AMENDMENT #1
TO THE
SEVENTH AMENDED AND RESTATED
MASSHEALTH MANAGED CARE ORGANIZATION CONTRACT
WITH
BOSTON MEDICAL CENTER HEALTH PLAN, INC.

WHEREAS, the Executive Office of Health and Human Services (“EOHHS”) and Boston Medical Center Health Plan, Inc. (“Contractor”) entered into the Contract effective October 2, 2017, and with an Operational Start Date of March 1, 2018, to make available high quality, coordinated, comprehensive health care services on a capitated basis to specific eligible groups;

WHEREAS, EOHHS and the Contractor last amended and restated the Contract effective January 1, 2025, (the Seventh Amended and Restated Managed Care Organization Contract);

WHEREAS, in accordance with **Section 5.9** of the Contract, EOHHS and the Contractor desire to amend the Contract effective January 1, 2025; and

WHEREAS, EOHHS and the Contractor agree that the terms stated herein are subject to all required approvals of the federal Centers for Medicare and Medicaid Services (CMS);

NOW, THEREFORE, in consideration of the mutual covenants and agreements contained herein, the Contractor and EOHHS agree as follows:

1. Section 1, Definitions of Terms, Adverse Action, is hereby amended by deleting the section in its entirety and inserting in place thereof:

“**Adverse Action** – any one of the following actions or inactions by the Contractor shall be considered an Adverse Action:

- the failure to provide MCO Covered Services in a timely manner in accordance with the accessibility standards in **Section 2.10.B**;
- the denial or limited authorization of a requested service, including the determination that a requested service is not an MCO Covered Service;
- the reduction, suspension, or termination of a previous authorization by the Contractor for a service;
- the denial, in whole or in part, of payment for a service, where coverage of the requested service is at issue, provided that procedural denials for requested services do not constitute Adverse Actions, including but not limited to denials based on the following:
 - failure to follow prior authorization procedures;
 - failure to follow referral rules; and

- failure to file a timely claim;
 - the failure to act within the timeframes in **Section 2.7.C.6** for making authorization decisions;
 - the failure to act within the timeframes in **Section 2.13.B.4** for reviewing an Internal Appeal and issuing a decision; and
 - the involuntary transfer of an Enrollee to a different PCP pursuant to **Section 2.4.E.3.d.**”
2. **Section 1, Definitions of Terms, Children’s Behavioral Health Initiative Services or CBHI Services** is hereby amended by inserting “, Family-based Intensive Treatment,” before “and Youth Mobile Crisis Intervention”.
 3. **Section 1, Definitions of Terms, Community Service Agency (CSA)** is hereby amended by deleting the section in its entirety and inserting in place thereof:

“**Community Service Agency (CSA)** – a community-based Behavioral Health provider organization whose function is to facilitate access to the continuum of Behavioral Health services by providing an organized pathway to care for children and families where the child is referred for Intensive Care Coordination or Family-based Intensive Treatment. A primary mechanism through which CSAs serve this function is as the provider of Intensive Care Coordination, Family Support and Training Services, and Family-based Intensive Treatment which are BH Covered Services.”
 4. **Section 1, Definitions of Terms**, is hereby amended by inserting a new definition as follows:

“**Designated Perinatal and Maternal Health Expert** – The Designated Perinatal and Maternal Health (PMH) Expert must be a licensed clinician, such as a Certified Nurse Midwife (CNM), Social Worker (LCSW/LICSW), Registered Nurse (RN) or another licensed medical professional such as a Medical Doctor (MD), Doctor of Osteopathic Medicine (DO), Nurse Practitioner (NP), or Physician’s Assistant (PA) with PMH expertise. The Designated PMH Expert experience shall include but not be limited to working directly with pregnant, birthing, and postpartum patients and their infants. The qualifications for the Designated Perinatal and Maternal Health Expert shall be made available to EOHHS.”
 5. **Section 1, Definitions of Terms, High-Cost Drugs (HCD)** is hereby amended by deleting the section in its entirety and inserting in place thereof:

“**High-Cost Drugs (HCD)** – Unless otherwise specified by EOHHS, drugs identified by EOHHS as High Cost Drugs that have a typical treatment cost greater than \$200,000 per patient per year and treat an applicable condition that affects fewer than 20,000 individuals nationwide.”
 6. **Section 1, Definitions of Terms, Internal Appeal** is hereby amended by inserting “The Contractor may only have one level of Internal Appeal for Enrollees consistent with 42 CFR 438.402(b).” after the first sentence.

7. **Section 1, Definitions of Terms, Pre-release Enrollee** is hereby amended by inserting “, as designated by EOHHS,” after “Members” and inserting “or related initiatives” after “Reentry Demonstration Initiative”.

8. **Section 2.3.A.3** is hereby amended by deleting the section in its entirety and inserting in place thereof:

“3. Key Personnel and Other Staff

The Contractor shall have key personnel and other staff as set forth in this **Section:**

 - 9) Any other positions designated by EOHHS.
- c. The Contractor shall appoint key personnel and designated staff as follows:
- 1) The Contractor shall appoint an individual to each of the roles listed in **Section 2.3.A.3.a-b**. The Contractor may appoint a single individual to more than one such role;
 - 2) The Contractor shall have appointments to all key personnel roles, as described in **Section 2.3.A.3.a** no later than ninety (90) days prior to the Contract Operational Start Date, and shall notify EOHHS of such initial appointments;
 - 3) Key personnel shall, for the duration of the Contract, be employees of the Contractor, shall not be subcontractors, and shall be assigned primarily to perform their job functions related to this Contract;
 - 4) The Contractor shall, when subsequently hiring, replacing, or appointing individuals to key personnel roles, as described in **Section 2.3.A.3.a**, notify EOHHS of such a change and provide the resumes of such individuals to EOHHS upon request after such a change is made;
 - 5) Upon EOHHS request, the Contractor shall inform EOHHS of any updates to its designated staff, as described in **Section 2.3.A.3.b**, in accordance with **Appendix A**;
 - 6) If EOHHS informs the Contractor that EOHHS is concerned that any key personnel or designated staff, as described in **Section 2.3.A.3.a-b**, are not performing the responsibilities described in this Contract, or are otherwise hindering the Contractor's successful performance of the responsibilities of this Contract, the Contractor shall investigate such concerns promptly, take any actions the Contractor reasonably determines necessary to ensure full compliance with the terms of this Contract, and notify EOHHS of such actions. If such actions fail to ensure such compliance to

EOHHS' satisfaction, EOHHS may invoke intermediate sanction and corrective action provisions described in **Section 5.4**.

d. Administrative Staff

The Contractor shall employ sufficient Massachusetts-based, dedicated administrative staff and have sufficient organizational structures in place to comply with all of the requirements set forth herein, including, but not limited to, specifically designated administrative staff dedicated to the Contractor's activities related to:

- 1) The Contractor's relationships with CPs and management of the CP contracts;
- 2) Risk stratification;
- 3) Care Management;
- 4) Population health initiatives and programs; and
- 5) TPL Benefit Coordination, as described in **Section 2.20.A**.

e. On an ad hoc basis when changes occur or as directed by EOHHS, the Contractor shall submit to EOHHS an overall organizational chart that includes senior and mid-level managers for the organization. The organizational chart shall include the organizational staffing for Behavioral Health Services and activities. If such Behavioral Health Services and activities are provided by a Material Subcontractor, the Contractor shall submit the organizational chart of the behavioral health Material Subcontractor which clearly demonstrates the relationship with the Material Subcontractor and the Contractor's oversight of the Material Subcontractor. For all organizational charts, the Contractor shall indicate any staff vacancies and provide a timeline for when such vacancies are anticipated to be filled."

9. **Section 2.3.D.5.a.5.a** is hereby amended by inserting "For any payment suspensions initiated prior to April 1, 2023, the Contractor shall disburse 40% of such money to EOHHS." at the end of the section.
10. **Section 2.3.D.5.b.2.b** is hereby amended by deleting "**Section 4.3.H**" and inserting in place thereof "**Section 4.3.I**".

12. **Section 2.4.E.5.c** is hereby amended by inserting "services" after "CBHI".
13. **Section 2.5.A.10** is hereby amended by deleting the section in its entirety and inserting in place thereof:

"10. Effective September 23, 2025, develop policies and procedures to pay for annual Behavioral Health Wellness (BH wellness) exams provided to any Enrollee in any care setting by a licensed mental health professional or PCP, as specified in Managed Care Entity Bulletin 136. The annual BH wellness exam shall identify

undiagnosed behavioral or mental health needs and appropriate resources for treatment, in accordance with M.G.L. Ch. 118E, s. 10Q, as added by Chapter 177 of the Acts of 2022. The Contractor shall allow, if appropriate, for additional diagnosis codes on the claim, should a condition be discovered during the exam, as specified in Managed Care Entity Bulletin 136 and any superseding bulletins. Such policies and procedures shall not impose prior authorization on the annual BH wellness exam, shall not require a member to have pre-existing clinical conditions, and shall not require a provider to conduct a CANS assessment prior to providing the annual BH wellness exam.”

