if it finds that any state or local

agency has imposed a burdensome condition or limitation on any license or permit which has a substantial impact on the council's responsibilities as set forth in section sixty-nine H.

Any facility, with respect to which a certificate is issued by the council, shall thereafter be constructed, maintained and operated in conformity with such certificate and any terms and conditions contained therein.

A certificate shall be issued only in accordance with the provisions of sections sixty-nine K to sixty-nine O, inclusive. Notwithstanding the provisions of any other law to the contrary, a certificate may be so issued and when so issued, no state agency or local government shall require any approval, consent, permit, certificate or condition for the construction, operation or maintenance of the facility with respect to which the certificate is issued and no state agency or local government shall impose or enforce any law, ordinance, by-law, rule or regulation nor take any action nor fail to take any action which would delay or prevent the construction, operation or maintenance of such facility; provided, however, that the council shall not issue a certificate the effect of which would be to grant or modify a permit, approval or authorization which, if so granted or modified by the appropriate state or local agency, would be invalid because of a conflict with applicable federal water or air standards or requirements. A certificate, if issued, shall be in the form of a composite of all individual permits, approvals or authorizations which would otherwise be necessary for the construction and operation of the facility and that portion of the certificate which relates to subject matters within the jurisdiction of a state or local agency shall be enforced by said agency under the other applicable laws of the commonwealth as if it had been directly granted by the said agency.

Each national pollutant discharge elimination system permit issued by the council under this chapter shall have a fixed term which shall not exceed five years and which shall commence to run when the certificate is issued.

A certificate may be transferred to any other electric company by the holder thereof, subject to the terms and conditions contained therein.

The council may amend the terms and conditions of a certificate in accordance with the requirements of subsection E of section sixty-nine L.

Section 69L. A. An applicant for a certificate shall file with the council an application, in such form as the council may prescribe, containing the following information:

(3) A copy of the long-range plan approved by the council under the provisions of section sixty-nine J, in proof of the need for the

facility to meet the energy requirements of the applicant's market area, taking into account wholesale bulk power sales or purchase or other co-operative arrangements with other utilities and electric energy policies as adopted by the commonwealth; provided however, that this requirement may be waived by the council for emergency or unforeseen conditions which jeopardize the health and safety of the public.

(4) A statement setting forth the need of the applicant for the certificate, which statement shall include the following: all licenses, permits and other regulatory approvals required by law for the construction or operation of the facility which have been granted; a representation as to the good faith effort made by the applicant to obtain from state agencies and local governments the licenses, permits and other regulatory approvals required by law for construction or operation of the facility; either, a representation as to the inability, if any, of the applicant to comply with any law, ordinance, by-law, rule and regulation affecting the construction or operation of the facility; or a representation as to the applicant's inability to proceed with the construction or operation of the facility by reason of the denial, delay, or imposition of a burdensome condition in issuing specified licenses, permits or approvals; and such other information as the applicant may deem relevant or the council may by regulation require.

(5) A copy or copies of said information, studies and other pertinent information, shall be filed and made available for public inspection and copying, except that the council shall not permit disclosure, other than to another government agency concerned with the same matter, of any information, other than data pertaining to the nature or constituency of any water or air discharge, obtained by or submitted to the council pursuant to the provisions of sections sixty-nine H to sixty-nine R, inclusive, upon a showing, satisfactory to a majority of the council, that such information if made public would divulge methods or processes entitled to protection as trade secrets of any person.

B. Each application shall be accompanied by an affidavit of the applicant, certifying that:

(1) A copy of the application and a notice as to the date on which the application is to be filed has been served on each of the following: the mayor of each city and the board of selectmen of each town in which any part of the proposed facility is to be located, the secretary of each executive office and the attorney general.

(2) Public notice thereof containing a summary of the application and the date on which notice is to be filed was given by publication, in such manner as the council may by regulation provide.

C. Failure to give such service or notice may be cured pursuant to an order of the council subsequent to the filing of the application. The council may further order additional service and notice on such other persons as it deems appropriate.

D. Each application may be amended by the applicant at any

time, subject to such reasonable requirements of notice as the council may impose.

