**Administrative Bulletin 18-12**

**101 CMR 334.00: Prostheses, Prosthetic Devices and Orthotic Devices**

Effective January 1, 2018

**HCPCS Updates and Corrections**

Under the authority of Regulation 101 CMR 334.01(4), the Executive Office of Health and Human Services is updating Healthcare Common Procedure Coding System (HCPCS) codes, effective for dates of service on or after January 1, 2018, to add new codes and revise a description for an existing code.

Under 101 CMR 334.01(4)(d), entirely new codes with associated Medicare fees are set at a percentage of prevailing Medicare fees. Under 101 CMR 334.01(4)(b), for the existing code for which only the description has changed, the rate is unchanged.

The appearance of a code in the tables below does not constitute authorization for or approval of the procedures or services for which rates are determined pursuant to 101 CMR 334.00. Governmental units that purchase care are responsible for the definition, authorization, and approval of care to publicly aided individuals.

***New Codes that Do Not Crosswalk to Existing Codes***

The following codes are entirely new and do not crosswalk to existing codes. Payment rates have been established according to 101 CMR 334.00.

New Code	Rate	Description
L3761	\$381.42	Elbow orthosis (EO), with adjustable position locking joint(s), prefabricated, off-the-shelf
L7700	\$21.67	Gasket or seal, for use with prosthetic socket insert, any type, each

***Code Description Revision***

The description of the following code has been revised, and the payment rate remains unchanged:

Code	Rate	Old Description	New Description
L3760	\$364.02	Elbow Orthosis, with adjustable position locking joint(s) prefabricated, includes fitting and adjustment.	Elbow orthosis (EO), with adjustable position locking joint(s), prefabricated, item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise.
