Be it enacted, etc., as follows:

SECTION 1. Chapter 12A of the General Laws is hereby amended by adding the following section:-

Section 15. Whenever the inspector general has reason to believe that a person has information with respect to any matter which is within the inspector general's jurisdiction to investigate, he may require by summons the attendance and testimony under oath of said person; provided, however, that such summons may be issued by the inspector general only with prior approval of six members of the inspector general council. The approval of six members of the inspector general council for the issuance of a summons pursuant to this paragraph shall be obtained only after information concerning the matter under investigation has been presented to said council, which information shall include: the name and address of the prospective witness; the subject of the investigation; a summary of the status of the investigation; a summary of the reasons for requesting a summons for testimony; and a summary of the general scope of the inquiry to be made of a prospective witness.

Such summons shall be served by the inspector general or anyone duly authorized by him, in the same manner as a summons for a witness in a civil case issued on behalf of the commonwealth, and all provisions of law relative to such summons issued in such case shall apply to a summons issued under this section.

A witness required by summons to attend and testify under oath and produce books and records shall be given not less than forty-eight hours' notice of the time and place of the taking of testimony, unless such notice shall unduly interfere with the conduct of the investigation and prior approval for a shorter

period of time for such summons and notice has been obtained from at least six members of the inspector general council.

Such witness, at the time of service of said summons, shall be notified of the matter under investigation concerning which such witness will be required to testify and shall be given a copy of the rules of procedures adopted by the inspector general, shall be notified that his testimony will be taken at a private session, whether the issuance of such summons was approved by the inspector general council and whether the witness is a subject of an investigation. A subject of an investigation is a person whose conduct is within the scope of the investigation. The failure to furnish such witness with any notice or information required to be given by this section shall cause the said summons to be invalid.

In addition, the witness shall be notified that he has a right to consult with and to have an attorney present at the time the testimony is taken and that he has a constitutional right not to furnish or produce evidence which may tend to incriminate him.

A person summonsed to attend and testity under oath shall appear and testify under oath before at least two persons, one of whom shall be the attorney general or his designee, the state auditor or his designee, the secretary of public safety or his designee, the state comptroller or his designee, or other members of the inspector general council, and the other of whom shall be the inspector general or an employee of the office who is an attorney admitted to practice in the commonwealth and approved by the inspector general council.

The terms of any such summons must be reasonable, and the information sought from the summonsed witness must be reasonably related to the subject matter under investigation. No such summons may be issued for purposes of harassment or for any illegitimate or improper purpose. All constitutional and statutory rights and privileges which exist with respect to any summons issued by a court, including the privilege against self-incrimination, shall have the same force and effect with respect to any such summons issued by the inspector general.

A summonsed person may object to the summons served upon him in advance of the return date of the summons by a complaint in the nature of a motion to quash filed in the superior court department of the trial court in Suffolk county. The filing of a complaint in the nature of a motion to quash shall stay all pending summons until further order of the superior court. Any justice of the superior court may, upon application by the inspector general, issue an order to compel the attendance of witnesses summonsed as aforesaid and the giving of testimony under oath in furtherance of any audit or investigation under this chapter in the same manner and to the same extent as before the superior court. Failure to obey any order of the court with respect to said summons may be punished by said

court as contempt.

Any summons issued pursuant to this section shall not be made public by the inspector general or any persons subject to his direction or by any member of the inspector general council or person designated to hear testimony under this section, and testimony given shall be governed by the same provisions with reference to secrecy which govern grand jury proceedings. Whoever violates the provisions of this paragraph shall be punished by imprisonment for not more than six months in a jail or house of correction or by a fine of not more than one thousand dollars. Disclosure of such testimony may be made to such members of the staff of the office of inspector general as is deemed necessary by the inspector general to assist him in the performance of his duties and responsibilities under this chapter and such members of the staff may be present at the taking of such testimony.

SECTION 2. Subsection (2) of section 15B of chapter 186 of the General Laws, as amended by section 1 of chapter 645 of the acts of 1983, is hereby further amended by striking out clause (a) and inserting in place thereof the following clause:-

(a) Any lessor or his agent who receives, at or prior to the commencement of a tenancy, rent in advance for the last month of the tenancy from a tenant or prospective tenant shall give to such tenant or prospective tenant at the time of such advance payment a receipt indicating the amount of such rent, the date on which it was received, its intended application as rent for the last month of the tenancy, the name of the person receiving it and, in the case of an agent, the name of the lessor for whom the rent is received, and a description of the rented or leased premises, and a statement indicating that the tenant is entitled

to interest on said rent payment at the rate of five per cent per year payable in accordance with the provisions of this clause, and a statement indicating that the tenant should provide the lessor with a forwarding address at the termination of the tenancy indicating where such interest may be given or sent.

Any lessor or his agent who receives said rent in advance for the last month of tenacy shall, beginning with the first day of tenacy, pay interest at the rate of five per cent per year. Such interest shall be paid over to the tenant each year as provided in this clause; provided, however, that in the event that the tenancy is terminated before the anniversary date of such tenancy, the tenant shall receive all accrued interest within thirty days of such termination. Interest shall not accrue for the last month for which rent was paid in advance. At the end of each year of tenancy, such lessor shall give or send to the tenant from whom rent in advance was collected a statement which shall indicate the amount payable by such lessor to the tenant. The lessor shall at the same time give or send to such tenant the interest which is due or shall notify the tenant that he may deduct the interest from the next rental payment of such tenant. If, after thirty days from the end of each year of the tenancy, the tenant has not received said interest due or said notice to deduct the interest from the next rental payment, the tenant may deduct from his next rent payment the interest due.

If the lessor fails to pay any interest to which the tenant is then entitled within thirty days after the termination of the tenancy, the tenant upon proof of the same in an action against the lessor shall be awarded damages in an amount equal to three times the amount of interest to which the tenant is entitled, together with court costs and reasonable attorneys fees.

SECTION 2A. Said section 15B of said chapter 186 is hereby further amended by striking out subsection (5), as amended by section 2 of said chapter 645, and inserting in place thereof the following subsection:-

(5) Whenever a lessor who receives a security deposit transfers his interest in the dwelling unit for which the security deposit is held, whether by sale, assignment, death, appointment of a receiver or trustee in bankruptcy, or otherwise, the lessor shall transfer such security deposit together with any interest which has accrued thereon for the benefit of the tenant who made such security deposit to his successor in interest, and said successor in interest shall be liable for the retention and return of said security deposit in accordance with the provisions of this section from the date upon which said transfer is made; provided however, that the granting of a mortgage on such premises shall not be a transfer of interest. The successor in interest shall, within forty-five days from the date of said transfer, notify the tenant who made such security deposit that such security deposit

was transferred to him and that he is holding said security deposit. Such notice shall also contain the lessor's name, business address, and business telephone number, and the name, business address, and business telephone number of his agent, if any. Said notice shall be in writing.

Upon such transfer, the lessor or his agent shall continue to be liable with respect to the provisions of this section until:

(a) there has been a transfer of the amount of the security deposit so held to the lessor's successor in interest and the tenant has been notified in writing of the transfer and of the successor in interest's name, business address, and business telephone number;

(b) there has been compliance with this clause by the successor in interest; or

(c) the security deposit has been returned to the tenant.

In the event that the lessor fails to transfer said security deposit to his successor in interest as required by this subsection the successor in interest shall, without regard to the nature of the transfer, assume liability for payment of the security deposit to the tenant in accordance with the provisions of this section; provided, however, that if the tenant still occupies the dwelling unit for which the security deposit was given, said successor in interest may satisfy such obligation by granting the tenant free use and occupancy of the dwelling unit for a period of time equivalent to that period of time for which the dwelling unit could be leased or occupied if the security deposit were deemed to be rent. The liability imposed by this paragraph shall not apply to a city or town which acquires title to property pursuant to chapter sixty or to a foreclosing mortgagee or a mortgagee in possession which is a financial institution chartered by the commonwealth or the United States. The term "rent", as used in the preceding sentence, shall mean the periodic sum paid by the tenant for the use and occupation of the dwelling unit in accordance with the terms of his lease or other rental agreement.

SECTION 3. Said section 15B of said chapter 186 is hereby further amended by inserting after subsection (7) the following subsection:-

(7A) Whenever a lessor who receives rent in advance for the last month of tenancy transfers his interest in the dwelling unit for which the rental advance was received, whether by sale, assignment, death, appointment of a receiver or trustee in bankruptcy, or otherwise, the lessor shall credit an amount equal to such rental advance together with any interest which has accrued thereon for the benefit of the tenant who made such rental advance, to the successor in interest of such lessor, and said successor in interest shall be liable for crediting the tenant with such rental advance, and for paying all interest accrued thereon in accordance with the provisions of this section from

the date upon which said transfer is made; provided, however, that the granting of a mortgage on such premises shall not be deemed a transfer of interest. The successor in interest shall, within forty-five days from the date of said transfer, notify the tenant who made such rental advance that such rental advance was so credited, and that such successor has assumed responsibility therefor pursuant to the foregoing provision. Such notice shall also contain the lessor's name, business address, and business telephone number, and the name, business address, and business telephone number of his agent, if any. Said notice shall be in writing.

Upon such transfer, the lessor or his agent shall continue to be liable with respect to the provisions of this section until:- (a) there has been a credit of the amount of the rental advance so held to the lessor's successor in interest and the tenant has been notified in writing of the transfer and of the successor in interest's name, business address, and business telephone number; (b) there has been compliance with this clause by the successor in interest; or (c) the rental advance has been credited to the tenant and all accrued interest has been paid thereon.

In the event that the lessor fails to credit said rental advance to his successor in interest as required by this subsection, the successor in interest shall, without regard to the nature of the transfer, assume liability for crediting of the rental advance, and payment of all interest thereon to the tenant in accordance with the provisions of this section; provided, however, that if the tenant still occupies the dwelling unit for which the rental advance was given, said successor in interest may satisfy such obligation by granting the tenant free use and occupancy of the dwelling unit for a period of time equivalent to the period of time covered by the rental advance. The liability imposed by this subsection shall not apply to a city or town which acquires title to property pursuant to chapter sixty or to a foreclosing mortgagee or a mortgagee in possession which is a financial institution chartered by the commonwealth or by the United States.

The provisions of this act shall not apply to any city, town, regional school district, county maintaining agricultural schools or independent vocational school with such an adjustment or withholding of funds for fiscal years nineteen hundred and eighty-two or nineteen hundred and eighty-three delayed by chapters one hundred and forty-one and four hundred and thirty-nine of the acts of nineteen hundred and eighty-three.

If the deputy commissioner appoints any designer other than the one ranked first by the board, he or she shall file a written justification of the appointment with the board.

(b) When the fee for design services is to be negotiated, the deputy commissioner shall review the list transmitted by the board, and may exclude any designer from the list if a written explanation of the exclusion is filed with the board. The deputy commissioner shall then appoint a designer based on successful fee negotiation. Should the deputy commissioner be unable to negotiate a satisfactory fee with the first ranked designer within thirty days, negotiations shall be terminated and negotiations undertaken with the remaining designers, one at a time, in the order in which they were ranked by the board, until an agreement is reached. In no event may a fee be negotiated which is higher than a maximum fee set by the deputy commissioner prior to selection of finalists. Should the deputy commissioner be unable to negotiate a satisfactory fee with any designer initially selected as a finalist by the board, the board shall recommend additional finalists in accordance with the provisions of this chapter. The deputy commissioner may require a finalist with whom a fee is being negotiated to submit a fee proposal and include with it such information as the deputy commissioner requires to provide current cost and pricing data on the basis of which the designer's fee proposal may be evaluated.

(c) All fees shall be stated in designer's contracts and in any subsequent amendment thereto as a total dollar amount. Contracts may provide for equitable adjustments in the event of changes in scope or services.

(b) If the designer's or construction manager's fee is negotiated, the designer or construction manager must file a truth-in-negotiations certificate prior to being awarded the contract by the deputy commissioner, which must be incorporated into the contract. The certificate must contain:

(i) a statement that the wage rates and other costs used to support the designer's compensation are accurate, complete, and current at the time of contracting; and

(ii) an agreement that the original contract price and any additions to the contract may be adjusted within one year of completion of the contract to exclude any significant amounts if the deputy commissioner determines that the fee was increased by such amounts due to inaccurate, incomplete or noncurrent wage rates or other costs.

(c) The board may specify other special conditions or requirements in selecting a particular applicant as a finalist. If any change is made by the applicant after appointment relating to such special conditions or requirements, the change must be approved by the deputy commissioner and reported to the board along with a written statement by the appointee of the reasons for the change.

(iv) certification with respect to contracts which exceed ten thousand dollars or which are for the design of a building for which the budgeted or estimated construction costs exceed one hundred thousand dollars that the designer has internal accounting controls as required by subsection (d) of section thirty-nine R of chapter thirty and that the designer has filed and will continue to file an audited financial statement as required by subsection (e) of said section thirty-nine R.

(f) Contracts for design services shall include a requirement that the designer at his or her own expense obtain and maintain a professional liability insurance policy covering negligent errors, omissions and acts of the designer or of any person or business entity for whose performance the designer is legally liable arising out of the performance of such contracts for design services. The designer shall furnish a certificate or certificates of such insurance coverage to the public agency prior to the award of the contract. For the purpose of this paragraph only, "public agency" shall have the meaning set forth in section thirty-nine A. The commonwealth has recognized for many years the special handicaps and obstacles faced by its minority citizens in effecting full participation. Minority business enterprises frequently face special handicaps and problems in achieving viable economic status. Various public and private programs have been initiated to assist minority business enterprises to achieve economic viability, though many businesses have not been adequately informed of these programs because of inadequate coordination and communication efforts, with the result that many services available are never adequately delivered to those who need them. The state government, as the biggest business in the commonwealth of Massachusetts, has a special responsibility to see that all available services and programs are put to the best use. These steps are necessary to guarantee the fullest participation by all citizens of the commonwealth in the economy of the state and to guarantee the fullest benefits to citizens of programs and services available for assistance.

Section 40. As used in sections forty-one to forty-four, inclusive, the following words shall have the following meanings, unless a contrary intent is clearly indicated:-

CHAPTER 401.
THE BAY STATE SKILLS CORPORATION ACT.

Section 1. Purpose. It is hereby found and declared that:

There exists within the commonwealth a critical shortage of training and educational programs necessary to meet the growing needs of business and industry for skilled employees and the corresponding needs of our people for opportunities for new or more rewarding employment.

As a result of this shortage, business and industry is unable to obtain sufficient numbers of qualified employees for continued operation and expansion within the commonwealth, and our people, particularly those who are the victims of economic dislocation, as provided for in subsection 6 of this act, and those minority and economically disadvantaged groups, are denied many significant and substantial employment opportunities.

The loss of economic and employment activity from the commonwealth contributes to a decline in the tax base, leads to the unemployment and underemployment of our people, causes an increase in welfare and unemployment costs, and constitutes a threat to the general welfare of the entire commonwealth.

This shortage is occasioned by the inability of educational institutions to secure the resources necessary for the development and substantial expansion of programs of skills training and education which are consistent with employment need;

Business and industry is the primary source of the employment information, technical assistance and financial support required for such program development and expansion;

Business and industry support of educational institutions, through increased and more comprehensive relationships of cooperation and assistance, is necessary to enable educational institutions to meet the needs of business and industry for skilled employees and the needs of our people for new or more rewarding employment opportunities;

Educational institutions are unable to attract sufficient support from business and industry within the limits of their existing resources and through the normal operation of the private enterprise system.

It is an important function of government to increase opportunities for gainful employment, to assist in promoting a productive and expanding economy, to encourage the flow of business and industry support to educational institutions, and otherwise to improve the prosperity and general welfare of the inhabitants of the commonwealth.

Therefore, it is found that it is in the public interest of the commonwealth to promote the prosperity and general welfare of its citizens, a public purpose for which public money may be expended, to encourage and facilitate the formation of comprehensive cooperative relationships between business and industry and educational institutions which provide for the development and significant expansion of programs of skills training and education consistent with employment need, and to make interested individuals aware of the employment opportunities presented thereby.

Section 1A. (a) There is hereby created a body, politic and corporate, to be known as the Bay State Skills Corporation, hereinafter referred to as BSSC. BSSC is hereby constituted a quasi-public instrumentality of the commonwealth and the exercise by the corporation of the powers conferred in this chapter shall be deemed and held to be the performance of an essential public function. The corporation is hereby placed in the executive office of manpower affairs but shall not be subject to the supervision or control of said office or of any board, bureau, department or other agency of the commonwealth except as specifically provided in this chapter.

Any member may be removed from his appointment by the governor for cause. The governor shall designate a member of the board as its chairman. The members shall be entitled to reimbursement for their actual and necessary expenses incurred in the performance of their duties.

(d) The board shall hire an executive director and establish his salary. The executive director shall be the chief administrative and operational officer of the corporation and shall direct and supervise its administrative affairs and general management. The executive director shall attend meetings of the board and may, subject to the general supervision of the board, employ other employees, consultants, agents, including counsel and advisors. Neither the corporation nor any of its officers, agents, employees, consultants or advisors shall be subject to the provisions of sections nine A, forty-five, forty-six, fifty-two of chapter thirty, or to chapter thirty-one.

Section 2. The directors shall annually elect one of their members as vice chairman and shall designate a secretary and treasurer who need not be members of the board. The secretary shall keep a record of the proceedings of the corporation and shall be custodian of all books, documents, and papers filed with

the corporation, and its official seal. The secretary shall cause copies to be made of all minutes and other records and documents of the corporation and shall certify that such copies are true copies and all persons dealing with the corporation may rely upon such certification.

At least one such employee shall be hired for the purpose of packaging and reviewing applications for financing by the economic stabilization fund, as provided in section thirteen, and the board of said fund shall have the right to approve the hiring of any persons for this purpose.

The executive director shall be the executive and administrative head of the program and shall be responsible for administering and enforcing the provisions of law relative to the program.

Section 4. The duties of the Massachusetts industrial service program shall include but not be limited to:

(a) assisting, upon the request of a private business, in alleviating, adverse conditions which threaten to cause a large loss of employment, plant closure, or failure by said private business including, but not limited to, site specific problems, loss of markets, out-moded production technologies, poor management, and changes in ownership;

In such cases, the director shall inform the employees that the business is for sale, inform the employees of their opportunity to purchase the business, and provide the employees with the same assistance in purchasing said business for which other interested buyers may be eligible.

Section 7. Any documentary materials, data, or conversations whatsoever made or received by any employee of the program and consisting of, or to the extent that such materials, data, or conversations consist of, trade secrets or commercial or financial information regarding the operation of any business conducted by an applicant for assistance which the program is empowered to render or regarding the competitive position of such applicant in a particular field of endeavor, shall not be deemed public records of the program and specifically shall not be subject to the provisions of section ten of chapter sixty-six.

Section 8. There shall be in the executive office of economic affairs, but not subject to its jurisdiction, an economic stabilization trust. Section 9. (a) The trust shall be governed by and its powers exercised by a board of trustees which shall consist of five members: the secretary of the executive office of economic affairs, the secretary of the executive office of labor, and three persons to be appointed by the governor, who shall together be experienced in the financial analysis of businesses, turnarounds of troubled businesses, and the management of businesses; provided, however, that each such trustee shall be experienced and knowledgeable in at least one such area. Each trustee appointed by the governor shall serve for four years, except that in making the initial appointments the governor shall appoint one trustee to serve for two years, one trustee to serve for three years, and one trustee to serve for four years. Any person appointed to fill a vacancy in the office of trustee shall serve for only the unexpired term of such trustee. Any trustee shall be eligible for reappointment. Any trustee may be removed from his appointment by the governor for cause. The governor shall from time to time designate one trustee as chairperson of the board of trustees.

(b) Three of the trustees of the trust shall constitute a quorum and the affirmative vote of three trustees shall be necessary for any action to be taken by the trust.

(c) Each trustee shall be entitled to reimbursement for his actual and necessary expenses incurred in the performance of his official duties. The governor shall determine, when appointing each trustee, the amount of compensation said trustee shall receive; provided, however, that the governor determines such compensation is necessary both to appoint such experienced and expert trustees as required in this section and to ensure said trustees will be available to act promptly when a prompt decision by the board is necessary.

(d) The provisions of chapter two hundred and sixty-eight A shall apply to all trustees, officers and employees of the trust, except that the trust may invest in, purchase from, sell to, borrow from, loan to, contract with or otherwise deal with any person or entity in which any trustee is in any way interested or involved; provided, however, that such interest or involvement is disclosed in advance to the members of the board and recorded in the minutes of the board; and provided, further, that no trustee having such an interest or involvement may participate in any decision of the board relating to such person or entity.

(e) Neither the trust nor any of its officers, agents, employees, consultants or advisors shall be subject to the provisions of sections nine A, forty-five, forty-six and fifty-two of chapter thirty or to chapter thirty-one.

