Chap. 388. AN ACT FURTHER REGULATING THE REIMBURSEMENT OF FUNDS TO CERTAIN REGIONAL SCHOOL DISTRICTS.

Be it enacted, etc., as follows:

SECTION 1. Chapter 645 of the acts of 1948 is hereby amended by inserting after section 9A, inserted by section 1 of chapter 564 of the acts of 1978, the following section:-

Section 9B. Any city or town which is newly admitted to a regional school district by an amendment to the agreement for the establishment of such district may be reimbursed in part by the board of education, hereinafter referred to in this section as the board, for part of the amount which such city or town is required to pay for such admission, subject to the limitations and in the manner prescribed by this section.

The board shall:-

(1) determine the cost of constructing and originally equipping the regional school building, including the cost of any addition constructed thereto. Included in such cost shall be (a) the cost of construction, either under this chapter or as determined by the board, or the most recently estimated cost of construction in the case where no such final cost of construction has been determined and (b) other capital and maintenance costs not to exceed five per cent of the costs in clause (a) as may be allowed by the board, and (c) the interest costs incurred on account of borrowing for the purpose of financing said school construction. Upon the determination of the above sum, the board shall deduct the amount of state aid paid to the regional school district on account of such construction and other capital costs;

(2) shall then determine the cost per student of such construction and other capital cost by dividing the cost figure arrived at in paragraph (1) by the number of students the buildings and additions, if any, can safely and adequately accommodate as determined by the board; and

(3) shall then determine the number of new students to be accommodated because of the admission of the new member city or town and that number, multiplied by the cost per student arrived at in subparagraph (2) shall comprise the maximum approvable amount upon which the board shall base its grant for reimbursement to the newly admitted member; provided, however, that if the amount which the newly admitted member is required to pay to the regional school district as a condition of membership is less than the maximum approvable amount upon which the board shall base its grant amount as determined above, the lesser amount shall be the maximum approvable amount upon which the board shall base its grant for reimbursement to the newly admitted member.

The amount required to be paid to the regional school district by the newly admitted member as a condition of membership may be paid in equal annual payments made over a period of time, as

specified in the amendment to the regional school district agreement by which the new member was admitted to the regional school district and approved by the commissioner of education.

Any such city or town acquiring membership in an existing regional school district shall receive a grant based upon a percentage of the amount determined to be the base amount upon which the state reimbursement shall be computed as prescribed above. The percentage to be applied against such amount shall be the greater of (1) the percentage applicable to the district as determined under clause (b) of section nine as though such city or town were not a member of the regional school district or (2) the percentage applicable to the district as determined under said clause (b) as though such city or town were a member of the district.

The grant shall be paid to such city or town in equal annual payments, over the same number of years during which such city or town is required to pay the amount of its admission, as specified in the amendment to the regional school district agreement by which such city or town was admitted, but in no case shall the number of annual payments by the commonwealth be fewer than five nor more than twenty. Such annual payments shall be certified by the board of education to the comptroller and the state treasurer shall, within thirty days after such certification, apply to such city or town the amount due from any funds which have been appropriated for the payment of annual payments to cities, towns, counties, and regional school districts.

In instances where the board determines that enlarged or additional facilities are required in an existing regional school district to accommodate students of a city or town acquiring membership in said existing regional school district under this section, any construction grant awarded by the board shall be based upon the greater of (1) the percentage applicable to the district as determined under clause (b) of section nine as though such city or town were not a member of the regional school district, or (2) the percentage applicable to the district as determined under said clause (b) as though such city or town were a member of the district. The provisions of this section shall apply to amendments to regional school agreements approved on or after January first, nineteen hundred and eighty-one.

Section 14B of chapter 71 of the General Laws, as most recently amended by section 1 of chapter 650 of the acts of 1960, is hereby further amended by striking out clause (f), as appearing in section 1 of chapter 638 of the acts of 1949, and inserting in place thereof the following clause:-

(f) the terms by which any city or town may be admitted to or separated from the regional school district; provided, how-

Chap. 394. AN ACT INCREASING AID FOR SCHOOL CONSTRUCTION.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to immediately increase aid for school construction, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. Chapter 645 of the acts of 1948 is hereby amended by striking out section 7, as most recently amended by section 2 of chapter 515 of the acts of 1983, and inserting in place thereof the following section:-

Section 7. Any city, town, regional school district or county may apply to the commission for a school construction grant to meet in part the cost of an approved school project. Such cost shall include the entire interest paid or payable by such city, town, or county and the entire interest paid or payable by such regional school district on any bonds or notes issued to finance such project, as well as any premiums, fees, or charges for credit or liquidity enhancement facilities or services issued or rendered to any such city, town, regional school district or county. Such costs shall also include all costs and legal fees to enforce rights on any contracts for the construction of an approved school project. Such application shall be made, in the case of projects, the construction of which has been undertaken before the effective date of this act, within ninety days after such effective date, and in the case of all other projects, before

construction has been undertaken. Such application shall be in the form prescribed by the commission, and shall be accompanied by such additional information, drawings, plans, estimates of cost, and proposals for defraying such costs, as the commission may require.

SECTION 2. The first paragraph of section 8A of said chapter 645, as appearing in section 4 of chapter 302 of the acts of 1976, is hereby amended by adding the following three sentences:- In the event of a project approved on the basis of unequal annual payments as provided in section nine or by other legislation of similar intent, the arithmetic average of the estimated annual payments for that project may be the amount included in the said aggregate of first annual payments. The unused portion of the prior year authorization shall be available for use in the next following fiscal year. Projects approved under provisions of individual special legislation shall not be subject to the limitations of this authorization.

SECTION 3. The first paragraph of section 9 of said chapter 645, as most recently amended by section 18 of chapter 492 of the acts of 1974, is hereby further amended by striking out subsections (a), (b) and (c) and inserting in place thereof the following:-

The total construction grant for any approved school project in any city, town, regional school district, or county shall be fifty per cent of the final approved costs of such project, including costs referred to in section seven, multiplied by a percentage, which shall be the proportion, to the nearest tenth of one per cent, which the most recent equalized valuation per school attending child for the entire commonwealth bears to the most recent equalized valuation per school attending child of the city or town, or in the case of regional school districts, of the towns comprising such district, or in the case of a county, of the towns comprising such county; provided, however, that no grant shall be approved for any amount less than sixty per cent nor greater than seventy-five per cent of such approved costs.

SECTION 4. Said section 9 of said chapter 645 is hereby further amended by striking out the second and third paragraphs, inserted by section 2 of chapter 613 of the acts of 1982, and inserting in place thereof the following three paragraphs:-

Notwithstanding the provisions of this section or any other provisions of this act to the contrary, the total construction grant for any approved school project for a district classified as a growth district which is approved or submitted after December thirty-first, nineteen hundred and eighty-two shall be sixty per cent of the product of the final approved cost of the project, including costs referred to in section seven, multiplied by a

percentage, which shall be the proportion, to the nearest tenth of one per cent, which the most recent equalized valuation per school attending child for the entire commonwealth bears to the most recent total equalized valuation per school attending child of the towns comprising such district; provided, however, that no grant shall be approved for any amount less than seventy per cent nor greater than seventy-five per cent of such approved costs. In order for a district to be classified as a growth district the board by a written finding shall determine that the district conforms to the following criteria:

(1) The actual increase in school attending children in the district has been more than five per cent over the past eight years; or

(2) The projected increase in enrollment for the next five years will be five per cent or more; and

(3) Such projected increase in enrollment for the next five years is greater than the state-wide projection. For the purposes of this paragraph district shall mean any city, town, or regional school district within the commonwealth.

The board may on or before March fifteenth of each year designate, for the following fiscal year, up to one per cent of all school districts in the commonwealth as districts of extreme critical need. Such designation shall be made independent of any plans of such districts for school construction and regardless of whether such districts have made application for grants under this section. In making such a designation the board shall consider (1) the necessary use of double shifts; (2) the amount of square footage per pupil; (3) safety conditions in existing facilities; (4) inappropriate grouping of students in existing facilities; (5) any other criteria determined by the board to be evidence of extreme critical need.

Any district receiving approval for a grant under this section, other than a grant to assist a district eliminating racial imbalance, in the same fiscal year that such district has also been designated a district of extreme critical need shall receive an additional five per cent on the portion of its grant that is for other than interest.

SECTION 5. Section 11 of chapter 15 of the General Laws is hereby amended by striking out the third paragraph, as most recently amended by section 1 of chapter 708 of the acts of 1981, and inserting in place thereof the following paragraph:-

The board shall, notwithstanding any contrary provision of chapter six hundred and forty-five of the acts of nineteen hundred and forty-eight, approve grants for schoolhouse construction of ninety per cent of the approved costs whenever the board is satisfied that the acquisition, construction, enlargement, renovation, reconstruction, rehabilitation, or modernization of a schoolhouse is for the purpose of reducing or eliminating

racial imbalance as provided by said section thirty-seven D or imbalance of minority students, as defined in regulations promulgated under the federal Emergency School Aid Act, Title VII of Public Law 92-318; and the commonwealth shall, subject to appropriation and upon the approval of the board, pay to a city, town, or regional district school committee ninety per cent of the cost of other measures, except transportation as hereinafter provided of pupils, employed by a school committee thereof or such regional district school committee to provide places for pupils for the purpose of reducing or eliminating racial imbalance as provided by said section thirty-seven D or imbalance of minority students, as defined in regulations promulgated under the federal Emergency School Aid Act, Title VII of Public Law 92-318.

SECTION 6. The board shall on or before March fifteenth, nineteen hundred and eighty-five, designate retrospectively those districts in extreme critical need in accordance with the provisions of section four for fiscal year nineteen hundred and eighty-five. Any district so designated that also has a construction grant approved during fiscal year nineteen hundred and eighty-five shall receive the premium provided for by said section four.

SECTION 7. This act shall apply to all grants approved after June thirtieth, nineteen hundred and eighty-four.

Approved December 27, 1984.

Chap. 395. AN ACT PROVIDING FOR THE CONVERSION OF OIL TO COAL BY ELECTRIC GENERATING FACILITIES.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to provide forthwith for the conversion of oil to coal by electric generating facilities, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. Chapter 164 of the General Laws is hereby amended by striking out section 94G1/2 and inserting in place thereof the following section:-

Section 94G 1/2. An electric company or other person which distributes to retail customers all or a portion of the output of any existing oil-burning electric generating facility which is proposed to be converted from oil to coal-fired operation may file

with the department an application, in such form as the department may prescribe, for an adjustment in its rates through the oil conservation adjustment described in this section; provided, however, that environmental controls for sulfur and particulates will be required to ensure that approved long-term emissions from the facility shall not significantly contribute to any condition of non-attainment of ambient air quality standards established and approved by the environmental protection agency and the department of environmental quality engineering and, provided further, that the conversion of any electric generating facility in an urban area with a population in excess of two hundred thousand people will enhance the air quality in the area by reducing sulfur dioxide emissions. Such application may be filed prior to the time the applicant incurs costs in connection with the conversion and operation of the facility.

Within thirty-five days of receipt of such application the department shall hold a public hearing to determine the oil conservation adjustment, and the manner in which said adjustment shall be recovered from all retail customers of the applicant. The department shall render a decision upon such application within one hundred and twenty days of the beginning of such hearing. Said adjustment shall not be authorized unless it is determined by the department that there is a substantial probability that the share of the cost of conversion of such facility attributable to the applicant's retail customers, together with any incremental operating expenses necessitated by the conversion will be less than or equal to the fuel cost savings to accrue to said retail customers over the remaining life of the electric generating facility.

The oil conservation adjustment shall be determined by the department in such manner that the applicant will recover the total cost of conversion within eighty-four months of the effective date of the adjustment, such conversion being hereinafter referred to as a short-term conversion, or will recover the total cost of conversion over a period more than seven years but within twelve years of the effective date of the adjustment, such conversion being hereinafter referred to as a long-term conversion. The effective date of the adjustment shall be the earlier of the date of initial conversion or, in the case of a cancellation of the conversion, the date on which the department makes the finding required by the next paragraph concerning such cancellation.