E. An application for an amendment of a certificate shall be in such form and subject to such requirements of notice and hearings as the council may provide, consistent with the nature and extent of the proposed amendment.

Section 69M. Upon receipt of an application for a certificate in compliance with the provisions of section sixty-nine L, the council shall fix a time and place for a public hearing on a date which shall be not less than sixty days nor more than ninety days from the date specified in the notice and publication under section sixty-nine L as the date for filing, or the actual date of filing, whichever is later. Public notice of such hearings shall be given in the manner provided by section three of chapter thirty A.

The council shall provide for a period of thirty days following the date of the public notice during which time interested persons may submit their written views of the contents of the public notice with respect to the application for a certificate. All written comments submitted during the thirty day comment period shall be retained by the council and considered in the formulation of its final determinations with respect to the application. The period for comment may be extended at the discretion of a majority of the council.

Where applicable, the contents of the public notice of an application for a national pollutant discharge elimination system permit shall include the following: (a) name, address and telephone number of the council; (b) name and address of each applicant; (c) brief description of each applicant's activities or operations which result in the discharge described in the application; (d) short description of the location of such discharge, indicating whether such discharge is a new or existing discharge; (e) a statement of the tentative determination to issue or deny a national pollutant discharge elimination system permit for the discharge described in the application, including a statement of effluent limitations and schedules of compliance, where appropriate, and any other proposed special conditions; (f) a brief description of the procedures for the formulation of final determinations, including the thirty day comment period and any other means by which interested persons may influence or comment upon those determinations; and (g) address and telephone number of state or interstate agency premises at which interested persons may request a copy of the fact sheet described in this section, inspect and copy national pollutant discharge elimination system forms and related documents, and obtain further information.

Where the council is reviewing a national pollutant discharge elimination system permit application, the council shall notify other appropriate government agencies of the application for such a permit and shall provide such agencies an opportunity to submit their written views and recommendations. Procedures for such notification shall include

(1) Transmission of a fact sheet to any other states whose waters may be affected by the issuance of a national pollutant discharge elimination system permit at the time of the issuance of public notice pursuant to this section and, upon request, providing such affected state with a copy of the national pollutant discharge elimination system application and a copy of the proposed permit. Each affected state shall be afforded an opportunity to submit written recommendations to the chairman of the council and to the regional administrator of the United States Environmental Protection Agency which the council may incorporate into the permit if issued. Should the council fail to incorporate any written recommendations thus received, the council shall provide to the affected state or states and to the regional administrator a written explanation of its reasons for failing to accept any of the written recommendations.

(3) Transmission of a fact sheet at the time of issuance of the public notice to the appropriate district engineer of the Army Corps of Engineers of the national pollutant discharge elimination system applications for discharges, other than minor discharges, into navigable waters.

The hearing shall be conducted as an adjudicatory proceeding under the provisions of chapter thirty A, provided, however, that the council may make such rules or orders as it may deem reasonable in order to exclude repetitive or redundant testimony and other evidence.

For every discharge which has a total volume of more than five hundred thousand gallons on any day of the year, the council shall prepare and, following public notice, shall send upon request to any person a fact sheet with respect to the application described in the public notice. The contents of such fact sheets shall include the following:

(2) a quantitative description of the discharge described in the national pollutant discharge elimination system application which includes at least the following: — (a) the rate of frequency of the proposed discharge; if the discharge is continuous, the average daily flow in gallons per day or million gallons per day; (b) for thermal discharge subject to limitation under the Federal Water Pollution Control Act, the average summer and winter temperatures in degrees Fahrenheit; and (c) the average daily discharge in pounds per day of any pollutants which are present in significant quantities or which are subject to limitations or prohibition under sections 301, 302, 306, or 307 of the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251, et seq, and regulations published thereunder;

(3) the tentative determination required under this section;

(4) a brief citation, including a brief identification of the uses for which the receiving waters have been classified, of the water quality standards and effluent standards and limitations applied to the proposed discharge; and

(5) a fuller description of the procedures for the formulation of final determinations than that given in the public notice including: the required thirty-day comment period; procedures for requesting a public hearing and the nature thereof; and any other procedures by which the public may participate in the formulation of the final determinations.

