(b) Before a manufactured housing community may be sold or leased for any purpose that would result in a change of use or discontinuance, the owner shall notify each resident of the community, with a simultaneous copy to the attorney general, the secretary of communities and development, and the local board of health, by certified mail of any bona fide offer for such a sale or lease that the owner intends to accept. Before any other sale or lease other than leases of single lots to individual residents, the owner shall give each resident such a notice of the offer only if more than fifty percent of the tenants residing in such community or an incorporated home owners' association or group of tenants representing more than fifty percent of the tenants residing in such community notifies the manufactured housing community owner or operator, in writing, that such persons desire to receive information relating to the proposed sale or lease. Any notice of the offer required to be given under this subsection shall include the price, calculated as a single lump sum amount which reflects the present value of any installment payments offered and of any promissory notes offered in lieu of cash payment or, in the case of an offer to rent, the capitalized value of the annual rent and the terms and conditions of the offer.

(c) A group or association of residents representing at least fifty-one percent of the manufactured home owners residing in the community which are entitled to notice under paragraph (b) shall have the right to purchase, in the case of a third party bona fide offer to purchase that the owner intends to accept, or to lease in the case of a third party bona fide offer to lease that the owner intends to accept, the said community for purposes of continuing such use thereof, provided it (1) submits to the owner reasonable evidence that the residents of at least fifty-one percent of the occupied homes in the community have approved the purchase of the community by such group or association, (2) submits to the owner a proposed purchase and sale agreement or lease agreement on substantially equivalent terms and conditions within forty-five days of receipt of notice of the offer made under subsection (b) of this section, (3) obtains a binding commitment for any necessary financing or guarantees within an additional ninety days after execution of the purchase and sale agreement or lease, and (4) closes on such purchase or lease within an additional ninety days after the end of the ninety-day period under clause (3).

No owner shall unreasonably refuse to enter into, or unreasonably delay the execution or closing on a purchase and sale or lease agreement with residents who have made a bona fide offer to meet the price and substantially equivalent terms and conditions of an offer for which notice is required to be given pursuant to paragraph (b). Failure of the residents to submit such a purchase and sale agreement or lease within the first forty-five day period, to obtain a binding commitment for financing within the additional ninety day period or to close on the purchase or lease within the second ninety-day period, shall serve to terminate the rights of such residents to purchase or lease the manufactured housing community. The time periods herein provided may be extended by agreement. Nothing herein shall be construed to require an owner to provide financing to such residents except to the extent such financing would be provided to the third party offeror in the case of a sale or lease for a use which would result in a change of use or discontinuance or to prohibit an

owner from requiring such residents who are offering to lease a community to provide a security deposit, not to exceed the lesser of one-year's rent or the amount which would have been required to be provided by the third party offeror, to be kept in escrow for such purposes during the term of the lease. A group or association of residents which has the right to purchase hereunder, at its election, may assign its purchase right hereunder to the city, town, housing authority, or agency of the commonwealth for the purpose of continuing the use of the manufactured housing community.

(d) The right of first refusal created herein shall inure to the residents for the time periods hereinbefore provided, beginning on the date of notice to the residents under paragraph (b). The effective period for such right of first refusal shall obtain separately for each substantially different bona fide offer to purchase or lease the community, and for each offer substantially equivalent to an offer made more than three months prior to the later offer; provided however, that in the case of a substantially equivalent offer made by a prospective buyer who has previously made an offer for which notice to residents was required by said paragraph (b), the right of first refusal shall obtain only if such subsequent offer is made more than six months after the earlier offer. The right of first refusal shall not apply with respect to any offer received by the owner for which a notice is not required pursuant to said paragraph (b). No right of first refusal shall apply to a government taking by eminent domain or negotiated purchase, a forced sale pursuant to a foreclosure by an unrelated third party, transfer by gift, devise or operation of law, or a sale to a person who would be an heir at law if there were to be a death intestate of a manufactured housing community owner.

(e) In any instance where the residents of the manufactured housing community are not the successful purchaser or lessee of such manufactured housing community, the seller or lessor of such community shall provide evidence of compliance with this section by filing an affidavit of compliance with the attorney general, the secretary of communities and development, the local board of health, and the official records of the county where the property is located within seven days of the sale or lease of the community. Any lease of five years or less shall specifically require that such lessee shall not discontinue or change the use of the manufactured housing community during the term of such lease.

(f) In any instance of a sale or lease for which a notice from the owner of the manufactured housing community is not required to be, and is not, given under paragraph (b) and within one year of such sale or lease the new owner or lessee delivers a notice of change of use or discontinuance under paragraph (8) of section thirty-two L, such notice shall provide each tenant in the manufactured housing community with at least four years prior notice of the effective date of the proposed change of use or discontinuance.

SECTION 20. Said chapter 140 is hereby further amended by inserting after section 32R the following section:-

Section 32S. The attorney general from time to time shall promulgate such rules and regulations as he deems necessary for the interpretation, implementation, administration and enforcement of sections thirty-two A to thirty-two S, inclusive. Collection of the assessment may begin on or after July first, nineteen hundred and ninety-three. Matters relating to the rate, collection, cost, enforcement and application and other administrative features of the assessment shall be in accordance with regulations of the department adopted pursuant to section two of chapter thirty A, after consultation with the advisory committee. Such regulations, in addition to such further matters reasonably incidental to the administration of the assessment as may be determined by the department shall:

(i) provide that the assessment shall be remitted to the department by the end supplier;

(ii) set and provide for periodic revision of, the rate of assessment at a uniform level not to exceed one cent per one thousand gallons of withdrawal, such that receipts in the aggregate are reasonably related to defraying the department's direct and indirect costs for monitoring, inspections, technical assistance, reporting and enforcement activities necessary to ensure compliance with the act and any regulations of the department adopted to implement the act;

(iv) establish the manner in which end suppliers engaged in the distribution of water shall apportion and collect amounts necessary to defray the assessment, and their administrative costs relating thereto up to but not more than five percent of the outstanding assessment for all users for the applicable assessment period in the aggregate, from users without further action of the department of public utilities; provided, however, that each end supplier shall have the option of determining how its invoice to users shall show such defraying amounts and the frequency of invoicing;

(C) the establishment of reasonable audit and reporting procedures;

(vi) establish a program providing for payments in lieu of assessments for any end supplier which cannot meter its withdrawal to the satisfaction of the department, until satisfactory metering has been installed.

The department of public utilities shall monitor the manner in which investor-owned end suppliers engaged in the distribution of water apportion and collect amounts necessary to defray the assessment and applicable administrative costs;

Any unexpended balance may be used to defray the amount of the assessment in future fiscal years. Division of Medical Assistance

Section 1. The division of medical assistance, established under section sixteen A of chapter six A, is hereby designated as the single state agency responsible for administering the programs of medical assistance established under this chapter. All actions of the division shall be taken by the commissioner, or at the direction of the commissioner, by such agents or subordinate officers as he or she shall determine.

Section 2. The secretary of health and human services, designated pursuant to section three of chapter six A, shall appoint, with the approval of the governor, a commissioner of medical assistance who shall serve at the pleasure of the secretary and may be removed by the secretary at any time, subject to the approval of the governor. The commissioner shall have such educational qualifications and such administrative and other experience as the secretary of health and human services determines to be necessary for the performance of the duties of commissioner. The commissioner shall appoint and may remove such agents and subordinate officers as the commissioner may deem necessary and may establish such subdivisions within the division as the commissioner deems appropriate from time to time. The position of commissioner shall be classified in accordance with section forty-five of chapter thirty and the salary shall be determined in accordance with section forty-six C of said chapter thirty.

Section 3. The commissioner shall appoint a deputy commissioner and such assistant commissioners, not to exceed four in number, as the commissioner may determine to be necessary or desirable to carry out the work of the division. The deputy and assistant commissioners shall be assigned areas of responsibility to be specified by the commissioner. The deputy and assistant commissioners shall have such educational qualifications and such administrative and other experience as the commissioner determines to be necessary for the performance of the duties of those offices.

The positions of deputy commissioner and assistant commissioner shall be classified in accordance with section forty-five of chapter thirty and the salary shall be determined in accordance with section forty-six C of said chapter thirty. If the office of the commissioner becomes vacant, the deputy commissioner shall discharge the duties and have the powers of the commissioner. The general counsel may hire such additional legal counsel and such other personnel, subject to appropriation, as may be deemed necessary to perform the functions of the office of general counsel.

Section 5. The commissioner may establish regional or local offices at such locations

in the commonwealth as the commissioner may deem necessary to ensure the effective administration of the medical assistance programs established under this chapter. Such locations may include, but shall not be limited to, the regional or local offices of the department of public welfare.

Section 6. There shall be a medical care advisory committee which shall advise the division about health and medical care services. The committee shall have the opportunity to participate in policy development and program administration. The commissioner shall appoint members to the advisory committee on a rotating and continuous basis in such numbers and for such terms as the commissioner deems appropriate; provided that the committee shall include board-certified physicians and other representatives of the health professions who are familiar with the medical needs of low-income population groups and with the resources available and required for their care, members of consumers' groups, including medical assistance recipients, and the commissioner of the department of public welfare.

The division shall provide the committee with such staff and technical assistance as is necessary to enable the committee to make effective recommendations, and such financial arrangements as are necessary to make possible the participation of recipient members.

Section 7. In addition to all powers conferred on state agencies, the division shall have the following powers:

a. to make, amend, and repeal rules and regulations for the management of its affairs;

b. to make contracts and execute all instruments necessary or convenient for carrying out its business;

c. to acquire, own, hold, dispose of, and encumber personal property and to lease real property in the exercise of its powers, and the performance of its duties;

d. to enter into agreements or transactions with any federal, state, or municipal agency, or other public institution, or with any private individual, partnership, firm, corporation, association, or other entity;

e. to charge and collect fees, rentals and other charges as reasonable and necessary for carrying out its business;

f. to receive and administer any funds granted, given or bequeathed to its use or for a special purpose as indicated in the gift, grant, or order or decree of a court;

g. to do all acts and things necessary or convenient to carry out the powers otherwise granted under this chapter; and

h. to review, prior to implementation, any activity or policy of any agency within the executive office of human services involving the delivery of services reimbursable under this chapter, certification or licensure of providers of services under this chapter, or identification of individuals eligible for medical assistance under this chapter.

i. "Secretary", the Secretary of the United States Department of Health and Human Services, except as that term is used in section two of this chapter.

j. "Title XIX", Title XIX of the Social Security Act, 42 U.S.C. 1396 et seq.

Section 9. There is hereby established, pursuant to and in conformity with the provisions of Title XIX, a program of medical assistance, hereafter referred to in this chapter as Medicaid, for certain residents of the commonwealth.

Medicaid benefits shall be available to all persons eligible for financial assistance under the provisions of chapter one hundred and eighteen and Title IV of the Social Security Act and to all persons who are eligible for supplemental security income payments on account of age or disability under the provisions of Title XVI of said Social Security Act or for assistance under the provisions of chapter one hundred and eighteen A. Such benefits may also be made available to other persons who would be eligible for financial assistance under any of the foregoing provisions but for income or resources, provided that such persons meet the financial eligibility requirements of Title XIX; provided, further, that said benefits shall be available to otherwise eligible persons seeking admission to and residents of long-term care facilities whose income and resources are insufficient to meet the cost of their medical care as determined by the financial eligibility requirements of said program.

Section 10. The division shall establish a program of medical care and assistance for pregnant women and infants who are not otherwise eligible for medical assistance under this chapter and who lack private health insurance coverage or have a health insurance policy which does not cover all medically necessary care which is covered by the program established by this section. The division shall furnish such medical assistance to each such pregnant woman and infants residing in the commonwealth in accordance with standards of eligibility established in section 1902 of the Social Security Act, as amended by section 4101 of the Omnibus Budget Reconciliation Act of 1987 (P. L. 100-203); provided, however, that the income eligibility standards shall not be less than one hundred and eighty-five per cent of the non-farm income poverty guidelines as defined by the United States Office of Management and Budget.

The division shall, to the extent permitted by Title XIX, provide for Medicaid in the form of ambulatory care to pregnant women who are presumptively eligible for Medicaid for the period of time prescribed by federal law. The division shall promulgate regulations to implement this section, which shall require health care providers to notify such pregnant women of the need to file an application for Medicaid and which shall set standards to be used by providers in determining presumptive eligibility.

Section 11. The division shall, within the limits of the funds which have been appropriated for the purposes of this chapter, cooperate with the appropriate federal authorities in the administration of Title XIX, under which federal funds are available to the commonwealth for Medicaid, and accept for the commonwealth any benefits thereof. The state treasurer shall be the custodian of such funds allocated to the commonwealth.

Section 12. In administering the medical assistance programs established under this chapter, the division shall formulate such methods, policies, procedures, standards and criteria, except medical standards and criteria, as may be necessary for the proper and efficient operation of those programs in a manner consistent with simplicity of administration and the best interests of recipients.

The division may enter into any types of contracts with providers of medical services as the division deems necessary to carry out the provisions of this chapter, including, but not limited to, selective contracts, volume purchase contracts, preferred provider contracts and managed care contracts; provided, that such contracts are reviewed by the rate setting commission and the executive office of administration and finance. The division may negotiate the rate of reimbursement to the provider under any such contract, and any such negotiated rate shall not be subject to the provisions of section thirty-two of chapter six A.

The division may take such further action, consistent with law and within the limits of available funds appropriated for the purposes of this chapter, as may be necessary for carrying out the purposes of this program in conformity with all requirements governing the availability of federal financial participation to the commonwealth under said Title XIX, including said provisions relative to notice and reimbursement, a uniform system of records and accounts to be kept by the regional or local offices and the manner and form of making reports to the division.

The division may adopt, promulgate, amend and rescind rules and regulations suitable or necessary to carry out the provisions of this chapter and said Title XIX and any amendments thereto, and as interpreted from time to time by the Secretary.

Such rules and regulations shall include provisions requiring providers of long term care services intending to withdraw from the medical assistance programs established by this chapter to provide for the continuing care or appropriate relocation of the medical assistance recipients residing in their facilities.

The division may require any long term care provider expressing its intention to withdraw from said programs whose facility is able to meet the standards for participation in said programs to enter into a standard provider contract with the division under which the provider continues to provide services only to those patients residing in its facility at the time the provider announces its intention to withdraw who are eligible for medical assistance or who become eligible for medical assistance during the term of the contract. Such rules and regulations shall also provide that any such provider who has withdrawn from said programs may not participate in said programs for a period of time, not exceeding five years, specified in said regulations.

Such rules and regulations shall also provide that any long term care provider whose facility is unable to meet the standards for participation in said programs shall continue to provide care to the medical assistance recipients residing in its facility until the provider has arranged for the complete relocation of all the medical assistance recipients residing in its facility in accordance with such rules and regulations and with the regulations of the department of public health.

Any provider who violates the provisions of this section by failing to provide care to a medical assistance recipient residing in its facility shall be subject to a fine of one thousand dollars for each violation.

As a method of providing medical assistance to recipients, the division is authorized to contract with any fiscal agent, institution, health insurer, health maintenance organization, health plan, management service or consultant firm consistent with the requirements of 42 CFR Part 434 to administer all or part of the services and benefits available under this chapter; or, to establish a health maintenance organization; provided, that said health maintenance organization shall be operated in accordance with applicable federal and state law.

Section 13. The division shall review, and approve or disapprove, any change in rates or in rate methodology proposed by the rate setting commission. The division shall review such proposed rate changes for consistency with division policy and federal requirements, and with the available funding authorized in the final budget for each fiscal year prior to certification of such rates by the commission; provided, that the division shall not disapprove a rate increase solely based on the availability of funding if the federal health care financing administration provides written documentation that federal reimbursement would be denied as a result of said disapproval and said documentation is submitted to the

house and senate committees on ways and means. The division shall, whenever it disapproves a rate increase, submit the reasons for disapproval to the commission together with such recommendations for changes. Such disapproval and recommendations for changes, if any, shall be submitted to the commission after the division is notified that the commission intends to propose a rate increase for any class of provider under Title XIX but in no event later than the date of the public hearing held by the commission regarding such rate change; provided that no rates shall take effect without the approval of the division. The commission and the division shall provide documentation on the reasons for increases in any class of approved rates that exceed the medical component of the consumer price index to the house and senate committees on ways and means. The commission shall supply the division with all statistical information necessary to carry out the division's review responsibilities under this section. Notwithstanding the foregoing, the division shall not review, approve, or disapprove any such rate set pursuant to chapter twenty-three of the acts of nineteen hundred and eighty-eight.

If projected payments from rates necessary to conform to applicable requirements of Title XIX are estimated by the division to exceed the amount of funding appropriated for such purpose in the budget for such fiscal year, the division and the commission shall jointly prepare and submit to the Governor a proposal for the minimum amount of supplemental funding necessary to satisfy the requirements of the state plan developed by the division under Title XIX.

Section 14. Pursuant to the second paragraph of section twelve, the division shall enter into negotiated rate contracts with nursing homes that recognize the acquisition cost, or portion thereof which exceeds the allowable basis under relevant regulations of the rate setting commission, as the allowable basis of fixed assets where there has been a change of ownership effective on or after January first, nineteen hundred and eighty-seven, provided that:

(a) (i) the new owner has received a determination letter from the Internal Revenue Service that it is an organization described in section 501(c)(3) of the Internal Revenue Code of 1986; and

(ii) the new owner is a nonprofit hospital within the commonwealth licensed by the department of public health, or is a nonprofit organization affiliated with a nonprofit hospital which is organized and operated for the benefit of, to perform one or more functions of, or to carry out one or more of the purposes of the nonprofit hospital it is affiliated with, including operation of freestanding nursing homes licensed by the department of public health; and

(iii) the new owner demonstrates that on average not less than eighty-five percent of its patient population is a recipient of medical assistance under this chapter; and

(iv) the new owner demonstrates that in the nonprofit hospital it operates it has an average of administratively necessary patient days that is fifty percent of the regional average of administratively necessary patient days as calculated by the division; and

(v) the new owner demonstrates that in the nonprofit hospital it operates that on average it has not less than eighty percent occupancy of medical or surgical beds; and

(vi) the change of ownership did not occur between a person or organization which is associated or affiliated with or has control of or is controlled by the new owner or is related to the new owner or any director, trustee, partner, shareholder or administrator of the new owner by common ownership or control or in a manner specified in section 267(b) and (c) of the Internal Revenue Code of 1986; and

(vii) the change of ownership was made for reasonable consideration; and

(viii) the change in ownership was a bona fide transfer of all powers and indicia of ownership; and

(ix) the change of ownership manifested an intent to sell the assets of the facility rather than implement a method of financing, or refinancing; and

(x) the department of public health certifies the need for additional beds for publicly-assisted residents in the geographical area; and

(xi) such geographical area is reasonably isolated which isolation creates difficulties in obtaining access to nursing home care; and

(xii) the new owner obtains at least two independent appraisals of the property; and

(xiii) the division and the department of public health have determined that the transaction is necessary to ensure the safety of patients as evidenced by current or anticipated delicensure or decertification proceeding against the current owner; provided however, that the provisions of clauses (xii) and (xiii) of paragraph (a) shall only apply to nursing homes acquired after July first, nineteen hundred and ninety; or

(b) (i) the new owner acquired the facility from an acute care hospital to operate the nursing home pursuant to relief granted to the acute care hospital by the acute care hospital conversion board pursuant to section one hundred and one of chapter six A; and

(ii) the acute care hospital conversion board approves the new owner's acquisition cost; and

(iii) the new owner demonstrates that on average, not less than eighty-five percent of its patient population is receiving medical assistance under this chapter.

If the division is unable to calculate regional averages for administratively necessary patient days pursuant to clause (a)(iv) of this section, the new owner shall be able to receive the acquisition cost, or the portion thereof which exceeds the allowable basis under relevant regulations of the rate setting commission, as the allowable basis of the fixed assets as a result of a change of ownership if the new owner otherwise complies with clauses (i) to (iii), inclusive, and clauses (v) to (xiii), inclusive of paragraph (a).

Section 14A. The division shall treat admissions to acute care hospitals and chronic disease or rehabilitation hospitals as equivalent for purposes of reimbursing nursing homes to reserve beds for medical assistance recipients during brief absences from nursing homes by such recipients to obtain hospital care.

Section 15. The division shall provide Medicaid benefits for such medical care or

services as Title XIX and regulations adopted thereunder by the secretary require. The division may provide Medicaid benefits for such additional medical care or services as Title XIX and said regulations permit.

The amount, duration and scope of the aforesaid care and services shall be determined by the rules and regulations of the division, provided such rules and regulations are consistent with the provisions of this chapter and Title XIX. Such rules and regulations may include appropriate limitations on care and services based on such criteria as medical necessity or utilization control procedures.

The division shall develop regulations and procedures requiring a recipient of medical assistance under this chapter to participate in a program of managed care, upon determination by the department, pursuant to the provisions of 42 USC 1396n(a), subject to appeal by the recipient, that said recipient has demonstrated a pattern of excessive or inappropriate utilization of a covered benefit.

Any person who is eligible for assistance under the provisions of this chapter who is not maintaining his or her own home and who is receiving care in a licensed nursing home, a licensed chronic hospital, a licensed rest home, an approved public medical institution, or a public psychiatric institution shall retain the first sixty dollars of monthly income for clothing, personal needs allowance, and leisure time activities. If there is no such income, or if such income is less than sixty dollars, the recipient shall be paid, in advance, the difference between such income and sixty dollars.

The division shall provide by regulation that personal laundry costs shall not be charged to the amount retained by or paid to the recipient pursuant to this section. Personal laundry costs shall be reimbursed through rates paid to such institutions.

Section 16. The division shall establish a program of primary and supplemental medical care and assistance for certain disabled residents of the commonwealth who are not eligible for medical assistance pursuant to Title XIX of the federal Social Security Act. The benefits of such program shall be available to all such persons (1) who are not covered for medical costs relative to their disability by an employer's group health insurance plan, (2) who are not eligible for medical assistance under any work incentive programs with federal participation, and (3) who, if not engaged in substantial gainful activity, would meet all eligibility requirements for supplemental security income under the provisions of Title XVI of said Social Security Act at the time of application for said program of medical care and assistance. Subsequent to their enrollment in said program, such disabled residents may continue in enrollment in said program notwithstanding the fact that they no longer meet the financial requirements of said Title XVI in accordance with income requirements established by the division. The cost of such program shall be funded, in part, by premium contributions, co-payments, and deductibles contributed by enrollees according to a sliding scale schedule designed by the division.

The division shall further establish a program of assistance for persons forced to leave employment due to the onset or worsening of a severe and chronic disability or illness

or whose access to employer sponsored health insurance is jeopardized by a substantial reduction in work hours as a result of such disability or illness. The benefits of such program shall provide for assistance in paying health insurance premiums offered through a group plan of health insurance sponsored by the employer for those persons whose continuing disability or illness would likely result in their becoming eligible for benefits under this chapter; provided that the cost of such benefits shall be paid, in part, by payments from such persons according to a sliding fee schedule established by the division.

Section 16A. The division shall establish a program of medical care and assistance for certain disabled children of the commonwealth. The benefits of such program shall be available to children who are not eligible for medical assistance programs with federal financial participation and who would meet the disability requirements for supplemental security income under the provisions of Title XVI of the Social Security Act. The cost of such program shall be funded, in part, by premium contributions, co-payments and deductibles according to a sliding scale schedule designed by the division.

Section 17. Multiple source drugs listed in the Massachusetts list of interchangeable drug products established pursuant to the provisions of section thirteen of chapter seventeen of the General Laws and regulations adopted thereunder shall not be reimbursable except for the "Massachusetts maximum allowable cost", as defined by regulations of the department, unless the division grants prior authorization based upon the provision of written documentation by the practitioner to the division that satisfactorily demonstrates that a recipient's medical condition requires the use of a nongeneric drug or unless the practitioner writes on the face of the prescription in his or her own handwriting the words "brand name medically necessary" under the words "no substitution" in a manner consistent with applicable state law; provided that a pharmacist dispensing in accordance with this section shall be exempt from the provisions of the fourth paragraph of section twelve D of chapter one hundred and twelve.

Section 18. The division may purchase on behalf of any person eligible for medical assistance under this chapter medical insurance furnished in accordance with the provisions of chapter one hundred and seventy-five, one hundred and seventy-six A, one hundred and seventy-six B or one hundred and seventy-six G, provided that such medical insurance, in conjunction with any supplemental coverage that may be available to such person by the division under this chapter, would enable such person to obtain medical care and services comparable to those afforded any other similar eligible person under this chapter, at no greater cost to such person or the division. The third party liability unit of the division is hereby authorized to establish services and procedures which seek to maximize and coordinate the utilization of health care benefits provided under any such purchase of medical insurance for such person.

Section 19. The division shall establish methods of approving services to be performed as a prerequisite to extending medical assistance. Said methods of prior approval may include, but need not be limited to: (1) in the case of restorative dentistry, or dentures,

examination of proposed recipients or of diagnostic information regarding proposed recipients by dental consultants of the department; (2) in the case of orthodontic services, procedures which assure that medical assistance will be provided only for severe handicapping malocclusions; and (3) in the case of transportation to obtain medical care, a statement from the attending physician certifying that such transportation is necessary due to a physical disability.

Assistance under this chapter for nursing services for persons twenty years of age or under may be available only after a medical review team under the supervision or with the approval of the department of public health, in cooperation with the division and the departments of mental health and mental retardation, approves such services for such persons. The department of public health, in cooperation with the division and such other departments, shall promulgate rules and regulations for such services, and any person or facility offering such services shall receive prior certification from the department of public health.

The division shall establish methods of random posttreatment examination of recipients of medical care or services under this chapter in order to assure that the care or services for which the division is billed were actually performed as described.

Section 20. An application or reapplication by an individual for medical assistance shall be made to the division on forms prepared by the division. Such forms shall include but not be limited to the following:- the name, address and social security number of the applicant and the name, address and social security number of any member of the family sixteen years of age and older, the total income from wages, salaries, pensions, fees, tips, bonuses and all other sources of income of all such persons, the ownership and description of any motor vehicle or boat, or trailer, or similar assets readily convertible into cash owned by any member of the family. Such form shall require that the applicant provide information to determine his or her eligibility for medical assistance under penalty of perjury.

An institution furnishing services under this chapter shall have the right to make such application on behalf of an individual only if, and to the extent, provided by regulations of the division.

Section 21. Upon receipt of such application, the division shall make full inquiry concerning the eligibility of the applicant, his or her need for medical assistance and his or her resources and income, if any, and, shall make its decision: (1) within ninety days after receipt of such application for applicants who apply for medical assistance on the basis of a disability; and (2) within forty-five days after receipt of such application for all other persons. At the time of such initial decision, and in the event of any subsequent decision, the applicant or recipient shall be notified in writing of such decision and shall be informed of the reason therefor and of his right to appeal and of the method by which he may appeal under this chapter.

The division may enter into an agreement with the secretary, or with any government or private agency, whereby the secretary or agency shall determine on behalf of the division the eligibility for medical assistance under this chapter of all or certain applicants for such assistance.

Section 22. In this section, the word "claimant" shall mean any person who suffers any loss from property damage, accident, illness, injury or otherwise for which monies may be provided by liability insurance, worker's compensation, or any other third party.

When any claimant receives payment from a liability or worker's compensation insurer or any other third party, the claimant shall repay to the division an amount equal to the benefits provided under any medical assistance program administered by the division to or on behalf of the claimant, the claimant's spouse or children, or any individual whom the claimant is required by law to support, but only to the extent that such benefits were provided as a result of the property damage, accident, illness, injury or other loss suffered by the claimant; and the application for and receipt of such benefits shall, after notification has been given to the third party, operate as a lien to secure repayment against monies which may be provided by liability insurance, worker's compensation, or any other third party up to the amount of such benefits. If the monies available for such repayment are insufficient to satisfy in full any competing claims of both the department and the division of medical assistance, the department and the division each shall be entitled to its respective pro rata share of such monies as are available for such repayment.

If benefits are provided under any medical assistance program administered by the division as a result of property damage, accident, illness, injury or loss for which a third party may be liable, the division shall require the person receiving such benefits to assign to the commonwealth an amount equal to the benefits so provided from the proceeds of any such claim against the third party.

A claimant shall notify the division in writing upon commencement by him or her of a civil action or other proceeding to establish the liability of any third party or to collect monies payable under accident, liability, or health insurance, worker's compensation, or from any other source by reason of the accident, injury or disability referred to in the preceding paragraph.

The commonwealth shall be subrogated to a claimant's entire cause of action or right to proceed against any third party and to a claimant's claim for monies to the extent of assistance provided under this chapter. The division, with the consent of the attorney general, may, by attorneys employed or selected by it, commence a civil action or other proceeding on behalf of the commonwealth to establish the liability of any third party or to collect such monies if a claimant does not commence such a civil action or other proceedings within nine months after the date of the accident, injury, or onset of disease or other disability.

Section 23. Notwithstanding any other provision of general or special law, rule or regulation, the division shall be subrogated to the right of any recipient of medical assistance under this chapter to proceed against any health care insurer that is or may be liable to pay for covered services obtained by a recipient of medical assistance to the extent of any medical benefits provided by the division on behalf of the recipient or his or her dependents.

A recipient of medical assistance or any person legally obligated to support and have actual or legal custody of a recipient of medical assistance shall inform the division of any health insurance available to such recipient upon initial application and redetermination for

eligibility for assistance and shall make known the nature and extent of any health insurance coverage to any person or institution that provides medical benefits to the recipient or his or her dependent.

No policy for health insurance for health care delivery administered, issued or renewed in the commonwealth shall contain any provision denying or reducing benefits to a person who is eligible for or who is receiving medical assistance under this chapter.

A provider of medical assistance under this chapter shall determine whether any recipient for whom it provides medical care or services that are or may be eligible for reimbursement pursuant to this chapter is a subscriber or beneficiary of a health insurance plan. The division is the payor of last resort, and accordingly a provider shall request payment for medical care or services it provides from a health insurer which is or may be liable for the medical care or services so provided, before payment is requested from the division.

Payment by the division under the medical assistance programs established by this chapter shall constitute payment in full; subsequent to any such payment a provider may not recover from any health insurer an amount greater than the amount so paid by the division for any service for which the division is to be the payor of last resort.

Notwithstanding any provision of law, all health insurers doing business in the commonwealth shall provide information to the division to the extent sufficient to identify persons who are recipients of medical assistance under this chapter and who are also beneficiaries under any policy for health insurance in force and effect in the commonwealth.

Section 24. A treasurer of a savings bank, national bank, trust company, cooperative bank, benefit association, insurance company or safe deposit company authorized to do business in the commonwealth who, upon written request, signed by an authorized employee or agent of the division, unreasonably refuses to inform such employee or agent of the amount deposited in the corporation or association to the credit of a person named in such request as a charge upon the commonwealth, or as an applicant to the commonwealth for medical assistance under this chapter, or who willfully renders false information in reply to such request, shall forfeit fifty dollars to the use of the commonwealth. Upon such request, a treasurer, as aforesaid shall furnish the records on deposits and withdrawals during the past five years, concerning any applicant for or recipient of medical assistance under this chapter to any authorized employee or agent of the division.

Section 25. For purposes of determining an individual's eligibility for Medicaid, the following income and resources shall be exempt and shall neither be taken into consideration nor, except as permitted under Title XIX, required to be applied toward the payment or part payment of Medicaid benefits:

(1) Monthly income in an amount not exceeding the level of the minimum dollar amount required under Title XIX;

(2) ownership of one's residence, including furniture, which is essential and appropriate to the needs of the household except as permitted by section 1902(a)(10)(C) of Title XIX. In the case of an applicant or recipient for whom a medical determination has

been made, after notice and opportunity for an appeal and hearing, that he or she cannot reasonably be expected to return to live in the residence, the residence will be considered a countable asset unless:

(A) the division determines that counting the residence as an asset would cause undue hardship; or

(B) any one of the following persons continue or would continue to reside therein: (i) the applicant or recipient's spouse; or (ii) a child of the applicant or recipient who is under twenty-one years of age or who is blind or permanently disabled; or (iii) a sibling of the applicant or recipient who has an equity interest in the home and who was residing there for a period of at least one year immediately before the date of the applicant's admission to the medical institution; or (iv) a son or daughter of the applicant or recipient who was residing in the applicant or recipient's home for a period of at least two years immediately before the date of the applicant's admission to the medical institution, and who establishes to the satisfaction of the division that he or she provided care to the applicant which permitted the applicant to reside at the home rather than in an institution; or

(C) the applicant or recipient has obtained long term care insurance whose coverage meets the requirements of 211 C.M.R. 65.00.

In the case of an applicant or recipient for whom such a medical determination has been made under this subsection, the division shall continue to consider the residence as a noncountable asset for a period of not less than three months following such medical determination in order that the applicant or recipient may make funds available for his or her medical needs based on his or her equity interest in such residence.

(3) personal property in an amount not exceeding the minimum resource amount required under Title XIX;

(4) cemetery plots purchased for the use of the applicant or recipient;

(5) funds not to exceed the minimum amount required under Title XIX deposited in a trust account and so reserved for the payment of funeral and burial expenses of the applicant or recipient including, but not limited to, the purchase of a plot, the opening of the grave, the fee for religious services, and the monument inscription; the cash surrender value of burial insurance, so called, or prepaid irrevocable burial contracts, so called.

In any case where the monthly income of an applicant or recipient is in excess of the exemptions allowed, the applicant or recipient, if otherwise eligible for Medicaid under this chapter, shall be liable to pay to the provider of medical care or service an amount which shall be equal to the excess income for a period of six consecutive months, which includes the period when such service was provided.

In determining responsibility of any individual for any Medicaid applicant or recipient, such responsibility shall be limited to a person for his spouse and parents for children under the age of eighteen. The income and assets of any Medicaid applicant or recipient under eighteen years of age who lives with his or her parent shall be deemed to include the income and assets of the parent of such applicant or recipient. The income and assets of any Medicaid applicant or recipient under eighteen years of age who does not live with his or her parents shall include only the income and assets that are actually contributed

to the applicant or recipient by the parent.

Notwithstanding the first paragraph of this section, the division may require Medicaid recipients to pay enrollment fees, premiums, deductibles, coinsurance, copayments or similar cost sharing charges as participants in managed care plans implemented by the division, provided that any waivers of Title XIX provisions regarding such recipient cost sharing are obtained from the secretary in conjunction with any other federal approvals and waivers necessary to implement said managed care plans; provided further that, in the absence of such managed care plans, the division shall require, to the extent permitted by Title XIX, that recipients, if eligible for such benefits, be liable for a copayment of not more than fifty cents toward the purchase of each pharmaceutical product, including prescription drugs and over-the-counter drugs, and to require the copayment of three dollars for the use of emergency room services in acute care hospitals for the treatment of nonemergency conditions.

Section 26. The division shall issue a numbered identification card to persons receiving medical assistance under this chapter. Such card shall bear the date of issue and shall be presented to providers as verification of eligibility for medical assistance. The division shall establish by rules and regulations such procedures as may be necessary for the purpose of recalling identification on termination of eligibility.

Section 27. If an individual has become eligible under this chapter, eligibility shall be reconsidered or redetermined:

(a) When required on the basis of information the division has obtained previously about anticipated changes in the individual's situation.

(b) Promptly within thirty days, after a report is obtained from any source which indicates that changes in the individual's circumstances may affect the amount of assistance to which he or she is entitled or may make him or her ineligible.

(c) Periodically, but at least once in every six months.

(d) If any recipient shall by gift, inheritance, or other manner acquire additional assets during any twelve month interval following determination of his or her eligibility, the recipient shall immediately report such acquisition to the division which shall immediately make a reevaluation of such recipient's eligibility.

Section 28. In determining the resources of an individual, there shall be included, consistent with Title XIX, any interest in real or personal property owned by such individual with regard to which such individual made an assignment or transfer at less than fair market value, provided, however, that this provision may be waived if the department determines that application of the provision would work an undue hardship on a particular individual. For purposes of making this determination, the amount of uncompensated value which is included in said resources shall be reduced by incurred medical bills, for which the individual is liable. Said medical bills cannot also be applied to excess income as provided in section twenty-five of this chapter. This section shall apply only to assignments or transfers made after June thirtieth, nineteen hundred and eighty-three.

Section 29. Whenever an individual who is receiving medical assistance under this chapter transfers an interest in real or personal property, such individual shall notify the division. Such notice shall include, at a minimum, the individual's name, social security number or, if different, medical assistance identification number, the date of transfer and the dollar value, if any, paid or received by the individual receiving benefits under this chapter.

Section 30. When the division determines that an applicant is eligible for Medicaid, it shall pay for eligible care and services furnished on or after the date of application. Payment shall be made to the person or institution supplying medical services. The date of application for Medicaid of an individual who has applied for financial assistance under the provisions of chapter one hundred and eighteen A or section one hundred and thirty-one of chapter six, shall be deemed to be the date of application for such financial assistance, whether or not such financial assistance is granted. If consistent with Title XIX of the federal Social Security Act and the regulations established thereunder, the division shall pay for eligible care and services furnished to an eligible applicant during the three months immediately prior to the month in which the applicant filed his or her application; provided, however, that, at the time such care or services are furnished to such individual, that individual upon application would have been eligible for Medicaid pursuant to this chapter.

Section 31. (Until June 30, 1995, this section reads as follows:)

There shall be no adjustment or recovery of medical assistance correctly paid except (a) from the estate of an individual who was an inpatient in a nursing facility or other medical institution when he or she received such assistance, or (b) from the estate of an individual who was sixty-five years of age or older when he or she received such assistance; provided however, that in the case of an individual under clause (a) or (b), the adjustment or recovery may be made only after the death of the surviving spouse, if any, and only at a time when he or she has no surviving child who is under age twenty-one or is blind or permanently and totally disabled. Recovery of assistance provided to individuals under age sixty-five in a nursing facility or other medical institution under clause (a) shall be limited to assistance provided on or after March twenty-second nineteen ninety-one.

The division is authorized to solicit and collect contributions from relatives of any individual who is a patient in a long-term care institution and who is an applicant for or recipient of medical assistance under this chapter.

The division is authorized to establish contribution programs that shall entail mandatory or voluntary contributions; provided, however, that under a program of mandatory contributions, no contribution greater than two percent of the total medical assistance payment made annually by the department to the long-term care institution on behalf of said patient shall be required; provided, further, that no contributions shall be required of any person who is a member of a household with an income that is less than three hundred percent of the federal poverty standard; and provided, further, that for this purpose income shall be determined after any expenditures required by this chapter. The division may also solicit and collect voluntary contributions from any member of the general public who wishes to make such a contribution. For the purposes of this section, "relatives" of such

individual shall mean his or her spouse, his or her children by blood, marriage, or adoption, his or her grandchildren who have reached the age of twenty-one; or, where such individual is a minor in a long-term care institution, his or her parents and grandparents by blood or adoption.

The division shall send to the relatives of such individual, at least annually, an itemized list of all payments made by the medical assistance program on behalf of said individual, together with, in the case of a voluntary program, a request for voluntary contributions or, in the case of a mandatory program, a bill for two percent of such total charges which shall be the obligation of the relative to pay to the division. The division is authorized to request of all said individuals a listing of relatives and other pertinent information, and to promulgate regulations for the administration of the contributions programs. The division shall issue to each person who makes a contribution under this section a receipt for the contribution.

The making of such contributions by relatives of an applicant for or recipient of medical assistance shall not be a precondition of or requirement for obtaining or maintaining eligibility for medical assistance under this chapter, nor shall any such contributions be considered income or resources available to an applicant for or recipient of medical assistance if such contributions are made by an individual who is not a responsible relative as defined by the provisions of Title XIX of the Social Security Act as amended and the regulations promulgated thereunder.

Contributions made pursuant to the provisions of this section shall be deposited in the Long-Term Care Trust Fund established pursuant to section thirty-two A.

(From and after June 30, 1995, this section reads as follows:)

There shall be no adjustment or recovery of medical assistance correctly paid except (a) from the estate of an individual who was an inpatient in a nursing facility or other medical institution when he or she received such assistance, or (b) from the estate of an individual who was sixty-five years of age or older when he or she received such assistance; provided, however, that in the case of an individual under clause (a) or (b), the adjustment or recovery may be made only after the death of the surviving spouse, if any, and only at a time when he or she has no surviving child who is under age twenty-one or is blind or permanently and totally disabled.

Section 32. (a) Notwithstanding any provision of law to the contrary, a petition for admission to probate of a decedent's will or for administration of a decedent's estate shall include a sworn statement that copies of said petition and death certificate have been sent to the division by certified mail. Within thirty days of a request by the division, an executor or administrator shall complete and send to the division by certified mail a form prescribed by the division and provide such further information as the division may require.

In the event a petitioner fails to send copies of the petition and death certificate to the division and the decedent received medical assistance: (1) when age sixty-five or older; or (2) at any time on or after March 22, 1991, regardless of age, while an inpatient in a nursing facility or other medical institution, any person receiving a distribution of assets from the decedent's estate shall be liable to the division to the extent of such distribution.

(b) The division may present claims against a decedent's estate as follows:

(1) the division may within four months after approval of the official bond of the executor or administrator file a written statement of the amount claimed under section thirty-one of this chapter with the registry of probate where the petition was filed and deliver or mail a copy thereof to the executor or administrator. The claim shall be deemed presented upon the filing of the claim in the registry of probate; or

(2) the division may within one year after the date of the death of the decedent commence an action under the provisions of section nine of chapter one hundred and ninety-seven.

As to claims presented by written statement as provided in subparagraph (1), an executor or administrator may mail a notice to the division stating that a claim has been disallowed in whole or in part. Failure of the executor or administrator to mail a notice of disallowance to the division within sixty days after presentation of the claims shall be deemed an allowance. If, after a decision disallowing a claim, the executor or administrator changes such decision, he or she shall notify the division in writing of such change. In the event of a disallowance in whole or in part, the division may commence an action against the executor or administrator in a court of competent jurisdiction within sixty days after receipt of said notice of disallowance.

A judgment in a proceeding in any court against an executor or administrator to enforce a claim by the division against a decedent's estate shall be an allowance of the claim.

(c) Unless otherwise provided in any judgment entered against the executor or administrator, claims allowed pursuant to this section shall bear interest at the rate provided under section six B of chapter two hundred thirty-one for the period commencing four months plus sixty days after approval of the official bond of the executor or administrator.

By petition filed in the probate court, the division, if its claim has been allowed as provided herein but not paid, may seek an order directing the executor or administrator to pay the claim to the extent that funds are available for payment and for such other relief as may be required.

(d) Notice of a petition by an executor or administrator for a license to sell real estate shall be given to the division in any estate where:

(1) The division has filed a written statement of claim with the registry of probate as provided in subsection (b); or

(2) The division has filed with the registry of probate a notice, as prescribed under subsection (a) of section nine of chapter one hundred ninety-seven, that an action has been commenced.

(e) In all cases where: (1) the division determines it may have a claim against a decedent's estate; (2) a petition for administration of the decedent's estate or for admission to probate of the decedent's will has not been filed; and (3) more than one year has passed from the decedent's date of death, the division is hereby authorized to designate a public administrator to be appointed and to serve pursuant to chapter one hundred ninety-four. Said

designation by the division shall include a statement of the amount claimed. This provision shall apply to all estates in which no petition for administration of the decedent's estate or for admission to probate of the decedent's will has been filed as of the effective date of this section, regardless of the decedent's date of death.

Section 32A. There is hereby established on the books of the commonwealth a Long-Term Care Trust Fund to which shall be deposited all contributions collected by the division pursuant to section thirty-one. All interest earned on the amount in said trust fund shall be deposited or retained in said trust fund.

Amounts from this trust fund may be expended, subject to appropriation, on care for recipients of long-term care benefits under this chapter or for services otherwise authorized pursuant to this chapter.

Section 33. Notwithstanding the provisions of sections thirty-one and thirty-two, a person receiving medical assistance who has obtained long term care insurance and whose coverage meets the requirements of 211 C.M.R. 65.00 shall not be liable for the payment of medical assistance correctly paid to or on such person's behalf. No mandatory contributions shall be required from such person's relatives pursuant to section thirty-one and no claims may be made by the division pursuant to sections thirty-one and thirty-two against such person's estate on account of assistance correctly paid.

Section 34. No lien or encumbrance of any kind except as may be permitted by the Secretary, shall be required from or imposed against the property of any individual prior to his death because of Medicaid benefits paid or to be paid on his behalf except pursuant to the judgment of a court on account of benefits incorrectly paid on behalf of a Medicaid recipient.

The division shall not be required to pay a recording fee for filing a notice of lien or encumbrance or a release or discharge of a lien or encumbrance under this section.

Section 35. No claim for medical care or services provided for under this chapter shall be reimbursed if any health insurance company, non-profit hospital service corporation, medical service corporation, or other health insurer is liable for such claim under the terms of a group or individual policy providing coverage for such claim to a person eligible for assistance under this chapter. The division shall establish procedures to ensure that no such unauthorized claims are paid, including the soliciting of information regarding alternative health coverage from all applicants and recipients.

Notwithstanding the provisions of any general or special law to the contrary, chronic hospitals and skilled nursing facilities shall seek certification for Title XVIII of the Social Security Act for those services reimbursed under Title XVIII of the Social Security Act.

Notwithstanding any law to the contrary, all health insurers governed by chapters one hundred and seventy-five, one hundred and seventy-six A, one hundred and seventy-six B, one hundred and seventy-six C, one hundred and seventy-six E, one hundred and seventy-six F, and one hundred and seventy-six G, shall provide information to the division which is necessary to carry out the purposes of this section, including the names and addresses of their policyholders or subscribers.

Section 36. Participation in the medical assistance programs established under this chapter shall be limited to providers of services who have not been convicted of larceny or fraud or any other crime in connection with such services, or the billing therefor and who:

(1) indicate their intention to the division to so participate;

(2) present evidence, satisfactory to the division, of their qualifications to provide such services;

(3) agree to accept, as payment in full, the amounts paid in accordance with the fee schedules provided for under this chapter;

(4) agree to comply with all laws, rules and regulations governing the operation of the programs;

(5) participation in the programs as a skilled nursing and/or intermediate care facility shall be limited to providers who:

agree to be responsible for all overpayments owed to the division, including, in the case of transfer of ownership, the overpayments of any and all previous owners.

Section 37. The division shall distribute to all providers a copy of the rules, regulations, standards, and laws governing the medical assistance programs established by this chapter and shall establish administrative sanctions against providers, including, but not limited to, administrative fines, and, suspension or termination from the programs, for any violations of said rules, regulations, standards or laws. The division shall notify the proper professional society and licensing agency of any such violations.

Section 38. Providers shall submit to the division a bill for goods sold and services rendered not later than ninety days after the goods are sold or the services rendered, and the division shall verify no less than ten percent of said bills with the recipient of said goods or services. The division shall require that the provider maintain proof, subject to audit, of the actual delivery to recipients of services and goods for which bills are submitted. The division shall verify the accuracy of bills submitted under this section through the application of statistical sampling methods.

Said bills shall be signed under the penalties of perjury; provided, however, that an institution, as defined in clause (c) of section eight, may, in lieu of this requirement, agree in writing with the commissioner that its books and records will be available for inspection at all reasonable times by the division with respect to services rendered under the medical assistance programs administered by the division. The division may establish regulations which provide exceptions to the ninety day billing limitation. Said regulations shall not permit payment of such bills submitted more than one year after the last day of the month in which the goods are sold or the services are provided.

