Dear <<first_name>> <<middle_name>> <<last_name>> <<suffix>>,

OSF HealthCare is committed to protecting the security and privacy of our patient information. We are writing to notify you about an incident that may have involved some of your information as a patient at OSF Little Company of Mary Medical Center or OSF Saint Paul Medical Center. This notice explains the incident, measures we have taken in response, and additional steps you can take to protect your information.

On August 24, 2021, we determined that your information may have been involved in a security incident that disrupted the operations of some of our IT systems. The incident was first identified on April 23, 2021, and we immediately took steps to secure our systems, launched an investigation with the assistance of a third-party forensic investigator, and notified law enforcement. The investigation determined that an unauthorized party gained access to our systems from March 7 to April 23, 2021. As part of the incident, certain files were accessed relating to some of our patients of OSF Little Company of Mary and OSF Saint Paul. In order to determine what data was involved, we conducted a thorough review of those files. Our review determined those files may have included your name; contact information; date of birth; driver's license or state identification number; Social Security number; treatment and diagnosis information; physician names; dates of service; hospital units; and/or Medicare, Medicaid or other health insurance information.

Out of an abundance of caution, we are offering you a complimentary 24-month membership of Experian's® IdentityWorksSM. This product helps detect possible misuse of your information and provides you with identity protection support focused on immediate identification and resolution of identity theft. IdentityWorks is completely free, and enrolling in this program will not hurt your credit score. **For more information on IdentityWorks, including instructions on how to activate your complimentary membership, as well as some additional steps you can take in response to the incident, please see the pages that follow this letter.** We also recommend you review the statements you receive from your health care providers. We want to assure you that we take this incident very seriously and sincerely regret any concern this may cause. To help prevent something like this from happening again, we have implemented additional safeguards and technical security measures to further protect and monitor our systems.

Should you have questions, please contact 1-???-???-????, Monday through Friday, between 8:00 am and 5:30 pm Central Time, excluding major U.S. holidays.

Fraud Alerts and Credit or Security Freezes:

Fraud Alerts: There are two types of general fraud alerts you can place on your credit report to put your creditors on notice that you may be a victim of fraud—an initial alert and an extended alert. You may ask that an initial fraud alert be placed on your credit report if you suspect you have been, or are about to be, a victim of identity theft. An initial fraud alert stays on your credit report for one year. You may have an extended alert placed on your credit report if you have already been a victim of identity theft with the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years.

To place a fraud alert on your credit reports, contact one of the nationwide credit bureaus. A fraud alert is free. The credit bureau you contact must tell the other two, and all three will place an alert on their versions of your report.

For those in the military who want to protect their credit while deployed, an Active Duty Military Fraud Alert lasts for one year and can be renewed for the length of your deployment. The credit bureaus will also take you off their marketing lists for pre-screened credit card offers for two years, unless you ask them not to.

Credit or Security Freezes: You have the right to put a credit freeze, also known as a security freeze, on your credit file, free of charge, which makes it more difficult for identity thieves to open new accounts in your name. That's because most creditors need to see your credit report before they approve a new account. If they can't see your report, they may not extend the credit.

How do I place a freeze on my credit reports? There is no fee to place or lift a security freeze. Unlike a fraud alert, you must separately place a security freeze on your credit file at each credit reporting company. For information and instructions to place a security freeze, contact each of the credit reporting agencies at the addresses below:

- **Experian Security Freeze**, PO Box 9554, Allen, TX 75013, www.experian.com
- **TransUnion Security Freeze**, PO Box 2000, Chester, PA 19016, www.transunion.com
- **Equifax Security Freeze**, PO Box 105788, Atlanta, GA 30348, www.equifax.com

You'll need to supply your name, address, date of birth, Social Security number and other personal information.

After receiving your freeze request, each credit bureau will provide you with a unique PIN (personal identification number) or password. Keep the PIN or password in a safe place. You will need it if you choose to lift the freeze.

How do I lift a freeze? A freeze remains in place until you ask the credit bureau to temporarily lift it or remove it altogether. If the request is made online or by phone, a credit bureau must lift a freeze within one hour. If the request is made by mail, then the bureau must lift the freeze no later than three business days after getting your request.

If you opt for a temporary lift because you are applying for credit or a job, and you can find out which credit bureau the business will contact for your file, you can save some time by lifting the freeze only at that particular credit bureau. Otherwise, you need to make the request with all three credit bureaus.
