**Chapter 8.      AN ACT RELATIVE TO THE APPROPRIATION OF FUNDS BY THE TOWN OF HINGHAM TO CONSTRUCT WATER MAINS IN SAID TOWN AND TO PROVIDE FOR THE APPORTIONMENT OF THE COST THEREOF.**

Be it enacted, etc., as follows:

**SECTION 1.** The town of Hingham at any town meeting may vote to authorize the board of selectmen of said town to utilize betterment assessments to finance the installation of water mains and necessary equipment, including lateral water mains and fire hydrants, to serve public ways in the town that are in existence as of the effective date of this act, as certified by the town clerk, that are not served by water mains.

The board of selectmen shall adopt an order that any owner of land which receives benefit from the laying of water pipes in said ways upon which his land abuts or which by more remote means receives benefit through the availability of a supply of water to his land or buildings shall pay a proportionate part of the cost not already assessed of extending such water supply to his land. The amount to be charged against each parcel of land receiving such benefit shall include the cost of the pipes, equipment and material and of labor and other expenses incidental thereto and shall be ascertained, assessed and certified by the board of selectmen. The board of selectmen shall within six months after the completion of the improvement, or at such earlier time as it shall choose, determine the value of such benefit or advantage to the land within such area and assess upon each parcel thereof a proportionate share of the cost of such improvement.

The assessment shall be made upon the parcels of land receiving benefit from the laying of the water mains by a fixed uniform rate based upon the cost of the water pipes laid and the laying thereof, according to the frontage of such land on any way in which a water pipe is laid or according to the area of such land within a fixed depth from such a way or according to valuation for purposes of taxation in the last annual assessment or according to two or all of such measures.

The board of selectmen shall, in its order of assessment, designate as

---

**ACTS, 1987. - Chap. 8.**

the owner of each parcel the person who was liable to assessment therefor on the preceding January first under the provisions of chapter fifty-nine of the General Laws. The order shall also contain a description sufficiently accurate for identification of the area which shall receive benefit or advantage, other than the general advantage to the community, from such improvement, and shall specify the ways in or along which such water pipes are to be laid and shall describe such land as does not abut upon any such way which is to be assessed for such improvement, and shall refer to a plan of such area, and shall contain a statement of the betterments that shall be assessed upon each parcel of land within such area; and such order and plan shall be recorded, within ninety days from the adoption of the order, in the registry of deeds. Payment of assessments shall be made on an annual or semi-annual basis, or some combination thereof, and the total number of payments for each parcel of land assessed shall not exceed forty payable over a period not to exceed twenty years, all as specified in said order. No betterments shall be assessed for such improvement unless the order and plan are recorded as herein provided, nor upon any parcel of land not within such area, nor for a greater amount than as stated in the order.

**SECTION 2.** Subsequent to the town meeting vote, and prior to the recording of any order of assessment, the board of selectmen shall enter into an agreement, upon such terms as the board of selectmen shall determine, with the Hingham Water Company, its successor or other company or entity to supply water to the areas to which service is to be extended under this act, including, as determined by the board of selectmen and as agreed upon, provision for the ownership of mains, other pipes and facilities, the installation of which was financed under the provisions of this act, and the repair, maintenance and replacement of same.

**SECTION 3.** No assessment shall be levied in excess of the benefit to the land from the laying of the water pipes for which the assessment is levied. If any assessment is found to exceed such benefit, it shall be abated as provided for in this act.

**SECTION 4.** The owner of any real estate upon which betterments have been assessed may, within thirty days after the first notice of such assessment has been sent by the collector of taxes, file with the board of assessors for an abatement thereof, and the board of assessors shall grant such abatement as may be necessary to make such assessment conform to this act. There shall be no right of appeal from a betterment assessment, or other remedy, except as specified in this section with respect to the first notice of such assessment. Such application may be filed with the clerk or secretary of the board of assessors or delivered by mail or otherwise at their office. The board of assessors shall within ten days after their decision upon the application give written notice thereof to the applicant by mailing notice to the address which appears upon the application for abatement. If an assessment is abated by the board of assessors, the assessment as so determined shall stand as the assessment

**ACTS, 1987. – Chap. 8.**

upon the land. If the assessment is abated, the person by whom it was paid shall be reimbursed the amount of the abatement allowed.

**SECTION 5.** A person who is aggrieved by the refusal of the board of assessors to abate an assessment in whole or in part may, within thirty days after the board of assessors has sent notice of its decision to the address appearing on the application for abatement, appeal therefrom by filing a petition for the abatement of such assessment in the superior court department of the trial court for Plymouth county.

**SECTION 6.** If a person who is entitled to file an application under section four or a petition under section five dies within the time limited for filing such application or petition without the same having been filed, his executor, administrator, heir or devisee may, within one year after his interest vests, file such application or petition in the same manner and with the same effect as if filed by the deceased in his lifetime.

**SECTION 7.** Upon the filing of a petition under section five process shall issue and service shall be made upon the board of selectmen and the board of assessors. Any defense to the petition not relating to the amount of the assessment shall be served within thirty days of the date of receipt of the summons, but no answer relating solely to the amount of the assessment need be served or filed and there shall be no default for failure to enter an appearance. The trial shall be by the court. Interrogatories may be filed and served in the same manner and with the same effect as in civil actions. No party shall be entitled to further discovery, except by leave of the court. The court, at the request of any party, shall advance the petition so that it may be heard and determined with as little delay as possible. In cases where petitions have been filed for the abatement of betterments with respect to the same parcel of land and the same improvement, the petitions may be tried together. If the assessment is abated, judgment shall be entered for the petitioner for the amount of the reduction. There shall be post-judgment interest only at the rate of six per cent per annum from the date of entry judgment. No party shall be entitled to costs or attorney's fees. Except as otherwise provided in this act, proceedings shall be conducted as are civil cases in the superior court department of the trial court.

**SECTION 8.** A person who is aggrieved by the refusal of the board of assessors to abate an assessment may, instead of pursuing the remedy provided by section five, appeal within the time limited therein to the county commissioners of Plymouth county. The person so appealing shall, within ten days after the filing of said appeal, give written notice thereof to the board of selectmen and the board of assessors by providing each a copy of the appeal filed with the county commissioners. Such notice shall be given by delivery in hand or by registered mail, postage prepaid. Within thirty days of the date of receipt of such notice, the board of selectmen or the board of assessors may file a petition in the superior court department of the trial court for Plymouth county

**ACTS, 1987. – Chap. 8.**

together with a copy of the appeal filed with the county commissioners. Upon the filing of said petition the appeal to the county commissioners shall be deemed dismissed and said superior court shall have jurisdiction to determine the appeal as provided for in section seven. The board of selectmen and the board of assessors shall file an answer to said appeal as provided for in section seven. The county commissioners shall hear the parties and shall have the same powers and duties with respect to the abatement of such assessment as the board of assessors. The decision of the county commissioners shall be final.

**SECTION 9.** No application, petition or appeal for abatement, as provided for in sections four, five and eight, may be considered or acted upon except where each payment of the betterment assessment due has been paid in full within thirty days of the date notice of the amount due was sent.

**SECTION 10.** If the board of assessors with which an application for the abatement of an assessment has been duly filed in accordance with the provisions of section four fails to act upon said application within three months of the date of the filing of such application, the application shall be deemed to be denied, and the applicant shall have the right within thirty days after the expiration of said three months to appeal as if the board of assessors had in fact denied said application.

**SECTION 11.** Within a reasonable time after making the assessment the board of selectmen shall certify to the board of assessors the list of assessments, who shall forthwith commit such assessments with their warrant to the collector of taxes, who shall forthwith send notice in accordance with, except as to the date of notice, section three of chapter sixty of the General Laws to the person designated in the order of assessment as the owner of each parcel assessed and demand for the payment of such assessment shall be made upon such person. Except as otherwise herein provided, the collector of taxes shall have the same powers and be subject to the same duties with respect to such assessments as in the case of the annual taxes upon real estate, and the law in regard to the collection of such annual taxes, to the sale of land for the nonpayment thereof and to redemption therefrom shall apply to assessments made under this act, so far as the same are applicable; but the owner of land assessed shall not be personally liable for the assessment thereon. The collector of taxes shall collect the assessments and hold them in a separate interest bearing account to be utilized as authorized by this act.

**SECTION 12.** Assessments made under this act shall constitute a lien upon the land assessed. The lien shall take effect upon the recording of the order described in section one.

**SECTION 13.** The board of selectmen making the order for the assessment of any betterment shall, upon the application of the owner of

---

**ACTS, 1987. – Chap. 8.**

the real property assessed, if such owner is eligible for an exemption under clause forty-first A of section five of chapter fifty-nine of the General Laws, enter into a deferral and recovery agreement with such owner on behalf of the town. Any such application shall be filed with said board of selectmen within six months after notice of such assessment has been sent by the collector of taxes. Such application may be filed with the clerk or secretary of said board of selectmen or delivered by mail or otherwise at their office.

Said agreement shall provide:

(1) that no sale or transfer of such real property may be consummated unless the betterment assessment which would otherwise have been collected on such real property has been paid together with interest thereon at the rate of twelve per cent per annum;

(2) that upon the demise of the owner of such real property, the heirs-at-law, assignees or devisees shall have first priority to said real property by paying in full the total betterment assessment which would otherwise have been due, plus interest; provided, however, that if such heir-at-law, assignee or devisee is a surviving spouse who enters into a betterment assessment deferral and recovery agreement under this section, payment of the betterment assessment and interest due shall not be required during the life of such surviving spouse;

(3) that if the betterment assessments due, plus interest, are not paid by the heir-at-law, assignee or devisee or if payment is not postponed during the life of a surviving spouse, such betterment assessments and interest shall be recovered from the estate of the owner; and

(4) that any joint owner or mortgagee holding a mortgage on such property has given written prior approval for such agreement, which written approval shall be made a part of such agreement.

In the case of each betterment assessment deferral and recovery agreement entered into between said board of selectmen and the owner or owners of such real property, said board of selectmen shall forthwith cause to be recorded in the registry of deeds in Plymouth county a statement of their action, which shall constitute a lien upon the land covered by such agreement for such betterment assessment as has been assessed under the provisions of this act, plus interest as provided in this section. The statement shall name the owner or owners and shall include a description of the land. Unless such a statement is recorded the lien shall not be effective with respect to a bona fide purchaser or other transferee without actual knowledge of such lien. The filing fee for such statement shall be paid by the town and shall be added to and become a part of the assessment due.

**SECTION 14.** The board of selectmen making the order for the assessment of any betterment upon land which is not built upon shall extend the time for payment of the assessment until the land assessed is built upon or for a fixed time; but interest at the rate of twelve per cent per annum shall be paid annually upon the assessment and the assessment shall be paid within three months after such land is built upon or at the expiration of such fixed time.

---

**ACTS, 1987. – Chap. 9.**

**SECTION 15.** If land which is subject to a lien for an assessment made under this act is subsequently divided by sale, partition or otherwise and such division has been duly recorded in the registry of deeds accompanied by a plan sufficient for the identification of the division of the whole estate, including the names and addresses of the different owners thereof, the board of assessors may, or upon the written request of the owner of a portion thereof, shall, divide said assessment or the amount thereof remaining unpaid, and the costs and interest accrued thereon, among the several parcels into which said land has been divided, assessing upon each parcel the part of the original assessment remaining unpaid proportionate to the special benefit received by such parcel from the improvement. After such assessment has been so divided, only the part of the assessment, interest and costs assessed upon each parcel shall constitute a lien upon such parcel. At least seven days prior to making such division the board of assessors shall send by registered mail to all owners of any interest in the land assessed, whose addresses are known to them, a notice of their intention to make such division, unless such notice has been waived. A person aggrieved by any action of the board of assessors, under the provisions of this section, shall have the same remedy as a person aggrieved by the refusal of the board of assessors to abate an assessment.

**SECTION 16.** If an assessment is for any reason invalid and has not been paid in full, it may be reassessed by the board of selectmen in the amount for which the original assessment ought to have been made, at any time before the expiration of two years from the date of the original assessment, if the land has in the meantime been alienated; otherwise at any time before the alienation thereof. Such assessment shall be a lien upon any sum paid on account of the original assessment, and to the extent that it is not thereby satisfied shall be a lien upon the land as provided for in this act. It shall be collected in the same manner as an original assessment and shall in all other respects be subject to this act.

**SECTION 17.** This act shall take effect upon its passage.

Approved March 31, 1987.

**Chapter 15. AN ACT FURTHER REGULATING CERTAIN CONSUMER PRODUCTS PRICING PRACTICES.**

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to immediately regulate certain pricing practices, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

**SECTION 1.** Section one of chapter six hundred and thirty-four of the acts of nineteen hundred and eighty-six is hereby repealed.

**SECTION 2.** Section 115A of chapter 6 of the General Laws, as appearing in the 1984 Official Edition, is hereby amended by striking out, in lines 1, 11 and 22, the word "council" and inserting in place thereof, in each instance, the words:- director of standards.

**SECTION 3.** Section 181 of chapter 94 of the General Laws is hereby amended by inserting after the word eighty-four E, inserted by section 2 of chapter 634 of the acts of 1986, the words:- , except section one hundred and eighty-four A.

**SECTION 4.** Said chapter 94 is hereby further amended by striking out sections 184B to 184E, inserted by section 3 of said chapter 634, and inserting in place thereof the following four sections:-

Section 184B. For purposes of this section and sections one hundred and eighty-four C to one hundred and eighty-four E, inclusive, the following words shall have the following meanings:-

"Automatic checkout system", a cash register, computer, terminal, or other device capable of interpreting the universal product code, or any

---

**ACTS, 1987. – Chap. 15.**

other code which is on an item offered for sale used to determine the price of the item being purchased, regardless of whether the code entry is accomplished manually, or automatically by a machine.

"Coded", any symbol, letter, number or combination thereof other than the price itself which is stored in and interpretable by the seller's automatic checkout system.

"Correct price", the advertised price in any circular, newspaper, magazine, television or radio commercial, or in any other medium, or any published correction thereof. If an item is not advertised, the correct price shall be the lowest price indicated on any store sign for the item, but not if such item is rung up at a lower price. If no sign is displayed, the correct price shall be the price of the item on its displayed unit price label, but not if such item is rung up at a lower price. If no unit price label is displayed, the correct price shall be the price rung up by the food store's or food department's automatic checkout system. If the foregoing provisions for establishing the correct price are not determinative in a particular situation, the correct price shall be the price on the seller's current price list.

"Display", two or more units of an item located together. A display shall be deemed to be checked after the correct price is ascertained and one or more units are removed from the display and examined for accurate price markings.

"End-aisle display", a display of a specific item consisting of at least fifty units, not including units in closed cartons or otherwise inaccessible to the consumer which is located in a freestanding display or at the end of, or adjacent to, a shelved tier of groceries or other items.

"Food", anything edible.

"Food department", any seller other than a food store with any grocery item section, area, or display and which sells ten or more different food items for consumption off the seller's premises at least in part to individuals for their own personal, family, or household use; provided, however, that any food section which is within a larger business and is the functional equivalent of a supermarket with its own separate checkout, may be deemed a food store by the director of standards.

"Food store", any store, shop, supermarket, grocer, convenience store, warehouse-type seller, club, outlet, or other seller, whose primary business is selling either food for consumption off the seller's premises alone or in combination with grocery items or other nondurable items typically found in a supermarket, and such items are sold at least in part to individuals for their own personal, family, or household use.

"Grocery items", any food, pet food or supply, soap, household cleaner of any type, laundry product, light bulbs, or disposable paper or plastic products.

"Gross error", a price which is less than half the price stated by the seller as the actual selling price, and which was never intended as the selling price at any time during the previous thirty day period.

"Item", a specific and distinct product, good or commodity. One item is differentiated from another by having a different universal product

code for items so coded; and for items not so coded, the item has any distinguishing characteristics compared to another item.

"Represented price", any price represented to a consumer as the actual selling price including the price on any sign, price tag, unit price label, advertisement, item, or cash register display.

"Rung up", the price on a cash register or terminal sales slip or display which indicates the price the consumer will be charged for each item; provided, however, that such price is not the result of a keypunching error by the cashier or inspector.

"Unit", a single piece of an item, such as one can, package, bag, or multipack.

Section 184C. Except as hereinafter provided, every item in a food store and every grocery item in a food department offered for sale, whether edible or not, shall have each unit individually marked with the correct selling price. All prices represented to the consumer for the same item shall be consistent with each other and to the price rung up and charged for the item. The seller shall be responsible for the completeness and accuracy of all price marking.

The following classes of items are exempt from the price marking requirement of this section; provided, however, that the cashier can readily discern the price of the exempted item, that no exempted item is marked with an incorrect price, that the exempted item is on a current price list maintained by the seller as hereinafter provided and that a clear and conspicuous separate sign, or a single sign in the case of similar items all priced the same, larger than the seller's regular unit price label with the price no smaller than one inch high, is placed at the point of display of each exempted item containing the name of the item, the correct price, and, if appropriate, the size or other distinguishing information:

(1) unpackaged: produce, meat, fish, poultry, delicatessen, bakery items, and any other unpackaged items offered from a bulk display, except that any such item weighed or wrapped to order by the food store or food department but paid for at a place other than at the point of such weighing or wrapping shall have the correct price marked on the item;

(2) gallons and half gallons of milk;

(3) eggs;

(4) cigarettes, cigars, tobacco and tobacco products;

(5) individual units within a multi-unit package if the package is correctly price marked;

(6) snack foods such as cakes, gum, candy, chips, and nuts if offered for sale individually, weigh less than three ounces, cost seventy-five cents or less, and are located at the checkout area;

(7) individual greeting cards; provided, however, that such cards are marked with a price code readily understandable by the consumer;

(8) individual glass jars of baby food of the same brand and price where vegetable or fruit is the predominant ingredient other than water, but not including juices; provided, however, that if offered for sale by a seller with an automatic checkout system they are coded, or if offered

by a seller without such system, they are on an easily referenced price list at each cash register;

(9) not more than sixty items that are located in end-aisle displays; provided, however, that if offered for sale by a seller with an automatic checkout system they are coded, or if offered by a seller without such system they are on an easily referenced price list at each cash register; and, provided, further, that such items are fully and accurately price marked at their regular shelf location, and the seller maintains a list of such items as required by section one hundred and eighty-four D. Said sixty item limit shall be reduced by seventy-five per cent in the case of a food department. For the exclusive purpose of determining whether a seller has exceeded said sixty item limit, units of an item which differ only by flavor or scent shall be considered the same item if they are otherwise identical in all respects including price, size, and brand, unless in a particular case the director of standards determines that such units are different items.

Section 184D. In addition to the exemptions in section one hundred and eighty-four C, food stores or food departments which, for a majority of the items offered for sale, utilize an automatic checkout system which is at least ninety-five per cent accurate as determined by the director of standards may also exempt up to a maximum of four hundred additional items; provided, however, that they are coded and subject to the following limitations and qualifications and those in section one hundred and eighty-four C:

(1) The exact number of additional exempt items allowed by this section shall be based on the number of operable cash registers or terminals located at the seller's main checkout location, but not to exceed four hundred. Cash registers at the seller's courtesy desk, or otherwise away from the main checkout location, if the seller maintains such main checkout location, shall not be included in the calculation, unless approved by the director of standards.

Sellers with one operable cash register shall be allowed to exempt twenty additional items of their own choosing. Sellers with two, three to four, or five to six operable cash registers shall be allowed to exempt fifty, one hundred or two hundred additional items respectively. Sellers with seven or more operable cash registers may exempt up to four hundred additional items. In the case of a food department, the number obtained in the above calculation shall be reduced by seventy-five per cent. In no case shall the number of exemptions permitted by this exception exceed four and one-half per cent of the number of packaged grocery items carried by the seller.

(2) Any food store or food department permitted to exempt additional items under this section shall establish at each store location a dated written list of the items it has chosen to exempt. The list shall include a readily understandable description of each item and the code number understood by the seller's automatic checkout system. The list shall be maintained so that any item may be referenced easily. Deletions may be made from the list at any time, but no additions, substitutions, or changes may be made to the list except twice a year in January and July

starting with July nineteen hundred and eighty-seven. The exemption permitted by this section shall not apply to any item not on that list and shall not apply unless such list has been established and is available upon request at the store to any consumer or any representative authorized by the director of standards. The director of standards may require the periodic filing of such list with his office. No seller may choose to exempt items required to be price marked by other laws or regulations governing specific types of items, or may exempt more than two hundred items in any one department except in the dry grocery department.

(3) All food stores and food departments shall maintain a current and accurate price list of all items exempted under the provisions of section one hundred and eighty-four C and this section. Such list may be maintained in any reasonable manner, including by an automatic checkout system or merged with nonexempt items; provided, however, that information contained therein can be referenced easily by the person requesting it. All food stores and food departments shall also maintain a separate, current, written or printed list of the items it chooses to exempt under the provisions applying to end-aisle displays. Such lists shall be made available upon request to any representative authorized by the director of standards, and the price for any item contained therein shall be provided to any person upon request.

