101 CMR 322.00: *Rates for Durable Medical Equipment, Oxygen and Respiratory Therapy Equipment*

Effective January 1, 2024

Coding Updates for Certain Durable Medical Equipment, Oxygen and Respiratory Therapy Equipment

Summary

The Executive Office of Health and Human Services (EOHHS) is adding new procedure codes, deleting outdated codes, cross-walking deleted codes to replacement codes, and revising code descriptions, effective for dates of service on or after January 1, 2024. This is allowed under 101 CMR 322.01(6): *Coding Updates and Corrections*.

The following lists specify codes that have been added, deleted, or have revised code descriptions, as well as cross-walked codes that identify the replacement codes for applicable deleted codes.

For existing codes that have only a description change, the rates are unchanged as described in 101 CMR 322.01(6)(b). For new codes with associated Medicare fees, payment rates are set at a percentage of prevailing Medicare fees as described in 101 CMR 322.03(16)(a). For new codes without associated Medicare fees, individual consideration is applied to establish payment as described in 101 CMR 322.03(16)(b). Rates listed in this administrative bulletin are effective until EOHHS issues revised rates.

The appearance of a code in the tables below does not authorize or approve the use of the procedures or services for which rates are determined under 101 CMR 322.00. Governmental units that purchase care must define, authorize, and approve of care to publicly aided individuals.
