RE: Notice of Data Privacy Incident

Dear <<MemberFirstName>> <<MemberLastName>>,

Valley Hope Association ("Valley Hope") is writing to make you aware of a recent incident that may affect the privacy of some of your personal information. While there is currently no evidence that your information has been misused, we are making you aware of the event, the steps we are taking in response, and steps you may take to better protect against possible misuse of your personal information, should you feel it appropriate to do so.

What Happened? On Oct. 10, 2018, Valley Hope became aware of unusual activity relating to an employee's email account. We commenced an investigation, which included working with outside forensic specialists, to determine the full nature and scope of the incident. On Nov. 23, 2018, our investigation determined an unauthorized intruder(s) had logged into the employee email account between Oct. 9-10, 2018, resulting in a risk of unauthorized access to the email messages and file attachments stored in that email account. On Dec. 14, 2018, after a thorough review of the impacted email account's contents, the forensic investigators confirmed they potentially included sensitive personal information. Since that time, we have been working diligently to identify contact information for affected individuals and provide them notice.

What Information Was Involved? The patient information present in the impacted emails varied by individual, but the investigation determined that the following types of your information were present in the impacted email account: <<ClientDef1(VARIABLE TEXT FIELD)>><<ClientDef2(VARIABLE TEXT FIELD)>>. Valley Hope wants to stress that **no diagnosis or treatment information was exposed**.

While this information may have been viewed or acquired by the unauthorized intruder(s), we are not currently aware of any actual or attempted misuse of personal information relating to this incident.

What We Are Doing. Valley Hope takes the confidentiality, privacy, and security of information in its care very seriously. Aside from the investigation detailed above, we are taking steps to notify you of this event and provide you with information and access to resources you may use to better protect against potential misuse of personal information, should you feel it appropriate to do so. In addition, we have contacted federal law enforcement authorities.

Valley Hope has created a resource page at <https://valleyhope.org> to help answer further questions and provide guidelines for individuals to help protect themselves from identity theft and what they can do if they believe their personal information has been compromised.

While we have security measures in place to protect information in our care, we are also taking steps to implement additional safeguards and review policies and procedures to further protect the security of information on our systems.

As an added precaution, Valley Hope is providing you with access to 12 months of identity monitoring services from Kroll at no cost to you. You have the right to place a "security freeze" on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a security freeze on your credit report. Should you wish to place a security freeze, please contact the major consumer reporting agencies listed below:

In order to request a security freeze, you will need to provide the following information:

1. Your full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. If you have moved in the past five (5) years, provide the addresses where you have lived over the prior five years;

As an alternative to a security freeze, you have the right to place an initial or extended "fraud alert" on your file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer's credit file. Upon seeing a fraud alert display on a consumer's credit file, a business is required to take steps to verify the consumer's identity before extending new credit.
