Important information regarding your Debit or ATM Card

At United Bank – now People's United Bank, our top priority is to make sure personal financial information is safe and secure. So when we identify a potential risk, our policy is to contact our customers immediately and work quickly to resolve it.

Therefore, we wanted to notify you that your United Bank branded debit or ATM card information may have been compromised. **Your account data is safe, as we know that no bank systems have been compromised.**

Nevertheless, we are proactively taking the immediate and precautionary steps necessary to protect you:

First, we are going to be issuing you a new United Bank card. That mailing will include instructions on how to activate your new card and create a new PIN#.

Second, your card is being deactivated immediately in order to prevent fraudulent transactions from occurring. If you have an urgent need to use your current card, you can contact us to temporarily activate the card.

Third, at the end of the business day on Thursday, November 14th, 2019, we will permanently deactivate your existing ATM/Debit Card for your protection. Please contact us if you have not received your new card by this date.

If you have any questions, please feel free to visit your nearest United Bank/Peoples United Bank branch or call our Customer Care Center at 1-866-959-2265.
