As you may know, after logging into the ePLACE Portal Account, Registrants and Agents may see all of their records, including Renewal Applications and New Product Registration Applications by clicking on the "My Records" tab. What you may not know; however, is that this is also how you begin the process for adding an Alternate Brand Name (ABN) to an existing approved or renewed registration.

The screenshot shows the EEA ePLACE Portal interface. At the top, there is a navigation bar with a 'Home' button and a 'My Records' button highlighted with a red arrow. Below the navigation bar, the user is welcomed as 'Steven Antunes-Kenyon' and informed that they are logged in to the Commonwealth's EEA ePlace Portal. The main content area is titled 'What would you like to do?' and lists three options: 'New License, Permit, Certificate, Notification or Registration' (with a 'Click Here' link), 'Renew License, Permit, Certificate or Registration' (with a note to select 'My Records' above), and 'Amend License, Permit, Certificate or Registration' (with a note to select 'My Records' above). A 'Please note' section follows, stating that the portal only services some licenses, permits, certificates, and registrations issued by EEA. Below this, there is a section for users using assistive tools like JAWS, directing them to the 'EEA ePlace Quick Guides'. The bottom section provides information on how to search and view pending and final decisions, and where to visit for additional information about the Commonwealth and EEA.
