Attachment 1: Additional Information

You should be cautious about using email to provide sensitive personal information, whether sending it yourself or in response to email requests. You should also be cautious when opening attachments and clicking on links in emails. Scammers sometimes use fraudulent emails or other communications to deploy malicious software on your devices or to trick you into sharing valuable personal information, such as account numbers, Social Security numbers, or usernames and passwords. The Federal Trade Commission (FTC) has provided guidance at <https://www.consumer.ftc.gov/articles/0003-phishing>.

You should review your financial statements and accounts for signs of suspicious transactions and activities. If you find any indication of unauthorized accounts or transactions, you should report the possible threat to local law enforcement, your State's Attorney General's office, or the FTC. Under Massachusetts law, you have a right to obtain a police report. You will find contact information for some of those entities below. If you discover unauthorized charges, promptly inform the relevant payment card companies and financial institutions.

Fraud Alert Information

Whether or not you enroll in the credit monitoring product offered, we recommend that you consider placing a free "Fraud Alert" on your credit file. Fraud Alert messages notify potential credit grantors to verify your identification before extending credit in your name in case someone is using your information without your consent. A Fraud Alert can make it more difficult for someone to get credit in your name; however, please be aware that it also may delay your ability to obtain credit. Fraud alerts last one year. Identity theft victims can get an extended fraud alert for seven years.

Call only one of the following three nationwide credit reporting companies to place your Fraud Alert: TransUnion, Equifax, or Experian. As soon as the credit reporting company confirms your Fraud Alert, they will also forward your alert request to the other two nationwide credit reporting companies so you do not need to contact each of them separately. The contact information for the three nationwide credit reporting companies is:

Equifax	TransUnion	Experian
PO Box 740256	PO Box 2000	PO Box 9554
Atlanta, GA 30374	Chester, PA 19016	Allen, TX 75013

Free Credit Report Information

Under federal law, you are also entitled to one free credit report once every 12 months from each of the above three major nationwide credit reporting companies. Call 1-877-322-8228 or make a request online at www.annualcreditreport.com.

Even if you do not find any suspicious activity on your initial credit reports, we recommend that you check your account statements and credit reports periodically. You should remain vigilant for incidents of fraud and identity theft. Victim information sometimes is held for use or shared among a group of thieves at different times. Checking your credit reports periodically can help you spot problems and address them quickly.

If you find suspicious activity on your credit reports or have reason to believe your information is being misused, call your local law enforcement agency or state attorney general and file a police report. Get a copy of the report; many creditors want the information it contains to alleviate you of the fraudulent debts. You also should file a complaint with the FTC using the contact information below. Your complaint will be added to the FTC's Consumer Sentinel database, where it will be accessible to law enforcers for their investigations.

You may also contact the FTC at the contact information below to learn more about identity theft and the steps you can take to protect yourself.

A Credit Freeze can make it more difficult for someone to get credit in your name; however, please be aware that it also may delay your ability to obtain credit.
