You Can Take Additional Steps to Help Protect Yourself

Place a 90-day fraud alert on your credit file

An **initial 90-day fraud alert** tells anyone requesting your credit file that you might be at risk for fraud. A lender should verify that you have authorized any request to open a credit account in your name, increase the credit limit and/or get a new card on an existing account. If the lender can't verify this, they shouldn't process the request.

Contact any one of the credit reporting agencies to set up an initial 90-day fraud alert.

Place a security freeze on your credit file

A **security freeze** on your credit file prevents anyone from accessing your credit report and therefore from issuing credit in your name. **However, placing a security freeze also may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit, mortgages, employment, housing or other services.**

Contact all three of the credit reporting agencies above to set up a security freeze with each of them.

Order your free annual credit reports

Visit annualcreditreport.com or call 1-877-322-8228 to get a free copy of your credit reports. Once you receive them:

- Verify that all information is correct.
- Look for discrepancies such as accounts you didn't open or creditor inquiries you didn't authorize.
- Contact the credit reporting agency if you notice incorrect information or have questions.

Manage your personal information

- Carry only essential documents with you.
- Be cautious about sharing your personal information with anyone else.
- Shred receipts, statements, and other documents containing sensitive information.
- Use anti-virus software on your computer and keep it updated.

Use tools to monitor your credit and financial accounts

- We suggest that you carefully review your credit reports and bank, credit card and other account information on chase.com and in statements for any transaction you don't recognize.
- We can provide copies of past statements at no cost to you.
- Call us at 1-888-745-0091 to report unauthorized transactions.
- Work with us to close your account(s) and open new ones with new account numbers.
- Create alerts with your credit card company and bank to notify you of activity.
- File an identity-theft report with your local police and contact the credit reporting agency that issued the report if you find unauthorized or suspicious activity on your credit report.

Special Information for Massachusetts Residents

Massachusetts law also allows you to place a security freeze on your credit report. A security freeze prohibits a credit reporting agency from releasing any information about your credit report without your written authorization. **However, please be aware that placing a security freeze on your credit report may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit mortgages, employment, housing or other services.**

If you are the victim of identity theft, you also have the right to file a police report and obtain a copy. If you provide the credit reporting agency with a valid police report, the credit reporting agency cannot charge you to place, lift or remove a security freeze. In all other cases, a credit reporting agency may charge up to \$5 each to place, temporarily lift, or permanently remove a security freeze.

To place a security freeze on your credit report, you must mail a written request to each of these three major consumer reporting agencies:
