

I am deeply concerned about the Cape Wind proposal that is currently under review by the Army Corps of Engineers on public land in Nantucket Sound. I am not sure that offshore development is in public interest and that the Army Corps of Engineers is the wrong entity to decide upon this critical issue. I think that the Nantucket Sound area could be permanently damaged.

The Ocean Management Task Force and Governor Romney should clearly assert its interest and authority over Nantucket Sound. The Ocean Management Task Force to request that the Army Corps of Engineers suspend its review of the Cape Wind project until they have put an Ocean Resource Management Act into effect.
