An indigent party may subsequently file one or more supplementary affidavits requesting the waiver, substitution or payment by the commonwealth of fees and costs not previously granted at any time while the case is still pending in the original court or elsewhere.

SECTION 7. Said chapter 261 is hereby further amended by striking out section 27C, as amended by section 269 of chapter 478 of the acts of 1978, and inserting in place thereof the following section:-

Section 27C. (1) If the affidavit is filed with the complaint or other paper initiating the proceeding, the clerk shall receive the complaint or other paper for filing and proceed as if all regular filing fees had been paid. Such filing shall be conditional until either (a) the affidavit is granted or (b) if the affidavit is denied, the payment of necessary and regular filing fees is made within five days of the denial of the affidavit, or such further time as the court may allow, or within five days of the denial of any appeal relating to the affidavit, whichever is later.

(2) If the affidavit appears regular and complete on its face and indicates that the affiant is indigent, as defined in section twenty-seven A, and requests a waiver, substitution or payment by the commonwealth, of normal fees and costs, the clerk shall grant such request forthwith without hearing and without the necessity of appearance of any party or counsel.

(3) If the affidavit does not appear to satisfy the condition of paragraph (2), the clerk or register shall forthwith bring the affidavit to the attention of the justice or judge, as the case may be. The justice or judge may grant such request forthwith or may have the clerk or register notify the affiant that a hearing will be held on the affidavit within five days. If it appears at the hearing that there is a serious question as to the affiant's indigency, as defined in section twenty-seven A, then before making a finding of indigency, the court shall consider the following facts with respect to the applicant as of the time of hearing, in the immediate past and with respect to the immediate future; his age, education, training, physical and mental ability and number of dependents; gross and net income; regular and extraordinary expense, if any; assets and liabilities; whether or not he is a recipient of public assistance and for what purposes; and any other facts which are relevant to the applicant's ability to pay court costs.

(4) If the court makes a finding of indigency, it shall not deny any request with respect to normal fees and costs, and it shall not deny any request with respect to extra fees and costs if it finds the document, service or object is reasonably necessary to assure the applicant as effective a prosecution, defense or appeal as he would have if he were financially able to pay. The court shall not deny any request without first holding a hearing thereon; and if there is an appeal pursuant to section twenty-seven D following a denial, the court shall, within three days, set forth its written findings and reasons justifying such denial, which document shall be part of the record on appeal.

(5) The clerk of each court shall conspicuously post in the part of his office open to the public a notice informing the public in plain language of the availability of waiver, substitution or payment by the commonwealth of fees and costs for indigent persons.

Upon being notified of the denial the applicant shall also be advised of his right of appeal, and he shall have seven days thereafter to file a notice of appeal with the clerk or register. Upon receipt of notice of appeal timely filed the clerk or register shall forthwith notify the judge or justice, who shall with three days set forth his written findings and reasons as provided in paragraph (4) of section twenty-seven C. The clerk or register shall then forward the affidavit and request, the court's findings and reasons for denial and any other documents on file relevant to the appeal, to the clerk of the court hearing the appeal, who, upon receipt thereof, shall set the matter down for speedy hearing and send notice to the applicant. The court denying the request may, with or without motion, stay proceedings pending appeal or issue any other order or process to preserve the rights of the parties pending the appeal. The court hearing the appeal may enter or revoke such a stay or other order, and its decision shall be final with respect to such request.

SECTION 9. Section 27G of said chapter 261, as amended by section 269 of chapter 478 of the acts of 1978, is hereby amended by striking out the first sentence and inserting in place thereof the following sentence:-

Chap. 540. AN ACT CONCERNING HOSPITAL CHARGES.

Be it enacted, etc., as follows:

SECTION 1. Purpose.

This act provides for a hospital charge control system to govern hospital charges in order to prevent hospital charges from rising above inflation while allowing reasonable hospital charge increases which reflect inflation, volume changes, and costs beyond the reasonable control of the individual hospital; and provides for a joint executive-legislative commission to develop recommendations for a uniform reimbursement system or systems for fiscal year 1982.

SECTION 2. Definition.

As used in this act, the following term shall have the following meaning:

"Regional Hospital Councils" shall be the regional associations of hospitals established by the Massachusetts Hospital Association in conformity with the boundaries of the Health Services Areas.

SECTION 3. The regulations of the commission promulgated for the fiscal year ending on September 30, 1980 pursuant to chapter 409 of the acts of 1976, as codified in 114.1 CMR 13.00 and as interpreted by the courts, shall apply during the fiscal year 1981, subject to the provision of this act and to such adjustments as are consistent with the purpose and provision of this act. Regulations may be promulgated pursuant to this act in accordance with the provisions of paragraph five of section two of chapter 30A of the General Laws and shall be promulgated without regard to the provisions of section 34A of chapter 6A of the General Laws. No provision of law inconsistent with this act shall affect the operation of this act; all provisions of law consistent with this act shall apply to the operation of this act.

SECTION 4.

1. The statewide limit on increases in gross patient service revenue, hereinafter referred to as GPSR, due to inflation for hospitals in fiscal year 1981 shall be as hereinafter provided.

2. The base amount for establishing a statewide limitation on the fiscal year 1981 GPSR increase of all hospitals due to inflation shall be the sum of the fiscal year 1980 GPSR for all hospitals, as approved by the commission; each hospital may submit a revised budget request for fiscal year 1980 GPSR in conjunction with the fiscal year 1981 budget submission called for in this act.

3. The statewide percentage limit of eleven and one-half per cent, an amount estimated to reflect inflation in fiscal year 1981, will be multiplied times the base dollar amount calculated pursuant to paragraph 2 of this section to establish the statewide dollar limit on increases in GPSR for fiscal year 1981 due to inflation.

4. Each hospital shall file a fiscal year 1981 budget submission in accordance with currently existing regulations and forms under 114.1 CMR 13.00, as they are updated in accordance with this act.

5. Each hospital shall identify the requested increase in GPSR in fiscal year 1981 above the amount identified in paragraph 2 of this section.

6. Each hospital shall identify the amount of a 1981 increase which is attributable to non-inflation items in the following manner.

(a) Each hospital shall identify the cost increases for fiscal year 1981 over fiscal year 1980 in accordance with 114.1 CMR 13.00 for changes in volume in costs beyond the reasonable

control of the hospital including approved determinations of need, in new and discontinued services, and in transfers of cost.

(b) The total amount of the cost identified in subpart (a) above is multiplied by a percentage calculated pursuant to the following formula:

The amount of financial requirements to be met by charge-pay and public assistance outpatients, including bad debts and free care, divided by the sum of capital and operating requirements pursuant to 114.1 CMR 13.00 as amended.

(c) The resulting dollar amount shall then be divided by the charge-pay and public assistance outpatient mix, net of free care and bad debts.

7. (a) The statewide total of the figure computed for each hospital in paragraph 6(c) of this section is the amount of increase in statewide GPSR which is attributable to non-inflation factors for fiscal year 1981.

(b) The statewide total identified in paragraph 7(a) of this section shall be subtracted from the statewide total of the increases in GPSR calculated pursuant to paragraph 5 of this section. The balance remaining shall be the 1981 statewide hospital requested increase in GPSR due to inflation.

8. If the amount determined in paragraph 7(b) of this section is less than the statewide dollar limit established pursuant to paragraph 3 of this section, the statewide limit is not exceeded and the hospital requests for GPSR increases due to inflation for fiscal year 1981 shall be approved.

9. If the amount determined in paragraph 7(b) of this section exceeds the statewide dollar limit established pursuant to paragraph 3 of this section, the commission shall take the following steps.

The commission will aggregate inflation increases for the hospitals within each health service area, as defined in 42 U.S.C. S.300. The commission will determine regional excess GPSR due to inflation in accordance with the formula set out in paragraphs 2 through 7 of this section. The Regional Hospital Councils will be identified and notified of their pro rata share of the state excess by the commission; the notice will be mailed by the commission no later than August 15, 1980. Hospitals in those regions shall co-operate with the Regional Hospital Councils to eliminate their excess by reducing their GPSR requests and submitting these reductions to the commission by September 15, 1980. If the hospitals in the regions with excess GPSR increase requests have not, by September 15, 1980, submitted to the commission the revised GPSR increase requests consistent with their pro rata share of the state excess, the commission will

reduce their GPSR requests in the following manner:

(a) Each region's excess will be multiplied by the ratio of the statewide excess divided by the aggregate excess of all of those regions which have excess.

(b) In those regions with excess, hospitals with inflation requests in excess of their individual inflation limit, as calculated in paragraphs 2 through 7 of this section, will be indentified.

(c) The amount by which each individual hospital exceeds its inflation limit will be divided by the sum of the amounts by which each individual hospital in the affected regions has exceeded its inflation limit.

(d) The proportion calculated in subparagraph (c) for each affected hospital will be multiplied by the regional excess derived in subparagraph (a) to determine the amount by which each affected hospital's GPSR increase request shall be reduced.

(e) The commission will reduce each GPSR increase request accordingly and incorporate this reduction in approvals by September 30, 1980.

(f) The sum of all regional reductions shall not exceed the state excess.

10. Hospitals shall submit their fiscal year 1981 budget requests by August 1, 1980. That deadline shall be extended if a hospital is unable to meet the deadline for reasons beyond the hospital's control or as otherwise allowed by the commission. The commission shall attempt to include late-filed requests in its calculations pursuant to this act. If a hospital does not file in accordance with this paragraph by August 1, 1980, the hospital GPSR increase due to inflation shall be limited to the product of the inflation factor of 11.5 per cent multiplied by the hospital fiscal year 1980 GPSR determined pursuant to the formula identified in paragraph 2 of this section.

11. Computation of allowable volume changes shall be on the basis of direct cost (60% fixed cost, 40% variable cost), with a 1% upside and 2% downside corridor for fiscal years 1979 to 1980, and a 0% upside and 2% downside corridor for fiscal years 1980 to 1981.

12. If the statewide GPSR increase requests due to inflation are less than the statewide maximum allowable increase, subsequent GPSR increases for fiscal year 1981 due to inflation shall be calculated as follows. Second submissions for GPSR increases due to inflation shall be approved only for hospitals within regions which requested increases at a percentage rate lower than the 11.5 per cent statewide maximum allowable increase, and only in an amount which will not cause the approved fiscal year 1981 statewide increase, due to inflation, to exceed the maximum

allowable statewide increase. The commission regulations, 114.1 CMR 13.00, shall apply to second submissions. No hospital may submit a second submission for GPSR increase due to inflation for fiscal year 1981 unless it has been approved by the appropriate Regional Hospital Council.

13. This act shall apply only to those hospitals with fiscal years which commence between September 1 and October 31, 1980.

14. The approved fiscal year 1981 GPSR for any individual hospital shall not be greater than the maximum GPSR allowed under 114.1 CMR 13.00 except that each hospital shall be allowed to request an approved fiscal year 1981 GPSR of at least the approved fiscal year 1980 GPSR as calculated in paragraph 2 of this section plus eleven and one-half per cent.

SECTION 5. A joint legislative-executive commission shall, from a review and study of prospective payment systems, uniform payment systems, and such other payment systems as the Commission may consider, develop a prospective payment system or systems for hospitals and issue a final report including cost implications and a schedule of events necessary for implementation for fiscal year 1982. The joint commission shall be composed of three members appointed by the President of the Senate; three members appointed by the Speaker of the House; three members appointed by the Governor from a list of nominees to be submitted by the Massachusetts Hospital Association to represent each of the following constituencies: teaching hospitals, community hospitals and hospital trustees; three members appointed by the Governor to represent consumers as defined in Public Law 93-641 as amended; the chairman of the Rate Setting Commission; and seven members to be appointed by the Governor to represent the following: The Department of Public Health, a non-profit hospital service corporation, the health insurance industry, purchasers of services, the Department of Public Welfare, and the Health Care Finance Administration and a public sector union of the Massachusetts AFL-CIO.

Notwithstanding any contrary provision of law, except as provided in section twenty-five C½, no person or agency of the

commonwealth or any political subdivision thereof shall make substantial capital expenditures for construction of a health care facility or substantially change the service of such a facility unless there is a determination by the department that there is need therefor.

SECTION 6. Said section 25C of said chapter 111 is hereby further amended by inserting after the first paragraph the following two paragraphs:-

SECTION 2. It is hereby declared that unused and underutilized areas and structures exist in parts of the city of Woburn and more particularly within the Central Business District; that each such area and structure constitutes serious developmental problems, injurious to the health, morals and welfare of the residents of said city; that each such area and structure constitutes and economic liability, substantially impairs or arrests the sound growth of said city, and retards the economic well-being of the city and commonwealth; that each such area and structure decreases the value of private investments and threatens the sources of public revenue; that redevelopment of each such area and structure in accordance with an economic development plan for the elimination of such substandard conditions and prevention of their recurrence is necessary to retain existing commercial enterprises, attract new commercial development and promote the sound economic growth of said city; that the existence of such unused and underutilized areas and structures makes persons unwilling to do business in said city; that the underutilized and unused areas and structures is beyond remedy and control solely by regulatory process in the exercise of the police power and cannot be dealt with effectively by the ordinary operations of private enterprises without the aids herein provided.

thereby creating additional unemployment; that such obsolescence and abandonment of existing facilities are causing serious injury to the economy of said city; that the commercial sector of the economy provides one of the best opportunities for jobs at higher wages for the inhabitants of said city; that new commercial sites are required to attract and house new commercial development, and to retain existing commercial operations in need of expansion space that the unaided efforts of private industry have not provided and cannot provide the necessary commercial sites within the urban environment due to the problems encountered, in the unavailability of private capital for development and the inability of private enterprises alone to plan, finance and coordinate commercial development projects.

It is further found and declared that the conditions which reference is hereinabove made in the Central Business District are in part attributable to commerical development which has taken place and continues to take place in the northerly and westerly sections of Woburn by and along, and in the general area of the intersection of, state highway route 128 and interstate highway route 93, whereby residents of Woburn and surrounding cities and towns may more readily shop at commercial centers outside of the Central Business District; that the rehabilitation, refurbishing and redevelopment of the Central Business District along consistent lines and a consistent pattern would serve to improve the commercial climate of the Central Business District by attracting residents and others to said district; that it is in the best interests of the city of Woburn and its citizens and the commonwealth that the Central Business District be a strong, vital and viable commercial force within the said city.

unusable or unavailable for the purposes intended and which creates an immediate need for other real property to preserve the health or safety of persons or property.

Section 40F. The deputy commissioner of capital planning and operations shall be responsible for the acquisition, control and disposition of real property in the manner and to the extent provided in this chapter. The deputy commissioner may delegate such responsibility to an administrator, who has ten years of experience in the management of commercial, industrial, institutional or public real property. When responsibility is delegated to an administrator the written approval of the deputy commissioner shall be required before such transaction is finalized.

The deputy commissioner shall acquire real property by gift, purchase, devise, grant, eminent domain, rental, rental-purchase or otherwise on behalf of state agencies.

In acquiring buildings for the use of state agencies, first consideration shall be given to any structures that have been certified as historic landmarks as provided by sections twenty-six through twenty-seven C inclusive of chapter nine, that have been listed in the National Register of Historic Places as provided by 16 U.S.C. section 470a (1974) or that have been designated historic landmarks by local historic commissions, unless use of such buildings would not be feasible in terms of costs and requirements when compared with other available properties.

Notwithstanding any laws to the contrary, real property acquired for the use of state agencies shall be held in the name of the commonwealth.

