(i) Notwithstanding any other provision of this section, a discount which a creditor offers, allows, or otherwise makes available for the purpose of inducing payments for a purchase by cash, check, or similar means rather than by use of an open end credit card account, whether or not a credit card is physically used, is not a finance charge, provided that:-

(1) such discount does not exceed five per cent when computed or expressed as a percentage of the tag, posted, or adver-

tised price of the property or services which are the subject of the transaction;

(2) such discount is available to all prospective buyers, whether or not they are cardholders, and such fact is clearly and conspicuously disclosed by a sign or display posted at or near each public entrance to the seller's place of business wherein such discount is offered, and at all locations within the place of business where a purchase may be paid for; and

(3) if an offer of property or services is advertised in any medium or if offers are invited or accepted through the mail, over the telephone, or by means other than personal contact between the customer and the creditor offering such a discount, and if customers are allowed to pay by use of a credit card or its underlying account and such fact is disclosed in the advertisement, telephone contact, or in other correspondence, the availability of a discount for payments in cash must be clearly and conspicuously disclosed in any advertisement for such offerings and, in any case, before the transaction has been completed by use of the credit card or its underlying account.

With respect to any such discount for cash which is greater than five per cent, the total amount of such discount shall constitute a finance charge under subsection (a) to be disclosed in accordance with subsection (d) of section six.

The availability of any discount may be limited by the creditor offering such discount to certain types of property or services or to certain outlets maintained by that creditor provided that such limitations are clearly and conspicuously disclosed.

Notwithstanding anything contained in this subsection paragraph to the contrary, any amount added to the tag, posted, or advertised price of property or services offered by a creditor which is imposed by such creditor as a condition or consequence of the use of the credit card with respect to a transaction involving such property and services, shall be a finance charge subject to the requirements of this section and subsection (d) of section six.

(3) The amounts and dates of crediting to the account during the billing cycle for payments, using the term "payments" and for other credits including returns, rebates of finance charges, and adjustments, using the term "credits" and unless previously furnished a brief identification of each of the items included in such other credits except that the date of crediting to the customer's account need not be provided if a delay in crediting does not result in the imposition of any finance charges, late payment charges, or other charges for that billing cycle or a later billing cycle. Identification may be made on an accompanying slip or by symbol relating to an identification list printed on the statement, except that the date of crediting to the customer's account need not be provided if a delay in crediting does not result in the imposition of any finance charges, late payment charges or other charges for that billing cycle or a later billing cycle.

SECTION 11. Subsection (c) of said section 6 of said chapter 140C, as appearing in section 4 of chapter 802 of the acts of 1973, is hereby amended by striking out clause (1) and inserting in place thereof the following clause:-

(1) The information required to be disclosed under clause (2) of subsection (b) and itemization of the amounts and dates required to be disclosed under clause (3) of subsection (b) and of the amount of any finance charge required to be disclosed under clause (4) of subsection (b) may be made on the reverse side of the periodic statement or on a separate accompanying statement provided that the totals of the respective debits and credits under each of these clauses are disclosed on the face of the periodic statement.

SECTION 12. Subsection (d) of said section 6 of said chapter 140C, as amended by section 7 of chapter 592 of the acts of 1975, is hereby further amended by adding the following sentence:- The creditor of the open end account shall not separately consider any charge imposed under this subsection for purposes of the disclosure requirements of subsections (a) and (b).

SECTION 13. Said section 6 of said chapter 140C is hereby further amended by striking out subsection (f), as appearing in sec-

tion 1 of chapter 517 of the acts of 1969, and inserting in place thereof the following subsection:-

(f) If, subsequent to thirty days after delivering the disclosures required under subsection (a), a creditor of an open end credit account mails or delivers, other than as a renewal or resupply, a blank check, payee designated check, blank draft or order or other similar credit device other than a credit card, to an existing customer or cardholder for use in connection with such account, such device shall be accompanied by a single written statement setting forth clearly and conspicuously those disclosures of subsection (a) which specifically relate to the use of such device. Such disclosure statement shall either be limited to the disclosures of clauses (1), (2), (3), and (4) of subsection (a) or contain all disclosures required of such subsection with the pertinent disclosures clearly and conspicuously referenced on or accompanying that disclosure statement. Such disclosure statement shall not appear on any promotional material mailed or delivered at the same time. The requirements of this subsection shall not be applicable to checks to be used in conjunction with a checking account even though such checks may also activate a cash advance under an open end credit account.

SECTION 14. Said section 6 of said chapter 140C is hereby further amended by inserting after subsection (f) the following subsection:-

(g) (1) Each extension of credit for which an actual copy of the document evidencing the credit transaction, which does not include a so-called facsimile draft, accompanies the periodic statement on which the transaction is first reflected shall be identified by disclosing on the periodic statement, or on an accompanying statement or document, the amount of the transaction and, at the creditor's option, either the date of the transaction or the date the transaction is debited to the customer's account.

(2) Each extension of credit for which an actual copy of the document evidencing the credit transaction does not accompany the periodic statement shall be identified by disclosing on or with the periodic statement on which that credit transaction is first reflected at least:

(i) For transaction in which the creditor and the seller are the same person or related persons, the amount of the transaction, the date on which the transaction took place, and a brief identification of any property or services purchased or an identifying number or symbol reasonably unique for that transaction with that creditor which appears on the document evidencing the transaction given to the customer; provided, that, if the creditor

discloses such an identifying number or symbol, the absence of the identification of the property or services otherwise required must be treated as a billing error and as an erroneous billing under chapter ninety-three C, if the customer submits a proper written notice of a billing error relating to such absence, and the creditor must provide documentary evidence of the transaction to the customer free of charge whether or not the customer requests it. A person is not related to the creditor simply because the person and the creditor have an agreement or contract pursuant to which the person is authorized to honor the creditor's credit card under the terms specified in the agreement or contract. Franchised or licensed sellers of a creditor's product shall be considered to be related to the creditor. Sellers who assign or sell open end customer sales accounts to a creditor or arrange for such credit under an open end credit plan which allows the customer to use the credit only in transactions with that seller shall be considered related to the creditor.

With respect to transactions which are not billed in full on any single statement but for which precomputed instalments are billed periodically, the date the transaction takes place for purposes of this subsection shall be deemed to be the date on which the amount is debited to the customer's account.

For purposes of this subsection, designations such as merchandise or miscellaneous shall not be considered sufficient identification of property or services, but a reference to a department in a sales establishment which accurately conveys the identification of the type of property or services which are available in such department shall be sufficient. Identification may be made on an accompanying slip or by symbol relating to an identification list printed on the statement.

(ii) For the transactions in which the seller and the creditor are not the same person or related persons, the amount of the transaction, the date on which the transaction took place, and the seller's name and address, including the city and state or foreign country, using understandable and generally accepted abbreviations if the creditor desires, where the transaction took place.

(3) Notwithstanding the provisions of clauses (1) and (2), transactions such as cash advances or overdrafts or other checking plan transactions, shall be identified on or with the periodic statement upon which the transaction is first reflected by providing at least:-

(i) An actual copy of the document evidencing the transaction which shows the amount of the transaction and either the date of

the transaction, the date the transaction was debited to the customer's account, or the date placed on the document or instrument by the customer if the customer signed the document or instrument or

(ii) A description of the transaction, which characterizes it as a cash advance, loan, overdraft loan, or other designation as appropriate, and which includes the amount of the transaction and the date of the transaction or the date which appears on the document or instrument evidencing the transaction, if the customer signed the document or instrument. In cases in which an amount is debited to a customer's open end credit account under an overdraft checking plan, the date of debiting the open end credit account shall be considered the date of the transaction for purposes of this subclause.

(4) If, despite the maintenance of procedures reasonably adapted to procure the information required by clauses (1), (2), and (3) such information is unavailable to the creditor, the date of debiting the amount to the account shall be substituted for the date otherwise required, except that the date of debiting need not be provided if an actual copy of the document evidencing the transaction is provided with the periodic statement and the creditor shall disclose as much of the required information as is available and omit any information which is not available; provided, that if the customer submits a proper written notification of a billing error relating to the absence of the primarily required date or other information, such absence shall be treated as a billing error and as an erroneous billing under chapter ninety-three C, and, unless previously furnished with a periodic statement, documentary evidence of the transaction must be furnished whether or not the customer requests it, within the time period allowed in said chapter ninety-three C for resolution of a billing error, without charge to the customer.

(5) In any case in which a transaction occurs other than in the commonwealth:

(i) The creditor may disclose the date of debiting the amount of the transaction to the open end credit account in place of any other date required elsewhere in this subsection; and

(ii) The provisions of clause (4) shall apply and the creditor need not maintain procedures reasonably adapted to procure the information otherwise required by this subsection.

(6) In complying with the disclosure requirements clauses (1), (2), (3), or (4):

(i) The creditor may disclose the information supplied by the seller with respect to the date and amount of transactions for

which the creditor and the seller are not the same person or related persons.

(ii) With respect to disclosing the seller's address where the transaction took place for purposes of subclause (ii) of clause (2), the creditor may omit the address or provide an address or other suitable designation which will assist the customer in identifying the transaction or in relating the transaction, as reflected, to a document evidencing the transaction previously furnished when no address is readily available because the transaction took place at a location which is not fixed, in which case customer's home or a similar description is sufficient, or because the transaction was the result of a mail or telephone order, in which case telephone order, mail order, or similar description is sufficient; provided, that any such disclosure made or omitted shall not be for the purpose of circumvention or evasion of this chapter.

(iii) With regard to disclosing the seller's name for purposes of subclause (ii) of clause (2), disclosure of a seller's name which appears on the document evidencing the transaction, or a more complete spelling of such a name if the name is alphabetically abbreviated on the document evidencing the transaction, is sufficient for purposes of subclause (ii) of clause (2).

(7) As an alternative to the provisions of clauses (1) through (5), until October twenty-eighth, nineteen hundred and seventy-seven:

(i) The creditor may disclose the date of debiting the amount of the transaction to the customer's account for the date of the transaction or the date placed on the document evidencing a credit transaction or, due to operational limitations, either such date is unavailable to the creditor for purposes of billing; and the creditor may disclose an identifying number or symbol which appears on the document evidencing the credit transaction given to or used by the customer at the time of or in connection with the credit transaction in place of the seller's name and address or description of the property or services purchased if, due to operational limitations, such information is unavailable to the creditor for purposes of billing; or

(ii) The creditor may identify the transaction by disclosing such information as is reasonably available and treating the absence of the information required by clauses (1), (2), or (3), as applicable, as a billing error, as provided in chapter ninety-three C. If a customer submits a proper written notification of a billing error relating to the absence of such information and the information was, in fact, not disclosed as required by clauses (1), (2), (3), as applicable, the transaction shall be treated as an erroneous

billing under said chapter ninety-three C and documentary evidence of the transaction must be furnished whether or not the customer requests it, despite the provisions of said chapter ninety-three C within the time period allowed in said chapter ninety-three C for resolution of a billing error, without charge to the customer.

SECTION 15. Said chapter 140C is hereby amended by striking out section 6B, as most recently amended by chapter 469 of the acts of 1974, and inserting in place thereof the following section:-

Section 6B. (a) If a finance charge is imposed under an open credit plan on balances resulting from the sale of goods or services at retail made in reliance on a credit card the finance charge applicable to said balances for any cycle may not be computed on any new sale reflected for the first time in the account during the cycle but otherwise shall be computed on (i) the previous balance after deducting all payments on account received by the creditor during the cycle and all credits to the account during the cycle applicable to any sale reflected in the previous balance; or (ii) the average daily balance determined by adding the daily balances on the account for each day in the billing cycle and dividing the total by the number of days in the billing cycle; or (iii) daily balances.

(b) Regardless of the date of actual posting of a payment to an account, such payment shall be credited to the customer's account as of the date such payment is received by the creditor, and no finance charge, late payment charge, or other charge shall be imposed with respect to the amount of such payment which is properly received by the creditor on or before the time indicated by the creditor as necessary to avoid imposition thereof, provided that:

(1) If a creditor fails to post the customer's payment in time to avoid the imposition of finance charges, late payment charges, or other charges, the creditor shall adjust the customer's account so that the finance charges, late payment charges, or other charges are credited to the account during the customer's next billing cycle.

(2) For the purposes of this clause the creditor may specify on the periodic statement or on accompanying material reasonable requirements with respect to the form, amount, manner, location, and time for receipt of payments, except that:

(i) If no particular hour of the day has been clearly specified by the creditor as the time by which payment must be received by the creditor in order to credit the customer's account as of that

date, payments received prior to the close of business on that day must be credited as of that date;

(ii) If no location has been clearly specified as the location at which payment may be made, then payment at any location where the creditor conducts business shall be credited as of the date such payment is presented; and

(iii) If no particular manner of payment has been clearly specified, then payment by check, cash, money order, bank draft or other similar instrument in properly negotiable form shall constitute proper manner of payment.

(3) If the creditor accepts payment at locations other than those specified under subclause (ii) of clause (2) the creditor shall credit the customer's account promptly, in no case later than five days from the date of receipt, provided that the possibility of such delay is clearly disclosed to the customer on the periodic statement or on accompanying material.

(4) Payments need not be credited as of the date of receipt, but in any case must be credited promptly, if a delay in crediting does not result in the imposition of any finance charges, late payment charges, or other charges for that billing cycle or a later billing cycle.

(c) (1) When any creditor other than the card issuer accepts the return of property or forgives a debt for services which is to be reflected as a credit to the customer's open end credit account, he shall promptly, in no case later than seven business days from the date the return is accepted, transmit a statement with respect thereto to the card issuer.

(2) Upon receipt of a credit statement, the card issuer shall credit the customer's account promptly, in no case later than three business days from receipt of the refund statement, with the amount of the refund.

(3) If it is the policy of a creditor, other than a card issuer, to give cash refunds to cash customers, he must also give credit or cash refunds to credit card customers, unless he clearly and conspicuously discloses that he does not give credit or cash refunds for returns at the time the transaction is consummated.

(d) A creditor who extends credit pursuant to an open end credit plan under the terms of which payments on account are made pursuant to a payroll deduction arrangement with the employer of the customer and with the assent of the customer, shall provide the customer at least quarterly with regular statements containing the information required by subsection (b) of section six. The creditor shall mail or deliver such statement within fifteen days after the end of each quarter. A creditor who

mails or delivers a statement pursuant to this section shall not be required to mail or deliver to its customer the billings required by section six A.

SECTION 16. Said chapter 140C is hereby further amended by inserting after section 6D, inserted by chapter 192 of the acts of 1976, the following section:-

Section 6E. (a) Whenever a customer mails or delivers payment to the creditor in excess of the new balance, as provided in clause (8) of subsection (b) of section six, to which the payment is to be applied, the creditor shall:

(i) Credit the customer's account with the total amount of the payment as specified in subsection (b) of section six B; or

(ii) Credit the customer's account with an amount equal to the total new balance as specified in subsection (b) of section six B and promptly, in no case later than five business days from the creditor's receipt of the payment, refund the excess amount.

(b) No card issuer may, by contracts or otherwise: (i) Prohibit any person from offering any cash discounts to all customers of such person, including cardholder customers, to induce such customers to pay by cash, check, or similar means rather than by use of a credit card or its underlying account for the purchase of property or services; or

(ii) Require any person who honors the card issuer's credit card to open or maintain a deposit account or procure any other service not essential to the operation of the credit card plan from the card issuer, its subsidiary, agent, or any other person as a condition of participation in a credit card plan.

SECTION 17. Section 7 of said chapter 140C is hereby amended by striking out subsection (a), as most recently amended by section 8 of chapter 592 of the acts of 1975, and inserting in place thereof the following subsection:-

(a) Any creditor when extending credit other than open end credit shall, in accordance with section five and to the extent applicable, make the disclosures required by this section with respect to any transaction consummated on or after July first, nineteen hundred and sixty-nine. Except as provided in this section, such disclosures shall be made before the transaction is consummated. At the time disclosures are made, the creditor shall furnish the customer with a duplicate of the instrument or a statement by which the required disclosures are made and on which the creditor is identified. All disclosures shall be made together on either (1) the note or other instrument evidencing the obligation on the same side of the page and above or adjacent to the place for the customer's signature; or (2) except as otherwise

provided in chapters two hundred and fifty-five B, two hundred and fifty-five C and two hundred and fifty D, one side of a separate statement which identifies the transaction.

(n) (1) If a creditor transmits a periodic billing statement other than a delinquency notice, payment coupon book, or payment passbook, or a statement, billing, or advice relating exclusively to amounts to be paid by the customer as escrows for payment of taxes, insurance, and water, sewer, and land rents, it shall be set forth:

(i) The annual percentage rate or rates; and

(3) (a) In the event that a finance charge is imposed, it shall be computed upon (i) the previous balance after all payments on account, returns and other credits made or given during the billing cycle shall have been first deducted; provided, however, that returns and other credits may be deducted only to the extent that the purchase to which the credit or return relates has been reflected in the previous balance; or (ii) the average daily balance determined by adding the daily balances on the account for each day in the billing cycle, excluding purchases, and dividing this total by the number of days in the billing cycle.

(b) Regardless of the date of actual posting of a payment to an account, such payment shall be credited to the customer's account as of the date such payment is received by the creditor, and no finance charge, late payment charge, or other charge shall be imposed with respect to the amount of such payment which is properly received by the creditor on or before the time indicated by the creditor as necessary to avoid imposition thereof, provided that:

(1) If a creditor fails to post the customer's payment in time to avoid the imposition of finance charges, late payment charges, or other charges, the creditor shall adjust the customer's account so that the finance charges, late payment charges, or other charges are credited to the account during the customer's next billing cycle.

(2) For the purposes of this subclause (b), the creditor may specify on the periodic statement or on accompanying material, reasonable requirements with respect to the form, amount, manner, location, and time for receipt or payments except that:

(i) If no particular hour of the day has been clearly specified by the creditor as the time by which payment must be received by the creditor in order to credit to the customer's account as of that date, payments received prior to the close of business on that day must be credited as of that date;

(ii) If no location has been clearly specified as the location at which payment may be made, the payment at any location where the creditor conducts business shall be credited as of the date such payment is presented; and

(iii) If no particular manner of payment has been clearly specified, then payment by check, cash, money order, bank draft or other similar instrument in properly negotiable form shall constitute proper manner of payment.

(3) If the creditor accepts payment at locations other than those specified under (ii) above, the creditor shall credit the customer's account promptly, in no case later than five days from the date of receipt, provided that the possibility of such delay is clearly disclosed to the customer on the periodic statement or on accompanying material.

(4) Payments need not be credited as of the date of receipt, but in any case must be credited promptly, if a delay in crediting does not result in the imposition of any finance charges, late payment charges, or other charges for that billing cycle or a later billing cycle.

(c) When any creditor other than the card issuer accepts the return of property or forgives a debt for services which is to be-

reflected as a credit to the customer's open end credit card account, he shall promptly, in no case later than seven business days from the date the return is accepted, transmit a statement with respect thereto to the card issuer.

Upon receipt of a credit statement, the card issuer shall credit the customer's account promptly, in no case later than three business days from receipt of the refund statement, with the amount of the refund.

SECTION 26. Said subsection D of said section 27 of said chapter 255D, as so appearing, is hereby amended by striking out clauses (1) to (3), inclusive, and by inserting in place thereof the following three clauses:-

(1) The outstanding balance in the account at the beginning of the billing cycle, using the term previous balance and in the case of a credit balance, an appropriate identification as such.

(2) (a) In cases in which an actual copy of the document evidencing the credit transaction, which does not include a so-called facsimile draft, accompanies the periodic statement on which the transaction is debited to the amount of the transaction and either the date of the transaction or the date the transaction is debited to the customer's account;

(b) In cases in which an actual copy of the document evidencing the credit transaction does not accompany the periodic statement, then on or with the periodic statement on which the credit transaction is first reflected at least:

(i) The date on which the transaction took place, and the amount of the transaction.

With respect to transactions which are not billed in full on any single statement but for which precomputed instalments are billed periodically, the date the transaction takes place for purposes of this subclause shall be deemed to be the date on which the amount is debited to the customer's account; and

(ii) A brief identification of the property or services purchased in cases in which the creditor and the seller are not the same person or related persons, or the seller's name, as disclosed on the document evidencing the transaction provided to the customer, and the address, city and state or foreign country, using understandable and generally accepted abbreviations if the creditor so desires, where the transaction took place.

For purposes of this subclause, designations such as merchandise or miscellaneous shall not be considered sufficient identification of property or services, but a reference to a department in a sales establishment which accurately conveys the identification of the type of property or services which are available in such department shall be sufficient under this subclause. Identification may be made on an accompanying slip or by symbol relating to an identification list printed on the statement;

(c) In a case in which any of the information with regard to the date of the transaction, the date placed on a document signed by the customer, the description of the property and services purchased, or the seller's name and address as required by subclause (b) is not available to the creditor, an identifying number or symbol which appears on the document evidencing the credit transaction given to or used by the customer at the time of or in connection with the transaction. The provisions of this subclause shall not relieve the creditor of responsibility for maintaining procedures reasonably adapted to enable the creditor to obtain the primarily required information at the time the amount of the transaction is transmitted to the creditor for debiting to the customer's account;

(d) In complying with the disclosure requirements of subclauses (a), (b), and (c).

(i) In cases in which the creditor and the seller are not the same or related persons, the creditor may rely upon and disclose the information supplied by the seller with respect to the date and amount of the transaction. For purposes of this subclause, a person is not related to the creditor simply because he and the creditor have an agreement or contract pursuant to which he is authorized to honor the creditor's credit card under the terms specified in the agreement or contract. Franchised or licensed sellers of a creditor's product shall be considered to be related to the creditor. Sellers who assign or sell open end customer sales accounts to a creditor or arrange for such credit under an open end credit plan which allows the customer to use the credit only in transactions with that seller shall be considered related to the creditor.

(ii) Notwithstanding the provisions of subclause (c), until October twenty-eighth, nineteen hundred and seventy-seven, the date of debiting the amount of the transaction to the customer's account may be substituted for the date of the transaction or the date placed on the document evidencing a credit transaction when either such date is unavailable to the creditor; and an identifying number or symbol which appears on the document evidencing the credit transaction given to or used by the customer at the time of or in connection with the transaction may be substituted for the seller's name and address or description of the property or services purchased when such information is unavailable to the creditor.