14. **Section 2.6.D** is hereby amended by inserting a new **Section 2.6.D.12** as follows and renumbering the subsequent sections accordingly:
 - “12. Ensure that a Designated Perinatal and Maternal Health PMH Expert is involved in the development of and review of the Contractor’s MCO Care Management strategy for perinatal Enrollees and enhanced care coordination for high-risk perinatal Enrollees.”
15. **Section 2.6.E.5.d.2** is hereby amended by inserting “or Family-based Intensive Treatment (FIT)” after “CBHI ICC”.
16. **Section 2.7.B.2.a** is hereby amended, effective April 1, 2025, by deleting “, including the Acute Hospital Carve-Out Drugs List within the MassHealth Drug List,”.
17. **Section 2.7.B.5.d** is hereby amended by deleting “(1) and 101 CMR 331.04 (3)” and inserting in place thereof “, 101 CMR 331.05, and 101 CMR 331.06”.
18. **Section 2.7.B.9.c.1.b** is hereby amended by deleting “and drugs identified in the MassHealth Acute Hospital Carve-Out Drugs List”.
19. **Section 2.7.D.4.f** is hereby amended by deleting the section in its entirety and inserting in place thereof “[Reserved]”.
20. **Section 2.7** is hereby amended by inserting a new **Section 2.7.N** as follows:
 - “N. Effective July 4, 2025, unless otherwise specified by EOHHS and permitted by federal law, the Contractor shall not make payments under this Contract for MCO Covered Services provided by prohibited entities defined in the One Big Beautiful Bill Act, Pub. L. 119-21, Section 71113.”
21. **Section 2.8.A.1.b.1** is hereby amended by inserting “screened and” before “enrolled”.

 - “3. “Effective July 1, 2025, Providers of Individualized Treatment Services and Youth and Transitional Age Youth Detoxification and Stabilization Services

approved by the DPH Bureau of Substance Addiction Services identified in **Appendix G, Exhibit 8**, as updated by EOHHS from time to time, and shall pay such providers in accordance with **Section 2.8.D.7.d-e.**”

24. Section 2.8.B is hereby amended by inserting a new **Section 2.8.B.3** as follows:

“3. Provider Payment Rate Information

The Contractor shall maintain, for all Providers with whom it has a Provider Contract, a payment rate schedule for all MCO Covered Services each Provider is contracted to provide. The Contractor shall:

- a. Comply with the Provider payment requirements as set forth in **Section 2.8.D**, as updated by EOHHS from time to time;
- b. Communicate any modifications to the Contractor’s payment rates to Providers and reflect the modifications in the payment rate schedule in a timely manner;
- c. Make available, upon request, the payment rate schedule to Provider(s) and EOHHS; and
- d. Ensure its Material Subcontractors, as applicable, adhere to the requirements of this **Section.**”

25. Section 2.8.D.7 is hereby amended by:

1. Deleting **Section 2.8.D.7.g** in its entirety and inserting in place thereof:

“g. For all types of and enhancements to Residential Rehabilitation Services for Substance Use Disorder (ASAM Level 3.1) (RRS), as set forth in **Appendix C**, the Contractor shall establish Provider rates at or above the rate floor set by EOHHS in 101 CMR 346, unless otherwise directed by EOHHS, and shall use procedure codes as directed by EOHHS to provide payment for such services.”

2. In **Section 2.8.D.7.m**, deleting “The” at the beginning of the section and inserting in place thereof, “Through August 31, the” and deleting “**Appendix O, Exhibit 3**” and in inserting in place thereof “**Appendix O, Exhibit 3.A**”.

3. Deleting **Section 2.8.D.7.n** in its entirety and inserting in place thereof:

APPENDIX A MCO REPORTING REQUIREMENTS

This Appendix summarizes the reporting requirements described in the Contract. EOHHS may update these requirements from time to time. The Contractor shall submit corresponding Certification Checklists of all reports/submissions listed in **Appendix A** within the timelines specified herein. The Contractor may include a narrative summary to reports/submissions and may include graphs that explain and highlight key trends. All reports must be submitted via OnBase, the EOHHS Contract Management system, unless otherwise indicated below in the *“Target System”* column. Numbering sequence and Report Title that will appear in the OnBase system can be found in **BOLD** in the *“Name of Report”* column.

For all of the reports listed below, unless otherwise specified, if the Contractor meets the target for a given report, the Contractor shall only complete a short narrative description on the report cover sheet. For any report that indicates that the Contractor is not meeting the target, the Contractor shall submit a detailed narrative that includes the results, an explanation as to why the Contractor did not meet the target, and the steps the Contractor is taking to improve performance going forward.

The Contractor shall provide all Reports in the form and format required by EOHHS and shall participate with EOHHS in the development of detailed specifications for these reports. These specifications shall include benchmarks and targets for all reports, as appropriate. Targets shall be changed to reflect improvement in standards over time.

All exhibits referenced herein pertain to **Appendix A**, unless otherwise noted. Such exhibits set forth the form and format the Contractor shall use for each report below. These exhibits shall be provided to the Contractor and may be updated by EOHHS from time to time. EOHHS shall notify the Contractor of any updates to the exhibits.

one, strength-based relationship between a Family Support and Training Partner and a parent/caregiver. The purpose of this service is for resolving or ameliorating the youth’s emotional and behavioral needs by improving the capacity of the parent /caregiver to parent the youth so as to improve the youth’s functioning. Services may include education, assistance in navigating the child serving systems; fostering empowerment, including linkages to peer/parent support and self-help groups; assistance in identifying formal and community resources, support, coaching, and training for the parent/caregiver.				
c. Intensive Care Coordination – a service that provides targeted case management services to individuals under 21 with a Serious Emotional Disturbance including individuals with co-occurring conditions. This service includes assessment, development of an individualized care plan, referral and related activities to implement the care plan and monitoring of the care plan.	✓			✓
d. In-Home Behavioral Services – this service usually includes a combination of behavior management therapy and behavior management monitoring, as follows: C1. Behavior Management Therapy – This service includes assessment, development of the behavior plan, and supervision and coordination of interventions to address specific behavioral objectives or performance. This service addresses challenging behaviors which interfere with the child’s successful functioning. The Behavior management therapist develops and monitors specific behavioral objectives and interventions, including a crisis-response strategy, that are incorporated into the child’s treatment plan. The therapist may also provide short-term counseling and assistance,	✓			✓

the treatment plan. The paraprofessional assists a licensed clinician in implementing the therapeutic objectives of the treatment plan designed to address the child’s mental health and emotional challenges. This service includes teaching the child to understand, direct, interpret, manage and control feelings and emotional responses to situations, and to assist the family in supporting the child in addressing his or her emotional and mental health needs. Phone contact and consultation may be provided as part of the intervention.				
f. Therapeutic Mentoring Services – This service provides a structured, one-to-one mentoring relationship between a therapeutic mentor and a child or adolescent for the purpose of addressing daily living, social and communication needs. Each child or adolescent will have goals and objectives that are designed to support age-appropriate social functioning or ameliorate deficits in the child or adolescent’s age-appropriate social functioning. These goals and objectives are developed by the child or adolescent, as appropriate, and his/her treatment team and are incorporated into the treatment plan. The service includes supporting, coaching and training the child or adolescent in age-appropriate behaviors, interpersonal communication, problem-solving and conflict resolution and relating appropriately to other children and adolescents, as well as adults, in recreational and social activities. The therapeutic mentor works with the child or adolescent in such settings as their home, school or social or recreational activities.	✓			✓

**DEPARTMENT OF MENTAL HEALTH
DIVISION OF CLINICAL AND PROFESSIONAL SERVICES
LICENSING DIVISION – BULLETIN #19-01
March 1, 2019**

Clinical Competencies/Operational Standards for DMH Licensed Inpatient Facilities

This bulletin, and the attachments hereto are issued pursuant to Department of Mental Health (DMH) regulations 104 CMR 27.03(5)&(8), which provide that DMH “may establish clinical competencies and additional operational standards for care and treatment of patients admitted to facilities³ licensed pursuant to 104 CMR 27.00, including for specialty populations.” The purpose of this regulatory provision is to assist the Department in assuring that DMH licensed facilities have the capability to provide the level of care needed by individuals who meet criteria for inpatient hospitalization, thereby increasing access to services required by citizens of the Commonwealth.