The deputy commissioner shall assist in the preparation and shall approve of plans for the organization of all space within and around buildings and appurtenant structures used by state agencies, and shall assign the use of space within and around the state house, in accordance with the provisions of sections eight, sixteen A and seventeen of chapter eight; the John W. McCormack State Office Building; the Leverett Saltonstall State Office Building; the Springfield Office Building; the Pittsfield Office Building; the Erich Lindemann Building; the Charles F. Hurley Building; any real property acquired for the use of state agencies, the greater part of which is not needed by any one state agency; and any other real property assigned by law to the division of capital planning and operations.

The deputy commissioner, with the written approval of the commissioner of administration, may transfer use of, and responsibility for maintenance of, buildings, including equipment therein, within or between state agencies. No such transfer within or between state agencies which involves either a change in the purposes for which such building is currently used or a change in

use in excess of fifty per cent of the usable floor space, shall be made without the prior approval of the general court. Any such transfer shall be based on a determination, made by the deputy commissioner with the advice of the executive heads of affected agencies and secretaries of the executive offices in which such agencies are located, that such property is not needed, is underutilized, or is not being put to optimum use under current conditions. The deputy commissioner shall notify the house and senate committees on ways and means thirty days prior to the final authorization of any transfer which does not require the approval of the general court, and such transfer shall only be made when the general court is in session except as provided hereafter. Such transfer may be made when the general court is not in session, and the thirty day notification requirement may be waived, only if the deputy commissioner certifies in writing that an emergency exists; provided that, any such transfer may be authorized for a period not to exceed six months, and provided further, that the deputy commissioner shall submit his/her certification to and notify the house and senate ways and means committees of such transfer at the earliest possible opportunity.

The deputy commissioner may, after notification to and with the advice of the executive heads of state agencies and secretaries of the executive offices, determine that real property is not needed for the use of any state agency. After such determination, and with the written approval of the commissioner s/he may enter into agreements for the use of such available real property, by public agencies other than state agencies or the federal government for a term not to exceed five years. The deputy commissioner after such determination, and with the written approval of the commissioner, may recommend to the general court for its approval, any such agreement for the use of real property for a term exceeding five years or any extension of any agreement for such use beyond a cumulative period of five years; or the transfer of control of or title to such real property to a public agency other than a state agency or to the federal government. The commonwealth shall be reimbursed for at least the cost of maintaining real property under such agreement. The deputy commissioner shall notify the house and senate committees on ways and means thirty days prior to the final authorization of any such agreement. In no event shall any such agreement be made when the general court is not in session.

The deputy commissioner, with the approval of the commissioner, may recommend to the general court for its approval, the sale, rental or other disposition of real property determined to be available, to an individual or entity. Fair market rates shall

be charged by the commonwealth in the rental or sale of real property acquired on behalf of state agencies to an individual or entity.

The deputy commissioner shall expeditiously review and recommend approval or disapproval of any proposal to the general court for the sale, rental or other disposition of real property acquired on behalf of state agencies, and shall dispose of real property as mandated by the general court.

Section 40G. The deputy commissioner of capital planning and operations shall suggest to the budget director, as part of his/her recommendation for the annual appropriation for space rentals provided for by section three of chapter twenty-nine, the maximum rate to be paid for the rental of space by type and geographical area and the maximum percentage to be paid for the escalation of all such rental costs. The budget director shall consider the suggestions of the deputy commissioner in recommending the approval of such costs by the general court, as part of the annual appropriations act.

The deputy commissioner may rent, for the use of state agencies, through lease, tenancy-at-will or other rental agreement for a term not exceeding five years, premises outside of the state house or other buildings owned by the commonwealth, provided that the budget director has certified that provision for payment of rent for so much of the term of the agreement as falls within the then current fiscal year has been made by appropriation. If the term of the rental agreement under which premises are being used for the purposes of a particular activity by any state agency expires between the beginning of a fiscal year and the effective date of an appropriation act for such fiscal year and no appropriation for rent for said premises has been made and if the general court has not provided otherwise, the deputy commissioner may rent for such purposes the same or different premises, for a term not exceeding five years, obligating the commonwealth to pay no greater amount of rent for any period than was paid for a corresponding period under the expiring agreement.

Whenever any such lease, tenancy-at-will or other rental agreement contains a renewal clause or an option to renew, any renewal thereof shall not be exercised earlier than six months prior to the expiration of such agreement.

No charges for rentals provided for in this section shall exceed the maximum rate plus escalation cost approved by the general court. Further, the deputy commissioner shall notify the house and senate committees on ways and means thirty days prior to the final authorization of any such rental agreement and such agreement shall only be made when the general court is in

session, except as provided hereafter. Such agreement may be made when the general court is not in session, and the thirty day notification requirement may be waived, only if the deputy commissioner certifies in writing that an emergency exists; provided that, any such agreement shall be authorized for a period not to exceed six months, and provided further, that the deputy commissioner shall submit his/her certification to and notify the house and senate ways and means committees of such agreement at the earliest possible opportunity.

Notwithstanding the time limitation of this section or of any other law, the deputy commissioner may enter into rental-purchase agreements for the purchase or construction of premises to be occupied by the division of employment security outside of the state house or other buildings owned by the commonwealth, provided, that the costs incident to such rental-purchase agreements, including amortization, shall be borne by the federal government. After expiration of the period of amortization in each such instance, the commonwealth shall not charge the division of employment security with rent of such premises, provided the federal government shall bear the cost of service to and maintenance of such premises.

Section 40H. At least thirty days before accepting a proposal for the purchase or rental of real property for the use of state agencies from an individual or entity, or for the sale or rental of real property used by state agencies to a private individual or entity, the deputy commissioner of capital planning and operations shall advertise in the central register published by the state secretary pursuant to section twenty of chapter nine stating therein the need for or availability of such property, and inviting submission of such proposals. Such thirty day advertisement requirement may be shortened or waived only if the deputy commissioner certifies in writing that an emergency exists; provided that every reasonable effort shall be made to seek competitive proposals. The advertisement shall specify the geographical area, terms and requirements of the proposed transaction, and shall state the time and place for the submission of such proposals and for the opening thereof. In case of the rental or sale of over 2500 square feet of real property, such advertisement shall also be place at least once each week for four consecutive weeks in newspaper(s) with a circulation sufficient to inform the people of the affected locality. The last publication shall occur at least eight days preceding the day for opening proposals.

Compliance with the foregoing provisions, pertaining to advertising, shall be a condition precedent to the validity of any deed or rental agreement executed by or on behalf of the commonwealth.

The deputy commissioner shall also place notification in the central register of the individual or firm selected as party to any such real property transaction, and the amount of such transaction.

After the execution of a rental or sale agreement completing such transaction, all proposals relating thereto shall be retained by the deputy commissioner and shall be open to inspection by the public until the expiration of such agreement or six months from the date thereof, whichever occurs first, and may thereafter be destroyed by him/her.

Section 40I. At least sixty days prior to any purchase, rental, sale, or significant change in use of two acres or more of real property by the commonwealth on behalf of state agencies the deputy commissioner of capital planning and operations shall notify, in writing, the city council in the case of a city or the board of selectmen in the case of a town, and the regional planning agency of the region in which the real property is located, of such action. Such sixty day notification requirement may be shortened or waived only if the deputy commissioner certifies in writing that an emergency exists; provided that the deputy commissioner shall submit his/her certification to and notify the appropriate local officials of any such transaction at the first possible opportunity. The notice shall include a statement of the present use, the reason for the proposed action, and the proposed use of the property. The deputy commissioner shall, at least thirty days prior to such sale, purchase or change in use of real property in excess of two acres, cause a public hearing, after giving timely public notice, to be held in the city or town where such real property is located for the purpose of disclosing the conditions or reasons for the proposed action.

Section 40J. No agreement to rent or to sell real property to or to rent or purchase real property from a public agency, and no renewal or extension of such agreement, shall be valid and no payment shall be made to the lessor or seller of such property unless a statement, signed, under the penalties of perjury, has been filed by the lessor, lessee, seller or purchaser, and in the case of a corporation by a duly authorized officer thereof giving the true names and addresses of all persons who have or will have a direct or indirect beneficial interest in said property with the deputy commissioner of capital planning and operation. The provisions of this section shall not apply to any stockholder of a corporation the stock of which is listed for sale to the general public with the securities and exchange commission, if such stockholder holds less than ten per cent of the outstanding stock entitled to vote at the annual meeting of such corporation.

A disclosure statement shall also be made in writing, under

penalty of perjury, during the term of a rental agreement in case of any change of interest in such property, as provided for above, within thirty days of such change.

Any official elected to public office in the commonwealth, or any employee of the division of capital planning and operations disclosing beneficial interest in real property pursuant to this section, shall identify his/her position as part of the disclosure statement. The deputy commissioner shall notify the state ethics commission of such names, and shall make copies of any and all disclosure statements received available to the state ethics commission upon request.

The deputy commissioner shall keep a copy of each disclosure statement received available for public inspection during regular business hours.

Section 40K. The deputy commissioner of capital planning and operations shall establish and maintain a comprehensive inventory of the real property owned, rented or otherwise occupied by public agencies. Such inventory shall include a detailed description of the allocation, utilization and condition of real property used by state agencies and a general description of the size, type and use of real property under the jurisdiction of other public agencies. The real property inventory shall be published annually for distribution to state agencies and regional planning agencies, shall be filed with the clerk of the House and the Senate and shall be a public document available for general distribution.

All such documents shall be public records and shall be open to inspection by the public during regular business hours.

The deputy commissioner may delegate responsibility for the housing and care of such original records to a state agency if such records are necessary for the daily operation of said agency. In case of such delegation, copies of essential records shall be deposited with the division.

All public agencies shall cooperate with the division in providing the information required by this section.

The director shall also recommend to the deputy commissioner the method for procuring design and construction services when an alternative construction method is recommended; such recommendation shall be in writing and contain the reasons for not complying with the standard selection and bidding laws provided that the legislature shall approve the method for procuring design and/or construction services for such project and provided that such procurement method shall comply with the policies and procedures of sections thirty B through thirty P, inclusive, of chapter seven and sections forty-four A through L, inclusive, of chapter one hundred and forty-nine, to the extent feasible.

The director shall develop guidelines regarding the types of projects that would most benefit from use of alternative construction methods and shall periodically evaluate their effectiveness.

limits specified by the appropriation or authorization and (b) in accordance with (i) any study or program which must be prepared in accordance with the provisions of section 7K of this chapter or (ii) any other pre-design document which must be prepared in accordance with any other statute, appropriation or authorization or administrative directive consistent therewith.

The director shall recommend to the deputy commissioner standards for internal audits to be performed on individual projects. Such audits shall be performed at the direction of the director when s/he has determined than an individual change order is so large, or a series of change orders cumulatively are so substantial, that the project should be reviewed, or when s/he has determined that there have been significant individual or cumulative delays in progress on the project, or at such times as s/he deems necessary. Whenever a change order is approved

the director shall state in writing the reasons for not requesting an audit.

Section 42C. The contract which the director shall make with the designer appointed under sections thirty B to thirty P shall provide, among other appropriate terms, that the designer shall, in consultation with the using agency and subject to that agency's approval, prepare plans and specifications for the building project for submission to said director for his/her approval and shall use standard contract documents and specifications which said director shall have prepared with the approval of the deputy commissioner and made available within the office.

No obligation shall be incurred or payment made for preparation of any plans or specifications for any building project without the prior approval of the deputy commissioner; and in the case of a building project undertaken on behalf of the commonwealth, no plans or specifications shall be prepared until a special appropriation shall have been made therefor or for the project or until federal funds or assistance shall have been made available therefor. No other obligation shall be incurred or payment made in connection with any building project until such obligation or payment shall have been approved in accordance with sections thirty-nine A to forty-three F, inclusive, of chapter seven, and sections twenty-six A and twenty-six B of chapter twenty-nine, and section eleven of chapter thirty-five.

Schematic, preliminary and working plans and specifications for each building project shall, following initial submission to the using agency for comment, be submitted by the designer to the director for his/her approval. In reviewing such plans and specifications, the duty of the director shall be to see that they are clear and complete and permit execution of the building project (a) within the appropriation or authorization for the project or within project cost limits specified by the appropriation or authorization and (b) in accordance with (i) any study or program prepared in accordance with the provisions of section 7K of this chapter or (ii) any other pre-design document which must be prepared in accordance with any other statute, appropriation or authorization or administrative directive consistent therewith. When a phased construction technique is approved by the legislature, the director shall approve working plans and specifications at appropriate stages of the project.

Following final approval of such plans and specifications, the director shall advertise in the central register published by the secretary of state pursuant to section twenty of chapter nine and in such other publications as the deputy commissioner shall direct, for applications to bid on or proposals for the performance of the work on the project; except that the deputy com-

missioner may direct that the purchase of any materials, original equipment or original furnishings for the project shall be made under the provisions of sections twenty-two to twenty-six, inclusive. Subject to the prior approval of the deputy commissioner and the applicable provisions of sections forty-four A to forty-four L, inclusive, of chapter one hundred and forty-nine, s/he shall award the contract or contracts for such work to the lowest responsible and eligible bidder; but no such contract on behalf of the commonwealth shall be awarded by him/her for a sum in excess of the amount which the comptroller shall certify to be available therefor. If the director shall knowingly award a contract in violation of any provision of this section, s/he may be removed from office by the governor; provided, however, that each contract shall provide that not less than one per cent of the cost of a construction project be expended for art; provided, further, that not more than one hundred thousand dollars be expended.

The director shall be responsible for accepting or rejecting each project upon its completion and for directing final payment for work done thereon; provided, however, that if upon inspection of any project for acceptance s/he shall find that the plans, specifications, contracts or change orders for the project shall not have been fully complied with or that the using agency shall object to his/her acceptance of the project, s/he shall, until such compliance has been effected, such objection has been removed or adjustment satisfactory to him/her has been made, refuse to accept the project and direct such payment.

Upon acceptance of the project, the director shall release the same to the using agency.

Section 42D. The director shall appoint, for each project under the jurisdiction of the office of project management, a project manager, who shall oversee all planning, design and construction of the project or provide appropriate assistance to others as enumerated below. No person shall be appointed or employed as a project manager unless at the time thereof s/he shall be registered by the commonwealth as an architect or professional engineer under the provisions of chapter one hundred and twelve or shall have a professional degree in a field providing equivalent experience and shall have at least five years experience in the construction and supervision of construction of buildings. Project managers employed by the bureau shall be exempt from the provisions of section nine A of chapter thirty and chapter thirty-one.

The terms, conditions and duration of their employment shall be established by the director subject to appropriation and the building projects to which s/he has been assigned by the di-

rector. S/he shall:

(1) Assist and make recommendations to using agencies as to real property acquisition in anticipation of construction;

(2) Assist by reviewing and making recommendations to using agencies as to the study, programs or other planning documents for the project;

(3) Participate as a non-voting member of the designer selection board panel as provided by section thirty C of chapter seven during the designer selection process for the particular building project to which the project manager has been assigned;

(4) Represent the using agency in the designer selection, design and construction phases of the building project, the project manager having exclusive authority to make decisions in these areas, except as provided in sections forty-two E through forty-two I, inclusive, after consultation with the using agency and consideration, before such decisions are made, of using agency recommendations;

(5) During the design stage of each project to which s/he has been assigned, review and comment on said design or verify that said design has been reviewed by the authorities charged by law with enforcement responsibility, in order to insure that the design complies with all federal and state laws, rules, regulations and codes; insure to the extent feasible that the design is such as to specify a project that (a) can be accomplished within the appropriation or authorization for that project or within the project cost limits specified by the appropriation or authorization, and (b) can be accomplished in accordance with (i) any study or program which must be prepared in accordance with the provisions of section 7K of this chapter or (ii) any other pre-design document which must be prepared in accordance with any other statute, appropriation or authorization or administrative directive consistent therewith; no building project shall be allowed to proceed to the construction stage until such reviews have been accomplished and compliance confirmed or certified;

(6) Insure the preparation of time schedules which shall serve as control standards for monitoring performance of building projects; and

(7) Assist in project evaluation including, but not limited to, written evaluations of the performance of the architect, engineers, contractors and other personnel, and evaluation of construction techniques and procurement mechanisms.