(iii) The creditor shall disclose the date of each extension of credit or the date such extension of credit is debited to the account during the billing cycle, the amount of such extension of credit and, unless previously furnished, a brief identification of any goods or services purchased or other extension of credit. Identification may be made on an accompanying slip or by symbol relating to an identification list printed on the statement.

(iv) Whenever a buyer mails or delivers payment to the creditor in excess of the new balance, as provided in clause (8) of subsection D to which the payment is to be applied, the creditor shall credit the buyer's account with the total amount of the payment as specified in subclause (b) and promptly, in no case later than five business days from the creditor's receipt of the payment, refund the excess amount.

(3) The amounts and dates of crediting to the account during the billing cycle for payments, using the term payments, and for other credits including returns, rebates of finance charges, and adjustments, using the term credits, and unless previously furnished, a brief identification of each of the items included in such other credits. Identification may be made on an accompanying slip or by symbol relating to an identification list printed on the statement.

SECTION 2. Chapter 1078 of the acts of 1973 is hereby amended by striking out section 4 and inserting in place thereof the following section:-

Section 4. If an employee organization duly recognized as representing the firefighters or police officers of a city, town, or district is engaged in an impasse with said city, town or district which has continued for thirty days after the publication of the fact-finders report pursuant to section nine of chapter one hundred and fifty E of the General Laws, or, if the parties have mutually waived the fact-finding provisions contained in said section nine of said chapter one hundred and fifty E, said employee organization shall petition the board to make an investigation. If, after an investigation, the board determines that:

1. the requirements of section nine of said chapter one hundred and fifty E have been complied with in good faith by the employee organization;

2. thirty days have passed since the date of publication of the fact-finding report pursuant to said section nine;

3. the proceedings for the prevention of any prohibited practices have been exhausted, provided that any such complaints have been filed with the commission prior to the date of the fact-finder's report; and

4. an impasse exists, the board shall notify the employer and the employee organization that the issues in dispute shall be resolved by a three-member arbitration panel, or when the parties mutually agree, the board shall select a single arbitrator in lieu of the arbitration panel.

Said panel shall be comprised of three arbitrators, one selected by the employer, one selected by the employee organization, and a third impartial arbitrator, who shall act as chairman of the panel, who shall be selected by the two previously selected arbitrators. In the event that either party fails to select an arbitrator or for any reason there is a delay in the naming of an arbitrator, or if the arbitrators fail to select a third arbitrator within the time prescribed by the board, the board shall appoint the arbitrator or arbitrators necessary to complete the panel, which shall act with the same force and effect as if the panel had been selected without intervention of the board.

In the event that the parties mutually elect to use a single arbitrator, selected by the board, the parties shall immediately request the board to appoint said arbitrator, who shall act with the same force and effect as if a three member panel had been selected by the parties.

The single arbitrator or the arbitration panel acting through its chairman, shall conduct a hearing within ten days after the date of appointment of its chairman, at a place within the locality of the municipality involved, where feasible. The chairman shall give at least seven days notice in writing to each of the other arbitrators. The chairman or single arbitrator shall give like notice to the representatives of the municipal employer and employee organizations of the time and place of such hearing.

The single arbitrator or chairman shall preside over the hearing and shall take testimony. Upon application and for good cause shown, a person, labor organization, or governmental unit having substantial interest therein may be granted leave to intervene by the arbitration panel. The proceedings shall be informal. Any oral or documentary evidence and other data deemed relevant by the arbitration panel or single arbitrator may be received into evidence. The arbitrators shall have the power to administer oaths and to require by subpoena the attendance and testimony of witnesses, the production of books, records, and other evidence relative to or pertinent to the issues presented to them for determination. If any person refuses to obey a subpoena, or refuses to be sworn or to testify, or if any witness, party, or attorney is guilty of any contempt while in attendance at any hearing, the arbitration panel or single arbitrator may, or

the district attorney if requested, shall invoke the aid of the superior court within the jurisdiction in which the hearing is being held, which the court shall issue an appropriate order.

A record of the proceedings shall be kept, and the chairman or single arbitrator shall arrange for the necessary recording service. Transcripts may be ordered at the expense of the party ordering them, but the transcripts shall not be necessary for an award by the panel or single arbitrator. The hearing may be continued at the discretion of the panel or single arbitrator and shall be concluded within forty days from the time of commencement. At the conclusion of the hearing, each party shall submit a written statement containing its last and best offer for each of the issues in dispute to the panel or single arbitrator, who shall take said statements under advisement. Within ten days after the conclusion of the hearing, a majority of the panel, or the single arbitrator, shall select as the last and best arbitration award either the employer's written statement of its last and best offer, the employee organization's written statement of its last and best offer, or the recommendations of the fact-finder, if a fact-finding report and recommendations have been issued, and immediately shall give written notice of the selection to the parties. The selection shall be final and binding upon the parties and upon the appropriate legislative body. Within thirty calendar days of the last and best offer selection and award, the impartial chairperson of the arbitration panel or, the single arbitrator, shall issue a written opinion inclusive of an analysis of all statutory factors applicable to the proceedings.

At any time before the rendering of an award, the chairman of the arbitration panel or single arbitrator, if he is of the opinion that it would be useful or beneficial to do so, may remand the dispute to the parties for further collective bargaining for a period not to exceed three weeks and notify the board of the remand. If the dispute is remanded for further collective bargaining the time provisions of this act shall be extended for a time period equal to that of the remand.

In the event that the representatives of the parties mutually resolve each of the issues in dispute and agree to be bound accordingly, said representatives may, at any time prior to the final decisions by the panel, or single arbitrator, request that the arbitration proceedings be terminated, the panel, acting through its chairman or single arbitrator, shall terminate the proceedings.

The factors among others, to be given weight by the arbitration panel or single arbitrator in arriving at the decision shall include:

(1.) The financial ability of the municipality to meet costs. Such factors which shall be taken into consideration shall include but not be limited to, (a) the city, town, or district's state reimbursements and assessments; (b) the city, town, or district's long and short term bonded indebtedness; (c) the city, town, or district's estimated share in the metropolitan district commission deficit; (d) the city, town or district's estimated share in the Massachusetts Bay Transportation Authority's deficit; and (e) consideration of the average per capita property tax burden, average annual income of members of the community, the effect any accord by the panel or single arbitrator might have on the respective property tax rates on the city or town.

(2.) The interests and welfare of the public.

(3.) The hazards of employment, physical, educational and mental qualifications, job training and skills involved.

(4.) A comparison of wages, hours and conditions of employment of the employees involved in the arbitration proceedings with the wages, hours and conditions of employment of other employees performing similar services and with other employees generally in public and private employment in comparable communities.

(5.) The decisions and recommendations of the fact-finder, if any.

(6.) The average consumer prices for goods and services, commonly known as the cost of living.

(7.) The overall compensation presently received by the employees, including direct wages and fringe benefits.

(8.) Changes in any of the foregoing circumstances during the pendency of the arbitration proceedings.

(9.) Such other factors, not confined to the foregoing, which are normally or traditionally taken into consideration in the determination of wages, hours and conditions of employment through voluntary collective bargaining, mediation, fact-finding, arbitration or otherwise between parties, in the public service or in private employment.

(10.) The stipulation of the parties.

Any determination or decision of the arbitration panel or single arbitrator if supported by material and substantive evidence on the whole record shall be binding upon the parties and may be enforced at the instance of either party, the single arbitrator or the arbitration panel in the superior court in equity, provided however, that the scope of arbitration in police matters shall be limited to wages, hours, and conditions of employment and shall not include the following matters of inherent

managerial policy: the right to appoint, promote, assign, and transfer employees; and provided, further, that the scope of arbitration in firefighter matters shall not include the right to appoint and promote employees. Assignments shall not be within the scope; provided, however, that the subject matters of initial station assignment upon appointment or promotion shall be within the scope of arbitration. The subject matter of transfer shall not be within the scope of arbitration, provided however, that the subject matters of relationship of seniority to transfers and disciplinary and punitive transfers shall be within the scope of arbitration. Notwithstanding any other provisions of this chapter to the contrary, no municipal employer shall be required to negotiate over subjects of minimum manning of shift coverage, with an employee organization representing municipal police officers and firefighters.

The commencement of a new municipal finance year prior to the final awards by the arbitration panel shall not be deemed to render a dispute moot, or to otherwise impair the jurisdiction or authority of the arbitration panel or its award. Any award of the arbitration panel may be retroactive to the expiration date of the last contract.

If a municipal employer, or an employee organization willfully disobeys a lawful order of enforcement pursuant to this section, or willfully encourages or offers resistance to such order, whether by strike or otherwise, the punishment for each day that such contempt continues may be a fine for each day to be determined at the discretion of said court.

Each of the parties shall provide compensation for the arbitrator which he has selected pursuant to this section. The remaining costs of arbitration proceedings under this section shall be divided equally between the parties. Compensation for the arbitrators shall be in accordance with a schedule of payment established by the American Arbitration Association.

No member of a unit of municipal police officers or firefighters who is employed on a less than full-time basis shall be subject to the provisions of this section.

SECTION 3. Said chapter 1078 is hereby further amended by striking out section 8 and inserting in place thereof the following section:-

Section 8. The provisions of section four of this act shall terminate on June thirtieth, nineteen hundred and seventy-nine. Any arbitration proceeding pending on June thirtieth, nineteen

hundred and seventy-nine shall be completed under the provisions of section four.

In furtherance of the foregoing purposes, said department shall accept any federal funds available for projects authorized in section one of this act and such federal funds when received shall be credited to the Federal Highway Construction Program Fund. Said bonds shall bear interest semi-annually at such rate as the state treasurer, with the approval of the governor, shall fix. The initial maturities of such bonds shall be payable not later than one year from the date of issue thereof and the entire issue not later than June thirtieth, two thousand and three. All interest payments and payments on account of principal on such bonds shall, subject to the limitations contained in Article LXXVIII of the Amendments to the Constitution, be payable from the Highway Fund; provided, that notwithstanding the foregoing, such bonds shall be general obligations of the commonwealth.

The state treasurer may borrow from time to time on the credit of the commonwealth such sums of money as may be necessary for the purposes of meeting payments authorized by this act, and may issue and renew from time to time notes of the commonwealth therefor, bearing interest payable at such times and at such rates as shall be fixed by the state treasurer. Chap. 364. AN ACT PROVIDING FOR CERTAIN CHANGES IN THE RATES CHARGED FOR RISKS IN THE MOTOR VEHICLE REINSURANCE FACILITY.

Be it enacted, etc., as follows:

The fourth paragraph of section 113H of chapter 175 of the General Laws is hereby amended by striking out the fourth sentence, as appearing in section 16 of chapter 266 of the acts of 1976, and inserting in place thereof the following sentence:- The rates filed by or on behalf of the plan for risks with less than three accidents based on fault which exceeds fifty per cent or convictions of moving violations of motor vehicle laws in the most recent three year period shall provide that the rates for such risks shall not exceed the rates that would be used by each such risk's insurer or servicing carrier for that risk if such risk were not reinsured in the plan.

SECTION 2. This act shall take effect on January 1, 1978.

Approved July 6, 1977.

Chap. 365. AN ACT RELATIVE TO THE RATES CHARGED FOR MOTOR VEHICLE INSURANCE.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to further regulate the rates for motor vehicle insurance, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public safety.

Be it enacted, etc., as follows:

SECTION 1. Section 172 of chapter 6 of the General Laws, inserted by section 1 of chapter 805 of the acts of 1972, is hereby amended by adding the following paragraph:-

Notwithstanding the provisions of this section, the dissemination of information relative to a person's conviction of automobile law violations as defined by section one of chapter ninety C, or information relative to a person's charge of operating a motor vehicle while under the influence of intoxicating liquor which resulted in his assignment to a driver alcohol program as described in section twenty-four D of chapter ninety, shall not be prohibited where such dissemination is made, direct-

ly or indirectly, by the motor vehicle insurance merit rating board established pursuant to section one hundred and eighty-three of chapter six, to an insurance company doing motor vehicle insurance business within the commonwealth, or to such insurance company's agents, independent contractors or insurance policyholders to be used exclusively for motor vehicle insurance purposes.

SECTION 2. The second paragraph of section 183 of said chapter 6, inserted by section 1 of chapter 266 of the acts of 1966, is hereby amended by striking out the second sentence and inserting in place thereof the following sentence:- Such records and data disseminated by such plan shall be used exclusively for motor vehicle insurance purposes.

SECTION 3. Chapter 175 of the General Laws is hereby amended by striking out section 113H, as most recently amended by chapter 266 of the acts of 1976, and inserting in place thereof the following section:-

Section 113H. Insurance companies undertaking to issue motor vehicle liability policies or bonds, both as defined in section thirty-four A of chapter ninety, shall cooperate in the preparation and submission of a plan for the fair and equitable apportionment among such insurance companies of premiums, losses or expenses, or any combination thereof. Such a plan shall include at least the coverages required by sections thirty-four A and thirty-four O of chapter ninety and, at the option of the applicant the additional coverages described in section one hundred and thirteen C, except that the plan may provide for the refusal of those optionally offered coverages which would eliminate in whole or in part the effect of any deductible provided in section thirty-four O of chapter ninety and section one hundred and thirteen O. Such a plan shall be prepared and administered by a governing committee appointed by the commissioner consisting of six members from insurance companies participating in the plan and one additional representative from a domestic insurer in the commonwealth whose annual motor vehicle policy premiums amount to ten million dollars or less and unaffiliated with any other insurance company and six members from the associations of insurance producers. In the event that a company represented on the committee decreases its book of automobile business in the commonwealth by more than ten per cent from the previous calendar year, as determined by the commissioner, the member representing such company shall cease to be a member of the committee and a new company and a member thereof shall be appointed as prescribed herein. Not more than

one insurer in a group under the same management shall serve on the committee at the same time.

Before becoming effective and upon any written request of the commissioner on a new plan thereafter, any such plan shall be filed with the commissioner who shall conduct a public hearing within thirty days to determine whether such plan is consistent with public policy and meets the requirements of this section. At such hearing insurance companies and any other party having a direct interest shall have an opportunity to be heard. Unless sooner approved or disapproved in writing by the commissioner, such plan shall be deemed to meet the requirements of this section within thirty days after the public hearing.

Amendments to such plan shall be prepared and filed in the same manner as herein provided with respect to the original plan. Such amendments, unless sooner approved or disapproved in writing by the commissioner shall be deemed to meet the requirements of this section in thirty days from the date of filing. The commissioner shall, prior to the disapproval of any such amendments, issue a notice specifying in what respects the amendments do not meet the requirements of this section and fixing a date for a public hearing thereon at which insurance companies and any other party having a direct interest shall have an opportunity to be heard.

If the commissioner shall have requested the submission of a new plan or amendments to the plan, and no such plan or amendments have been filed with and approved by the commissioner within sixty days after such request, the commissioner may, if he deems it necessary to carry out the purposes of this section, prepare and publish proposed amendments or a proposed plan that in his opinion would carry out the purposes of this section. He shall submit a copy of such proposed amendments or proposed plan to the joint committee on insurance at the time of publication, and shall schedule a public hearing thereon not less than ten days after the publication thereof. After such hearing the commissioner may promulgate such plan or amendments thereto as he finds will best carry out the purposes of this section.

When such plan or amendment has been approved or promulgated, no insurer may thereafter issue a motor vehicle policy or bond unless such insurer shall participate in such an approved or promulgated plan. All insurers issuing policies which are reinsured through the plan shall use the manual of classifications, rules and rates, and rating plans filed by or on behalf of the plan under the provisions of chapter one hundred and seventy-five A. The statistical data previously and hereafter recorded under this

section for risks reinsured in the plan shall be given due consideration in developing the rates for such risks reinsured in the plan. The rates filed by or on behalf of the plan for risks with convictions of moving violations of motor vehicle laws in the most recent three year period shall provide that the rates for such risks shall not exceed the rates that would be used by each such risk's insurer or servicing carrier for that risk if such risk were not reinsured in the plan. The plan shall also provide for the payment of a commission to independent insurance agents licensed by the insurer which shall be stated in the filing of rates as a percentage equal to the average percentage commission paid for risks not reinsured through the plan during the immediately preceding calendar year to agents by companies which do business through independent insurance agents pursuant to the so-called American Agency System. The plan shall also provide for a schedule of commissions to designated producers under the plan based upon the degree of market need of the applicants in the locality served by such designated producers which schedule shall be uniform as respects participating companies.

Any insurer and any other party affected may appeal to the commissioner from any ruling or decision with reference to the operation of such plan.

Such plan shall provide reasonable rules governing the fair and equitable distribution of expenses and losses by reinsurance.

The rules for such plan shall require that separate statistical data be recorded for risks reinsured in the plan and may provide incentives and penalties to prevent abuse of such plan. The rules for such plan shall also include a provision giving the commissioner authority, after due hearing and investigation, to order that any company he finds using practices which have the effect of distributing risks or expenses or losses of risks unfairly and inequitably on other companies or agents or brokers be assigned a share of the expenses and losses of said risks to insure a fair and equitable distribution.

Any insurer or group of insurers participating in such plan and other person aggrieved shall be authorized to bring a complaint to the commissioner alleging unfair or unreasonable or improper practices by any insurer. The commissioner shall, in all such cases, cause a proper hearing on such complaint to be held and shall issue such orders as he then deems appropriate.

If the commissioner finds after due hearing and investigation that any activities or practice of any insurer in connection with the submission or operation of such plan is unfair or unreasonable or inconsistent with the provisions of this section,

he may issue a written order specifying in what respects such activity or practice is unfair or unreasonable or inconsistent with the provisions of this section, and requiring the discontinuance of such activity or practice.

Any ruling, order or decision of the commissioner under authority of this section shall be subject to review by appeal to the superior court for the county of Suffolk at the instance of any party in interest, which appeal shall be on the basis of the record of the proceeding before the commissioner. The court shall have jurisdiction to modify, amend, annul, review or affirm such action, order, finding or decision, shall review all questions of fact and of law involved therein, and may make any other appropriate order or decree. The court shall determine whether the filing of the appeal shall operate as a stay of any such order or decision of the commissioner.

SECTION 4. Notwithstanding the provisions of section one hundred and thirteen H of chapter one hundred and seventy-five of the General Laws to the contrary, the rates filed by or on behalf of the plan for risks with no accidents based on fault which is in excess of fifty per cent or convictions of moving violations of motor vehicle laws since November first, nineteen hundred and seventy-six, shall approximate as closely as practicable the rates for each coverage at the fifty percentile level of rates used by insurers for such risks not reinsured in the plan.

The plan shall file or cause to be filed on its behalf revised rates conforming to the requirements of this section. Notwithstanding the provisions of said chapter one hundred and seventy-five A to the contrary, such filing shall be made as soon as practicable after this section takes effect and shall become effective as if filed on January first, nineteen hundred and seventy-seven, without regard to any waiting period or action of the commissioner; provided, however, that nothing contained herein shall be construed as limiting the commissioner's authority to take appropriate action in the event he finds that such rates as put into effect by the plan include other adjustments beyond those necessary to conform to this section. The provisions of this section shall cease to be effective on January first, nineteen hundred and seventy-eight.

SECTION 5. The plan established pursuant to section one hundred and thirteen H of chapter one hundred and seventy-five of the General Laws, as amended by section three of this act, and every insurer or rating organization authorized to file on behalf of insurers pursuant to chapter one hundred and seventy-five E of the General Laws shall file or cause to be filed on its behalf

revised motor vehicle insurance rates for private passenger motor vehicles to be effective January first, nineteen hundred and seventy-seven, for the following categories:-

1. The rates for the cities of Chelsea and Revere shall contain a territorial differential equivalent to the differential in the current filings made for territory 13 by or on behalf of the plan, insurer or rating organization to be effective January first, nineteen hundred and seventy-seven.

2. The combined premiums for all coverages charged to any individual, after reflecting any applicable rate change pursuant to this act, shall not exceed one hundred and twenty-five per cent of the premium which would have been charged for the same or similar coverages had the rates applicable in nineteen hundred and seventy-six remained unchanged.

The revised rates pursuant to this section shall include only such adjustments as are necessary to conform to this section. The revised rate filing required by this section shall be made under the provisions of the applicable rate regulatory laws. Notwithstanding any provisions of such laws to the contrary, such filings shall be made as soon as practicable after this section takes effect and shall become effective as if filed on January first, nineteen hundred and seventy-seven, without regard to any waiting period or action of the commissioner; provided, however, that nothing herein shall be construed as limiting the commissioner's authority to take appropriate action in the event he finds that such rates as put into effect by any insurer, rating organization or the plan include other adjustments beyond those necessary to conform to this section. The provisions of this section shall cease to be effective on January first, nineteen hundred and seventy-eight.

SECTION 6. Any insured whose motor vehicle rates or premiums are affected by this act shall have his present motor vehicle insurance policy amended by endorsement retroactively as of its effective date to the revised rates and premiums conforming to the requirements of this act, and have it expire on January first, nineteen hundred and seventy-eight. The insurer of any insured whose motor vehicle rates or premiums are affected by this act shall return to said insured the appropriate difference in rates or premiums based on the revised rates and premiums conforming to the requirements of this act, said returns to be made either by payment to said insured or as an identified credit against any unpaid premium balance on said motor vehicle insurance policy issued to said insured. Any insured whose motor vehicle rates or premiums are affected by this act and who purchases a motor

vehicle insurance policy in nineteen hundred and seventy-seven after the effective date of this act shall receive a short-term policy expiring on January first, nineteen hundred and seventy-eight, and written at rates and premiums conforming to the requirements of the act. Nothing in this section shall prohibit an insurer from offering to any insured a motor vehicle insurance policy for a period of one year or from offering an extension of any motor vehicle insurance policy issued in nineteen hundred and seventy-seven.

Any premium loss suffered by an insurer as a result of its compliance with the provisions of this act shall not be used as a factor in calculating future motor vehicle insurance rates for said insurer. The commissioner is hereby authorized to declare any motor vehicle insurance rate for which such has been considered as a factor as invalid and is hereby directed to take all steps necessary to correct said rate for the benefit of the insured affected by said rate.

SECTION 7. The commissioner is hereby authorized and directed to make an analysis of the effect of the provisions of section one hundred and thirteen C of chapter one hundred and seventy-five of the General Laws relative, but not limited, to the cost of providing the coverages to the insureds mandated by said section versus the necessity for mandating such coverages for said insureds. The commissioner shall, not later than August first, nineteen hundred and seventy-seven, report in writing his evaluation of said section to the clerk of the house of representatives along with any legislation necessary to either improve said section or to provide an alternative means of providing a solution to the problems said section was enacted to resolve.

