MassHealth
All Provider Bulletin 346
August 2022

TO: All Providers Participating in MassHealth
FROM: Amanda Cassel Kraft, Assistant Secretary for MassHealth
RE: **Coverage and Reimbursement Policy for Coronavirus Disease 2019 (COVID-19) Vaccines, including Pediatric Vaccines, and Vaccine Boosters**

Background

This bulletin confirms coverage for COVID-19 vaccine doses (ages six months through four years) for the Pfizer-BioNTech COVID-19 Pediatric Vaccine and the Moderna COVID-19 Pediatric Vaccine, as well as coverage for the Pfizer- BioNTech COVID-19 pediatric vaccine booster doses and the Novavax COVID-19 vaccine.

Coverage for COVID-19 Pediatric Vaccine and Vaccine Booster Doses

On May 17, 2022 the U.S. Food and Drug Administration (FDA) amended the emergency use authorization (EUA) for the Pfizer-BioNTech COVID-19 Vaccine, authorizing the administration of a single booster dose to individuals five through 11 years of age at least five months after completion of a primary series with the Pfizer-BioNTech COVID-19 Vaccine. MassHealth will cover pediatric booster doses consistent with the EUA.

On June 17, 2022, the FDA further amended the EUA for the Pfizer-BioNTech COVID-19 Vaccine, authorizing administration to individuals six months through four years. The FDA also amended the EUA for the Moderna COVID-19 vaccine on the same date, authorizing administration to individuals 6 months through 17 years.

On July 13, 2022, the FDA issued an EUA for the Novavax vaccine for individuals 18 years and older.

MassHealth will issue transmittal letters that formally add the codes listed below to the relevant provider manuals. The Executive Office of Health and Human Services (EOHHS) will formally establish the rate for these codes through administrative bulletins or amendments to relevant pricing regulations. The rate of these codes will be consistent with existing vaccine administration rates.

For Moderna COVID-19 vaccines administered to ages six through 11, providers should use code 91309 SL for the vaccine itself. This code was previously added in All Provider Bulletin 344 for boosters; it may also be used for the dose administered to children ages six through 11. For Moderna COVID-19 vaccines administered to children ages 12 through 17, existing codes 91301, 0011A, 0012A, and 0013A may be used.