Section 42E. The words defined in this section shall have the meanings set forth below whenever they appear in section 42E through 42I inclusive.

"Change order" shall mean a written order not requiring the consent of the contractor, signed by the project manager and

designated as an approved change order, directing the contractor to make changes in the work within the general scope of the contract, or, any written or oral order from the project manager which causes any change in the work, provided that the contractor gives the commonwealth written notice stating the date, circumstances, and source of the order and that the contractor regards the order as a change order.

"Contract modification" shall mean any written alteration in plans or specifications, period of performance, price, quantity, or any other provision of the contract accomplished by mutual action of the parties to the contract.

The project manager may at any time, subject to the requirements set forth herein and in section thirty-nine I of chapter thirty, order changes in the work within the general scope of the contract, including but not limited to changes: (a) in the plans and specifications (including drawings and designs); (b) in the method or manner of performance of the work; (c) in the commonwealth furnished facilities, equipment, materials, services or site; or (d) in the schedule for performance of the work. All such orders shall be written and designated to be change orders. All change orders or other contract modifications shall require the approval of the director when: (a) the cumulative cost of all previously approved increases in the contract price exceeds five per cent of the original contracted construction cost of the project, or such other percentage or dollar amount or criteria as designated by regulations of the deputy commissioner; or (b) the preliminary estimate of the change in the contract price resulting from the change order or contract modification is $5,000 or more. The director may, after review of building projects for which the cumulative total of increases in the contract price has exceeded five per cent of the original contracted construction cost or such other percentage or dollar amount or criteria, direct the project manager as to those proposed changes, the preliminary estimated cost of which are under $5,000, that shall require the director's approval.

The deputy commissioner shall promulgate regulations governing the procedures for obtaining preliminary estimates and giving notice to the contractor as to the necessity of obtaining the director's approval before any work pursuant to a change order or contract modification is commenced. Such procedures shall be designed so as to avoid delays in the progress of the project.

The project manager may delegate to the resident engineer, subject to approval by the director and notice to parties in interest, his authority to process and approve change orders when authorized to do so by regulations of the deputy commissioner.

The provisions of section twenty A of chapter twenty-nine shall not apply to any change order request submitted and acted upon in accordance with sections forty-two E through forty-two I, inclusive, of this chapter.

Section 42F. Any request for a change order shall be processed promptly, in compliance with regulations promulgated by the deputy commissioner, and otherwise according to the requirements of section thirty-nine P of chapter thirty. Requests shall be submitted to the project manager, who shall, after consultation with the designer and the using agency, approve or disapprove the request. The project manager shall, after obtaining any other required approvals or disapprovals, notify in writing the designer, the using agency and the requesting party of the request and shall issue a written change order or written notice of disapproval to the contractor. If the approval or disapproval would result in a deviation, as defined by regulations of the deputy commissioner from (a) any study or program which must be prepared in accordance with the provisions of section seven K of this chapter or (b) any other pre-design document which must be prepared in accordance with any other statute, appropriation or authorization or administrative directive consistent therewith, the decision made shall be subject to appeal by the using agency to the commissioner of administration. Such appeal shall set forth in writing the reasons therefor and a copy thereof shall be furnished to the deputy commissioner at the time the appeal is filed with the commissioner. The commissioner shall, within ten days following the receipt of such appeal, render a written decision thereon, which shall be final and conclusive.

Section 42G. If any change order under section 42E causes any change in the contractor's cost of performance of any work under the contract, whether or not that work is changed by any order, either the contractor or the project manager may request an equitable adjustment in the contract price. A request for such an adjustment shall be in writing and shall be submitted by the party making such claim to the other party before commencement of the pertinent work or as soon thereafter as possible, and in any event within thirty days of receipt by the contractor of an approved change order or the mailing or furnishing to the commonwealth by the contractor of written notice that the contractor regards an order as a change order. Except for claims on defective specifications, no claim for any change under this section shall be allowed for any costs incurred more than twenty days before the contractor gives written notice as required by this section. In the case of defective specifications for which the commonwealth is responsible, the equitable adjustment shall include any cost reasonably incurred by the contractor in at-

The project manager and the contractor shall by negotiation agree upon an equitable adjustment in the contract price before commencement of the pertinent work or as soon thereafter as possible. Notice of the adjustment shall be given to the Director. In the absence of agreement by the parties on an equitable adjustment in the contract price, the project manager shall unilaterally determine the costs attributable to the change order. Unilateral equitable adjustments of the project manager shall be reduced to writing and a copy mailed or otherwise furnished to the contractor. Such adjustments shall be final and conclusive unless, within thirty days from the date of receipt of such copy, the contractor mails or otherwise furnishes to the project manager a written appeal addressed to the deputy commissioner, and otherwise complies with the requirements set forth in section thirty-nine Q of chapter thirty. The provisions of said section shall govern further appeal to the division of hearing officers.

Any change order or contract modification under which a certificate is required shall contain a provision that the price to the Commonwealth, including profit or fee, shall be adjusted to exclude any significant sums by which the commonwealth finds that such price was increased because the contractor-furnished cost or pricing data was inaccurate, incomplete, or not current as of the date of submission.

The provisions of section thriteen of chapter two hundred and fifty-eight of the General Laws, and the provisions of section sixty-seven A to section sixty-seven C, inclusive, of chapter two hundred and sixty-six, shall fully apply to the cost and pricing data certification requirements of this section.

The deputy commissioner shall promulgate regulations designed to implement the provisions of this section.

1. Adjustments in the contract price shall be made to the maximum extent feasible on a fixed price basis prior to the execution of the change order or contract modification, if this can be done without adversely affecting the interests of the Commonwealth.

2. Where a fixed price cannot be set due to difficulty in estimating the scope of the change ordered, adjustment may be made on a lump-sum guaranteed maximum price basis calculated by use of unit prices specified in the contract or agreed upon by the parties.

3. Cost reimbursement or time-and-materials methods of price adjustment shall not be used, except where, in the written opinion of the deputy commissioner, no other pricing method is possible. When such pricing method is used, the contractor shall provide complete and accurate information disclosing the costs incurred in performing changes. The contractor shall maintain separate accounts, by job order or other suitable accounting procedure, of all segregable direct cost of work, both changed and not changed, allocable to the change. The deputy commissioner shall promulgate regulations setting forth cost principles which shall be used to determine the allowability of incurred costs for the purpose of reimbursing costs.

The resident engineer shall represent the commonwealth daily on the site of construction projects and shall be responsible for checking, inspecting and reporting to the project manager on a regular basis both in writing and orally as to events at the construction site and shall send copies of written reports to the designer on a regular basis.

The cost estimator, working in cooperation with using agencies requesting projects, shall provide estimates of the costs of proposed projects. S/he shall review all cost projections for studies, programs and designs, as well as contractors' cost estimates. The cost estimator shall review change order estimates, cost and pricing data, payment schedules and progress payment requests, and make recommendations to the project manager at the project manager's directive.

Public agencies other than political subdivisions of the commonwealth that conduct building projects outside the jurisdiction of the division of capital planning and operations as provided in section forty A of chapter seven may request assignment of a project manager, resident engineer or cost estimator employed by the office of project management. Such assignment shall be subject to approval by the deputy commissioner. Any agency making use of the office's staff on a project outside the normal jurisdiction of the office shall reimburse the office for all expenses incurred, including salaries and overhead. The director shall recommend to the deputy commissioner regulations governing fees to be paid by public agencies for use of the office's services on projects outside its normal jurisdiction.

Section 42K. The director may, with the approval of the deputy commissioner and the governor, accept on behalf of the commonwealth any federal funds or assistance for financing the cost of plans and specifications for any project.

If such funds or assistance shall be appropriated for aiding construction of any project, the director may, with like approval, apply for the same and may, with the approval of the governor, accept the same on behalf of the commonwealth. Any

project so aided shall be executed in all respects subject to applicable federal laws and rules and regulations and also to the applicable provisions of this chapter not inconsistent therewith.

SECTION 13A. It is further provided that no person who has served as a member of the special commission concerning state and county buildings, with the exception of the attorney general, nor any person who has served in the employ of said commission, on either a paid or volunteer basis, shall be eligible for appointment to any positions created as a result of the passage of this act.

No person shall be appointed director of said office unless at the time thereof s/he shall be registered by the commonwealth as an architect or professional engineer pursuant to the provisions of chapter one hundred and twelve and shall have proven ability and extensive experience in the management and oversight of operation, maintenance and repair of buildings.

The director may appoint such deputies and other supervisory staff as the work of the office may require, subject to appropriation and the deputy commissioner's approval. Such staff shall serve at the pleasure of the director and shall not be subject to chapter thirty-one or to section nine A of chapter thirty. The director shall appoint, subject to the deputy commissioner's approval, all other officers and employees of said office.

The director shall develop, in cooperation with the deputy commissioner and using agencies, an inventory of buildings owned or otherwise occupied by state agencies and building authorities. Said inventory may detail the age, condition, type of construction, and physical life expectancy of each building and its major structural components. The inventory shall be

updated as repairs, replacements and alterations are performed. The director shall recommend to the deputy commissioner standards and guidelines governing the type of information to be included in said inventory, which shall be properly coordinated with the real property inventory established and maintained pursuant to section forty J.

Section 43B. The director shall control and supervise all projects allocated to the office of facilities management by the deputy commissioner pursuant to section forty B. All of said projects shall be subject to the procedures and requirements set forth in sections forty-two A through forty-two K, except that the director may recommend to the deputy commissioner regulations governing the extent of representation of the commonwealth by the resident engineer required on the site of construction projects. to be not in compliance with maintenance and repair standards and guidelines, that the state agency or building authority report in detail to the director on a monthly basis the status, progress and problems of maintenance and repair operations at the state agency or building authority's facilities. The director shall recommend to the deputy commissioner regulations to be adopted governing information to be included in the monthly report. The director shall make quarterly reports to the deputy commissioner on the status of maintenance and repair operations at the relevant state agency or building authority. At such time as the deputy commissioner determines, with the advice of the director, that maintenance and repair operations have come into compliance with all applicable standards and guidelines, the state agency or building authority shall be relieved of the necessity of making monthly detailed reports.

Where it is deemed necessary, the deputy commissioner, on the advice of the director, may recommend that the office assume supervision and control over maintenance and repair operations normally carried out by the state agency or building authority. The commissioner of administration, after consultation with the secretary of the executive office in which the relevant state agency or building authority is located, and, in the case of building authorities, after consultation with the board of trustees of the relevant institution, may order transfer of supervision and control of maintenance and repair operations to the deputy commissioner. Upon making such order, the commissioner shall forthwith file a copy of said order with the budget director, the comptroller, the house and senate committees on ways and means, and the joint legislative committee on post audit and oversight of the general court, specifying the scope of the authority so transferred and the direction of said transfer. Said transfer may be for such period of time as the commissioner deems appropriate. Where the deputy commissioner has so assumed control and supervision, the deputy commissioner shall make quarterly reports to the commissioner of administration on the status of maintenance and repair operations at the affected state agency or building authority.

energy consumption of each building and its major energy using systems. The director may, with the approval of the deputy commissioner and subject to appropriation or allocation, hire consultants for the purpose of performing energy audits designed to determine the need for energy conservation projects.

The director shall recommend to the deputy commissioner standards and guidelines governing energy conservation maintenance and operating procedures.

The director shall in conjunction with the Secretary of Energy Resources set priorities and energy efficiency standards for all state buildings and conduct energy audits of said buildings. The bureau may contract with professional consulting firms to perform the energy audits. The audits to be performed under this section shall be completed no later than July 1, 1986.

Each shall include in their plans and request recommendations as to the purpose of such funds or accounts and the priorities and procedures for allocating the monies kept therein.

The deputy commissioner of capital planning and operations shall forthwith establish priorities and procedures for allocating such funds in conformity with the terms of the appropriation authorizing them and legislative intent in regard to long range capital facilities development plans. The deputy commissioner shall forthwith submit copies of the priorities and procedures so established to the commissioner of administration and to the house and senate ways and means committees.

Unless otherwise provided for in the appropriation authorizing such funds or accounts or other applicable law and in conformity therewith and the priorities and procedures established by the deputy commissioner of capital planning and operations, the monies kept therein shall not be allocated unless and until:

(a) the using agency, whether or not it is the agency requesting the funds for the proposed project, certifies in writing to the deputy commissioner of capital planning and operations that the project corresponds to the current needs of the using agency, including its current long range capital facilities development plan;

(b) the deputy commissioner requests that one or more of the directors of the office of programming, office of project management, or the office of facilities management review the project proposal, and the director or directors certify in writing to the deputy commissioner of capital planning and operations that the project proposal reflects the agency's needs as stated, that it provides an accurate estimate of the project requirements, cost and schedule, and that the project can be accomplished within the limits of the funds requested;

(c) The deputy commissioner of capital planning and operation certifies in writing to the commissioner of administration and to the house and senate ways and means committee that the project proposal has been evaluated in conformity with the terms of the appropriation or authorization of the fund or account and the priorities and procedures promulgated by him/her pursuant thereto and approves the allocation.

The deputy commissioner of capital planning and operations shall, upon his/her certification, file copies of the project proposal and other supporting documents, his/her certification and those of the director or directors whose review is requested and the agency requesting such funds with the commissioner of administration and with the house and senate ways and means committees.

If either the director or directors whose review is requested or the deputy commissioner of capital planning and operations should fail to give the aforementioned certifications or approvals, the deputy commissioner shall forthwith send notice of his/her decision and the reasons therefor to the commissioner of administration and to the house and senate ways and means committees.

The deputy commissioner of capital planning and operations shall by February 15 of each year prepare and submit to the commissioner of administration and to the general court a report containing separate sections summarizing the disposition and the status of the funds or accounts and descriptions of all projects for which monies from such fund have been allocated.

Section 2G. There is established and set up on the books of the commonwealth a separate fund, consisting of monies appropriated to the fund by the general court and income derived from the investment of monies appropriated to the fund, known as the capital facility planning fund.

Allocation of monies from such fund shall be made according to the provisions of section 2F of this chapter. The purpose of the capital facility planning fund shall be to provide monies for the planning of capital facility projects by state agencies other than counties. Priority in the allocation of monies from such fund shall be given to projects:

(i) which are included in any long range capital facilities development plan previously approved by the general court or in any master plan, consistent with such long range plans, previously approved by the deputy commissioner of capital planning and operations or

(ii) whose rapid progress is indicated by statutes which provide for capital facility projects to advance specific agency programs, goals or objectives; and for which the delay in seeking monies through the normal capital budget process provided for by this chapter would cause a serious loss in use of the proposed capital facility if it were unavailable or cause a percentage increase in total project cost substantially larger than that for other projects at a comparable stage of development.