All revenues derived through said adjustment shall be applied solely to the cost of conversion of said facility. Except as provided in this section, said adjustment, once authorized by the department, shall not be disapproved, reduced, terminated, suspended or, without the consent of the applicant, otherwise modified by the department nor shall any portion thereof be applied by the department to reduce or modify the otherwise

lawfully authorized rates and charges of the applicant provided, however, that in the event a conversion is cancelled, the department shall review the reasons therefor and may modify the adjustment to allow recovery only of those costs prudently incurred at the time of their incurrence or may cancel the adjustment if no costs were prudently incurred; and provided further that, in the case of a long-term conversion any application for a delayed order of compliance or any similar request with respect to environmental protections shall work as an automatic denial of any application for an oil conversion adjustment or as an automatic revocation of any adjustment authorized by this section. The department shall not recognize for purposes of establishing any rate, price or charge, pursuant to section ninety-four or section ninety-four G, costs of conversion which are recovered from said customers under said adjustment.

The applicant may assign to any person or entity, in whole or in part, the revenues to be collected under the oil conservation adjustment in connection with financing the cost of conversion. If such assignment is made, or if the applicant has filed its application in whole or in part for the benefit of any other person or entity that proposes to own and finance all or part of the assets to be added to the facility in connection with the conversion, the revenues to be collected by applicant under said adjustment shall constitute revenues of such person or entity and not revenues of the applicant. The applicant shall collect such revenues solely for the benefit of such person or entity.

In this section the following words and phrases shall have the following meanings, unless the context requires otherwise:

"Coal", coal used as a primary energy source and any other primary energy source which is derived from coal or synthetic fuels which use coal as a base.

"Cost of conversion", costs as determined by the department to be reasonable and necessary for the conversion of an oil-burning electric generating facility to the burning of coal. Such costs shall include, but not be limited to, engineering, administrative and legal costs, the cost of environmental studies, and control equipment, coal handling and storage equipment, equipment and facilities necessary to permit the combustion of coal, the cost of retro-fitting or refurbishing boilers to permit the combustion of coal, the cost of on-site and off-site facilities for handling, storing, and disposing of wastes resulting from the combustion of coal, and the cost of all other facilities reasonable and necessary to allow the conversion of an oil-burning electric generating facility to burn coal, whether such costs are incurred before or after the date of initial conversion of such facility. Such costs shall also include the reasonable costs of capital for such conversion until such costs are recovered as provided in this section. In no case shall costs of conversion include any costs incurred pursuant to an expansion of an electric generat-

ing facility's generating capacity above the generating capacity of said facility that existed prior to the oil conservation adjustment period.

"Date of initial conversion", the first day on which an existing oil-burning electric generating facility or is certified as having the capacity to do so generates electricity for continuous distribution to customers by the combustion of coal, whether or not additional facilities must be constructed or installed.

"Fuel cost saving", the differential costs between an equal amount of coal and oil calculated on the basis of British Thermal Units.

"Oil conservation adjustment", in the case of a short-term conversion, shall be an amount which is the greater of (a) two-thirds of the fuel cost savings per kilowatt hour sold accruing to retail customers on the date of initial conversion or (b) the cost of conversion of an existing oil-burning electric generation facility to coal divided by the estimated kilowatt hours to be generated for sale by the facility during the first eighty-four calendar months after the date of initial conversion; provided, however, that if the total amount of cost of conversion per kilowatt hour initially calculated by application of method (b) exceeds one hundred per cent of the fuel cost savings per kilowatt hour sold accruing to retail customers on the date of initial conversion, the eighty-four month period referred to in said method (b) shall be extended so that the total amount of cost of conversion per kilowatt hour shall be no more than one hundred per cent of such fuel cost saving per kilowatt hour; or, in the case of a long-term conversion, amounts which will provide sufficient revenues during a period not to exceed twelve years to repay or otherwise discharge all obligations incurred by or on behalf of the applicant in connection with financing arrangements that the department determines to be reasonably necessary for financing the cost of conversion. The oil conservation charge determined by the department shall permit recovery by the applicant of the cost of conversion net of such federal, state, or local taxes based on revenue and income which may be imposed upon the applicant for receipt of proceeds of the oil conservation adjustment which cannot be reasonably avoided by the applicant using due diligence. In no event shall the oil conservation adjustment include amounts attributable to non-retail customers.

Upon recovery by the applicant of its share of the cost of conversion as herein provided, the applicant shall terminate the oil conservation adjustment. Upon such termination the applicant shall demonstrate to the department that its oil conservation adjustment revenue collections are in compliance with orders issued pursuant to this section. In the event such collections are lesser or greater than the applicant's share of the cost of conversion, the department shall make such determinations and

issue such orders as are necessary to result in compliance with this section.

In the event the facility or the applicant should become entitled, by reason of the conversion, to any federal or state grant, the department shall make such determinations and issue such orders as are necessary to reduce the amount of conversion costs which the applicant would otherwise recover by means of such oil conservation adjustment, or if such grant is received after termination of such adjustment make such determinations and issue such orders as are necessary to result in the applicant receiving no more than the cost of conversion after taking into account the retail customers' apportioned share of such grant.

In the case of a long-term conversion, the department shall, every six months, review the revenues collected pursuant to the oil conservation adjustment in order to determine whether the applicant is recovering the cost of conversion over the period approved by the department. In the event any overcollection of such cost of conversion has occurred, the department shall order such overcollection to be returned to the ratepayers.

In the case of a short-term conversion, the department shall, upon its own initiative or upon petition of the original applicant, but in any event at least twice each year, review the actual cost of conversion and fuel cost savings and changes in estimates thereof, and may, where necessary after notice and public hearing, modify the oil conservation adjustment to permit, if method (a) referred to in the definition of "oil conservation adjustment" in this section was initially used, recovery by the applicant of two-thirds of the recalculated fuel cost saving per kilowatt hour accruing to retail customers on the date of recalculation of the saving by the department or, if method (b) referred to in said definition was initially used, to permit recovery by the applicant of the recalculated cost of conversion over such recalculated number of months as would not result in a charge exceeding the fuel cost saving per kilowatt hour accruing to retail customers on the date of recalculation of the saving by the department. Said adjustment also may be modified to permit switching from said method (a) to method (b) or from method (b) to method (a), where necessary to either permit the applicant to recover the cost of conversion as promptly as possible, consistent with the intent of this section that no adjustment for a short-term conversion shall exceed fuel cost savings accruing to retail customers or prevent such adjustment from exceeding fuel cost savings accruing to retail customers.

Any corporation or agent for the corporation responsible for said coal conversion projects shall give priority in employment to individuals residing within the city, town or political subdivision in which said project is taking place provided that those individuals have displayed the necessary qualifications for employment.

SECTION 2. The provisions of this act are severable and if any of its provisions shall be held invalid in any circumstances, such invalidity shall not effect any other provisions or circumstances.

If an approved vocational school established by a regional school district accepts a student who resides in a town, other than a member town of said district, which does not maintain such a vocational school, the town in which such student resides shall pay a tuition fee to be fixed by the regional district school committee and approved by the commissioner under the direction of the state board; provided, however, that a town shall only be required to pay the tuition of any student residing therein who is enrolled in a

post-secondary vocational program to the extent provided in sections thirty-seven B through thirty-seven F, inclusive.

SECTION 2. Said chapter 74 is hereby further amended by inserting after section 37A the following five sections:-

Section 37B. The commissioner under the direction of the state board may approve nondegree granting vocational education programs at the post-secondary level. In making his decision, the commissioner shall take into consideration the availability of similar training opportunities at the secondary and public regional community college levels.

Upon the vote of the school committee or board of trustees of any industrial, technical, or vocational school, tuition and other related fees may be charged to students residing in its city, town or regional school district admitted to approved post-secondary vocational education programs in an amount not to exceed fifty per cent of the average per pupil cost of such program.

Section 37C. A student who resides in a city or town which does not offer approved vocational education programs at the post-secondary level may, upon the approval of the commissioner under the direction of the state board be admitted to such program in another city, town or regional district. In making his determination the commissioner shall take into consideration the opportunities for free vocational training where the applicant resides, the preparation, aptitude and previous record of the applicant, and other relevant circumstances, including the level of state assistance to such program. Tuition and other related fees shall be charged to a student admitted under this provision in an amount not to exceed fifty per cent of the average per pupil cost of such program, as approved by the commissioner under the direction of the state board. Said tuition charge shall be the difference between the average per pupil cost of the approved post-secondary program, and the sum of the tuition and other related fees charged to each student under section thirty-seven C and the per pupil school aid received under chapter seventy on account of students admitted pursuant to the

provisions of section thirty-seven C.

In the case of any city or town which fails to pay tuition on account of a student admitted to a post-secondary vocational program under the provisions of section thirty-seven C, the commissioner shall be authorized in the succeeding fiscal year, pursuant to section four of chapter seventy, to reduce the school aid to which such city or town is otherwise entitled under chapter seventy in an amount equivalent to the unpaid tuition. The commissioner is further authorized to increase the school aid paid to the city, town or regional school district which provided the post-secondary vocational program to said student in an amount equivalent to the tuition to which it was due under the provisions of this section.

Chap. 448. AN ACT AUTHORIZING THE COUNTY COMMISSIONERS OF FRANKLIN COUNTY TO ESTABLISH A PROGRAM FOR SOLID WASTE DISPOSAL.

Be it enacted, etc., as follows:

SECTION 1. The county commissioners of the county of Franklin are hereby authorized to establish a comprehensive program for the disposal of solid waste generated in cities and towns within said county and cities and towns within other counties that may elect to participate in any such program.

Such program may include provisions for selecting a site or sites for and planning, designing, acquiring and constructing solid waste transfer facilities and may include provisions for the transfer, hauling and disposal of solid waste by said county to serve any city or town within or without said county. For purposes of this act, "solid waste transfer facilities" shall mean facilities for the transportation, receiving, handling or temporary storage of garbage, refuse and other discarded solid materials. Solid waste transfer facilities may include any or all property, rights, franchises necessary or desirable in connection therewith or incidental thereto.

SECTION 2. Any city or town in the county of Franklin and the cities and towns within other counties that may elect to participate in any such program are hereby authorized from time to time to contract with the county of Franklin, acting by and through its county commissioners, for the delivery of garbage, refuse and other discarded solid materials at solid waste transfer facilities owned or operated by the county of Franklin. Such contracts may be for such periods as may be agreed upon among the parties and, without limiting the generality of the foregoing, may include provisions for the delivery of minimum amounts of garbage, refuse and other solid waste and payment to be based thereon, whether or not such service is then available or rendered, unit prices, which may be graduated, and adjustments thereof. Such payments, unit prices or adjustments need not be specifically stated in such contract, but may be determined by formulae if set forth therein. Such contracts may be exclusive or non-exclusive, may be awarded with or without competitive bidding and may impose upon any such town restrictions against other means of disposal while the contract is in force. Such contracts may be entered into by the selectmen acting under authorization of the town meeting, which authorization may be general. Any contract entered into by a town shall not be subject to section four of chapter forty of the General Laws and shall not be precluded by the acceptance of section nine A of chapter ninety-two of the General Laws.

SECTION 3. The county of Franklin, acting by and through its county commissioners, is hereby authorized to contract with any city or town in the county of Franklin, with any of the cities or towns within other counties that may elect to participate in any such program, and with private parties for the delivery to the county of Franklin of garbage, refuse and other discarded solid materials at solid waste transfer facilities owned or operated by the county of Franklin. Such contracts may be upon such terms and may include such provisions as are described in section two. The county of Franklin, acting by and through its

county commissioners, is hereby further authorized to contract with private parties for the disposal of solid waste delivered to solid waste transfer facilities as aforesaid at any solid waste disposal facility operated by any private or public entity. Any such contract for the disposal of garbage, refuse or other discarded solid material may provide that the county share or otherwise be credited with a portion of the proceeds, if any, from any sale of steam, electricity or other by-products derived from the operation of any solid waste disposal facility at which the county of Franklin disposes of garbage, refuse and other discarded solid materials. For purposes of this section, solid waste disposal facilities shall include landfills, incinerators, waste-to-energy facilities and any other facilities intended to permanently dispose of garbage, refuse and other discarded solid materials, whether by combustion, processing or otherwise.