The division may also promulgate regulations which establish procedures for providers to appeal erroneous denials by the division of a provider's claim for payment under this chapter. Such procedures may: (1) provide for disposition of such appeal by a board comprised of division personnel with expertise in claims processing; (2) provide for summary disposition of such appeal based on a review of written submissions; and (3) require that such appeals be filed with the division within thirty days, or some other time

period specified by the division, after the date that the division notifies the provider of the final denial of the claim for payment. The provider's right to payment under this chapter shall be extinguished if the provider fails to file an appeal within the time prescribed by the division.

When the division has reason to believe that a provider has received payment to which he is not entitled, the division shall notify the provider of the facts on which it bases its belief, identifying the amount believed to have been overpaid and the reasons therefor, and shall accord the provider a reasonable opportunity to submit additional data and argument to support the provider's claim for reimbursement. After consideration and review of any such information submitted by the provider, the division shall make a final determination. Any amount determined to have been overpaid shall be recoverable under the provisions of this section unless the provider files a timely claim for an adjudicatory hearing raising a material dispute of fact or law. In such adjudicatory hearing, the burden shall be on the provider to demonstrate his entitlement to the payments denied by the division. After such hearing, the commissioner shall notify the provider of his decision with reasons therefor. The decision of the commissioner shall be final and is enforceable under this section unless stayed pursuant to a court order; provided, however, that the division has given written notice of the entry and filing provisions of this section to the provider prior to any notification from the division that it has reason to believe that the provider has received a payment to which he is not entitled. Said written notice shall state that the entry and filing provisions of this section are applicable only to those claims for which the division notifies the provider, subsequent to the date of said written notice, that payments are in dispute.

If the division's determination, or an administrative review thereof, has become final and the amount overpaid remains unpaid in full or in part, the commissioner may file with the clerk of the municipal court of the city of Boston, or in the district court in the judicial district where the provider has his principal place of business, a certificate or a copy thereof under official seal, stating: the name and address of the provider, the amount owed to the commonwealth as overpayment and in default, that the time in which administrative or judicial review is permitted has expired without appeal having been taken, or, if a claim has been filed under section fourteen of chapter thirty A, that the division's determination has not been stayed. Upon such filing of a certificate stating said information, such clerk shall assign a civil docket number to such certificate and enter judgment thereon in the civil docket as in a civil action. Such entry shall include the name of the provider identified in the certificate, the amount of such overpayment in default, and the date such certificate is filed. Such certificate shall be enforceable in the same manner and to the same extent as a judgment entered by a court of competent jurisdiction; provided, however, that the rules of court governing procedures in civil cases after the entry of judgment shall not apply to certificates entered as judgments as provided herein. Retroactive rate adjustments made to the rates of institutional providers pursuant to section thirty-two of chapter six A shall not be subject to the filing and entry dispositions of this section.

No physician shall submit a claim for goods or services rendered if said physician is a salaried employee of a hospital and the hospital submits a claim for such goods or services.

Section 39. Any person or institution which knowingly makes a false representation or, contrary to a legal duty to do so, knowingly fails to disclose any material fact to the division or its agents affecting eligibility or level of benefits for the purpose of causing any person, including the person making such representations, to be supported in whole or in part by the commonwealth, or for the purpose of procuring a payment under any medical assistance program administered by the division, shall be punished by a fine of not less than two hundred nor more than five hundred dollars or by imprisonment for not more than one year.

Nothing in this section shall be construed as preventing the institution of criminal proceedings for the violation of any other law of the commonwealth.

Section 40. Any person who furnishes items or services for which payment may be made under this chapter, who: (1) knowingly and willfully makes or causes to be made any false statement or representation of a material fact in any application for any benefit or payment under this chapter; or (2) knowingly and willfully makes or causes to be made any false statement or representation of a material fact for use in determining rights to such benefit or payment; or (3) having knowledge of the occurrence of any event affecting his or her initial or continued right to any such benefit or payment, or the benefit of any other individual in whose behalf he or she has applied for or is receiving such benefit or payment, conceals or fails to disclose such an event with an intent fraudulently to secure such benefit or payment either in a greater amount or quantity than is due or when no such benefit or payment is authorized; or (4) having made application to receive any such benefit or payment for the use and benefit of another and having received it, knowingly and willfully converts such benefits or payment other than for the use and benefit of such person, shall be punished by a fine of not more than ten thousand dollars, or by imprisonment in the state prison for not more than five years or in a jail or house of correction for not more than two and one-half years, or by both such fine and imprisonment.

Any person who does not furnish items of services for which payment may be made under this chapter, who violates any of the provisions of clauses (1) to (4), inclusive, shall be punished by imprisonment in a jail or house of correction for not more than two and one-half years or by a fine of not more than five thousand dollars or by both such fine and imprisonment.

Section 41. Whoever solicits or receives any remuneration, including any bribe or rebate, directly or indirectly, overtly or covertly, in cash or in kind in return for purchasing, leasing, ordering or arranging for or recommending purchasing, leasing, or ordering any good, facility, service, or item for which payment may be made in whole or in part under this chapter, or whoever offers or pays any remuneration, including any bribe or rebate, directly or indirectly, overtly or covertly, in cash or in kind to induce such person to purchase, lease, order, or arrange for or recommend purchasing, leasing, or ordering any good, facility, service, or item for which payment may be made in whole or in part under this chapter shall

be punished by a fine of not more than ten thousand dollars, or by imprisonment in the state prison for not more than five years or in a jail or house of correction for not more than two and one-half years, or by both such fine and imprisonment.

This section shall not apply to a discount or other reduction in price obtained by a provider of services or other entity under this chapter if the reduction in price is properly disclosed and appropriately reflected in the costs claimed or charges made by the provider or entity under this chapter or to any amount paid by an employer to an employee, who has a bona fide employment relationship with such employer, for employment in the provision of covered items or services.

Section 42. Whoever knowingly and willfully charges for any service provided to a patient under this chapter, money or other consideration at a rate in excess of the rates established in accordance with this chapter, shall be punished by a fine of not more than ten thousand dollars, or by imprisonment in the state prison for not more than five years or in a jail or house of correction for not more than two and one-half years, or by both such fine and imprisonment.

Section 43. Whoever knowingly and willfully charges, solicits, accepts or receives, in addition to any amount otherwise required to be paid under this chapter, any gift, money, donation, or other consideration as a precondition or guarantee of admitting a recipient of services under this chapter whether or not presently certified or otherwise lawfully approved for long term care, to a hospital or nursing facility or to expedite the admission of such recipient or as a requirement for such recipient's continued stay in such a facility shall be punished by a fine of not more than ten thousand dollars or by imprisonment in the state prison for not more than five years or in a jail or house of correction for not more than two and one-half years or by both such fine and imprisonment.

Section 44. If any person violates the provisions of this chapter, the attorney general or a district attorney may bring a civil action, either in lieu of or in addition to a criminal prosecution, and recover three times the amount of damages sustained including the costs of investigation and litigation. No action shall be brought under this section more than six years after it accrues.

Section 45. Any action brought under this chapter may be filed in the district or superior courts of Suffolk county.

Section 46. The remedies in sections thirty-nine to forty-five, inclusive, are in addition to and do not supersede any other available remedies.

Section 46A. Any provider procuring a payment under any medical assistance program administered by the division who violates any of the provisions of sections thirty-nine to forty-six, inclusive, shall be ineligible to participate further in the program for a period of three years next subsequent to the date of conviction for said violation; provided, however, that a vendor shall not be considered in violation of said sections thirty-nine to forty-six, inclusive, upon submission of proof, to the satisfaction of the commissioner, that such violation was due solely to a clerical or administrative error.

Section 47. Any applicant for or recipient of medical assistance, or the legal representative of such applicant or recipient, aggrieved by the failure of the division to grant medical assistance or by the failure of the division to approve or reject an application within the time limits established by section twenty-one or by the withdrawal of such assistance shall have a right to a hearing, after due notice, upon appeal to the division in the manner and form prescribed by the division; provided, however, such appeal is received by the division within thirty days after official notice of the action taken by the division has been received by the applicant or recipient. Such hearing shall be conducted by the commissioner of medical assistance or a referee designated by the commissioner within the board of hearings established under section forty-eight. The commissioner or the designated referee is hereby empowered to subpoena witnesses, administer oaths, take testimony and secure the production of such books, papers, records and documents as may be relevant to such hearings. The decision of the commissioner, or of the designated referee, shall be the decision of the division. Such appeals, hearings, and decisions shall be subject to the provisions of section forty-eight.

The division may make such additional investigation as it may deem necessary and shall make such decision as to the granting of medical assistance and the amount of such assistance to be granted as in its opinion is justified and in conformity with the provisions of this chapter. Applicants or recipients affected by such decisions of the division shall, upon request, be given reasonable notice and opportunity for a hearing as provided under this section. The provisions relating to the conduct of hearings and decisions thereon made, as provided in this section, shall be equally applicable in all cases wherein the division acts upon its own motion.

The commissioner, or the referee designated by the commissioner, shall render and issue his or her decision within ninety days after the date of the filing of the appeal by the aggrieved applicant, or legal representative of an applicant. The commissioner, but not his or her designee, may for good cause shown, direct the director of the board of hearings to conduct a rehearing of the appeal. An order for such rehearing shall not be construed as indicating or implying any position by the commissioner on the merits of the appeal. The director shall send seven days' written notice to all parties, including the date, time and place of such rehearing, which shall be held at a location convenient to the person appealing, and after such rehearing the director may, not later than thirty days after the order for such rehearing, issue a superseding decision.

Section 48. There shall be within the division a board of hearings for the purpose of holding the hearings referred to herein and rendering decisions. Said board shall be under the supervision of a director appointed by the commissioner and shall be independent of all other subdivisions and personnel of the division.

Any person aggrieved by the failure of the division to render adequate medical assistance under any program of medical assistance administered by the division or to approve or reject an application for medical assistance thereunder within forty-five days after receiving such application, or aggrieved by the withdrawal of such assistance, or by coercive

or otherwise improper conduct on the part of his or her social worker, shall have a right to a hearing, after due notice, upon appeal to the commissioner.

A hearing held pursuant to this section shall be conducted by a referee designated by the director at a location convenient to the person appealing and shall be conducted as an adjudicatory proceeding under chapter thirty A. The director of the board of hearings shall be responsible for the fair and efficient operation of the board in conformity with state and federal laws and regulations and for the training of referees, scheduling of hearings and the compilation of decisions. Neither the director nor any other employee of the division shall review, interfere with, change or attempt to influence any hearing decision by a referee. A referee may subpoena witnesses, administer oaths, take testimony and secure the production of such books, papers, records and documents as may be relevant to such hearing. The person appealing shall have the opportunity to confront and cross-examine all adverse witnesses and to question or refute any testimony, evidence, materials, or legal arguments. The referee shall base his or her decision solely on the testimony, evidence, materials and legal rules adduced at the hearing. The referee may reopen a hearing for the purpose of considering further testimony, evidence, materials or legal rules before rendering his or her decision and shall, if he or she reopens the hearing, send seven days' written notice to all parties of the reopening and the reasons therefor, including the date, time and place of the resumed hearing, which shall be held at a location convenient to the person appealing. The decision of the referee shall be the decision of the division.

A referee shall render and issue a decision within ninety days after the date of the filing of the aggrieved person's appeal, except that when an aggrieved person appeals the rejection of his or her application for medical assistance, or the failure to act on said application, or the failure of the division to render emergency medical assistance, the referee shall render and issue a decision within forty-five days after the date of filing of said appeal. The decision of the division shall be subject to review in accordance with the provisions of chapter thirty A.

The officer shall, if possible, deliver to the offender at the time and place of the violation a copy of said notice. Whenever it is not possible to deliver a copy of said notice to the offender at the time and place of violation, said copy shall be mailed or delivered by the officer, or by his commanding officer or any person authorized by said commanding officer to the offender's last known address. The commissioner may make an examination and investigation concerning the truth of the matters contained in such affidavit as the commissioner deems necessary. Such affidavit shall be kept in the office of the commissioner and shall be open to public inspection. The commissioner shall require every domestic company to keep its books, records, accounts and vouchers in such manner that the commissioner or any authorized representatives may readily verify its annual statements and ascertain whether the company has complied with the law.

(2) At least once in every five years, and whenever the commissioner determines it to be prudent, the commissioner shall personally, or by any deputy or examiner, visit each domestic company and any foreign company applying for admission or already admitted to do business in the commonwealth, and thoroughly inspect and examine its affairs and ascertain its financial condition, its ability to fulfill its obligations, whether it has complied with the law and any other facts relating to its business methods and management, and the equity of its dealings with its policyholders. The commissioner shall also make such examination upon the request of five or more stockholders, creditors, policyholders or persons pecuniarily interested therein who shall make an affidavit of their belief, with specifications of the reasons therefore, that such company is in an unsound condition. (2) Such plan shall be approved by vote of not less than two-thirds of the votes of the insurer's policyholders voting thereon in person, by proxy or by mail at a meeting of policyholders called for that purpose pursuant to such reasonable notice and procedure as may be approved by the commissioner. Upon such approval, the conversion shall be effective as of the date specified in the plan. On and after such date, all the rights, franchises and interests of the insurer in and to every species of property shall be vested in the converted insurer without any deed or transfer and the converted insurer shall succeed to all the obligations and liabilities of the insurer.

(3) In exchange for all membership interests in the company, such plan shall give each eligible policyholder appropriate consideration. Said consideration shall be determinable under a fair and reasonable formula approved by the commissioner, and shall be based upon the insurer's entire surplus as shown by the insurer's financial statement most recently filed with the commissioner pursuant to section twenty-five, including all voluntary reserves but excluding contingently repayable funds and outstanding guaranty capital shares at the redemption value thereof, and without taking into account the value of nonadmitted assets or insurance business in force.

(4) Such plan shall give each eligible policyholder a preemptive right to acquire his proportionate part of all of the proposed capital stock of the insurer or of the proposed parent corporation or other corporation within a designated reasonable period, and to apply upon the purchase thereof the amount of his consideration, as determined under paragraph (3), except that the plan may provide that a policyholder may not purchase or receive stock pursuant to this section if it has an aggregate subscription price of two thousand dollars or less and that such preemptive right will not apply to policyholders who reside in jurisdictions in which the issuance of stock is impossible, would involve unreasonable delay or would require the insurer to incur unreasonable costs; provided, however, that any such policyholder shall receive his consideration in cash; and, provided further, in the instance of a plan of reorganization in which the appropriate consideration received by eligible policyholders under paragraph (3) is stock of a corporation in a transaction authorized under this section, or other consideration as approved by the commissioner or, without limiting the generality of the foregoing, as permitted under this paragraph (4) the plan shall provide either (i) that no policyholder shall have any preemptive right to acquire any of the proposed capital stock of the insurer or of the proposed parent or other corporation or (ii) for preemptive rights on such other terms as approved by the commissioner. Notwithstanding the above, the commissioner retains the full authority to disapprove such plan in accordance with the provisions of paragraph (1).

(5) The policyholder eligible to participate in the distribution of consideration and to purchase stock shall be the person whose name appears on the conversion date on the insurer's records as owner of a policy under which there is a right to vote and which, on both the December thirty-first immediately preceding the conversion date and the date the insurer's board of directors first votes to convert to stock form, is in full force for its full basic benefits with no unpaid premium or consideration at the expiration of any applicable grace period, or which is being continued under a nonforfeiture benefit and continues to be eligible for participation in the insurer's annual distribution of divisible surplus.

(6) Shares are to be offered to policyholders at a price not greater than to be thereafter offered under the plan to others.

(7) Such plan shall provide for payment to each policyholder of consideration which may consist of cash, securities, a certificate of contribution, additional life insurance or annuity benefits, increased dividends or other consideration or any combination of such forms of consideration.

(8) Such plan, when completed, shall provide for the converted insurer's paid-in capital stock to be in an amount not less than the minimum paid-in capital stock and the net cash surplus required of a new domestic stock insurer upon initial authorization to transact like kinds of insurance.

(9) The commissioner shall find that the insurer's management has not, through reduction in volume of new business written, or cancellation or through any other means sought to reduce, limit or affect the number or identity of the insurer's policyholders to be entitled to participate in such plan or to otherwise secure for the individuals comprising management any unfair advantage through such plan.

Nothing in this section shall be deemed to prohibit the inclusion in the conversion plan of provisions under which the individuals comprising the insurer's management and employee group shall be entitled to purchase for cash at the same price as offered to the insurer's policyholders, shares of stock not taken by policyholders on the preemptive offering to policyholders, in accordance with such reasonable classification of such individuals as may be included in the plan and approved by the commissioner.

The conversion plan may also include provisions restricting the ability of any person or persons acting in concert from directly or indirectly offering to acquire or acquiring the beneficial ownership of ten percent or more of any class of common stock of the converted insurer or the parent corporation or other corporation.

No director, officer, agent or employee of the insurer, or any other person, shall receive any fee, commission or other valuable consideration whatsoever, other than their usual regular salaries and compensation, for in any manner aiding, promoting or assisting in such conversion, except as set forth in the plan approved by the commissioner. This provision shall not be deemed to prohibit the payment of reasonable fees and compensation to attorneys at law, accountants and actuaries for services performed in the independent practice of their professions, even though also directors of the insurer.

For the purposes of determining whether a conversion plan meets the requirements of this section and any other relevant provisions of this chapter, the commissioner may employ staff personnel and outside consultants. All reasonable costs related to the review of a plan of conversion, including those costs attributable to the use of staff personnel, shall be borne by the insurer making the filing.

SECTION 15. The first paragraph of section 20 of said chapter 175, as appearing in the 1992 Official Edition, is hereby amended by adding the following two sentences:- Any contract of reinsurance other than life, made by any domestic company or by any company incorporated in a foreign country and having its principal office in the commonwealth, ceding more than seventy-five percent of its total outstanding risks, shall be subject to the written approval of the commissioner. No domestic life company shall reinsure its risks without the permission of the commissioner, but may reinsure parts of an individual risk not to exceed in any one company the amount retained by the company first writing the insurance.

SECTION 16. Said section 20 of said chapter 175, as so appearing, is hereby further amended by striking out the second paragraph.

SECTION 16A. Said section 20 of said chapter 175, as so appearing, is hereby further amended by striking out the sixth and seventh paragraphs.

SECTION 17. Said section 20 of said chapter 175, as so appearing, is hereby further amended by adding the following paragraph:-

A company and any officer or agent thereof effecting or acting in the negotiation of reinsurance in violation of this section shall severally be punished by a fine of five thousand dollars.

SECTION 18. Said chapter 175 is hereby further amended by inserting after section 20 the following section:-

Section 20A. (1) Credit for reinsurance shall be allowed a domestic ceding insurer as either an asset or a deduction from liability on account of reinsurance ceded only when the reinsurer meets the requirements of paragraph (A), (B), (C) or (D) or paragraph (E) of subsection two. If meeting the requirements of paragraph (C) or (D), the requirements of paragraph (F) shall also be met.

(A) Credit shall be allowed when the reinsurance is ceded to an assuming insurer which is licensed: (i) to issue policies in the commonwealth covering risks of the same kinds as those reinsured, or (ii) to reinsure in the commonwealth risks of the same kinds as those reinsured.

(B) Credit shall be allowed when the reinsurance is ceded to an assuming insurer which is accredited as a reinsurer in this commonwealth. An accredited reinsurer is one which:

(i) files with the commissioner evidence of its submission to this commonwealth's jurisdiction;

(ii) submits to the commonwealth's authority to examine its books and records;

(iii) is licensed to transact insurance or reinsurance in at least one state, or in the case of a United States branch of an alien assuming insurer is entered through and licensed to transact insurance or reinsurance in at least one state; and

(iv) files annually with the commissioner a copy of its annual statement filed with the insurance department of its state of domicile and a copy of its most recent audited financial statement; and either

(a) maintains a surplus as regards policyholders in an amount which is not less than twenty million dollars and whose accreditation has not been denied by the commissioner within ninety days of its submission; or

(b) maintains a surplus as regards policyholders in an amount less than twenty million dollars and whose accreditation has been approved by the commissioner.

No credit shall be allowed a domestic ceding insurer, if the assuming insurers' accreditation has been revoked by the commissioner after notice and hearing.

(C) Credit shall be allowed when the reinsurance is ceded to an assuming insurer which is domiciled and licensed in, or in the case of a United States branch of an alien assuming insurer is entered through, a state which employs standards regarding credit for reinsurance substantially similar to those applicable under this section and the assuming insurer or United States branch of an alien assuming insurer:

(i) maintains a surplus as regards policyholders in an amount not less than twenty million dollars; and (ii) submits to the authority of the commonwealth to examine its books and records; provided, however, that the requirement of clause (i) of paragraph (C) does not apply to reinsurance ceded and assumed pursuant to pooling arrangements among insurers in the same holding company system.

(D) (i) Credit shall be allowed when the reinsurance is ceded to an assuming insurer which maintains a trust fund in a qualified United States financial institution, as defined in paragraph (B), for the payment of the valid claims of its United States policyholders and ceding insurers, their assigns and successors in interest. The assuming insurer shall report annually to the commissioner information substantially the same as that required to be reported on the National Association of Insurance Commissioners Annual Statement form by licensed insurers to enable the commissioner to determine the sufficiency of the trust fund. In the case of a single assuming insurer, the trust shall consist of a trusteed account representing the assuming insurer's liabilities attributable to business written in the United States and, in addition, the assuming insurer shall maintain a trusteed surplus of not less than fifty million dollars. In the case of a group of individual unincorporated underwriters, the trust shall consist of a trusteed account representing the group's liabilities attributable to business written in the United States and, in addition, the group shall maintain a trusteed surplus of which one hundred million dollars shall be held jointly for the benefit of United States ceding insurers of any member of the group; and the group shall make available to the commissioner an annual certification of the solvency of each underwriter by the group's domiciliary regulator and its independent public accountants.

(ii) In the case of a group of incorporated insurers under common administration which complies with the filing requirements contained in the previous subparagraph, and which has continuously transacted an insurance business outside the United States for at least three years immediately prior to making application for accreditation; and submits to the commonwealth's authority to examine its books and records and bears the expense of the examination, and which has aggregate policyholders' surplus of ten billion dollars; the trust shall be in an amount equal to the group's several liabilities attributable to business ceded by United States ceding insurers to any member of the group pursuant to reinsurance contracts issued in the name of such group; plus the group shall maintain a joint trusteed surplus of which one hundred million dollars shall be held jointly for the benefit of United States ceding insurers of any member of the group as additional security for any such liabilities, and each member of the group shall make available to the commissioner an annual certification of the member's solvency by the member's domiciliary regulator and its independent public accountant.

(iii) Such trust shall be established in a form approved by the commissioner. The trust instrument shall provide that contested claims shall be valid and enforceable upon the final order of any court of competent jurisdiction in the United States. The trust shall vest legal title to its assets in the trustees of the trust for its United States policyholders and ceding insurers, their assigns and successors in interest. The trust and the assuming insurer shall be subject to examination as determined by the commissioner. The trust described herein must remain in effect for as long as the assuming insurer shall have outstanding obligations due under the reinsurance agreements subject to the trust.

(iv) No later than February twenty-eighth of each year the trustees of the trust shall report to the commissioner in writing setting forth the balance of the trust and listing the trust's investments at the preceding year end and shall certify the date of termination of the trust, if so planned, or certify that the trust shall not expire prior to the next following December thirty-first.

(E) Credit shall be allowed when the reinsurance is ceded to an assuming insurer not meeting the requirements of paragraph (A), (B), (C) or (D) but only with respect to the insurance of risks located in jurisdictions where such reinsurance is required by applicable law or regulation of that jurisdiction.

(F) If the assuming insurer is not licensed or accredited to transact insurance or reinsurance in the commonwealth, the credit permitted by paragraphs (C) and (D) shall not be allowed unless the assuming insurer agrees in the reinsurance agreements:

(i) That in the event of the failure of the assuming insurer to perform its obligations under the terms of the reinsurance agreement, the assuming insurer, at the request of the ceding insurer, shall submit to the jurisdiction of an alternative dispute resolution panel or any court of competent jurisdiction in any state of the United States, will comply with all requirements necessary to give such panel or court jurisdiction, and will abide by the final decision of such panel or court or of any appellate court in the event of an appeal of a decision by such panel or court; and (ii) To designate the commissioner or a designated attorney as its true and lawful attorney upon whom may be served any lawful process in any

action, suit or proceeding instituted by or on behalf of the ceding company.

This provision is not intended to conflict with or override the obligation of the parties to a reinsurance agreement to arbitrate their disputes, if such an obligation is created in the agreement.

(2) A reduction from liability for the reinsurance ceded by a domestic insurer to an assuming insurer not meeting the requirements of subsection (1) shall be allowed in an amount not exceeding the related liabilities carried by the ceding insurer and such reduction shall be in the amount of funds held by or on behalf of the ceding insurer, including funds held in trust for the ceding insurer, under a reinsurance contract with such assuming insurer as security for the payment of obligations thereunder, if such security is held in the United States subject to withdrawal solely by, and under the exclusive control of, the ceding insurer; or in the case of a trust, held in a qualified United States financial institution, as defined in paragraph (B) of subsection (3). This security may be in the form of:

(A) Cash.

(B) Securities listed by the Securities Valuation Office of the National Association of Insurance Commissioners and qualifying as admitted assets.

(C) Clean, irrevocable, unconditional letters of credit, issued or confirmed by a qualified United States institution, as defined in paragraph (A) of subsection (3), no later than December thirty-first in respect of the year of which filing is being made, and in the possession of the ceding company on or before the filing date of its annual statement.

Letters of credit meeting applicable standards of issuer acceptability as for the dates of their issuance or confirmation shall, notwithstanding the issuing or confirming institution's subsequent failure to meet applicable standards of issuer acceptability, continue to be acceptable as security until their expiration, extension, renewal, modification or amendment, whichever first occurs.

(D) Any other form of security acceptable to the commissioner.

(3) (A) For purposes of paragraph (C) of subsection (2), a qualified United States financial institution means an institution that:

(i) is organized or, in the case of a United States office of a foreign banking organization, licensed under the laws of the United States or any state thereof; (ii) is regulated, supervised and examined by United States federal or state authorities having regulatory authority over banks and trust companies; and (iii) has been determined by either the commissioner or the Securities Valuation Office of the National Association of Insurance Commissioners to meet such standards of financial condition and standing as are considered necessary and appropriate to regulate the quality of financial institutions whose letters of credit will be acceptable to the commissioner.

(B) A qualified United States financial institution means, for purposes of those provisions of this section specifying those institutions that are eligible to act as a fiduciary of a trust, an institution that:

(i) is organized, or, in the case of a United States branch or agency office of a foreign banking organization, licensed, under the laws of the United States or any state thereof and has been granted authority to operate with fiduciary powers; and (ii) is regulated, supervised and examined by federal or state authorities having regulatory authority over banks and trust companies.

(4) No credit shall be allowed to any ceding insurer for reinsurance unless, by the terms of a written reinsurance agreement, the reinsurance is payable by the assuming insurer on the basis of the liability of the ceding insurer under any policy or contract reinsured without diminution because of the insolvency of the ceding insurer. Any reinsurance agreement may provide that the liquidator or receiver or statutory successor of an insolvent ceding insurer shall give written notice of the pendency of a claim against the insolvent ceding insurer on the policy or contract reinsured within a reasonable time after such claim is filed in the insolvency proceeding and during the pendency of such claim the assuming insurer may investigate such claim and interpose, at its own expense, in the proceedings where such claim is to be adjudicated any defense or defenses which it may deem available to the ceding company or its liquidator or receiver or statutory successor. Subject to court approval, the expense thus incurred by the assuming insurer shall be chargeable, against the insolvent ceding insurer as part of the expense of liquidation, to the extent of a proportionate share of the benefit which may accrue to the ceding insurer solely as a result of the defense undertaken by the assuming insurer.

(5) The commissioner may in accordance with the provisions of chapter thirty A, after notice and hearing, promulgate reasonable rules and regulations necessary to effectuate the provisions of this section, but such regulations shall not enlarge upon or extend the provisions of this section.

SECTION 19. Said chapter 175 is hereby further amended by striking out section 21, as appearing in the 1992 Official Edition, and inserting in place thereof the following section:-

Section 21. No company other than a life company shall insure in a single risk an amount larger than ten percent of its surplus to policyholders, unless it has reinsured, as provided in section twenty, the excess over said limit to take effect simultaneously with the original contract. A company violating this section shall be punished by a fine of five thousand dollars for each day during which such violation continues.

SECTION 20. Section 25 of said chapter 175, as so appearing, is hereby amended by striking out the second paragraph and inserting in place thereof the following paragraph:-

Such annual statement shall be made on the latest applicable form of annual statement approved by the National Association of Insurance Commissioners appropriate to the several kinds of companies, with any additional information the commissioner may require for filing with the National Association of Insurance Commissioners for the purpose of eliciting a complete and accurate exhibit of the condition and transactions of the companies. All financial information reflected in the annual statement shall be maintained

and prepared in accordance with accounting practices and procedures prescribed or permitted by the commissioner. The commissioner shall require that the annual statement be maintained and prepared in accordance with the Annual Statement Instructions and Accounting Practices and Procedures Manual adopted by the National Association of Insurance Commissioners unless further modified by the commissioner as he considers appropriate. The annual statement shall be subscribed and sworn to by its president and secretary or, in their absence, by two of its principal officers. The commissioner may at other times require any such statements as he may deem necessary.

SECTION 21. Said section 25 of said chapter 175, as so appearing, is hereby further amended by adding the following four paragraphs:-

Each domestic, foreign and alien insurer who is authorized to transact insurance in the commonwealth shall annually on or before March first, file with the National Association of Insurance Commissioners a copy of its annual statement convention blank, along with such additional filings as prescribed by the commissioner for the preceding year. The information filed with the National Association of Insurance Commissioners shall be in the same format and scope as that required by the commissioner and shall include the signed jurat page and the actuarial certification. Any amendment or addendum to the annual statement filing subsequently filed with the commissioner shall also be filed with the National Association of Insurance Commissioners. Foreign insurers that are domiciled in a state which has a law substantially similar to this section shall be deemed in compliance with this section.

In the absence of actual malice, members of the National Association of Insurance Commissioners, their duly authorized committees, subcommittees, and task forces, their delegates, National Association of Insurance Commissioners employees, and all others charged with the responsibility of collecting, reviewing, analyzing, and disseminating the information developed from the filings made pursuant to this section shall be acting as agents of the commissioner under the authority of this section and shall not be subject to civil liability for libel, slander, or any other cause of action by virtue of their collection, review, and analysis or dissemination of the data and information collected from the filings required under this section.

Notwithstanding any other provision of the General Laws, including clause Twenty-sixth of section seven of chapter four and chapter sixty-six, all financial analysis ratios and examination synopses concerning insurance companies that are submitted to the division by the National Association of Insurance Commissioners Insurance Regulatory Information System shall be confidential and shall not be disclosed by the commissioner.

The provisions of this section shall apply to all domestic, foreign and alien insurers who are authorized to transact business in the commonwealth.

SECTION 22. Section 26 of said chapter 175, as so appearing, is hereby amended by inserting after the word "statement", in line 2, the following words:- or the materials required by the commissioner to be filed with the National Association of Insurance Commissioners under the provisions of section twenty-five.

SECTION 24. Said section 48 of said chapter 175, as so appearing, is hereby further amended by striking out the third paragraph and inserting in place thereof the following eight paragraphs:-

Companies organized under this section shall have and shall maintain capital and surplus as set forth below; provided, however, the combined capital and surplus amount for any company subject to the provisions of this section, transacting a single line of insurance business, shall not be less than one million two hundred thousand dollars.

Capital shall be computed as follows:

(a) Under the first and eighth, fourth, fifth, except as otherwise provided herein, eighth, ninth, tenth or twelfth clauses, not less than two hundred thousand dollars.

The commissioner may establish, by rule, regulation or guideline, a procedure which will require a company subject to the provisions of this section to increase its capital and surplus amounts over a specified period of time, not to exceed five years, until the required statutory minimums established by this section, or higher levels as ordered by the commissioner, are met.

Said domestic insurer will be entitled to like certificates and licenses to transact business in this state, and shall be subject to the authority and jurisdiction of the commonwealth.

Any domestic insurer may, upon the approval of the commissioner, transfer its domicile to any other state in which it is admitted to transact the business of insurance, and upon such a transfer shall cease to be a domestic insurer, and shall be admitted to the commonwealth, if qualified, as a foreign insurer. Said commissioner shall approve any such proposed transfer unless he shall determine such transfer is not in the interest of the policyholders of the commonwealth.

The certificate of authority, agents' appointments and licenses, rates and other items which the commissioner of insurance allows, in his discretion, which are in existence at the time an insurer licensed to transact the business of insurance in the commonwealth transfers its corporate domicile to this or any other state by merger, consolidation or any other lawful method shall continue in full force and effect upon such transfer if such insurer remains duly qualified to transact the business of insurance in the commonwealth. All outstanding policies of a transferring insurer shall remain in full force and effect and need not be endorsed as to the new name of the company or its new location unless so ordered by said commissioner. Every transferring insurer shall file new policy forms with said commissioner on or before the effective date of the transfer, but may use existing policy forms with appropriate endorsements if allowed by, and under such conditions as approved by, said commissioner. Every such transferring insurer shall notify said commissioner of the details of the proposed transfer, and shall file promptly any resulting amendments to corporate documents filed or required to be filed with the commissioner.

Said commissioner may promulgate rules and regulations necessary to carry out the purposes of this section.

(2) No domestic insurer shall directly or indirectly acquire any medium grade or lower grade obligations of any institution if, after giving effect to any such acquisition, the aggregate amount of all medium grade and lower grade obligations then held by the domestic insurer would exceed twenty percent of its admitted assets provided that: no more than ten percent of its admitted assets consists of obligations rated four, five or six by the securities valuation office; and no more than three percent of its admitted assets consists of obligations rated five or six by the securities valuation office, and no more than one percent of its admitted assets consists of obligations rated six by the securities valuation office. Attaining or exceeding the limit of any one category shall not preclude an insurer from acquiring obligations in other categories subject to the specific and multi-category limits.

(3) No domestic insurer may invest more than an aggregate of one percent of its admitted assets in medium grade obligations issued, guaranteed or insured by any one institution nor may it invest more than one-half of one percent of its admitted assets in lower grade obligations issued, guaranteed or insured by any one institution. In no event, however,

may a domestic insurer invest more than one percent of its admitted assets in any medium or lower grade obligations issued, guaranteed or insured by any one institution.

(4) Nothing contained in this section shall prohibit a domestic insurer from acquiring any obligations which it has committed to acquire if the insurer would have been permitted to acquire that obligation pursuant to this section on the date on which such insurer committed to purchase that obligation.

(5) Notwithstanding the foregoing, a domestic insurer may acquire a medium or lower grade obligation of an institution in which the insurer already has one or more medium or lower grade obligations, if the medium or lower grade obligation is acquired in order to protect an investment previously made in the obligations of the institution, provided that all such acquired medium or lower grade obligations of the institution made under the provisions of this paragraph shall not exceed one-half of one percent of the insurer's admitted assets.

(6) Nothing contained in this section shall prohibit a domestic insurer from acquiring an obligation as a result of a restructuring of a medium or lower grade obligation already held.

(7) Nothing contained in this section shall require a domestic insurer to sell or otherwise dispose of any obligation legally acquired prior to the effective date of this section.

(8) The board of directors of any domestic insurance company which acquires or invests, directly or indirectly, more than two percent of its admitted assets in medium grade and lower grade obligations of any institution, shall adopt a written plan for the making of such investments. The plan, in addition to guidelines with respect to the quality of the issues invested in, shall contain diversification standards including, but not limited to, standards for issuer, industry, duration, liquidity and geographic location.

(9) Notwithstanding any other provision of this section the commissioner may approve a protective investment that causes the insurer to exceed any limitation contained in this section if the insurer shows to the satisfaction of the commissioner that such investment is not prejudicial to the interests of policyholders.

SECTION 29. The first paragraph of section 66 of said chapter 175, as appearing in the 1992 Official Edition, is hereby amended by striking out the second sentence and inserting in place thereof the following sentence:- No domestic life insurance company shall invest in, acquire or hold directly or indirectly more than twenty-five percent of the capital stock of any corporation other than other insurance companies, or except as otherwise provided in sections sixty-six C, sixty-six D and two hundred and six A; nor, except for investments in the capital stock or other insurance companies and except for investments under section sixty-six C and section two hundred and six A, shall more than two percent of its assets be invested in the capital stock of any one corporation, other than in insurance companies as provided in this section, without the approval of the commissioner, and such approval shall be granted only if after making such investment such life company's surplus and its asset valuation reserve shall be reasonable in relation to its outstanding liabilities and adequate to its financial needs.

SECTION 30. Said section 66 of said chapter 175, as so appearing, is hereby further amended by striking out the fourth paragraph and inserting in place thereof the following paragraph:-

(9) if the contract provides that the controlling broker, on insurance business placed with the insurer, is to be compensated contingent upon the insurer's profits on that business, then such compensations shall not be determined and paid until at least five years after the premiums on liability insurance are earned and at least one year after the premiums are earned on any other insurance. In no event shall the commissions be paid until the adequacy of the controlled insurer's reserves on remaining claims has been independently verified pursuant to paragraph (1) of subsection D;

(C) Every controlled insurer shall have an audit committee of the board of directors composed of independent directors. The audit committee shall annually meet with management, the insurer's independent certified public accountants, and an independent casualty actuary or other independent loss reserve specialist acceptable to the commissioner to review the adequacy of the insurer's loss reserves.

(2) The controlled insurer shall annually report to the commissioner the amount of commissions paid to the broker, the percentage such amount represents of the net premiums written and comparable amounts and percentage paid to noncontrolling brokers for placements of the same kinds of insurance.

Section 174J. The broker, at the time or before an application is taken for the policy, shall deliver a separate written notice to the prospective insured disclosing the relationship between the broker and the controlled insurer; except that if the business is placed through a subbroker who is not a controlling broker, the controlling broker shall retain in his records a signed statement from the subbroker that the subbroker is aware of the relationship between the insurer and the broker and that the subbroker has notified the prospective insured of the relationship by separate written notice at or before the time application was taken.

(2) is regulated, supervised and examined by United States federal or state authorities having regulatory authority over banks and trust companies; and

(3) has been determined by either the commissioner, or the Securities Valuation Office of the National Association of Insurance Commissioners, to meet such standards of financial condition and standing as are considered necessary and appropriate to regulate the quality of financial institutions whose letters of credit will be acceptable to the commissioner.

Section 177 O. (A) No person, either directly or as a member or employee of a firm or association, or an officer, director or employee of a corporation, firm, association or corporation shall act as a reinsurance intermediary broker in this commonwealth, if the reinsurance intermediary broker maintains an office:

(1) in the commonwealth, unless such reinsurance intermediary broker is a licensed producer in the commonwealth; or

(2) in another state, unless such reinsurance intermediary broker is a licensed producer in the commonwealth or another state having a law substantially similar to this law or such reinsurance intermediary broker is licensed in the commonwealth as a nonresident reinsurance intermediary.

(B) No person, either directly or as a member or employee of a firm or association, or an officer, director or employee of a corporation, firm, association or corporation shall act as a reinsurance intermediary manager:

(1) for a reinsurer domiciled in this commonwealth, unless such reinsurance intermediary manager is a licensed producer in the commonwealth; or

(2) in the commonwealth, if the reinsurance intermediary manager maintains an office in the commonwealth, unless such reinsurance intermediary manager is a licensed producer in the commonwealth; or

(3) in another state for a nondomestic insurer, unless such reinsurance intermediary manager is a licensed producer in the commonwealth or another state having a law substantially similar to sections one hundred and seventy-seven M to one hundred and seventy-seven W, inclusive, or such person is licensed in the commonwealth as a nonresident reinsurance intermediary.

(C) The commissioner may require a reinsurance intermediary manager subject to subsection B to:

(1) file a bond in an amount from an insurer acceptable to the commissioner for the protection of the reinsurer; and

(2) maintain an errors and omissions policy in an amount acceptable to the commissioner.

(D) (1) The commissioner may, upon payment of a fee prescribed pursuant to section fourteen, issue a reinsurance intermediary license to any individual, firm, association or corporation who meets the requirements of sections one hundred and seventy-seven M to one hundred and seventy-seven W, inclusive. Each applicant for a license to act as a reinsurance intermediary must have been licensed as an insurance agent or broker for the lines for which he intends to transact business as a reinsurance intermediary for a period of at least three years prior to applying for such license. Each applicant for a license shall file with the commissioner a written application upon a form prescribed by the commissioner which shall be executed under oath by the applicant and kept on file by the commissioner.

The application shall state the name, age, residence, and occupation of the applicant at the time of application, his residence, occupation and all business affiliations for the ten years preceding the date of the application, and such other information as the commissioner may require. The applicant shall take a written examination prepared and administered by the commissioner or an independent testing service designated by the commissioner, who shall fix a passing grade for such examination. If the commissioner is satisfied that the applicant is trustworthy, suitable and competent, and intends to carry on business in good faith as a reinsurance intermediary, the commissioner shall issue a license which shall expire three years from the date of issue, unless sooner revoked or suspended. At the discretion of the commissioner, and upon submission of an application and payment of a fee prescribed pursuant to section fourteen, the license may be renewed for successive three year periods.

The commissioner may at any time, for cause shown and after a hearing, revoke the license or suspend it for a period not exceeding the unexpired term thereof and may, for cause shown, revoke the license while so suspended. Notice of hearing shall be given to the licensee in the manner prescribed by section one hundred and seventy-four A. The commissioner shall notify the licensee in writing of any suspension or revocation as he deems necessary. Whoever acts as a reinsurance intermediary without a license shall be punished by a fine of not less than one thousand dollars for each violation of any provisions of sections one hundred and seventy-seven N to one hundred and seventy-seven W, inclusive, or by imprisonment of not more than six months or both.

A license to act as a reinsurance intermediary may be issued to a partnership, firm, association or corporation so long as each person named to do business on the license is individually qualified as a reinsurance intermediary. Said license will be issued for a one year period upon payment of a fee prescribed pursuant to section fourteen. A license issued to a partnership, firm or association may authorize all its members and any designated employees to act as reinsurance intermediaries under the license. Any such license issued to a corporation may authorize all of the officers, and any designated employees and directors thereof to act as reinsurance intermediaries on behalf of such corporation.

(2) If the applicant for a reinsurance intermediary license is a nonresident, such applicant, as a condition precedent to receiving or holding a license, shall designate the commissioner as agent for service of process in the manner, and with the same legal effect, provided for by chapter one hundred and seventy-five B for designation of service of process upon unauthorized insurers; and also shall furnish the commissioner with the name and address of a resident of the commonwealth upon whom notices or orders of the commissioner or process affecting such nonresident reinsurance intermediary may be served. Such licensee shall promptly notify the commissioner in writing of every change in its designated agent for service of process, and such change shall not become effective until acknowledged by the commissioner.

(E) The commissioner may deny an application for a license to act as a reinsurance intermediary if, in his judgment, the applicant, any one named on a partnership, firm or association application, or any member, principal, officer or director of an applicant, is not trustworthy, suitable or competent, or any controlling person of such applicant is not trustworthy, suitable or competent to act as a reinsurance intermediary, or if a license to act as a reinsurance intermediary issued to any of the foregoing has been revoked, suspended or is the subject of an order to show cause in another jurisdiction.

At least thirty days before such reinsurer assumes or cedes business through the reinsurance intermediary manager, a true copy of the approved contract shall be filed with the commissioner. The contract shall, at a minimum, provide that:

SECTION 50. Section one hundred and ninety-three Q of said chapter one hundred and seventy-five is hereby repealed.

"Affiliate", an affiliate of, or person affiliated with, a specific person, is a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the person specified.

"Commissioner", the insurance commissioner, his deputies, or the division of insurance, as appropriate.

"Control", including controlling, controlled by and under common control with, the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract other than a commercial contract for goods or non-management services, or otherwise, unless the power is the result of an official position with or corporate office held by the person. Control shall be presumed to exist if any person, directly or indirectly, owns, controls, holds with the power to vote, or holds proxies representing, ten percent or more of the voting securities of any other person. This presumption may be rebutted by a showing made in the manner provided by section two hundred and six D that control does not exist in fact. The commissioner may determine, after furnishing all persons in interest notice and opportunity to be heard and making specific findings of fact to support such determination, that control exists in fact, notwithstanding the absence of a presumption to that effect.

"Insurance holding company system", an insurance holding company system consists of two or more affiliated persons, one or more of which is an insurer.

"Insurer", shall have the same meaning as set forth in section one and, in no event, shall include: (1) agencies, authorities or instrumentalities of the United States, its possessions and territories, the Commonwealth of Puerto Rico, the District of Columbia, or a state or political subdivision of a state; (2) fraternal benefit societies under chapter one hundred and seventy-six or (3) nonprofit medical and hospital service associations under chapters one hundred and seventy-six A and one hundred and seventy-six B.

"Securityholder", a securityholder of a specified person is one who owns any security of such person, including common stock, preferred stock, debt obligations and any other security convertible into or evidencing the right to acquire any of the foregoing.

"Subsidiary", a subsidiary of a specified person is an affiliate controlled by such person directly or indirectly through one or more intermediaries.

"Voting security", shall include any security convertible into or evidencing a right to acquire a voting security.

Section 206A. (a) In addition to capital stock investments authorized or permitted elsewhere in this chapter, and provided that the insurer has satisfied the requirements of section sixty-three applicable to the insurer, any domestic insurer, either by itself or in cooperation with one or more persons, may organize, or acquire, or invest in the capital stock of one or more subsidiaries engaged in one or more of the following kinds of business:

(1) any kind of insurance business authorized by the jurisdiction in which it is incorporated;

(2) acting as an insurance broker or as an insurance agent for its parent or for any of its parent's insurer subsidiaries;

(5) acting as a trustee, transfer agent, custodian, or fiduciary;

(6) any business which the insurer can do directly pursuant to section forty-seven A;

(7) a corporation providing sales, administrative, custody, management, or investment advisory services to investors;

(8) a corporation providing sales, administrative, custody, management, or investment advisory services to investment companies, other insurance companies, other financial institutions, governments, government agencies, corporations, other organizations, individuals or groups;

(10) a corporation providing financial consulting or financial planning services;

(11) a corporation providing services related to the operations of an insurance business including, but not limited to: actuarial, accounting, administrative, claims, communications, appraisal and collection, data processing, loss prevention, management,

marketing, telemarketing, underwriting, safety engineering services, or acting as an administrative agent for a governmental instrumentality which is performing insurance functions or is responsible for a health, retirement or welfare program;

(12) ownership or management of assets which the parent insurer itself could own or manage;

(13) a company engaged in premium financing, factoring or any general financing business;

(14) any other business activity determined by the commissioner to be supplementary or complementary to the business of a domestic insurance company; or

(15) owning a corporation or corporations engaged or organized to engage in one or more of the businesses permitted under this chapter.

