Dear <<FirstName>> <<MiddleName>> <<LastName>> <<NameSuffix>>,

At Aeroflow, we value the relationship we have with our customers and understand the importance of protecting their information. We are writing to inform you of an incident that may involve some of your information. This notice explains the incident, the measures we have taken in response, and some additional steps you may consider taking.

On March 20, 2019, we learned that certain payment cards that were used legitimately on our www.cheapcpasupplies.com website (the "Website") were subsequently used for fraudulent activity at other merchants. Since we learned of the incident, a leading cyber security firm was retained and investigated the incident. The investigation determined that unauthorized code copied and sent payment card information entered by purchasers on the Website to an unauthorized server. The code was injected into the checkout page by an unknown individual sometime after September 6, 2018 and was active until March 27, 2019. Because you made a purchase on the Website during that timeframe, it is possible that your information was involved. This information might have included your name, shipping and billing address, email address, telephone number, payment card number ending in <<ClientDef1>>, card expiration date, and card verification code (CVC) (if provided). In addition, the code did not copy and send information about the product you purchased.

We encourage you to closely review your payment card statements for any unauthorized charges. You should immediately report any such charges to the bank that issued your card. If reported timely, payment card network rules generally provide that cardholders are not responsible for unauthorized charges. Information on additional steps you can take can be found on the following pages.

We regret that this incident occurred and apologize for any inconvenience. We are taking aggressive steps to address website security and enhance our system monitoring to help reduce risk to our environment. If you have any questions about this matter, please call <<1-???-???-????>>, Monday to Friday, from 9:00 a.m. to 6:30 p.m., Eastern Time.

Sincerely,

Casey Hite
CEO

If you are a resident of Massachusetts or Rhode Island, note that pursuant to Massachusetts or Rhode Island law, you have the right to file and obtain a copy of a police report. You also have the right to request a security freeze.

If you are a resident of West Virginia, you have the right to ask that nationwide consumer reporting agencies place "fraud alerts" in your file to let potential creditors and others know that you may be a victim of identity theft, as described below. You also have a right to place a security freeze on your credit report, as described below.

Fraud Alerts: There are two types of fraud alerts you can place on your credit report to put your creditors on notice that you may be a victim of fraud—an initial alert and an extended alert. You may ask that an initial fraud alert be placed on your credit report if you suspect you have been, or are about to be, a victim of identity theft. An initial fraud alert stays on your credit report for at least 1 year. You may have an extended alert placed on your credit report if you have already been a victim of identity theft with the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years. You can place a fraud alert on your credit report by contacting any of the three national credit reporting agencies.

Credit Freezes: You have the right to put a credit freeze, also known as a security freeze, on your credit file, free of charge, so that no new credit can be opened in your name without the use of a PIN that is issued to you when you initiate a freeze. A security freeze is designed to prevent potential credit grantors from accessing your credit report without your consent. If you place a security freeze, potential creditors and other third parties will not be able to get access to your credit report unless you temporarily lift the freeze. Therefore, using a security freeze may delay your ability to obtain credit.

There is no fee to place or lift a security freeze. Unlike a fraud alert, you must separately place a security freeze on your credit file at each credit reporting company. For information and instructions to place a security freeze, contact each of the

credit reporting agencies at the addresses below:

- **Experian Security Freeze**, PO Box 9554, Allen, TX 75013, www.experian.com
- **TransUnion Security Freeze**, PO Box 2000, Chester, PA 19016, www.transunion.com
- **Equifax Security Freeze**, PO Box 105788, Atlanta, GA 30348, www.equifax.com

To request a security freeze, you will need to provide the following information:

1. Your full name (including middle initial as well as Jr., Sr., II, III, etc.)
2. Social Security number
3. Date of birth
4. If you have moved in the past five years, provide the addresses where you have lived over the prior five years
5. Proof of current address such as a current utility bill or telephone bill
6. A legible photocopy of a government issued identification card (state driver's license or ID card, military identification, etc.)
7. If you are a victim of identity theft, include a copy of the police report, investigative report, or complaint to a law enforcement agency concerning identity theft

The credit reporting agencies have one business day after receiving your request by toll-free telephone or secure electronic means, or three business days after receiving your request by mail, to place a security freeze on your credit report. The credit bureaus must also send written confirmation to you within five business days and provide you with a unique personal identification number ("PIN") or password or both that can be used by you to authorize the removal or lifting of the security freeze.

To lift the security freeze in order to allow a specific entity or individual access to your credit report, or to lift a security freeze for a specified period of time, you must submit a request through a toll-free telephone number, a secure electronic means maintained by a credit reporting agency, or by sending a written request via regular, certified, or overnight mail to the credit reporting agencies and include proper identification (name, address, and Social Security number) and the PIN or password provided to you when you placed the security freeze as well as the identity of those entities or individuals you would like to receive your credit report or the specific period of time you want the credit report available. The credit reporting agencies have one business day after receiving your request by toll-free telephone or secure electronic means, or three business days after receiving your request by mail, to lift the security freeze for those identified entities or for the specified period of time.

To remove the security freeze, you must submit a request through a toll-free telephone number, a secure electronic means maintained by a credit reporting agency, or by sending a written request via regular, certified, or overnight mail to each of the three credit bureaus and include proper identification (name, address, and Social Security number) and the PIN number or password provided to you when you placed the security freeze. The credit bureaus have one business day after receiving your request by toll-free telephone or secure electronic means, or three business days after receiving your request by mail, to remove the security freeze.