(f) The trustees shall elect a secretary and treasurer, and may elect or appoint other officers as they may deem necessary, none of whom shall be required to be members of the board. The secretary shall keep a record of the proceedings of the board and shall be custodian of all books, documents, and papers filed by the trustees and of its minute book and seal. The secretary shall cause copies to be made of all minutes and other records and documents of the trust and shall certify that such copies are true copies, and all persons dealing with the fund may rely upon such certification. The treasurer shall be the chief financial and accounting officer of the fund and shall be in charge of its funds, books of account and accounting records.

(g) All officers and employees of the trust having access to its cash and negotiable securities shall give bond to the trust at its expense in such amounts and with such surety as the board may prescribe. The persons required to give bond may be included in one or more blanket or scheduled bonds.

(h) Trustees shall not be liable to the commonwealth, to the agency or to any other person as a result of their activities, whether ministerial or discretionary, as such trustees except for willful dishonesty or intentional violations of the law. The trust may purchase liability insurance for trustees, officers, and employees, and may indemnify said persons against claims of others.

(i) Any documentary materials, data, or conversations whatsoever made or received by any trustee or employee of the fund and consisting of, or to the extent that such materials, data, or conversations consist of, trade secrets or commercial or financial information regarding the operation of any business conducted by an applicant for assistance which the trust is empowered to render or regarding the competitive position of such applicant in a particular field of endeavor, shall not be deemed public records of the trust and specifically shall not be subject to the provisions of section ten of chapter sixty-six. Any discussion or consideration of such trade secrets or commercial or financial information may be held by the trustees in executive session closed to the public notwithstanding the provisions of section eleven A1/2 of chapter thirty A, but the purpose of any such executive session shall be set forth in the official minutes of the trust and no business which is directly related to such purpose shall be transacted nor shall any vote be taken during such executive session.

Section 10. The offices of the trust shall be located in the central office of the industrial service program. The executive director of the industrial service program shall also serve as the

chief executive, administrative and operational officer of the trust, shall attend meetings of the trust, and shall direct the resources and staff of the program, as may from time to time be necessary, to achieve the purposes of sections seven to fifteen, inclusive.

The trustees shall be consulted by the secretary of economic affairs and the secretary of labor in the hiring of said executive director and shall, as provided in section two, have the right to approve the hiring of any persons employed by the industrial service program whose primary responsibilities include reviewing and packaging applications for financing by the trust. Nothing in this section shall be deemed to restrict the trustees power to employ any consultants, agents, or advisors it deems necessary to achieve its duties and purposes as defined in section seven to fifteen inclusive.

Section 11. The purpose of the economic stabilization trust shall be to provide flexible high risk financing necessary to implement a change of ownership, a corporate restructuring, or a turnaround plan for an economically viable, but troubled, business which faces the likelihood of a large employment loss, plant closure, or failure without such a change of ownership, corporate restructuring, or turnaround plan. The financial participation of the trust is aimed at supplementing private financial institutions and public economic development agencies when such institutions are not able to provide all the financing or bear all the risk necessary to transfer ownership, restructure or turnaround a business in a situation where the business might otherwise fail or greatly reduce its employment. In the performance of its purposes, the fund shall be deemed to be investing, not on the basis of a direct financial return on its investment, but in order to reduce the social costs of a large employment loss, plant closure or business failure and to obtain the fiscal benefits the commonwealth receives from maintaining the operations and employment of viable businesses, and shall not be held to the loan loss standards of private commercial lenders.

Section 12. The trust shall have the power to:

(a) make, amend, and repeal rules and regulations for the management of its affairs;

or conveyance cannot be effected with reasonable promptness or at a reasonable price, to lease such property to a tenant;

(g) invest any funds not required for immediate disbursement, in such investments as may be lawful for fiduciaries in the commonwealth;

(h) appoint officers, employees, consultants, agents, and advisors and prescribe their duties and fix their compensation within the limitations provided by law;

(i) appear in its own behalf before boards, commissions, departments, or other agencies of municipal, state, or federal government;

(j) consent, whenever it deems it necessary or desirable in the fulfillment of the purposes of this chapter, to the modification with respect to rate of interest, time of payment of any installment of principal or interest, or any other terms of any contract or agreement of any kind to which the fund is a party;

(k) apply for and accept grants, donations, and bequests, of money, property, labor or other things of value, to be held, used and applied for the purposes of sections eight to fifteen, inclusive, receipt of such donations and grants shall be detailed in the annual report of the trust, including the identity of the donor, the nature of the transaction and any conditions attached thereto;

(l) make loans to or otherwise finance or invest in any business or person seeking to purchase a business to further the purposes of sections seven to fifteen, inclusive; provided however, that such loans or investments comply with the provisions of section twelve;

(m) establish and collect such fees, charges, and interest rates as the trust shall determine to be reasonable;

(n) require, by contract in any financing agreement, or otherwise, specific operational activities, financial actions, or management changes, as conditions for the receipt of any loan, financing, or investment from the trust;

(o) do any and all things necessary or convenient to carry out its purposes and exercise the powers expressly granted in sections seven to fifteen, inclusive.

Section 13. Any business or person seeking financing from the trust shall submit a complete application for financing and any other information as the trustees shall request to the executive director. The trustees shall review the application for financing, and based upon the information submitted and such additional investigation as the trustees may deem necessary, approve or deny said application; provided, however, that before approving any such application, the trustees shall determine and incorporate in its minutes that:

(1) the business is likely to experience a large loss of employment, plant closure, or failure without the loan financing, or investment by the trust;

(2) the business or person seeking to purchase the business has taken or will take such actions as the board deems necessary to insure the business has a reasonable chance to continue as a successful business including, but not limited to, changes in its operations, financing, or management and that said actions are included as a condition for financing in the financing agreement;

(3) the business or person seeking to purchase the business has made diligent efforts to obtain the financing necessary to continue its operations or transfer ownership of the business, from private financial institutions and public economic development agencies and such financing is unavailable or has been offered on terms that would prevent the successful continuation or change in ownership of the business.

Section 14. The trust shall annually submit a complete and detailed report of the trust's activities, within ninety days after the end of each fiscal year to the governor, to the clerk of the house of representatives and to the clerk of the senate. The report shall include all the businesses or persons that received financing from the trust, the number of direct jobs saved or maintained, the indirect employment saved or maintained, the location and wage level of direct jobs saved or maintained, the fiscal benefits to the commonwealth in the form of tax revenues generated and social welfare expenditure avoided as a result of the business and employment maintained by the trust.

Section 15. The trust shall be subject to an annual audit of its books and records by the auditor of the commonwealth.

Upon termination of the corporation its rights and properties shall pass to the commonwealth.

(3) to receive and accept aid or contributions from any source of money, property or labor or other things of value, to be held, used and applied to carry out the purposes of this chapter, subject to the conditions upon which such grants and contributions may be made, including but not limited to, gifts or grants from any department or agency of the United States or the commonwealth;

The president, after preparing necessary records for the corporation, shall forward each application to the staff of the corporation, for an investigation and report concerning the advisability of approving the proposed financial aid for such applicant and concerning any other factors deemed relevant by the corporation. Such investigation and report shall include, but shall not be limited to, such facts about the company under consideration as its history, wage standards, job opportunities, stability of employment, past and

present financial condition and structure, pro-forma income statements, present and future markets and prospects, integrity of management as well as the feasibility of the proposed product and invention to be granted financial aid, including the state of development of such product as well as the likelihood of its commercial feasibility. After receipt and consideration of the above report and after such other action as is deemed appropriate, the corporation shall approve or deny the application. Before approving any such application the board shall first find and incorporate in its minutes that:

(1) the person applying for financial aid has a clear and developed product concept or prototype;

(2) the product has a reasonable chance of being commercially successful;

(3) the financial aid provided by the corporation shall only be used to further commercialization of the product, including, but not limited to, the further design of the product, the construction of a prototype, the development of a manufacturing process to produce the product, or to implement a marketing or distribution strategy for the product;

(4) financial aid by the corporation is necessary for the commercial development of the product because funding for such commercial development is unavailable in private capital markets, or because funding is only available on terms that would substantially hinder successful commercial development of the product; and

(5) the employment created or maintained by commercial development and production of the product will be in Massachusetts.

The applicant shall be promptly notified of the approval or denial of the application. In making the decision as to approval or denial of an application, the corporation shall give priority to those persons (a) whose businesses are likely to experience a loss of employment in their existing business or businesses due to declining markets, foreign competition, automation or other factors and (b) whose proposed product is to be used to maintain employment of all or part of the existing workforce and thus reduce the social and public costs of employment dislocation.

Section 7. The corporation shall annually submit a complete and detailed report of the corporation's activities including a complete operating and financial statement, within ninety days after the end of the fiscal year, to the governor, to the clerk of the house of representatives, and to the clerk of the senate.

Section 8. The books and records of the corporation shall be subject to an annual audit by the auditor of the commonwealth.

Section 9. The corporation shall be and is hereby declared exempt from all franchise, corporate business and income taxes levied by the state; provided, however, that nothing herein shall be construed to exempt from any such taxes, or from any taxes levied in connection with the manufacture or sale of any

products which are the subject of any agreement made by the corporation, any person entering into any agreement with the *corporation*.

Section 10. The powers set forth in this chapter shall be interpreted broadly to effectuate the purposes thereof and shall not be construed as a limitation of powers.

SECTION 6. Chapter 149 of the General Laws is hereby amended by adding the following section:-

Section 182. Any person utilizing financing issued, insured, or subsidized by a quasi-public agency of the commonwealth shall agree to accept the following voluntary standards of corporate behavior, without limiting the independent powers and findings required to be made by any such quasi-public agency:

In the event of a plant closing or partial closing as defined in section seventy-one A of chapter one hundred and fifty-one A, the company agrees to make a good-faith effort to provide every employee affected with the maximum practicable combination of the following: the longest practicable advance notice in cases where notice is possible and appropriate; and maintenance of income and health insurance benefits.

The company shall also, if possible, help to reemploy affected employees.

While no minimum standard is prescribed for these company responses, the commonwealth expects firms to provide at least ninety days notice or equivalent benefits whenever possible.

The precise form of said agreement shall be determined by the respective quasi-public agency.

For the purposes of this section, "quasi-public agency" shall mean, the Massachusetts Industrial Finance Agency, established by section three of chapter four hundred and ninety-six of the acts of nineteen hundred and seventy-eight, the Community Development Finance Corporation, established by section two of chapter eight hundred and sixty-six of the acts of nineteen hundred and seventy-five, the Massachusetts Technology Development Corporation, established by section one of chapter four hundred and ninety-seven of the acts of nineteen hundred and seventy-eight, the Government Land Bank, established by chapter two hundred and twelve of the acts of nineteen hundred and seventy-five, and the Massachusetts Product Development Corporation, established by chapter forty K.

In addition, every such policy of insurance which is issued or subsequently renewed by agreement between the insurer and the policyholder, within or without the commonwealth, during the period this provision is effective, shall include coverage such that, in the event that the insured person leaves the group

covered by such insurance because his employment is terminated due to a plant closing or covered partial closing as those terms are defined in section seventy-one A of chapter one hundred and fifty-one A, said person shall remain insured under such policy for a period of ninety days thereafter unless, during such period, he shall otherwise be entitled to similar benefits.

SECTION 9. Section 110G of said chapter 175 is hereby amended by adding the following paragraph:-

In addition, whenever such group hospital, surgical, medical insurance plan or employer's plan covering health benefits is issued or subsequently renewed by agreement between the insurer and the policyholder, during the period this provision is effective, such plan shall include coverage such that when a member of such group plan becomes ineligible for continued participation in such plan because he is an employee whose employment is terminated due to a plant closing or covered partial closing, as those terms are defined in section seventy-one A of chapter one hundred and fifty-one A, the coverage originally provided by such plan for the member and his dependents shall continue as provided herein, for a period of ninety days from the date of ineligibility or until such member and his dependents become eligible for benefits under another group plan, whichever comes first. Such member and such employer or policyholder shall be responsible for the payment of their respective shares of the premium due as provided in said group plan. Timely receipt of payment shall mean the employer's or policyholder's receipt of

the premium or subscription fee for extended coverage from such member within the dates or by the date indicated by the employer or policyholder at the time of the election of extended coverage. Failure to give notice or to make premium payments as hereinabove provided shall constitute a waiver of the option to have such extended coverage. Notwithstanding the provisions of this paragraph, any contractual agreement arrived at by a collective bargaining process that contains provisions requiring an employer to pay for the continuation of such insurance for employees whose employment is terminated by a plant closing or covered partial closing shall supercede the requirements of this paragraph when said contractual agreement provides for at least three months or ninety days continuation of such insurance. Such subscriber and such employer or policyholder shall be responsible for the payment of their respective shares of the premium due as provided in said group plan. In the event that said employer or policyholder closed under the provisions of the Federal Bankruptcy Act, 11 USC sec. 101 et seq. except for employers or policyholders in reorganization proceedings, such employer's or policyholder's share of the premium shall be paid from the Health Insurance Benefits Fund established pursuant to section seventy-one E of said chapter one hundred and fifty-one A. The employer or policyholder shall notify the terminated member of their eligibility to participate in such plans. The terminated member may elect to continue participation in such plan by giving written notice thereof to the employer or policyholder. The member whose employment has been terminated shall be responsible for the payment of whatever part of the premium, if any, normally paid by such terminated employee as originally provided in such plan, throughout the

ninety day period. If applicable, after timely receipt of the premium payment from the individual, if the employer or policyholder fails to make payment to the insurer or hospital or medical service corporation with the result that the coverage is terminated, the employer or policyholder shall be liable for the benefits to the same extent as the insurer or hospital or medical service corporation would have been liable if coverage had not been terminated. Timely receipt of payment shall mean the employer's or policyholder's receipt of the premium or subscription fee for extended coverage from such member within the dates or by the date indicated by the employer or policyholder at the time of the election of extended coverage. Failure to give notice or to make premium payments as hereinabove provided shall constitute a waiver of the option to have such extended coverage. Notwithstanding the provisions of this paragraph, any contractual agreement arrived at by a collective bargaining process that contains provisions requiring an employer to pay for the continuation of such insurance for employees whose employment is terminated by a plant closing or covered partial closing shall supercede the requirements of this paragraph when said contractual agreement provides at least three months or ninety days continuation of such insurance. Otherwise, the requirements of this paragraph shall deemed to be controlling.

SECTION 11. Section 6A of chapter 176B of the General Laws is hereby amended by adding the following paragraph:-

Such subscriber and such employer or policyholder shall be responsible for the payment of their respective shares of the premium due as provided in said group plan. In the event that said employer or policyholder closed under the provisions of the Federal Bankruptcy Act, 11 USC sec. 101 et seq. except for employers or policyholders in reorganization proceedings, such employer's or policyholder's share of the premium shall be paid from the health insurance benefits fund established pursuant to section seventy-one E of said chapter one hundred and fifty-one

A. The employer or policyholder shall notify the terminated member of their eligibility to participate in such plan. The terminated member may elect to continue participation in such plan by giving written notice thereof to the employer or policyholder. If applicable, after timely receipt of the premium payment from the individual, if the employer or policyholder fails to make payment to the insurer or hospital or medical service corporation with the result that the coverage is terminated, the employer or policyholder shall be liable for the benefits to the same extent as the insurer or hospital or medical service corporation would have been liable if coverage had not been terminated. Timely receipt of payment shall mean the employer's or policyholder's receipt of the premium or subscription fee for extended coverage from such member within the dates or by the date indicated by the employer or policyholder at the time of the election of extended coverage. Failure to give notice or to make premium payments as hereinabove provided shall constitute a waiver of the option to have such extended coverage. Nothwithstanding the provisions of this paragraph, any contractual agreement arrived at by a collective bargaining process that contains provisions requiring an employer to pay for the continuation of such insurance for employees whose employment is terminated by a plant closing or covered partial closing shall supercede the requirement of this paragraph when said contractual agreement provides at least three months or ninety days continuation of such insurance. Otherwise, the provisions of this paragraph shall deemed to be controlling.

SECTION 53. Notwithstanding the provisions of any general or special law to the contrary, the commissioner of revenue is hereby authorized and directed to design, develop, implement and operate a wage reporting and bank match system, hereinafter referred to as the reporting system, for the purpose of verifying financial eligibility of participants in those state or federally funded programs listed in sections three and four of chapter sixty-two E of the General Laws, in the rental assistance, fuel assistance, bulk oil purchase and weatherization programs of the executive office of communities and development, in the food stamp program of the department of public welfare, in the day care services of the department of social services, and in housing support services where income is a factor of eligibility. The commissioner is hereby further authorized and directed to enter into such interagency agreements with other agencies of the commonwealth as the commissioner deems are necessary to facilitate the implementation and utilization of the reporting system. Such written agreements shall include provisions requiring the administering agencies, their subgrantees, or local administering agencies, including local housing authorities, to provide at a date specified by the commissioner a list of persons receiving benefits from such programs. Information in such lists shall include the recipient's name, social security number and other data required to assure positive identification. Such information shall be utilized in the reporting system as a post audit mechanism for the purpose of verifying eligibility and detecting and preventing fraud, error and abuse in said programs, or additional programs, included by the commissioner, pursuant to provisions below. Said administering agencies, their subgrantees, or local administering agencies, including local housing authorities, subject to federal privacy laws, are hereby authorized and directed to obtain and provide to the commissioner the information requested for the purposes of this reporting system.

The commissioner is also authorized and directed to investigate and identify other programs administered by state agencies which consider income, financial resources or both in determining eligibility therefor. The commissioner shall, with the approval of the commissioner of administration and finance, propose such other programs for inclusion in the reporting system by submitting a proposal to the house and senate committees on ways and means. If within fourteen days of receipt of any such proposal no action has been taken by the house or senate committee on ways and means, the commissioner may incorporate into the reporting system the program covered by the proposal. The commissioner is authorized and directed to enter into such interagency agreements as he deems necessary to incorporate such additional programs into said reporting system. For the purposes of the bank match portion of this reporting system, the commissioner is further authorized and directed to request in writing from a treasurer of a state and federally chartered savings bank, state and federally chartered savings and loan association, cooperative bank, state and federally chartered credit union, trust company, national banking association, benefit association, insurance company or safe deposit company authorized to do business in the commonwealth, the amount deposited in the corporation or association to the credit of a

person named or listed in such request as a charge upon the commonwealth, or as an applicant to the commonwealth for financial assistance. In order to comply with this request, a treasurer, as aforesaid is authorized and directed to furnish said information within thirty days of receipt of the commissioner's request.

If after written request signed by the commissioner, said treasurer unreasonably refuses to inform him of the amount deposited in the corporation or association to the credit of a person named or listed in such request as a charge upon the commonwealth or as an applicant to the commonwealth for financial assistance, or willfully renders false information in reply to such request, he shall forfeit fifty dollars to the use of the commonwealth. Upon such request, a treasurer, as aforesaid, shall furnish to the commissioner the records on deposits and withdrawals during the past five years concerning any person named or listed in the request. Mitigating circumstances shall be considered in determining the unreasonableness of a refusal to so provide information.

The commissioner shall examine the data available to him, so as to identify any cases in which recipients of programs included in this reporting system also are receiving wages or have financial resources such as to render them ineligible for participation in the programs. The commissioner shall thereupon furnish the administering agencies the cases of any recipients in their respective programs who are identified as receiving wages or having financial resources. The information furnished to such agencies shall include the name of the recipient, social security number and other data to assure positive identification, the name and identification number of the employer or the name and location of the state and federally chartered savings banks, state and federally chartered savings and loan associations, cooperative banks, state and federally chartered credit unions, trust companies, national banking associations, benefit associations, insurance companies or safe deposit companies, and the amount of wages received or amount of financial resources. Upon the receipt of such information, such administering agencies, and where appropriate, local administering agencies or local housing authorities shall seek to verify the accuracy of the information presented, in consultation with the recipients whose status is in question. If after such informal inquiry an administering agency, or where appropriate, local administering agencies or local housing authorities, determines that a recipient has incorrectly received benefits under such a program, such agency shall take appropriate formal action in accordance with state and federal law to correct the situation, including, but not limited to, termination of benefits. No adverse action shall be taken against any recipient in the unemployment insurance benefits program or the public assistance programs of the department of public welfare, except after affording such recipient full opportunity to contest such action in accordance with law, including prior notice and hearing. No adverse action shall be taken against recipients in the other programs included in the reporting system except after meeting with such recipients, providing them with an explanation for the proposed action, detailing the evidence upon which the action is based, and allowing for any other procedures which an administering agency uses to take an adverse action against a recipient in its programs.

When any administering agency has probable cause to believe that the receipt of incorrect benefits under any such program was a result of a fraudulent action by the recipient, such agency shall refer the case to the bureau of special investigations for further action; provided, however, that such agency shall consider the willingness of such recipient to make restitution or to submit to voluntary recoupment before making such a referral. If such an agency determines the financial solvency of its programs can better be served through restitution or recoupment, referrals to said bureau may be waived by such an agency.