(b) In addition to investments in capital stock authorized or permitted under all other sections, provided that the insurer has satisfied the requirements of section sixty-three applicable to the insurer, a domestic insurer may also:

(1) invest in capital stock of one or more subsidiaries of the type authorized in this chapter, additional amounts which do not exceed the lesser of ten percent of such insurer's assets or fifty percent of such insurer's surplus as regards policyholders, provided that after such investments, the insurer's surplus as regards policyholders will be reasonable in relation to the insurer's outstanding liabilities and adequate to its financial needs. In calculating the amount of such investments, investment in the capital stock of domestic or foreign insurance subsidiaries shall be excluded, and there shall be included:

(i) total net monies or other consideration expended and obligations assumed in the acquisition or formation of noninsurer subsidiaries, including all organizational expenses and contributions to capital and surplus of such noninsurance subsidiaries; and (ii) all amounts expended in acquiring additional capital stock and all contributions to the capital or surplus of noninsurance subsidiaries subsequent to their acquisition or formation;

(2) Invest any amount in capital stock of one or more subsidiaries engaged or organized to engage exclusively in the ownership and management of assets authorized as investments for the insurer, however, provided that each such subsidiary limits its investments in any asset so that such investment in such assets pursuant to this clause will not cause the amount of the total investment of the insurer to exceed the applicable investment limitation contained in the section under which such investment would otherwise be held by the insurer pursuant to the applicable provisions of sections sixty-three to sixty-six E, inclusive, subsection (a) of section two hundred and six A and paragraph (1) of subsection (b) of section two hundred and six A. For purposes of this clause the total investment of the insurer shall include:

(i) any direct investment by the insurer in an asset, and (ii) the insurer's proportionate share of any investment in an asset by any subsidiary of the insurer formed or acquired pursuant to this clause, which proportionate share shall be calculated by multiplying the amount of such subsidiary's investment in such asset by the percentage of the capital stock of such subsidiary owned by the insurer;

(3) With the approval of the commissioner, invest any greater amount in capital stock of one or more subsidiaries of the types authorized for investment by this chapter, provided that after such investment the insurer's surplus as regards policyholders and its asset valuation reserve are reasonable in relation to the insurer's outstanding liabilities and adequate to its financial needs.

(c) Whether any investment pursuant to subsection (b) meets the applicable requirements thereof is to be determined before such investment is made, by calculating the applicable investment limitations as though the investment had already been made, taking into account the value of all previous investments in capital stock of subsidiaries acquired subject to the limitations of said subsection (b) as of the day they were made, net of any return of capital invested, not including dividends.

(d) If an insurer ceases to control a subsidiary, it shall dispose of the investment in the capital stock made pursuant to this section within three years from the time of the cessation of control or within such further time as the commissioner may prescribe, unless at any time after such investment shall have been made, such investment shall have met the requirements for investment under any other section of this chapter or is otherwise lawful, and the insurer has notified the commissioner thereof.

Section 206B. (a) No person other than the issuer shall make a tender offer for or a request or invitation for tenders of, or enter into any agreement to exchange securities or, seek to acquire, or acquire, in the open market or otherwise, any voting security of a domestic insurer if, after the consummation thereof, such person would, directly or indirectly, or by conversion or by exercise of any right to acquire, be in control of such insurer, and no person shall enter into an agreement to merge with or otherwise to acquire control of a domestic insurer or any person controlling a domestic insurer unless, at the time any such offer, request, or invitation is made or any such agreement is entered into, or prior to the acquisition of such securities if no offer or agreement is involved, such person has filed with the commissioner and has sent to such insurer, a statement containing the information required by this section and such offer, request, invitation, agreement or acquisition has been approved by the commissioner in the manner hereinafter prescribed.

(3) Fully audited financial information as to the earnings and financial condition of each acquiring party for the preceding five fiscal years of each such acquiring party or for such lesser period as such acquiring party and any predecessors thereof shall have been in existence, and similar unaudited information as of a date not earlier than ninety days prior to the filing of the statement.

(11) The term of any agreement, contract or understanding made with or proposed to be made with any broker-dealer as to solicitation of securities referred to in said subsection (a) for tender, and the amount of any fees, commissions or other compensation to be paid to broker-dealers with regard thereto.

If any such partner, member or person is a corporation or the person required to file the statement referred to in said subsection (a) is a corporation, the commissioner may require that the information called for by said clauses (1) to (12), inclusive, shall be given with respect to such corporation, each officer and director of such corporation, and each person who is directly or indirectly the beneficial owner of more than ten percent of the outstanding voting securities of such corporation. If any material change occurs in the facts set forth in the statement filed with the commissioner and sent to such insurer pursuant to this section, an amendment setting forth such change, together with copies of all documents and other material relevant to such change, shall be filed with the commissioner and sent to such insurer within two business days after the person learns of such change.

(c) If any offer, request, invitation, agreement or acquisition referred to in said subsection (a) is proposed to be made by means of a registration statement under the Securities Act of 1933, 15 USC, section 77, et seq., or in circumstances requiring the disclosure of similar information under the Securities Exchange Act of 1934, 15 USC, sections 78a to 78k, inclusive, or under a state law requiring similar registration or disclosure, the person required to file the statement referred to in said subsection (a) may utilize such documents in furnishing the information called for by that statement.

(d) (1) The commissioner shall approve any merger or other acquisition of control referred to in said subsection (a) unless, after a public hearing thereon, he finds that:

(i) after the change of control, the domestic insurer referred to in said subsection (a) would not be able to satisfy the requirements for the issuance of a license to write the line or lines of insurance for which it is presently licensed;

(ii) the effect of the merger or other acquisition of control would be substantially to lessen competition in insurance in this commonwealth or tend to create a monopoly therein;

(iii) the financial condition of any acquiring party is such as might jeopardize the financial stability of the insurer, or prejudice the interest of its policyholders;

(iv) the terms of the offer, request, invitation, agreement of acquisition referred to in said subsection (a) are unfair, and unreasonable to the policyholders of the insurer;

(v) the plans or proposals which the acquiring party has to liquidate the insurer, sell its assets or consolidate or merge it with any person, or to make any other material change in its business or corporate structure or management, are unfair and unreasonable to policyholders of the insurer and not in the public interest;

(vi) the competence, experience and integrity of those persons who would control the operation of the insurer are such that it would not be in the interest of policyholders of the insurer and of the public to permit the merger or other acquisition of control; or

(vii) the acquisition is likely to be hazardous or prejudicial to the insurance buying public.

(2) The public hearing referred to in clause (1) shall be held within thirty days after the statement required by said subsection (a) is filed, and at least twenty days notice thereof shall be given by the commissioner to the person filing the statement. Not less than seven days notice of such public hearing shall be given by the person filing the statement to the insurer and to such other persons as may be designated by the commissioner. The commissioner shall make a determination within thirty days after the conclusion of such hearing. At such hearing, the person filing the statement, the insurer, any person to whom notice of hearing was sent, and any other person whose interest may be affected thereby shall have the right to present evidence, examine and cross-examine witnesses, offer oral and written arguments in connection therewith, and shall be entitled to conduct discovery proceedings in the same manner as is presently allowed in the superior court department of the trial court. All discovery proceedings shall be concluded not later than three days prior to the commencement of the public hearing.

(3) The commissioner may retain at the acquiring person's expense any attorneys, actuaries, accountants and other experts not otherwise a part of the commissioner's staff as may be reasonably necessary to assist the commissioner in reviewing the proposed acquisition of control.

(4) The commissioner may condition the approval of the merger or other acquisition on the removal of the basis of disapproval within a specified period of time.

(e) The provisions of this section shall not apply to:

(1) Any transaction which is subject to the provisions of section nineteen A, nineteen B, one hundred and sixty-one A, one hundred and sixty-one B, one hundred and sixty-one C, one hundred and sixty-one D or one hundred and sixty-one E, dealing with the merger or consolidation of two or more insurers.

(2) Any offer, request, invitation, agreement or acquisition which the commissioner by order shall exempt therefrom as: (i) not having been made or entered into for the purpose and not having the effect of changing or influencing the control of a domestic insurer, or (ii) as otherwise not comprehended within the purposes of this section.

(f) The following shall be violations of this section:

(1) The failure to file any statement, amendment, or other material required to be filed pursuant to subsection (a) or (b); or (2) The effectuation or any attempt to effectuate an acquisition of control of, or merger with, a domestic insurer unless the commissioner has given his approval thereto.

(g) The courts of the commonwealth are hereby vested with jurisdiction over every person not resident, domiciled, or authorized to do business in the commonwealth who files a statement with the commissioner under this section, and over all actions involving such person arising out of violations of this section, and each such person shall be deemed to have performed acts equivalent to and constituting an appointment by such a person of the commissioner to be his true and lawful attorney upon whom may be served all lawful process in any action, suit or proceeding arising out of violations of this section. Copies of all such lawful process shall be served on the commissioner and transmitted by registered or certified mail by the commissioner to such person at his last known address.

Section 206C. (a) Every insurer which is authorized to do business in the commonwealth and which is a member of an insurance holding company system shall register with the commissioner, except a foreign insurer subject to registration requirements and standards adopted by statute or regulation in the jurisdiction of its domicile which are substantially similar to those contained in:

(1) subsection (a) to subsection (1), inclusive, (2) subsection (m), subsection (r), and subsection (t); and (3) either subsection (n) or a provision such as the following: Each registered insurer shall keep current the information required to be disclosed in its registration statement by reporting all material changes or additions within fifteen days after the end of the month in which it learns of each such change or addition, and provided the jurisdiction of its domicile grants a similar exemption to insurers domiciled in the commonwealth. Any insurer which is subject to registration under this section shall register within fifteen days after it becomes subject to registration, and annually thereafter by April thirtieth of each year for the previous calendar year, unless the commissioner for good cause shown extends the time for registration, and then within such extended time. The commissioner may require any insurer authorized to do business in the commonwealth which is a member of a holding company system, and which is not subject to registration under this section, to furnish a copy of the registration statement, the summary specified in subsection (c) or other information filed by such insurance company with the insurance regulatory authority of domiciliary jurisdiction.

(b) Every insurer subject to registration shall file the registration statement on a form prescribed by the commissioner which shall contain the following current information:

(1) the capital structure, general financial condition, ownership and management of the insurer and any person controlling the insurer;

(2) the identity and relationship of every member of the insurance holding company system;

(3) the following agreements in force, and transactions currently outstanding or which have occurred during the last calendar year between such insurer and its affiliates:

(i) loans, other investments, or purchases, sales or exchanges of securities of the affiliates by the insurer or of the insurer by its affiliates;

(ii) purchases, sales or exchange of assets;

(iii) transactions not in the ordinary course of business;

(iv) guarantees or undertakings for the benefit of an affiliate which result in an actual contingent exposure of the insurer's assets to liability, other than insurance contracts entered into in the ordinary course of the insurer's business;

(v) all management agreements, service contracts and all cost-sharing arrangements;

(vi) reinsurance agreements;

(vii) dividends and other distributions to shareholders; and

(viii) consolidated tax allocation agreements;

(4) any pledge of the insurer's stock, including stock of any subsidiary or controlling affiliate, for a loan made to any member of the insurance holding company system;

(5) other matters concerning transactions between registered insurers and any affiliates as may be included from time to time in any registration forms adopted or approved by the commissioner.

(c) All registration statements shall contain a summary outlining all items in the current registration statement representing changes from the prior registration statement.

(d) No information need be disclosed on the registration statement filed pursuant to subsection (b) if such information is not material for the purposes of this section. Unless the commissioner by rule, regulation or order provides otherwise; sales, purchases, exchanges, loans or extensions of credit, investments, or guarantees, any transaction involving one-half of one percent or less of an insurer's admitted assets as of the thirty-first day of December next preceding shall not be deemed material for purposes of this section.

(e) Subject to clause (1) of subsection (r), each domestic insurer shall report to the commissioner all dividends and other distributions to its shareholders within five business days following the declaration thereof and at least ten business days, commencing from the date of receipt by the commissioner, prior to the payment thereof. No domestic insurer shall pay any dividend or make any distribution to its shareholders from other than unassigned funds unless the commissioner shall have approved such dividend or distribution. For purposes of this subsection, the term unassigned funds shall have the same meaning as that term is used in the annual statement required to be filed with the commissioner under the provisions of section twenty-five.

(f) Any person within an insurance holding company system subject to registration shall be required to provide complete and accurate information to an insurer, where such information is reasonably necessary to enable the insurer to comply with the provisions of sections two hundred and six to two hundred and six D, inclusive.

(g) The commissioner shall terminate the registration of any insurer which demonstrates that it no longer is a member of an insurance holding company system.

(h) The commissioner may require or allow two or more affiliated insurers subject to registration hereunder to file a consolidated registration statement.

(i) The commissioner may allow an insurer which is authorized to do business in the commonwealth and which is part of an insurance holding company system to register on behalf of any affiliated insurer which is required to register under subsection (a) and to file all information and material required to be filed under this section.

(j) The provisions of this section shall not apply to any insurer, information or transaction if and to the extent that the commissioner by rule, regulation or order shall exempt the same from the provisions of the this section.

(k) Any person may file with the commissioner a disclaimer of affiliation with any authorized insurer or such a disclaimer may be filed by such insurer or any member of an insurance holding company system. The disclaimer shall fully disclose all material relationships and bases for affiliation between such person and such insurer as well as the basis for disclaiming such affiliation. After a disclaimer has been filed, the insurer shall be relieved of any duty to register or report under this section which may arise out of the insurer's relationship with such person unless and until the commissioner disallows such a disclaimer. The commissioner shall disallow such a disclaimer only after furnishing all parties in interest with notice and opportunity to be heard and after making specific findings of fact to support such disallowance.

(l) The failure to file a registration statement or any summary of the registration statement thereto required by this section within the time specified for such filing shall be a violation of this section.

(m) Transactions within a holding company system to which an insurer subject to registration is a party shall be subject to the following standards:

(1) the terms shall be fair and reasonable;

(2) charges or fees for services performed shall be reasonable;

(3) expenses incurred and payment received shall be allocated to the insurer in conformity with customary insurance accounting practices consistently applied;

(4) the books, accounts and records of each party to all such transactions shall be so maintained as to clearly and accurately disclose the nature and details of the transactions including such accounting information as is necessary to support the reasonableness of the charges or fees to the respective parties; and

(5) the insurer's surplus as regards policyholders following any dividends or distributions to shareholder affiliates shall be reasonable in relation to the insurer's outstanding liabilities and adequate to its financial needs.

(n) The following transactions involving a domestic insurer and any person in its holding company system may not be entered into unless the insurer has notified the commissioner in writing of its intention to enter into such transaction at least thirty days prior thereto, or such shorter period as the commissioner may permit, and the commissioner has not disapproved it within such period.

(1) sales, purchases, exchanges, loans or extensions of credit, guarantees, or investments provided such transactions are equal to or exceed: (a) with respect to non-life insurers, the lesser of three percent of the insurer's admitted assets or twenty-five percent of surplus as regards policyholders; (b) with respect to life insurers, three percent of the insurer's admitted assets: each as of the thirty-first day of December next preceding;

(2) loans or extensions of credit to any person who is not an affiliate, where the insurer makes such loans or extensions of credit with the agreement or understanding that the proceeds of such transactions, in whole or in substantial part, are to be used to make loans or extensions of credit to, to purchase assets of, or to make investments in, any affiliate of the insurer making such loans or extensions of credit provided such transactions are equal to or exceed: (a) with respect to non-life insurers, the lesser of three percent of the insurer's admitted assets or twenty-five percent of surplus as regards policyholders; (b) with respect to life insurers, three percent of the insurer's admitted assets: each as of the thirty-first day of December next preceding;

(3) reinsurance agreements or modifications thereto in which the reinsurance premium or a change in the insurer's liabilities equals or exceeds the lesser of three percent of the insurer's admitted assets or twenty-five percent of surplus as regards policyholders as of the thirty-first day of December next preceding, including those agreements which may require as consideration the transfer of assets from an insurer to a non-affiliate, if an agreement or understanding exists between the insurer and non-affiliate that any portion of such assets will be transferred to one or more affiliates of the insurer;

(4) all management agreements and service contracts, and all cost-sharing arrangements which are not based on generally accepted accounting principles pertaining to cost allocation, and all cost-sharing arrangements the transactions under which would be reportable as transactions with affiliates on the insurer's annual statement. The commissioner may exempt from the requirements of this subsection any management agreement, service contract, or cost-sharing arrangement;

(5) any material transactions, specified by regulation, which the commissioner determines may adversely affect the interests of the insurer's policyholders; or

(6) notifications shall be provided to the commissioner for transactions in clauses (1) to (5), inclusive, which increase or decrease the insurer's surplus as regards policyholders as of the thirty-first day of December next preceding by five percent or more. This notification shall accompany the next quarterly financial statement filing.

Nothing herein contained shall be deemed to authorize or permit any transactions which, in the case of an insurer not a member of the same holding company system, would be otherwise contrary to law.

(o) A domestic insurer may not enter into transactions which are part of a plan or series of like transactions with persons within the holding company system if the purpose of those separate transactions is to avoid the statutory threshold amount and thus avoid the review that would occur otherwise. If the commissioner determines that such separate transactions were entered into over any twelve month period for such purpose, he may exercise his authority under subsection (b) of section two hundred and six D.

(p) The commissioner, in reviewing transactions pursuant to subsections (m) and (n), shall consider whether the transactions comply with the standards set forth in said subsections (m) and (n) and whether they may adversely affect the interests of policyholders.

(q) The commissioner shall be notified within thirty days of any investment of the domestic insurer in any one corporation if the total investment in such corporation by the insurance holding company system exceeds ten percent of such corporation's voting securities.

(r) No domestic insurer shall pay any extraordinary dividend or make any other extraordinary distributions to its shareholders until (1) thirty days after the commissioner has received notice of the declaration thereof and has not within such period disapproved such payment, or (2) the commissioner shall have approved such payment within such thirty day period. For purposes of this section, an extraordinary dividend or distribution includes any dividend or distribution of cash or other property, whose fair market value together with other dividends or distributions made within the preceding twelve months exceeds the greater of (i) ten percent of such insurer's surplus as regards policyholders as of the thirty-first day of December next preceding, or (ii) the net gain from operations of the insurer if the insurer is a life insurance company, or the net income of the insurer if such insurer is not a life insurance company, for the twelve month period ending the thirty-first day of December next preceding, but shall not include pro rata distributions of any class of the insurer's own securities.

Notwithstanding any other provision of the General Laws, an insurer may declare an extraordinary dividend or distribution which is conditional on the commissioner's approval thereof, and such a declaration shall confer no rights upon shareholders until (1) the commissioner has approved the payment of such dividend or distribution or (2) the commissioner has not disapproved such payment within the thirty day period referred to above.

(s) (1) Notwithstanding the control of a domestic insurer by any person, the officers and directors of the insurer shall not thereby be relieved of any obligation or liability to which they would otherwise be subject by law, and the insurer shall be managed so as to assure its separate operating identity consistent with this chapter.

(2) Nothing herein shall preclude a domestic insurer from having or sharing a common management or cooperative or joint use of personnel, property or services with one or more other persons under arrangements meeting the standards of subsection (m) of section two hundred and six D.

(t) For purposes of sections two hundred and six to two hundred and six D, inclusive, in determining whether an insurer's surplus as regards policyholders is reasonable in relation to the insurer's outstanding liabilities and adequate to its financial needs, the following factors, among others, shall be considered:

(1) the size of the insurer as measured by its assets, capital and surplus, reserves, premium writings, insurance in force and other appropriate criteria;

(2) the extent to which the insurer's business is diversified among the several lines of insurance;

(3) the number and size of risks insured in each line of business;

(4) the extent of the geographical dispersion of the insurer's insured risks;

(5) the nature and extent of the insurer's reinsurance program;

(6) the quality, diversification and liquidity of the insurer's investment portfolio;

(7) the recent past and projected future trend in the size of the insurer's investment portfolio and surplus to policyholders;

(8) the surplus as regards policyholders maintained by other comparable insurers;

(9) the adequacy of the insurer's reserves;

(10) the quality and liquidity of investments in affiliates. The commissioner may treat any such investment as a disallowed asset for purposes of determining the adequacy of surplus as regards policyholders whenever in the judgment such investment so warrants; and

(11) the quality of the company's earnings and the extent to which the reported earnings include extraordinary items.

(u) (1) Subject to the limitation contained in this section and in addition to the powers which the commissioner has under section four relating to the examination of insurers, the commissioner shall also have the power to order any insurer registered under section two hundred and six C to produce such records, books, or other information papers in the possession of the insurer or its affiliates as are reasonably necessary to ascertain the financial condition of such insurer or to determine compliance with this chapter. In the event such insurer fails to comply with such order, the commissioner shall have the power to examine such affiliates to obtain such information.

(2) The commissioner may retain at the registered insurer's expense such attorneys, actuaries, accountants and other experts not otherwise a part of the commissioner's staff as shall be reasonably necessary to assist in the conduct of the examination under paragraph (1) of subsection (u). Any persons so retained shall be under the direction and control of the commissioner and shall act in a purely advisory capacity.

(3) Each registered insurer producing for examination records, books and papers pursuant to said paragraph (1) of said subsection (u) shall be liable for and shall pay the expense of such examination in accordance with section four.

(v) Notwithstanding any other provisions of the General Laws, including clause Twenty-sixth of section seven of chapter four and chapter sixty-six, all information, documents and copies thereof obtained by or disclosed to the commissioner or any other person in the course of an examination or investigation made pursuant to subsection (u) and

all information reported pursuant to section two hundred and six C, shall be given confidential treatment and shall not be subject to subpoena and shall not be made public by the commissioner, the National Association of Insurance Commissioners, or any other person, except to insurance departments of other states, without the prior written consent of the insurer to which it pertains unless the commissioner, after giving the insurer and its affiliates who would be affected thereby, notice and opportunity to be heard, determines that the interest of policyholders, shareholders or the public will be served by the publication thereof, in which event he may publish all or any part thereof in such manner as he may deem appropriate.

(w) The commissioner may, pursuant to chapter thirty A, upon notice and opportunity for all interested parties to be heard, issue such rules, regulations and orders as shall be necessary to carry out the provisions of sections two hundred and six to two hundred and six D, inclusive.

Section 206D. (a) (1) Whenever it appears to the commissioner that any insurer or any director, officer, employee or agent thereof has committed or is about to commit a violation of sections two hundred and six to two hundred and six D, inclusive or any rule, regulation or order issued by the commissioner thereunder, the commissioner may apply to the superior court department of the trial court for Suffolk county for an order enjoining such insurer or such director, officer, employee or agent thereof from violating or continuing to violate said sections two hundred and six to two hundred and six D, inclusive or any such rule, regulation or order, and for such other equitable relief as the nature of the case and the interest of the insurer's policyholders, creditors and shareholders or the public may require.

(2) No security which is the subject of any agreement or arrangement regarding acquisition, or which is acquired or to be acquired, in contravention of the provisions of sections two hundred and six to two hundred and six D, inclusive or of any rule, regulation or order issued by the commissioner thereunder may be voted at any shareholder's meeting, or may be counted for quorum purposes, and any action of shareholders requiring the affirmative vote of a percentage of shares may be taken as though such securities were not issued and outstanding; but no action taken at any such meeting shall be invalidated by the voting of such securities, unless the action would materially affect control of the insurer or unless the courts of this commonwealth have so ordered. If an insurer or the commissioner has reason to believe that any security of the insurer has been or is about to be acquired in contravention of the provisions of sections two hundred and six to two hundred and six D, inclusive or any rule, regulation or order issued by the commissioner thereunder; the insurer or the commissioner may apply to the superior court for the county in which the insurer has its principal place of business to enjoin any offer, request, invitation, agreement or acquisition made in contravention of section two hundred and six B or any rule, regulation or order issued by the commissioner thereunder to enjoin the voting of any security so acquired, to void any vote of such security already cast at any meeting of shareholders and for such other equitable relief as the nature of the case and the interest of the insurer's policyholders, creditor and shareholders or the public may require.

(3) In any case where a person has acquired or is proposing to acquire any voting securities in violation of sections two hundred and six to two hundred and six D, inclusive or any rule, regulation or order issued by the commissioner thereunder, the superior court department of the trial court for Suffolk county or the superior court department of the trial court for the county in which the insurer has its principal place of business may, on such notice as the court deems appropriate, upon the application of the insurer or the commissioner seize or sequester any voting securities of the insurer owned directly or indirectly by such person, and issue such order with respect thereto as may be appropriate to effectuate the provisions of sections two hundred and six to two hundred and six D, inclusive. Notwithstanding any other provisions of law, for the purposes of said sections two hundred and six to two hundred and six D, inclusive, the sites of the ownership of the securities of domestic insurers shall be deemed to be in the commonwealth.

(b) (1) Any insurer failing, without just cause, to file any registration statement as required in sections two hundred and six to two hundred and six D, inclusive, may be required, after notice and hearing, to pay a penalty of five hundred dollars for each day's delay. The maximum penalty under this section shall be ten thousand dollars. The commissioner may reduce the penalty if the insurer demonstrates to the commissioner that the imposition of the penalty would constitute a financial hardship to the insurer.

(2) Every director or officer of an insurance holding company system who knowingly violates, participates in, or assents to, or who knowingly shall permit any of the officers or agents of the insurer to engage in transactions or make investments which have not been properly reported or submitted pursuant to subsection (a), (n) or (r) of section two hundred and six C, or which violate any provisions of sections two hundred and six to two hundred and six D, inclusive, may if so determined by the commissioner, pay, in their individual capacity, a civil forfeiture of not more than five thousand dollars per violation, after notice and hearing before the commissioner. In determining the amount of the civil forfeiture, the commissioner shall take into account the appropriateness of the forfeiture with respect to the gravity of the violation, the history of previous violations, and such other matters as justice may require.

(3) Whenever it appears to the commissioner that any insurer subject to sections two hundred and six to two hundred and six E, inclusive or any director, officer, employee or agent thereof has engaged in any transaction or entered into a contract which is subject to subsections (m) to (w), inclusive, of section two hundred and six C and which would not have been approved had such approval been requested, the commissioner may order the insurer to cease and desist immediately any further activity under that transaction or contract. After notice and hearing the commissioner may also order the insurer to void any such contracts and restore the status quo if such action is in the best interest of the policyholders, creditors or the public.

(4) Whenever it appears to the commissioner that any insurer or any director, officer, employee or agent thereof has committed a willful violation of sections two hundred and six

to two hundred and six D, inclusive, the commissioner may report the facts to the attorney general or to the proper district attorneys. Any insurer which willfully violates any provision of sections two hundred and six to two hundred and six D, inclusive, may be fined not more than ten thousand dollars. Any individual who willfully violates any provision of said sections two hundred and six to two hundred and six D, inclusive, may be fined in his individual capacity not more than five thousand dollars per violation.

(5) Any officer, director, or employee of an insurance holding company system who willfully and knowingly subscribes to or makes or causes to be made any false statements or false reports or false filings with the intent to deceive the commissioner in the performance of his duties under sections two hundred and six to two hundred and six D, inclusive, upon conviction thereof, shall be imprisoned for not more than two years or fined five thousand dollars, or both such fine and imprisonment. Any fines imposed shall be paid by the officer, director, or employee in his individual capacity.

(c) Whenever it appears to the commissioner that any person has committed a violation of sections two hundred and six to two hundred and six D, inclusive, which so impairs the financial condition of a domestic insurer as to threaten insolvency or make the further transaction of business by it hazardous to its policyholders, creditors, shareholders or the public, then the commissioner may proceed as provided in sections six, one hundred and seventy-eight, one hundred and eighty L, and chapter one hundred and seventy-five J.

(d) (1) If an order for liquidation or rehabilitation of a domestic insurer has been entered, the receiver appointed under such order shall have a right to recover on behalf of the insurer, (i) from any parent corporation or holding company or person or affiliate who otherwise controlled the insurer, the amount of distributions, other than distributions of shares of the same class of stock, paid by the insurer on its capital stock, or (ii) any payment in the form of a bonus, termination settlement or extraordinary lump sum salary adjustment made by the insurer or its subsidiaries to a director, officer or employee, where the distribution or payment pursuant to (i) or (ii) is made at any time during the one year preceding the petition for liquidation, conservation or rehabilitation, as the case may be, subject to the limitations of paragraphs (2), (3) and (4).

(2) No such distribution shall be recoverable if the parent corporation or affiliate shows that when paid such distribution was lawful and reasonable, and that the insurer did not know and could not reasonably have known that such distribution might adversely affect the ability of the insurer to fulfill its contractual obligations.

(3) Any person who was a parent corporation or holding company or a person who otherwise controlled the insurer or affiliate at the time such distributions were paid shall be liable up to the amount of distributions or payments under paragraph (1) such person received. Any person who otherwise controlled the insurer at the time such distributions were declared shall be liable up to the amount of distributions he would have received if they had been paid immediately. If two or more persons are liable with respect to the same distributions, they shall be jointly and severally liable.

(4) The maximum amount recoverable under this subsection shall be the amount needed in excess of all other available assets of the impaired or insolvent insurer to pay the contractual obligations of the impaired or insolvent insurer and to reimburse any guaranty funds.

(5) To the extent that any person liable under paragraph (3) is insolvent or otherwise fails to pay claims due from it pursuant to said paragraph (3), its parent corporation or holding company or person who otherwise controlled the insurer or affiliate at the time the distribution was paid, shall be jointly and severally liable for any resulting deficiency in the amount recovered from such parent corporation or holding company or person who otherwise controlled it.

(e) Whenever it appears to the commissioner that any person has committed a violation of any provision of sections two hundred and six to two hundred and six D, inclusive, which makes the continued operation of an insurer contrary to the interests of policyholders or the public, the commissioner may, after giving notice and an opportunity to be heard, determine to suspend, revoke or refuse to renew such insurer's license or authority to do business in this commonwealth for such period as he finds is required for the protection of policyholders or the public. Any such determination shall be accompanied by specific findings of fact and conclusions of law.

(f) (1) Any person aggrieved by any act, determination, rule, regulation, or order or any other action of the commissioner pursuant to sections two hundred and six to two hundred and six D, inclusive, may appeal therefrom to the superior court department of the trial court for Suffolk county. The court shall conduct its review without a jury and by trial de novo, except that if all parties, including the commissioner, so stipulate, the review shall be confined to the record. Portions of the record may be introduced by stipulation into evidence in a trial de novo as to those parties so stipulating.

(2) The filing of an appeal pursuant to this subsection shall stay the application of any such rule, regulation, order or other action of the commissioner to the appealing party unless the court, after giving such party notice and an opportunity to be heard, determines that such a stay would be detrimental to the interest of policyholders, shareholders, creditors or the public.

(3) Any person aggrieved by any failure of the commissioner to act or make a determination required by sections two hundred and six to two hundred and six D, inclusive, may petition the superior court department of the trial court for Suffolk county for a writ in the nature of a mandamus or a peremptory mandamus directing the commissioner to act or make such determination forthwith.

Section 207. (a) As used in this section, the following words shall, unless the context clearly requires otherwise, have the following meanings:-

"Parent corporation", a corporation organized for any purpose under the law of the commonwealth or any other jurisdiction, owning directly or indirectly at least ninety percent of the aggregate issued and outstanding shares of all classes of capital stock of an incorporated domestic stock company.

"Subsidiary insurer", an incorporated domestic stock company so owned by a parent corporation.

(b) Any parent corporation may, in the manner hereinafter prescribed, acquire all of the issued and outstanding shares of any class or classes of capital stock of its subsidiary insurer not owned by the parent corporation. The method authorized by this section for acquiring shares of a subsidiary insurer is not exclusive, but is in addition to any other lawful method for the acquisition of such shares.

(c) The board of directors of the parent corporation which seeks to acquire minority interests in its subsidiary insurer shall adopt a plan for such acquisition, which plan shall set forth: (1) the name of the subsidiary insurer; (2) the total number of issued and outstanding shares of each class of stock of the subsidiary insurer, the number of its shares owned by the parent corporation and, if either of the foregoing is subject to change prior to the effective date of acquisition the manner in which any change may occur; (3) the terms and conditions of the plan, including the manner and basis of exchanging the shares to be acquired for shares or other securities of the parent corporation, for cash, other consideration, or any combination of the foregoing, and the proposed effective date of acquisition; (4) if the parent corporation is not authorized to do business in the commonwealth, its consent to the enforcement against it in the commonwealth of the rights of shareholders pursuant to the plan or the rights of shareholders objecting to the plan, and a designation of the commissioner as the agent upon whom process may be served against the parent corporation in any action or proceeding to enforce any such rights; and (5) such other provisions with respect to the plan as the board of directors of the parent corporation deems necessary or desirable, or as the commissioner may prescribe.

(d) Upon the adoption of the plan of acquisition, it shall be executed by the parent corporation under its corporate seal and submitted to the commissioner who shall, within sixty days from the date of such submission, endorse thereon his approval or disapproval and notify the parent corporation thereof. The commissioner in reviewing such plan of acquisition may employ such experts or consultants as he shall deem necessary. The reasonable costs of such experts and consultants are to be paid for by the parent corporation. The commissioner shall approve the plan if he is satisfied that it complies with this section and is not inconsistent with law. If the commissioner disapproves the plan he shall advise the parent corporation in writing of the reasons for such disapproval. No such plan shall take effect unless the approval of the commissioner has been obtained. Any refusal by the commissioner to give any approval required by this section shall be subject to judicial review.

(e) If the commissioner approves the plan, the parent corporation shall deliver a copy of the plan or a summary thereof approved by the commissioner, together with a statement of the rights of objecting shareholders in accordance with this section, to each person who, as of the date of delivery, is a holder of record of stock to be acquired pursuant to the plan. Such delivery shall be made either in person or by depositing a copy of the plan or the approved summary and statement of rights of objecting shareholders in the United States

mail, postage prepaid, addressed to the shareholder at his address of record. On or before the date of acquisition proposed in the plan, the parent corporation shall file with the commissioner a certificate executed by its president or vice-president and attested by its secretary or assistant secretary under the seal of the parent corporation, attesting to compliance with the provisions of this section by the parent corporation. In the event sections ninety-one to ninety-five, inclusive, of chapter one hundred and fifty-six B shall be applicable; provided, however, that a shareholder who makes demand as provided in this section shall be deemed to have consented to the provisions of section ninety-one of said chapter one hundred and fifty-six B relating to notice; and provided, further, that the words "proposed corporate action" for purposes of sections ninety-two and ninety-five of said chapter one hundred and fifty-six B the words shall mean adoption of the plan of acquisition by the parent corporation.

Section 6. (A) Except as provided in this section, and notwithstanding any other provision of the General Laws, including clause Twenty-sixth of section seven of chapter four and chapter sixty-six, all administrative and judicial proceedings arising under this chapter shall be held privately unless a public hearing is requested by the insurer, and all proceedings, hearings, notices, correspondence, reports, records and other information in the possession of the commissioner relating to the supervision of any insurer are confidential.

The insurer must demonstrate that the action taken or proposed to be taken by the terms of the order will not result in improving the condition of the insurer, or result in the protection of the insureds or the public in general. Said supreme judicial court for Suffolk county shall review the action complained of in a closed hearing and render its decision at the earliest possible date thereafter. The court may stay the implementation of any such order of the commissioner, pending its review of such order. Notwithstanding the foregoing, filing of a petition for review of such order shall not automatically stay the implementation of the order, or any of its provisions. Review of such order by said supreme judicial court for Suffolk county shall not be considered initiation of judicial proceedings for the purpose of section six of chapter one hundred and seventy-five.

Section 8. Nothing contained in this chapter shall preclude the commissioner from initiating judicial proceedings to place an insurer in rehabilitation or liquidation proceedings or other delinquency proceedings, however designated under the General Laws, regardless of whether the commissioner has previously initiated administrative supervision proceedings against the insurer.

ordinance, order, resolution or vote on the same day when the first reading is had by a two-thirds yea or nay vote. On the final passage of all such ordinances, orders, resolutions or votes, the vote shall be taken by roll call. All orders carrying appropriations and expenditures, or authorizing the borrowing of money, shall be in itemized form.

Section 22. Contracts in excess of three hundred dollars to be signed by mayor.

No contract made in behalf of the city involving an amount in excess of three hundred dollars shall be valid unless it receives the signature of the mayor. This provision shall not apply to any exercise of the police power or other power of the Commonwealth by any public officer or board so authorized by law.

Section 23. Bonds for performance of contracts; city council to have care and custody of public property.

The city council shall secure a just and proper accountability for the performance of all contracts or obligations entered into by the city by requiring bonds with sufficient penalties and sureties from all persons entrusted in behalf of the city with the receipt, custody or disbursement of money. The council shall have the care and superintendence of all public property of the city together with its custody and management, except as herein or by general law otherwise provided, with power to rent or sell what may legally be rented or sold, and to purchase property, real or personal in the name and for the use of the city whenever such purchase is deemed by the council to be necessary.

Section 24. Special meetings of city council.

Special meetings of the city council may be called at any time by the mayor upon mailing written notification of the same with a statement of the subject matter to be considered, to each member thereof, or by leaving such notice at the usual place of residence of each member at least forty-eight hours before the time appointed for the meeting.

Section 25. Mayor or Councilors not to hold other city offices.

Neither the mayor nor any member of the city council shall during the term for which he is elected hold any other office or position for which he is paid from the city treasury. No member of the city council shall appear as counsel or act as attorney before the city council or any committee thereof.

Section 26. Manner of vote by city council.

All elections by the city council under any provision of law shall be made by a viva voce vote, each member who is present answering to his name when it is called by the clerk or other proper officer, stating the name of the person for whom he votes or declining to vote as the case may be; and the clerk or other proper official shall record every such vote. No such election shall be valid unless it is made as aforesaid.

Section 27. Executive powers vested in mayor; general powers; suspension of certain officers.

The executive powers of the city shall be vested exclusively in the mayor, who shall enforce the laws and regulations of the city either personally or through the administrative officers and members of boards provided in this act, and shall be vigilant at all times regarding such enforcement; and he may, except as herein or by General Laws otherwise provided, suspend from the office by written order any officer appointed by him, whether

or not such appointment was made by confirmation of the city council, for any cause which he shall in his official discretion deem sufficient, which cause he shall assign in the order of suspension. Such suspension shall take effect upon the filing of the order therefor with the city clerk, and the serving of a copy thereof upon the officer thus suspended either personally or by leaving the same at his last or usual place of business, or residence. The suspension of any such officer shall, unless previously revoked by the mayor, create a vacancy in such office at the expiration of fifteen days after said order is filed with the city clerk, unless within that time the officer asks for a hearing before the city council, in which case a hearing shall forthwith be held. If, within one week after the conclusion of said hearing, the council by a two-thirds vote shall set aside the suspension, the officer shall be reinstated, otherwise he shall be held to be finally discharged from office, and the vacancy therein shall be filled forthwith.

Section 28. Mayor to preside at meetings of city council; appointment of committees. The mayor may preside at all meetings of the city council, and in his absence and in all cases where nominations of the mayor are to be acted upon by the city council, the president of the city council shall preside. The mayor shall appoint the committees of the city council.

Section 29. Mayor to communicate information to city council; records; secretary. The mayor shall communicate to the city council such information and shall recommend such measures as in his judgment the interests of the city require. He shall cause to be kept a record of all his official acts, and for this purpose and to assist him in his official duties he may, without the confirmation of the city council, appoint a secretary, define his duties and, subject to the approval of the city council, fix his salary.

Section 30. Estimates of income and expenses; budget; appropriations. The mayor shall require from all administrative officers and boards of the city having the expenditure of money, and it shall be the duty of such officers and boards to furnish forthwith in detail when so required, estimates for the next municipal year of the expenditures of the department or office under their charge. Within one hundred and twenty days after the annual organization of the city government, the mayor shall submit to the city council the annual budget which shall be a statement of the amounts recommended by him for anticipated income and proposed expenditures of the city for the next fiscal year. The annual budget shall be classified and designated so as to show separately with respect to each officer, department or undertaking for which an appropriation is recommended:-

(1) Ordinary maintenance, which shall also include debt and interest charges matured and maturing during the next fiscal year, and shall be subdivided as follows:-

(*a*) salaries and wages of officers, officials and employees other than laborers or persons performing the duties of laborers; and

(*b*) ordinary maintenance not included under clause (a); and

(2) Proposed expenditures for other than ordinary maintenance, including additional equipment the estimated cost of which exceeds one thousand dollars.

The foregoing shall not prevent any city, upon recommendation of the mayor and with the approval of the council, from adopting additional classifications and designations.

The city council may by majority vote make appropriations for the purposes recommended and may reduce or reject any amount recommended in the annual budget. It shall not increase any amount in or the total of the annual budget nor add thereto any amount for purposes not included therein except on recommendation of the mayor, and except as provided in section thirty-three of chapter forty-four of the General Laws. If the provisions of this sentence are accepted by vote of the city council with the approval of the mayor, in the case of the school budget or in the case of a regional school district assessment, the city council, on the recommendation of the school committee or on recommendation of a regional district school committee, may by a two-thirds vote increase the total amount appropriated for the support of the schools or for the regional district schools over that requested by the mayor; and provided, further, that no such increase shall be voted if it would render the total annual budget in excess of the property tax limitations set forth in section fifty-nine of chapter fifty-nine of the General Laws. Except as otherwise permitted by law, all amounts appropriated by the city council shall be for the purposes specified. In setting up an appropriation order or orders based on the annual budget, the council shall use, so far as possible, the same classifications required for the annual budget. If the council fails to take action with respect to any amount recommended in the annual budget, either by approving, reducing or rejecting the same, within forty-five days after the receipt of the budget, such amount shall without any action by the council become a part of the appropriations for the year, and be available for the purposes specified.

Section 31. City Council.

If in any year the general court does not act to grant an extension of the time wherein the municipal budget must be submitted, and, if, upon the expiration of one hundred and twenty days after the annual organization of the city government, the mayor shall not have submitted to the city council the annual budget for said year, the city council shall within thirty days upon its own initiative prepare the annual budget, and such preparation shall be subject to the same requirements as the mayor's annual budget, so far as apt.

Within fifteen days after such preparation of the annual budget, the city council shall proceed to act by voting thereon and all amounts so voted shall thereupon be valid appropriations for the purposes stated therein to the same extent as though based upon a mayor's annual budget, but subject, however, to such requirements, if any, as may be imposed by law.

If the council fails to take action with respect to any amount recommended in the budget, either by approving, reducing or rejecting the same, within fifteen days after such preparation, such amount shall, without further action by the council, become a part of the appropriations for the year, and be available for the purposes specified.

Nothing in this section shall prevent the city council, acting upon the written recommendation of the mayor, from voting appropriations, not in excess of the amount so recommended, either prior or subsequent to the passage of the annual budget.

The city council, may, and upon written request of at least ten registered voters shall, give notice of a public hearing to be held on the annual budget, prior to final action thereon, but not less than seven days after publication of such notice, in a newspaper having general circulation in the city. At the time and place so advertised, or at any time or place to which such public hearing may from time to time be adjourned, the city council shall hold a public hearing on the annual budget as submitted by the mayor, at which all interested persons shall be given an opportunity to be heard for or against the proposed expenditures or any item thereof.

Section 32. Council Responsibility for Budget.

In case of the failure of the mayor to transmit to the city council a written recommendation for an appropriation for any purpose not included in the annual budget, which is deemed necessary by the council, after having been so requested by vote thereof, said council, after the expiration of seven days from such vote, upon its own initiative may make such appropriation by a vote of at least two-thirds of its members, and shall in all cases clearly specify the amount to be expended for each particular purpose.

Section 33. Budget to Fund Salaries; Changes in Salaries.

The annual budget shall include sums sufficient to pay the salaries of officers and employees fixed by law or by ordinance. No ordinance providing for an increase in the salaries or wages of municipal officers or employees shall be enacted except by a two-thirds vote of the city council, nor unless it is to be operative for more than three months during the calendar year in which it is passed. No new position shall be created or increase in rate made by ordinance, vote or appointment during the financial year subsequent to the submission of the annual budget unless provision therefor has been made by means of a supplemental appropriation. No ordinance, vote or appointment creating a new position in any year in which a municipal election is held shall be valid and effective unless said ordinance, vote or appointment is operative for more than three months during said municipal election year.

Section 34. Transfer of Appropriation.

On recommendation of the mayor, the city council may, by majority vote, transfer any amount appropriated for other use of any department to another appropriation for the same department, but no transfer shall be made of any amount appropriated for the use of any department to the appropriation for any other department except by two readings and a two-thirds vote of the city council on recommendation of the mayor and with the written approval of the amount of such transfer by the department having control of the appropriation from which the transfer is proposed to be made. There shall be a lapse of one week between the two readings of such an order to transfer. No approval other than that expressly provided herein shall be required for any transfer under the provisions of this section.

Section 35. Duty of mayor as to legal instruments.

The mayor shall have the sole power to sign, seal, execute and deliver in behalf of

the city deeds and leases of land sold or leased by the city, and any other evidences in writing of transfers requiring the written assent of the city.

Section 36. Appointment of administrative officers and boards by mayor; appointment of city solicitor.

Except as herein otherwise provided, the mayor shall appoint, subject to the confirmation of the city council, all the administrative officers and members of the boards of the city. No appointment so made by the mayor shall be acted upon by the city council until the expiration of one week from the time when the appointment was transmitted to the council. The city solicitor shall annually be appointed by the mayor, in the manner provided in this section.

If the office of city clerk is vacant, or if a city clerk is unable to perform the duties required by law, the mayor shall appoint a temporary clerk to perform such duties.

If the office of city auditor, city treasurer, city collector of taxes or other officer having charge of a city department is vacant, or if any such officer, because of disability or absence, is unable to perform his duties, the mayor, without confirmation by the city council, any provision of a city charter notwithstanding, shall appoint a temporary officer to hold such office and exercise the power and perform the duties thereof until another is duly elected or appointed and has qualified according to law, or other officer who was disabled or incapacitated resumes his duties; but no such temporary officer shall be appointed under this section for a period longer than sixty days. Any such temporary officer shall be sworn and give bond for the faithful performance of his duties in accordance with the provisions of law applying to the officer whose place he fills, and if he fails to do so within ten days after his appointment the mayor shall rescind the appointment and appoint another.

Section 37. Powers and duties of administrative officers; records; employment of subordinate officers; appearance before city council; oaths.

The administrative officers of the city shall perform the duties by law and herein prescribed for them respectively, and such further duties not inconsistent with the nature of their respective offices as the city council may from time to time prescribe. All such officers shall keep a record of their official transactions, which records shall be open to public inspection. All officers or members of boards appointed by the mayor or elected by the city council shall be held to be administrative officers within the meaning of this act. Such officers and boards, whether now existing or hereafter established by the city council, may appoint, employ, discharge or remove all subordinate officers, employees, clerks or assistants in their respective departments, making record of such action for public inspection, and in case of discharge or removal the grounds therefor shall be a matter of record, and shall be subject, where the person removed or discharged is lawfully classified under the civil service rules, to the jurisdiction of the civil service commissioners. Administrative officers shall appear before the city council at the request of that body and give such information as may be required in relation to any official act done by them. All administrative officers shall be sworn to the faithful discharge of their respective duties, and certificates of their oaths shall be kept in the office of the city clerk.

Section 38. Committee to supervise erection, etc., of buildings; approval of school sites and plans for school buildings.

Whenever it shall become necessary to erect any building, to make additions to or alterations or repairs in any building for the city, the estimated cost of which exceeds the sum of fifteen thousand dollars, the same shall be erected or done under the supervision and control of a commission of three persons appointed for the purpose as follows: The mayor shall name three citizens of Beverly not members of the city council to act as such commission, who shall be confirmed by the city council. This commission shall serve without compensation and shall have full power to secure plans, approve the same except as hereinafter provided in the case of buildings for school purposes, and to make contracts after having submitted the plans to the city council together with estimate of the cost of construction; provided, that the city council has made appropriations to cover the said cost. But no site for a school building shall be acquired by the city unless the approval of such site by the school committee or a majority thereof is first obtained in writing.

No plans for the construction or alteration of a school building shall be accepted, and no work shall be begun on the construction or alteration of a school building, unless the approval of the school committee or a majority thereof is first obtained in writing. Nothing herein shall require such approval for the making of ordinary repairs.

Section 39. School committee - Generally.

