AMENDMENT #3
TO THE
FIRST AMENDED AND RESTATED
ACCOUNTABLE CARE PARTNERSHIP PLAN CONTRACT
FOR THE
MASSHEALTH ACCOUNTABLE CARE ORGANIZATION PROGRAM

WHEREAS, the Executive Office of Health and Human Services (“EOHHS”) and the Contractor identified in **Appendix R** (“Contractor”) entered into the Contract effective January 1, 2023, and with an Operational Start Date of April 1, 2023, to serve as an Accountable Care Organization, improve the MassHealth Member experience of care, health of the population, and efficiency of the MassHealth program, and provide comprehensive health care coverage to MassHealth Members; and

WHEREAS, EOHHS and the Contractor last amended and restated the Contract effective January 1, 2024, (the First Amended and Restated Accountable Care Partnership Plan Contract);

WHEREAS, EOHHS and the Contractor amended the Contract through Amendment #1 (January 1, 2024), Amendment #2 (January 1, 2024), and if applicable Amendment #2A (January 1, 2024);

WHEREAS, in accordance with **Section 5.9** of the Contract, EOHHS and the Contractor desire to amend the Contract effective January 1, 2024; and

WHEREAS, EOHHS and the Contractor agree that the terms stated herein are subject to all required approvals of the federal Centers for Medicare and Medicaid Services (CMS);

NOW, THEREFORE, in consideration of the mutual covenants and agreements contained herein, the Contractor and EOHHS agree as follows:

1. **Section 1, Definitions, Enrollee Incentive**, is hereby amended by deleting “in a targeted behavior, such as guideline-recommended clinical screenings, Primary Care Provider (PCP) visits, or Wellness Initiatives” and inserting in place thereof “in behaviors impacting their health and wellness”.

APPENDIX A

ACO REPORTING REQUIREMENTS

This Appendix summarizes the reporting requirements described in the Contract. EOHHS may update these requirements from time to time. The Contractor shall submit corresponding Certification Checklists of all reports/submissions listed in **Appendix A** within the timelines specified herein. The Contractor may include a narrative summary to reports/submissions and may include graphs that explain and highlight key trends. All reports must be submitted via OnBase, the EOHHS Contract Management system, unless otherwise indicated below in the “*Target System*” column. Numbering sequence and Report Title that will appear in the OnBase system can be found in **BOLD** in the “*Name of Report*” column.

For all of the reports listed below, unless otherwise specified, if the Contractor meets the target for a given report, the Contractor shall only complete a short narrative description on the report cover sheet. For any report that indicates that the Contractor is not meeting the target, the Contractor shall submit a detailed narrative that includes the results, an explanation as to why the Contractor did not meet the target, and the steps the Contractor is taking to improve performance going forward.

The Contractor shall provide all Reports in the form and format required by EOHHS and shall participate with EOHHS in the development of detailed specifications for these reports. These specifications shall include benchmarks and targets for all reports, as appropriate. Targets shall be changed to reflect improvement in standards over time.

All exhibits referenced herein pertain to **Appendix A**, unless otherwise noted. Such exhibits set forth the form and format the Contractor shall use for each report below. These exhibits shall be provided to the Contractor and may be updated by EOHHS from time to time. EOHHS shall notify the Contractor of any updates to the exhibits.

APPENDIX Q
EOHHS Accountable Care Organization Quality and Health Equity Appendix

This Appendix details how EOHHS will determine the Contractor's Quality and Health Equity Performance as described in the Contract. EOHHS may modify the methodology set forth herein after the execution of the Contract by written amendment. The following information is included. For the purposes of this document, "Performance Year" or "PY" shall mean "Contract Year" as defined in Section 1 of the Contract, unless otherwise specified by EOHHS.

Section 1.5 METHODOLOGY FOR ESTABLISHING PERFORMANCE BENCHMARKS FOR QUALITY MEASURES

Section 1.6 QUALITY AND HEALTH EQUITY PERFORMANCE FINANCIAL APPLICATION

Section 1.1 Overview of Quality Performance and Scoring and Health Equity Performance and Scoring

The Contractor shall receive, for each Performance Year, an ACO Quality Score that shall determine the Quality Incentive payment amount available to the Contractor as prescribed in **Sections 2.14** and **4.6.B** of the Contract. The Contractor shall also receive, for each Performance Year, an ACO Health Equity Score that shall determine the Quality and Equity incentive payment amount available to the Contractor as prescribed in **Sections 2.21** and **4.6.C** of the Contract. The Contractor shall also receive, for each Performance Year, a CP Quality Score (calculated by EOHHS) for each Community Partner subcontractor as described in **Section 2.6.E** of the Contract. The CP Quality Score shall be used in the determination of incentive payments made by the Contractor to each of its subcontracted CPs.