Monies from the capital facility planning fund may be allocated, in accordance with priorities stated above, for the preparation of evironmental impact reports to comply with the requirements of chapter twelve and chapter thirty of the General Laws.

Monies from the capital facility fund may be allocated, in accordance with the priorities stated above, for options to purchase land or buildings which will be used for capital facility projects specifically identified in the allocation request.

If monies spent on a capital facility project are allocated from the capital facility planning fund and the funds for the acquisition of a site for or the design or design and construction of such project are appropriated or authorized then a sum of money equal to that allocation shall be deducted from the amount so appropriated or authorized and returned to the capital facility planning fund.

In no case shall a request for monies or monies be allocated for projects for which a similar request is currently being considered according to the capital budget process for the current fiscal year provided for by this chapter or which was so considered during the capital budget process for the previous fiscal year and failed to receive an appropriation or authorization.

Requests for monies from the capital facility planning fund may be made by state agencies other than counties and only after approval of such requests by the secretary of the executive office in which that agency is located, except in the case of a public institution of higher learning, only after approval by the secretary of educational affairs.

Section 7A. Each public agency other than a city or town

shall prepare a long range capital facilities development plan. Such plan shall include projections at least five years from the date of submission of the plan. Each such public agency shall revise the plan annually or at such other time as the deputy commissioner of capital planning and operations may require, or as otherwise mandated by statute or appropriation act. Each plan or revision thereof shall be submitted to the deputy commissioner at such time or according to such schedule as she/he shall specify. Each state agency the authorization of which is otherwise required for capital facility projects of one or more cities and towns shall include in its plan required by this section and its capital facility budget request required by section seven C the information about such projects specified by those sections. The state agency may request from cities and towns the information needed to complete the above-mentioned plan and budget and said information shall be promptly submitted to the state agency. To the maximum extent feasible the deputy commissioner and state agencies shall coordinate the timing and content of their requests for information to minimize duplication of reporting. In the case of local operating agencies as defined in section one of chapter one hundred and twenty-one B, any such plan, revision, capital facility budget, or capital facility budget requests required by this section or section 7C of this chapter shall be prepared and submitted by the department of community affairs as defined in section one of chapter one hundred and twenty-one B.

After consultation with the governor and the commissioner of administration, the deputy commissioner shall, in a timely manner, prepare and send to public agencies a capital facility planning policy statement to inform in the formulation of their long range capital facilities development plans and capital facility budget requests.

The deputy commissioner may at his/her discretion provide guidance and technical assistance to those public agencies lacking sufficient resources to prepare such plans. S/he shall specify the information required, the manner or preparation of the plan, and the form in which it is to be provided.

programs; tabulations of the numbers of people served by and staffing the agency and its subunits; a detailed description of the land and facilities currently owned, leased or used by the agency to the extent that such description has not previously been submitted to the deputy commissioner as part of the real property inventory maintained by him/her and an estimate of their utilization in relation to current and future programs.

In formulating requirements for each long-range capital facilities development plan, the deputy commissioner shall require at least the following: a determination of the capital facility needs based on the programs, population to be served, and the adequacy of existing facilities; a proposed capital facility project schedule and an explanation of the relationship between the need for each project and the stated programs; a summary of the schedule of needs for funds; a tabulation of the estimated staffs required for such new or modified programs and facilities; a tabulation of such projects showing the effect upon staffing, operating, and maintenance expenses; and a description of the geographic and spatial location of the facility relative to other facilities or land of the agency or its subunits.

In formulating requirements for any revisions of long-range capital facilities development plans the deputy commissioner shall require at least the following: a statement of the changes in the agency's responsibilities, objectives and programs; revised estimates of institutional population and staff, and geographic and spatial descriptions of capital facilities; and changes in capital facility requirements as they would have effect at least five years from the date of submission.

Section 7C. Each public agency other than cities and towns shall prepare and submit to the deputy commissioner of capital planning and operations in addition to its long-range capital facilities development plan or revision thereof, an annual capital facility budget at such time as the deputy commissioner of capital facilities development shall require.

In preparing both long-range capital facilities development plans and revisions thereof and capital facility budget requests, the agency shall provide timely public notice of such proposed plans and requests and reasonable opportunity for potential users and staff of the facilities controlled or to be controlled by the agency to comment thereon.

The long range capital facility development plans and capital facility budget request submitted by the agency to the division of capital planning and operations shall contain a summary of those comments and a statement of the extent to which they are reflected in the proposed plans and requests.

The deputy commissioner may provide guidelines to agencies

for soliciting and reporting on such views.

The deputy commissioner may, at his/her discretion, provide guidance and technical assistance to agencies without sufficient resources to prepare capital facility budget requests. S/he shall specify the information being sought, how it might be prepared and the form in which it is to be provided.

The deputy commissioner shall provide for a format and content of long range capital facilities development plans and capital facility budget requests which is, to the maximum extent feasible, consistent with that provided for the operating budget by the director of the budget bureau.

Any public agency may include among its capital facility budget requests, ones for appropriations or authorizations for a class or classes of similar or related capital facility projects. Such request shall include a statement of a) how the class of projects is defined; b) the reasons for requesting appropriations or authorizations for a class of projects rather than individual projects; c) the priorities and procedures for allocating the appropriated or authorized monies among the class of possible projects, making reference to and submitting copies of any studies, surveys, plans, analyses and other documents from which criteria for allocation are to be derived; and d) a proposed initial allocation of the appropriated or authorized monies based on the suggested priorities, procedures and criteria.

In formulating requirements for capital facility budget requests for individual projects, the deputy commissioner shall include at least the following: (a) a concise title description of the project; (b) the location of the project and its site in relation to any existing facilities in close proximity; (c) the estimated schedule for completion of the project including the dates upon which the design and construction of the project are estimated to be commenced and completed and the facility occupied or used. (d) a description of the project and what it involves, appending any planning documents, accurate summaries of design documents and any other documents prepared for or pertaining to that project, if not previously submitted to the deputy commissioner; (e) the useful life of the project before replacement would be necessary; (f) the current status of the plans and site for the project; (g) the status of utilities required for the project; (h) the relationship of the project to the long range capital facilities development plan; (i) the total project cost; (j) the effect of the proposed project on annual operating costs (including maintenance costs); (k) the proposed source of funds; (l) an explanation of the need for the proposed project. The description of the project shall identify any and all previously approved appropriations or authorizations pertaining to the proposed or earlier

phases of the project; the phase or phases approved, in progress, and completed, the estimated or final cost of each phase of the project through completion, and the sum of money permitted to be expended on the project as so approved. To assist his/her staff and user agencies in preparation and review of long range plans and requests, the deputy commissioner shall establish a file of approved appropriations and authorizations of all projects pertaining to each state-owned capital facility. The total project cost shall include at least the following items: the cost of all real estate, properties, rights and easements acquired, utility services, site development; the cost of construction and the initial furnishing thereof; all architectural and engineering and legal expenses, the cost of surveys and plans and specifications; and such other expenses as are necessary or incident to determining the feasibility or practicability of any project. The estimate of the toal project cost shall be based on the assumption that the project will be undertaken and completed according to the estimated schedule. Included in the estimate shall be a statment of its accuracy. The estimate of the effect of the proposed project on annual operating costs shall be based on the estimated date of use or occupancy of the facility. In the proposal for source of funds, there shall be included a statement of what federal funds are potentially available, what efforts are necessary and have been or must be made to obtain them, or why they cannot be obtained.

Section 7D. Copies of the proposed plans and requests shall be submitted simultaneously to the deputy commissioner of capital planning and operations, the secretaries of all executive offices, the director of the budget bureau, the state treasurer, and the commissioner of the department of revenue, and the house and senate ways and means committees. The secretaries shall submit to the deputy commissioner a report on the consistency of any public agency's plans and requests with the programs and policies of the executive office on which it is located - except in the case of a public institution of higher learning, the secretary of educational affairs - including the secretary's recommendations as to those plans and requests. Prior to making their reports, each secretary shall conduct public hearings, for which s/he shall give five days public notice prior thereto, on his/her analysis and recommendations as to those plans and requests. Any secretary, when requested by the deputy commissioner, shall submit to him/her a report on the impact of the specific statutory mission of the secretariat of the plans and request of any public agencies not located within his/her secretariat. Each secretary shall furnish to the house and senate committees on ways and means and the joint legislative committee on post audit

and oversight of the general court, copies of all such plans, requests, and reports.

The director of the bureau of programming, director of the office of project management and/or the director of the office of facilities management, as the deputy commissioner directs, shall report to him/her as to the technical feasibility, cost, and schedule of proposed building projects; the technical, financial, and related requirements for the operation and maintenance of such buildings upon completion of the proposed projects; where relevant, the efficacy and efficiency of the proposed project in relation to current and projected available space and current and projected standards for the allocation and utilization of space; the accuracy and adequacy of any planning and design documents and any other documents prepared in relation to the stated needs, and as to any other matters which the deputy commissioner may require relative to his/her evaluation of such plans and requests. At the deputy commissioner's request, the head of the public agency which administers or would administer a capital facility project - other than a building project - or consultants hired by him/her for that purpose, or members of the deputy commissioner's staff shall report to him/her as to the technical feasibility, cost and schedule of that project; the technical, financial, and related requirements for the operation and maintenance of such facilities upon completion of the proposed projects; where relevant, the proposed project in relation to current and projected available facilities of a similar kind; the accuracy and adequacy of any planning documents, accurate summaries of design documents and any other documents prepared in relation to stated needs, and as to any other matters which the deputy commissioner may require relative to his/her evaluation of such plans and requests.

The director of the budget bureau shall report in writing to the deputy commissioner on the impact of proposed agency plans and requests - based on the stated and projected overall agency programs - on the agency's operating budgets for the next five years (or for such longer period as the deputy commissioner shall request). The commissioner of the department of revenue shall report in writing to the deputy commissioner on the impact of proposed agency plans and requests - on their requirements for and production of revenue for at least the next five years (or for such longer period as the deputy commissioner shall request). The reports of the director of the budget bureau and the commission of the department of revenue shall be sent to the state treasurer. The state treasurer may if requested by the deputy commissioner report in writing to the deputy commissioner on the impact of all plans and requests, separately and as a whole on the financial health of the Commonwealth and make such

recommendations as to the form and nature of the financing as s/he deems necessary.

Copies of the proposed plans and requests shall in a timely manner be submitted to each of the regional planning agencies established pursuant to the provisions of chapter forty B for their review. They shall submit to the deputy commissioner a statement of their comments and recommendations, including those of cities and towns in the region which are affected by such plans and requests.

The deputy commissioner may request such other reports from public agencies as the deputy commissioner may deem necessary to fulfill his/her responsibilities for the integration and coodination of capital facility projects.

Section 7E. The deputy commissioner of capital planning and operations shall study and review all long range capital facility development plans and capital facility budget requests and reports pertaining thereto filed with him/her as provied by sections seven A, seven B, seven C, and seven D, and shall make such investigations as will enable him/her to prepare a capital facility budget for the governor. The deputy commissioner shall include in such budget an integrated and comprehensive long range capital facilities development plan and capital facility budget request and such other recommendations as the governor shall determine upon. The capital facility budget shall embody all plans, estimates, requests, and recommendations submitted to the deputy commissioner in accordance with sections seven A, seven B, seven C, and seven D. The capital facility budget shall be classified and designated to present at least the same kind and quality of information as are required of plans and requests by sections seven A, seven B, seven C, and seven D. The deputy commissioner shall include an evaluation of the proposed plan and budget request in terms of the capital facilities planning policy statement and any revisions thereof s/he proposes.

The governor in his/her capital facility budget and the deputy commissioner of capital planning and operations, in his/her recommendation to the governor of a capital facility budget, shall include in such requests for each building project contained therein, for which the using agency is a state agency, a recommendation as to the need for and where appropriate, a request for, a study and program as a prerequisite to contracting for, performance of, or allotment or expenditure of funds for any design or construction-related activities. If a study or program is not recommended the governor and deputy commissioner shall include the reasons therefor. They shall also include a recommendation as the mode of procurement of such facility, including

but not limited to, sequential, construction management, turnkey, design/build procurement, and the phasing of such procurement, including but not limited to approval of design and construction stages as separate or combined phases, which will most efficiently, economically and best serve the interests of the commonwealth. When an alternative mode of procurement is recommended, the governor and deputy commissioner shall also recommend the method by which design and/or construction services shall be procured for such project, provided that such method shall be compatible with the policies and procedures for the selection of designers in sections 30B through 30P and with the policies and procedures for the selection of contractors in sections 44A through 44H of chapter one hundred and forty-nine, to the extent feasible. If the governor or the deputy commissioner should recommend a mode of procurement other than the sequential mode or a phasing of procurement other than approval of design and construction as a combined phase, each shall state in detail the reasons therefor.

Furthermore, their requests shall contain a statement as to the expected useful life of the facility from the date of construction, renovation, acquisition, or other procurement; a statement of the proposed source of funds; where relevant, a recommendation as to the form and scheduling of financing of said project; and a recommendation as to the date upon which the authorization for the expenditure of the funds should expire. If the governor or the deputy commissioner of capital planning and operations should recommend a means and form of financing of the project such that the term of repayment exceed the expected useful life of the project, the governor and deputy commissioner shall state in detail the reasons therefor. The governor and the deputy commissioner shall transmit therewith a statement showing the total indebtedness proposed to be incurred for each capital facility project and the fund to be charged therefor, and the toal cost of financing said project according to the recommended form and scheduling of such financing. The governor and the deputy commissioner shall also transmit therewith a statement relative to the condition of the state debt, including an analysis of the impact of the proposed capital facility budget, including the long range capital facilities plan, on the financial health of the commonwealth. Such statement shall, where appropriate, include reference to the impact of obligations of public agencies which are guaranteed by or are contingent liabilities of the commonwealth.

Section 7. The governor's and the deputy commissioner of capital planning and operations' capital facility budget shall include provision for establishment of a design and construction

contingency reserve account, the purpose of which shall be to provide monies for the design and construction of capital facility projects by state agencies which, because of unforseeable circumstances, not within the contemplation of the using or the administering agency, and for justifiable reasons, would cause the project cost to exceed the sums then appropriated or authorized therefor. Allocation of monies from such reserve account shall be made according to the provisions of section 2F of this chapter. Priority in the allocation of monies from such account shall be given to projects for which the delay in seeking monies through the normal capital budget process provided for by this chapter would cause a serious loss in use of the capital facility if it were unavailable when needed or cause a percentage increase in total project cost substantially larger than that for other projects at a comparable stage of progress.

In no case shall a request for monies be made or monies be allocated for projects for which a similar request is currently being considered according to the capital budget process for the current fiscal year provided for by this chapter, or which was so considered during the capital budget process for the previous fiscal year and failed to receive an appropriation or authorization. Further, in no case shall a request for monies be made or monies be allocated if as a result of the review provided for by section 2F of this chapter the deputy commissioner of capital planning and operations finds (a) that the proposal for use of such monies will result in a substantial deviation from any study or program for the project most recently approved by him/her or from or from any design for the project most recently approved by the administering agency or (b) that the proposal for use of such monies will result in a cumulative increase in the number of gross square feet to be constructed in the project in excess of ten per cent of the number most recently specified in an appropriation or authorization for the project.

Requests for monies from the design and construction contingency reserve account may be made by state agencies which are the using agencies of those projects.

