

## Appendix D

### Sample worksheet for your plan

1. Create an emergency (no electricity, disease, etc.)
2. List your farms critical operations on a worksheet
3. Have a brief discussion about how the farm would respond.
4. List your actions for that response.

Remember it is important to document your plan; consider what would happen in an event where the farm operators are unavailable to respond and others (Police, Fire, MSPCA, etc) would be responsible for making critical decisions.

Type of Emergency: \_\_\_\_\_

CRITICAL OPERATIONS	RESPONSE	WHERE DO YOU GO FOR HELP

Repeat the exercise with another type of emergency.
