Statewide

The total number of people served during FY 2017 was 80,896. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 109,002. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

Enrollment Characteristics		% of Enrollments
Gender		
	Female	32.2%
	Male	67.8%
	Transgender	0.1%

Statewide

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	101,695	40.9%	7.5%	37.3%	6.0%	0.4%	6.8%	0.9%	0.3%
2009	99,024	39.6%	6.1%	39.6%	5.4%	0.4%	7.6%	1.0%	0.2%
2010	102,288	38.5%	5.0%	40.7%	5.0%	0.2%	9.3%	1.2%	0.2%
2011	98,576	38.1%	4.4%	39.6%	4.9%	0.2%	11.0%	1.5%	0.3%
2012	99,751	35.4%	4.1%	43.8%	4.3%	0.2%	10.5%	1.4%	0.3%
2013	99,659	33.7%	3.5%	49.2%	4.3%	0.4%	7.6%	1.1%	0.3%
2014	102,946	31.8%	3.3%	53.8%	3.7%	0.3%	5.8%	1.1%	0.3%
2015	95,563	33.2%	2.9%	53.9%	3.5%	0.3%	4.9%	1.0%	0.3%
2016	95,057	31.7%	3.2%	55.1%	3.7%	0.3%	4.5%	1.1%	0.4%
2017	98,944	32.8%	4.1%	52.8%	3.5%	0.3%	4.6%	1.5%	0.5%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	96,895	67.1%	35.0%	42.6%	26.2%	4.8%	19.0%	14.4%	2.4%
2009	93,842	65.1%	31.4%	45.7%	27.0%	3.4%	22.1%	17.0%	2.6%
2010	97,080	62.3%	28.3%	46.8%	25.9%	3.2%	23.8%	17.4%	2.5%
2011	93,801	61.9%	28.4%	45.8%	25.8%	3.3%	26.3%	19.4%	3.0%
2012	95,450	59.4%	28.2%	49.9%	25.5%	3.6%	25.8%	19.8%	3.1%
2013	95,266	57.5%	26.6%	54.8%	25.8%	4.4%	21.0%	18.7%	3.5%
2014	98,531	54.2%	26.3%	59.3%	23.9%	3.9%	17.7%	19.1%	3.8%
2015	91,671	54.9%	24.7%	59.6%	23.6%	3.5%	15.1%	17.4%	3.8%
2016	91,137	54.3%	26.8%	60.6%	24.1%	3.8%	14.4%	17.2%	4.1%
2017	95,041	55.3%	29.8%	59.0%	24.1%	3.4%	13.5%	17.0%	4.4%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Abington

2017	410	47.8%	2.4%	40.7%	4.9%	*	2.7%	1.5%	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	356	85.1%	27.2%	17.7%	22.5%	5.1%	12.6%	12.6%	*
2009	322	77.6%	29.2%	26.1%	30.1%	2.2%	19.9%	16.5%	3.7%
2010	360	75.0%	21.9%	26.4%	25.3%	2.5%	23.9%	13.9%	3.1%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Barnstable

The total number of people served during FY 2017 was 1,187. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 1,267. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

Enrollment Characteristics		% of Enrollments
Gender		
	Female	43.5%
	Male	56.4%
	Transgender	*

2017	1,147	47.0%	2.7%	40.2%	3.1%	*	4.8%	1.8%	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	1,151	77.4%	30.1%	28.2%	28.2%	3.6%	31.0%	13.0%	2.4%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	63.8%	20.0%	38.8%	31.2%	*	22.5%	7.5%	*
2009	0-100	62.7%	16.9%	54.2%	28.9%	*	32.5%	13.3%	*
2010	113	60.2%	20.4%	54.0%	35.4%	*	33.6%	15.0%	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	526	56.1%	29.3%	48.1%	26.6%	4.0%	22.6%	15.2%	1.9%
2009	517	53.2%	25.1%	53.2%	23.2%	3.7%	24.4%	21.7%	2.3%

2015	435	51.7%	19.3%	58.6%	22.1%	3.0%	15.6%	19.8%	3.9%
2016	499	50.3%	16.4%	58.5%	18.0%	2.8%	14.4%	16.0%	4.4%
2017	471	52.0%	24.4%	56.9%	21.7%	4.0%	12.5%	18.7%	6.2%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Boston