In establishing priorities and procedures for allocation of monies from the design and construction reserve account pursuant to section 2F of this chapter, the deputy commissioner of capital planning and operations shall establish specific limits for the amount of money which may be allocated from the account for any particular project, the amount which may be allocated for the construction of any particular project excluding price inflation contingencies, and the amount which may be allocated for the construction of any particular project for price inflation contingencies. In no event shall the cumulative amount allocated

from the account to any one capital facility project exceed ten percentum of the total cost specified by the appropriation or authorization for that project.

Section 7G. The governor's and the deputy commissioner of capital planning and operations' capital facility budget shall include provisions for establishment of an emergency repair reserve account, the purpose of which shall be to provide monies for the performance of repair projects of such a nature that funding through the capital budget process provided for by this chapter would be burdensome. Allocation of monies from such reserve accounts shall be made according to the provisions of section 2F of this chapter. Priority in the allocation of monies from such fund shall be given as follows:

(1) Top priority shall be given to funding requests for projects designed to remedy clear and present dangers to the health and safety of the users of the facility in question;

(2) Secondary priority shall be given to funding requests for projects which would prevent imminent destruction or damage of property or equipment beyond reasonable repair; and

(3) third priority shall be given to funding requests for projects, that would restore use of a facility or part of a facility to its user, where the loss of use has seriously disrupted the agency's program functions.

In no case shall a request for monies be made or monies be allocated for projects for which a similar request was considered during the capital budget process for the preious year as provided for by this chapter, and which failed to receive an appropriation or authorization.

Requests for monies from the emergency repair reserve account may be made by state agencies other than counties and by the office of facility management.

Section 7H. The governor shall submit to the general court annually within three weeks after the general court convenes in regular session a budget including an operating budget and a capital facility budget and long range capital facilities development plan. The recommendations contained therein shall, to the fullest possible extent, conform with the programs of the several offices and departments as defined by the commissioner of administration with the advice of the agency heads or other officers responsible for the administration thereof and long range capital facilities development plans as defined by the deputy commissioner of capital planning and operations. The budget shall also include definite recommendations of the governor for financing the expenditures recommended, and the relative amounts to be raised from ordinary revenue, direct taxes or loans. All appropriations based upon the budget to be paid from taxes or rev-

enue shall be incorporated in a single bill to the designated the general appropriation bill. With the budget the governor shall submit to the general court statements detailing and explaining his/her reasons for recommending any increase in, decrease in, or deletion from the budgetary recommendations (a) of any department office, commission, or institution, or other public agency, or in the case of a department, office, commission or institution within any executive office established by chapters six A and seven of the secretary of such executive office, (b) of the general court, (c) of the judiciary, and (d) of the deputy commissioner of capital planning and operations. The governor shall also submit such other messages, statements of supplemental data relative to the budget as s/he deems expedient and, from time to time during the session of the general court may submit supplemental messages on recommendations relative to appropriations, revenues and loans. Upon submission of the budget to the general court, the governor shall, through the executive office for administration and finance, make available to the public all material relevant to said budget, including all supporting documents pertinent thereto. This shall include at least the mailing, at the time of submission of the Governor's budget and subsequently the House and Senate Ways and Means budgets, of (a) copies of these budgets to the state house library, and to the State office building in Springfield, (b) copies of all reports, statements, recommendations, or evaluations required by sections three, three A, four, five, five B, six, six A, seven D, or seven E of this chapter to the state house library. They shall be placed on public display and made available for reproduction during business hours.

All information required under this section to be filed with or as part of the budget by the governor, and which is not contained within the budget as filed or within accompanying documents filed at the same time, shall be filed by the governor within the following sixty days and shall be accompanied by a detailed statement explaining the failure to provide the material at the time the budget was submitted.

Section 71. All requests and recommendations for appropriations or authorizations for expenditures by the commonwealth, other than those submitted by the governor to the general court pursuant to section two of Articles LXIII of the Amendment to the Constitution, shall be submitted by the governor to the general court; shall be classified to show the request of each officer having charge of an office, department or undertaking, including the priorities assigned to each program by said officer, the recommendation of the secretary of the executive office within which such office, department or undertaking shall be,

the recommendation of the governor, and the prior year appropriation, if any; and shall indicate the number, if any, of permanent positions proposed to be authorized for an office, department or undertaking and the number of persons to be served or the number of actions to be taken by such office, department or undertaking.

All such requests and recommendations as they pertain to capital facility projects shall also be studied by the deputy commissioner of capital planning and operations with reference to any current long range capital facility development plans proposed in accordance with the requirements of sections seven A, seven B, seven C and seven D. The deputy commissioner in his/her study shall consider the effects upon the policies, programs, and priorities with regard to which s/he is required to report in accordance with section seven J and with reference to any other matters which the deputy commissioner requires to be reported to him/her in his/her review and evaluation of capital facility budget requests by public agencies in accordance with the provisions of sections seven A, seven B, seven C, seven D and seven E of this chapter. After such review and study, the deputy commissioner shall promptly prepare and submit his/her recommendations to the general court.

The deputy commissioner of capital planning and operations shall promptly review any petition, motion or amendment introduced in either chamber of the general court which makes a provision for a capital facility project. During such review the deputy commissioner shall study the necessity, desirability, and relative priority of such capital facility project by reference to any current long range capital facilities development plans proposed in accordance with the requirements of sections seven A, seven B, seven C, seven D, and seven E. The deputy commissioner in his/her study shall consider the effects upon the policies, programs, and priorities with regard to which s/he is required to report in accordance with section seven J, and with reference to any other matters which the deputy commissioner requires to be reported to him/her in his/her review and evaluation of capital facility budget requests by public agencies in accordance with the provisions of sections seven A, seven B, seven C, seven D, and seven E. After such review and study the deputy commissioner shall promptly prepare and forward his/her recommendation on the petition, motion, or amendment to the chamber in which it was introduced and where it is pending.

Section 7J. The deputy commissioner of capital planning and operations shall, each year, no later than thirty days after the governor submits the budget in accordance with the provisions of sections seven H, submit to the governor and to the general

court a report which shall include, but not be limited to, the following: an evaluation of the effect of the capital facility budget, and the implementation of the proposed long range capital facilities development plan upon important policies, programs, and priorities mandated by the general court or established by the governor in accordance with law such as impact on the environment, energy conservation, preventative maintenance, architectural barriers, and the effective coordination of such policies, programs, and priorities with those of the federal government to assure the maximum benefit to the commonwealth from such federal programs.

(v) Provided, however, that nothing in this section shall be interpreted to require the establishment of a board or to waive or reduce the requirements of any other applicable law or regulation.

(b) The board shall publish guidelines to assist public agencies not within the board's jurisdiction in the establishment of a professional and objective designer selection procedure, including a model application form, consistent with the provisions and intent of sections thirty B through thirty P, inclusive.

(c) Any city, town or other public agency not otherwise subject to the jurisdiction of the board may request the board to exercise jurisdiction regarding the selection of applicants to perform design services for a specified period of time or for a specified project. In such cases, all provisions of sections thirty B through thirty P, inclusive, shall apply to the board, the applicants and the public agency so requesting.

Section 30M. a) The board, any public agency exempted under section thirty D, and all other governmental units engaged in the selection of applicants to perform design services but not otherwise subject to the board's jurisdiction shall keep the following records:

(i) all information supplied by or obtained about each applicant;

(ii) all actions taken by the board or agency relating to any project;

(iii) any other records related to designer selection required by the division.

The records of public agency exempted under section thirty D or not otherwise subject to the jurisdiction of the board shall be available for inspection by the board or the division.

Section 30N. The board shall submit an annual report to the division of capital operations listing all finalists selected by the board and all awards made pursuant to the provisions of sections thirty B through thirty P, inclusive, a summary of the activities and other actions of the board and its staff, and such other items at the board deems appropriate.

Section 30 O. The board shall independently adopt procedures and regulations as necessary to implement expeditiously the requirement of sections thirty B through thirty P, inclusive. Such procedures and regulations may vary according to the class of project.

Section 30P. If any provisions of sections thirty B through thirty O, inclusive, or the applications of such provisions to any person or circumstance are held invalid or unconstitutional, the other provisions of said sections or the application of such provisions to any person or circumstance other than that as to which it is held invalid or unconstitutional shall not be affected thereby.

SECTION 52. Chapter 29 of the General Laws is hereby amended by striking out section 8A and inserting in place thereof the following section:

Section 8A. No officer having charge of any office, department or undertaking which receives a periodic appropriation from the commonwealth shall award any contract for the construction, reconstruction, alteration, repair or development at public expense of any building, road, bridge or other physical property if the amount involved therein is one thousand dollars or over, unless a notice inviting proposals therefor shall have been posted, not less than one week prior to the time specified in such notice for the opening of said proposals, in a conspicuous place on or near the premises of such officer, and shall have remained so posted until the time so specified, and, if the amount involved therein is in excess of five thousand dollars, unless such a notice shall also have been published at least once not less than two weeks prior to the time so specified, or in the case of any contract awarded pursuant to the provisions of sections forty-four A through H, inclusive, of chapter one hundred and forty-nine, unless a notice inviting applications to bid has been published at such time prior to receipt of proposals as section forty-four D of said chapter provides; and at such other times prior thereto, if any, as the commissioner of administration, or in the case of any contract awarded pursuant to sections forty-four A through H, inclusive, of chapter one hundred and forty-

nine, as the deputy commissioner of capital planning and operations shall direct, in the central register published by the state secretary pursuant to section twenty of chapter nine and in such newspaper or newspapers or trade periodical or periodicals as said commissioner or deputy commissioner, having regard to the locality of the work involved in such contract, shall prescribe; provided, that such publication may be omitted, in cases of special emergencies involving the health and safety of the people and their property, upon the written approval of said commissioner or deputy commissioner; and provided further, that in the case of work under the supervision or control of the department of public works, the commissioner of public works shall prescribe the newspaper or newspapers or trade periodical or periodicals in addition to the central register in which said notice shall be published, having regard to the locality of the work involved. Proposals for any contract subject to this section shall be in writing and shall be opened in public at a time and place specified in the posted or published notice, and after being so opened shall be open to public inspection. No contract or preliminary plans and specifications shall be split or divided for the purpose of evading the provisions of this section. No contract subject to the provisions of sections forty-four A through H, inclusive, of chapter one hundred and forty-nine shall be awarded unless the provisions of section forty-four D of said chapter have been fully complied with. The provisions of this section shall not apply to any transaction between the commonwealth and any of its political subdivisions or between the commonwealth and any public service corporation.

SECTION 53. Section 39F of chapter 30 of the General Laws as most recently amended by section 2 of chapter 774 of the acts of 2972 is hereby amended by striking out the words "sections forty-four A to forty-four L, inclusive" and substituting in place thereof the words "forty-four A to forty-four H, inclusive." of the third paragraph thereof.

SECTION 54. Section 28 of chapter 43 of the General Laws, as most recently amended by section 2 of chapter 199 of the acts of 1974, is hereby amended by striking out the first paragraph and inserting in place thereof the following paragraph:

No contract for construction work or for the purchase of equipment, supplies or materials, whether for repairs or original construction, the estimated cost of which amounts to two thousand dollars or more, except in cases of special emergency involving the health or safety of the people or their property, shall be awarded unless proposals for the same have been invited by advertisements in the central register published by the state secretary pursuant to section twenty of chapter nine and in at

least one newspaper published in the city once a week for at least two consecutive weeks, the last publication to be at least one week before the time specified for the opening of said proposals, provided, however, that no contract subject to the provisions of sections forty-four A through H, inclusive, of chapter one hundred and forty-nine shall be awarded unless applications to bid have been solicited in accordance with the provisions of section forty-four D of said chapter. Such advertisements shall state the time and place where plans and specifications of proposed work or supplies may be had and the time and place for opening the proposals in answer to said advertisements, and shall reserve to the city the right to reject any or all of such proposals. All such proposals shall be opened in public. In the case of any contract subject to the provisions of sections forty-four A through H, inclusive, of chapter one hundred and forty-nine, the provisions of section forty-four D of said chapter shall be fully complied with prior to the solicitation of any such proposals. No bill or contract shall be split or divided for the purpose of evading any provision of this chapter.

SECTION 55. Chapter 149 of the General Laws is hereby amended by striking out sections 44A through 44L, inclusive, and inserting in place thereof the following sections:

Section 44A. (1) The words defined in this section shall have the meanings set forth below whenever they appear in sections forty-four A through forty-four H, inclusive, of this chapter unless indicated otherwise or unless the context in which they are used clearly requires a different meaning.

"Deputy Commissioner" means the deputy commissioner of the division of capital planning and operations, or his or her designee;

"Public Agency" means a department, agency, board, commission, authority, or other instrumentality of the commonwealth or political subdivision of the commonwealth, or two or more subdivisions thereof but not including the Massachusetts Bay Transportation Authority;

"Responsible" means demonstrably possessing the skill, ability and integrity necessary to faithfully perform the work called for by a particular contract, based upon a determination of competent workmanship and financial soundness in accordance with the provisions of section forty-four D of this chapter;

"Eligible" means able to meet all requirements for bidders set forth in sections forty-four A through forty-four H of this chapter and not debarred from bidding under section forty-four C of this chapter or any other applicable law, and who shall certify that s/he is able to furnish labor that can work in

harmony with all other elements of labor employed or to be employed on the work.

(2) Every contract for the construction, reconstruction, installation, demolition, maintenance or repair of any building by a public agency estimated to cost more than five thousand dollars shall be awarded to the lowest responsible and eligible general bidder on the basis of competitive bids in accordance with the procedure set forth in the provisions of section forty-four A through H, inclusive, of this chapter. When the legislature has approved the use of an alternative mode of procurement of construction for a project pursuant to section seven E of chapter twenty-nine, the awarding authority responsible for procuring construction services for such project shall follow the policies and procedures of this section and of section 44B through H, inclusive, to the extend compatible with the mode of construction procurement selected.

(3) The award of every such contract in connection with which approval by an officer, board or agency of the federal government is required shall be made within thirty days, Saturdays, Sundays and legal holidays excluded, after such approval; and the award of every contract subject to this section in connection with which approval by an officer, board or agency of the federal government is not required shall be made within thirty days, Saturdays, Sundays, and legal holidays excluded, after the opening of the bids therefor. If the bidder selected as the general contractor fails to perform his/her agreement to execute a contract in accordance with the terms of his/her bid and furnish a performance bond, quality bond as hereinafter described and also a labor and materials or payment bond as stated in his/her bid in accordance with section forty-four E, an award shall be made to the next lowest responsible and eligible bidder, subject to the provisions of sections forty-four A through H of this chapter. The awarding authority may require and prescribe the form for a quality bond. If required such bond shall take effect on the earliest effective date of any guarantee under the contract and notwithstanding the term of any guarantee under the contract, continue for such a term of years as the awarding authority requires. The obligation of the quality bond shall be to protect the Commonwealth again loss or potential loss through the guarantee of the quality of the materials and workmanship provided under the contract. The thirty-day time limit shall not be applicable to a second or subsequent award made after expiration of the time limit with the consent of said next lowest responsible and eligible bidder, and made because the original award made within the time limit was invalid, or because the bidder failed to execute the contract or

to provide a performance bond and labor and materials or payment bond.

(4) In cases of extreme emergency caused by explosion, fire, flood, earthquake, hurricane, tornado, or other catastrophe, an awarding authority may, with the prior approval of the deputy commissioner, award a contract for that portion of the work necessary to preserve the health or safety of persons or property on the basis on such competitive bids as it can obtain in time to care for the extreme emergency and without public opening of the bids.

