NOTICE OF DATA BREACH

What Happened?	On January 30, 2019, our checks service provider
	experienced a software error that caused customers' check
	orders to be shipped to incorrect addresses.
What We Are Doing.	Impacted customers that we've contacted were provided
3	with a merchandise return label and instructions so that we
	can retrieve and destroy the incorrectly shipped package.
	Additionally, depending on the customers' preferences, we
	either refunded the customers' orders or overnighted the
	affected customers a corrected order. To prevent any
	reoccurrence, we also implemented new software patches,
	policies, and enhanced procedures.
What You Can Do.	1. Review your bank, credit card, and debit card account
	statements over the next twelve to twenty-four months
	and immediately report any suspicious activity to your
	bank or credit union.
	2. Monitor your credit reports with the major credit
	reporting agencies.

- 4. If you do find suspicious activity on your credit reports or other account statements, call your local police or sheriff's office and **file a report of identity theft**. Get a copy of the police report. You may need to give copies of the police report to creditors to clear up your records, and you may also need to access some services that are free to identity theft victims.

If you find suspicious activity on your credit reports or on your other account statements, **consider placing a fraud alert** on your credit files so creditors will contact you before opening new accounts. Call any one of the three credit reporting agencies at the numbers below to place fraud alerts with all of the agencies.

Equifax 1-888-836-6351