This Section of the Appendix describes the individual measures, and general methodology EOHHS will use to calculate the Contractor's scores (i.e., ACO Quality Score, ACO Health Equity Score, and CP Quality Score), as further specified by EOHHS.

Section 1.2 Scoring Methodology for ACO Quality Score

The Contractor's Quality Score is based on the Contractor's performance across a set of benchmarks and improvement targets for individual quality measures that are grouped into three domains. An additional bonus element is also included for PY2024 based on an assessment of Electronic Quality Measurements/Electronic Clinical Data System readiness, as specified by EOHHS. EOHHS will weight and sum the Contractor's performance across all domains and then apply results of the bonus element to calculate one overall ACO Quality Score per performance year. For any measure where the Contractor does not meet minimum denominator requirements, as determined by EOHHS, then the measure's weight will be equally distributed to other measures within the same domain.

For ACOs serving primarily pediatric members (e.g., $\geq 75\%$ of the ACO's Enrollees are ages 0-17 years), EOHHS shall replace adult focused measures (i.e., measures applicable to 18+ populations only) with measure(s) applicable to pediatric populations only ("pediatric replacement measures") as further specified by EOHHS. Quality Performance on these pediatric replacement measures will be scored as described above.

A. List of Quality Measures for ACO Quality Score

Quality Measures include claims-based measures, clinical quality measures, and member experience surveys across the following three domains:

- Preventive and Pediatric Care
- Care Coordination / Care for Chronic & Acute Conditions
- Member Experience

See Exhibit 2 for the list of Quality Measures.

EXHIBIT 2 – ACO Quality Measures

Domain 1	Measure Name	Measure Description	Data Source	Measure Steward	NQF No.	P4P Transition Year
Preventive and Pediatric Care	Developmental Screening in the First 3 Years of Life	The percentage of children screened for risk of developmental, behavioral and social delays using a standardized screening tool in the 12 months preceding or on their first, second, or third birthday. B. Measure Level Scoring Methodology (Achievement and Improvement Points)

1. Achievement Points

The Contractor may receive up to a maximum of ten (10) achievement points for each Quality Measure, as follows:

- a. EOHHS will establish an “attainment threshold” and a “goal benchmark” for each Quality Measure
 - (i) “Attainment threshold” sets the minimum level of performance at which the contractor can earn achievement points
 - (ii) “Goal benchmark” is a high performance standard above which the Contractor earns the maximum number of achievement points (i.e., 10 points)
- b. EOHHS will calculate the Contractor’s performance score on the Quality Measure based on the measure specifications
- c. EOHHS will award the Contractor between zero (0) and ten (10) achievement points as follows:
 - (i) If the Contractor’s performance score is less than the attainment threshold: 0 achievement points
 - (ii) If the Contractor’s performance score is greater than or equal to the goal benchmark: 10 achievement points
 - (iii) If the performance score is between the attainment threshold and goal benchmark: achievement points earned are determined by the formula:
 - (a) $10 * ((\text{Performance Score} - \text{Attainment Threshold}) / (\text{Goal Benchmark} - \text{Attainment Threshold}))$

EXHIBIT 3 – Example Calculation of Achievement Points for Measure A

Measure A attainment threshold = 45% (e.g., corresponding to 25 th percentile of HEDIS benchmarks)	
Measure A goal benchmark = 80% (e.g., corresponding to 90 th percentile of HEDIS benchmarks)	
Scenario 1:	
•	Measure A performance score = 25%
•	Achievement points earned = 0 points
Scenario 2:	
•	Measure A performance score = 90%
•	Achievement points earned = 10 points
Scenario 3:	
•	Measure A performance score = 60%
•	Achievement points earned = $10 * ((60\% - 45\%) / (80\% - 45\%)) = 4.29$ points

2. Improvement Points

In addition to receiving achievement points based on performance (on a 0 to 10 scale), the Contractor may earn improvement points for reaching established improvement targets for each Quality Measure. Improvement points will be calculated as follows:

- a. The Contractor's performance score will be calculated on each Quality Measure based on the measure specifications. Each Quality Measure's specifications will describe the detailed methodology by which this performance score is calculated.
- b. Beginning PY2, EOHHS will compare the Contractor's performance score on each Quality Measure to the Contractor's performance score on that same Quality Measure from the highest scoring previous Performance Year.
- c. EOHHS will calculate an Improvement Target for each applicable Quality Measure using the following formula (unless otherwise communicated by EOHHS). The Improvement Target is based on at least a 20% improvement each year in the gap between Goal Benchmark and the Attainment Threshold of each ACO measure.

- (i) Improvement Target formula = $[(\text{Goal Benchmark} - \text{Attainment Threshold}) / 5]$

For example, for Measure A, if the Attainment Threshold is 50% and the Goal Benchmark is 60%, the Improvement Target is 2% $[(60 - 50)/5]$

- (ii) For the purposes of calculating the Improvement Target, the result is rounded to the nearest tenth (i.e., one decimal point).