(4) Violations of the provisions of section one hundred and eighty-four B to one hundred and eighty-four E, inclusive, for which fines shall be levied shall include: having no price marked on any unit that is required to be priced and is not exempted; having an incorrect price on any unit; having an incorrect or missing sign; or overcharging on any unit. A unit shall be deemed to be overcharged once it is rung up at a price higher than any represented price.

There shall be a tolerance for error on all fineable violations discovered during an in-store inspection except overcharging. In the case of a display checked for unmarked and incorrectly marked units, the tolerance shall be such that the one display of an item most in violation out of each twenty displays checked shall be excluded in computing that fine. Said tolerance shall not be less than one display per inspection. In the case of a violation for incorrect or missing signs, the tolerance for error shall be calculated such that the number of sign violations actually found among those checked shall be reduced by ten per cent, but by not less than one violation, and such violations omitted shall be excluded in computing any fine. Each unit or sign in violation shall constitute a separate violation; provided, however, that no item may be subject to violations for both overcharging and incorrect price markings. Multiple units from the same display of an item which are found in violation of the same infraction shall be considered one fineable violation. An inspector may inspect any or all units in any display of any item. The seller shall allow the inspector access to the seller's automatic checkout system.

Section 184E. Any representative authorized by the director of standards may conduct inspections of any item and shall issue notices of violation to any food store or food department for any violation of this

section and sections one hundred and eighty-four B to one hundred and eighty-four D, inclusive; provided, however, that no food store or food department shall be inspected more than once a week. The fine shall be one hundred dollars for each violation, up to a maximum fine of twenty-five hundred dollars per inspection. The seller shall immediately correct all violations including those where a tolerance was granted.

In the case of any verified consumer complaint, fines for overcharging shall be limited to one violation per item. A fine shall be issued without allowance for tolerance upon verification of any consumer complaint alleging overcharging or improper price marking except for those units where the seller gave the consumer the units tendered for purchase free under a qualified price accuracy guarantee.

The director of standards may require sellers to disclose a consumer's rights under the provisions of this section and sections one hundred and eighty-four B to one hundred and eighty-four D, inclusive.

Any food store or food department which maintains and complies with the terms of a qualified price accuracy guarantee in the form prescribed below, and posts an explanation of such price accuracy guarantee at each cash register or terminal, shall have all per violation fines reduced by fifty per cent. If the director of standards determines that a food store or food department is either intentionally or through gross negligence violating any provisions of this section and sections one hundred and eighty-four B to one hundred and eighty-four D, inclusive, all the store's exemptions shall be rescinded for a period of twelve months, and the matter shall be referred to the attorney general for action against such food store or food department. Uncontested fines levied under said sections shall be paid within thirty days of issuance of the notice of violation. Any aggrieved seller may appeal any unjustified fines to the director of standards if such appeal is filed within thirty days of issuance of the notice of violation. If the grounds for appeal are determined to be without reasonable basis, the fine shall be doubled.

A qualified price accuracy guarantee at a minimum is one which immediately gives any consumer one unit free of every different item which was either (a) rung up at a price higher than the lowest price marked on the unit, and for unmarked units, the price on any sign or unit price label; or (b) rung up at a price higher than the price advertised for the item. Sellers may elect option (a) or (b), or both, but option (b) may only be elected alone if the seller advertises at least fifty packaged grocery sale items each week not including meat and produce. To take advantage of the guarantee, the consumer need only point out the over-ring to the cashier.

All food stores and food departments shall provide an itemized sales slip to all consumers indicating at a minimum the price charged for each item or unit. No food store or food department shall refuse to sell any unit tendered for purchase at the lowest price represented to the consumer by the seller or supplier; provided, however, that the seller shall have no obligation to sell such unit at the lowest represented price if it is the result of a gross error, if it is based on the price marked on another unit of the same item and the tendered unit is marked only with

---

**ACTS, 1987. – Chap. 16.**

a higher price, or if the price tag, label, or sign shows evidence of obvious physical tampering, or if it is given away free under a price accuracy guarantee.

This section and sections one hundred and eighty-four B to one hundred and eighty-four D, inclusive, shall only apply to food stores and to grocery items in food departments. Said sections shall not diminish any obligations under other laws or regulations regarding item pricing for sellers other than food stores or for items other than grocery items in food departments. The director of standards shall not issue a fine pursuant to this section and said sections one hundred and eighty-four B to one hundred and eighty-four D, inclusive, and section fifty-six D of chapter ninety-eight for the same violation. Where a seller is also subject to the item pricing regulations or guidelines of another agency, in cases where a specified number of items is allowed to be exempted under two similar exceptions to the requirement of item pricing, such similar provisions shall not be additive. Compliance with another agency's regulations or guidelines which differ from said sections or any regulations issued hereunder by the director of standards shall not be a defense to a violation of said section or any regulations promulgated hereunder.

The director of standards may promulgate regulations or issue guidelines for the implementation or interpretation of said sections.

Failure to comply with any of the provisions of said sections shall constitute a violation and an unfair or deceptive act or practice under the provisions of chapter ninety-three A.

**SECTION 5.** Section 56D of chapter 98 of the General Laws, as amended by section 4 of said chapter 634, is hereby further amended by striking out the last paragraph and inserting in place thereof the following paragraph:-

For the purposes of this section, an automated retail check out system shall mean a cash register, computer, terminal, or other device capable of interpreting the universal product code, or any other code which is on an item offered for sale to consumers used to determine the price of the item being purchased, regardless of whether the code entry is accomplished manually, or automatically by a machine.

**SECTION 1.** The General Court finds and declares that the serious public emergency declared in chapter seven hundred and ninety-seven of the acts of nineteen hundred and sixty-nine continues to exist in the city of Boston with respect to the housing of a substantial number of the citizens of said city, which emergency has resulted in a substantial shortage of safe, decent, and reasonably priced rental housing accommodations in the city of Boston, particularly for those who are elderly, handicapped, or who have low or moderate annual incomes; and that such emergency has been particularly exacerbated because of deterioration and demolition of existing housing and an insufficiency supply of new housing, and due, further, to the conversion of rental housing units to other uses or forms of ownership, particularly conversion to condominiums or cooperatives and the resulting increases in rent, displacement of tenants or loss of rental housing stock; and, that unless the demolition of existing housing and the conversion of rental housing accommodations to other forms of use or ownership are further regulated and controlled, such emergency and the inflationary pressures resulting therefrom will produce serious threats to the public health,

Clinical privileges shall be determined on an individual basis and shall be commensurate with an applicant's education, training and experience as established herein. In implementing these criteria, said facility shall formulate and apply reasonable, nondiscriminatory standards for the evaluation of the credentials of a certified clinical specialist in psychiatric and mental health nursing. As part of its responsibility for the operation of such facility, the governing body, or designated persons so functioning, shall ensure that decisions on clinical privileges and staff membership are based on an objective evaluation of an applicant's credentials, free of anti-competitive intent or purpose. The credentials committee and other staff who evaluate and determine the qualifications of applicants for clinical privileges and staff membership shall include, whenever possible, certified clinical specialists in psychiatric and mental health nursing.

In determining the qualifications for staff membership or clinical privileges, the facility shall not consider the following factors in its deliberations:

- (1) an applicant's membership or lack of membership in a professional society or association;
- (2) an applicant's decision to advertise, reduce fees or engage in other competitive acts intended to generate business;
- (3) an applicant's participation in prepaid group health plans, salaried employment or any other manner of delivering health services on other than a fee-for-service basis;
- (4) an applicant's support for, training of or participation in a private group practice with members of a particular classification of health professional;
- (5) an applicant's willingness to testify in malpractice suits, disciplinary actions or other proceedings; and
- (6) an applicant's willingness to send a specified amount of patients or clients who are in need of the services of a facility to a particular facility; provided, however, that this last restriction shall not apply to public facilities or agencies.

Whenever a certified clinical specialist in psychiatric and mental health nursing submits a completed application for staff membership or clinical privileges to such facility, such facility shall have one hundred and twenty calendar days to grant or deny such application. Such facility shall not deny such application without providing the applicant with the same procedural rights as are provided to all physician applicants included, but not limited to, the following:

- (1) a contemporaneous written explanation containing the explicit reasons for denial of such application;
- (2) reasonable advance notice of the right to a fair hearing which would afford the applicant the opportunity to prepare an adequate rebuttal to the stated reasons for denial of such application;
- (3) a fair hearing, including the right to present evidence and to call witnesses on his behalf; and
- (4) a written decision containing the explicit reasons for taking the action including, but not limited to, any evidence upon which the decision was based.

Nothing in this section shall prohibit any certified clinical specialist in psychiatric and mental health nursing from working as a salaried employee or consultant in a health care facility. No classification of a health care facility by the department of public health or department of mental health, nor any other classification of said facility on quality or service or otherwise, by any person, body or agency of the commonwealth or any subdivision thereof, shall be affected by use of such facility by certified clinical specialists in psychiatric and mental health nursing; nor shall any such classification be affected by the subjection of the certified clinical specialist in psychiatric and mental health nursing to the rules and regulations of the organized professional staff. No classification of such health care facility by any agency of the commonwealth or any subdivision thereof, for the purposes of

ascertaining eligibility for compensation, reimbursement, or other benefit for treatment of patients, shall be affected by the use of such facility by certified clinical specialists in psychiatric and mental health nursing; nor shall any such classification be affected by the subjection of the certified clinical specialist in psychiatric and mental health nursing to the rules and regulations of the organized professional staff which govern the certified clinical specialist in psychiatric and mental health nursing's use of the facilities.

Notwithstanding any other provisions of this section, the exercise of privileges in such health care facility may be limited, restricted or revoked for reasons including, but not limited to, the violation of such health care facility's rules, regulations or procedures which are applied in good faith, in a nondiscriminatory manner, to all practitioners in such health care facilities exercising such privileges or entitled to exercise such privileges.

**SECTION 2.** Section 52 of said chapter 111, as appearing in the 1984 Official Edition, is hereby amended by inserting before the definition of "Hospital" the following definition:-

"Certified clinical specialist in psychiatric and mental health nursing", a registered nurse licensed under the provisions of section eighty B of chapter one hundred and twelve and authorized by the board of registration in nursing to practice as a certified clinical specialist in psychiatric and mental health nursing.

**SECTION 3.** Notwithstanding any other provision of this act, a health care facility shall require, at the time of admission of a patient of a certified clinical specialist in psychiatric and mental health nursing, that the chief of psychiatry, or his designee in such facility, in consultation with the certified clinical specialist in psychiatric and mental health nursing, shall designate a collaborating psychiatrist who agrees to serve as such, who has appropriate staff privileges and who will have the principal responsibility for the clinical care of such patient until such patient is discharged from such facility.

**Chapter 130. AN ACT FURTHER REGULATING THE GOVERNMENT LAND BANK.**

Be it enacted, etc., as follows:

**SECTION 1.** Chapter 212 of the acts of 1975 is hereby amended by striking out section 1, as most recently amended by section 2 of chapter 762 of the acts of 1979, and inserting in place thereof the following section:-

Section 1. It is hereby found that there exists underutilized property owned by the commonwealth or the federal government which property is surplus to current and projected governmental need; that such surplus property is a significant resource which if returned to productive economic use, would contribute to the provision of gainful employment, increased revenue for the commonwealth and municipalities, and a more stable economy; and that the acquisition, development or disposition of

such property in accordance with redevelopment plans and by providing loans for the redevelopment of such property and the construction, rehabilitation, demolition and maintenance of buildings thereon are valid public purposes.

It is hereby further found that decadent, substandard, or blighted open areas exist in the commonwealth; that each such area constitutes a serious and growing menace, injurious and inimical to the safety, health, morals and welfare of the residents of the commonwealth; that such area constitutes an economic liability, substantially impairs or arrests the sound growth of municipalities, and retards the economic well being of the commonwealth; that each decreases the value of private investments and threatens the sources of public revenue; that redevelopment of each such area for the elimination of substandard conditions and the prevention of their recurrence is necessary to retain existing industries, attract new industries, and promote the sound economic growth of the commonwealth; that the menace of such decadent or blighted open areas is beyond remedy and control solely by regulatory process in the exercise of the police power and cannot be dealt with effectively by the ordinary operations of private enterprise without the aid herein provided; that unemployment and under-employment have been caused in part by industrial and manufacturing companies moving from the commonwealth; that many existing industrial and manufacturing facilities within the commonwealth are obsolete and inefficient; that such facilities are underutilized or vacated, thereby creating additional unemployment; that such obsolescence and abandonment of existing facilities are causing injury to the economy of the commonwealth and its municipalities; that the manufacturing and industrial sector of the economy provides one of the best immediate opportunities for better jobs at higher wages for inhabitants of the commonwealth and that new industrial and manufacturing sites are required to attract and house new industries and to retain existing industries in need of expansion space; that unaided, private enterprise will not be able to develop such decadent, substandard, or blighted open areas due to problems encountered in the assembly of suitable building sites, the provision of adequate public services, the unavailability of sufficient private capital for development and the inability of private enterprise alone to plan, finance and coordinate economic development projects; that in many areas of the commonwealth, municipalities want and need to revitalize their economic job base, but due to the size and cost of development are unable to do so; that the continuing increase in the cost of assembling land available for development particularly in substandard, decadent, or blighted areas of the commonwealth substantially impairs the ability of the commonwealth and cities and towns of the commonwealth to stimulate economic and industrial growth in order to produce gainful employment; that the acquisition, development or disposition of such areas in accordance with redevelopment plans and by providing loans for the redevelopment of such areas and the construction, rehabilitation, demolition and maintenance of buildings therein for the purpose of eliminating decadent, substandard or blighted open conditions and

preventing the recurrence of such conditions in such areas are valid public uses and purposes for which public money may be expended.

It is the purpose of the government land bank established by this act to aid private enterprise or public agencies in the speedy and orderly conversion and redevelopment of certain lands formerly used for military activities to nonmilitary uses, including industrial, commercial, and residential uses, and in the development and redevelopment of substandard, blighted or decadent areas and of surplus government property through the acquisition, development or disposition of such areas or of surplus government property, all in accordance with redevelopment plans, and by providing for loans for the redevelopment of such areas and property, to stimulate economic development including industrial, commercial and residential uses, in order to prevent blight, economic dislocation, and additional unemployment or to aid private enterprise in the construction and rehabilitation upon and within such areas and property of decent, safe, and sanitary housing available to persons of low and moderate income in order to alleviate the shortage of such housing.

**SECTION 2.** The second paragraph of section 2 of said chapter 212, as amended by section 2A of said chapter 762, is hereby further amended by inserting after the word "planning", in line 8, the words:– , one of whom shall be experienced in commercial real estate lending.

**SECTION 3.** The third paragraph of said section 2 of said chapter 212 is hereby amended by striking out, in line 2, the word "annually" and inserting in place thereof the words:– from time to time.

**SECTION 4.** Section three of said chapter two hundred and twelve is hereby repealed.

**SECTION 5.** Section 4 of said chapter 212 is hereby amended by striking out clause (e), as most recently amended by section 5 of chapter 762 of the acts of 1979, and inserting in place thereof the following clause:–

(e) enter into agreements or other transactions with any person, including without limitation, any governmental instrumentalities or agencies in connection with any of its powers or duties hereunder, including without limitation, those set forth in clauses (j), (m) and (g) and any governmental agency hereby authorized to enter into any such agreements or transactions with the bank.

**SECTION 6.** Said section 4 of said chapter 212 is hereby further amended by striking out clause (h) and inserting in place thereof the following clause:–

(h) procure insurance against any loss in connection with its property or activities undertaken hereunder in such amounts and from such insurers as it deems necessary or desirable.

**SECTION 7.** Said section 4 of said chapter 212 is hereby further amended by striking out clauses (j) to (m), inclusive, and inserting in place thereof the following nine clauses:-

(j) borrow money by the issuance of debt obligations whether tax exempt or taxable and secure such obligations by the pledge of its revenues or of the revenues, mortgages, and notes of others, provided, however, that the bank shall not issue debt obligations the principal amount of which, when added to the principal amount of debt obligations issued by the bank, excluding debt obligations previously refunded or being or to be refunded thereby, shall exceed forty million dollars.

(k) take possession and manage on behalf of the commonwealth or acquire on its own behalf lands, improvements thereon, and related personal property, hereinafter called lands, or an interest therein, (1) from the United States, which lands, or interests therein, were used for Westover Air Force Base, the Chelsea Naval Hospital, or the Boston Naval Shipyard, including the South Boston Annex, the Boston Army Base and all other lands owned by the United States and used in connection with or for purposes related to the operations of the Boston Naval Shipyard or the Boston Army Base, subject to such restrictions as may be imposed on such acquisition by the United States, and including, without limitation any other property of the United States lying within the commonwealth and declared surplus by the United States, subject to such restrictions as may be imposed on such acquisition by the United States, hereinafter called federal surplus lands; (2) from the commonwealth any lands which have been determined to be surplus to direct public uses by the commonwealth or by public agencies, hereinafter called state surplus lands; and (3) lands declared decadent, substandard or blighted open areas by the bank, hereinafter called blighted lands;

(l) engage accountants, architects, attorneys, engineers, planners, real estate experts and other consultants as may be necessary in its judgment to carry out the purposes of this act and fix their compensation;

(m) take any actions necessary or convenient to the exercise of any power or the discharge of any duty provided for by this act;

(n) clear and improve property acquired or held by it and engage in or contract for the construction, reconstruction, demolition, development, redevelopment, rehabilitation, remodeling, alteration or repair thereof;

(o) prior or subsequent to taking possession of or acquiring such lands hold, protect, maintain, repair, improve and use such lands, or any interest therein, as it deems necessary or desirable to facilitate acquisition, disposition, development or redevelopment of such lands, or any interest therein;

(p) dispose of such lands, or any interest therein, by sale, lease or otherwise as provided by this act;

(g) make and administer loans of its funds to persons, including without limitation governmental agencies and instrumentalities, for the acquisition, development or redevelopment of lands described in clause (k) and for the construction, rehabilitation, improvement, demolition or maintenance of buildings thereon, on such terms as the bank may determine to be necessary and consistent with the provisions of this act;

(r) make or administer loans of funds of other public entities for purposes not inconsistent with the purposes of this act.

**SECTION 8.** Section 5 of said chapter 212, as most recently amended by section 9 of chapter 762 of the acts of 1979, is hereby further amended by striking out the third paragraph.

**SECTION 9.** Said chapter 212 is hereby further amended by striking out section 6, as most recently amended by section 11 of said chapter 762, and inserting in place thereof the following two sections:–

Section 6. The bank may take possession of or acquire blighted lands or an interest therein or make loans for the redevelopment of blighted lands only after a public hearing and a determination by the bank that such lands are decadent, substandard or blighted open areas.

The bank may dispose of federal surplus or blighted lands or an interest therein only after approval of a redevelopment plan for such lands by the board of directors of the bank, which approval shall not occur until a public hearing is held on said redevelopment plan and provided such lands shall be developed or redeveloped in accordance with said redevelopment plan. The bank shall not approve a redevelopment plan for such lands within one year of the acquisition or possession by the bank of such lands or an interest therein unless the city council, board of aldermen or board of selectmen of the municipality or municipalities in which the lands lie have approved said redevelopment plan. The bank may extend the one year period by petition of any municipality wherein the lands are located.

The bank may take possession of or acquire state surplus lands or an interest therein only after approval of a redevelopment plan for such lands by the board of directors of the bank, the city council, board of aldermen or board of selectmen of the municipality or municipalities in which the lands lie, and the deputy commissioner of capital planning and operations, which approvals shall not occur until a public hearing is held on said redevelopment plan. Such lands shall be developed or redeveloped in accordance with said redevelopment plan and if a formal competitive process will not be the method utilized for the disposition of such lands or interests to a private person or entity, the bank shall disclose the reasons therefore in the central register published by the secretary of state prior to such disposition.

The bank shall, in accordance with section three of chapter thirty A of the General Laws, establish general rules and regulations governing the evaluation and selection criteria for development proposals for all state surplus lands acquired by it, prior to the acquisition of any state surplus lands by the bank.

No redevelopment plan shall be approved by the bank unless the bank finds that such plan provides for redevelopment of the lands, in whole or in part, substantially for industrial, commercial or residential uses which will prevent or eliminate blight, economic dislocation or unemployment, or for the construction or rehabilitation upon the lands of decent, safe and sanitary housing, at least twenty-five per cent of which shall be made

available to persons of low and moderate income, or for such other public purposes as the bank may determine are generally consistent with the provisions of this act; that such plan is consistent with the sound needs of the locality as a whole, with particular regard to the prevention of blight, economic dislocation and unemployment or the alleviation of the shortage of such housing; that such plan is financially sound; and that such plan meets such other requirements as the bank may by regulation establish.

No redevelopment plan shall be materially amended unless the public hearing and approval procedures as specified in this section for redevelopment plans are complied with prior to any such amendment.

Redevelopment plans shall contain a general description of the lands and of the purposes for which the lands will be developed or redeveloped, the anticipated financing sources for said development or redevelopment and the role of the bank in and the anticipated public benefits and public subsidies that will result from the development or redevelopment of such lands. If a redevelopment plan is for state surplus lands, said plan shall also contain a description of (a) any reuse restrictions imposed by the general court or the deputy commissioner of capital planning and operations and how said restrictions will be enforced by the bank; and (b) the disposition process to be utilized for such lands.