The total number of people served during FY 2017 was 10,657. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 15,624. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

Enrollment Characteristics		% of Enrollments
Gender		
	Female	25.6%
	Male	74.2%
	Transgender	0.3%

2017	310	48.7%	2.9%	40.6%	*	*	4.2%	1.9%	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	357	65.3%	33.9%	39.5%	27.5%	2.8%	22.4%	12.9%	2.0%
2009	238	67.2%	23.9%	40.8%	28.2%	2.5%	20.2%	18.5%	2.5%
2010	308	64.9%	23.7%	37.3%	22.7%	2.6%	31.5%	17.2%	2.6%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	651	76.0%	32.4%	34.1%	28.3%	7.7%	15.2%	16.7%	3.7%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	613	59.7%	34.3%	49.1%	28.4%	4.9%	16.6%	14.0%	2.9%
2009	586	57.3%	29.2%	51.5%	27.0%	2.9%	15.0%	17.4%	3.1%
2010	646	55.9%	24.6%	53.6%	23.7%	2.8%	14.6%	15.3%	1.9%
2011	620	60.0%	29.4%	45.2%	22.9%	2.1%	16.9%	19.2%	1.8%
2012	653	50.5%	30.0%	55.4%	23.9%	3.4%	17.3%	21.0%	0.9%
2013	709	53.7%	26.4%	54.9%	25.0%	3.4%	13.5%	19.9%	3.0%
2014	670	50.4%	27.8%	57.6%	23.7%	2.5%	9.9%	20.0%	2.5%
2015	671	51.9%	27.7%	54.5%	21.8%	3.9%	10.3%	18.2%	2.7%
2016	604	60.3%	29.3%	48.5%	27.3%	5.1%	14.6%	14.7%	2.6%
2017	638	55.3%	32.1%	57.1%	21.8%	2.0%	10.2%	14.9%	3.8%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Chicopee

The total number of people served during FY 2017 was 1,077. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 1,378. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

Enrollment Characteristics		% of Enrollments
Gender		
	Female	32.5%
	Male	67.5%
	Transgender	0.0%
Race		
	Black or African American	3.1%

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	72.2%	33.3%	37.0%	38.9%	*	33.3%	*	*
2009	0-100	84.2%	26.3%	31.6%	28.9%	*	*	*	*

2012	0-100	73.3%	16.7%	26.7%	40.0%	*	35.0%	11.7%	*
2013	0-100	46.6%	24.1%	53.4%	39.7%	*	34.5%	24.1%	*
2014	0-100	54.5%	28.8%	60.6%	24.2%	*	18.2%	18.2%	*
2015	0-100	56.9%	*	39.2%	15.7%	*	29.4%	23.5%	*
2016	0-100	56.2%	*	58.3%	22.9%	*	16.7%	18.8%	*
2017	0-100	52.2%	24.6%	59.4%	27.5%	*	21.7%	27.5%	8.7%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	290	82.1%	26.9%	25.2%	34.1%	*	21.0%	8.6%	2.4%
2009	235	82.1%	24.7%	25.5%	31.5%	5.1%	18.7%	18.3%	*
2010	238	80.3%	32.8%	28.2%	35.3%	*	28.2%	13.4%	*
2011	150	74.7%	26.7%	28.7%	34.0%	4.0%	26.7%	14.7%	7.3%
2012	178	69.1%	29.8%	38.8%	27.0%	4.5%	21.3%	13.5%	*
2013	142	58.5%	26.8%	51.4%	35.9%	6.3%	22.5%	17.6%	4.2%
2014	136	61.8%	34.6%	59.6%	30.1%	*	25.0%	14.7%	*
2015	174	59.2%	33.3%	60.3%	30.5%	4.0%	19.0%	14.4%	5.2%
2016	172	56.4%	34.3%	58.1%	27.9%	*	18.0%	10.5%	*
2017	189	63.5%	39.2%	60.8%	26.5%	*	12.7%	10.6%	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