For example, for Measure B, if the Attainment Threshold is 80% and the Goal Benchmark is 90.2%, the Improvement Target is calculated to 2.04% $[(90.2 - 80)/5]$ which rounds to 2.0%.

- (iii) The Contractor may earn up to five (5) improvement points for increases in measure score which meet or exceed the improvement target.

For example, for Measure B, the Improvement Target is 2.0%. If Contractor performance in PY4 is 54.0% and if Contractor performance in PY5 is 60.0%, the Contractor improvement from PY4 to PY5 is 6.0% $[(60.0 - 54.0)]$ and the Contractor is awarded 5 improvement points. No points above 5 are awarded for increases in excess of the improvement target.

- (iv) For the purposes of calculating the difference in Contractor quality performance over a previous year, the results are rounded to the nearest tenth (i.e., one decimal point). Rounding takes place after the calculation.

For example, for Measure B, if Contractor performance in PY4 is 54.54% and if Contractor performance in PY5 is 60.17%, the Contractor improvement from PY4 to PY5 is 5.63% $[(60.17-54.54)]$, and the Contractor improvement will be rounded to the nearest tenth (i.e., one decimal point) to 5.6%.

- (v) The Improvement Target is based on the higher of the original baseline or any year's performance prior to the current PY. This is intended to avoid rewarding regression in performance.

For example, for Measure B, assume Contractor performance in PY1 is 90.0% and the Improvement Target is 2.0%. If in PY4 the performance for the Contractor decreases to 89.0%, in PY5 the Contractor would need to reach 92.0% to reach the Improvement Target.

- (vi) There are several special circumstances:
- (a) *At or Above Goal:* If the Contractor has prior PY performance scores equal to or greater than the Goal Benchmark then the Contractor may still earn up to five (5) improvement points in each PY if improvement from the highest prior PY is greater than or equal to the Improvement Target.
 - (b) *At or Below Attainment:* If the Contractor has prior PY performance scores less than the Attainment Threshold then the Contractor may still earn up to five (5) improvement points each PY if improvement from the highest prior PY is greater than or equal to the Improvement Target, and performance in the current PY does not equal or exceed the Attainment Threshold. Additionally, if the Contractor has prior PY performance scores less than the Attainment Threshold and current PY performance scores are equal to or above the Attainment Threshold then the Contractor may still earn up to five (5) improvement points if the improvement is greater than or equal to the Improvement Target.

EXHIBIT 4 – Example Calculation of Improvement Points for Measure B

Measure B Attainment = 48.9% | Goal = 59.4% | Improvement Target = 2.1%

	PY4 Score	PY5 Score	Improvement	Improvement Target Met	Improvement Points Earned
Scenario 1:	50.0%	52.1%	2.1%	Yes	5
Scenario 2:	50.0%	56.7%	6.7%	Yes	5
Scenario 3:	59.5%	63.0%	3.5%	Yes; above Goal Benchmark	5
Scenario 4	45.0%	48.0%	3.0%	Yes; below Attainment Threshold	5

Scenario 5:	46.0%	49.0%	3.0 %	Yes; crossing Attainment	5
Scenario 6:	45.0%	46.0%	1.0%	No	0

C. Domain Level Scoring Methodology

EOHHS will sum the Contractor's achievement and improvement points for all Quality Measures within each Quality Domain. Improvement points earned in one Quality Domain may only be summed with achievement points from the same Quality Domain. The total number of points earned by the Contractor in each domain cannot exceed the maximum number of achievement points available in the domain. The maximum number of achievement points in the domain is calculated by multiplying the number of Pay-for-Performance (P4P) measures in the domain, in the given PY, by the number of available achievement points per measure.

For example, if in PY4, there are ten (10) clinical quality measures in Domain X in Pay-for-Performance, and each measure is worth ten (10) achievement points, the maximum number of achievement points in Domain X would be 100. Assume that in PY5 there are now twelve (12) clinical quality measures in Domain X in Pay-for-Performance, and that each measure is worth ten (10) achievement points, the maximum number of achievement points in Domain X would be 120.

Cumulative Example:

Total number of measures in domain: 2

Maximum number of achievement points in the domain = 20

Measure Attainment = 48.9% | Goal = 59.4%

Improvement Target = [(Goal Benchmark – Attainment Level) / 5] = [59.4-48.9]/5 = 2.1

For example, for Measure A, if Contractor performance in PY4 is 54.54% and if Contractor performance in PY5 is 58.17% the Contractor will earn 8.8 Achievement Points $[10 * (58.17 - 48.9)/(59.4 - 48.9)]$. The Contractor has improved from PY4 to PY5 by 3.63% $[(58.17 - 54.54)]$ which will be rounded to the nearest tenth (e.g., one decimal point) to 3.6% which exceeds the Improvement Target of 2.1%. Thus, the Contractor will earn five (5) improvement points. No points above 5 are awarded for increases in excess of the improvement target.