No employee or agent of the commonwealth shall divulge any information referred to in this section, except in the manner herein prescribed, to any public or private agency or

individual; provided, however, that information may be disclosed and shared by and between any employee of an administering agency and any subgrantee, local administering agency, or any local housing authority for the purpose of verifying eligibility and detecting and preventing fraud, error and abuse in the programs included in the reporting system. Unauthorized disclosure of any such information shall be a violation punishable by a fine of one hundred dollars per offense; provided that the unauthorized release of such information about any individual shall be a separate offense from information released about any other individual. Such unauthorized release of information shall also be cause for administrative discipline of any employee who engages in such unauthorized release.

The commissioner is hereby directed to make the reporting system fully operational by January first, nineteen hundred and eighty-five. The commissioner shall submit quarterly reports to the house and senate committees on ways and means describing the status of said system and his plans to implement it. If the commissioner determines that it would be cost-effective to process only a sample of the entire caseload of a program, he may in such manner operate the reporting system for such program; provided, however, that prior notification of such sampling technique is provided to the house and senate committees on ways and means; and provided, further, that any such sample shall constitute not less than thirty per cent of the entire caseload of said program. Where the provisions of the wage reporting system established pursuant to chapter sixty-two E of the General Laws conflict with the provisions set forth in this section, the provisions set forth in this section shall govern.

SECTION 54. Notwithstanding the provisions of any general or special law to the contrary, the board of trustees at each public college and university in the commonwealth is hereby authorized to establish a tuition retention fund, hereinafter in this section referred to as the fund, for the collection and deposit of any tuition revenue that is generated by increasing the present level of tuition consistent with the provisions of section fifty-five of this act. Each such fund shall be subject to the control and authority of the board of trustees at the college or university at which it is established; provided, however, that such college or university shall prepare a spending plan for the uses of the fund, subject to the approval of the board of trustees. Each such spending plan shall provide for expenditures of the fund only upon educational programs or purchases designed specifically to enhance and improve the quality of education at such college or university. Upon approval of a spending plan, the board of trustees shall file a copy of said plan with the house and senate committees on ways and means.

SECTION 55. Notwithstanding any general or special law to the contrary, during fiscal year nineteen hundred and eighty-five, the boards of trustees of every public college and university in the commonwealth are hereby authorized to increase the level of tuition at such college or university by no more than fifteen per cent in excess of the present levels of tuition as established pursuant to section five of chapter fifteen A of the General Laws; provided, however, that such increases in tuition shall be implemented only after a majority vote to do so by the board of trustees of said college or university and a majority vote to do so by the board of regents of higher education. Any expenditure resulting from said tuition increase shall continue at no expense to the commonwealth; and provided, further, that the board of trustees of each public college or university implementing such increase shall file a detailed expenditure analysis on a quarterly basis with the board of regents of higher education and the house and senate committees on ways and means. The revenues generated by the tuition increases authorized herein shall be placed into the tuition revenue fund authorized by section fifty-four of this act.

SECTION 56. Notwithstanding the provisions of any general or special law to the contrary, a housing authority, as defined by section one of chapter one hundred and twenty-one B of the General Laws, is hereby authorized to purchase materials, supplies, or services pursuant to the consolidated supply program of the United States Department of Housing and Urban Development; provided, however, that the provisions of section thirty-nine M of chapter thirty, and sections forty-four A to forty-four H, inclusive, of chapter one hundred and forty-nine of the General Laws shall not apply to such purchases; and provided, further, that no such purchase shall be undertaken if the amount involved therein is one thousand dollars or over, unless a notice thereof shall have been posted, not less than one week prior to the time of said purchase in a conspicuous place on or near the premises of the officer having charge of any such housing authority making such purchase, and, if the amount therein is in excess of five thousand dollars, unless such a notice shall also have been posted at least once not less than two weeks prior to the time so specified; and published at such other times prior thereto, if any, as the commissioner of administration shall direct, in the central register published by the state secretary pursuant to section twenty of chapter nine.

(b) The division of capital planning and operations, hereinafter called the division, is hereby authorized to execute and deliver, in the name and on behalf of the commonwealth, a lease and garage operating agreement in one or more instruments, with the Theatre District Limited Partnership, a Massachusetts limited partnership, hereinafter called the tenant, with respect to the portions of the department of transportation building, located in the Park Square area of the city of Boston, which have been set aside for retail, restaurant and other commercial uses, consisting of approximately forty-three thousand square feet of gross floor area on the first floor, approximately seven thousand square feet of gross floor area on the second floor, and including the right to use certain other areas on the first and second floors in common with the commonwealth, including approximately five thousand square feet of gross floor area on the first floor; provided, however that a minimum of fifty-one per cent of the net available first floor space shall be dedicated to retail stores.

The annual rental payment to the commonwealth over the term of the lease shall be ten per cent of the gross receipts or fifty per cent of the net profits, whichever is the greater; provided, however, that annual minimum rental payment shall not be less than fifty thousand dollars for years one through five of the lease, nor less than one hundred thousand dollars for years six through ten of the lease, and thereafter the annual minimum rental payment shall be increased by the annual percentage increase in the consumers price index; provided, further, that said rent shall not be reduced from year eleven on below the preceding years annual minimum rent paid to or due the commonwealth for any year in which the consumers price index should go below the index for the year preceding; and provided, further, that said minimum rent shall be in accordance with the terms of the lease and of this act, and said rental payment shall not be subordinated to any lease-hold mortgage of the tenant.

Within sixty business days after the commencement of the lease, tenant shall pay an initial security deposit of fifty thousand dollars to the commonwealth or shall deliver to the commonwealth an irrevocable and unconditional letter of credit in the amount of fifty thousand dollars to secure tenant's performance of its obligations under the lease, including the payment of minimum rent, and said security deposit or letter of credit, as the case may be, shall not be released until the commonwealth has received a total of at least one hundred thousand dollars in net profits from the prior years operation of the leased pre-

mises. The lease shall provide that the commonwealth may repossess the leased premises if payment of the minimum rent, the commonwealth's share of profits or any other sum is not timely paid, or if the tenant otherwise defaults and that notwithstanding such default, the tenant will continue to owe the minimum rent and any other sums due under lease and shall also be obligated for the commonwealth's cost of releasing the premises. The tenant shall carry, in an amount approved in writing by the deputy commissioner of the division, hereinafter called the deputy commissioner, comprehensive general liability insurance protecting tenant and the commonwealth against personal injuries and property damage occurring in said leased premises and appurtenant common areas, and such fire and extended risk insurance, as said deputy commissioner deems appropriate covering all nonstructural portions of said leased premises. Said lease shall require tenant to furnish to said deputy commissioner insurances covering and protecting said buildings against damages resulting from tenants' renovation work in amounts deemed necessary and adequate by said deputy commissioner. Said lease and agreement shall be in such form and contain such provisions consistent herewith as the division in consultation with the secretary of transportation and construction may determine.

Said lease shall be for an original term not exceeding thirty-six years, and may provide options to extend the term for two consecutive periods of ten years each. If the division so determines, in order to facilitate financing or refinancing by the tenant, the second option period may exceed ten years in the event of a foreclosure by or transfer in lieu of foreclosure to a leasehold mortgage lender, but in no event shall the second option period as extended be for a term in excess of twenty years.

Said lease shall provide that the second floor of said building shall be used primarily for restaurant or other food service facilities; provided, however, that the lease shall also contain provisions satisfactory to the deputy commissioner for the reversion to the commonwealth of said second floor premises or portions thereof in the event the deputy commissioner determines that the tenant is not providing adequate levels of food service for state employees occupying said building. The deputy commissioner shall abide by and implement the provisions of sections one hundred and thirty-three A, one hundred and thirty-three C, one hundred and thirty-three E and one hundred and thirty-three F of chapter six of the General Laws with regard to the portions of said building not subject to the lease and agreement authorized hereby.

Said deputy commissioner shall provide the house and senate chairmen of the joint committee on state administration and the inspector general with a copy of said lease and agreement at least twenty business days prior to the execution thereof by said

deputy commissioner. Said inspector general shall review and comment within fifteen business days of the receipt of such lease and agreement by the inspector general. A copy of said review and comment, and any recommendations thereon by the inspector general, shall be sent to the house and senate chairmen of the joint committee on state administration. Said lease and agreement, when executed by the deputy commissioner, shall be deemed conclusively authorized hereby; provided, however, that it contains provisions consistent with the provisions of this act. The deputy commissioner from time to time is hereby also authorized to execute and deliver, in the name and on behalf of the commonwealth, a notice of lease for recording and any and all other agreements and instruments related to the lease and agreement authorized hereby which said division may determine appropriate from time to time. Any such notice of lease, agreement or instrument, when executed by the deputy commissioner, shall be deemed conclusively authorized hereby; provided, however, that it contains provisions consistent with this act.

Said lease shall include provisions, satisfactory to the division, to ensure that the net profits or gross receipts will be computed in a fair and reasonable manner. In computing the gross receipts or net profits from such operations, fees for specified activities may be paid to the tenant and deducted as an expense; provided, however, that the amount of any such fee shall be approved by the division. In addition the lease shall require that any other payment to any party which is affiliated with the tenant shall not exceed the most favorable available cost of similar or equivalent service from third party suppliers, and no deduction, offset or expense shall be taken for wages, salaries, fringe benefits or other costs of the tenant's employees, principals or personnel, except those employees stationed and those employees of the tenant not stationed on-site who are regularly engaged in the provision of service for the operation and maintenance of the premises or common areas. No wages, salaries, fringe benefits, deductions, offset or expense, or other costs of the tenant shall be paid to any owner or principal of the tenant; nor to the spouse, parents, children, brothers, sisters, grandparents, grandchildren, aunts, uncles, nieces, nephews, natural or otherwise; nor to the father-in-law, mother-in-law, brother-in-law, or sister-in-law of said tenant. The lease shall require the tenant to submit, prior to the first day of each calendar year, an annual operating expense budget, which shall be subject to the approval of the division. The division shall have the right to object to any item included therein. The lease shall require the tenant to obtain an annual financial audit of the financial books and records relating to such lease from an independent certified public accountant or accounting firm approved by the division, and the commonwealth shall have the audit rights described in subsection (k).

(c) Any operating agreement with the tenant pertaining to said garage shall be for an original term expiring on December thirty-first, nineteen hundred and eighty-six; provided, however, that such operating agreement may be extended thereafter for additional periods not exceeding five years each in accordance with the terms of the lease authorized hereby; and, provided further, that each such extension shall be granted only for the immediately succeeding extension period.

If the lease with tenant is terminated and at such time the tenant is the garage operator, the operating agreement with the tenant for the garage shall immediately terminate and any and all further obligations of the commonwealth to the tenant with regard to the garage operating agreement including the division of net rental income shall be null and void and without recourse to either party.

The operating agreement with the tenant for said garage shall provide that the commonwealth shall receive not less than eighty per cent of the net profits from the operation of said garage, as such terms are to be defined in the operating agreement authorized hereby, until six years after the commencement date; provided, however, that thereafter, any subsequent extensions shall provide that the commonwealth will receive not less than eighty per cent of the net profits of said garage.

Any operating agreements for said garage with any party other than the tenant shall provide that the commonwealth will receive not less than eighty per cent of the net profits of said garage.

The operating agreement shall include provisions, satisfactory to the division, to ensure that gross receipts or net profits will be computed in a fair and reasonable manner. In computing the net profits from such operations, fees for specified activities may be paid to the tenant and deducted as an expense, provided, however, that the amount of any such fee shall be approved by the division. In addition the agreement shall require that any other payment to any party which is affiliated with the tenant shall not exceed the most favorable available cost of similar or equivalent service from third party suppliers, and no deduction, offset or expense shall be taken for wages, salaries, fringe benefits or other costs of the tenant's employees, principals or personnel, except those employees stationed and those employees of the tenant not stationed on-site who are regularly engaged in the provision of service for the operation and maintenance of the premises or common areas. No wages, salaries, fringe benefits, deductions, offset or expense, or other costs of the tenant shall be paid to any owner or principal of the tenant; nor to the spouse, parents, children, brothers, sisters, grandparents, grandchildren, aunts, uncles, nieces, nephews, natural or otherwise; nor to the father-in-law, mother-in-law,

brother-in-law, or sister-in-law of said tenant. The agreement shall require the tenant to submit, prior to the first day of each calendar year, an annual operating expense budget, which shall be subject to the approval of the division. The division shall have the right to object to any item included therein. The agreement shall require the tenant to obtain an annual financial audit of the financial books and records relating to such agreement from an independent certified public accountant or accounting firm approved by the division, and the commonwealth shall have the audit rights described in subsection (k) of this act.

(d) The lease and agreement for the retail, restaurant, parking garage, or other commercial areas of said building as described in this act and any renewal, extension, or transfer of such lease and agreement, shall not be effective until thirty business days after a statement required under the provisions of section forty J of chapter seven of the General Laws, has been filed with the division and a copy of same has been sent to the inspector general, and the joint committee on state administration.

Each sublease shall require each subtenant to comply with the provisions of said section forty J.

(e) The premises shall be used as a first-class mixed use retail mall containing commercial, retail, restaurant and entertainment uses normally and usually found in a first-class urban shopping center consistent with the public nature of the building. The public name of the premises and the name of each establishment located on said premises shall be consistent with such standard of use.

(f) Prior to the execution of the lease and prior to the deputy commissioner's consenting to any assignment of the lease, the tenant shall furnish the deputy commissioner with a written statement, in a form satisfactory to the deputy commissioner, listing the names and addresses of all persons who have a direct or indirect beneficial interest in the tenant. Prior to execution of each sublease of any portion of the premises and prior to the effective date of an assignment, renewal or extension of any such sublease, the subtenant thereunder shall furnish the deputy commissioner with a written statement, in a form satisfactory to the deputy commissioner, listing the names and addresses of all persons who have a direct or indirect beneficial interest in such subtenant. The deputy commissioner shall immediately submit a copy of each such statement to the commissioner of revenue for review. If, within thirty business days after delivery of a statement to the commissioner of revenue, the commissioner of revenue determines that, in the case of the lease, the tenant or any such person with such a beneficial interest in the tenant, or, in the case of a sublease, such subtenant or any such person with such a beneficial interest in such subtenant,

has neglected or refused to file any returns or pay any taxes required to be paid to the commonwealth under the General Laws and that such person has not filed in good faith a pending application for abatement of such tax or a pending petition before the appellate tax board contesting such tax or that such person is not otherwise contesting such tax in accordance with law, and if the commissioner of revenue shall so notify the deputy commissioner and the tenant in writing prior to the expiration of such thirty business day period, then, in the case of the lease, the deputy commissioner shall not execute and deliver to the tenant the lease or its consent to an assignment thereof, as the case may be, and, in the case of a sublease, the tenant shall not execute and deliver such sublease or, in the case of renewal, extension or assignment of a sublease, the same shall not be effective, unless and until the deputy commissioner receives a certificate issued by the commissioner of revenue that such person is in good standing with respect to any and all returns due and taxes payable to the commonwealth under the General Laws as of the date of issuance of such certificate. If the commissioner of revenue shall not, in any such case, within such thirty business day period so notify the deputy commissioner and the tenant of any such neglect or refusal, then, in the case of the lease, the deputy commissioner may thereupon execute and deliver the lease or the consent to an assignment thereof and, in the case of a sublease, the tenant may thereupon execute and deliver such sublease or, in the case of renewal, extension or assignment of a sublease, the same may thereupon become effective. The provisions of this subsection shall not apply to the granting of any leasehold mortgage by the tenant, but this subsection shall apply to a foreclosure, or transfer in lieu of foreclosure, of a leasehold mortgage.

(g) No lease, nor any sublease shall be granted or assigned for the use of any retail or commercial space within, or upon any land which makes up such building to any individual, corporation, company, business, partnership, or any other entity for the purposes of engaging in, on the premises, the sale, rental, or other dissemination of pornographic materials, including but not limited to, books, magazines, movie films, video tapes, video cassettes, video disks, slides, still pictures, live nude or erotic entertainment, erotic devices and associated paraphernalia, or any advertisement of the aforementioned.

No lease, nor any sublease shall be granted or assigned to any individual, corporation, company, business, partnership, or any other entity for the keeping and operating of a video arcade, within, or about the premises of said building.

No lease, nor any sublease, shall be granted or assigned to any individual, corporation, company, business, partnership, or any other entity (i) for the purpose of operating any establishment with an alcoholic beverage license unless such establishment

prepares food for consumption on the premises, or (ii) for the purpose of operating any establishment where dancing to live, recorded, or transmitted music is permitted unless such establishment has an alcoholic beverage license and prepares food for consumption on the premises.

No lease, nor any sublease shall be granted or assigned to any individual, group of individuals, commission, committee, association, corporation, political party, or any other entity which has as its purpose electing, promoting, or endorsing the political campaign of any individual, group of individuals, profit or nonprofit organization, or political party, including any ballot question or legislation, at a local, county, state, or national level and which anticipates using the premises for such purposes. This section shall not prevent the lease or sublease to any governmental unit of the commonwealth or any creation or subdivision thereof.

All leases and subleases on such premises shall contain language which shall prohibit the uses and activities proscribed by this section.

The deputy commissioner shall report to the committee on state administration and the inspector general in writing any violation hereof.

(h) The lease, and all subleases, shall contain appropriate restrictions prohibiting discrimination by the tenant and any subtenants, contractors, employees or other persons dealing with the tenant with respect to the leased portions of the building described in subsection (b) on the basis of race, creed, color, sex, age, national origin, religion or handicap; and shall require observance of appropriate affirmative action provisions.

(i) The leasehold interests under a lease authorized by this act shall be assessed and taxed to the tenant thereof or his assigns under section two B of chapter fifty-nine of the General Laws in the same manner and the same extent as if such tenant or his assigns were the owner thereof in fee, except that no part of the value of land shall be included in any such assessment. No tax assessed to the tenant under section two B of chapter fifty-nine shall be retained out of rent or recovered under section twelve C of said chapter fifty-nine.

(j) Licenses may be granted or transferred, as provided for in chapter one hundred and thirty-eight of the General Laws or by rule or regulation of the alcoholic beverages control commission, for the sale of alcoholic beverages within establishments covered by a lease, sublease, or other agreements authorized by this act.

Any transfer or grant of such alcoholic beverage license shall require the prior written approval of the deputy commissioner. The deputy commissioner shall provide a copy of such written approval to the joint committee on state administration at least thirty business days prior to the transfer or grant of any such

alcoholic beverage license. Nothing contained in this act shall be construed to increase the total number of alcoholic beverage licenses which may be granted by the city of Boston.

(k) The lease and agreement authorized by this act shall contain language which shall permit the auditor of the commonwealth, or his designee, to inspect, and to audit, any of the tenant's financial books and records relating to such lease and agreement at any time upon reasonable notice. The lease shall require the tenant to obtain an annual audit of the financial books and records relating to such lease and agreement from an independent certified public accountant or accounting firm approved by the deputy commissioner. The deputy commissioner shall annually on or before September first file a copy of such audit with the state auditor, the clerk of the house of representatives and the clerk of the senate, the house and the senate committees on ways and means and the joint committee on state administration.

(l) The leasehold interest and other rights created by the lease and agreement authorized by this act may be subleased, assigned, pledged, mortgaged and otherwise dealt with subject to and in accordance with the terms of such lease and agreement, and any pledge or mortgage may be foreclosed subject to the terms of such lease and agreement.

(m) The provisions of sections forty H and forty I of chapter seven and section twenty A of chapter nine of the General Laws shall not apply to the lease and renewals or extensions or amendments and agreements authorized by this act, but shall be applicable to all future leases entered into by the commonwealth with respect to said department of transportation building, and all renewals and extensions of such future leases.

(n) The division and the Massachusetts Port Authority may enter into a contract for the provision of building management services by the authority to the division for the operation and maintenance of said building as described in subsection (b). The initial contract shall be for a term which shall not extend beyond June thirtieth, nineteen hundred and eighty-five. The division shall annually review said authority's performance against explicit maintenance performance criteria which shall be incorporated into the contract. The division may negotiate twelve month contract renewals, if warranted by the authority's performance. The deputy commissioner shall thirty business days prior to the renewal of such contract send a copy thereof, together with a copy of the division's evaluation of said authority's performance against such maintenance performance criteria, to the inspector general for his review and comment. The inspector general shall issue his review and comment within fifteen business days of his receipt thereof. Neither the initial contract, nor subsequent amendments or renewals thereof, shall become effective until the inspector general has reviewed and

commented on said contract, or any such amendments or renewals. The house and senate chairmen of the joint committee on state administration shall be sent a copy of the review and any comments thereon by said inspector general.

In carrying out its duties and responsibilities under said building management services contract, the Massachusetts Port Authority shall abide by all laws applicable to public agencies; provided, however, that building projects at said building, the estimated cost of which exceed twenty-five thousand dollars and that involve structural or mechanical work, shall remain under the control and supervision of the division in accordance with section forty B of chapter seven of the General Laws and shall be undertaken in accordance with all laws applicable to state agencies.

The deputy commissioner shall annually, on or before September first, submit to the joint committee on state administration a comprehensive report on the maintenance, repair and management of said property.

The division and the authority are hereby authorized to enter into a lease or other agreement consistent with the provisions of section one of this act to develop the portions of the building which have been set aside for retail, restaurant and other commercial and parking uses. Said deputy commissioner shall provide the house and senate chairmen of the joint committee on state administration and the inspector general with a copy of such lease or agreement at least twenty business days prior to the execution thereof by the said deputy commissioner.

(o) There shall be established and set up on the books of the commonwealth a separate fund, to be known as the Transportation Building Management Fund. Said fund shall consist of all revenues received by the division from the operation of said building and the parking garage therein, including any rental charges paid to the division by public agencies occupying space in said building, and all other monies credited or transferred thereto from any other fund or source pursuant to law. Said funds shall be expended, subject to appropriation and the laws relating to state finances, for the operation, maintenance, and repairs to said building and for the establishment of reserve accounts for working capital, maintenance and repairs. The division at its discretion may transfer monies between those reserve accounts. The division shall send written notification to the house and senate chairmen of the joint committee on state administration and the house and senate committees on ways and means of any such transfer.

The deputy commissioner shall file with the commissioner of administration, the house and senate chairmen of the joint committee on state administration, and the state auditor not later than September first of each year an annual report of the fund's income, expenditures, and available balances, based upon the

status of the fund on June thirtieth of the preceding fiscal year. The report shall include the deputy commissioner's recommendations, if any, regarding the transfer of surplus monies from said fund into the General Fund. The fund shall be subject to an annual audit by the state auditor, a copy of which shall be sent to the house and senate chairmen of the joint committee on state administration and the house and senate committee on ways and means.

SECTION 2. In the event that the division of capital planning and operations is unable to successfully negotiate the lease authorized by this act with the Theatre District Limited Partnership or the Massachusetts Port Authority, said division is authorized to enter into one or more leases that comply with the aforementioned provisions of this act; provided, however, that said division shall comply with the provisions of sections forty H and forty I of chapter seven of the General Laws in obtaining proposals to enter into a lease or leases authorized by this section.

SECTION 3. If any provisions of this act shall be held invalid in any circumstances, such invalidity shall not affect any other provisions and shall be severable.

Chap. 250. AN ACT PROVIDING FOR THE REESTABLISHMENT OF A HOUSING REVIEW BOARD IN THE CITY OF LOWELL.

Be it enacted, etc., as follows:

SECTION 1. Declaration of Emergency. The general court finds and declares that a serious public emergency exists in the city of Lowell with respect to availability and quality of the housing of a substantial number of residents of said city. This emergency has been created by housing demolition, expanding student population, deterioration within the existing housing stock and the national and area economic conditions which have deterred new construction of housing accommodations and placed such new housing above the means of low and moderate income residents. The general court further finds that because of the substantial and increasing shortage of rental housing accommodations, abnormally high rents have resulted and, unless residential rents become subject to review and control on a case-

by-case basis, such emergency and the further inflationary pressures resulting therefrom will produce serious threats to the public health, safety and general welfare of the residents of Lowell; that such emergency should be met by the commonwealth immediately with due regard for the rights and responsibility of the city of Lowell.

SECTION 2. The city of Lowell is hereby authorized to establish a Housing Review Board, hereinafter referred to as the board, to accept individual petitions by tenants on a form approved by the board, and to determine when rent increases appear, in the judgment of said board, to be excessive and unreasonable. Any such petitions shall be filed with the board within thirty days after the tenant's receipt of the landlord's notice of the rent increase.

SECTION 3. The board shall consist of seven members, who shall be residents of the city of Lowell, appointed by the city manager and confirmed by the city council of said city, to serve without compensation for a term of one year. The board shall consist of one owner of rental residential property, one tenant, and five persons who own single family residences.

The board shall promulgate rules and regulations for the conduct of its business as are allowed and are consistent with the provisions of this act.

The board shall have jurisdiction to accomplish the purpose of this act over all rental units in the city of Lowell except (1) rental units in motels, inns, and tourist homes, and rental units in rooming or boarding houses in which the tenant petitioner has resided for a period of three months or less; (2) rental units which a governmental unit, agency or authority either owns, operates, finances or subsidizes; (3) rental units in any hospital, convent, monastery, asylum, public institution, college or school dormitory operated exclusively for charitable or educational purposes; (4) rental units in nursing homes and rest homes for the aged; (5) rental units in owner-occupied two, three or four family houses; and (6) rental units in cooperatives or condominiums.

The board shall secure such information and conduct such studies, either directly or through other municipal agencies, and may summons such persons, papers or documents as it finds necessary for the performance of its duties.

SECTION 4. The board may deny, regulate or modify rent increases which it finds to be unreasonable or excessive.

The board shall deny rent increases when it determines that the affected premises do not comply with Chapter 11 of the State Sanitary Code, the State Building Code or any other applicable municipal code, ordinance, or state law, regulating the condi-

tions of residential housing accommodations. However, the board may allow a rental increase in any case if it determines that the tenant is more than thirty days in arrears in tendering rent, unless such arrearage is due to a withholding of rent pursuant to the provisions of section one hundred and twenty-seven L of chapter one hundred and eleven or section eight A of chapter two hundred and thirty-nine of the General Laws.

The board shall deny a rent increase in any case where it finds that the landlord has not served the tenant with a written notice to quit including an offer to establish a new tenancy pursuant to section twelve of chapter one hundred and eighty-six of the General Laws.

SECTION 5. Within thirty days of receipt of a petition of a tenant presenting a rental dispute the board shall conduct a hearing to settle said dispute in a fair and equitable manner and to adjust the rent of the rental unit involved, if said unit is not exempt under section three, in a fair and reasonable manner, and the board shall allow the landlord in each such case a fair and reasonable net operating income, in accordance with such standards as shall be established by the board, with the approval of the city manager and city council.

Standards to determine a fair and reasonable net operating income for landlords shall be reviewed and reestablished annually by the board prior to October first of any succeeding year, and shall be submitted annually prior to October first of any succeeding year for the approval of the city manager and city council.

Every decision of the board shall be rendered within fourteen days of the close of a hearing. The decision shall be in writing and parties to the proceedings shall be notified of the decision in person or by mail.

Any orders issued by the board shall remain in effect for a period of one year unless modified by the board.

SECTION 6. Any aggrieved party may file a civil action against the board in the district court of Lowell, or in any housing court having jurisdiction within thirty days of receipt of a decision by the board. The court shall review and decide such action pursuant to the standards set forth in paragraph (7) of section fourteen of chapter thirty A of the General Laws.
The district court of Lowell, or such housing court, shall have jurisdiction to enjoin any violation of this act.

SECTION 7. Any person who demands, accepts, receives or retains any payment of rent in excess of the amount authorized by the board shall be liable to the person from whom such payment is demanded, accepted, received or retained, or to the municipality, for reasonable attorney's fees and costs as deter-

mined by the court, plus liquidated damages in the amount of four hundred dollars.

SECTION 8. The necessity for the continuation of the board shall be reviewed annually by the city manager and city council. The board shall expire on the first day of October of each year, beginning in the year nineteen hundred and eighty-five, unless previously renewed by a vote of the city council based on the annual review.

SECTION 9. Any owner of residential property within the city of Lowell which is not exempt under the provisions of section three may not bring eviction proceedings against a tenant for a period of one year after the tenant has filed a complaint with the board, unless (1) the tenant has failed to pay the rent to which the landlord is entitled; (2) the tenant has violated an obligation or covenant of his tenancy other than the obligation to surrender possession upon proper notice and has failed to cure such violation after having received notice thereof from the landlord; (3) the tenant is committing or permitting to exist a nuisance in or is causing substantial interference with the comfort, safety, or enjoyment of the landlord or other occupants of the same or any adjacent accommodation; (4) the tenant is convicted of using or permitting the rental unit to be used for any illegal purpose; (5) the tenant, following the termination of a written lease or rental agreement after this act has taken effect, has refused, after written request or demand by the landlord, to execute a written extension or renewal thereof for a further term of like duration and on such terms that are not inconsistent with or violative of any provisions of law; (6) the tenant has refused the landlord reasonable access to the unit for the purpose of making necessary repairs or improvements required by the laws of the United States, the commonwealth, or the city of Lowell, or for the purpose of inspection as permitted or required by the lease or by law, or for the purpose of showing the rental unit to any prospective purchaser or mortgagor; (7) the person holding at the end of a lease term is a subtenant not approved by the landlord; (8) the landlord seeks to recover possession in good faith for use and occupancy of himself, or his children, parents, brother, sister, father-in-law, mother-in-law, daughter-in-law or son-in-law; (9) the landlord seeks to recover possession to demolish or otherwise remove the unit from housing use; or (10) that landlord seeks to recover possession for any other just cause, provided that his purpose is not in conflict with the provisions and purpose of this act.

the medicaid costs computed pursuant to the hospital agreement, exclusive of costs recognized as exceptions under the hospital agreement and as adjusted pursuant to section fifty-two A, for each of the following fiscal years shall be reduced by the productivity factor indicated: beginning with the fiscal year ending in nineteen hundred and eighty-three and continuing through the fiscal year ending in nineteen hundred and eighty-nine, the productivity factors shall be two per cent, four per cent, six per cent, five per cent, four per cent, two per cent and one per cent, respectively.

(c) The medicaid basis of payment for a particular fiscal year shall be obtained as follows:

(1) For fiscal years ending in nineteen hundred and eighty-three and nineteen hundred and eighty-four, the medicaid basis of payment shall be the product of: (i) medicaid costs, as reduced by the productivity factors prescribed in paragraph (a) or (b); multiplied by (ii) the medicaid payment ratio, as computed pursuant to subsection C.

(2) For fiscal years ending in nineteen hundred and eighty-five and thereafter, the medicaid basis of payment shall be equal to medicaid costs as reduced by the productivity factors prescribed in paragraph (a) or (b).

(3) For any fiscal year of any acute hospital that exhibits a payor mix where a minimum of sixty-eight per cent of the acute hospital's gross patient service revenue was attributable to Title XVIII and Title XIX of the federal social security act and local and state government subsidy and free care and bad debt, Title XIX reimbursement shall be calculated with the addition of free care as a definition of reimbursable costs. The Title XIX share of free care shall be calculated using Title XIX charges divided by total charges. Such relief shall be granted based upon projected budget year utilization data, by payor mix. The commission shall have the right to request any reasonably attainable data in order to approve or deny any requests for relief under the provisions of this subparagraph.

(d) Medicaid payments shall be computed by apportioning the medicaid basis of payment, derived under paragraph (c), to medicaid and all other payors pursuant to the apportionment methods specified in the hospital agreement using the charge data applicable to Title XIX beneficiaries. For fiscal years ending in nineteen hundred and eighty-five and thereafter, the resulting medicaid payments shall be adjusted by subtracting the amount determined pursuant to paragraph (e).

(e) The amount subtracted from medicaid payments pursuant to paragraph (d) shall be determined as follows:

(1) Apportion the fiscal year nineteen hundred and eighty-three medicaid costs, reduced by the fiscal year nineteen hundred and eighty-three productivity factor as specified in paragraph (a) or (b), to medicaid and all other payors pursuant to

the apportionment methods specified in the hospital agreement using the fiscal year nineteen hundred and eighty-three charge data applicable to Title XIX beneficiaries.

(2) Subtract from one (1) the medicaid payment ratio determined pursuant to subsection C for the fiscal year for which payments are being calculated.

(3) Calculate for the hospital the ratio of: (i) medicaid costs of the fiscal year for which medicaid payments are being calculated, excluding the portion, if any, attributable to free care under subparagraph (c), and excluding the portion, if any, attributable to all volume allowances, including volume allowances associated with exceptions approved pursuant to the applicable hospital agreement, accruing for fiscal years after fiscal year nineteen hundred and eighty-three, and further adjusted pursuant to section fifty-two A and reduced by the productivity factors specified in paragraph (a) or (b); to (ii) medicaid costs of fiscal year nineteen hundred and eighty-three, excluding the portion, if any, attributable to free care under this subparagraph of this subsection B, and reduced by the productivity factors specified in paragraph (a) or (b).

(4) Multiply: (i) the Title XIX portion of medicaid costs as determined pursuant to subparagraph (1); times (ii) the difference calculated pursuant to subparagraph (2); times (iii) the ratio calculated pursuant to subparagraph (3). This product is the amount which shall be subtracted from medicaid payments pursuant to paragraph (d).

C. The medicaid payment ratio used in subsection B is to be calculated in accordance with the following provisions:

(a) For the fiscal year ending in nineteen hundred and eighty-three, the medicaid payment ratio shall be calculated as specified in subparagraph (1) where the proportions are calculated relative to the total number of Title XIX days including Title XIX newborn and Title XIX administratively necessary days, and revised in accordance with subparagraphs (2) and (3) and subsection F.

(1) The proportion of fiscal year nineteen hundred and eighty-two Title XIX inpatient days, excluding Title XIX newborn days and administratively necessary days, multiplied by the fiscal year nineteen hundred and eighty-two Title XIX adult and children per diem rate, plus the proportion of fiscal year nineteen hundred and eighty-two Title XIX newborn days multiplied by the fiscal year nineteen hundred and eighty-two newborn per diem rate, plus the proportion of fiscal year nineteen hundred and eighty-two Title XIX administratively necessary days multiplied by the corresponding fiscal year nineteen hundred and eighty-two Title XIX administratively necessary day rates shall be multiplied by the total number of inpatient days including newborn days and administratively necessary days provided by the hospital in fiscal year nineteen hundred and eighty-two and

the result added to the fiscal year nineteen hundred and eighty-two Title XIX outpatient payment percentage multiplied by the total amount of outpatient charges. The result of this computation shall be divided by the total fiscal year nineteen hundred and eighty-two medicaid costs.

(2) If a hospital's fiscal year nineteen hundred and eighty-two Title XIX per diem rates were adjusted to reflect the deactivation of beds, the fiscal year nineteen hundred and eighty-three medicaid payment ratio shall be calculated using fiscal year nineteen hundred and eighty-two Title XIX rates adjusted to reflect said bed deactivation as if such deactivation were in effect for all of fiscal year nineteen hundred and eighty-two. If, during fiscal year nineteen hundred and eighty-three, the hospital increases the number of beds in the service category to which such deactivation applies, the fiscal year nineteen hundred and eighty-three medicaid payment ratio shall be recalculated utilizing the fiscal year nineteen hundred and eighty-two per diem rates which would have been established if the additional beds had been in service throughout fiscal year nineteen hundred and eighty-two. Such recalculation shall reflect only the increase in beds up to the number which were deactivated in fiscal year nineteen hundred and eighty-two.

(3) The calculation of the fiscal year nineteen hundred and eighty-three medicaid payment ratio shall be revised to incorporate the actual proportions of Title XIX patient days which are categorized as adult and children days, newborn days, and administratively necessary days during the period beginning October first, nineteen hundred and eighty-two and ending on the last day of the hospital's fiscal year ending in nineteen hundred and eighty-three.

(b) For the fiscal year ending in nineteen hundred and eighty-four, and for each fiscal year thereafter, the medicaid payment ratio shall be calculated as follows, where the proportions are calculated relative to the total number of days for all payors, including total newborn and administratively necessary days. The proportion of fiscal year nineteen hundred and eighty-two inpatient days, excluding newborn and administratively necessary days, multiplied by the fiscal year nineteen hundred and eighty-two Title XIX adult and children per diem rate, plus the proportion of fiscal year nineteen hundred and eighty-two newborn days multiplied by the fiscal year nineteen hundred and eighty-two Title XIX newborn per diem rate, plus the proportion of fiscal year nineteen hundred and eighty-two administratively necessary days multiplied by the corresponding fiscal year nineteen hundred and eighty-two Title XIX administratively necessary day rates shall be multiplied by the total number of inpatient days including newborn days and administratively necessary days provided by the hospital in fiscal year nineteen hundred and eighty-two and the result added to the

fiscal year nineteen hundred and eighty-two Title XIX outpatient payment percentage multiplied by the total amount of outpatient charges.

The result of the computation shall be divided by the total fiscal year nineteen hundred and eighty-two medicaid costs. This medicaid payment ratio shall then be revised in accordance with paragraph (c) for hospital fiscal years ending in nineteen hundred and eighty-four and paragraph (d) for hospital fiscal years ending in nineteen hundred and eighty-five.

(c) Notwithstanding any provision to the contrary, the medicaid payment ratio for hospital fiscal years ending in nineteen hundred and eighty-four calculated pursuant to paragraph (b) shall be adjusted so that total Title XIX payments to acute hospitals for services provided during hospital fiscal years ending in nineteen hundred and eighty-four equal fifteen million dollars more than they would if the medicaid payment ratio as calculated pursuant to subparagraph (1) were used. Such adjustment shall be made in two parts.

(1) First, adjust the payment ratio defined in paragraph (b) so that total Title XIX payments to acute care hospitals equal ten million dollars more than they would if the medicaid payment ratio as calculated pursuant to said subparagraph (1) were used. This adjustment shall be made by adding to or subtracting from the medicaid payment ratio defined in said paragraph (b) an equal proportion of each hospital's medicaid payment ratio as calculated pursuant to said paragraph (b); provided, however, that in no case shall a hospital's medicaid payment ratio be less than that calculated pursuant to said subparagraph (1).

(2) Second, further adjust the medicaid payment ratio so that total Title XIX payments to acute care hospitals equal five million dollars more than they would if the medicaid payment ratio as calculated pursuant to subparagraph (1) were used. This adjustment shall be made by adding to the medicaid payment ratio calculated pursuant to said subparagraph (1) for each hospital an equal percentage of the difference between the medicaid payment ratio calculated pursuant to paragraph (b) and that calculated pursuant to said subparagraph (1).

(d) Notwithstanding any other provision to the contrary, the medicaid payment ratio for hospital fiscal years ending in nineteen hundred and eighty-five calculated pursuant to paragraph (b) shall be adjusted so that total Title XIX payments to acute hospitals for services provided during hospital fiscal years ending in nineteen hundred and eighty-five equal forty million dollars more than they would if the medicaid payment ratio as calculated pursuant to subparagraph (1) were used. Such adjustment shall be made by adding to the medicaid payment ratio as calculated pursuant to said subparagraph (1) for each hospital an equal percentage of the difference between the medicaid payment ratio as calculated pursuant to said paragraph (b)

and that calculated pursuant to said subparagraph (1).

(e) The medicaid payment ratio as calculated pursuant to this subsection shall be adjusted to reflect changes in fiscal year nineteen hundred and eighty-two medicaid per diem rates or outpatient rates which result from final disposition of administrative adjustments, audit adjustments, or appeals of rates to the division of hearing officers or the courts, and any changes in the nineteen hundred and eighty-two medicaid costs determined by the provisions of the hospital agreement which result from preliminary and final settlement of liability pursuant to said agreement. For those acute hospitals which exhibit a payor mix where a minimum of seventy-five per cent of the acute hospital's gross patient service revenue was attributable to Title XVIII and Title XIX of the federal social security act and local and state government subsidy and free care and bad debt, this calculation shall not be adjusted due to changes in fiscal year nineteen hundred and eighty-two Medicaid outpatient rates which may be required to conform to Volume 42 of the Code of Federal Regulations 447.321.

SECTION 5. Subsection F of said section 68 of said chapter 6A, as amended by section 4A of chapter 189 of the acts of 1984, is hereby further amended by striking out the last paragraph and inserting in place thereof the following paragraph:-

For each hospital's fiscal year nineteen hundred and eighty-three, the medicaid payment ratio, as calculated and revised pursuant to subsection C, shall be further revised by dividing it by one minus the percentum (positive or negative) of the medicaid payment ratio adjustment.

SECTION 6. Said chapter 6A is hereby further amended by adding the following section:-

Section 74. A. There shall be a rate setting commission hospital advisory and financial assistance board, in this section called the "board", to consist of one member designated by the secretary of the executive office of human services and six members to be appointed by the governor, one of whom shall be appointed from a list of at least three recommendations submitted by the Massachusetts Hospital Association, one of whom shall be a physician appointed from a list of at least three recommendations submitted by the Massachusetts Medical Society, one of whom shall be a representative of a nonprofit hospital service corporation under chapter one hundred and seventy-six A, one of whom shall be a representative of the Life Insurance Association of Massachusetts, Inc., and two of whom shall be nonproviders with experience in or knowledge of the delivery or financing of hospital and health care services who shall represent the interests and concerns of business and labor respectively. Each such member appointed by the governor shall serve

a term of three years and until his successor is duly qualified; provided however, that in making the initial appointments to the board, the governor shall appoint two members for terms of one year each, two members for terms of two years each, and three members for terms of three years each. The governor shall fill any vacancy for the remainder of the unexpired term. The board shall annually elect a chairman from among its members.