SECTION 8. The rights and remedies provided in this act shall be the sole and exclusive remedies available to be exercised by both insurers and insureds for nineteen hundred and seventy-seven motor vehicle insurance rate relief.

SECTION 9. This act shall take effect upon its passage, except that the plan referred to in section three shall not become operative until January first, nineteen hundred and seventy-eight.

SECTION 10. The provisions of this act are hereby declared to be severable and if any such provisions or the application of such provisions to any person or circumstances shall be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not be construed to affect the validity or constitutionality of any of the remaining provisions of this act or the application of

such provisions to persons or circumstances other than those as to which it is held invalid.

Approved July 6, 1977.

Be it enacted, etc., as follows:

Chapter 112 of the General Laws is hereby amended by striking out sections 12H to 12R, inclusive, inserted by section 1 of chapter 706 of the acts of 1974, and inserting in place thereof the following eleven sections:-

Section 12K. As used in section twelve L to section twelve U, inclusive, the following words shall have the following meanings:-

Abortion, the knowing destruction of the life of an unborn child or the intentional expulsion or removal of an unborn child from the womb other than for the principal purpose of producing a live birth or removing a dead fetus.

Hospital, a hospital as defined in section fifty-two of chapter one hundred and eleven of the General Laws, and duly licensed under the provisions of section fifty-one of chapter one hundred and eleven of the General Laws.

Physician, an individual lawfully authorized to practice medicine within the commonwealth.

Pregnancy, the condition of a mother carrying an unborn child.

Unborn child, the individual human life in existence and developing from fertilization until birth.

Section 12L. If a pregnancy has existed for less than twenty-four weeks no abortion may be performed except by a physician and only if, in the best medical judgment of a physician, the abortion is necessary under all attendant circumstances.

Section 12M. If a pregnancy has existed for twenty-four weeks or more, no abortion may be performed except by a physician and only if it is necessary to save the life of the mother, or if a continuation of her pregnancy will impose on her a substantial risk of grave impairment of her physical or mental health.

Section 12N. Any person who violates the provisions of sections twelve L or twelve M shall be punished by imprisonment for not less than one year nor more than five years. Conduct which violates the provisions of this act, which also violates any other criminal laws of the commonwealth, may be punished either

under the provisions of sections 12K to 12U, inclusive, or under such other applicable criminal laws.

Section 12O. If an abortion is performed pursuant to section twelve M, no abortion procedure which is designed to destroy the life of the unborn child or injure the unborn child in its mother's womb may be used unless, in the physician's best medical judgment, all other available procedures would create a greater risk of death or serious bodily harm to the mother either at the time of the abortion, or subsequently as the result of a future pregnancy, than the one being used.

Section 12P. If an abortion is performed pursuant to section twelve M, the physician performing the abortion shall take all reasonable steps, both during and subsequent to the abortion, in keeping with good medical practice, consistent with the procedure being used, to preserve the life and health of the aborted child. Such steps shall include the presence of life-supporting equipment, as defined by the department of public health, in the room where the abortion is to be performed.

Section 12Q. Except in an emergency requiring immediate action, no abortion may be performed under sections twelve L or twelve M unless the written informed consent of the proper person or persons has been delivered to the physician performing the abortion as set forth in section twelve S; and if the abortion is during or after the thirteenth week of pregnancy, it is performed in a hospital duly authorized to provide facilities for general surgery.

Except in an emergency requiring immediate action, no abortion may be performed under section twelve M unless performed in a hospital duly authorized to provide facilities for obstetrical services.

Section 12R. If the physician performing the abortion is not the physician who made the medical judgment required by section twelve M, before performing the abortion he shall obtain from the physician making such judgment a written statement setting forth the exception contained in section twelve M that in his best medical judgment permits the abortion and the specified reasons why the abortion qualifies under that exception. The physician performing the abortion shall retain this written statement as an attachment to the file copy of his report required by this section. Within thirty days after the performance of an abortion, the physician performing such abortion shall file with the commissioner of public health on a form prescribed by him the following information to the best of his knowledge: the date and place of the abortion; if he was the physician making the medical

judgment required by section twelve M, the exception contained in said section that in his best medical judgment permitted the abortion and the specific reasons why the abortion qualified under that exception; if he is not the physician who made such medical judgment, the name and address of the physician from whom he received the written statement required by this section and the exception contained in said section twelve M that permitted the abortion and a verbatim recitation of the specific reasons why the abortion qualified under either exception as set forth in the written statement he received from such physician; the age of the mother; the method used to perform the abortion; whether the mother survived the abortion; the details of any morbidity observed in the mother; the gestational age of the child; the weight and crown-rump length of the child if determinable; whether the unborn child was alive when removed or expelled from the mother and if so, the steps taken to preserve its life; and the length of time the child lived after removal or expulsion from the mother. The physician performing the abortion shall retain in his files for seven years after the abortion a copy of the report to which he should attach or otherwise add the name of the mother. The original of the report filed with the commissioner shall not contain the name of the mother and shall be maintained by the commissioner as a public record. The commissioner shall prepare from these reports such statistical tables with respect to maternal health, abortion procedures, the unborn child and viability as he deems useful and shall make an annual report thereof to the general court. Nothing in this section shall be construed to limit the authority of the department of public health to require reports pursuant to sections twenty-four A and twenty-five A of chapter one hundred and eleven.

Section 12S. If the mother is less than eighteen years of age and has not married, the consent of both the mother and her parents is required. If one or both of the mother's parents refuse such consent, consent may be obtained by order of a judge of the superior court for good cause shown, after such hearing as he deems necessary. Such a hearing will not require the appointment of a guardian for the mother. If one of the parents has died or has deserted his or her family, consent by the remaining parent is sufficient. If both parents have died or have deserted their family, consent of the mother's guardian or other person having duties similar to a guardian, or any person who had assumed the care and custody of the mother is sufficient. The commissioner of public health shall prescribe a written form for such consent. Such form shall be signed by the proper person or

persons and given to the physician performing the abortion who shall maintain it in his permanent files.

Nothing in this section shall be construed as abolishing or limiting any common law rights of any other person or persons relative to consent to the performance of an abortion for purposes of any civil action or any injunctive relief under section twelve U.

Section 12T. Any person who commits an act in violation of sections twelve O or twelve P shall be punished by a fine of not less than five hundred dollars nor more than two thousand dollars, or by imprisonment of not less than three months nor more than five years, or by both said fine and imprisonment. Conduct which violates sections twelve O or twelve P which also violates any other criminal laws of the commonwealth, may be punished either under this section or under such other applicable criminal laws. Any person who willfully violates the provisions of sections twelve Q or twelve R shall be punished by a fine of not less than one hundred dollars nor more than two thousand dollars.

Section 12U. The attorney general or any person whose consent is required either pursuant to section twelve S or under common law, may petition the superior court for an order enjoining the performance of any abortion that may be performed contrary to the provisions of section twelve L to twelve T, inclusive.

After the qualification of a majority of the water commissioners, meetings of the district shall be called by warrant under their hands, unless some other method be provided by by-law or vote of the district.

SECTION 9. question of including said real estate within the district. If a majority of the voters present and voting thereon vote in the affirmative the district clerk shall within ten days file with the town clerk of said town and with the state secretary an attested copy of said petition and vote; and thereupon said real estate shall become and be part of the district and shall be holden under this act in the same manner and to the same extent as the real estate described in section" one.

SECTION 14. This act shall take full effect upon its acceptance by a majority vote of the voters of the territory included within said district by section one present and voting thereon, by the use of a check list, at a district meeting called, in accordance with section eight, within four years after its passage.

The jury commissioner, with the approval of the supreme judicial court, shall promulgate regulations in furtherance of the governing procedures for the selection and management of all grand and trial jurors in Middlesex county. Boards of election commissioners in cities having such boards, boards of registrars of voters in other cities, and boards of selectmen in towns, hereinafter referred to in this chapter as "local boards," shall be bound by the rules of the supreme judicial court and the regulations of the jury commissioner made under the authority of this chapter and duly promulgated. On or before the first day of February of each year, the office of jury commissioner shall send by certified or first class mail a copy of its regulations to the local board of each city and town of Middlesex county. Not later than fifteen days after the enactment of a rule or regulation made under the authority of this chapter, the office of jury commissioner shall send by certified or first class mail or by personal delivery a copy of such rule or regulation to the local board of each city and town of Middlesex county.

Section 4. The judicial districts of the commonwealth for the purposes of this chapter shall be the counties unless modified by the supreme judicial court, which may, by rule of court, define judicial districts of lesser geographical area and population than a county for the purpose of drawing jurors for civil and criminal trials in the district courts of the commonwealth.

Section 5. On or before the first day of June of each year, the local board of each city and town of Middlesex county shall make a sequentially numbered list of the names and addresses of all persons who were seventeen years of age or older as of January first of the current year and who reside as of January first of the

current year in the city or town in which the local board is situated. This list shall be determined by the most recent annual census list and any other reasonable supplementary lists. The names of residents shall be listed and numbered, preferably in alphabetical order, one name to each number, along with such other information and in such format as shall be specified in the regulations of the jury commissioner. There shall be no duplication of names on the list. On or before the first day of June of each year, each local board shall make a copy of this list available for inspection by members of the public. On or before the first day of June of each year, each local board shall send by personal delivery or by registered mail two copies of this list to the office of jury commissioner. At all times, each local board shall keep in a secure place a duplicate of the latest copy of this list. For the purposes of this chapter, this list will be hereinafter referred to as the "local resident list," and a particular individual on such list will be hereinafter referred to as a "numbered resident."

Section 6. On or before the first day of July of each year, the office of jury commissioner shall determine the number of prospective jurors to be drawn from each city and town of Middlesex county based on the following formula: the number of prospective jurors to be drawn from each city and town shall be as nearly as possible equal to the ratio of the population of the city or town to the entire population of the judicial district in which the particular city or town is situated, multiplied by the total number of prospective jurors required for the judicial district. The total number of prospective jurors required for each judicial district shall be determined by the jury commissioner. In making these determinations, the jury commissioner shall take into consideration the experience of each judicial district in regard to the number of jurors required to be summoned in order to ensure that the judicial affairs of that district will be reasonably conducted without delay. The jury commissioner shall consider the anticipated workloads of each judicial district and other relevant factors. The population of the cities, towns, judicial districts, and counties required under this section shall be determined by the office of jury commissioner from the current local resident lists received from the local boards. The office of jury commissioner shall keep such records and data as are reasonably necessary for making rational determinations of the experience and other factors stated in this section.

The number of random numbers in each sequence shall be equal to the number of prospective jurors to be drawn from the corresponding city or town. No random number shall appear twice in the same sequence. No random number in any sequence shall be greater than the highest number or total number of residents on the local resident list for the corresponding city or town. The method of generation of random numbers shall be approved by the jury commissioner and shall be specified in the regulations of the jury commissioner. Technical data on the integrity of the random number generation method used under this section shall be compiled by the office of the jury commissioner. Such data shall be available to members of the public upon request. A summary of this data shall be published by the jury commissioner in his annual report.

Section 8. On or before the first day of September of each year, the local board of each city and town having a population in its current local resident list of greater than twenty-five thousand inhabitants shall prepare data processing records. One data processing record shall be prepared for each number in the said sequence of random numbers for the particular city or town. Each number in the sequence shall correspond to the numbered resident having the identical number on the local resident list. The data processing records, so prepared, shall correspond to each numbered resident on the local resident list whose number also appears in the corresponding sequence of random numbers. The data processing records shall be of such kind, and in such format, and shall contain such information as are specified in the regulations of the jury commissioner. On or before the first day of September of each year, each local board acting under this section shall send the prepared data processing records to the office of jury commissioner by personal delivery or by certified or first class mail. The cost for the preparation of such data processing records under this section shall be paid by the city or town.

Section 9. The local boards of each town of Middlesex county having a population in its current local resident list of twenty-five thousand or less inhabitants may comply with all steps specified in section eight, or alternatively, it may comply with the steps specified hereinafter in this section, but each such board must comply with either section eight or section nine. These forms shall be supplied without cost. The content and format of these forms shall be specified in the regulations of the jury commissioner. The local board shall prepare and complete these forms in lieu of the data processing records required in section eight. In an analagous manner as set forth in section eight, the specified information shall be provided on these forms pertaining to each numbered resident on the local resident list whose number also appears in the corresponding sequence of random numbers. On or before the first day of September of each year, each local board acting under this section shall send the completed forms to the office of jury commissioner by certified or first class mail or by personal delivery. On or before the first day of October of each year, the office of jury commissioner shall prepare the appropriate data processing records from these forms at no cost to the towns.

Section 10. On or before the first day of October of each year, the office of jury commissioner shall make a list for each city and town of Middlesex county; this list shall be in alphabetical order, and it shall contain all of the names, and certain related information with each name, which are contained in the data processing records of the particular city or town. The list shall hereinafter be referred to as the "prospective juror list" of a city or town. The content and format of the prospective juror lists shall be specified in the regulations of the jury commissioner. On or before the first day of October of each year, the office of jury commissioner shall send by certified or first class mail or by personal delivery to each local board two copies of the corresponding prospective juror list. Each local board shall make this list available for inspection by members of the public. A local board may publish this list at the expense of the city or town. The office of jury commissioner shall make the prospective juror lists for all cities and towns of Middlesex county available for inspection by members of the public. The aggregate of prospective juror lists from all cities and towns of Middlesex county shall be known, and hereinafter referred to, as the "master juror list" for Middlesex county.

5. such person is incapable, by reason of a physical or mental disability, of rendering satisfactory jury service, but any person claiming this disqualification shall be required to submit a letter from a registered physician or an accredited Christian science practitioner, in which such physician or practitioner shall state the nature of the disability and his opinion that such disability will substantially interfere with the person's ability to render satisfactory juror service, and such physician or practitioner shall be subject to inquiry by the court at its discretion; or

6. such person has served as a grand or trial juror in any court of the commonwealth within three years of the first day of January in the calendar year for which he is being considered.

The letter of venire shall state the numbers of jurors required for grand jury service or for trial jury service, the court, and the judicial district. In the case of grand juror service, the letter shall state the beginning date and the estimated length of the term. In the case of a special grand jury, the letter of venire may require the jury commissioner to summon jurors to appear for service forthwith or within a lesser period than would otherwise be required under this section. In the case of trial juror service, the letter shall state the period or periods of juror service to which the letter applies, and the number of jurors required during each period. The letter shall contain any further information which the jury commissioner deems appropriate. The form and content of the letter of venire shall be specified in the regulations of the jury commissioner.

Section 13. At least sixty days prior to the commencement of any term of grand or trial juror service, the jury commissioner shall determine, as a matter of discretion, the numbers of prospective jurors to be summoned from each judicial district of

Middlesex county for grand and trial juror service. In making these discretionary determinations, the jury commissioner shall consider the following factors as well as any other relevant factors: the requirements for jurors by the courts within each judicial district as expressed in the letters of venire; the experience of each judicial district in regard to the numbers of grand and trial jurors who actually serve versus the numbers of jurors who are summoned for service; and the experience of each judicial district in regard to the number of jurors required in the juror pool or pools of that district in order to insure that the judicial affairs of that district will be reasonably conducted without delay. The office of jury commissioner shall keep such records and data as are reasonably necessary for making rational determinations of the experience and other factors stated in this section.

Section 14. At least sixty days prior to the commencement of any term of grand or trial juror service, the office of jury commissioner shall select for each judicial district of Middlesex county those prospective jurors to be summoned for service during such term. A random method of selection shall be used by which grand and trial jurors shall be drawn or selected from the total number of prospective jurors of a judicial district from the master juror list. The particular method of random selection shall be approved by the jury commissioner and shall be specified in the regulations promulgated by him. Technical data on the integrity of the random number generation method used under this section shall be compiled by the office of jury commissioner. Such data shall be available to members of the public upon request. A summary of this data shall be published by the jury commissioner in the annual report.

Section 15. At least sixty days prior to the commencement of any term of grand or trial juror service, the office of jury commissioner shall summon by certified or first-class mail each prospective grand and trial juror selected under section fourteen to appear for juror service. The summons shall state whether the anticipated service is that of a grand or trial juror, the beginning date of the term; the name, address, hour, and room number, if any, of the courthouse or office to which the prospective juror is directed to report on the first day of service; the fact that a prospective trial juror has the right to one postponement of his term of juror service for not more than ten months; the fact that a knowing failure to obey the summons without justifiable excuse is a crime, which, upon conviction thereof, may be punished by a fine of not more than one thousand dollars; and such other infor-

mation and instructions as are deemed appropriate by the jury commissioner. The form and content of the juror summons shall be specified in the regulations of the jury commissioner.

Section 16. Enclosed with the summons shall be a notice of juror competency requirements. A copy of section eleven of this chapter shall be included in said notice. Said notice shall contain any further information and directions that the jury commissioner deems appropriate. The form and content of the notice of juror competency requirements shall be specified in the regulations of the jury commissioner.

Section 17. Enclosed with the summons shall be a juror confirmation form. When completed by the prospective juror, this form shall indicate whether or not the prospective juror is competent to serve as a trial or grand juror, and, if so, whether the prospective juror intends to appear as directed in the summons, or, in the case where a prospective trial juror has had no previous postponement of his term of service and elects to postpone such service, the month and day, and an alternate month and day, designated by him, on which he elects to perform his juror service, and such other information as the jury commissioner deems appropriate. The juror confirmation form shall contain a place for the signature of the prospective juror. The form and content of the juror confirmation form shall be specified in the regulations of the jury commissioner.

Section 18. Enclosed with the summons shall be a juror questionnaire. The information elicited by the questionnaire shall be such information as is ordinarily raised in voir dire examinations of jurors, including the juror's name, sex, age, residence, marital status, number and ages of children, education level, occupation, employment address, spouse's occupation, spouse's employment address, previous service as a juror, present or past involvement as a party to civil or criminal litigation, spouse's present or past involvement as a party to civil or criminal litigation, relation to a police or law enforcement officer, spouse's relation to a police or law enforcement officer, and such other information as the jury commissioner deems appropriate. The questionnaire shall contain the prospective juror's declaration that the information he has supplied in the completed questionnaire is true to the best of his knowledge and that he understands that a wilful misrepresentation of a material fact therein is a crime, which, upon conviction thereof, may be punished by a fine of not more than one thousand dollars. Immediately below such declaration, the questionnaire shall contain a place for the signature of the prospective juror. The form and content of the juror question-

naire shall be specified in the regulations of the jury commissioner. Unless the court orders otherwise, the clerk of court or an assistant clerk shall provide copies of the appropriate completed questionnaires to the trial judge and counsel for use during voir dire. Except for disclosures made during voir dire or unless the court orders otherwise, the information inserted by prospective jurors in the questionnaires shall be held confidential by the court, the clerk or assistant clerk, the parties, trial counsel, and their authorized agents. Upon completion of voir dire, the parties and their counsel shall return all copies of the completed questionnaires to the clerk or the assistant clerk. The clerk of court shall retain in a secure place all original completed questionnaires for each impanelled jury and alternate jurors until final disposition of the case. Said completed questionnaires shall not constitute a public record. All copies of juror questionnaires, other than the copy retained by the trial judge and the original retained by the clerk, shall be destroyed by the clerk or assistant clerk as soon as practicable after the completion of voir dire. A notice of the confidentiality of the completed questionnaire shall appear prominently on the face of the questionnaire.

Section 19. Every prospective juror who has been summoned for grand or trial juror service shall return the juror confirmation form, duly completed and signed, within ten days after its receipt by him. The office of jury commissioner shall provide a prepaid and addressed envelope for this purpose. If the prospective juror is unable to complete and sign the form, another person may do it for him, and shall indicate thereon the reasons for doing so. A notice of the prospective juror's duty to return the completed confirmation form within ten days of its receipt by him shall appear prominently on the face of the confirmation form.

Section 20. If it appears that there is an omission, ambiguity, or error in a returned juror confirmation form, the office of jury commissioner shall return the form to the prospective juror with specific instructions for correcting the defect or defects therein. The prospective juror shall return the corrected form within five days after its receipt by him.

Section 21. Any prospective juror who has failed to return a completed juror confirmation form or who has failed to return a duly corrected juror confirmation form by the thirtieth day preceding the term of service for which such juror was summoned shall be summoned a second time by the jury commissioner. The second summons shall have the same content and form as the first summons, except the words "Second Summons" shall appear prominently on the face of the summons, and the second sum-

mons shall be sent by first-class mail or registered mail or served by a sheriff or constable. A juror confirmation form and questionnaire shall be enclosed with the second summons. A prospective juror who is summoned under this section shall return a duly completed and signed juror confirmation form within five days of its receipt by him.

Section 22. On or before the thirtieth day preceding any term of grand or trial juror service, the office of jury commissioner may summon additional grand or trial jurors if it appears from the returned juror confirmation forms that the number of previously summoned jurors who will report for service will be inadequate for the needs of the court. A prospective juror who is summoned under this section shall return a duly completed and signed confirmation form within ten days of its receipt by him.

Section 23. The jury commissioner or the court may impose a standby status condition on any trial or grand juror before or during his term of service. A juror on whom such condition has been imposed shall be referred to as a standby juror. The standby juror shall be prepared to serve on each day of his term of service, but he shall not appear for service unless directed to do so in the following manner. The standby juror shall make telephone inquiry to a local office designated by the jury commissioner or the court after three o'clock in the afternoon on the day preceding his term of service in order to obtain specific instructions as to whether or not he should appear for juror service on the following day. A juror may be continued on standby status from day to day, but his term of service shall not be enlarged because of the standby condition unless the juror has been impanelled on a case or unless ordered by the court. A standby juror shall not be compensated by the county for any day during which such juror did not appear for service as directed. The designated local office may use an automatic telephone answering device for the purpose of giving instructions to and receiving messages from standby jurors. A notice of standby status may be enclosed with the juror summons. The form and content of this notice shall be specified in the regulations of the jury commissioner. Any other form of standby notice reasonably contemplated to give actual notice may be used. The court shall have discretionary authority to excuse a juror from the standby condition upon a showing of unusual hardship caused by the condition, but such juror shall serve or be available to serve without the standby condition unless further excused by the court. The court may order a standby juror to serve or to appear for service upon a date and time certain without the necessity of telephone inquiry by the standby

juror. The court may make further modifications of the standby conditions as are reasonably contemplated to facilitate the management of cases before the court provided that such modifications do not impose unusual hardships upon any juror.