Section 44B. (1) The awarding authority shall prepare for bidding purposes a sufficient number of sets of plans and specifications so that there will be available without cost or charge, except for a fully refundable deposit for return of the same in good condition, one complete set of specifications and plans drawn on a scale of not less than one-eighth inch to one foot except for site plans and which have not been mechanically reduced, for each person requesting the same.

The awarding authority shall prepare and update daily a list of persons who have requested a set of plans and specifications, indicating clearly which plans and specifications or pages thereof were requested. Such list shall be posted prominently at the office of the awarding authority and sent on a weekly basis to the central register published by the state secretary pursuant to section twenty of chapter nine, and such other publications as the deputy commissioner designates.

(2) Every bid submitted for a contract subject to section forty-four A and every sub-bid submitted in connection with such a contract for a subtrade pursuant to section forty-four F shall be accompanied by a bid deposit in the form of a bid bond, or cash, or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the commonwealth or public agency in the name of which the contract for the work is to be executed. A bid bond shall be (a) in a form satisfactory to the awarding authority, (b) with a surety company qualified to do business in the commonwealth and satisfactory to the awarding authority and (c) conditioned upon the faithful performance by the principal of the agreements contained in the bid.

The amount of such bid deposit shall be five per cent of the value of the bid.

(3) All bid deposits of general bidders, except those of the three lowest responsible and eligible general bidders, shall be returned within five days, Saturdays, Sundays and legal holidays excluded, after the opening of the general bids. The bid deposits of the three lowest responsible and eligible general

bidders shall be returned upon the execution and delivery of the general contract or, if no award is made, upon the expiration of the time prescribed in section forty-four A for making an award; except that, if any general bidder who fails to perform his/her agreement to execute a contract and furnish a performance bond and also a labor and materials or payment bond as stated in his/her bid in accordance with section forty-four E, his/her bid deposit shall become and be the property of the commonwealth or the public agency to which it is payable, as liquidated damages; provided that the amount of the bid deposit which becomes the property of the commonwealth or the public agency shall not, in any event, exceed the difference between his/her bid price and the bid price of the next lowest responsible and eligible bidder; and provided further that, in case of death, disability, bona fide clerical or mechanical error of a substantial nature, or other similar unforeseen circumstances affecting the general bidder, his/her bid deposit shall be returned to him/her.

(4) All bids deposits of sub-bidders, except (a) those of the sub-bidders named in the general bids of the three lowest responsible and eligible general bidders and (b) those of the three lowest responsible and eligible sub-bidders for each sub-trade, shall be returned within five days, Saturdays, Sundays and legal holidays excluded, after the opening of the general bids. The bid deposits of sub-bidders not returned pursuant to the provisions of the preceding sentence shall be returned within five days, Saturdays, Sundays, and legal holidays excluded, after the execution of the general contract; except that, if a selected sub-bidder fails to perform his/her agreement to execute a sub-contract with the general bidder selected as the general contractor, contingent upon the execution of the general contract, and, if requested to do so in the general bid by such general bidder, to furnish a performance and payment bond as stated in his sub-bid in accordance with section forty-four F(2), the bid deposit of such sub-bidder shall become and be the property of the commonwealth or the governmental unit thereof to which it is payable, as liquidated damages, provided that, the amount of the bid deposit which becomes the property of the commonwealth or the governmental unit thereof shall not, in any event, exceed the difference between his/her sub-bid price and the sub-bid price of the next lowest responsible and eligible sub-bidder; and provided further that, in case of death, disability, bona fide clerical or mechanical error of a substantial nature, or other unforeseen circumstances affecting any such sub-bidder, his bid deposit shall be returned to him.

(5) In addition to the provisions for the return of bid deposits in he first sentence of subsection (3) and (4) upon re-

ceipt of a bid bond in an amount not less than the amount of the required bid deposit, an awarding authority shall return any bid deposit of a bidder forthwith after public opening of bids. The bid bond shall be in an amount and in the form provided in subsection (2).

Section 44C. (1) The words and phrases defined in this section shall have the meanings set forth below whenever they appear in this section.

"Contractor" means any person or entity that has furnished or seeks to furnish goods or services under contract with a public agency or with an individual or entity under contract with a public agency relating to the acquisition planning, design, construction, demolition, installation, repair or maintenance of any capital facility. Contractors subject to this section shall include, but shall not be limited to, general contractors, subcontractors, materials suppliers and vendors, and suppliers of architectural, engineering, construction management, testing, land surveying and consultant services. Employees of a public agency who furnish goods or services in the course of their employment shall not be subject to this section.

"Public contract" means any contract for the furnishing of goods or services to any public agency relating to the acquisition planning, design, construction, demolition, installation, renovation, repair or maintenance of any capital facility.

"Debarment" means an exclusion from public contracting or subcontracting for a reasonable, specified period of time not to exceed five years commensurate with the seriousness of the offense.

"Affiliates" means entities which are affiliates of each other when either directly or indirectly one concern or individual controls or has the power to control another, or when a third party controls or has the power to control both.

(2) (a) The division of capital planning and operations shall establish and maintain a consolidated list of contractors to whom public contracts will not be awarded and from whom bids, applications to bid or proposals will not be solicited.

(b) The list shall show at a minimum the following information:

(1) The names of those entities and individuals debarred in alphabetical order with appropriate cross reference where more than one name is involved in a single debarment;

(2) The basis of authority for each debarment;

(3) The extent of restrictions imposed;

(4) The termination date of each debarment.

c) The deputy commissioner shall cause the list to be kept current by the issuance of notices of additions and deletions.

(d) The list shall be published on a periodic basis, together with notices of additions and deletions therefrom, in the central register published by the state secretary under section twenty of chapter nine and in such other publications as the deputy commissioner shall designate.

(3) Debarment may be imposed for any of the following causes;

(a) Conviction or final adjudication by a court or administrative agency of competent jurisdiction of any of the following offenses:

(i) a criminal offense incident to obtaining or attempting to obtain a public or private contract or subcontract, or in the performance of such contract or subcontract; (ii) a criminal offense involving embezzlement, theft, forgery, bribery, falsification or destruction of records, receiving stolen property or any other offense indicating a lack of business integrity or business honesty which seriously and directly affects the contractor's present responsibility as a public contractor; (iii) a violation of state or federal antitrust laws arising out of the submission of bids or proposals; (iv) a violation of state or federal laws regulating campaign contributions; (v) a violation of any state or federal law regulating hours of labor, prevailing wages, minimum wages, overtime pay, equal pay or child labor; (vi) a violation of any state or federal law prohibiting discrimination in employment; (vii) repeated or aggravated violation of any state or federal law regulating labor relations or occupational health or safety;

(b) Clear and convincing evidence as determined by the deputy commissioner of the commission of any of the following acts: (i) wilful supplying of materially false information incident to obtaining or attempting to obtain or performing any public contract or subcontract; (ii) willful failure to comply with the record-keeping and accounting requirements set forth in section thirty-nine R of chapter thirty; (iii) a record of failure to perform or of unsatisfactory performance in accordance with the terms of one or more public contracts, provided that such failure to perform or unsatisfactory performance has occurred within a reasonable period of time preceding the determination to debar and provided further that such failure to perform or unsatisfactory performance was not caused by factors beyond the contractor's control; (iv) any other cause affecting the responsibility of a contractor which the deputy commissioner determines to be of such serious and compelling nature as to warrant debarment.

(4) In determining whether to debar a contractor, or the period of a debarment, all mitigating facts and circumstances

shall be taken into consideration. Except as precluded by statute, a debarment may be removed or the period thereof may be reduced by the deputy commissioner upon the submission of an application supported by documentary evidence setting forth appropriate grounds for the granting of relief, such as newly discovered material evidence, reversal of a judgment or conviction, bona fide change of ownership or management, or the elimination of the causes for which the debarment was imposed.

(5) Except as provided in section twenty-seven C of this chapter, no contractor may be debarred unless the deputy commissioner has first informed the contractor sought to be debarred by written notice of the proposed debarment mailed by registered or certified mail to the contractor's last known address. The notice shall inform the contractor of the reasons for the proposed debarment and shall state that the contractor will be accorded an opportunity for a hearing if s/he so requests within fourteen days of receipt of the notice. A hearing requested under this section shall be conducted by the deputy commissioner or his/her designee within thirty days of receipt of the request, unless the deputy commissioner grants additional time therefor. The hearing shall be conducted according to the rules for the conduct of adjudicatory hearings established by the commissioner of administration pursuant to chapter thirty A. A debarment shall not be imposed until (i) fourteen days after receipt by the contractor of notice of the proposed debarment if no hearing is requested, or (ii) the issuance of a written decision by the deputy commissioner or his/her designee which makes specific findings that there is clear and convincing evidence to support the debarment and that debarment for the period specified in the decision is required to protect the integrity of the public contracting process. A contractor shall be notified forthwith of the decision by registered or certified mail, and of his/her right to judicial review in the event that the decision is adverse to the contractor.

(6) A debarment may include all known affiliates of a contractor. The decision to include a known affiliate within the scope of a debarment shall be made on a case-by-case basis, after giving due regard to all relevant facts and circumstances. The offense or act of an individual justifying debarment may be imputed to the entity with which s/he is connected when such offense or act was accomplished with the knowledge or approval of that entity. Likewise, when an entity is involved in an offense or act justifying debarment, any individual who was involved in the commission of the offense or act may be debarred. An affiliate, entity or individual may not be debarred unless it is afforded prior notice and opportunity for a hearing in accordance with the provisions of this section.

(7) During a period of debarment, applications to bid, bids or proposals shall not be solicited or considered from debarred contractors, and contractors shall not contract for the services of debarred subcontractors on any public construction project.

Section 44D. (1) Every notice which invites applications to bid on a project subject to section forty-four A shall provide sufficient facts concerning the nature and scope of such project, the type and elements of construction, and such other information as will assist applicants in deciding whether to apply and in preparing applications to bid on such contract. No person or entity may bid on a general contract subject to the provisions of sections forty-four A unless s/he shall furnish to the awarding authority within one week after publication of such notice (i) a prequalification statement, unless such person or entity has filed a prequalification statement under the same name with any awarding authority subject to the aforesaid provisions or with the division of capital planning and operations within the past twelve months; and (ii) an application to bid. If all bids are rejected pursuant to section forty-four E and the contract is re-bid, the provisions of this section shall be fully complied with in connection with such re-bidding.

(a) The prequalification statement shall be in such form as the deputy commissioner shall prescribe, shall be signed by the applicant under penalties of perjury, and shall supply information concerning the applicant's form of organization, its principals and key personnel; the applicant's experience on public and private construction projects over the past five years; all legal or administrative proceedings currently pending against the applicant or concluded adversely to the applicant within the past five years which relate to the procurement or performance of any public or private construction contract; and such other information as the deputy commissioner shall deem relevant to the determination of the applicant's qualifications and responsibility. The prequalification statement shall include a statement of financial condition certified by a certified public accountant which shall contain information concerning the applicant's current assets and liabilities, plant and equipment; bank and credit references, bonding company and maximum bonding capacity; and such other information as the deputy commissioner shall deem relevant to an evaluation of the applicant's financial capacity and responsibility. The information contained in the prequalification statement shall be current at the time of filing; provided, however, that the statement of financial condition shall pertain to the applicant's most recent, completed fiscal year and shall have been certified by a certified public accountant no more than twelve months prior to the date of filing. No prequalification

statement shall be valid for more than twelve months from the date of its receipt by an awarding authority. Any materially false statement in the applicant's prequalification statement or application to bid may, in the discretion of the awarding authority, result in termination of any contract awarded the applicant by the awarding authority, and shall constitute cause for debarring the applicant from future public work as provided in section forty-four C. Immediately upon receipt of a prequalification statement, the awarding authority shall mark the statement with the date, the name of the awarding authority and number of the statement; and shall send the original of such statement to the division of capital planning and operations, and shall give the applicant a copy of the statement marked with the date and number. The division of capital planning and operations shall retain every such prequalification statement for a period of two years from the date of receipt. Such statements are not public records as defined in section seven of chapter four, and shall not be open to public inspection; provided, however, that current prequalification statements may be furnished to an awarding authority requesting the same for the sole purpose of evaluating applicants who have filed applications to bid with the awarding authority.

(b) The application to bid shall be in such form as the deputy commissioner shall prescribe, and a blank copy of such form shall be furnished by the awarding authority to every person or business entity requesting a copy. The application to bid shall provide space for the following information: project number, the applicant's name and address, the number and date of the applicant's most recently filed prequalification statement unless the statement is filed with the application to bid, information regarding all projects completed by the applicant since the filing of his/her most recent prequalification statement, all projects which the applicant currently has under contract including the percentage of work on such projects not completed, the dollar amount of all outstanding bids and of all contracts which the applicant presently has under negotiation, the names and qualifications of the personnel who will have supervisory responsibility for the performance of the contract, any significant changes in the applicant's financial position or business organization since the filing of his/her most recent prequalification statement; a description by docket number, court, names of parties, subject matter and amount in controversy of all pending litigation to which the applicant is a party; and such other relevant information as the deputy commissioner shall prescribe. The applicant shall certify under penalties of perjury at the conclusion of the application to bid that there have been no substantial changes in

his/her financial position or business organization other than those changes noted within the application since the applicant's most recent prequalification statement. Defects or omissions in the application to bid or in a prequalification statement shall not require the awarding authority to determine that the applicant is ineligible to bid, unless the awarding authority has given the applicant timely notice of all such defects or omissions and opportunity to make any required changes or additions. If the awarding authority requires any special qualification or information for a particular project, notice of such requirement shall be provided in the advertisement for applications to bid, and the application to bid shall provide space for the applicant to list such additional qualification or information.

(2) No person or entity who has failed to file an application to bid on a particular contract or who has not filed a prequalification statement with the application to bid or within the twelve months preceding the filing of the application to bid shall be permitted to bid on the contract; nor shall any person or business who has been debarred pursuant to the provisions of section forty-four C be permitted to bid on the contract.

(3) Within two weeks after the final date for submission of the application to bid, the awarding authority shall evaluate every applicant submitting such application, on the basis of the applicant's most recent prequalification statement and the application to bid, according to procedures and criteria which the deputy commissioner shall prescribe by regulations or guidelines. Such criteria shall include the following: the record of the applicant's performance including, where available, written evaluations of the applicant's performance on public and private jobs over the past five years; the applicant's prior experience on projects of similar size and type; the experience and qualifications of the supervisory personnel who will have major responsibility for performance of the contract; the maximum amount of work the applicant is capable of undertaking as demonstrated by the applicant's financial condition, bonding capacity, size of previous projects, and present and anticipated work commitments; and any other relevant criteria which the deputy commissioner or awarding authority may prescribe. The regulations and guidelines governing prequalification of bidders shall provide that, to the extent possible, the criteria considered shall be assigned separate designated numerical values and weights, and the applicant shall be assigned an overall numerical rating on the basis of all criteria. An overall rating below a minimum prescribed by regulation shall require the awarding authority to determine that the applicant is ineligible to bid on the project. No later than two weeks after the final date for submission of

applications to bid, the awarding authority shall cause to be published in the central register established by section twenty of chapter nine and in such publications as the deputy commissioner has designated for publication of notices soliciting applications to bid, a list of all persons or entities who are eligible to bid on the contract. Publication of such list shall constitute notice of eligibility to such persons or entities.