SECTION 4. The county commissioners of the county of Franklin are authorized to cause plans and specifications to be prepared for the acquisition and construction of solid waste transfer facilities under this act and to enter into contracts for the planning, design, acquisition and construction of such facilities and for the operation thereof, subject to the applicable provisions of law relating to such contracts. Said commissioners are further authorized to acquire land by lease, by purchase, by eminent domain under the provisions of chapters seventy-nine or eighty A of the General Laws or otherwise for the siting and construction of solid waste transfer facilities; provided, however, that no such land shall be so acquired in any town that has not voted to contract with the county of Franklin pursuant to section two without the consent of the board of selectmen or council of any such city or town.

SECTION 5. For the purposes authorized by sections one and four, including financing charges, interest on bonds and notes incurred prior to and during construction and for a period not exceeding one year after completion thereof, start-up costs, the establishment of reasonable reserves, and architectural, engineering, legal and other fees and costs incidental thereto, the treasurer of the county of Franklin with the approval of the county commissioners of said county, may borrow from time to time, upon the limited or unlimited credit of the county such sums as may be necessary, not exceeding, in the aggregate, one million dollars and may issue bonds or notes of said county therefor. Such bonds or notes shall bear on their face the words, "Franklin County Regional Solid Waste Management Program Loan Act of 1984" or such other title as said commissioners shall specify. Each authorized issue shall constitute a separate loan. The bonds or notes may be issued as serial bonds or

notes or as term bonds or notes, or in any combination thereof, and shall be payable in not more than twenty-five years from their respective dates. The first payment of principal of each issue of serial bonds or notes, and the first payment on account of principal of term bonds or notes made to the sinking or reserve fund established thereunder, shall not be later than three years from the date of such bonds or notes. For each issue, the amounts payable in the several years for or on account of principal and interest combined shall be as nearly equal as is practicable in the opinion of the county commissioners or, in the alternative, shall be in accordance with a schedule providing for a more rapid amortization of principal. The bonds or notes may be payable solely from the revenues of the solid waste transfer facility or facilities financed with the proceeds thereof and such revenues may be pledged to the holders of such bonds or notes in furtherance thereof.

If any bonds or notes are issued hereunder as term bonds or notes, the county treasurer shall establish or cause to be established a reserve or sinking fund for the payment or redemption of any such term bonds or notes. Payments to any such reserve or sinking fund of amounts available for the payment of principal and redemption premiums, if any, shall be made according to a schedule established at the time any such term bonds or notes are issued, subject to the requirements of this section. The amount of each scheduled annual payment shall be deemed to be debt maturing in that year for purposes of section thirty of chapter thirty-five of the General Laws.

Amounts deposited in any reserve or sinking fund, hereunder, amounts representing capitalized interest on bonds or notes and any amounts provided for the establishment of reasonable reserves hereunder, together with any investment income therefrom, shall be held by the county treasurer in trust, or may be deposited by the treasurer in trust, on such terms as the county treasurer shall approve, with a trustee or escrow agent, which trustee or escrow agent shall be a banking institution or trust company in the commonwealth, and shall be expended for the purposes provided therefor, as specified by the county treasurer, with the approval of the county commissioners and the advisory board on county expenditures, at the time any bonds or notes are issued hereunder.

Bonds or notes issued under this act shall be signed by the county treasurer and countersigned by a majority of the county commissioners. Said county may sell said securities at public or private sale, at par, premium or discount, and upon such terms and conditions as said county commissioners, with the approval of the advisory board on county expenditures, may deem proper. Indebtedness incurred hereunder shall, except as herein provided, be subject to chapter thirty-five of the General Laws,

exclusive of section thirty-eight thereof; provided that any temporary notes issued pursuant to section thirty-seven B of said chapter thirty-five may be payable in not more than three years from their dates and such notes issued for a shorter period than three years may be refunded by other temporary notes, provided that the period from the date of issue of the original temporary notes to the date of maturity of the refunding notes shall not be more than three years.

SECTION 6. Chapter three hundred and forty of the acts of nineteen hundred and eighty-two is hereby repealed.

SECTION 7. This act shall take effect upon its passage.

Approved January 2, 1985.

SECTION 1. Section 28B of chapter 35 of the General Laws is hereby amended by striking out subsection (h), as appearing in section 144 of chapter 351 of the acts of 1981, and inserting in place thereof the following two subsections:-

(h) At the closing of the treasurer's books on July tenth, the balance to the credit of each appropriation shall become a part of the general unappropriated balance in the county treasury, but no appropriation voted for special, non-operating purposes, shall lapse until the work for which it has been made has been completed. Such appropriation, however, may not be carried forward for more than one extra fiscal year. Any remaining unappropriated balance thereafter, shall become a part of the general unappropriated balance in the county treasury. Written notification of such balance to be carried forward shall be submitted by the county commissioners to the county treasurer, the advisory board, and the director of accounts on or before the tenth day following the close of the fiscal year for which it was originally appropriated.

The county commissioners shall send written notification of such balance to the county treasurer, the advisory board, and the director of accounts on or before the tenth day following the close of the fiscal year. This subsection shall not apply to funds appropriated for the purposes of construction of buildings.

(i) For the purpose of creating a Capital Improvement Fund the advisory board may appropriate in any year an amount not exceeding ten per cent of the amount raised in the preceding fiscal year by assessment upon the cities and towns or of such larger amount as may be approved by a two-thirds vote. The aggregate amount in the fund at any time shall not exceed ten per cent of the total equalized valuation of the municipalities in the county as defined in section one of chapter forty-four. Chap. 454. AN ACT FURTHER REGULATING DEALERS AGREEMENTS FOR THE SALE OF GASOLINE.

Be it enacted, etc., as follows:

SECTION 1. Chapter 93E of the General Laws is hereby amended by striking out section 5a, inserted by section 5 of chapter 64 of the acts of 1976, and inserting in place thereof the following section:-

Section 5a. (a) It shall be unlawful to include in any marketing agreement any term which provides for the termination of such marketing agreement by a supplier upon the death of the

retail dealer if the dealer, prior to his demise, designates a successor-in-interest in a form prescribed by and delivered to the supplier.

(b) For the purpose of this section, "successor-in-interest" shall be restricted to either a surviving spouse or adult child of the retail dealer; provided, however, that such spouse or child, at the time of the dealer's death, shall meet the reasonable qualifications then being required of dealers by the supplier for the operation of such service stations.

(c) This section shall not apply to a marketing agreement until the retail dealer has operated a service station pursuant to such marketing agreement with the supplier for a continuous three-year period.

(d) The designated successor-in-interest shall be allowed twenty-one days after the death of the retail dealer to give written notice to the supplier of his election to assume and operate the service station. Such notification shall contain such information regarding business experience and credit history as is reasonably required by the supplier. The successor-in-interest must offer to assume the marketing agreement in writing three days, excluding Saturdays, Sundays, and holidays, after such election and must commence operation of the service station within ten days after such assumption. Within twenty-one days after the successor-in-interest has elected in writing to assume and operate the service station, the supplier shall give written notice to the successor-in-interest of its approval or disapproval of the successor-in-interest, based upon whether such successor-in-interest meets the supplier's reasonable qualifications required of dealers by the supplier for the operation of such service stations. If the supplier does not approve the successor-in-interest, it shall state its reasons therefor. If the supplier does not reply within the specified twenty-one-day period, approval of the successor-in-interest shall be deemed granted.

(e) A supplier may require that a dealer desiring to designate a successor-in-interest pursuant to this section deposit with such supplier at the time of such designation such sum of money reasonably estimated to be necessary to compensate the supplier for rent for a period of twenty-one days. Such deposit is intended to compensate the supplier in the event that the designated successor-in-interest fails for such period after the death of the dealer to assume the marketing agreement obligation. Any unearned portion of such deposit resulting from the successor-in-interest assuming responsibility for the marketing agreement sooner than twenty-one days after the date of the dealer's death, or from the temporary operation of the service station by the supplier during such twenty-one days, shall be refunded by

the supplier to the estate or legal representative of the deceased dealer. In addition to such deposit, the supplier may require a dealer desiring to qualify under this section to arrange for the discharge or performance of other marketing agreement obligations such as, but not limited to, insurance, but excluding any obligation to be open to the public, for a period of up to twenty-one days after his demise.

(f) The marketing agreement available to the successor-in-interest pursuant to this section is intended to be no greater than or less than the marketing agreement as it existed in the name of the deceased dealer at the time of such dealer's death. This section is not intended to expand or diminish the rights of suppliers or dealers under either federal or state law.

(g) A retail dealer may designate a primary and one alternate successor-in-interest. The alternate, if one is designated, shall have no rights under this section in the event of any exercise of rights by the primary successor-in-interest. If an alternate desires to assume and operate the service station in the event the primary successor-in-interest fails to do so, the alternate must give notice of such election and otherwise comply with paragraph (d) of this section.

(h) Unless otherwise specifically provided herein, any actions to be performed by the supplier or by the successor-in-interest hereunder shall in each instance be performed within a reasonable time.

(i) Unless the supplier otherwise agrees in writing, there shall be no operation of the service station following the death of the retail dealer by anyone, other than the supplier for its own account, until all parts of the marketing agreement have been expressly assumed as herein provided, including, but not limited to, such items as lease or leases, products agreement, loaned equipment agreement, federal and state environmental law compliance agreements, licensing, and tax permits.

(j) Following the death of a retail dealer, and prior to the operation of the service station by the successor-in-interest as herein provided, the supplier shall have the option to operate the service station by contract or otherwise for its own account without obligation or duty to the heirs or estate of the deceased dealer or to the successor-in-interest except for the obligation to account to the heirs or the estate of the deceased dealer for the inapplicable portion of any prepaid rent or other sums prepaid to the supplier, and for any physical inventory salvaged from the service station and used or sold by the supplier.

(k) If the successor-in-interest assumes the marketing agreement and there has been no intervening operation of the service station by the supplier, the successor-in-interest shall account to the heirs or estate of the deceased dealer for the value or other disposition of personal property of the dealer located at or related to the service station.

(l) The attorney general shall enforce compliance with the provisions of this section. Upon receipt of a written notice of objection with reasons therefor, as provided in paragraph (d), the successor-in-interest may bring an action against the supplier in any court of competent jurisdiction for wrongfully impeding the transfer of the marketing agreement; provided, however, that any such action must be commenced within ninety days following receipt of such notice of objection. The court, upon finding that the stated reasons for objection are arbitrary, capricious, or unreasonable, may award money damages and grant such equitable relief as it deems proper.

SECTION 2. Said subsection (c) of said section 5a of said chapter 93E, inserted by section one of this chapter, shall apply to any marketing agreement in effect on the effective date of this act or thereafter.

SECTION 3. The provisions of this act are severable and if any of its provisions shall be held unconstitutional, void or unenforceable by any court of competent jurisdiction the decision of such court shall not affect or impair any of the remaining provisions.

Approved January 2, 1985.

Without limiting the powers of the agency contained elsewhere in this chapter or in chapter forty D, in connection with any such issue of bonds, the agency may create and establish one or more special funds, hereafter referred to as "bond reserve funds", and may establish one or more costs of issuance accounts, and shall pay into each such bond reserve fund or costs of issuance account any proceeds of sale of bonds to the extent provided in the resolution authorizing the issuance of, or trust agreement securing, such bonds and any other moneys which may be available to the agency for the purpose of each such fund or account from any other source or sources. Whenever the agency issues such bonds to fund reserves or costs of issuance, it may determine whether or not the cost of funding such reserves or costs of issuance, shall be treated as a cost of the project and whether or not a financing document shall be required to provide payments to amortize principal and interest of such bonds. In any event, the expected yield on bond reserve funds may, with the approval of the agency, be taken into account in determining the sufficiency of payments required under a financing document to amortize bonds issued for costs of the project. Not withstanding the provisions of paragraphs (a) and (c) of this section, the bonds of any such issue may be issued prior to the making by the agency of the findings required to be made by the finance board in chapter forty D, provided that the agency makes such findings prior to the disbursement of the proceeds of a loan to a user. If bonds are issued in anticipation of refinancing by the issue of other bonds or by the purchase of the related financing documents and the agency determines that refinancing by one or the other of such methods is reasonably assured, such financing documents shall be sufficient if they provide for payments sufficient to amortize the principal and interest required under such refinancing and such principal and interest, if any, of the bonds first issued as will be required assuming such refinancing occurs as expected.