2017	254	53.1%	23.6%	59.1%	30.3%	*	15.4%	13.8%	2.8%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Fall River

The total number of people served during FY 2017 was 3,464. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 4,747. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

Enrollment Characteristics		% of Enrollments
Gender		
	Female	36.9%
	Male	63.1%
	Transgender	0.0%

2017	3,532	22.2%	4.9%	61.4%	3.0%	0.2%	6.2%	1.8%	0.5%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Gloucester

The total number of people served during FY 2017 was 538. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 495. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

Enrollment Characteristics		% of Enrollments
Gender		
	Female	36.2%

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	152	61.2%	7.2%	15.8%	7.9%	*	4.6%	*	*
2009	134	45.5%	6.0%	27.6%	11.9%	*	8.2%	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	61.3%	35.5%	33.9%	35.5%	*	48.4%	14.5%	*
2009	0-100	72.7%	16.7%	25.8%	21.2%	*	24.2%	*	*
2010	0-100	67.6%	19.7%	25.4%	42.3%	*	39.4%	14.1%	*

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	472	71.0%	28.6%	34.5%	24.8%	5.7%	16.1%	11.0%	1.7%
2009	423	73.5%	28.1%	33.6%	29.3%	5.4%	17.5%	10.4%	3.8%

2017	369	28.2%	2.7%	58.0%	6.0%	*	3.3%	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	534	76.2%	45.9%	27.3%	47.4%	2.8%	18.0%	7.3%	1.7%
2009	501	76.4%	40.3%	27.7%	46.3%	4.0%	23.6%	10.6%	2.8%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Malden

The total number of people served during FY 2017 was 769. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 707. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

Enrollment Characteristics		% of Enrollments
Gender		
	Female	30.4%
	Male	69.6%
	Transgender	0.0%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Mashpee

The total number of people served during FY 2017 was 234. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 269. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

Enrollment Characteristics		% of Enrollments
Gender		
	Female	35.3%

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	100.0%	*	*	24.4%	*	*	*	*

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	*	*	*	*	*	*	*	*
2009	0-100	*	*	*	*	*	*	*	*
2010	0-100	53.8%	*	*	*	*	*	*	*
2011	0-100	*	*	58.3%	*	*	*	*	*
2012	0-100	*	*	*	*	*	*	*	*

2017	0-100	*	*	*	*	*	*	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	*	*	*	*	*	*	*	*

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	285	48.8%	9.8%	16.8%	6.7%	*	14.7%	*	*
2009	320	45.9%	4.4%	27.5%	7.8%	2.2%	11.9%	*	*
2010	359	47.9%	3.1%	30.1%	5.6%	*	11.4%	*	*
2011	348	49.1%	6.3%	24.4%	3.4%	*	14.9%	*	*
2012	356	43.0%	2.8%	36.0%	3.4%	*	12.6%	*	*
2013	275	37.1%	*	50.5%	*	*	6.5%	*	*

2015	260	36.5%	2.7%	51.2%	3.8%	*	3.1%	*	*
2016	216	35.6%	*	51.9%	4.2%	*	5.1%	*	*
2017	227	44.5%	2.6%	41.0%	4.8%	*	4.4%	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	272	77.9%	29.8%	19.5%	31.2%	5.9%	25.4%	14.3%	7.0%
2009	312	75.6%	31.7%	34.9%	41.3%	4.5%	31.4%	19.9%	5.4%
2010	339	72.0%	25.1%	38.3%	30.7%	4.7%	26.3%	20.4%	4.1%
2011	338	74.0%	26.3%	29.9%	30.5%	4.7%	30.8%	24.3%	4.1%
2012	344	70.6%	25.0%	38.1%	27.3%	6.7%	34.3%	24.1%	8.4%
2013	263	63.1%	24.0%	57.0%	24.0%	9.5%	27.8%	25.5%	6.8%
2014	287	59.9%	22.0%	55.1%	27.2%	7.3%	17.4%	25.1%	6.3%
2015	250	56.0%	22.8%	57.2%	23.6%	5.6%	12.8%	22.8%	8.0%
2016	210	60.5%	21.0%	54.3%	35.2%	8.6%	17.1%	21.0%	7.1%
2017	223	61.0%	28.3%	46.6%	22.9%	6.3%	8.5%	15.2%	8.1%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	161	75.2%	25.5%	25.5%	23.0%	*	13.0%	8.1%	*
2009	166	70.5%	21.7%	31.9%	24.7%	*	18.1%	12.7%	*
2010	177	63.3%	15.8%	33.9%	22.6%	*	24.9%	10.7%	3.4%