The attached clinical competencies/standards were developed by a broad stakeholder group that included DMH clinical and licensing staff, representatives of DMH licensed facilities, public and commercial payers, and professional trade associations. They are intended as guidelines to inform practice and to provide a baseline for DMH licensing reviews of individual facility’s compliance with licensing regulations. The competencies/standards cover the following areas:

- Clinical Competencies/ Operational Standards Related to Co-occurring Medical Conditions: Psychiatric units within General Hospitals
- OMITTED
- Clinical Competencies/ Operational Standards Related to Severe Behavior/ Assault Risk
- Clinical Competencies/ Operational Standards Related to Co-occurring Autism Spectrum Disorders or Other Intellectual and Developmental Disabilities (ASD/ID/DD)
- Clinical Competencies/ Operational Standards Related to Co-occurring Substance Use Disorders (SUD)

While it is expected that all facilities will generally be able to meet the clinical competencies/standards (including provision of services and equipment), it is not necessarily expected that each facility will have the resources or staff available at all times to meet all competencies and standards at all times, as circumstances within facility at any given time may limit its ability to be in compliance. Facilities must, however, have a plan in place to provide additional staff coverage or equipment as may be needed to facilitate admission of patients who require such coverage or equipment, and should be prepared to engage with public and commercial payers proactively as indicated.

The DMH Licensing Division will begin referring to the attached competencies/standards in its licensing reviews beginning May 1, 2019.

³ The term “facility” as used in this bulletin includes DMH licensed units within general hospitals.

Inpatient Licensing Division

Clinical Competencies/ Operational Standards Related to Co-Occurring Medical Conditions

Psychiatric Units within General Hospitals

Psychiatric units in general hospitals are expected to have the capability, or the ability to secure the capability within a reasonable period of time (in hours or, for very complex medical care needs, days), to provide necessary medical care to patients requiring inpatient psychiatric hospitalization who also have medical conditions requiring the following services.

Each inpatient psychiatric unit in a general hospital shall have policies to assure that it has the capacity to provide care for persons with the following medical needs or conditions. If resources are not immediately available for patients with certain medical conditions, the facility must have a plan to secure the resources necessary to provide the care (e.g., securing “just in time” training for nurses from a specialty nurse educator, availability of a specialist to consult with the attending psychiatrist, etc.) through training, supplemental staff, etc. within a reasonable period of time:

- Intravenous (IV) hydration
- Continuous Positive Airway Pressure (CPAP)
- Diabetes Care
- Oxygen Therapy
- Alcohol Detoxification (See specific competencies required for treatment of co-occurring Substance Use Disorders)
- Opiate Detoxification (See specific competencies required for treatment of co-occurring Substance Use Disorders)
- Methicillin-resistant Staphylococcus aureus (MRSA) or other antibiotic-resistant infections or communicable infections
- Assistive devices/specialty equipment (e.g., walkers, canes, wheelchairs, hospital beds, specialty mattresses)
- Occupational Therapy (OT)/ Physical Therapy (PT)
- Anticoagulation therapies
- Eating disorders
- Incontinence
- Foley catheter
- Ostomy care
- Seizures – History and/ or risk of
- Respiratory conditions
- Wound care (any stage)
- Patient in need of in-house Lab services

- Patient in need of internal medicine resources on site

Each facility shall ensure that all staff designated to provide the listed services receive education and demonstrate competencies (i.e., upon hire, as needed, and/ or annually) that are consistent with their role in patient care regarding the above competencies. Each facility shall further ensure that medical and nursing care staff are trained in and can demonstrate knowledge of the facility's policy or plan for securing the resources necessary to provide the listed services and to provide just-in-time training to all staff who will provide care to the patient being admitted.

DMH recognizes that some capabilities may be beyond the capacity of certain general inpatient units within general hospitals. It is necessary; however, that these capabilities be present within the Commonwealth's hospital system, even if they may require extra resources, transportation or preparation. Facilities are encouraged to develop these capabilities, either through direct service arrangements, affiliations with outside providers or otherwise. These capabilities include, but are not limited to:

- IV medications
- Bilevel Positive Airway Pressure (BiPAP)
- Dialysis
- Suction
- Nasogastric (NG) Tube
- Eating disorders – severe restrictive or purging
- Pregnancy

A facility with available beds may deny admission to a patient whose needs have been determined by the facility medical director, or the medical director's physician designee when unavailable* to exceed the facility's capability at the time admission is sought. The medical director's determination must be written, and include the factors justifying the denial and why mitigating efforts, such as utilization of additional staff, would have been inadequate. [See DMH Licensing Bulletin #18-01 - ***Documentation of Unit Conditions and Facility Denial of Inpatient Care*** and 104 CMR 27.05 (3) (d).]

* The medical director's physician designee must be a physician who is vested with the full range of the medical director's authority and responsibility in the medical director's absence.

Department of Mental Health

Inpatient Licensing Division

Clinical Competencies/ Operational Standards Related to Severe Behavior/ Assault Risk

Inpatient psychiatric facilities licensed by the Department of Mental Health are expected to have the capability to provide care to patients who require inpatient psychiatric hospitalization and who present with high level of acuity, including severe behavior and assault risk.

Each general inpatient psychiatric facility shall assure that it has the capacity to:

- Provide treatment to patients with severe behavior/assault risk, including evaluating patients during the intake and admissions process to determine if additional staffing supplementation is required.
- Adjust staffing levels to meet varying levels of unit acuity.
- Evaluate and document care needs during the referral and acceptance process which serves as preparation for direct care staff and others to incorporate risk and individualized crisis prevention planning (ICPP) upon admission. (While safety tools are generally completed within 48 hours of admission, a person admitted with this risk level should have their safety tool or ICPP completed as soon as possible after arrival.)
- Provide a range of intervention approaches to address the needs of patients with higher levels of acuity. Aggressive, assaultive patients may benefit from behavior management plans, anger management, relaxation techniques, occupational therapy, and social skills development. Consideration for consultation with behavior specialists should be given.
- Provide ongoing training and demonstration of competencies in verbal de-escalation, including hands on experience, to reduce likelihood of harm.

De-escalation and Preventative Skills that can assist direct care staff to safely respond to patient agitation or aggression include but are not limited to:

- Motivational Interviewing
- Trauma Informed Care
- Person-Centered Approaches
- Stigma/ Countertransference
- Mindfulness
- Flexible Rules
- Strength-based interventions
- Approachability of staff for providing help
- Anger Management
- Leadership Rounds regularly on units
- Security specialists/ guards who may participate in direct interactions with patients experiencing episodes of severe behavior or assault risk should have training (e.g., CPI, Handle With Care, MOAB) that is consistent with training received by the direct care psychiatric inpatient staff, as should any additional staff who may participate in such episodes.
- Ensure robust debriefing processes, including incidents that qualify as “near misses.”

- Provide Medication Management with proactive use of PRNs and use of withdrawal protocols as indicated.
- Ensure that staff on all shifts have access to Sensory Tools, and the training required to select and work with patients to use these tools as coping skills and methods for decreasing frustration and aggression.
- Involve community treaters, state agency representatives, and the legal system (if involved) in treatment and discharge planning as soon as possible after admission in order to assess the patient’s current continuum of care and foster successful outcomes.
- Ensure that wraparound community services are in place (e.g., get/fill medications, an outpatient medication/injection clinic (if needed), access transportation to appointments, stable housing, and case management).
- Engage patients who are identified as having “personality disorders or traits,” utilizing Trauma Informed Care (TIC), Motivational Interviewing (MI), Sensory Tools, attention to diet (e.g., polydipsia, excessive caffeine or sugar intake), and Mindfulness Training.
- Work with court system, families and/ or guardians to expedite the process of commitment if necessary.
- Provide increased security presence, specialized psychopharmacology interventions, and active treatment with the patient to identify and practice greater behavioral control skills.
- Ensure all staff receive consistent education and maintain current trainings and certifications (i.e., upon hire, as needed, and annually) to work with and care for these patients.

Each general inpatient psychiatric facility is recommended to consider:

- When possible, create flexibility in the physical plant for non-restraint and seclusion management of behavior. This can involve providing special observation/single rooms and higher staffing ratios for patients requiring assault precautions to mitigate the risk to roommates and other patients on the unit. It is ideal that a unit be able to provide a distinct, spacious area for the most acute patients with specialized group programming, activity space, and comfort space (if possible). Patients could move to the regular section of the milieu when able to tolerate more stimulation.
- Consideration should be given to the inclusion of Peer Support Specialists in milieu treatment.