The office of director and any office other than director may be held by the same person. The directors shall be elected by the incorporators, initially at any time after the

effective date of this act, and annually thereafter at a time fixed by the by-laws of the corporation, which time shall be at the annual meeting of said The Co-operative Central Bank or as soon thereafter as is feasible, but any director may be removed by vote of the incorporators at any meeting thereof. The officers of the corporation other than the directors shall be elected by such directors annually at a meeting held as soon after the election of the directors as is feasible, but any officer of the corporation other than a director may be removed by vote of such directors at any meeting thereof. The directors and other officers shall hold their several offices, unless sooner removed, until others are elected and qualified in their stead. Vacancies in the number of directors occurring at any time between the annual elections may be filled by election by the incorporators in the manner provided in the by-laws of the corporation. The existence of any vacancy, however, shall not invalidate any action of the board of directors if a majority of the full number fixed by the by-laws participates in such action, or is present at a meeting at which such action is taken. Vacancies in any of the offices other than that of director occurring at any time between the annual elections may be filled by election by the directors of the corporation.

The board of directors shall have full control of the business of the corporation except as herein specifically limited. By-laws for the conduct of the business of the corporation may be adopted by the directors of the corporation subject to the approval of the incorporators and of the commissioner of banks. Such by-laws may provide for and fix the time and place of all meetings of the corporation and of the directors, define the duties of the officers, establish an executive committee of not less than three nor more than five directors with such powers while the board of directors is not in session, including the purchase and sale of securities and any or all other powers of the board of directors, as shall be therein specified, and may provide for such other officers and committees as may seem advisable.

Any action required or permitted to be taken at any meeting of the incorporators or directors may be taken without a meeting if all incorporators or all directors entitled to vote on the matter consent to the action in writing, and such consent shall be filed with the records of the meetings of incorporators or directors, as the case may be. Such consent shall be treated for all purposes as votes at a duly called and held meeting.

SECTION 3. The corporation shall have no capital stock, but the beneficial ownership of the fund shall be represented by shares of beneficial interest without par value which shall be issued from time to time by the corporation to the subscribers

thereto, and each share so issued shall be equal in every respect to every other share; provided, however, that if the directors elect to establish distinct investment funds as provided in section four, they may authorize shares to be issued in distinct classes and each class so authorized shall represent shares of beneficial interest in one distinct investment fund so established, and every share of any such class shall be equal in every respect to every other share of such class. Such shares shall not be sold to nor held by any persons other than co-operative banks, except as follows:

(a) they may be transferred and acquired by operation of law derived from the right of a co-operative bank, if such operation of law does not stem from the voluntary action of such co-operative bank, but thereafter thay shall be held subject to the provisions hereinafter specified;

(b) they may be pledged by a co-operative bank to the same extent that any other assets of a co-operative bank may be pledged, but upon foreclosure of the pledge the pledges shall hold them subject to the provisions hereinafter specified;

(c) they may be transferred by sale or pledge, or in any other manner permitted by law, by a co-operative bank to The Co-operative Central Bank, but when the transferring co-operative bank ceases to have any legal or equitable interest in the shares so transferred The Co-operative Central Bank shall hold them subject to the provisions hereinafter specified.

Whenever, as the result of a transfer of any kind described in clause (a), (b) or (c), any share is held by any person other than a co-operative bank, the following procedure shall apply unless the board of directors or executive committee of the corporation in the exercise of sound discretion shall determine that by reason of extraordinary conditions such procedure would be injurious to the fund or unfair to some or all of the other shareholders, and shall pass a vote reciting such determination and postponing the application of such procedure for a specified time:- No dividend shall be paid on such share after thirty days from the date, if known to the corporation, when the condition specified in any of said clause (a), (b) or (c) for the application of these provisions take effect, and the corporation shall offer to repurchase, and upon acceptance of the offer shall repurchase, any share so held at the net asset value on the date of repurchase if such repurchase occurs within said thirty days. If such repurchase does not occur within said thirty days said share shall thereafter be repurchased only at the net asset value as last determined during said thirty days, less any dividends paid thereon after said thirty days. Upon receiving notice that any share is so held by any person other than a co-operative bank, and upon expiration of said thirty days without repurchase, the corporation shall cause to be set aside sufficient

funds to repurchase it as provided herein. Shares of the corporation shall be issued and sold by, or under the direction of, the board of directors of the corporation in such amounts and at such times as the directors shall determine, subject to any restrictions imposed in the by-laws; provided, that whenever any shares, except so many shares first sold out of the initial issue as will be sufficient to net a total of not more than one million two hundred fifty thousand dollars, which shares may be sold at private sale free from any requirement as to offering, are issued for sale, they shall be sold only by offering them to each co-operative bank, and thereafter, if the issue is oversubscribed, by allotment among the applicants by the directors in such manner as they see fit, subject to any provisions of the by-laws. Any co-operative bank may purchase shares from another holder, and any holder of shares may sell them to any co-operative bank, at any time, subject to any restrictions imposed by general laws or otherwise. The initial sale of shares by the corporation shall be at a price which will net the corporation, before paying any taxes in connection with such issuance or sale, at least one thousand dollars per share, and thereafter shares, except shares of which the repurchase price has become fixed after thirty days as provided in this section, shall be sold and repurchased by the corporation only at prices equal to the net asset value of the shares outstanding, such net asset value to be determined in the manner provided in section five and as of a time as near as is feasible to, but in no event more than ten days before or after, the date of offering or sale, or the date of repurchase, as the case may be. Subject to the foregoing provisions, the corporation may repurchase shares at any time on such terms and subject to such restrictions as may be provided in the by-laws, but such shares shall be cancelled and shall not be resold. All obligations incurred in the conduct of the business shall be charged against the fund, and the directors shall in their discretion determine what items shall be charged or credited to principal and income, respectively, all as they shall deem to be in accordance with sound accounting practice.

For purposes of this section, the term "co-operative bank" shall include any savings bank incorporated as such in the commonwealth and subject to the provisions of chapter one hundred and sixty-eight of the General Laws.

SECTION 4. The board of directors shall have authority from time to time to invest the funds of the corporation, and the corporation shall have powers in that respect, subject to the limitations hereafter stated, as follows:

(a) to make and acquire such loans secured by mortgages on real property situated within the limits of the commonwealth as

the federal housing administrator insures, or issues a commitment to insure and to obtain such insurance to collect and apply payments due upon and otherwise to service any such mortgage loan originated or acquired by it and with respect to any such mortgage loan to make agreements with any mortgages approved by the federal housing administrator to collect and apply payments due upon and otherwise to service or contract for the servicing of any such mortgage loan; and to exercise any powers and to do any and all things, including the acquisition, by foreclosure or otherwise, and holding, of real estate and its sale or other disposal, incidental or necessary to give effect to this authority;

(d) in any shares of common stock or preferred stock, provided that (1) any such common stock is registered on a national securities exchange, as provided in the Securities Exchange Act of 1934, 15 USC 78 and (2) any such preferred stock, or the common stock of the corporation issuing or having issued such preferred stock, is so registered;

(e) in any shares of common stock or preferred stock, other than those registered on a national securities exchange, for which quotations are available through publications of The National Quotation Bureau, Inc. or any comparable service, or through a national securities market established in conformance with section eleven A of the Securities Exchange Act of 1934, 15 USC 78 (K-1);

(f) the authority granted in clauses (a) to (e), inclusive, shall be subject to the following limitations:

(i) the corporation shall not purchase the stock or obligations of any one issuer or obligor if such purchase at the time thereof would cause more than five per cent of the corporation's assets to be invested in such stock or obligations. The limitations in

the preceding sentence shall not apply to purchases of the following:

(1) direct obligations of the United States;

(2) obligations unconditionally guaranteed as to the payment of principal and interest by the United States;

(ii) the corporation shall not purchase any shares of common stock or preferred stock pursuant to clause (e) if such purchase at the time thereof would cause more than ten per cent of the corporation's assets to be invested in such shares or obligations;

(iii) all investments authorized under this section shall be made in the exercise of the judgment and care under the circumstances then prevailing, which men of prudence, discretion and intelligence exercise in the management of their own affairs, not in regard to speculation, but in regard to the permanent disposition of their funds, considering the probable income as well as the probable safety to their capital;

(iv) the corporation shall not invest in securities of corporations, associations or trusts which are not organized pursuant to the laws of the United States or any state, territory, possession or political subdivision of the United States without the approval of the commissioner of banks;

SECTION 5. The asset value of each share of each class of shares of the corporation, except shares on which the repurchase price has become fixed after thirty days as provided in section three, shall be determined by the board of directors at stated intervals, not less often than once a month, as may be provided in the by-laws, and at such other times as any holder of a share or shares shall, by a separate writing on each occasion, request. The power and duty to determine asset value may be delegated by the board of directors from time to time to any two or more of the officers and directors of the corporation, or to any custodian appointed pursuant to this act. In each case the asset value shall remain effective until a new asset value has been determined and become effective. The by-laws may provide rules for the determination of such asset value, including a specification of items which are to be considered assets and liabilities respectively, and the time and manner of their valuation.

SECTION 6. The corporation shall at all times employ a national bank located in the commonwealth, or any bank organized and existing under the laws of, and located in, the commonwealth and exercising trust powers as custodian, with authority as its agent, but subject to such restrictions, limitations and other requirements, if any, as may be contained in the by-laws of the corporation, to hold the securities owned by the corporation and deliver them upon written order; to receive and receipt for any moneys of or due to the corporation and deposit them in its own banking department, or with another bank or trust company as above described, as the board of directors may direct; and to disburse such funds upon orders or vouchers; and the corporation may also employ such custodian as its agent to keep the books and accounts of the corporation and furnish clerical and accounting service, and to compute the asset value of the shares of the corporation in accordance with the provi-

SECTION 7. The board of directors may in their discretion from time to time enter into one or more investment advisory or management contract whereby the other party to any such contract shall undertake to furnish to the board of directors such investment advisory, statistical and research facilities and services with respect to any one or more distinct investment funds and such other facilities and services, if any, and all upon such terms and conditions, as the directors may in their discretion determine; provided, however, that such contract has been approved by the incorporators and (1) precisely prescribes all compensation to be paid thereunder; (2) shall continue in effect for a period more than two years from the date of its execution only so long as such continuance is specifically approved at least annually by the board of directors; (3) provides, in substance, that it may be terminated at any time, without the payment of any penalty, by the board of directors or the incorporators on not more than sixty days' written notice to the investment adviser; and (4) provides, in substance, for its automatic termination in the event of its assignment by the investment adviser; and provided, further, that no such contract or contracts shall empower any one investment adviser to advise or control the disposition of any fund or combination of funds amounting in the aggregate to more than one-half of one per cent of the total of all deposits of co-operative banks, as determined by the board of directors or the incorporators at the time any such contract is approved.

SECTION 8. The board of directors may from time to time declare and pay dividends with respect to shares of any class of shares of the corporation, and, subject to the limitations contained in this section and in section three, the amount of such dividends and the payment of them shall be wholly in the discretion of the board of directors. The directors in declaring a dividend may fix a record date not earlier than the date of declaration as of which the shareholders entitled to receive such dividend shall be determined, notwithstanding any transfer or the repurchase or issuance of any shares occurring after such record date. Ordinary dividends shall be paid only out of undistributed net income which may include accumulations from prior years. To this account shall be credited the gross earnings of the corporation, including all interest income, but excluding all capital gains whether realized or unrealized, and against this account shall be charged all current expenses and taxes, except taxes allocated to capital gains, but excluding all capital losses whether realized or unrealized. Other adjustments

if any shall be made as the board of directors shall deem to be in accordance with good accounting practice.