The awarding authority shall transmit a copy of the rating assigned to each applicant, together with all documentary materials on which the rating was based, to the division of capital planning and operations, which shall retain the information for a period of one year and shall transmit it to an awarding authority upon request for the purpose of evaluating an applicant to bid on a subsequent project. Such ratings and documentary materials shall not be public records as defined in section seven of chapter four and shall not be open to public inspection.

(4) General bids shall be considered by the awarding authority only from those persons or entities appearing on such list, unless the commissioner of labor and industries reverses a determination of ineligibility as provided in paragraph (7). Bids shall be submitted to the awarding authority by a time and at a place designated in the aforesaid list no earlier than two weeks after publication of such list.

(5) An awarding authority may request in writing that the division of capital planning and operations evaluate applicants to bid on a particular project or on all projects subject to sections forty-four A through H undertaken by the awarding authority for a specified period of time not to exceed one year. Such request may be renewed by the awarding authority for an additional year at the end of the one-year period, and for additional one-year periods thereafter. If an awarding authority makes such request, it shall forthwith transmit all prequalification statements and applications to bid which it receives from applicants to the division of capital planning and operations, together with a complete description of the project to which the applications pertain. The division of capital planning and operations shall evaluate the applicants according to the procedures set forth in paragraph (3) within two weeks of receipt of the prequalification statements and applications, and shall forthwith notify the awarding authority of the results of its evaluation and shall simultaneously publish the names of all entities or individuals eligible to bid on the project in the central register and such other publications as the deputy commissioner shall designate. The awarding authority shall promptly notify all applicants whom the division of capital planning and operations has determined to be ineligible to bid on the project in accordance

with the procedures set forth in paragraph (6).

(6) Any applicant whom the awarding authority or the division of capital planning and operations has determined to be ineligible to bid shall be notified in writing forthwith of his/her ineligibility and of the reasons therefor. Such applicant may respond to a notice of ineligibility by submitting to the awarding authority within five business days of receipt of such notice written objections to the determination of ineligibility together with any relevant documentary materials. The awarding authority shall furnish a copy of such written objections and other documentary materials to the division of capital planning and operations, which shall append the same to the applicant's most recent prequalification statement. Such written objections and documentary materials may be furnished upon the applicant's written authorization to any awarding authority requesting a copy of such prequalification statement.

(7) Any applicant aggrieved by a determination of ineligibility to bid on a project subject to this section may appeal in writing to the commissioner of labor and industries within two business days of receipt of notice thereof. The commissioner of labor and industries shall investigate the matter and shall issue a written ruling affirming or reversing the determination of ineligibility within one week of receipt of the appeal. The commissioner of labor and industries may, if s/he deems it necessary or expedient to a just determination of the matter, hold a hearing at which all parties may appear, in person or by counsel, and present evidence. If the commissioner of labor and industries reverses such determination, s/he shall immediately direct the awarding authority to allow the applicant to bid on the project. The commissioner's decision shall be final and binding, subject to any remedies at law available to an aggrieved party.

(8) The deputy commissioner may issue such rules, regulations, orders, guidelines and policies as s/he deems necessary or expedient to effectuate the purposes of this section.

(9) The provisions of this section do not apply to sub-bidders.

Section 44E. (1) Whenever general bids are invited for a contract subject to section forty-four A and whenever sub-bids are invited in connection with such a contract subject to section forty-four F (1), the awarding authority shall prescribe one place for filing such general bids and one place for filing such sub-bids, which need not be the same place; and notwithstanding any provisions of general or special law, ordinance or by-law to the contrary, a bidder shall not be required to file a duplicate or his/her bid or sub-bid in any other place.

In inviting bids, the awarding authority shall reserve the

right to reject any or all such general bids, if it be in the public interest to do so. In inviting sub-bids in connection with such a contract, the awarding authority shall reserve the right to reject any sub-bid on any sub-trade, if it determines that such sub-bid does not represent the sub-bid of a person competent to perform the work as specified or that less than three such sub-bids were received and that the prices are not reasonable for acceptance without further competition.

(2) Every general bid submitted for a contract subject to section forty-four A shall be submitted on a form furnished by the awarding authority to every qualified person or entity applying therefore, requiring the bidder to agree and certify (a) that s/he will furnish all labor and materials required for the project in accordance with the plans and specifications made available by the awarding authority, for a specified contract price, subject to whatever additions and deductions are contained in the terms of the specification; (b) which addenda, if any, shall be included in the bid; (c) that s/he will comply fully with all laws and regulations applicable to awards made subject to section forty-four A; (d) that s/he agree that the sub-bidder named on the form will be used for the work indicated at the amount stated unless a substitution is made. S/he further agrees to pay the premiums for the performance and payment bonds furnished by sub-bidders as requested herein and that all of the cost of all such premiums will be included under his work.

S/he if selected as general contractor, s/he will promptly confer with the awarding authority on the question of sub-bidders; and that the awarding authority may substitute for any sub-bid listed above a sub-bid duly filed with the awarding authority by another sub-bidder for the sub-trade against whose standing and ability the undersigned makes no objection; and that the undersigned will use all such finally selected sub-bidders at the amounts named in their respective sub-bids and be in every way as responsible for them and their work as if they had been originally named in this general bid, the total contract price being adjusted to conform thereto; (e) that s/he if selected as general contractor, will within five days, Saturdays, Sundays, and legal holidays excluded, after presentation thereof by the awarding authority, execute a contract in accordance with the terms of the bid, and furnish a performance bond, quality bond as described in subsection (3) of section 44A of this act and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the commonwealth and satisfactory to the awarding authority, and each in the sum of the contract price, the premiums for which are to be paid by the general contractor and included in the contract price; (f) that s/he is able to furnish labor that

can work in harmony with all other elements of labor employed or to be employed on the work.

(3) General bids shall be for the complete work as specified and shall include the names of sub-bidders and the amounts of their sub-bids; and the general contractor shall be selected on the basis of such general bids. Every general bid which is not accompanied by a bid deposit as prescribed by paragraph (2) of section forty-four B, or which otherwise does not conform with sections forty-four A to forty-four H, inclusive, or which is on a form not completely filled in, or which is incomplete, conditional or obscure, or which contains any addition not called for, shall be invalid; and the awarding authority shall reject every such bid. No such bid shall be rejected because of the failure to submit prices for, or information relating to, any item or items for which no specific space is provided in the bid form furnished by the awarding authority, but this sentence shall not be applicable to any failure to furnish prices or information required by this section.

General bids shall be publicly opened and read by the awarding authority forthwith after the time limit for filing thereof.

The bid price shall be the price set forth in a clearly designated place on the bid form for that purpose. No general bid shall be rejected (1) because the sum of the prices for all work of the general contractor and sub-bids does not equal the general bid price set forth on the bid form for that purpose or (2) because of error in setting forth the name, the sub-bid price of a sub-bidder, or the total sub-bids as long as the sub-bidder or sub-bidders designated are clearly identifiable, or (3) because the plans and specifications do not accompany the bid or are not submitted with the bid.

Section 44F. (1). Every contract subject to section forty-four A shall include specifications and, if deemed necessary or convenient by the awarding authority, plans, detailing all labor and materials to be furnished thereunder. Such specifications shall have a separate section for each of the following classes of work if in the estimate of the awarding authority such class of work will exceed ten thousand dollars; (a) roofing and flashing; (b) metal windows; (c) waterproofing, damp-proofing and calking; (d) miscellaneous and ornamental iron; (e) lathing and plastering; (f) acoustical tile; (g) marble; (h) tile; (i) terrazzo; (j) resilient floors; (k) glass and glazing; (l) painting; (m) plumbing; (n) heating, ventilating and air-conditioning; (o) electrical work, including direct electrical radiation for heating; (p) elevators; (q) masonry work; and (r) any other class of work for which the awarding authority deems it necessary or convenient to receive sub-bids, provided that the awarding

authority may, in addition, receive a combined sub-bid on the marble, tile and terrazzo work, but in that event, the marble, tile and terrazzo work shall each be a class of work for which the sub-bidder must list the information in a clearly designated place on the bid form for that purpose. Each separate section in the specifications prescribed or provided for by this paragraph shall state the time limit for filing sub-bids with the awarding authority, shall specify by number each sheet of plans showing work to be done by the subcontractor under such section, and shall require the subcontractor to install all materials to be furnished by him under such section other than materials which in the opinion of the awarding authority it is not customary under then current trade practices for such subcontractor to install and the installation of which is expressly required by another section of the specifications. Each class of work set forth in a separate section of the specifications pursuant to this section shall be a sub-trade designated in the appropriate category of the general bid form and shall be the matter of sub-contract made on the basis of sub-bids in accordance with the procedure set forth in sections forty-four F (1) - (5).

Each separate section of the specifications required by the provisions of this section shall contain a paragraph describing by class of work and by reference to paragraph numbers in that section, each class of work, if any, requiring labor and materials which, in the opinion of the awarding authority, based upon an investigation of the work involved, is customarily performed in that sub-trade under subcontract with a sub-bidder for that sub-trade, and which is estimated by the awarding authority to cost in excess of ten thousand dollars, and only each class of work so described shall be a class of work for which a sub-bidder for that sub-trade must list the information required in the appropriate place designated on the bid form for that purpose.

Every contract subject to section forty-four A shall include specifications for the installation of weather protection and shall require that the general contractor shall install the same and that he shall furnish adequate heat in the area so protected during the months of November through March. Standards for such specifications shall be established by the deputy commissioner of planning and operations in the executive office for administration and finance.

(2) Every sub-bid submitted in connection with a contract subject to section forty-four A for a sub-trade listed pursuant to this section shall be submitted on a form furnished by the awarding authority to every qualified person or entity applying,

therefor requiring the bidder to agree and certify: (a) that s/he will furnish all labor and materials required for completing all work specified in accordance with the plans and specifications made available by the awarding authority, for a specified contract price, subject to whatever additions and deductions are contained in the terms of the specification; (b) which addenda, if any shall be included in the bid; (c) that s/he will comply fully with all laws and regulations applicable to awards made subject to section forty-four F; (d) that s/he, if selected as a sub-bidder, will within five days, Saturdays, Sundays and legal holidays excluded, after presentation of a subcontract in accordance with the terms of this bid, and contingent upon the execution of the general contract, and if requested so to do in the general bid by such general bidder, who shall pay the premiums therefor, furnish a performance bond, quality bond as described in subsection (3) of section 44A of this act and payment bond of a surety company qualified to do business under the laws of the commonwealth and satisfactory to the awarding authority, in the full sum of the sub-contract price; (e) the names of all persons, firms and corporations furnishing to the sub-bidder labor or labor and materials for the class or classes or part thereof of work for which the provisions of the section of the specifications for this sub-trade require a listing (including the sub-bidder if customarily furnished by persons on his/her/its own payroll and in the absence of a contrary provision in the specifications), the name of each such class of work or part thereof and the bid price for each such class of work or part thereof; (f) that the listed bids to her/him represents bona fide bids based on the described plans, specifications and addenda and that, if the sub-bidder is awarded the contract, the sub-bidders so listed will be used for the work indicated at the amounts stated, if satisfactory to the awarding authority; (g) that s/he is bound to the general contractor by the terms of the described plans, specifications (including all general conditions stated therein) and addenda and to assume toward him all the obligations and responsibilities that he, by those documents assumes toward the owner; (h) that s/he is able to furnish labor that can work in harmony with all other elements of labor employed or to be employed on the work.

Prior to or at the time of submission of a sub-bid, the awarding authority may require the subcontractor to furnish such information as is necessary to determine s/he's requirements of the plans and specifications.

(3) Every sub-bid in connection with a contract subject to section forty-four A for a sub-trade designated on the general bid form pursuant to section forty-four F(2) shall be for the

complete work of the sub-trade as specified, and shall be filed with the awarding authority, in a sealed envelope, before twelve o'clock noon at least four days, Saturdays, Sundays and legal holidays excluded, before the day fixed by the awarding authority for the opening of general bids, and forthwith after the time limit for the filing thereof shall be publicly opened and read by the awarding authority, which, within two days thereafter, Saturdays, Sundays and legal holidays excluded, shall reject every sub-bid which is not accompanied by a bid deposit as prescribed in sub-section (2) of section forty-four B, or which otherwise does not conform with sections forty-four A to forty-four H, inclusive, or which is on a form not completely filled in, or which is incomplete, conditional or obscure, or which contains any addition not called for; provided, however, that the failure of the awarding authority to reject such a sub-bid within such period shall not validate such a sub-bid not preclude the awarding authority from subsequently rejecting it. Not later than the second day, Saturdays, Sundays and legal holidays excluded, before the day fixed by the awarding authority for the opening of general bids, the awarding authority shall mail to every person on record as having taken a set of plans and specifications list of sub-bidders arranged by sub-trades and listing for each sub-trade the name, address and sub-bid price of every sub-bidder submitting a sub-bid thereon not rejected by the awarding authority and the general bidders excluded from using such sub-bid. A person shall not be named by a general bidder as a sub-bidder for a sub-trade on the general bid form unless such person is included for such sub-trade in said list. If a general bidder not excluded in said list from doing so names as a sub-bidder for a sub-trade on the general bid form a person included for such sub-trade in said list at the sub-bid price stated in said list, neither the general bid of such general bidder not the general contract executed on the basis of such general bid shall be invalid or rejected because of the invalidity of such sub-bid, or because of error in said list, nor shall such general bid be rejected nor shall such general contract be invalid because of any invalid action taken by the awarding authority in connection with any sub-bid or sub-bids; but there shall be substitution of sub-bidders and adjustment of contract price as if paragraph (c) of section forty-four F(4) were applicable. No sub-bid shall be rejected because of the failure to submit prices for or information relating to, any item or items for which no space is provided in the sub-bid form furnished by the awarding authority; but this sentence shall not be applicable to any failure to furnish prices or information required by section forty-four F to be furnished in the Form for Sub-Bid.

Every sub-bidder duly filing a sub-bid with the awarding authority as aforesaid shall be bound thereby to every general bidder not excluded therein from the use thereof; and any variance from such sub-bid communicated to a general bidder shall be of no effect.

A performance and payment bond furnished by the subcontractor, at the request of a general contractor set forth in the general bid form, shall be for the benefit of the general contractor; shall secure the performance of the subcontract by the subcontractor; and shall indemnify and hold harmless the general contractor and the surety or sureties under the labor and materials or payment bond furnished by such general contractor to the awarding authority against (1) any and all loss and expense arising out of any and all claims in connection with the performance of said subcontract which would be required to be paid under the labor and materials or payment bond furnished by the general contractor to the awarding authority and (2) attorneys' fees in the event that the subcontractor, after notice, fails to assume the defense of and defend such claims.

Each sub-bidder shall list the sub-bid form the name and bid price of each person, firm or corporation performing each class of work or part thereof for which the section of the specifications for that sub-trade requires such listing; provided that, in the absence of a contrary provision in the specifications, any sub-bidder may, without listing any bid price, list his own name for any such class of work or part thereof and perform that work with persons on his own payroll, if such sub-bidder, after sub-bid opening, shows to the satisfaction of the awarding authority, that he does customarily perform such class of work or the part thereof with persons on his own payroll and is qualified so to do.

