Notice of Data Breach

Dear <<First_Name>> <<Last_Name>>,

We are writing to inform you about a security issue that affected your Spark Driver™ account and sincerely apologize for any inconvenience or concern this issue may cause you.

What happened?

In late January, we discovered that an unauthorized party was able to access your account through the Spark Driver™ profile. The driver profile is where you can access account information, including your earnings method and tax information. With access to the profile, the unauthorized party may have also viewed documents related to your driver verification, tax information, and background checks.

What information was involved?

The personal information that may have been accessed in your account by the unauthorized party includes your:

- Social Security Number
- Driver's License Number
- Date of Birth
- Name
- Contact Information (phone number, email address, mailing address)

What we are doing.

Upon learning of the issue, we launched an investigation and took steps to secure your account and prevent further unauthorized access. We also notified law enforcement of the matter.

We have taken the following remedial measures to protect your information and restore your account:

- We have reset your driver profile password.
- We have implemented an additional knowledge-check mechanism required to access sensitive information in driver profiles.

Additionally, to help relieve concerns and restore confidence following this incident, we have secured the services of Kroll to provide identity monitoring at no cost to you for two years. What you can do.

We recommend that you take the following precautions to protect your personal information and monitor your accounts for any suspicious activity:

- Review your account statements and credit reports for any unauthorized charges or inquiries. You can obtain a free copy of your credit report from each of the three major credit bureaus once a year by visiting annualcreditreport.com or calling 1-877-322-8228.
- The enclosed Additional Resources guide provides recommendations on the protection of personal information.
- Be wary of any phone calls, emails, or letters that claim to be from Walmart or other legitimate organizations that ask for your personal or financial information. Do not click on any links or attachments in such messages, as they may contain malware or phishing attempts. If you are unsure about the authenticity of a communication, contact the sender directly using a verified phone number or email address.
- In addition to changing the password to your driver profile, consider changing your credentials for other online accounts for which you use the same or a similar username or password, and review those accounts for suspicious activity.

For more information.

We value your trust and loyalty as a driver on the Spark Driver™ platform. If you have any questions, please call <<generated call center number>> Monday through Friday from 8:00 a.m. to 5:30 p.m. Central Time, excluding major U.S. holidays. Please have your membership number ready.

Sincerely,

Spark Driver™ Team

Fraud Alerts. There are two types of fraud alerts you can place on your credit report to put your creditors on notice that you may be a victim of fraud—an initial alert and an extended alert. You may ask that an initial fraud alert be placed on your credit report if you suspect you have been, or are about to be, a victim of identity theft. An initial fraud alert stays on your credit report for at least one year. You may have an extended alert placed on your credit report if you have already been a victim of identity theft and you have the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years. You can place a fraud alert on your credit report by contacting any of the three national credit reporting agencies.

Security Freeze. You have the ability to place a security freeze, also known as a credit freeze, on your credit report free of charge.

A security freeze is intended to prevent credit, loans and services from being approved in your name without your consent. To place a security freeze on your credit report, you may use an online process, an automated telephone line, or submit a written request to any of the three credit reporting agencies listed above. The following information must be included when requesting a security freeze (note that, if you are requesting a credit report for your spouse, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past 5 years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, and display your name, current mailing address, and the date of issue.

Federal Trade Commission and State Attorneys General Offices. If you believe you are the victim of identity theft or have reason to believe your personal information has been misused, you should immediately contact the Federal Trade Commission and/or the Attorney General's office in your home state.
