SUPPLY INFORMATION

Give a full and complete description of the source or sources from which water is obtained. State whether these sources are owned or leased by the Company. If they are leased, quote the terms of the leases. Give the date of the latest opinion of the Department of Public Health regarding each of these sources of supply.

Raw water withdrawn from the Taunton River under regulation by different Federal, State and Local Agencies.

Water is delivered and pressure maintained by gravity feed from distribution reservoirs. Three electronic-driven pump stations pump directly into the distribution systems. Electronic-driven booster pump station raises water to another distribution standpipe.

Pumping Information

1. Give a general description of the method employed for delivering the water to the consumers, stating whether gravity is utilized or not; whether the Company owns a pumping station or not; and giving all other pertinent information.

A 16 mile long 20" Ductile Iron Transmission Pipeline is used to carry the water from the Plant to the Customer (City of Brockton).

The water is pumped at the facility and no pressure boost is required along the way.