Section 69O. As expeditiously as possible but in no event later than six months from the date of filing of the application, the council shall by a majority vote render a decision upon the application either by denying the application or by granting the application, or by granting the application subject to such terms and conditions as the council may determine.

The council shall make its decision in writing and shall include therein its findings and opinions with respect to the following:

(1) The need for the facility to meet the electric energy requirements of the applicant's market area taking into account wholesale bulk power sales or purchases or other co-operative arrangements with other utilities and electric energy policies as adopted by the commonwealth;

(2) the compatibility of the facility with considerations of environmental protection, public health and public safety;

(3) the extent to which construction and operation of the facility will fail to conform with existing state and local laws, ordinances, by laws, rules and regulations and reasonableness of exemption thereunder, if any, consistent with the implementation of the energy policies contained in this act to provide a necessary power supply for the commonwealth with a minimum impact on the environment at the lowest possible cost; and

(4) the public interest, convenience and necessity requiring

construction and operation of the facility.

Section 69P. Any party in interest aggrieved by a decision of the council shall have a right to judicial review in the manner provided by section five of chapter twenty-five. The council, in the discharge of its duties under this section is further authorized to negotiate and enter into agreements or compacts with agencies of the federal government or other states, pursuant to any consent of congress, for cooperative efforts in certifying the construction, operation and maintenance of electric power facilities in accord with the purposes of this section and for the enforcement of the respective laws of the commonwealth or of said states regarding same.

Section 69R. Any electric company may petition the department for the right to exercise the power of eminent domain with respect to the facility or facilities specified and contained in the proposed long-range electric power forecast submitted in accordance with section sixty-nine I if such electric company is unable to reach agreement with the owners of land for the acquisition of any necessary estate or interest in land. NUMBER OF ACTS AND RESOLVES APPROVED, APPROVAL WITHHELD, ACTS VETOED BY THE GOVERNOR, PASSED OVER HIS VETO AND ACTS DECLARED EMERGENCY LAWS BY THE GOVERNOR UNDER AUTHORITY OF THE CONSTITUTION.

The General Court during its first session held in 1973 passed 1232 Acts and 161 Resolves of which 1102 Acts and 156 Resolves received executive approval at prorogation and 13 Acts from which executive approval was withheld became law by virtue of chapter 1, section 1, Article II of the Constitution of the Commonwealth.

The governor returned 25 Acts with his objections thereto in writing. Upon said 13 Acts his objections were sustained and upon 12 Acts his objections were not sustained.

One (1) Act entitled "An Act providing certain rights of subrogation for the insurers of motor vehicle property protection insurance coverage." (Chapter 917) was passed, but failed to receive executive approval; as, however, it was not returned, with objections thereto, within ten days after it had been received in the executive department, the General Court not having been dissolved in the meantime, said Act has the force of law, under the provisions of the Constitution governing such case and has been so certified.

Thirteen (13) Acts entitled, respectively, "An Act providing for the position of administrative assistant for intergovernment relations for the Boston Juvenile Court."; "An Act establishing councillor and senatorial districts."; "An Act providing for compulsory and binding arbitration of labor disputes in municipal fire departments and police departments."; "An Act relative to the storage, transportation and distribution of liquefied natural gas."; "An Act authorizing cities and towns to erect and maintain traffic signs and devices at certain roads without the prior approval of the Department of Public Works."; "An Act further regulating the publication of political advertisements by newspapers or other periodicals."; "An Act directing the Board of Registration in medicine to register Oscar Larson as a physical therapist."; "An Act providing that certain changes, additions and amendments to the by-laws of cooperative banks shall take effect without the approval of the Commissioner of Banks."; "An Act prohibiting the transportation of children attending the public schools without the prior written consent of their parents or legal guardians."; "An Act increasing the salary of the technical assistant of the Middlesex Registry of Deeds in the southern district."; "An Act authorizing the Licensing Board of the Town of Nantucket to issue annual all alcoholic beverages licenses to certain holders of seasonal all alcoholic beverages licenses."; "An Act authorizing the Board of Selectmen of the Town of Milton to appoint the members of the Milton Housing Authority." and "An Act providing for a referendum on the creation, discontinuance, or modification of any school attendance district in the City of Boston." were passed and laid before the

governor for his approval, were returned by him with his objections thereto, to the branch in which they respectively originated, were reconsidered and, the vote being taken on their passage, the objections of the governor thereto notwithstanding, they were rejected, and said Acts thereby became void.