(4)(a) If no sub-bid is filed for a sub-trade designated in the general bid form or if a rejection of all sub-bids for such a sub-trade occurs pursuant to section forty-four E(1) or section forty-four F(3) the awarding authority shall state, in an addendum issued with the list of sub-bidders required by section forty-four, the amount to be included by a general bidder on the general bid form for such sub-trade; and without in any way affecting other sub-bidders who have conformed to the prescribed bidding procedure, new sub-bids for such sub-trade shall be requested forthwith by written invitation to three or more qualified sub-bidders and shall be publicly opened and read by the awarding authority at a time and place to be specified in such invitation. The general contractor shall cause the work covered by such sub-trade to be done by the lowest responsible and eligible sub-bidder against whose standing and ability the

general contractor makes no objection or, if there is no such sub-bidder, by such sub-contractor against whose standing and ability the general contractor makes no objection and for such sum as the general contractor and the awarding authority may agree upon; and the contract price shall be adjusted by the difference between the sub-contract sum and the amount stated in the addendum. The general bidder shall include in the cost of his own work on the general bid form all expenses and profits on account of such adjustments.

(b) If, after the selection of the lowest responsible and eligible general bidder, it be decided to consider sub-bidders other than the ones named by such general bidder in his general bid, the awarding authority and such general bidder shall jointly consider all filed sub-bids not rejected under section forty-four F(3). Any agreement to substitute a sub-bid for the one named in the selected general bid shall result in an adjustment of the general bid price by the difference between the amount of the sub-bid originally named and the amount of the sub-bid substituted therefor. If by such substitutions the total adjusted general bid price of the general bidder first selected becomes greater than the original general bid price of the second lowest responsible and eligible general bidder, then the latter shall be selected and his sub-bidders similarly considered. If, by substitutions as hereinbefore provided, the total adjusted general bid price of the second selected general bidder becomes greater than the total adjusted general bid price of the general bidder first selected or greater than the original general bid price of the third lowest responsible and eligible general bidder, then the bidder having the lower of these two general bid prices shall be selected; provided, that if the third lowest responsible and eligible general bidder is selected, his sub-bidders shall be similarly considered. The general bidder finally selected by the aforementioned process of substitutions shall be the general bidder to whom the contract shall be awarded.

(c) If a selected sub-bidder fails, within five days, Saturdays, Sundays and legal holidays excluded, after presentation of a subcontract by the general bidder selected as the general contractor, to perform his agreement to execute a subcontract in the form hereinafter set forth with such general bidder, contingent upon the execution of the general contract, and, if requested so to do by such general bidder in the general bid, to furnish a performance and payment bond as stated in his sub-bid such general bidder and the awarding authority shall select, from the other sub-bids duly filed with the awarding authority for such sub-trade and not rejected under section forty-four H the lowest responsible and eligible sub-bidder at the amount

named in his sub-bid as so filed against whose standing and ability the general contractor makes no objection, and the contract price shall be adjusted by the difference between the amount of such sub-bid and the amount of the sub-bid of the delinquent sub-bidder.

The subcontract shall bear the form and contain the terms and conditions set forth by the deputy commissioner of capital planning and operations pursuant to section 40A of chapter 7 of the General Laws.

In the event that the contract between the general contractor and the awarding authority does not contain provisions granting to the awarding authority the right to terminate the general contract when the general contractor encounters financial difficulties or fails to make satisfactory progress, the general contractor may insert the following paragraph:

If the Subcontractor should be adjudged a bankrupt, or if he should make a general assignment for the benefit of his creditors, or if a receiver should be appointed on account of his insolvency, or if he should persistently or repeatedly refuse or should fail, except in cases for which extension of time is provided, to supply enough properly skilled workmen or proper materials, or if he should fail to make prompt payment to subcontractors or for material or labor, or persistently disregard laws, ordinances or the instructions of the Contractor, or otherwise be guilty of a substantial violation of any provision of the contract, then the Contractor may, without prejudice to any other right or remedy and after giving the Subcontractor and his surety, if any, seven days' written notice, terminate the employment of the Subcontractor and take possession of the premises and of all materials, tools and appliances thereon and finish the work by whatever method he may deem expedient. In such case the Subcontractor shall not be entitled to receive any further payment until the work is finished. If the unpaid balance of the contract price shall exceed the expense of finishing the work including compensation for additional architectural, managerial and administrative services, such excess shall be paid to the Subcontractor. If such expense shall exceed such unpaid balance, the Subcontractor shall pay the difference to the Contractor.

All sub-bidders when finally selected shall be notified in writing of their selection within forty-eight hours thereafter by the general bidder.

In each case of substitution of a sub-bidder for a sub-bidder listed in the general bid of the selected general contractor, the selected general contractor may require the substituted sub-bidder to furnish a performance and payment bond, and the

premiums for same shall be added to the general bidder's price for work to be performed by him except where the selected general contractor had indicated in his general bid that the original sub-bidder designated for that sub-trade, in which substitution was made, would be required to furnish such bond.

In the instances enumerated in paragraphs (1), (2) and (3) of this section, the general bidder's price for work to be performed by him shall also be adjusted by the amount of the change in the premium for the general contractor's performance bond and his labor and materials or payment bond caused by the substitution

(5) If a general bidder customarily performs with his own employees any sub-trade or sub-trades listed under the sub-bid category of the general bid form, he may submit a sub-bid on the sub-bid form prescribed by section forty-four F(2) and shall also submit under the appropriate sub-bid category of his general bid his name and amount for such sub-trade. A sub-bid so submitted by the general bidder selected as the lowest resepon-sible and eligible general bidder shall be considered on a par with sub-bids filed with the awarding authority by sub-bidders who customarily perform such sub-trade. No such sub-bid by a general bidder shall be considered, however, unless the general bidder can show, to the satisfaction of the awarding authority, that he does customarily perform such sub-trade, and is quali-fied to do the character of work required by the applicable section of the specifications.

Section 44G. (A) "Allowance" as used herein means a sum of money covering one or more items of labor or labor and materials which is designated in bid documents and which general bidders are required to use in computing their bids. The use of such allowances shall be prohibited in the award of any contract subject to the provisions of section forty-four A. Whenever the designer is unable to supply specifications for any item prior to the solicitation of bids, such item shall not be included in any contract subject to the provisions of section forty-four A. The awarding authority shall solicit bids for every such item separately pursuant to the provisions of section forty-four A after specifications for that item are prepared.

(B) Every alternate contained in the form for general bids shall be listed in a numerical sequence in order of priority. When the awarding authority decides to consider alternates in determining the lowest eligible and responsible bidder, the awarding authority shall consider the alternates in descending numerical sequence, such that no single alternate shall be con-sidered unless every alternate preceding it on the list has been added to or subtracted from the base bid price.

(C) The use of options other than alternates in bid documents

or bid forms subject to section forty-four A shall be prohibited under all circumstances.

(D) Every contract subject to section forty-four A shall include specifications for the installation of weather protection and shall require that the contractor shall install the same and that s/he shall furnish adequate heat in the area so protected during the months of November through March. Standards for such specifications shall be established by the deputy commissioner or his/her designee.

Section 44H. Except as otherwise provided by the provisions of sections forty-four A through H, inclusive, of this chapter, and of section four H of chapter seven, and except for the consideration and determination after contract award as to whether an item is equal to an item named or described in the specifications for a contract, the commissioner of labor and industries or his/her designee shall enforce sections forty-four A through forty-four H, inclusive, of this chapter and section thirty-nine M of chapter thirty. S/he shall have all necessary powers to require compliance therewith including the power to institute and prosecute proceedings in the superior court to restrain the award of contracts and the performance of contracts in all cases where, after investigation of the facts, s/he has made a finding that such award or performance has resulted in a violation, directly or indirectly, of the provisions of said sections forty-four A through forty-four H, inclusive, or of said section thirty-nine M and s/he shall not be required to pay the clerk of the court any entry fee in connection with the institution of any such proceeding.

Section 44I. If any provision of sections forty-four A to forty-four H, inclusive, or the application of such provision to any person or circumstance shall be held invalid or unconstitutional, the other provisions of said sections or the application of such provision to any person or circumstance other than that as to which it is held invalid or unconstitutional, shall not be affected thereby.

SECTION 60. Section 4H of chapter 7 of the General Laws as most recently amended by section 2 of chapter 393 of the acts of 1978 is hereby amended by inserting at the end of the second paragraph the following sentence:

Hearings officers responsible for adjudicating public construction contract disputes pursuant to section thirty-nine Q of chapter thirty shall in addition have had prior experience in construction law; such hearings officers may be hired either as regular employees of the division or on a consultant basis.

SECTION 61. Section 5 of chapter 16 of the General Laws as most recently amended by section 1 of chapter 605 and section 1

of chapter 606 of the acts of 1970 is hereby amended by striking out subsection (b) and inserting in place thereof the following:

(b) It shall act as a board of contract appeals and shall approve or disapprove all claims made under any contract with the department with the exception of claims subject to section thirty-nine Q of chapter thirty. To assist the commission in performing this function, the commissioner with the approval of the governor may appoint a person of legal training and experience, who shall be a member of the bar of the commonwealth, to the position of hearing examiner, and may remove him for cause in like manner. The hearing examiner shall devote his entire time during business hours to the duties of his position and said position, for salary purposes, shall be allocated to job group XXVI in the general salary schedule for the pay plan of the commonwealth established under section forty-six of chapter thirty. The department or commission may refer any dispute concerning contracts, contract specifications or the execution of contracts not subject to the aforesaid section thirty-nine Q of chapter thirty to the hearing examiner for a report of the matter including a recommendation as to the disposition of the dispute.

The hearing examiner shall hear all claims by contractors from determinations of the department with the exception of claims subject to section thirty-nine Q of chapter thirty; and shall, after hearing, render to the commission a report of the matter including a recommendation as to the disposition of the claim. Said examiner shall at the request of the contractor or of the department or on his own motion summon witnesses and require the production of books and records and take testimony under oath. Such reports shall be maintained as public records in a place and form fully accessible to the public. Any person aggrieved by a decision of the commission acting as a board of contract appeals may bring suit against the commonwealth for recovery of damages based on such claim under the provisions of chapter two hundred and fifty-eight.

SECTION 62. Chapter 30 of the General Laws is hereby amended by inserting after section 39P the following sections:

Section 39Q. (1) Every contract awarded by any state agency as defined by section thirty-nine A of chapter seven for the construction, reconstruction, alteration, remodeling, repair or demolition of any capital facility as defined by the aforesaid section thirty-nine A shall contain the following subparagraphs (a) through (d) in their entirety:

(a) Disputes regarding changes in and interpretations of the terms or scope of the contract and denials of or failures to act upon claims for payment for extra work or materials shall be resolved according to the following procedures, which shall

constitute the exclusive method for resolving such disputes. Written notice of the matter in dispute shall be submitted promptly by the claimant to the chief executive official of the state agency which awarded the contract or his/her designee. No person or business entity having a contract with a state agency shall delay, suspend, or curtail performance under that contract as a result of any dispute subject to this section. Any disputed order, decision or action by the agency or its authorized representative shall be fully performed or complied with pending resolution of the dispute.

(b) Within thirty days of submission of the dispute to the chief executive official of the state agency or his/her designee, s/he shall issue a written decision stating the reasons therefor, and shall notify the parties of their right of appeal under this section. If the official or his/her designee is unable to issue a decision within thirty days, s/he shall notify the parties to the dispute in writing of the reasons why a decision cannot be issued within thirty days and of the date by which the decision shall issue. Failure to issue a decision within the thirty-day period or within the additional time period specified in such written notice shall be deemed to constitute a denial of the claim and shall authorize resort to the appeal procedure described below. The decision of the chief executive official or his/her designee shall be final and conclusive unless an appeal is taken as provided below.

(c) Within twenty-one calendar days of the receipt of a written decision or of the failure to issue a decision as stated in the preceding subparagraph, any aggrieved party may file a notice of claim for an adjudicatory hearing with the division of hearing officers or if the amount in controvery exceeds ten thousand dollars in lieu of appealing the decision of the chief executive official, the aggrieved party may file an action directly in a court of competent jurisdiction and shall serve copies thereof upon all other parties in the form the manner prescribed by the rules governing the conduct of adjudicatory proceedings of the division of hearing officers. The appeal shall be referred to a hearing officer experienced in construction law and shall be prosecuted in accordance with the formal rules of procedure for the conduct of adjudicatory hearings of the division of hearing officers, except as provided below. The hearing officer shall issue a final decision as expeditiously as possible, but in no event more than one hundred and twenty calendar days after conclusion of the adjudicatory hearing, unless the decision is delayed by a request for extension of time for filing post-hearing briefs or other submissions assented to by all parties. Whenever, because an extension of time has been granted, the

hearing officer is unable to issue a decision within one hundred and twenty days, s/he shall notify all parties of the reasons for the delay and the date when the decision will issue. Failure to issue a decision within the one hundred and twenty-day period or within the additional period specified in such written notice shall give the petitioner the right to pursue any legal remedies available to him/her without further delay.

(d) When the amount in dispute is less than ten thousand dollars, a contractor who is party to the dispute may elect to submit the appeal to a hearing officer experienced in construction law for expedited hearing in accordance with the informal rules of practice and procedure of the division of hearing officers. An expedited hearing under this subparagraph shall be available at the sole option of the contractor. The hearing officer shall issue a decision no later than sixty days following the conclusion of any hearing conducted pursuant to this subparagraph. The hearing officer's decision shall be final and conclusive, and shall not be set aside except in cases of fraud.

(2) The commissioner of administration shall require the division of hearings officers to prepare annually a report concerning the construction contract claims submitted to the division during the preceding twelve months, in such form as the commissioner shall prescribe. The report shall contain, at a minimum, the following information: the number of claims submitted; the names of all parties to each such claim; a brief description of the claim: the date of submission and of disposition of the claim; its disposition, whether by settlement, withdrawal, default or written decision; and the number of claims currently pending. The original of the report shall be submitted to the commissioner of administration by January fifteenth, and a copy shall be filed with the state librarian and shall be a public document.

Section 39R. (a) The words defined herein shall have the meaning stated below whenever they appear in this section:

(1) "Contractor" means any person, corporation, partnership, joint venture, sole proprietorship, or other entity awarded a contract pursuant to section thirty-nine M of chapter thirty, sections forty-four A through H, inclusive, of chapter one hundred and forty-nine and sections thirty B through thirty P, inclusive, of chapter seven.

forty-nine, shall provide that:

(1) The contractor shall make, and keep for at least six years after final payment, books, records, and accounts which in reasonable detail accurately and fairly reflect the transactions and dispositions of the contractor, and

(3) if the agreement is a contract as defined herein, the contractor shall describe any change in the method of maintaining records or recording transactions which materially affect any statements filed with the awarding authority, including in his/her description the date of the change and reasons therefor, and shall accompany said description with a letter from the contractor's independent certified public accountant approving or otherwise commenting on the changes, and

Petitions filed requesting the placement of the question or revocation on the ballot for determination by the voters shall be substantially in conformity with the provisions of the law governing the signing of nomination papers for city or town officers, as to the identification and certification of names thereon, and submission to the registrars thereof. A brief summary of the relevant section or sections of the General Laws shall also appear on the official ballot. If such revocation is favored by a majority of the voters voting thereon, the acceptance of said optional law shall be revoked and it shall become null and void beginning with the first day of the month next following said vote of revocation. The question to be placed on a ballot shall be essentially as follows:

Shall the acceptance by _____(City, Town) of section(s) _____ of chapter _____ of the General Laws be revoked?

YES ☐ NO ☐

If, on the sixty-first day following the date a vote has been taken to revoke the acceptance of an optional provision of the General Laws, and no petition as aforesaid has been filed, the vote to revoke shall become effective forthwith.
