RE: IMPORTANT SECURITY NOTIFICATION. PLEASE READ THIS ENTIRE LETTER.

Dear [Original First Name] [Original Last Name]

We are contacting you regarding a data security incident that has occurred on May 30, 2023 at Vitality, which administers certain wellness programs offered to you by your employer-provided benefit plan. As a result, your personal information may have been potentially exposed to others. Please be assured that we have taken every step necessary to address the incident.

What happened

Vitality, and hundreds of global companies and state agencies use a third-party file transfer program called MOVEit to transfer data necessary to conduct business. MOVEit experienced a security vulnerability on May 30, 2023.

Vitality's internal security personnel identified this risk at approximately 11:30 a.m. Central Standard Time on June 1. Within minutes of becoming aware of the vulnerability, Vitality disconnected the MOVEit software server. This prevented all public access to the server and removed the known exploitable risk.

After reviewing the incident, Vitality identified a two-hour span in which the vulnerability allowed the unauthorized third party to access the server that utilizes the MOVEit software. Vitality took immediate action and temporarily disabled access to MOVEit to protect our members' data privacy and began forensic investigations to evaluate any impact.

What information was involved

The information at risk could have included your name, gender, date of birth, social security number and non-sensitive health information. For purposes of clarity, the information potentially at risk did not include home address, diagnosis, financial or account information.

What we are doing

Vitality is partnering with Experian to offer two years of credit monitoring to affected members with compromised PHI. Also, as access to MOVEit is re-opened, we have implemented additional layers of security to protect against further unauthorized access, such as allowing only trusted IP addresses to have access to your employer's Vitality/MOVEit account, implementing password resets, and applying available patches.

What you can do

While we have received no reports or indication of such activity, the risks related to unauthorized use of personal information may include identity theft, financial fraud, and tax fraud. Please be vigilant about monitoring your personally identifiable information, in particular your credit report information and financial accounts, to protect against fraudulent activity. Please also take care and attention when submitting tax returns to protect against possible fraudulent submissions made on your behalf.

To assist you in this effort, we have provided complimentary credit monitoring and identity theft prevention services through Experian. If you are concerned about identity theft, please sign up for the complimentary monitoring and protection services by following the instructions enclosed or provided below from Experian. The deadline to sign up for this complimentary monitoring and protection service is October 31, 2023.

Other important information

You can also place an identity theft/fraud alert, get credit freeze information for your state, or order a free credit if you are concerned about identity theft. Please visit vitalitygroup.com/IDProtection for details. Lastly, under federal law, you may request a free copy of your credit report once every 12 months from the three major consumer credit reporting companies (Equifax, Experian, and TransUnion). You can request a free credit report by visiting www.annualcreditreport.com or by calling (877) 322-8228.

For More Information

Again, we sincerely regret that this incident has occurred. If you have any questions, please contact us at 833-901-4630.