In this scenario the Contractor would earn 13.8 points.

If there is only one (1) additional measure in the Domain and the Contractor earned 9 total points for this measure; the total score for the Contractor would be 20.0 (out of 20) given that domain scores are capped at the maximum number of achievement points (20) in the domain.

Once the total number of points has been calculated, EOHHS will divide the resulting sum by the maximum number of achievement points that the Contractor is eligible for in the domain to produce the Contractor's Domain Score. Domain Scores are a value between zero (0) and one (1) expressed as a percentage (i.e., 0% to 100%). EOHHS will score the Contractor on each P4P Quality Measure unless the Contractor does not meet eligibility requirements for a specific measure (e.g., it does not meet the minimum denominator requirement). In cases like this, the measure is not factored into the denominator. Reporting measures do not factor into the Domain Score.

Additionally, improvement points do not count towards the denominator; they are therefore “bonus” points. Domain Scores are each capped at a maximum value of 100%.

EXHIBIT 5 – Example Calculation of an Unweighted Domain Score

Example Calculations of Unweighted Domain Score		
Example 1	Domain only has two Quality Measures (Measure A and Measure B)	
	Therefore, maximum number of achievement points is $2 \times 10 = 20$ points	
	Measure A:	Achievement points: 1.5
		Improvement Points: 0
	Measure B:	Achievement points: 0
		Improvement Points: 5
	Total achievement points: $1.5 + 0 = 1.5$ points	
	Total improvement points: $0 + 5 = 5$ points	
	Sum of achievement and improvement points: $1.5 + 5 = 6.5$ points	
	Unweighted domain score = $6.5/20 * 100 = 32.5\%$	
Example 2	Domain only has two Quality Measures (Measure A and Measure B)	
	Therefore, maximum number of achievement points is $2 \times 10 = 20$ points	
	Measure A:	Achievement points: 8
		Improvement Points: 5
	Measure B:	Achievement points: 9.3
		Improvement Points: 0
	Total achievement points: $8 + 9.3 = 17.3$	
	Total improvement points: 5 points	
	Sum of achievement and improvement points: $17.3 + 5 = 22.3$ points	
	However, total number of points cannot exceed maximum number of achievement points (20)	
	Therefore, total domain points = 20	
	Unweighted domain score = $20/20 * 100 = 100\%$	

An assessment of electronic-based quality measure readiness (e.g., Electronic Clinical Quality Measures (eCQM), and Electronic Clinical Data Systems (ECDS)) shall be integrated into the overall ACO Quality Score as a bonus element for PY2024. The assessment shall be scored on an all-or-nothing basis, with possible scores equaling zero or 100%. Any ACO achieving 100% on the bonus will earn a total of 5.0 points added to the sum of the weighted domain score, resulting in an overall quality score. Note: the sum of weighted domains and the 5.0 point bonus may not exceed the overall quality score maximum of 100%.

EXHIBIT 6 – Example Calculation of Weighted Domain Scores and Bonus

Example Calculations of Weighted Domain Scores and Bonus				
	Domain	Weight	Score	Weighted Domain Score
Example	Preventative and	45%	75.0	33.75

	Pediatric Care			
	Care Coordination / Care for Chronic & Acute Conditions	40%	70.0	28.00
	Member Experience	15%	72.0	10.8
	Total	100%	N/A	72.55
	Bonus	N/A	5.0 points	N/A
	Total of weighted domains = 72.55			
	Total bonus: 5.0 points			
	Sum of weighted domains and bonus points: 72.55 + 5.0 = 77.55 points			
	Overall Quality Score = 77.55%			

Section 1.3 Scoring Methodology for ACO Quality & Equity Incentive Program (QEIP) Health Equity Score

- A. Performance Year 1 (CY2023) requirements for the ACO QEIP can be found in Attachment 1 to this Appendix.
- B. Performance Years 2-5 (CY2024-2027) requirements for the ACO QEIP are forthcoming and will be provided in Attachment 2 to this Appendix.

Section 1.4 Scoring Methodology for Community Partners Quality Score

EOHHS shall calculate a Community Partner Quality Score for each of the Contractor's subcontracted CPs. Community Partner Quality Scores are based on the performance of each subcontracted CP's MassHealth enrollment, as determined by EOHHS, across a set of benchmarks or improvement targets for individual measures within the BH CP or LTSS CP measure slate as applicable as set forth in Exhibits 7 and 8 below. EOHHS will weight each CP's CP Quality Score by the volume of that CP's enrollment within the ACO relative to the volume of all other CP subcontractors within the same ACO. As further specified by EOHHS, EOHHS shall use the weighted CP Quality Score to determine the Contractor's payment to each CP based on the CP's quality performance. In addition to the above methodology, EOHHS may establish additional quality incentives designed to reward the Contractor's higher performing subcontracted CPs.

Section 1.5 Methodology for Establishing Performance Benchmarks for Quality Measures

EOHHS will establish the attainment threshold, goal benchmark, improvement target (and/or any other applicable performance indicator) for each Quality Measure applicable to ACO Quality, ACO Health Equity, and CP Quality scoring methodologies. EOHHS anticipates establishing these performance indicators as follows:

- For Quality Measures based on NCQA HEDIS measures, EOHHS anticipates using NCQA Quality Compass percentiles, as well as MassHealth historical ACO and Community Partners' performance
- For non-HEDIS Quality Measures, EOHHS anticipates using MassHealth historical ACO and Community Partners' performance
- For other Quality Measures where EOHHS does not have access to applicable data, EOHHS anticipates using MassHealth benchmarks based on ACO/CP-attributed populations

Section 1.6 Quality Performance Financial Application

The Contractor's ACO Quality Score and ACO Health Equity Score will be applied to performance incentive payment as described in **Section 4.6**. Community Partner Quality Scores will be applied to incentive payments to CP subcontractors as described in **Section 2.6.E**.

SECTION 1. BACKGROUND AND OVERVIEW OF THE ACCOUNTABLE CARE ORGANIZATION QUALITY AND EQUITY INCENTIVE PROGRAM

A. Overview

Massachusetts shifted the delivery system at scale to value-based care under the previous MassHealth section 1115 demonstration approval period, transitioning over 80 percent of eligible Medicaid members into accountable care organizations (ACOs) that are at risk to deliver better health outcomes, lower cost, and improved member experience through integrated, coordinated care.

A key goal of the Commonwealth's in this demonstration period is to improve quality of care and advance health equity, with a focus on initiatives addressing health-related social needs (HRSN) and health disparities demonstrated by variation in quality performance. To support achievement of this goal, Massachusetts is centering equity alongside quality as a pillar of value-based care and as a priority for the state's health care system.

To that end, MassHealth will implement aligned quality and equity initiatives across delivery system settings including but not limited to MassHealth's Managed Care Organizations (MCOs), Accountable Care Partnership Plans (ACPPs) and Primary Care ACOs (together "ACOs"), managed behavioral health vendor, and acute hospitals.

Together, this constellation of coordinated quality and equity initiatives will support Massachusetts in achieving its demonstration goal to improve quality of care and advance health equity.

B. Scope of this Implementation Plan

This Performance Year 1 Implementation Plan provides additional detail related to implementation of MassHealth's AQEIP for the first PY from April 1, 2023-December 31, 2023, of the Contract (April 1, 2023 – December 31, 2027.) Information pertaining to PYs 2-5, representing Calendar Years 2024-2027, will be forthcoming.

SECTION 2. ACCOUNTABLE CARE ORGANIZATION QUALITY AND EQUITY INCENTIVE PROGRAM (AQEIP) DOMAINS AND GOALS

A. Overview of Targeted Domains for Improvement in the AQEIP

For the AQEIP, the Contractor is incentivized to pursue performance improvements in the domains specified in Table 1.

Table 1. Overview of Targeted Domains for Improvement for the AQEIP

Domain 1: Demographic and Health-Related Social Needs Data	The Contractor will be assessed on the completeness of beneficiary-reported demographic and health-related social needs data submitted in accordance with the commonwealth's data requirements. Demographic and health-related social needs data will include at least the following categories: race, ethnicity, primary language, disability status, sexual orientation, gender identity, and health-related social needs. Data completeness will be assessed separately for each data element.
Domain 2: Equitable Quality and Access	The Contractor will be assessed on performance and demonstrated improvements on access and quality metrics, including associated reductions in disparities. Metrics will focus on overall access; access for individuals with disabilities and/or limited English proficiency; preventive, perinatal, and pediatric care services; care for chronic diseases and behavioral health; and care coordination.
Domain 3: Capacity and Collaboration	The Contractor will be assessed on improvements in metrics such as provider and workforce capacity and collaboration within health system providers (e.g. clinical partners) to improve quality and reduce health care disparities.

B. Goals for each Domain of the AQEIP

Goals for each AQEIP domain are summarized below:

1. Demographic and Health-Related Social Needs Data Collection Domain Goals
 - a. The Contractor is incentivized to achieve certain milestones to meet an interim goal of 80 percent data completeness for self-reported race and ethnicity data for attributed MassHealth members by the end of Performance Year 3 (CY 2025).
 - b. The Contractor is incentivized to achieve certain milestones to achieve at least 80 percent data completeness for beneficiary-reported other demographic data (including at least primary language, disability status, sexual orientation, and gender identity) for attributed MassHealth members by the end of Performance Year 5 (CY 2027).
 - c. The Contractor is incentivized to meaningfully improve rates of HRSN screenings from the baseline period (CY 2024 and/or CY 2025) by the end of Performance

Year 5 (CY 2027). To meet this goal, the Contractor must not only conduct screenings of beneficiaries, but also establish the capacity to track and report on screenings and referrals.

2. Equitable Quality and Access Domain Goals

- a. The Contractor is incentivized for performance on metrics such as those related to access to care (including for individuals with limited English proficiency and/or disability); preventive, perinatal, and pediatric care; care for chronic diseases; behavioral health; care coordination; and/or patient experience.
- b. For up to the first three Performance Years (PY 2023 through PY 2025), the Contractor's performance will be based on:
 - (i) Reporting on access and quality metric performance, including reports stratified by demographic factors (such as race, ethnicity, language, disability, sexual orientation, and gender identity); health related social needs; and/or defined by other individual- or community-level markers or indices of social risk;
 - (ii) Developing and implementing interventions aimed at improving quality and reducing observed disparities on metrics that account for clinical and social risk factors.
- c. For at least the last two Performance Years (PY2026 and PY2027), the Contractor's performance will be based on improving quality and/or closing disparities as measured through performance on a subset of access and quality metrics.

3. Capacity and Collaboration Domain Goals

The Contractor is incentivized to improve service capacity, workforce development, and health system collaboration to improve quality and reduce disparities. The metrics that assess improvement in this domain may relate to provider cultural competence and achievement of externally validated equity standards.

SECTION 3. AQEIP PERFORMANCE YEAR 1 METRICS

To establish a robust foundation for quality and equity improvement and to begin making progress towards five-year health equity goals, the first performance year of the AQEIP holds the Contractor accountable to metrics listed in Table 2 evaluating contributory health system level interventions in each performance domain.

Table 2. AQEIP Performance Year 1 Metrics

*Reporting/performance requirements for each measure described in relevant metric technical specifications

Recognizing that taking on accountability for equity is new for most ACOs, interim and annual goals for Performance Year 1 are designed to promote essential foundational capacity and readiness to assume progressive risk for health quality and equity performance in Performance Year 2-5. Summarized performance expectations are described in Table 3; detailed performance expectations are described in metric technical specifications.

Patient Experience: Cultural Competency (AHRQ)	Performance on a subset of items from CAHPS survey reflective of cultural competency during MY23 as selected by EOHHS.	N/A

SECTION 4. AQEIP PAYMENT FOR PERFORMANCE YEAR 1

EOHHS will pay the Contractor based on the Contractor's health equity score in accordance with **Section 4.6** of the ACPP Contract and **Section 4.2** of the PCACO Contract. EOHHS will make a one-time payment to the Contractor after the health equity score has been finalized.

SECTION 5. AQEIP ACCOUNTABILITY FRAMEWORK FOR PERFORMANCE YEAR 1

EOHHS will hold the Contractor accountable for its performance on the AQEIP performance measures. Total incentive amounts for Performance Year 1 will be distributed according to the weighting described in Table 4. Performance expectations for each metric are summarized in Table 3 above and detailed further in technical specifications.

The Performance Year 1 Health Equity Score will be determined by EOHHS's assessment of completeness and timely submission of deliverables associated with each performance measure. The total Health Equity Score will be calculated according to the weights outlined in Table 4 below, with performance on each metric measured by the degree to which the Contractor met performance requirements summarized in Table 3, as determined by EOHHS.

SECTION 1. BACKGROUND AND OVERVIEW OF THE ACCOUNTABLE CARE ORGANIZATION QUALITY AND EQUITY INCENTIVE PROGRAM

A. Overview of Statewide Approach to Advance Healthcare Quality and Equity

Massachusetts shifted the delivery system at scale to value-based care under the previous MassHealth section 1115 demonstration approval period, transitioning over 80 percent of eligible Medicaid members into accountable care organizations (ACOs) that are at risk to deliver better health outcomes, lower cost, and improved member experience through integrated, coordinated care.

A key goal of the Commonwealth's in this demonstration period is to improve quality of care and advance health equity, with a focus on initiatives addressing health-related social needs (HRSN) and health disparities demonstrated by variation in quality performance. To support achievement of this goal, Massachusetts is centering equity alongside quality as a pillar of value-based care and as a priority for the state's health care system.

To that end, MassHealth will implement aligned quality and equity initiatives across delivery system settings including but not limited to MassHealth's Managed Care Organizations (MCOs), Accountable Care Partnership Plans (ACPPs) and Primary Care ACOs (together "ACOs"), managed behavioral health vendor, and acute hospitals.

Together, this constellation of coordinated quality and equity initiatives will support Massachusetts in achieving its demonstration goal to improve quality of care and advance health equity.