Section 24. On the first day of his term of grand or trial juror service, a prospective juror shall bring to court and present to the clerk of court, assistant clerk, or officer in charge of jurors his summons, his duly completed and signed juror questionnaire, and his notice of postponement, if applicable. Notices of these duties shall appear prominently on the faces of the summons, questionnaire, and notice of postponement, respectively.

Section 25. Any prospective juror or other person who wilfully misrepresents a material fact in a juror questionnaire for the purpose of either avoiding or securing service as a grand or trial juror shall be guilty of a crime, and, upon conviction thereof, may be punished by a fine of not more than one thousand dollars.

Section 26. The court, the office of jury commissioner, and the clerk of court shall have authority to inquire into the criminal history records of prospective grand and trial jurors for the limited purpose of corroborating and determining the competence of prospective jurors. The court, the office of jury commissioner, and the clerk of court shall be authorized to request and receive such criminal history records and information from the criminal offender record information system as is necessary for the purpose of carrying out the provisions of this chapter. All criminal offender record information obtained under this section shall be held confidential by persons authorized hereunder.

Section 27. A prospective juror who has been summoned for trial juror service shall have the right to one postponement of his term of juror service for not more than ten months. The prospective trial juror must exercise this right by duly completing and returning the juror confirmation form in which his election to postpone shall be indicated. The month and date, and an alternate month and date, to which the service is postponed shall be indicated in the confirmation form. The office of jury commissioner shall have the authority to effectuate such first postponements. If the postponement date designated by a prospective trial juror is improper or inconvenient for the court, the office of jury commissioner shall assign the alternate postponement date unless that date is also improper or inconvenient in which case the office of jury commissioner shall assign a date of service which is reasonably close to the postponement date selected by the prospective juror.

Section 28. Not later than ten days after the receipt of an election to postpone, the office of jury commissioner shall send by certified or first-class mail a notice of postponement to the prospective trial juror. This notice shall state the date of postponement effectuated by the office of jury commissioner. The prospective juror shall appear for service on the date of postponement without further summoning. The notice of postponement shall state prominently on its face the fact that the prospective juror has a duty to appear for service on the postponement date without further summoning. The content and form of the notice of postponement shall be specified in the regulations of the jury commissioner.

Section 29. The legislative, executive, and judicial departments of the commonwealth shall not be impeded by the provisions of this chapter from freely exercising their independent powers and duties. Any of the following persons who is a juror or a prospective juror and who certifies in writing to the court that there is important business of the commonwealth which requires his presence away from the court during his term of service shall be granted as a matter of right an immediate postponement of his term of service as a grand or trial juror: the governor, the lieutenant-governor, councillors, and other constitutional officers, senators, representatives, and justices of the supreme judicial court. In the certificate to the court, the person requesting the postponement shall state a period of time reasonably contemplated for the completion of such official business. The length of the postponement granted by the court shall not be less than the period stated in the certificate. Any person who qualifies under this section may request and shall receive any number of postponements.

Section 30. A grand or trial juror may be permitted by the court to be available for juror service or continued juror service upon telephone notice. A juror who agrees to be available on telephone notice shall provide to the court a telephone number and a named individual by which he may be notified with certainty during court hours to begin or resume his juror service not more than one hour after such notice has been given. Such juror shall conduct his affairs during court hours so that he shall insure his compliance with the conditions of telephone notice. A juror on telephone notice shall not be compensated by the county for juror service for days during which he did not appear for service as directed.

Section 31. The court shall have discretionary authority to excuse or postpone a prospective grand juror from juror service, in

part or in full, upon a showing of hardship, inconvenience, or public necessity with regard to the expected length of the term of grand juror service. The court shall have discretionary authority to excuse or postpone a prospective trial juror from juror service, in part or in full, or to excuse a trial juror during the trial, upon a showing of severe hardship, extreme inconvenience, or peculiar public necessity. Notwithstanding the fact that a prospective juror has been summoned as a grand or trial juror, with or without right of postponement of service, the court shall have the discretionary authority to require such prospective juror to serve either as a grand or trial juror, immediately or at a future date. The court may impose reasonable conditions upon a term of juror service. The court may exercise this authority at all times before or during the juror's term of service. The court shall have the discretionary authority to dismiss a prospective juror or juror at any time in the best interest of justice. In the event that a trial is expected by the court to last more than five trial days, the trial judge shall announce this fact to the jurors before the jury is impanelled. The trial judge shall have discretionary authority to excuse a juror from performing his juror service on such an extended trial upon a showing of hardship, inconvenience, or public necessity with regard to the expected length of the extended trial, but any juror so excused shall otherwise complete his term of service.

Section 32. A prospective grand or trial juror who fails to appear for service as summoned, or as duly postponed, or who fails to complete his term of service as directed shall be ordered by the court to appear forthwith and show cause for his failure to perform his juror service. If such juror fails to appear or does appear but fails to show good cause for his failure to perform or complete his juror service, he shall be guilty of criminal contempt, and, upon conviction thereof, may be punished by a fine of not more than one thousand dollars.

Section 33. The length of the term of service for trial jurors shall not be greater than two days unless a juror is sitting on an incompleated trial when the term ends or unless the court orders otherwise. The length of the term of service for grand jurors shall be as set forth by statute or within the discretion of the court.

Section 34. If a shortage of available grand or trial jurors occurs in a judicial district or there is a strong likelihood that such shortage will occur so that the court is or will be prevented from the convenient dispatch of its business, the chief justice of such court may order in writing the jury commissioner to summon a designated number of prospective jurors to appear forthwith for

juror service in the particular judicial district for such term as is ordered by the chief justice. Prospective jurors summoned under this section shall not have the right of first postponement. The jury commissioner shall use the form of summons and means of notice or service which he deems appropriate under the circumstances.

Section 35. Nothing in this section shall limit the authority of the court to supervise jurors and jury officers in the furtherance of justice and the convenient dispatch of the court's business. The office of jury commissioner shall perform studies and, when necessary, implement new procedures which are reasonably contemplated toward the improvement of the administration of jurors; the reduction of the costs of selection, management, and compensation of jurors; the monitoring and improvement of the integrity of jury pools and jury panels; the more effective utilization of jurors in the jury pools; the improved understanding by jurors of their duties and of the court's charge and instructions; and providing for the reasonable comfort and convenience of jurors during their terms of service. The jury commissioner shall annually prepare and submit to the supreme judicial court a comprehensive budget for the administration and compensation of jurors itemized by judicial district and for Middlesex county.

Section 36. On the first day of April of each year, the jury commissioner shall submit a comprehensive report for the previous calendar year to the supreme judicial court. This report shall be itemized for grand and trial jurors and for each judicial district and for the commonwealth. The report shall contain a narrative of significant developments in the administration of jurors in the commonwealth during the previous year. The report shall contain recommendations, including suggested new legislation where appropriate, for the improvement of the system of administration, utilization, and education of jurors and potential jurors in the commonwealth. The report shall contain an analysis of the costs of administering and compensating jurors. The report shall contain a statistical analysis of all of the significant steps in the selection, summoning, and management of jurors, including, but not limited to, the numbers of jurors who respond to the juror questionnaires and the several summonses, the numbers of jurors who postpone their terms of service, and whose terms are postponed, excused, or dismissed by the court, and the grounds therefor. Insofar as the jury commissioner can reasonably determine, the report shall contain statistical measurements of the integrity or the property of representing a fair cross-section of the population, of the jury pools and jury

panels in the commonwealth. Insofar as the jury commissioner can reasonably determine, the report shall contain statistical measurements of the degree of effectiveness of the utilization of jurors from the jury pools, such as, but not limited to, the ratio of the number of juror hours spent in trial sessions divided by the total number of juror service hours. The report shall contain any further narratives, financial accounts, statistical analyses, and data as deemed appropriate by the jury commissioner. Said report shall be a public document.

Section 37. Each trial juror who is regularly employed shall be compensated by his employer for the first three days, or part thereof, of juror service. The amount of such compensation shall be determined by multiplying the average daily income or salary of the juror-employee by the number of days of juror service performed. A trial juror who is self-employed shall compensate himself for the first three days, or part thereof, of juror service. A trial juror who is unemployed shall not be compensated by the county for the first three days, or part thereof, of juror service, but any unemployed person who is receiving benefits under the laws of employment security of this commonwealth shall not lose such benefits on account of his service as a trial juror during the first three days, or part thereof, of juror service. A trial juror who serves more than three days shall be compensated for the fourth day of service and each day of service thereafter by the county at the rate of forty dollars per day of service. Each grand juror shall be compensated by the county at the rate of forty dollars per day of service. Trial and grand jurors shall not receive reimbursement or additional compensation for travel. A juror who is absent from service because of serious illness or other compelling reason, as determined by the office of jury commissioner or by the court, shall be compensated therefor, by his employer or by the county, whichever is applicable under this section.

Section 38. The court shall have the authority to excuse, in part or in full, an employer from the duty to compensate the juror-employee for the first three days, or part thereof, of trial juror service upon a showing of extreme financial hardship. The court shall have the authority to excuse, in part or in full, a self-employed juror from the duty to compensate himself for the first three days, or part thereof, of trial juror service upon a showing of extreme financial hardship. The court shall have the authority to compensate an unemployed juror for the first three days, or part thereof, of trial juror service upon a showing of extreme financial hardship caused by the performance of juror service. The court shall have the authority to reimburse a juror who is not

receiving compensation for juror service for travel and other out-of-pocket expenses reasonably incurred during the first three days, or part thereof, of trial juror service. The hearing on any matter under this section shall be held not later than thirty days after the termination of the juror's term of service. If an employer or juror is so excused or reimbursed, the juror shall be compensated by the county for his service or reimbursed by the county for his travel and expenses in the amount determined by the court, but such compensation or reimbursement shall not exceed forty dollars per day of juror service. The office of jury commissioner shall record each such excuse and reimbursement, the reasons therefor, and the amounts of compensation or reimbursement awarded by the court.

Section 39. The juror service certificate shall contain the name, address, and the social security number of the juror, if available; the name and address of the juror's employer; the name, address and judicial district of the court in which the juror service was performed; the period in which each certificate applies; the number of days of juror service performed by the juror within the period, and the specific dates thereof; the total compensation received from the county by the juror during the period; a declaration of the right of an employer to be excused from the duty to compensate a juror-employee for the first three days of trial juror service, or part thereof, upon a showing of extreme financial hardship; and any other information which the jury commissioner deems appropriate. The form and content of the juror service certificate shall be specified in the regulations of the jury commissioner. The county shall issue juror service certificates on a weekly basis to all grand and trial jurors. The office of jury commissioner shall provide an ample supply of blank juror service certificates to each county. A trial juror who seeks compensation from his employer for the first three days of juror service, or part thereof, shall present the applicable juror service certificate to his employer within thirty days after the termination of his term of juror service. A notice of this duty shall appear prominently on the face of the certificate.

Section 40. Any employer who refuses to compensate a trial juror-employee for a just claim under section thirty-seven and who has not been excused from such payment under section thirty-eight shall be liable in tort to the juror-employee. After tender by the juror of the applicable juror service certificate and upon the expiration of thirty days after the termination of the juror's term of service, the juror may commence an action in any district court of the commonwealth having civil jurisdiction over

the parties. Extreme financial hardship shall not be a defense to this action. The court may award to the plaintiff treble damages and reasonable attorney's fees.

Section 41. An employer shall not deprive an employee of his employment, or threaten or otherwise coerce him with respect thereto, because the employee receives a summons, responds thereto, or serves as a grand or trial juror. Any employer who violates this section shall be guilty of a crime, and, upon conviction thereof, may be punished by a fine of not more than one thousand dollars. If an employer discharges an employee in violation of this section, the employee, within ninety days of such discharge, may bring a civil action in the superior court for recovery of wages lost and other damages as a result of the violation and for an order requiring the reinstatement of the employee. The court may award to the plaintiff treble damages and reasonable attorney's fees.

Section 42. Not later than ten days prior to the beginning of each grand and trial juror's term of service, the office of jury commissioner shall send to each juror by first-class mail a copy of the juror's handbook. The juror's handbook shall inform prospective jurors in lay terminology of the nature and extent of their forthcoming duties as grand or trial jurors. The handbook may introduce and orient prospective jurors to basic trial procedures and legal terminology. The handbook shall not include any material which would be regarded by jurors as instructions of law to be applied in any case or any material which may prejudice any party. The full text of the juror's handbook shall be specified in the regulations of the jury commissioner. Each prospective grand or trial juror shall read the juror's handbook before he reports for service as a juror. The juror's handbook shall be a public document. The jury commissioner may distribute copies of the juror's handbook, and related educational materials, to public and private schools, civic organizations, the press, etc., in order to promote citizen awareness and understanding of all aspects of the juror system of this commonwealth. The jury commissioner may, with the approval of the chief justice of the supreme judicial court, distribute or exhibit to jurors and prospective jurors further educational materials, recordings, films, videotapes, lectures, and the like, as he deems appropriate to assist such persons in understanding and fulfilling their duties and obligations as jurors.

Section 43. Not later than ten days in advance, the office of jury commissioner shall send by first class mail or personal delivery to the clerk of court of each judicial district a list of the

prospective grand and trial jurors who were summoned and are expected to appear for service on a designated day in the particular court. This list shall contain the name and address of each prospective juror, and such other information as the jury commissioner shall by regulation stipulate. The form and content of this list shall be specified in the regulations of the jury commissioner. This list shall be in a form which is capable of being duplicated on office equipment. Unless the court orders otherwise, the clerk shall make copies of current trial lists available to members of the public upon request. These lists shall not be used by members of the public for purposes other than determining the integrity of the juror selection system under this chapter.

Section 44. If a civil or criminal case to be tried with a jury of twelve persons is expected by the court to last more than twenty trial days, sixteen jurors shall be impanelled. If a civil or criminal case to be tried with a jury of twelve persons is expected by the court to last more than five trial days but less than twenty trial days, fourteen jurors shall be impanelled. In every other civil and criminal case to be tried with a jury of twelve persons, thirteen jurors shall be impanelled. If a civil or criminal case to be tried with a jury of six persons is expected by the court to last more than five trial days, eight jurors shall be impanelled. In every other civil and criminal case to be tried with a jury of six persons, seven jurors shall be impanelled. The court shall have jurisdiction and authority to try the case with the number of jurors heretofore stipulated subject to the following provisions of this section. Before the case has been submitted by the court to the jury for its deliberation upon a verdict, the court shall have discretionary authority to excuse and discharge a juror upon a showing of severe hardship, extreme inconvenience, or peculiar public necessity. After the case has been submitted by the court to the jury for its deliberation upon a verdict, the court shall have discretionary authority to excuse and discharge a juror upon a showing of an emergency or other very compelling reason. If, at the time of the submission of the case by the court to the jury for its deliberation upon a verdict, more than the number of jurors required for deliberation are available, the court shall direct the clerk to place the names of all of the available jurors except the foreman into a box or drum and to select at random the names of the appropriate number of jurors necessary to reduce the jury to the proper number of members required for deliberation in the particular case. The jurors so selected shall not be discharged, but shall be known as alternate jurors. The alternate jurors shall be kept separate from the jury in some convenient location, sub-

ject to the same rules and regulations as govern the jury during its deliberations, until the jury has agreed upon a verdict or has been otherwise discharged. If, at any time after the submission of the case by the court to the jury for its deliberation upon a verdict, a juror is discharged by the court for any reason, the court shall direct the clerk to place all of the names of the alternate jurors in a box or drum and to select at random the name of an alternate juror. The alternate juror so selected shall take the place of the discharged juror on the jury. The jury, so constituted, shall then renew its deliberations with full authority to render a verdict in the case. The court shall have jurisdiction to receive the verdict of the jury, as constituted under the provisions of this section, and shall have jurisdiction and full authority to render judgment in the case. Whenever it is appropriate for the court to direct a verdict, the court may do so without first reducing the number of jurors to the proper number required for deliberation in the case. Upon a finding of cause, the trial judge may impanel a greater or lesser number of jurors than specified under this section. Nothing in this section shall prevent the court from rendering a valid judgment based upon a verdict rendered by fewer jurors than required under this section where all parties have by stipulation agreed to this procedure.

Section 45. Upon motion of either of the parties, or whenever the court in its discretion deems it appropriate, the court shall include in its charge to the jury an instruction which in substance states that no duly impanelled trial juror is better qualified to determine the truth of the facts in controversy or to deliberate upon a verdict solely because of his occupation or reputation. The court shall have discretion to express this instruction in whatever language it deems appropriate and to supplement, elaborate, or explain this instruction to the jury with reference to the particular case being submitted to it. This section shall not be construed as a limitation in any way upon the court's authority to make such further charges as are appropriate.

Section 46. Whoever is guilty of fraud in the processing or selecting of jurors or prospective jurors, either by causing any name to be inserted into any list wrongfully, or by causing any name to be deleted from any list wrongfully, including the altering of any data processing machine or any set of instructions or programs which control data processing equipment for such wrongful purpose, shall have committed the crime of jury tampering, and, upon conviction thereof, may be punished by a fine of not more than ten thousand dollars, or imprisonment of not more than two years, or both.

Section 47. All official records and papers compiled and maintained by the office of jury commissioner shall be preserved for four years after the calendar year to which they apply.

Section 48. Either of the parties may challenge the array by a motion for appropriate relief. A challenge to the array may be made only on the ground that the prospective jurors were not selected or drawn according to law. Challenges to the array shall be made and decided before any individual juror is examined, unless otherwise ordered by the court. A challenge to the array shall be in writing, supported by affidavit, and shall specify the facts constituting the ground of the challenge. Challenges to the array shall be tried by the court and may, within the discretion of the court, be decided on the basis of the affidavits filed with the challenge. Upon the trial of a challenge to the array, the witnesses may be examined on oath by the court and may be so examined by either party. If the challenge to the array is sustained, the court shall discharge the panel. No irregularity in any letter of venire, or any list of jurors or prospective jurors, or in the selecting, summoning, managing, or impanelling of jurors, or in any other procedure performed under the authority of this chapter, shall be sufficient to set aside a verdict unless the objection is made seasonably and before the verdict and the objecting party is substantially injured or prejudiced thereby.

Section 49. The use of electronic data processing equipment and methods by the office of jury commissioner and local boards for the implementation of this chapter is hereby specifically authorized. The jury commissioner may, with the approval of the chief justice of the supreme judicial court, enter into contracts for the purchase of data processing services and supplies which are reasonably necessary for the implementation and operation of this chapter, provided that such purchases shall be paid from funds appropriated for said purposes.

Section 50. The jury commissioner, with the approval of the chief justice of the supreme judicial court, may enter into contracts and agreements with, and accept gifts, grants, contributions, and bequests of funds from, any department, agency, or subdivision of federal, state, county, or municipal government, and any individual, foundation, corporation, association, or public authority for the purpose of providing or receiving services, facilities, staff assistance, equipment, and supplies in connection with any provisions of this chapter or for the general improvement of the jury system. Such funds shall be deposited with the state treasurer and may be expended by the jury commissioner or his authorized agent in accordance with the conditions

of such gift, grant, contribution, or bequest, without specific appropriation.

SECTION 3. If any provision of this act or the application thereof is held invalid, such invalidity shall not affect other provisions or applications of this act which can be given effect without the invalid provisions or application, and, to this end, the provisions of this act are severable.

SECTION 4. Notwithstanding any other provision of law to the contrary, the provisions of this act shall apply in Middlesex county in accordance with the effective dates set forth in this act. Any other provisions of law which conflict with the application or implementation of this chapter in Middlesex county are hereby repealed insofar as they apply in Middlesex county, but such provisions shall nevertheless continue to be valid, effective, and applicable in all counties of this commonwealth except Middlesex county.

SECTION 5. The following sections of chapter two hundred and thirty-four A of the General Laws, inserted by section two of this act, shall take effect on January first, nineteen hundred and seventy-eight: one to eleven, inclusive, forty-six, forty-seven, forty-nine, fifty and fifty-one.

SECTION 6. The justices of the supreme judicial court shall have the authority to appoint the jury commissioner on or after the first day of October, nineteen hundred and seventy-seven. The jury commissioner shall have the authority to appoint, and the chief justice of the supreme judicial court shall have the authority to approve, such staff members as are necessary for the implementation of this act.

SECTION 7. Section fifty-eight of chapter thirty-three of the General Laws is hereby repealed.

SECTION 8. The provisions of sections one, two, three A, four to twelve, inclusive, seventeen to twenty-four B, inclusive, twenty-six B, thirty-two, thirty-six and forty-one of chapter two hundred and thirty-four of the General Laws shall become inap-

plicable as to Middlesex county upon the applicable provisions covering the same subject matter in the various sections of chapter two hundred and thirty-four A becoming effective as otherwise provided in this act.

SECTION 9. Section 25 of chapter 262 of the General Laws is hereby amended by adding the following two sentences:- This section shall not apply in Middlesex county. The compensation of grand and trial jurors who serve in Middlesex county shall be governed by the applicable provisions of chapter two hundred and thirty-four A.

Chap. 418. AN ACT FURTHER REGULATING CERTAIN ACTIVITIES IN MOUNTAIN REGIONS OF BERKSHIRE COUNTY.

Be it enacted, etc., as follows:

SECTION 1. Chapter 131 of the General Laws is hereby amended by striking out section 39A, as most recently amended by section 236 of chapter 706 of the acts of 1975, and inserting in place thereof the following section:-

Section 39A. A city or town in the county of Berkshire which accepts the provisions of this section may designate its conservation commission, or if having none, the board of selectmen in a town or the mayor in a city, to carry out the provisions of this section. The designated agency shall adopt reasonable rules and

regulations relative to the mountain regions situated within the territorial limits of such city or town to protect watershed resources and preserve the natural scenic qualities of the environment. The term "applicant" as used in this section shall mean the person giving notice of intention to conduct any regulated activity.

The term "base elevation" as used in this section shall mean the elevation of the watershed in which the activity is proposed. The mean elevation shall be determined relative to the portion of the watershed which is situated in said county by taking the highest and lowest elevation in each city and town within the watershed and finding the average of these elevations.

The base elevation for each of the watersheds in said county shall be as follows:

Farmington River watershed	1,500 feet above mean sea level
Housatonic River watershed	1,500 feet above mean sea level
Westfield River watershed	1,600 feet above mean sea level
Deerfield River watershed	1,700 feet above mean sea level
Hudson River watershed	1,700 feet above mean sea level
Hoosic River watershed	1,800 feet above mean sea level

The term "department" as used in this section shall mean the department of environmental management in the executive office of environmental affairs.

