*Features on*
*Our Web Site*

The Division of Medical Assistance has operated and maintained a Web site since January 1999. Our Web site provides ready access to commonly referenced materials. We have recently updated our Web site to include some frequently requested information for providers. The materials on our Web site can be viewed on line, saved to your computer, or printed for future reference.

Our Web site features:
- all the Division's regulations governing MassHealth providers and members;
- all bulletins that have been issued since January 1999;
- information about the Recipient Eligibility Verification System (REVS);
- an up-to-date list of third-party liability carrier codes to help you determine a member's other health insurance;
- clinical practice guidelines endorsed by MassHealth;
- *DMA News*, a quarterly newsletter; and
- links to other government and certain nongovernment health-care-related Web sites.

For those who want to help people apply for MassHealth, the Medical Benefit Request, the application for MassHealth and the Children's Medical Security Plan, is also available on our Web site in both English and Spanish. The Medical Benefit Request can be downloaded or completed on line and printed for mailing or faxing.

In the coming months, we plan to use our Web site to communicate new initiatives and provide additional reference materials.
