## **Administrative Bulletin 25-30**

**101 CMR 346.00:**

***Rates for Certain Substance-Related and Addictive Disorders Programs***

Effective July 1, 2025

**Code Description Update and Billing Requirements Applicable to  
MassHealth Opioid Treatment Programs When Services and  
Medication Are Provided at a Nursing Facility**

### **Background**

The Executive Office of Health and Human Services (EOHHS), which administers the Massachusetts Medicaid program (MassHealth), is issuing this bulletin in conjunction with amendments to 101 CMR 346.01(4) and (5). The bulletin updates a code description for opioid treatment programs (OTPs) providing services in nursing facilities and clarifies that code's billing requirements.

Effective July 1, 2025, OTPs may bill MassHealth an additional rate for OTP services provided on site at nursing facilities, or for delivery of medication to treat opioid use disorders (MOUD) directly to nursing facilities, by using Healthcare Common Procedure Coding System (HCPCS) code S1001 with the appropriate G code.

## Code Description Update

Code	Rate	Current Description	New Description
S1001	\$47.71	Support improved access to services and MOUD, including methadone, for nursing facility residents with Substance Use Disorder (SUD); allows OTPs to work more closely with nursing facilities to deliver medications directly to residents and reduce the need for daily resident transportation to OTPs	Deluxe item, patient aware (list in addition to basic item),( direct provision of services and medication at skilled nursing facility location by a Medicare-enrolled Opioid Treatment Program); (One unit maximum per week.)

## Billing Requirements

- S1001 may only be billed for services provided to MassHealth members enrolled in the Fee-for-Service Program.
- All claims for S1001 must include place of service (POS) 31 (skilled nursing facility) or POS 32 (nursing facility).
- All claims for S1001 must be billed with one of the following HCPCS codes: G2067, G2068, G2073, G2074, G2076, G2078, or G2079.
- S1001 may be billed a maximum of once per week.
- OTP services that are not provided on site at a nursing facility, and instances where medications are not delivered directly to a nursing facility, are not eligible for the additional rate.

For technical assistance or with any questions on how to bill this code, providers should contact [support@masshealthtss.com](mailto:support@masshealthtss.com).