Any required public hearings need not be adjudicatory hearings as provided by chapter thirty A of the General Laws. Notice for said public hearings must be published in a daily newspaper of general circulation in the area in which the land is located at least seven days prior to said hearings and the requirements of sections eleven A and eleven B of said chapter thirty A shall be met. At least seven days prior to public hearings on redevelopment plans, said plans shall be available for public review at the offices of the bank.

Section 6A. Any disposition of lands, or an interest therein, by the bank may be made in such manner whether by sale, lease or otherwise, by parcels which are the same as or different from those by which they were acquired or taken possession of by the bank, and for such price, rental or other consideration payable over such term, and bearing interest as to deferred payments and secured in such manner, by mortgage or otherwise, all as the bank may determine to be desirable and consistent with any applicable provisions of any applicable redevelopment plan.

Prior to the disposition of state surplus lands or an interest therein to a natural person or entity, the bank shall undertake an independent determination of the value of such lands through procedures customarily accepted by the appraising profession as valid for determining property value. If such disposition is for consideration which is less than such value, the bank shall, prior to such disposition, disclose in the central register published by the secretary of state the difference between the value of such parcel and disposition price of such parcel and by notice to the house and senate committees on ways and means.

The bank may, in accordance with the provisions of section two of chapter thirty A of the General Laws, adopt such rules and regulations as

it may deem desirable for the exercise of its powers and the discharge of its duties as provided in this section.

**SECTION 10.** Said chapter 212 is hereby further amended by striking out section 7, as most recently amended by chapter 471 of the acts of 1984, and inserting in place thereof the following two sections:-

**Section 7.** There shall be established and set up on the books of the commonwealth a separate fund, to be known as the Government Land Bank Fund. There shall be credited to said fund the following:

(a) after deducting the administrative expenses of the bank, all principal and interest received by the bank under a mortgage financed by the proceeds of an industrial development bond or note as such term, or a successor term of comparable import, is defined by the Internal Revenue Code of 1954, issued by the commonwealth on behalf or for the purposes of the bank;

(b) monies transferred from the reserves of the bank pursuant to a vote of the board of directors of the bank;

(c) all monies transferred pursuant to an authorization by the general court, except for amounts which may be transferred pursuant to section eight B.

Revenue credited to the Government Land Bank Fund shall be used for debt service on bonds and notes issued by the commonwealth on behalf of the land bank, or, upon appropriation by the general court.

The comptroller of the commonwealth shall quarterly file a report with the house and senate committees on ways and means and the commissioner of administration detailing the balance of the fund.

The proceeds of an industrial development bond as such a term, or a successor term of comparable import, is defined by the Internal Revenue Code of 1954 issued after September first, nineteen hundred and eighty-two shall not be used to reduce any deficit existing in said Fund.

**Section 7A.** The bank may make loans as provided in clause (g) of section four only upon the approval by the bank of a loan application containing the following information:

(a) identification of the borrower;

(b) a description of the project including a financing plan;

(c) a description of how the loan will be secured; and

(d) a description of the public benefits to be derived from the project.

No such loan application shall be approved by the bank unless the bank finds that the project represented in such application provides for the acquisition, development or redevelopment of the lands, in whole or in part, or the construction, rehabilitation, demolition or maintenance of the buildings thereon, substantially for industrial, commercial or residential uses which will prevent or eliminate blight, economic dislocation or unemployment, or for the construction or rehabilitation upon such lands of decent, safe and sanitary housing, at least twenty-five per cent of which will be made available to persons of low and moderate income, or for such other public purposes as the bank may determine are generally consistent with the provisions of this act; that such project is consistent with the sound needs of the locality as a whole,

with particular regard to the prevention of blight, economic dislocation and unemployment or the alleviation of the shortage of such housing; that such project is financially sound; and that such project meets such other requirements as the bank may by regulation establish.

**SECTION 11.** Said chapter 212 is hereby further amended by inserting after section 8A the following section:–

**Section 8B.** The state treasurer acting on behalf of the commonwealth shall enter into an agreement with the bank providing that the commonwealth shall provide contract assistance for debt service obligations of the bank in the maximum amount of six million dollars per fiscal year of the commonwealth for a period of seven such fiscal years. Such contract assistance agreement shall provide for the payment by the commonwealth of the debt service obligations of the bank at such time during each such fiscal year and upon such terms and under such conditions as the bank may stipulate. The bank may pledge such agreement and the rights of the bank to receive amounts thereunder as security for the payment of debt obligations issued by the bank. Such agreement shall constitute a general obligation of the commonwealth for which the faith and credit of the commonwealth shall be pledged for the benefit of the bank and of the holders of any debt obligations of the bank which may be secured by a pledge of such agreement or of amounts to be received by the bank under such agreement.

Amounts received by the bank from debt obligations issued pursuant to this act shall be used for the purposes of acquisition, holding, protection, maintenance, repair, management, development, improvement or use of lands, for making loans as herein provided or for provision of personnel and administrative costs of the bank as provided by this act.

**SECTION 12.** Section nine of said chapter two hundred and twelve is hereby repealed.

**SECTION 13.** Said chapter 212 is hereby further amended by striking out section 10, as amended by section 3 of chapter 461 of the acts of 1975, and inserting in place thereof the following section:–

**Section 10.** The bank shall keep accurate accounts of all receipts and expenditures of the Government Land Bank Fund; and shall make a report annually containing an abstract of such accounts and detailed information on all receipts and expenditures, including prices paid for lands purchased, the terms upon which loans were made, and such other detailed information as provided in section fourteen. Except as otherwise provided by this act, the bank shall have full power to exercise care of its property and management of its loans, business and affairs, and to sell and convey any lands as provided by this act, by deed or other instrument sealed with its corporate seal, signed and acknowledged by a majority of the board of directors or in like manner to authorize such sale and conveyance by any of its officers or agents.

**SECTION 14.** Said chapter 212 is hereby further amended by inserting after section 15 the following section:-

**Section 15A.** As used in this section the words "building project" shall mean a project undertaken for the design, construction, installation, repair or maintenance of building and appurtenant structures, facilities and utilities directly by the bank including initial equipment and furnishings thereof, but not including appurtenant buildings or structures which are required to be constructed as integral parts of the development of sewer, water and highway systems, or the design, construction, installation, repair or maintenance of any building financed in whole or in part through loans or through the purchase and sale of such building by the bank pursuant to this act.

The bank shall not enter into any contract nor incur any other obligation for the design of a building project unless the design work can be accomplished (a) within any applicable appropriation or authorization for the project or within the project cost limits specified by any applicable appropriation or authorization and (b) without substantial deviation from any (i) study or program which must be prepared in accordance with this section or (ii) any other pre-design document which must be prepared in accordance with any other statute, appropriation or authorization or administrative directive consistent therewith, and unless the executive director of the bank certifies in writing that such project complies with the provisions of this section. In no event shall the design work be such as would result in a change in the number of square feet to be constructed in the project of more than ten per cent from the number specified in the study, program or other pre-design document referred to in subclauses (i) and (ii) of clause (b).

The bank shall not enter into any contract nor incur any other obligation for the construction of a building project unless the construction work can be accomplished (a) within any applicable appropriation or authorization for the project and (b) without substantial deviation from (i) any study or program which must be prepared in accordance with this section or (ii) any other pre-design document which must be prepared in accordance with any other statute, appropriation or authorization or administrative directive consistent therewith and unless the executive director of the bank certifies in writing that such project complies with the provisions of this section. In no event shall the construction work be such as would result in a change in the number of square feet to be constructed in the project of more than ten per cent from the number specified in the study, program or other pre-design document referred to in said subclauses (i) and (ii).

Every building project undertaken by the bank shall be deemed to require the satisfactory completion of a study or program as set forth in section thirty-nine A of chapter seven of the General Laws before any services for the design or construction of such project may be contracted for, performed by contract or otherwise, or funds allotted, encumbered or expended therefor.

No provider of design services for any building project undertaken by the bank shall be selected by the designer selection board or by the bank

**SECTION 4.** Notwithstanding the provisions of any general or special law to the contrary, the treasurer shall make four equal payments to cities, towns and regional schools for all local reimbursement or assistance programs reported by the commissioner of revenue pursuant to section twenty-five A of chapter fifty-eight of the General Laws, other than for the state lottery, so called, as distributed according to section seven of this act, and shall make four equal assessments for all assessment programs for which the commissioner of revenue is required to give notice pursuant to said section twenty-five A. Said payments shall be made on September first and December first, nineteen hundred and eighty-seven and March first and June first, nineteen hundred and eighty-eight.

**SECTION 5.** Notwithstanding the provisions of clause Forty-first of section seven of chapter four of the General Laws or any other general or special law to the contrary, the commissioner of revenue or any other official responsible for a local reimbursement or assistance program reported by said commissioner pursuant to section twenty-five A of chapter fifty-eight of the General Laws, including but not limited to the chapter seventy school aid program; regional public libraries; additional aid to public libraries; and lottery, beano, and charity games; and for any assessments for which said

commissioner is required to give notice pursuant to said section twenty-five A, including but not limited to air pollution control districts; the metropolitan area planning council; the old colony planning council; and the Massachusetts Bay Transportation Authority, shall use the nineteen hundred and eighty-four city and town population estimates of the United States bureau of the census in calculating distributions under said local reimbursement or assistance programs and in calculating said assessments.

**SECTION 6.** Notwithstanding the provisions of section eighteen C of chapter fifty-eight of the General Laws, the comptroller shall transfer the balance of the State Lottery Fund, as determined pursuant to clause (c) of section thirty-five of chapter ten of the General Laws, to the Local Aid Fund on September first and December first, nineteen hundred and eighty-seven, and March first and June first, nineteen hundred and eighty-eight.

The fiscal year nineteen hundred and eighty-eight distributions to cities and towns of the balance of the State Lottery Fund, as paid by the treasurer from the Local Aid Fund in accordance with the provisions of said clause (c), shall consist of a "base distribution" and an "incremental adjustment."

The base distribution for each city and town shall equal the distribution to each such city and town in fiscal year nineteen hundred and eighty-seven in accordance with the provisions of said clause (c) of section thirty-five of chapter ten.

The incremental adjustment shall equal the amount by which the total balance under said clause (c) exceeds or is less than the total base distribution. The distribution of said incremental adjustment to each city and town shall be according to the provisions of section eighteen C of chapter fifty-eight of the General Laws.

The treasurer shall pay to cities and towns on September first, nineteen hundred and eighty-seven; December first, nineteen hundred and eighty-seven; and March first, nineteen hundred and eighty-eight an amount equal to one quarter of the base distribution. On June first, nineteen hundred and eighty-eight, the treasurer shall pay an amount equal to one quarter of the base distribution, plus or minus the incremental adjustment.

**SECTION 7.** On June thirtieth, nineteen hundred and eighty-eight, the comptroller shall transfer from the Local Aid Fund to the General Fund seven million dollars to reimburse the General Fund for interest receipts lost because of quarterly payments of cherry sheet local aid.

**SECTION 8.** Notwithstanding any general or special law to the contrary, in order to calculate the total property tax levy limit applicable to any city or town for fiscal year nineteen hundred and eighty-eight, pursuant to section twenty-one C of chapter fifty-nine of the General Laws, the commissioner of revenue shall require the reporting by all cities and towns of any increase in the assessed valuation in a city or town, as described in paragraph (f) of said section twenty-one C.

**SECTION 9.** Notwithstanding any general or special law to the contrary, a city or town which has not reported to the commissioner of revenue tax base growth, as described in paragraph (f) of section twenty-one C of chapter fifty-nine of the General Laws, for one or more fiscal years preceding fiscal year nineteen hundred and eighty-eight, may report said growth to the commissioner in order to have this growth included in a city or town's fiscal year nineteen hundred and eighty-eight maximum levy limit; provided, however, that the city or town must submit any information or documentation required by the commissioner to substantiate said tax base growth no later than September thirtieth, nineteen hundred and eighty-seven.

**SECTION 10.** Notwithstanding the provisions of any general or special law to the contrary, any city or town, with the prior written approval of the commissioner of revenue, is hereby authorized to issue a first half notice of estimated tax in lieu of the actual assessment and issuance of the tax bill for the fiscal year nineteen hundred and eighty-eight, and require the payment of such estimated tax, which shall in no event exceed fifty per cent of the tax payable during the preceding fiscal year; provided, however, that the board of assessors in any city or town which seeks to issue estimated tax bills shall provide the commissioner of revenue with all information required by said commissioner to set the tax rate pursuant to section twenty-three of chapter fifty-nine of the General Laws, except the assessed valuation of all real and personal property subject to taxation as of January first, nineteen hundred and eighty-seven, as well as with such other information as may be required for purposes of the aforementioned approval; and provided, further, that in any city or town undertaking a general revaluation of its property under a program approved by the commissioner of revenue for completion and implementation for fiscal year nineteen hundred and eighty-eight, such approval shall not be granted unless the commissioner determines that full and fair valuations shall be established prior to February first, nineteen hundred and eighty-eight for certification under paragraph (c) of section two A of chapter fifty-nine of the General Laws. The assessors of such city or town shall establish the tax rate for fiscal year nineteen hundred and eighty-eight no later than April first, nineteen hundred and eighty-eight. In no event shall the net amount of revenue to be raised by taxation, as submitted to the commissioner pursuant to the approval required under this section, be exceeded. Payment of the balance of such tax bill, after credit is given for the estimated tax payment previously made, shall represent the second payment upon such bill that is payable on or before May first, nineteen hundred and eighty-eight without payment of interest.

All provisions of law regarding the procedures for issuing, mailing and collecting tax assessments upon real and personal property and betterment assessments shall be applicable to the notice of estimated tax provided hereunder, including the payment of interest under section fifty-seven of said chapter fifty-nine. To the extent that any rights or remedies under law accrue from the date that the tax bill is issued, only the tax bill issued upon the establishment of the tax rate for fiscal year nineteen hundred and eighty-eight shall govern such rights and remedies. The provisions of section twenty-one C of said chapter fifty-nine shall apply to the tax rate for fiscal year nineteen hundred and eighty-eight established by such city or town.

Notwithstanding the provisions of the first paragraph of this section, a city or town which seeks to issue a notice of estimated tax in lieu of the tax bill for the fiscal year nineteen hundred and eighty-eight may, with the prior written approval of the commissioner of revenue, require the payment of an estimated tax in excess of fifty per cent of the tax payable during fiscal year nineteen hundred and eighty-seven, to the extent that such excess represents one-half of the amount of the tax accruing as a result of the loss of exemption from tax that had been granted in the preceding fiscal year.

**SECTION 11.** All sums appropriated under the provisions of this act shall be expended in a manner reflecting and encouraging a policy of nondiscrimination and equal opportunity for members of minority groups, women and handicapped persons. All officials and employees of any agency, board or division of the commonwealth receiving monies under section two shall take affirmative steps to ensure equality of opportunity in the internal affairs of state government, as well as in their relations with the public, including those persons and organizations doing business with the commonwealth.

Each agency, board or division, in spending appropriated sums and discharging its statutory responsibilities, shall adopt measures to ensure equal opportunity in the areas of hiring, promotion, demotion or transfer, recruitment, layoff or termination, rates of compensation, inservice or apprenticeship training programs, and all terms and conditions of employment. Such affirmative action program shall include efforts required to remedy the effects of present and past

discriminatory patterns and practices and any action necessary to guarantee equal opportunity for members of minority groups, women and handicapped persons.

The commissioner of administration shall conduct an ongoing review of affirmative action steps taken by various agencies, boards or divisions, to determine whether such agencies are complying with the intent of this section. Whenever such noncompliance is determined by the commissioner, he shall hold a public hearing on the matter and report his resulting recommendations to the head of the particular agency, board or division, the governor, and to the Massachusetts commission against discrimination.

**SECTION 12.** Notwithstanding the provisions of any general or special law to the contrary, the comptroller shall not authorize the payment of regular compensation, including paid leave, vacations, salary in lieu of vacations, payments in lieu of maintenance, holiday pay, overtime pay, and salary differentials from any account funded by an appropriation in section two of this act unless the following requirements are met: Each state agency or office of the judiciary receiving an appropriation in said section two shall not fill a total number of positions which exceeds the number of positions as specifically provided for in each item in said section two. For the purposes of this section, a "position" shall mean a full-time equivalent office or position in which one or more persons are currently employed, but shall not include the positions of board members or commissioners who are not full-time state employees. "Position" shall not mean any office or position in which no one is currently employed; provided that, for the purposes of this section, such unfilled offices or positions shall be referred to as "vacant titles". "Position" shall mean an authorized position created by statute or under the civil service law whether the incumbent holding the position is on a permanent, provisional, or temporary appointment and all authorized positions other than seasonal positions as defined in section one of chapter thirty-one of the General Laws, excess quota positions and positions for a period of ninety days or less.

The house and senate committees on ways and means shall forward to the commissioner of administration an approved list of all new positions funded for fiscal year nineteen hundred and eighty-eight on or before August fifteenth, nineteen hundred and eighty-seven.

No person shall be hired by a state agency or office of the judiciary and assigned a permanent or temporary position or a previously vacant title unless such position or vacant title is included on said list of all new positions or on a previously approved schedule; provided, that the hiring of any person from said list of all new positions shall not cause any item of appropriation in section two of this act to be deficient at any time during the course of fiscal year nineteen hundred and eighty-eight.

The commissioner of administration shall file the most recently approved amended schedules of positions no later than September fifteenth, nineteen hundred and eighty-seven with the house and senate committees on ways and means. Such schedules shall include recommendations of the list of new positions which were forwarded to said commissioner on or before August fifteenth, nineteen hundred and eighty-seven and shall contain no other list of new positions or amendments. All such permanent and temporary positions shall be allocated to and paid from subsidiary accounts only in accordance with said schedules, as approved by the house and senate committees on ways and means.

The personnel administrator shall, not later than two weeks after the receipt of a personnel schedule approved by the house and senate committees on ways and means, notify said committees of the action taken by the personnel administrator regarding new positions or reallocations of positions and reallocations not released.

The commissioner of administration shall file, when appropriate, a recommended schedule of all seasonal positions and titles as defined in section one of chapter thirty-one of the General Laws, excess quota positions, and positions and titles to

be appointed for a period of ninety days or less with the house and senate committees on ways and means. No seasonal position, excess quota position or position to be appointed for less than ninety days shall be hired by a state agency or an office of the judiciary until it has been authorized by a schedule approved by the house and senate committees on ways and means. Until such time as a new schedule is so approved, the previous schedule shall remain in effect. Seasonal positions, excess quota positions and positions for a period of ninety days or less, so approved, shall be allowed in addition to positions authorized in section two of this act.

Nothing in this section or in section two of this act shall be interpreted so as to affect any employee's civil service rights. Any employee who exercises any such right to return to a permanent position in any agency or office of the judiciary shall be allowed to exercise such right, notwithstanding the fact that such agency may have filled all the positions allowed pursuant to this section. In such circumstances, said commissioner shall file notice of the exercise of such right, including the position number and agency affected, with the house and senate committees on ways and means.

State agencies and offices of the judiciary are hereby authorized to transfer any authorized job title from the list of vacant titles to and from the list of scheduled permanent and temporary positions, subject only to notification of the personnel administrator and subject to the total number of positions allowable under this section.

The provisions of this section, and of clause (d) of paragraph (4) of section forty-five of chapter thirty of the General Laws, shall not apply to any office or position in the general court, the office of the governor, the office of the lieutenant governor, the office of the state secretary, the office of the state auditor, the office of the attorney general, the office of the state treasurer, the supreme judicial court, and the judicial conduct commission.

**SECTION 13.** In addition to the requirements of section twenty-nine A of chapter twenty-nine of the General Laws, as amended, any state agency which contracts for consultant services from the "03" subsidiary account, shall include in the written contract for said services the name of the agency or office, the person or firm so engaged, the manner in which the services are to be rendered, including the tools, implements and equipment necessary, a description of the physical setting in which said services are to be performed or rendered, the total amount to be paid for such services and the length of time said services shall be required. A signed statement by the secretary of the agency that the services being contracted can't be performed by any existing employees of the secretariat and that the contracted individual will not be directing any state employees. No private vendor contracting with the commonwealth to provide services shall use state funds paid specifically for such services pursuant to any such contract as compensation for employees, consultants, or other firms where the primary responsibility of said employees, consultants, or firms is either directly or indirectly to persuade employees of said private vendor to support or oppose unionization.

No private vendor contracting with the commonwealth to provide services shall use state funds paid specifically for such services pursuant to any such contract to persuade staff or members of the general court for additional appropriations for the agency said consultant is employed with.

Notwithstanding the provisions of section twenty-nine A of chapter twenty-nine of the General Laws or the provisions of any rules or regulations established pursuant to said section twenty-nine A, no state agency, department, office, board, commission or institution shall, prior to the approval of a plan for such conversion by the house and senate committees on ways and means, convert any consultant contract funded under an "03" or "07" subsidiary account to a permanent or temporary state position.