B. Acute hospitals may apply to the board for financial assistance pursuant to this section. The board shall make a recommendation to the commission regarding each such application. The board's recommendation shall include the plan required by subsection D and findings of fact regarding the criteria in subsection E. The commission shall, using the standards and criteria of subsections C, D, and E, approve or disapprove each recommendation within thirty days of its receipt from the board. Failure by the commission to act on a recommendation within said thirty days shall constitute approval of the board's recommendation. The commission may not approve assistance without a recommendation of assistance by the board. Total authorizations pursuant to subsections C and F shall not exceed ten million dollars during each fiscal year, the first fiscal year beginning October first, nineteen hundred and eighty-four.

C. Assistance provided pursuant to this section may be one or several of the following: loan guarantee, loan, or direct payments.

D. Assistance made pursuant to this section shall be contingent on the hospital's agreement to and continued compliance with a plan of action for the correction of those factors identified by the board as responsible for the financial weakness necessitating assistance.

E. The hospital in its application shall demonstrate the following:

(a) Whether failure to provide assistance will necessarily jeopardize the continued provision of essential hospital services to citizens of the commonwealth.

(b) Whether alternative methods exist to relieve the financial distress for which assistance is requested. Alternative methods to be considered shall include but need not be limited to merger and consolidation of services with neighboring hospitals or other health care providers and closure of under-utilized services.

(c) The extent to which the hospital serves a significant number of indigent patients.

The board in its recommendation and the commission in its approval or disapproval shall consider the foregoing factors, as well as the availability of funds in light of the annual limitation on assistance approvals contained in subsection B.

F. In order to carry out its obligations under this section, the board upon approval by the commission may enter into contracts and agreements, including agreements with professional

consultants, conduct investigations, initiate studies and require the filing of information relative to any matter affecting the cost and availability of services in any acute care hospital filing for relief under the provisions of this section. The board shall consult with agencies of the commonwealth and health systems agencies designated under federal health planning in order to determine whether the hospital is in conformance with the policies and goals of the state health plan as established under 42 USC 300k.

G. (a) Assistance payments approved by the commission and contracts and agreements entered into pursuant to subsection F for the purpose of determining whether and how to grant assistance shall be paid from a trust fund established for the purpose by the state treasurer.

(b) Each acute hospital shall pay to the commission for the creation of said fund an equal percentage of its patient care costs for fiscal year nineteen hundred and eighty-four. The commission will calculate this percentage so that this assessment for the creation of the fund totals one million dollars. The board may, with the approval of the commission, establish a schedule of periodic payments of this initial assessment based on its projection of the fund's need for cash, provided that all assessments must be paid in full by October first, nineteen hundred and eighty-five.

(c) Acute hospitals shall make additional payments to the commission for the trust fund pursuant to this paragraph. Each acute hospital shall be assessed by the board, subject to the approval of the commission, an equal percentage of its then-current patient care costs as necessary in the opinion of the board to assure the timely payment of all assistance approved pursuant to this section and of contracts and agreements entered into pursuant to subsection F. Assessments made for assistance which is in the form of a loan guarantee may be deferred indefinitely, to be paid only if and when the guarantee must be fulfilled. When making assessments, the board shall endeavor to anticipate the fund's needs in order to provide hospitals reasonable advance notice and payments. It shall also endeavor to avoid substantial cash balances in the fund for extended periods of time.

(d) Payments made to the assistance fund pursuant to this subsection shall not be included in patient care costs or otherwise recognized pursuant to the hospital agreement. Fifty per cent of payments made pursuant to paragraph (c) shall be added to the working capital allowance determined by the commission in accordance with section fifty-one.

(e) Payments to the trust fund shall be paid within thirty days of billing. Assessments which are not paid within thirty days of billing shall be charged interest.

H. The board shall annually on or before February first make a report of its activities to the general court. Said report shall include a summary of each application received, the action taken on each application, and the reason therefor. The report shall also contain financial statements for the fund established pursuant to subsection G.

I. In the event that this section ceases to be operative because Medicare experimental project P-98199/1-01 as amended ceases to be in effect for a period of six consecutive months, any unencumbered balance of the assistance fund shall be disbursed to acute hospitals in proportion to their payments into it.

J. Actions of the board or the commission pursuant to this section shall not be appealable pursuant to section thirty-six.

SECTION 7. Section six of chapter three hundred and seventy-two of the acts of ninteen hundred and eighty-two is hereby repealed.

SECTION 8. There shall be a study commission to consist of eight members which shall undertake an investigation and study of the organization, delivery, and financing of health care services for recipients of benefits under chapter one hundred and seventeen.

One member of the study commission shall be designated by the secretary of the executive office of human services, and seven members to be appointed by the governor, one member to represent each of the following: the Massachusetts Hospital Association, the Massachusetts Medical Society, Blue Cross of Massachusetts, Inc., the Life Insurance Association of Massachusetts, business, labor, and recipients of benefits under chapter one hundred and seventeen of the General Laws.

Said commission shall develop a plan to monitor the costs and utilization of health care services for recipients of benefits under chapter one hundred and seventeen, and to examine the composition and trends over time in the recipient caseload. The commission shall prepare a preliminary report to the general court which shall be filed with the clerk of the house of representatives on or before April first, nineteen hundred and eighty-six.

Said commission shall also explore the feasibility of a system of managed care for ensuring the appropriate utilization of health care services by this population, and shall evaluate financing options for these services. The commission shall file its final report with the results of its study and recommendations no later than April first, nineteen hundred and eighty-seven.

SECTION 9. If the Medicare experimental project P-98199/1-01 or any extension thereof or successor thereto ceases to be in

effect for a period of six consecutive months, then at the end of such six month period, provisions of this act will become void and cease to be in effect.

SECTION 10. If any clause, sentence, paragraph, subsection, section, or chapter of this act shall be adjudged to be invalid by any court of competent jurisdiction, the judgment shall not affect, impair, or invalidate the remainder thereof.

SECTION 11. No other section of this act shall become operative unless any federal approval of the provisions of sections three, four, and five of this act required by the terms of the waiver of Title XIX principles of reimbursement dated September thirtieth, nineteen hundred and eighty-two is obtained and in effect.

Approved December 18, 1984.

Section 96. The state building code shall incorporate any specialized construction codes, rules or regulations pertaining to building construction, reconstruction, alteration, repair or demolition promulgated by and under the authority of the various boards which have been authorized from time to time by the general court.

The specialized codes referred to in this section shall include, but not be limited to, the state plumbing code, electrical code, architectural barriers regulations, fire safety code, fire prevention regulations and elevator regulations.

Section 97. Except for the specialized codes, as defined in section ninety-six, which codes shall be amended only by the respective boards, commissions, departments or agencies authorized to do so by law, any person may propose amendments to the state building code. Public hearings shall be held in the city of Boston in May and November of each year, and at such other times and places as the board may determine, to consider petitions for such amendments. Petitions shall be submitted to the board no less than sixty days prior to the public hearing. The subject matter of a petition to be considered shall be indicated in all the required notices. The petitions shall be available for inspection at the office of the board and at the hearing. Any

significant changes to the petition shall be the subject of a further public hearing before adoption. The board shall send a copy of any amendments to the state building code which are adopted to each inspector of buildings or building commissioner, as defined by section one of chapter one hundred and forty-three, and to the secretary of the executive office of public safety within a reasonable time after filing said amendments with the state secretary.

Section 98. The board of selectmen in a town or the mayor in a city may recommend to the board the adoption of rules and regulations imposing more restrictive standards than those established by the state building code for construction, alteration, repair, demolition, and removal in such a city or town. If the board finds that more restrictive standards are reasonably necessary because of special conditions prevailing within such city or town and that such standards conform with accepted national and local engineering and fire prevention practices, with public safety and with the general purposes of a statewide building code, the board may, after notice to said board of selectmen or mayor, and after a public hearing, adopt rules and regulations, impose conditions in connection with the adoption thereof and terminate such rules and regulations at such time and in such manner as the board may deem necessary, desirable or proper.

Section 99. The board shall prepare and administer a continuing educational program of instruction designed to assist all local and state inspectors of buildings in executing their responsibilities under this chapter. Regular attendance at these meetings shall be required of all state and local inspectors and such instruction shall be given at such times and places as will insure its availability to state and local inspectors. No state or local inspector who attends such course of instruction shall lose any rights relative to compensation or vacation time.

Section 100. There shall be in the executive office of public safety a building code appeals board, hereinafter called the appeals board, to consist of the board established under the provisions of section ninety-three.

Whoever is aggrieved by an interpretation, order, requirement, direction or failure to act by any state or local agency or any person or state or local agency charged with the administration or enforcement of the state building code or any of its rules and regulations, except any specialized codes as described in section ninety-six, may within forty-five days after the service of notice thereof appeal from such interpretation, order, requirement, direction, or failure to act to the appeals board.

Appeals hereunder shall be on forms provided by the appeals board and shall be accompanied by such fee as said appeals board may determine.

The state, city or town officer in charge of the records and all other papers and documents relative to an appeal shall forthwith, upon receipt of a request of the appeals board, transmit such papers and documents constituting such record to the appeals board.

Chap. 372. AN ACT PERTAINING TO THE METROPOLITAN WATER DISTRICT AND THE METROPOLITAN SEWER DISTRICT OF THE METROPOLITAN DISTRICT COMMISSION.

all of which are declared to be for the public benefit, to neces-

sitate the creation of the authority, and to make it necessary and expedient to vest in the authority the powers granted by this act.

(c) The commonwealth faces important needs for fostering efficient use of water, for efficient planning and improvement of the delivery of water and sewage collection, disposal and treatment services to which end an authority should be established and vested with extensive operating, financing and regulatory powers to provide appropriate means for addressing these needs.

Therefore, it is declared to be in the best interest of the commonwealth and its inhabitants, to promote the general health and welfare, to improve commerce and living conditions, to conserve water, and to develop and protect in the public interest the natural resources of the commonwealth, that there be established the Massachusetts Water Resources Authority empowered to operate, regulate, finance, and improve the delivery of water and sewage collection, disposal and treatment systems and services, and to encourage conservation, as provided in this act.

said bonds which may be issued under this section shall be reduced by a like amount. Such notes and any renewals thereof shall be general obligations of the commonwealth.

(g) The state treasurer may borrow, from time to time, on the credit of the commonwealth such amounts as may be necessary to make any loans required of the commonwealth under paragraph (c) and to pay any interest or other charges incurred in borrowing such money, and may issue notes of the commonwealth therefor, bearing interest payable at such times and at such rates as shall be fixed by him. No note issued under this paragraph shall mature more than one and one-half years from its date but notes may be refunded one or more times. Such notes shall be issued for such maximum term of years, not exceeding one and one-half years, as the governor may recommend to the general court in accordance with section three of Article LXII of the Amendments to the Constitution of the Commonwealth.

(h) The obligations of the Authority to make repayments and reimbursements to the commonwealth as described in paragraphs (b) and (c) and section forty-two shall be reduced by the sum of all amounts received by the commonwealth of account of operations of the system conducting in the fiscal year of the commonwealth commencing July first, nineteen hundred and eighty-four including, without limitation, all amounts so received on account of charges and assessments for purposes described in clauses (ii) and (iii) of the third sentence of paragraph (f) of section four. Specification elsewhere in this act of powers of the Authority with respect to the Authority's regulations, charges and operations shall not limit the generality of the powers granted in this section and in section ten or powers the Authority may exercise under any other special or general law insofar as it relates to the purposes of this act.

SECTION 7. (a) An executive director, who shall be a person professionally skilled and experienced in law, finance, public works or public utility programs, or public administration with significant experience in wastewater pollution abatement,

shall be appointed by the board of directors for a term not to exceed five years as chief executive officer of the Authority, and shall so serve until his successor is appointed and qualified and each such executive director shall be eligible for reappointment for like five year terms. An executive director may be removed at any time by the board for misfeasance, malfeasance or wilful neglect of duty upon the filing by the board with the secretary of the commonwealth of a statement of facts and circumstances which form the basis for such removal. The executive director shall administer the affairs of the Authority, including, without limiting the generality of the foregoing, matters relating to contracting, procurement, personnel and administration, under the supervision of the board of directors in accordance with such authorizations as the board of directors may from time to time reasonably adopt and continue in force. The Authority shall also appoint persons to hold the offices of secretary and treasurer to the Authority. The secretary shall be the custodian of the seal and of the books and records of the Authority and shall keep a record of the proceedings of the board of directors. The secretary may cause copies to be made of all minutes and other records and documents of the Authority and may give certificates under its official seal to the effect that such copies are true copies and all persons dealing with the Authority may rely upon such certificates. The treasurer shall have charge of the books of account and accounting records of the Authority and shall be responsible under the supervision of the executive director for financial control for the Authority. Upon the recommendation of the executive director, the board of directors shall also appoint and establish reasonable compensation, benefits and other terms of employment for other officers and other employees of the Authority as it deems necessary, including assistant secretaries and assistant treasurers in whom may be vested any of the powers of the secretary and the treasurer, respectively, and including architects, engineers, accountants, lawyers, planners and other management and professional personnel. Except as otherwise hereinafter provided for the appointment of said executive director, other officers and employees of the Authority shall serve at the pleasure of the board of directors or under collective bargaining agreements or contracts of employment; provided, however, that no contract of employment, except for that of the executive director, shall exceed a term of three years, which may be renewed upon the expiration thereof.

(b) The Authority may indemnify any present or past director, officer, employee or agent of the Authority and any member, officer, employee or agent of the retirement board established pursuant to paragraph (d) against liabilities, claims, costs and expenses, including legal expenses, in connection with any actual or threatened proceeding, including any settlement thereof

approved by the Authority, arising by reason of any act or omission within the scope of his duties for the Authority; provided, however, that no indemnification shall be provided to a person concerning a matter as to which such person is finally adjudicated to have acted either without the belief held in good faith that his or her conduct was in the best interests of the Authority or with reason to understand that his or her conduct was unlawful. Costs and expenses may be paid prior to a final disposition upon receipt of an undertaking, which the Authority may accept without regard to the financial resources of the person indemnified, that the person receiving the benefit of payments shall repay such payments if he shall be finally adjudicated not to be entitled to indemnification hereunder. The Authority may purchase insurance on behalf of itself and any of its directors, officers, employees or agents and any member, officer, employee or agent of the retirement board established pursuant to paragraph (d) against any liability arising out of such person's status as such, whether or not the Authority would have the power to indemnify such person against such liability.

(c) The Authority and its employees shall be subject to the provisions of chapter one hundred and fifty E of the General Laws, and for purposes of said chapter, the Authority shall be deemed to be an employer or public employer and a legislative body. The Authority may designate a representative to act in its interest in labor relations matters with its employees. Rights and obligations under collective bargaining agreements with respect to employees transferred from the metropolitan district commission, except to the extent expressly inconsistent with this act, shall be assumed by and imposed upon the Authority, and employees transferred to the Authority who are subject to such agreements shall continue to be represented by the employee organizations that are parties to such agreements until such time as they elect to be otherwise represented in accordance with the provisions of chapter one hundred and fifty E. Existing bargaining units as determined by the state labor relations commission for metropolitan district commission employees shall remain in full force and effect for those employees transferred to the Authority until the expiration date of collective bargaining agreements covering such employees. No collective bargaining agreement entered into by the Authority, however, shall limit inherent management rights which shall include, without limiting the generality of the foregoing, the following: (i) employment, assignment, and promotion of employees and the determination of standards therefor, (ii) termination and discharge of employees, provided that any collective bargaining agreement may protect employees against such actions on arbitrary, capricious or unreasonable grounds, (iii) determination of the Authority's levels of service, levels of staffing, and the methods, means and

personnel for performing operations, (iv) supervision, control, and evaluation and establishment of productivity standards for employees, and (v) use of part-time regular employees and of independent contractors or vendors. Notwithstanding the foregoing, each collective bargaining agreement in force on the effective date of this act covering former employees of the metropolitan district commission transferred to the employment of the Authority under section four, shall continue to be a valid collective bargaining agreement in effect with respect to such employees until the date which is two years subsequent to the stated date of expiration of such agreement; provided, however, that the Authority shall negotiate in good faith pursuant to the provisions of chapter one hundred and fifty E of the General Laws with respect to wages, hours, and other terms in conditions of employment to become effective as of the stated date of expiration of such agreement for the balance of the term of such agreement as herein extended.

(d) All employees of the Authority not employed by the metropolitan district commission prior to July first, nineteen hundred and eighty-five shall become members of a contributory retirement system to be referred to as the Massachusetts Water Resources Authority Retirement System, hereinafter referred to as the "Authority Retirement System", which shall be a separate system from the state employees' retirement system and which shall be established and maintained in accordance with sections one to twenty-eight L, inclusive, and section one hundred and two of chapter thirty-two of the General Laws and for all purposes thereunder shall be deemed to be a contributory retirement system of a governmental unit governed by the provisions thereof for the state employees' retirement system except as otherwise expressly provided herein. The Authority Retirement System shall become effective without further acceptance by the Authority on July first, nineteen hundred and eighty-five. The Authority Retirement System shall be administered by a separate retirement board established by the Authority which shall consist of three persons and which shall have custody of the funds of the Authority Retirement System and shall have the general powers and duties set forth in subdivision five of section twenty of chapter thirty-two of the General Laws. One member of the retirement board shall be the secretary of the Authority, serving ex officio. The second member of the retirement board shall be initially appointed by the Authority for a term expiring June thirtieth, nineteen hundred and eighty-six and thereafter the second member shall be a person elected by members in service and members retired from service in the Authority Retirement System from among their number to serve for a term expiring June thirtieth, nineteen hundred and eighty-nine and for successive triennial terms thereafter. The third member of the retirement board shall be appointed by the Authority for suc-

cessive triennial terms; provided, however, that the term of the member first appointed shall expire on June thirtieth, nineteen hundred and eighty-eight. Members of the retirement board shall serve until their successors are duly qualified and shall be eligible for re-election or reappointment. Members of the retirement board shall serve without compensation but each member may be reimbursed for all reasonable expenses incurred in the performance of his duties. Without limitation of other provisions of general law applicable by terms thereof to the retirement board, the retirement board shall be deemed to be a governmental body for purposes of and shall be subject to section eleven A and one-half of chapter thirty A of the General Laws and the members thereof shall be deemed to be state employees subject to chapter two hundred and sixty-eight A of the General Laws. Whenever a person, other than an employee of the metropolitan district commission transferred to the Authority under the provisions of this act, who is a member of a retirement system under chapter thirty-two of thc General Laws shall become a member of the Authority Retirement System by virtue of employment by the Authority, that person shall be entitled to all creditable service and all rights and benefits to which he was entitled as a member of such prior retirement system. Within ninety days of such employment, the amounts of the accumulated total deductions, including accumulated interest on such deductions, credited to such employee's accounts in the annuity savings fund and pension reserve fund of the prior retirement system shall be transferred and credited to the employee's accounts in the annuity savings fund and pension reserve fund of the Authority Retirement System. The amounts required to finance pension benefits earned by employees of the Authority in a given year shall be determined by the retirement board and shall be paid over by the Authority. Funds paid into the Authority Retirement System pursuant to this section shall cease to be funds of the Authority and shall be used solely for the purposes of the Authority Retirement System. This provision shall be deemed to constitute a contractual right and benefit on behalf of members of the Authority Retirement System who are or may be retired pursuant to said chapter thirty-two, and no amendment or alteration shall be made which would result in a diversion of the funds of the Authority Retirement System from the purposes thereof. Nothing in this act shall be deemed in any way to decrease or abridge the annuities, pensions, retirement allowances, refunds or accumulated total deductions or any right or benefit to which an employec transferred to the Authority retirement System pursuant to this act has become entitled by virtue of membership in any of the systems in the state retirement system prior to transfer to the Authority's employment, and the liability therefor shall become the liability of the Authority Retirement System upon the transfer of funds provided for in

this paragraph. All persons transferred to the Authority on July first, nineteen hundred and eighty-five who are members of the state employees' retirement system on account of employment by the metropolitan district commission prior to said date shall continue to be members of the state employees' retirement system and subject to the laws applicable thereto, and neither the Authority nor the Authority Retirement System shall have any liability for retirement allowances to or on account of such persons.

The Authority shall not be liable for retirement allowances to or on account of metropolitan district commission employees who are not transferred to the Authority pursuant to the provisions of this act, except for the costs of retirement contributions of employees of the watershed management division properly chargeable to the Authority.