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	689	56.3%	10.6%	20.6%	6.1%	0.9%	4.6%	*	*
2009	518	57.9%	7.1%	23.6%	5.4%	*	4.4%	1.2%	*
2010	505	58.2%	7.9%	20.6%	4.0%	*	7.5%	*	*
2011	300	49.7%	5.7%	29.3%	5.0%	*	9.0%	*	*
2012	275	49.1%	5.8%	32.4%	2.9%	*	7.3%	*	*
2013	274	40.1%	3.3%	46.4%	3.6%	*	4.7%	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	655	82.0%	36.9%	23.7%	36.9%	4.7%	19.1%	11.3%	1.8%
2009	496	80.4%	30.0%	31.2%	31.5%	3.6%	17.3%	14.5%	3.0%
2010	483	77.2%	25.5%	28.8%	29.4%	5.0%	19.0%	11.4%	3.1%
2011	279	73.1%	35.5%	39.1%	32.6%	7.5%	25.4%	22.6%	7.5%
2012	259	73.0%	32.8%	39.4%	29.7%	5.8%	21.6%	14.3%	5.0%
2013	258	64.0%	29.5%	50.8%	30.6%	8.1%	19.0%	16.3%	5.4%
2014	285	57.9%	26.3%	52.6%	22.1%	3.2%	19.6%	14.4%	4.2%
2015	276	62.7%	34.8%	56.2%	23.6%	3.6%	18.8%	18.1%	5.1%
2016	310	64.2%	26.1%	55.2%	24.2%	2.3%	11.3%	12.6%	3.2%
2017	397	60.7%	40.1%	58.2%	31.0%	4.5%	14.6%	11.8%	4.3%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

2017	312	39.4%	4.8%	42.6%	3.2%	*	7.1%	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	317	66.2%	27.8%	45.7%	22.7%	3.5%	15.1%	13.2%	3.2%
2009	314	67.2%	28.0%	51.9%	27.1%	2.5%	19.1%	15.0%	3.2%
2010	311	62.7%	21.5%	49.5%	15.8%	*	17.0%	15.1%	*

2012	350	59.7%	21.1%	50.6%	22.9%	2.3%	24.6%	19.4%	2.0%
2013	307	64.8%	20.5%	42.0%	20.8%	*	15.3%	18.9%	2.0%
2014	297	62.6%	18.5%	46.5%	15.5%	2.0%	12.5%	16.5%	3.0%
2015	267	59.6%	13.5%	51.3%	21.3%	2.6%	13.5%	11.2%	*
2016	294	57.1%	22.8%	56.5%	20.4%	4.1%	14.3%	20.4%	5.8%
2017	286	55.6%	18.2%	50.3%	21.7%	2.8%	12.6%	15.4%	2.4%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	80.0%	*	*	*	*	*	*	*
2009	0-100	85.7%	*	*	*	*	*	*	*
2010	0-100	47.1%	*	*	*	*	*	*	*
2011	0-100	*	*	*	*	*	*	*	*
2012	0-100	*	*	*	*	*	*	*	*
2013	0-100	*	*	*	*	*	*	*	*
2014	0-100	*	*	*	*	*	*	*	*
2015	0-100	*	*	*	*	*	*	*	*
2016	0-100	*	*	57.1%	*	*	*	*	*
2017	0-100	*	*	*	*	*	*	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	77.8%	*	*	*	*	*	*	*
2009	0-100	85.7%	*	*	*	*	*	*	*
2010	0-100	68.8%	*	37.5%	43.8%	*	43.8%	*	*
2011	0-100	69.2%	*	*	*	*	46.2%	*	*
2012	0-100	*	*	*	*	*	*	*	*
2013	0-100	*	*	*	*	*	*	*	*
2014	0-100	*	*	*	*	*	*	*	*
2015	0-100	*	*	*	*	*	*	*	*
2016	0-100	76.9%	53.8%	53.8%	*	*	*	*	*
2017	0-100	63.6%	*	*	*	*	54.5%	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