The commissioner of administration shall file a report listing all persons performing consultant services for the commonwealth, under the so called "03" accounts, with the clerk of the house and the clerk of the senate on or before

February first of each year, for the current fiscal year. Said report shall include the name and address of each "03" consultant, a clear description of the services they have been contracted for, the total amount to be paid for such services, the length of time that such services are to be rendered, and which agency and department for which the service is provided. Such report shall be in plain language, not requiring the use of any special codes, computers, machines or other aids to read and understand.

**SECTION 14.** Any state agency or office with employees or consultants compensated from the proceeds of the sale of bonds or notes shall file with the house and senate committees on ways and means no later than September first, nineteen hundred and eighty-seven a report detailing the total number of such employees or consultants so compensated during fiscal year nineteen hundred and eighty-seven through the "01", "02", and "03" subsidiary accounts, respectively, and detailing the total dollar amounts so expended during fiscal year nineteen hundred and eighty-seven through the "01", "02", and "03" subsidiary accounts, respectively. The following state officials shall file such a report on behalf of their state agency whether or not their state agency had any such employees; the deputy commissioner of capital planning and operations; the commissioner of environmental management; the commissioner of environmental quality engineering; the commissioner of fisheries, wildlife, and environmental law enforcement; the commissioner of food and agriculture; the secretary of communities and development; the commissioner of correction; the commissioner of mental health; the commissioner of mental retardation; the secretary of transportation and construction; the commissioner of public works; and the chancellor of the board of regents, whose report shall include such employees of or consultants to any public institution of higher education in the commonwealth.

**SECTION 15.** Object code 111 under the subsidiary account designated "02", "Salaries Other" in the schedule of subsidiary accounts authorized by section twenty-seven of chapter twenty-nine of the General Laws and contained in the expenditure code manual, is hereby transferred to subsidiary "01" of said schedule. Subsidiary "01" of said schedule is hereby renamed, "salaries, permanent and temporary positions" and subsidiary "02" of said schedule is hereby renamed, "compensation: other".

**SECTION 16.** Notwithstanding the provisions of section twenty-nine of chapter twenty-nine of the General Laws, any interchange of funds between subsidiary accounts other than an interchange between the subsidiary accounts entitled "01 salaries, permanent and temporary positions" and "02 compensation: other," within the same appropriation account which decreases said subsidiary accounts entitled "01 salaries, permanent and temporary positions" and "02 compensation: other," shall preclude during the fiscal year in which said interchange is made, any transfers to increase or restore said subsidiary accounts from any reserves, so-called, existing at the time of said interchange unless said transfers are made to meet retroactive prior year payments authorized by said reserve accounts.

**SECTION 17.** During fiscal year nineteen hundred and eighty-eight, notwithstanding the provisions of any general or special law to the contrary, payments for fiscal year nineteen hundred and eighty-seven and prior fiscal years cost of certain personnel classification appeals, approved and granted by the personnel administrator in accordance with the provisions of section forty-nine of chapter thirty of the General Laws as amended, the cost of certain salary adjustments established under the provisions of section five of chapter four hundred and eighty-seven of the Acts of nineteen hundred and eighty-four, and costs as determined by certain arbitration awards issued pursuant to section eight of chapter one

ACTS, 1987. - Chap. 199.

hundred and fifty E of the General Laws as amended, may, at the discretion of the secretary of administration and finance, be charged to items of appropriation for fiscal years nineteen hundred and eighty-seven and nineteen hundred and eighty-eight.

**SECTION 18.** Notwithstanding the provisions of section forty-one of chapter fifteen of the General Laws or of any other general or special law to the contrary, all positions in the council on the arts and humanities, but not including the members of said council, shall be classified in accordance with section forty-five of chapter thirty and the salary shall be determined in accordance with section forty-six C of said chapter, or at a rate equal to the prevailing rate payable for state employees in comparable positions pursuant to collective bargaining agreements for which appropriation has been made by the legislature as determined by the personnel administrator; provided, however, that if the incumbent of any such position is receiving a salary on June thirtieth, nineteen hundred and eighty-seven pursuant to a schedule of salaries previously approved by the house and senate committees on ways and means which is greater than the salary provided pursuant to said section forty-six C or said prevailing collective bargaining rate, as applicable, the said incumbent shall receive a salary under said section or pursuant to said prevailing rate which is nearest to the rate so approved, but at least equal to such approved rate. If any such incumbent vacates his position for any reason, his successor shall be paid a salary in accordance with said section forty-six C or said prevailing rate, as applicable. When any such incumbent is initially placed in a step-in-range in one of the job groups in the salary schedule provided in said section forty-six C, such incumbent shall be placed in the step-in-range which corresponds to his time in service in the office or position which he held on June thirtieth, nineteen hundred and eighty-seven. If within fourteen days of receipt of any such proposal no action has been taken by the house or senate committees on ways and means, the commissioner of administration may incorporate into the reporting system the program covered by the proposal. The commissioner of administration is authorized and directed to enter into such interagency agreements as he deems necessary to incorporate such additional programs into said reporting system.

The commissioner of revenue is hereby authorized and directed to design, develop, implement and operate a wage reporting and bank match system, hereinafter referred to as the reporting system, for the purpose of verifying financial eligibility of participants in those state or federally funded programs listed in sections three and four of chapter sixty-two E of the General Laws and in such other programs as may be identified and approved for such procedure pursuant to the first paragraph hereof.

The commissioner of revenue is hereby further authorized and directed to enter into such interagency agreements with other agencies of the commonwealth as said commissioner deems are necessary to facilitate the implementation and utilization of the reporting system. Such written agreements shall include provisions requiring such agencies, their subgrantees, or local administering agencies, including local housing authorities to provide at a date specified by the commissioner a list of persons receiving benefits from such programs. Information in such lists shall include the recipient's name, social security number and other data required to assure positive identification. Such information shall be utilized in the reporting system as a post audit mechanism for the purpose of verifying eligibility and detecting and preventing fraud, error and abuse in said programs, or additional programs, included by the commissioner of administration. Said agencies,

their subgrantees, or local administering agencies, including local housing authorities, are hereby authorized and directed to obtain and provide to the commissioner of revenue the information requested for the purposes of this reporting system.

If after such informal inquiry an agency, or where appropriate, local administering agencies or local housing authorities, determine that a recipient has incorrectly received benefits under such a program, such agency shall take appropriate formal action in accordance with state and federal law to correct the error, including, but not limited to, termination of benefits. No adverse action shall be taken against any recipient in the unemployment insurance benefits program or the public assistance program of the department of public welfare, except after affording such recipient full opportunity to contest such action in accordance with the law, including prior notice and hearing. No adverse action shall be taken against recipients in the other programs included in the reporting system except after meeting with such recipients, providing them with an explanation for the proposed action, detailing the evidence upon which the action is based, and allowing for any other procedures which an administering agency uses to take an adverse action against a recipient in its program.

When any agency has probable cause to believe that the receipt of incorrect benefits under any such program was a result of a fraudulent action by the recipient, such agency shall refer the case to the bureau of special investigations for further action in accordance with regulations promulgated by the fraudulent claims commission. Such regulations shall provide for

consideration of the willingness of the recipient to make restitution or to submit to voluntary recoupment and shall include guidelines and procedures for administrative action and recoupment. The fraudulent claims commission shall promulgate said regulations in accordance with section two of chapter thirty A of the General Laws and after consultation with agencies as to how the financial solvency and the maintenance of the integrity of their programs can be best served by restitution and referrals.

The director of the bureau of special investigations shall have access to agency, subgrantee or local administering agencies' records and accounts at reasonable times and may require the production of books, documents and vouchers by agencies, subgrantees and local administering agencies, relating to any matter within the scope of an investigation pursuant to this section.

Whenever the bureau finds probable cause to believe that a person has engaged in fraud in any such program, the bureau may, pursuant to procedures established by said commission, notify other state agencies of such information so that such state agencies may investigate whether such person has engaged in fraud in other programs.

No employee or agent of the commonwealth shall divulge any information referred to in this section, except in the manner herein prescribed, to any public or private agency or individual; provided, however, that information may be disclosed and shared by and between any employee of an administering agency and any subgrantee, local administering agency, or any local housing authority for the purpose of verifying eligibility and detecting and preventing fraud, error and abuse in the programs included in the reporting system. Unauthorized disclosure of any such information shall be a violation punishable by a fine of one hundred dollars per offense; provided that the unauthorized release of such information about any individual shall be a separate offense from information released about any other individual. Such unauthorized release of information shall also be cause for administrative discipline of any employee who engages in such unauthorized release.

The commissioner of revenue shall file quarterly reports with the house and senate committees on ways and means describing the status of said system and a plan to implement it. The commissioner may process only a sample of the caseload of a program, when this method is determined to be cost-effective, provided that prior notification of such sampling technique is provided to the house and senate committees on ways and means.

Such units shall provide living arrangements, staffing, mental health services, and other programs appropriate to the age grouping of the residents. The department of mental health shall establish appropriate age groupings for residential programs, and within those programs provide age-appropriate services. Any individual who is not residing in a separate unit appropriate to his age grouping, as required by this section, shall be moved forthwith to a separate age-appropriate unit established by the department of mental health within an existing state facility and staffed by department employees. In making residential placements of individuals between the ages of nineteen and twenty-two who are not receiving structured services pursuant to chapter seventy-one B of the General Laws, the department shall nevertheless consider the age and service needs of the individual to be placed in the placement determination.

**Chapter 226. AN ACT TO INCREASE THE PRODUCTION OF HOUSING FOR FAMILIES AND PERSONS OF LOW AND MODERATE INCOME.**

Be it enacted, etc., as follows:

**SECTION 1.** Declaration of Housing Emergency. It is hereby declared that there currently exists in many cities and towns in the Commonwealth a severe shortage of affordable, safe, and sanitary housing for persons and families of low and moderate income. It is hereby further declared that the federal government has greatly reduced the resources available for housing for low and moderate income persons and that the amount of monies currently available for such housing falls short of what is necessary to continue to produce and maintain such housing in quantities necessary to alleviate present shortages. It is further found and declared that the rapid escalation of housing costs in

the Commonwealth has placed affordable rentals out of reach of low and moderate income families. It is therefore found and declared that the authorities and powers conferred under this chapter and the expenditure of public monies pursuant thereto constitutes a serving of a valid and important public purpose.

**SECTION 2.** To provide for a program of studies, preparation of plans, construction, reconstruction, renovation, alteration and improvement, including, but not limited to, development of additional state-assisted housing units, as well as modernization of existing state-assisted and certain federally-assisted housing units, and for the purchase of certain property, including, but not limited to, site acquisition and development, and for various programs increasing the housing stock available within the commonwealth, the sums set forth in section three for the several purposes and subject to the conditions specified under the provisions of this act, are hereby made available, subject to the provisions of law regulating the disbursement of public funds and the approval thereof.

**Chapter 272. AN ACT REGULATING CONTROL SHARE ACQUISITIONS.**

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to immediately regulate control share acquisitions, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

**SECTION 1.** The General Laws are hereby amended by inserting after chapter 110C the following chapter:-

**CHAPTER 110D.**

**REGULATION OF CONTROL SHARE ACQUISITIONS.**

Section 1. As used in this chapter, the following words, unless the context clearly requires otherwise, shall have the following meanings:-

(a) "Associate", any person who directly or indirectly controls, or is controlled by, or is under common control with, a person or who is acting or intends to act jointly or in concert with a person in connection with a control share acquisition; as used herein, control shall mean the

possession, direct or indirect, of the power to direct or cause the direction of the management or policies of a person, whether through the ownership of voting securities, by contract or otherwise; any corporation or organization of which a person is an officer, director or partner or in which a person performs a similar function; any direct or indirect beneficial owner of ten per cent or more of any class of equity securities of a person; any trust or estate in which a person has a beneficial interest or as to which a person serves as trustee or in a similar fiduciary capacity; and any relative or spouse of a person, or any relative of such spouse, any one of whom has the same residence as such person.

(b) "Beneficial ownership", the sole or shared power to dispose or direct the disposition of shares or the sole or shared power to vote or to direct the voting of shares, whether such power is direct or indirect or through any contract, arrangement, understanding, relationship or otherwise. A person shall not be deemed to be a beneficial owner of shares as to which such person may exercise voting power solely by virtue of a revocable proxy conferring the right to vote. A member of a national securities exchange shall not be deemed to be a beneficial owner of shares held directly or indirectly by it on behalf of another person solely because such member is the record holder of such securities and, pursuant to the rules of such exchange, may direct the vote of such shares, without instruction, on other than contested matters or matters that may affect substantially the rights or privileges of the holders of the shares to be voted but is otherwise precluded by the rules of such exchange from voting without instructions.

(c) (1) "Control share acquisition", the acquisition by any person of beneficial ownership of shares of an issuing public corporation which, but for the provisions of this chapter, would have voting rights and which, when added to all other shares of such corporation beneficially owned by such person, would entitle such person, upon acquisition of such shares, to vote or direct the voting of shares of such corporation having voting power in the election of directors within any of the following ranges of such voting power:-

- (i) one-fifth or more but less than one-third of all voting power;
- (ii) one-third or more but less than a majority of all voting power; or
- (iii) a majority or more of all voting power.

If this chapter applies to an issuing public corporation at the time a person makes a control share acquisition, all shares of such issuing public corporation the beneficial ownership of which is acquired by such person within ninety days before or after the date on which such person makes an acquisition of beneficial ownership of shares which results in such control share acquisition, regardless of whether this chapter was in effect or applies to such corporation during such ninety day period, and all shares acquired by such person pursuant to a plan to make a control share acquisition, shall be deemed to have been acquired in the same control share acquisition for purposes of this chapter.

(2) Subject to the provisions of the last paragraph of paragraph (1) of subsection (c), a "control share acquisition" shall not include the acquisition of beneficial ownership of shares acquired:

(i) before June twenty-sixth, nineteen hundred and eighty-seven; provided, however, that the aggregate of shares acquired before such date exceeds the range of voting power established by clause (i) of paragraph (1);

(ii) pursuant to a contract to acquire shares existing before June twenty-sixth, nineteen hundred and eighty-seven;

(iii) during any period after July fifteenth, nineteen hundred and eighty-seven that this chapter does not apply to the issuing public corporation pursuant to the provisions of section two;

(iv) by will or pursuant to the laws of descent and distribution;

(v) pursuant to the satisfaction of a pledge or other security interest created in good faith and not for the purpose of circumventing the provisions of this chapter;

(vi) pursuant to a tender offer, merger or consolidation, but only if such tender offer, merger or consolidation is pursuant to an agreement of merger or consolidation to which the issuing public corporation is a party; or

(vii) directly from the issuing public corporation or a wholly-owned subsidiary thereof.

(3) The acquisition of beneficial ownership of shares of an issuing public corporation does not constitute a control share acquisition if the acquisition is made by or from:

(i) a person whose voting rights with respect to shares of such corporation were previously authorized by the stockholders of the corporation in compliance with this chapter, unless such acquisition, when added to all other shares of such corporation beneficially owned by the person making such acquisition, would entitle such acquiring person to vote or direct the voting of shares of such corporation having voting power in the election of directors in excess of the range of voting power within which all shares beneficially owned by such person whose voting rights were previously so authorized had voting power immediately following such authorization; or

(ii) a person whose previous acquisition of beneficial ownership of shares of such corporation would have constituted a control share acquisition but for the provisions of paragraph (2) of subsection (c), unless such later acquisition, when added to all other shares of such corporation beneficially owned by the person making such acquisition, would entitle such acquiring person to vote or direct the voting of shares of such corporation having voting power in the election of directors in excess of the range of voting power within which the person who made such previous acquisition could exercise voting power immediately following such previous acquisition.

(d) "Interested shares", the shares of an issuing public corporation which are beneficially owned by:

(i) any person who has acquired or proposes to acquire beneficial ownership of shares of such issuing public corporation in a control share acquisition;

(ii) any officer of the issuing public corporation; or

(iii) any employee of the issuing public corporation who is also a director of such corporation.

(e) "Issuing public corporation", a corporation to which the provisions of section three of chapter one hundred and fifty-six B applies or to which the provisions of section three of chapter one hundred and sixty-four applies, or a trust or association subject to regulations under sections three to fourteen, inclusive, of chapter one hundred and eighty-two; provided, however, that such issuing public corporation has:

(i) two hundred or more stockholders of record; and

(ii) its principal place of business, its principal office, or substantial assets within the commonwealth; and

(iii) either: more than ten per cent of its stockholders of record residing within the commonwealth; or more than ten per cent of its issued and outstanding shares owned of record by residents of the commonwealth.

The record date for determining the percentages and numbers of stockholders and shares specified in this subsection shall be the last stockholder record date before the control share acquisition as to which the determination is being made or, if earlier, before the date on which a control share acquisition statement relating thereto is filed under the provisions of section three. A stockholder record date is the date fixed by the board of directors, or if applicable, the date when transfer books are closed by the board of directors, in connection with determining stockholders entitled to notice of and vote at a meeting, or to consent or dissent, to receive any dividend or other distribution, or for the purpose of any other lawful action. If a stockholder record date has not been fixed by the board of directors within the preceding four months, the determination shall be made as of the end of the issuing public corporation's most recent fiscal quarter.

The residence of each stockholder is presumed to be the address appearing in the records of the corporation. Shares held of record by brokers or nominees shall be disregarded for purposes of calculating the percentages and numbers specified in this subsection. Any shares of an issuing public corporation allocated to the account of an employee or former employee, or beneficiaries of employees or former employee, of such corporation and held in a plan that is qualified under section 401(a) of the Internal Revenue Code of 1986, as amended, and is a defined contribution plan within the meaning of section 414(i) of said Code shall be deemed, for the purposes of clause (iii), to be held of record by the employee to whose account such shares are allocated.

(f) "Person", any individual, corporation, partnership, unincorporated association or other entity, and any associate of any such person.

Section 2. (a) If the articles of organization or by-laws of an issuing public corporation provide, at the time of any control share acquisition which occurs prior to January first, nineteen hundred and eighty-eight, that this chapter shall apply to control share acquisitions of such corporation, shares of such corporation acquired in any such control share acquisition shall have only such voting rights as are authorized pursuant to the provisions of section five.

(b) If the board of directors of an issuing public corporation has adopted a vote prior to any control share acquisition which occurs prior to January first, nineteen hundred and eighty-eight, that the provisions of this chapter shall apply to control share acquisitions of such corporation, shares of such corporation acquired in any such control share acquisition shall have only such voting rights as are authorized pursuant to the provisions of section five. Within thirty days after the adoption of any such vote, the corporation shall submit to the state secretary a certificate signed under the penalties of perjury by the president or a vice president and by the clerk or an assistant clerk setting forth a copy of such vote of the directors, the date of adoption of such vote, and a certification that such vote was duly adopted by the directors.

(c) Unless the articles of organization or by-laws of an issuing public corporation provide, at the time of any control share acquisition which occurs on or after January first, nineteen hundred and eighty-eight, that the provisions of this chapter shall not apply to control share acquisitions of such corporation, shares of such corporation acquired in such control share acquisition shall have only such voting rights as are authorized pursuant to section five.

(d) If the articles of organization or by-laws of an issuing public corporation are amended to provide that the provisions of this chapter shall not apply to control share acquisitions of such corporation, or to eliminate a provision that this chapter shall not apply to control share acquisitions of such corporation, any such amendment shall apply only to control share acquisitions which occur after the effective date of such amendment.

(e) No amendment to the articles of organization adopted by a corporation pursuant to the provisions of this section shall be considered to affect the rights of stockholders adversely within the meaning of the provisions of section seventy-seven of chapter one hundred and fifty-six B.

Section 3. Any person who has made a control share acquisition or has made a bona fide written offer to make a control share acquisition may deliver to the issuing public corporation, personally or by registered or certified mail at its principal office, a control share acquisition statement which shall contain the following:

(i) the identity of such person and any associate of such person who intends to acquire or has acquired beneficial ownership of shares of the issuing public corporation;

(ii) a statement that such control share acquisition statement is being made and delivered pursuant to the provisions of this chapter;

(iii) the number and class or series of shares of the issuing public corporation beneficially owned by such person and each associate of such person prior to the control share acquisition;

(iv) the number and class or series of shares acquired or proposed to be acquired by such person pursuant to the control share acquisition and the range of voting power to which the control share acquisition is or, if consummated, would be subject pursuant to the provisions of subsection (c) of section one;

(v) a description of the terms and conditions of the proposed or completed control share acquisition, including but not limited to the prices paid by such person in the control share acquisition and the dates upon which the shares were acquired; and

(vi) if the control share acquisition has not been completed, a representation by such person that such person has the financial capacity to consummate the proposed control share acquisition, together with a statement in reasonable detail of the material facts upon which such representation is based.

Section 4. (a) If the person delivering the control share acquisition statement so demands in writing contemporaneously with the delivery of such control share acquisition statement, the board of directors of the issuing public corporation, within ten days after the receipt of the demand, shall call a special meeting of stockholders for the purpose of considering whether voting rights shall be authorized for the shares acquired or to be acquired in the control share acquisition. The demand shall not be effective unless accompanied by an undertaking to pay the corporation's reasonable expenses in connection with the special meeting but not including the expenses of the corporation incurred in opposing a vote to authorize voting rights for the shares acquired or proposed to be acquired in the control share acquisition. As promptly as reasonably practicable after the board has called the special meeting, the corporation shall give written notice of the special meeting to stockholders. Such notice shall be given not less than twenty days before the date of the special meeting. Unless the person delivering the control share acquisition statement and the corporation shall agree in writing to a later date, the special meeting shall be held not more than fifty days after the receipt by the corporation of the demand. If the person delivering the control share acquisition statement so requests in the demand, the special meeting shall be held no sooner than thirty days after receipt by the corporation of the demand.