(e) Subject to the last sentence of this paragraph, every employee who upon employment by the Authority is covered by the group insurance provided by chapter thirty-two A of the General Laws shall continue in uninterrupted coverage and all other employees of the Authority are hereby made eligible for said group insurance to the same extent as if they were employees of the commonwealth. The share of the commonwealth of the cost of such insurance, with respect to the employees of the Authority, shall be borne by the Authority, but with respect to persons retired from service with the metropolitan district commission who have not been employees of the Authority, shall continue to be borne by the commonwealth. The Authority shall forward its contribution, together with all amounts withheld from the salaries or wages of its employees as provided in paragraph (a) of section eight of said chapter thirty-two A and all amounts paid by an employee as provided in paragraph (b) of said section eight, to the state employees group insurance commission at such time and in such manner as said commission may reasonably prescribe. The Authority is authorized to enter into reasonable alternative and substitute group insurance arrangements providing benefits to its employees substantially equivalent to or superior to benefits under said chapter thirty-two A, and thereupon may cease its arrangements for such benefits under said chapter thirty-two A.

(f) The Authority may contract, to the extent permitted by and in accordance with applicable requirements of the United States Internal Revenue Code, with any of its employees (i) to defer a portion of the employee's compensation and to invest such amounts under a deferred compensation program and (ii) to make contributions from amounts otherwise payable as an employee's current compensation to an individual retirement account; hereinafter referred to as IRA.

Investments of deferred compensation may be made in a life insurance or annuity contract, mutual fund or bank investment

trust and investments of IRA amounts may be made in the foregoing or in other investments authorized by the Internal Revenue Code. The treasurer of the Authority, before making any such investment of deferred compensation or making any deductions from compensation for purposes of an IRA, shall solicit sealed bids to be opened at a time and place designated by the treasurer from insurance companies authorized to conduct business within the commonwealth pursuant to chapter one hundred and seventy-five of the General Laws, mutual fund managers and banks. As applicable to investment of deferred compensation and IRA amounts, as the case may be, bids shall clearly indicate thc interest rate which shall be paid, any commissions for salesmen, any load imposed for purposes of administration, mortality projections, expected payments, tax implications for employees and such other information as the treasurer may require. For IRAs, upon the treasurer's determining which provider offers the product or products most beneficial to the employee in each category for which bids were solicited, the treasurer may offer such employee the opportunity to establish an IRA with one or more such providers. The employee who wishes to invest his IRA funds with any such provider, or combination of providers, may authorize the treasurer to deduct from amounts otherwise payable to the employee, at one time or on a periodic basis, amounts to be paid into the employee's IRA. If the employee so elects, the treasurer shall pay to the providers the amount designated by the employee, in the name of the employee, to the employee's IRA. Amounts so paid to the providers for the employee's IRA account shall belong exclusively to the employee. Except as otherwise provided herein, the treasurer may restrict an employee's right to contract to have contributions made to an IRA through deductions and payments by the treasurer to those providers selected as the result of the competitive bidding process outlined herein, but the authority conferred upon the treasurer shall not be construed to restrict or limit the right of any employee to establish one or more IRAs with such banks, insurance companies, or similar authorized institutions as the employee may choose in any manner other than through an authorized deduction by the treasurer of a portion of the employee's compensation as outlined herein. Notwithstanding any provisions to the contrary, the treasurer shall not be required to solicit bids from providers of investment products for deferred compensation investments or IRA contributions, provided: (i) the treasurer elects to invest such deferred compensation in, or is authorized by the employee to pay IRA contributions into, the same investment products as provided through a deferred compensation or IRA plan for employees of the commonwealth administered by the state treasurer, or a deferred compensation plan for employees of the Authority administered by the treasurer, provided such plan resulted from the solicitation of bids

in accordance with bidding requirements comparable to those required under this section; or (ii) the treasurer elects to invest such deferred compensation in, or is authorized by the employee to pay IRA contributions into investment products offered pursuant to a deferred compensation plan or an IRA investment option program, developed through a competitive selection process resulting from the solicitation of bids by a group of any combination of three or more city, town, county or public authority treasurers acting as a Common Group for purposes of soliciting such proposals in accordance with bidding requirements comparable to those required under this section. Any contract entered into between an employee and the Authority pursuant to this section shall include all information in terms the employee can reasonably be expected to understand. Such deferred compensation and IRA programs shall be in addition to and not a part of the retirement program or pension system as provided under the Authority Retirement System, under said chapter thirty-two or under any other benefit program provided by law for such employee. Any compensation deferred under such a plan and any compensation contributed by an employee to an IRA under such plan shall continue to be included as regular compensation, as defined in section one of said chapter thirty-two, for the purpose of computing the retirement and pension benefits earned by any such employee, but any compensation so deferred shall not be included in the computation of any taxes withheld on behalf of any such employee. For purposes of this paragraph, the word "employee" shall have the same meaning as "employee" in section one of chapter thirty-two of the General Laws and shall also include consultants and independent contractors who are natural persons paid by the Authority and whose duties require that their time be devoted to the service of the Authority during regular business hours.

(g) The Authority shall not be subject to the jurisdiction of the division of personnel administration established by section four A of chapter seven of the General Laws and shall not be governed by sections forty-five, forty-six, forty-six C to forty-six G, inclusive, of chapter thirty, and sections twenty-six, twenty-seven and twenty-seven A to twenty-seven E, inclusive, of chapter one hundred and forty-nine of the General Laws. No employee of the Authority shall be covered by section nine A of chapter thirty of the General Laws or by chapter thirty-one of the General Laws except for certain former employees of the metropolitan district commission transferred to the Authority from the metropolitan district commission under section four, to the extent of the rights provided for those employees in said section four; provided, however, that a veteran transferred to the Authority under said section four shall be entitled to include his service at the metropolitan district commission toward the three years of service provided for in section nine A of

chapter thirty, and if he completes such term of service at the Authority, he shall be entitled to rights under and shall be subject to the provisions of chapter thirty. All provisional employees who are transferred to the Authority and who are labor service employees as defined in section one of chapter thirty-one and who are not eligible for an examination as provided for in section twenty-six of chapter seven hundred and sixty-seven of the acts of nineteen hundred and eighty-one and who have worked in such positions for a period of one year prior to January first, nineteen hundred and eighty-five shall be made permanent employees.

The Authority shall engage consultants to perform only those services for the Authority which regular employees of the Authority are unable to perform owing to lack of special expertise or other inability to perform such services on the schedule or in the manner required by the Authority. The Authority shall be subject to section four of chapter one hundred and fifty-one B of the General Laws, shall be deemed to be an agency of the commonwealth for purposes of section two of said chapter, and shall be subject to the enforcement jurisdiction of the commission against discrimination under said chapter. The Authority shall develop policies and programs for affirmative action in employment, procurement and contracting in accordance with law and consistent with general policies and programs of the commonwealth.

The Authority shall also appoint a special assistant for affirmative action and compliance and provide appropriate support staff. The special assistant shall report directly to the chairman of the Authority and shall develop, supervise, monitor and provide for the enforcement of affirmative action plans for employment, procurement and contracting activities of the Authority. The chairman shall take such steps and impose such sanctions as may be appropriate to ensure enforcement. A quarterly report shall be filed at the close of each quarter with the state office of affirmative action and each member of the general court requesting a copy of such report on actions taken during the preceding quarter to implement the Authority's affirmative action plan and programs.

(h) The Authority shall establish an internal special audit unit which, under the direct supervision of the executive director, shall monitor the quality, efficiency and integrity of the Authority's operating and capital programs and make periodic recommendations and reports to the executive director and the board of directors. Employees of the Authority serving in the internal special audit unit shall devote their full-time efforts to the unit and shall not be assigned direct operating responsibilities.

SECTION 8. Without limiting the generality of the powers

granted to the Authority under other provisions of this act, the following provisions are made for the operation, improvement and enlargement of the sewer and waterworks systems by the Authority and for the attainment of the Authority's other purposes:

(a) The operations of the Authority specifically related to the separate functions of sewage collection, treatment and disposal and delivery of water shall be organized respectively into a sewer division and a waterworks division. The Authority shall maintain, except to the extent otherwise permitted in this act, segregated accounts for each of its divisions with respect to the revenues, expenses, assets and funds pertaining to the operation thereof. The board of directors may act to provide specified administrative or technical support services on a combined basis when, in the board's opinion, it would be more efficient to do so. in which event the board shall provide for a fair and equitable allocation of the costs to the accounts of the divisions in accordance with generally accepted accounting principles.

(b) The Authority shall adopt an annual budget for its current expenses which budget the Authority shall have submitted for comment and recommendation to the advisory board not less than sixty days prior to the adoption thereof. Except in case of an emergency, no current expenses may be incurred in excess of those shown in the annual current expense budget. The Authority may from time to time adopt amendments to current expense budgets which the Authority shall have submitted for comment and recommendation to the advisory board not less than thirty days prior to the adoption thereof. The Authority periodically shall also adopt and revise capital facility programs for the sewer system and waterworks system and capital expenditure budgets based thereon. The current expense budgets, capital expenditure budgets and the capital facility programs of the Authority shall be deemed not to be regulations or adjudications for purposes of chapter thirty A of the General Laws. The Authority shall consult in the preparation of its capital facility programs for the sewer and waterworks systems with the advisory board and the executive office of environmental affairs, and may consult with other agencies of federal, state and local government concerned with the programs of the Authority. Proposed capital facility programs and capital expenditure budgets for said systems shall be submitted to the advisory board for such consultation no less than sixty days prior to adoption or revision by the Authority. The Authority shall prepare a written response to reports respecting its finances submitted to it by the advisory board which response shall state the basis for any substantial divergence between the actions of the Authority and the recommendations contained in such reports of the advisory board. The Authority shall file copies of its capital facility programs with the deputy commissioner of capital planning and

operations in accordance with section thirty-nine C of chapter seven of the General Laws, shall prepare and file long-range capital facility development plans in accordance with section seven A of chapter twenty-nine of the General Laws, and shall be deemed to be a public agency subject to the recordkeeping and reporting requirements of paragraph (4) of section forty A of chapter seven of the General Laws.

(c) The sewer division of the Authority shall provide main sewer services for the area consisting of the following political subdivisions: Arlington, Ashland, Bedford, Belmont, Boston, Braintree, Brookline, Burlington, Cambridge, Canton, Chelsea, Dedham, Everett, Framingham, the north sewer district of Hingham, Holbrook, Lexington, Malden, Medford, Melrose, Milton, Natick, Needham, Newton, Norwood, Quincy, Randolph, Reading, Revere, Somerville, Stoneham, Stoughton, Wakefield, Walpole, Waltham, Watertown, Wellesley, Westwood, Weymouth, Wilmington, Winchester, Winthrop and Woburn. The Authority may also enter into (i) arrangements for a limited term with any person within or outside the foregoing political subdivisions to provide sewage treatment, collection or disposal services not involving extension of the sewer system; provided, however, that no such arrangement shall continue for a period in excess of six months, including any renewals thereof, unless it shall have been approved by the advisory board created by section twenty-three, and (ii) arrangements with any local body pursuant to which a sewage collection, treatment or disposal system or any part thereof shall become a part of the sewer system, provided that no extension of the sewer system shall be made to local bodies not listed in the previous sentence unless the Authority shall obtain the approval of the advisory board and the department of environmental quality engineering, after due consideration of feasible alternatives to such extension, and the Authority shall find (1) the safe capacity of the sewer system as extended will be sufficient to meet ordinary wet weather demand, (2) all feasible actions have been taken and shall continue to be taken by any local body to which the system is extended to minimize infiltration and inflow, and (3) an industrial pretreatment program is in effect within any such local body in accordance with applicable laws and regulations. Any local body within the limits of which any main sewer under the control of the Authority is situated shall connect its local sewers with such main sewers subject to the direction, control and regulation of the Authority and the Authority may also connect private sewers with such main sewers under such terms and conditions as the Authority may prescribe. Notwithstanding the foregoing, no new local body will be added to the sewer service area without prior approval of the governor and the general court.

(d) The waterworks division of the Authority shall provide water for local water systems of the following political subdivi-

sions: Arlington, Belmont, Boston, Brookline, Cambridge, Canton, Chelsea, Chicopee, Clinton, Dedham, Everett, Framingham, Leominster, Lexington, Lynn, Lynnfield Water District, Malden, Marblehead, Marlborough, Medford, Melrose, Milton, Nahant, Needham, Newton, Northborough, Norwood, Peabody, Quincy, Revere, Saugus, Somerville, Southborough, South Hadley Water District No. 1, Stoneham, Swampscott, Wakefield, Waltham, Watertown, Wellesley, Weston, Wilbraham, Winchester, Winthrop, Woburn and Worcester. The provisions of special acts and contracts in effect on January first, nineteen hundred and eighty-four under which water is supplied by the MDC water system shall continue in full force and effect under the respective terms thereof, subject to all rights of the Authority as successor to the metropolitan district commission. Continuation of delivery of water to local water systems supplied on a contractual basis on the effective date of this act upon the expiration of such contractual obligations, service to be supplied under willingness-to-service contracts on the effective date of this act and new communities entering the system, shall be made to the foregoing political subdivision on such reasonable terms and charges as the Authority may determine, provided that in each such instance the Authority shall find: (1) the safe yield to the watershed system, only on, advice of the division, is sufficient to meet projected demand; provided, however, that a local body receiving water on a contractual basis as of the effective date of this act which meets the requirements of having no local water supply capable of being developed under the provisions of clause (5), in this subsection, shall not be denied such continuation; (2) no existing or potential water supply source for the local body has been abandoned unless the department of environmental quality engineering has declared that the source is unfit for drinking and cannot be economically restored for drinking purposes; (3) a water management plan has been adopted after approval by the water resources commission established by section eight A of chapter twenty-one A of the General Laws; (4) effective demand management measures have been established, including but not limited to the establishment of a leak detection and other appropriate water system rehabilitation program; (5) a local water supply source feasible for development has not been identified by the local body or the department of environmental quality engineering; and (6) a water use survey has been completed which identifies all users in the area of the local body that consume in excess of twenty million gallons per year. Any provision for supply of water under special act in effect on the effective date of this act, and any contract for the supply of water by the metropolitan district commission in effect on the effective date of this act which does not provide for a specific term may be terminated by the Authority on or after, but not before, the fifth anniversary of the effective date

of this act, in which case continuation of service shall thereafter be governed by the provisions of the preceding sentence. Subject to the approval of the advisory board established by section twenty-three and regulatory bodies within the executive office of environmental affairs with jurisdiction in the matter as a result of other general or special laws applicable to the Authority, the Authority may extend the waterworks system to additional local bodies on such reasonable terms as the Authority may determine; provided, however, that in each instance the Authority shall find: (1) the safe yield of the watershed system, only on the advice of the division, is sufficient to meet such new projected demand; (2) no existing or potential water supply source for the local body has been abandoned unless the department of environmental quality engineering has declared that the source is unfit for drinking and cannot be economically restored for drinking purposes; (3) a water management plan has been adopted after approval by the water resources commission established by section eight A of chapter twenty-one A of the General Laws; (4) effective demand management measures have been established including, but not limited to, the establishment of a leak detection and other appropriate water system rehabilitation program; (5) a local water supply source feasible for development has not been identified by the local body or the department of environmental quality engineering; and (6) a water use survey has been completed which identifies all users in the area of the local body that consume in excess of twenty million gallons per year; and provided further that no new local body will be added to the water service area without prior approval of the governor and the general court. Connections to the water system shall be under the direction and control of the Authority, provided, however, that water shall be delivered by the Authority under sufficient pressure for use without local pumping, unless delivered in some other manner by agreement. The Authority may also enter into arrangements not involving the extension of the waterworks system to provide the delivery of water to any local body, any institution, agency or facility of the commonwealth or any institution, agency or facility of the United States provided (i) that as a condition to the entry into such arrangement the Authority shall find and declare that the demand on the waterworks system from the Authority's performance of the arrangement is not reasonably expected to jeopardize the delivery of water provided by the Authority to the inhabitants of the political subdivisions listed in the first sentence of this paragraph, after taking account of other water supply, resources reasonably available to such political subdivisions, and (ii) no such arrangement shall extend for a period in excess of six months, including any renewals thereof, unless it shall have been approved by said advisory board. Subject to the provisions of section forty of chapter forty of the General Laws, in

case of any emergency as determined by the department of environmental quality engineering, any local body deriving its water supply in whole or in part from the waterworks system may provide a connection and a supply of water to any adjoining local body having an inadequate water supply of water subject to reasonable provision for payment to the Authority and for approval by the Authority of the means of connection. No local body or private water company shall abandon any local water supply source and substitute for it water from the waterworks system unless the department of environmental quality engineering has declared that the water supply source abandoned or to be abandoned is unfit for drinking and cannot be economically restored for drinking purposes. Any local body which derives all or part of its water supply on the effective date of this act under a contract with the metropolitan district commission which contains a minimum purchase requirement may elect, upon such reasonable prior notice as the Authority may require, to terminate such minimum purchase requirement.

(e) In order to attain its statutory purposes to promote water conservation, protect the adequacy of a pure water supply, reduce wastewater flow and improve environmental quality, the Authority is authorized and directed: (i) to promote water conservation and environmental quality through its schedule of charges, to which end, without limiting the generality of the foregoing and the generality of the regulatory powers conferred on the Authority under section six and the powers to establish charges under section ten, the Authority shall prepare and publish no later than the second anniversary of the effective date of this act a comprehensive study of environmental, social and economic impacts of its charges to serve as a basis for the implementation of charges fully consistent with the objectives of this act, and shall consult with the division for the determination of such environmental impact; (ii) to conduct public programs of education and technical assistance in support of water conservation and environmental quality objectives; (iii) to terminate as promptly as feasible, and thereafter not to institute or reinstitute, any charge or charges for the waterworks system by which the unit price declines as volume of use increases; (iv) to identify and consider demand management and water conservation solutions to new and existing water consumption requirements and, wherever reasonably practicable, to implement such solutions in preference to solutions which would increase water withdrawals from any natural or artificial source of ground or surface waters; and (v) to prepare and submit an annual report to the governor, the general court and the water resources commission stating the means by which future water requirements of the Authority's service areas within the safe yield of the watershed system of the division, pursuant to any such determination made by the division.

Nothing contained in paragraphs (c) and (d) shall require a city or town not presently served by the Authority to accept an extension of the Authority's sewer and water works without a majority vote by the city council if a city or a majority vote of town meeting of a town.

(f) Officers or agents of the Authority may enter at reasonable times any public or private property, connected directly or indirectly to the sewer system, for purposes of (i) inspecting, sampling and gauging any sewage, drainage, substances or wastes conveyed through such a connection, (ii) inspecting any monitoring equipment or procedures maintained with respect to discharges thereof, (iii) examining any records or matters pertaining to such discharges or to the operation of pretreatment works, and (iv) determining any matter of compliance with requirements under this act. Officers or agents of the Authority may also enter any public or private property supplied directly or indirectly by the waterworks system for purposes of (i) inspecting water works or fixtures, (ii) determining water usage, (iii) preventing improper use or waste of water, (iv) determining any matter of compliance with requirements under this act. Entry upon private property for purposes of this section shall be made (i) under warrant, including, without limitation, warrants for administrative inspection upon a probable cause showing of a reasonable and valid public interest in the effective enforcement of matters governed by this act in accordance with a general plan justifying administrative inspection of premises specified in the application for such warrant, or (ii) under procedures for warrantless entry of non-residential premises during business hours conducted by administrative inspectors in accordance with regulations which the Authority shall adopt to further the urgent governmental interest in environmental protection committed to the Authority. This section shall not limit entries and administrative inspections, including seizures of property, without a warrant (1) with the consent of the owner or person in charge of the premises, (2) in situations presenting imminent danger to health or safety, (3) in any other exceptional or emergency circumstances where time or opportunity to apply for a warrant is lacking, or (4) in all other situations in which a warrant is not required by the laws and constitutions of the commonwealth or the United States.

(g) The Authority shall be deemed to be a public agency for purposes of, and shall be subject to, sections forty-four A to forty-four H, inclusive, of chapter one hundred and forty-nine of the General Laws, section thirty-nine M of chapter thirty of the General Laws and sections thirty B to thirty M, inclusive, of chapter seven of the General Laws, and shall comply with requirements applicable to an independent public authority for publication of contract information in the central register established under section twenty A of chapter nine of the General

Laws. The Authority shall not be subject to supervision under section twenty-two of chapter seven of the General Laws, but may enter into agreements under section twenty-two A and twenty-two B of chapter seven of the General Laws and in all respects not governed by general or special laws expressly made applicable to the Authority shall adhere to good business practices to be determined by the Authority in its procurement of equipment, materials, property, supplies and services.