A facility with available beds may deny admission to a patient whose needs have been determined by the facility medical director, or the medical director’s physician designee when unavailable* to exceed the facility’s capability at the time admission is sought. The medical director’s determination must be written, and include the factors justifying the denial and why mitigating efforts, such as utilization of additional staff, would have been inadequate. [See *DMH Licensing Bulletin #18-01 - Documentation of Unit Conditions and Facility Denial of Inpatient Care* and 104 CMR 27.05 (3) (d).]

* The medical director’s physician designee must be a physician who is vested with the full range of the medical director’s authority and responsibility in the medical director’s absence.

Department of Mental Health

Inpatient Licensing Division

Clinical Competencies/Operational Standards Related to Co-occurring Autism Spectrum Disorder or Other Intellectual and Developmental Disabilities (ASD/ID/DD)

Inpatient psychiatric facilities licensed by the Department of Mental Health are expected to have the capability to provide care to patients who require inpatient psychiatric hospitalization, who present with Autism Spectrum Disorders or Other Intellectual and Developmental Disabilities (ASD/ID/DD), but who do not require specialized treatment due to their ASD/ID/DD beyond the competencies listed below.

Each general inpatient psychiatric facility shall assure that it has the capacity to:

- Provide care to patients with mild to moderate presentations of Autism Spectrum Disorder or other intellectual and/or developmental disabilities whose baseline level of functional impairment is mild to moderate as well. Patients with significant maladaptive behavior, inability to maintain ADLs, as well as those with significant self-injurious or violent behavior, due to their ASD/ID/DD may have needs that exceed the expected capability of a general inpatient psychiatric unit.
- Recognize the clinical needs of common co-occurring physical conditions that are associated with many patients with ASD/ID/DD (e.g., severe constipation, diarrhea, urinary tract infections, food allergies, etc.).
- Provide sensory supports for varying levels of functioning.
- Ensure all staff receive consistent education and maintain current trainings (i.e., upon hire, as needed, and annually) to work with and care for this population.
- Provide ongoing trainings and demonstration of competencies in de-escalating behaviors of patients with ASD/ID/DD, as part of the general de-escalation program.
- Evaluate and document care needs during the referral and acceptance process, and use this information to incorporate the inclusion of behavioral triggers/warning signs, as well as strengths, motivators and any sensory tools that have been successfully employed for direct care staff and the multidisciplinary team.
- Notify and collaborate with the Department of Developmental Services, as appropriate and with the Department of Education (DOE), town or city special education departments to ensure the continuity of special education services for eligible students.
- Engage the Children's Behavioral Health Initiative (CBHI) teams, Department of Education (DOE) teams, DMH, and/or DDS for consultation and discharge planning as needed.
- Minimize the difficulty with transitions, especially by providing discharge information to care managers and outpatient services. Ideally, the same team members (both inpatient and outpatient) would work with these patients as they move across the care continuum.
- Work with families and other caregivers before discharge to enhance successful transition of level of care and reduce recidivism.

Each general inpatient psychiatric facility is recommended to consider:

- Flexible availability of a separate, designated, less stimulating space is best.

Appendix G - Behavioral Health

Updated as of Amendment 1

A facility with available beds may deny admission to a patient whose needs have been determined by the facility medical director, or the medical director's physician designee when unavailable* to exceed the facility's capability at the time admission is sought. The medical director's determination must be written, and include the factors justifying the denial and why mitigating efforts, such as utilization of additional staff, would have been inadequate. * The medical director's physician designee must be a physician who is vested with the full range of the medical director's authority and responsibility in the medical director's absence.

Department of Mental Health

Inpatient Licensing Division

Clinical Competencies/ Operational Standards Related to Co-Occurring Substance Use Disorders (SUD)

The Department of Public Health Bureau of Substance Addiction Services (BSAS) licenses inpatient psychiatric facilities that also provide a separate, identifiable inpatient SUD treatment program. Such units/ facilities are required to be dually licensed by DMH and BSAS.

A DMH licensed facility that provides SUD treatment or services, such as medication assisted treatment (MAT), incidental to the evaluation, diagnostic and treatment services for which it is licensed under 104 CMR 27.00, and that does not offer a separate, identifiable inpatient substance use disorder treatment unit or program, or represent themselves to the public as providing substance use disorder treatment or services as a primary or specialty service, must comply with DMH licensing requirements at 104 CMR 27.03(11) but is not subject to BSAS licensure requirements.

As part of its licensure obligations under 104 CMR 27.00, each inpatient psychiatric facility that is not subject to BSAS licensure shall assure that it has the capacity to:

- Identify potential for addictive disorders through evidence-based screening and assessment tools during the admission assessment process.
- Evaluate for, order, assess, and provide medication assisted treatments for alcohol, benzodiazepine, and opioid withdrawal and for addictions to these substances within limitations of licensure. Medication assisted treatment, education, orientation, and initiation is required when clinically indicated. (See SAMHSA Treatment Improvement Protocol 63 –Medications for Opioid Use Disorder)
 - This includes:
 - Assessing the patient for the appropriateness of induction on MAT using one of the three FDA-approved medications for the treatment of Opioid use disorder: buprenorphine, methadone, or naltrexone; and
 - Ensuring that once an induction begins, referrals for an outpatient provider (ex. OTP, OBOT) are secured.
 - Any physician or other authorized hospital staff in DMH-licensed inpatient facilities can administer or dispense methadone and buprenorphine without additional state or federal oversight or approval, provide the methadone or buprenorphine is administered or dispensed incident to the patient’s medical treatment for a condition other than substance use disorder. This includes MAT induction for a patient with a secondary diagnosis of substance use disorder on either methadone or buprenorphine.
 - DEA regulations⁴ authorize physicians or other authorized hospital staff to administer or dispense buprenorphine or methadone in the hospital, which includes psychiatric

⁴21 CFR Part 1306.07. Note that these regulations also include the “three-day rule”, which allows any physician to administer methadone or buprenorphine without additional state or federal oversight or approval. This includes MAT induction for a patient being treated for acute withdrawal symptoms. The rule allows MAT treatment to relieve acute withdrawal symptoms, provided the treatment is limited to 72 hours where

hospitals, in order to maintain or detox a patient “as an incidental adjunct to medical or surgical treatment of conditions other than addiction”. In effect, this allows a physician or other authorized hospital provider to administer or dispense MAT to patients at the hospital, without time limitation, where SUD is a secondary diagnosis.

- Practitioners who are DATA- waived⁵ can prescribe, administer, or dispense buprenorphine to patients in DMH-licensed inpatient facilities.
- Administer opioid antagonist, if needed. All units must have naloxone available on unit and staff trained to order/administer.
- Provide group and/ or individual therapeutic programming and patient education, provided by appropriately trained staff, which addresses recovery and relapse prevention planning related to SUD. Engage, inform, and support parents and guardians of minors with SUD (on adolescent units). Suggested training for staff may include effects of substance use disorders on the family and related topics such as the role of the family in treatment and recovery.
- Provide active discharge planning to next step placements based on the patient’s care plan. Placements should address ongoing needs related to mental health, addiction, and other biopsychosocial needs and may include step down to subacute levels of care, 24 hour settings, partial hospitalization, intensive outpatient, ongoing outpatient treatment, access to peer services, and other community and housing supports as appropriate. When appropriate, discharge planning must include access to ongoing medication management, both for psychiatric and addiction medications; for continuity of treatment with the goal of reducing readmissions and the likelihood of relapse. This includes having knowledge of Clinical Stabilization/Stepdown Services (CSS) and Transitional Support Services (TSS), Outpatient Medication Management, Sober Houses, and step down to subacute level of care.
- Understand deterrents to successful discharges such as housing, financial assistance for medication copayments, transportation to non-24-hour programs, applying for a prescription for transportation PT-1 form for those with financial issues, etc.
- Ensure a physician dispenses buprenorphine or morphine at discharge or a DATA-waived practitioner provides “bridge” prescriptions for buprenorphine (and other medications) until outpatient appointments can be secured and prescriptions provided for in the outpatient setting.
- Provide direct care staff with a general overview of addictions medicine.

Each inpatient psychiatric facility is recommended to:

- Facilities are strongly encouraged to provide access to all FDA-approved medications for the treatment of opioid use disorder.
- Consider engaging Substance Use Recovery Coaches and/or Peer Specialists within staffing models.
- Include credentialed staff with experience in SUD treatment and resources, ideally, but not necessarily as Licensed Alcohol and Drug Abuse Counselor (LADC) or Certified Alcohol and Drug Abuse Counselor (CDAC) levels.
- Consider referrals to ensure a continuum of care for the client, including arrangements for further substance abuse treatment and post-discharge counseling and other supportive service.

not more than one day’s medication is administered to a person at a time. The 72-hour period cannot be renewed. For more information, see 21 CFR Part 1306.07(b).

