Hi Lynn,

In anticipation of our call this afternoon, please find attached some updated ED data from BMC. Please note the following regarding this data:

1. The third column was previously labeled "Total number of patients identified in ED with a M/S diagnosis." In speaking with BMC, they clarified that this column actually captures "Total number of visits identified in ED with a M/S diagnosis (all patients)." By all patients, we mean admits and non-admits.
2. The fourth column is a new column and captures the total number of visits identified in the ED with a M/S diagnosis (admits only).
3. The fifth column is carried over from the original table.
4. The sixth column is a new column and captures the median time (in minutes) from the decision to admit to admission for admitted M/S ED patients.

You'll note that BH data is left off this chart. We'd like to discuss this with you on our call. We look forward to speaking with you shortly.

Thanks,
Amanda

Month	Number of ED visits by month	Total number of visits identified in ED with a M/S diagnosis (all patients)	Total number of visits identified in ED with a M/S diagnosis (admits only)	Median time (in minutes) from ED arrival to ED departure for admitted M/S ED patients	Median time (in minutes) from decision to admit to admission for admitted M/S ED patients