(h) In operating its systems and performing its projects in relation thereto, the Authority may construct and maintain buildings, machinery, roads, conduits, pipes, sewers and aqueducts, may alter grades or directions of watercourses and may conduct aqueducts over or under any watercourse, railroad, pipeline, cable, or way, restoring the same to as good order and condition as practicable. Persons who sustain injury in their property by the entry upon or use thereof by the Authority under this section may recover their damages under chapter seventy-nine of the General Laws, unless a lawful alternative provision for such damages is otherwise made by the Authority.

(i) The Authority and the division shall be subject to the provisions of, and to regulation by the department of environmental quality engineering and any division thereof as may be duly exercised over an independent public authority of the commonwealth pursuant to sections fourteen, twenty-seven, thirty A to thirty-four C, inclusive, thirty-sever , forty and forty-two to forty-six A, inclusive, of chapter twenty-one A of the General Laws, sections four, six, seven and nine of chapter twenty-one C of the General Laws, sections three, six, seven, nine and ten of chapter twenty-one E of the General Laws, chapter ninety-one of the General Laws and sections two B, two C, five E, five G, seventeen, thirty-one D, one hundred and forty-two A to one hundred and forty-two E, inclusive, one hundred and fifty A, one hundred and fifty B, one hundred and sixty, one hundred and sixty A, one hundred and sixty B, one hundred and sixty-two and one hundred and sixty-five of chapter one hundred and eleven of the General Laws.

The Authority shall be deemed to be a public entity under section twenty-six A of chapter twenty-one of the General Laws and shall be eligible for grants and other assistance under the Massachusetts Clean Water Act and any other program of federal or state assistance for waterworks, wastewater treatment or related purposes to the most liberal extent of the eligibility of an agency of the commonwealth, a political subdivision of the commonwealth, or any other public body of the commonwealth. The Authority shall be subject to section four A and sections eight A to eight F, inclusive, of chapter twenty-one A of the General Laws, sections three, four, seven, ten and fourteen of chapter twenty-one D of the General Laws and sections one hundred and forty-two A to one hundred and forty-two E, inclusive, of

chapter one hundred and eleven of the General Laws. The Authority shall be deemed to be an agency of the commonwealth for purposes of, and shall be subject to, section one hundred and fifty A and section one hundred and fifty B of chapter one hundred and eleven of the General Laws. Without limitation on other public health or environmental regulation over the Authority exercisable pursuant to other law without conflict with the Authority's purpose of serving critical public needs on a broad geographic basis as a public instrumentality of the commonwealth, the Authority also shall be subject to sections forty and forty A of chapter one hundred and thirty-one of the General Laws, to sections sixty-one to sixty-two H, inclusive, of chapter thirty of the General Laws and to sections twenty-six C and twenty-seven C of chapter nine of the General Laws. The Authority and the division shall be subject to sections thirteen to sixteen, inclusive, and section eighteen of chapter one hundred and thirty-two A of the General Laws. In accordance with section eleven D of chapter twelve of the General Laws, the Authority shall give written notice to the attorney general of all adjudicatory proceedings or public hearings conducted by it or to which it is a party in which damage to the environment is or may be at issue.

(j) All powers to be exercised under this act, including powers to be exercised by the division of watershed management and the Authority, shall be subject to provisions regulating interbasin transfers as set forth in sections eight B to eight D, inclusive, of chapter twenty-one of the General Laws, including without limitation all approvals therein required to be obtained from the water resources commission and to provisions for the protection of scenic and recreational rivers and streams as set forth in section seventeen B of chapter twenty-one of the General Laws and in section two of chapter nine hundred and eighty-four of the acts of nineteen hundred and seventy-three, including without limitation all approvals respecting water diversions therein required to be obtained from the general court.

(k) Notwithstanding any rule or regulation or any provision of any general or special law to the contrary, the commissioner of public safety or his designee in the division of inspection of the department of public safety shall have exclusive jurisdiction and responsibility with respect to projects or operations of the Authority for inspection, approvals, enforcement, permitting and licensure authorized or required by (i) chapter one hundred and forty-three of the General Laws or (ii) any regulation adopted pursuant to chapter eight hundred and two of the acts of nineteen hundred and seventy-two.

(l) Notwithstanding the provisions of chapters one hundred and thirty-four and one hundred and forty-seven of the General Laws, if money, goods or other property which has been abandoned, mislaid or lost comes into the possession of the Authority

and remains unclaimed in its possession for a period of one hundred and twenty days, the Authority may sell the same, excepting money so unclaimed, at public auction after notice of such sale has been published in a newspaper published in the city or town where such sale is to take place. The net proceeds of such sale, after deducting the cost of storage and the expenses of such sale, and all money so unclaimed, shall become revenues of the Authority. If in the opinion of the Authority any such property in the possession of the Authority and unclaimed in its possession for a period of one hundred and twenty days is of the value of one hundred and fifty dollars or less, the Authority may donate the same to a charitable organization.

(m) The powers of the Authority shall include the powers to be exercised by procedures, regulations, incentive and other charges, and licenses and permits to require persons who are users of the sewer system or of any tributary system to the sewer system to comply with applicable provisions of federal and state law respecting (i) toxic waste and pretreatment standards, (ii) construction, operation and maintenance of pretreatment facilities, (iii) monitoring, recordkeeping and reporting of discharges to the sewer system, (iv) notification of proposed new discharges or substantial changes in discharges to the sewer system, and (v) user charges in accordance with law, and to regulate the nature and quantity of discharge of sewage, drainage, substances or wastes by any person into the sewer system or any sewer tributary thereto The procedures, regulations, charges and licensing, permitting and other programs of the Authority shall also reasonably provide for abatement, reduction and prevention of infiltration and inflow of ground waters, surface waters or storm waters into the sewer system; and the Authority is directed to continue, and is authorized in its discretion reasonably to require the extension and improvement of separation of sewers for the collection, treatment, and disposal of human and industrial sewage from drainage for surface or storm water. The procedures, regulations, charges, licensing, permitting and other programs of the Authority shall also reasonably provide for leak detection and repair, for programs for water conservation, including, without limiting the generality thereof, water use limitations in time of drought or other emergency, and may also reasonably provide for installation and maintenance of meters by any person and the metering of use made by any user or group of users of the sewer system or any system tributary thereto or by any user of water derived from the waterworks system. The Authority may regulate and require the taking of a permit from the Authority with respect to any building, construction, excavation or crossing within an easement or other property interest held by the Authority or in the immediate vicinity of a water or sewer main or other facility which is operated by the Authority. The provisions of this

paragraph shall not limit the generality of the regulatory powers conferred on the Authority under section six and the powers to establish charges under section ten.

(n) The Authority is authorized to take all necessary action, consistent with applicable special or general law, administrative regulation or practice, to secure any federal assistance which is or may become available to the Authority, the commonwealth or any local body for any of the sewer or waterworks purposes of this act. If any federal law, administrative regulation or practice requires any action relating to such federal assistance to be taken by any department or instrumentality of the commonwealth other than the Authority, such other department or instrumentality is authorized to take all such action, including without limitation filing applications for assistance, supervising the expenditure of federal grants or loans and making any determinations and certifications necessary or appropriate to the foregoing, and the Authority is authorized to take all action necessary to permit such department or instrumentality to comply with all federal requirements, such action; provided, however, that no such action or federal requirement shall be taken which is inconsistent with the provisions of any special or general law or the provisions of this act relating to waterworks, sewer works, wastewater treatment or water supply.

(o) Any person who without lawful authority injures, destroys or interferes with any property held or used by the Authority for the purpose of constructing, operating or maintaining the waterworks system or the sewer system, shall be subject to a criminal fine of not more than fifty thousand dollars, or imprisonment for not more than one year; provided, however, that in cases of continuing violation, such maximum fine may be ten thousand dollars per day for each day such violation occurs or continues. Notwithstanding any limitation on criminal penalties set forth in the preceding sentence, any person convicted of the wanton or malicious destruction of or injury to any property of the Authority used in the construction, operation or maintenance of the waterworks system or the sewer system shall also be liable in tort to the Authority for triple the amount of damages thereby caused. The provisions of this paragraph are in addition to and not in limitation of the Authority's power to adopt, issue and enforce regulations, permits and licenses and establish penalties for violation thereof and to set charges and provide for the collection and enforcement thereof.

SECTION 9. (a) Except for the acquisition of any water supply source or right to a water source, which right is vested exclusively in the division of watershed management, the Authority may acquire from any person real property, or any interest or rights therein, deemed by it essential for operation, improvement or enlargement of its sewer and waterworks systems

by eminent domain in accordance with the provisions of chapter seventy-nine or chapter eighty A of the General Laws subject to the prior approval of the governor and the general court; provided, however, that for takings related to main, trunk, intercepting and connecting sewers and pumping stations incidental thereto, and combined overflow treatment works and pumping stations incidental thereto, said prior approval shall not be required, and provided, that no property or rights, including water rights, comprising the watershed system shall be taken; and, provided further, that no property or rights already appropriated to public use shall be so taken without the prior approval of the governor and general court. Notwithstanding the provisions of this act, no taking by eminent domain of water or water rights shall be made by the Authority. No taking shall be made for a project of the Authority which requires regulatory approvals with respect to matters to which the Authority is subject under paragraph (i) of section eight until the Authority has certified that the Authority reasonably believes all such approvals will be obtained by the Authority in ordinary course. Before a taking is made by the Authority for which damages may be recovered under chapter seventy-nine, the Authority shall file with the secretary of the commonwealth security to the satisfaction of said secretary for the payment of all damages and costs which may be awarded for the property taken, and if, upon petition of the owner and notice to the Authority, any security taken appears to have become insufficient, the secretary shall require the Authority to give further security to the satisfaction of the secretary.

(b) The Authority may order the removal or relocation of any conduits, pipes, wires, poles or other property located in public ways or places, or in or upon private lands, which it deems to interfere with the laying out, construction, maintenance or operation of the sewer and waterworks systems, subject to the ability of the proper authorities lawfully to grant or otherwise make provisions for new locations for any such structure so removed or relocated. Such orders, to the extent specified therein, shall be deemed a revocation of the right or license to maintain such conduits, pipes, wires, poles or other property in such public ways or places, and the private owner of any such structures in public ways or places shall comply with such orders. If any such owner shall fail to comply with any such order of the Authority relating to any such structure in public ways and places within a reasonable time, to be fixed in the order, the Authority may discontinue and remove such conduits, pipes, wires, poles or other property, and may relocate the same, and the cost of such discontinuance, removal or relocation shall be repaid to the Authority by the owner. No such discontinuance, removal or relocation shall entitle the owner of the property thus affected to any damages on account thereof. Any

such structure in or upon private lands may be removed and relocated by the owner thereof, the reasonable expense thereof shall be repaid to him by the Authority.

(c) Subject to the prior approval of the governor and general court, and to applicable provisions of the laws and constitution of the commonwealth, including without limiting the generality of the foregoing, article ninety-seven of the Amendments to the Constitution of the Commonwealth, doctrines of laws concerned with diversion of lands devoted to public use to other inconsistent public use the Authority may, at public or private sale, sell, lease or dispose of any interest in real property of the sewer and waterworks systems acquired by the Authority pursuant to paragraphs (b) and (c) of section four, upon compliance with the following conditions: (i) such property or interest in property is no longer needed for the construction, maintenance or operation of the sewer and waterworks systems; (ii) such disposition shall not impair the maintenance and operation of said systems; and (iii) the Authority shall so notify the deputy commissioner of capital planning and operations, and said deputy commissioner shall proceed in accordance with section forty F of chapter seven of the General Laws.

(d) Real and personal property, or interests or rights therein, may be acquired by the Authority after July first, nineteen hundred and eighty-five if deemed essential for operation, improvement or enlargement of its sewer and waterworks systems. The Authority may, at public or private sale, dispose of said real property, or interest or rights therein no longer needed for the construction, maintenance or operation of the sewer and waterworks systems, subject to prior approval of the governor and the general court, provided, however, that such disposition shall not impair the maintenance and operation of said systems.

Any interest in real property so disposed of may be conveyed, subject to such easements, reservations and restrictions as the Authority deems necessary to secure the maintenance and operation of said systems, by deed duly executed by the Authority, with or without warranty. In any case where the Authority may dispose of such property, it may convey it and receive in complete or partial consideration therefor other property or interests therein, for the purpose of the sewer and waterworks systems, the title of the same to be taken in the name of the Authority. The Authority shall give sixty days notice of the proposed lease or disposition of any such property or any such interest in real property to the chief executive officer, as defined in section twenty-three, of any city or town in which the real property is located and to the deputy commissioner of capital planning and operations. The Authority shall be deemed to be a public agency for purposes of and shall comply with sections forty J and forty K of chapter seven of the General Laws. The Authority also from time to time at public or private sale conducted in a

commercially reasonable manner may sell or otherwise dispose of personal property of the Authority whether acquired pursuant to the provisions of paragraph (a) of section four or after the effective date of this act, which is no longer needed for the construction, maintenance or operation of said systems.

SECTION 10. (a) Said Authority shall establish and adjust charges which may be denominated as charges, fees, rates, assessments or otherwise as the Authority may reasonably determine, for services, facilities and commodities furnished or supplied by the Authority. The charges of the Authority shall be separately established in respect to the Authority's waterworks and sewer divisions and shall be fixed and adjusted so as to provide funds, in the aggregate and separately, with respect to costs and operations allocable to each division, sufficient in each fiscal year with other revenues of Authority, if any, available therefor (i) to pay all current expenses, (ii) to pay all debt service on bonds of the Authority as the same becomes due and payable, (iii) to create and maintain all reserves reasonably required by any bond resolution, trust agreement or other agreement securing bonds of the Authority or as otherwise determined by the Authority to be necessary or desirable, (iv) to pay all costs of maintenance and replacement of the sewer and waterworks systems, and costs of improving, extending and enlarging said systems as determined by the Authority to be necessary or desirable, to be funded as current expenses in order to carry out the purposes of the Authority, (v) to provide for payments to the commonwealth for debt service as herein provided, and (vi) to pay or provide for all amounts which the Authority may be obligated to pay or provide for by any law or contract including any bond resolution, trust agreement or other agreement securing bonds of the Authority and including any amount to be repaid to the commonwealth to reimburse the commonwealth for debt service paid by the commonwealth on a bond issued under paragraph (f) of section five. The charges of the Authority for delivery of water and for sewage collection, disposal and treatment services shall be established as charges of general application to be borne by the local body utilizing such services and shall be established at a level sufficient to meet the revenue requirements of the Authority as provided in this paragraph, notwithstanding the provisions of any other general or special law to the contrary.

Said Authority's charges of general application shall be adopted, and on not less than an annual basis reviewed and if necessary revised, in accordance with procedures for notice and a hearing as provided by chapter thirty A of the General Laws, and notice of such hearing shall also be delivered at least twenty-one days in advance of the hearing date, to the advisory board and published in newspapers of general circulation in

cities and towns receiving services. No later than the date of such publication, the Authority shall transmit to the advisory board and reasonably provide for other public review for the period preceding the hearing including (i) its most recent financial statements, (ii) its current expense budgets and capital expenditure budgets for the current fiscal year and, if then adopted or proposed, for the next fiscal year, and (iii) the proposed charges on which the Authority seeks public comment. Prior to any public hearing as provided herein, the Authority shall comply with requests of the ombudsman acting under paragraph (g) of section twenty-three for the inspection of the books, records, financial statements and documents of the Authority relating to the proposed charges. In establishing its charges the Authority shall continue provisions for subsidization of water charges to which any local body is entitled in accordance with contract or other lawful obligations assumed by the Authority as successor to the metropolitan district commission, to the same extent as the metropolitan district commission would be bound to provide such subsidization if such charges had continued to be established by the metropolitan district commission. The Authority may also provide for charges of special application to any person for compensation for special or temporary services entered into in accordance with paragraphs (c) and (d) of section eight. Charges of special application shall not be regulations for purposes of chapter thirty A of the General Laws and may be computed in the Authority's discretion with respect to the services or commodities provided on the basis of the Authority's costs, or the value of the benefits conferred on the payer, or market value. The charges of the Authority, whether of general or special application, shall not be subject to supervision or regulation by any office, department, division, commission, board, bureau or agency of the commonwealth or any of its political subdivisions. The charges of the Authority, whether of general or special application, shall give account to (i) actual costs to the Authority of providing services, (ii) reasonable provisions in the nature of incentives and disincentives to promote conservation of resources and protection of the environment and to induce the protection, maintenance and improvement of the sewer and waterworks systems and of sewer and water systems of local bodies, (iii) reasonable provisions reflecting the contribution made by local bodies through expenditures including, but not limited to, leak detection, system rehabilitation and other water management programs, sewerage inflow/infiltration reduction projects, separation of combined sewers and other projects which improve the overall efficiency of the Authority's and local bodies' service delivery, (iv) reasonable provisions to reflect respective local bodies' disproportionate historic investment in the sewer and waterworks systems and in the former metropolitan district commission sewer system and metropolitan

district commission water system used in the services delivered by the Authority, (v) reasonable interest charges and penalties for delinquency in payment.

(b) Said Authority, in such form as it determines, may certify to each local body to which services, facilities or commodities of the Authority are, delivered or furnished the amounts of the Authority's charges to such local body. The Authority may adopt and enforce procedures and regulations for the purposes of making, collecting and enforcing its charges which, without limiting the generality of the foregoing or the general powers with respect to its' regulations and charges provided or by any other general or special law, may impose requirements on any person including, but not limited to, local bodies and officers and boards thereof or subordinate thereto, respecting (i) the furnishing, to the Authority information reasonably deemed pertinent by the Authority concerning the volume and character of services, facilities and commodities furnished or supplied by the Authority, and the nature and quantity of services, facilities and commodities furnished to or to be furnished to or used by or to be used by users, and (ii) reasonable schedules for remittance to the Authority of its charges. In all actions pursuant to this paragraph, the Authority shall give due regard to local bodies' systems of billing and collection of water and sewer charges in order to avoid unnecessary expense and to achieve management and fiscal efficiency consistent with the attainment, of the Authority's statutory objectives. Local bodies, and officers and boards thereof or subordinate thereto, shall cooperate with the Authority to effect the prompt, accurate and efficient billing and collection of the Authority's charges. In the event any local body, which has received a certification of the Authority's charges, shall fail to pay the same to the Authority when due after demand by the Authority, the Authority may without any requirement of election of remedy provided that there is no duplication of recovery, (i) certify to the state treasurer the amount owing to the Authority by said local body, whereupon the state treasurer shall promptly pay over to the Authority any amount otherwise certified to the state treasurer for payment to the local body as receipts, distributions, reimbursements and assistance under sections eighteen A, eighteen B, eighteen C and eighteen D of chapter fifty-eight of the General Laws and any other amount for local reimbursement, grant or assistance programs entitled to be received by such local body until such time as any deficiency in the local body's payment of charges to the Authority shall be set off by such payments from the state treasurer, and (ii) recover from the local body in an action in superior court the amount of such unpaid amount together with such lost interest and other actual damages the Authority shall have sustained from the failure or refusal of the local body to pay over said amount. Any amount

paid to the Authority by the state treasurer as a set off under the provisions of the next preceding sentence which is later determined, upon audit, to be in excess of the actual amount of charges, interest and damages due to the Authority, shall, upon demand of the local body, be repaid by the Authority to the local body.

SECTION 11. (a) Debt for borrowed money incurred by the commonwealth in respect to the metropolitan district commission sewer system, or any predecessor thereof, shall not be assumed by said Authority; provided, however, that on and after July first, nineteen hundred and eighty-five, the Authority shall make payments to the state treasurer from the sewer division to reimburse the commonwealth for all payments made on and after July first, nineteen hundred and eighty-five by the commonwealth on account of principal, including sinking fund installments and interest on all bonds of the commonwealth issued for purposes of the former metropolitan district commission sewer system. The amount of such reimbursements, and the date on which the amounts to be reimbursed shall become due, shall be certified to the Authority by the treasurer, for each fiscal year no later than two hundred and eighty days prior to the commencement thereof; provided, however, that such amounts due on July first, nineteen hundred and eighty-five shall be certified ninety days prior thereto. The obligation of the Authority to make the reimbursements herein required shall be subordinate in every respect to the Authority's obligation for debt service on its bonds.

(b) Debt for borrowed money incurred by the commonwealth in respect to the metropolitan district commission water system, or any predecessor thereof, shall not be assumed by the Authority; provided, however, that on or after July first, nineteen hundred and eighty-five, the Authority shall make payments to the state treasurer from the water division of the Authority to reimburse the commonwealth for one-half of all payments made on or after July first, nineteen hundred and eighty-five by the commonwealth on account of principal, including sinking fund installments and interest on all bonds of the commonwealth issued for purposes of the former metropolitan district commission water system. The amount of such reimbursements, and the date on which such amounts to be reimbursed shall become due, shall be certified to the Authority by the treasurer, for each fiscal year no later than two hundred and eighty days prior to the commencement thereof; provided, however, that such amounts due on July first, nineteen hundred and eighty-five shall be certified ninety days prior thereto. The obligation of the Authority to make the reimbursements herein required shall be subordinate in every respect to the Authority's obligations for debt service on its bond.