Dividends may also be paid out of net realized capital gains, to the date of declaration, of the year in which the dividend is paid, or out of any excess or undistributed net realized capital gains of previous years over any net realized capital losses of the current year to date of declaration; but the shareholder shall be informed, at or before the time of payment thereof, that such dividends are paid from the foregoing sources.

Inasmuch as the computation of net income and capital gains for federal income tax purposes may vary from the computation thereof on the books, the above provisions shall be interpreted to give the directors the power in their discretion to distribute in any year as dividends, including capital gain dividends, amounts sufficient to enable the corporation as a regulated investment company to avoid any liability for federal income tax in respect of that year. The directors shall be entitled to rely upon estimates made in the last two months of the year as to the amounts of distributions necessary for this purpose.

Dividends may also be declared out of any available net assets of the fund, but any dividends declared except as provided in the preceding paragraphs of this section shall be deemed liquidating dividends and the shareholders shall be so informed.

SECTION 9. The board of directors shall at least semi-annually submit to the shareholders and the commissioner of banks, a written financial report of the corporation, including financial statements which shall at least annually be certified by independent public accountants. Such reports shall also show all the securities bought and sold during the period covered by the report. Any shareholder shall have the right to inspect the books and records of the corporation at such times within business hours, and in such manner, as may be reasonable. The corporation shall be subject to the supervision of the commissioner of banks within the meaning of section one of chapter one hundred and sixty-seven of the General Laws.

The deputy commissioner will reserve five per cent of the estimated construction cost of each capital facility project for minority-owned businesses, and five per cent for women-owned business, except as follows:-

(1) A greater percentage may be reserved to reflect the percentage of the minority population within the standard metropolitan statistical or labor market area in which the capital facility is located; to reflect the numbers of minority-owned and women-owned businesses available to perform work on a project; or to achieve the specific annual dollar value reserved for minority-owned or women-owned businesses.

(2) If because of the size, nature, or location of a particular capital facility project, it is not feasible to reserve a minimum of five per cent for a minority-owned or women-owned business,

the division may either reserve a lesser portion of work for minority-owned or women-owned businesses or waive the participation requirements on that particular project.

SOMBA may hold any project for up to thirty days for review, before bid specifications are made public, if it believes that the size, nature, or location of the project does not justify a reduction in the women or minority business set-aside below five per cent.

No portion of contracting or subcontraction work reserved for minority-owned businesses under the provisions of this section shall be awarded to any women-owned business not meeting the requirements of a minority-owned business under this section; nor shall any portion of contracting and subcontracting work reserved for women-owned businesses under the provisions of this section be awarded to any minority-owned business not meeting the requirements of a women-owned business under this section.

The deputy commissioner with the cooperation and approval of SOMBA shall develop the contract specifications, terms, conditions, and language and shall take the administrative steps necessary to carry out the purpose of this section. SOMBA shall be responsible for establishing and updating, by periodic additions and deletion, a list of minority-owned and women-owned businesses under this section, and shall cause the list to be published in the central register established by section twenty of chapter nine, and filed with the joint committee on state administration, and in such other publications as the deputy commissioner shall designate.

The deputy commissioner shall by March fifteenth of each year submit to SOMBA, the commissioner of administration, the state commission against discrimination, the joint committee on state administration, and the general court a report describing the number of contracts and subcontracts awarded by the division of capital planning and operations to minority-owned and women-owned businesses within the preceding calendar year. The report shall, at a minimum, show the name and address of each such business, its designation as a minority-owned or women-owned business, the contract, or subcontract price, a description of the work performed of such contract by class of work and project type, and shall show separately the total number of contracts awarded to minority-owned and women-owned businesses as a percentage of the total number of contracts awarded and as a percentage of the total contract price.

SECTION 12. Said chapter 7 is hereby further amended by striking out section 40D, as so appearing, and inserting in place thereof the following section:-

At the discretion of the deputy commissioner, said reports may exclude capital facility projects with a total project cost of less than twenty-five thousand dollars for which the administering agency is other than a state agency. Said report shall include, but not be limited to, a statement of the name of each project, the administering agency and the using agency, a brief current description of the project and any substantial changes in the description of the project during the past three months, the source of funds, the state of progress of the project, a summary of the total and major costs of the projects as originally estimated and as currently expended or currently estimated to be expended, the original project schedule and the current and estimated progress of the project, and such other information as the deputy commissioner may require be included. At the discretion of the deputy commissioner, said annual report need not include capital facility projects with a total project cost of less than twenty-five thousand dollars for which the administering agency is other than a state agency. Said annual report shall constitute one of the four reports required by the previous paragraph of this section but shall contain in addition to the information required in the previous paragraph for each capital facility project, the following data: the authorizations for and sources of funds and expenditure and unencumbered balances thereof; identification of the designers and contractors who have contracted with the administering agency to provide materials or services therefor, the administering agency's project and contract numbers, the value of the contracts and the amount of money paid in accordance with the contracts; and such other information as the deputy commissioner may require be included. The deputy commissioner shall also include in his/her report a statement of the problems which have arisen in the capital facility procurement programs and procedures of public agencies and his/her specific recommendations for administrative and legislative action which in his/her view are necessary to remedy such problems. Said report shall be submitted to the commissioner of administration and the general court and shall be a public document available for general distribution.

The deputy commissioner shall by February fifteenth of each year prepare a comprehensive report including but not limited to, an analysis of the utilization, cost and method of acquisition of real property acquired for the use of state agencies; the sale or rental of such real property and revenue realized therefrom; and problems which have arisen in the management of real property by the commonwealth, with specific recommendations for administrative and legislative action which in his/her view are necessary to remedy such problems. Said report shall be submitted to the commissioner of administration, the joint committee on state administration, and the general court and shall be a public document available for general distribution.

The deputy commissioner shall develop and annually revise a proposed capital repair and maintenance plan for state buildings subject to the jurisdiction of the division of capital planning and operations. The plan shall be based upon repair and maintenance schedules formulated for each building and group of buildings by the director of facilities management in accordance with the provisions of sections forty-three A, forty-three C, and forty-three E. In addition to developing capital repair and maintenance schedules for state buildings, the plan shall analyze the costs and benefits of continuing minor repairs versus the costs and benefits of major renovation, rehabilitation, or replacement of the state buildings. The deputy commissioner shall by February fifteenth of each year, submit the proposed capital repair and maintenance plan required by this paragraph to the house and senate ways and means committees and the chairmen of the joint committee on state administration.

The deputy commissioner shall keep an up-to-date record, by years and cumulatively, on all capital repair and maintenance projects completed, in process, or scheduled for the future, on all building projects subject to the jurisdiction of the division of capital planning and operations.

The deputy commissioner shall, by February fifteenth of each year, prepare a report, by years and cumulatively, on all capital repair and maintenance projects completed, in process, or scheduled for the future, on all capital facility projects, said report shall include narrative statements indicating why such repairs or maintenance on such projects have been or will be postponed or cancelled. A copy of said report shall be sent to the house and senate committees on ways and means, and to the chairmen of the joint committee on state administration.

The governor may, include in his capital outlay budget or request, a budget narrative statement, indicating why any and all repairs or maintenance on capital facility projects of the commonwealth, have been or will be postponed or cancelled.

In subsequent fiscal years for which the maintenance report indicates that maintenance will be required, the agency responsible for the operation and maintenance of the building shall include the projected annual maintenance costs contained in the report in its annual budget request, provided that revisions to the maintenance costs originally projected by the deputy commissioner shall be addressed in the agency's budget narrative.

The deputy commissioner shall be responsible for providing state agencies with comprehensive maintenance manuals for all new building projects constructed on behalf of an agency.

SECTION 13. Section 40E of said chapter 7, as amended by section 6 of chapter 189 of the acts of 1984, is hereby further amended by inserting before the first paragraph the following paragraph:-

Real property, record title to which is held in the name of a state agency or the board of trustees of a state agency or similar board of a state agency, shall be deemed to be real property of the commonwealth. No deed or other instrument shall be required to effect the transfer to the commonwealth of title to such real property, but the land court department of the trial court shall, upon petition of the division of capital planning and operations, issue in the name of the commonwealth a certificate of title to any real property, title to which is registered under chapter one hundred and eighty-five in the name of a state agency or the board of trustees of a state agency or similar board of a state agency.

SECTION 14. The first paragraph of said section 40E of said chapter 7, as appearing in said section 6 of said chapter 189, is hereby amended by striking out the last two sentences and inserting in place thereof the following two sentences:- The deputy commissioner may delegate to state agencies responsibility for the acquisition, control, and disposition of real property as provided for in this chapter; except that the deputy commissioner may not delegate responsibility for determining that property is surplus to state needs as required in section forty F. When responsibility is delegated to a state agency, the written approval of the deputy commissioner shall be required before the transaction is completed, and a copy of said written approval shall be sent to the joint committee on state administration.

SECTION 15. Said section 40E of said chapter 7, as so appearing, is hereby further amended by striking out the second paragraph.

SECTION 16. Said chapter 7 is hereby further amended by striking out section 40F, as amended by section 15 of chapter 636 of the acts of 1983, and inserting in place thereof the following section:-

Section 40F. The deputy commissioner of capital planning and operations shall be responsible for the acquisition, control and disposition of real property in the manner and to the extent provided in this chapter. The deputy commissioner may delegate such responsibility to an administrator, who has ten years of experience in the management of commercial, industrial, institutional or public real property. When responsibility is delegated to an administrator the written approval of the deputy commissioner shall be required before such transaction is finalized.

The deputy commissioner shall acquire interest in real property on behalf of the commonwealth for the use of state agencies by gift, purchase, devise, grant, eminent domain, rental, lease, rental-purchase or otherwise.

In acquiring buildings for the use of state agencies, first consideration shall be given to any structures that have been certified as historic landmarks as provided by sections twenty-six through twenty-seven C inclusive of chapter nine, that have been listed in the National Register of Historic Places as provided by 16 U.S.C. section 470a (1974) or that have been designated historic landmarks by local historic commissions, unless use of such buildings would not be feasible in terms of costs and requirements when compared with other available properties.

Notwithstanding any laws to the contrary, real property acquired for the use of state agencies shall be held in the name of the commonwealth.

The deputy commisioner shall assist in the preparation and shall approve of plans for the organization of all space within and around buildings and appurtenant structures used by state agencies, and shall assign the use of space within and around the state house, in accordance with the provisions of sections ten, sixteen A and seventeen of chapter eight the John W. McCormack State Office Building; the Leverett Saltonstall State Office Building; the Springfield Office Building; the Pittsfield Office Building; the Erich Lindemann Building; the Charles F. Hurley Building; any real property acquired for the use of state agencies, the greater part of which is not needed by any one state agency; and any other real property assigned by law to the division of capital planning and operations.

The deputy commissioner, with the written approval of the commissioner of administration, may transfer use of, and responsibility for maintenance of, buildings, including equipment

therein, within or between state agencies. No such transfer within or between state agencies which involves either a change in the purposes for which such building is currently used or a change in use in excess of fifty per cent of the usable floor space, shall be made without the prior approval of the general court. Any such transfer shall be based on a determination, made by the deputy commissioner with the advice of the executive heads of affected agencies and secretaries of the executive offices in which such agencies are located, that such property is not needed, is under utilized, or is not being put to optimum use under current conditions. The deputy commissioner shall notify the house and senate committees on ways and means and the representatives to the general court from the city or town in which such real property is located not less than thirty days prior to the final authorization of any transfer which does not require the approval of the general court, and such transfer shall only be made when the general court is in session except as provided hereafter. Such transfer may be made when the general court is not in session, and the thirty day notification requirement may be waived, only if the deputy commissioner certifies in writing that an emergency exists; provided that, any such transfer may be authorized for a period not to exceed six months, and provided further, that the deputy commissioner shall submit his/her certification to and notify the house and senate ways and means committees of such transfer at the earliest possible opportunity.

