

# Mass DEP Update on Anaerobic Digestion

# **AGENDA**

- Vanguard Renewables & Anaerobic Digestion
- Our Farm Locations
- □ Stakeholder Benefits

# **The Vanguard Story**

# **How Anaerobic Digestion Works**

# INPUTS FARM-BASED DIGESTION Gas or Electricity

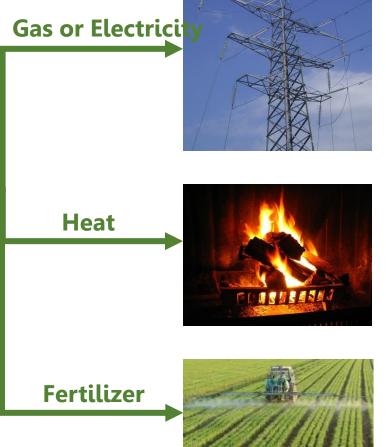

**Cow Manure** 

# Vanguard Massachusetts Farm Digesters

### **RUTLAND, MA – Jordan Farm**

### **HADLEY, MA – Longview Farm**

### **DEERFIELD, MA – Bar-Way Farm**

### **Post Upgrades**

- 800kW
- Processes approx.
  - 75 TPD both solid & liquid organics
  - 25 TPD of manure
- 3 receiving tanks for recipe management & dosing
- Improved SCADA system controls and metering
- Heat loop to home and houses in development

### **Post Upgrades**

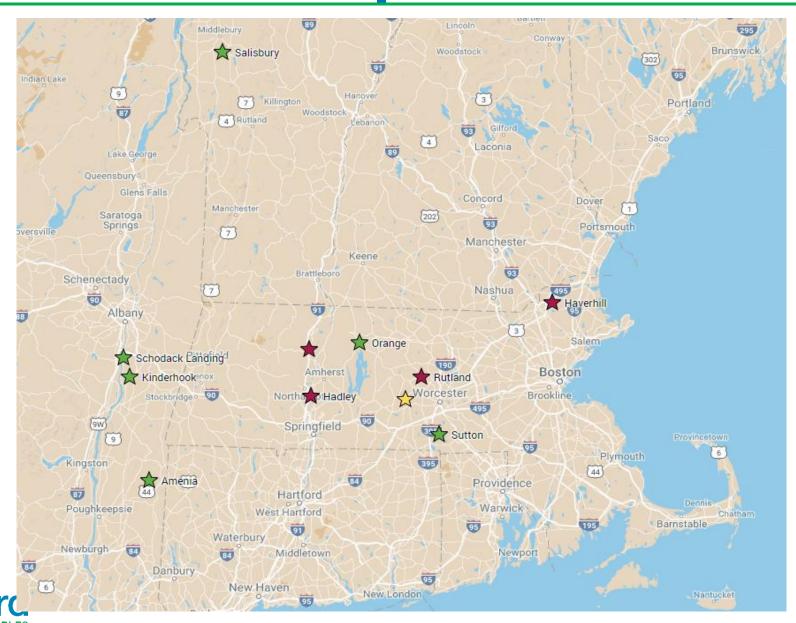

- 800kW
- Processes approx.
  - 75 TPD both solid & liquid organics
  - 25 TPD of manure
- 4 receiving tanks for recipe management & dosing
- Improved SCADA system controls and metering
- Includes heat loop to home and barns

### **Completed 2016**

- 1MW
- Processes approx.
  - 100 TPD both solid & liquid organics
  - 25 TPD of manure
- 1 receiving tank (hydrolyzer)
- Solid separation equipment for bedding
- Improved SCADA system controls and metering
- Heat loop in development for greenhouse operation

# **Northeast Site Map**

# RNG Offtake – Transportation Fuel Markets

Location	Capacity (TPD)	Opening Date
Haverhill	120 tons	October, 2018
Rutland	75 tons	2012
Hadley	75 tons	2013
Deerfield	120 tons	2017
Spencer	<u>120 tons</u>	March, 2019
Totals	510 tons per day	

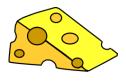

### Yes!

# Could it go down a garbage disposal?

Fruits & vegetables

Meat

Dairy

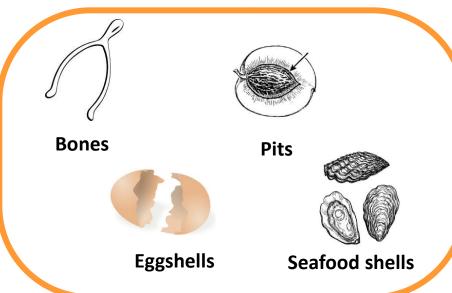

Oil (from food)

Green Energy: From Table to Farm

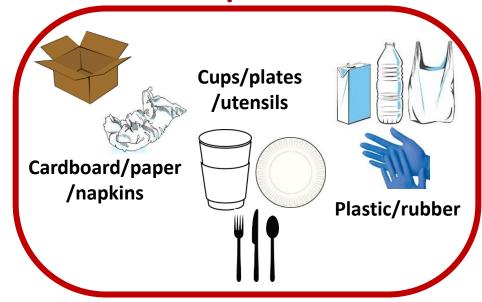

### Less than 1%

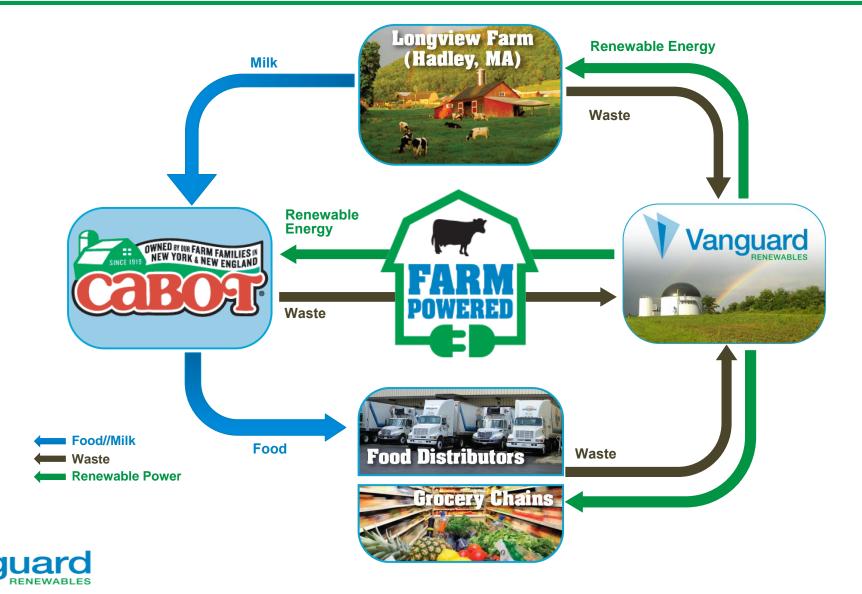

# Not acceptable

# Organics to Energy "Closed Loop" Lifecycle

# **Multiple Community Benefits**

# **Sustainability**

- Food Waste Diversion Programs increase landfill life and reduce Methane greenhouse emissions
- Remove the farmers dependence on synthetic fertilizers
- Colocation and heating loops improve local energy consumption

## **Farm Benefits**

- Farm's are tied back to the contributors of food waste
- Odor is reduced by 85% or more
- New bedding source is free and better for animal comfort

# **Community**

- Farms are sustained, new Greenhouses and other agricultural uses encouraged
- Increased number of jobs by spurring new industry
- Independent power supply enhances grid stability