SECTION 12. (a) Said Authority may provide, by resolution of the board of directors, for the issuance from time to time of bonds of the Authority for any of its corporate purposes and for reimbursement, pursuant to section forty-two, to the commonwealth for costs associated with the division, or for the borrowing of money in anticipation of the issuance of such bonds. Bonds issued by the Authority may be issued as general obligations of the Authority or as special obligations payable solely for particular revenues or funds as may be provided for in any bond resolution, trust agreement or other agreement securing bonds. The Authority may also provide by resolution of the board of directors for the issuance from time to time of temporary notes in anticipation of the revenues to be collected or received by the Authority, or in anticipation of the receipt of other grants or aid. The issue of such notes shall be governed by the provisions of this act relating to the issue of bonds of the Authority other than such temporary notes as the same may be applicable; provided, however, that notes issued in anticipation of revenues shall mature no later than one year from their respective dates and notes issued in anticipation of grants, or other aid and renewals thereof, shall mature no later than six months after the expected date of receipt of such grant or aid. The aggregate principal amount of all bonds issued under the authority of this act, shall not exceed the sum of six hundred million dollars outstanding at any one time, provided, however, that bonds for the payment of redemption of which, either at or prior to maturity, refunding bonds shall have been issued, shall be excluded in the computation of outstanding bonds.

(b) Bonds of each issue shall be dated, may bear interest at such rate or rates, including rates variable from time to time as determined by an index, banker's loan rate or other method determined by the Authority, and shall mature or otherwise be payable at such time or times, as may be determined by the Authority, and may be made redeemable before maturity at the option of the Authority or the holder thereof at such price or prices and under such terms and conditions as may be fixed by the Authority. Prior to the initial issuance of each series of bonds the Authority shall advise the advisory board created by section twenty-three and the executive office for administration and finance of the timing and terms thereof and the Authority shall also communicate such information to the finance advisory board. The Authority shall determine the form of bonds, including interest coupons, if any, to be attached thereto, and the manner of execution of such bonds, and shall fix the denomination or denominations of such bonds and the place or places of payment of principal, redemption premium, if any, and interest, which may be at any bank or trust company within or without the commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or cou-

pons shall cease to be such officer before the delivery thereof, such signature or facsimile shall nevertheless be valid and sufficient for all purposes as if such officer had remained in office until delivery. The Authority may provide for authentication of bonds by a trustee, fiscal agent, registrar or transfer agent. Bonds may be issued in bearer or in registered form, or both, and, if notes, may be made payable to bearer or to order, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, for the reconversion into coupon bonds of bonds registered as to both principal and interest and for the interchange of bonds registered as to both principal and interest and for the interchange of registered and coupon bonds. The Authority may also establish and maintain a system of registration for any bonds whereby the name of the registered owner, the rights evidenced by the bonds, the transfer of the bonds and such rights and other similar matters are recorded in books or other records maintained by or on behalf of the Authority, and no instrument evidencing such bond or rights need be delivered to the registered owner by the Authority. A copy of the books or other records of the Authority pertaining to any bond registered under such registration system certified by an authorized officer of the Authority or by the agent of the Authority maintaining such system shall be admissible in any proceeding without further authentication. The Authority may adopt regulations with respect to the operation of such system. The board of directors may by resolution delegate to any director or directors or officer or officers of the Authority or any combination thereof the power to determine any of the matters set forth in this section. In the discretion of the Authority, bonds of the Authority may be issued with such terms as will cause the interest thereon to be subject to federal income taxation. The Authority may sell its bonds in the manner, either at public or private sale, for the price, at the rate or rates of interest, or at discount in lieu of interest, as it may determine will best effect the purposes of this act.

(c) Said Authority may issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when the bonds shall have been executed and are available for delivery. The Authority may also provide for replacement of any bonds which shall have become mutilated or shall have been destroyed or lost. The Authority, by itself or through such agent as it may select, may purchase and invite offers to tender for purchase any bonds of the Authority at any time outstanding, provided, however, that no such purchase by the Authority shall be made at a price, exclusive of accrued interest, if any, exceeding the principal amount thereof or, if greater, the redemption price of such bonds when next redeemable at the option of the Authority, and may resell any bonds

so purchased in such manner and for such price as it may determine will best effect the purposes of this act.

(d) In the discretion of the board of directors, any bonds issued hereunder may be secured by a bond resolution or trust agreement or other agreement in such form and executed in such manner as may be determined by the board of directors between the Authority and the purchasers or holders of such bonds or between the Authority and a corporate trustee which may be any trust company or bank having the powers of a trust company within or without the commonwealth. Such bond resolution, trust agreement or other agreement may pledge or assign, in whole or in part, the revenues and funds held or to be received by the Authority, and any contract or other rights to receive the same, whether then existing or thereafter coming into existence and whether then held or thereafter acquired by the Authority, and the proceeds thereof. Such bond resolution, trust agreement or other agreement may contain such provisions for protecting and enforcing the rights, security and remedies of the bondholders as may be reasonable and proper, including, without limiting the generality of the foregoing, provisions defining defaults and providing for remedies in the event thereof which may include the acceleration of maturities, restrictions on the individual right of action by bondholders and covenants setting forth the duties of and limitations on the Authority in relation to the acquisition, construction, improvement, enlargement, alteration, equipping, furnishing, maintenance, use, operation, repair, insurance and disposition of the sewer and waterworks systems, the custody, safeguarding, investment and application of moneys, the issue of additional or refunding bonds, the fixing, revision, charging and collection of charges, the use of any surplus bond proceeds, the establishment of reserves and the making and amending of contracts; provided, however, that the Authority shall not mortgage its real property or fixed assets to secure its bonds.

(e) In the discretion of the board of directors any bonds issued under authority of this act may be issued by the Authority in the form of lines of credit or other banking arrangements under terms and conditions, not inconsistent with this act, and under such agreements with the purchasers or makers thereof or any agent or other representative of such purchasers or makers as the board of directors may determine to be in the best interests of the Authority. In addition to other security provided herein or otherwise by law, bonds issued by the Authority under any provision of this act may be secured, in whole or in part, by financial guarantees, by insurance or by letters of credit issued to the Authority or a trustee or any other person, by any bank, trust company, insurance or surety company or other financial institution, within or without the commonwealth, and the Authority may pledge or assign, in whole or

in part, the revenues and funds held or to be received by the Authority, and any contract or other rights to receive the same, whether then existing or thereafter coming into existence and whether then held or thereafter acquired by the Authority, and the proceeds thereof, as security for such guarantees or insurance or for the reimbursement by the Authority to any issuer of such letter of credit of any payments made under such letter of credit.

(f) It shall be lawful for any bank or trust company to act as a depository or trustee of the proceeds of bonds, revenues or other moneys under a bond resolution, trust agreement or other agreement of the Authority and to furnish indemnification and to provide security as may be required by the Authority. Any pledge of revenues and other funds made by the Authority under the provisions of this act shall be valid and binding and shall be deemed continuously perfected for the purposes of the uniform commercial code and other laws when such pledge is made. The revenues and funds, rights therein and thereto and proceeds so pledged and then held or thereafter acquired or received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery or segregation thereof or further act, and the lien of any such pledge shall be valid and binding against all parties having claims of any kind in tort, contract or otherwise against the Authority, whether or not such parties have notice thereof. The bond resolution, trust agreement or any other agreement by which a pledge is created need not be filed or recorded to perfect such pledge except in the records of the Authority and no filing need be made under the uniform commercial code. It is hereby declared that any pledge or assignment made under the Authority of this act is an exercise of the political and governmental powers of the Authority, and revenues or funds, contract or other rights to receive the same and the proceeds thereof which are subject to the lien of a pledge or assignment created under this act shall not be applied to any purposes not permitted by such pledge or assignment.

(g) Any holder of a bond issued by the Authority under the provisions of the act or of any of the coupons appertaining thereto and any trustee or other representative under a bond resolution, trust agreement or other agreement securing the same, except to the extent the rights herein given may be restricted by the resolution, trust agreement or other agreement, may bring suit upon the bonds or coupons and may, either at law or in equity, by suit, action, mandamus, or other proceeding for legal or equitable relief, including proceedings for the appointment of a receiver to take possession and control of the business and properties of the Authority, to operate and maintain the same, to make any necessary repairs, renewals and replacements in respect thereof and to fix, revise and collect

charges, protect and enforce any and all rights under the laws of the commonwealth or granted hereunder or under such bond resolution, trust agreement or other agreement, and may enforce and compel performance of all duties required by this act or by such bond resolution, trust agreement or other agreement, to be performed by the Authority or by any officer thereof.

(h) Before the issuance of any bonds of the Authority each member of the board of directors and each officer of the Authority charged with responsibility for the issuance thereof shall execute a surety bond conditioned on the faithful performance of the duties of the office of each such director and officer, in the sum of one hundred thousand dollars payable to the Authority, or, in lieu thereof, the Authority shall obtain a blanket bond in the same amount covering all such persons, and such bonds or bonds shall be filed in the office of the secretary of the commonwealth.

SECTION 13. Said Authority may issue refunding bonds for the purpose of paying any of its bonds issued pursuant to this act at or prior to maturity or upon acceleration or redemption or purchase and retirement. Refunding bonds may be issued at such times at or prior to the maturity, redemption or purchase and retirement of the refunded bonds as the board of directors deems to be in the interest of said Authority. Refunding bonds may be issued in sufficient amounts to pay or provide for payment of the principal of the bonds being refunded, together with any redemption premium thereon, any interest or discount accrued or to accrue to the date of payment of such bonds, the costs of issuance of the refunding bonds, the expenses of paying, redeeming or purchasing the bonds being refunded, the costs of holding and investing proceeds of refunding bonds pending such payment, redemption or purchase and such reserves for debt service or other capital or current expenses from the proceeds of such refunding bonds as may be required by a bond resolution, trust agreement or other agreement securing bonds. The issue and sale of refunding bonds, the maturities and other details thereof, the security therefor, the rights of the holders thereof, and the rights, duties and obligations of the Authority in respect of the same shall be governed by the provisions of this act relating to the issue of bonds other than refunding bonds insofar as the same may be applicable.

SECTION 14. Bonds issued by said Authority are hereby made securities in which all public officers and agencies of the commonwealth and its political subdivisions, all insurance companies, trust companies in their commercial departments, savings banks, cooperative banks, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly invest funds, including capital in their

control or belonging to them. Such bonds are hereby made securities which may properly be deposited with and received by any state or municipal officer of any agency or political subdivision of the commonwealth for any purpose for which the deposit of bonds or obligations of the commonwealth or any political subdivision is now or may hereafter be authorized by law.

SECTION 15. Bonds may be issued under this act without obtaining the consent of any executive office, department, division, commission, board, bureau or agency of the commonwealth or any political subdivision thereof, and without any other proceedings or the happening of any condition or acts other than those proceedings, conditions or acts which are specifically required therefor, and the validity of and security for any bonds issued by the Authority pursuant to this act shall not be affected by the existence or nonexistence of any such consent or other proceedings, conditions or acts. Provisions of this act relating to the preparation, adoption or approval of programs and budgets shall not affect the issue of bonds and bonds may be issued either before or after such preparation, adoption or approval.

SECTION 16. Bonds issued under the provisions of this act, excepting any notes or bonds guaranteed or issued by the commonwealth under paragraphs (e) or (f), respectively, of section five, shall not be deemed to be a debt or a pledge of the faith and credit of the commonwealth or of any of its political subdivisions, but shall be payable solely from the funds of the Authority from which they are made payable pursuant to this act. Bonds issued under the provisions of this act, excepting any notes or bonds guaranteed or issued by the commonwealth under paragraphs (e) or (f) of section five, shall recite that neither the commonwealth nor any political subdivisions thereof shall be obligated to pay the same and that neither the faith and credit nor the taxing power of the commonwealth or of any political subdivision thereof is pledged to the payment of the principal of or interest on such bonds. Further, every bond shall recite whether it is a general obligation of the Authority or a special obligation thereof payable solely from particular revenues or funds pledged to its payment. The aggregate principal amount of all bonds issued under the authority of this act shall not exceed the sum of six hundred million dollars outstanding, provided however, that bonds for the payment of redemption of which, either at or prior to maturity, refunding bonds shall have been issued shall be excluded in the computation of outstanding bonds.

SECTION 17. Notwithstanding any of the provisions of this

act or any recitals in any bonds issued hereunder, all such bonds shall be deemed to be investment securities under the uniform commercial code.

SECTION 18. All moneys received pursuant to the provisions, whether as proceeds from the issue of bonds or as revenues or otherwise, shall be deemed to be trust funds to be held and applied solely as provided in this act.

SECTION 19. (a) Bonds issued by the Authority, their transfer and the income therefrom, including any profit made on the sale thereof, shall, at all times, be exempt from taxation by and within the commonwealth.

SECTION 20. It is expressly contemplated by this act that the Authority, to the extent deemed by it to be necessary and convenient to achieve its purposes under this act and under such supervision from agencies of the commonwealth as is expressly authorized in this act, shall provide water and sewage collection, treatment and disposal services within its service area on an exclusive basis. It is intended that this section shall not (i) diminish the powers or responsibilities of local bodies, (ii) override other provisions of this act regulating the procedures for abandonment of local water supplies, (iii) limit the lawful exercise of any local body, subject to applicable approvals by the department of environmental quality engineering and the water resources commission, to continue to use any source of water used by it or to develop or reactivate any source of water to be used by it, or (iv) impose responsibility on the Authority for operation of the sewer and waterworks systems except as the Authority is charged with responsibility or may elect to exercise responsibility under other provisions of this act. In addition to and without limiting the generality of the foregoing, said Authority shall be a "local government" insofar as concerns immunity under sections (4), (4A) or (4C) of the Clayton Act; 15 U.S.C.A SS. 15, 15A, and 15C from damages, interest on damages, costs or attorneys fees for a local government, for any official or employee thereof acting in an official capacity or for a person against, whom a claim is based on any official action directed by a local government, or official or employee thereof acting in an official capacity.

SECTION 21. The Authority and its corporate existence shall continue until terminated by law; provided, however, that no such law shall take effect so long as said Authority shall have bonds outstanding unless adequate provision has been made for the payment or satisfaction thereof. Upon termination of the Authority, the title to all funds and other properties owned by it which remain after provision for the payment or satisfaction of all bonds of the Authority shall vest in the commonwealth. The obligations, debts and liabilities of the Authority shall be assumed by and imposed upon the commonwealth, and the funds of the authority retirement system shall be transferred to the treasurer and receiver general or to such other successor as the general court may designate, to be held for the exclusive use and benefit of the members of the authority retirement system.

Said reports shall include recommendations concerning the future activities of the Authority including, but not limited to, changes in the provisions of this act or the Authority's administrative procedures necessary or desirable for improving the delivery of services. The costs of preparing the reports of said Authority shall be provided for in the current expense

SECTION 40. Said chapter 59 is hereby further amended by striking out section 5F and inserting in place thereof the following section:-

Section 5F. Land acquired on or after January first, nineteen hundred and forty-six, by a municipality or a district including land held by or for the watershed system of the division of watershed management and by or for the waterworks system of the Massachusetts Water Resources Authority, as successors to the metropolitan water district, and held on January first in any year for any public purpose by such municipality, in this section referred to as the holding municipality, or by such district, if such land is located in a municipality other than such holding municipality, or, in the case of land so acquired and held by a district, in a municipality other than the municipality or municipalities in which the district lies or which constitute the district, shall, with all buildings and other things erected thereon or affixed thereto, be exempt from taxation for the next following fiscal year except as hereinafter otherwise provided: such holding municipality or district shall, on July first of such year, pay to the municipality in which such land is located the amount which would be assessable for the next following fiscal year upon a valuation equal to the average of the assessed taxable valuations of the land and all buildings and other things erected thereon or affixed thereto on the three assessment dates next preceding the acquisition of the land, the assessed valuation for each assessment date being reduced by all abatements, if any. If land subject to this section was not separately assessed or was exempt from taxation on any of said assessment dates, the fair cash value of the land and all buildings and other things erected thereon or affixed thereto on such assessment date shall for the purposes of this section be deemed to be the assessed valuation thereof on such date. Payments made by said division or said Authority pursuant to the provisions of this section for the year when a city or town shall have made a general revaluation of all its real property for purposes of taxation shall not be less than payments made to said city or town for the year immediately preceding the general revaluation. Whenever a city or town in which such land is located shall have made a general revaluation of all its real property for purposes of taxation, the valuation of such land for the purpose of payments authorized

by this section shall be determined by the commissioner of revenue as of January first, between January first, and June first, in the year succeeding such general revaluation and in every fifth year thereafter. The division of watershed management of the metropolitan district commission or the Massachusetts Water Resources Authority or the holding municipality or district, if aggrieved by the determination of the commissioner, may within six months after written notice thereof appeal to the appellate tax board.

The assessors of the municipality where land subject to this section lies shall determine the average valuation in accordance with this section and certify such valuation to the holding municipality or district liable under this section. The division of watershed management of the metropolitan district commission, or the Massachusetts Water Resources Authority or the holding municipality or district, if aggrieved by such determination, may within three months, after such certification appeal to the appellate tax board, which shall determine the average valuation in accordance with this section.

If rent or any revenue in the nature of rent is received from any part of any real estate subject to this section, the party yielding such rent or revenue shall be subject to taxation. The tax shall be in addition to the amount payable under this section. Revenue received for the use of such portions of a public airport as are used for the taking-off and landing of airplanes, including runways, taxi and transition strips, or revenue received for the use of buildings on a public airport, which are actually and exclusively used for servicing and repairing airplanes, shall not be deemed to be rent or revenue in the nature of rent within the meaning of this paragraph.

SECTION 40A. Said chapter 59 of the General Laws is hereby further amended by inserting after section 5F the following section:-

Section 5G. The Massachusetts Water Resources Authority, on July first of each year, shall pay over to the division of watershed management, an amount to be held in trust for payment to each city or town in which property of the Quabbin watershed and Ware River watershed is held by said division for purposes of a water supply or the protection of its sources, said amount to equal that which such city or town would receive in taxes upon the fair cash valuation of the land, which shall not include buildings or other structures except in the case of land taken for the purposes of protecting the sources of an existing water supply, the valuation for each year being reduced by all abatements thereon; provided that in no event shall any city or town receive an amount less than the payment received from the metropolitan district commission in the prior fiscal year. Said division shall pay such amounts without, further appropriation to

such city or town no later than August first of each year. Payments made by said Authority pursuant to the provisions of this section for the year when a city or town shall have made a general revaluation of all its real property for purposes of taxation shall not be less than payment made to said city or town for the year immediately preceding the general revaluation. Whenever a city or town in which such land is located shall have made a general revaluation of all its real property for purposes of taxation, the valuation of such land for the purpose of payment authorized by this section shall be determined by the commissioner of revenue as of January first, between January first and June first, in the year succeeding such revaluation and in every fifth year thereafter, so that the payment with respect to such land shall remain substantially the same as that made prior to such revaluation; provided, however, that notwithstanding any other provisions of this section, the valuation of such land, held by and for the division of watershed management, for the purpose of payments in lieu of taxes pursuant to this section, shall be determined by the commissioner of revenue in accordance with the provisions of sections thirteen to seventeen, inclusive, of chapter fifty-eight of the General Laws. In no event shall any city or town receive an amount less than the payment received from the metropolitan district commission in the prior fiscal year. The city, town, district, or authority owning such land, or said division of watershed management, if aggrieved by the determination of the commissioner, may within six months after written notice thereof appeal to the appellate tax board. Any part of such land or buildings from which any revenue in the nature of rent is received shall be subject to taxation.

If such land is part of a larger tract which has been assessed as a whole, its assessed valuation in any year shall be taken to be that proportional part of the value of the whole tract which the value of the land so acquired, exclusive of buildings, bore in such year to the value of the whole tract.

The Massachusetts Water Resources Authority on July first of each year, shall pay over to the said division of watershed management, an amount to be held in trust for payments in lieu of taxes to the towns of Belchertown, Hardwick, New Salem, Pelham, Petersham and Ware for watershed lands of the Quabbin Reservation which were included in the former towns of Dana, Greenwich, Enfield, and Prescott. Said amounts to be held in trust as payments in lieu of taxes shall be made only on lands which are above the high water mark of the total acreage in question that is held by each community; provided, however, that the sum of said payments shall not be less than fifty thousand dollars annually, and shall be valued in accordance with the provisions of sections thirteen to seventeen, inclusive, of chapter fifty-eight. In no event shall any city or town receive

an amount less than the payment received from the metropolitan district commission in the prior fiscal year.