(b) If no demand respecting a special meeting of the issuing public corporation's stockholders is made in accordance with subsection (a), consideration of the voting rights to be authorized for the shares acquired or to be acquired in the control share acquisition shall be presented at the next annual or special meeting of the corporation's stockholders notice of which has not been given prior to the receipt by the corporation of the control share acquisition statement.

(c) The notice to the issuing public corporation's stockholders of any annual or special meeting at which the voting rights to be accorded shares acquired or proposed to be acquired in a control share acquisition are to be considered shall be directed to all stockholders of record of the issuing public corporation as of the record date set for such meeting. Such notice shall include or be accompanied by a copy of the control share acquisition statement received by the issuing public corporation pursuant to this chapter, notice of rights, if any, arising pursuant to section seven and such other information as the issuing public corporation deems appropriate.

Section 5. Shares acquired in a control share acquisition shall have the

same voting rights as all other shares of the same class or series of the issuing public corporation only to the extent authorized by vote of the stockholders of the issuing public corporation at any annual meeting of stockholders or special meeting of stockholders. Such authorization shall require the affirmative vote of the holders of a majority of all of the shares entitled to vote generally in the election of directors, excluding interested shares. Interested shares shall be disregarded for determining a quorum and shall not be entitled to vote with respect to such authorization. If no such vote is adopted, such shares shall regain their voting rights upon transfer of beneficial ownership of such shares to another person unless such transfer constitutes a control share acquisition by the acquirer, in which event the voting rights of such shares shall be subject to the provisions of this chapter.

Section 6. (a) The articles of organization or by-laws of an issuing public corporation, by provision effective at the time of the occurrence of a control share acquisition, may authorize the redemption, at the option of such corporation but without requiring the agreement of the person who has made a control share acquisition, of all but not less than all shares acquired in such a control share acquisition, from such person for the fair value of such shares if:

- (i) no control acquisition statement has been delivered; or
- (ii) a control acquisition statement has been delivered and voting rights were not authorized for such shares by the stockholders in accordance with the provisions of section five.

(b) Notice of such redemption shall be given by the issuing public corporation not later than sixty days after the date on which the stockholders of the issuing public corporation voted not to authorize voting rights for the shares to be redeemed, or if no control share acquisition statement has been delivered prior to the date on which notice of redemption is given by the issuing public corporation, sixty days after the first date on which the board of directors of the issuing public corporation has actual knowledge of such control share acquisition.

(c) For purposes of this section, fair value shall be determined as of the date on which stockholders of the issuing public corporation voted not to authorize voting rights for the shares to be redeemed, or, if no control acquisition statement is delivered, as of the date on which the issuing public corporation determines to make a redemption under this section. Such value shall be determined in accordance with procedures adopted by the issuing public corporation and without regard to the effect of the denial of voting rights under the provisions of section five.

Section 7. Unless otherwise expressly provided in an issuing public corporation's articles of organization or by-laws in effect at the time of a control share acquisition of shares of such corporation, if voting rights are authorized for shares acquired in such control share acquisition in accordance with the provisions of section five and, in such control share acquisition, the person making such control share acquisition has acquired beneficial ownership of shares that, when added to all other shares of such corporation beneficially owned by such person, entitle such person to vote, or direct the voting of, shares of such corporation

having a majority or more of all voting power in the election of directors, each stockholder of record of such corporation, other than the person making such control share acquisition, who has not voted in favor of authorizing voting rights for the shares acquired in such control share acquisition may demand payment for his stock and an appraisal in accordance with the provisions of section eighty-six to ninety-eight, inclusive, of chapter one hundred and fifty-six B, and such stockholder and such corporation shall have the rights and duties and follow the procedures set forth in those sections as nearly as practicable. For purposes of said sections eighty-six to ninety-eight, inclusive, the corporate action shall be deemed to have become effective on the later of the date such voting rights are authorized or the date on which such control share acquisition is made. For purposes of this section, fair value shall be determined as of the date on which the stockholders authorize voting rights for the shares acquired in such control share acquisition, but in no event it shall be less than the highest price per share paid by the person who made such control share acquisition in such control share acquisition.

Section 8. To the extent that any provision of this chapter is inconsistent with any provision of chapter one hundred and fifty-six B, one hundred and sixty-four or one hundred and eighty-two the provisions of this chapter shall govern.

No provisions of this chapter shall be deemed to limit the power of an association or trust to amend its instrument or declaration of trust to the extent otherwise lawful.

**REGULATION OF CONTROL SHARE ACQUISITIONS OF  
FOREIGN CORPORATIONS.**

Section 1. As used in this chapter, the following words, unless the context clearly requires otherwise, shall have the following meanings:-

(a) "Associate", any person who directly or indirectly controls, or is controlled by, or is under common control with, a person or who is acting or intends to act jointly or in concert with a person in connection with a control share acquisition; as used herein, "control" means the possession, direct or indirect, of the power to direct or cause the direction of the management or policies of a person, whether through the ownership of voting securities, by contract or otherwise; any corporation or organization of which a person is an officer, director or partner or in which a person performs a similar function; any direct or indirect beneficial owner of ten per cent or more of any class of equity securities of a person; any trust or estate in which a person has a beneficial interest or as to which a person serves as trustee or in a similar fiduciary

capacity; and any relative or spouse of a person, any relative of such spouse, any one of whom has the same residence as such person.

(b) "Beneficial ownership", the sole or shared power to dispose or direct the disposition of shares or the sole or shared power to vote or to direct the voting of shares, whether such power is direct or indirect or through any contract, arrangement, understanding, relationship or otherwise. A person shall not be deemed to be a beneficial owner of shares as to which such person may exercise voting power solely by virtue of a revocable proxy conferring the right to vote. A member of a national securities exchange shall not be deemed to be a beneficial owner of shares held directly or indirectly by it on behalf of another person solely because such member is the record holder of such securities and, pursuant to the rules of such exchange, may direct the vote of such shares, without instruction, on other than contested matters or matters that may affect substantially the rights or privileges of the holders of the shares to be voted but is otherwise precluded by the rules of such exchange from voting without instruction.

(c) (1) "Control share acquisition", the acquisition by any person of beneficial ownership of shares of an issuing public corporation which, but for the provisions of this chapter, would have voting rights and which, when added to all other shares of such corporation beneficially owned by such person, would entitle such person, upon acquisition of such shares, to vote or direct the voting of shares of such corporation having voting power in the election of directors within any of the following ranges of such voting power:–

- (i) one-fifth or more but less than one-third of all voting power;
- (ii) one-third or more but less than a majority of all voting power; or
- (iii) a majority or more of all voting power.

If this chapter applies to an issuing public corporation at the time a person makes a control share acquisition, all shares of such issuing public corporation the beneficial ownership of which is acquired by such person within ninety days before or after the date on which such person makes an acquisition of beneficial ownership of shares which results in such control share acquisition, regardless whether this chapter was in effect or applies to such corporation during such ninety day period, and all shares acquired by such person pursuant to a plan to make a control share acquisition, shall be deemed to have been acquired in the same control share acquisition for purposes of this chapter.

(2) Subject to the last paragraph of paragraph (1) of subsection (c), a "control share acquisition" does not include the acquisition of beneficial ownership of shares acquired:–

- (i) before June twenty-sixth, nineteen hundred and eighty-seven; provided, however, that the aggregate of shares acquired before such date exceeds the range of voting power established by clause (i) of paragraph (1);
- (ii) pursuant to a contract existing before June twenty-sixth, nineteen hundred and eighty-seven;
- (iii) during any period after July fifteenth, nineteen hundred and

eighty-seven that this chapter does not apply to the issuing public corporation pursuant to the provisions of section two;

(iv) by will or pursuant to the laws of descent and distribution;

(v) pursuant to the satisfaction of a pledge or other security interest created in good faith and not for the purpose of circumventing this chapter;

(vi) pursuant to a tender offer, merger or consolidation, but only if such tender offer, merger or consolidation is pursuant to an agreement of merger or consolidation to which the issuing public corporation is a party; or

(vii) directly from the issuing public corporation or a wholly-owned subsidiary thereof.

(3) The acquisition of beneficial ownership of shares of an issuing public corporation does not constitute a control share acquisition if the acquisition is made by or from:-

(i) a person whose voting rights with respect to shares of such corporation were previously authorized by the stockholders of the corporation in compliance with this chapter, unless such acquisition, when added to all other shares of such corporation beneficially owned by the person making such acquisition, would enable such acquiring person to vote or direct the voting of shares of such corporation having voting power in the election of directors in excess of the range of voting power within which all shares beneficially owned by such person whose voting rights were previously so authorized had voting power immediately following such authorization; or

(ii) a person whose previous acquisition of beneficial ownership of shares of such corporation would have constituted a control share acquisition but for paragraph (2) of subsection (c), unless such later acquisition, when added to all other shares of such corporation beneficially owned by the person making such acquisition, would entitle such acquiring person to vote or direct the voting of shares of such corporation having voting power in the election of directors in excess of the range of voting power within which the person who made such previous acquisition could exercise voting power immediately following such previous acquisition.

(d) "Interested shares", the shares of an issuing public corporation which are beneficially owned by:-

(i) any person who has acquired or proposes to acquire beneficial ownership of shares of such issuing public corporation in a control share acquisition;

(ii) any officer of the issuing public corporation; or

(iii) any employee of the issuing public corporation who is also a director of such corporation.

(e) "Issuing public corporation", a corporation that has been established, organized or chartered under laws other than those of the commonwealth that has:-

(i) two hundred or more stockholders of record;

(ii) its principal executive office within the commonwealth and more of its employees, including employees of its majority owned subsidiaries,

or assets employed or located in the commonwealth than in any other state as of the end of any of its four fiscal quarters immediately preceding the control share acquisition as to which the determination is being made or, if earlier, immediately preceding the date on which a control share acquisition statement relating thereto is delivered pursuant to section three and

(iii) either: more than ten per cent of its stockholders of record residing within the commonwealth; or more than ten per cent of its issued and outstanding shares owned of record by residents of the commonwealth.

The record date for determining the percentages and numbers of stockholders and shares specified in this subsection shall be the last stockholder record date before the control share acquisition as to which the determination is being made or, if earlier, before the date on which a control share acquisition statement relating thereto is filed under the provisions of section three. A stockholder record date is the date fixed by the board of directors, or if applicable, the date when transfer books are closed by the board of directors, in connection with determining stockholders entitled to notice of and vote at a meeting or to consent or dissent, to receive any dividend or other distribution, or for the purpose of any other lawful action. If a stockholder record date has not been fixed by the board of directors within the preceding four months, the determination shall be made as of the end of the public corporation's most recent fiscal quarter.

The residence of each stockholder is presumed to be the address appearing in the records of the corporation. Shares held of record by brokers or nominees shall be disregarded for purposes of calculating the percentages and numbers specified in this subsection. Any shares of an issuing public corporation allocated to the account of an employee or former employee or beneficiaries of employees or former employees of such corporation and held in a plan that is qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended, and is a defined contribution plan within the meaning of section 414(i) of said Code shall be deemed, for the purposes of clause (iii), to be held of record by the employee to whose account such shares are allocated.

(f) "Person", any individual, corporation, partnership, unincorporated association or other entity, and any associate of any such person.

Section 2. (a) If the charter or bylaws of an issuing public corporation provide, at the time of a control share acquisition, that this chapter applies to control share acquisitions of shares of such corporation, shares of such corporation acquired in such control share acquisition have only such voting rights as are authorized pursuant to the provisions of section five.

(b) A corporation may amend its charter or bylaws to eliminate a provision adopted pursuant to subsection (a), in which event this chapter shall not apply to any control share acquisition respecting the stock of such corporation which occurs after the effective date of such amendment.

Section 3. Any person who has made a control share acquisition or has

made a bona fide written offer to make a control share acquisition may deliver to the issuing public corporation, personally or by registered or certified mail at its principal office, a control share acquisition statement which shall contain the following:-

(i) the identity of such person and any associate of such person who intends to acquire or has acquired beneficial ownership of shares of the issuing public corporation;

(ii) a statement that such control share acquisition statement is being made and delivered pursuant to this chapter;

(iii) the number and class or series of shares of the issuing public corporation beneficially owned by such person and each associate of such person prior to the control share acquisition;

(iv) the number and class or series of shares acquired or proposed to be acquired by such person pursuant to the control share acquisition and the range of voting power to which the control share acquisition is or, if consummated, would be subject pursuant to the provisions of subsection (c) of section one;

(v) a description of the terms and conditions of the proposed or completed control share acquisition, including but not limited to the prices paid by such person in the control share acquisition and the dates upon which the shares were acquired; and

(vi) if the control share acquisition has not been completed, a representation by such person that such person has the financial capacity to consummate the proposed control share acquisition, together with a statement in reasonable detail of the material facts upon which such representation is based.

Section 4. (a) If the person delivering the control share acquisition statement so demands in writing contemporaneously with the delivery of such control share acquisition statement, the board of directors of the issuing public corporation, within ten days after the receipt of the demand, shall call a special meeting of stockholders for the purpose of considering whether voting rights shall be authorized for the shares acquired or to be acquired in the control share acquisition. The demand will not be effective unless accompanied by an undertaking to pay the corporation's reasonable expenses in connection with the special meeting but not including the expenses of the corporation incurred in opposing a vote to authorize voting rights for the shares acquired or proposed to be acquired in the control share acquisition. As promptly as reasonably practicable after the board has called the special meeting, the corporation shall give written notice of the special meeting to stockholders. Such notice shall be given not less than twenty days before the date of the special meeting. Unless the person delivering the control share acquisition statement and the corporation shall agree in writing to a later date, the special meeting shall be held not more than fifty days after the receipt by the corporation of the demand. If the person delivering the control share acquisition statement so requests in the demand, the special meeting will be held no sooner than thirty days after receipt by the corporation of the demand.

(b) If no demand respecting a special meeting of the issuing public

corporation's stockholders is made in accordance with the provisions of subsection (a), consideration of the voting rights to be authorized for the shares acquired or to be acquired in the control share acquisition shall be presented at the next annual or special meeting of the corporation's stockholders notice of which has not been given prior to the receipt by the corporation of the control share acquisition statement.

(c) The notice to the issuing public corporation's stockholders of any annual or special meeting at which the voting rights to be accorded shares acquired or proposed to be acquired in a control share acquisition are to be considered shall be directed to all stockholders of record of the issuing public corporation as of the record date set for such meeting. Such notice shall include or be accompanied by a copy of the control share acquisition statement received by the issuing public corporation pursuant to this chapter and such other information as the issuing public corporation deems appropriate.

Section 5. Shares acquired in a control share acquisition shall have the same voting rights as all other shares of the same class or series of the issuing public corporation only to the extent authorized by vote of the stockholders of the issuing public corporation at any annual meeting of stockholders or special meeting of stockholders. Such authorization shall require the affirmative vote of the holders of a majority of all of the shares entitled to vote generally in the election of directors, excluding interested shares. Interested shares shall be disregarded for purposes of determining a quorum and shall not be entitled to vote with respect to such authorization. If no such vote is adopted, such shares shall regain their voting rights upon transfer to another person unless such transfer constitutes a control share acquisition by the acquirer, in which event the voting rights of such shares shall be subject to the provisions of this chapter.

Section 6. If the jurisdiction under the laws of which an issuing public corporation is organized has adopted or adopts any law which expressly limits, restricts or otherwise affects the voting rights of any person in the event that such person acquires or proposes to acquire shares of such issuing public corporation which exceed or meet any level or range of ownership or voting powers specified in such law, and such law contains provisions that are expressly inconsistent with the provisions of this chapter as applicable to such issuing public corporation, the provisions of this chapter shall be inapplicable to such issuing public corporation to the extent necessary to resolve such inconsistency.

Section 7. No provisions of this chapter shall be deemed to limit the power of an association or trust to amend its instrument or declaration of trust to the extent otherwise lawful.

**SECTION 3.** Two years following the effective date of this act the governor, upon the advice of the secretaries of economic affairs and labor, shall submit to the general court a report evaluating the effect of chapters one hundred and ten D and one hundred and ten E of the General Laws on the commonwealth's economic well-being. **Chapter 289. AN ACT FURTHER REGULATING THE WARRANTY PROVISIONS OF USED MOTOR VEHICLES.**

Be it enacted, etc., as follows:

**SECTION 1.** Chapter 90 of the General Laws is hereby amended by inserting after section 7N 1/2 the following section:-

Section 7N 1/4. (1) For the purposes of this section the following words shall have the following meanings:-

"Business day", Monday to Friday, inclusive, except for state or federal holidays.

"Consumer", a buyer, other than for purposes of resale, of a motor vehicle, any person to whom such motor vehicle is transferred during the period of any express or statutory warranty under this section applicable

to such motor vehicle, and any other person entitled by the terms of such warranty to enforce its obligations.

"Dealer", any person engaged in the business of selling, offering for sale, or negotiating the retail sale of used motor vehicles or selling motor vehicles as broker or agent for another, including the officers, agents and employees of such person and any combination or association of dealers, but not including a bank or other financial institution, or the commonwealth, its agencies, bureaus, boards, commissions, authorities, nor any of its political subdivisions. A person shall be deemed to be engaged in the business of selling used motor vehicles if such person has sold more than three used motor vehicles in the preceding twelve months.

"Motor vehicle" or "vehicle", any motor vehicle as defined in section one, sold or replaced by a dealer or manufacturer, except that it shall not include auto homes, vehicles built primarily for off-road use or any vehicle used primarily for business purposes.

"Private seller", any person who is not a dealer and who offers to sell or sells a used motor vehicle to a consumer.

"Purchase price", the total of all payments made for the purchase of a vehicle, including but not limited to any finance charges, registration fees, payments made for credit life, accident, health, and damage insurance, and collision and related comprehensive insurance coverages and service contracts and the value of a trade-in.

"Repurchase price", the purchase price, as defined above, less any cash award that was made by the dealer in an attempt to resolve the dispute and was accepted by the consumer, and less any refunds or rebates to which the consumer is entitled, plus any incidental damages not previously reimbursed, including but not limited to the reasonable costs of towing from point of breakdown up to thirty miles to obtain required repairs or to return the vehicle under this section, and the reasonable costs of obtaining alternative transportation during the applicable warranty period after the second day following each such breakdown not to exceed fifteen dollars vehicle rental charges for each day in which the cost of such alternative transportation is reimbursable.

"Used motor vehicle" or "used vehicle", any vehicle driven more than the limited use necessary in moving or road testing a new vehicle prior to delivery to a consumer, including a demonstrator vehicle, except that it shall not include auto homes, vehicles built primarily for off road use, motorcycles, or any vehicle used primarily for business purposes.

(2) (A) (i) No used motor vehicle shall be sold in the commonwealth by a dealer to a consumer unless accompanied by an express written warranty covering the full cost of both parts and labor necessary to repair any defect that impairs the said used motor vehicle's safety or use; provided, however, that the consumer may be required to pay no more than one hundred dollars total toward the repair of any covered defect, series of defects or combination of defects during the warranty period. Defects that affect only appearance shall not be deemed to impair safety or use for the purposes of this section. For the purposes of this section, defect shall include defect, malfunction or any combination or defects or malfunctions.

(ii) Defects or malfunctions which involve parts or components that are covered or are warranted under an express warranty issued by the dealer of the used motor vehicle shall be excluded from this section if the following conditions have been met: the manufacturer's warranty has been duly assigned or transferred to the buyer; is enforceable according to its terms; is not inconsistent with this section; and, the seller has assured that the repair authorized by such manufacturer's express warranty was made.

The terms of the seller's warranty shall be tolled for any period of time the used motor vehicle is out of service by reason of repair under the manufacturer's warranty.

(B) The express warranties required by this section shall be of the following durations:

(i) For a used motor vehicle which, at the time of sale, has been operated less than forty thousand miles, ninety days or three thousand seven hundred and fifty miles, whichever occurs first. Said ninety days or three thousand seven hundred and fifty mile warranty is in addition to any right the consumer may have under section seven N 1/2.

(ii) For a used motor vehicle which, at the time of sale, has been operated forty thousand miles or more, but less than eighty thousand miles, sixty days or two thousand five hundred miles, whichever first occur.

(iii) For a used motor vehicle which, at the time of sale, has been operated eighty thousand miles or more, but less than one hundred and twenty-five thousand miles, thirty days or one thousand two hundred and fifty miles, whichever first occur.

(iv) If the used motor vehicle's true mileage is not known, such warranty period shall be determined by the age of said used motor vehicle in the following manner: a used motor vehicle three years old or less shall have a warranty as provided in clause (i); a used motor vehicle more than three, but less than six years old, shall have a warranty as provided in clause (ii); and a used motor vehicle six years old or more shall have a warranty as provided in clause (iii). A used motor vehicle's age shall be determined by subtracting its model year from the year in which the warranty holder purchased said used vehicle.

