**Administrative Bulletin 21-05**

**101 CMR 347.00: Freestanding Ambulatory Surgery Centers**

Effective January 1, 2021

**CPT/HCPCS 2021 Procedure Code Updates**

In accordance with 101 CMR 347.01(5): *Coding Updates and Corrections*, the Executive Office of Health and Human Services (EOHHS) is adding new procedure codes, deleting outdated codes, and cross walking deleted codes to replacement codes, effective for dates of service provided on or after January 1, 2021. New and deleted codes are identified in the respective lists below, followed by a crosswalk that identifies the replacement codes for applicable deleted codes.

Rates for new codes replacing deleted codes are set at the payment rate of the deleted codes. Existing codes that are replacements for deleted codes will continue to be reimbursed at the existing codes' rates. For all other new codes that require new pricing and that have Medicare rates, corresponding rates are calculated in accordance with the rate methodology used in setting freestanding ambulatory surgery center facility component rates. Rates listed in this administrative bulletin are applicable until revised rates are issued by EOHHS. Deleted codes are not available for use for dates of service provided after December 31, 2020.