2017	0-100	63.3%	12.2%	34.7%	24.5%	*	16.3%	16.3%	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	774	34.0%	6.6%	43.9%	7.0%	1.0%	6.2%	0.9%	*
2009	877	28.7%	5.1%	48.1%	6.3%	0.9%	8.8%	1.7%	*
2010	857	35.1%	3.0%	45.9%	3.3%	*	10.3%	1.8%	*
2011	919	28.0%	4.9%	50.3%	2.8%	*	10.9%	2.6%	*
2012	792	28.9%	1.9%	55.3%	2.1%	*	8.5%	2.7%	*
2013	650	30.2%	1.7%	55.7%	2.9%	*	6.9%	1.7%	*
2014	682	34.2%	1.9%	51.6%	1.8%	*	7.9%	1.0%	1.2%
2015	609	30.0%	1.8%	56.5%	3.3%	*	5.7%	1.5%	*
2016	618	33.5%	2.1%	53.2%	2.9%	*	5.0%	1.1%	1.3%
2017	574	36.4%	2.4%	51.0%	1.4%	*	5.6%	1.6%	1.0%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	738	63.4%	32.4%	48.9%	28.2%	9.8%	19.0%	19.1%	3.4%
2009	834	63.3%	36.5%	51.1%	28.5%	5.9%	24.3%	24.1%	1.9%
2010	820	61.1%	25.7%	51.0%	25.6%	4.5%	26.8%	25.7%	3.0%
2011	888	56.3%	27.3%	55.2%	21.4%	2.8%	27.5%	30.7%	1.7%
2012	762	50.7%	23.2%	59.8%	19.2%	3.3%	23.4%	31.6%	1.8%
2013	630	50.5%	24.3%	60.2%	24.0%	3.8%	16.5%	25.6%	3.2%
2014	648	52.6%	18.5%	56.6%	19.9%	5.4%	17.9%	24.8%	4.9%
2015	582	54.6%	24.1%	60.8%	21.6%	7.9%	15.3%	26.5%	5.8%
2016	597	58.6%	24.3%	55.8%	27.3%	7.5%	16.4%	21.3%	6.4%
2017	547	54.5%	18.8%	55.8%	21.6%	3.8%	11.7%	22.5%	4.6%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

South Hadley

The total number of people served during FY 2017 was 182. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 207. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Southbridge

The total number of people served during FY 2017 was 469. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 360. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

Enrollment Characteristics		% of Enrollments
Gender		
	Female	30.3%
	Male	69.7%
	Transgender	0.0%