The deputy commissioner may, after notification to and with the advice of the executive heads of state agencies and secretaries of the executive offices, determine that real property is not needed for the use of any state agency. If he determines that such property is surplus to both the current and foreseeable needs of state agencies, the deputy commissioner shall determine whether any other public agency has a current or foreseeable direct public use for the property. For the purposes of determining whether property is surplus to direct public use, direct public use is defined in this section as use of property for a public agency's own operations, but does not include conveyance by such agency of any interest in the property to another party, but does include lease of the property by local housing authorities to public housing tenants.

When property is determined to be surplus, to either current state or current direct public uses, but not to foreseeable state or foreseeable direct public uses, the deputy commissioner shall take such action as is necessary to ensure that any disposition of the property is temporary and maintains the deputy commissioner's ability to make such property available to a state agency or other public agency at such time as it is needed.

If the deputy commissioner determines that the property is not needed for current or foreseeable state or direct public use as

defined above and that the property should be disposed of, he shall declare that the property is available for disposition and shall identify restrictions, if any, on the property's use and development necessary to comply with established state and local plans and policies, and he shall send written notification of such to the house and senate committees on ways and means, and the joint committee on state administration.

The deputy commissioner may convene an advisory committee to advise him on reuses and to recommend reuse restrictions for property declared surplus. If an advisory committee is convened, the deputy commissioner shall invite the representatives to the general court from the city or town in which the property is located to serve on the committee. The deputy commissioner shall prepare a preliminary report on his findings, which shall include both his recommendation, and those of the advisory committee if established, for reuse restrictions for the property.

The deputy commissioner shall conduct a public hearing to consider potential reuses and reuse restrictions for the surplus property and to review the deputy commissioner's preliminary report if the property exceeds two acres or if the deputy commissioner determines that a hearing should be held for a smaller parcel. If he determines to conduct a hearing, the deputy commissioner shall provide notice in the central register of the public hearing at least sixty days prior to (1) notification to the house and senate committees on ways and means and the joint committee on state administration, of a temporary disposition of property to a public agency for less than five years for a direct public use, or (2) submission of a request to the general court for authority to otherwise dispose of real property as provided in this section. A notice of the public hearing shall also be placed, at least once each week for the four consecutive weeks preceding the hearing, in newspapers with sufficient circulation to inform the people of the affected locality. The hearing shall be held in the locality in which the property is located no sooner than thirty days and no later than thirty-five days after the notice is published in the central register.

The deputy commissioner may, with the written approval of the commissioner, enter into agreements for the direct public use of surplus real property by public agencies other than state agencies, for a term not to exceed five years. Such agreement shall prohibit subsequent conveyance of interest in the property by the public agency to another party. The deputy commissioner shall notify the house and senate committees on ways and means and the joint committee on state administration thirty days prior to the final authorization of any such agreement. The notification shall include the deputy commissioner's report on recommended reuse restrictions. In no event shall any such agreement be made when the general court is not in session.

The deputy commissioner shall establish the value of surplus

property through procedures customarily accepted by the appraising profession as valid for determining property value. The value shall be calculated both for: (1) the highest and best use of the property as currently encumbered; and (2) uses and encumbrances defined by the deputy commissioner.

The deputy commissioner may, with the approval of the commissioner, request from the general court authorization to dispose of state real property determined to be surplus to state agency needs: (1) to public agencies of the commonwealth other than state agencies for direct public uses, over a period exceeding five years, (2) to a public agency of the commonwealth other than a state agency, for uses other than direct public uses, and (3) to an individual, entity, or the federal government; or any extension of any agreement for such use beyond a cumulative period of five years. Accompanying his request for authorization to dispose of property, the deputy commissioner shall submit his report including a description of the property, its current use, structures, and approximate metes and bounds, the value of the property and recommended restrictions, if any, on reuses of the property. The deputy commissioner shall also request authorization to negotiate real property disposition agreements with parties to be selected by the deputy commissioner after he evaluates competitive proposals. Disposition agreements subsequently negotiated by the deputy commissioner shall be consistent with the reuse restrictions approved by the general court.

Notwithstanding the provisions of this section, leases for agricultural purposes on land owned by the commonwealth shall be made for a term of not more than five years, and the renewal date for such leases shall not be less than one year prior to the end of the lease period. Holders of such leases shall be given the opportunity to renew such leases for a consideration equal to the current lease amount plus an escalation amount to be established annually by the deputy commissioner for application to all such leases.

The deputy commissioner shall monitor compliance with disposition agreements.

The deputy commissioner shall develop regulations governing the conditions under which he will recommend to the general court that a public agency, including but not limited to the government land bank, receive title to surplus property for other than direct public use.

For bills which authorize the sale, transfer, or other disposition of any state-owned real property filed by persons other than the deputy commissioner of capital planning and operations, the clerk of the house of representatives and the clerk of the senate shall, within ten days of the filing, forward a copy of said bill to the deputy commissioner. Within ninety days of the receipt of said copy, the deputy commissioner shall submit in writing a report to the commissioner of administration, the

legislative committee before which the bill is pending, and the joint committee on state administration together with a recommendation for either the approval or the disapproval of the bill and his reasons therefor.

If the deputy commissioner is recommending the approval of a bill proposing the disposition of a parcel exceeding two acres, said report shall include: (1) a description of the property including its current use, structures, and approximate metes and bounds; (2) the value of the property, determined through procedures customarily accepted by the appraising profession as valid for such purposes, calculated both for (a) the highest and best use of the property as currently encumbered and (b) uses and encumbrances that would be imposed by the bill if enacted; (3) all current and foreseeable direct public uses identified by following the division's procedures for such purposes as they apply to the property to be disposed (4) other potential public and private uses of the property; and (5) any other information the general court may require.

The deputy commissioner shall expeditiously review and recommend approval or disapproval of any proposal to the general court for the sale, rental or other disposition of real property acquired on behalf of state agencies, and shall dispose of real property as mandated by the general court. All legislation submitted to the general court by the division of capital planning and operations requesting authorization to convey or transfer real property under its jurisdiction shall be accompanied by a full report outlining the division's reasons for pursuing said conveyance or transfer.

SECTION 17. Said chapter 7 is hereby further amended by inserting after section 40F the following section:-

Section 40F1/2. (a) When authorized by the general court to sell, rent or otherwise dispose of real property, the deputy commissioner shall proceed in accordance with the provisions of this section, provided that any action or determination required hereunder which the deputy commissioner has undertaken within eighteen months prior to enactment of the authorization to dispose of the property need not be repeated if the deputy commissioner (1) files, as provided in subsection (b), a report fully describing such action or determination, a copy of which shall be sent to the clerks of the senate and the house of representatives, and the joint committee on state administration, and (2) certifies under penalties of perjury that such report is accurate and that the action or determination described therein was undertaken within eighteen months prior to the date of enactment of the authorization to dispose of the property.

The deputy commissioner shall, after notification to and with the advice of the executive heads of state agencies and secretaries of the executive offices, determine whether such property

is surplus to both current and foreseeable needs of state agencies. If the deputy commissioner determines that the property is not surplus to either current or foreseeable needs of state agencies, he shall make no disposition that is inconsistent with such determination.

If the deputy commissioner determines that such property is surplus to both the current and foreseeable needs of state agencies, he shall provide written notice, for each city or town in which the property is located, to the city manager in the case of a city under Plan E form of government, the mayor and city council in the case of all other cities, the chairman of the board of selectmen in the case of a town, the county commissioners, the regional planning agency, and the members of the general court. The deputy commissioner shall set forth in such notice a description of the property; a declaration that the property is surplus to the needs of state agencies and that subject to the approval of the deputy commissioner the property is available to any other public agency for a direct public use; and a statement that, if so requested by any public official or body entitled under this section to receive such notice, a public hearing will be conducted in the city or town where such property is located, to assist the deputy commissioner in determining whether any other public agency has a current or foreseeable direct public use for the property. Following such hearing, if any, but in no event earlier than thirty days following the notice, the deputy commissioner shall determine whether any other public agency has a current or foreseeable direct public use for the property. If he determines that the property is not surplus to either current or foreseeable direct public uses of public agencies, he shall make no disposition that is inconsistent with such determination.

When the property is determined to be surplus to either current state or current direct public uses, but not to foreseeable state or foreseeable direct public uses, the deputy commissioner shall take such action as is necessary to ensure that any disposition of the property is temporary and maintains the deputy commissioner's ability to make such property available to a state agency or other public agency at such time as it is needed.

If the deputy commissioner determines that the property is surplus to both current and foreseeable direct public uses of public agencies, he may dispose of the property to a public agency for other than direct public use, or to an individual or entity, provided that any such disposition shall be subject to the provisions of section forty H.

If the deputy commissioner determines that the property is not needed for current or foreseeable state or direct public use and that the property should be disposed of, either temporarily or permanently, he shall declare that the property is available for disposition and shall determine appropriate reuse restrictions.

The deputy commissioner shall ensure that any rental agreement, and in the case of a conveyance a deed or separate disposition agreement as deemed appropriate by the deputy commissioner, shall set forth all such reuse restrictions; shall provide for effective remedies on behalf of the commonwealth, including if deemed appropriate by the deputy commissioner that title to the property, or such lesser interest as is the subject of the disposition agreement, shall revert to the commonwealth in the event of a violation of any such reuse restriction; and shall provide, in the case of a disposition to a public agency for a direct public use, that the title to the property, or such lesser interest as is the subject of the disposition agreement, shall revert to the commonwealth in the event the property is no longer utilized for such direct public use.

In determining reuse restrictions, the deputy commissioner shall conform to all such restrictions pertaining to the property which may have been mandated by the general court, and may adopt additional restrictions, taking account of established state and local plans and policies. The deputy commissioner shall conduct a public hearing to consider reuse restrictions if the property exceeds two acres or if the deputy commissioner determines that a hearing should be held for a smaller parcel. Notice of the public hearing shall be placed at least once each week for four consecutive weeks preceding the hearing, in newspapers with sufficient circulation to inform the people of the affected locality. The hearing shall be held in the locality in which the property is located no sooner than thirty days and no later than thirty-five days after notice thereof is published in the central register.

The deputy commissioner shall establish the value of the property, through procedures customarily accepted by the appraising profession as valid for determining property value, for both the highest and best use of the property as currently encumbered and under the reuse restrictions as determined pursuant to this section.

No agreement for the rental or other disposition of state-owned real property, and no deed, executed by or on behalf of the commonwealth, shall be valid unless such agreement or deed contains the following declaration, signed by the deputy commisioner:

> The undersigned certifies under penalties of perjury that I have fully complied with the provisions of Section 40F1/2 of Chapter 7 of the General Laws in connection with the property described herein.

(b) The deputy commissioner shall maintain, for a period of at

least six years next following enactment of an authorization by the general court to dispose of real property, a file containing a copy of each document necessary to establish fulfillment of the requirements of subsection (a). Such file shall be open to public inspection.

SECTION 18. Said chapter 7 is hereby further amended by striking out section 40H, as amended by section 7 of chapter 189 of the acts of 1984, and inserting in place thereof the following section:-

Section 40H. At least thirty days before opening proposals for the acquisition by purchase or rental of real property for the use of state agencies from an individual or entity, or for the sale or rental of real property used by state agencies (1) to a public agency other than a state agency for other than a direct public use, or (2) to an individual or entity, the deputy commissioner of capital planning and operations shall advertise in the central register published by the state secretary pursuant to section twenty of chapter nine stating therein the need for or availability of such property, and inviting submission of such proposals. The advertisement shall specify the geographical area, terms and requirements of the proposed transaction, and shall state the time and place for the submission of such proposals and for the opening thereof. In case of the rental or sale of over two thousand five hundred square feet of real property, such advertisement shall also be placed at least once each week for four consecutive weeks in newspapers with a circulation sufficient to inform the people of the affected locality. The last publication shall occur at least eight days preceding the day for opening proposals.