The term "commissioner" as used in this section shall mean the commissioner of environmental management.

The term "hearing authority" as used in this section shall mean the conservation commission, or if none, the board of selectmen in a town, or the mayor of a city within the county of Berkshire which has accepted the provisions of this section.

The term "mountain regions" as used in this section shall mean those highland areas within any city or town within the county of Berkshire which are made subject to the provisions of this section.

The term "owner" as used in this section shall mean the person appearing as the owner in the most recent records of the tax assessor.

The term "person" as used in this section shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the commonwealth or political subdivision thereof, administrative agency, public or quasi-public corporation or body, or any other legal entity or its legal representative, agents or assigns.

The term "regulated activities" as used in this section shall mean the removal, filling, excavation or other alteration of land

within mountain regions which is likely to have a significant adverse effect on watershed resources or natural scenic qualities because of the pollution or diminution of ground or surface water supply, public or private; erosion; flooding; substantial changes in topographic features or substantial destruction of vegetation.

The term "regulations" as used in this section shall mean reasonable rules and regulations, adopted by the hearing authority pursuant to chapter thirty A, and approved by the commissioner in consultation with the office of state planning, to carry out the provisions of this section for the protection of watershed resources and the preservation of natural scenic qualities of mountain regions.

The hearing authority shall draft proposed boundaries for mountain regions. The mountain regions shall generally be those areas within the city or town which have an elevation greater than the base elevation as defined in this section. If the hearing authority determines that the regulation of certain areas which have elevations lower than the base elevation is necessary to accomplish the purposes of this section, the hearing authority may include those areas in the proposed mountain regions. If the hearing authority finds that regulation of certain areas above the base elevation would not accomplish the purposes of this section, the hearing authority may exempt those areas from the proposed mountain regions.

After drafting proposed boundaries for mountain regions, the hearing authority shall submit a map and text delineating the proposed boundaries to the board of health, to the planning board, and to the city council or board of selectmen of said city or town, and to the department of environmental management in this section called the department. After submission of the map and text the city council or board of selectmen may, after a hearing of which notice shall have been published at least seven days in advance in a newspaper of general circulation in the city or town, adopt, or amend and adopt, in each case by a two-thirds vote, final boundaries of the mountain regions. The hearing authority shall file the map and text delineating the location of final boundaries of mountain regions so adopted with the city or town clerk, and simultaneously shall send verified copies of such map and text to the commissioner and to the register of the registry of deeds for the district in which the land lies. The provisions of this section governing regulated activities shall take effect with respect to land within such boundaries upon such filing or upon approval of the regulations by the commissioner, whichever shall last occur. The location of such boundaries of

mountain regions may be amended, changed, or repealed by a two-thirds vote of the city or town in the same manner as they were adopted. No regulated activities shall be conducted on land within any mountain region after the provisions of this section take effect with respect to such land except in accordance with the provisions of this section.

Any person who believes that any land is not within the boundaries of a mountain region or that any proposed work is subject to an exemption specifically provided for hereinafter in this section may file with the hearing authority by certified mail a request for an exemption determination. The hearing authority shall within twenty-one days make the determination requested and send a copy thereof to the person making the request and to the owner of the land in question if other than such person.

Any person who proposes to remove, fill, excavate, or alter any land within a mountain region and who believes such proposed work is not a regulated activity may request a preliminary determination as provided in this paragraph. Such person shall file by certified mail notice thereof with the hearing authority together with such information or plans as may be necessary to describe in general terms the nature and scope of the proposed activity and its effect upon the watershed and scenic resources sought to be protected by this section; provided, however, that any plans need not be detailed engineering or architectural plans so long as the nature and scope of the proposed activity is reasonably described. No such notice shall be sent before all permits, variances, and approvals required by by-law or ordinance with respect to the proposed activity have been applied for. Upon receipt of such notice the hearing authority shall designate a file number for such notice and within twenty-one days, shall make a preliminary determination whether or not the proposed work is a regulated activity. If the hearing authority finds that the activity is not a regulated activity, then it shall issue a written order which states that finding, and send a copy thereof to the applicant and to the owner of the land in question if other than the applicant. If the hearing authority finds that the activity is a regulated activity, then it shall hold a public hearing as provided in this section. Whether the hearing authority finds the proposed activity a regulated activity or not, it shall post a notice of its finding in its customary place of general public notice within one day of making its finding.

The hearing authority may rescind an order issued after a preliminary determination and hold a public hearing as provided in the following paragraph if any owner of land abutting the

land upon which the proposed activity is to be conducted or any ten residents of the city or town where the land is located request by certified mail a hearing within ten days of the issuance of the order. If an applicant is not notified within fourteen days after an order issues that the hearing authority has rescinded the order, then the applicant may perform the proposed activity.

Before performing any regulated activities, or in the case of a public hearing ordered under the preceding paragraph, an applicant shall pay a filing fee of twenty-five dollars to the city or town and file notice of the regulated activities to be performed together with such information as may be reasonably required by regulation to describe the nature and scope of the proposed activities and their effect on the watershed or scenic resources protected under the provisions of this section; provided, however, that any environmental impact statement filed with any state or federal agency shall be sufficient information with respect to such activity for purposes of complying with this section. The hearing authority shall hold a public hearing on the proposed activity within twenty-one days of receipt of such notice, and shall give notice of such hearing at the expense of the applicant at least five days prior thereto by publication in a newspaper of general circulation in the city or town where the activity is proposed and mailing by certified mail a copy of the published notice to the applicant, to the board of health, and to the planning board of said city or town, if any.

Within twenty-one days after the hearing, the hearing authority shall issue a written order which may impose on the proposed activity such reasonable conditions as may be necessary to protect watershed resources or natural scenic qualities against any significant adverse effect because of the pollution or diminution of ground or surface water supply, public or private; erosion; flooding; substantial changes in topographic features or substantial destruction of vegetation. The order shall be signed by a majority of the hearing authority and a copy thereof shall be sent by certified mail to the applicant, to the owner if other than the applicant, and to the department of environmental management. The order shall be posted within one day of its issuance in the hearing authority's customary place of general public notice.

Upon issuance of an order, the applicant or any person aggrieved by the order or any owner of land abutting the land upon which the proposed activity is to be conducted, or any ten residents of the city or town where such land is located may request the department to determine if other reasonable conditions should be imposed, or if such conditions should be modified in

order to protect against a significant adverse effect on watershed resources or natural scenic qualities, or if conditions can be modified or eliminated without any loss of protection against any significant adverse effect on watershed resources or scenic qualities. Such request may also be submitted if the hearing authority fails to hold a hearing within twenty-one days after receipt of the notice of intention, or if the hearing authority holds a hearing but fails to issue an order within twenty-one days after the hearing. The request shall be sent to the department by certified mail within ten days after the hearing authority has acted or failed to act. At the same time, the party making the request shall send copies thereof by certified mail to the hearing authority and, if the party is not the owner and applicant, to the owner and to the applicant. Upon receiving a copy of such request, the hearing authority shall within seven days forward the file on the matter to the department. Within ten days after receipt of such file, the department shall notify the applicant if the application is not in the proper form or is lacking information necessary to make the determination. Within twenty-one days after receipt of such request, the department shall make the determination requested and shall issue a written order, signed by the commissioner, imposing such reasonable conditions as may be necessary to protect the resources described herein, or modifying or eliminating conditions that may reasonably be so changed without any loss of protection of the resources described herein; provided, however, that if within such time the department finds the matter is of such size or complexity that additional time is needed, such twenty-one day period may by order be extended up to an additional sixty days. Any order of the department shall supersede any prior order of the hearing authority and all work shall be done in accordance therewith. A copy of the order shall be sent by certified mail to the applicant, to the owner, to the hearing authority, and to the party who requested the order if not the applicant. Any action by the department under this section shall not be considered an action subject to the provisions of sections sixty-one and sixty-two of chapter thirty.

If the applicant is not notified of a request of the department within fourteen days after the issuance of an order by the hearing authority, or upon the issuance of an order by the department, said applicant may conduct any regulated activities in accordance with the terms of the order, issued by the hearing authority.

Any person aggrieved by an order of the department issued under the provisions of this section may appeal under the provisions of chapter thirty A. Such right of appeal shall be exclusive.

Any order issued under the provisions of this section may be recorded in the registry of deeds for the district in which the land lies, and, upon completion of the activity in compliance with the order, the applicant may obtain a certificate of compliance from the agency which issued the order which may be recorded in like manner.

Any person except a bona fide purchaser for value without notice who purchases or otherwise acquires land upon which an activity has been done in violation of the provisions of this section or in violation of an order issued under this section shall forthwith comply with the order or restore the land to its condition prior to any violation.

If an applicant fails to commence the proposed activity within one year following the date of issuance of an order, and thereafter prosecute diligently such activity to completion, such inaction shall constitute an abandonment of the project and the hearing authority, after reasonable notice to the applicant, may revoke the order. The applicant may request an extension of the order prior to the expiration of the one-year period from the agency which issued the order. Said agency, in its discretion, may grant two extensions of the order for a period no longer than one year.

The agency which issued the order may suspend or revoke the order if it finds that the applicant has not complied with the conditions set forth in the order, or that the applicant has exceeded the scope of activity as set forth in the application. Such a finding shall be made only after giving notice to the applicant of the facts or conduct which warrant the intended action, and after a hearing at which the applicant is given an opportunity to show compliance with the conditions of the order.

The hearing authority, its agents, officers and employees, and the commissioner, and his agents and employees, may enter upon privately owned land for the purpose of carrying out the provisions of this section.

Any court having equity jurisdiction may restrain a violation of this section and enter such orders as it deems necessary to remedy such violation, upon the petition of the attorney general, the commissioner, a city or town, an owner or occupant of property which may be affected by removal, filling, excavation, or altering, or ten residents of the commonwealth under the provisions of section seven A of chapter two hundred and fourteen.

Whoever violates any provision of this section shall be punished by a fine of not more than one thousand dollars or by imprisonment for not more than six months or both. Each day or

portion thereof of continuing violation shall constitute a separate offense. This section shall be enforced by officers of the executive office of environmental affairs.

The provisions of this section shall not apply to owners of land who propose to cut forest products on land devoted to forest purposes and who have complied with the provisions of sections forty to forty-six, inclusive, of chapter one hundred and thirty-two.

This section shall not apply to any activity which is subject to the provisions of section forty of this chapter.

This section shall not apply to any activity which is conducted in connection with the construction or maintenance of any facility, as that term is defined in section sixty-nine G of chapter one hundred and sixty-four, or to the maintenance, repair, reconstruction, replacement, enlargement which is not of a substantial nature, or change in use of any lawfully located and constructed structure, nor to any activity conducted in connection with the construction or maintenance of any electrical, transmission or distribution facilities or facilities used in the transmission of intelligence by electricity or by telephone or otherwise for which locations in the public ways have been approved by the selectmen or aldermen under the provisions of section twenty-two of chapter one hundred and sixty-six, nor to the construction or maintenance of any electric distribution facilities required to serve a building or structure whose construction has been approved hereunder.

SECTION 1A. Sections two hundred and thirty-two, two hundred and thirty-three, two hundred and thirty-four, two hundred and thirty-five and two hundred and thirty-six of chapter seven hundred and six of the acts of nineteen hundred and seventy-five are hereby repealed.

SECTION 2. Section two of chapter eight hundred and forty-two of the acts of nineteen hundred and seventy-four, as amended by section three hundred and eleven of said chapter seven hundred and six, is hereby repealed.

SECTION 3. Section four of said chapter eight hundred and forty-two is hereby repealed.

SECTION 4. Section thirty-nine A of chapter one hundred and thirty-one of the General Laws, as amended by section one of this act, shall not apply to any structure with respect to which construction was substantially commenced or for which permits, variances, approvals, including subdivision approvals pursuant to sections eighty-one K to eighty-one GG, inclusive, of chapter

forty-one of the General Laws, have been granted prior to the effective date of this act with respect to land within a mountain region.

SECTION 5. If any of the provisions of section thirty-nine A of chapter one hundred and thirty-one of the General Laws, inserted by section one of this act, or the application of such provision to any person or circumstances shall be invalid, the remainder of said section or application of that provision to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby.

Chap. 420. AN ACT FURTHER REGULATING THE SOUTH ESSEX SOLID WASTE DISPOSAL DISTRICT.

Be it enacted, etc., as follows:

SECTION 1. Chapter 770 of the acts of 1975 is hereby amended by striking out sections 1 and 2 and inserting in place thereof the following two sections:-

Section 1. In order to eliminate the nuisances attendant upon the disposal of solid waste in the cities and the towns who are members in good standing of the Southern Essex Solid Waste Council there is hereby created a body politic and corporate to be known as the South Essex Solid Waste Disposal District, hereinafter called the district. Members in good standing, hereinafter referred to as Southern Essex Solid Waste Council member municipalities, shall mean all cities and towns who on the effective date of this act have paid all outstanding per capita assessments for the Southern Essex Solid Waste Council for support of the administrative and professional services related to the structuring of a workable solid waste management program to be implemented by the district. The director of the Southern Essex Solid Waste Council shall file with the state secretary a certificate noting the members in good standing of the Southern Essex Solid Waste Council on the effective date of this act as provided herein. The district shall be composed of the cities and towns which accept the provisions of this act as herein provided.

The district is hereby constituted a public instrumentality; and the performance by it of the duties imposed and the exercise by it of the powers conferred by this act shall be deemed and held to be the performances of essential governmental functions. The district shall be deemed to be an instrumentality within the meaning of chapter one hundred and eighteen C of the General Laws. Chapter thirty-one of the General Laws and rules and regulations made thereunder shall not apply to any officer, agent or employee of the district.

Section 2. Any of the Southern Essex Solid Waste Council member municipalities whether contiguous or noncontiguous, shall become a member of the district, provided that it accepts the provisions of this act prior to December thirty-first, nineteen hundred and seventy-seven by a vote of a town meeting in a town or by a vote of the city council in a city, and provided further, that such vote of acceptance specifies the minimum number of tons of solid waste per year for the processing of which such city or town will be obligated to pay, whether such amount is delivered or not. Any city or town accepting the provisions of this act which certifies less than five-tenths of one ton per inhabitant of such city or town per year according to the most recent federal or state census shall, if so voted by said council, pay an additional charge, in an amount to be determined by said council, not to exceed ten per cent of the then current service charge per ton, for each ton of waste delivered in any year in excess of the tonnage certified; provided, however, that any city or town may deliver

in the first full year of operation of a district facility one hundred and ten per cent of the minimum amount of waste certified by it, and in each year thereafter, one hundred and one per cent of the amount of waste delivered by it in the next prior year without being subject to such additional charge. The vote of acceptance of this act and the amount of tons certified by each city and town shall be certified to the state secretary by the town clerk or city clerk, as the case may be, forthwith after the acceptance of this act. By the procedure set forth above, any other municipality in Essex, Middlesex or Suffolk county, except the city of Boston, may become a member of the district prior to December thirty-first, nineteen hundred and seventy-seven; provided, that no such other municipality may be admitted to membership during such period after the state secretary has received certification from any such other municipality which, when added to previously received certifications from such other municipalities, exceeds an amount of waste which is equal to two hundred and seventy-five thousand tons per year minus an amount equal to five-tenths of one ton per year multiplied by the population of the Southern Essex Solid Waste Council member municipalities according to the most recent federal or state census.

After December thirty-first, nineteen hundred and seventy-seven any municipality in either of the two categories named above may become a member of the district under the procedures set forth above provided that no municipality may be admitted to the district after the state secretary has received certification from a municipality which when added to all previously received certifications of municipalities makes the total tonnage so certified in excess of two hundred and seventy-five thousand tons per year. When the state secretary shall have received certifications from cities and towns certifying at least two hundred and seventy-five thousand tons per year, said state secretary shall issue a certificate of organization to the district stating the member cities and towns and the tonnage certified by each such member which certificate shall be conclusive as to the lawful and valid creation of the district. Thereafter no municipality may be admitted as a member of the district unless admitted by a vote of said council. If a certificate of organization is not issued before January second, nineteen hundred and eighty, then this act shall become void.

ing, no debts, obligations or liabilities of the city shall be assumed by and imposed upon the commission to the extent such debts, obligations or liabilities are considered by the auditor of the city in determining the deficit in the city water and sewer receipts accounts in accordance with the third paragraph of section eight.

Upon the issuance of the notes of the commission authorized pursuant to section eight, all unexpended balances of moneys in accounts of, for or on behalf of the city and the department of public works thereof, including accounts receivable and tax title accounts, pertaining to the water works system and the sewerage works system, including moneys and investments, if any, held for the payment of interest and principal of then outstanding bonds, notes and other evidences of indebtedness of the city as provided in this section, shall be deemed to be held in trust for and shall be transferred to the commission. Subsequent to such date, all moneys collected or received by the city from any source on account of the water works system and sewerage works system, including all rates, fees, charges, rents and other income derived from the operation thereof regardless of the date of assessment or billing of such rates, fees, charges or rents, shall be deemed to be held in trust for and shall be forthwith transferred and paid over to the commission; provided that all liens held by the city on such date for betterments to the water works system or the sewerage works system and all payments theretofore or thereafter received by the city on account of assessments for such betterments shall continue to be held by and be payable to the city and shall not be transferred to the commission. From the date the commission takes possession of the water works system and the sewerage works system until December thirty-first, nineteen hundred and seventy-seven, the commission may contract with the city acting by its collector-treasurer for the collection, administration, data processing and enforcement of all revenue payable to the commission under this act. Unless otherwise provided in such contract, the collector-treasurer of the city shall bill the commission for the current expenses of the city incurred in such collection, administration and enforcement; provided that the total of all such current expenses charged under such contract shall not exceed eight hundred twenty-five thousand dollars without the approval of the commission. All current expenses in excess of such amount and not approved by the commission shall be borne by the city.

From the date the commission takes possession of the water works system and the sewerage works system until December thirty-first, nineteen hundred and seventy-seven, the department

of public works of the city, including specifically the water and sewer divisions therein, shall continue to exercise supervision, at the direction of the commission, over the maintenance, repair and operation of the water works system and the sewerage works system and the employees of said department and divisions whose work is primarily related to such systems shall continue to perform the same duties and shall have all rights and privileges existing prior to such transfer. The commissioner of public works of the city shall continue to have supervision, at the direction of the commission, of such employees, who during such period shall be employees of the city, and shall continue to exercise control, at the direction of the commission, over the management and operations of the water works system and sewerage works system; provided, however, that said commissioner shall have no power to appoint or employ any person to or for a position, or transfer any employee to or from any position, classified under chapter thirty-one of the General Laws or under any other provision of law, general or special, as a position directly related to the work of the systems, or enter into any contracts relating to the systems or sell or transfer any property classified on the effective date of this act as property of the systems or otherwise obligate the commission to any person or governmental entity, without the express written consent of the executive director of the commission.

Unless otherwise agreed upon between the commission and the collector-treasurer of the city, the collector-treasurer shall bill the commission for the current expenses of the city and the department of public works thereof directly related to the operation and management of the water works system and the sewerage works system during the period herein provided; provided that the total of all such current expenses charged to the commission shall not exceed four million dollars without the approval of the commission. All current expenses in excess of such amount and not approved by the commission shall be borne by the city.

Effective January first, nineteen hundred and seventy-eight, the water and sewer divisions in the department of public works of the city are hereby abolished. Upon such date, the employees of said divisions whose work is primarily related to the water works system or the sewerage works system shall be transferred to the commission. All such employees who immediately prior to such date hold positions classified under chapter thirty-one of the General Laws or have tenure in their positions by reason of the provisions of any general or special law, shall be transferred to a similar office or position under the commission; and by such

transfer, their rights under the provisions of chapter thirty-one of the General Laws and their rights, seniority, wages, salaries, hours, working conditions, health benefits, pensions and retirement allowances shall not be impaired and their term of office shall not be deemed to be interrupted within the meaning of said chapter thirty-one, notwithstanding any change in title or duties; provided that no permanent employee shall be involuntarily separated from his office or position except subject to and in accordance with sections forty-three and forty-five of said chapter thirty-one and provided, further, that such employees shall exercise all powers and perform all duties so transferred subject to the direction, control and supervision of the commission.

A veteran, as defined in section twenty-one of chapter thirty-one, who holds an office or position in the service of the city not classified under said chapter thirty-one and who is transferred to the commission in accordance with this section, and has held such office or position with the city or the commission for not less than three years, shall not be involuntarily separated from such office or position by the commission except subject to and in accordance with the provisions of sections forty-three and forty-five of said chapter thirty-one to the same extent as if said office or position were classified under said chapter. If the separation in the case of such unclassified offices or positions results from lack of work or lack of money, such a veteran shall not be separated from his office or position while similar offices or positions in the same group or grade, as defined in section forty-five of chapter thirty, exist unless all such offices or positions are held by such veterans, in which case such separation shall occur in the inverse order of their respective original appointments.

Every employee who immediately prior to being transferred to the commission by this section is a member of the commonwealth or Boston retirement system established under chapter thirty-two of the General Laws and chapter five hundred and twenty of the acts of nineteen hundred and forty-seven as amended, or predecessor retirement systems thereto, shall continue to be a member thereof and subject to the laws applicable thereto. All other employees of the commission shall be required to become members of the commonwealth or the Boston retirement system in the same manner and subject to the same laws, rules and regulations as persons entering the employ of the city. The commission shall deduct from the wages of its employees and pay over to the Boston retirement board such sums as the city would deduct and pay over if such person were an employee of the city.

The commission shall reimburse the city for its proportionate share of any amounts expended by the city under the provisions of chapter thirty-two of the General Laws for retirement allowances to or on account of employees of the commission.

