Rate Updates for Diabetes Test Strips Subject to a Rebate Agreement

Under the authority of 101 CMR 322.00, the Executive Office of Health and Human Services (EOHHS) is issuing this bulletin to establish differential rates for certain products. Specifically, pursuant to 101 CMR 322.01(6)(c), EOHHS has the authority to establish differential rates via Administrative Bulletin for durable medical equipment or medical supplies subject to a rebate agreement or agreements between a manufacturer and a governmental unit or units.

As EOHHS has a rebate agreement for diabetes test strips with Abbott Diabetes Care Sales Corporation, effective since July 1, 2015, EOHHS is hereby establishing the differential rates set forth in Table 1 below for diabetes test strips (code A4253NU and A4253NUKL) provided to MassHealth members by MassHealth-enrolled pharmacies that are also enrolled with a DME specialty for claims submitted via the Pharmacy Online Processing System (POPS).

The rates set forth in Table 1 are effective for dates of service on or after March 1, 2018.