The school committee of said city shall consist of the mayor, ex officio, and of eight members who shall be elected as provided by section eight. Said committee shall have the entire management and control of the schools of the city, may elect a superintendent of schools, and may appoint other subordinate officers and assistants as it may deem necessary for the proper discharge of its duties and the conduct of its business; shall define the terms of service, duties and compensation of such officers, and remove and discharge them at its pleasure. The school committee shall be the judge of the election and qualifications of its members, and shall determine the rules of its proceedings. A majority of the committee shall constitute a quorum for the transaction of business, but a smaller number may adjourn from time to time. Should a vacancy occur in the office of an elected member of the school committee for any cause, the mayor shall, as soon as may be, call a joint convention of the city council and the school committee, at which the president of the city council shall preside, and the vacancy shall, by vote of a majority of such joint convention, be filled by the election of a member according to the vacancy existing, to serve for the balance of the unexpired term.

The mayor and city council shall annually provide an amount of money sufficient for the support of the public schools as required by the General Laws; provided, however, that neither the mayor nor city council shall be required to provide more money than is appropriated by vote of the city council. In acting on appropriations for educational costs, the city council shall vote on the total amount of appropriations requested, and shall not allocate appropriations among accounts or place any restrictions on such appropriations. The city council may make nonbinding monetary recommendations to increase or decrease certain items allocating such appropriations. The vote of the city council shall establish the total appropriation for the support of the schools, but may not limit the authority of the school committee to determine expenditures within the total appropriations.

The school committee shall hold a public meeting on its proposed annual budget not less than seven days after publication of a notice thereof in a newspaper having general circulation in the city. Prior to such public hearing said committee shall make available to the public at least one copy of said proposed budget for a time period of not less than forty-eight hours either at the office of the superintendent of schools or at a place so designated by said committee. At the time and place so advertised or at any time or place to which such hearing may from time to time be adjourned all interested persons shall be given an opportunity to be heard for or against the whole or any part of the proposed budget. Such public hearing shall be conducted by a quorum of the school committee. For purposes of this section a quorum shall consist of a majority of the members of said school committee.

Any official violating the provisions of this section shall be punished by a fine not exceeding three hundred dollars, or by imprisonment for a term not exceeding six months, or both such fine and imprisonment.

Section 45. Conviction creating vacancy in office; approval of bills and vouchers; expenditures differing from appropriations.

The conviction of the incumbent of any office established under this charter of a crime punishable by imprisonment shall operate to create a vacancy in the office held by him. Every bill and every voucher for an expenditure of money shall be approved by the signatures upon such bill or voucher of a majority of the members of the committee, or of the officer, having control of or incurring such expenditure. No sum appropriated for a specific purpose shall be expended for any other purpose except upon compliance with section thirty-four. No expenditure shall be made nor liability incurred by or in behalf of the city until an appropriation has duly been recommended by the mayor and voted by the city council sufficient to meet such expenditure or liability together with all prior unpaid liabilities growing out of the item for which said appropriation is made.

In all cases, however, where extensions of existing franchises or rights are sought, the same may be granted to the holders thereof in the manner provided in section twenty-one, and in such cases approval by the voters shall not be required to render the same valid, unless within thirty days after the final passage of the order granting the extension, a petition objecting hereto, signed by at least three hundred qualified voters of the city shall be filed with the city clerk.

The terms of office of the four commissioners of the trust funds shall continue and be in force for the full terms to which they were appointed and upon expiration of such terms the vacancies shall be filled as hereinafter provided. SECTION 5. At the initial district meeting and at all subsequent annual and special district meetings, voting by proprietors shall be governed by the requirements of this section. Persons or entities owning one or more separately assessed parcels of land within the district shall be entitled to cast one vote on any matter or issue to be voted upon at any such meeting, notwithstanding the total number of parcels owned by such person, persons or entities. Joint owners and entity proprietors shall designate, in writing to the clerk prior to the commencement of the meeting, the person authorized to vote on behalf of the proprietor at such meeting and such person shall be presumed qualified and authorized to represent the proprietor if such person shall be listed record owner of such parcel or parcels or if such person shall, as evidenced by any public record maintained under the laws of the commonwealth, be listed as a partner, trustee, agent, officer or employee of a proprietor. A person owning one or more parcels together with his spouse shall not be required to furnish a written designation from his spouse and either shall be presumed to be qualified to vote.

The authority of a person to cast a proxy vote on behalf of a proprietor shall likewise be determined by the clerk. All proxies must be tendered in writing prior to the commencement of a district meeting and shall clearly set forth the name and address of the proprietor entering the proxy, the name and address of the person who is to exercise the proxy, the signature of the proprietor granting the same and the date of execution. The district may, if it so elects, adopt in its bylaws an approved form of proxy to satisfy the requirements of this section. The duration of a proxy shall be established by district bylaw.

SECTION 6. Annual meetings of the district shall be held on the last Thursday in March in each year or at such other time as the district shall establish from time to time in its bylaws. Annual and other special meetings of the district shall be called by warrant under the hands of the management committee, notice of which shall be given fourteen days at least before such meeting. The warrant shall be mailed first class, postage prepaid to each proprietor of record in the district and copy of the same shall be directed to a constable of the town of Leicester or to some other person who shall cause a copy of such notice to be posted in one or more public places within the town or by advertising in a newspaper published at least weekly within Worcester county and having a general circulation within

said town of Leicester. The warrant for all district meetings shall state the time and place of the meeting and the subjects to be acted upon. The management committee shall insert in the warrant of the annual meeting all subjects, the insertion of which shall be required of them in writing by ten or more proprietors of the district, and, in the warrant for every special district meeting, all subjects the insertion of which shall be requested of them in writing by twenty or more proprietors. The management committee shall call a special district meeting on its own initiative or upon a request, in writing, of not less than twenty proprietors, or proprietors constituting at least twenty percent in interest, either in assessed evaluation of land improvements or in total land area within the district. Special meetings so requested shall be held not later than thirty days after the receipt of such request. No action taken at an annual or a special district meeting shall be valid unless the subject matter thereof shall have been set forth in the warrant for such meeting. Two or more district meetings for distinct purposes may be called for by the same warrant. At every district meeting a moderator shall be chosen by ballot and shall have the powers of the moderator of a town meeting.

District meetings shall be governed by chapter thirty-nine of the General Laws, except as otherwise expressly provided in this act.

The board of assessors of the town of Leicester shall, at least thirty days prior to the annual district meeting, prepare and forward to the management committee a true and complete alphabetical listing with addresses of the proprietors reflected in their records as of January first of that year and from the records maintained by the assessors pursuant to chapter fifty-nine and other related provisions of the General Laws. A copy of such list shall be maintained in a manner accessible to the proprietors and the general public at all reasonable times by the management committee and the district clerk and shall be available for inspection at the annual meeting and any special meeting of the district. The boards of assessors shall likewise maintain a list of proprietors within their town by separate list or special designation on their list of all assessed parcels.

Quorum requirements for annual meetings and special meetings of the district shall be as specified for the initial district meeting set forth above or otherwise as the district shall determine from time to time in its bylaws; provided, however, that the quorum requirements at such meeting shall not be reduced below a number of proprietors constituting one-third in interest, either in aggregate assessed evaluation of land and improvements or land area, whether voting in person or by proxy as aforesaid.

Any matter to be voted upon at an annual or special meeting of the district shall require only a majority of those proprietors present in person or by proxy and voting on the question, except for the following actions which shall require a two-thirds vote:

(*a*) a vote to petition for dissolution of the district;

(*b*) a vote to purchase or otherwise acquire real property; and

(*c*) a vote to finance an undertaking which is authorized by this act to be financed in whole or in part by the issuance by the district of long term notes or bonds.

SECTION 7. In addition to the three members elected by the district as provided in this act, the management committee shall be comprised of the following additional persons:

(*a*) one member from the board of selectmen of the town of Leicester or such other resident voter of said town as shall be appointed by its board of selectmen to serve on the management committee. Such selectman or other person shall serve at the pleasure of the board of selectmen appointing him and shall be a full voting member of the committee; and (*b*) one representative from the conservation commission, or successor agency, of the town of Leicester.

The town appointed members shall serve for an indefinite term at the pleasure of their appointing authorities, from time to time in office, and shall be nonvoting members of the management committee but shall be permitted to participate fully in all discussions and deliberations of the committee. In the event that either town or the commissioner of either department shall fail, from time to time, to so designate its member or if such member shall resign and no replacement shall have been designated in like manner, the management committee shall nonetheless be legally constituted with full power to carry out its duties and responsibilities as set forth herein with the three members elected by said district.

The management committee shall have and shall exercise the following powers and duties:

(*a*) the expenditure, for the purposes permitted to the district, of the money raised and borrowed by the district;

(*b*) the annual preparation of a budget for the management and operation of the district and the submission of such budget to the annual district meeting for its approval. Such budget shall include the committee's estimate of those monies required to be raised and appropriated by means of assessment upon the district proprietors by borrowing or otherwise to be received;

(*c*) to apply, in the name of the district, for grants, loans and other assistance from both governmental and nongovernmental entities;

(*d*) subject to prior appropriation therefor, to enter into agreements and contracts involving the purchase or lease of services, equipment and supplies consistent with the powers granted by this act; and

(*e*) subject to prior appropriation therefor, to hire, supervise, suspend and discharge such employees as the committee shall deem necessary or appropriate for the conduct of the work to be performed by the district including, but not limited to, a district superintendent who shall have charge, on a day to day basis, of all district employees and who shall be responsible on behalf of the management committee for the conduct and supervision of any and all work to be performed by or on behalf of the district pursuant to this act. Compensation and benefits for the district superintendent and all other employees shall, subject to prior appropriation therefor, be as determined from, time to time, by vote of the management committee.

SECTION 8. The management committee shall meet as necessary, but in no event less frequently than every three months. A quorum of the management committee shall be required at all meetings for the conduct of any business thereat and shall consist of a majority of its voting members. The initial meeting of the management committee shall be not later than thirty days following the establishment of the district. Thereafter, the committee shall schedule one meeting to occur in each year immediately following the adjournment of the annual district meeting. At such initial meeting and at all subsequent meetings following the annual district meeting, the committee shall elect from its members a chairman who shall preside at all committee meetings and who shall serve until his successor shall be elected at the meeting following the annual district meeting. The committee shall also elect a vice chairman who shall be empowered to preside over committee meetings in the absence of the chairman and who shall serve for a like term. The district may subject to a prior appropriation therefor, provide appropriate compensation for district officers, including members of the management committee and including the expense of travel, meals and lodging for such officers and committee members residing outside the district.

SECTION 9. Without limiting its powers as set forth herein, the management committee shall have charge of expenditures on account of the district, duly budgeted and appropriated pursuant to the powers granted to the district, and shall exercise the authority conferred upon it by district bylaw, except as otherwise expressly provided in this act.

SECTION 10. The district treasurer shall receive and take charge of all money belonging to said district, and shall pay over and account for the same according to the order of the district or its management committee. The treasurer or, in his absence, any duly appointed person under the district bylaws shall pay district bills; provided, however, that the provisions of this section shall not prohibit the treasurer from paying such bills by the use of a bank, treasurer's or cashier's check. He shall have the authority given to an auditor as provided in section fifty-one of chapter forty-one of the General Laws, and shall annually render a true account of his receipts and disbursements and report on his official acts to the district. The treasurer shall give bond annually for the performance of his duties in a form approved by the commissioner of revenue in such sum, not less than the amount established by said commissioner, as shall be fixed by the management committee and, if such treasurer fails to give such bond within ten days after his election or appointment or, if within ten days after the expiration of such bond or any renewal of such bond, he fails to file a renewal thereof, the management committee shall declare the office vacant and the vacancy shall be filled by the committee in the manner set forth in section twelve.

SECTION 11. The district clerk shall, in addition to the duties specified herein, take all minutes at district meetings and at meetings of the management committee and maintain a record of such minutes in a manner provided for the maintenance of records of minutes of town meetings and of meetings by the boards of selectmen. The clerk shall be the official responsible for the certification copies of any and all votes taken at a district meeting or a meeting of the management committee.

SECTION 12. Any vacancy occurring in the office of clerk, treasurer or member of the management committee elected by the district may be filled by the district for the remainder of the unexpired term at any special meeting called for that purpose or, in the case of a vacancy in the office of clerk or treasurer or disability affecting either of said officers, the management committee may appoint a person to fill such vacancy until an election can be held or until the disability is removed. Such temporary appointee shall be sworn and shall perform the duties of the office to which he is appointed during his tenure. A temporary treasurer appointed to fill a vacancy, as above provided, shall give bond in the same manner as the treasurer.

SECTION 13. At its initial meeting and at the annual meeting each and every year thereafter, the district shall adopt, by two-thirds vote as set forth in this act, a method to be employed during the fiscal year to which the meeting relates for financing the share of its annual budget which is anticipated to be required to be funded by the district. The district may vote to adopt any of the following methods of financing, or any combination thereof:

(*a*) the district may raise by assessments upon the proprietors and by voluntary contributions the total sum required to meet such estimated expense;

(*b*) the district may pay the whole of such expense, from time to time, as the work, material, labor and services shall be performed and, for this purpose, may incur debt by a temporary loan in anticipation of the collection of assessments from the district members during the fiscal year in which such debt is incurred or during the next succeeding fiscal year and except as further modified on the initial fiscal year under clause (*n*) of section three.

(*c*) the district may incur debt to the amount necessary to pay that portion of such expense which relates solely to proposed long-term district improvements and major equipment purchases and may issue therefor notes or bonds and may, if the district further so approves, issue notes or bonds on the condition that the first payment on account of the principal shall be deferred for a period of not more than five years from the date of issue of such notes or bonds and that the whole amount of such debt shall be payable within a period of not more than twenty-five years after such notes or bonds are issued. No such issue shall be for a term longer than the reasonably estimated useful life of the improvements, facilities and equipment to be so funded.

Indebtedness incurred by the district under the provision of this section shall be subject to chapter forty-four and to other provisions of the General Laws applicable to notes and bonds of districts except as otherwise provided in this act. If the district issues notes or bonds, and thereafter receives an appropriation from other governmental entities to cover such part, if any, of the expenses of such improvements, the district, in its discretion unless otherwise mandated by the terms and conditions of the grant from such governmental unit, shall make all or any part of such appropriation available to redeem notes or bonds of the district and shall hold the balance, if any, to the credit of the district to be used for the payment of the expense of such improvements, facilities and for equipment. Bonds or notes issued under this section shall be the general obligations of the district.

That portion, if any, of the budgeted expense for the initial fiscal year and for each subsequent fiscal year which shall be required by the district for the payment of principal and interest on bonds and notes issued or to be issued by the district and which shall be due during the ensuing fiscal year, together with those amounts necessary to be raised by the district to maintain and operate the district during said fiscal year for capital outlay items, the costs of which is not otherwise funded, and all other budgeted expenses for which the district is authorized to raise money, the costs of which items the district shall have voted to raise by assessment upon land and improvements of the proprietors within the district, shall be the subject of a separate vote at the initial district meeting. If the district so votes, the schedule of assessed valuations of land and improvements established by the boards of assessors in each town for the same fiscal year under the provisions of chapter fifty-nine of the General Laws shall be relied upon as the basis for determination of the pro-rata share of the district budget voted to be raised and appropriated and paid by the proprietors upon their land and improvements within the district.

Following the adjournment of the initial district meeting and each annual district meeting thereafter, the clerk of the district shall certify to the assessors of the town of Leicester all sums of money and means of assessment voted upon at such meeting, which votes shall have been adopted by a two-thirds majority as provided in this act, together with the amount to be paid by each proprietor according to the determination made by such votes. The assessors of the town of Leicester shall, without further vote, assess such amounts upon the lands of the proprietors within the district and commit to the collector of taxes of the town wherein the land is situated, who thereupon shall have and exercise the same powers and duties in relation to the collection of such assessments as he has and exercises relative to the collection of town taxes. The collector shall remit, monthly, to the district treasurer all sums collected by him on account of such assessments. An assessment made hereunder shall be a lien upon the land assessed by the town under the provisions of section thirty-seven of chapter sixty and other related provisions of the General Laws.

SECTION 14. The fiscal year of the district shall be the same fiscal year as established by the General Laws for cities and towns.

SECTION 15. Unless otherwise specified in this act or otherwise required by General Law, all actions permitted to be taken at annual or special district meetings shall require a majority vote of those proprietors present in person or by proxy at said meeting and entitled to vote thereat, who shall constitute a quorum in accordance with this act or otherwise by bylaw of the district. All actions permitted to be taken by the management committee shall require a majority vote of the committee members present at said meeting who shall constitute a quorum in accordance with this act.

SECTION 16. The district shall include, in its initial and in all subsequent annual appropriations, compensation for the board of assessors and the tax collector of the town of Leicester, pursuant to the provisions of section one hundred and eight B of chapter forty-one of the General Laws, with respect to their duties and expenses hereunder.

SECTION 17. Notwithstanding their membership on the management committee, neither the town of Leicester, nor any agency or department shall be obligated for any debts of the district, nor shall they, by virtue of this act be required to pay for any liability, obligation or expense made, suffered or incurred by the district. In like manner, the proprietors of the district shall not be individually liable or obligated with respect to debts or other obligations made, suffered or incurred by the district except with respect to the payment of assessments upon their land as provided for in this act.

SECTION 18. No provision of this act shall be deemed to modify or amend any power, authority or jurisdiction now or hereafter vested in an agency, department or unit of a state, local or federal government as it relates to the use, operation or enjoyment of Cedar Meadow Lake as a great pond available for use by the general public not only for recreational use but for other purposes now or hereinafter permitted or required by federal, state and local law, rule, regulation or local bylaw.

SECTION 19. The district shall establish, in its initial budget and in all subsequent fiscal year budgets, an overlay account and a reserve fund as provided for towns under the provisions of section twenty-five of chapter fifty-nine and section five C of chapter forty of the General Laws except for the initial fiscal year, or portion thereof, of the operation of the district, the district may add to the amount to be raised by district assessment a sum voted by the district for not more than twenty percent thereof for the purposes of and subject to the limitations as set forth in said section twenty-five of said chapter fifty-nine. The district is further authorized to establish and maintain a stabilization fund under the provisions of section five B of chapter forty of the General Laws. The district shall further be subject to an audit of its accounts in the manner provided in section forty of chapter forty-four of the General Laws.

SECTION 20. Immediately upon the formation of the district, the district clerk shall, in addition to the other duties to be performed by such district officer, cause a review to be made, at that time and from time, to time thereafter, of the records required to be maintained by the boards of assessors for the town of Leicester, including copies of deeds furnished to said boards by the Worcester district registry of deeds in the county of Worcester, and shall otherwise take such actions as shall be reasonably necessary to verify the list of proprietors to be included within the district. The clerk shall further cause to be prepared one or more maps based in whole or in part upon the maps required to be maintained by the assessors of said towns on which shall be shown the location of all proprietor's lands initially included as well as those which, upon such review, should, in the opinion of the district clerk be included within the district. Thereafter, at any special meeting called for that purpose and not later than the next annual meeting, the district clerk shall furnish the management committee with a list of proprietors proposed for inclusion in the district and such maps depicting the approximate location and boundaries of such parcels as well as the existing parcels within the district. The committee shall furnish written notice in the manner provided for furnishing notice to a proprietor of a district meeting to the record owners of such parcels proposed for inclusion in the district. At the district meeting called

for such purpose, the district shall, by its vote, determine whether or not its parcel or parcels shall be included within the district and shall furnish the record owners thereof with full opportunity to be heard prior to such vote as though such persons were proprietors of record entitled to vote thereon.

An original proprietor of the district and a record owner of real estate hereafter included within the district as a proprietor in the manner set forth in this section, shall have the right to petition the district, through its management committee, for exclusion from the district based upon an alleged lack of sufficient direct benefit to such proprietor's land with respect to the purposes for which the district has been established. Such petition shall be in writing and shall set forth, in summary form, the reasons relied upon in support thereof. Said committee shall, upon receipt of such petition, conduct such investigation thereof as it shall deem appropriate and shall, at its next regular meeting or sooner at a special meeting and upon at least seven days written notice to the petitioner, consider the petition and vote thereon. A vote by the management committee to exclude the land of the petitioner from the district shall be final. In the event that the management committee shall vote to disapprove the petition or shall fail to act thereon prior to the next annual meeting of the district, the petition shall be included in the warrant for such meeting and the district shall vote on the same at that time. If the district shall vote to disallow the petition, such petitioner may appeal to the superior court within the county in which the district is located for relief. Upon such appeal, said court shall, if the reasons set forth by the petitioner shall be satisfactory to it, grant such exclusion. Such exclusion, if the petition shall have been filed in writing prior to December thirty-first of the then current fiscal year, shall result in an abatement of district assessment from the commencement of such fiscal year; provided, however, that such abatement shall not be effective until the commencement of the next fiscal year.

SECTION 21. Once established pursuant to this act, the district shall not dissolve without specific authorization by the general court, which authorization shall not be given until provision has been made for the payment of any obligations of said district. Such dissolution may be initiated by the general court, by two-thirds vote at a regular or special district meeting or by petition by the town of Leicester under the provisions of section eight of Article LXXXIX of the Amendments to the Constitution of the Commonwealth.

SECTION 22. This act shall take effect upon its passage; provided, however, that if the initial meeting of the district shall not occur and the certified vote evidencing the establishment of the district shall not be filed with the attorney general within one year after its passage, this act shall cease to be operative.

Chapter 296. AN ACT FURTHER REGULATING THE PURCHASE OF STATE SERVICES.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to immediately regulate the purchase of services by state agencies, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. Chapter 7 of the General Laws is hereby amended by inserting after section 51 the following four sections:-

Section 52. The general court hereby finds and declares that using private contractors to provide public services formerly provided by state employees does not always promote the public interest. To ensure that citizens of the commonwealth receive high quality public services at low cost, with due regard for the taxpayers of the commonwealth and the needs of public and private workers, the general court finds it necessary to regulate such privatization contracts in accordance with sections fifty-three to fifty-five, inclusive.

Section 53. As used in sections fifty-two to fifty-five, inclusive, the following words shall have the following meanings:-

"Agency", an executive office, department, division, board, commission or other office or officer in the executive branch of the government of the commonwealth, the Massachusetts Bay Transportation Authority, the Massachusetts Turnpike Authority and the Massachusetts Port Authority.

"Dependent", the spouse and children of an employee if such persons would qualify for dependent status under the Internal Revenue Code or for whom a support order has been or could be granted under chapter two hundred and eight, two hundred and nine, or two hundred and nine C.

"Privatization contract", an agreement or combination or series of agreements by which a non-governmental person or entity agrees with an agency to provide services, valued at one hundred thousand dollars or more, which are substantially similar to and in lieu of, services theretofore provided, in whole or in part, by regular employees of an agency. Any subsequent agreement, including any agreement resulting from a rebidding of previously privatized service, or any agreement renewing or extending a privatization contract, shall not be considered a privatization contract. An agreement solely to provide legal, management consulting, planning, engineering or design services shall not be considered a privatization contract.

Section 54. No agency shall make any privatization contract and no such contract shall be valid unless the agency, in consultation with the executive office for administration and finance, first complies with each of the following requirements:-

(1) The agency shall prepare a specific written statement of the services proposed to be the subject of the privatization contract, including the specific quantity and standard of quality of the subject services. The agency shall solicit competitive sealed bids for the privatization contracts based upon this statement. The day designated by the agency upon which it will accept these sealed bids shall be the same for any and all parties. This statement shall be a public record, shall be filed in the agency and in the executive office for administration and finance, and shall be transmitted to the state auditor for review pursuant to section fifty-five. The term of any privatization contract shall not exceed five years. No amendment to a privatization contract shall be valid if it has the purpose or effect of avoiding any requirement of this section.

(2) For each position in which a bidder will employ any person pursuant to the privatization contract and for which the duties are substantially similar to the duties performed by a regular agency employee or employees, the statement required by paragraph (1) shall include a statement of the minimum wage rate to be paid for said position, which rate shall be the lesser of step one of the grade or classification under which the comparable regular agency employee is paid, or the average private sector wage rate for said position as determined by the executive office for administration and finance from data collected by the department of employment and training and the division of purchased services. Every bid for a privatization contract and every privatization contract shall include provisions specifically establishing the wage rate for each such position, which shall not be less than said minimum wage rate as defined above. Every such bid and contract shall also include provisions for the contractor to pay not less than a percentage, comparable to the percentage paid by the commonwealth for state employees, of the costs of health insurance plans for every employee employed for not less than twenty hours per week pursuant to such contract. Such health insurance plans shall satisfy the requirements of the fifth paragraph of section nine of chapter one hundred and eighteen F, and shall provide coverage to the employee and the employee's spouse and dependent children. Each contractor shall submit quarterly payroll records to the agency, listing the name, address, social security number, hours worked and the hourly wage paid for each employee in the previous quarter. The attorney general may bring a civil action for equitable relief in the superior court to enforce this paragraph or to prevent or remedy the dismissal, demotion or other action prejudicing any employee as a result of a report of a violation of this paragraph.

(3) Every privatization contract shall contain provisions requiring the contractor to offer available employee positions pursuant to the contract to qualified regular employees of the agency whose state employment is terminated because of the privatization contract and who satisfy the hiring criteria of the contractor. Every such contract shall also contain provisions requiring the contractor to comply with a policy of nondiscrimination and equal opportunity for all persons protected by chapter one hundred and fifty-one B, and to take affirmative steps to provide such equal opportunity for all such persons.

(4) The agency shall prepare a comprehensive written estimate of the costs of regular agency employees' providing the subject services in the most cost-efficient manner. The estimate shall include all direct and indirect costs of regular agency employees' providing the subject services, including but not limited to, pension, insurance and other employee benefit costs. For the purpose of this estimate, any employee organization may, at any time before the final day for the agency to receive sealed bids pursuant to paragraph (1), propose amendments to any relevant collective bargaining agreement to which it is a party. Any such amendments shall take effect only if necessary to reduce the cost estimate pursuant to this paragraph below the contract cost pursuant to paragraph (6). Such estimate shall remain confidential until after the final day for the agency to receive sealed bids for the privatization contract pursuant to paragraph (1), at which time the estimate shall become a public record, shall be filed in the agency and in the executive office for administration and finance, and shall be transmitted to the state auditor for review pursuant to section fifty-five.

(5) After consulting any relevant employee organization, the agency shall provide adequate resources for the purpose of encouraging and assisting present agency employees to organize and submit a bid to provide the subject services. In determining what resources are adequate for this purpose, the agency shall refer to an existing collective bargaining agreement of a similar employee organization whose members perform the subject services, if available, which agreement provides similar resources in the same or other agencies; provided, however, that if no such collective bargaining agreement exists, the agency shall refer to any existing collective bargaining agreements providing such resources, and shall provide such resources at the minimum level of assistance provided in said agreements. The agency shall consider any such employee bid on the same basis as all other bids. An employee bid may be made as a joint venture with other persons. Subclause (h) of clause Twenty-sixth of section seven of chapter four shall apply with respect to all employee bids. Sections four, five and six of chapter two hundred and sixty-eight A shall not apply to the activities of agency employees conducted pursuant to this paragraph.

(6) After soliciting and receiving bids, the agency shall publicly designate the bidder to which it proposes to award the contract. The agency shall prepare a comprehensive written analysis of the contract cost based upon the designated bid, specifically including the costs of transition from public to private operation, of additional unemployment and retirement benefits, if any, and of monitoring and otherwise administering contract performance. If the designated bidder proposes to perform any or all of the contract outside the boundaries of the commonwealth, said contract cost shall be increased by the amount of income tax revenue, if any, which will be lost to the commonwealth by the corresponding elimination of agency employees, as determined by the department of revenue to the extent that it is able to do so.

(7) The head of the agency and the commissioner of administration shall each certify in writing to the state auditor, that:

(i) he has complied with all provisions of this section and of all other applicable laws;

(ii) the quality of the services to be provided by the designated bidder is likely to satisfy the quality requirements of the statement prepared pursuant to paragraph (1), and to equal or exceed the quality of services which could be provided by regular agency employees pursuant to paragraph (4);

(iii) the contract cost pursuant to paragraph (6) will be less than the estimated cost pursuant to paragraph (4), taking into account all comparable types of costs;

(iv) the designated bidder and its supervisory employees, while in the employ of said designated bidder, have no adjudicated record of substantial or repeated willful noncompliance with any relevant federal or state regulatory statute including, but not limited to, statutes concerning labor relations, occupational safety and health, nondiscrimination and affirmative action, environmental protection and conflicts of interest; and

(v) the proposed privatization contract is otherwise in the public interest.

A copy of the proposed privatization contract shall accompany the certificate transmitted to the state auditor.

No provision of this section shall apply in any circumstance to the extent that the provision is inconsistent with section thirty-nine M of chapter thirty or sections twenty-six to twenty-seven H, inclusive, or sections forty-four A to forty-four J, inclusive, of chapter one hundred and forty-nine.

Section 55. (a) An agency shall not make any privatization contract and no such contract shall be valid if, within thirty days after receiving the certificate required by section fifty-four, the state auditor notifies the agency of his objection. Such objection shall be in writing and shall state specifically the state auditor's finding that the agency has failed to comply with one or more requirements of said section fifty-four, including that the state auditor finds incorrect, based on independent review of all the relevant facts, any of the findings required by paragraph (7) of said section fifty-four.

(b) For the purpose of reviewing the agency's compliance and certificate pursuant to said section fifty-four, the state auditor or his designee may require by summons the attendance and testimony under oath of witnesses and the production of books, papers and other records relating to such review. All provisions of law relative to summonses in civil cases, including the manner of service, the scope and relevance to such review, and the compensation of witnesses who are not state employees, shall apply to such summonses. Such summonses shall be enforced pursuant to section ten of chapter two hundred and thirty-three.

(c) The state auditor may adopt regulations and prescribe forms to carry out the provisions of this section and section fifty-four.

(d) The objection of the state auditor pursuant to subsection (a) shall be final and binding on the agency, unless the state auditor thereafter in writing withdraws the objection, stating the specific reasons, based upon a revised certificate by the agency and by the commissioner of administration and upon the state auditor's review thereof.

SECTION 2. Section 5 of chapter 268A of the General Laws, as appearing in the 1992 Official Edition, is hereby amended by inserting after the word "body", in line 31, the following words:- or

Chapter 308. AN ACT PROVIDING FOR THE LICENSING AND REGULATION OF CHECK CASHERS.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to immediately establish the procedures for the licensing and regulation of persons engaged in the business of cashing checks, drafts or money orders for a consideration, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. The General Laws are hereby amended by inserting after chapter 169 the following chapter:-

CHAPTER 169A.

LICENSING OF CHECK CASHERS.

Section 1. For the purposes of this chapter, the following words shall have the following meanings unless the context clearly requires otherwise:-

"Casher of checks", a person or entity engaged in cashing checks, drafts or money orders for a consideration in excess of one dollar per item.

"Commissioner", the commissioner of banks.

"Licensee", a casher of checks, licensed under the provisions of this chapter.

"Mobile unit", a motor vehicle or other movable means from which the business of a licensee is to be conducted.

"Primary business", the principal business of the licensee as determined by the commissioner, exclusive of any business conducted as an agent of the state lottery commission.

Section 2. No person or entity shall engage in cashing checks, drafts or money orders for a consideration in excess of one dollar per item without first obtaining a license from the commissioner. Nothing in this chapter shall be construed to apply to a bank, as defined in section one of chapter one hundred and sixty-seven, a national banking association, a federally chartered credit union, a federal savings and loan association or a federal savings bank. The commissioner shall establish rules and regulations, which may include an adequate capitalization requirement, for each place of business or mobile unit of a licensee to aid in the administration and enforcement of this chapter.

Section 3. The application for such license shall be in writing, shall be in a form prescribed by the commissioner and shall contain the name, residential address and the address where the business of the applicant is to be conducted, and if the applicant is a partnership, association, corporation or other form of business organization, the names and addresses of each member, director and principal officer thereof, together with such further information as the commissioner may require including, but not limited to, a description of the nature of the business to be conducted, the proposed hours of operation on a daily basis and the area intended to be served; provided, however, that if such business is to be conducted from a mobile unit, the said application shall contain the Massachusetts motor

vehicle registration number or other satisfactory identification of such mobile unit and a description of the area in which the applicant seeks to utilize such mobile unit. Each application for a license shall be accompanied by an investigation fee. Investigation and license fees shall be determined annually by the commissioner of administration under the provisions of section three B of chapter seven. Upon the receipt of such application, the commissioner shall furnish the applicant a form of notice, specifying the name of the applicant, the name under which the business will be conducted and the location thereof, the name, complete address and occupation of the principals as set forth in the application and assigning a closing date for receipt by the commissioner of comments by interested parties on such application. The applicant shall publish said notice at least three weeks before such closing date or such other period as may be determined by the commissioner, in a newspaper designated by the commissioner and published in the city or town wherein such business is to be conducted; provided, however, that if there is no newspaper published in such city or town, publication shall be in the city or town wherein a newspaper is published which is nearest to the proposed location of the business.

The commissioner may, after such hearing and notice thereof as he may deem necessary, reject an application for a license if he is not satisfied that the financial responsibility, character, reputation, integrity and general fitness of the applicant, and of the members thereof if the applicant is a partnership or association, and of the directors and principal officers if the applicant is a corporation, are such as to command the confidence of the public and to warrant the belief that the business will be operated honestly, fairly, soundly and efficiently in the public interest consistent with the purposes of this chapter, or that the proposed business and the hours of operation, as specified in the application, would not be detrimental to the economy or the public safety of the area to be served, or if he finds that any of the following exist:

(a) the applicant made a false statement of a material fact in the application for a license;

(b) an officer, director or member of the applicant business has, within ten years prior to the filing of the application, been (i) convicted of or pleaded nolo contendere to a felony, or (ii) committed an act involving fraud or deceit, which act is substantially related to the qualifications, functions or duties of a person engaged in the business of a casher of checks;

(c) the applicant violated any of the provisions of this chapter or regulations promulgated hereunder, any similar regulatory scheme of another jurisdiction, or any other law applicable to the conduct of the business sought to be licensed;

(d) a check cashing store located at the address at which the applicant intends to operate his business has lost its license to operate within six months of the date of the new application;

(e) the applicant fails to demonstrate a public need for the establishment of a check cashing business in the area specified in such application; provided, however, that in determining whether demonstration of public need has been satisfied, the commissioner shall

consider, but shall not be limited to consideration of, the number of financial institutions in such area providing check cashing services, similar services provided in such area by nondepository institutions and such other factors which would indicate that the approval of the application for license would not provide a convenience to the people who would be served by the applicant or that it would be detrimental to the economy or the public safety in such area.

The commissioner shall make decision to approve or deny an application for a license within ninety days after the filing thereof; provided, however, that failure of the commissioner to act within such period shall not be deemed to be an approval of such application.

Section 4. If the commissioner refuses to issue a license, he shall notify the applicant of the denial, and within twenty days thereafter, he shall enter upon his records a written decision and findings containing the reasons supporting the denial and shall forthwith give written notice thereof by registered mail to the applicant. Within thirty days after the date of such notice, the applicant may appeal such denial to the superior court sitting in the county in which the business of the applicant is located. The court shall hear all pertinent evidence, determine the facts and, upon the facts as so determined, review such denial and affirm the same or order the commissioner to issue such license, as justice and equity may require.

Section 5. Each license shall state the address at which the business is to be conducted and, if a mobile unit, the appropriate identification thereof, and shall state fully the name of the licensee. If a licensee intends to carry on business in more than one location or, in the case of a mobile unit, in an area greater than that specified on the license, he shall procure a license for each place or area where such business is to be conducted. A copy of such license shall be prominently displayed in the place of business or the mobile unit of the licensee. Such license shall not be transferable or assignable and shall expire annually on April first. A change of location or closing of the place of business of the licensee at the address stated on the license, including any change in the area of operation of a mobile unit, shall require prior approval of the commissioner. A request for such relocation or change in the area of operation shall be in writing setting forth the reasons therefor and shall be accompanied by a relocation investigation fee to be determined annually by the commissioner of administration under the provisions of section three B of chapter seven.

If there shall be any change among the officers, partners or directors of any licensee, the licensee shall forthwith notify the commissioner of the name, address and occupation of each new officer, partner or director and provide such other information as the commissioner may require.

Section 6. A schedule of fees and charges to be assessed for the cashing of checks, drafts or money orders shall be filed by each licensee with the commissioner annually on or before a date to be set by the commissioner and, together with any revisions thereto, shall be conspicuously posted in each place of business and mobile unit of a licensee. An amendment to such schedule occurring between filing dates or a change in the hours of operation, as specified in the application for license filed pursuant to section three, shall be

filed, in writing, with the commissioner forthwith.

Section 7. The licensee shall provide each patron cashing a check, draft or money order with a receipt of such transaction stating thereon the amount of the check, draft or money order cashed, the fee charged and the total amount received by such patron.

Section 8. The commissioner may suspend or revoke a license issued pursuant to this chapter if he finds that:

(a) the licensee has violated a provision of this chapter or any rule or regulation adopted hereunder or any other law applicable to the conduct of its business; or

(b) a fact or condition exists which, if it had existed at the time of the original application for such license, would have warranted said commissioner in refusing to issue such license.

Except as provided in subsection (a) of section nine, no license shall be revoked or suspended except after notice and hearing pursuant to chapter thirty A.

A licensee may surrender a license by delivering to the commissioner written notice that it hereby surrenders such license, but such surrender shall not affect the civil or criminal liability of such licensee for acts committed before such surrender.

No revocation, suspension or surrender of a license shall impair or affect the obligation of any preexisting lawful contract between the licensee and any person.

In lieu of suspension or revocation of a license issued hereunder, the commissioner may fine a licensee up to a maximum of five hundred dollars per day for each violation.

The commissioner may suspend or revoke, or impose a fine on, only the particular license or licenses for particular places of business or locations with respect to which grounds for revocation occur or exist; provided, however, that if said commissioner shall find that such grounds for revocation are of general application to all places of business or locations of the licensee or that such grounds for fine, suspension or revocation have occurred or exist with respect to a substantial number of places of business or locations of such licensee, said commissioner may suspend, revoke or impose fines with respect to all of the licenses issued to such licensee.

Section 9. (a) If the commissioner determines, after giving notice of and opportunity for a hearing, that a licensee has engaged in or is about to engage in an act or practice constituting a violation of a provision of this chapter or a rule, regulation or order adopted hereunder, said commissioner may order such licensee to cease and desist from such unlawful act or practice and take such affirmative action as in his judgment will effect the purposes of this chapter.

(b) If the commissioner makes written findings of fact that the public interest will be irreparably harmed by a delay in issuing an order under subsection (a) he may issue a temporary cease and desist order. Upon the entry of a temporary cease and desist order, the commissioner shall promptly notify, in writing, the licensee affected thereby that such order has been so entered, the reasons therefor, and that within twenty days after the receipt of a written request for a hearing from such licensee, the matter will be scheduled for such hearing to determine whether or not such temporary order shall become permanent and final.

If no such hearing is requested and none is ordered by the commissioner, the order shall remain in effect until it is modified or vacated by the commissioner. If a hearing is requested or ordered, the commissioner, after giving notice of and opportunity for a hearing to the licensee subject to such order, shall, by written finding of facts and conclusions of law, vacate, modify or issue a permanent cease and desist order.

(c) No order under this section, except an order issued pursuant to subsection (b), may be entered without prior notice and opportunity for a hearing. The commissioner may vacate or modify an order under this section upon a finding that the conditions which required such order have changed and that it is in the public interest to vacate or modify such order.

An order issued pursuant to this section shall be subject to review as provided in chapter thirty A.

Section 10. For the purpose of discovering violations of this chapter or a rule or regulation promulgated hereunder, or for securing information lawfully required by him, the commissioner may, at any time, and as often as he may determine, either personally or by a person designated by him, investigate the business and examine the books, accounts, records and files used therein of a licensee. The total charge for such examination, which shall be paid by the licensee within thirty days after receipt of an invoice therefor, shall be determined annually by the commissioner of administration under the provisions of section three B of chapter seven for each person participating in such examination. For such purpose, the commissioner and his duly designated representative shall have access to the offices and places of business, books, accounts, papers, records, files, safes and vaults of all such licensees. The commissioner and any person designated by him may require the attendance of and examine under oath all persons whose testimony he may require relative to such business. Copies of reports of such examinations of a licensee shall be furnished to such licensee and shall not be exhibited to any other person, organization or agency; provided, however, that the commissioner may, upon the request of a law enforcement agency made in the course of its official duties, provide copies of such reports to any such law enforcement agency.

Section 11. The licensee shall keep and use within the commonwealth such books, accounts and records as will enable the commissioner to determine whether such licensee is complying with the provisions of this chapter and with the rules and regulations promulgated hereunder by the commissioner. Licensees shall preserve such books, accounts and records for at least three years. Preservation by photographic reproduction thereof or records in photographic form shall constitute compliance with the requirements of this section.

Each licensee shall, annually, on or before a date to be determined by the commissioner, file a report with said commissioner providing such information as said commissioner may require concerning its business and operations during the preceding calendar year. Such reports shall not be exhibited to any other person, organization or agency; provided, however, that the commissioner may, upon the request of a law enforcement agency made in the course of its official duties, provide copies of such reports

to any such law enforcement agency. The commissioner shall evaluate such reports and make such recommendations, if any, as he deems necessary to the general court.

Section 12. The commissioner or an aggrieved party may enforce the provisions of this chapter, or restrain any violations thereof, by filing a civil action in a court of competent jurisdiction. A violation of this chapter or a rule or regulation adopted hereunder, shall constitute a violation of chapter ninety-three A.

Section 13. A licensee who commits a willful violation of the provisions of this chapter or a rule or regulation adopted hereunder, shall be punished by a fine of not more than five hundred dollars or by imprisonment for not more than one year, or both.

SECTION 2. On or before July first, nineteen hundred and ninety-four, a person engaged in the business of cashing checks, drafts or money orders for a consideration in excess of one dollar per item shall apply to the commissioner of banks for a license pursuant to section three of chapter one hundred and sixty-nine A of the General Laws; provided, however, that the provisions of clause (e) of the second paragraph of said section three shall not apply to a person so applying for a license to operate at a location at which such applicant has been engaged in the conduct of the business of cashing checks, drafts or money orders prior to the effective date of this act.

Be it enacted, etc., as follows:

Chapter 29 of the General Laws is hereby amended by striking out section 8B, as appearing in the 1992 Official Edition, and inserting in place thereof the following section:-

Section 8B. The commissioner of highways or the commissioner of the metropolitan district commission shall require that any person proposing to bid on any work, excepting the construction, reconstruction, repair or alteration of buildings, to be awarded by the department of highways or by the metropolitan district commission, respectively, and the commissioner of highways shall require that any person proposing to bid on any such work to be awarded by a municipality under section thirty-four of chapter ninety, submit a statement under the penalties of perjury setting forth his qualifications to perform such work. Such statement shall be in such detail and form and shall be submitted at such times as such commissioner may prescribe under rules promulgated by said department or commission, respectively, subject to the requirements of chapter thirty A. Such rules may require such information as may be necessary to implement this section and may establish a basis for the classification and maximum capacity rating of bidders which shall determine the class and aggregate amount of work such bidders are qualified to perform. The statement shall set forth, among other matters that may be prescribed by the rules, the proposed bidders's financial resources, his current bonding capacity, his experience, the number and kinds of equipment which he has for use on such work, and the number, size and completion dates of other construction jobs, whether in this state or another state, which he has under contract. The information contained within such statement, together with other relevant available information and the proposed bidder's past performance on work of a similar nature, may be considered by said department or commission in determining whether or not the proposed bidder is qualified to perform any specific work for which proposals to bid are invited.

Based on information received and available and on past performance of the prospective bidder on work of a similar nature, each such commissioner, acting through a prequalification committee consisting of engineering personnel of said department or commission, respectively, to be appointed by him, shall determine the class and aggregate amount of work that a prospective bidder is qualified to perform, and shall limit a proposed

bidder to such class and aggregate amount of work as he may be qualified to perform. Said aggregate amount of work shall not be less than the amount of the bidder's current bonding capacity, as verified to the commissioner's satisfaction, by a surety company incorporated pursuant to section one hundred and five of chapter one hundred and seventy-five, or authorized to do business in the commonwealth under section one hundred and six of said chapter one hundred and seventy-five, and satisfactory to the commissioner. Said department or commission shall limit the bid proposals to be furnished to a prospective bidder to such bidders as are determined by its commissioner to have the classification and capacity rating to perform the work required.

Any such statement filed with either such commissioner by a prospective bidder shall be confidential, and shall be used only by the department of highways or the metropolitan district commission, as the case may be, in determining the qualifications of such prospective bidder to perform work for said department or commission, or for a municipality under the provisions of said section thirty-four. No information contained in such statement shall be imparted to any other person without the written consent of said bidder.

If any prospective bidder fails to file the statement required by this section, or if, in the judgment of the commissioner, the prospective bidder is not qualified to carry out the work required under a contract which is proposed to be awarded, the commissioner shall refuse to furnish such prospective bidder with bid proposals for such work and shall reject any bid by such prospective bidder for such work.

Only persons filing the statement required herein shall be authorized as prime contractors and then only as to the class and aggregate amount of work which their qualifications warrant.

Any bidder qualified as authorized herein shall be promptly notified by the commissioner.

Any prospective bidder who is aggrieved by any decision or determination of the prequalification committee or the commissioner which affects his right to bid may file a new application for qualification at any time, or within fifteen days after receiving notice of such decision the applicant may request in writing a hearing before an appeal board to reconsider his application or qualifications. The appeal board in the department of highways shall consist of the commissioner, the associate commissioners and the chief engineer of highways, or their designees, and the appeal board in the metropolitan district commission shall consist of the commissioner, the associate commissioners, and the director or chief engineer of the division involved, or their designees.

Any bidder or prospective bidder who so requests shall be granted a hearing by such appeal board at which he may submit any and all additional information or evidence bearing upon his finances, current bonding capacity, experience or other qualifications which may be relevant thereto. Such hearing shall be held without delay and the board shall promptly render its decision after taking into consideration all relevant information or evidence submitted relating to the bidder's qualifications. The appeal board may modify, amend or reverse any previous decision of the prequalification committee or the commissioner with

respect to the qualification of the applicant or may sustain such previous decision. Such hearing shall be deemed to be an adjudicatory proceeding, and any bidder or prospective bidder who is aggrieved by the decision of the appeal board shall have a right to judicial review under the applicable provisions of said chapter thirty A.

The commissioner of highways or the commissioner of the metropolitan district commission shall not consider any bid filed with him by any person for any contract to be awarded by said department or commission, respectively, who has not been qualified as required by the rules promulgated by said department or commission, and any such bid of any unqualified bidder may be rejected without being opened. No contract shall be awarded to any bidder not qualified to bid thereon at the time fixed for receiving bids.

Any person, firm or corporation who knowingly and willfully makes, or causes to be made, any false or fraudulent statement in any application for qualification filed with such department or commission as required herein shall, upon final conviction, be disqualified from submitting bids on contracts advertised by the department or commission for a period of one year following the date of said conviction.

This section shall not apply to any prospective bidder the aggregate amount of whose work with said department of highways or with said metropolitan district commission, including the amount of his proposal, is less than fifty thousand dollars.

Chapter 370. AN ACT RELATIVE TO ESTABLISHING THE NORTHEAST INTERSTATE DAIRY COMPACT.

Be it enacted, etc., as follows:

SECTION 1.

ARTICLE I. STATEMENT OF PURPOSE, FINDINGS AND DECLARATION OF POLICY

§ 1. STATEMENT OF PURPOSE, FINDINGS AND DECLARATION OF POLICY

The purpose of this compact is to recognize by constitutional prerequisite the interstate character of the northeast dairy industry and to form an interstate commission for the northeast region. The mission of the commission is to take such steps as are necessary to assure the continued viability of dairy farming in the northeast, and to assure consumers of an adequate, local supply of pure and wholesome milk.