Twelve (12) Acts entitled, respectively, "An Act requiring the installation of sprinkler systems in high rise buildings." (Chapter 395); "An Act repealing the law providing for pre-primary conventions of political parties." (Chapter 429); "An Act allowing for a moment of meditation for school prayer in the public schools." (Chapter 621); "An Act providing for the incumbent of the Office of Supervisor of Recreation Facility Construction Program in the Division of Waterways in the Department of Public Works shall be deemed to be permanently appointed provided that he passes an examination by the Division of Civil Service." (Chapter 738); "An Act further regulating the qualifications for credit for service under the contributory retirement system for public employees." (Chapter 760); "An Act providing for the appointment of additional assistant clerks in certain district courts." (Chapter 796); "An Act providing a cost of living salary adjustment for the clerks and assistant clerks of the Municipal Court of the City of Boston and the Boston Juvenile Court." (Chapter 887); "An Act providing for the continued operation of the Bessie M. Burke Memorial Hospital in the City of Lawrence." (Chapter 923); "An Act providing for additional assistant clerks in certain district courts." (Chapter 1001); "An Act providing for financial assistance for cities, towns and regional school districts in the acquisition and remodeling of existing structures for public school uses." (Chapter 1018); "An Act directing the Department of Public Health to make a certain determination of need and to renew the hospital license of Winchendon Hospital, Incorporated." (Chapter 1053) and "An Act authorizing the group marketing of automobile and homeowner insurance." (Chapter 1098) were passed and laid before the governor for his approval, were returned by him with his objections thereto, to the branch in which they originated, were reconsidered, agreeably to the provisions of the Constitution and, the vote being taken on their passage, the objections of the governor thereto notwithstanding, they were passed and said Acts have thereby the force of law.

Forty-three (43) Acts, Chapters 31, 43, 149, 168, 255, 457, 479, 507, 543, 558, 598, 607, 608, 638, 639, 647, 654, 685, 703, 721, 723, 785, 811, 831, 857, 881, 882, 914, 925, 951, 963, 1006, 1012, 1042, 1062, 1081, 1149, 1160, 1192, 1193, 1215, 1219 and 1224, were declared to be emergency laws by the governor in accordance with the provisions of the Forty-eighth Amendment to the Constitution, the Referendum II, Emergency Measures.

Twenty-nine (29) Acts, having been passed by the General Court and the General Court having prorogued, failed to become effective as they did not receive executive approval within ten days.

The General Court was prorogued on Friday, November 30, 1973, at 10:49 P.M., the session having occupied 332 days.

RETURN OF VOTES, ETC.

RETURN OF VOTES ON QUESTION NO. 6, BEING A LEGISLATIVE AMENDMENT TO THE CONSTITUTION, SUBMITTED UNDER THE PROVISIONS OF ARTICLE XLVIII OF THE AMENDMENTS TO THE CONSTITUTION TO THE VOTERS OF THE COMMONWEALTH AT THE STATE ELECTION HELD NOVEMBER 7, 1972.

Votes for Question No. 6 (Proposed Amendment to the Constitution).

Do you approve of the adoption of an Amendment to the Constitution summarized below, which was approved by the General Court in a joint session of the two branches held July 2, 1969, received 204 votes in the affirmative and 49 in the negative, and in a joint session of the two branches held May 12, 1971, received 245 votes in the affirmative and 20 in the negative?

Summary

The proposed amendment would authorize but not require, the Legislature to modify the Massachusetts income tax law by the use of graduated rates instead of the present flat or uniform rates. The Legislature could do this in any one of three ways:

- 1. Apply a uniform rate or percentage to an individual's federal income tax liability; or*
- 2. Apply graduated rates to an individual's federal taxable income; or*
- 3. Apply graduated rates to income determined to be taxable under Massachusetts law.*

The Legislature would also be authorized to provide for reasonable exemptions, deductions and abatements and make the definition of any term used in the state tax law automatically the same as it is under Federal Law.
