Re: Data Security Incident

Dear [REDACTED],

Bishop Gadsden Episcopal Retirement Community (“BG”) is writing to inform you of a recent data security incident that may have resulted in an unauthorized access of your sensitive personal information. While we are unaware of any fraudulent misuse of your personal information at this time, we are providing you with details about the incident, steps we are taking in response, and resources available to help you protect against the potential misuse of your information.

What Happened?

On February 23, 2023, Bishop Gadsden Episcopal Retirement Community (“BG”) was notified by their bank of a suspicious request for a wire transfer. BG immediately secured the bank portal and launched an internal investigation. BG informed the bank this was not an authorized request and stopped the request. No fraudulent loss occurred. BG also promptly engaged a third-party forensic investigation firm to determine the full nature and scope of the incident. The forensic investigation was completed on April 5, 2023. The investigation revealed that one BG business email account had been compromised which enabled a third-party to gain unauthorized access to BG’s online banking portal.

Based on the findings of the forensic investigation, BG began a review to identify individuals whose information might have been viewed in the online banking portal and/or compromised email account by the unauthorized third party. BG finalized the notice list on April 14, 2023.

What Information Was Involved?

While BG has no evidence that any individual’s sensitive personal information was misused as a result of this incident, BG is providing notice out of an abundance of caution and for purposes of full transparency. Based on the investigation, the following information related to you may have been subject to unauthorized access: [REDACTED]

[REDACTED] No social security numbers, driver’s license numbers, credit/debit card numbers, or routing numbers were impacted by this incident.

What We Are Doing

BG is committed to ensuring the security and privacy of all personal information in its control, and is taking steps to prevent a similar incident from occurring in the future. Upon discovery of the Incident, BG moved quickly to investigate and respond to the Incident, assess the security of its systems, and notify the potentially affected individuals. Specifically, BG changed credentials for administrators and financial personnel; revised the enforced Multi-Factor Authentication (“MFA”) policy to no longer permit MFA via text message; required more stringent and secure MFA policy via authenticator application; created a new banking portal; created new credentials for all individuals with access to the banking portal; enhanced the security measures, and took steps and will continue to take steps to mitigate the risk of future harm.

Steps You Can Take to Help Protect Your Information

Credit Reports: You may obtain a copy of your credit report, free of charge, whether or not you suspect any unauthorized activity on your account. You may obtain a free copy of your credit report from each of the three nationwide credit reporting agencies. To order your free credit report, please visit www.annualcreditreport.com, or call toll-free at 1-877-322-8228. You can also order your annual free credit report by mailing a completed Annual Credit Report Request Form (available at <https://www.consumer.ftc.gov/articles/0155-free-credit-reports>) to: Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA, 30348-5281.

Fraud Alerts: You can place fraud alerts with the three credit bureaus by phone or online. A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. As of September 21, 2018, initial fraud alerts last for one year. Victims of identity theft can also get an extended fraud alert for seven years.

Monitoring: You should always remain vigilant for incidents of fraud and identity theft by reviewing credit card account statements and by monitoring your credit report for suspicious or unusual activity.

Security Freeze: You have the right to place a security freeze on your credit report. A security freeze is intended to prevent credit, loans, and services from being approved in your name without your consent. To place a security freeze on your credit report, you need to make a request to each consumer reporting agency. You may make that request by certified mail, overnight mail, regular stamped mail, or by following the instructions found at the websites listed below. The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse or a minor under the age of 16, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, display your name and current mailing address, and the date of issue. As of September 21, 2018, it is free to place, lift, or remove a security freeze. You may also place a security freeze for children under the age of 16. You may obtain a free security freeze by contacting any one or more of the following national consumer reporting agencies:
