Notice of Data Breach

Dear <<first_name>> <<middle_name>> <<last_name>> <<suffix>>,

The protection of your personal information is a priority for José R. Carrión Trustee CH 12 & 13 ("José R. Carrión Trustee"). We are writing to inform you of a security incident at a former third-party vendor which potentially involved personal information. We take this matter very seriously, and while there is no evidence of any attempt to access, exfiltrate, or misuse any personal information at this time, we are offering you the opportunity to enroll in a complementary identity protection service provided by Kroll.

What happened?

José R. Carrión Trustee recently became aware that a third-party vendor ("Vendor") that hosted an application used by debtors' attorneys to upload files related to a debtor's case (the "Application") experienced a cybersecurity incident (the "Incident"). Immediately upon discovering the Incident, José R. Carrión Trustee engaged a forensic consultant who determined that an unauthorized party potentially had access to the Application between April 1, 2020 and August 31, 2020. However, since the Application automatically deleted all documents uploaded to the system within a short period of time, such that there is little-to-no risk that any documents were accessed. Further, our forensic consultant's investigation determined that at this time there is no evidence of any attempt to access, exfiltrate, or misuse any personal information.

What information was involved?

The information potentially exposed during the Incident includes bankruptcy filing related information, such as Social Security number, tax information, and financial account numbers.

What we are doing.

José R. Carrión Trustee have since terminated Vendor's services and the Application. José R. Carrión Trustee notified law enforcement of the Incident and implemented additional security measures designed to prevent a recurrence of a similar incident in the future to protect the privacy of our valued bankruptcy customers. Further, our forensics consultant concluded that this Incident did not arise from a security incident of José R. Carrión Trustee's systems or network.