The advertising requirement may be shortened or waived if (1) the deputy commissioner certifies in writing that an emergency exists, a copy of such written certification shall be sent to the joint committee on state administration, provided that every reasonable effort be made to seek competitive proposals, and provided that the deputy commissioner shall disclose his reasons for declaring the emergency in the central register at the earliest opportunity; or (2) in the case of a proposed acquisition, if the deputy commissioner determines that such advertising will not be beneficial to the commonwealth's interest because of the unique qualities or location of the property needed, provided that the deputy commissioner shall set forth in writing his reasons for such determination, relating such unique requirements to the property proposed to be acquired, and that such determination and the reasons therefor shall be published in the central register not less than thirty days before any binding agreement to acquire such property is executed, together with the name of the parties having a beneficial interest in the property pursuant to section forty J, the location and

size of the property, and the proposed purchase price or rental terms.

Compliance with the foregoing provisions pertaining to advertising shall be a condition precedent to the validity of any deed or rental agreement executed by or on behalf of the commonwealth.

The deputy commissioner shall also place notification in the central register of the individual or firm selected as party to any such real property transaction, and the amount of such transaction. In no instance in which the state retains responsibility for maintenance of the property shall the terms provide for payment of less than the maintenance costs. If the deputy commissioner decides to dispose of the property at a price less than any of its values established pursuant to the provisions of section forty F one-half, the deputy commissioner shall include a justification for such decision in the notice and shall disclose the difference between the calculated value and the price received.

After the execution of a rental or sale agreement completing such transaction, all proposals relating thereto shall be retained by the deputy commissioner and shall be open to inspection by the public until the expiration of such agreement or six months from the date thereof, whichever occurs first, and may thereafter be destroyed by him/her.

SECTION 19. Said chapter 7 is hereby further amended by striking out section 40I, as appearing in section 12 of chapter 579 of the acts of 1980, and inserting in place thereof the following section:-

Such one hundred and twenty day notification requirement may be shortened if: (1) the public officials referred to above agree to reduce the one hundred and twenty day period upon the request of the deputy commissioner; or (2) the deputy commissioner certifies in writing that an emergency exists, provided that deputy commissioner shall submit his/her certification to and notify the appropriate local officials of any such transaction at the first possible opportunity. The notice shall include a statement of the present use, the reason for the proposed action, and the proposed use of the property. The deputy commissioner shall at least sixty days

prior to any such purchase, sale, rental, lease, transfer, or significant change in use of one or more acres of real property, cause a public hearing to be held, after giving timely notice, in the city or town where such real property is located for the purpose of disclosing the conditions or reasons for the proposed action.

The update form shall provide space for information regarding all projects completed by the bidder since the date of certification of eligibility, all projects which the bidder currently has under contract including the percentage of work on such projects not completed, the names and qualifications of the personnel who will have supervisory responsibility for the performance of the contract, any significant changes in the bidder's financial position of business organization since the date of certification of eligibility, and such other relevant information as the deputy commissioner shall prescribe. Any bid submitted without the appropriate certificate and update statement shall be invalid.

(b) The applicant shall certify under penalties of perjury at the conclusion of the application to bid that there have been no substantial changes in his/her financial position or business organization other than those changes noted within the application since the applicant's most recent prequalification statement and that the bid to be made will be in all respects bonafide, fair and made without collusion or fraud with any other person. "Person" here means any natural person, joint venture, partnership, corporation or other business or legal entity which sells materials, equipment or supplies used in or for, or engages in the performance of, the same or similar construction, reconstruction, installation, demolition, maintenance or repair work or any part thereof.

The information contained in the application shall be current at the time of filing; provided, however, that the statement of financial condition shall pertain to the applicant's most recent, completed fiscal year. Any materially false statement in the application or update statement may, in the discretion of the awarding authority, result in termination of any contract awarded the applicant by the awarding authority, and shall constitute cause for debarring the applicant from future public work as provided in section forty-four C. Applications and evaluations shall not be public records as defined in section seven of chapter four and shall not be open to the public inspection.

(3) The division of capital planning and operations shall evaluate every applicant on the basis of the application and on relevant past performance according to procedures and criteria which the deputy commissioner shall prescribe by regulations or guidelines. The regulations and guidelines shall provide that, to the extent possible, the criteria considered shall be assigned separate designated numerical values and weights, and the applicant shall be assigned an overall numerical rating

on the basis of all criteria. The applicant shall indicate among categories established by the deputy commissioner the classes of work and aggregate amount of work for which certification is sought. The division of capital planning and operations shall issue a certificate as warranted by the evaluation which shall be effective for one year from the date issued, showing the classes of work and aggregate amount of work on which the applicant is eligible to bid.

(4) The division of capital planning and operations shall promptly notify an applicant of its preliminary determination regarding the conditions of the certification, or a denial of certification, or of decertification pursuant to this section, and the reasons therefor. An applicant aggrieved by the division's preliminary determination may, within five business days of receipt of notice, request copies of the information upon which the division relied in making its preliminary determination. Within ten business days of receipt of notice, the applicant may submit further information to the division with a request for reconsideration. The division shall issue a final determination regarding an application for certification within thirty business days from the date of its preliminary determination, unless the applicant and the division agree to extend the thirty day period.

Any applicant aggrieved by the final determination of the division may appeal in writing to the commissioner of labor and industries within five business days of receipt of final notice thereof. Within thirty calendar days of such appeal, the commissioner shall investigate the matter and issue a written decision. The commissioner may institute and prosecute proceedings in the superior court to enforce the provisions of this section on the same terms as set forth in section forty-four H. Following such decision by the commissioner, or failure to render a decision within the thirty-day period, either the division or the applicant may seek remedies at law.

(5) The deputy commissioner may, upon receipt of additional information regarding a contractor's qualifications, decertify a contractor during the period for which the contractor was prequalified. Upon such a decision, the deputy commissioner shall follow the procedures established by this section.

(6) In determining who is the lowest responsible and eligible bidder as required in paragraph (2) of section forty-four A, the awarding authority shall consider the information submitted by the bidder in the update statement. If the awarding authority determines that the low bidder is not responsible and eligible, the awarding authority shall reject the bidder and evaluate the next low bidder in accordance with this section; the awarding authority shall give notice of such action to the division of capital planning and operations.

(7) The division of capital planning and operations shall develop a standard contractor evaluation form that shall be

completed by every public agency, upon completion of a building project under its control, and submitted to the division for the contractor's qualification file. The official from the public agency, or the architect or engineer responsible for the oversight of the building construction contract, shall certify that the information contained on the contractor evaluation form represents, to the best of his knowledge, a true analysis of the contractor's performance record on that contract. The public agency shall mail a copy of the contractor evaluation form to the contractor and the contractor may, within thirty days, submit a written response to the division disputing any information contained in the evaluation form. The division shall attach any such response to the evaluation form for inclusion in the contractor's qualification file.

(8) The provisions of this section do not apply to sub-bidders.

(9) The deputy commissioner may issue such rules, regulations, orders, guidelines and policies as deemed necessary or expedient to effectuate the purposes of this section.

If a sub-trade for which the awarding authority is required to take filed sub-bids constitutes the predominant work of the

The awarding authority shall award the general contract to the lowest responsible and eligible bidder who customarily performs that sub-trade with employees on his own payroll who are mechanics or laborers as referred to in said section twenty-six, except for any part of that sub-trade customarily performed by sub-contractors.

SECTION 50. Subsection (4) of said section 44F of said chapter 149, as so appearing, is hereby amended by striking out paragraph (a) and inserting in place thereof the following paragraph:-

The general contractor shall cause the work covered by such sub-trade to be done by a qualified and responsible sub-contractor, subject to the written approval of the awarding authority. If the awarding authority determines that any sub-contractor chosen by the general contractor under this section is not qualified or responsible, the general contractor shall obtain another sub-contractor who is satisfactory to the awarding authority with no adjustment in the general contractor's price.

(2) If a rejection of all sub-bids, other than as set forth above, for such a sub-trade occurs pursuant to subsection (1) or subsection (3), the awarding authority shall state, in an addendum issued with the list of sub-bidders required by said subsection (3), the amount to be included by a general bidder on the general bid form for such sub-trade; and without in any way affecting other sub-bidders who have conformed to the prescribed bidding procedure, new sub-bids for such sub-trade shall be requested forthwith by written invitation to three or more qualified sub-bidders and shall be publicly opened and read by the awarding authority at a time and place to be specified in such invitation. The general contractor shall cause the work covered by such sub-trade to be done by the lowest responsible and eligible sub-bidder against whose standing and ability the general contractor makes no objection or, if there is no such sub-bidder, by such sub-contractor against whose standing and ability the general contractor makes no objection and for such sum as the general contractor and the awarding authority may agree upon; and the contract price shall be adjusted by the difference between the sub-contract sum and the amount stated in the addendum. The general bidder shall include in the cost of his own work on the general bid form all expenses and profits

No such sub-bid shall be considered unless the general bidder can show (a) he does so customarily perform such sub-trade, and (b) he is qualified to do the sub-trade work.

In lieu of listing his name and sub-bid price in his general bid, such general bidder may list the name and amount of the lowest responsible and eligible sub-bidder for that sub-trade if (a) such sub-bidder's price is lower than his, (b) such sub-bid is available for his use; and (c) such sub-bid is not restricted to his use alone or to his use and that of another general bidder, or bidders.

Said board shall file copies of said report with the clerk of the house of representatives.

(h) All reasonable expenses incurred pursuant to this section and section eleven of this act shall be considered to be incidental administrative expenses of the fund.

SECTION 9. The fund shall remain in existence until such time as the total amount of the loans required to be made pursuant to this act shall have been amortized and a final report of the fund shall have been filed with the commissioner of administration and the house and senate committees on ways and means. Upon dissolution of the fund, the remaining surplus or deficit, if any, in the fund, after the amortization of such loans, shall be returned or charged, as the case may be, to the member thrift institutions on the same prorated basis as the call for loans provided for in section eleven.

SECTION 10. Beginning January first, nineteen hundred and eighty-five, the fund shall have the power to (a) borrow funds for the purpose of making loans pursuant to sections twelve, twelve A, and thirteen from every savings bank as defined in chapter one hundred and sixty-eight of the General Laws, every cooperative bank as defined in chapter one hundred and seventy of the General Laws, every state or federal savings and loan association and every federal savings bank, located in the commonwealth; and (b) issue therefore its bonds, debentures, notes, or other evidences of indebtedness, subject to the provisions of section eight.

(b) Each such call for loans to the fund shall be prorated among the banks and associations listed in said sections seven and ten in the same proportion that the amount of total assets,

as of the April thirtieth preceding the call, of each institution bears to the aggregate of the amounts of total assets, as of the April thirtieth preceding the call, of all such institutions.

(c) In the aggregate, borrowing by the fund pursuant to said section ten shall be in such amounts as the board of directors of the fund may determine are necessary for carrying out the purposes of the fund; provided, however, that one hundred million dollars shall be borrowed during the existence of the fund and all such borrowing shall occur on or before July first, nineteen hundred and ninety-four.

(d) All loans made to the fund by the banks and associations listed in said sections seven and ten shall be made on terms and other conditions established by the board of directors of the fund; provided, however that (1) such loans shall be evidenced by bonds, debentures, notes, or other evidence of indebtedness of the fund, which shall bear interest at rates approved by the commissioner of banks which are based upon the costs incurred by the bank in making funds available to the fund; and (2) no loan to the fund shall be secured in any manner unless all outstanding loans to the fund shall be secured equally and ratably in proportion to the unpaid balance of such loans and in the same manner.

(e) All loans made to the fund by the banks and associations listed in said sections seven and ten shall be deemed to be legal investments for said banks and associations.

SECTION 12. Beginning February first, nineteen hundred and eighty-five, the fund shall have the power (a) to make loans of the funds borrowed pursuant to sections ten and eleven for any of its purposes to any economic development project; and (b) to establish and regulate the terms and conditions with respect to such loans, subject to the provisions of section thirteen.