B. Scope of this PY2-5 Implementation Plan for the ACO Quality and Equity Incentive Program

This ACO Quality and Equity Incentive Program (AQEIP) Implementation Plan provides additional detail related to implementation of MassHealth's AQEIP for Performance Years (PYs) 2-5 from January 1, 2024 – December 31, 2027, of the Contract (April 1, 2023 – December 31, 2027.) Additional detail may be forthcoming for future program years.

SECTION 2. ACO QUALITY AND EQUITY INCENTIVE PROGRAM (AQEIP) DOMAINS AND GOALS

A. Overview of Targeted Domains for Improvement in the AQEIP

For the AQEIP, the Contractor is incentivized to pursue performance improvements in the domains specified in Table 1.

Table 1. Overview of Targeted Domains for Improvement for the AQEIP

Domain 1: Demographic and Health-Related Social Needs Data	The Contractor will be assessed on the completeness of beneficiary-reported demographic and health-related social needs data submitted in accordance with the Commonwealth's data requirements. Demographic and health-related social needs data will include at least the following categories: race, ethnicity, language, disability status, sexual orientation, gender identity, and health-related social needs. Data completeness will be assessed separately for each data element.
Domain 2: Equitable Quality and Access	The Contractor will be assessed on performance and demonstrated improvements on access and quality metrics, including associated reductions in disparities. Metrics will focus on overall access; access for individuals with disabilities and/or a preferred language other than English; preventive, perinatal, and pediatric care services; care for chronic diseases and behavioral health; and care coordination.
Domain 3: Capacity and Collaboration	The Contractor will be assessed on improvements in metrics such as provider and workforce capacity and collaboration within health system providers (e.g. clinical partners) to improve quality and reduce health care disparities.

B. Goals for each Domain of the AQEIP

Goals for each AQEIP domain are summarized below:

1. Demographic and Health-Related Social Needs Data Collection Domain Goals
 - a. The Contractor shall submit to MassHealth an assessment of beneficiary-reported demographic and HRSN data adequacy and completeness for purposes of the AQEIP by July 1, 2023.
 - b. The Contractor is incentivized to achieve certain milestones to meet an interim goal of 80 percent data completeness for self-reported race and ethnicity data for attributed MassHealth members by the end of Performance Year 3 (CY 2025).
 - c. The Contractor is incentivized to achieve certain milestones to achieve at least 80 percent data completeness for beneficiary-reported other demographic data (including at least language, disability status, sexual orientation, and gender identity) for attributed MassHealth members by the end of Performance Year 5 (CY 2027).

- d. The Contractor is incentivized to meaningfully improve rates of HRSN screenings from the baseline period by the end of Performance Year 5 (CY 2027). To meet this goal, the Contractor must not only conduct screenings of beneficiaries, but also establish the capacity to track and report on screenings and referrals.
2. Equitable Quality and Access Domain Goals
- a. The Contractor is incentivized for performance on metrics such as those related to access to care (including for individuals with a preferred language other than English and/or disability); preventive, perinatal, and pediatric care; care for chronic diseases; behavioral health; care coordination; and/or patient experience.
 - b. Metric performance expectations shall include, at a minimum:
 - (i) Reporting on access and quality metric performance, including stratified by demographic factors (such as race, ethnicity, language, disability, sexual orientation, and gender identity); health-related social needs; and/or defined by other individual- or community-level markers or indices of social risk;
 - (ii) Developing and implementing interventions aimed at improving quality and reducing observed disparities on metrics that account for clinical and social risk factors found through analysis to be associated with lower performance on such metrics and/or other appropriate individual/community-level markers or indices of social vulnerability;
 - (iii) Improving quality and/or closing disparities as measured through performance on a subset of access and quality metrics.
 - c. For up to the first three PYs, performance will be based on expectations described in 2(b)(i) and 2(b)(ii), above. For at least the last two PYs, performance will also be based on expectations described in 2(b)(iii), above.
3. Capacity and Collaboration Domain Goals
- a. The Contractor is incentivized to improve service capacity, workforce development, and health system collaboration to improve quality and reduce disparities. The metrics that assess improvement in this domain may relate to provider cultural competence and achievement of externally validated equity standards.

SECTION 3. AQEIP PERFORMANCE YEAR 2-5 METRICS

Performance years 2-5 of the AQEIP will hold the Contractor accountable to metrics evaluating performance in each AQEIP domain. These metrics were developed with input from health systems and providers through requests for information and comment, public meetings, and ongoing stakeholder engagement. Technical specifications for the AQEIP PY2-5 metrics, which may be updated annually or more frequently as necessary. A summary of the AQEIP metrics and anticipated payment status in PY2-5 are provided in Table 2.

*P4R= Pay for Reporting, P4P= Pay for Performance. Specific performance trajectories are subject to change. Reporting/performance requirements for each measure described in forthcoming metric technical specifications.

