Reference Number: PRI-12526636

Dear

We take the security of your information seriously and want to let you know about an incident related to your personal and financial information.

Here's what happened and how it affects you

We recently learned that we mistakenly posted a transaction relating to your checking account ending in 0475 to another customer's account. The other customer may have viewed the image of the transaction, which included your name, address, account number, and the amount of the transaction.

Once the error was discovered, we removed the image and confirmed that your transaction has been corrected. We do not have any indication that your information has been used inappropriately.

We're here to help

Please accept our apology. We will work with you to minimize any impact. For more information on how you can protect yourself, please read the enclosed.

If you have questions, please call us anytime at 1-888-745-0091. We accept operator relay calls.

Sincerely,

You Can Take Additional Steps to Help Protect Yourself

Place a one-year fraud alert on your credit file

An **initial one-year fraud alert** tells anyone requesting your credit file that you might be at risk for fraud. A lender should verify that you have authorized any request to open a credit account in your name, increase the credit limit and/or get a new card on an existing account. If the lender can't verify this, they shouldn't process the request.

Contact any one of the credit reporting agencies to set up an initial one-year fraud alert.

Place a security freeze on your credit file

A **security freeze** on your credit file prevents anyone from accessing your credit report and therefore from issuing credit in your name. **However, placing a security freeze also may delay, interfere with or prevent the timely approval of any requests you make for new loans, credit, mortgages, employment, housing or other services.**

Contact all three of the credit reporting agencies above to set up a security freeze with each of them.
