As a general practice, it is important to monitor your bank, investment, health care, and health insurance records and accounts to ensure there are no transactions or other activity that you did not initiate or authorize.
- Report any suspicious activity in your records to the appropriate service provider and to one of the national credit reporting companies listed below, and ask for a fraud alert or a security freeze on your credit report. A fraud alert is a consumer statement added to your credit report, which alerts creditors of possible fraudulent activity within your report as well

as requests that they contact you prior to establishing any accounts in your name. A security freeze prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization. Fraud alerts have to be renewed every 90 days, or they will expire if not renewed, so please remember to renew the fraud alerts every 90 days.