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	4,316	71.7%	54.1%	44.6%	31.6%	5.9%	15.0%	9.5%	1.1%
2009	4,305	69.2%	46.7%	44.6%	29.4%	2.5%	15.7%	8.6%	1.1%
2010	4,001	70.7%	48.2%	44.8%	32.0%	3.0%	17.0%	9.5%	1.1%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	344	66.3%	33.1%	41.9%	27.0%	2.6%	20.9%	14.8%	3.5%
2009	315	61.3%	29.5%	47.3%	26.7%	1.9%	23.2%	25.4%	1.9%
2010	353	53.5%	20.4%	47.9%	20.1%	*	24.6%	21.0%	*
2011	379	57.3%	23.2%	41.4%	23.2%	2.9%	32.7%	24.8%	2.1%
2012	331	61.6%	24.8%	54.1%	26.0%	2.1%	29.0%	26.3%	3.6%
2013	313	61.7%	24.6%	47.3%	26.2%	3.5%	23.6%	24.6%	3.8%
2014	343	55.4%	19.5%	57.7%	22.2%	2.9%	18.4%	22.2%	5.2%
2015	234	58.1%	20.9%	54.3%	23.1%	4.7%	21.4%	23.1%	3.8%
2016	253	51.4%	27.3%	56.9%	26.1%	2.4%	22.5%	21.7%	5.9%
2017	297	59.3%	25.9%	55.2%	22.9%	2.4%	15.2%	24.2%	6.4%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	163	69.9%	36.2%	38.7%	33.1%	4.3%	21.5%	20.2%	5.5%
2009	167	62.3%	26.3%	49.7%	34.1%	6.0%	36.5%	20.4%	4.8%
2010	205	58.5%	26.8%	53.7%	37.1%	*	39.5%	20.5%	4.9%
2011	183	62.8%	27.9%	46.4%	43.7%	3.3%	41.5%	33.3%	3.8%
2012	208	51.9%	32.7%	54.8%	27.9%	4.3%	35.1%	28.8%	5.3%
2013	183	56.3%	21.9%	51.9%	32.2%	5.5%	22.4%	20.2%	5.5%
2014	216	39.8%	23.1%	66.7%	31.0%	*	23.1%	28.2%	6.5%
2015	213	43.7%	25.4%	64.8%	35.7%	2.8%	20.2%	21.6%	3.8%
2016	221	49.8%	19.5%	63.3%	26.2%	*	17.6%	18.6%	3.2%
2017	204	56.4%	27.0%	53.9%	21.6%	*	14.2%	25.0%	6.9%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Taunton

The total number of people served during FY 2017 was 1,247. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 1,610. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

Enrollment Characteristics		% of Enrollments
Gender		
	Female	36.0%
	Male	64.0%
	Transgender	0.0%

Substance Use Trends

Primary Substance of Use

At admission, clients identify a "primary drug" of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	67.2%	*	13.4%	*	*	*	*	*
2009	0-100	63.0%	*	18.0%	*	*	13.0%	*	*
2010	0-100	59.1%	*	25.0%	*	*	10.2%	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	83.6%	21.3%	21.3%	21.3%	*	19.7%	11.5%	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	88.9%	25.9%	*	40.7%	*	*	*	*
2009	0-100	81.8%	*	*	30.3%	*	21.2%	*	*

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Uxbridge

The total number of people served during FY 2017 was 131. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 142. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

Enrollment Characteristics		% of Enrollments
Gender		
	Female	23.2%

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	130	55.4%	*	26.2%	6.9%	*	8.5%	*	*
2009	107	58.9%	*	25.2%	*	*	8.4%	*	*
2010	125	35.2%	*	44.8%	5.6%	*	7.2%	*	*

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	127	81.9%	22.8%	30.7%	27.6%	7.1%	19.7%	10.2%	8.7%
2009	101	81.2%	18.8%	27.7%	27.7%	*	24.8%	19.8%	*

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	53.8%	*	21.5%	15.4%	*	*	*	*
2009	0-100	51.3%	*	15.8%	14.5%	*	15.8%	*	*
2010	0-100	36.7%	*	24.1%	12.7%	*	22.8%	*	*

2017	0-100	42.4%	*	54.5%	*	*	*	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	81.7%	21.7%	28.3%	40.0%	10.0%	23.3%	20.0%	*
2009	0-100	62.7%	17.9%	19.4%	46.3%	*	40.3%	9.0%	*
2010	0-100	72.0%	20.0%	30.7%	37.3%	*	38.7%	16.0%	*

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	169	76.3%	25.4%	27.2%	24.3%	*	20.7%	14.2%	*

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	227	38.8%	3.5%	37.9%	4.4%	*	14.1%	*	*

2017	229	37.6%	3.1%	46.3%	3.9%	*	6.6%	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	222	64.9%	28.8%	42.8%	27.5%	3.2%	26.6%	16.7%	5.0%
2009	213	50.2%	26.3%	53.5%	29.1%	*	32.9%	18.8%	5.2%
2010	243	58.4%	16.0%	53.1%	22.2%	*	32.5%	25.5%	*
2011	270	46.7%	17.0%	59.3%	18.9%	*	34.8%	17.4%	*
2012	295	49.5%	25.4%	67.8%	20.0%	*	33.9%	29.8%	*
2013	254	43.3%	24.8%	71.7%	26.8%	3.9%	22.8%	26.8%	2.8%
2014	304	42.1%	21.4%	74.7%	20.4%	2.3%	17.1%	24.0%	3.3%
2015	207	50.2%	22.7%	73.9%	19.3%	*	16.9%	17.4%	*
2016	234	54.3%	17.9%	58.1%	15.8%	5.1%	12.0%	18.4%	3.8%
2017	217	58.5%	21.7%	52.5%	23.5%	3.7%	12.9%	18.9%	3.2%

