

AFFIRMATION OF COMPLIANCE WITH MEDICAL MONITORING REQUIREMENTS

Applicant or Business Name:

Address:

City: State: Zip Code:

I hereby affirm that as a Deleading Contractor and/or Lead-safe Renovation Contractor, I am / my business is in compliance with the medical monitoring requirements prescribed by the Department of Labor Standards ("DLS") Deleading and Lead-Safe Renovation Regulations, 454 CMR 22.00 ("Lead Regulations"), and relevant OSHA Regulations, 29 CFR 1926.62.

My medical monitoring plan includes at least all of the following:

- A Respiratory Protection Program is implemented, in accordance with 29 CFR 1910.134(b) through (d).
- Personal protective clothing and equipment is provided to employees.
- Proper respirator is provided to employees.
- Proper respirator fit testing is performed prior to initial use and at least annually thereafter.
- Records are maintained of the results of all personal exposure monitoring, respirator fit testing, medical examinations and blood lead testing conducted for employees.
- A medical surveillance program is instituted for employees (including blood level/ZPP monitoring; providing physicians with requirements; medical exams).
- A copy of the required sections of the Department's regulations is provided to the physician conducting the medical examination or consultation under 454 CMR 22.09.
- All medical examinations and procedures are performed by or under the supervision of a licensed physician. All the requirements of a medical examination, as required by 454 CMR 22.09(4)(e), are met.
- Blood lead levels of the applicant or employee and the Reporting Physician's Statement are provided to the applicant or employee within two working days after receipt.
- Deleader-supervisors and Deleader-workers receive blood lead and zpp monitoring every two months during the first six months following licensure or certification and at least quarterly thereafter.
- No person whose blood lead level is above 50 ug/dl to be permitted to engage in Deleading or Renovation Work until two consecutive blood sampling tests indicate that the blood lead level is at or below 40 ug/dl of whole blood.
- Blood lead samples collected in accordance with the Lead Regulations shall be analyzed by laboratories approved by OSHA-CDC for blood lead analysis.