SECTION 6. The commission shall have all the rights and powers necessary or convenient to carry out and effectuate the purposes and provisions of this act, including, but without limiting the generality of the foregoing, the rights and powers:

(a) to adopt by-laws for the regulation of the affairs and the conduct of its business, and to prescribe rules, regulations and policies in connection with the performance of its functions and duties;

(b) to adopt an official seal and alter the same at pleasure;

(c) to maintain an office at such place or places as it may determine;

(d) to receive, administer, expend and comply with the conditions and requirements respecting any gift, grant, donation or appropriation of any property or money;

(e) to acquire by purchase, lease, gift or devise, or to obtain options for the acquisition of, any water or water rights and any other property, real or personal, improved or unimproved, tangible or intangible, within the city, including any interest in land less than the fee thereof;

(f) to sell at public sale, lease, mortgage, exchange, transfer or otherwise dispose of, or to grant options for any such purposes with respect to, any water, water rights, real or personal property or interest therein; provided that prior to the sale or other disposition of any real or personal property or interest therein, the commission shall give not less than thirty days' written notice to the department of public works of the city specifying the property to be sold and the terms of such sale and shall afford the city an opportunity to purchase such property at such price deemed reasonable by the commission;

(g) to enter onto any land within the city to make surveys, borings, soundings and examinations thereon, provided that said commission shall make reimbursements for any injury or actual damage resulting to such lands and premises caused by any act of its authorized agents or employees and shall far as possible restore such lands to the same condition as prior to the making of such surveys, borings, soundings and examinations; and to acquire in the name of the commission by the exercise of the power of eminent domain in accordance with the provisions of chapter seventy-nine and chapter eighty A of the General Laws or any alternative method now or thereafter provided by general law,

insofar as such provisions may be applicable to public corporations or authorities, any property or interests therein within the city; provided the commission shall not acquire any property by the exercise of the power of eminent domain without the prior approval of the city council and mayor of the city; and provided, further, that before a taking is made or injury inflicted by the commission for which damages may be recovered under chapters seventy-nine or eighty A of the General Laws, the commission shall file with the collector-treasurer of the city security to the satisfaction of the collector-treasurer for the payment of all damages and costs which may be awarded for the property taken or damaged; and if, upon petition of the owner and notice to the commission, any security taken appears to the collector-treasurer to have become insufficient, the collector-treasurer shall require the commission to give further security to the satisfaction of the collector-treasurer.

(h) to exercise the powers and privileges of, and to be subject to the limitations upon, towns and cities provided by the provisions of sections thirty-eight to forty-two I, inclusive, of chapter forty and sections one to twenty-four, inclusive, and twenty-seven to twenty-nine, inclusive, of chapter eighty-three of the General Laws, insofar as such provisions may be applicable and are consistent with the provisions of this act; provided any requirement in said sections or chapter for a vote by the city council of a city or by the board of selectmen of a town, and for a ratification of such vote by the voters of such city or town, shall be satisfied by a vote or resolution duly adopted by the commission in accordance herewith;

(i) to purchase water in bulk or by volume and to contract for and purchase sewage disposal and treatment services from, and to sell water and provide sewage disposal and treatment services to, any person, private or public corporation or municipality, including the metropolitan district commission, the city, the commonwealth and the federal government, when necessary or convenient for the operation of the water works system or sewerage works system; provided, that the commission may sell water to a municipality only as authorized by subsection four of section ten of chapter ninety-two of the General Laws without limiting the generality of the foregoing, for purposes of this paragraph, the commission shall have all of the rights and powers, and shall be subject to the obligations and duties, of the city under sections one to thirty-two, inclusive, and sections fifty-nine A to one hundred and two, inclusive, of chapter ninety-two of the General

Laws, insofar as the same are applicable and are consistent with the provisions of this act;

(j) to pledge or assign any money, fees, charges, or other revenue of the commission and any proceeds derived by the commission from the sale of property, insurance or condemnation awards;

(k) to borrow money and incur indebtedness and issue its bonds as hereinafter provided;

(l) to make application for, receive, accept and expend any federal, commonwealth or city loans or grants for or in aid of the planning, construction, operation or financing of any facilities of the commission, and to receive and accept contributions from any source of either money, property, labor or other things of value;

(m) to make contracts of every name and nature and to execute and deliver all instruments necessary or convenient for carrying out any of its purposes;

(n) to do all things necessary, convenient or desirable to carry out the purposes of this act or the powers expressly granted or necessarily implied in this act;

(o) consistent with the constitution and laws of the commonwealth, the commission shall have such other powers, including all powers pertaining to the water works system and the sewerage works system held by the city on the effective date of this act not inconsistent herewith, as may be necessary for or incident to carrying out the foregoing powers and the accomplishment of the purposes of this act.

SECTION 7. In addition to its other powers enumerated in this act, the commission shall have the following powers and shall be subject to the following limitations:

(a) The commission shall have the power to construct or acquire any improvement, extension or enlargement or any alteration, reconstruction or remodeling of the water works system and sewerage works system and to pay the cost of any such work out of its revenues, the proceeds of bonds of the commission authorized by this act or out of any other moneys legally available to the commission. With respect to any such work, the provisions of sections twenty-six to twenty-nine, inclusive, and sections forty-four A to forty-four L, inclusive, of chapter one hundred and forty-nine and sections thirty-nine F to thirty-nine M, inclusive, of chapter thirty of the General Laws shall be applicable to the commission. This commission shall be subject to the rules and regulations of the department of environmental affairs; any work, project or activity conducted by the commission the total

cost of which is in excess of one million dollars shall be subject to the provisions of section sixty-two of chapter thirty of the General Laws relating to the environmental impact of works, projects or activities conducted by authorities of political subdivisions of the commonwealth.

The long-range capital improvement program and plans of the commission for improvements, extensions or enlargements of the water works system and sewerage works system shall be prepared under the direction, control and supervision of the commission in consultation and cooperation with the department of public works of the city, the public facilities commission of the city, the Boston Redevelopment Authority, and such other agencies of the city, the commonwealth or the federal government as may, in the opinion of the commission, be concerned with said program and plans.

On or before November first, nineteen hundred and seventy-eight, and on or before November first of each year thereafter, the commission shall deliver to the mayor a proposed capital improvement program for the three succeeding fiscal years of the commission. Such program shall include a description of the proposed projects of the commission during such period, an estimate of the costs to be incurred on such projects, the financing of such costs and an estimate of the effect, if any, that such costs will have on the then existing fees, rates, rents and other charges of the commission. The commission shall hold a public hearing on its proposed capital improvement program within thirty days of its transmission to the city.

(b) The commission is hereby authorized to fix, revise, charge and collect fees, rates, rents, assessments and other charges for water, sewerage and other services, facilities and commodities furnished or supplied by it. Rates, fees, rents and other charges authorized by the commission for water supplied by the commission shall be established on a flat rate per volume of water consumed. This shall apply to owners and tenants alike in all buildings. The commission shall provide for a schedule of reduced rates or exemptions for persons sixty-five years of age or older and for fully disabled persons. The commission may combine its fees, rates and other charges for water supplied by it and sewerage service provided by it in a single schedule of charges. The fees, rates, rents, betterments, assessments and other charges established by the commission shall not be subject to supervision or regulation by any department, division, commission, board, bureau, or agency of the commonwealth or any of its political

subdivisions or the city of Boston or any of its political subdivisions.

(c) Subject to paragraph (d), the fees, rates, rents, assessments and other charges established by the commission in accordance with paragraph (b) shall be so fixed and adjusted in respect of the aggregate thereof so as to provide revenues at least sufficient (i) to pay the current expenses of the commission, (ii) to pay the principal of, premium, if any, and interest on all bonds issued by the commission under this act as the same become due and payable, (iii) to create and maintain such reasonable reserves as may be reasonably required by any trust agreement or resolution securing bonds, (iv) to provide funds for paying the cost of all necessary repairs, replacements and renewals of the water works system and the sewerage works system and (v) to pay or provide for any and amounts which the commission may be obligated to pay or provide for by law or contract including any resolution or contract with or for the benefit of the holders of its bonds.

(d) Notwithstanding the requirements of paragraph (c), the fees, rates and other charges for services and commodities supplied by the water works system and sewerage works system in effect on the effective date of this act shall be maintained by the commission without modification until December thirty-first, nineteen hundred and seventy-seven. Upon the transfer of the water works system and sewerage works system to the commission pursuant to section five, the commission shall undertake a study and examination of such fees, rates and other charges and its estimated current expenses and costs of maintaining, operating and improving the systems, and shall, prior to December thirty-first, nineteen hundred and seventy-seven, after public hearing duly held, conspicuously advertised for three successive weeks in newspapers of city-wide circulation, promulgate a schedule of fees, rates and other charges sufficient to thereafter satisfy the requirements of paragraph (c). Such new schedule of fees, rates and charges shall become effective on January first, nineteen hundred and seventy-eight for all services and commodities supplied by the commission thereafter and may be revised from time to time as deemed necessary by the commission. Such schedule shall provide for the metering of, and charging for, water and sewer service provided to all consumers in the city, including the city and the commonwealth and all agencies and authorities of either thereof, and any exemptions from such charges provided to the commonwealth or the city under any law, general or special, are hereby declared inapplicable as of the date such schedule shall be in force; provided, however, that

the commission shall not meter or charge the city for water consumed in the operation of the hydrant system of the city or otherwise used by the city in fighting fires or other disasters, nor, shall the commission charge the city for the connection of hydrants to the water works system or for the connection of surface drains to the sewer works system.

(e) In order to provide for the collection and enforcement of its fees, rates, rents, assessments and other charges, the commission is hereby granted all the powers and privileges with respect to such collection and enforcement held by the city on the effective date of this act or as otherwise provided in this act. Without limiting the generality of the foregoing, the commission shall have the powers and be subject to the limitations to the extent applicable and consistent with this act provided in section fifty-seven and sections fifty-nine to eighty-one, inclusive, of chapter fifty-nine and in chapter sixty of the General Laws. The commission shall also have the powers and may exercise the remedies to the extent consistent with this act provided in sections thirty-six to forty-seven, inclusive, of chapter fifty-eight and in chapter eighty and chapter eighty A of the General Laws. Notwithstanding the foregoing, except as otherwise provided herein with respect to betterments, the commission shall have no power of taxation under any law, general or special, of the commonwealth.

In addition to the other enforcement powers and remedies provided in this act, if any fees, rates, rents, assessments or other charges billed by the commission against any premises which are connected with the water works system or sewerage works system remain unpaid for a period of more than six months from the due date thereof, and following such period notice and demand has been posted on such premises and has been given to the owner and occupant of said premises, by registered or certified mail addressed to said premises and to the address of said owner as shown on the records of the assessor of the city, to pay the same within fifteen days from the date of mailing of said notice, and such fees, rates, rents, assessments or other charges remain unpaid, the commission shall have the power and is hereby authorized to shut off the supply of water to said premises until said fees, rates, rents, assessments or other charges are paid, together with interest thereon at the applicable rate and the standard charge of the commission for restoring water service to said premises.

(f) If at the end of any fiscal year, the commission shall have realized a surplus from operations for such fiscal year, after pay-

ment or provision for all current expenses, current debt service on all outstanding bonds of the commission, all reserves for debt service, repairs and replacements or other capital or current expenses as may be required by a trust agreement or resolution securing bonds or as may otherwise be maintained by the commission, and any and all other amounts which the commission may be obligated by law or contract to pay or provide for, the commission shall ~~either~~ apply such surplus in the next following fiscal year to a reduction in the rates, fees, rents, assessments or other charges established by the commission for services provided by the water works system and the sewerage works system, ~~or shall pay such surplus to the collector-treasurer of the city for application to such purposes as the city may appropriate.~~

SECTION 8. The commission is hereby authorized and empowered to provide by resolution for the issuance, at one time or from time to time prior to December thirty-first, nineteen hundred and seventy-nine, of notes of the commission in the aggregate principal amount of fifty million dollars outstanding at any one time, excluding notes refunded by the issue of notes under this section, for the purpose of providing funds for (i) paying the costs provided in clause (1) of paragraph (b) of this section, (ii) paying the cost of constructing or acquiring such improvements, extensions, enlargements, alterations, reconstruction or remodeling of the water works system and the sewerage works system as may be authorized by such resolution, and (iii) providing funds for paying the current expenses of the commission to the extent not paid out of its revenues from the effective date of this act until December thirty-first, nineteen hundred and seventy-seven.

Except as otherwise provided herein, notes issued by the commission in accordance with this section shall be issued in anticipation of bonds to be issued by the commission pursuant to section nine of this act and shall be authorized, issued and sold in the same manner as, and shall otherwise be subject to section ten and the other provisions of this act relating to, such bonds. Such notes shall mature at such time or times as provided by resolution of the commission and may be renewed from time to time, provided that all such notes and renewals thereof shall mature on or prior to December thirty-first, nineteen hundred and seventy-nine.

The proceeds of the notes authorized by this section shall be applied as follows:

(1) An amount of such proceeds equal to the amount certified to the commission by the auditor of the city as the estimated or

actual accumulated deficit in the water and sewer receipts accounts of the city as of June thirtieth, nineteen hundred and seventy-seven shall be paid over to the collector-treasurer of the city;

(2) Such amount of such proceeds as may be provided in the resolution of the commission for paying the current expenses of the commission to the extent not paid out of its revenues from the effective date of this act until December thirty-first, nineteen hundred and seventy-seven, including such amounts as may be payable by the commission to the metropolitan district commission on November twentieth, nineteen hundred and seventy-seven, shall be deposited with a corporate trustee in accordance with section ten of this act and disbursed in such manner and under such restrictions as may be provided in the resolution of the commission;

(3) The balance of such proceeds shall be deposited with the trustee to be used solely for the cost of improvements, extensions, enlargements, alterations, reconstruction or remodeling of the water works system and the sewerage works system and shall be disbursed in such manner and under such restrictions as may be provided in the resolution of the commission.

The city, acting by and through its collector-treasurer, shall, upon application of the commission, guarantee the principal of and interest on notes of the commission issued in accordance with this section. The collector-treasurer, with the approval of the mayor and the corporation counsel and without further authority, may approve the form, terms and conditions of, and may execute and deliver on behalf of the city such guaranty and any related agreements with or for the benefit of the holders of such notes containing such terms, conditions and covenants of the city as the collector-treasurer may deem reasonable including, at the discretion of the collector-treasurer and without limiting the generality of the foregoing, provision for the payment of notes not paid or refunded by the commission by application of the proceeds of the loan authorized in this paragraph and provision for the payment of such notes by the city over such period of time as the collector-treasurer may approve. The full faith and credit of the city shall be pledged for any such guaranty. The total principal amount of notes to be guaranteed under this section shall not exceed fifty million dollars in the aggregate, provided, however, that any note being refunded by the issuance of a guaranteed note shall not, and the refunding note shall, be included within such total amount. The total amount of notes to be guaranteed as aforesaid shall be reduced by the principal amount

of bonds issued by the commission to refund notes so guaranteed. Notes guaranteed by the city under the authority of this section shall not be included in determining the limit of indebtedness of the city as established by law. The guaranty of the city of such notes shall be executed on each note by the collector-treasurer. It shall be sufficient if the signature of the collector-treasurer upon such notes is an engraved, printed or stamped facsimile signature, provided that he has, by writing bearing his written signature filed with the commission, authorized his facsimile signature to be placed thereon. The facsimile signature of the collector-treasurer so engraved, printed or stamped shall have the same validity and effect as his written signature. If the collector-treasurer shall cease to be such officer before the delivery of such notes, such signature or facsimile shall nevertheless be valid and sufficient for all purposes as if he had remained in office until such delivery.

If the commission shall fail or otherwise be unable to refund or pay when due any guaranteed note or notes issued by the commission in accordance with this section, the collector-treasurer of the city with the approval of the mayor and without further authority is hereby authorized and empowered, for the purpose of refunding or paying such guaranteed notes, to borrow, at one time or from time to time, not exceeding in the aggregate the outstanding principal amount of and interest on such notes so guaranteed and not paid or refunded by the commission, and issue and sell bonds or notes of the city therefor, payable in not more than twenty years from their dates. Such bonds or notes shall bear on their face the words, City of Boston, Water and Sewer Works Loan, Act of 1977, shall be registered or with interest coupons attached, may be issued as serial bonds or term bonds or both, and may contain such provisions for the redemption of such bonds or notes prior to maturity at the option of the city and at such price or prices and under such terms and conditions as said collector-treasurer with the approval of the mayor of the city may determine prior to the issuance of such bonds or notes. Bonds or notes issued from time to time by the city under the authority of this section shall not be included in determining the limit of indebtedness of the city as established by law, but shall, except as herein provided, be subject to the provisions, applicable to the city, of chapter forty-four of the General Laws, including the provisions of section seventeen thereof relative to temporary loans in anticipation of the issue of bonds or notes.

SECTION 9. In addition to the notes issued under the provisions of section eight, the commission may provide by resolution for

the issuance from time to time of bonds of the commission for any of its corporate purposes or the borrowing of money in anticipation of the issuance of such bonds. Bonds may be issued hereunder as general obligations of the commission or as special obligations payable solely from particular funds. Without limiting the generality of the foregoing, such bonds may be issued to pay or refund notes issued by the commission pursuant to section eight, to pay the cost of constructing or acquiring any improvement, extension, enlargement, alteration, reconstruction or remodeling of the water works system or the sewerage works system, to provide such reserves for debt service, repairs and replacements or other capital or current expenses as may be required by a trust agreement or resolution securing bonds, or any combination of the foregoing.

The commission may also provide by resolution for the issuance from time to time of temporary notes in anticipation of the revenues to be collected or received by the commission in any year, or in anticipation of the receipt of federal, commonwealth or local grants or other aid. The issue of such notes shall be governed by the provisions of this act relating to the issue of bonds other than such temporary notes as the same may be applicable; provided that notes issued in anticipation of revenues shall mature no later than one year from their respective dates and notes issued in anticipation of federal, commonwealth or local grants or other aid and renewals thereof shall mature no later than the expected date of receipt of such grants or aid. Notes in anticipation of revenues issued to mature less than one year from their dates may be renewed by the commission from time to time by the issue of other temporary notes hereunder, provided the period from the date of an original note to the maturity of any note issued to renew or pay the same or the interest thereon shall not exceed one year.

SECTION 10. The principal of, premium, if any, and interest on all bonds issued under the provisions of this act, unless otherwise provided herein, shall be payable solely from the funds provided therefor from revenues as herein provided. The bonds of each issue shall be dated, shall bear interest at such rate or rates, shall mature at such time or times, as may be determined by the commission, and may be made redeemable before maturity at the option of the commission at such price or prices and under such terms and conditions as may be fixed by the commission prior to the issue of the bonds. The commission shall determine the form of the bonds, including interest coupons to be attached thereto, and the manner of execution of the bonds, and shall fix

the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery thereof, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until after such delivery. The commission may also provide for authentication of bonds by a trustee or fiscal agent. The bonds may be issued in coupon or in registered form, or both, and, if notes, may be made payable to bearer or to order, as the commission may determine and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, for the reconversion into coupon bonds of bonds registered as to both principal and interest and for the interchange of registered and coupon bonds. With respect to the issue of temporary notes under section nine, the commission may by resolution delegate to the executive director, treasurer or any member of the commission or any combination of them, the power to determine any of the matters set forth in this section including the power to award such notes to a purchaser or purchasers at public sale. The commission may sell its bonds in such manner, either at public or private sale, and for such price, as it may determine will best effect the purposes of this act.

The commission may issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The commission may also provide for the replacement of any bonds which shall have become mutilated or shall have been destroyed or lost.

In the discretion of the commission, any bonds issued hereunder may be secured by a resolution of the commission or by a trust agreement between the commission and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the commonwealth, and such trust agreement shall be in such form and executed in such manner as may be determined by the commission. Such trust agreement or resolution may pledge or assign, in whole or in part, the revenues and other moneys held or to be received by the commission, including the revenues from any facilities already existing when the pledge or assignment is made, and any contract or other rights to receive the same, whether then existing or thereafter coming into existence and whether

then held or thereafter acquired by the commission, and the proceeds thereof, but shall not convey or mortgage the water works system or the sewerage works system. Such trust agreement or resolution may contain such provisions for protecting and enforcing the rights, security and remedies of the bondholders as may, in the discretion of the commission, be reasonable and proper and not in violation of law, including, without limiting the generality of the foregoing, provisions defining defaults and providing for remedies in the event thereof which may include the acceleration of maturities and covenants setting forth the duties of, and limitations on, the commission in relation to the acquisition, construction, improvement, enlargement, alteration, equipping, furnishing, maintenance, use, operation, repair, insurance and disposition of the water works system, the sewerage works system or other property of the commission, the custody, safeguarding, investment and application of moneys, the issue of additional bonds, the fixing, revision and collection of fees, rates, rents, assessments or other charges, the use of any surplus bond proceeds, the establishment of reserves, and the making and amending of contracts.

It shall be lawful for any bank or trust company to act as a depository or trustee of the proceeds of bonds or of revenues or other moneys under any such trust agreement or resolution and to furnish such indemnifying bonds or to pledge such securities as may be required by the commission. Any such trust agreement or resolution may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the commission may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as current expenses. The pledge by any such trust agreement or resolution shall be valid and binding and shall be deemed continuously perfected for the purposes of the Uniform Commercial Code from the time when the pledge is made; the revenues, moneys, rights and proceeds so pledged and then held or thereafter acquired or received by the commission shall immediately be subject to the lien of such pledge without any physical delivery or segregation thereof or further act; and the lien of any such pledge shall be valid and binding against all parties having claims of any kind in tort, contract or otherwise against the commission, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust agreement by which

a pledge is created need be filed or recorded except in the records of the commission, and no filing need be made under the Uniform Commercial Code.

Any holder of bonds issued by the commission under the provisions of this act or of any of the coupons appertaining thereto and the trustee under a trust agreement or resolution securing the same, except to the extent the rights herein given may be restricted by such trust agreement or resolution, may bring suit upon the bonds or coupons and may, either at law or in equity, by suit, action, mandamus, or other proceedings, including proceedings for the appointment of a receiver to take possession and control of the business and properties of the commission, to operate and maintain the same, to make any necessary repairs, renewals and replacements in respect thereof and to fix, revise and collect fees and charges, protect and enforce any and all rights under the law of the commonwealth or granted hereunder or under such trust agreement or resolution, and may enforce and compel the performance of all duties required by this act or by such trust agreement or resolution to be performed by the commission or by any officer thereof.

