## All Provider Bulletin 414

**DATE:** April 2026

**TO:** All Providers Participating in MassHealth

**FROM:** Mike Levine, Undersecretary for MassHealth

**RE: Changes in Exclusion of Designated 340B Drugs for MassHealth Fee-for-Service Coverage**

### Introduction

MassHealth is making changes to its fee-for-service (FFS) coverage of 340B drugs dispensed by pharmacies and billed through pharmacy point-of-sale adjudication.

For the purposes of this bulletin, MassHealth FFS includes pharmacy claims for members enrolled in MassHealth FFS, the Primary Care Clinician (PCC) Plan, and Primary Care Accountable Care Organizations.

### Change for FFS Pharmacy Point of Sale Claims

As of an anticipated effective date of July 1, 2026, MassHealth will no longer pay for drugs acquired through the 340B Drug Pricing Program when those drugs are billed through pharmacy point-of-sale adjudication in MassHealth FFS. MassHealth anticipates implementing this policy through amendments to 130 CMR 405.000, 130 CMR 406.000, and 130 CMR 410.000, and those regulations will confirm the final effective date. The public will have an opportunity to comment on the proposed changes when the proposed regulation amendments are made public.

MassHealth will continue to pay for these drugs when providers use non-340B stock, as long as the drugs are otherwise covered by MassHealth. Similarly, MassHealth will continue paying for 340B drugs that are not billed through pharmacy point-of-sale adjudication, as long as they have not otherwise been excluded. See the [MassHealth Drug List](#) for drugs that are excluded from MassHealth coverage in all settings if purchased through the 340B Drug Pricing Program.

This change applies only to MassHealth pharmacy point-of-sale adjudications through MassHealth FFS. It does not change MassHealth member access to covered drugs. It also does not affect the use of 340B stock for non-MassHealth patients.
