### **NOTICE OF DATA BREACH**

Dear <<first\_name>> <<middle\_name>> <<last\_name>> <<suffix>>,

We are writing to you because Wolseley Canada Inc. o/a Safe Step Walk In Tub (“Safe Step”) recently identified a data security incident that may have disclosed some of your personal information. We are notifying you at this time to make you aware of this security incident, so you can remain vigilant.

#### **WHAT HAPPENED?**

On December 12, 2022, Safe Step’s cybersecurity systems triggered an alert. Upon investigating the alert, we determined that potential unauthorized intrusions into the email inbox of a single Safe Step employee (“Mailbox”) may have occurred. We then initiated a cybersecurity response and launched an investigation to determine the nature and scope of the incident. We also engaged a cybersecurity firm to assist in investigating the incident and identifying any potentially compromised information.

The investigation has determined that one or more unauthorized third parties obtained access to the Mailbox between approximately October 25, 2022 and December 12, 2022. We successfully terminated the unauthorized access on December 12, 2022, and have reported the incident to law enforcement.

#### **WHAT INFORMATION WAS INVOLVED?**

After completing our comprehensive investigation, analysis and review of the circumstances involved in the security incident, we have determined that the information and documents that were potentially exposed include the following types of personal information relating to you: <<b2b\_text\_2 (“name” and data elements)>>.

Specifically, we are working to identify vulnerabilities in our systems and implement appropriate remedial action. Additionally, we are accelerating our efforts to further harden our environment through various enhancements and other security measures, and will utilize the information revealed in the analysis of this incident to further strengthen the security of our network, systems and information. We will also cooperate fully with any law enforcement investigation into this incident.

#### **WHAT YOU CAN DO, AND FOR MORE INFORMATION**

As a best practice, we recommend you remain vigilant, including carefully reviewing account statements. Out of an abundance of caution, you may wish to change your username, password, and/or security questions relevant to information listed above as being potentially compromised.