SECTION 11. The commission may issue refunding bonds for the purpose of paying any of its bonds at maturity or upon acceleration or redemption. The refunding bonds may be issued at such time prior to the maturity or redemption of the refunded bonds as the commission deems to be in the public interest. The refunding bonds may be issued in sufficient amounts to pay or provide the principal of the bonds being refunded, together with any redemption premium thereon, any interest accrued or to accrue to the date of payment of such bonds, the expenses of issue of the refunding bonds, the expenses of redeeming the bonds being refunded and such reserves for debt service or other capital or current expenses from the proceeds of such refunding bonds as may be required by a trust agreement or resolution securing bonds. Section 2. Any city, except Boston, which shall adopt, in the manner hereinafter prescribed, one of the plans of government provided in this chapter shall thereafter be governed by the provisions thereof; and the inhabitants of such city shall continue to be a municipal corporation under the name existing at the time of such adoption, and shall have, exercise and enjoy all the rights, immunities, powers and privileges, and be subject to all the duties, liabilities and obligations provided for in this chapter, or otherwise pertaining to or incumbent upon said city as a municipal corporation; provided, however, that sections one hundred and twenty-eight to one hundred and thirty-four, inclusive, shall apply to all cities of one hundred and fifty thousand or more inhabitants, as enumerated by the most recent state decennial census except any city which has adopted the Plan E method of city government.

SECTION 2. Section 1 of said chapter 43 is hereby amended by inserting after the definition of "Plan F", but not a part thereof, the following definition:-

"An optional plan of a city council and a school committee organization in certain large cities", a legislative body, to be known as the city council, composed of at least nine members or a school committee composed of at least nine members, or both, elected from equally populous districts and one member of the city council or of the school committee elected at large for every one hundred and twenty thousand residents of the city in excess of one hundred and fifty thousand residents, notwithstanding its plan of government or charter.

SECTION 3. Said chapter 43 is hereby further amended by adding the following seven sections:-

Section 128. In sections one hundred and twenty-nine to one hundred and thirty-four, inclusive, the word "city" shall mean any city of one hundred and fifty thousand or more inhabitants, as enumerated by the most recent state decennial census except any city which has adopted the Plan E method of city government.

Section 129. At the regular municipal election to be held in the year nineteen hundred and seventy-seven in every city there shall be placed upon the ballot the two following questions:-

“A BINDING REFERENDUM CHANGING THE STRUCTURE OF THE CITY COUNCIL TO PROVIDE FOR DISTRICT REPRESENTATION.

Shall the city council be composed of nine members elected from equally populous districts and, in addition, one member elected at large for every one hundred and twenty thousand residents of the city in excess of one hundred and fifty thousand, for a term of two years notwithstanding the present form of government relative to terms of office?”

YES	
NO	

“A BINDING REFERENDUM CHANGING THE STRUCTURE OF THE SCHOOL COMMITTEE TO PROVIDE FOR DISTRICT REPRESENTATION.

Shall the school committee be composed of nine members elected from equally populous districts and, in addition, one member elected at large for every one hundred and twenty thousand residents of the city in excess of one hundred and fifty thousand, for a term of two years notwithstanding the present form of government relative to terms of office?

YES	
NO	

In subsequent years, either or both of the above questions shall be placed upon the ballot of a regular municipal election in any city by a petition addressed to the city council of such city, signed by qualified voters of the city in a number equal at least to five per cent of the number of registered voters in said city at the state election next preceding the filing of said petition. Such petition shall be filed with the city clerk, who shall transmit the same forthwith to the registrars of voters or city body functioning as such, who shall within sixty days certify the signatures thereon in accordance with the provisions of law and return the same to the city clerk. The petition shall be filed with the city clerk at least one hundred and forty days before the date of the election at which the question or questions proposed by the petition is to be submitted to the voters.

Any petition submitted under this section may be in the form of separate sheets addressed to the city council, each sheet containing at the top thereof the question or questions proposed for submission to the voters. When attached together and offered for filing, the several papers shall be deemed to constitute one petition, and there shall be endorsed thereon the name and address of the person presenting the same for filing. The provisions of sections nine and ten shall apply to any petition filed hereunder, and to the placing upon the ballot of any question or questions proposed therein.

Section 130. If a majority of the total number of votes cast at a regular city election for and against the adoption of a plan of city council organization or school committee organization proposed under section one hundred and twenty-nine shall be in favor of adoption of either or both such organizations, each such plan shall supersede the provisions of the city charter theretofore existing and of the general and special laws relating to such city and inconsistent with such plan or plans, but not, however, until the city council members or school committee members provided for in such plan, as the case may be, shall have been duly elected and their terms of office shall have begun. The said city council members or school committee members provided for under the plan so adopted shall be elected in accordance with the provisions of this chapter relating to such plan, and their terms of office shall begin at ten o'clock in the forenoon of the first Monday of January following their election. In those cities in which the mayor serves as an ex officio member of the school committee and which subsequently adopt a new plan of school committee organization under the provisions of these sections, the mayor shall continue to serve as an ex officio member of said school committee.

Section 131. Within ninety days following receipt of an official notice which the city clerk shall send, within thirty days of the city election, to the city council notifying the said council that a new plan of city council organization or school committee organization, or both, has been approved by the voters, said council shall adopt an ordinance after public hearing providing for the division of the city into nine districts, or such other number of districts as may be specified in the question approved by the voters for the election of city council members or school committee members, as the case may be, by and from the voters of such districts at the next municipal election. In cities which adopt both a new plan of city council and a new plan of school committee organization the respective district lines shall be the

same for both bodies. Each such district shall be compact and shall contain, as nearly as may be, an equal number of inhabitants, shall be composed of contiguous existing precincts, and shall be drawn with a view toward preserving the integrity of existing neighborhoods. Said districts shall continue in force until the next division of the city into wards required by section one of chapter fifty-four, at which time the city council shall divide the city into a number of wards equal to the number of said districts; and thereafter, upon the effective date of such wards for city primary, preliminary and general elections under said chapter fifty-four, such wards rather than districts shall be the units used for the election of those city council or school committee members who are not elected at large throughout the city. The city council shall adopt an ordinance providing for signature requirements for nomination papers for candidates for city council or school committee but in no event shall these requirements exceed two per cent of the vote cast in the preceding mayoral election in the respective district.

Section 132. If, within the time prescribed by section one hundred and thirty-one, the city council shall fail to make a division of the city into districts as required by that section, the mayor of such city in any city having a mayor elected by the people, or the city clerk in any city having a council-manager form of government, shall propose a plan of districts in the required number to the local election district review commission, which shall approve the same with or without amendments as it deems appropriate and necessary to meet constitutional requirements, after a public hearing.

Section 133. After the adoption by any city of a plan of city council or school committee organization authorized by sections one hundred and twenty-nine to one hundred and thirty-two, inclusive, the dates of municipal elections, and the municipal year, of such city shall be governed by section fifteen.

Section 134. Every city councillor and school committee member who is elected to represent an individual district or ward shall have been an inhabitant of a place within the district or ward for which he is chosen for at least one year immediately preceding his election; and he shall cease to represent such district or ward when he shall cease to be an inhabitant thereof.

SECTION 4. The register of deeds shall record such certificate of acceptance in a book to be kept for the purpose, which shall be kept in an accessible location in the registry. Sections sixteen B to sixteen F, inclusive, shall also apply to a sewer district which has accepted sections sixteen A to sixteen F, inclusive, and whose clerk has so filed the certificate of acceptance. Wherever in said sections the words "board or officer in charge of the sewer department" or their equivalent appear, they shall also mean and include the officers exercising similar duties in any city, town or district. A fire or water district authorized to provide a sewer system shall, for the purposes of sections sixteen A to sixteen F, inclusive, be deemed to be a sewer district.

Section 16B. Such lien shall take effect by operation of law on the day immediately following the due date of such rate or charge and, unless dissolved by payment or abatement, shall continue until such rate or charge has been added to or committed as a tax under section sixteen C, and thereafter, unless so dissolved, shall continue as provided in section thirty-seven of chapter sixty, except that the date provided for termination of the lien in case of a recorded alienation shall be at the expiration of two years from October first of the year of such addition or committal. terminate on October first of the third year following the year in which such rate or charge becomes due.

Section 16C. If a rate or charge for which a lien is in effect under section sixteen B has not been added to or committed as a tax and remains unpaid when the assessors are preparing a real estate tax list and warrant to be committed by them under section forty-three of chapter fifty-nine, the board or officer in charge of the sewer department, or the town collector of taxes, if applicable under section thirty-eight A of chapter forty-one, shall certify such rate or charge to the assessors, who shall forthwith add such rate or charge to the tax on the property to which it relates and commit it with their warrant to the collector of taxes as a part of such tax. If the property to which such rate or charge relates is tax exempt, such rate or charge shall be committed as the tax.

Section 16D. Except as otherwise provided, the provisions of chapters fifty-nine and sixty shall apply, so far as pertinent, to all rates and charges certified to the assessors under section sixteen C. Without limiting the generality of the foregoing, upon commitment as a tax or part of a tax under said section sixteen C, all such rates and charges shall be subject to the provisions of law relative to interest on the taxes of which they become, or, if the property were not tax exempt would become, a part; and the collector of taxes shall have the same powers and be subject to the

Section 16E. An owner of real estate aggrieved by a charge imposed thereon under sections sixteen A to sixteen F, inclusive, in addition to such remedy as he may have under section ten of chapter one hundred and sixty-five, may apply for an abatement thereof by filing a petition with the board or officer having control of the sewer department within the time allowed by law for filing an application for abatement of the tax of which such charge is, or, if the property were not tax exempt, would have been, a part, and if such board or officer finds that such charge is more than is properly due, a reasonable abatement shall be made; and except as otherwise provided herein, the provisions of chapter fifty-nine relative to the abatement of taxes by assessors shall apply, so far as applicable, to abatements hereunder. If such petition is denied in whole or in part, the petitioner may appeal to the appellate tax board upon the same terms and conditions as a person aggrieved by the refusal of the assessors of a city or town to abate a tax.

Section 16F. An owner of real estate who, in order to prevent the imposition of a lien thereon or to discharge the same, has paid charges for sewer connections furnished to a tenant or other person who was bound to pay the same, may recover from such tenant or other person in an action of contract the amount of the charges so paid with all incidental costs and expenses.

tenants are regulated and controlled, such emergency and the further inflationary pressures resulting therefrom will produce serious threats to the public health, safety and general welfare of the citizens of Chicopee, particularly the elderly; that such emergency should be met by the commonwealth immediately and with due regard for the rights and responsibilities of the city of Chicopee.

SECTION 2. *General Powers.* The city of Chicopee may, by ordinance, regulate rents for the use or occupancy of mobile home park accommodations in the city, establish a rent board for the purpose of regulating rents, minimum standards for use or occupancy of mobile home park accommodations in the city and evictions of tenants therefrom and may, by ordinance, require registration by owners of mobile home park accommodations, under penalty of perjury, of information relating to the mobile home park accommodations. Fair net operating income shall be that income which will yield a return, after all reasonable operating expenses, on the fair market value of the property equal to the debt service rate generally available from institutional first mortgage lenders or such other rates of return as the board, on the basis of evidence presented before it, deems more appropriate to the circumstances of the case. The fair market value of the property shall be the assessed valuation of the property or such other

valuation as the board, on the basis of evidence presented before it, deems more appropriate to the circumstances of the case.

SECTION 5. *Conference of Jurisdiction.* (a) The district court of Chicopee shall have original jurisdiction, concurrently with the superior court, of all petitions for review brought pursuant to section fourteen of chapter thirty A of the General Laws.

SECTION 9. *Effective Date.* This act shall be submitted for acceptance to the voters of the city of Chicopee at its next municipal election in the form of the following question which shall be placed on the official ballot to be used for the election of city officers at said election:- "Shall an act passed by the General Court in the year nineteen hundred and seventy-seven, entitled 'An Act providing for the establishment and administration of rent regulations and the control of evictions in mobile home park accommodations in the city of Chicopee', be accepted?"

Chap. 655. AN ACT ESTABLISHING A PROCEDURE FOR APPEALS FROM
THE FAILURE TO WAIVE CERTAIN BONDS.

Be it enacted, etc., as follows:

SECTION 1. Chapter 239 of the General Laws is hereby amended by striking out section 5, as most recently amended by section 3 of chapter 667 of the acts of 1975, and inserting in place thereof the following section:-

Section 5. If the defendant appeals from a judgment of the superior court, a housing court, or a district court, rendered for the plaintiff for the possession of the land or tenements demanded or for rent as provided in section three, he shall file a notice of appeal with said court within ten days after the entry of said judgment. No execution upon a judgment rendered pursuant to section three shall issue until the expiration of ten days after the entry of said judgment. Except as provided in section six, the defendant shall, before any appeal under this section is allowed, give bond in such sum as the court orders, payable to the plaintiff, with sufficient surety or sureties approved by the court, or secured by cash or its equivalent deposited with the clerk, in a reasonable amount to be fixed by the court. In an appeal from a judgment of a district court such bond shall be conditioned to enter the action in the superior court for that county at the return day next after the appeal is taken. In an appeal from a judgment of the superior court or a housing court such bond filed shall be conditioned to enter the action in the appeals court. Appeals from judgments of the superior court or a housing court shall otherwise be governed by the Massachusetts Rules of Appellate Procedure. Such bond shall also be conditioned to pay to the plaintiff, if final judgment is in plaintiff's favor, all rent accrued at the date of the bond, all intervening rent, and all damage and loss which the plaintiff may sustain by the withholding of possession of the land or tenements demanded and by any injury done thereto during such withholding, with all costs, until delivery of possession thereof to him.

In appeals from a district court the deposit shall be transmitted by the clerk with the papers to the clerk of the superior court, who shall thereupon deliver a receipt therefor to such clerk, but in such appeals from a judgment of the superior court or a housing court the deposit shall not be transmitted to the appeals court unless specifically requested by said appeals court. The superior court or a housing court may give directions as to the manner of keeping such deposit. Upon final judgment for the plaintiff, all money then due to him may be recovered in an action on the bond.

A defendant may make a motion to waive the appeal bond if the defendant has insufficient funds available to him to furnish the necessary bond or security without depriving himself or his family of the necessities of life. Such motion shall, together with a notice of appeal and any supporting affidavits, be filed within the time limits set forth in this section. The court shall forthwith make a decision on the motion. The court shall require any person for whom such bond or security has been waived to pay in installments as the same becomes due, pending appeal, all or any portion of any rent which shall become due after the date of such waiver. If such motion is made, no execution shall issue until the expiration of six days from the court's decision on the motion or until the expiration of the time specified in this section for the taking of appeals, whichever is later.

Any party aggrieved by the denial of a motion to waive such bond or who wishes to contest the amount of periodic payments required by the court may seek review of such decision as hereinafter provided. If the motion was made in the superior court or a housing court, the request for review shall be to the single justice of the appeals court at the next sitting thereof. If the motion was made in any district or municipal court, the request for review shall be to the superior court then sitting in the same county, if any, or, if not, to the superior court sitting in the nearest county or in Suffolk county. The court receiving the request shall review the findings, the amount of bond or deposit, if any, and the amount of periodic payment required, if any, as if it were initially deciding the matter, and said court may withdraw or amend any finding or reduce or rescind any amount of bond, deposit or periodic payment when in its judgment the facts so warrant.

Any party may file a request for such review with the clerk of the court originally hearing the request to waive bond within the time period provided in this section for filing notice of appeal, or within six days after receiving notice of the decision of the court on the motion to waive bond, whichever is later. Said court shall then forward the motion, the court's findings and any other documents relevant to the appeal to the clerk of the court reviewing such decision who, upon receipt thereof, shall schedule a speedy hearing thereon and send notice thereof to the parties. Any request for review filed pursuant to this section shall be heard upon statements of counsel, memoranda and affidavits submitted by the parties. Further testimony shall be taken if the reviewing court shall find that the taking of further testimony would aid the disposition of the review.

Upon the rendering of a decision on review, the reviewing court shall give notice of the decision to the parties and the defendant shall comply with the requirements of such decision within five days after receiving notice thereof. If the defendant fails to file with the clerk of the court rendering the judgment, the amount of bond, deposit or periodic payment required by the decision of the reviewing court within five days from receipt of notice of said decision, the appeal from the judgment shall be dismissed. Where a defendant seeks review pursuant to this section, no execution shall issue until the expiration of five days from the date defendant has received notice of the decision of the reviewing court.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to prevent potential conflicts between the demands of individual rights of privacy and the need to make certain information available to the public, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. Subclause (c) of clause Twenty-sixth of section 7 of chapter 4 of the General Laws, as appearing in section 1 of chapter 1050 of the acts of 1973, is hereby amended by inserting after the word "an", in line 3, the word:- unwarranted.

SECTION 2. Section 167 of chapter 6 of the General Laws, as appearing in section 1 of chapter 805 of the acts of 1972, is hereby amended by striking out the definition of "Criminal offender record information" and inserting in place thereof the following three definitions:-

“Criminal offender record information”, records and data in any communicable form compiled by a criminal justice agency which concern an identifiable individual and relate to the nature or disposition of a criminal charge, an arrest, a pre-trial proceeding, other judicial proceedings, sentencing, incarceration, rehabilitation, or release. Such information shall be restricted to that recorded as the result of the initiation of criminal proceedings or any consequent proceedings related thereto. Criminal offender record information shall not include evaluative information, statistical and analytical reports and files in which individuals are not directly or indirectly identifiable, or intelligence information. Criminal offender record information shall be limited to information concerning persons who have attained the age of seventeen and shall not include any information concerning criminal offenses or acts of delinquency committed by any person before he attained the age of seventeen; provided, however, that if a person under the age of seventeen is adjudicated as an adult, information relating to such criminal offense shall be criminal offender record information. Criminal offender record information shall not include information concerning any offenses which are not punishable by incarceration.

“Evaluative information”, records, data, or reports concerning individuals charged with crime and compiled by criminal justice agencies which appraise mental condition, physical condition, extent of social adjustment, rehabilitative progress and the like, and which are primarily used in connection with bail, pre-trial or post-trial release proceedings, sentencing, correctional and rehabilitative planning, probation or parole.

“Intelligence information”, records and data compiled by a criminal justice agency for the purpose of criminal investigation, including reports of informants, investigators or other persons, or from any type of surveillance associated with an identifiable individual. Intelligence information shall also include records and data compiled by a criminal justice agency for the purpose of investigating a substantial threat of harm to an individual, or to the order or security of a correctional facility.

SECTION 3. Section 171 of said chapter 6, as so appearing, is hereby amended by adding the following paragraph:-

The content and use of evaluative information, and the inspection, receipt of copies and challenge of such information by an individual shall not be governed by the provisions of this act except as provided in this paragraph. Each criminal justice agency holding evaluative information shall, pursuant to section two of chapter thirty A, promulgate regulations to govern the content

and use of evaluative information, and to govern, limit or prohibit the inspection, receipt of copies and challenge of such information by an individual referred to therein. The adoption of such regulations by each criminal justice agency shall be subject to the approval of the board, and shall be promulgated within time limits set by the board. If any criminal justice agency holding evaluative information fails to promulgate such regulations, then the board shall promulgate such regulations with respect to that criminal justice agency. Evaluative information shall be subject to the provisions of section one hundred and seventy-two and section one hundred and seventy-eight, as if such information was criminal offender record information.

SECTION 4. Said chapter 6 is hereby further amended by striking out section 172, as most recently amended by section 1 of chapter 365 of the acts of 1977, and inserting in place thereof the following section:-

Section 172. Except as otherwise provided in sections one hundred and seventy-three to one hundred and seventy-five, inclusive, criminal offender record information, and where present, evaluative information, shall be disseminated, whether directly or through any intermediary, only to (a) criminal justice agencies; (b) such other agencies and individuals required to have access to such information by statute; and (c) any other agencies and individuals where it has been determined that the public interest in disseminating such information to these parties clearly outweighs the interest in security and privacy. The extent of such access shall be limited to that necessary for the actual performance of the criminal justice duties of criminal justice agencies under clause (a); to that necessary for the actual performance of the statutory duties of agencies and individuals granted access under clause (b); and to that necessary for the actual performance of the actions or duties sustaining the public interest as to agencies or individuals granted access under clause (c).

The board shall, after consultation with the council, certify those agencies and individuals requesting access to criminal offender record information that qualify for such access under clauses (a) or (b) of this section, and shall specify for each such agency or individual certified, the extent of its access. The board shall make a finding in writing of eligibility, or noneligibility of each such agency or individual which requests such access. No such information shall be disseminated to any agency or individual prior to the board's determination of eligibility, or, in cases in which the board's decision is appealed, prior to the final

judgment of a court of competent jurisdiction that such agency or individual is so eligible.

No agency or individual shall have access to criminal offender record information under clause (c), unless a majority of the board, and a majority of the council, each voting as a separate body, determines and certifies that the public interest in disseminating such information to such party clearly outweighs the interest in security and privacy. The extent of access to such information under clause (c) shall be determined by majority vote of persons comprising the membership of the board and the council voting as a single group at a duly scheduled board meeting. Certification for access under clause (c) may be either access to information relating to a specific identifiable individual, or individuals, on a single occasion; or a general grant of access for a specified period of time not to exceed two years. A general grant of access need not relate to a request for access by the party or parties to be certified. Except as otherwise provided in this paragraph the procedure and requirements for certifying agencies and individuals under clause (c) shall be according to the provisions of the preceding paragraphs of this section.

Each agency holding or receiving criminal offender record information shall maintain, for such period as the board shall determine, a listing of the agencies or individuals to which it has released or communicated such information. Such listings, or reasonable samples thereof, may from time to time, be reviewed by the board or the council to determine whether any statutory provisions or regulations have been violated.

Dissemination of criminal offender record information shall, except as provided in this section and for purposes of research programs approved under section one hundred and seventy-four, be permitted only if the inquiry is based upon name, fingerprints, or other personal identifying characteristics. The board shall adopt rules to prevent dissemination of such information where inquiries are based upon categories of offense or data elements other than said characteristics; provided, however, that access by criminal justice agencies to criminal offender record information on the basis of data elements other than personal identifying characteristics, including but not limited to, categories of offense, mode of operation, photographs and physical descriptive data generally, shall be permissible, except as may be limited by the regulations of the board.

Any individual or agency, public or private, that receives or obtains criminal offender record information, in violation of the provisions of this statute, whether directly or through any in-

termediary, shall not collect, store, disseminate, or use such criminal offender record information in any manner or for any purpose. Notwithstanding the provisions of this section, the dissemination of information relative to a person's conviction of automobile law violations as defined by section one of chapter ninety C, or information relative to a person's charge of operating a motor vehicle while under the influence of intoxicating liquor which resulted in his assignment to a driver alcohol program as described in section twenty-four D of chapter ninety, shall not be prohibited where such dissemination is made, directly or indirectly, by the motor vehicle insurance merit rating board established pursuant to section one hundred and eighty-three of chapter six, to an insurance company doing motor vehicle insurance business within the commonwealth, or to such insurance company's agents, independent contractors or insurance policyholders to be used exclusively for motor vehicle insurance purposes.