⁵ The Drug Addiction Treatment Act (DATA) of 2000 authorized physicians to dispense or prescribe buprenorphine in settings other than an opioid treatment program (OTP), subject to certain limitations. This has subsequently been expanded to also authorize nurse practitioners and physician assistants to dispense or prescribe buprenorphine, subject to certain limitations. Information on the process for submitting a waiver to SAMHSA and the DEA can be accessed here: <https://www.samhsa.gov/programs-campaigns/medication-assisted-treatment/training-materials-resources/buprenorphine-waiver>

Section 1.1 Overview of Quality Performance and Scoring and Health Equity Performance and Scoring

The Contractor shall receive, for each Performance Year, an MCO Quality Score that shall determine the Quality Incentive payment amount available to the Contractor as prescribed in **Sections 2.14** and **4.6.B** of the Contract. The Contractor shall also receive, for each Performance Year, an MCO Health Equity Score that shall determine the Quality and Equity incentive payment amount available to the Contractor as prescribed in **Sections 2.21** and **4.6.C** of the Contract. The Contractor shall also receive, for each Performance Year, a CP Quality Score (calculated by EOHHS) for each Community Partner subcontractor as described in **Section 2.6.E** of the Contract. The CP Quality Score shall be used in the determination of incentive payments made by the Contractor to each of its subcontracted CPs.

This Section of the Appendix describes the individual measures, and general methodology EOHHS will use to calculate the Contractor's scores (i.e., MCO Quality Score, MCO Health Equity Score, and CP Quality Score), as further specified by EOHHS.

Section 1.2 Scoring Methodology for MCO Quality Score

The Contractor's Quality Score is based on the Contractor's performance across a set of benchmarks and improvement targets for individual quality measures that are grouped into three domains. An additional bonus element is also included for PY2024-2025 based on an assessment of Electronic Quality Measurements/Electronic Clinical Data System readiness and/or performance, as specified by EOHHS. EOHHS will weight and sum the Contractor's performance across all domains and then apply results of the bonus element to calculate one overall MCO Quality Score per performance year. For any measure where the Contractor does not meet minimum denominator requirements, as determined by EOHHS, then the measure's weight will be equally distributed to other measures within the same domain.

A. List of Quality Measures for MCO Quality Score

Quality Measures include claims-based measures, clinical quality measures, and member experience surveys across the following three domains:

- Preventive and Pediatric Care
- Care Coordination / Care for Chronic & Acute Conditions
- Member Experience

See Exhibit 2 for the list of Quality Measures.

EXHIBIT 2 – MCO Quality Measures

Domain	Measure Name	Measure Description	Data Source	Measure Steward	NQF No.	P4P Transition Year
Preventive and Pediatric Care	Developmental Screening in the First 3 Years of Life	The percentage of children screened for risk of developmental, behavioral and social delays using a standardized screening tool in the 12 months preceding or on their first, second, or third birthday.	Claims/ Hybrid	OHSU	1448	2025
	Immunizations for Adolescents	Percentage of members 13 years of age who received all recommended vaccines, including the HPV series	Hybrid	NCQA	1407	2024
	Childhood Immunization Status	Percentage of members 2 years of age who received all recommended vaccines by their second birthday	Hybrid	NCQA	0038	2024

B. Measure Level Scoring Methodology (Achievement and Improvement Points)

1. Achievement Points

The Contractor may receive up to a maximum of ten (10) achievement points for each Quality Measure, as follows:

- a. EOHHS will establish an “attainment threshold” and a “goal benchmark” for each Quality Measure
 - (i) “Attainment threshold” sets the minimum level of performance at which the contractor can earn achievement points
 - (ii) “Goal benchmark” is a high performance standard above which the Contractor earns the maximum number of achievement points (i.e., 10 points)
- b. EOHHS will calculate the Contractor’s performance score on the Quality Measure based on the measure specifications
- c. EOHHS will award the Contractor between zero (0) and ten (10) achievement points as follows:
 - (i) If the Contractor’s performance score is less than the attainment threshold: 0 achievement points
 - (ii) If the Contractor’s performance score is greater than or equal to the goal benchmark: 10 achievement points
 - (iii) If the performance score is between the attainment threshold and goal benchmark: achievement points earned are determined by the formula:
 - (a) $10 * ((\text{Performance Score} - \text{Attainment Threshold}) / (\text{Goal Benchmark} - \text{Attainment Threshold}))$

EXHIBIT 3 – Example Calculation of Achievement Points for Measure A

Measure A attainment threshold = 45% (e.g., corresponding to 25 th percentile of HEDIS benchmarks)
Measure A goal benchmark = 80% (e.g., corresponding to 90 th percentile of HEDIS benchmarks)
Scenario 1:
<ul style="list-style-type: none"> • Measure A performance score = 25% • Achievement points earned = 0 points
Scenario 2:
<ul style="list-style-type: none"> • Measure A performance score = 90% • Achievement points earned = 10 points
Scenario 3:
<ul style="list-style-type: none"> • Measure A performance score = 60% • Achievement points earned = $10 * ((60\% - 45\%) / (80\% - 45\%)) = 4.29$ points

2. Improvement Points

In addition to receiving achievement points based on performance (on a 0 to 10 scale), the Contractor may earn improvement points for reaching established improvement targets for each Quality Measure. Improvement points will be calculated as follows:

- a. The Contractor’s performance score will be calculated on each Quality Measure based on the measure specifications. Each Quality Measure’s specifications will describe the detailed methodology by which this performance score is calculated.
- b. Beginning PY2, EOHHS will compare the Contractor’s performance score on each Quality Measure to the Contractor’s performance score on that same Quality Measure from the highest scoring previous Performance Year.
- c. EOHHS will calculate an Improvement Target for each applicable Quality Measure using the following formula (unless otherwise communicated by EOHHS). The Improvement Target is based on at least a 20% improvement each year in the gap between Goal Benchmark and the Attainment Threshold of each MCO measure.

- (i) Improvement Target formula = $[(\text{Goal Benchmark} - \text{Attainment Threshold}) / 5]$

For example, for Measure A, if the Attainment Threshold is 50% and the Goal Benchmark is 60%, the Improvement Target is 2% $[(60 - 50)/5]$

- (ii) For the purposes of calculating the Improvement Target, the result is rounded to the nearest tenth (i.e., one decimal point).

For example, for Measure B, if the Attainment Threshold is 80% and the Goal Benchmark is 90.2%, the Improvement Target is calculated to 2.04% $[(90.2 - 80)/5]$ which rounds to 2.0%.

- (iii) The Contractor may earn up to five (5) improvement points for increases in measure score which meet or exceed the improvement target.

For example, for Measure B, the Improvement Target is 2.0%. If Contractor performance in PY4 is 54.0% and if Contractor performance in PY5 is 60.0%, the Contractor improvement from PY4 to PY5 is 6.0% $[(60.0 - 54.0)]$ and the Contractor is awarded 5 improvement points. No points above 5 are awarded for increases in excess of the improvement target.

- (iv) For the purposes of calculating the difference in Contractor quality performance over a previous year, the results are rounded to the nearest tenth (i.e., one decimal point). Rounding takes place after the calculation.

For example, for Measure B, if Contractor performance in PY4 is 54.54% and if Contractor performance in PY5 is 60.17%, the Contractor improvement from PY4 to PY5 is 5.63% [(60.17-54.54)], and the Contractor improvement will be rounded to the nearest tenth (i.e., one decimal point) to 5.6%.

- (v) The Improvement Target is based on the higher of the original baseline or any year’s performance prior to the current PY. This is intended to avoid rewarding regression in performance.

For example, for Measure B, assume Contractor performance in PY1 is 90.0% and the Improvement Target is 2.0%. If in PY4 the performance for the Contractor decreases to 89.0%, in PY5 the Contractor would need to reach 92.0% to reach the Improvement Target.

- (vi) There are several special circumstances:
 - (a) *At or Above Goal:* If the Contractor has prior PY performance scores equal to or greater than the Goal Benchmark then the Contractor may still earn up to five (5) improvement points in each PY if improvement from the highest prior PY is greater than or equal to the Improvement Target.
 - (b) *At or Below Attainment:* If the Contractor has prior PY performance scores less than the Attainment Threshold then the Contractor may still earn up to five (5) improvement points each PY if improvement from the highest prior PY is greater than or equal to the Improvement Target, and performance in the current PY does not equal or exceed the Attainment Threshold. Additionally, if the Contractor has prior PY performance scores less than the Attainment Threshold and current PY performance scores are equal to or above the Attainment Threshold then the Contractor may still earn up to five (5) improvement points if the improvement is greater than or equal to the Improvement Target.