The participating states find and declare that the dairy industry is the paramount agricultural activity of the northeast. Dairy farms, and associated suppliers, marketers, processors and retailers, are an integral component of the region's economy and their ability to provide a stable, local supply of pure, wholesome milk is a matter of great importance to the health and welfare of the region.

The participating states further find that dairy farms are essential to the region's rural communities and character. The farms preserve open spaces, sculpt the landscape and provide the land base for a diversity of recreational pursuits. In defining the rural character of our communities and landscape, dairy farms also provide a major draw for our tourist industries.

By entering into this compact, the participating states affirm that their ability to regulate the price which northeast dairy farmers receive for their product is essential to the public interest. Assurance of a fair and equitable price for dairy farmers ensures their ability to provide milk to the market and the vitality of the northeast dairy industry, with all the associated benefits.

Recent, dramatic price fluctuations, with a pronounced downward trend, threaten the viability and stability of the northeast dairy region. Historically, individual state regulatory action has been an effective emergency remedy available to farmers confronting a distressed market. The federal order system, implemented by the Agricultural Marketing Agreement Act of 1937, establishes only minimum prices for dairy products, without preempting the power of states to regulate milk prices above the minimum levels so established. Based on this authority, each state in the region has individually attempted to implement at least one regulatory program in response to the current dairy industry crisis.

In today's regional dairy marketplace, cooperative, rather than individual, state action may address more effectively the market disarray. Under our constitutional system, properly authorized, states acting cooperatively may exercise more power to regulate interstate commerce than they may assert individually without such authority. For this reason, the participating states invoke their authority to act in common agreement, with the consent of Congress, under the compact clause of the Constitution.

In establishing their constitutional regulatory authority over the region's fluid milk market by this compact, the participating states declare their purpose that this compact neither displace the federal order system nor encourage the merging of federal orders. Specific provisions of the compact itself set forth this basic principle.

Designed as a flexible mechanism able to adjust to changes in a regulated marketplace, the compact also contains a contingency provision should the federal order system be discontinued. In that event, the interstate commission is authorized to regulate the marketplace in replacement of the order system. This contingent authority does not anticipate such a change, however, and should not be so construed. It is only provided should developments in the market other than establishment of this compact result in discontinuance of the order system.

ARTICLE II. DEFINITIONS AND RULES OF CONSTRUCTION

§ 2. DEFINITIONS

For the purposes of this compact, and of any supplemental or concurring legislation enacted pursuant thereto, except as may be otherwise required by the context:

(1) "Commission" means the commission established by this compact.

(2) "Compact" means this interstate compact.

(3) "Region" means the territorial limits of the states which are or become parties to this compact.

(4) "Participating state" means a state which has become a party to this compact by the enactment of concurring legislation.

(5) "Regulated area" means any area within the region governed by and defined in regulations establishing a compact over-order price or commission marketing order.

(6) "Pool plant" means any milk plant located in a regulated area.

(7) "Partially regulated plant" means a milk plant not located in a regulated area but having Class I distribution within such area, or receipts from producers located in such area. Commission regulations may exempt plants having such distribution or receipts in amounts less than the limits defined therein.

(8) "Compact over-order price" means a minimum price required to be paid to producers for Class I milk established by the commission in regulations adopted pursuant to sections ten and eleven of this compact, which is above the price established in federal marketing orders or by state farm price regulation in the regulated area. Such price may apply throughout the region or in any part or parts thereof as defined in the regulations of the commission.

(9) "Commission marketing order" means regulations adopted by the commission pursuant to sections ten and eleven of this compact in place of a terminated federal marketing order or state dairy regulation. Such order may apply throughout the region or in any part or parts thereof as defined in the regulations of the commission. Such order may establish minimum prices for any or all classes of milk.

(10) "Milk" means the lacteal secretion of cows and includes all skim, butterfat, or other constituents obtained from separation or any other process. The term is used in its broadest sense and may be further defined by the commission for regulatory purposes.

(12) "State dairy regulation" means any state regulation of dairy prices, and associated assessments, whether by statute, marketing order or otherwise.

§ 3. RULES OF CONSTRUCTION

(a) This compact shall not be construed to displace existing federal milk marketing orders or state dairy regulation in the region but to supplement them. In the event some or all federal orders in the region are discontinued, the compact shall be construed to provide the commission the option to replace them with one or more commission marketing orders pursuant to this compact.

(b) This compact shall be construed liberally in order to achieve the purposes and intent enunciated in section one. It is the intent of this compact to establish a basic structure by which the commission may achieve those purposes through the application, adaptation and development of the regulatory techniques historically associated with milk marketing and to afford the commission broad flexibility to devise regulatory mechanisms to achieve the purposes of this compact. In accordance with this intent, the technical terms which are associated with market order regulation and which have acquired commonly understood general meanings are not defined herein but the commission may further define the terms used in this compact and develop additional concepts and define additional terms as it may find appropriate to achieve its purposes.

ARTICLE III. COMMISSION ESTABLISHED

§ 4. COMMISSION ESTABLISHED

There is hereby created a commission to administer the compact, composed of delegations from each state in the region. A delegation shall include not less than three nor more than five persons. In all other respects, delegation members shall serve in accordance with the laws of the state represented. The compensation, if any, of the members of a state delegation shall be determined and paid by each state, but their expenses shall be paid by the commission. Each state delegation shall be entitled to one vote in the conduct of the commission's affairs.

§ 5. VOTING REQUIREMENTS

Establishment or termination of an over-order price or commission marketing order shall require at least a two-thirds vote of the delegations present. The establishment of a regulated area which covers all or part of a participating state shall require also the affirmative vote of that state's delegation. A majority of the delegations from the participating states shall constitute a quorum for the conduct of the commission's business.

§ 6. ADMINISTRATION AND MANAGEMENT

(a) The commission shall elect annually from among the members of the participating state delegations a chairperson, a vice-chairperson, and a treasurer. The commission shall appoint an executive director and fix his or her duties and compensation. The executive director shall serve at the pleasure of the commission, and, together with the treasurer, shall be bonded in an amount determined by the commission. The commission may establish through its by-laws an executive committee composed of one member elected by each delegation.

(b) The commission shall adopt by-laws for the conduct of its business by a two-thirds vote, and shall have the power by the same vote to amend and rescind these by-laws. The commission shall publish its by-laws in convenient form with the appropriate agency or officer in each of the participating states. The by-laws shall provide for appropriate notice to the delegations of all commission meetings and hearings and of the business to be transacted at such meetings or hearings. Notice also shall be given to other agencies or officers of participating states as provided by the laws of those states.

The commission may also retain personal services on a contract basis.

§ 7. RULEMAKING POWER

In addition to the power to promulgate a compact over-order price or commission marketing orders as provided by this compact, the commission is further empowered to make and enforce such additional rules and regulations as it deems necessary to implement any provisions of this compact, or to effectuate in any other respect the purposes of this compact.

(7) Investigate costs and charges for producing, hauling, handling, processing, distributing, selling and for all other services performed with respect to milk.

(8) Examine current economic forces affecting producers, probable trends in production and consumption, the level of dairy farm prices in relation to costs, the financial conditions of dairy farmers, and the need for an emergency order to relieve critical conditions on dairy farms.

§ 9. EQUITABLE FARM PRICES

(b) A compact over-order price established pursuant to this section shall apply only to Class I milk. Such over-order price shall not exceed one dollar fifty cents per gallon. Beginning in nineteen hundred and ninety, and using that year as a base, the foregoing one dollar fifty cents per gallon maximum shall be adjusted annually by the rate of change in the Consumer Price Index as reported by the Bureau of Labor Statistics of the United States Department of Labor. For purposes of the pooling and equalization of an over-order price, the value of milk used in other use classifications shall be calculated at the appropriate class price established pursuant to the applicable federal order or state dairy regulation and the value of unregulated milk shall be calculated in relation to the nearest prevailing class price in accordance with and subject to such adjustments as the commission may prescribe in regulations.

(c) A commission marketing order shall apply to all classes and uses of milk.

(d) The commission is hereby empowered to establish the minimum price for milk to be paid by pool plants, partially regulated plants and all other handlers receiving milk from producers located in a regulated area. This price shall be established either as a compact over-order price or by one or more commission marketing orders. Whenever such a price has been established by either type of regulation, the legal obligation to pay such price shall be determined solely by the terms and purpose of the regulation without regard to the situs of the transfer of title, possession or any other factors not related to the purposes of the regulation and this compact. Producer-handlers as defined in an applicable federal market order shall not be subject to a compact over-order price. The commission shall provide for similar treatment of producer-handlers under commission marketing orders.

(e) In determining the price, the commission shall consider the balance between production and consumption of milk and milk products in the regulated area, the costs of production including, but not limited to the price of feed, the cost of labor including the reasonable value of the producer's own labor and management, machinery expense, and interest expense, the prevailing price for milk outside the regulated area, the purchasing power of the public and the price necessary to yield a reasonable return to the producer and distributor.

(f) When establishing a compact over-order price, the commission shall take such action as necessary and feasible to ensure that the over-order price does not create an incentive for producers to generate additional supplies of milk.

(g) The commission shall whenever possible enter into agreements with state or federal agencies for exchange of information or services for the purpose of reducing regulatory burden and cost of administering the compact. The commission may reimburse other agencies for the reasonable cost of providing these services.

§ 10. OPTIONAL PROVISIONS FOR PRICING ORDER

Regulations establishing a compact over-order price or a commission marketing order may contain, but shall not be limited to, any of the following:

(1) Provisions classifying milk in accordance with the form in which or purpose for which it is used, or creating a flat pricing program.

(2) With respect to a commission marketing order only, provisions establishing or providing a method for establishing separate minimum prices for each use classification prescribed by the commission, or a single minimum price for milk purchased from producers or associations of producers.

(3) With respect to an over-order minimum price, provisions establishing or providing a method for establishing such minimum price for Class I milk.

(4) Provisions for establishing either an over-order price or a commission marketing order may make use of any reasonable method for establishing such price or prices including flat pricing and formula pricing. Provision may also be made for location adjustments, zone differentials and for competitive credits with respect to regulated handlers who market outside the regulated area.

(5) Provisions for the payment to all producers and associations of producers delivering milk to all handlers of uniform prices for all milk so delivered, irrespective of the uses made of such milk by the individual handler to whom it is delivered, or for the payment of producers delivering milk to the same handler of uniform prices for all milk delivered by them.

(A) With respect to regulations establishing a compact over-order price, the commission may establish one equalization pool within the regulated area for the sole purpose of equalizing returns to producers throughout the regulated area.

(B) With respect to any commission marketing order, as defined in section two, subdivision nine, which replaces one or more terminated federal orders or state dairy regulation, the marketing area of now separate state or federal orders shall not be merged without the affirmative consent of each state, voting through its delegation, which is partly or wholly included within any such new marketing area.

(6) Provisions requiring persons who bring Class I milk into the regulated area to make compensatory payments with respect to all such milk to the extent necessary to equalize the cost of milk purchased by handlers subject to a compact over-order price or commission marketing order. No such provisions shall discriminate against milk producers outside the regulated area. The provisions for compensatory payments may require payment of the difference between the Class I price required to be paid for such milk in the state of production by a federal milk marketing order or state dairy regulation and the Class I price established by the compact over-order price or commission marketing order.

(7) Provisions specially governing the pricing and pooling of milk handled by partially regulated plants.

(8) Provisions requiring that the account of any person regulated under a compact over-order price shall be adjusted for any payments made to or received by such persons with respect to a producer settlement fund of any federal or state milk marketing order or other state dairy regulation within the regulated area.

(9) Provisions requiring the payment by handlers of an assessment to cover the costs of the administration and enforcement of such order pursuant to Article VII, Section 18(a).

(10) Provisions for reimbursement to participants of the Women, Infants and Children Special Supplemental Food Program of the United States Child Nutrition Act of 1966.

(11) Other provisions and requirements as the commission may find are necessary or appropriate to effectuate the purposes of this compact and to provide for the payment of fair and equitable minimum prices to producers.

ARTICLE V. RULEMAKING PROCEDURE

§ 11. RULEMAKING PROCEDURE

Before promulgation of any regulations establishing a compact over-order price or commission marketing order, including any provision with respect to milk supply under subsection 9(f), or amendment thereof, as provided in Article IV, the commission shall conduct an informal rulemaking proceeding to provide interested persons with an opportunity to present data and views. Such rulemaking proceeding shall be governed by

section four of the Federal Administrative Procedure Act, as amended (5 U.S.C. {553). In addition, the commission shall, to the extent practicable, publish notice of rulemaking proceedings in the official register of each participating state. Before the initial adoption of regulations establishing a compact over-order price or a commission marketing order and thereafter before any amendment with regard to prices or assessments, the commission shall hold a public hearing. The commission may commence a rulemaking proceeding on its own initiative or may in its sole discretion act upon the petition of any person including individual milk producers, any organization of milk producers or handlers, general farm organizations, consumer or public interest groups, and local, state or federal officials.

§ 12. FINDINGS AND REFERENDUM

(a) In addition to the concise general statement of basis and purpose required by section 4(b) of the Federal Administrative Procedure Act, as amended, (5 U.S.C. sec. 553(c)), the commission shall make findings of fact with respect to:

(1) Whether the public interest will be served by the establishment of minimum milk prices to dairy farmers under Article IV.

(2) What level of prices will assure that producers receive a price sufficient to cover their costs of production and will elicit an adequate supply of milk for the inhabitants of the regulated area and for manufacturing purposes.

(3) Whether the major provisions of the order, other than those fixing minimum milk prices, are in the public interest and are reasonably designed to achieve the purposes of the order.

(4) Whether the terms of the proposed regional order or amendment are approved by producers as provided in section thirteen.

§ 13. PRODUCER REFERENDUM

(a) For the purpose of ascertaining whether the issuance or amendment of regulations establishing a compact over-order price or a commission marketing order, including any provision with respect to milk supply under subsection 9(f), is approved by producers, the commission shall conduct a referendum among producers. The referendum shall be held in a timely manner, as determined by regulation of the commission. The terms and conditions of the proposed order or amendment shall be described by the commission in the ballot used in the conduct of the referendum, but the nature, content, or extent of such description shall not be a basis for attacking the legality of the order or any action relating thereto.

(b) An order or amendment shall be deemed approved by producers if the commission determines that it is approved by at least two-thirds of the voting producers who, during a representative period determined by the commission, have been engaged in the production of milk the price of which would be regulated under the proposed order or amendment.

(c) For purposes of any referendum, the commission shall consider the approval or disapproval by any cooperative association of producers, qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the Capper-Volstead Act, bona fide engaged in marketing milk, or in rendering services for or advancing the interests

of producers of such commodity, as the approval or disapproval of the producers who are members or stockholders in, or under contract with, such cooperative association of producers, except as provided in subdivision (1) hereof and subject to the provisions of subdivisions (2) through (5) hereof.

(1) No cooperative which has been formed to act as a common marketing agency for both cooperatives and individual producers shall be qualified to block vote for either.

(2) Any cooperative which is qualified to block vote shall, before submitting its approval or disapproval in any referendum, give prior written notice to each of its members as to whether and how it intends to cast its vote. The notice shall be given in a timely manner as established, and in the form prescribed, by the commission.

(3) Any producer may obtain a ballot from the commission in order to register approval or disapproval of the proposed order.

(4) A producer who is a member of a cooperative which has provided notice of its intent to approve or not to approve a proposed order, and who obtains a ballot and with such ballot expresses his approval or disapproval of the proposed order, shall notify the commission as to the name of the cooperative of which he or she is a member, and the commission shall remove such producer's name from the list certified by such cooperative with its corporate vote.

(5) In order to insure that all milk producers are informed regarding a proposed order, the commission shall notify all milk producers that an order is being considered and that each producer may register his approval or disapproval with the commission either directly or through his or her cooperative.

§ 14. TERMINATION OF OVER-ORDER PRICE OR MARKETING ORDER

(a) The commission shall terminate any regulations establishing an over-order price or commission marketing order issued under this article whenever it finds that such order or price obstructs or does not tend to effectuate the declared policy of this compact.

(b) The commission shall terminate any regulations establishing an over-order price or a commission marketing order issued under this article whenever it finds that such termination is favored by a majority of the producers who, during a representative period determined by the commission, have been engaged in the production of milk the price of which is regulated by such order; provided, that such majority have, during such representative period, produced for market more than 50 per centum of the volume of milk the price of which is regulated by such order; but such termination shall be effective only if announced on or before such date as may be specified in such marketing agreement or order.

(c) The termination or suspension of any order or provision thereof, shall not be considered an order within the meaning of this article and shall require no hearing, but shall comply with the requirements for informal rulemaking prescribed by section four of the Federal Administrative Procedure Act, as amended (5 U.S.C. {553).

ARTICLE VI. ENFORCEMENT

§ 15. RECORDS, REPORTS, ACCESS TO PREMISES

(a) The commission may by rule and regulation prescribe record keeping and reporting requirements for all regulated persons. For purposes of the administration and enforcement of this compact, the commission is authorized to examine the books and records of any regulated person relating to his or her milk business and for that purpose, the commission's properly designated officers, employees, or agents shall have full access during normal business hours to the premises and records of all regulated persons.

(b) Information furnished to or acquired by the commission officers, employees, or its agents pursuant to this section shall be confidential and not subject to disclosure except to the extent that the commission deems disclosure to be necessary in any administrative or judicial proceeding involving the administration or enforcement of this compact, an over-order price, a compact marketing order, or other regulations of the commission. The commission may promulgate regulations further defining the confidentiality of information pursuant to this section. Nothing in this section shall be deemed to prohibit (i) the issuance of general statements based upon the reports of a number of handlers, which do not identify the information furnished by any person, or (ii) the publication by direction of the commission of the name of any person violating any regulation of the commission, together with a statement of the particular provisions violated by such person.

(c) No officer, employee, or agent of the commission shall intentionally disclose information, by inference or otherwise, which is made confidential pursuant to this section. Any person violating the provisions of this section shall upon conviction be subject to a fine of not more than $1,000 or to imprisonment for not more than one year, or to both, and shall be removed from office. The commission shall refer any allegation of a violation of this section to the appropriate state enforcement authority or United States Attorney.

§ 16. SUBPOENA, HEARINGS AND JUDICIAL REVIEW

(a) The commission is hereby authorized and empowered by its members and its properly designated officers to administer oaths and issue subpoenas throughout all signatory states to compel the attendance of witnesses and the giving of testimony and the production of other evidence.

(b) Any handler subject to an order may file a written petition with the commission stating that any such order or any provision of any such order or any obligation imposed in connection therewith is not in accordance with law and praying for a modification thereof or to be exempted therefrom. He shall thereupon be given an opportunity for a hearing upon such petition, in accordance with regulations made by the commission. After such hearing, the commission shall make a ruling upon the prayer of such petition which shall be final, if in accordance with law.

(c) The district courts of the United States in any district in which such handler is an inhabitant, or has his principal place of business, are hereby vested with jurisdiction in equity to review such ruling, provided a bill in equity for that purpose is filed within thirty days from the date of the entry of such ruling. Service of process in such proceedings may be had upon the commission by delivering to it a copy of the bill of complaint. If the court determines that such ruling is not in accordance with law, it shall remand such proceedings to the commission with directions either (1) to make such ruling as the court shall determine

to be in accordance with law, or (2) to take such further proceedings as, in its opinion, the law requires. The pendency of proceedings instituted pursuant to this subdivision shall not impede, hinder, or delay the commission from obtaining relief pursuant to section eighteen. Any proceedings brought pursuant to section eighteen (except where brought by way of counterclaim in proceedings instituted pursuant to this section) shall abate whenever a final decree has been rendered in proceedings between the same parties, and covering the same subject matter, instituted pursuant to this section.

§ 17. ENFORCEMENT WITH RESPECT TO HANDLERS

(a) Any violation by a handler of the provisions of regulations establishing an over-order price or a commission marketing order, or other regulations adopted pursuant to this compact shall:

(1) Constitute a violation of the laws of each of the signatory states. Such violation shall render the violator subject to a civil penalty in an amount as may be prescribed by the laws of each of the participating states, recoverable in any state or federal court of competent jurisdiction. Each day such violation continues shall constitute a separate violation.

(2) Constitute grounds for the revocation of license or permit to engage in the milk business under the applicable laws of the participating states.

(b) With respect to handlers, the commission shall enforce the provisions of this compact, regulations establishing an over-order price, a commission marketing order or other regulations adopted hereunder by:

(1) Commencing an action for legal or equitable relief brought in the name of the commission in any state or federal court of competent jurisdiction; or

(2) With the agreement of the appropriate state agency of a participating state, by referral to the state agency for enforcement by judicial or administrative remedy.

(c) With respect to handlers, the commission may bring an action for injunction to enforce the provisions of this compact or the order or regulations adopted thereunder without being compelled to allege or prove that an adequate remedy of law does not exist.

ARTICLE VII. FINANCE

§ 18. FINANCE OF START-UP AND REGULAR COSTS

(a) To provide for its start-up costs, the commission may borrow money pursuant to its general power under section six, subdivision (d), paragraph four. In order to finance the costs of administration and enforcement of this compact, including pay back of start-up costs, the commission is hereby empowered to collect an assessment from each handler who purchases milk from producers within the region. If imposed, this assessment shall be collected on a monthly basis for up to one year from the date the commission convenes, in an amount not to exceed one-tenth of one percent of the applicable federal market order blend price per hundredweight of milk purchased from producers during the period of the assessment. The initial assessment may apply to the projected purchases of handlers for the two-month period following the date the commission convenes. In addition, if regulations establishing an over-order price or a compact marketing order are adopted, they may include an assessment for the specific purpose of their administration. These regulations shall provide for establishment of a reserve for the commission's ongoing operating expenses.

(b) The commission shall not pledge the credit of any participating state or of the United States. Notes issued by the commission and all other financial obligations incurred by it, shall be its sole responsibility and no participating state or the United States shall be liable therefor.

§ 19. AUDIT AND ACCOUNTS

In addition, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant and the report of the audit shall be included in and become part of the annual report of the commission.

(b) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the participating states and by any persons authorized by the commission.

(c) Nothing contained in this article shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any participating state or of the United States.

ARTICLE VIII. ENTRY INTO FORCE; ADDITIONAL MEMBERS AND WITHDRAWAL

§ 20. ENTRY INTO FORCE; ADDITIONAL MEMBERS

The compact shall enter into force effective when enacted into law by any three states of the group of states composed of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Virginia, and when the consent of Congress has been obtained. This compact shall also be open to states which are contiguous to any of the named states and open to states which are contiguous to participating states.

§ 21. WITHDRAWAL FROM COMPACT

Any participating state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after notice in writing of the withdrawal is given to the commission and the governors of all other participating states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

§ 22. SEVERABILITY

If any part or provision of this compact is adjudged invalid by any court, such judgment shall be confined in its operation to the part or provision directly involved in the controversy in which such judgment shall have been rendered and shall not affect or impair the validity of the remainder of this compact.

Chapter 417. AN ACT ESTABLISHING ALTERNATIVE PROCEDURES FOR DETERMINING COMPETENCY TO TESTIFY AND FOR TAKING TESTIMONY OF A WITNESS WITH MENTAL RETARDATION.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to immediately establish alternative procedures for determining competency to testify and for taking testimony of a witness with mental retardation, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

Chapter 278 of the General Laws, as appearing in the 1992 Official Edition, is hereby amended by inserting after section 16D the following section:-

Section 16E. (a) For the purposes of this section, the following words shall have the following meanings unless the context clearly requires otherwise:

"Witness with mental retardation", a witness in a proceeding whom the presiding justice has found after hearing, as provided in paragraph (1) of subsection (b), to have mental retardation.

"Mental retardation", substantial limitations in present functioning, manifesting before age eighteen, and characterized by significantly subaverage intellectual functioning, existing concurrently with related limitations in two or more of the following applicable skill areas: communication, self-care, home living, social skills, community use, self-direction, health and safety, functional academics, leisure and work.

(b) (1) In any judicial proceeding in which a witness with mental retardation will testify, the court, on its own motion or on motion of the proponent of the witness with mental retardation and after hearing on the witness' competency to testify, may order the use of one of the alternative procedures for taking testimony of the witness with mental retardation as hereinafter described; provided, however, that the court finds at the time of the order, by clear and convincing evidence in the case of a criminal proceeding, and by a preponderance of the evidence, in the case of a noncriminal proceeding, that the witness with mental retardation is likely, as a result of submitting to usual procedures for determining competency or as a result of testifying in open court, as the case may be, (i) to suffer severe psychological or emotional trauma; or (ii) to suffer a temporary loss of or regression in cognitive or behavioral functioning or communicative abilities, such that his ability to testify will be significantly impaired. If the court orders the use of an alternative procedure pursuant to this section, the court shall make and enter specific findings upon the record describing the reasons for such order.

(2) A judge who makes findings in accordance with paragraph (1), may order any of the following alternative procedures for determining the competency to testify or for taking the testimony of the witness with mental retardation:

(i) taking the testimony of the witness with mental retardation while permitting a person familiar to the witness, such as a family member, clinician, counselor, social worker or friend, to sit near or next to him;

(ii) taking the testimony of the witness with mental retardation in court but off the witness stand;

(iii) if the proceeding is a bench proceeding, taking the testimony of the witness with mental retardation in a setting familiar to the witness;

(iv) if the proceeding is a jury trial, videotaping the testimony, out of the presence of the jury or in a location chosen by the court or by agreement of the parties; or

(v) the procedure set forth in clause (i) in combination with clause (ii), (iii) or (iv).

(c) Testimony taken by a videotape pursuant to an order under paragraph 2 of subsection (b) shall be taken in the presence of the judge, counsel for all parties, and such other persons as the court may allow. Counsel shall be given the opportunity to examine or cross-examine the witness with mental retardation to the same extent as he would be permitted if ordinary procedures had been followed.

(d) In a criminal proceeding, the defendant shall have the right to be present during the taking of the testimony, to have an unobstructed view of the witness with mental retardation, and to have the witness' view of the defendant be unobstructed.

(e) An order issued under clause iv of paragraph (2) of subsection (b) that the testimony of the witness with mental retardation be videotaped out of the presence of the jury shall provide that the videotape be shown in court to the jury in the presence of the judge, the parties, and the parties' counsel. At such courtroom showing, the audio portion of the video shall be entered into the record as would any oral testimony and shall be treated in all respects as oral testimony to the jury.

(f) The videotape or giving of testimony taken by an alternative procedure pursuant to an order issued under clause iv of paragraph (2) of subsection (b) shall be admissible as substantive evidence to the same extent as and in place of live testimony by the witness in any proceeding for which such order is issued, or in any related proceeding against the same party when consistent with the interests of justice; provided, however, that such order is entered or re-entered based on current findings at the time when, or within a reasonable time prior to, the offering of the videotape or testimony into evidence; and, provided further, that in the case of a related criminal proceeding, the requirements of subsection (d) were satisfied when the videotape was recorded or the alternative procedure was used.

(g) Whenever pursuant to an order issued under clause iv of paragraph (2) of subsection (b), testimony is recorded on videotape, the court shall ensure that:

(i) the recording equipment is capable of making an accurate recording and is operated by a competent operator;

(ii) the recording is in color and is taken in well-lit conditions;

(iii) the presence of the presiding judge, the attorneys, the defendant or parties, if in the room, and all other persons present, is stated on the recording;

(iv) the witness with mental retardation is visible at all times and, to the extent reasonably possible, the recording shows all persons present in the room as a jury would perceive them in open court;

(v) every voice on the recording is audible and identifiable;

(vi) the recording is accurate, undistorted in picture or sound quality, and has not been altered; and

(vii) each party is afforded an opportunity to view the recording before it is shown in the courtroom.

(h) The fact that the witness with mental retardation has been found in a court proceeding to be incompetent to make informed decisions of a personal, medical or financial nature, or that he is under a guardianship or conservatorship, shall not preclude the witness from testifying if he is found to be competent to testify, and shall not preclude a determination of competency to testify.

(i) The use of alternative procedures shall not be denied because they may take significantly more time than conventional procedures.

(j) Expert opinion shall be admissible at any hearing held pursuant to this section, including hearings to determine the competency of a witness with mental retardation to testify.

(k) Nothing in this section shall be construed to prohibit a court from using other appropriate means, consistent with this section and other general or special laws and with the defendant's rights, to protect a witness with mental retardation from trauma during a court proceeding.

SECTION 2. The purposes of the Massachusetts sentencing commission shall be to recommend sentencing policies and practices for the commonwealth which:

(1) punish the offender justly;

(2) secure the public safety of the commonwealth by providing a swift and sure response to the commission of crime;

(3) meet the purposes of sentencing which are:

(A) to reflect the seriousness of the offense;

(B) to promote respect for the law;

(C) to provide just punishment for the offense;

(D) to afford adequate deterrence to criminal conduct;

(E) to protect the public from further crimes of the defendant; and

(F) to provide the defendant with educational or vocational training;

(4) provide certainty and fairness in sentencing, avoiding unwarranted sentencing disparities among defendants with similar criminal records who have been found guilty of similar criminal conduct, while maintaining judicial discretion and sufficient flexibility to permit individualized sentences warranted by mitigating or aggravating factors;

(5) promote truth in sentencing, in order that all parties involved in the criminal justice process, including the prosecution, the defendant, the court, the victim and the public, are aware of the nature and length of the sentence and basis of it;

(6) ration correctional capacity and other criminal justice resources to sentences imposed, making said rationing explicit, rational and coherent, in order to:

(a) afford sufficient correctional capacity to incarcerate violent offenders consistent with paragraph one;

(b) evaluate, on a yearly basis, the performance of said rationing, making appropriate remedial recommendations consistent with subparagraph (8) of paragraph (c) of section one;

(c) prevent the prison population in the commonwealth from exceeding the capacity of the prisons, and to prevent premature release for any other reason, and to serve the ends of truth in sentencing by taking into account, in establishing sentencing policies and practices for the commonwealth, the nature and capacity of correctional facilities and community sanctions available in the commonwealth consistent with protecting public safety;

(7) encourage the development and implementation of intermediate sanctions in appropriate cases as a sentencing option, consistent with protecting public safety;

(8) enhance the value of criminal sanctions and ensure that the criminal penalties imposed are the most appropriate ones by encouraging the development of a wider array of criminal sanctions;

(9) make offenders accountable to the community for their criminal behavior, through community service, restitution, and a range of intermediate sanctions;

(10) evaluate the impact, if any, of the repeal of section one hundred and twenty-nine of chapter one hundred and twenty-seven of the General Laws on correctional facility capacity for the purpose of sentencing;

(11) nothing contained in this section shall be construed as creating any right of action.

SECTION 3. (a) (1) The commission, by affirmative vote of at least six members of the commission, and consistent with all pertinent provisions of this act and the General Laws, except as hereinafter provided, shall recommend sentencing guidelines.

(2) The sentencing guidelines shall be used by the district and superior courts of the commonwealth, and the Boston municipal court, in imposing a sentence in every criminal case. Said sentence shall not be suspended in whole or in part. The sentencing judge shall impose a sentence within a range prescribed by the sentencing guidelines for every offense, unless the sentencing judge sets forth in writing reasons for departing from that range, on a sentencing statement as set forth in paragraph (h) of section three herein, based on a finding that there exists one or more aggravating or mitigating circumstances that should result in a sentence different from the one otherwise prescribed by the guidelines. The commission shall establish non-exclusive aggravating and mitigating circumstances to guide the sentencing judge, as set forth in paragraph (d) of section three. In the absence of an applicable sentencing guideline the court shall impose an appropriate sentence, having due regard for the purposes set forth in section two.

(3) The sentencing guidelines shall be based on reasonable offense characteristics, taking into account the nature and seriousness of each offense, and reasonable offender characteristics taking into account the offender's character, background, amenability to correction, and criminal history and the availability of the commonwealth's criminal justice and public safety resources.

For every criminal offense under the laws of the commonwealth, the guidelines shall establish:

(A) The circumstances, if any, under which the imposition of intermediate sanctions may be proper, and the circumstances under which imprisonment may be proper.

(B) Appropriate intermediate sanctions for offenders for whom straight imprisonment may not be necessary or appropriate. In establishing such intermediate sanctions, the commission shall make specific reference to noninstitutional sanctions, including but not limited, to standard probation, intensive supervision probation, community service, home confinement, day reporting, residential programming, restitution and means-based fines.

(C) A target sentence for offenders for whom an intermediate sanction may not be appropriate based on a combination of reasonable offense and offender characteristics for each offense, and the adequacy of the commonwealth's criminal justice and public safety resources. The guidelines shall provide that, for each target sentence, the sentencing judge may impose a maximum sentence within a range to be established by the commission for each offense, and a minimum sentence of two-thirds of the maximum sentence; provided, however, that for target sentences of two years or greater the range may not be greater than twenty percent greater or less than the target sentence; and provided, further, that for target sentences of less than two years, the sentencing judge may impose an intermediate sanction. Within that range, the sentencing court may impose any sentence without stating its reasons therefor.

The commission shall act consistent with the need for flexibility, expeditious administration, case-flow management and resources of the trial court departments in sentencing guidelines.

(D) The circumstances, which shall not be considered exclusive, under which a sentencing judge may depart upward or downward from the range otherwise prescribed by the guidelines.

(b) The commission shall adopt, in conjunction with the sentencing guidelines, general policy statements, which shall be used in interpreting the guidelines.

(c) In its development of the sentencing guidelines, the commission shall conduct an empirical study in order to ascertain, to the extent practical, a survey of those individuals appearing before the commonwealth's criminal courts, and those committed to probation, prison and jail. It should also include the average sentences imposed for all offenses prior to the promulgation by the commission of the sentencing guidelines, and the length of prison terms actually served in such cases. The commission shall not be bound by such average sentences, and shall independently develop a sentencing range that is consistent with the purposes of sentencing described in section two; provided, however, that the commission shall assure that the target sentences established for each offense shall not be higher than the averages determined herein, solely because of the repeal of "good time" as set forth in section eight A of this act. The commission shall utilize this data and develop any other data it deems necessary, in order to assess the impact of the sentencing guidelines and carry out the purposes set forth in said section two.

(d) In establishing non-exclusive aggravating and mitigating circumstances pursuant to subparagraph (2) of paragraph (a) of section three, the commission shall determine whether the following kinds of factors, among others, are relevant, and shall take such factors into account only to the extent that it deems to be relevant:

(1) factors which describe the nature and circumstances of the offense conduct;

(2) factors which describe the offender's mental state at the time of the offense;

(3) factors which describe the relationship, if any, between the offender and victim;

(4) factors which describe the nature and degree of the harm caused by the offense;

(5) the community view of the gravity of the offense;

(6) the public concern generated by the offense;

(7) the deterrent effect a particular sentence may have on the commission of the offense by others;

(8) the current incidence of the offense in the community and in the commonwealth as a whole;

(9) the role in the offense of each offender in cases involving multiple offenders;

(10) the age of the offender;

(11) the mental and emotional condition of the offender, to the extent that such condition mitigates the defendant's culpability or to the extent that such condition is otherwise plainly relevant;

(12) the offender's physical condition, including drug dependence;

(13) the offender's family ties and responsibilities;

(14) the offender's community ties;

(15) the offender's degree of dependence upon criminal activity for a livelihood;

(16) the offender's character and personal history; and

(17) the offender's amenability to correction, treatment, or supervision.

(e) The maximum sentence within the range established by the sentencing guidelines for each offense shall not exceed the maximum penalty for the offense as set forth in the General Laws. The minimum sentence within said range shall not be below any mandatory minimum term prescribed by statute. However, except for the crimes set forth in section one of chapter two hundred and sixty-five of the General Laws, the sentencing judge may depart from said range, and impose a sentence below any mandatory minimum term prescribed by statute, if the judge sets forth in writing reasons for departing from that range, on a sentencing statement as set forth in paragraph (h) of section three, based on a finding that there exists one or more mitigating circumstances that should result in a sentence different from the one otherwise prescribed by the guidelines and below any applicable mandatory minimum term.

The commission shall assure that the guidelines are entirely neutral as to the race, sex, national origin, creed, religion and socio-economic status of offenders.

(f) The commission periodically shall assess the impact of the sentencing guidelines in order to determine the type and amount of correctional resources needed. In particular, the commission shall examine the impact of said guidelines on intermediate sanctions and correctional institutions and may consult with all appropriate authorities for this purpose. Such amendments shall be accompanied by a report stating the reasons therefor. The amendments to the guidelines shall only take effect if enacted into law.

(h) The commission shall promulgate the form of a sentencing statement, conforming to the sentencing guidelines, which shall be used by the sentencing judge in the application of the guidelines when imposing a sentence. The sentencing statement shall be simple and easy to complete. The sentencing judge shall complete the statement for every sentence imposed. One copy of the sentencing statement shall be included in the case file, and one copy shall be forwarded by the court to the commissioner, which shall be used by the commission to submit to the legislature, at least annually, an analysis of sentencing patterns under the guidelines.

(i) Any inmate sentenced to a state or county correctional facility prior to the effective date of the sentencing guidelines shall be subject to the law, regulation and rules governing the issuance of parole and the supervision of parole at the time the offense was committed.

(j) Those persons sentenced to a term of imprisonment as prescribed by the sentencing guidelines established by the Sentencing Commission may be eligible for parole after serving the minimum sentence imposed, less credit for deductions for good conduct earned under section one hundred and twenty-nine D of chapter one hundred and twenty-seven of the General Laws.

(k) The provisions of the General Laws relating to publication and public hearing procedure, shall apply to the promulgation of guidelines pursuant to this section.

For the purposes of this act, the words intermediate sanction shall mean any of a number of sanctions which are served or satisfied by the offender within the community in which the offender committed the offense or in the community in which the offender resides and may include, but shall not be limited to, standard probation, intensive supervision probation, community service, home confinement, day reporting, residential programming, restitution and means-based fines; provided, however, that in no event shall a state employee be replaced by an offender serving an intermediate sanction.

(1) the sentence was imposed in violation of law; or

(2) the sentence was imposed as a result of an incorrect application of the sentencing guidelines; or

(3) the departure upward from the applicable guideline range was an abuse of discretion; or

(4) the sentence was imposed for an offense for which there is no sentencing guideline and is plainly unreasonable.

(b) The commonwealth, with the personal approval of the attorney general or a district attorney, may appeal an otherwise final sentence if:

(1) the sentence was imposed in violation of law;

(2) the sentence was imposed as a result of an incorrect application of the sentencing guidelines;

(3) the departure downward from the applicable guideline range was an abuse of discretion; or

(4) the sentence was imposed for an offense for which there is no sentencing guideline and is plainly unreasonable.

(c) In the case of a plea agreement entered into pursuant to Rule twelve of the Massachusetts rules of criminal procedure.

(1) a defendant may not appeal a sentence unless the sentence imposed is greater than the sentence prescribed by the sentencing guidelines; and

(2) the commonwealth may not appeal a sentence unless the sentence imposed is less than the sentence prescribed by the sentencing guidelines.

(3) a sentence imposed by the court in accordance with the recommendation of either the defendant or the commonwealth may not be appealed by the party which made the recommendation; and a sentence imposed in accordance with a jointly-agreed recommendation may not be appealed by either the defendant or the commonwealth.

(d) Appeals from sentences imposed under the sentencing guidelines shall be conducted in accordance with the Massachusetts rules of appellate procedure.

(e) If imprisonment is imposed, the entry of an appeal under the provisions of this section shall not stay the execution of the sentence unless the judge imposing it, upon a showing of a reasonable likelihood of success, finds that execution of the sentence should be stayed pending final determination of the appeal.

SECTION 5. The Massachusetts sentencing commission shall submit the initial sentencing guidelines promulgated under this act to the general court within twelve months after the effective date of this act unless the date for submission is extended by law. The guidelines shall take effect only if enacted into law.

CUSTODIAL TRUSTEE'S RECEIPT AND ACCEPTANCE

I, _____ (name of custodial trustee) acknowledge receipt of the custodial trust property described below or in the attached instrument and accept the custodial trust as custodial trustee for _____ (name of beneficiary) under the Massachusetts Uniform Custodial Trust Act. _____

(Signature of Custodial Trustee)

(c) Upon accepting custodial trust property, a person designated as custodial trustee under this chapter shall be subject to personal jurisdiction of the court with respect to any matter relating to the custodial trust.

Section 5. (a) Unless otherwise directed by an instrument designating a custodial trustee pursuant to section three, a person, including a fiduciary other than a custodial trustee, who holds property of, or owes a debt to, an incapacitated individual not having a conservator may make a transfer to an adult member of the beneficiary's family or to a trust company as custodial trustee for the use and benefit of the incapacitated individual. If the value of the property or the debt exceeds twenty thousand dollars, the transfer shall not be effective unless authorized by the court.

(b) A written acknowledgement of delivery, signed by a custodial trustee, is a sufficient receipt and discharge for property transferred to the custodial trustee pursuant to this section.

Section 6. (a) Beneficial interests in a custodial trust created for multiple beneficiaries shall be deemed to be separate custodial trusts of equal undivided interests for each beneficiary. Except in a transfer or declaration for use and benefit of husband and wife, for whom survivorship is presumed, a right of survivorship shall not exist unless the instrument creating the custodial trust specifically provides for such rights of survivorship

such rights required by law.

Section 7. (a) If appropriate, a custodial trustee shall register or record the instrument vesting title to custodial trust property.

(b) If the beneficiary is not incapacitated, a custodial trustee shall follow the directions of the beneficiary in the management, control, investment, or retention of the custodial trust property. In the absence of effective contrary direction by the beneficiary while not incapacitated, the custodial trustee shall observe the standard of care that would be observed by a prudent person dealing with property of another and not limited by any other law restricting investments by fiduciaries; provided, however, that a custodial trustee, in the custodial trustee's discretion, may retain any custodial trust property received from the transferor. If a custodial trustee has a special skill or expertise or is named custodial trustee on the basis of representation of a special skill or expertise, the custodial trustee shall use such skill or expertise.

(c) Subject to subsection (b), a custodial trustee shall take control of and collect, hold, manage, invest, and reinvest custodial trust property.

(d) A custodial trustee at all times shall keep custodial trust property of which the custodial trustee has control, separate from all other property in a manner sufficient to identify it clearly as custodial trust property of the beneficiary. Custodial trust property, the title to which is subject to recordation, is so identified if an appropriate instrument so identifying the property is recorded, and custodial trust property subject to registration is so identified if it is registered, or held in an account in the name of the custodial trustee, designated in substance: "as custodial trustee for _____ (name of beneficiary) under the Massachusetts Uniform Custodial Trust Act."

(e) A custodial trustee shall keep records of all transactions with respect to custodial trust property, including information necessary for the preparation of tax returns, and shall make the records and information available at reasonable times to the beneficiary or legal representative of the beneficiary.

(f) The exercise of a durable power of attorney for an incapacitated beneficiary shall not be effective to terminate or direct the administration or distribution of a custodial trust.

Section 8. (a) A custodial trustee, acting in a fiduciary capacity, shall have all the rights and powers over custodial trust property which an unmarried adult owner has over individually owned property, but a custodial trustee may exercise such rights and powers in a fiduciary capacity only.

(b) This section shall not relieve a custodial trustee from liability for a violation of section seven.

Section 9. (a) A custodial trustee shall pay to the beneficiary or expend for the beneficiary's use and benefit so much or all of the custodial trust property as the beneficiary while not incapacitated may direct from time to time.

(b) If the beneficiary is incapacitated, the custodial trustee shall expend so much or all of the custodial trust property as the custodial trustee considers advisable for the use and benefit of the beneficiary and individuals who were supported by the beneficiary when the beneficiary became incapacitated, or who are legally entitled to support by the beneficiary. Expenditures may be made in the manner, when, and to the extent that the custodial trustee determines suitable and proper, without court order and without regard to other support, income, or property of the beneficiary.

(c) A custodial trustee may establish checking, savings, or other similar accounts of reasonable amounts under which either the custodial trustee or the beneficiary may withdraw funds from, or draw checks against, the accounts. Funds withdrawn from, or checks written against, the account by the beneficiary are distributions of custodial trust property by the custodial trustee to the beneficiary.

Section 10. (a) The custodial trustee shall administer the custodial trust as for an incapacitated beneficiary if (i) the custodial trust was created under section five, (ii) the transferor has so directed in the instrument creating the custodial trust, or (iii) the custodial trustee has determined that the beneficiary is incapacitated.

(b) A custodial trustee may determine that the beneficiary is incapacitated in reliance upon (i) previous direction or authority given by the beneficiary while not incapacitated, including direction or authority pursuant to a durable power of attorney, (ii) the certificate of the beneficiary's physician, or (iii) other persuasive evidence.

(c) If a custodial trustee for an incapacitated beneficiary reasonably concludes that the beneficiary's incapacity has ceased, or that circumstances concerning the beneficiary's ability to manage property and business affairs have changed since the creation of a custodial trust directing administration as for an incapacitated beneficiary, the custodial trustee may administer the trust as for a beneficiary who is not incapacitated.

(d) On petition of the beneficiary, the custodial trustee, or other person interested in the custodial trust property or the welfare of the beneficiary, the court shall determine whether the beneficiary is incapacitated.

(e) Absent determination of incapacity of the beneficiary under subsection (b) or (d), a custodial trustee who has reason to believe that the beneficiary is incapacitated shall administer the custodial trust in accordance with the provisions of this chapter applicable to an incapacitated beneficiary.

(f) Incapacity of a beneficiary shall not terminate (i) the custodial trust, (ii) any designation of a successor custodial trustee, (iii) rights or powers of the custodial trustee, or (iv) any immunities of third persons acting or instructions of the custodial trustee.

Section 11. A third person in good faith and without a court order may act on instructions of, or otherwise deal with, a person purporting to make a transfer as, or purporting to act in the capacity of, a custodial trustee. In the absence of knowledge to the contrary, the third person shall not be responsible for determining:

(1) the validity of the purported custodial trustee's designation;

(2) the propriety of, or the authority under this chapter for, any action of the purported custodial trustee;

(3) the validity or propriety of an instrument executed or instruction given pursuant to this chapter either by the person purporting to make a transfer or declaration or by the purported custodial trustee; or

(4) the propriety of the application of property vested in the purported custodial trustee.

Section 12. (a) A claim based on a contract entered into by a custodial trustee acting in a fiduciary capacity, an obligation arising from the ownership or control of custodial trust property, or a tort committed in the course of administering the custodial trust, may be asserted by a third person against the custodial trust property by proceeding against the custodial trustee in a fiduciary capacity, whether or not the custodial trustee or the beneficiary is personally liable.

(b) A custodial trustee shall not be personally liable to a third person:

(1) on a contract properly entered into in a fiduciary capacity unless the custodial trustee fails to reveal such capacity or to identify the custodial trust in the contract; or

(2) for an obligation arising from control of custodial trust property or for a tort committed in the course of the administration of the custodial trust unless the custodial trustee is personally at fault.

(c) A beneficiary shall not be personally liable to a third person for an obligation arising from beneficial ownership of custodial trust property or for a tort committed in the course of administration of the custodial trust unless the beneficiary is personally in possession of the custodial trust property giving rise to the liability or is personally at fault.

(d) Subsections (b) and (c) shall not preclude actions or proceedings to establish liability of the custodial trustee or beneficiary to the extent the person sued is protected as the insured by liability insurance.

Section 13. (a) Before accepting the custodial trust property, a person designated as custodial trustee may decline to serve by notifying the person who made the designation, the transferor, or the transferor's legal representative. If an event giving rise to a transfer has not occurred, the substitute custodial trustee designated under section three shall become the custodial trustee, or, if a substitute custodial trustee has not been designated, the person who made the designation may designate a substitute custodial trustee pursuant to section three. In other cases, the transferor or the transferor's legal representative may designate a substitute custodial trustee.