"Agency", any agency of the executive branch of the government, including but not limited to any constitutional or other office, executive office, department, division, bureau, board, commission or committee thereof; or any authority created by the general court to serve a public purpose, having either statewide or local jurisdiction.

"Automated personal data system", a personal data system in which personal data is stored, in whole or in part, in a computer or in electronically controlled or accessible files.

"Computer accessible", recorded on magnetic tape, magnetic film, magnetic disc, magnetic drum, punched card, or optically scannable paper or film.

"Criminal justice agency", an agency at any level of government which performs as its principal function activity relating to

(a) the apprehension, prosecution, defense, adjudication, incarceration, or rehabilitation of criminal offenders; or (b) the collection, storage, dissemination, or usage of criminal offender record information.

“Data subject”, an individual to whom personal data refers. This term shall not include corporations, corporate trusts, partnerships, limited partnerships, trusts or other similar entities.

“Holder”, an agency which collects, uses, maintains or disseminates personal data or any person or entity which contracts or has an arrangement with an agency whereby it holds personal data as part or as a result of performing a governmental or public function or purpose. A holder which is not an agency is a holder, and subject to the provisions of this chapter, only with respect to personal data so held under contract or arrangement with an agency.

“Manual personal data system”, a personal data system which is not an automated or other electronically accessible or controlled personal data system.

“Personal data”, any information concerning an individual which, because of name, identifying number, mark or description can be readily associated with a particular individual; provided, however, that such information is not contained in a public record, as defined in clause Twenty-sixth of section seven of chapter four and shall not include intelligence information, evaluative information or criminal offender record information as defined in section one hundred and sixty-seven of chapter six.

“Personal data system”, a system of records containing personal data, which system is organized such that the data are retrievable by use of the identity of the data subject.

SECTION 7. The first paragraph of section 2 of said chapter 66A, as appearing in section 1 of chapter 776 of the acts of 1975, is hereby amended by striking out, in line 1, the words “agency maintaining a personal data system” and inserting in place thereof the words:- holder maintaining personal data.

SECTION 8. Said section 2 of said chapter 66A is hereby amended by striking out clause (c), as so appearing, and inserting in place thereof the following clause:-

(c) not allow any other agency or individual not employed by the holder to have access to personal data unless such access is authorized by statute or regulations which are consistent with the purposes of this chapter or is approved by the data subject whose personal data are sought if the data subject is entitled to access under clause (i). Medical or psychiatric data may be made available to a physician treating a data subject upon the request

of said physician, if a medical or psychiatric emergency arises which precludes the data subject's giving approval for the release of such data, but the data subject shall be given notice of such access upon termination of the emergency. A holder shall provide lists of names and addresses of applicants for professional licenses and lists of professional licensees to associations or educational organizations recognized by the appropriate professional licensing or examination board. A holder shall comply with a data subject's request to disseminate his data to a third person if practicable and upon payment, if necessary, of a reasonable fee;.

(f) in the case of data held in automated personal data systems, and to the extent feasible with data held in manual personal data systems, maintain a complete and accurate record of every access to and every use of any personal data by persons or organizations outside of or other than the holder of the data, including the identity of all such persons and organizations which have gained access to the personal data and their intended use of such data and the holder need not record any such access of its employees acting within their official duties;.

SECTION 10. Said section 2 of said chapter 66A is hereby amended by striking out clause (i), as so appearing, and inserting in place thereof the following clause:-

(i) inform in writing an individual, upon his request, whether he is a data subject, and if so, make such data fully available to him or his authorized representative, upon his request, in a form comprehensible to him, unless doing so is prohibited by this clause or any other statute. A holder may withhold from a data subject for the period hereinafter set forth, information which is currently the subject of an investigation and the disclosure of which would probably so prejudice the possibility of effective law enforcement that such disclosure would not be in the public interest, but this sentence is not intended in any way to derogate from any right or power of access the data subject might have under administrative or judicial discovery procedures. Such information may be withheld for the time it takes for the holder to complete its investigation and commence an administrative or judicial proceeding on its basis, or one year from the commencement of the investigation or whichever occurs first. In making any disclosure of information to a data subject pursuant to this chapter the holder may remove personal identifiers relating to a third person, except where such third person is an officer or

employee of government acting as such and the data subject is not. No holder shall rely on any exception contained in clause Twenty-sixth of section seven of chapter four to withhold from any data subject personal data otherwise accessible to him under this chapter.

(h) "Motor vehicle dealer", any person who, in the ordinary course of business, is engaged in the business of selling new or used motor vehicles to consumers or other end users. It shall not include (1) receivers, trustees, administrators, executors, guardians, or other persons appointed by or acting under judgment, decree or order of any court, or (2) public officers while performing their duties as such officers.

(a) to adopt, change, establish or implement a plan or system for the allocation and distribution of new motor vehicles to motor vehicle dealers which is arbitrary or unfair or to modify an existing plan so as to cause the same to be arbitrary or unfair.

(b) to fail or refuse to advise or disclose to any motor vehicle dealer having a franchise or selling agreement, upon written request therefor, the basis upon which new motor vehicles of the same line make are allocated or distributed to motor vehicle

dealers in the commonwealth and the basis upon which the current allocation or distribution is being made or will be made to such motor vehicle dealer.

(c) to refuse to deliver in reasonable quantities and within a reasonable time after receipt of dealer's order, to any motor vehicle dealer having a franchise or selling agreement for the retail sale of new motor vehicles sold or distributed by such manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division or wholesale branch or division, any such motor vehicles as are covered by such franchise or selling agreement specifically publicly advertised in media broadcast or distributed in the commonwealth by such manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division or wholesale branch or division to be available for immediate delivery; provided, however, that the failure to deliver any motor vehicle shall not be considered a violation of this act if such failure be due to an act of God, work stoppage or delay due to a strike or labor difficulty, shortage of materials, lack of available manufacturing capacity, freight embargo or other cause over which the manufacturer, distributor, or wholesaler, or any agent thereof, shall have no control.

(d) to coerce, or attempt to coerce, any motor vehicle dealer to enter into any agreement with such manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, or wholesale branch or division, or officer, agent or other representative thereof, or to do any other act prejudicial to said dealer by threatening to cancel any franchise or any selling agreement existing between such manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, or wholesale branch or division, and said dealer, provided, however, that notice in good faith to any motor vehicle dealer of said dealer's violation of any terms or provisions of such franchise or selling agreement or of any law or regulation applicable to the conduct of a motor vehicle dealership shall not constitute a violation of this chapter.

(e) notwithstanding any term or provision of a franchise or selling agreement, to cancel or terminate the franchise or selling agreement of a motor vehicle dealer without good cause and without giving notice as hereinafter provided; to fail or refuse to extend the franchise or selling agreement of a motor vehicle dealer upon its expiration without good cause and without giving notice as hereinafter provided; or, to offer a renewal, replacement or succeeding franchise or selling agreement containing terms and provisions the effect of which is to substantially change

or modify the sales and service obligations or capital requirements of the motor vehicle dealer arbitrarily and without good cause and without giving notice as hereinafter provided.

(1) If a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division or wholesale branch or division intends to cancel or terminate a franchise or selling agreement or intends not to extend or renew a franchise or selling agreement on its expiration, it shall, at least sixty days prior to the effective date of such cancellation or termination or the expiration of the existing franchise or selling agreement, notify the affected motor vehicle dealer in writing of its decision; provided, however, that only fifteen days' notice shall be required if the reason for such action is that the business operations of the motor vehicle dealer under the franchise or selling agreement have been abandoned or closed for more than seven consecutive business days, or the conviction of or plea of *nolo contendere* by the motor vehicle dealer or any operator thereof in a court of competent jurisdiction of an offense punishable by imprisonment for more than two and one-half years. Such notice shall contain a detailed statement of the reasons for such action.

(2) If a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division or wholesale branch or division intends to substantially change or modify the sales and service obligations or capital requirements of a motor vehicle dealer as a condition to extending or renewing the existing franchise or selling agreement of such motor vehicle dealer, it shall, at least ninety days prior to the expiration of such franchise or selling agreement, notify the affected motor vehicle dealer in writing of its decision. Such notice shall contain a detailed statement of the reasons for such action.

(3) Within the notification periods provided in subsections (1) and (2), either party may petition the superior court to determine whether such cancellation, termination, refusal to extend or renew such franchise or selling agreement is for good cause. Such petition shall be entitled to a speedy trial. The court may modify or stay the effective date of such cancellation or termination or extend the expiration date of such franchise or selling agreement pending a final determination of the issues raised by such petition upon such terms as it may determine. Any such modification or stay shall not be effective for more than thirty days unless extended by the court for good cause or unless the trial of such petition is then in progress.

(4) In determining whether good cause has been established for cancelling, terminating, refusing to extend or renew or

changing or modifying the obligations of the motor vehicle dealer as a condition to offering a renewal, replacement or succeeding franchise or selling agreement, the court shall consider all pertinent circumstances. These may include, but are not limited to:

(i) the amount of business transacted by the affected motor vehicle dealer during the three year period immediately preceding such notice as compared to the business available to it;

(ii) the investment necessarily made and obligations incurred by the affected motor vehicle dealer to perform its obligations under the existing franchise or selling agreement;

(iii) the permanency of the investment of the affected motor vehicle dealer;

(iv) whether it is injurious or beneficial to the public welfare for the franchise or selling agreement of the affected motor vehicle dealer to expire, to be modified, or to be terminated, or for the affected motor vehicle dealer to be replaced;

(v) whether the affected motor vehicle dealer has adequate motor vehicle sales and service facilities, equipment, vehicle parts and qualified personnel to reasonably provide for the needs of the consumers for motor vehicles handled by the affected motor vehicle dealer;

(vi) whether the affected motor vehicle dealer has been and is rendering adequate services to the public; and,

(vii) the existence and materiality of any breaches, defaults or violations by the affected motor vehicle dealer of the terms or provisions of the existing franchise or selling agreement or of applicable law.

(f) to offer to sell or to sell any new motor vehicle to any motor vehicle dealer located in the commonwealth at a lower actual price therefor than the actual price offered contemporaneously to any other motor vehicle dealer located in the commonwealth for the same model vehicle similarly equipped or to utilize any device including, but not limited to, sales promotion plans or programs which result in such lesser actual price unless available on equal terms to all such dealers; provided, however, that the provisions of this paragraph shall not apply to sales to a motor vehicle dealer for resale to any unit of the federal government or any agency thereof or to the commonwealth or any of its political subdivisions; and provided, further, that the provisions of this paragraph shall not apply to sales to a motor vehicle dealer of any motor vehicle ultimately sold, donated or used by said dealer in a driver education program; and provided further, that the provisions of this paragraph shall not apply so long as a manufacturer, distributor or wholesaler, or any agent

thereof, offers to sell or sells new motor vehicles to all motor vehicle dealers located in the commonwealth at an equal price.

(g) to offer to sell or lease or to sell or lease any new motor vehicle to any person located in the commonwealth, except a wholesaler or distributor, at a lower actual price therefor than the actual price offered and charged contemporaneously to a motor vehicle dealer located in the commonwealth for the same model vehicle similarly equipped or to utilize any device which results in such lesser actual price unless the same is available on equal terms to all such dealers. This clause, however, shall not apply to sales by a manufacturer, distributor or wholesaler to the federal government or any agency thereof or to the commonwealth or any of its political subdivisions.

(h) to offer to sell or to sell parts or accessories to any new motor vehicle dealer located in the commonwealth for use in his own business for the purpose of repairing or replacing the same or a comparable part or accessory, at a lower actual price therefor than the actual price charged contemporaneously to any other new motor vehicle dealer located in the commonwealth for similar parts or accessories for use in his own business; provided, however, that in those cases where motor vehicle dealers operate and serve as wholesalers of parts and accessories to retail outlets nothing herein contained shall be construed to prevent a manufacturer, distributor or wholesaler, or any agent thereof, from selling to a motor vehicle dealer who operates and services as a wholesaler of parts and accessories, such parts and accessories as may be ordered by such motor vehicle dealer for resale to retail outlets at a lower actual price than the actual price charged a motor vehicle dealer who does not operate or serve as a wholesaler of parts and accessories.

(i) to impose upon any motor vehicle dealer or any director, officer, partner or stockholder thereof or any other person holding or otherwise owning an interest therein, by or through the terms and provisions of a franchise, selling agreement, or otherwise, unreasonable restrictions upon the financial arrangement or structure of any such dealership, the method and manner by which such dealership finances or intends to finance its operation, equipment and facilities or the right of any individual, proprietor or stockholder to use, sell, transfer or otherwise dispose of, mortgage, pledge or hypothecate any interest in such dealership or to enter into and implement testamentary arrangement with respect thereto. A manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division or wholesale branch or division may require that any

director, officer, partner or stockholder of a motor vehicle dealer, or any other person holding or otherwise owning an interest therein be identified as such and may establish reasonable standards concerning the capital needed for dealership operations and concerning continuity of dealership management. There shall be no assignment, delegation or transfer of the franchise or management or control thereunder without the written consent of the manufacturer, distributor or wholesaler, which consent will not unreasonably be withheld.

(j) to obtain money, goods, services, anything of value, or any other benefit from any other person with whom the motor vehicle dealer does business, on account of or in relation to the transactions between the dealer and said other person as compensation except for services actually rendered, unless such benefit is promptly accounted for and transmitted to the motor vehicle dealer.

(k) to own and operate, either directly or indirectly through any subsidiary, parent or affiliated company or firm, a motor vehicle dealership within the relevant market area of a motor vehicle dealer of the same line make; provided, however, that a manufacturer, distributor or wholesaler shall not be deemed to be in violation of this paragraph when operating a dealership either temporarily for a reasonable period in any case not to exceed one year or in a bona fide relationship in which an independent person has made a significant investment subject to loss in the dealership and can reasonably expect to acquire full ownership of said dealership on reasonable terms and conditions; and provided, further, that a distributor shall not be deemed to be in violation of this paragraph when a wholly owned subsidiary corporation of such distributor sells motor vehicles at retail if, for at least three years prior to January first, nineteen hundred and seventy-one, such subsidiary corporation has been a wholly owned subsidiary of such distributor and engaged in the sale of motor vehicles at retail; and provided, further, that an exclusive motor truck manufacturer when selling vehicles having a gross vehicle weight over six thousand pounds shall not be deemed to be in violation of this paragraph when operating a dealership which sells motor trucks at retail if, for at least six years prior to January first, nineteen hundred and seventy-one, such manufacturer has continuously so operated such dealership. As used in this paragraph, the relevant market area of a motor vehicle dealer with respect to any given line make is the more narrowly defined and circumscribed geographical area immediately surrounding its existing dealer location within which it obtained, during the

period of time the dealership business has been operated from said location or the three-year period immediately preceding the expiration of said one-year period, whichever is the lesser, at least two-thirds of (i) its retail sales of new motor vehicles of said line make or (ii) its retail service sales, regardless of whether its franchise or selling agreement delineates or establishes a specific area of responsibility or whether, by custom or usage, a specific area of responsibility has been established or another motor vehicle dealer with a franchise or selling agreement covering the same line make has a place of business in such market area.

(1) arbitrarily and without notice to existing franchisees as hereinafter provided, to grant or enter into a franchise or selling agreement to or with an additional franchisee who intends or would be required by such franchise or selling agreement to conduct its dealership operations from a place of business situated within the relevant market area of an existing franchisee or franchisees representing the same line make, or whose specific area or areas of responsibility encompasses or includes all or a substantial portion of the relevant market area of such existing franchisee or franchisees regardless of whether such franchise or selling agreement delineates a specific area of responsibility or recites that the area of responsibility of such appointee is to be shared or operated in common with others.

The appointment of a successor motor vehicle dealer at the same location as its predecessor or within a two-mile radius therefrom within one year from the date on which its predecessor ceased operations or was terminated, whichever occurred later, shall not be construed as a grant or the entering into of an additional franchise or selling agreement.

Any manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division or wholesale branch or division which intends to grant or enter into an additional franchise or selling agreement, shall, at least sixty days' prior to granting such franchise or entering into such agreement, give written notice of its intention to do so to each motor vehicle dealer with a franchise or selling agreement covering the same line make within a twenty mile radius of the location where the business of the proposed franchise will be located. Such notice shall state the date on or after which such proposed franchise shall be granted or entered into.

Prior to the date set forth in said notice on or after which such franchise or selling agreement will be granted or entered into, any motor vehicle dealer with a franchise or selling agreement covering the same line make as that offered to the proposed fran-

chisee may, if such proposed franchisee intends to conduct or otherwise operate its business from any place or places within the relevant market area of such motor vehicle dealer or if the proposed franchise or selling agreement requires or specifies that the proposed franchisee conduct or otherwise operate its business from any place or places within the relevant market area of such motor vehicle dealer, petition the superior court to determine whether such appointment or proposed appointment is arbitrary; provided always, however, that such motor vehicle dealer first give written notice of its intention to do so to such manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division or wholesale branch or division within thirty days from the date on which it received notice of such intention to grant or enter into the additional franchise or selling agreement. Such petition shall be entitled to a speedy trial. The court shall have authority to modify or stay the effective date of such proposed franchise or selling agreement or restrain its implementation pending a final determination of the issues raised by such petition upon such terms as it may determine. Any such modification or stay of the effective date of such proposed franchise or selling agreement or restraint on its implementation shall not be effective for more than thirty days unless extended by the court for good cause or unless the trial of such petition is then in progress.

As used in this subsection, the relevant market area of a motor vehicle dealer with respect to any given line make is the more narrowly defined and circumscribed geographical area immediately surrounding its existing dealer location within which it obtained, during the period of time the dealership business has been operated from said location or the three-year period immediately preceding the date of said notice of intent to grant or enter into an additional franchise or selling agreement, whichever is the lesser, at least two-thirds of (i) its retail sales of new motor vehicles of said line make or (ii) its retail service sales, regardless of whether its franchise or selling agreement delineates or establishes a specific area of responsibility or whether, by custom or usage, a specific area of responsibility has been established or another motor vehicle dealer with a franchise or selling agreement covering the same line makes has a place of business in such market area.

In determining whether such proposed appointment is arbitrary, the court shall consider all pertinent circumstances. These may include but are not limited to:

(i) whether the establishment of such additional franchise appeared to be warranted by economic and marketing conditions including anticipated future changes;

(ii) the retail sales and service business transacted by the objecting motor vehicle dealer or dealers and other motor vehicle dealers of the same line make with a place of business in the market area to be served by the additional franchisee during the three year period immediately preceding such notice as compared to the business available to them;

(iii) the investment necessarily made and obligations incurred by the objecting motor vehicle dealer or dealers and other motor vehicle dealers of the same line make with a place of business in the market area to be served by the additional franchisee to perform their obligations under existing franchises or selling agreements;

(iv) the permanency of the investment of the objecting motor vehicle dealer or dealers and other motor vehicle dealers of the same line make with a place of business in the market area to be served by the additional franchisee;

(v) whether it is beneficial or injurious to the public welfare for an additional franchise to be established;

(vi) whether the objecting motor vehicle dealer or dealers and other motor vehicle dealers of the same line make with a place of business in the market area to be served by the additional franchisee are providing adequate competition and convenient consumer care for the motor vehicles of the same line make owned or operated by residents and persons with places of business in the area to be served by the additional franchisee;

(vii) whether the objecting motor vehicle dealer or dealers and other motor vehicle dealers of the same line make with a place of business in the market area to be served by the additional franchisee have adequate motor vehicle sales and service facilities, equipment, vehicle parts and qualified personnel to reasonably provide for the needs of the consumer; and,

(viii) whether the establishment of an additional franchise would increase competition and therefore be in the public interest.

(m) to coerce a motor vehicle dealer to assent to a release, assignment, novation, waiver or estoppel which would relieve any person from liability imposed by this chapter.

(n) to resort to or use any false or misleading advertisement in connection with his business as such manufacturer, distributor, wholesaler, distributor branch or division, factory branch or

division, or wholesale branch or division, or officer, agent or other representative thereof.

SECTION 4. Said chapter 93B is hereby further amended by inserting after section 5A the following two sections:-

Section 5B. Notwithstanding any terms or provisions of a franchise or selling agreement to the contrary, a manufacturer, wholesaler, distributor, distributor branch or division, factory branch or division or wholesale branch or division shall indemnify its franchisees and hold them harmless from and against all damages, liabilities, losses, and reasonable expenses of suit, including reasonable attorney's fees, arising out of or incurred in the defense of any claim brought by any person seeking compensation or other relief predicated upon the negligent design or manufacture of a new motor vehicle, or any part or component thereof, manufactured or distributed by such manufacturer, wholesaler, distributor, distributor branch or division, factory branch or division or wholesale branch or division, where the basis for liability is finally determined by a court to be solely the result of such negligence by such manufacturer, wholesaler, distributor, distributor branch or division, factory branch or division or wholesale branch or division and not in any way the result of any fault or neglect on the part of the franchisee, if the manufacturer, wholesaler, distributor, distributor branch or division, factory branch or division or wholesale branch or division, after having been notified in writing by a franchisee that such a claim has been asserted and is pending, fails to assume the defense thereof and to resolve the same at its own expense.

Notwithstanding any terms or provisions of a franchise or selling agreement to the contrary, a motor vehicle dealer or franchisee shall indemnify the manufacturer of any new motor vehicle purchased or otherwise acquired by such franchisee, or the wholesaler, distributor, distributor branch or division, factory branch or division or wholesale branch or division through which it purchased or acquired the same and hold them harmless from and against all damages, liabilities, losses and reasonable expenses of suit, including reasonable attorney's fees, arising out of or incurred in the defense of any claim brought by any person seeking compensation or other relief predicated upon the negligent act or omission of said motor vehicle dealer or franchisee, where the basis for liability is finally determined by a court to be solely the result of such negligence by such motor vehicle dealer or franchisee and not in any way the result of any fault or neglect on the part of the manufacturer, wholesaler, distributor, distributor branch or division, factory

branch or division or wholesale branch or division, if said motor vehicle dealer or franchisee, after having been notified in writing by a manufacturer, wholesaler, distributor, distributor branch or division, factory branch or division or wholesale branch or division that such a claim has been asserted and is pending, fails to assume the defense thereof and to resolve the same at its own expense.

A motor vehicle dealer, if it has not suffered any loss of money or property, may obtain final equitable relief if it can be shown that the unfair method of competition, or unfair act or practice may have the effect of causing such loss of money or property.
