Additional Steps to Help Protect Yourself

Place a one year fraud alert on your credit file

An initial one year fraud alert indicates to anyone requesting your credit file that you suspect you are a victim of fraud. When you or someone else attempts to open a credit account in your name, increase the credit limit on an existing account, or obtain a new card on an existing account, the lender should take steps to verify that you have authorized the request. If the creditor cannot verify this, the request should not be satisfied. You may contact one of the credit reporting companies below for assistance.

Place a security freeze on your credit file

If you are very concerned about becoming a victim of fraud or identity theft, a security freeze might be right for you. Placing a security freeze on your credit report will prevent lenders and others from accessing your credit report, which will prevent them from extending credit. It may also delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit, mortgages, employment, housing or other services. With a security freeze in place, you will be required to take special steps when you wish to apply for any type of credit. This process is also completed through each of the three credit reporting companies.

Order your free annual credit reports

Visit www.annualcreditreport.com or call 1-877-322-8228. Once you receive your credit reports, review them for discrepancies. Identify any accounts you did not open or inquiries from creditors that you did not authorize. Verify all information is correct. If you have questions or notice incorrect information, contact the credit reporting company.

Manage your personal information

Take steps such as carrying only essential documents with you, being aware of whom you are sharing your personal information with and shredding receipts, statements and other sensitive information, as well as utilizing anti-virus software on your computer while keeping it updated.

Use tools to monitor your credit and financial accounts

Carefully review your credit reports and bank, credit card and other account statements. Be proactive and create alerts on credit cards and bank accounts to notify you of activity. If you discover unauthorized or suspicious activity on your credit report or by any other means, file an identity theft report with your local police and contact a credit reporting company.

Contact your J.P. Morgan team to report any unauthorized transactions. We can provide copies of past statements at no cost to you and will work with you to close your account(s) and open new ones, with new account numbers.