EXHIBIT 4 – Example Calculation of Improvement Points for Measure B

Measure B Attainment = 48.9% | Goal = 59.4% | Improvement Target = 2.1%

	PY4 Score	PY5 Score	Improvement	Improvement Target Met	Improvement Points Earned
Scenario 1:	50.0%	52.1%	2.1%	Yes	5
Scenario 2:	50.0%	56.7%	6.7%	Yes	5
Scenario 3:	59.5%	63.0%	3.5%	Yes; above Goal Benchmark	5
Scenario 4	45.0%	48.0%	3.0%	Yes; below Attainment Threshold	5

Scenario 5:	46.0%	49.0%	3.0 %	Yes; crossing Attainment	5
Scenario 6:	45.0%	46.0%	1.0%	No	0

C. Domain Level Scoring Methodology

EOHHS will sum the Contractor’s achievement and improvement points for all Quality Measures within each Quality Domain. Improvement points earned in one Quality Domain may only be summed with achievement points from the same Quality Domain. The total number of points earned by the Contractor in each domain cannot exceed the maximum number of achievement points available in the domain. The maximum number of achievement points in the domain is calculated by multiplying the number of Pay-for-Performance (P4P) measures in the domain, in the given PY, by the number of available achievement points per measure.

For example, if in PY4, there are ten (10) clinical quality measures in Domain X in Pay-for-Performance, and each measure is worth ten (10) achievement points, the maximum number of achievement points in Domain X would be 100. Assume that in PY5 there are now twelve (12) clinical quality measures in Domain X in Pay-for-Performance, and that each measure is worth ten (10) achievement points, the maximum number of achievement points in Domain X would be 120.

Cumulative Example:

Total number of measures in domain: 2

Maximum number of achievement points in the domain = 20

Measure Attainment = 48.9% | Goal = 59.4%

Improvement Target = [(Goal Benchmark – Attainment Level) / 5] = [59.4-48.9]/5 = 2.1

For example, for Measure A, if Contractor performance in PY4 is 54.54% and if Contractor performance in PY5 is 58.17% the Contractor will earn 8.8 Achievement Points $[10 * (58.17 - 48.9)/(59.4 - 48.9)]$. The Contractor has improved from PY4 to PY5 by 3.63% $[(58.17 - 54.54)]$ which will be rounded to the nearest tenth (e.g., one decimal point) to 3.6% which exceeds the Improvement Target of 2.1%. Thus, the Contractor will earn five (5) improvement points. No points above 5 are awarded for increases in excess of the improvement target.

In this scenario the Contractor would earn 13.8 points.

If there is only one (1) additional measure in the Domain and the Contractor earned 9 total points for this measure; the total score for the Contractor would be 20.0 (out of 20) given that domain scores are capped at the maximum number of achievement points (20) in the domain.

Once the total number of points has been calculated, EOHHS will divide the resulting sum by the maximum number of achievement points that the Contractor is eligible for in the domain to produce the Contractor’s Domain Score. Domain Scores are a value between zero (0) and one (1) expressed as a percentage (i.e., 0% to 100%). EOHHS will score the Contractor on each P4P Quality Measure unless the Contractor does not meet eligibility requirements for a specific measure (e.g., it does not meet the minimum denominator requirement). In cases like this, the measure is not factored into the denominator. Reporting measures do not factor into the Domain Score.

Additionally, improvement points do not count towards the denominator; they are therefore “bonus” points. Domain Scores are each capped at a maximum value of 100%.

EXHIBIT 5 – Example Calculation of an Unweighted Domain Score

Example Calculations of Unweighted Domain Score	
Example 1	Domain only has two Quality Measures (Measure A and Measure B)
	Therefore, maximum number of achievement points is $2 \times 10 = 20$ points
	Measure A: Achievement points: 1.5
	Improvement Points: 0
	Measure B: Achievement points: 0
	Improvement Points: 5
	Total achievement points: $1.5 + 0 = 1.5$ points
	Total improvement points: $0 + 5 = 5$ points
	Sum of achievement and improvement points: $1.5 + 5 = 6.5$ points
Unweighted domain score = $6.5/20 * 100 = 32.5\%$	
Example 2	Domain only has two Quality Measures (Measure A and Measure B)
	Therefore, maximum number of achievement points is $2 \times 10 = 20$ points
	Measure A: Achievement points: 8
	Improvement Points: 5
	Measure B: Achievement points: 9.3
	Improvement Points: 0
	Total achievement points: $8 + 9.3 = 17.3$
	Total improvement points: 5 points
	Sum of achievement and improvement points: $17.3 + 5 = 22.3$ points
	However, total number of points cannot exceed maximum number of achievement points (20)
Therefore, total domain points = 20	
Unweighted domain score = $20/20 * 100 = 100\%$	

An assessment of electronic-based quality measure readiness and/or performance (e.g., Electronic Clinical Quality Measures (eCQM), and Electronic Clinical Data Systems (ECDS)) shall be integrated into the overall MCO Quality Score as a bonus element for PY2024-2025. The assessment shall be scored on an all-or-nothing basis, with possible scores equaling zero or 100%. Any MCO achieving 100% on the bonus will earn a total of 5.0 points added to the sum of the weighted domain score, resulting in an overall quality score. Note: the sum of weighted domains and the 5.0 point bonus may not exceed the overall quality score maximum of 100%.

EXHIBIT 6 – Example Calculation of Weighted Domain Scores and Bonus

Example Calculations of Weighted Domain Scores and Bonus				
	Domain	Weight	Score	Weighted Domain Score
Example	Preventative and	45%	75.0	33.75

	Pediatric Care			
	Care Coordination / Care for Chronic & Acute Conditions	40%	70.0	28.00
	Member Experience	15%	72.0	10.8
	Total	100%	N/A	72.55
	Bonus	N/A	5.0 points	N/A
	Total of weighted domains = 72.55			
	Total bonus: 5.0 points			
	Sum of weighted domains and bonus points: 72.55 + 5.0 = 77.55 points			
	Overall Quality Score = 77.55%			

Section 1.3 Scoring Methodology for MCO Quality & Equity Incentive Program (QEIP) Health Equity Score

- A. Performance Year 1 (CY2023) requirements for the MCO QEIP can be found in Attachment 1 to this Appendix.
- B. Performance Years 2-5 (CY2024-2027) requirements for the MCO QEIP are forthcoming and will be provided in Attachment 2 to this Appendix.

Section 1.4 Scoring Methodology for Community Partners Quality Score

EOHHS shall calculate a Community Partner Quality Score for each of the Contractor’s subcontracted CPs. Community Partner Quality Scores are based on the performance of each subcontracted CP’s MassHealth enrollment, as determined by EOHHS, across a set of benchmarks or improvement targets for individual measures within the BH CP or LTSS CP measure slate as applicable as set forth in Exhibits 7 and 8 below. EOHHS will weight each CP’s CP Quality Score by the volume of that CP’s enrollment within the MCO relative to the volume of all other CP subcontractors within the same MCO. As further specified by EOHHS, EOHHS shall use the weighted CP Quality Score to determine the Contractor’s payment to each CP based on the CP’s quality performance. In addition to the above methodology, EOHHS may establish additional quality incentives designed to reward the Contractor’s higher performing subcontracted CPs.

Section 1.5 Methodology for Establishing Performance Benchmarks for Quality Measures

EOHHS will establish the attainment threshold, goal benchmark, improvement target (and/or any other applicable performance indicator) for each Quality Measure applicable to MCO Quality and MCO Health Equity, and CP Quality scoring methodologies. EOHHS anticipates establishing these performance indicators as follows:

- For Quality Measures based on NCQA HEDIS measures, EOHHS anticipates using NCQA Quality Compass percentiles, as well as MassHealth historical MCO and Community Partners’ performance
- For non-HEDIS Quality Measures, EOHHS anticipates using MassHealth historical MCO and Community Partners’ performance
- For other Quality Measures where EOHHS does not have access to applicable data, EOHHS anticipates using MassHealth benchmarks based on MCO/CP-attributed populations

Section 1.6 Quality Performance Financial Application

The Contractor’s MCO Quality Score and MCO Health Equity Score will be applied to performance incentive payment as described in **Section 4.6**. Community Partner Quality Scores will be applied to incentive payments to CP subcontractors as described in **Section 2.6.E**.

SECTION 1. BACKGROUND AND OVERVIEW OF THE MANAGED CARE ORGANIZATION QUALITY AND EQUITY INCENTIVE PROGRAM

A. Overview

Massachusetts shifted the delivery system at scale to value-based care under the previous MassHealth section 1115 demonstration approval period, transitioning over 80 percent of eligible Medicaid members into accountable care organizations (ACOs) that are at risk to deliver better health outcomes, lower cost, and improved member experience through integrated, coordinated care.