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Wilbraham

The total number of people served during FY 2017 was 112. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 153. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	229	56.3%	24.9%	54.6%	23.6%	7.9%	24.0%	14.8%	4.4%

Substance Use Trends

Primary Substance of Use

At admission, clients identify a “primary drug” of use, which is the substance for which they seek treatment. Table 1 shows the percent distribution by primary drug.

Table 1
Primary Drug Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	51.7%	*	20.7%	*	*	*	*	*
2009	0-100	43.8%	*	43.8%	*	*	*	*	*
2010	0-100	*	*	*	*	*	*	*	*
2011	0-100	*	*	*	*	*	*	*	*
2012	0-100	*	*	*	*	*	*	*	*
2013	0-100	*	*	*	*	*	*	*	*
2014	0-100	*	*	*	*	*	*	*	*
2015	0-100	*	*	*	*	*	*	*	*
2016	0-100	*	*	*	*	*	*	*	*
2017	0-100	*	*	*	*	*	*	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values for primary drug*

Past Year Substance Use

Upon entering treatment, clients are asked to report ALL substances used in the year (12 months) prior to admission. It is possible to report using more than one substance within the past year. Therefore, percentages may total more than 100%. Table 2 shows the distribution of past year drug use for all substances. It only includes those admissions that did report past year substance use.

Table 1
Past Year Substance Use Trend: FY 2008 - FY 2017

	Total Admissions *	Alcohol	Crack/Cocaine	Heroin	Marijuana	Other	Other Opioids	Other Sedatives/Hypnotics	Other Stimulants
2008	0-100	78.6%	*	25.0%	*	*	25.0%	*	*
2009	0-100	81.2%	*	43.8%	*	*	*	*	*
2010	0-100	*	*	*	*	*	*	*	*
2011	0-100	85.7%	*	*	*	*	*	*	*
2012	0-100	*	*	*	*	*	*	*	*
2013	0-100	*	*	*	*	*	*	*	*
2014	0-100	*	*	*	*	*	*	*	*
2015	0-100	*	*	*	*	*	*	*	*
2016	0-100	*	*	*	*	*	*	*	*
2017	0-100	*	*	*	*	*	*	*	*

Other includes PCP, Other Hallucinogens, Methamphetamine, Other Amphetamines, Other Stimulants, Benzodiazepines, Other Tranquilizers, Barbiturates, Other Sedatives, Inhalants, OTC, Club Drugs, Other All Other Opioids include Non – Rx Methadone, Other Opiates, Oxycodone, Non-Rx Suboxone, Rx Opiates, Non-Rx Opiates

** Number of total admissions may be different than the reported number on the first page due to missing/unknown values and due to the fact that the table above does not include those admissions who did not report past year use*

To protect client confidentiality, categories with 5 or fewer admissions are suppressed

In 2014, a new system of reporting was adopted for Methadone treatment providers. Due to this system change, the reported enrollment numbers for FY 2014 may vary from the actual number of enrollments and future reports on FY 2014 data may differ from the current report

Clients of all ages are included in these statistics

Homelessness at enrollment is determined based on the client's housing disposition at the time of enrollment.

Missing/Unknown values are excluded from the data

Data and definitions as of July 6, 2018

Prepared by: Massachusetts Department of Public Health, Bureau of Substance Addiction Services, Office of Statistics and Evaluation

Wrentham

The total number of people served during FY 2017 was 0-100. People served refers to individuals who received services during the fiscal year. This number includes individuals that could have been admitted prior to the beginning of the fiscal year. The total number of admissions during FY 2017 was 0-100. This fact sheet excludes data for county correctional facilities. The data below is based on admissions; the percentages exclude all missing/unknown values for each category.