(b) A custodial trustee who has accepted the custodial trust property may resign by (i) delivering written notice to a successor custodial trustee, if any, the beneficiary and, if the beneficiary is incapacitated, to the beneficiary's conservator, if any, and (ii) transferring or registering, or recording an appropriate instrument relating to, the custodial trust property, in the name of, and delivering the records to, the successor custodial trustee identified under subsection (c).

(c) If a custodial trustee or successor custodial trustee is ineligible, resigns, dies, or becomes incapacitated, the successor designated under subsection (g) of section two or under section three shall become custodial trustee. If there is no effective provision for a successor, the beneficiary, if not incapacitated, may designate a successor custodial trustee. If the beneficiary is incapacitated, or fails to act within ninety days after the ineligibility, resignation, death, or incapacity of the custodial trustee, the beneficiary's conservator shall become successor custodial trustee. If the beneficiary does not have a conservator or the conservator fails to act, the resigning custodial trustee may designate a successor custodial trustee.

(d) If a successor custodial trustee is not designated pursuant to subsection (c), the transferor, the legal representative of the transferor or of the custodial trustee, an adult member of the beneficiary's family, the guardian of the beneficiary, a person interested in the custodial trust property, or a person interested in the welfare of the beneficiary, may petition the court to designate a successor custodial trustee.

(e) A custodial trustee who declines to serve or resigns, or the legal representative of a deceased or incapacitated custodial trustee, as soon as practicable, shall put the custodial trust property and records in the possession and control of the successor custodial trustee. The successor custodial trustee may enforce the obligation to deliver custodial trust property and records and becomes responsible for each item as received.

(f) A beneficiary, the beneficiary's conservator, an adult member of the beneficiary's family, a guardian of the person of the beneficiary, a person interested in the custodial trust property, or a person interested in the welfare of the beneficiary, may petition the court to remove the custodial trustee for cause and designate a successor custodial trustee, to require the custodial trustee to furnish a bond or other security for the faithful performance of fiduciary duties, or for other appropriate relief.

Section 14. Except as otherwise provided in the instrument creating the custodial trust, in an agreement with the beneficiary, or by court order, a custodial trustee:

(1) shall be entitled to reimbursement from custodial trust property for reasonable expenses incurred in the performance of fiduciary services;

(2) shall have a noncumulative election, to be made no later than six months after the end of each calendar year, to charge a reasonable compensation for fiduciary services performed during such year; and

(3) need not furnish a bond or other security for the faithful performance of fiduciary duties.

The statements shall be provided to the beneficiary or to the beneficiary's legal representative, if any. Upon termination of the beneficiary's interest,

the custodial trustee shall furnish a current statement to the person to whom the custodial trust property is to be delivered.

(b) A beneficiary, the beneficiary's legal representative, an adult member of the beneficiary's family, a person interested in the custodial trust property, or a person interested in the welfare of the beneficiary may petition the court for an accounting by the custodial trustee or the custodial trustee's legal representative.

(c) A successor custodial trustee may petition the court for an accounting by a predecessor custodial trustee.

(d) In an action or proceeding under this chapter or in any other proceeding, the court may require or permit the custodial trustee or the custodial trustee's legal representative to account. The custodial trustee or the custodial trustee's legal representative may petition the court for approval of final accounts.

(e) If a custodial trustee is removed, the court shall require an accounting and order delivery of the custodial trust property and records to the successor custodial trustee and the execution of all instruments required for transfer of the custodial trust property.

(f) On petition of the custodial trustee or any person who could petition for an accounting, the court, after notice to interested persons, may issue instructions to the custodial trustee or review the propriety of the acts of a custodial trustee or the reasonableness of compensation determined by the custodial trustee for the services of the custodial trustee or others.

Section 16. (a) Except as provided in subsection (c), unless previously barred by adjudication, consent, or limitation, a claim for relief against a custodial trustee for accounting or breach of duty shall be barred as to a beneficiary, a person to whom custodial trust property is to be paid or delivered, or the legal representative of an incapacitated or deceased beneficiary or payee:

(1) who has received a final account or statement fully disclosing the matter unless an action or proceeding to assert the claim is commenced within two years after receipt of the final account or statement; or

The IV-D agency shall maintain any undisbursed payments, along with any payments that are unidentifiable as to either the obligee or the obligor, in the child support trust fund payments account for three years. If, at the expiration of such time the IV-D agency has been unable to locate the obligee on whose behalf the payments were remitted or has not transferred the payments to the department of public welfare or has not returned the payments to the obligor or has not identified the obligor or obligee of the payments and the payments remain undisbursed or unidentified, the IV-D agency shall remit such funds to the state treasurer pursuant to the provisions of chapter two hundred A of the General Laws, notwithstanding the provisions of subsection (g) of section twelve.

SECTION 31. Said section 6 of said chapter 119A, as so appearing, is hereby further amended by striking out subsection (b) and inserting in place thereof the following subsection:-

(b)(1) A child support obligation which is unpaid in whole or in part shall, as of the date on which it was due, be a lien in favor of the obligee in an amount sufficient to satisfy unpaid child support, whether the amount due is a fixed sum or is accruing periodically. An amount of restitution established by a court or an administrative agency of competent jurisdiction shall be due and payable as of the date such amount is established. Such lien shall incorporate any unpaid child support which may accrue in the future and shall not terminate except as provided in subparagraph (5). Upon recordation or registration in accordance with subparagraph (3), such lien shall encumber all tangible and intangible property, whether real or personal, and any interest in property, whether legal or equitable, belonging to the obligor. An interest in property acquired by the obligor after the child support lien arises shall be subject to such lien, subject to the limitations provided in subparagraphs (3) and (5).

(2) When the IV-D agency determines that child support is unpaid, it shall send written notice to the obligor by first class mail, if his address is known to the IV-D agency no less frequently than once a year. The notice shall specify the amount unpaid as of the date of the notice or other date certain and the right of the obligor to request an administrative review by filing a written request with the IV-D agency within thirty days of the date of the notice. If the obligor files a timely written request for an administrative review, the IV-D agency shall conduct the review within twenty-one days of said request and

shall not conduct further administrative enforcement action hereunder until the review is completed. If the obligor has failed to keep the IV-D agency informed of his address as required by section twelve and the agency cannot otherwise determine the current address of the obligor from other information available to the agency, the agency may proceed under the provisions of subparagraph (4).

(3) The IV-D agency shall file notice of a lien with respect to real property in the registry of deeds or registry district for any county or registry district in the commonwealth where the obligor owns property, or in any other registry of deeds or registry district in the county where the obligor resides and may file such notice in any other registry of deeds or registry district in the commonwealth. The social security number of the obligor shall be noted on the notice of the lien. The filing shall operate to perfect a lien when duly recorded and indexed in the grantor index or when registered, as the case may be, as to any interest in real property owned by the obligor that is located in the county or registry district where the lien is recorded or registered. A special index for liens created under this chapter shall be maintained in each registry of deeds or registry district. If the obligor subsequently acquires an interest in real property, the lien shall be perfected upon the recording or registering of the instrument by which such interest is obtained in the registry of deeds or registry district in the county or registry district where the notice of the lien was filed within six years prior thereto. A child support lien shall be perfected as to real property when both the notice thereof and a deed or other instrument in the name of the obligor are on file in the registry of deeds or registry district for the county or registry district where the obligor owns property without respect to whether the lien or the deed or other instrument was recorded or registered first. The IV-D agency shall also file notice of a child support lien, with the social security number of the obligor noted thereon, with respect to personal property with the state secretary, the registrar of motor vehicles, a municipality, or other office or agency responsible for the filing or recording of liens. The filing of a notice of a lien or of a waiver or release of a lien shall be received and registered or recorded without payment of a fee. The IV-D agency may file notice of a lien or waiver or release of a lien or may transmit information to or receive information from any registry of deeds or other office or agency responsible for the filing or recording of liens by any means, including electronic means. The perfected lien shall not be subordinate to any recorded lien except a lien that has been perfected before the date on which the child support lien was perfected; provided, however, that the IV-D agency may, upon request of the obligor, subordinate the child support lien to a subsequently perfected mortgage. To assist in the collection of a debt by the IV-D agency, the IV-D agency may disclose the name of an obligor against whom a lien has arisen and other identifying information including the existence of the lien and the amount of the outstanding obligation.

(4) If the collection of an unpaid child support will be jeopardized by delay as determined by the commissioner, the IV-D agency shall proceed forthwith to collect such unpaid child support by perfecting a lien under subparagraph (3) or by executing a levy or seizure of property under subparagraph (6) or by any other available remedy without respect to the thirty-day notice period provided in subparagraph (2).

(5) The lien shall expire upon either termination of a current child support obligation and payment in full of unpaid child support, or upon release of the lien by the IV-D agency. In any event, a lien under this chapter shall expire six years from the date on which such lien was first perfected; provided, however, that such lien may be extended for additional periods of six years each by recording or registering, within the one year next before the expiration of the unexpired lien, a further notice of the lien, as provided in subparagraph (3), without affecting the priority of such lien. Expiration of the lien shall not terminate the underlying order or judgment of child support. The IV-D agency may issue a full or partial waiver of any lien imposed under this section. Such waiver or release shall be conclusive evidence that the lien upon the property covered by the waiver or release is extinguished.

(6) If any obligor against whom a lien has arisen and has been perfected under subparagraph (3) neglects or refuses to pay the sum due after the expiration of the thirty-day notice period specified in subparagraph (2), the IV-D agency may collect such unpaid child support and levy upon all property as provided herein. For the purposes of this section, the word "levy" shall include the power of distraint and seizure by any means. A person in possession of property upon which a lien having priority under subparagraph (3) has been perfected shall, upon demand, surrender the property to the IV-D agency as provided herein. A levy on property held by an organization with respect to a life insurance or endowment contract shall, without necessity for the surrender of the contract document, constitute a demand by the IV-D agency for payment of the amount of the lien and the exercise of the right of the obligor to the advance of such amount. Such organization shall pay the amount ninety days after service of notice of levy. The levy shall be deemed to be satisfied if the organization pays over to the IV-D agency the full amount which the obligor could have had advanced to him, provided that the amount does not exceed the amount of the lien. Whenever any property upon which levy has been made is not sufficient to satisfy the claim of the commonwealth for which levy is made, the IV-D agency may thereafter, as often as may be necessary, proceed to levy, without further notice, upon any other property of the obligor liable to levy upon first perfecting its lien as provided in subparagraph (3), until the amount due from him, together with expenses, is fully paid. With respect to a seizure or levy of real property or tangible personal property, the IV-D agency shall proceed in the manner prescribed by sections fifty-six, fifty-eight, fifty-nine and sixty of chapter sixty-two C, insofar as said sections are not inconsistent with the provisions of this section. The IV-D agency shall have any rights to property remaining after satisfying superior perfected liens, as provided in subparagraph (3) of this section.

(7) Upon demand by the IV-D agency, a person who fails or refuses to surrender property subject to levy pursuant to this section shall be liable in his own person and estate to the commonwealth in a sum equal to the value of the property not so surrendered but not exceeding the amount of the lien, together with costs and interest at the rate established by section thirty-two of chapter sixty-two C from the date of the levy. In addition, any person required to surrender property who fails or refuses to surrender such property without reasonable cause shall be liable for a penalty equal to twenty-five percent of the amount recoverable. The interest or penalty incurred under this subparagraph shall be paid to the

commonwealth and shall not be credited against the child support liability.

(8) Any person in possession of, or obligated with respect to, property who, upon demand by the IV-D agency, surrenders the property or discharges the obligation to the IV-D agency, or who pays a liability under this section, shall be discharged from any obligation or liability to the obligor arising from the surrender or payment. In the case of a levy on an organization with respect to a life insurance or endowment contract which is satisfied pursuant to this section, the organization shall be discharged from any obligation or liability to any beneficiary arising from the surrender or payment.

(9) In any case where there has been a refusal or neglect to pay child support or to discharge any liability in respect thereto, whether or not a levy has been made, the IV-D agency, in addition to other forms of relief, may file a civil action in the department of the trial court which originally entered the order for child support to enforce the lien under this section. The filing of a civil action shall not preclude the IV-D agency from enforcing the child support order through the use of any administrative means permitted by federal or state law.

(10) The IV-D agency shall send timely written notice to the obligor by first-class mail of any action taken to perfect a lien, execute a levy or seize any property. The notice shall specify the amount due, the steps to be followed to release the property so placed under lien, levied or seized and the time period within which to respond to such notice and shall include the name of the court or administrative agency of competent jurisdiction which entered the child support order.

(11) Any person aggrieved by a determination of the IV-D agency pursuant to subparagraph (2) or subparagraph (4) may, upon exhaustion of the procedures for administrative review provided herein, seek judicial review in the court where the order or judgment was issued or registered. Commencement of the review shall not stay enforcement of child support hereunder. The court may review the proceedings taken by the agency under the provisions of this section and may correct any mistakes of fact but, in accordance with section thirteen of this chapter, the court shall not reduce or retroactively modify child support arrears.

SECTION 50. Paragraph 3 of subsection (f) of section 12 of said chapter 119A, as so appearing, is hereby amended by adding the following sentence:- A finding by the court, by an administrative agency of competent jurisdiction, or by the IV-D agency that the employer has failed or neglected to comply with an order of income assignment executed pursuant to this section shall be prima facie evidence of the liability of such employer in such proceeding.

SECTION 51. Said section 12 of said chapter 119A, as so appearing, is hereby further amended by striking out, in lines 179 and 180, the words "address or employment under subsection (d)" and inserting in place thereof the following words:- employment under subsection (d) and changes in address under subsection (n).

SECTION 52. Said section 12 of said chapter 119A, as so appearing, is hereby further amended by adding the following four subsections:-

(k) Upon receipt of the notice of the order for health care coverage or upon application of the employee pursuant to the order, the employer shall enroll the child in the health care plan. The notice from the IV-D agency shall have the same effect as an enrollment application signed by the employee. The employer or provider of health care coverage shall enroll a child notwithstanding the employee's failure to sign an enrollment application. The provider of health care coverage shall furnish the obligee with such information as may be necessary for the child to obtain benefits through the plan and shall permit the obligee or, with the approval of the obligee, the provider of medical services to submit claims for covered services without the approval of the obligor. A claim submitted in accordance with this subsection shall be payable, as appropriate, directly to the obligee, to the provider of medical services or, if the individual has assigned his rights to medical support pursuant to Title XIX of the Social Security Act, to the division of medical assistance. In any case where the division of medical assistance has been assigned the rights of an individual covered for health benefits from the provider of health care coverage and eligible for medical assistance under Title XIX of the Social Security Act, the provider of health care coverage shall apply to the division the same requirements applicable to an agent or assignee of any other individual so covered.

(l) If the employee is eligible for family coverage, the employer and the provider of health care coverage shall permit the employee to enroll, under the coverage, any child who is eligible for such coverage without regard to any enrollment season restrictions. If the employee is enrolled in a family health care plan but fails to make application to obtain coverage of a child, the employer and the provider of health care coverage shall enroll such child under the coverage upon application by such child's other parent or by the IV-D agency. An employer or a provider of health care coverage shall not eliminate family coverage for a child enrolled pursuant to this section unless the employer or provider of health care coverage is provided satisfactory written evidence that the health care order is

no longer in effect or that the child is or will be enrolled in a comparable plan, effective no later than the effective date that such coverage is eliminated, through another provider of health care coverage or, in the case of an employer, the employer has eliminated family health care coverage for all of its employees. An employer shall withhold from an obligor's compensation the obligor's share, if any, of premiums for health care coverage and shall pay such share of premiums to the provider of health care coverage unless federal regulations promulgated pursuant to Title XIX of the Social Security Act permit the employer to withhold less than the obligor's share of such premiums; provided, however, that the amount so withheld may not exceed the maximum amount permitted to be withheld under 15 U.S.C.A. 1673(b).

(m) A provider of health care coverage shall not deny enrollment to a child under the health coverage of the child's parent on the ground that such child was born out of wedlock, that such child is not claimed as a dependent on the parent's federal income tax return or that such child does not reside with the parent or within the area served by the provider of health care coverage. An employer or provider of health care coverage who, upon notice of a health care order, fails without reasonable cause to enroll a child in a health care plan shall be liable in a civil action, action for contempt, or other appropriate proceeding for the full amount of the medical costs incurred. A finding by the IV-D agency or by a court or administrative agency of competent jurisdiction that an employer or provider of health care coverage has failed without reasonable cause to enroll a child in a health care plan shall be prima facie evidence of such liability. As used in this chapter, the term "provider of health care coverage" shall include, but not be limited to, any entity authorized to do business under chapters one hundred and seventy-five, one hundred and seventy-six, one hundred and seventy-six A, one hundred and seventy-six B, one hundred and seventy-six E, one hundred and seventy-six F, one hundred and seventy-six G, and one hundred and seventy-six I.

(n) Each obligor making payments to the IV-D agency under this section shall be bound to notify the IV-D agency immediately when his address changes or be subject to punishment for civil contempt.

SECTION 53. Section 13 of said chapter 119A, as so appearing, is hereby amended by striking out subsection (b) and inserting in place thereof the following three subsections:-

(b) After a judgment pursuant to chapters two hundred and eight or two hundred and nine C, an agreement between parents that provides for the support of a minor child shall not be enforceable to bar a modification of the amount of support due on behalf of the minor child unless the court finds all of the following: 1) that the agreement survives the original judgment and has independent legal significance; 2) that the agreement was fair and reasonable and free from fraud and coercion at the time of the judgment; 3) that the provisions for support of the minor child continue to be fair and reasonable considering the child support guidelines and the circumstances of the parties and the child; and 4) that enforcement of the agreement is in the best interests of the child.

(c) In any proceeding to establish or modify an amount of child support, the child support guidelines promulgated by the chief justice for administration and management shall apply. There shall be a rebuttable presumption that the amount of the order which would result from the application of the guidelines is the appropriate amount of child support to be ordered. If, after taking into consideration the best interests of the child, the court determines that a party has overcome such presumption, the court shall make specific written findings indicating the amount of the order that would result from application of the guidelines, that the guidelines amount would be unjust or inappropriate under the circumstances; the specific facts of the case which justify departure from the guidelines and that such departure is consistent with the best interests of the child.

(d) The provisions of this section shall apply to all actions for establishment, modification or enforcement of a judgment or order for child support pursuant to or adjudicated under the provisions of chapters one hundred and nineteen, two hundred and seven, two hundred and eight, two hundred and nine, two hundred and nine A, two hundred and nine C and two hundred and seventy-three A.

SECTION 54. Said chapter 119A, as so appearing, is hereby further amended by striking out section 14 and inserting in place thereof the following four sections:-

Section 14. (a) The IV-D agency shall have access to and may request information from the individuals and the entities named in this section if said agency has reason to believe that such information will assist in the administration of the child support enforcement program. Such information shall be available to the IV-D agency only for the purpose of and to the extent necessary for the administration of the child support enforcement program. No entity or individual who complies with the provisions of this section shall be liable in any civil or criminal action or proceeding brought by an obligor or an obligee on account of such compliance. Holders maintaining personal data, as such are defined in section one of chapter sixty-six A, are authorized to disclose to the IV-D agency all personal data requested hereunder. Such disclosures shall not violate said chapter sixty-six A. An entity or individual who willfully provides false information in reply to a request pursuant to this paragraph or who, without reasonable cause, fails to respond to a request within fourteen days, shall be liable for a penalty of one hundred dollars for each such violation to be assessed by the IV-D agency or a court of competent jurisdiction. Such response may be made by any method including, but not limited to, paper, facsimile, telephone, magnetic tape or other electronic means.

(b) Information to which the IV-D agency shall be entitled shall include state income tax returns and all state income tax information including address, filing status, amounts, nature and sources of income, names and addresses of all employers and other sources of income, and the number of dependents reported on any return filed by any obligor or obligee and any data, documents or records of an obligor or obligee provided to the department of revenue by an employer, bank or other source of income pursuant to chapter sixty-two E. The IV-D agency shall use such tax information only for purposes of administering the child support enforcement program and shall not disclose such information, other than the name

and address of the obligor, except in proceedings or other activities to locate or identify obligors, to evaluate the ability of obligors to pay child support, to establish, modify or enforce child support orders, to collect child support or in criminal prosecutions for failure to pay child support. An employee of the IV-D agency that requests, uses or discloses such information in any other manner or for any other purpose shall be punished by a fine of not less than two thousand dollars or by imprisonment for not more than twelve months or both, and by dismissal and disqualification from employment by the commonwealth. The information included in this provision shall be data or tax returns in any form or format, including data available by electronic means. Pursuant to section one hundred and seventy-two of chapter six, the IV-D agency shall be entitled to all criminal offender record information including, but not limited to arrest, conviction, incarceration and rehabilitation information, and evaluative information as defined in section one hundred and sixty-seven of said chapter six.

(c) Except as may be prohibited under the federal Fair Credit Reporting Act 15 U.S.C.A. 1681 et seq. or under sections fifty to sixty-eight E, inclusive, of chapter ninety-three, the IV-D agency may require disclosure of information, including the location, employment, title to property, credit status or professional affiliation to assist the IV-D agency to determine the current location of an obligor or an obligee, from any state agency, state, county or municipal registry of deeds or titles, registry of vital records and statistics, city or town registrar responsible for the preparation of street lists pursuant to chapter fifty-one, utility company, including telephone, assessor's office and housing authorities, employers, professional or trade associations and labor unions, professional or trade licensing boards, credit bureaus or agencies; provided, however, that information furnished by a telephone company shall be limited to the address and telephone number of an obligor or an obligee. The failure of any such individual or entity, without reasonable cause, to provide the IV-D agency with information relating to, or that may assist in locating, an obligor or obligee or to respond that such information does not exist, within fourteen days after such information is requested, shall be punishable by a penalty to be assessed by the IV-D agency or by a court of competent jurisdiction in the amount of one hundred dollars for each such failure.

(d) The IV-D agency may request from any employer or other source of income whom the IV-D agency has reason to believe employs an obligor or obligee or otherwise provides the obligor or obligee with regular periodic income, information concerning the dates and amounts of income paid, the last known address, social security number, and available health care benefits. The IV-D agency shall not inquire of an employer or other source of income concerning the same obligor or obligee more than once every three months. Employers or other sources of income shall respond to such requests fully and in writing within fourteen days. No employer or other source of income who complies with this section shall be liable in any civil action or proceeding brought by the obligor or obligee on account of such compliance. An employer or other source of income who, without reasonable cause, fails to comply with requests made pursuant to this section, shall be liable for a penalty to

be assessed by the IV-D agency or by a court of competent jurisdiction of one hundred dollars for each such violation. The information in this subsection shall be in addition to, and not in substitution for, information required to be provided to the commissioner of revenue under chapter sixty-two E.

(e) The commissioner shall promulgate regulations to define what shall constitute "reasonable cause" for purposes of this chapter.

Section 15. A justice of a court that has jurisdiction of child support and paternity matters may, upon the application of the IV-D agency, compel the attendance of witnesses, the production of books, papers, records, data and other evidence and the giving of testimony before the IV-D agency in the same manner and to the same extent as before such court and in accordance with the applicable rules of procedure.

Section 16. (a) On the basis of information provided by the IV-D agency, an entity of the commonwealth, political subdivision or agency thereof, that issues a license, as defined in section thirteen of chapter thirty A, certificate, permit or other authorization to engage in a profession, trade, business or recreational activity shall ensure that no such authorization is issued or renewed to an obligor who owes past-due child support that is the subject of a child support lien pursuant to section six. The licensing authority shall notify the IV-D agency of the name, date of birth, address, social security number or federal identification number of any obligor whose obligation the IV-D agency seeks to enforce and any other information about the obligor required by the IV-D agency.

(1) After notice to the obligor by the IV-D agency and notwithstanding the provisions of chapter thirty A, the department of revenue shall conduct a hearing with respect to establishing a child support delinquency which may warrant the suspension or revocation of a license. Such hearing shall constitute the exclusive administrative remedy for contesting the establishment of a child support delinquency which may warrant the suspension or revocation of a license. The department of revenue shall issue a finding of child support delinquency unless the obligor establishes that no arrearage exists or that he is not the person owing such arrearage or that he is making regular child support payments by a wage assignment that has been increased by twenty-five percent in accordance with section twelve of this chapter or that he is complying with a payment plan that has been approved by the IV-D agency. Any such finding shall be forwarded to the licensing authority and shall constitute prima facie evidence of child support delinquency sufficient to warrant the suspension or revocation of the license of the obligor.

(2) An individual aggrieved by a finding of the department of revenue as adopted by the licensing authority may seek judicial review in the court where the child support order was issued or registered. If the obligor demonstrates to such court that no child support arrearage exists or that he is not the person owing such arrearage or that he is making regular child support payments by a wage assignment that has been increased by twenty-five percent in accordance with section twelve or that he is complying with a payment plan that has been approved by the IV-D agency, such court shall order the IV-D agency to provide written notice to the licensing authority to issue or reinstate the license of the obligor. The court may

order reinstatement or issuance of a license of an obligor who is not intentionally unemployed and who is complying with an employment search supervised by the court. Such review shall constitute the exclusive remedy for persons aggrieved hereunder; provided, however, that such review shall not limit a person's appellate remedies.

(3) If the obligor pays his child support obligation in full or makes regular child support payments by a wage assignment that has been increased at the rate of twenty-five percent pursuant to section twelve of this chapter or complies with a payment plan that has been approved by the IV-D agency or obtains a court order that he is not intentionally unemployed and that he is complying with an employment search supervised by the court, the IV-D agency shall provide written notice to the licensing authority to issue or reinstate the license of the obligor. The licensing authority shall issue or reinstate such license if the IV-D agency provides to the licensing authority such written notice.

(b) On the basis of information provided by the IV-D agency, the registrar of motor vehicles, as set forth in chapter ninety, shall ensure that no license or right to operate a motor vehicle or certificate of registration under said chapter ninety is renewed or issued to an obligor who owes past-due child support that is the subject of a child support lien pursuant to section six of this chapter; provided however that the IV-D agency shall not seek to revoke or suspend the license of an obligor unless he is also the subject of an outstanding capias or, having had his license or right to operate a motor vehicle or certificate of registration suspended or revoked pursuant to this section, was subject to an outstanding capias within the previous three years. The registrar shall notify the IV-D agency of the name, address, and social security number of the obligor and any other information required by the IV-D agency.

(1) After notice to the obligor by the IV-D agency and notwithstanding the provisions of chapter thirty A or chapter ninety, the department of revenue shall conduct a hearing with respect to establishing a child support delinquency which may warrant the suspension or revocation of a license or right to operate a motor vehicle and certificate of registration. Such hearing shall constitute the exclusive administrative remedy for contesting the establishment of a child support delinquency sufficient to warrant the suspension or revocation of a license or right to operate a motor vehicle and certificate of registration. The department of revenue shall enter the child support lien and the outstanding capias or, as the case may be, the capias that was issued no more than three years prior to commencement of the proceedings hereunder, into the record. The IV-D agency shall issue a finding of child support delinquency unless the obligor establishes that no arrearage exists or that he is not the person owing such arrearage or that he is making regular child support payments by a wage assignment that has been increased by twenty-five percent in accordance with section twelve of this chapter or that he is complying with a payment plan that has been approved by the IV-D agency. Any such finding shall be forwarded to the registrar and shall constitute prima facie evidence of child support delinquency sufficient to warrant the suspension or revocation of the license or right to operate a motor vehicle and certificate of registration of the obligor. If the department finds after such hearing that a license to operate a motor vehicle is necessary to the obligor's livelihood, said department shall notify the registrar to

issue a limited license on grounds of hardship, upon such terms and conditions as the department shall prescribe.

(2) If the obligor pays his child support obligation in full or makes regular child support payments by a wage assignment that has been increased at the rate of twenty-five percent pursuant to section twelve of this chapter or complies with a payment plan that has been approved by the IV-D agency, the IV-D agency shall provide written notice to the registrar to issue or reinstate the license or right to operate a motor vehicle and certificate of registration of the obligor. The registrar shall issue or reinstate such license or right to operate and authorize registration of a motor vehicle if the IV-D agency provides to the registrar such written notice.

(3) If, after the license or right to operate and certificate of registration of the obligor is issued or reinstated, the obligor refuses or neglects to pay child support, the IV-D agency may, so long as a capias was issued no longer than three years prior to commencement of such proceedings, proceed pursuant to this subsection to establish a finding of child support delinquency sufficient to warrant suspension or revocation of a license or right to operate a motor vehicle and certificate of registration.

(4) An individual aggrieved by a finding of the department of revenue as adopted by the registrar may seek judicial review in the court where the child support order was issued or registered. If the obligor demonstrates to such court that no child support arrearage exists or that he is not the person owing such arrearage or that he is not subject to a child support lien under section six or that he is making regular child support payments by a wage assignment that has been increased by twenty-five percent in accordance with section twelve or that he is complying with a payment plan that has been approved by the IV-D agency or that the obligor is not subject to an outstanding capias or, as the case may be, was not subject to an outstanding capias within three years prior to commencement of the suspension or revocation proceedings hereunder, the court shall order the IV-D agency to provide written notice to the registrar to issue or reinstate the license or right to operate and certificate of registration of the obligor.

Section 17. The department shall establish procedures for the prompt resolution of disputes concerning the collection and disbursement of child support and shall prepare informational materials for distribution to obligors and obligees describing such procedures and, where applicable, such procedures shall be consistent with section six of chapter one hundred and nineteen A. Such procedures shall include maintenance of an adequately staffed unit the principal duties of which shall be to respond to inquiries, with a widely publicized telephone line, to receive written requests from obligors and obligees for administrative review of the IV-D agency's actions in collecting and disbursing child support and to refer such requests to the appropriate unit within the department for resolution. Upon receipt of the necessary information and documentation from the obligor and obligee requesting administrative review, the department shall conduct the review and render a written decision of its determination to the person requesting the review. Such determination shall also notify such person that he may, upon exhaustion of the procedures for administrative review provided herein, seek judicial review in the court where the order or

judgment was issued or registered or, if there is no such order or judgment, by filing a request for judicial review in the probate court in the county wherein the appellant resides; provided, however, that a request for judicial review shall be accompanied by a copy of the agency's determination. Upon receipt of the request for judicial review, the court shall notify the IV-D agency at least fourteen days prior to any hearing. Pursuant to relevant provisions of state and federal law, the court may review the determination made by the agency and may correct any mistakes of fact.

If such claimant owes past-due child support that is subject to a child support lien pursuant to section six of said chapter one hundred and nineteen A, the company shall notify the IV-D agency of the name, address and social security number of such claimant. The company shall withhold from the payment the amount of past-due support and shall provide such amount to the IV-D agency for disbursement to the obligee. The child support lien shall encumber the right of the claimant to payment under the policy and the company shall disburse to the claimant only that portion of the payment, if any, remaining after the child support lien has been satisfied. This section shall not apply to that portion of a claim resulting in payments on behalf of the claimant issued to a third party who has provided the claimant with a benefit or service related to the claim. A claimant who asserts that the proceeds of the payment to be made by the company are necessary to remunerate a third party who provided the claimant a benefit or service related to the claim may request that the department of revenue release to the claimant that portion of the payment necessary to remunerate the third party. The provisions of the Employer Retirement Income Security Act limiting, for contracts of insurance, the amounts which may be assigned or attached in order to satisfy child support obligations shall apply to the provisions of this section. A modification to provide for the health care coverage of the child shall be entered whether or not a modification in the amount of child support is necessary. There shall be a rebuttable presumption that the amount of the order which would result from the application of the guidelines is the appropriate amount of child support to be ordered. If, after taking into consideration the best interests of the child, the court determines that a party has overcome such presumption, the court shall make specific written findings indicating the amount of the order that would result from application of the guidelines; that the guidelines amount would be unjust or inappropriate under the circumstances; the specific facts of the case which justify departure from the guidelines; and that such departure is consistent with the best interests of the child. The order shall be modified accordingly unless the inconsistency between the amount of the existing order and the amount of the order that would result from application of the guidelines is due to the fact that the amount of the existing order resulted from a rebuttal of the guidelines and that there has been no change in the circumstances which resulted in such rebuttal; provided, however, that even if the specific facts that justified departure from the guidelines upon entry of the existing order remain in effect, the order shall be modified in accordance with the guidelines unless the court finds that the guidelines amount would be unjust or inappropriate under the circumstances and that the existing order is consistent with the best interests of the child. A modification to provide for the health care coverage of the child shall be entered whether or not a modification in the amount of child support is necessary. There shall be a rebuttable presumption that the amount of the order which would result from the application of the guidelines is the appropriate amount of child support to be ordered. If, after taking into consideration the best interests of the child, the court determines that a party has overcome the presumption, the court shall make specific written findings indicating the amount of the order that would result from application of the guidelines; that the guidelines amount would be unjust or inappropriate under the circumstances; the specific facts of the case which justify departure from the guidelines; and that such departure is consistent with the best interests of the child. The order shall be modified accordingly unless the inconsistency between the amount of the existing order and the amount of the order that would result from application of the guidelines is due to the fact that the amount of the existing order resulted from a rebuttal of the guidelines and that there has been no change in the circumstances which resulted in such rebuttal; provided, however, that even if the specific facts that justified departure from the guidelines upon entry of the original order remain in effect, the order shall be modified in accordance with the guidelines unless the court finds that the guidelines amount would be unjust or inappropriate under the circumstances and that the existing order is consistent with the best interests of the child. In addition to the right of the district to take or otherwise acquire the rights, franchises and properties of the West Stockbridge Water Company as above provided, the district shall have the right, with the consent of said corporation and its stockholders, to purchase at a price agreed upon between the district and said corporation or its stockholders all the outstanding capital stock of said corporation for the sole purpose of dissolving and liquidating said corporation and immediately acquiring by transfer all its franchises, properties, rights, powers and privileges. Such purchase may, but need not necessarily be, conditioned upon the stockholders paying any excess of the current liabilities over the current assets, discharging its tax liability and assuming all other liabilities, fixed or contingent.

The district shall not acquire the assets or capital stock of the West Stockbridge Water Company pursuant to an agreed purchase price until said price shall have been approved by a majority vote at a district meeting.

When dangerous levels of lead are present on the exterior of the building or in common areas, notice shall be given to all occupants of the building; and when such levels are present only within particular premises, notice shall be given to the occupants of the premises involved. The director shall promulgate regulations specifying the form and content of all required notices.

When a dangerous level of lead is found in premises inspected pursuant to this section, or otherwise, the director shall cause to have screened all children under six years of age, and such other children as he may find advisable to screen, residing or who have resided within the past twelve months in said premises. The results of such screening shall be reported to the director and the affected child's parent or legal guardian. The director shall inform such other persons or agencies as he deems advisable, subject to the provisions of section one hundred and ninety-one relating to the names of affected individuals.

The director shall provide by regulation for the implementation by local boards of health, code enforcement agencies and housing inspection agencies of the provisions of this section and the periodic reporting to him of the results of all inspections of premises conducted hereunder by said boards and agencies.

The director shall maintain comprehensive records of all inspections conducted pursuant to this section. Such records shall be geographically indexed in order to determine the location of areas of relatively high incidence of dangerous lead levels. Such records shall be public records. A summary of the results of all inspections conducted pursuant to this section shall be released annually, or more frequently if the director so determines, to all interested parties.

SECTION 6. Section one hundred and ninety-four A of said chapter one hundred and eleven is hereby repealed.

SECTION 7. The second paragraph of section 195 of said chapter 111, as appearing in the 1992 Official Edition, is hereby amended by striking out the second sentence and inserting in place thereof the following sentence:- When certified as a true copy by the custodian of such records, a copy of any report of said laboratory or any division thereof, or of any local board of health, code enforcement agency, or housing inspection agency duly trained and authorized by the director to implement the provisions of this chapter and to conduct inspections for the presence of dangerous levels of lead or lead determinations shall be admissible in any judicial proceeding without further authentication by either the laboratory or by the agency for which said report was made and shall be prima facie evidence of the facts stated therein.

SECTION 8. Said chapter 111 is hereby further amended by striking out section 197, as so appearing, and inserting in place thereof the following section:-

Section 197. (a) Whenever a child under six years of age resides in any premises in which any paint, plaster or other accessible structural material contains dangerous levels of lead, the owner shall abate or contain said paint, plaster or other accessible structural materials in accordance with the requirements of subsections (b) or (c). Except as provided

in section one hundred and ninety-seven D, whenever any such premises containing said dangerous levels of lead undergoes a change of ownership and as a result a child under six years of age will become or will continue to be a resident therein, the new owner shall have ninety days to contain or abate said paint, plaster or other accessible structural material as required by this section, so as to make the premises in compliance with the provisions of sections one hundred and eighty-nine A to one hundred and ninety-nine B, inclusive.

(b) Owners shall be eligible to contain and control paint, plaster or other accessible structural materials containing dangerous levels of lead on an interim basis until achieving full compliance as set out in subsection (c), in accordance with measures defined in an emergency lead management plan, and a letter of interim control issued by a licensed inspector pursuant thereto. If, in the determination of a licensed inspector, the condition of such premises make it ineligible for interim control under an emergency lead management plan, the owner shall be required to satisfy the requirements of subsection (c) and receive a letter of full compliance, provided that secured lending institutions shall be governed by the provisions of section one hundred and ninety-seven D.

The director shall promulgate regulations to establish a program of interim control measures that are eligible to be used in emergency lead management plans to address urgent lead paint hazards that include, but are not limited to, paint containing a dangerous level of lead that is chipping, peeling or flaking, and highly lead-contaminated dust. Interim control measures shall be used to address said urgent lead hazards until a letter of full compliance has been obtained pursuant to subsection (c), and all emergency lead management plans shall include full compliance in accord with subsection (c) as their ultimate goal. Only in the instance of a waiver by the department, shall an owner be eligible for an emergency lead management plan and letter of interim control for premises in which a lead-poisoned child resides. The owner of premises containing a dangerous level of lead may obtain approval for an emergency lead management plan from an inspector licensed under section one hundred and ninety-seven B after an inspection and assessment of the premises by said inspector, and for a letter of interim control by such a licensed inspector certifying compliance with the emergency lead management plan and regulations promulgated by the director under this section. Said regulations shall, at minimum, include the following:

(1) a determination by the inspector regarding the need to correct structural defects, including roof and plumbing leaks, and deteriorating windows, which may cause damage to surfaces containing dangerous levels of lead, and a requirement that any such defects found be repaired or replaced, as needed, to prevent damage to interior surfaces containing lead;

(2) abatement or containment of all peeling paint and installing safeguards to protect intact paint, plaster or other accessible structural material on both interior and exterior surfaces and fixtures;

(3) removal of lead dust using specified methods, unless the initial inspection indicates that there is no peeling paint and that surface dust levels meet specified standards;

(4) provision of educational materials prepared by the department to tenants occupying the affected premises, as well as compliance with the tenant notification provisions of section one hundred and ninety-seven A;

(5) correction of any other lead paint condition which the director determines poses an urgent risk of lead poisoning to children under age six;

(6) requirement that all interim control work performed under this section comply with the requirements for use of licensed deleading contractors or for the abatement and containment activities by property owners contained in the regulations promulgated by the director pursuant to subsection (d); and

(7) a final inspection by a licensed inspector, including testing to ensure that surface dust levels are within specified limits for particular surfaces.

A letter of interim control shall expire at the end of one year from the date of its issuance, and may be renewed once, for an additional one-year period, upon reinspection and recertification pursuant to this section by a licensed lead inspector, in accordance with regulations promulgated by the director. The revocation and subsequent recertification of a letter of interim control shall not extend the initial letter of interim control beyond the time period allowed by this section. An emergency lead management plan and letter of interim control shall be issued for the premises, not its owner, and shall remain in effect should ownership of the premises be transferred during the existence of the emergency lead management plan and the letter of interim control. A subsequent owner of premises under a pre-existing emergency lead management plan and letter of interim control shall be responsible for complying with the terms of said plan and letter. In no case shall premises be subject to an emergency lead management plan and letter of interim control for longer than two years.

A letter of interim control shall be revocable by operation of law upon occurrence of either of the following conditions: (i) expiration by its own term; (ii) upon the failure of the owner to bring the unit into compliance, or keep the unit in compliance, as required by this paragraph. If a licensed lead inspector finds that the premises contains peeling paint or otherwise fails to meet the standards of the emergency lead management plan and the letter of interim control, said inspector shall notify the owner of the premises, the director, the local code enforcement agency or board of health of said failure. The owner shall bring the premises into compliance with the emergency lead management plan and the letter of interim control within fourteen days of being notified to do so by the director, local code enforcement agency or board of health or licensed lead inspector, or within such greater period of time as may be allowed by the director, local code enforcement agency or board of health, or by judicial order.

No claim for strict liability may be brought under section one hundred and ninety-nine against the owner by an occupant or former occupant of premises for which a letter of interim control has been issued for damages caused by exposure to dangerous levels of lead during such period that the letter of interim control is in effect or within the fourteen day period after being notified to bring the premises into compliance discussed in the previous paragraph. During the period a letter of interim control is in effect, such owner

shall take reasonable care to ensure that the premises are in compliance with the requirements of this subsection and the letter of interim control, and shall be liable for all damages caused by his breach of that duty of reasonable care.

(c) Owners may proceed either directly, or at the end of the process of interim control set out in a poisoning prevention management plan approved pursuant to subsection (b), to abate or contain paint, plaster or other accessible structural material in a particular premises in order to achieve full compliance. Prior to beginning such work, the owner or his agent shall notify the occupants of the premises, the director, the department of labor and industries and the local board of health or code enforcement agency of the date on which such containment and abatement for full compliance will occur, and the method or methods that will be used. Where containment or abatement is to occur in common areas, including the exterior, all occupants of the premises shall be notified in writing.

All containment or abatement for full compliance subject to this chapter shall, pursuant to regulations promulgated by the director to ensure the safety of occupants, be performed as follows:

(1) All peeling paint, plaster or other structural material containing dangerous levels of lead, on both interior and exterior surfaces and fixtures shall be abated or contained.

(2) Intact paint, plaster or other accessible structural material containing dangerous levels of lead shall be contained or abated on door frames below the five foot level and four inches from all edges; stair rail spindles; stair treads from the lip to the riser on the bottom and four inches back from the lip on the top of the tread; doors below the five foot level and four inches from all edges; stair rails; porch railings; and all other exterior and interior surfaces and fixtures that may be readily mouthed by, or are otherwise accessible to, children. The director may, by regulation, require that in order to maintain the stability of any encapsulants used as a containing agent as part of the process to achieve full compliance, intact paint, plaster or other accessible structural material containing dangerous levels of lead be contained beyond the height of five feet and more than four inches from all edges.

(3) Peeling and intact paint, plaster or other accessible structural material containing dangerous levels of lead shall be contained or abated, on the interior and exterior surfaces of windows having sills below the five foot level when surfaces are either movable or impact on movable surfaces. Such surfaces shall include, but not be limited to, interior and exterior window sashes, window sills, and mullions; window wells and parting beads; headers on the lower side of the window that impact on the sash; and interior and exterior inner sides of the window casings that impact on the sash.

(4) Exterior paint containing dangerous levels of lead shall be contained or abated pursuant to regulations issued by the director, after consultation with the department of environmental protection specifying acceptable methods and prescribing encapsulation, shrouding or other containment methods; provided, however, that the director may ban sandblasting of exterior paint where he determines that children under six years of age are at risk of exposure to dangerous levels of lead. The use of potassium or sodium hydroxide in removing exterior lead-based paint shall be prohibited. Such regulations shall recommend

appropriate methods of containment or abatement for properties listed on the state register of historic places. Local boards of health or code enforcement agencies shall enforce compliance with this regulation.

(5) Paint chips, dust and other debris created by the containment or abatement of interior or exterior paint shall be cleaned up by the person performing the containment or abatement in conformance with regulations promulgated by the director.

Upon the determination of a licensed inspector that the premises fully comply with the requirements of this subsection, said inspector shall issue a letter of full compliance for said premises. The director shall prepare one or more standard formats for letters of full compliance which may be revised from time to time as appropriate. All licensed inspectors shall use such standardized formats in issuing letters of full compliance.

Premises for which a letter of compliance has been issued prior to January first, nineteen hundred and ninety-four, pursuant to previous versions of this section and regulations promulgated thereunder, shall be deemed to be in full compliance with the provisions of this subsection, and shall be deemed to have been issued a letter of full compliance in accord with this subsection for all purposes of sections one hundred and eighty-nine A through one hundred and ninety-nine B, inclusive. Owners of such premises shall not be required to comply with any additional requirements of this subsection or of rules and regulations promulgated pursuant to said sections.

If a tenant believes that the premises fail to meet the standards of the letter of compliance or a licensed lead inspector finds that the premises fails to meet the standards of the letter of full compliance, said tenant or inspector shall notify the owner of the premises, the director, the local code enforcement agency or board of health of said failure. The owner shall ensure that the condition of the premises meets the standards required by the letter of full compliance within fourteen days of being notified to do so by the director, local code enforcement agency or board of health or licensed lead inspector, or within such greater period of time as may be allowed by the director, local code enforcement agency or board of health, or by judicial order.

No claim for strict liability may be brought under section one hundred and ninety-nine against an owner by an occupant or former occupant of premises for which a letter of full compliance has been issued and is in effect in accordance with this subsection.

(d) Containment or abatement, and daily and final cleanup of paint, plaster or other accessible structural material required under this section, whether undertaken for full compliance or as an interim measure under an emergency lead management plan, shall be conducted only by a contractor licensed by the department of labor and industries, except that the owner of premises or the owner's agent, acting pursuant to regulations promulgated by the director specifying the conditions under which owners or their agents may undertake such containment or abatement, need not be licensed to engage in such activities. Any person who is not licensed may undertake containment or abatement activities only after successful completion of a course of instruction approved by the commissioner in consultation with the director detailing the proper methods and health hazards of containment or abatement and final cleanup of paint, plaster or other accessible structural

material; provided further, that all containment or abatement activities by an unlicensed person shall be inspected and approved after completion by a licensed inspector. Such regulations shall include, but not be limited to, the removal of doors, windows, woodwork or other elements or fixtures containing dangerous levels of lead and shall address the presence of residents during deleading and cleanup; provided, that in no instance shall paint containing such dangerous levels of lead be stripped or scraped from the doors, windows, woodwork, elements or fixtures while residents are on the premises. The director shall make available to the public standard guidelines relative to owner deleading activities made permissible pursuant to this section.

(e) The director may waive or alter any requirements of this section concerning the required containment or abatement of paint, plaster or other accessible structural material on specified surfaces and fixtures or specified substrates upon a finding by the director that no substantial risk is posed to the health of children under six years of age by the continued presence of such paint, plaster or other accessible structural material.

(f) Under no circumstances shall repainting with a non-lead based paint, without containment or abatement of the offending paint, plaster or other accessible structural material, constitute compliance with either subsection (b) or (c).

(g) No person shall occupy the premises while containment or abatement of dangerous levels of lead paint, plaster or other accessible structural materials is taking place and until such time as the premises has been cleaned up and found to be in compliance with this section, except pursuant to regulations issued by the director. Such regulations shall provide that persons may occupy the premises pursuant to specified conditions established on a case-by-case basis by the director or local board of health or code enforcement agency upon a finding that such occupancy will not endanger or materially impair the health or the well-being of any occupant; provided, however, that pregnant women and children under the age of six are not permitted to occupy the dwelling unit during deleading activities.

