Dear Valued Customer:

We are strongly committed to the security of our customers' information and strive to let you know about potential security concerns as soon as possible. A merchant where you used your Eastern Bank Debit MasterCard® ending in [XXXX] may have experienced a breach in security. Regrettably, we are unable to provide any additional details because they have not been provided to us.

In order to reduce the risk on your account, we are lowering the limits on your current card to \$500 and mailing you a new debit card. If you plan to make a purchase that would exceed the \$500 daily limit, please notify us in advance by calling 1-800-EASTERN (327-8376). When you activate your new card, your original limit will be reinstated and your personal identification number (PIN) will remain the same.

What you need to do:

1. Activate your new card upon its receipt and destroy your old card. To avoid disruption in service, you must activate your new card before [XX/XX/XX]; otherwise, your old card will automatically deactivate and can no longer be used.
2. If you have existing automatic payments, be sure to provide those billers with your new card information.
3. Monitor your account(s) closely and contact Eastern Bank immediately if you detect suspicious activity. Online and mobile banking can be used to monitor your account(s). You may enroll by visiting easternbank.com.

If you have any questions, please call us at 1-800-EASTERN (327-8376), Monday through Friday, 7:00 a.m. – 8:00 p.m., or 9:00 a.m. – 3:00 p.m. on Saturday.

Sincerely,

Thomas Mercuro