The anticipated reporting expectations for PY2 are summarized in Table 3; detailed reporting and performance expectations for PY2 are included in metric technical specifications. Each report outlined in Table 3 shall be submitted by the Contractor in a form, format, and frequency to be further specified by EOHHS. Additional and/or revised reporting expectations for PY3-5 will be provided prior to the start of each performance year.

Section 4. AQEIP Payment for Performance Years 2-5

MassHealth will pay each Contractor based on the Contractor's health equity score in accordance with **Section 4.6** of the ACPH Contract and **Section 4.2** of the PCACO Contract. EOHHS will make a one-time payment to the Contractor after the health equity score has been finalized.

Section 5. AQEIP Accountability Framework for Performance Year 2-5

A. ACO Accountability to MassHealth for the AQEIP

MassHealth will hold the Contractor accountable for its performance on the AQEIP performance measures. MassHealth's anticipated framework for the AQEIP PAM, which may be adjusted annually as needed (for example to transition measures from pay-for-reporting to pay-for-performance, accommodate new contextual inputs, address extenuating circumstances impacting performance, etc.), is described below. Measure-specific PAM, including benchmarks, improvement targets and measure score calculation approach, will be described in each forthcoming measure specification.

1. **Benchmarking:** MassHealth will establish performance targets or benchmarks no later than the start of the first pay-for-performance period for the metric.
 - a. Benchmarks for quantitative measures will include an attainment threshold and goal benchmark and will be set to apply to the full applicable performance period.
 - b. Establishment of benchmarks will be informed by inputs such as initial AQEIP performance data, historical data/performance, external data/trends, and/or predetermined performance targets determined by MassHealth.
2. **Improvement Targets:** MassHealth will establish performance improvement targets for performance metrics, as applicable, no later than the start of the first pay-for-performance period for the metric.
 - a. Specific improvement targets and the approach for each measure will be set to apply to the full applicable performance period.
 - b. The approach and actual improvement target may differ by measure based on factors such as performance trends or type of measure; approaches may include year-over-year self-improvement, gap-to-goal percentage point increase, absolute percentage point increases, set milestones and/or goals for improvement.
3. **Performance Measure Score Calculation:** The performance measure scoring approach will be consistent, as applicable, with other MassHealth incentive programs or other incentive program practices. MassHealth will establish a methodology for performance measure scoring for each measure, to be specified in technical specifications, no later than the first day of the performance period to which the methodology applies.

- a. **Pay-for reporting (P4R) measures.** P4R measures will be assessed on a pass/fail basis for which the Contractor will receive full points or credit for the metric if reporting is completed according to each measure’s technical specifications.
- b. **Pay-for-performance (P4P) measures.** The performance measure scoring and approach will be consistent, as applicable, with other MassHealth incentive programs or other incentive program practices, described below.

- (i) Measure scoring will include the following components for each measure:

- 1. Attainment points ranging from 0-10 points
- 2. Improvement points ranging from 0-10 points
- 3. Potential bonus points (with a cap) to ensure all participating ACOs have incentive to improve, including high-performing ACOs

- (ii) Performance measure scores for each measure will be defined as a ratio between 0-1. Scores will be calculated by the sum of the points earned for each measure divided by the maximum number of points allowable for the measure. The maximum number of points allowable for the measure is the sum of the attainment, improvement and potential bonus points with a determined cap. The score will be calculated as follows:

Performance Measure Score = Points earned for each measure / Maximum number of points allowable for the measure.

- (iii) Some performance measures may have identified sub-measures for which sub-measure performance scores will be calculated in the same manner, but then typically equally weighted to calculate a composite performance measure score. For sub-measures the score is calculated as follows:

Performance Measure Score = Sum of each (Sub-measure Score X Sub-measure Weighting).

4. **Domain Score Calculation:** The domain scoring and approach will, as applicable, be consistent with other MassHealth incentive programs or other incentive program practices. Domain scoring includes the following components:

- a. Using the predetermined weights specified in Table 3, a domain score will be calculated by taking each performance measure score in the domain and calculating the sum of each performance measure score multiplied by its respective performance measure weight:

Domain Score = Sum of each (Performance Measure Score Performance Measure Weight).*

- b. If the Contractor is not eligible for a measure (e.g., does not meet the denominator criteria or minimum volume), the weighting will be redistributed equally to the eligible performance measures in the domain.

5. **Health Equity Score Calculation:** The overall Health Equity Scoring approach will, as applicable, be consistent with other MassHealth incentive programs or other incentive program practices. The overall Health Equity Score includes the following components. Using the predetermined weights specified in Table 3, a health equity score will be calculated by taking each domain score and calculating the sum of each domain score multiplied by its respective domain weight:

*Health Equity Score = Sum of each (Domain Score * Domain Weight).*

The final Health Equity Score will be used to calculate the Contractor's earned incentive payment.