A key goal of the Commonwealth's in this demonstration period is to improve quality of care and advance health equity, with a focus on initiatives addressing health-related social needs (HRSN) and health disparities demonstrated by variation in quality performance. To support achievement of this goal, Massachusetts is centering equity alongside quality as a pillar of value-based care and as a priority for the state's health care system.

To that end, MassHealth will implement aligned quality and equity initiatives across delivery system settings including but not limited to MassHealth's Managed Care Organizations (MCOs), Accountable Care Partnership Plans (ACPPs) and Primary Care ACOs (together "ACOs"), managed behavioral health vendor, and acute hospitals.

Together, this constellation of coordinated quality and equity initiatives will support Massachusetts in achieving its demonstration goal to improve quality of care and advance health equity.

B. Scope of this Implementation Plan

This Performance Year 1 Implementation Plan provides additional detail related to implementation of MassHealth's MQEIP for the first PY from April 1, 2023-December 31, 2023, of the Contract (April 1, 2023 – December 31, 2027.) Information pertaining to PYs 2-5, representing Calendar Years 2024-2027, will be forthcoming.

SECTION 2. MANAGED CARE ORGANIZATION QUALITY AND EQUITY INCENTIVE PROGRAM (MQEIP) DOMAINS AND GOALS

A. Overview of Targeted Domains for Improvement in the MQEIP

For the MQEIP, the Contractor is incentivized to pursue performance improvements in the domains specified in Table 1.

Table 1. Overview of Targeted Domains for Improvement for the MQEIP

Domain 1: Demographic and Health-Related Social Needs Data	The Contractor will be assessed on the completeness of beneficiary-reported demographic and health-related social needs data submitted in accordance with the commonwealth’s data requirements. Demographic and health-related social needs data will include at least the following categories: race, ethnicity, primary language, disability status, sexual orientation, gender identity, and health-related social needs. Data completeness will be assessed separately for each data element.
Domain 2: Equitable Quality and Access	The Contractor will be assessed on performance and demonstrated improvements on access and quality metrics, including associated reductions in disparities. Metrics will focus on overall access; access for individuals with disabilities and/or limited English proficiency; preventive, perinatal, and pediatric care services; care for chronic diseases and behavioral health; and care coordination.
Domain 3: Capacity and Collaboration	The Contractor will be assessed on improvements in metrics such as provider and workforce capacity and collaboration within health system providers (e.g. clinical partners) to improve quality and reduce health care disparities.

B. Goals for each Domain of the MQEIP

Goals for each MQEIP domain are summarized below:

1. Demographic and Health-Related Social Needs Data Collection Domain Goals
 - a. The Contractor is incentivized to achieve certain milestones to meet an interim goal of 80 percent data completeness for self-reported race and ethnicity data for attributed MassHealth members by the end of Performance Year 3 (CY 2025).
 - b. The Contractor is incentivized to achieve certain milestones to achieve at least 80 percent data completeness for beneficiary-reported other demographic data (including at least primary language, disability status, sexual orientation, and gender identity) for attributed MassHealth members by the end of Performance Year 5 (CY 2027).
 - c. The Contractor is incentivized to meaningfully improve rates of HRSN screenings from the baseline period (CY 2024 and/or CY 2025) by the end of Performance

Year 5 (CY 2027). To meet this goal, the Contractor must not only conduct screenings of beneficiaries, but also establish the capacity to track and report on screenings and referrals.

2. Equitable Quality and Access Domain Goals

- a. The Contractor is incentivized for performance on metrics such as those related to access to care (including for individuals with limited English proficiency and/or disability); preventive, perinatal, and pediatric care; care for chronic diseases; behavioral health; care coordination; and/or patient experience.
- b. For up to the first three Performance Years (PY 2023 through PY 2025), the Contractor's performance will be based on:
 - (i) Reporting on access and quality metric performance, including reports stratified by demographic factors (such as race, ethnicity, language, disability, sexual orientation, and gender identity); health related social needs; and/or defined by other individual- or community-level markers or indices of social risk;
- c. For at least the last two Performance Years (PY2026 and PY2027), the Contractor's performance will be based on improving quality and/or closing disparities as measured through performance on a subset of access and quality metrics.

3. Capacity and Collaboration Domain Goals

The Contractor is incentivized to improve service capacity, workforce development, and health system collaboration to improve quality and reduce disparities. The metrics that assess improvement in this domain may relate to provider cultural competence and achievement of externally validated equity standards.

SECTION 3. MQEIP PERFORMANCE YEAR 1 METRICS

To establish a robust foundation for quality and equity improvement and to begin making progress towards five-year health equity goals, the first performance year of the MQEIP holds the Contractor accountable to metrics listed in Table 2 evaluating contributory health system level interventions in each performance domain.

Table 2. MQEIP Performance Year 1 Metrics

Subdomain	Metric (<i>Steward</i>)	Performance Year 1 status*
Domain 1. Demographic and Health-Related Social Needs Data		
Demographic Data Collection	Race, Ethnicity, Language, Disability, Sexual Orientation, & Gender Identity Data Completeness (<i>EOHHS</i>)	Pay for Reporting (P4R)
Health-Related Social Needs Screening	Screening for Social Drivers of Health (<i>CMS</i>): Preparing for Reporting Beginning in PY2	P4R
Domain 2. Equitable Access and Quality

*Reporting/performance requirements for each measure described in relevant metric technical specifications

Recognizing that taking on accountability for equity is new for most MCOs, interim and annual goals for Performance Year 1 are designed to promote essential foundational capacity and readiness to assume progressive risk for health quality and equity performance in Performance Year 2-5. Summarized performance expectations are described in Table 3; detailed performance expectations are described in metric technical specifications.

Domain 3. Capacity and Collaboration		
Achievement of External Standards for Health Equity (EOHHS)	Complete and timely submission to EOHHS of the NCQA Health Equity Accreditation Report.	December 31, 2023

SECTION 4. MQEIP PAYMENT FOR PERFORMANCE YEAR 1

EOHHS will pay the Contractor based on the Contractor’s health equity score in accordance with **Section 4.6** of the MCO Contract. EOHHS will make a one-time payment to the Contractor after the health equity score has been finalized.

SECTION 5. MQEIP ACCOUNTABILITY FRAMEWORK FOR PERFORMANCE YEAR 1

EOHHS will hold the Contractor accountable for its performance on the MQEIP performance measures. Total incentive amounts for Performance Year 1 will be distributed according to the weighting described in Table 4. Performance expectations for each metric are summarized in Table 3 above and detailed further in technical specifications.

The Performance Year 1 Health Equity Score will be determined by EOHHS’s assessment of completeness and timely submission of deliverables associated with each performance measure. The total Health Equity Score will be calculated according to the weights outlined in Table 4 below, with performance on each metric measured by the degree to which the Contractor met performance requirements summarized in Table 3, as determined by EOHHS.

SECTION 1. BACKGROUND AND OVERVIEW OF THE MANAGED CARE ORGANIZATION QUALITY AND EQUITY INCENTIVE PROGRAM

A. Overview of Statewide Approach to Advance Healthcare Quality and Equity

Massachusetts shifted the delivery system at scale to value-based care under the previous MassHealth section 1115 demonstration approval period, transitioning over 80 percent of eligible Medicaid members into accountable care organizations (ACOs) that are at risk to deliver better health outcomes, lower cost, and improved member experience through integrated, coordinated care.

A key goal of the Commonwealth's in this demonstration period is to improve quality of care and advance health equity, with a focus on initiatives addressing health-related social needs (HRSN) and health disparities demonstrated by variation in quality performance. To support achievement of this goal, Massachusetts is centering equity alongside quality as a pillar of value-based care and as a priority for the state's health care system.

To that end, MassHealth will implement aligned quality and equity initiatives across delivery system settings including but not limited to MassHealth's Managed Care Organizations (MCOs), Accountable Care Partnership Plans (ACPPs) and Primary Care ACOs (together "ACOs"), managed behavioral health vendor, and acute hospitals.

Together, this constellation of coordinated quality and equity initiatives will support Massachusetts in achieving its demonstration goal to improve quality of care and advance health equity.

B. Scope of this PY2-5 Implementation Plan for the MCO Quality and Equity Incentive Program

This MCO Quality and Equity Incentive Program (MQEIP) Implementation Plan provides additional detail related to implementation of MassHealth's MQEIP for Performance Years (PYs) 2-5 from January 1, 2024 – December 31, 2027, of the Contract (April 1, 2023 – December 31, 2027.) Additional detail may be forthcoming for future program years.

SECTION 2. MCO QUALITY AND EQUITY INCENTIVE PROGRAM (MQEIP) DOMAINS AND GOALS

A. Overview of Targeted Domains for Improvement in the MQEIP

For the MQEIP, the Contractor is incentivized to pursue performance improvements in the domains specified in Table 1.