(C) The warranty periods established by this section shall be tolled during any period in which the used motor vehicle is out of service as a result of any repair attempt pursuant to any warranty created by this section. The applicable warranty period shall be extended thirty days from the date of completion of any repair required by this section as to the defect repaired if the warranty would otherwise have expired during such period.

(3) (A) A dealer may repair, within the meaning of this section, either by performing the repair himself or by arranging and making payment for prompt repair by another.

(i) A consumer shall return a vehicle for repair under this section by presenting it to the dealer no later than five business days after the expiration of the applicable warranty period and informing him of the defect. Said return period shall be tolled during any time period in which

the consumer has notified the dealer of the defect but cannot reasonably present the vehicle to the dealer; including, but not limited to, the reason that a used motor vehicle is inoperable and the dealer refuses to pay the charge to tow said vehicle. The dealer shall immediately accept return of a vehicle when it is so presented. Said used motor vehicle shall be deemed out of service commencing the day it is so presented, notwithstanding any dealer's failure to accept its return on said day. During the applicable warranty period and the aforesaid return period, the dealer shall pay the reasonable costs of towing from point of breakdown up to thirty miles to obtain required repairs or to return the vehicle to the dealer.

Upon return of the used motor vehicle to the consumer after repair, the dealer shall provide the consumer with a warranty repair receipt describing (a) the defect complained of, (b) the work performed in an attempt to correct such defect and the identity of the repairer if it is not the dealer, and (c) the parts replaced in performing such work. For the dealer to toll the ten business day period as provided in clause (ii) of this paragraph said dealer shall attach to each such warranty repair receipt copies of such order forms, invoices, receipts or other evidence of a parts order and its receipt to evidence his compliance with this paragraph.

(ii) If the dealer fails to repair the same defect within three attempts, or if the used motor vehicle is out of service for more than a cumulative total of ten business days after the consumer has returned it to the dealer for repair of the same, then the dealer shall accept return of the vehicle from the consumer and refund the full repurchase price, less a reasonable allowance for use. A reasonable allowance for use shall be fifteen cents for each mile the used motor vehicle has been operated between its sale and the dealer's repurchase.

A consumer shall have the option of retaining the use of any vehicle returned under the provisions of this section until such time as said consumer has been tendered a full refund. The use of any vehicle retained by a consumer after its return to a manufacturer under the provisions of this section, shall, in instances in which a refund is tendered, be reflected in the above-mentioned reasonable allowance for use.

A used motor vehicle shall not be considered out of service for purposes of the ten business-day period described hereinabove for any day in which a part necessary to repair a defect complained of is not in the dealer's possession; provided, however, that the dealer has ordered the part by reasonable means on the same day on which he knew or should have known that the part was necessary, except that in no event shall a part's unavailability operate to toll the ten business-day period for more than twenty-one days. The applicable warranty period shall be extended by the number of days a part is unavailable.

(iii) All dealers shall submit to state-certified, used car arbitration, if such arbitration is requested by the consumer, asserting his or her right to a repurchase under this section, within six months from the date of original delivery to such consumer of a used motor vehicle.

State-certified, used car arbitration shall be performed by a professional arbitrator or arbitration firm appointed by the secretary of consumer affairs and business regulation and operating in accordance with the regulations promulgated pursuant to this section, and shall result in a written finding of whether the motor vehicle in dispute meets the standards set forth by this section for vehicles that are required to be repurchased. Said finding shall be issued within forty-five days of receipt by said secretary of a request by a consumer for state-certified arbitration under this section. Said secretary shall promulgate rules and regulations governing the proceedings of state-certified, used car arbitration which shall promote their fairness and efficiency. Such rules and regulations shall include, but not be limited to, a requirement of the personal objectivity of each such arbitrator, and the protection of the right of each party to present its case and to be in attendance during any presentation made by the other party.

If a motor vehicle is found by state-certified, used car arbitration to have met the standards set forth by this section for vehicles required to be repurchased, and if the dealer who sold said motor vehicle is found to have failed to provide said refund as required, such dealer shall, within twenty-one days from the issuance of such finding, deliver such refund, including the incidental and other costs set forth in the definition of "repurchase price", or appeal the finding in a district or superior court. No such appeal by a dealer shall be heard unless the petition for such appeal is filed with the clerk of the district or superior court within twenty-one days of issuance of the finding of the state-certified arbitration and is accompanied by a bond in a principal sum equal to the money award made by the state-certified arbitrator plus five hundred dollars for anticipated attorneys' fees, secured by cash or its equivalent, payable to the consumer.

The liability of the surety of any bond filed pursuant to this section shall be limited to the indemnification of the consumer in the action. Such bond shall not limit or impair any right of recovery otherwise available pursuant to law, nor shall the amount of the bond be relevant in determining the amount of recovery to which the consumer shall be entitled.

Upon an appeal, the court shall vacate the award only if:

- (a) the award was procured by corruption, fraud or other undue means;
- (b) there was evident partiality by an arbitrator or corruption in any of the arbitrators, or misconduct prejudicing the rights of any party; or
- (c) the arbitrators exceeded their powers.

In addition to any other rights and remedies, any consumer dissatisfied with any finding of state-certified, used car arbitration shall have the right to file a claim pursuant to chapter ninety-three A.

In addition to any other recovery, any prevailing consumer shall be awarded reasonable attorneys' fees and costs.

Whoever, within twenty-one days of any finding in favor of the consumer of the state-certified, used car arbitration, fails to appeal such finding and does not deliver a refund shall be punished by a fine of fifty dollars per day until the delivery of such refund. Said fine shall not

exceed five hundred dollars for each such violation. The amount of said fine shall begin to accumulate on the twenty-second day following the arbitration decision. If eighty-one days has elapsed from the issuance of a finding in favor of the consumer of the state-certified, used car arbitration, and no appeal has been taken and no award delivered and no fine paid, the attorney general shall initiate proceedings against dealer for failure to pay said fine. The proceedings initiated pursuant to the provisions of this section shall be commenced in superior court department of the trial court.

In addition to the remedies hereinbefore provided, the attorney general may bring an action on behalf of the commonwealth to restrain further violation of this section, to enforce any provision, and for such other relief as may be appropriate.

(iv) At any time within the applicable warranty period and after a consumer has complained of a defect, notwithstanding any objection from the consumer, the dealer shall have the option of repurchasing a used vehicle and refunding the full repurchase price, less a reasonable allowance for use. A reasonable allowance for use shall be fifteen cents for each mile the used motor vehicle had been operated between its sale and the dealer's repurchase.

(v) If the dealer is required to or elects to repurchase a vehicle under the terms of this section, the consumer and dealer shall cooperate with each other to execute all necessary documents in order to clear the title of any encumbrances on the repurchased vehicle.

(B) It shall be an affirmative defense to any claim under this section that an alleged defect (i) does not impair the vehicle's use or safety, (ii) is the result of owner negligence, abuse, damage caused by accident, vandalism, or, an attempt to repair the vehicle by a person other than the dealer, the dealer's designee, or the manufacturer's representative under clause (ii) of paragraph (A) of subsection (2), (iii) is the result of any attempt by the consumer to modify the vehicle, (iv) was covered or warranted under an express warranty issued by the manufacturer of such used motor vehicle, that such warranty issued by the manufacturer of such used motor vehicle was in effect during the warranty period established by this section, so long as the conditions in said clause (ii) of said paragraph (A) of said subsection (2) are met.

(4) Clear and conspicuous notice of the warranties created by this section, of the rights pertaining thereto, and of the implied warranty of merchantability shall be given to the consumer in writing at the time the consumer purchases a used motor vehicle from the dealer. Failure to provide such notice shall toll the warranty periods under this section until such notice is given.

(5) The secretary of consumer affairs and business regulation shall promulgate rules and regulations to implement the notice provisions of this section. Said rules and regulations shall include the establishment of wording, format, placement, and distribution of all notices specified in this section. In her discretion, and in order to facilitate ease of understanding by consumers, said secretary may consolidate the notices required by this section and any other notices pertaining to the purchase

of motor vehicles; provided, however, that such consolidation does not render the notices inconsistent with any of the provisions of this section or any other law. Each notice required by this section shall describe the procedures available to redress violations of this section and shall contain the telephone number of the attorney general's consumer protection division complaint section and the executive office of consumer affairs and business regulation.

(6) A dealer's failure to comply with any of the provisions of this section shall constitute an unfair or deceptive act under the provisions of chapter ninety-three A.

(7) Notwithstanding any provisions of law to the contrary, this section shall not apply to any used motor vehicle sold by a dealer to a consumer for less than seven hundred dollars.

(8) A private seller shall clearly disclose to any prospective buyer, before the sale is completed, all defects the seller knows of which impair the used motor vehicle's safety or substantially impair its use. Failure to so disclose known defects shall entitle the buyer, within thirty days after the sale, to rescind the sale and be entitled to return of all monies paid to the seller less a reasonable amount for use as defined in clause (iv) of paragraph (A) subsection (3). In any subsequent action by a buyer under this section, if the court finds that the settlement offer was unreasonable in light of the circumstances or that the private seller has otherwise failed to comply with the requirements of this subsection, in addition to damages, it shall award the buyer reasonable attorneys' fees and costs; if the court finds that the buyer's action was frivolous or not in good faith, it shall award the seller reasonable attorneys' fees and costs. It shall be an affirmative defense in any such action that an alleged defect does not impair the vehicle's safety, or substantially impair its use, or that it is the result of the buyer's negligence, abuse, damage caused by accident, vandalism or attempt to modify the vehicle.

(9) Nothing in this section shall be construed in any way to limit the enforceability of any implied warranties created by law, any rights created by section seven N or seven N 1/2, or chapter ninety-three A or any rules and regulations promulgated pursuant thereto, or express warranties given by a dealer in connection with the sale of a used motor vehicle, or any other rights or remedies available to consumers under applicable law.

(10) If a consumer is eligible for relief under the provisions of section seven N 1/2, to have repairs effected or other relief provided under the provisions of an express warranty covering such used motor vehicle issued by the manufacturer of such used motor vehicle, said consumer shall make reasonable effort in accordance with the terms and conditions thereof to obtain such relief or repairs before seeking enforcement of rights under this section. If the consumer, notwithstanding his eligibility to do so, is unable to enforce rights under said section seven N 1/2 or under such express warranty and the dealer provides such relief or, in accordance with the provisions of this section, repurchases such used motor vehicle, the dealer shall be subrogated to the rights of such consumer against such manufacturer under the provisions of said section

seven N 1/2, such express warranty and otherwise in accordance with applicable law, and may enforce the same in his name in the superior court or district court department. Such manufacturer shall hold the dealer harmless from and against all damages, liabilities, losses and reasonable expenses of suit, including reasonable attorneys' fees arising out of or incurred by the dealer by its compliance with the provisions of this section if such manufacturer, having been notified in writing by the dealer that such rights have been asserted by a consumer, fails to resolve the same at its own expense in or within seven business days.

(11) The licensing authorities responsible pursuant to section fifty-nine of chapter one hundred and forty for licensing used motor vehicle dealers shall distribute copies of this section to each dealer licensed at any time a license is granted or renewed.

(12) The provisions of this section shall not apply to the sale of a leased vehicle by a lessor to the lessee of said vehicle, a family member or employee of said lessee or to the sale of a used motor vehicle by an employer to his employee.

(13) Any action brought pursuant to this section shall be commenced within two years of the date of original delivery of the used motor vehicle to the consumer.

**SECTION 2.** Section 58 of chapter 140 of the General Laws, as appearing in the 1986 Official Edition, is hereby amended by striking out the definition of Class 2 and inserting in place thereof the following definition:-

A used car dealer shall remain liable for all warranty repairs made and other obligations imposed by said section seven N 1/4 of said chapter ninety.

**Chapter 302. AN ACT RELATIVE TO THE DISCONTINUANCE OF MOBILE HOME PARKS IN THE CITY OF PEABODY.**

Be it enacted, etc., as follows:

**SECTION 1.** Section 1 of chapter 131 of the acts of 1976 is hereby amended by adding the following paragraph:-

Whereas, A serious public emergency exists in the city of Peabody with respect to the housing of a substantial number of citizens of said city, which emergency has been created by the threatened discontinuance of the use of certain mobile home parks by certain

owners of said mobile home parks; that unless discontinuances of mobile home parks are regulated and controlled by the city of Peabody, such emergency will produce serious threats to the public health, safety, and welfare of the citizens of Peabody, and will produce a drastic loss of housing units, will increase homelessness, and will cause the loss of many residents' life savings, especially the elderly.

**SECTION 2.** Said chapter 131 is hereby further amended by striking out section 3 and inserting in place thereof the following section:-

Section 3. Regulating rents. (a) The rent board established under section two shall make such individual or general adjustments of rents, either upward or downward for any mobile home park accommodation, or any class of mobile home park accommodations, as may be necessary to assure that rents for mobile home park accommodations are established at levels which yield to owners a fair net operating income for such accommodations. For the purposes of this section, the word "class" shall include all mobile accommodations within said city, or any categories of such accommodations based on size, age, construction, rent, geographic, or other common characteristics providing the board has by regulation defined any such categories.

(b) The following factors, among other relevant factors which the board by regulation may define, shall be considered in determining whether a controlled rental unit yields a fair net operating income: (1) increases or decreases in property taxes; (2) unavoidable increases or any decreases in operating and maintenance expenses; (3) capital improvement of the housing unit as distinguished from ordinary repair, replacement and maintenance; (4) increases or decreases in living space, services, furniture, furnishings or equipment; (5) substantial deterioration of the dwelling units other than as a result of ordinary wear and tear; and (6) failure to perform ordinary repair, replacement and maintenance.

**SECTION 3.** Said chapter 131 is hereby further amended by inserting after section 7 the following section:-

Section 7A. Discontinuance Permits. (1) Scope.

The provisions of this section regarding the discontinuance of the use of part, or all of the land owned and licensed as a mobile home park shall apply to all mobile home parks and mobile home park accommodations.

(2) Definition of "Discontinuance".

When used in this act the term "discontinuance" shall include any change of use or discontinuance of the use of part, or all of the land owned and licensed as a mobile home park requiring a two year notice pursuant to subsection 8 of section thirty-two L of chapter one hundred and forty of the General Laws. The term "discontinuance" shall include, but is not limited to, the licensee's conversion of the mobile home park, or part thereof, to a condominium or cooperative corporation.

(3) Discontinuance Prohibited.

It shall be unlawful for any person to discontinue the use of part or all of the land owned and licensed as a mobile home park without having

first obtained a discontinuance permit from the city council subject to the provisions contained in this act.

(4) Discontinuance Permit Procedure.

(a) The city council shall consider an application for a discontinuance permit for a mobile home accommodation upon receipt of an application filed by the licensee or other authorized person. The city council shall forward said application within fourteen days to the rent control board.

(b) The rent control board shall schedule a public hearing within sixty-five days of receipt of the application. Notice of the time and place of such public hearing, of the subject matter, sufficient for identification, shall be published in a newspaper of general circulation in the city of Peabody once in each of two successive weeks, the first publication to be not less than fourteen days before the date of the public hearing and by posting such notice in a conspicuous place in city hall for a period of not less than fourteen days before the day of said hearing. The rent control board shall also notify all tenants living in the affected mobile home accommodations of the time, place and subject matter of the public hearing. No defect in the form of any notice under this section shall invalidate any grant or denial of a discontinuance permit unless such defect is found to be misleading.

(c) No vote by the city council to grant or deny a discontinuance permit shall be taken until a report with recommendations by the rent control board has been submitted to the city council or twenty-one days after said hearing have elapsed without submission of such report. After such notice, hearing and report, or after twenty-one days shall have elapsed after such hearing without submission of such report, the city council may vote to grant or deny the discontinuance permit. If the city council fails to vote on the proposed discontinuance permit within ninety days after such hearing, no action shall be taken thereon until after a subsequent public hearing is held with notice and report as above provided.

(d) No discontinuance permit may be granted except by a majority vote of the city council.

(e) Notwithstanding any other provision of this section, the rent control board may, without holding a hearing, recommend the denial of a discontinuance permit if a decision has been made with regard to the discontinuance of a mobile home park accommodation within the preceding twelve months, and if the park licensee fails, in the new application, to allege a substantial change of circumstances since the previous hearing which would merit the rent control board in hearing new evidence. In addition, the rent control board may recommend denial of the discontinuance permit without holding a hearing if the application is not in conformance with the requirements of this section or other applicable regulations.

(5) Discontinuance Permit Criteria.

In determining whether to recommend that the city council grant or deny a discontinuance permit, the rent control board shall consider the aggravation of the shortage of safe, decent and affordable mobile home park accommodations in Peabody, which may result from the

discontinuance, especially for tenants of low and moderate income and handicapped or elderly persons on fixed incomes. In making such determination the rent control board shall make findings of the following factors:

(a) the benefits and detriments to the persons whom this act and this section seek to protect;

(b) the hardships imposed on the tenant residing in the mobile home accommodations proposed to be discontinued;

(c) circumstances demonstrating hardship and inequity to the licensee seeking a discontinuance permit;

(d) the rate of vacancy of mobile home accommodations in the city of Peabody at the time the licensee applies for a discontinuance permit and the average rental rates for said available accommodations;

(e) the availability of land zoned and otherwise suitable for development or expansion of mobile home parks.

The rent control board, in its discretion, may also review other relevant factors in making its report and recommendations.

For purposes of this act, the "vacancy rate" shall be defined as that percentage of the mobile home parks accommodations which are empty of mobile homes and are offered for rental to mobile home tenants. Further, to be considered a "vacancy" the rental offer of the mobile home park accommodation must be without entrance fee; without restrictions as to the age, size or character of the mobile home, and; without a requirement that the prospective tenant purchase a mobile home from the park owner.

In its report, the rent control board shall determine the current vacancy rate for comparable mobile home park accommodations in the city of Peabody. Any parties involved may submit evidence presented to the rent control board at the public hearing.

(6) Additional Provisions.

(a) The licensee or applicant seeking a discontinuance permit must make application to the city council for said permit within thirty days of serving the tenants with the notices required under the provisions of subsection 8 of section thirty-two L of chapter one hundred and forty of the General Laws.

(b) Notwithstanding the above, no eviction certificate shall be issued by the rent control board because of the discontinuance of the use of all or a part of a mobile home park unless a discontinuance permit has been issued by the city council.

**SECTION 4.** The provisions of this act shall not apply to mobile home parks which have sent out notices of a change of use or discontinuance under the provisions of subsection 8 of section thirty-two L of chapter one hundred and forty of the General Laws prior to the effective date of this act.

Approved July 21, 1987.

**Chapter 319. AN ACT PROVIDING FOR UNIFORM STATUTORY WILLS.**

Be it enacted, etc., as follows:

**SECTION 1.** Section 9 of chapter 191 of the General Laws is hereby amended by adding the following paragraph:-

This section shall not apply to a will made under the provisions of chapter one hundred and ninety-one B unless the will otherwise provides.

**SECTION 2.** The General Laws are hereby amended by inserting after chapter 191A, as so appearing, the following chapter:-

CHAPTER 191B.

UNIFORM STATUTORY WILL ACT.

Section 1. This chapter may be cited as the Massachusetts Uniform Statutory Will Act.

As used in this chapter, the following words and phrases shall have the following meanings:-

(1) "Child", except as modified by this paragraph, a child of a natural parent whose relationship is involved. An adopted individual is the child of the adopting parents and not of the natural parents, but an individual adopted by the spouse of a natural parent is also the child of either natural parent. An individual born out of wedlock is not the child of the father unless the individual is openly and notoriously so treated by the father. The term does not include an individual who is a stepchild, a foster child, a grandchild, or a more remote descendant.

(2) "Issue", all lineal descendants of an individual of all generations, with the status of a child at each generation being determined by the definition of child.

(3) "Personal representative", the executor, administrator, successor personal representative, special administrator, or a person who performs substantially the same functions relating to the estate of a decedent under the law governing their status.

(4) "Property", an interest, present or future, legal or equitable, vested or contingent, in real or personal property.

(5) "Representation", a division of the estate into as many equal shares as there are surviving issue in the nearest degree of kinship and deceased individuals in the same degree who left issue surviving the decedent, each surviving issue in the nearest degree receiving one share and the share of each deceased individual in the same degree being divided among issue of that individual in the same manner.

(6) "Statutory will estate", the entire testamentary estate, except as otherwise provided in the will.

(7) "Surviving spouse", the individual to whom the testator was married at the time of death except a spouse from whom the testator was then separated under a decree of separation, whether or not final, or

written separation agreement signed by both parties. An individual separated from the testator whose marriage to the testator continues in effect under the law of the commonwealth solely because a judgment of divorce or annulment of the marriage is not recognized as valid in the commonwealth is not the testator's surviving spouse under this chapter. An individual whose marriage to the testator at the time of death is not recognized in the commonwealth solely because a judgment of divorce or annulment of a previous marriage of either or both of them is not recognized as valid in the commonwealth is the testator's surviving spouse under this chapter.