SECTION 13. Lending by the fund shall be subject to the following provisions:

(a) The fund shall make loans at such times and in such amounts as the board of directors of the fund may determine are necessary for carrying out the purposes of the fund and shall be made in the amount or amounts requested and for a term or terms agreed upon by the parties. If no agreement can be reached the commissioner of banks shall set the term or terms of such loans.

(b) In determining the rates of interest for loans, said board of directors shall (1) take into account the cost incurred by the fund in obtaining funds, the reasonable cost of servicing such loans, including a bad debt reserve, and any other incidental administrative costs incurred directly or indirectly by the fund. The commissioner of banks shall make a determination that all

such costs and expenditures were necessary and proper for the operation of the fund.

(c) No member of said board and no bank or association listed in section ten or officer thereof shall be a recipient of any loan made pursuant to this act.

(d) The operation of the fund shall be examined annually by an independent certified public accounting firm. The results of such examination shall be filed with the clerk of the house of representatives in conjunction with the annual reporting requirement of paragraph (b) of this section.

(e) The fund, in making loans, shall give preference to those economic development projects located in cities and towns whose annual unemployment rate is greater than one hundred fifty per cent of the statewide average in three of the last four years.

(f) Loans made by the fund shall be made in accordance with reasonable lending practices to be established by the board of directors consistent with the overall purposes of this act.

Such report shall be filed within sixty days of any such call.

SECTION 15. The commissioner of banks shall include in the annual report filed pursuant to section thirteen of chapter one hundred and sixty-seven of the General Laws a listing of banks and associations where the amount of the call issued pursuant to section eleven exceeds the amount loaned to the fund.

SECTION 16. Sections one to six A, inclusive, shall apply to tax years commencing on or after October thirty-first, nineteen hundred and eighty-four. All other sections shall take effect upon passage.

EMERGENCY LETTER - January 10, 1985 @ 4:04 P.M.

Chap. 488. AN ACT RELATIVE TO THE PRESERVATION OF ART.

Be it enacted, etc., as follows:

SECTION 1. Chapter 231 of the General Laws is hereby amended by inserting after section 85R the following section:-

Section 85S. (a) The general court hereby finds and declares that the physical alteration or destruction of fine art, which is an expression of the artist's personality, is detrimental to the artist's reputation, and artists therefore have an interest in protecting their works of fine art against such alteration or destruction; and that there is also a public interest in preserving the integrity of cultural and artistic creations.

(b) As used in this section, the following words shall, unless the context clearly requries otherwise, have the following meanings:-

"Artist", the natural person who actually creates a work of fine art but not to include such art as is created by an employee within the scope of his employment. In case of a joint creation of a work of art, each joint creator shall have the rights of an artist with respect to the work of fine art as a whole.

"Fine art", any original work of visual or graphic art of any media which shall include, but not limited to, any painting, print, drawing, sculpture, craft object, photograph, audio or video tape, film, hologram, or any combination thereof, of recognized quality.

"Gross negligence", the exercise of so slight a degree of care as to justify the belief that there was an indifference to the particular work of fine art.

"Public view", means on the exterior of a public owned building, or in a interior area of a public building.

(c) No person, except an artist who owns or possesses a work of fine art which the artist has created, shall intentionally commit, or authorize the intentional commission of any physical defacement, mutilation, alteration, or destruction of a work of fine art. As used in this section, intentional physical defacement, mutilation, alteration, or destruction includes any such action taken deliberately or through gross negligence.

(d) The artist shall retain the right to claim and receive credit under his own name or under a reasonable pseudonym or, for just and valid reason, to disclaim authorship of his work of fine art. Credit shall be determined in accord with the medium of expression and the nature and extent of the artist's contribution to the work of fine art.

(e) The artist or any bonafide union or other artists' organization authorized in writing by the artist for such purpose may commence an action in the superior court department of the trial court of the commonwealth without having as prerequisites to a suit any need for: (1) damages, already incurred, (2) a show-

ing of special damages, if any, or (3) general damages in any monetary amount to recover or obtain any of the following (i) injunctive relief or declaratory relief, (ii) actual damages, (iii) reasonable attorneys' and expert witness fees and all other costs of the action, or (iv) any other relief which the court deems proper.

(f) In determining whether a work of fine art is of recognized quality, the court shall rely on the opinions of artist, art dealers, collectors of fine art, curators of art museums, restorers and conservators of fine art and other persons involved with the creation or marketing of fine art.

(g) The provisions of this section shall, with respect to the artist, or if any artist is deceased, his heir, legatee, or personal representative, continue until the fiftieth anniversary of the death of such artist, continue in addition to any other rights and duties which may now or in the future be applicable, and except as provided in paragraph (1) of subdivision (h) may not be waived except by an instrument in writing expressly so providing which is signed by the artist and refers to specific works with identification and such waiver shall only apply to work so identified.

The attorney general may, if the artist is deceased, assert the rights of the artist on the artist's behalf and commence an action for injunctive relief with respect to any work of art which is in public view.

(h) (1) If a work of fine art cannot be removed from a building without substantial physical defacement, mutilation, alteration, or destruction of such work, the rights and duties created under this section, unless expressly reserved by an instrument in writing signed by the owner of such building and properly recorded, prior to the installation of such art shall be deemed waived. Such instrument, if recorded, shall be binding on subsequent owners of such building.

(2) If the owner of a building wishes to remove a work of fine art which is a part of such building but which can be removed from the building without substantial harm to such fine art, the rights and duties created under this section shall apply unless the owner has diligently attempted without success to notify the artist, or, if the artist is deceased, his heir, legatee, or personal representative, in writing of his intended action affecting the work of fine art, or unless he did provide notice and that person failed within ninety days either to remove the work or to pay for its removal. If such work is removed at the expense of the artist, his heir, legatee, or personal representative, title to such fine art shall be deemed to be in such person.

SECTION 2. Chapter 260 of the General Laws is hereby amended by inserting after section 2B the following section:-

Section 2C. Actions commenced under the provisions of sec-

tion eighty-five S of chapter two hundred and thirty-one shall be commenced only within two years next after the cause of action accrues, or within one year next after the discovery of the act, whichever is later.

Approved January 8, 1985.

Chap. 489. AN ACT RELATIVE TO FINANCE CHARGES UNDER OPEN-END CREDIT PLANS AND REVOLVING CREDIT AGREEMENTS.

Be it enacted, etc., as follows:

SECTION 1. Chapter 140 of the General Laws is hereby amended by striking out section 114B, as most recently amended by section 2 of chapter 332 of the acts of 1982, and inserting in place thereof the following section:-

Section 114B. Notwithstanding the provisions of section one hundred and one hundred and fourteen A, a creditor may charge a daily, monthly or other periodic rate of finance charge on loans made pursuant to any open-end credit plan as defined by section one of chapter one hundred and forty D, equivalent to but not in excess of eighteen per cent determined in accordance with paragraph (2) of subsection (a) of section five of chapter one hundred and forty D; provided, however, that if the index rate for any calendar quarter, as hereinafter determined, exceeds eighteen per cent, the creditor may, during such calendar quarter, charge such daily, monthly or other periodic rate or rates as may be established by such creditor. The commissioner of banks shall determine as of the computation dates of December first, March first, June first and September first of each year, and not later than one business day after each such computation date, the index rate for the succeeding calendar quarter beginning January first, April first, July first and October first, respectively. The index rate determined on each computation date for the following calendar quarter shall be the number determined by doubling the average of the rates established and announced, as the auction average on a discount basis, for United States Treasury bills with maturities of ninety-one days at the auctions held during the three calendar months preceding the computation date. At the option of the creditor, the periodic rate that a creditor charges on an account may be adjusted to reflect a change in the index rate either on the first day of the respective calendar quarter or on the first day of the first billing cycle of the account immediately following such date; provided, however, that any limitation on finance charges imposed under this section shall remain in effect for three months

from the date so chosen. A finance charge not in excess of fifty cents for a monthly or longer billing cycle or the pro rata part of fifty cents for a billing cycle shorter than monthly may be assessed if the finance charge otherwise assessable is less than fifty cents. For the purpose of this section, a billing cycle shall be considered to be monthly if the billing dates are on the same day of each month or do not vary by more than four days therefrom. No creditor shall impose a delinquency charge, late charge, or similar charge on loans made pursuant to such an open end credit plan.

In addition to disclosures of such rate required by chapter one hundred and forty D, the commissioner of banks shall have the authority to promulgate regulations requiring additional disclosures by creditors concerning periodic rate, other costs of credit, and any other additional features of the agreement.

A finance charge imposed on a transaction subject to this section but not subject to the provisions of the first paragraph of section twenty of chapter one hundred and forty D shall be computed on (i) the previous balance after deducting all payments on account received by the creditor during the cycle and all credits to the account during the cycle applicable to any transaction reflected in the previous balance; or (ii) the average daily balance determined by adding the daily balances on the account for each day in the billing cycle and dividing the total by the number of days in the billing cycle; or (iii) daily balances.

The provisions of this section shall not apply to any extension of credit made pursuant to the provisions of chapter two hundred and fifty-five D.

SECTION 2. Section 20 of chapter 140D of the General Laws, as most recently amended by chapter 733 of the acts of 1981, is hereby further amended by striking out said section and inserting in place thereof the following section:-

Section 20. If a finance charge is imposed under an open-end credit plan on balances resulting from the sale of goods or services at retail made in reliance on a credit card, the finance charge applicable to said balances for any cycle shall be computed on (i) the previous balance after deducting all payments on account received by the creditor during the cycle and all credits to the account during the cycle applicable to any sale reflected in the previous balance; or (ii) the average daily balance determined by adding the daily balances on the account for each day in the billing cycle and dividing the total by the number of days in the billing cycle; or (iii) daily balances; provided, however, that no finance charge may be computed on any new sale reflected for the first time in the account during the billing cycle if there was no balance outstanding in the

account at the beginning of the cycle, or if such balance is solely attributable to a finance charge assessed with respect to the preceding billing cycle, or if the sum of all payments received by the creditor during the cycle and all credits to the account applicable to any balance outstanding at the beginning of the cycle is equal to or exceeds the amount of such balance outstanding; and provided further, that the finance charge applicable to said balances for any cycle may not be computed on any new sale reflected for the first time in the account during the cycle on any extension of credit made pursuant to chapter two hundred and fifty-five D.

NUMBER OF ACTS AND RESOLVES APPROVED, APPROVAL WITHHELD AND ACTS DECLARED EMERGENCY LAWS BY THE GOVERNOR UNDER AUTHORITY OF THE CONSTITUTION.

The General Court during its second session held in 1984 passed 493 Acts and 14 Resolves of which 490 Acts received executive approval. Three Acts from which executive approval was withheld became law by virtue of Chapter 1, Section 1, Article II of the Constitution of the Commonwealth.

Three (3) Acts, entitled respectively, "An Act Extending the Time for Acceptance of an Act Establishing the Ashfield Water District" (Chapter 117), "An Act Relative to Reduction in Rank for Certain Public Employees in Fall River" (Chapter 243) and "An Act Further Regulating the Eligibility Requirements for Student Scholarships and Student Loans Awarded by the Board of Regents of Higher Education" (Chapter 336); were passed, but failed to receive executive approval; as, however, they were not returned, with objections thereto, within ten days after they had been received in the Executive Department, the General Court not having been dissolved in the meantime, said Acts have the force of law, under the provisions of the Constitution governing such cases and have been so certified.

Thirty-five (35) Acts, Chapters 2, 23, 43, 53, 55, 78, 165, 199, 203, 229, 233, 240, 241, 258, 259, 262, 266, 276, 277, 279, 283, 397, 398, 406, 407, 411, 419, 433, 438, 441, 463, 465, 471, 487, and 489 were declared emergency laws by the Governor in accordance with the provisions of the Forty-eighth Amendment to the Constitution, the Referendum II, Emergency Measures.