(h) Any owner undertaking to abate or contain dangerous levels of lead in any dwelling unit may, at the owner's option, reasonably delay the commencement of the tenancy until a letter of compliance or interim control certificate has been issued; provided, that no duly executed lease exists between owner and tenant; and provided, further, that no such delay shall exceed thirty days. During any such period of delay of occupancy the prospective tenant shall bear any living expenses. Should the owner decide to bring any residential premises into compliance with the provisions of sections one hundred and eighty-nine A to one hundred and ninety-nine B, inclusive, while a tenant is occupying a dwelling unit, the owner shall have the right to move the tenant to a substitute dwelling unit upon reasonable notice; provided, however, that the owner pays reasonable moving expenses and any use and occupancy charges for a substitute dwelling unit which exceed the rent for the vacated dwelling unit for which the tenant remains responsible. A substitute dwelling unit shall be defined as one that does not cause undue economic or personal hardship to the tenant. If the tenant fails to accept the substitute dwelling unit selected by the owner during such period of time reasonably required to bring the vacated dwelling unit into compliance

with the provisions of sections one hundred and eighty-nine A to one hundred and ninety-nine B, inclusive, the owner shall have no obligation to reimburse the tenant for any expense or inconvenience other than moving expenses and any use and occupancy charges for the substitute dwelling unit selected by the owner which may exceed the rent for the vacated dwelling unit.

SECTION 9. Said chapter 111 is hereby further amended by striking out section 197A, as so appearing, and inserting in place thereof the following section:-

Section 197A. Prospective purchasers of premises shall be notified about the hazards of lead in paint, plaster or other accessible structural material in premises and the requirements for their abatement or containment as follows:-

(a) The director shall prepare a standard notification form and such other materials as may be necessary to inform prospective purchasers about the possible presence of dangerous levels of lead in such premises, the symptoms and treatment of lead poisoning, and the requirements of the lead law and regulations, including the provisions concerning liability for failure to abate or contain lead hazards and prohibitions against unlawful discrimination. The director shall prepare a separate notification form and materials for prospective purchasers of residential properties containing one or more rental units. Such rental property notification materials shall inform prospective purchasers about issues specific to rental properties, such as liability insurance and prohibitions against unlawful discrimination. Such forms and materials shall be revised from time to time as appropriate.

(b) All persons selling premises shall, prior to the signing of a purchase and sale agreement, provide a copy of the form and other materials prepared pursuant to subsection (a) to the prospective purchaser. Effective May first, nineteen hundred and ninety-four, all persons leasing premises with an option to purchase such premises shall, prior to the signing of the lease with an option to purchase, provide a copy of the form and other materials prepared pursuant to subsection (a) to the lessee-prospective purchaser. In addition to and at the time of providing said notification, the lessor-prospective seller shall provide the lessee-prospective purchaser with any letter of interim control for the premises issued pursuant to subsection (b) of section one hundred and ninety-seven, or any letter of full compliance for the premises issued pursuant to subsection (c) of said section, and such seller and any real estate agent involved in the sale shall disclose to the prospective purchaser any information known to the seller or real estate agent about the presence of paint, plaster, or other accessible structural materials containing dangerous levels of lead in the premises.

(1) The lessee-prospective purchaser shall also be informed by the lessor-prospective seller and any such real estate agent about the availability of inspections for dangerous levels of lead. If, after receiving said notice, the lessee-prospective purchaser chooses to have an inspection done, the lessor-prospective seller shall afford the lessee-prospective purchaser a period of ten days or such longer time as the parties may agree to have such inspection performed, through a lead inspection contingency provision in the purchase and sale agreement, or otherwise.

(2) If any real estate agent involved in the sale has provided the lessee-prospective purchaser with the required information and materials, he shall verbally inform the lessee-prospective purchaser of the possible presence of dangerous levels of lead and the provisions of sections one hundred and eighty-nine A through one hundred and ninety-nine B, inclusive, and regulations promulgated thereunder. At that time or at any time prior to signing of the purchase and sale agreement, any such real estate agent shall obtain the lessee-prospective purchaser's certification that he has been notified.

(c) Nothing in this section or this chapter shall be construed to require the director, local boards of health or code enforcement agencies to conduct lead inspections the sole purpose of which is to inform sellers or prospective purchasers of premises about the presence of dangerous levels of lead in said premises.

(d) Tenants of premises and those prospective tenants who are about to enter an agreement to rent premises shall be notified about the hazards of dangerous levels of lead as follows:-

(1) The director shall, by July first, nineteen hundred and ninety-four, prepare a standard notification brochure and such other materials as may be necessary to inform such tenants and property owners about the hazards associated with dangerous levels of lead; the symptoms and treatment of lead poisoning; measures which can be taken by parents and property owners to reduce the risk of lead exposure to children; and the requirements of sections one hundred and eighty-nine A through one hundred and ninety-nine B, inclusive, and regulations promulgated thereunder. Such materials shall also describe the significance of letters of interim control and letters of full compliance, and the need for tenants to promptly notify owners, the director, the local code enforcement agency or board of health in writing whenever an intact painted surface begins to peel or flake. The director shall also prepare a standard form to be distributed by owners to tenants and prospective tenants about to enter an agreement to rent the premises, which shall include the name, address and telephone number of the owner or the owner's managing agent and the address and telephone number of the state childhood lead poisoning prevention program. In addition, the owner shall disclose any information actually known by the owner concerning the location of paint, plaster or other accessible structural materials containing dangerous levels of lead, including such intact paint, plaster or other accessible structural materials containing dangerous levels of lead which have been covered or encapsulated.

(2) Effective December first, nineteen hundred and ninety-four, prior to entering into a tenancy agreement, the owner of premises or such other person to whom rent is to be regularly paid, shall provide a prospective tenant who is about to enter such an agreement to rent premises with:

(i) a copy of the materials and standard form completed pursuant to paragraph (1); (ii) a copy of the most recent lead paint inspection report, letter of interim control, letter of compliance or abatement plan applicable to the dwelling unit and to the common areas or exterior surfaces of the residential premises; and (iii) two copies of a statement certifying that the prospective tenant received all of the above materials, one copy of which is to be retained by the tenant and one by the owner. For purposes of this section, inclusion of such

certification as a provision in a written tenancy agreement shall be permitted.

(e) Any owner who fails to comply with the provisions of this section shall be liable for all damages caused by the failure to comply and, in addition, shall be subject to assessment of a penalty not to exceed one thousand dollars. A violation of this section by a person engaged in trade or commerce shall be an unfair and deceptive act or practice as defined in section two of chapter ninety-three A.

(f) The receipt by a tenant or prospective tenant of a notification brochure or other disclosure materials from an owner pursuant to this section shall not be construed to bar any claim for liability by the tenant or his minor children against the owner. The disbursement by an owner of a notification brochure to a tenant shall not operate as an admission of liability to any claim for liability by the tenant or his minor children against the owner under any provision of sections one hundred and eighty-nine A to one hundred and ninety-nine B, inclusive.

If after such a review, the director determines the issuance to be appropriate, the department shall conduct an environmental investigation to determine, to the extent possible, the cause of said excess blood lead level. In no event shall an owner of premises which have been issued a letter of full compliance be held strictly liable for injury or damage caused by exposure to dangerous levels of lead during such time that said letter of full compliance was in effect. Chapter 490. AN ACT RELATIVE TO ENHANCING THE COMMONWEALTH'S MOTOR VEHICLE EMISSIONS AND SAFETY INSPECTION PROGRAMS.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to immediately provide for enhanced vehicle emissions and safety inspection programs, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. Chapter 10 of the General Laws is hereby amended by adding the following two sections:-

Section 60. Notwithstanding the provisions of subsection (1) of section eighteen of chapter twenty-one A, and as required by federal law, there shall be established on the books of the commonwealth a separate fund, to be known as the Motor Vehicle Emissions Inspection Compliance Trust Fund. There shall be credited to such fund all monies that are recovered or collected by the commonwealth from a portion of the fee charged relative to each vehicle emission inspection, required under chapter ninety and chapter one hundred and eleven, such portion to be determined cooperatively by the commissioner of the department

of environmental protection and the registrar of the registry of motor vehicles; any monies recovered as a result of enforcement action authorized in section one hundred and forty-two M of chapter one hundred and eleven; and any income derived from the investment of amounts credited to such fund. Amounts credited to such fund shall be received and held in trust for the commonwealth for the purposes of this chapter, and shall be expended at the direction of said commissioner without further appropriation; provided, however, that such amounts may be expended for direct and indirect costs associated with personnel, any form of applicable equipment, including any capital equipment, and any contractual services. The fund may incur a negative balance in anticipation of revenues to be received; provided, however, that the fund is balanced or has a plan to be balanced by March first, nineteen hundred and ninety-six. Said commissioner shall expend monies from such fund solely for the purposes of the administration and implementation of the provisions of the vehicle emissions program, as authorized by said section one hundred and forty-two M of chapter one hundred and eleven, and related portions of chapter ninety and related portions of the federal Clean Air Act Amendments of 1990. Said commissioner shall, by agreement with the registrar, transfer such monies from such fund as necessary for the registry to carry out its support responsibilities relating to attaining air quality standards, as stated in chapter ninety. Pursuant to section five D of chapter twenty-nine, the comptroller shall transfer to the general fund the fringe benefit costs, including group life and health insurance and retirement benefits, and the indirect costs incurred by the trust. Beginning in the fiscal year nineteen hundred and ninety-five, on or before December first, the commissioner shall file each fiscal year an annual financial plan of the projected revenues and expenditures of the fund for the current fiscal year and for the next fiscal year with the secretaries of environmental affairs and administration and finance, the joint committees on public safety and natural resources and agriculture, and the house and senate committees on ways and means. All revenues credited to and all expenditures made from such fund shall be reported, by subsidiary, on the Massachusetts management accounting and reporting system and all personnel compensated from such fund shall be recorded on the personnel administrative reporting and information system.

Section 61. There shall be established and set up on the books of the commonwealth a separate fund to be known as the Motor Vehicle Safety Inspection Trust Fund. There shall be credited to such fund fifty percent of all the monies received or collected and recovered by the commonwealth from the portion of the fee charged relative to each motor vehicle safety inspection as required under section seven of chapter ninety; and all monies recovered as a result of actions authorized by said chapter ninety. Amounts credited to said fund shall be received and held in trust for the commonwealth, for the purposes of this chapter, and shall be expended without further appropriation; provided, however, that such amounts may be expended for direct and indirect costs associated with personnel, for the purpose of administration and implementation, and of the provisions of section seven of said chapter ninety, and for the several other purposes as may be required by law. All revenues credited to and all expenditures made from such fund shall be reported, by subsidiary, on the Massachusetts management accounting and reporting system and all personnel compensated

from such fund shall be recorded on the personnel administrative reporting and information system.

SECTION 2. The thirteenth paragraph of section 2 of chapter 90 of the General Laws, as appearing in the 1992 Official Edition, is hereby amended by inserting after the third sentence the following sentence:- The registrar shall not issue a registration, or if said registration has already been issued, shall suspend or not renew the registration of any motor vehicle which does not comply with the provisions of sections one hundred and forty-two J and one hundred and forty-two M of chapter one hundred and eleven or any regulation promulgated thereunder.

SECTION 3. Said chapter 90 is hereby further amended by striking out section 7A, as so appearing, and inserting in place thereof the following section:-

Section 7A. The registrar shall establish rules and regulations providing for a decentralized periodic annual staggered safety and combined safety and emission inspection of all motor vehicles not subject to the enhanced emissions inspection and maintenance requirements of sections one hundred and forty-two J and one hundred and forty-two M of chapter one hundred and eleven or the rules and regulations promulgated thereunder. The registrar shall establish rules and regulations for a periodic annual staggered safety inspection for all motor vehicles which are subject to said enhanced emission inspection and maintenance requirements.

All emissions inspection standards, whether classified as an enhanced emission inspection or as part of the combined safety and emission inspection, shall be established by the commissioner, in consultation and coordination with the registrar pursuant to sections one hundred and forty-two J and one hundred and forty-two M of chapter one hundred and eleven or the rules and regulations made pursuant thereto.

Said commissioner shall, in consultation with the registrar, establish rules and regulations which determine and identify and motor vehicles which will be subject to the enhanced emission inspection or the emission portion of the combined safety the emission inspection, as the case may be, and shall notify the registrar of said determination. The registrar shall give reasonable notification in the form he prescribes, to the owners of motor vehicles subject to emissions inspection indicating which emissions inspection procedure will be required.

The registrar may waive, by written document, certain inspection requirements if said waiver furthers the public interest or scientific development and does not compromise the public safety.

The registrar shall establish rules and regulations providing for the inspection of school buses or buses operated under a certificate, license, or permit issued in accordance

with the provisions of chapter one hundred and fifty-nine A which are used for the transportation of school children to and from school and in connection with school activities other than such buses used simultaneously as public common carriers of passengers or designed primarily for mass transportation within seven days of the date on which the vehicle is first registered to a new owner and during the fall, winter, and spring. First inspection in the months of August and September, second inspection in the months of December and January, third inspection in the months of April and May. The semiannual safety inspection for those vehicles regulated by section seven D shall be inspected during the fall and winter, first inspection during the months of October and November, second inspection during the months of February and March. Such inspections shall be in addition to the annual safety and emissions inspection as required by this section.

Each safety or combined safety and emissions inspection facility shall remit to the registrar a portion of the collected inspection fee, said portion to be determined by the registrar. The registrar shall retain fifty percent of said fee and shall deposit all monies that are so collected, including any interest accrued thereon, into the Motor Vehicle Safety Inspection Trust Fund. All amounts credited to said fund shall be expended at the direction of the registrar, without further appropriation; provided, however, that said amount expended shall be used solely for the purpose of implementation, administration, oversight and enforcement of any safety and emissions programs instituted by the registrar pursuant to chapter ninety. Pursuant to section five D of chapter twenty-nine, the comptroller shall transfer to the general fund the fringe benefit costs, including group life, and health insurance and retirement benefits, and the incident costs incurred by said account. Beginning in fiscal year nineteen hundred and ninety-five, on or before December first, the registrar shall file each fiscal year an annual financial plan of the projected revenues and expenditures of the account for the current fiscal year and for the next fiscal year with the secretaries of public safety and administration and finance, the joint committee on public safety and the house and senate committees on ways and means. All revenues credited to and all expenditures made from such fund shall be reported, by subsidiary, on the Massachusetts management accounting and reporting system and all personnel compensated from such fund shall be recorded on the personnel administrative reporting and information system.

Each applicant to become a licensee under the provisions of section seven W shall remit a fee established by the registrar before any license is issued pursuant to said section. Said fee shall be deposited in the Highway Fund.

Said rules and regulations promulgated by the registrar pursuant to this section shall provide that a motor vehicle which is not garaged or operated within the commonwealth during its assigned inspection period may be operated for fifteen days after its return to the commonwealth if said motor vehicle bears satisfactory proof of adequate safety or emission

inspection from another jurisdiction. The owner or person in control of said motor vehicle shall obtain the required safety and emissions inspection within said fifteen days.

SECTION 4. Said chapter 90 is hereby further amended by striking out section 7W, as so appearing, and inserting in place thereof the following section:-

Section 7W. No person or facility shall conduct emissions or safety inspections of motor vehicles pursuant to section seven A unless such person is licensed by the registrar.

No person or facility shall engage in the business as an "emissions repair facility", as defined in section one hundred and forty-two M of chapter one hundred and eleven, and no person shall be employed as an "emissions repair technician", as so defined therein, unless such person is licensed or certified by the registrar.

The registrar, upon granting the opportunity for a hearing, may revoke or suspend any license or certification issued under this section, or place conditions or limitations on said license, for violating any rule or regulation made hereunder.

Any person who is convicted of a violation of any provision of this section shall be punished by a fine of up to one thousand dollars or by imprisonment for not more than thirty days, or both.

Notwithstanding the provision of section thirty A of chapter ninety, the registrar may allow access or inquiring into computer data files under his control in order to facilitate the establishment of a computerized communication system between the registry, the department of environmental protection, emissions or safety inspection facilities, emissions repair facilities, or any other person or entity in order to enforce compliance with, any emissions or safety requirements of this chapter or chapter one hundred and eleven or any other law or regulation related thereto.

SECTION 5. Section 142J of chapter 111 of the General Laws, as so appearing, is hereby amended by adding the following paragraphs:-

The commissioner shall establish rules and regulations effective on July first, nineteen hundred and ninety-five. Said rules and regulations shall reflect the phased-in schedule for the vehicle emissions inspection program requirement, as mandated by said section four.

The department, in consultation with the registry of motor vehicles, shall continue to implement the current provisions of this section, while phasing in the new requirements as prescribed by the commissioner.

Nothing shall prevent anyone, whose vehicle is not subject to the inspection requirements of July first, nineteen hundred and ninety-five, from seeking an enhanced emissions inspection on a voluntary basis.

The commissioner shall establish rules and regulations relative to testing locations, testing equipment specifications, including emissions analyzers, quality assurance and quality control procedures for testing equipment, calibration gases, failure rates, emission standards, testing procedures, data collection and data analysis, and program evaluation requirements of 40 CFR 51.353. With respect to facilitating site locations, the commissioner and the registrar shall consult with the division of capital planning and operations in the department of administration and finance on potential state-owned properties that may be suitable for emissions inspection facilities and to make a list of such properties available to the contractors at the time of seeking bids from the contractor. Rent, through a lease agreement, shall be the appropriate vehicle for compensation for state-owned land. The commissioner and the registrar shall also provide information concerning the availability of site location of municipal-owned properties suitable for siting emissions inspection facilities in the "Goods and Services bulletin" and the "State Register". Under no circumstances shall the use of state-owned or municipal-owned properties relieve the contractor from paying local property taxes.

The standards and criteria shall include, but not be limited to, a requirement to test motor vehicle emissions for hydrocarbons, carbon monoxide, and oxides of nitrogen. The standards and criteria may be different for different model years and types of vehicles.

The department and the registry shall establish programs, in consultation with the executive office of consumer affairs and consistent with the consumer protection authority of the attorney general, for public information and consumer protection, including referee and challenge functions.

The department, on behalf of the commonwealth, shall be responsible for submitting all appropriate and required program regulations on the enhanced motor vehicle emissions inspection program to the United States Environmental Protection Agency and revisions to the state implementation plan, in accordance with the requirements of the federal Clean Air Act.

(c) Beginning on July first, nineteen hundred and ninety-five, at least thirty percent of the commonwealth's motor vehicle fleet, as determined by the commissioner and the registrar, shall be subject to the provisions of this section and shall be subject to an enhanced motor vehicle emissions inspection, conducted biennially. Beginning on January first, nineteen hundred and ninety-six, all of the commonwealth's motor vehicle fleet, as prescribed herein, will be subject to the provisions of this section and shall be subject to an enhanced motor vehicle emissions inspection, conducted biennially.

Enhanced emissions inspections shall be required statewide, shall be conducted on a staggered basis throughout the year, and shall be required of each subject motor vehicle every two years. The department shall establish procedures to implement such enhanced emissions inspection requirements and be further configured by applicable vehicle model year, vehicle weight, emissions standard alternative test procedures, or any other test procedure or element required in this section.

Emission testing will be conducted, at minimum, in the following manner, according to EPA's enhanced performance standard for enhanced emissions inspection:

Model Years 1968-1970:	idle test only,
Model Years 1971-1980:	two-speed idle test and pressure test.
Model Years 1981-current:	transient, loaded-mode text, pressure test, and purge test.

Automobiles legally registered on the islands of Martha's Vineyard and Nantucket: two-speed idle test and pressure test.

Motor Vehicles subject to emissions inspection shall be determined by the commissioner by regulation, and shall include, but not be limited to the following: all vehicles beginning with model nineteen hundred and sixty-eight, light duty vehicles and light duty trucks up to and including eight thousand, five hundred pounds gross vehicle weight. Emissions inspection of any vehicle with a weight greater than eight thousand, five hundred pounds gross vehicle weight shall only be required after a finding by the commissioner, in consultation with the registrar that such action is necessary to attain and maintain applicable federal and state air quality standards.

Any motor vehicle which is inspected for emissions and fails such inspection shall, within twenty days of said emissions inspection, be reinspected until it receives an emissions inspection certificate or has received an emissions waiver certificate, or be denied registration. The department shall establish rules and regulations and shall consult and coordinate with the registry on such requirement in order to affect strict compliance with this provision.

(d) The commissioner shall, in consultation with the registry, establish regulations for exempting or excepting certain motor vehicles from some or all of the requirements of this section. The following motor vehicles shall be exempt or excepted from the provisions

of this section and may require alternative test procedures: a motor vehicle manufactured before the model year nineteen hundred and sixty-eight; any motor vehicle or class of motor vehicle that is exempted by regulation or policy by the department because the vehicle or class presents prohibitive inspection problems or is inappropriate for inspection; motor vehicles operated exclusively by electric power; and, for one inspection cycle only, motor vehicles one model year old or less at the time the vehicle is due for inspection.

(e) The department shall establish procedures to provide for vehicle emissions inspections by contract in accordance with the provisions of this section and any rule and regulation promulgated thereto. The licensing of said emission inspection facilities shall be in accordance with the appropriate sections of chapter ninety.

Notwithstanding any provision of this section to the contrary, the commissioner may establish two or more zones within the commonwealth and select a sole vendor for each zone to conduct the centralized contractor-run emissions inspection facilities in each zone. A single contractor may be selected to provide services in one or more zones. Any fees charged under the provisions of this chapter shall be identical throughout the commonwealth, whether or not there is more than one zone or more than one vendor in the commonwealth.

The department shall contract with a private entity for the design, construction, equipment, establishment, maintenance, and operation of emissions inspection facilities, and for related services and functions. The term of the contract shall be not more than seven years. In this contract with said contractor, the department shall require all bidders to commit to selling its inspections sites and associated equipment and buildings, at fair market value, if at the end of said contract term, the contractor fails to secure a reward of a contract to perform emissions inspections.

Emissions testing will be conducted at centralzed, provate contractor-run emissions inspection facilities, as specified in this section. The process for selecting said contractor shall be the primary responsibility of the department, but shall coordinate with the registry and shall be done by developing and issuing a "request for proposals", as necessary to fulfill the provisions of this section and deemed by the commissioner as necessary for a complete, fair, and proper inspection. Said process, at minimum shall be consistant with the standard bidding practices of the commonwealth. Employees of the department shall not be allowed to seek or take employment with any contractor winning the bid to construct and operate such emissions inspection facilities in the commonwealth for a period of two years after said employee leaves employment with the commonwealth.

Any such facility shall only be permitted to conduct inspections and shall be prohibited from any direct or indirect association with a repair facility or facilities.

The contractor shall provide that emissions inspection facilities be located such that eighty-five percent of the vehicles subject to inspection are within a distance not to exceed five, straight line, miles from an emissions inspection facility, and ninety-five percent of the vehicles subject to inspection are within a distance not to exceed ten, straight line, miles from an emissions inspection facility.

The maximum average waiting time for an emissions inspection to begin at such facilities shall not exceed fifteen minutes at any one facility. No inspection shall require an appointment. The contractor shall design its network with the ability for added lane or facility capacity based upon demographic changes, as determined by the department and registry.

The contractor shall, at the convenience of the consumer, inspect and reinspect, at any of its locations statewide, motor vehicles as provided by the contract. The emissions inspection facility shall issue an emissions inspection certificate for a motor vehicle that has been inspected and determined to comply with applicable standards and criteria for motor vehicle emissions inspection. For a motor vehicle that has been inspected and has failed its inspection, the contractor shall provide a comprehensive, written inspection report. Such inspection report shall, to the extent practicable, provide the results of and reasons for failing the emissions inspection and describe the repairs likely to be needed to bring the vehicle into compliance with the applicable standards and criteria for which the vehicle was failed.

The contractor, including its officers and employees, shall not engage in the business of selling, maintaining, or repairing motor vehicle replacement or repair parts. The contractor shall be responsible for any incidental damage to any motor vehicle presented for inspection and shall perform or have performed such repairs, not including emissions-related repairs resulting from an emissions inspection failure, as necessary to return the vehicle to its original condition when it entered the emissions inspection facility for said inspection.

A portion of each emissions inspection facility, subject to a determination by the commissioner, shall be capable of serving as a Diagnostic Test Center, as required in the United States Environmental Protection Agency: Final Rule (Title 40, CFR Part 51, Support S). Said centers shall be designed to include, but not be limited to, assistance in the effort to repair emissions-related failures by providing technical support to technicians engaged in the diagnosis and repair of emissions-related failures resulting from emissions inspections.

The contractor, subject to the commissioner's determination, shall be required to provide information to inform the public of the requirements, benefits, other consumer-related matters of the emissions inspection program, and any other information useful to the better understanding and facilitation of this inspection to the consumer.

The contractor shall be capable of providing checks concerning vehicle identification number and other such vehicle identification means in such manner and form as is determined by the commissioner and the registrar, in order to verify and validate whether the vehicle is properly and legally registered to operate on public roads of the commonwealth. The contractor, while performing the emissions inspection, shall also be capable of providing consumer protection by generating such data on warranty-related recalls in a form and manner prescribed by the commissioner, and any other such information deemed necessary by the commissioner.

Each emissions facility shall remain open for emissions inspections for a minimum of sixty hours per week, at least one evening per week, and at least for one-half day on Saturday. The commissioner and the registrar shall establish procedures and contractual requirements in order to assure maximum convenience to the consumer.

The department shall, in issuing any request for proposals or executing any contract for any activity authorized herein, establish bid bond and performance bond requirements commensurate with the magnitude of said proposal or contract.

(f) The department shall establish a program to determine eligibility for emissions waiver certificates. A motor vehicle that, after reinspection, fails to comply with the standards and criteria for motor vehicle emissions inspections shall be eligible for such emission waivers, provided that: (1) the minimum expenditure of emission-related repairs performed by an emissions repair technician as a result of such inspection failure exceeds the repair cost limit of four hundred and fifty dollars. adjusted annually based upon the Consumer Price Index for nineteen eighty-nine, in accordance with the requirements of the federal Clean Air Act Amendments of 1990, section one hundred and eighty-two (c) (3) (C) (iii) and that such repair expenditures do not include any costs covered by an emission control performance warranty or the cost to repair or replace any emission control system or mechanism which has been removed, dismantled, or rendered inoperative; or (2) a complete, documented physical and functional diagnosis, at the vehicle owner's expense, conducted in a manner prescribed by the department, shows that no additional emission-related repairs are needed. The contractor shall provide to any consumer whose vehicle fails its emissions inspection, the current dollar amount and other information concerning the actual waiver eligibility expenditure limit. The contractor, accordingly shall annually adjust such waiver eligibility expenditure limit, as prescribed by the commissioner, in order to assist the consumer to the maximum extent feasible.

No person shall knowingly give false information to an emissions inspection facility or the department concerning the repair expenditures or repairs needed to bring a motor vehicle into compliance with the standards and criteria for motor vehicle emissions inspections, required in this section.

(g) The commissioner and the registrar shall each establish rules and regulations prohibiting any person from issuing an emissions inspection certificate or a waiver certificate for a motor vehicle that has not been inspected in accordance with, or is not in compliance with, the standards and criteria for motor vehicle emissions inspections required in this section.

No person shall alter, falsify, or counterfeit an emissions inspection certificate or waiver certificate.

No person shall take any action that materially alters or changes any equipment or mechanism of a motor vehicle in such a manner that causes said motor vehicle to no longer comply with federal or state law or with standards and criteria for motor vehicle emissions inspections or with requirements for motor vehicle registration. No person shall take any action that has the effect of causing a motor vehicle to no longer comply with federal or state law or with standards and criteria for motor vehicle emissions inspections or with requirements for motor vehicle registration. This section shall not be construed as preventing the temporary alteration of equipment for the purpose of motor vehicle repair.

Any person under contract to the commonwealth to provide motor vehicle emission testing or diagnostic testing or any employee of such contractor violating any of the provisions of this chapter over any ninety consecutive day period shall be punished by a fine of up to one thousand dollars or by imprisonment of not more than thirty days or by both such fine and imprisonment for each such violation. The contractor-employer of such employee shall also be assessed an equal per day and per violation penalty for the first offense and treble such amount for the second and repeated violation within said running ninety day period.

Any person who violates any rule or regulation promulgated under the authority of this chapter, including motorists, contractors, repair technicians, repair facilities, or inspectors, shall be subject to a civil or administrative penalty of not more than one thousand dollars per day, per violation as prescribed by the commissioner.

The department shall, in consultation with the registry, establish rules and regulations concerning a penalty schedule consistent with penalties established herein and any other penalty sufficient to cause prompt and effective compliance with the requirements of this section.

(h) The department shall have jurisdiction to enforce the provisions of this section and shall have the authority to coordinate enforcement related activities with the registry.

(i) The department shall, in consultation with the registry, establish rules and regulations assessing a fee on each initial emissions inspection and late fee for such inspection performed in accordance with the requirements of this act and any rule or regulations promulgated pursuant thereto. The amount of fees collected shall provide for the cost of the inspection including the cost of any contract entered into as a result of the requirements of this act and shall be sufficient to also fully offset any administrative costs to the department and the registry related to motor vehicle emissions inspections, as established herein and in chapter ninety. The fee shall be paid for each motor vehicle inspected at an emissions inspections inspection facility at the time of the inspection and is payable whether an emissions inspection certificate, waiver certificate, or no certificate is issued. There shall be no fee charged for reinspecting a vehicle that has failed an initial inspection and is reinspected within twenty days as required by subsection (c). Any such reinspection shall be provided by the contractor at any emissions inspection facility at the convenience of the consumer.

(j) The department shall establish procedures for a program to scrap high emitting in-use motor vehicles if it finds that it is necessary to acquire additional or offsetting air pollution reduction credits to attain and maintain air quality standards.

(k) The department shall develop, establish, and implement a quality control program to ensure that emissions testing equipment is properly calibrated and maintained, and that inspection and calibration records are completely and accurately recorded and maintained. Such program shall include, but not be limited to, the following: frequency and content of records; preventative maintenance procedures and schedules; accuracy, repeatability, and precision of test and audit equipment; automatic lockout features, data recording; and tamper-resistant features; adherence to good engineering practices to assure

test accuracy; quality control features for transient, pressure, and purge test equipment and procedures; computer-controlled functions; data linkage requirements within the contractor's entire statewide network of emissions inspection facilities and between such network and the commonwealth's computer systems, as determined by the commissioner and the registrar; and assurance as to the security of any compliance document. Such compliance documents shall include, but not be limited to, compliance and waiver certificates, windshield stickers, or license plates or license plate decals, to assure the validity of any official compliance document. The commissioner and the registrar shall establish procedures and take measures to prevent the theft and counterfeiting of any such compliance document.

The department shall establish and implement an on-going quality assurance program for the purposes of discovering, correcting, and preventing fraud, waste, and abuse with the inspection process. Such quality assurance program shall determine whether proper procedures are being followed, whether equipment is properly being used and properly capable of reading inspection test results and diagnostic test results, and for any problem found by the commissioner to impede the performance of the quality assurance program. Said quality assurance program shall include, but not be limited to, the following: equipment performance audits, both overt and covert audits; checks for adequacy of the document security requirements; procedures for responding to consumer complaints; data analysis and reporting of results of overt and covert audits; and proficiency training of department personnel assigned to conduct such audits.

The department will, with the cooperation of the registry, have the authority to enforce any provision in this section. Said authority shall not apply to enforcing said program requirements on the public ways of the commonwealth, but shall include compliance monitoring, as required by federal law, with particular respect to the on-road testing provisions of said federal law. Said enforcement authority shall also permit the department to enter the premises of any emissions facility, emissions diagnostics facility, or any other facility authorized herein for the purpose of assuring public health and consumer protection, performing the quality control and quality assurance requirements of this section, and for any other reasonable purpose, as determined by the commissioner.

The department shall review and evaluate its quality control and quality assurance programs periodically in order to assess their effectiveness and relevance to achieving emissions inspection program goals.

(l) Tampering with any emissions control device or system is prohibited. The department shall develop and implement procedures to identify and prevent tampering with any required emission control device or system, and to incorporate such procedures into the emissions inspection. Any such tampering shall be cause for failing the emissions inspection notwithstanding the numerical readings generated from the typeable portion of the emissions test.

(m) The department shall, in cooperation and coordination with the registry, develop, implement, and utilize data systems necessary to link the department and the registry with all emissions inspection facilities. Said linkage shall be capable of allowing each emissions

inspection facility limited access to the registry's vehicle registration database, while at he same time assuring adequate data security, for the purpose of verifying and validating the vehicle for inspection. Subsequent to the inspection, the data system shall be properly configured and transmitted, as determined by the commissioner and the registrar, so as to provide the registry with the information it needs to fulfill the registration requirements of chapter ninety and any other information the registry needs to fulfill its program oversight functions, as well as to provide to the department with any information it requires to oversee and administer any program requirement pursuant to this chapter.

(n) The department shall, in implementing the requirements of this section, acquire personnel, purchase equipment, and procure services necessary to achieve the objectives of this section, for the purposes of quality control and quality assurance; on-road testing; data acquisition, data processing, and data reporting; program evaluation; or for other purpose deemed necessary by the commissioner.

(o) The technical and performance specifications of any equipment or related configuration, determined by the department to be necessary and required in the implementation of the provisions of this section, shall be reevaluated periodically as to its useful life, flexibility, and applicability as to changing technological conditions and continued effectiveness in the enhanced emissions inspection program authorized in this section.

(p) The department shall establish procedures concerning the application and implementation of vehicle on-board diagnostic systems to the motor vehicle emission inspection program established herein and of chapter ninety.

(q) Notwithstanding the provisions of section six B of chapter eleven, any provision of this chapter is a continuation of current, long standing requirements to inspect motor vehicles for emissions and to affect emission-related repairs if a vehicle fails such emissions inspection. Any such requirement that results in emissions inspection or associated repair costs to local or county governments shall not be construed as a new mandate.

SECTION 7. Any regulation promulgated pursuant to the requirements of this act shall be consistent with the public notice requirements of section two of chapter thirty A of the General Laws.

SECTION 8. Section one hundred and forty-two J of said chapter one hundred and eleven is hereby repealed.

If a proceeding is pending or instituted, withdrawal becomes effective at such time and upon such conditions as the secretary by order determines. If no proceeding is pending or instituted and withdrawal automatically becomes effective, the secretary may nevertheless institute a revocation or suspension order proceeding under clause (B) of subsection (a) within one year after withdrawal became effective and enter a revocation or suspension order as of the last date on which registration was effective.

(f) No order may be entered under any part of this section except the first sentence of subsection (c) without (1) appropriate prior notice to the applicant or registrant as well as the employer prospective employer if the applicant or registrant is an agent or investment adviser representative, (2) opportunity for hearing, and (3) written findings of fact and conclusions of law.

No district shall be authorized to employ a provisional educator with advanced standing unless it has submitted a plan for the support and evaluation of such educator to the commissioner and received the approval of the commissioner. The department of education shall issue standard plans for provisional educators with advanced standing which districts may implement in lieu of developing an original plan.

In not less than one year after the issuance of a provisional educator certificate, the commissioner upon receipt of a proper application shall issue a standard educator certificate to such provisional certificate holder who has provided the commissioner with evidence, in such manner and form as prescribed by the board, that he has met the preparation and eligibility requirements set by the board through a master's degree program approved by the commissioner, or through an equivalent district program for standard certification approved by the commissioner, or other equivalent programs approved by the commissioner; and has met the requirements set by the commissioner for demonstration of successful performance.

Each standard educator certificate shall be valid for five years and continued every five years thereafter upon the successful completion of an individual professional development plan that meets the subject matter knowledge and teaching skill requirements set by the board. Such plan shall be designed to increase the ability of the person to improve student learning.

Certificates granted by the board prior to October first, nineteen hundred and ninety-four are hereby deemed standard certificates which shall be renewed every five years. All such certificates must be renewed by June eighteenth, nineteen hundred and ninety-nine.

The commissioner shall develop alternative paths for certifying school management and educational leadership personnel which shall facilitate a process whereby persons with significant managerial experience can obtain such certification.

Any certificate issued by the commissioner may be revoked for cause, pursuant to standards and procedures established by the board.

The board shall have the authority to promulgate, amend and rescind such rules and regulations as may be necessary to carry out the provisions of this section. Such regulations shall be presented to the joint committee for informational purposes ninety days before implementation.

All applications for any certificates granted under this section shall be accompanied by a fee to be determined annually by the commissioner of administration under the provisions of section three B of chapter seven. Said fees shall be established and limited to allow the department to carry out the certification and recertification responsibilities but in no case shall said applications exceed one hundred dollars per year with an annual increase no greater than the consumer price index.

No person shall be eligible for employment as a teacher, guidance counselor, director, school psychologist, school adjustment counselor, school nurse, library media specialist, school business administrator, principal, supervisor, director, assistant superintendent of school, and superintendent of schools by a school district unless he has been granted by the commissioner a provisional, or standard certificate with respect to the type of position for which he seeks employment; provided, however, that nothing herein shall be construed to prevent a school committee from prescribing additional qualifications; and provided further, that a superintendent may upon request be exempt by the commissioner for any one school year from the requirement in this section to employ certified personnel when compliance therewith would in the opinion of the commissioner constitute a great hardship in securing teachers for that school district. During the time that such a waiver is in effect, service of an employee of a school district to whom the waiver applies shall not be counted as service in acquiring professional teacher status or other rights under section forty-one.

For the purposes of certifying educators, the board shall establish policies and guidelines and the commissioner may approve preparation programs devoted to the preparation of teachers and other educational personnel. A college or university or school or district or other institution offering such an approved program shall certify to the commissioner that a student has demonstrated satisfactory competence in the skills and knowledge expected of college graduates in the most advanced nations, and has completed the program approved. The college or university or school district or other institution shall also provide the commissioner with a transcript of the student's record.

At the end of each five-year period each standard educator shall attest to and provide appropriate supporting evidence and documentation to the state department of education, in such form and at such time as the commissioner shall prescribe, that the standard educator has successfully completed a professional development plan which meets the standards set by the board.

It shall be one of the objectives of all school districts' professional development plans to satisfy the individual professional development plans required by this section; provided, however, that this requirement shall not be construed to require that a school district or the commonwealth provide funding for the fulfillment of the professional development requirements of this section and section thirty-eight Q beyond the foundation budget.

The board shall establish policies and guidelines for approval for any continuing education units, inservice seminars, projects, courses and other activities which would be deemed sufficient to maintain the development of professional skills and the knowledge of subject matter pertinent to particular certificates in accordance with the same procedures used for initial approval of collegiate preparation programs. The commissioner shall establish for each certification alternate methods for fulfilling the professional development requirement, at least one of which must be at no cost to persons employed by a school district who are engaging in such an activity for the purpose of satisfying the professional development requirements for recertification of this section.

Such policies shall provide that a teacher who is to be employed in a position in an area of certification in which he is not currently employed, but for which he held a certificate which had been valid within five years immediately proceeding the starting date of employment in this position, shall be given a reasonable period, as determined by the board, to fulfill a professional development plan which demonstrates currency in the subject matter knowledge and requalify him for certification in said area. In every instance, all evaluations and assessments shall follow nationally recognized professional standards.

Each local and regional school district shall attest to the department of education, in such form and at such time as the commissioner shall prescribe, that professional development activities for which credit toward certification renewal is granted meet the requirements set by the board and are documented in accordance with procedures established by the board.

The board shall, in establishing said policies and criteria for professional development, give special consideration to the best interests of the students in the commonwealth and the need to maintain the highest performance standards of teachers while taking into proper consideration the financial or time constraints these policies may require. In developing such policies, guidelines and assessment methods, the board shall obtain the input of teachers, administrators, educational experts, parents, business leaders and others interested in the improvement of the professional status of teachers.

Except as otherwise specifically provided in this section, no rights of any employees of a school district under the provision of this chapter shall be impaired by the provisions of this section.

Anyone granted either a provisional or standard certificate under this section or currently holding such certification shall be required to maintain the development of professional skills and the knowledge of subject matter pertinent to the areas of certification.

Teachers who were authorized, permitted or approved to teach in a subject or area for which there was no certification standard before September first, nineteen hundred and eighty-two, shall acquire and maintain the development of the skills and training required of persons certified to teach in said subject or areas after that date.

This section shall not apply to trade, vocational, temporary substitute teachers, exchange teachers, regionally licensed or certified teachers or to teaching or administrative interns; provided, however, that approval for the employment of such personnel shall be generated by the board under such rules and regulations as it may adopt.

select insurance or policy issued pursuant to a risk or cost contract offered, sold, issued, delivered, or otherwise made effective or renewed by a carrier in the commonwealth after July first, nineteen hundred and ninety-four shall comply with the provisions of this chapter.

(b) A carrier that participated in the market on or after a date set by the commissioner by regulation may not withdraw from the market until all insureds of such carrier have had the opportunity to join a policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a risk or cost contract offered by another carrier during the next annual open enrollment period or other enrollment period required in section three.

(c) A carrier that withdraws from the market on or after the effective date of this chapter may not participate in the market in the commonwealth for five years from the date of withdrawal, unless the commissioner finds that such re-entry shall be permitted earlier than said five years due to a compelling public interest.

Section 3. (a) No carrier participating in the market shall, at any time, deny or condition the issuance of any policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a risk or cost contract available for sale in the commonwealth, nor discriminate in the pricing of such a plan, to any eligible person because of the age, health status, claims experience, receipt of health care, medical condition of the eligible person, or any other factor which the commissioner may specify by regulation.

(b) No policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a risk or cost contract may contain any waiting period or pre-existing condition limitation or exclusion.

(c) No carrier participating in the market shall deny or condition the issuance of any policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a risk or cost contract available for sale in the commonwealth, nor discriminate in the pricing of such a policy, to an eligible person when an application for such a policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a risk or cost contract is submitted during the six month period beginning at the time the eligible person became initially eligible for coverage.

(d) Every carrier that participates in the market shall make available during the required open enrollment to every eligible person all policies for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a risk or cost contract which that carrier is authorized to issue pursuant to sections four and five of this chapter. The required open enrollment period for eligible persons shall commence on February first and end on March thirty-first of each year, for coverage to be effective June first of that year or no later than Medicare coverage is first effective, whichever is earlier.

(e) A carrier may offer, sell, issue, deliver, or otherwise make effective or renew a policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a risk or cost contract to an eligible person at any other time of the year, provided said carrier complies with the requirements of this chapter.

(f) A health maintenance organization shall not be required to accept applications from or offer coverage to an eligible person if: (i) the eligible person does not reside in the health maintenance organization's approved service area; or (ii) within said area, the health maintenance organization demonstrates to the satisfaction of the commissioner that it will not, within said area, have the capacity in its network of providers to deliver services adequately to new eligible persons because of obligations to existing enrollees; provided that a health maintenance organization that makes such a demonstration to the satisfaction of the commissioner may not offer coverage in such applicable area to any other new enrollees or groups until the later of ninety days after each such refusal or the date on which the carrier notifies the commissioner that it has regained capacity to deliver services to eligible persons for policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a risk or cost contract coverage.

(g) Any carrier shall make available all its policies for medicare supplement insurance or medicare select insurance or policies issued pursuant to a risk or cost contract to any eligible person of the commonwealth whose coverage under a policy issued pursuant to a risk or cost contract has been canceled because the health maintenance organization's contract with Medicare has been terminated. Such coverage shall comply with all provisions of this chapter, and shall become effective on the date that coverage under the risk or cost contract ends.

(h) The commissioner may by regulation waive provisions of this section for policies for medicare supplement insurance or medicare select insurance or policies issued pursuant to a risk or cost contract issued in the commonwealth prior to the effective date of OBRA 90, or such other date as the commissioner may specify by regulation in order to comply with the provisions of OBRA 90, or with the provisions of law governing contracts; provided that not less than forty-five days prior to the proposed promulgation of said waiver, the commissioner shall file with the clerk of the house of representatives and the clerk of the senate documentation explaining the reasons why said waiver is necessary, including, if applicable, the basis for any refusal by the health care finance administration to not renew or permit modifications to the federal waiver granted pursuant to the provisions of OBRA 90 or, the reasons why such waiver is necessary to comply with contract law.

Section 4. (a) The commissioner shall, to the extent permitted by OBRA 90, promulgate by regulation the plans for medicare supplement insurance and medicare select insurance, and the benefits for those plans, which may be offered, sold, issued, or delivered, or renewed by a carrier on or after a date set by the commissioner by regulation.

(b) Any policy issued pursuant to a risk or cost contract shall comply with the requirements of chapter one hundred and seventy-six G and any regulations promulgated thereunder, provided however, that each policy issued pursuant to a risk or cost contract that includes prescription drug coverage shall meet or exceed minimum standards determined by the commissioner pursuant to regulation, and provided further, that the minimum prescription drug coverage shall be comparable to that required in plans for medicare supplement insurance and medicare select insurance.

On or after a date established by the commissioner by regulation pursuant to this chapter, no carrier may offer, sell, issue, or deliver any policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a risk or cost contract unless it complies with the benefit designs set forth in the commissioner's regulations. The provisions of this section shall also apply to all policies for medicare supplement insurance or medicare select insurance or to any policy issued pursuant to a risk or cost contract renewed by any carrier during and after the third calendar quarter of nineteen hundred and ninety-four. Except as authorized by this chapter, as of the end of the third calendar quarter of nineteen hundred and ninety-four, all policies for medicare supplement insurance or medicare select insurance or policies issued pursuant to a risk or cost contract in force in the commonwealth shall comply with the requirements of this chapter. The commissioner shall promulgate regulations to implement and enforce this section.

(c) Any carrier that participates in the market must offer at least one product with prescription drug coverage for each license under which that carrier is participating in the market, provided, however, that a carrier may be granted an exemption from this requirement by the commissioner in order to comply with the provisions of OBRA 90, or with the provisions of law governing contracts; provided that not less than forty-five days prior to the proposed granting of such an exemption, the commissioner shall file with the clerk of the house of representatives and the clerk of the senate documentation explaining the reasons why said exemption is necessary and, if applicable, communication from the health care finance administration relative to prescription drug coverage and the terms of the waiver granted pursuant to the provisions of OBRA 90.

Section 5. Any eligible person who applies on or after a date set by the commissioner pursuant to regulation for a policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a risk or cost contract from any carrier participating in the market in the commonwealth, during the six month period beginning at the time the person became initially eligible for coverage shall have the right to any of the policies for medicare supplement insurance or medicare select insurance authorized in the commissioner's regulations from any carrier that provides policies issued pursuant to a medicare supplement insurance or medicare select insurance contract, and shall have the right to the policy issued pursuant to a risk or cost contract authorized in the commissioner's regulations from any carrier that provides a policy issued pursuant to a risk or cost contract. The commissioner may require every carrier that participates in the market for medicare supplement insurance to offer more than a single type of benefit plan to an eligible person.

Notwithstanding any provision of this chapter concerning guaranteed renewability, the commissioner may by regulation establish a process for the conversion of every carrier's business in force as of a date established in such regulations into the policy for medicare supplement insurance or medicare select insurance or policy issued pursuant to a risk or cost contract authorized by section four. The commissioner may by regulation require that this conversion process be completed by the end of the third calendar quarter of nineteen hundred and ninety-four and implemented through a required special open enrollment period prior

to July first, nineteen hundred and ninety-four, during which period eligible persons may enroll without a surcharge for late enrollment and upgrading.

Every policy for medicare supplement insurance or medicare select insurance or policy issued pursuant to a risk or cost contract authorized to be offered, sold, issued, delivered, or otherwise made effective, or renewed on or after a date established by the commissioner pursuant to this chapter shall be a guaranteed renewable plan with respect to an eligible person at the option of the eligible person. A carrier that participated in the market may, however, in its discretion and to the extent permitted by OBRA 90, refuse to offer, sell, issue, deliver, or otherwise make effective, or renew a medicare supplement insurance policy, medicare select insurance policy, or a policy issued pursuant to a risk or cost contract to, or upon reasonable notice, cancel such a plan of any person due to non-payment of premium or material misrepresentation, or because the person does not live in or has moved out of the health maintenance organization service area, or has not resided in the commonwealth for the past six months, or for any other cause which may be approved by the commissioner.

