Dear [Name],

We are sending this letter to you as part of Lynn Community Health Center's ("LCHC") commitment to data privacy and information security. We take data privacy and security very seriously, and it is important to us that you are notified of an incident potentially involving your personal information.

On November 25, 2020, we learned that an unauthorized individual gained access to the email account of one of our employees. The unauthorized access occurred as a result of a phishing scheme sent to the employee's email account. Phishing is when an outside party replicates an email from a trusted source and directs it to a third party prompting the third-party recipient to respond as a means to gain unauthorized access to the email account of the recipient.

Upon learning of the incident, LCHC promptly secured the impacted email account to prevent further access and immediately launched an investigation. In doing so, LCHC immediately engaged independent digital forensics experts to determine the scope and extent of the potential unauthorized access to LCHC's email system and to search for any personal information in the impacted account. We have reason to believe that the phishing effort is limited to no more than four individual email accounts and was effectively thwarted the same day.

Our investigation is ongoing, but we learned that the personal information of current and former patients, including the names and one or more of the following identifiers, was contained in the email account and, therefore, potentially accessible to the unauthorized individual: date of birth, mailing address, phone number, insurance information, medical record number, diagnoses and other clinical information, and for certain patients, Social Security number.

At this time, we have no indication that your personal information has been collected or misused. As the protection of your personal information is important to us, we are offering you a complimentary two-year membership of Experian's IdentityWorksSM. This service helps detect possible misuse of your personal information and provides you with identity protection services focused on immediate identification and resolution of identity theft. This service is completely free to you. Enrolling in this program will not impact your credit score.

For more information on identity theft prevention and Experian's IdentityWorksSM, including instructions on how to activate your complimentary two-year membership, please see the additional information provided in this letter.

LCHC is continuing to take steps to prevent a similar event from occurring in the future. These steps include implementing additional safeguards and security measures to heighten security of personal information, reinforcing existing information security procedures with employees, and revising information protocols.

Please know that the protection and security of your personal information is an utmost priority, and we sincerely regret any concern or inconvenience that this matter may cause you. For further assistance, please call 781-715-6226 and provide your contact information, and we will return the call as soon as possible during the week (Monday-Friday).

Sincerely,

[Name of LCHC Signatory]

Additional Important Information

As a precautionary measure, we recommend that you remain vigilant to protect against potential fraud and/or identity theft by, among other things, reviewing your account statements and monitoring credit reports closely. If you detect any suspicious activity on an account, you should promptly notify the financial institution or company with which the account is maintained. You should also promptly report any fraudulent activity or any suspected incidents of identity theft to proper law enforcement authorities, including the police and your state's attorney general, as well as the Federal Trade Commission ("FTC").

You may wish to review the tips provided by the FTC on fraud alerts, security/credit freezes and steps you can take to avoid identity theft. For more information and to contact the FTC, please visit www.ftc.gov/idtheft or call 1-877-ID-THEFT (1-877-438-4338). You may also contact the FTC at Federal Trade Commission, 600 Pennsylvania Avenue, NW, Washington, DC 20580.

Under Massachusetts law, you have the right to obtain any police report filed in regard to this incident. If you are the victim of identity theft, you also have the right to file a police report and obtain a copy of it. Massachusetts law also allows consumers to place a security freeze on their credit reports. A security freeze can be placed without any charge. A security freeze prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization. However, please be aware that placing a security freeze on your credit report may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit mortgages, employment, housing or other services. Under federal law, you cannot be charged to place, lift, or remove a security freeze.

To place a security freeze on your credit report, you must send a written request to each of the three major consumer reporting agencies by regular, certified or overnight mail at the addresses below or, if available, comply with the consumer reporting agencies' online security freeze request procedures:

The credit reporting agencies have one (1) to three (3) business days after receiving your request to place a security freeze on your credit report, based on the method of your request. The credit bureaus

must also send written confirmation to you within five (5) business days and provide you with a unique personal identification number (PIN) or password, or both that can be used by you to authorize the removal or lifting of the security freeze.

To lift the security freeze in order to allow a specific entity or individual access to your credit report, you must call or send a written request to the credit reporting agencies by mail or, if available, comply with the consumer reporting agencies' online procedures for lifting a security freeze, and include proper identification (name, address, and social security number) and the PIN number or password provided to you when you placed the security freeze as well as the identities of those entities or individuals you would like to receive your credit report or the specific period of time you want the credit report available. The credit reporting agencies have between one (1) hour (for requests made online) three (3) business days (for requests made by mail) after receiving your request to lift the security freeze for those identified entities or for the specified period of time.

To remove the security freeze, you must send a written request to each of the three credit bureaus by mail or, if available, comply with the consumer reporting agencies' online procedures for removing a security freeze, and include proper identification (name, address, and social security number) and the PIN number or password provided to you when you placed the security freeze.