(8) "Testamentary estate", every interest in property subject to disposition or appointed by a will of the decedent.

(9) "Testator's residence", one or more properties normally used at the time of the testator's death by the testator or the surviving spouse as a residence for any part of the year. If the property used as a residence is a unit in a cooperative or other entity, it includes all rights and interests relating to such unit. If the property is used in part for a commercial, agricultural, or other business purpose, the testator's residence is an area not exceeding three acres, which includes the structure used in whole or in part as a residence and structures normally used by the testator in connection with the dwelling and excludes structures and areas outside the dwelling used primarily for a commercial, agricultural, or other business purpose.

(10) "Trustee", an original, additional, or successor trustee, whether or not appointed or confirmed by the court.

Section 2. An individual having capacity to make a will under the laws of the commonwealth may make a statutory will under the provisions of this chapter. The will shall be executed in a manner recognized as valid under the laws of the commonwealth.

Section 3. (a) A will may incorporate by reference the provisions of this chapter in whole or in part and with any modifications and additions the will provides. To the extent an express provision of a will conflicts with this chapter, the terms of the will shall govern.

(b) A provision that all or part of the testator's testamentary estate is to be disposed of in accordance with the provisions of this chapter incorporates by reference provisions of this chapter in effect on the date the will is executed.

(c) An incorporation by reference of provisions of this chapter may be in the following or a substantially similar form:

"Except as otherwise provided in this will, I direct that my testamentary estate be disposed of in accordance with the Massachusetts Uniform Statutory Will Act."

Section 4. The statutory will estate shall pass as provided in sections five to nine, inclusive.

Section 5. (a) The share of a surviving spouse shall be:

- (1) If there is no surviving issue, the entire statutory will estate; or
- (2) If there is a surviving issue,
  - (i) subject to any lien or encumbrance, the testator's residence and

tangible personal property, except personal property held primarily for investment or for a commercial, agricultural, or other business purpose;

(ii) the greater of three hundred thousand dollars, or one-half of the balance of the statutory will estate; and

(iii) subject to the provisions of subsection (b), an interest in the remaining portion of the statutory will estate, including any property that would pass under the provisions of subclauses (i) or (ii) of this subsection but disclaimed by the surviving spouse, in a trust upon the terms set forth in section six.

(b) If the personal representative, other than the surviving spouse, determines that the trust under section six would be uneconomical, the entire statutory will estate shall pass to the surviving spouse.

Section 6. Property held in trust under the provisions of subclause (iii) of clause (2) of subsection (a) of section five(a)(2)(iii) shall be held upon the following terms:

(1) During the life of the surviving spouse, the entire net income shall be paid to or for the benefit of the surviving spouse in quarterly or more frequent installments. Net income accrued or undistributed on the death of the surviving spouse shall be paid to the estate of the spouse. If unproductive property is held in the trust, the surviving spouse at any time by written instrument delivered to the trustee may compel conversion of the unproductive property to productive property.

(2) During the life of the surviving spouse, the trustee at any time may pay to or for the benefit of the surviving spouse and issue of the testator amounts of the principal the trustee deems advisable, giving reasonable consideration to other resources available to the distributee, for the individual's needs for health, education, support, or maintenance. For the purpose of making those discretionary payments, the principal must be administered as two separate shares, which at the inception of the trust must be equal. One share is the surviving spouse's share of the principal. During the life of the surviving spouse, payments may not be made from the surviving spouse's share to anyone other than the surviving spouse. Primary consideration shall be given to the needs of the surviving spouse and the children of the testator who are under the age of twenty-three years or under disability. The trustee may rely in good faith on a written statement furnished by a beneficiary. The discretion to pay principal to or for the benefit of any individual includes the discretion after that individual's death to pay expenses incurred before the individual's death and to pay funeral and burial expenses. If the trustee, other than the surviving spouse, determines that continuation of the trust is uneconomical, the trustee may terminate the trust by distribution of principal to the surviving spouse. Principal that in the exercise of the trustee's discretion is paid to or for the benefit of any issue may be charged against any share of income or principal thereafter existing for that issue or for any ancestor or descendant of that issue, if the trustee upon equitable considerations so determines. If the surviving spouse or any issue is serving as trustee, the trustee's discretion pursuant to this paragraph is not exercisable in favor of that trustee except as necessary for the trustee's needs for health,

education, support, or maintenance, nor is the trustee's discretion exercisable in favor of the trustee's estate, the trustee's creditors, or creditors of the trustee's estate.

(3) On the death of the surviving spouse, the principal, unless retained in trust under the provisions of section eight or nine, shall be paid, subject to any charges made by the trustee under the provisions of subparagraph (2), to the children of the testator in equal shares if all of the children are then living, otherwise to the then living issue of the testator by representation or, if no issue of the testator is then living, to the individuals who would be entitled to receive the estate as if the property were located in the commonwealth and the testator had then died intestate domiciled in the commonwealth in proportions determined under the law then existing.

Section 7. (a) If there is no surviving spouse, the statutory will estate shall pass, subject to the provisions of sections eight and nine, as follows:

(1) If there is surviving issue, in equal shares to the children of the testator if all of them survive, otherwise to the surviving issue of the testator by representation; or

(2) If there is no surviving issue, to the individuals entitled to receive the estate as if the property were located in the commonwealth and the testator had died intestate domiciled in the commonwealth in the proportions so determined.

(b) Unless the personal representative determines that a trust would be uneconomical, property to which the provisions of section eight or nine applies shall be distributed to the trustee. If the personal representative determines that a trust would be uneconomical, the property shall pass under the provisions of subsection (a) free of trust. The discretion provided in this subsection to the personal representative shall not be exercised by any of the testator's issue serving as personal representative.

Section 8. (a) If property is distributable under the provisions of subparagraph (3) of section six or of section seven to a child of the testator who is under the age specified in the will or, if the will does not specify an age, under the age of twenty-three years, all shares distributable to issue of the testator shall be held in a trust under the provisions of this section. In exercising powers under subsections (b) and (c), primary consideration shall be given to the needs of children of the testator who are under the age of twenty-three years or under disability.

(b) Until no living child of the testator is under the age determined under subsection (a), the trustee shall pay the income and principal of the trust to or for the benefit or account of one or more of the issue of the testator in amounts the trustee deems advisable for their needs for health, education, support, or maintenance. Income not so paid may be added to principal.

(c) The trustee at any time in its discretion may distribute to a beneficiary the share, in whole or in part, of the trust to which the distributee would be entitled if the trust then terminated. If the whole of a share has been distributed under this subsection, the trustee

thereafter shall not make any further distribution of income or principal to such distributee or issue of such distributee.

(d) The trust terminates when no living child of the testator is under the age determined under subsection (a) or the trustee determines that continuation of the trust is uneconomical.

(e) Subject to the provisions of subsection (c) and section nine, the property in the trust shall be distributed upon termination to the issue of the testator in proportion to the shares determined at the death of the surviving spouse under the provisions of subparagraph (3) of section six, or at the death of the testator under the provisions of section seven, if there is no surviving spouse. In determining the amount to be distributed to any distributee, the trustee shall charge the share of that distributee with any partial distribution made under subsection (c) and may charge, in its discretion, the share of that distributee with distributions under subsection (b) to or for the benefit or account of the distributee, or issue or ancestor of the distributee. If any issue whose share is held in trust under the provisions of this section dies before the complete distribution of the share, the property to which the issue would have been entitled if living must be distributed to the assignees, or, if none, to the estate of the deceased issue.

(f) If an issue is serving as trustee, the discretion of the trustee under this section is not exercisable, except as necessary for that individual's needs for health, education, support, or maintenance, in favor of that individual, that individual's estate, that individual's creditors, or the creditors of that individual's estate.

Section 9. (a) If property becomes distributable by a personal representative or trustee to an individual under the age specified in the will or, if the will does not specify an age, under the age of twenty-three years, or to an individual who the personal representative or trustee determines cannot effectively manage or apply the property by reason of mental illness, mental deficiency, physical illness or disability, chronic use of drugs, chronic intoxication, or other cause: (i) the personal representative or trustee, as to principal or income, may distribute part or all of the property to the distributee directly, by deposit or investment in the distributee's name or for the distributee's account, or to a guardian or conservator for the distributee; (ii) the personal representative may distribute to the trustee in trust under clause (iii); or (iii) the trustee may retain all or any part of the property in trust for the distributee and thereafter at any time the trustee may distribute or apply part or all of the principal or income to or for the benefit or account of the distributee.

(b) Unless terminated earlier, a trust under clause (iii) subsection (a) shall terminate upon the attainment of the required age, removal of the disability, or death of the distributee. Upon such termination, the trustee shall distribute the remaining trust property to the distributee or personal representative of the distributee's estate.

(c) The provisions of this section shall not apply to distributions to a surviving spouse of the testator.

Section 10. (a) A will incorporating by reference the terms of this

chapter shall not exercise a power of appointment unless (i) the will complies with any conditions imposed on the exercise of the power, (ii) the appointment is within the scope of the power, and (iii) the will expressly refers to the power or expresses an intent to exercise any power of appointment held by the testator.

(b) If a power of appointment is exercised as provided in subsection (a), the appointed property shall pass as part of the statutory will estate unless the will provides otherwise.

Section 11. An individual who does not survive the testator by thirty days or more shall be treated as if the individual predeceased the testator.

Section 12. (a) The person named in the will as personal representative or trustee shall be entitled to serve, if qualified, as personal representative or trustee.

(b) If a qualified person is not named in the will as personal representative, or the named person is incapacitated, unwilling to serve, or dead, and a qualified alternate is not named in the will, priority for appointment as personal representative is determined by the law of the state of decedent's domicile at death.

(c) If a qualified person is not named in the will as trustee, or the named person is incapacitated, unwilling to serve, or is dead, and a qualified alternate is not named in the will, the personal representative may appoint, without court approval, a qualified person, including a person serving as personal representative, to serve as trustee.

(d) If a personal representative or trustee resigns, is removed, becomes incapacitated, or dies, the surviving spouse or, if there is no surviving spouse or the surviving spouse is unable or unwilling to act, a majority of the adult children of the testator, may appoint a qualified successor personal representative or trustee.

(e) In all other cases, personal representatives and trustees must be appointed by the court.

Section 13. (a) Subject to the provisions of subsection (c) and, except as expressly provided by will, a trustee, in addition to any other powers conferred by law, without prior approval of any court may:

(1) retain property in the form in which it is received, including assets in which the trustee is personally interested;

(2) make ordinary or extraordinary repairs, store, insure, or otherwise care for any tangible personal property, and pay shipping or other expense relating to the property as the trustee considers advisable;

(3) abandon property the trustee determines to be worthless;

(4) invest principal and income in any property the trustee determines and, without limiting the generality of the foregoing, invest in shares of an investment company or in shares or undivided portions of any common trust fund established by the trustee;

(5) sell, exchange, or otherwise dispose of property at public or private sale on terms the trustee determines, no purchaser being bound to see to the application of any proceeds;

(6) lease property on terms the trustee determines even if the term extends beyond the time the property becomes distributable;

(7) allocate items of income or expense to income or principal, as provided by law;

(8) keep registered securities in the name of a nominee;

(9) pay, compromise, or contest claims or controversies, including claims for estate or inheritance taxes, in any manner the trustee determines;

(10) participate in any manner the trustee determines in any reorganization, merger, or consolidation of any entity whose securities constitute part of the property held;

(11) deposit securities with a voting trustee or committee of security holders even if under the terms of deposit the securities may remain deposited beyond the time they become distributable;

(12) vote any security in person or by special, limited, or general proxy, with or without power of substitution, and otherwise exercise all the rights that may be exercised by any security holder in an individual capacity;

(13) borrow any amount the trustee considers advisable to obtain cash for any purpose of the trust, and in connection therewith, mortgage or otherwise encumber any property on any conditions the trustee determines even if the term of the loan may extend beyond the term of the trust;

(14) allot in or towards satisfaction of any payment, distribution, or division, in any manner the trustee determines, any property held at the then current fair market value;

(15) hold trusts and shares undivided or at any time hold them or any of them set apart one from another;

(16) enter into a lease or arrangement for exploration and removal or minerals or other natural resources or enter into a pooling or unitization agreement;

(17) sell or exercise stock subscription or conversion rights;

(18) employ persons, including attorneys, auditors, investment advisers, or agents, even if associated with the trustee, to advise or assist the trustee in the performance of duties, act without independent investigation upon their recommendations, and instead of acting personally, employ agents to perform any act of administration, whether or not discretionary;

(21) distribute property distributable to the estate of an individual directly to the devisees or heirs of the individual; and

(22) perform any other act necessary or appropriate to administer the trust.

constitute binding obligations of the decedent or were properly presented as claims, if in the judgment of the personal representative the decedent would have wanted the pledges satisfied under the circumstances.

(c) Except as expressly provided in the will, the personal representative or trustee shall observe the standards in dealing with the estate which would be observed by a prudent person dealing with the property of another. If the personal representative or trustee has special skills or is named personal representative or trustee on the basis of representation of special skills or expertise, the person is under a duty to use those skills. Except to the extent qualified property is not available, only property that qualifies for the estate tax marital deduction under the Internal Revenue Code, as amended, may be allocated to the surviving spouse under section five or to the surviving spouse's share of principal in a trust established under section six.

**SECTION 5.** Said chapter 23A of the General Laws, as so appearing, is hereby amended by striking out section 35 and inserting in place thereof the following section:-

(a) The agency may finance industrial development facilities and pollution control facilities and waste disposal facilities and exercise the powers of an industrial development financing authority under the provisions of chapter forty D throughout the commonwealth and may issue bonds under this paragraph (a) in furtherance of these purposes in the same manner provided by said chapter for local authorities. For this purpose the provisions of said chapter relating to local authorities and to municipalities acting by and through them and to their bonds shall apply to the agency and its bonds except that the following provisions of chapter forty D shall not apply to the agency: sections two, three, four, five, six, the third paragraph of section eight, the fourth paragraph of section ten, section twelve, except the findings required to be made under subsection (2), the sixth to eleventh sentences, inclusive, of section eighteen, section nineteen and paragraphs (a) to (e), inclusive, of section twenty-one and the power of the agency in this section thirty-five shall be exercised notwithstanding the provisions of clause (ii) of section eight, sections nine, ten, thirteen and fourteen of chapter forty D.

With respect to bonds issued for the foregoing purposes under this paragraph (a), the agency shall make the findings required to be made by the finance board in chapter forty D, except that in the case of bond anticipation financing no findings shall be required concerning a trust agreement as specified in clauses (d) and (h) of subsection (2) of section twelve of said chapter forty D. The agency may issue bonds under this paragraph (a) to finance the improvement of any building or buildings for mixed commercial and residential use only if the agency and the governing body of the municipality in which the project is located find, after a public hearing held not less than ten days after publication of notice thereof in a newspaper of general circulation in such municipality, with respect to the portion of the project to be used for housing, that such portion is located in, or is needed to prevent the area in which it is located from becoming, a substandard, decadent or blighted open area, as defined in section one of chapter one hundred and twenty-one A; that the area will not by private enterprise alone and without either governmental subsidy or the exercise of governmental powers be developed or revitalized in such a manner as will prevent, arrest or alleviate the spread of blight or decay; and that such portion of the project is consistent with the sound needs of the municipality as a whole.

The agency shall inform sponsors of projects in appropriate cases of

available federal programs to guarantee or otherwise assist in financing certain types of activities and shall assist sponsors in such cases in implementing such programs through commercial and investment bankers. When the agency receives an inquiry from a potential sponsor of a project for financing under this paragraph (a), it shall promptly notify in writing (i) the industrial development financing authority if such an authority exists in the city or town where such project is proposed to be financed; or (ii) the mayor or board of selectmen in said city or town where no such authority exists. In the case of a city or town having an industrial development financing authority the agency shall provide such authority with all practicable assistance in completing the said project promptly. If, however, the board of the agency shall find that such local authority has not acted in a timely fashion in processing the application of the project's sponsor or other aspects of the project without reasonable grounds for such delay, the agency may undertake the financing of the project directly with the sponsor without the intervention of the local authority. At any time a city or town may require the agency to assume the role of an authority in financing a project under this paragraph (a). If a city or town having an industrial development finance authority has rejected, in a timely fashion, a proposed project for financing by such authority under chapter forty D, it shall notify the agency of that rejection, and the agency shall not undertake that project in the city or town.

(b) The agency may lend money to one or more users to finance economic development projects as an alternative to its authority under paragraph (a) of this section, and as an incident to any such loan the agency may enter into financing documents and may acquire and hold any duly authorized payment obligations of such users. The agency may issue its bonds for financing such loans, provided that no bonds issued by the agency under the authority of this paragraph (b) shall be accompanied by a certificate or legal opinion to the effect that interest on the bonds is excludable from gross income of the recipients for federal income tax purposes. No financing shall be provided by the agency under this paragraph (b) for any project for the use of a non-profit entity or for housing if such financing may be provided by the agency through the intermediacy of another public body pursuant to paragraph (c) of this section, and no financing shall be made by the agency for the purposes of this paragraph (b) unless the agency shall first have determined that:

- (i) the user is a responsible party;
- (ii) the financing of the project is reasonably expected to stimulate economic growth or stability within the commonwealth and will, as a result, confer a definite benefit on the citizens of the commonwealth, and any private benefit which may be derived from the project will not be so disproportionate as to override the public purpose of stimulating or stabilizing the economy of the commonwealth;
- (iii) the project will provide employment, or security against loss of employment, having a reasonable relationship to the principal amount of the agency's loan therefor;

(iv) the agency's bonds and any financing document contain reasonable provisions and comply with the provisions of this chapter;

(v) payments to be made under applicable financing documents are adequate to pay the current expenses of the agency in connection with the project and to make payments on the bonds; and

(vi) the sponsor of the project does not do business in the Union of South Africa;

(vii) the sponsor of the project does not do business in Northern Ireland absent compliance with the McBride Principles.

(c) The agency may lend money to one or more public bodies in order to assist said public bodies in carrying out their corporate purposes and as an incident to any such loan the agency may acquire and hold the bonds, notes or other duly authorized payment obligations of said public bodies. The agency may issue bonds for the purpose of financing such lending; provided, however, that no bonds issued by the agency for these purposes shall be accompanied by a certificate or legal opinion to the effect that interest on the bonds is excludable from gross income of the recipients for federal income tax purposes. In financing documents pertaining to such lending, the agency may require the public body to pay any fixed annual charges and any fees and expenses charged by the agency for its services rendered in connection with the acquisition by the agency of such obligation. Upon the issue to the agency of any obligations of a public body for purposes of this section, the public body issuing such obligations shall be deemed to have agreed that, in the event of the failure of such public body to pay the interest and premium, if any, on, and principal of, such obligations, and notwithstanding the provisions of any other law, the agency may thereupon avail itself of all remedies, rights and provisions of law applicable in such circumstances, and no delay or failure to exercise any such rights and remedies on the part of the agency may be raised as a defense by such public body.

No loan shall be made by the agency for the purposes of this paragraph (c) unless the agency shall have first received assurance satisfactory to the agency that the payment obligations of the public body to be acquired by the agency in connection with such loan are valid and binding obligations of the public body enforceable in accordance with their terms; provided, however, that the provisions of this act shall not be construed to expend the power or purpose of any public body except MIFA.

(d) The agency shall provide for issuance of its bonds from time to time by resolution of the board of directors. An issue of bonds of the agency may combine more than one of the agency's authorized purposes for borrowing money. Bonds issued by the agency may be issued as general obligations of the agency or as special obligations payable solely from particular revenues or funds as may be provided for in any financing document pertaining thereto. Bonds of each issue may be dated, may bear interest at such rate or rates, including rates variable from time to time, may be payable in any domestic or foreign currency and at any domestic or foreign location, and may mature or otherwise be payable at such time or times, as may be provided for by the agency, and

may be made redeemable or determinable before maturity at the option of the agency or the holder thereof at such price or prices and under such terms and conditions as may be fixed by the agency. The agency shall determine the form of bonds, including interest coupons, if any, to be attached thereto, and the manner of execution of such bonds, and shall fix the denomination or denominations of such bonds and the place or places of payment of principal, redemption premium, if any, and interest thereon. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery thereof, such signature or facsimile shall nevertheless be valid and sufficient for all purposes as if such officer had remained in office until delivery. The agency may provide for authentication of bonds by a trustee, fiscal agent, registrar or transfer agent. Bonds may be issued in bearer or in registered form, or both, and, if notes, may be made payable to bearer or to order, as the agency may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, for the reconversion into coupon bonds of bonds registered as to both principal and interest and for the interchange of bonds registered as to both principal and interest and for the interchange of registered and coupon bonds. The agency may also establish and maintain a system of registration for any bonds whereby the name of the registered owners, the rights evidenced by the bonds, the transfer of the bonds and such rights and other similar matters are recorded in books or other records maintained by or on behalf of the agency, and no instrument evidencing such bond or rights need be delivered to the registered owner by the agency. A copy of the books or other records of the agency pertaining to any bond registered under such registration system certified by an authorized officer of the agency or by the agent of the agency maintaining such system shall be admissible in any proceeding without further authentication. The board may by resolution delegate to any director or directors or officer or officers of the agency or any combination thereof the power to determine any of the matters set forth in this section. In the discretion of the agency, bonds of the agency may be issued with such terms as will cause the interest thereon to be subject to federal income taxation. The agency may sell its bonds in the manner, either at public or private sale, for the price, at the rate or rates of interest, or at discount in lieu of interest, as it determines will best effect its corporate purposes. The agency may issue bonds for any of its authorized purposes without obtaining a certificate of convenience and necessity from the department of commerce and development. Notwithstanding the provisions of paragraphs (a) and (b), the bonds of any such issue may be issued prior to the making by the agency of the findings required to be made, provided that the board makes such findings prior to the disbursement of the proceeds of a loan to a user or a public body.