Section 6. A carrier shall not participate in the market unless the policy form or certificate form has been filed with and approved by the commissioner.

Section 7. (a) Any policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a cost contract offered, sold, issued, delivered, or otherwise made effective, or renewed, on or after a date established by the commissioner, by any carrier in the commonwealth shall be community rated.

(b) The commissioner may by regulation permit a carrier whose approved service area includes several different geographical regions of the commonwealth to use separate rates for different portions of its service area, provided the carrier's proposed regions do not contain configurations designed to avoid or segregate particular areas.

(c) As of February first, nineteen hundred and ninety-four, a carrier may apply a surcharge to the premium for a policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a cost contract to an eligible person who upgrades coverage or is a late enrollee as of January first, nineteen hundred ninety-four may discount the premium for a policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a cost contract for a person who has enrolled during the six month period beginning at the time the person became initially eligible for coverage. For purposes of this section, an eligible person "upgrades coverage" if the policy for medicare supplement insurance or medicare select insurance or a policy issued pursuant to a cost contract under which the eligible person is covered at the time of application for new coverage is of lesser actuarial value than the new coverage, as determined in accordance with standards promulgated by the commissioner. Any surcharge applied to the premium of an eligible person who upgrades coverage or is a late enrollee may not exceed fifteen percent annually, and may not be charged for more than three years from the date it is first imposed by the carrier. Any discount applied to the premium of an eligible person who has enrolled during the six month period beginning at the time the person became initially eligible for coverage may not exceed fifteen percent and may not be applied for more than three years

from the date such person first receives coverage under this chapter. The commissioner may promulgate regulations to enforce the provisions of this paragraph.

Any requested premium increase in excess of ten percent for a medicare supplemental insurance plan shall be communicated to the insureds at least ninety days prior to the effective date of such increase, or as the commissioner may direct.

Such requested premium increase or initial premium request shall be filed no later than ninety days prior to the requested effective date of such rate. Review by the court on the merits shall be limited to the record of proceedings before the commissioner. The court shall have jurisdiction to modify, amend, annul, reverse or affirm such action, order, finding or decision and shall uphold the commissioner's action, order, finding, or decision if it is consistent with the standards set forth in paragraph seven of section fourteen of chapter thirty A. The court may make any appropriate order or decree. The court may make such order as to costs as it deems equitable. Notwithstanding the provisions of chapter thirty-two of the General Laws or any other general or special law to the contrary, the state retirement board, established under the provisions of section eighteen of chapter ten of the General Laws, shall establish and implement said retirement incentive for higher education employees, hereinafter referred to as the retirement incentive program, in accordance with the provisions of this section; provided, that in order to be deemed eligible by said board for any of the benefit options under the retirement incentive program, an employee (i) shall be a higher education employee of the commonwealth on the effective date of this act, (ii) shall have been a member in active service of the state retirement system on July first, nineteen hundred and ninety-three, (iii) shall be classified in Group 1 or Group 2 of said retirement system in accordance with the provisions of paragraph (g) of subdivision (2) of section three of said chapter thirty-two, (iv) shall be eligible to receive a superannuation retirement allowance in accordance with the provisions of subdivision (1) of section five of said chapter thirty-two or of subdivision (1) of section ten of said chapter thirty-two upon the date of his written application with said board, and (v) shall have filed such written application with said board in accordance with this section.

No employee shall be eligible for more than one of the incentives offered herein and no employee may become eligible for one incentive by virtue of the application of a different incentive.

For the purposes of this section, words shall have the same meaning as in chapter thirty-two of the General Laws, unless otherwise expressly provided or unless the context clearly requires otherwise. Any eligible employee who retires and receives and additional benefit in accordance with the provisions of this section shall be deemed to be retired for superannuation under the provisions of said chapter thirty-two and shall be so subject to any and all provisions of said chapter thirty-two.

(b) Notwithstanding so much of the provisions of section five of chapter thirty-two of the General Laws that requires a retirement date within four months of the filing of an application for superannuation retirement, in order to receive the retirement benefit provided by this section, an eligible employee, shall file his application for retirement under the provisions of this section with the state retirement board after March fifteenth, nineteen hundred and ninety-four, but no later than April fifteenth, nineteen hundred and ninety-four; provided, that the retirement date requested shall be June thirtieth, nineteen hundred and ninety-four; provided further, that the date requested by an employee under the provisions of this section shall be subject to approval by said employee's appointing authority; provided, further, that such approval shall only relate to the choice of date by said employee.

(c) Any employee who is eligible for the retirement incentive program in accordance with the provisions of subsection (a) of this section may request in his application for retirement that the state retirement board credit him with an additional retirement benefit in accordance with the provisions of this section; provided, that each such employee shall request and receive five years of creditable service or five years of age or a combination of years of creditable service and years of age, the sum of which shall not be greater than five years, for the purposes of determining his superannuation retirement allowance pursuant to the provisions of paragraph (a) of subdivision (2) of section five of chapter thirty-two of the General Laws.

Notwithstanding such credit, the total normal yearly amount of the retirement allowance, as determined in accordance with the provisions of said section five of said chapter thirty-two, of any employee who retires and receives the retirement benefit provided by this section shall not exceed four-fifths of the average annual rate of his regular compensation as determined in accordance with said section five of said chapter thirty-two.

Nothing in this section shall be deemed to affect the effective date of any retirement allowance, but in the event of any election having been filed which is not so accompanied, the payment of any allowance so elected shall not be commenced earlier than thirty days after the sending by the retirement board of the notice required hereunder.

(e) The state retirement board is hereby authorized and directed to collect and file a report on the following: (1) the number of employees who have retired from any public institution of higher education during each of the past three fiscal years and (2) the amount of retirement benefits, including the costs of health insurance, paid to said employees during each of the past three fiscal years. Based upon the historical information so collected and reported, the state retirement board shall develop an average for each institution of public higher education of the number of employees who would normally retire absent any retirement incentive plan in fiscal years nineteen hundred and ninety-four, nineteen hundred and ninety-five, and nineteen hundred and ninety-six and the average retirement costs, including the costs of health insurance, by institution for such employees in each of said fiscal years. For the purposes of this section the averages developed by the state retirement board shall be known as "base retirement costs". All costs attributable to any employee of any institution of higher education who retires under the retirement incentive plan established by this section which exceed the base retirement costs as defined herein shall be referred to as "incremental retirement costs". The state retirement board shall complete this study within thirty days of the effective date of this act and shall file such study with the chancellor of higher education, the state budget director, the secretary of administration and finance, the clerk of the senate and the house and senate committees on ways and means.

(e½) All incremental retirement costs shall be paid out of the sums appropriated or otherwise made available to the several institutions of higher education for the fiscal year nineteen hundred and ninety-five. The base retirement costs, as described in subsection (e), for fiscal year nineteen hundred and ninety-five shall not be charged to the several institutions of higher education, but shall be funded from the appropriate item of appropriation in section two of the general appropriations act for fiscal year nineteen hundred and ninety-five. All costs associated with the payment of accrued vacation time, unused sick leave or any other severance payment, shall be paid from the sums appropriated or otherwise made available to the several institutions of higher education in the fiscal year nineteen hundred and ninety-five. Any board of trustees which agrees to accept the provisions of this section shall not request nor receive any supplemental funding for the costs of the retirement incentive plan in fiscal year nineteen hundred and ninety-five; provided

further, that it is hereby declared to be the intention of the general court that any funding appropriated to the system of institutions in fiscal year nineteen hundred and ninety-five which exceeds the amounts appropriated to said institutions in fiscal year nineteen hundred and ninety-four shall be for the purpose of enhancing academic programming and shall not be expended for any costs associated with the retirement incentive plan established herein; provided, that each board of trustees shall develop a management plan to implement the staffing reductions and chargeback costs associated with the retirement incentive plan in a manner which minimizes the impact of such reductions and chargebacks on student services; provided further, that such management plan shall be filed with the state budget director, the secretary of administration and finance and the house and senate committees on ways and means no later than April fifteenth, nineteen hundred and ninety-four.

(f) The state retirement board, established under the provisions of section eighteen of chapter ten, shall provide retirement counseling services to employees who choose to retire under the retirement incentive program. Said counseling shall include, but not be limited to, the following provisions; (i) the additional benefit options available under the retirement incentive program; (ii) the election of a retirement option under the provisions of section twelve of chapter thirty-two of the General Laws; (iii) restrictions on employment after retirement; (iv) the provision of health care benefits under the provisions of chapter thirty-two A of the General Laws; (v) the payment of cost of living adjustments; and (vi) the effect of federal and state income taxation. Each such employee shall sign a sworn statement that he has received such counseling prior to the approval by the state retirement board of such employees' application for superannuation retirement and additional benefits under said retirement incentive program.

(g) The commissioner of the public employee retirement administration, the executive director of the state retirement board, and the executive director of the group insurance commission, in consultation with the chairman of each board of trustees which agrees to accept the provisions of this section, shall analyze, study, and valuate the incremental retirement costs attributable to the benefits payable under the early retirement incentive program. Upon completion of such study, and in no case later than August thirtieth, nineteen hundred and ninety-four, the executive director of the state retirement board shall certify in writing to the state budget director, the secretary of administration and finance, the comptroller, the joint committee on public service, and the house and senate committees on ways and means the total incremental retirement costs associated with those eligible employees enrolled in the retirement incentive program. Said certification shall include a statement which delineates such incremental retirement costs by institution.

(h) Based upon the certification provided pursuant to subsection (g), the comptroller shall transfer to the general fund from items of appropriation made available to the several public institutions of higher education in section two of the general appropriations act for fiscal year nineteen hundred and ninety-five the total amount of incremental retirement costs associated with those employees who retire pursuant to the provisions of this section; provided, that notwithstanding the provisions of any general or special law to the contrary, the comptroller is hereby authorized and directed to also charge said items of appropriation

for the incremental retirement costs of those employees who enroll in the early retirement incentive program who are compensated from non-appropriated funds and to transfer said charges to the general fund. The secretary of administration and finance may promulgate rules and regulations to enforce the provisions of this subsection. Said secretary shall file monthly reports with the house and senate committees on ways and means detailing all actions taken pursuant to this section.

(i) The chancellor of higher education shall list each position which shall be made vacant by the retirement of an employee under the retirement incentive program and who shall be receiving an additional benefit in accordance with the provisions of this section and shall file such list with the joint committee on public service and the house and senate committees on ways and means on or before August thirty-first, nineteen hundred and ninety-four; provided, that for each such position, such list shall include the line-item of section two the general appropriations act and any supplemental appropriations acts for fiscal year nineteen hundred and ninety-four in which such position was funded, if any, the classification title of such position, the salary range for such title and the salary payable to the person who so retired from such position.

(j) Notwithstanding any general or special law to the contrary, institutions of higher education may refill positions made vacant due to participants in the early retirement program established by this section in accordance with an allocation plan promulgated by the higher education coordinating council in accordance with this subsection.

No position made vacant by the retirement of any employee under the retirement incentive plan shall be filled on a permanent or temporary basis and the comptroller shall not authorize the payment of any regular compensation, including paid leave, vacations, salary in lieu of vacation, payment in lieu of maintenance, holiday pay, overtime pay and salary differentials from any account unless and until such position is included on a list of critical and essential positions filed with the senate and house committees on ways and means and approved by said house committee on ways and means; provided, that not more than seventy-five percent of such faculty positions may be refilled and that not more than fifty percent of administrative and classified positions may be refilled; provided, however, that said allocation plan filed by the higher education coordinating council shall distribute refill authorizations to the university of Massachusetts, the state colleges and the community colleges in proportion to the number of retirees from said categories within said institutions; provided, that no position which was vacant prior to December first, nineteen hundred and ninety-three may be filled without further appropriation for said purpose.

(k) Notwithstanding the provisions of any general or special law or this section to the contrary, this section shall not take effect until thirty days after the state retirement board files the study mandated by subsection (e) and until the general court enacts legislation, which may be subject to amendment, in response to said study.

Chapter 498. AN ACT CREATING THE DEVENS ENTERPRISE COMMISSION.

Be it enacted, etc., as follows:

SECTION 1. Findings and Purpose. It is hereby found that there exists within the Commonwealth substantial unemployment which is detrimental to the welfare of the people of the Commonwealth; that the termination by the United States of certain activities at Fort Devens threatens to result in blight, economic dislocation and additional unemployment, all to the further detriment of the welfare of the people of the Commonwealth; that Fort Devens has operated as a federal enclave, independent of the four towns in which it is located since its inception; that the reuse of Fort Devens will rehire financial support from the Commonwealth due to the size and complexity of the Fort Devens property; that the towns of Ayer, Harvard and Shirley have a vital interest in the successful reuse of Fort Devens; that the withdrawal of the military from Fort Devens will have a detrimental effect on the towns of Ayer, Harvard and Shirley and on the north-central region of the Commonwealth without the assistance provided by this act; and that in order to facilitate the reuse of Fort Devens for non-military uses it will be necessary to establish various incentives to attract private businesses to locate and expand their operations at Fort Devens, including providing those businesses tax incentives, relief from inconsistent land use controls, and economic relief through the establishment of Fort Devens as an Economic Target Area and an Economic Opportunity Area, and application to establish Devens as a federal enterprise and free trade

zone. Therefore, it is the purpose of this act to promote the expeditious and orderly conversion and redevelopment of Fort Devens for non-military uses, including, but not limited to, housing, industrial, institutional, educational, governmental, recreational, conservation, commercial or manufacturing uses, in order to prevent further blight, economic dislocation and additional unemployment, and to aid in strengthening the local economy, the regional economy and the economy of the Commonwealth.

SECTION 1A. Overall Goal Statement. The Devens reuse challenge demands a visionary planning effort grounded in environmental, social, and economic reality. It must be realistic, pragmatic, market driven, flexible, and future oriented and shall be based on the following goals and objectives:

(1) Development must be sustainable, which means achieving a balance of economic, social and environmental needs while maintaining and enhancing the natural resource base.

(2) Development must provide a diversity of uses to avoid dependence on one use, and to provide opportunities for a range of skills and experience levels.

(3) Development must demonstrate the interdependence of economic development and environmental protection and the symbiosis of public and private uses.

(4) Development must balance local, regional and Commonwealth interests.

(5) Development must foster uses that will create, at minimum, the number of jobs and value of economic activity at Devens in the year one thousand nine hundred and ninety.

(6) Development must take advantage of the skills and experience of the regional work force and work to match the skills of the future work force with the needs of industries of the future.

(7) Development must foster a long term mix of uses which will enhance the regional economy through future growth potential.

(8) Development must build on Devens' unique characteristics to complement the regional economy and expand the economic base.

(9) Development must foster an attitude that supports reuse goals, successful redevelopment and the provision of economic activities for individual and collective prosperity.

(10) Development must protect and enhance Devens' historical resources.

SECTION 4. Said chapter two hundred and twelve of the acts of nineteen hundred and seventy-five is hereby further amended by adding after section eight D thereof the following new section:-

"Section 8E. The Bank may provide by resolution for the issuance from time to time of debt obligations of the Bank for any of its corporate purposes, provided, however, that the Bank shall not issue debt obligations the principal amount of which, when added to the principal amount of debt obligations issued by the Bank and then outstanding, excluding debt obligations previously refunded or being or to be refunded thereby, shall not exceed two hundred and fifty million dollars, two hundred million dollars of which shall be for the exclusive use of the Devens project, so-called. All such debt obligations shall be negotiable for all purposes without regard to any other law, subject only to the provisions of any such debt obligations for registration; provided, however, that notwithstanding the provisions of any general or special law to the contrary, no debt obligations may be issued by the Bank for the purposes of the Devens project without (a) the prior approval of the General Court by a two-thirds majority pursuant to section three of article LXII of the Articles of Amendment to the Constitution; (b) the prior approval of a Reuse Plan and Bylaws by the commissioner of the division of capital planning and operations and the directors of the Bank; and (c) the prior adoption of said Reuse Plan and Bylaws by the towns of Ayer, Harvard and Shirley. Debt obligations issued hereunder may be secured by the full faith and credit of the Bank, by a pledge of any revenues, receipts or other assets or funds of the Bank, by mortgages or other instruments covering all or any part of any and all real property of the Bank, including any additions, improvements, extensions to or enlargements of any real property thereafter made, or by any one or more of the foregoing, all as may be determined by the Bank. Debt obligations may be dated, may bear interest at such rate or rates, including rates variable from time to time, may be payable in any domestic or foreign currency and at any domestic or foreign location and may mature or otherwise be payable at such time or times as may be provided for by the Bank, and may be made redeemable or determinable prior to maturity at the option of the Bank or the holder thereof at such price or prices and under such terms and conditions as may be fixed by the Bank. The Bank shall determine the form of debt obligations and the manner of execution, denomination or denominations and place or places of payment thereof. In case any officer whose signature or a facsimile of whose signature shall appear on any debt obligations shall cease to be such officer before the delivery thereof, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes as if such officer had remained in office until after such delivery. The Bank may provide for the authentication of debt obligations by a trustee, fiscal agent, registrar or transfer agent. The Bank may by resolution delegate to the executive director or any member or members of the board of directors of the Bank, or any combination of them, the power to determine any of the matters set forth in this section. In the discretion of the Bank, debt obligations of the Bank may be issued with such terms as will cause the interest thereon to be subject to federal income taxation. The Bank may sell its debt obligations in such manner, either at public or private sale, for such price, at such rate or rates of interest, or at discount in lieu of interest, as it determines will best effectuate its corporate purposes. In the discretion of the Bank, any debt obligations issued hereunder may be secured by a resolution of the Bank or by a trust agreement between the Bank and a corporate trustee, which may be any trust

company or bank having the powers of a trust company within or without the Commonwealth, and any such trust agreement shall be in such form and executed in such manner as may be determined by the Bank. Such trust agreement or resolution may pledge or assign, in whole or in part, any revenues and funds held or to be received, and any mortgages or other loan collateral held or to be acquired, by the Bank and any contract or other rights to receive the same, whether then existing or thereafter coming into existence and whether then held or thereafter acquired by the Bank, and the proceeds thereof.

Such trust agreement or resolution may contain such provisions for protecting and enforcing the rights, security and remedies of holders of debt obligations as may be reasonable and proper, including, without limiting the generality of the foregoing, provisions defining defaults and providing for remedies in the event thereof which may include the acceleration of maturities, restrictions on individual right of action by holders of debt obligations and covenants setting forth duties of and limitations on the Bank in relation to the conduct of its programs and the management of its property, the custody, safeguarding, investment and application of moneys, the issuance of additional or refunding debt obligations, the establishment of reserves and the making and amending of contracts. In addition to other security provided herein or otherwise by law, debt obligations issued by the Bank may be secured, in whole or in part, by financial guaranties, by insurance or by letters of credit issued to the Bank, or a trustee, or any other person by any bank, trust company, insurance or surety company or other financial institution, within or without the Commonwealth, and the Bank may pledge or assign, in whole or in part, any revenues and funds held or to be received, and any mortgages or other loan collateral held or to be acquired, by the Bank and any contract or other rights to receive the same, whether then existing or thereafter coming into existence and whether then held or thereafter acquired by the Bank, and the proceeds thereof, as security for such guaranties or insurance or for the reimbursement by the Bank to the issuer of any such letter of credit of any payments made under such letter of credit. It shall be lawful for any bank or trust company to act as a depository or trustee of the proceeds of debt obligations, revenues or other moneys under any such trust agreement or resolution and to furnish such indemnification or to pledge such securities and issue such letters of credit as may be required by the Bank. Any such trust agreement or resolution may set forth the rights and remedies of holders of debt obligations and of the trustee and may restrict the individual right of action by holders of debt obligations. Any pledge of revenues or other property made by the Bank under the provisions of this act, including, without limitation, any pledge by the Bank of its rights to receive payments of any kind from or for the account of mortgagors under mortgages, participations therein or subsidy, guaranty, insurance or other contracts relating thereto, and of its revenues and other property, and of the mortgages, notes, such participations, such subsidy, guaranty, insurance or other contracts or other collateral, and of the proceeds of any or all thereof, shall be valid and binding and shall be deemed continuously perfected for the purposes of the Uniform Commercial Code and other laws from the time when such pledge is made. The revenues, moneys, property, rights and proceeds so pledged and then held or thereafter acquired or received by the Bank shall immediately be subject to the lien of such

pledge without any physical delivery or segregation thereof or further act, and the lien of any such pledge shall be valid and binding against all parties having claims of any kind in tort, contract or otherwise against the Bank, regardless of whether such parties have notice thereof. Neither the resolution, any trust agreement nor any other agreement by which a pledge is created need be filed or recorded except in the records of the Bank, and no filing need be made under the Uniform Commercial Code or any other law. Any holder of a debt obligation issued by the Bank under the provisions of this act and any trustee under a trust agreement or resolution securing the same, except to the extent the rights herein given may be restricted by such trust agreement or resolution, may bring suit upon the debt obligations and may, either at law or in equity, by suit, action, mandamus or other proceeding for legal or equitable relief, including proceedings for the appointment of a receiver to take possession and control of the business and properties of the Bank, to operate and maintain the same, to make any necessary repair, renewals and replacements in respect thereof and to fix, revise and collect fees and charges, protect and enforce any and all rights under the laws of the Commonwealth or granted hereunder or under such trust agreement, resolution or other agreement and may enforce and compel the performance of all duties required by this act or by such trust agreement or resolution to be performed by the Bank or by any officer thereof. Debt obligations issued by the Bank under this act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies in their commercial departments, savings banks, cooperative banks, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such debt obligations are hereby made securities which may properly and legally be deposited with and received by any Commonwealth or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations of the Commonwealth is now or may hereafter be authorized by law. Debt obligations issued by the Bank under the provisions of this act shall not be deemed to be a debt or a pledge of the faith and credit of the Commonwealth, except to the extent provided pursuant to the provisions of section eight B of this act, but, except as aforesaid, shall be payable solely from the funds of the Bank from which they are made payable pursuant to the provisions of this act. All debt obligations issued by the Bank under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free from taxation of every kind by the Commonwealth and by the cities, towns and other political subdivisions in the Commonwealth."

SECTION 6. Section two of said chapter two hundred and twelve is hereby amended by striking out the fourth paragraph thereof, as most recently amended by section three of chapter seven hundred and sixty-two of the acts of nineteen hundred and seventy-nine, and inserting in place thereof the following paragraph:-

"The directors may, from time to time, appoint either for a definite term not to exceed four years, or to serve at the directors' pleasure, an executive director, who shall devote his full time during business hours to the duties of his office and who shall receive compensation as the directors shall determine, a treasurer who shall be the chief financial and accounting officer of the Bank and shall be in charge of its funds, books of accounts, and accounting records, and such other officers and employees as are necessary to the functioning of the Bank. Officers and employees of the Bank shall not be subject to the provisions of chapter thirty-one or section A of chapter thirty of the general laws. Salaries for employees, including the executive director and treasurer, shall be set by the directors."

SECTION 7. Section nineteen of said chapter two hundred and twelve, as most recently amended by section five hundred seventy-six of chapter one hundred thirty-three of the acts of nineteen hundred and ninety-two, is hereby repealed.

SECTION 8. Boundaries. The Devens Regional Enterprise Zone is hereby created. Plans and descriptions detailing the precise boundaries and configuration of the Devens Regional Enterprise Zone will be prepared by the Bank, approved by the Board of Selectmen of each Town, and filed with the Secretary, the House and Senate Committees on Ways and Means and recorded in the Middlesex County Registry of Deeds and the Worcester County Registry of Deeds. Said filings shall take place within one hundred and eighty days of the effective date of this act.

SECTION 9. Devens Enterprise Commission. There shall be a body corporate known as the Devens Enterprise Commission, in this act called the "Commission." The exercise by the Commission of its powers and the discharge of its duties shall be deemed and held to be the performance of an essential government function. The Commission shall consist of twelve commissioners who shall be appointed as follows: (1) the board of selectmen of each of the Towns shall nominate two candidates for commissioner whom the Governor may, in each case and in his sole discretion, appoint or reject and, for any rejected nominee, the board of selectmen of the Town whose nominee was rejected shall nominate successive candidates for commissioner until a nominated candidate is accepted and appointed by the Governor; and (2) six commissioners shall be appointed by the Governor, of whom (a) no two shall be legal residents of the same town and (b) at least three shall reside in the Devens Region. All twelve commissioners shall have proven expertise in one or more of the following areas: industrial development, housing, finance, business, real estate, environment, planning, transportation or municipal government. The Governor shall appoint one commissioner to serve as the chairman of the Commission, and one commissioner to serve as vice-chairman of the Commission. Commissioners shall serve for terms of four years, provided, however, that of those initially appointed, three shall be appointed for a term of one year, three for two years, three for three years and three for four years, and provided further, that one nominee each of the boards of selectmen of the Towns

of Ayer, Harvard and Shirley shall be initially appointed for a term of two years, and that one nominee each of the boards of selectmen of said Towns shall be initially appointed for a term of three years. No elected official of the federal government, the Commonwealth or any political subdivision of the Commonwealth may serve hereunder as commissioner. Commissioners may be eligible for renomination at the expiration of their terms and may be removed by the Governor for cause. Vacancies arising otherwise than from the expiration of a term shall be filled by persons appointed by the Governor in the same manner and subject to the same qualifications as provided above for the remainder of the unexpired term. Commissioners shall serve without compensation, but shall be reimbursed for expenses necessarily incurred in the performance of their duties. The Governor and the board of selectmen of each of the Towns may also each nominate one candidate for appointment as an associate member of the Commission in the same manner as for a member of the Commission, and the chairman of the Commission may designate any such associate member to sit on the Commission in case of absence, inability to act, or conflict of interest on the part of any commissioner, or in the event of a vacancy on the Commission until said vacancy is filled.

SECTION 10. Reuse Planning, Zoning and Regulations. The Bank and the Towns shall prepare a Reuse Plan and associated zoning bylaws for Devens as provided for in this section, hereinafter referred to as the "Reuse Plan and Bylaws". The purpose of the Reuse Plan and Bylaws will be to establish objectives, policies and standards to guide public and private decision-making and investment and to ensure the maintenance of quality of life and the protection of natural resources. To ensure that the interests of the Towns, the Devens Region and the Commonwealth are reflected in the Reuse Plan, participation of citizens and other interested parties in the planning process shall be encouraged. In formulating the Reuse Plan and Bylaws, the Bank and the Towns shall analyze factors relevant to the reuse of Devens, including the built environment, the natural environment, infrastructure and market conditions; identify the significant problems and opportunities concerning the reuse of Devens; establish objectives for the reuse of Devens and policies for achieving the objectives; and generate and assess alternative reuse options. The Reuse Plan and Bylaws shall establish and convey, through text, maps, illustrations or other media of communication, a comprehensive framework for the reuse of Devens. A principal concern of the Reuse Plan and Bylaws will be the allocation of land uses in Devens, including, but not limited to:

(i) the allocation of land that is expected to be developed primarily by private parties into zones or districts for industrial, commercial, residential and other basic uses, describing guidelines for the height, area and land coverage of development within such zones or districts and the types or range of uses that will be permitted or prohibited within such zones or districts;

(ii) the allocation of land to be devoted to park and recreational uses and to conservation into appropriate zones or districts, and description of the types of regulatory measures to be applied to the use, preservation and protection of such land;

(iii) the allocation of land for public facilities such as schools, libraries, hospitals, police and fire stations, churches and playgrounds; and (iv) the allocation of land for transportation and circulation, including existing and proposed roads, rail and mass transit, parking, bicycling and pedestrian circulation.

The Reuse Plan shall also contain a utilities component, which shall describe the distribution of water, sewer, gas, electrical, telephone, cable television, refuse collection and disposal and other similar services, whether public or private, and an implementation component, which shall address methods for achieving realization of the Reuse Plan, including regulatory programs, tax and other economic incentives and inducements, and direct capital investment. To provide guidance to the mechanism for amending and modifying the Reuse Plan and Bylaws after final approval, as set forth herein, the Reuse Plan and Bylaws shall contain criteria for determining which amendments or modifications constitute substantial revisions to the approved Reuse Plan and Bylaws. Prior to submission of the Reuse Plan and Bylaws to the Towns for adoption, as set forth below, the Reuse Plan and Bylaws shall be approved by the board of directors of the Bank and the commissioner of the division of capital planning and operations. Before granting their approval, the Bank must find that the implementation of the Reuse Plan will provide for the development and redevelopment of Devens so as to eliminate blight, economic dislocation and unemployment, and to carry out the purposes of this act.

Before granting their approvals and adoption, the Bank and the Towns must hold two or more public hearings, as they determine appropriate, in the Devens Region to receive public comment on the proposed Reuse Plan and Bylaws. Notice of said public hearings shall be provided in a newspaper or newspapers of general circulation in the Devens Region at least fourteen days prior to the dates established for said hearings. The final public hearing on the proposed Reuse Plan and Bylaws shall be held not later than one year after the passage of this act.

Within thirty days of the last public hearing on the proposed Reuse Plan and Bylaws held by the Bank and the Towns, the Bank shall submit copies of the Reuse Plan and Bylaws to the Governor, the Secretary, the Clerk of the House and the Clerk of the Senate, the legislative representatives from the House and Senate of the Devens Region and to the Commission.

The Bank and Towns shall, within thirty days of the last public hearing held by the Bank and the Towns, submit the proposed Reuse Plan and Bylaws to the board of selectmen of each of the Towns. Within ninety days of receipt of the proposed Reuse Plan and Bylaws, the board of selectmen of each of the Towns shall convene a town meeting to be held at the same date and time in each of the Towns for the purpose of adopting or rejecting, by majority vote of each town meeting, the Reuse Plan and Bylaws. Each Town shall vote to adopt or disapprove the Reuse Plan and Bylaws as submitted. No amendments to the Reuse Plan and Bylaws shall be made by the Towns. Each Town shall, within thirty days of an adoption or rejection of the Reuse Plan and Bylaws at a town meeting, provide the Bank and the Commission with a written notification stating whether town meeting adopted or rejected

the Reuse Plan and Bylaws. Until such time as all three of the Towns have adopted the Reuse Plan and Bylaws, said Reuse Plan and Bylaws shall have no force and effect. Adoption of the Reuse Plan and Bylaws by at least three of the Towns shall constitute final acceptance of the Reuse Plan and Bylaws for the purposes of this act. Furthermore, such final acceptance shall be considered to be an approval by the boards of selectmen of the Towns of a redevelopment plan, as provided in section six of chapter two hundred and twelve of the acts of nineteen hundred and seventy-five, as amended, and the one-year override provision in such section six shall have no force and effect.

Subsequent to final acceptance of the Reuse Plan and Bylaws, a substantial revision to the Reuse Plan and Bylaws shall not be effective until the Bank and the Towns, following public hearings, have approved said revision, and all three of the Towns have accepted said revision, pursuant to the procedures described in the preceding paragraph relating to the approval of the Reuse Plan and Bylaws. Revisions to the Reuse Plan and Bylaws not considered substantial pursuant to the guidelines contained in the Reuse Plan and Bylaws shall be effective upon approval thereof by the Commission. Notwithstanding any other provision of this act, the Bank and the Towns may submit the proposed Reuse Plan, prior to and after final approval thereof, to the Department of the Army or any successor federal agency, and to the Executive Office of Environmental Affairs, as deemed necessary by the Bank in relation to the preparation of Environmental Impact Statements and other documentation under the National Environmental Policy Act, 42 U.S.C.A. subsection 4321 et seq., as amended, and Environmental Impact Reports and other documentation under the Massachusetts Environmental Policy Act, chapter thirty of the General Laws subsection 61 et seq., as amended.

The preexisting Town zoning and Town Interim Planning Overlay Districts shall apply under applicable law until the Reuse Plan and Bylaws as specified in this act are approved by the Bank and Towns.

Prior to the final acceptance of the Reuse Plan and Bylaws, (i) the Bank and the Towns shall not be prohibited from taking actions and entering into agreements necessary for the continued operation, maintenance, support, administration and redevelopment of Devens; (ii) the Bank may enter into licenses, agreements or leases with the Department of the Army or other appropriate agency of the federal government or other party, related to the reuse of Fort Devens; and (iii) the Towns, or any one or more of them, may enter into licenses or leases with the Department of the Army or other appropriate agency of the federal government or other party, related to the reuse of Fort Devens in conformance with the Reuse Plan for direct public purposes of the Town or Towns as provided for in section fifteen (3) of this act.

Regulations for the effective implementation and enforcement of the Reuse Plan and Bylaws shall be developed, and adopted by the Commission, pursuant to section eleven of this act.

Should final acceptance of the Reuse Plan and Bylaws by the Towns not occur by December 31, 1994, the Bank may, at its option, abandon its activities related to the operation, maintenance and redevelopment of Devens, in which event the provisions of this

act shall be given no further force and effect. Such decision by the Bank to abandon its activities shall be evidenced by a certified copy of a vote of the board of directors of the Bank declaring such abandonment, which certificate shall be filed with the Secretary, the House and Senate Committees on Ways and Means and recorded with the Middlesex County Registry of Deeds and the Worcester County Registry of Deeds. The Bank may extend the aforementioned date for exercising its option to abandon activities at Devens related to the final acceptance of the Reuse Plan and Bylaws by the Towns, on a year-to-year basis, for a period of three additional years, which extension shall, upon each occurrence, be evidenced by a certificate filed and recorded as provided above. Upon the Bank's exercising its option to abandon activities at Devens, the Bank may commence termination of its legal and other contractual obligations related to the operation, maintenance and redevelopment of Devens, and any interests in real or personal property acquired by the Bank in relation to the planned redevelopment of Devens may be liquidated or disposed of over a reasonable period of time as determined by the Bank. Within sixty days after the Bank files the certificate of abandonment, funding authorized by section twenty-nine of this act for the operation, maintenance and redevelopment of Devens shall no longer be available for expenditure for such operation, maintenance and redevelopment, except as may be necessary to accomplish the aforementioned liquidation and disposal in a safe and orderly fashion.

SECTION 11. Powers and responsibilities of the Commission. (1) The Commission shall develop and adopt, by a two-thirds majority of the commissioners, a comprehensive set of regulations for the Devens Regional Enterprise Zone, which set of regulations shall be collectively identified as the Devens regulations, hereinafter referred to as the "Regulations." The Regulations shall, in conjunction with the Reuse Plan and Bylaws, carry out the purposes and intent of the General Laws relating to zoning, subdivision control and conservation commission regulatory powers, and shall be promulgated pursuant to chapter thirty A of the General Laws. The Reuse Plan and Bylaws and Regulations shall constitute the principal means for controlling and guiding the land development activities within Devens. The Regulations shall be promulgated no later than eighteen months after the passage of this act. Revisions to the Regulations shall be approved and promulgated in the same manner as the Regulations.

(2) The Commission shall administer and enforce the Reuse Plan and Bylaws and Regulations and in so doing may exercise the powers of a special permit granting authority and of a planning board for the purposes of regulating land use under chapter forty A of the General Laws and subdivision control under chapter forty-one of the General Laws, sections eighty-one X through eighty-one GG. The Commission shall also have all the powers and authority conferred upon planning boards by chapter forty-one of the General Laws, sections eighty-one A through eighty-one J. The Commission shall have all the powers and authority conferred upon conservation commissions for the purposes of enforcing the provisions of chapter one hundred and thirty-one of the General Laws, sections forty and forty A, provided that the Commission shall administer its powers relating to the protection of wetlands in accordance with regulations issued by the Department of Environmental Protection for the implementation of the Wetlands Protection Act, provided further that any appeal of an order

of conditions issued by the Commission shall be made to said Department. The Commission shall also have all the powers and authority conferred upon boards of health by chapter one hundred and eleven of the General Laws, sections twenty-six through thirty-two. The Commission shall also have all the powers and authority conferred upon zoning boards of appeals by chapter forty A of the General Laws, sections twelve through seventeen. The Commission shall also have all the powers and authority conferred upon historic district commissions by chapter forty C of the General Laws.

(3) Any party or Town aggrieved by a determination of the Commission pursuant to the Reuse Plan and Bylaws and Regulations may appeal to the Superior Court within twenty days after the Commission has recorded its decision in each of the three Towns' clerk's offices. The twenty day period begins after the decision is recorded in the last town clerk's office. The court shall hear all pertinent evidence and shall annul the determination of the Commission if it finds that said determination is unsupported by substantial evidence or exceeds the authority of the Commission, or it may remand the case for further action by the Commission or may make such other decree as is just and equitable.

(4) In addition to its land use regulatory and permitting powers as set forth herein, the Commission may adopt regulations related to performing such other permitting and licensing functions as set forth in this section. Said regulations shall be prepared and adopted in accordance with the provisions of chapter thirty A of the General Laws. These regulations shall be promulgated no later than June 30, 1995.

(5) In order to carry out its purposes and obligations under this act, the Commission may, in addition to the other powers set forth in this act, exercise the following enumerated powers in relation to the reuse of Devens:-

(a) exercise the rights provided to municipal governments and agencies under federal laws or regulations with regard to the powers of the Commission enumerated under this act;

(b) maintain an office at Devens;

(h) issue two all-alcoholic beverage licenses to restaurants and said licenses shall not diminish the number of licenses permitted to be granted by the Towns;

(i) adopt rules, regulations and bylaws for the regulation of its affairs and the conduct of its business;

(j) approve such bylaws pursuant to section twenty-one of chapter forty of the General Laws, with regard to the powers of the Commission enumerated under this act;

(k) enforce all Commission bylaws;

(l) adopt and collect reasonable fees, including subdivision, plan and project review fees, to defray its operating expenditures;

(m) to the extent the fees received pursuant to the foregoing subparagraph (I) are insufficient to cover its operating expenditures, submit to the Secretary for his review and approval, an annual budget request for an appropriation from the commonwealth to cover such anticipated shortfall between the income generated from fees and its projected operating expenditures;

(n) establish, increase or decrease any tax, rate, fee, rental or other charge for any service or other activity performed by or under the jurisdiction of the Commission, as provided in section twenty-one of this act;

(o) receive for the purposes of exercising its powers under this act any funds or moneys from any source, including grants, bequests, gifts or contributions made by any individual, association, or corporation, or by municipal, county, state or federal governments, provided that whenever the terms of such grant, bequest, gift or contribution require the grantee to be a municipality, municipal agency or unit of local government, the Commission shall be so considered;

(p) discontinue any street, public way or public use of a private way with the approval of the Bank.

(6) The Commission's accounts and expenditures shall be subject to audit by the state auditor.

SECTION 12. Powers and responsibilities of the Bank. The Bank is hereby designated as the public agency or instrumentality exclusively authorized and empowered to do all acts and things necessary or convenient to negotiate the acquisition of and acquire Fort Devens, or interests therein, improvements thereon, including, without limitation, buildings and utility systems, and equipment and personal property, from the federal government, provided that the Towns and other public agencies and institutions of the Commonwealth may also negotiate the acquisition of portions of Fort Devens as public benefit transfers in accordance with section fifteen of this act.

The Bank may, in its own name or in conjunction with others, license, lease or acquire title to the land, buildings and improvements that comprise all or any portion of Fort Devens upon the transfer or disposition of all, or any portion of, Fort Devens by the federal government pursuant to 40 U.S.C., section 484, the Defense Base Closure and Realignment Act of 1990 (part A of Title XXIX of Public Law 101-510; 10 U.S.C. 2687 note), as amended, or any other applicable statute. The Commission may, if appropriate, make application to the Secretary of Commerce of the United States, or, as necessary, any other federal agency, for the purposes of establishing, operating and maintaining foreign trade zones at Devens; pursuant to the Foreign Trade Zone Act, 19 U.S.C. subsection 81a et seq., as amended, or any existing or successor statute of similar import, in order to expedite and encourage foreign commerce and trade opportunities in the Commonwealth and for other purposes.

SECTION 18. Designation as Commonwealth Economic Target and Opportunity Areas. Devens and the town of Ayer are hereby designated Economic Target Areas and Economic Opportunity Areas as defined in section three of chapter twenty-three A of the General Laws. Pursuant to such designations, certain development projects within Devens

and the town of Ayer shall be eligible for tax deductions, credits and abatements and other economic incentives as provided for in chapter nineteen of the acts of nineteen hundred and ninety-three. The designation of Devens and the town of Ayer as Economic Target Areas shall be in addition to the twenty Economic Target Areas that are authorized to be established throughout the Commonwealth pursuant to section six of chapter one hundred ten of the acts of nineteen hundred and ninety-three.

SECTION 19. One-stop state permitting. Each executive office of state government in the Commonwealth shall identify a senior staff member who shall cooperate with the Bank and the Commission in establishing a method for coordinated one-stop licensing for all businesses and developments to be located within Devens for the purposes of expediting the process for obtaining Commonwealth licenses, permits, certificates, approvals, registrations, charters and meeting other requirements of law. The Commission and the Bank shall, with the assistance of the Secretary and the Commissioner of Revenue, determine an appropriate plan for assessing property taxes, other taxes available to be levied or assessed by municipalities under the General Laws, and user fees for the maintenance and operation of Devens, which plan shall provide for the imposition and levy of proportional and reasonable assessments, rates, property taxes and user fees upon persons, residents and estates lying within Devens. Upon approval of such plan by the Secretary, the Commission and the Bank shall exercise all the powers granted to cities and towns to enable the collection of such taxes and other charges. The Towns shall not be entitled to assess any fees or taxes on property, persons or businesses located in Devens. The Towns shall not be required to incur any costs or expenses related to the provision of municipal services within Devens, or to provide municipal services within Devens, except with regard to any land within Devens owned or leased by a Town. In order to encourage job creation within Devens, the Commission or the Bank may, with the assistance of said commissioner and the Secretary, develop recommendations for consideration of the general court regarding adjusting or modifying existing laws relating to taxation by the Commonwealth of businesses, industries and commercial enterprises that locate at Devens.

SECTION 22. Public health and safety and inspection services. The Commission shall have the right to establish a department or contract for services for inspections relating to public health and safety and inspection services. The Commission may designate the Division of Inspection in the Department of Public Safety to review and grant permits and other licenses and to conduct inspections and enforce such permits and licenses relating to

the state building code, the issuance of building permits, the wire code, plumbing and gas code, state sanitary code, the fire code and elevator operations, to the same extent as provided to Commonwealth-owned buildings and property pursuant to the General Laws. The Commission may designate the Department of Public Health to be responsible for reviewing and granting permits' and other licenses and conducting inspections and enforcing laws related to the protection of the public health at Devens, to the same extent provided to a local board of health pursuant to the General Laws. The division and the department shall, with the approval of the Commission, establish reasonable fees for such permits and licenses, based upon the costs expended in the review of such permits and licenses. The division and the department shall designate persons who shall perform, in a timely manner, the inspections and issue the licenses, permits and other approvals required by this section and shall, with the approval of the Commission, establish reasonable fees for such permits and licenses, based upon the costs expended in the review of such permits and licenses.

On or before July 1, 2033, the Commission, the boards of selectmen of the Towns, and the Bank shall submit a joint report to the Governor, the Secretary and to the Clerk of the House and the Clerk of the Senate recommending a permanent government structure for the ongoing operation and administration of Devens. Such report shall also identify any surplus funds that have been generated during the development of Devens, after considering the costs of funding appropriate reserve accounts, costs of retiring all bonds, notes and other debt instruments issued to maintain and develop Devens, and all the Commission's and Bank's unreimbursed costs related in any way to the redevelopment of Fort Devens, including, without limitation, all costs incurred in the operation, maintenance and development of Devens, and recommend how any such surplus funds and any future surplus funds shall be distributed, which recommendation shall include distributing all or a portion of such surplus to the Towns.

SECTION 24. Notwithstanding the provisions of any general or special law to the contrary, the provisions of the General Laws establishing a civil service system shall not apply to any positions or employees hired by the Commission or the Bank to carry out the provisions of this act.

SECTION 25. The residents of Devens who are entitled to vote, shall be entitled to vote in all federal, state, local and regional elections and, in the case of local elections, shall be entitled to vote in the Town in which their residence is located.

Said report shall be filed with the clerk of the senate and the clerk of the house of representatives on or before January 1, 1995.

SECTION 27. Reports and audits. On or before November thirtieth each year, the Bank and the Commission shall each prepare an annual report of its activities at Devens

during the preceding fiscal year and submit such report to the Governor, the Secretary, the General Court, the Towns, and each other. Each such report shall set forth a complete operating and financial statement covering the Bank's and the Commission's operations at Devens during the previous year, including, but not limited to a detailed account of the receipt of any federal funds by the Commission or the Bank for the purposes of the Devens project or pursuant to 40 U.S.C., section 484, the Defense Base Closure and Realignment Act of 1990 (part A of Title XXIX of Public Law 101-510; 10 U.S.C. 2687 note), as amended. The Bank and the Commission shall each cause an audit of its books and accounts relating to Devens to be made at least once in each fiscal year by certified public accountants. The state auditor shall likewise audit said books and accounts at least once every two fiscal years. Such audits shall be deemed to be public records.

SECTION 28. In addition to any other duties set forth in any provision of this act, the Bank and the Commission shall, and the Towns may, coordinate with, and provide information to the United States Department of Defense and any official or employee thereof, regarding any matter related to the ownership, condition, closure, conversion, redevelopment or future use or operation of Fort Devens. Notwithstanding any other provision of law, and except as provided in sections twelve and fifteen of this act, the Bank shall be the only person or entity in the Commonwealth authorized to negotiate, purchase or otherwise obtain on behalf of itself, the Commonwealth or any of its political subdivisions, agencies or authorities any fee ownership, easement, lease, license or other property interest in any property in, or on a part of, Fort Devens.

NUMBER OF ACTS AND RESOLVES APPROVED, APPROVAL WITHHELD, ACTS VETOED BY THE GOVERNOR, PASSED OVER HIS VETO AND ACTS DECLARED EMERGENCY LAWS BY THE GOVERNOR UNDER AUTHORITY OF THE CONSTITUTION.

The General Court during its first session held in 1993 passed four Resolves and 498 Acts of which 481 received executive approval.

Chapter 161, "An Act to Reorganize the Department of Public Welfare to Make the Operation of Government More Efficient" was adopted under Article LXXXVII of the Amendments to the Constitution, not having been disapproved by the General Court; and has been so certified.

11 Acts were approved by both the Senate and House of Representatives but failed to receive executive approval. As they were not returned with objections thereto within ten days after they were received in the executive department, the General Court not having dissolved in the meantime, these Acts have the force of law under the provisions of the Constitution and have been so certified. Said Acts are respectively Chapters 10, 24, 29, 45, 57, 148, 165, 231, 232, 273 and 274.

Six Acts, Chapters 88, 296, 310, 375, 387 and 388 were returned by the Governor to the House of Representatives or the Senate, the branch in which each originated, with his objections thereto. Said Acts were passed in the House and Senate, the objections of the Governor notwithstanding, in the manner prescribed by the Constitution and they have the force of law.

11 Acts were declared to be emergency laws by the executive department in accordance with the Constitution, the Referendum II, Emergency Measures; respectively Chapters 36, 135, 217, 226, 265, 277, 305, 368, 386, 429 and 494.

The General Court was dissolved at midnight on Tuesday, January 4, 1994 the session having occupied 364 days.

I hereby certify that the Acts and Resolves contained in this volume are true copies of the originals on file with this department.

I further certify that the index and Table of Changes contained in this volume have been prepared under the direction of the Committee on Rules of the two branches of the General Court in accordance with the provisions of Massachusetts General Laws, chapter 3, section 51.
