Dear XXXXXXXXXXXX,

We are writing to notify you of an incident that involves your protected health information. On May 4, 2022, Beth Israel Deaconess Medical Center (BIDMC) learned of an incident where an employee inadvertently emailed an attachment containing your information, to an unintended recipient. The email attachment included your name, address, and social security number. We have reached out to the recipient to apologize for the error and to provide us assurances the information has been permanently deleted and not misused in any way. To date, we have not received a response from the unintended recipient. As a result of this incident, the department responsible for this error has reviewed its processes and retrained relevant staff.

BIDMC takes this incident and the protection of your protected health information extremely seriously. We apologize for any inconvenience or concern this situation may cause you.

At present, we have no reason to believe that your protected health information was used for an unauthorized purpose. However, BIDMC believes that it is important for you to be fully informed of any potential risk resulting from this incident. That is why we are writing to you today. We are advising you to take a few basic steps as a precautionary measure to be extra attentive to signs of any possible misuse of your personal health information or identity.

- We recommend that you regularly review the “Explanation of Benefits” sent by your healthcare insurer. If you see any service that you believe you did not receive, please contact us at the telephone numbers listed below. You should also follow up with your healthcare insurer and healthcare provider.
- If you do not receive regular explanation of benefits statements, contact your provider or plan and request them to send such statements following the provision of services in your name or number.

- You may also want to order copies of your credit reports and check for any medical bills that you do not recognize. If you find anything suspicious, call the credit reporting agency at the telephone number on the report.
- You may also request a copy of your medical records from BIDMC to serve as a baseline. I am attaching BIDMC's Authorization for the Release of Protected Health Information that you may use for that purpose.
- Keep a copy of this notice for your records in case of future problems with your medical records.
- We are **attaching** a brief guide to identity theft, which includes useful resources as well as information on filing a report with the police, requesting a security freeze from the credit reporting agencies, and tips on monitoring your accounts and information for indications of identity theft.