(e) Said agency may issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when the bonds

shall have been executed and are available for delivery. The agency may also provide for replacement of any bonds which shall have become mutilated or shall have been destroyed or lost. The agency, by itself or through such agent as it may select, may purchase and invite offers to tender for purchase any bonds of the agency at any time outstanding, provided, however, that no such purchase by the agency shall be made at a price, exclusive of accrued interest, if any, exceeding the principal amount thereof or, if greater, the redemption price of such bonds when next redeemable at the option of the agency, and may resell any bonds so purchased in such manner and for such price as it may determine will best effect its corporate purposes.

(f) Without limiting the powers of the agency contained elsewhere in this chapter or in chapter forty D, in connection with any such issue of bonds, the agency may create and establish one or more special funds, hereafter referred to as "bond reserve funds", and may establish one or more costs of issuance accounts, and shall pay into each such bond reserve fund or costs of issuance account any proceeds of sale of bonds or letter of credit or insurance policy or other financing document as may be provided in the resolution authorizing the issuance of, or financing document securing, such bonds and any other moneys which may be available to the agency for the purpose of each such fund or account from any other source or sources. Whenever the agency issues such bonds to fund reserves or costs of issuance, it may determine whether or not the cost of funding such reserves or costs of issuance, shall be treated as a cost of the project and whether or not a financing document shall be required to provide payments to amortize principal and interest of such bonds. In any event, the expected yield on bond reserve funds may, with the approval of the agency, be taken into account in determining the sufficiency of payments required under a financing document to amortize bonds issued for costs of the project. All moneys held in any bond reserve fund may be pledged to, and charged with, the payment of the principal of and the interest on the bonds with respect to which such bond reserve fund may be established, as the same shall become due, and the redemption or purchase price of such bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made. The use and disposition of moneys to the credit of such bond reserve fund shall be subject to the provisions of the resolution authorizing the issuance of, or financing document securing, such bonds. Except as may otherwise be provided in such resolution or such financing document, such bond reserve fund shall be a fund for bonds issued to finance all such projects without any distinction or priority of any bond over another; provided the agency in any such resolution or financing document may provide that such bond reserve fund shall be the fund for a particular project and for the bonds issued to finance a particular purpose and may, additionally, permit and provide for the issuance of bonds having subordinate lien in respect of the security authorized to other bonds of the agency and, in such case, the agency may create separate or other similar funds in respect of such subordinate lien bonds.

(g) In the discretion of the board of directors, any bonds issued hereunder may be secured by a financing document in such form and executed in such manner as may be determined by the board of directors between the agency and the purchasers or holders of such bonds or between the agency and a corporate trustee which may be any trust company or bank having the powers of a trust company within or without the commonwealth. Such financing document may pledge or assign, in whole or in part, the revenues and funds held or to be received by the agency, and any contract or other rights to receive the same, whether then existing or thereafter coming into existence and whether then held or thereafter acquired by the agency, and the proceeds thereof. Such financing document may contain such provisions for protecting and enforcing the rights, security and remedies of bondholders as may be reasonable and proper, including, without limiting the generality of the foregoing, provisions defining defaults and providing for remedies in the event thereof which may include the acceleration of maturities, restrictions on the individual right of action by bondholders and covenants setting forth duties of and limitations on the agency in conduct of its programs and the management of its property. In addition to other security provided herein or otherwise by law, bonds issued by the agency may be secured, in whole or in part, by financial guarantees, by insurance or by letters of credit issued to the agency or a trustee or any other person, by any bank, trust company, insurance or surety company or other financial institution, within or without the commonwealth, and the agency may pledge or assign, in whole or in part, the revenues and funds held or to be received by the agency, and any contract or other rights to receive the same, whether then existing or thereafter coming into existence and whether then held or thereafter acquired by the agency, and the proceeds thereof, as security for such guarantees or insurance or for the reimbursement by the agency to any issuer of such letter of credit of any payments made under such letter of credit.

(h) It shall be lawful for any bank or trust company to act as a depository or trustee of the proceeds of bonds, revenues or other moneys under a resolution, financing document or other agreement of the agency and to furnish indemnification and to provide security as may be required by the agency. Any pledge of revenues and other funds made by the agency under the provisions of this act shall be valid and binding and shall be deemed continuously perfected for the purposes of the uniform commercial code and other laws when such pledge is made. The revenues and funds, rights therein and thereto and proceeds so pledged and then held or thereafter acquired or received by the agency shall immediately be subject to the lien of such pledge without any physical delivery or segregation thereof or further act, and the lien of any such pledge shall be valid and binding against all parties having claims of any kind in tort, contract or otherwise against the agency, whether or not such parties have notice thereof. The resolution or financing document by which a pledge is created need not be filed or recorded to perfect such pledge except in the records of the agency and no filing need be made under the

uniform commercial code. It is hereby declared that any pledge or assignment made under the authority of this act is an exercise of the political and governmental powers of the agency, and revenues or funds, contract or other rights to receive the same and the proceeds thereof which are subject to the lien of a pledge or assignment created under this act shall not be applied to any purposes not permitted by such pledge or assignment.

(i) Any holder of a bond issued by the agency or of any of the coupons appertaining thereto and any trustee or other representative under an applicable financing document pertaining to the same, except to the extent the rights herein given may be restricted by a financing document, may bring suit upon the bonds or coupons and may, either at law or in equity, by suit, action, mandamus, or other proceeding for legal or equitable relief, including proceedings for the appointment of a receiver to take possession and control of the business and properties of the agency, to fix, revise and collect charges, protect and enforce any and all rights under the laws of the commonwealth or granted hereunder or under a resolution or financing document, and may enforce and compel performance of all duties required by this act or by such bond resolution, trust agreement or other agreement, to be performed by the agent or by any officer thereof.

(j) Bonds issued by the agency shall not constitute a debt or a pledge of the faith and credit of the commonwealth, but shall be payable solely from the revenues provided for under a financing document in connection therewith or from reserve funds or other funds of the agency or from funds derived from the issuing of duly authorized refunding bonds. All bonds issued by the agency shall suitably state that the bonds are not an obligation of the commonwealth but are payable solely from the funds specifically pledged for their payment.

(k) The agency may issue refunding bonds for the purpose of paying any of its bonds issued pursuant to section thirty-five of this act at or prior to maturity or upon acceleration or redemption or purchase and retirement. Refunding bonds may be issued at such times at or prior to the maturity, redemption or purchase and retirement of the refunded bonds as the board deems to be in the interest of the agency. Refunding bonds may be issued in sufficient amounts to pay or provide for payment of the principal of the bonds being refunded, together with any redemption premium thereon, any interest or discount accrued or to accrue to the date of payment of such bonds, the costs of issuance of the refunding bonds, the expenses of paying, redeeming or purchasing the bonds being refunded, the costs of holding and investing proceeds of refunding bonds pending such payment, redemption or purchase and such reserves for debt service or other capital or current expenses from the proceeds of such refunding bonds as may be required by a bond resolution, financing document or other agreement securing bonds. **SECTION 1. Preamble** Whereas, the general court finds and declares that a serious public emergency exists in the city of Boston with respect to housing and employment of a substantial number of the citizens of said city, as hereafter described; and

Whereas, due to its concentrated population, its intense land use by business, educational, governmental, and religious entities, its role as the center of commerce and finance in New England, and its geographic layout, the city of Boston is unique in the commonwealth; and

Whereas, there is not an adequate supply of affordable housing for low and moderate income residents of said city; and

Whereas, the development and construction of large-scale commercial real estate projects, without the obligation to mitigate their adverse impact on the availability of such affordable housing, is contrary to the public health, safety, convenience and welfare; and

Whereas, there is an urgent need to supply affordable housing for low and moderate income residents of said city in conjunction with the development and construction of new large-scale commercial real estate projects; and

Whereas, the development and construction of new large-scale commercial real estate projects in said city influences land use patterns and can directly and indirectly eliminate existing businesses; and

Whereas, new large-scale commercial real estate developments influence employment opportunities for low and moderate income residents and tend to reduce the number of jobs for which low and moderate income residents of said city are qualified; and

Whereas, new large-scale commercial real estate developments change the character of surrounding areas and, to the extent that such developments create jobs, they create jobs for which low and moderate income residents of said city are not qualified without additional job training; and

Whereas, the development and construction of new large-scale commercial real estate projects, without the obligation to mitigate their adverse impact on the availability of jobs for which low and moderate income residents of said city are qualified, is contrary to the public health, safety, convenience and welfare; and

Whereas, there is an urgent need to provide job training to low and

moderate income residents of said city in conjunction with the development and construction of new large-scale commercial real estate projects; and

Whereas, the foregoing findings are based upon a consideration of city of Boston housing trends, production statistics for new dwellings and housing vacancy rates for affordable housing for low and moderate income residents, as well as a consideration of employment trends, unemployment rates, and statistics on job training programs; and

Whereas, it is hereby determined that: (1) prior to the effective date of this act, developers of new large-scale commercial real estate developments, have relied reasonably and in good faith on the applicability to their developments of article 26, article 26A and article 26B of the city of Boston zoning code; (2) the approval, grant, or enactment of all zoning code amendments, zoning map amendments, zoning variances, conditional use permits, and zoning exceptions requested by any new large-scale commercial real estate developments, is an act of independent legal significance governed by the provisions of the city of Boston zoning code; (3) prior to the effective date of this act, owners and financiers of new large-scale commercial real estate developments, relying reasonably and in good faith on the validity of zoning code amendments, zoning map amendments, zoning variances, conditional use permits, and zoning exceptions approved, have invested a substantial amount of funds and time in such projects; (4) the agreements to make development impact project exactions, development impact project contributions and jobs contribution grants entered into prior to the effective date of this act provide revenues to meet a public exigency for the provision of affordable housing and job training for low and moderate income residents of the city of Boston; and (5) there is an urgent need to provide the public with certainty (i) that the funds, time and jobs invested in and dependent upon development impact projects are secure; (ii) that the zoning code amendments, zoning map amendments, zoning variances, conditional use permits, and zoning exceptions upon which such development impact projects depend are secure; and (iii) that the development impact project exactions, development impact project contributions and jobs contribution grants agreed to be made by development impact projects are available for the provision of job training and affordable housing for low and moderate income residents of said city; now

THEREFORE, this act is declared to be in the public interest and necessary for the public health, safety and general welfare of the citizens of the city of Boston.

court in the county of Suffolk or to the land court; provided, however, that such appeal is filed in said court within thirty days after such decision became effective in accordance with the provisions of section three. Upon an appeal pursuant to this section, the court shall hear all pertinent evidence and determine the facts, and, upon the facts as so determined, annul such action if found to exceed the authority of such commission, or make such other decree as justice and equity may require. The foregoing remedy shall be exclusive; but the parties shall have all rights of appeal and exception as in other equity cases.

Costs shall not be allowed against said zoning commission unless the court finds that the commission acted with gross negligence, in bad faith or with malice; and costs shall not be allowed against the party appealing from the action of the commission unless the court finds that said party acted in bad faith or with malice in appealing to the court.

Section 16. Notwithstanding the provisions of any general or special law or rule to the contrary, in the city of Boston the zoning commission is hereby authorized to adopt zoning regulations or amendments thereto for the purpose of mitigating the effects of any new large-scale commercial real estate development on the health and welfare of low and moderate income residents of Boston due to the unavailability of affordable housing in the city of Boston. Such regulations shall provide that, with respect to a new large-scale commercial real estate development, any relief granted under the provisions of the zoning code, existing or as amended, including without limitation the granting of a conditional use permit, exception, zoning map or text amendment or variance, shall be conditioned upon action, or promised action, by the developer seeking to obtain such relief to contribute an affordable housing exaction, to mitigate the effects which the new large-scale commercial real estate development project may have upon the availability of affordable housing within the city, which action shall be, the contribution towards the creation of affordable housing as determined by the zoning commission pursuant to duly adopted regulation. Such regulations

may authorize such contribution by the actual creation of affordable housing, or by the economic participation in such creation, including without limitation, the making of loans, contribution of capital to partnerships, limited partnerships, or joint ventures, or the assignment of the developers' contractual obligations to make the money payments provided for in this section. The economic benefit, if any, of the right to any repayment of such economic participation shall be redirected by the developer, pursuant to the provisions of the housing creation regulations, or, in the absence of such redirection, to the neighborhood housing trust.

The zoning commission shall determine by regulation that the value of the affordable housing exaction shall be measured on the basis of dollars per square foot devoted to exaction uses in excess of one hundred thousand square feet of gross floor area devoted to exaction uses, exclusive in both cases of all accessory parking garage space, in the new large-scale commercial real estate development project. The developer of any new large-scale commercial real estate development project, in lieu of contributing towards the creation of affordable housing referred to in the preceding paragraph, may make a payment or payments of an amount of money equal to the measured value of the affordable housing exaction to the neighborhood housing trust authorized by section twenty over a payment period to be established by regulation of the zoning commission, for the purpose of mitigating the impact of new large-scale commercial real estate developments.

Such regulations shall provide that the measured value of the affordable housing exaction shall be determined on the basis of a fixed dollar amount per square foot of gross floor area devoted to exaction uses in excess of one hundred thousand square feet of gross floor area devoted to exaction uses, exclusive in both cases of all accessory parking garage space, of the new large-scale commercial real estate development, as determined by the zoning commission upon written recommendations of the BRA, which recommendations shall include an analysis of the following: (1) economic trends, such as real estate development activity, commercial rents per square foot, employment growth and inflation rates; (2) housing trends measured in terms of vacancy rates for affordable housing available to low and moderate income residents, and production statistics for new dwelling units; and (3) any other such information which the BRA deems appropriate for consideration; provided, however, that the zoning commission shall be authorized to decrease the measured value of the above affordable housing exaction at any time upon consideration of the factors above; provided further, that the zoning commission shall not be authorized to set the measured value of the above affordable housing exaction at more than five dollars per square foot of gross floor area devoted to exaction uses in excess of one hundred thousand square feet devoted to exaction uses, exclusive in both cases of all accessory parking garage space; and, provided further, that three years after the effective date of this act and no more frequently than at three year intervals thereafter, the zoning commission is authorized to increase the measured value above such five dollar maximum, but any such increase, expressed as a

percentage increase of the then applicable maximum per square foot amount, shall not exceed the per cent of the increase in the combined index for the prior thirty-six month period. No such increase shall apply to any new large-scale commercial real estate development for which an application for a conditional use permit, exception, zoning map or text amendment or variance has been filed with the appropriate governmental authority prior to the effective date of such increase or for which an application for a planned development area has been filed with the BRA prior to the effective date of such increase, whichever occurs first. The payment period for the affordable housing exaction shall be the payment period for the housing contribution grant or exaction as set forth in article 26A of the Boston zoning code as of November first, nineteen hundred and eighty-six and any such period shall not be altered by subsequent regulation. Any affordable housing exaction payment shall be made to the neighborhood housing trust, as created and administered pursuant to section twenty. The zoning commission is authorized to promulgate such regulations or rules as will effectuate the purposes of this section.

Section 17. Notwithstanding any provisions of general or special law or rule to the contrary, in the city of Boston the zoning commission is hereby authorized to adopt zoning regulations or amendments thereto for the purpose of mitigating the effects of any new large-scale commercial real estate development on the health and welfare of low and moderate income residents of the city of Boston due to the unavailability of employment opportunities for such low and moderate income residents of Boston. Such regulations shall provide that any relief granted under the provisions of the zoning code, existing or as amended, including without limitation the granting of a conditional use permit, exception, zoning map or text amendment or variance, shall be conditioned upon action, or promised action, by the developer seeking to obtain such relief to contribute an employment exaction to mitigate the effects which the new large-scale commercial real estate development project may have upon the availability of jobs for low and moderate income residents within the city, which action shall be the contribution towards the creation of job training programs for the training of low and moderate income residents of the city as determined by the zoning commission pursuant to duly adopted regulation.

The zoning commission shall determine by regulation that the value of an employment exaction shall be measured on the basis of dollars per square foot devoted to exaction uses in excess of one hundred thousand square feet of gross floor area devoted to exaction uses, exclusive in both cases of all accessory parking garage space, in the new large-scale commercial real estate development project. The developer of any new large-scale commercial real estate development project, in lieu of contributing towards the creation of the job training programs or similar activities projects referred to in the preceding paragraph, may make a payment or payments of an amount of money equal to the measured value of the employment exaction to the neighborhood jobs trust authorized by section twenty of this chapter over a payment period to be

established by regulation of the zoning commission, for the purpose of mitigating the impact of the new large-scale commercial real estate development project.

Such regulations shall provide that the measured value of the employment exaction shall be determined on the basis of a fixed dollar amount per square foot of gross floor area devoted to exaction uses in excess of one hundred thousand square feet devoted to exaction uses, exclusive in both cases of all accessory parking garage space, in the new large-scale commercial real estate development, as determined by the zoning commission upon written recommendations of the BRA, which recommendations shall include an analysis of the following:

(1) economic trends, such as real estate development activity, commercial rents per square foot, employment growth and inflation rates; (2) employment trends such as unemployment rates and statistics on the availability and use of job training programs; and (3) any other such information which the BRA deems appropriate for consideration; provided, however, that the zoning commission shall be authorized to decrease the measured value of the above employment exaction at any time upon consideration of the factors above; provided, further, that the zoning commission shall not be authorized to set the value of the above employment exaction at more than one dollar per square foot of gross floor area devoted to exaction uses, exclusive in both cases of all accessory parking garage space, in excess of one hundred thousand square feet devoted to exaction uses; and, provided further, that three years after the effective date of this act and no more frequently than at three year intervals thereafter, the zoning commission is authorized to increase the measured value above such one dollar maximum, but any such increase, expressed as a percentage of the then applicable maximum per square foot amount, shall not exceed the per cent of increase of CPI-W for the prior thirty-six month period. No such increase shall apply to any new large-scale commercial real estate development for which an application for a conditional use permit, exception, zoning map or text amendment or variance has been filed with the appropriate governmental authority prior to the effective date of such increase or for which an application for a planned development area has been filed with the BRA prior to the effective date of such increase, whichever occurs first. The payment period for the employment exaction shall be the payment period for the jobs contribution grant as set forth in article 26B of the Boston zoning code as of November first, nineteen hundred and eighty-six and shall not be altered by subsequent regulation. Any employment exaction shall be paid into the neighborhood jobs trust as created pursuant to section twenty of this chapter. The zoning commission is authorized to promulgate such regulations or rules, as will effectuate the purpose of this provision.

Section 18. (a) The zoning commission is further authorized to promulgate zoning regulations and amendments thereto for the purpose of mitigating the effects of any new large-scale commercial real estate development in the city of Boston on the availability of affordable

housing or employment opportunities for low and moderate income residents of Boston; provided, however, that such regulations may not be in force simultaneously with those authorized by sections sixteen and seventeen. Such regulations and amendments may provide that any relief granted under the provisions of the zoning code, existing or amended, including without limitation the granting of a conditional use permit, exception, zoning map or text amendment or variance, shall be conditioned upon action or promised action by the developer seeking to create such new large-scale commercial real estate development project or obtain such relief to mitigate the effects which the new large-scale commercial real estate development may have upon low and moderate income residents of the city as determined by the zoning commission pursuant to duly adopted regulations. Such regulations or amendments shall state the specific improvements or amenities to be provided as a condition required for the grant of zoning relief and the zoning relief to be granted.

(b) Any such regulations and amendments must provide that (1) the present and future economic burden of any such improvements or amenities shall not exceed the sum of the present value of five dollars per square foot paid in equal and annual installments over a seven year period plus the present value of one dollar per square foot paid in equal and annual installments over a two year period, each commencing on the date of the issuance of the building permit, for each square foot of gross floor area devoted to exaction uses in excess of one hundred thousand square feet devoted to exaction uses, exclusive in both cases of all accessory parking garage space, in the new large-scale commercial real estate development; provided, however, that three years after the effective date of this act and no more frequently than at three year intervals thereafter, the zoning commission is authorized to increase the maximum per square foot amount but any such increase, expressed as a percentage of the then applicable maximum per square foot amount, shall not exceed the per cent increase of the combined index for the prior thirty-six month period and (2) the developer seeking to create such new large-scale commercial real estate development shall have the right to make a cash payment equal to such economic burden to a fund designated in such regulations or amendments in lieu of providing any such improvements or amenities. The incorporation herein of a limitation upon the economic burden of any such condition which may be imposed or agreed upon shall not be construed as mandating the imposition of any particular condition.