Table 1. Overview of Targeted Domains for Improvement for the MQEIP

<p>Domain 1: Demographic and Health-Related Social Needs Data</p>	<p>The Contractor will be assessed on the completeness of beneficiary-reported demographic and health-related social needs data submitted in accordance with the Commonwealth’s data requirements. Demographic and health-related social needs data will include at least the following categories: race, ethnicity, language, disability status, sexual orientation, gender identity, and health-related social needs. Data completeness will be assessed separately for each data element.</p>
<p>Domain 2: Equitable Quality and Access</p>	<p>The Contractor will be assessed on performance and demonstrated improvements on access and quality metrics, including associated reductions in disparities. Metrics will focus on overall access; access for individuals with disabilities and/or a preferred language other than English; preventive, perinatal, and pediatric care services; care for chronic diseases and behavioral health; and care coordination.</p>
<p>Domain 3: Capacity and Collaboration</p>	<p>The Contractor will be assessed on improvements in metrics such as provider and workforce capacity and collaboration within health system providers (e.g. clinical partners) to improve quality and reduce health care disparities.</p>

B. Goals for each Domain of the MQEIP

Goals for each MQEIP domain are summarized below:

1. Demographic and Health-Related Social Needs Data Collection Domain Goals
 - a. The Contractor shall submit to MassHealth an assessment of beneficiary-reported demographic and HRSN data adequacy and completeness for purposes of the MQEIP by July 1, 2023.
 - b. The Contractor is incentivized to achieve certain milestones to meet an interim goal of 80 percent data completeness for self-reported race and ethnicity data for attributed MassHealth members by the end of Performance Year 3 (CY 2025).
 - c. The Contractor is incentivized to achieve certain milestones to achieve at least 80 percent data completeness for beneficiary-reported other demographic data (including at least language, disability status, sexual orientation, and gender identity) for attributed MassHealth members by the end of Performance Year 5 (CY 2027).

- d. The Contractor is incentivized to meaningfully improve rates of HRSN screenings from the baseline period by the end of Performance Year 5 (CY 2027). To meet this goal, the Contractor must not only conduct screenings of beneficiaries, but also establish the capacity to track and report on screenings and referrals.

2. Equitable Quality and Access Domain Goals

- a. The Contractor is incentivized for performance on metrics such as those related to access to care (including for individuals with a preferred language other than English and/or disability); preventive, perinatal, and pediatric care; care for chronic diseases; behavioral health; care coordination; and/or patient experience.
- b. Metric performance expectations shall include, at a minimum:
 - (i) Reporting on access and quality metric performance, including stratified by demographic factors (such as race, ethnicity, language, disability, sexual orientation, and gender identity); health-related social needs; and/or defined by other individual- or community-level markers or indices of social risk;
 - (ii) Improving quality and/or closing disparities as measured through performance on a subset of access and quality metrics.
- c. For up to the first three PYs, performance will be based on expectations described in 2(b)(i), above. For at least the last two PYs, performance will also be based on expectations described in 2(b)(ii), above.

3. Capacity and Collaboration Domain Goals

- a. The Contractor is incentivized to improve service capacity, workforce development, and health system collaboration to improve quality and reduce disparities. The metrics that assess improvement in this domain may relate to provider cultural competence and achievement of externally validated equity standards.

SECTION 3. MQEIP PERFORMANCE YEAR 2-5 METRICS

Performance years 2-5 of the MQEIP will hold the Contractor accountable to metrics evaluating performance in each MQEIP domain. These metrics were developed with input from health systems and providers through requests for information and comment, public meetings, and ongoing stakeholder engagement. Technical specifications for the MQEIP PY2-5 metrics are forthcoming and may be updated annually or more frequently as necessary. A summary of the MQEIP metrics and anticipated payment status in PY2-5 are provided in Table 2.

*P4R= Pay for Reporting, P4P= Pay for Performance. Specific performance trajectories are subject to change. Reporting/performance requirements for each measure described in forthcoming metric technical specifications.

The anticipated reporting expectations for PY2 are summarized in Table 3; detailed reporting and performance expectations for PY2 are included in metric technical specifications. Each report outlined in Table 3 shall be submitted by the Contractor in a form, format, and frequency to be further specified by EOHHS. Additional and/or revised reporting expectations for PY3-5 will be provided prior to the start of each performance year.

Section 4. MQEIP Payment for Performance Years 2-5

MassHealth will pay each Contractor based on the Contractor's health equity score in accordance with **Section 4.6** of the Contract. EOHHS will make a one-time payment to the Contractor after the health equity score has been finalized.

Section 5. MQEIP Accountability Framework for Performance Year 2-5

A. MCO Accountability to MassHealth for the MQEIP

MassHealth will hold the Contractor accountable for its performance on the MQEIP performance measures. MassHealth's anticipated framework for the MQEIP PAM, which may be adjusted annually as needed (for example to transition measures from pay-for-reporting to pay-for-performance, accommodate new contextual inputs, address extenuating circumstances impacting performance, etc.), is described below. Measure-specific PAM, including benchmarks, improvement targets and measure score calculation approach, will be described in each forthcoming measure specification.

1. **Benchmarking:** MassHealth will establish performance targets or benchmarks no later than the start of the first pay-for-performance period for the metric.
 - a. Benchmarks for quantitative measures will include an attainment threshold and goal benchmark and will be set to apply to the full applicable performance period.
 - b. Establishment of benchmarks will be informed by inputs such as initial MQEIP performance data, historical data/performance, external data/trends, and/or predetermined performance targets determined by MassHealth.
2. **Improvement Targets:** MassHealth will establish performance improvement targets for performance metrics, as applicable, no later than the start of the first pay-for-performance period for the metric.
 - a. Specific improvement targets and the approach for each measure will be set to apply to the full applicable performance period.
 - b. The approach and actual improvement target may differ by measure based on factors such as performance trends or type of measure; approaches may include year-over-year self-improvement, gap-to-goal percentage point increase, absolute percentage point increases, set milestones and/or goals for improvement.
3. **Performance Measure Score Calculation:** The performance measure scoring approach will be consistent, as applicable, with other MassHealth incentive programs or other incentive program practices. MassHealth will establish a methodology for performance measure scoring for each measure, to be specified in technical specifications, no later than the first day of the performance period to which the methodology applies.

- a. **Pay-for reporting (P4R) measures.** P4R measures will be assessed on a pass/fail basis for which the Contractor will receive full points or credit for the metric if reporting is completed according to each measure’s technical specifications.
- b. **Pay-for-performance (P4P) measures.** The performance measure scoring and approach will be consistent, as applicable, with other MassHealth incentive programs or other incentive program practices, described below.
 - (i) Measure scoring will include the following components for each measure:
 - 1. Attainment points ranging from 0-10 points
 - 2. Improvement points ranging from 0-10 points
 - 3. Potential bonus points (with a cap) to ensure all participating MCOs have incentive to improve, including high-performing MCOs
 - (ii) Performance measure scores for each measure will be defined as a ratio between 0-1. Scores will be calculated by the sum of the points earned for each measure divided by the maximum number of points allowable for the measure. The maximum number of points allowable for the measure is the sum of the attainment, improvement and potential bonus points with a determined cap. The score will be calculated as follows:

Performance Measure Score = Points earned for each measure / Maximum number of points allowable for the measure.
 - (iii) Some performance measures may have identified sub-measures for which sub-measure performance scores will be calculated in the same manner, but then typically equally weighted to calculate a composite performance measure score. For sub-measures the score is calculated as follows:

Performance Measure Score = Sum of each (Sub-measure Score X Sub-measure Weighting).

4. **Domain Score Calculation:** The domain scoring and approach will, as applicable, be consistent with other MassHealth incentive programs or other incentive program practices. Domain scoring includes the following components:

- a. Using the predetermined weights specified in Table 3, a domain score will be calculated by taking each performance measure score in the domain and calculating the sum of each performance measure score multiplied by its respective performance measure weight:

$$\text{Domain Score} = \text{Sum of each (Performance Measure Score} * \text{Performance Measure Weight)}.$$

b. If the Contractor is not eligible for a measure (e.g., does not meet the denominator criteria or minimum volume), the weighting will be redistributed equally to the eligible performance measures in the domain.

5. **Health Equity Score Calculation:** The overall Health Equity Scoring approach will, as applicable, be consistent with other MassHealth incentive programs or other incentive program practices. The overall Health Equity Score includes the following components. Using the predetermined weights specified in Table 3, a health equity score will be calculated by taking each domain score and calculating the sum of each domain score multiplied by its respective domain weight:

$$\text{Health Equity Score} = \text{Sum of each (Domain Score * Domain Weight)}$$

The final Health Equity Score will be used to calculate the Contractor’s earned incentive payment.
