SUPPLY INFORMATION

1. Give a full and complete description of the source or sources from which water is obtained. State whether these sources are owned or leased by the company. If they are leased, quote the terms of the leases. Give the date of the latest opinion of the Department of Public Health regarding each of these sources of supply.

The Wareham Road well is the current water source. It is rated to provide up to 100,000 gpd. In a few years, when water demand warrants the need, a future permanent well (the Agawam Road Well) will be constructed.

PUMPING INFORMATION

1. Give a general description of the method employed for delivering the water to the consumers, stating whether gravity is utilized or not; whether the company owns a pumping station or not; and giving all other pertinent information:

Water from the Wareham Road Well fills the mains and surplus is directed to the 500,000 gallon elevated storage tank to overflow. Water flows by gravity into the distribution system until the tank's low water level is reached at which point pumping from the well resumes. The well is the only pumping station in the system at this time.
